## Kitty's Korner

By  
Kitty Montgomery

Well, it's two o'clock in the morning and I am finally getting around to taking a shot at this column. I am afraid it's time for me to remind all you good folks of the deadline again, it's Tuesday noon. Now the deadline is when we are supposed to stop taking ads and news items for that week's paper and get started putting it all together. That's why I'm writing this bit of trivia at 2 o'clock in the morning. Everyone came in with everything after the deadline, and believe me, I'm dead.

I'm trying to be really calm and explain the reason for the deadline. You see, we only have a staff of three on Tuesday with Tom filling in as photographer. Bekie Diaz spends all day Monday and most of Tuesday laying out ads and setting headlines. Willa Perry spends both days setting type (that is, that type that got in before the deadline) and attending to the front office. I am supposed to spend both days writing news and gathering it, or I believe it's gathering news and writing it. At noon Tuesday, I am supposed to go back to the make-up table and begin putting the paper together, cutting galleys, waxing and pasting up. Before I make up the front page I am supposed to write this column. However, it didn't work out that way this past Tuesday. At five o'clock I was still sitting at this machine getting out copy. Since I have to get the copy to Willa in order to have the type set, she was sitting at her machine too, at five o'clock, Bekie was making ad changes at 5 o'clock.

I hope this sort of explains why we feel it is necessary to adhere to the deadline and why things get almost unbearable around here when we are swamped after the deadline. I'm sure I've earned my reputation "that grouchy old newspaper lady" after noon on Tuesday. So please, let's have a drive to "Improve Kitty's Disposition" and get things in before noon Tuesday. Now, the deadline doesn't mean that you can't bring things in before that time. No indeed! We begin accepting news and ads on Wednesday (as soon as we get the paper out) for the next week's paper. This is the only job I know that you get something finished and immediately begin tearing it up and doing it again. We are happy to write ads and stories all day Thursday and Friday for next week's paper. We like to work, but believe me, push comes to shove when it comes to Tuesday afternoon and night.

I make this explanation because of an "aside" I overheard Tuesday afternoon. Bill Thornton was in the office with his son, David. David was telling me that when he got his C. B. his handle was going to be "Cukoo Boy". I can never resist handsome boys between the ages of 2 and 5, so I was giving him a minute of my time and told him my handle was "Pussy Cat." I had no more than gotten it out of my mouth when I heard "It should be wildcat on Tuesday." This came from behind Bill's hand as he bent over his ad on the make up table. And I didn't think he had a sense of humor. Well, you never know.

LION CAPTAINS CHOSEN TUESDAY - Captains for the Ozona Lions were chosen at morning workout by vote of the team. Captains are, l. to r., Vaden Aldridge, Mike Fay, Clyde Bailey, Gary Warren, and Orlando

DeHoyos. Behind the boys are the coaches, Rip Sewell, Jim Williams and Tommy Wilson. Other team members look on in background. Workouts began Monday morning and will continue two a day until August 20.

## Ozona Youths Top Winners In Ozona's Annual Jr. Rodeo

The 1976 edition of the Ozona Junior Rodeo was counted a huge success as Ozona youngsters gleaned the lion's share of the winnings and taking best all around in two of the three age divisions. The 2-day event is sponsored annually by the Ozona Lions Club. Ozonan David Bean swept the field and won best all around in the 19-19 age division, and Ozonan Lori Clayton out-performed all others to win the best all around buckle for the 13-15 age group. Best all around in the 12 and under group was won by Rebecca Powers of Sonora. Ten of the 22 first place buckles went to Ozona cosboys and cowgirls, Sonora and Big Lake gleaned three each. Riders from San Antonio took two trophy buckles and participants from Midland, Comstock, San Angelo and Iraan won one buckle each.

Bean, on his way to all around, won first in steer roping and ribbon roping and was a close second in the calf tie down. Coming in third was another Ozona cowboy, Max Schroeder. Besides winning the all around trophy, Bean also won the Charles E. Davidson scholarship.

Under arena director Tony Allen, assisted by R. J. Everett, Jr. and many Roping and Lions Club members, the shows were run off smoother and faster than in many years. Large crowds each night saw 132 young people perform and still made it to a great dance at 10:30 each night without missing a run or a ride.

Saturday night Becky Everett was crowned rodeo queen to reign for the coming year. Other rodeo princesses were Helen Bunger, Karen Kirby, Janice Janes, and Lucy Perner. The queen was selected by a panel of judges and crowned by reigning queen Dawn Burns. The crowd got an unexpected, but pleasant treat when many of the former Ozona Rodeo Queens rode into the arena for the crowning ceremony. Six of the 13 past queens were introduced. They were Judy Black Childress of 1961, Jan Pridemore Kenley of 1962, Shelly Jones Conner of 1969, Debra Clayton of 1972, Sally Bailey of 1973 and Deldyn Cain of 1974.

