Why the Kaiser and the Frazer Give You Unequalled Motor Car Value!

Kaiser-Frazer Corporation builds four, 100% postwar automobiles - the Kaiser, the Frazer, the Frazer Manhattan, and the Kaiser Custom. Each in its price class gives you the greatest value you can get for your money. This you can easily and quickly prove.

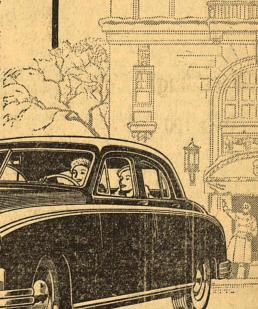

The value of a motor car, as any automobile dealer will tell you, is based on four primary points: Appearance, Performance, Reputation, Year Built. Appearance—Is it modern? How up-to-date will its lines be a year or two from now? Kaiser-Frazer auto-

the rest of the industry is already beginning to follow. Performance—means more than just plenty of power! It includes economy, roadability, roominess, comfort, and safety on all types of roads. Kaiser-Frazer cars, with 100% postwar chassis, are famous for the

ratio; for safety that comes with a lower center of gravity; for roominess that is the result of both seats 2 inches more than 5 feet wide; and above all, for

their ride - the result of a new distribution of load. Reputation - In less than 2 years the Kaiser and the Frazer have established a world-wide reputation both for design and quality. Today, more than 125,000 owners can testify that these cars stand up, give extraordinary, trouble-free service under every condition of climate and usage.

Year Built - Any new car you buy this year was built this year. But remember that some cars built this year were designed six years ago! When really new models of these cars come out, they are likely to be very different from the 1941-1947 design! Value for your today's transportation dollars should not be depreciated by your car's own manufacturer! Kaiser-? Frazer cars need no changes to bring them up-to-date! ?:

Split In The Housing Lobby

The National Association of Real Estate Boards has decided to disown its two-year-old baby, the National Home and Property Owners' Foundation. The result is o split the housing lobby wide open on the eve of the ongressional battle to extend rent controls beyond next ebruary 29, as requested in President Truman's antinflation program. Whether or not the foundation can survive at all without NAREB support is now an open

The bust-up is interesting, because it reveals how these lobbying "front organizations" get founded, who

outs up the money and what for. In July, 1945, Herbert U. Nelson, executive vice president and chief Washington spokesman for the realtors, nad the bright idea of trying to organize a home owners' protective association. Nobody had ever done it successully before, even on a state or local city scale.

But here was a group of over 20,000,000 solid Amerian citizens who owned or were buying their own homes. f they could be organized and stirred up about the dangers confronting them in government bureaucracy, socialized housing and such communistic stuff, they might exercise a powerful influence on Congress.

Nelson sold the idea to his high command and they decided to put some money into it. To head it up, they selected Arthur W. Binns of Philadelphia.

They started a house organ, "The Property Owner," and they put out a dope sheet, "Washington News Letter," o give their members the real inside of what was going on. Binns tried to stir up the common folks against the specter of government housing. Local real estate boards were irged to form chapters of the Home and Property Owners' Foundation. Dues were put at \$2 a year per home owner, with sustaining memberships from realtors at \$50 and \$100. Field secretaries were sent out to recruit members at so much a head. This year the foundation claims 162 chapters and 62,000 members.

To make the thing look independent and prosperous, headquarters were moved out of the NAREB offices. At one time there were about 40 people employed. Dr. Joseph W. Seay, an ex-college president, became director last February at a salary reported to be \$12,000 a year. J. E. Mack, the legislative representative and the only egistered lobbyist, reported a \$5,000 a year salary. Binns, Velson and others worked for free, plus expenses. During he first nine months of 1947, the foundation reported to Congress it spent \$106,000, making it the eighth biggest

spender among the Washington lobbies.

The Realtors' Washington Committee of NAREB pent an additional \$54,000. Both fought against the Taft-Wagner-Ellender housing bill, public housing and rent control. Spokesmen appeared before congressional committees whenever they could.

In August, a federal grand jury charged the Realtors' Washington Committee with conspiring to fix real estate commissions in the District of Columbia. The Department of Justice slapped an anti-trust suit against them. NAREB promptly replied with a charge that this was a reprisal for the fight against housing controls.

All this hullabaloo was in the background when the National Association of Real Estate Boards met mid-November at San Francisco. Binns made an impassioned the Masonic Temple Association of speech for more support to the Home and Property Owners' Foundation, and got a lot of applause from the several thousand delegates on the floor. But when the directors of NAREB met in executive session next day, they decided they had had enough.

Herb Nelson kept pushing for affiliation of the foundation with the parent association, to give the infant organzation fuller financial support. Nelson even offered to work for the foundation for a dollar a year. But his diectors told him that if he worked for the foundation at all, he would have to stop working for NAREB.