Other Ozonans winning trophies in the various events were Will M. Black, calf tie down in boys 13-15 group; Max Schroeder, goat tying 16-19 age group; Karen Kirby flag race, girls 16-19; Deldyn Cain, barrel race, 16-19 age group.

Complete results were as follows:  
Bull riding, 13-15, first, Mark Fort of Midland; second, Rick Bar of San Angelo; third, David Hanson of Midland.  
Bull riding 16-19, first, Jerry Walker of San Antonio; second Mickey Davidson of Iraan.

Poles, girls 12 and under, first, Amy Whitehead of Comstock; second Lisa Green of San Angelo; and third, Shelly Miller of Ozona.

Poles, boys 12 and under, first, Cody Everett of Big Lake, second, Houston Powers of Sonora and third, Rick Powers of Sonora.

Poles, Girls 13-15, first, Vicki Tucker of Big Lake; second, Jamie Condra of Sonora; third, Melinda Holdt, of Ozona.

Poles, girls 16-19, first, Jodie Armstrong of Big Lake; second, Karen Kirby of Ozona; third, Lynn Maness, Ozona.

Calf Tie Down, boys 13-15, first, Will M. Black of Ozona; second,

Mitchell McMullan of San Antonio; third, Ben Ingham of Sonora.

Calf tie down, boys 16-19, first, Andy Smith, San Angelo; second, David Bean, Ozona; third, Max Schroeder, Ozona.

Ribbon roping 16-19, first, David Bean, Ozona; second, Jim Alsop, Rankin; third, Kirby Shipp of Rankin.

Steer roping, 16-19, first, David Bean, Ozona; second, Andy Smith, San Angelo; third, Jim Alsop, Rankin.

Steer Roping 13-19, first, Ben Ingham, Sonora; second, Les Hale, Ozona; third, Ty Springer, Snyder.

Hair Pulling boys 13-15, first, Mitchell McMullan, San Antonio; second, Sammy Hodges, Eunice, N.M. third, Louis Bunger, Ozona.

Breakaway roping, boys 12 and under, first, Rod Miller, Ozona; second, Cody Everett, Big Lake; third, Dan Bean, Ozona.

Goat tying 13-15, first, Gay Burns, Ozona, Ozona; Sue Ellen Black, Ozona; third, Clay Whitehead, Comstock.

Goat Tying 16-19, first, Max Schroeder, Ozona;

## Action Taken On Leaking Roof -

## Commissioners & Contractor Spend Day At Care Center

The Crockett County Commissioners Court met Monday in regular monthly session, and spent most of its time with care center contractor J. D. Burk tracing leaks in the roof at the center.

Before the recess to meet with Burk, tax reports were signed and monthly reports given. Also Bill Bieber, San Angelo contractor who was awarded the bid for painting the trim on the courthouse, met with the court to discuss specifications and sign the contract.

Lieber was instructed that in addition to painting do all necessary repair of plaster and in particular plug up all the holes where pigeons are entering the courthouse attic.

The pigeons continue to be a problem and may be heard flapping about above the ceiling in the courtroom.

Odessa attorney Lucius Bunton was engaged to file answers for Crockett County and all individuals named in a suit filed by

four Mexican American voters asking that the Democratic Primary results be set aside. The attorney was also engaged for Democratic Chairman John R. Hunnicutt. The suit was filed in District Court in San Angelo July 27 on behalf of Robert Flores, Hector DeHoyos, Jesse Fierro, and Armando Reina. The suit, filed by Luis M. Segura, San Antonio attorney, names Crockett County, Judge Troy Williams, Commissioners Jesse C. Marley, Bill Black, Jack Williams, and Jesus Castro; County Clerk, Leta Powell, Sheriff Billy Mills and Democratic Party Chairman John Hunnicutt, individually and in their official capacity. The suit seeks to set aside the Democratic Primary and resulting run-off, and asks that the Court set a schedule to hold new primary elections. It also asks that the November general election not be held for the posts of county commissioners in Precincts 1 and 3. The suit claims that

the election or the primaries were not legal because precinct lines were changed two years ago and according to the suit "found by the United States Attorney General to be objectionable July 7, 1976."

Judge Halbert O. Woodward, U.S. District Court Judge, has advised that the court will give notice of hearing as soon as practicable after the receipt of answers by the defendants.

The court recessed at 10:30 to meet with Burk at the care center. The balance of the day was spent with the contractor locating the leaks. The roof was flooded, panels of the ceiling were removed and all leaks traced to the point of origin. The process was time consuming, but late in the afternoon, it was reported that all leaks had been located and repair work would begin immediately.

The court reconvened briefly in the auditor's office to discuss final appropriations for the annual budget. The budget was tentatively approved pending an official hearing which will take place at the court meeting next month. At press time the actual tax rate figures were not available. We are aware that county taxes have been raised and expect to have exact figures possibly next week.

Also during this period, Dick Kirby was authorized by the court to transfer another \$28,100 from revenue sharing funds to the hospital fund, this amount to be used for nurses' salaries. Kirby was also authorized to re-invest surplus funds from Certificates of Deposit due August 12, in new C.D.'s.

## Cheerleaders Attend School

Ozona High School cheerleaders are attending cheerleading school in San Marcos this week.

Girls attending are Susie Vargas, Jeannine Perry, Della DeHoyos, Karen Bebee, Debra Galvan and Kathy Sewell.

## Ramirez Services Friday

Funeral services for Jesus L. Ramirez, 52, were held at 4 p.m. Friday afternoon in Our Lady of Perpetual Help Catholic Church with burial in Lima Cemetery.

Mr. Ramirez died Wednesday in the Veterans Hospital in Big Spring after a short illness.

He was born in Ozona, January 5, 1924. He was an employee of Blue Construction Co.

Survivors include his wife, Eudelia; three sons, Jesus Ramirez, Jr., Braulio Ramirez and Carlos Ramirez, all of Ozona; one daughter, Mrs. Maria DeHoyos of Ozona; two brothers, Al Ramirez of Ozona and Johnny Ramirez of San Angelo; two sisters Mrs. Nikky Rico of Ohio and Mrs. Minerva Limbaugh of Childress, Ala., and his mother, Mrs. Felicitia Ramirez of Ozona, and six grand-children.

## 4-H Open Play Day Is Saturday

The 4-H Horse Club will sponsor an open play day Saturday, August 14, 1976 beginning at 10:00 a.m. Books will close at 9:00 a.m. and there will be a \$3.00 charge for each event.

All youth between the ages of 9 - 19 are eligible to participate in the show. Trophy buckles will be presented to the winners in each age group in each event.

There will be a barbecue lunch at noon—\$2.00 plate for adults and \$1.00 for children 10 and under.

The play day will include the following events:

Barrel race 12 to 19, ribbon roping 13 to 19, tie down calf roping 13-19, goat tie down, 13 to 19, steer roping 9-19 and flag race, all ages.

All events are open to boys and girls except goat tie down and there are no limit on number of events each child can enter. J. C. Schroeder, R. J. Everett, Jr. and Dick Kirby are in charge of the play day.

## Lions Working Out With 12 Lettermen

Fifty-six hopefuls from Ozona High School showed up for football practice Monday with 12 returning lettermen at key positions to build the 1976 team.

Returning to the team with at least one year's experience to their credit are Vaden Aldridge, Sam Longoria, Clyde Bailey, Eugene Hood, Ricky DeHoyos, Gary Warren, Orlando DeHoyos, Mike Fay, Javier Reyes, John Galvan, Blake Moody and Cliff Crawford.

Two-a-day workouts began Monday and will continue through August 20. Workouts begin at 9 a.m. and again at 6 p.m. and the public is invited and welcome to come watch the boys.

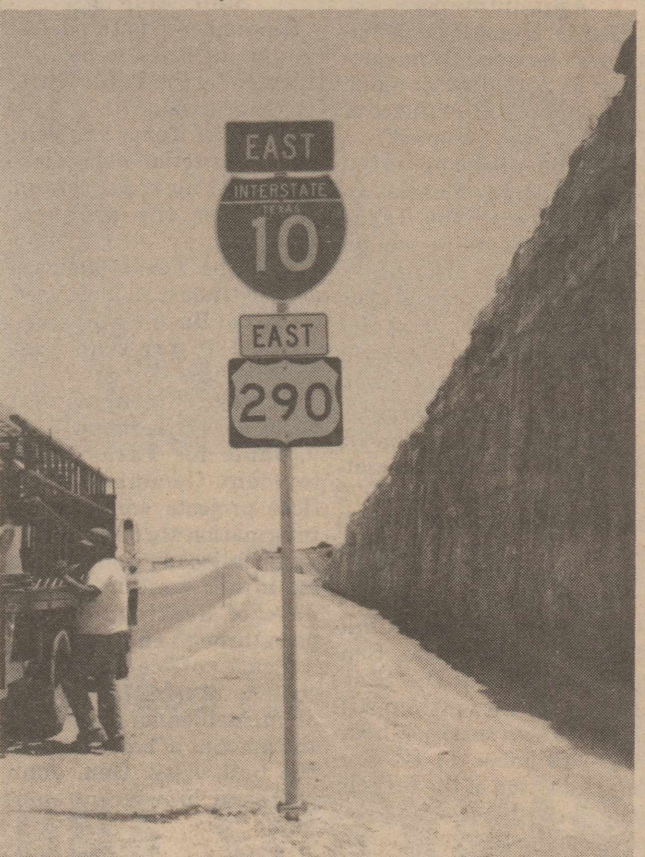

Head coach Rip Sewell is excited about the talent on the club this year and has his eye on the championship. He will be assisted by Jim Williams and Tommy Wilson.