At the present, there are only seven people in the undation headquarters. A California field secretary is ng for unpaid expenses and commissions he claims due

Dr. Seay denies that the organization is broke or is ig to fold. Dues are being raised to \$5 a year, but the t won't know for another month how many members ll have next year or how much money it will have to rent controls.

'Cowboy' Comes

To No Good End

A gift by Midland citizens of 43 fine Hereford calves to the Methodist Home at Waco is lauded in an illustrated story in a recent issue of The Sunshine Monthly, official publication of the institution.

"Midland Sends Calves" is the title of the story, which said this is not the first time "that these big hearted West Texans have given the home fine cattle, and the children are grateful for such an outstanding and generous gift." Bill Wyche, George Glass and Bill Moore, who delivered the calves to Waco, are pictured. Another pic ture shows the calves being un-loaded at the Home Ranch. No. 13 in a series of articles published in the public interest to explain and illustrate the practice of Chiropractic.

WHAT IS CHIROPRACTIC?

The Chiropractor teaches that the brain and nervous system are the root of health. From the brain, nerve energy is distributed through the nervous system to all parts of the body. When this nerve energy is shut off even slightly between brain and the spine) one or more body functions are interfered with and ill health results. By X-ray, entirely and there has been no analysis and spinal adjustment the Chiropractor is able to relieve nerve interference and reture is the healer.

Suffered severe headaches and, in her own words, "wanted to be in a dark room and left alone." A variety of treatments had failed to help her. Finally, she turned to Chiropractic. Hunters Get Fines, Trespassing Charges During Warden's Visit

Thirteen men were fined a total of \$1,600 in justice court at Andrews Saturday and Sunday on charges of violating game laws, Game Warden F. M. Stovall of La-

mesa reported. The men were found hunting quail in the county, Stovall said. Andrews County has no open sea-

son on quail this year.

In Midland County, a man was found hunting Saturday night with a headlight on the Roy Parks ranch, Stovall reported. He said trespassing charges would be filed in justice court here. Another man found hunting without permission on the Foy Proctor ranch Sunday, will also be charged with trespassing, it was reported.

Russia-

(Continued From Page 1) exchanged at the even rate of one for one. Also, the government promises rationing will be abolished on all food and industrial goods

When so-called "panic buying" began, some folk hastily decided Russian economy was collapsing. However, close observers declined to adopt this thesis. U. S. Undersecretary of State Robert A. Lovett said the situation didn't indicate a breakdown of Soviet economy, and that it would be a mistake to attach too much importance to the Russian buying spree. inflation No Proof

The fact that there is inflation in the Soviet Union now now obviously doesn't prove the Communist system of economy can't be made to work, any more than inflation in the United States proves an economy based on private enterprise is wrong

So far as the economy of Communism is concerned, only time will demonstrate exactly what effect it will have on Russia and the coun- Youth Injured When tries Moscow has brought under Red domination. A totalitarian government can make any sort of economy-no matter how extreme -work for a time. We saw Mussolini do it: we saw Hitler do it, and we have seen the Muscovites do it. Few things are beyond a police state which has the power of life and death over its subjects.

Atomic Smasher Gets Atomic Magnet Scouts Entertain At

Workmen assemble the 2300-ton magnet for the world's most powerful cyclotron at Columbia University's new nuclear physics research center at Irvington, N. Y. The magnet, which contains more steel than a destroyer, will enable the cyclotron to smash even heavy atoms into 10 to 50 parts with new high energies of 400 million electron volts. The giant magnet is expected to start operating next summer.

Kiwanis Meeting With Merit Badge Tests

Jim Morrison, who has charge of a Boy Scout troop sponsored by the Kiwanis Club, brought members of the troop to the Kiwanis meeting Monday noon in the Scharbauer Hotel, and conducted a board of review to show Kiwanians how Scouts are examined for merit badge awards.

The boys questioned Dr. Doyle Patton and found him qualified to receive a merit badge in first aid; Bill Davis answered questions about automobiles well enough to pass an examination for the automobile merit badge, and Dr. H. A. Ireland passed an examination on the subject of fire.

Kiwanian Riley Parr, speaking for the Public Health Committee of the JayCees, of which he also is a member, asked the organization to co-operate in a program to develop adequate and up-to-date list of Midlanders available as blood

Railway Company survey No. 163. E. B. Drilling Company of Abilene has the contract to drill the exploration, using rotary.

The new prospector will be 797 feet north and 137 feet east of Pan American No. 1 Hugh Campbell, which tested in the Ellenburger at 4,335-54 feet, and at 4,380-4,400 feet, through casing perforations, after acid. That zone pumped about 200 barrels of oil and apparently the petroleum in that section was exhausted.

Operator then plugged back to 3,671 feet, and perforated the casing at 3,536-47 feet, opposite a zone in the Morris sand which showed some clean oil and a slight amount of water in a drillstem test. Oil yielding ability of that formation will be tested as soon as water from up the hole can be squeezed off.