Pads will be issued Friday for contact work.

"Meet the Lions" night will be held Friday, August 20 at 7:30 p.m. at Lion Stadium. Fans will see the first meaningful scrimmage in an intersquad struggle. Following the scrimmage, the Booster Club will serve ice cream to start off the first official booster backing of the Lions. A fee of \$5 per person will be charged.

The first pre-season scrimmage with another team will be Friday, August 27 when the Rankin Red Devils visit Ozona.

Lions open the season Sept. 3, at Big Lake with the Owls. Games are scheduled with Marfa, Eldorado, McCamey, Seagraves, Alpine and Junction before the district games begin. District play begins October 29 when the Lions host Crane, the following week the Lions will be in Kermit and the final district game will be with Sonora in Ozona.

SIGNS GO UP ON NEW I-10 running through Ozona. Paving has been finished and lighting installed. However, some work remains to be done on directional signs and other markers. The road was scheduled for traffic by July 1, but opening date has been set up to September.

FRESHMEN GIRLS INITIATED INTO HIGH SCHOOL - You know the new school term is just around the corner when you see a scene like this. Upperclassmen initiated the freshmen girls Tuesday afternoon. We got a shot of them as they were forced to perform in the island at the red light intersection. They looked bad, felt bad, and that concrete was hot. Maybe you can pick yours out, we won't attempt to name them.

CLASSIFIED RATES - 12 cents per word. Minimum charge \$.65 per insertion.

TEXAS PRESS ASSOCIATION MEMBER 1976

CENSORSHIP AT CBS-TV

Sometimes it would almost seem to appear that the executive heads of CBS-TV are absolutely determined to prove that their cynical critics are right.

The latest episode revolves around the Advertising Council's public service campaign to educate Americans about our country's economic system. The public service "spots" offer a free 24 page educational booklet entitled "The American Economic System... And Your Part In It."

But CBS has refused to run the spots on the grounds that the announcements themselves and the booklet are "controversial." In other words, CBS is reserving the right not only to censor speech which appears on television, but also to extend that right to advertising matter as well!

According to a CBS official Gene Mater, who is listed as a CBS Vice President and assistant to an unnamed CBS executive, "The booklet plus the spot and the way it's presented, we look at as a discussion of one side of a controversial issue."

Newspaper accounts reported that Mater further said that "in his network's view," the spots not only violate the FCC's "fairness doctrine" requiring television to air both sides of a "controversy," but also "our own policy (relative to) controversial issues."

Great! Every time CBS carries anything that might be construed as being favorable to the United States or the Free Enterprise system, the network must give equal time to socialist critics! Or to put it another way, why does the fairness doctrine filter operate in only one direction?

It is incredible to us that CBS doesn't recognize that the alternative to Free Enterprise is socialism or communism, and that under the latter systems there is no freedom of expression.

For that matter, where does the fairness doctrine or the Constitution declare that free enterprise is controversial?

A NEWSPAPER COLUMN AND THE AMERICAN REVOLUTION

It is well for us to remember that the Fourth of July did not mark the end of the American Revolution. It was just the beginning - officially. Nor did it mean the end of American trials and tribulations. In fact, things got worse.

In the initial stages of the Revolution, the Americans suffered a whole series of defeats, losing battles on Long Island and Manhattan and at White Plains, New York. On November 16, Fort Mifflin was surrendered to the British. Fort Mifflin fell on November 20. With bitter winter cold settling in, Washington retreated and then retreated again, down through New Jersey and into Pennsylvania.

General Sir William Howe didn't bother to continue his attacks. He knew that the Continental Army was suffering from the lack of every military necessity. Washington's ragged troops were without adequate food, shelter, clothing, shoes, and even blankets. All Howe had to do was to relax in the warmth and comfort of the captured cities, and let the American troops starve and freeze to death. In the Spring he could mop up.

But, on e of those who had gone through the humiliating defeat at Fort Lee and the terrible retreat which followed, was a journalist by the name of Tom Paine. And Paine dispatched a column to the Pennsylvania Journal which was printed in the December 19, 1776 issue.

"These are the times that try men's souls," Paine wrote. "The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of their country. But he that stands it now, deserves the love and thanks of man and woman. Tyranny, like Hell, is not easily conquered; yet we have the consolation with us that the harder the conflict the more glorious the triumph. What we obtain too cheap, we esteem too lightly; it is dearness only that gives everything its value. Heaven knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as FREEDOM should not be highly rated."

When copies of the newspaper reached General Washington, he ordered that it be read to his dejected troops; and this was done on Christmas day, December 25, 1776. That night every man that Washington could muster, 2,400 in number crossed the frozen Delaware River in boats manned by sturdy Marblehead fishermen. So cold it was that some of the men died of exposure before they reached the New Jersey shore, ten miles above Trenton. At 4:00 AM the men began their advance over the frozen ground, many with but rags bound about their feet. Three and one half hours later, with the words of Tom Paine ringing in their ears, they smashed their way into Trenton, killing the commanding General and capturing 1,000 of Howe's crack troops, along with tons of military supplies.

The Battle of Trenton was not the first American victory, nor was it the last; but had it not been won at that time, there might have been a quick and brutal end to the War of Independence, and to the American dream.

Mr. and Mrs. Charlie Applewhite spent the weekend with his parents in Blanco.

THE NEWS REEL A re-run of "The Ozona Story" as gleaned from the files of "The Ozona Stockman"

LETTERS TO THE EDITOR

Star Rt. 1 Clifton, Tx. July 27, 1976

Dear Editor; Enclosed find a check for \$7.50 for my renewal to your weekly newspaper, "The Ozona Stockman". In receiving it I feel that we get a general idea of the pulse of West Texas; however, we realize that each community is unique in some significant way.

your citizens are trying to maintain their rightful control of their personal matters - such controls being whittled on continuously while most of us are napping. Maybe rural Texas should have better representation at our capitols.

Your fine rain on the eleventh must have been wonderful. Bosque County has had a great deal in July, also, if we had some oil wells, too, in our county as you do in Crockett Co. I believe we might enjoy raising little fatter cattle, etc.

It was sad to read of the passing of Mrs. Mitchell, whose life was outstanding because of her sterling character and wonderful personality. I am sure that her friends, relatives, and acquaintances have been blessed by having known her.

Keep the good paper coming. Very truly yours, Mrs. M. V. Bonds

Miss Barbara White has as her guest this week her roommate at SMU, Miss Betty Hockaday of Houston. 29 yrs. ago

Mr. and Mrs. Earl Cunningham and daughters, were among Ozonans attending the Cunningham reunion near Comanche. 29 yrs. ago

Boys representing Crockett County in the State 4-H roundup are Charlie Boy Davidson, Buddy Phillips, Lin Hicks, Bernard Lemmons and Jack Coates. 29 yrs. ago

Drs. H. B. Tandy and Royce W. Pruett and Dr. H. A. Gustavus, Dentist, will be occupying the new offices on the second floor of the county building. 29 yrs. ago

Mrs. W. V. Guido entertained the I-Deal Bridge Club at her home Monday. 29 yrs. ago

Caleb Sparks has been employed by the school board as driver of the Todd Field bus. 29 yrs. ago

Rev. and Mrs. S. H. Maples of Gilmer were guests of Mr. and Mrs. Walter Dunlap this week. 29 yrs. ago

Mr. and Mrs. Nelson Boothe were here last week for a visit with Mrs. Boothe's mother, Mrs. B. B. Ingham. 29 yrs. ago

Miss Elsie Hummel of Ranger, will teach piano lessons in Ozona. --0--

SNIPS, QUIPS AND LIFTS by Lottie Lee Baker

Let your conscience be your guide, but heed the curbs on either side.

We used to discuss our problems over cigarettes and coffee. Now our problems are cigarettes and coffee.

A Historian announces that women used cosmetics in the Middle Ages - women still use cosmetics in the middle ages.

People who are busy rowing seldom rock the boat.

If you are quick, you're fast, if you're tied you're fast. If you spend too much money, you're fast. If you quit eating, you're fast. This is a fast age.

All you need to grow fine vigorous grass is a crack in your walk.

You may have a heart of gold-but so does a hard-boiled egg.

The little I know I owe to my ignorance.

It takes too many tomorrows before we remember how great yesterday was.

Be blunt and you won't be considered dull.

You might as well fall flat on your face as to bend too far over backward.

At age 20 we are concerned what the world thinks of us; at 30 we begin to wonder what the world thinks of us; at 50 we discover that it wasn't thinking of us at all. At 70 we don't give a "hoot."

A LIFT FOR THE WEEK If you can look happy when you aren't-you'll get along.

My Neighbors

"Well, there goes the neighborhood!"

STATE CAPITAL Highlights AND Sidelights by Lyndell Williams TEXAS PRESS ASSOCIATION

AUSTIN — Gov. Dolph Briscoe has recommended an \$825 million rescue program for the 71,000-mile Texas highway system. He proposed re-routing road-user taxes and federal aid to make up for declining revenues and the "ravages of inflation" on road-building.

By 1980, he said all available revenue now earmarked for highways may be required for maintenance alone, with nothing left over for new construction or upgrading obsolete roads and bridges.

Over the next 20 years, less than \$2 billion in state and federal funds will be available to finance a backlog of \$11 billion of construction and right-of-way purchases.

Briscoe offered these recommendations, with endorsement of House Speaker Bill Clayton: —Dedicating three-fourths of auto sales taxes — \$203 million in fiscal 1978 — and \$45 million a year in car tire, tube, auto parts and accessories sales taxes to highways.

—Switching \$50 million a year in road user taxes now going to support the state highway patrol to the highway fund. The Department of Public Safety would, under the proposal, get needed replacement money from general revenue.

—Setting aside \$100 million a year in federal revenue-sharing funds during the next biennium for safety and improvement work, including widening of facilities and repair or replacement of unsafe bridges.

The program was assured of opposition. Comptroller Bob Bullock opposed the idea of statutory dedication of more money to highways. Common Cause said the whole idea was "irresponsible."

Saving Recommended An actuary told the State Insurance Board motorists could save \$55 million if required to have deductibles on their collision and comprehensive coverage insurance.

The proposal would still mean rates will go up — but only 5.9 per cent. Companies have asked a 27.9 per cent overall increase. The staff-recommended change would send rates up \$200 million a year.

Actuary Charles Edwards of Dallas recommended \$50 deductibles on comprehensive coverage and \$200 deductible collision coverage. He said paying the first \$50 or \$200 from a driver's own pocket would encourage safe driving.

Rate changes are not expected to go into effect until October 1.

Yarbrough Hit State Supreme Court nominee Don Yarbrough of Houston has been slapped with 30 allegations by a State Bar grievance committee.

A dozen or more of the charges stem from a lawsuit against Yarbrough brought by former business associates. At the trial, Yarbrough was found to have engaged in civil fraud in law practice involving a 1975 bank transaction.

Yarbrough has been given the opportunity to defend himself against the grievances filed with a Houston Bar committee. Wayne Paris, assistant general counsel for the State Bar of Texas, said if grievances against Yarbrough are found justified punishment could range from a public reprimand to disbarment.

Gov's Ready It's the Republicans' turn for the spotlight, and Texas' 100-member GOP delegation (and 100 alternates) will be heading for Kansas City and their national presidential convention August 16.

All delegates and alternates are solidly bound to former California Gov. Ronald Reagan for president.

The delegation is divided in its enthusiasm for U. S. Sen. Richard S. Schweiker of Pennsylvania as Reagan's running mate but apparently prepared to stand behind the nominee's choice.

Speculation that former Gov. John Connally is high on the list of President Ford's prospects for the vice presidential nomination appeals to many Texans, but Connally emphasizes he has no commitments. The Texan faces strong opposition.

Gov. Briscoe acknowledged that Connally, if nominated, would be a "factor" in the Texas campaign, but he predicted the Democratic ticket of Jimmy Carter and U. S. Sen. Walter Mondale of Minnesota would carry the state regardless of who the GOP nominees are.

Tourist Spending Down Tourists liked Texas more but spent less during early 1976. Spending by visitors was down 18 per cent from the same period a year ago, according to a tabulation of more than 10,000 questionnaires.

Increased frugality of the visitors was compensated in part by the fact they stayed an average of 9.9 days longer than the early 1975 crop of tourists. Tourist industry watchers will be keeping a sharp eye on the summer-quarter reports (which cover the greatest influx of visitors) to see if reduced spending is a continuing factor. That report will be out next month.

Come in and look at what BROWN FURNITURE CO. can do to freshen up your home. Terms available, free delivery and set-up. You'll be glad you came.

I deduce that many of your new husband would be in the best interest of your child. Q: A neighbor is having problems with his son. Can he have his son placed in detention at the juvenile court? A: The laws governing detention of juveniles are very restrictive. No child may be detained for longer than 48 hours without a detention hearing, and the practice is to have the hearing as soon after the referral as is practical. If the child has a responsible parent, guardian or other custodian and is not likely to run away, then the child must be released. In the event a child is detained, the child must be represented by an attorney, the cost of which becomes the responsibility of the parent.

you and the LAW PRESENTED BY THE STATE BAR OF TEXAS

Q: The owner of our duplex has put it up for sale. Our lease is not up for three more months. Could we be asked to leave, or be asked to pay more rent, if the duplex is sold before our lease expires? A: The new owner of your duplex could not terminate your lease or change the lease unless the terms of the lease give that right to the new owner. You should check your lease to determine whether it automatically terminates if the property is sold. If your lease contains no language concerning sale of the duplex, your lease can be terminated only if the owner defaults on mortgage payments and the mortgage holder has to foreclose the property.

Q: I've been divorced for three years, and my ex-husband has provided no child support during the last two years. Can my new husband adopt my child? A: State law sets out two requirements to be met before your former husband's parental rights can be terminated, to allow your new husband to adopt your child. First, the court must find that your former husband has not contributed to the support of the child for at least one year. . . . The court cannot terminate the former husband's parental rights if you have refused his child support payments, or if he is physically unable to make the child support payments. Additionally, the court must also determine that taking away your former husband's parental rights and adoption of your child by

Appointments Don G. Humble of Cameron was named by the governor as 20th district judge succeeding W. C. Wallace of Cameron who resigned. Briscoe also appointed Victoria Mayor Charles C. Carsner Jr. to the Texas Advisory Commission on Intergovernmental Relations. He replaces Mayor Alfredo Gutierrez Jr. of Del Rio who resigned the position.

Textbook Hearings Seventeen groups or individuals will protest material submitted for 1976 state textbook adoption at a week of public hearings here August 16-20. The State Textbook Committee will begin balloting on the books September 14, and the State Board of Education will hold its own textbook hearing November 11-12. Formal adoption of the texts by the board is scheduled November 13.

just arrived - a new selection of decorative kitchen pottery at BROWN FURNITURE CO.

Q: If I will my property to my married daughter, will it be her separate property or will it be owned jointly by her and her husband? A: Under Texas law, if she survives you it would become her separate property, and her husband would have no right to it as long as your daughter is alive. However, when your daughter dies, unless she leaves a will that provides otherwise, her surviving husband and her children would share your property; or if your daughter had no children or other close relatives, her surviving husband would likely get most, if not all, of your property.

Short Snorts September 1 is the deadline for utilities to be certificated by the Public Utility Commission. Value of Texas residential construction authorizations went up 47 per cent in June over the previous year. And the Texas business activity index, as measured by Texas Business Review, climbed 16 per cent from May to June.

A new "Occupational Outlook Handbook" available for Texas Employment Commission offices projects employment information through 1985. A Railroad Commission examiner conducted two days of hearings on gas pass-through charges.

Peace officers having custody of persons accused of misdemeanors may set the amount of bail and take the bail, Atty. Gen. John Hill held in a recent opinion.

**Tips For Gardeners**  
From the Ozona Garden Club by Mrs. Bailey Post

After the wonderful rains in July, it now looks like some hot, dry days, for August. If so, be prepared to irrigate flower beds, lawns, vegetable gardens, spring-planted shrubs and trees.

Pay particular attention to lawn grasses; they are subject to a number of insect and disease problems while under stress of summer heat and little rain. Don't let spider mites get the upper hand in flower borders and beds as the summer wears on. A sharp spray from the garden hose will eliminate many of these persistent pests and clean the foliage of dust. If a miticide is needed, you'll find Diazinon, Kelthane, Cygon and Malathion high on the recommended list. Follow instructions on the container carefully, and don't use the same material each time. To change every few applications, there is less opportunity for the mites to build up resistance.

For your fall vegetable garden get a good start by preparing the soil well before planting. A good mulch covering the entire area is valuable to conserve soil moisture, control weeds, keep vegetables clean, and prevent soil compaction. Mulch materials such as compost straw, peat moss or bark improve water infiltration and increase the soil's organic matter content.

The popular airplane plants are almost care-free. For indoors or out, it is one of the best hanging basket specimens around. The grass like leaves arch and curl away from the container. Healthy, mature plants send out long, wiry stems or runners that dangle down the sides of the container. At the end of these stems new plants develop. When these offshoots develop roots, they can be cut off from the mother plant and potted individually. The parent plant can be repotted any time. Airplane plants are hardy, so regular potting soil, or your own mix should be adequate. Established plants can be fertilized every four months with liquid or water-soluble house plant fertilizer.

Another bonus of this plant is its tolerance of

**Mrs. Bean Heads Volunteer Program**

Mrs. Joe Bean has been appointed by Mrs. Dolph Briscoe as county chairperson for the First Lady's Volunteer Program, Office of the Governor. Mrs. Bean will be responsible for coordinating volunteer activities in Crockett County working with the regional coordinator and a special assistant who coordinates volunteer activities in the 13-county area covered by the Concho Valley Council of Governments.

One of the first projects will be a local clinic for Ozona's senior citizens for swine flu vaccine to be held in September. There will be another clinic for other citizens later in the year.

The First Lady's Volunteer Program is co-sponsoring the upcoming swine flu effort with state and local health officials. The Volunteer Program will recruit and place the estimated 600,000 volunteers needed to help inoculate 10 million Texans from the deadly influenza.

The First Lady's Volunteer Program was created by an Executive Order signed by Governor Briscoe in October, 1974. The order calls for the office to act as a liaison between the Governor's Office and other state agencies in seeking ways to develop and expand volunteerism and to make opportunities known to all communities.

In making the appointment, Mrs. Briscoe said, "Volunteering is a way of life in Texas; it allows people to become directly

involved in solving mutual problems and working toward solutions. The First Lady's Volunteer Program is working to let all Texans know that there are many opportunities to volunteer their time and talents for the benefit of many."

The program is active in volunteer-support of areas of adult basic education, special education, juvenile delinquency prevention, projects for the aged and others where volunteers can contribute to the community good.

neglect. It prefers plenty of light and moisture, but prolonged soil dryness and lack of food and sufficient light won't destroy the plant.

Outside, airplane plants need partial shade. Long exposure to full sun will burn the foliage. Roof overhangs and lower limbs of trees are good locations for hanging them. If not in a hanging basket, keep it high off the floor by placing the container on a plant stand or shelf. The cascading offshoots will then have somewhere to hang.

A new selection of kitchen sink units and cabinets have arrived at BROWN FURNITURE CO.

**Organization Is Key To Kitchen Ease**

Concentrate on convenience and accessibility in placing kitchen appliances for "fastest action," Mrs. Lillian Chenoweth, a family resource management specialist, says.

She is with the Texas Agricultural Extension Service, The Texas A&M University System.

"Consider how often various small appliances are used--some might see more frequent use if they were easier to get out and put away.

"When doing a major kitchen cleaning, reorganizing or remodeling, try to find as convenient a spot as possible for each kitchen aid. Ideally, small appliances should be stored where or near where they are used--especially those frequently in operation, such as toaster, coffee-maker or can opener. The next best storage area is an easily accessible shelf or cabinet," she advised.

Wall hooks or pegboard can be one solution to keeping some small appliances handy, without using counter space. Among those that can be hung on the wall are hand mixers, electric knives and warming trays.

Seldom-used equipment should be stored out of the way but still be easy to retrieve when needed.

"Another angle to this time-motion story in the kitchen is how easily cleanable the appliance is. Anything immovable is helpful, if not immovable, are parts easy to remove for cleaning? The special coatings on many newer appliance models make washing simpler," she noted.

At BROWN FURNITURE CO. we have everything for YOUR home.

**Debra Says**

by Debra Price

How likely is it that your diet may be low in vitamin C? In recent years, American diets have shifted away from plain staple foods like fruits, vegetables and milk, towards more refined, processed and convenience foods.

A ten-State Nutrition Survey made in 1968-70 reports a significant proportion of the population was malnourished. Elderly persons and adolescents were found to be lower in vitamin C than other age groups.

You have read so many different opinions on how much vitamin C, or ascorbic acid you should have each day that you are probably confused. What should be your minimal or lowest daily intake of vitamin C?

Vitamin C is best known as the scurvy-preventing substance. Evidence indicates that the minimal daily intake of ascorbic acid, needed to prevent vitamin C deficiency is about 10 milligrams. However, since there is no appreciable storage of vitamin C in the body, a higher amount is recommended to insure that our daily food supply contains enough vitamin C to meet the needs of most healthy people. The 1973 Recommended Daily Allowance for males and females 51 years and older is 45 milligrams of vitamin C each day.

ORANGE EGG NOG  
1 cup fresh squeezed orange juice  
1 egg  
1 tablespoon honey  
2 ice cubes  
In electric blender, combine all ingredients; blend until smooth. Makes two 6 ounce servings.

Note: If you haven't a blender, shake well in covered jar.

TUNA AND VEGETABLE CASSEROLE  
1/2 can (10-3/4) condensed cream of mushroom or celery soup  
1/2 teaspoon fresh grated lemon peel  
2 teaspoons fresh squeezed lemon juice  
1 can (about 7 oz) tuna, drained, flaked  
1 cup cooked peas and carrots or other leftover vegetable

1 slice (about 1 oz) cheddar cheese cut in half  
In bowl, combine soup, lemon peel and juice.  
Stir in tuna and vegetables. Spoon into two 1 1/2 cup individual casseroles or small oven proof serving bowls. Bake at 350 degrees 15 minutes; stir. Top with cheese; bake until cheese melts. Makes 2 servings.

**The American Quest**

First came the convictions... solid rock-like convictions... about man and his rights... convictions about God and the gifts with which He generously blessed mankind. Then, came a search to implement these convictions; the result was our Declaration of Independence.

American liberty like America itself had its beginning in the quest for spiritual identity. In the wilderness itself the pilgrim fathers searched and labored to build a civilization based on their religious convictions. They probed their minds and hearts and discovered that they shared a common vision of "one nation under God." Again, the Declaration was the inspired result.

If our third century is to be one of "independence," like the two that have preceded it, all of us must continue this quest, and maintain this eternal vigilance of faith and religious commitment.

- Dorthea Hernandez \* Sheffield, Guadalupe Rodriguez Waylon Thomas \* Sonora W. E. Friend Jr. \* Charles Ferguson \* Humble, Carolyn Rollwitz \* Estelle Casey \*denotes dismissal

Gas Company Officials Testify Before RR Comm.

Pioneer Natural Gas Company officials, testifying before the Railroad Commission (RRC) in Austin recently, indicated that the new Federal Power Commission (FPC) ruling on the price of natural gas moving in interstate commerce is forecasted to have a minimal effect on the price Pioneer has to pay for new gas supplies.

C. David Culver, a Pioneer vice president, told the commission that Pioneer has made recent purchases at the north end of its system at \$1.40 per Mcf (before BTU adjustment). He went on to say, "The new proposed national rate, after allowed adjustments, will amount to slightly more than \$1.50

per Mcf (before BTU adjustment) which will cause some increase in Pioneer's gas purchase cost."

Culver emphasized that "We would not evaluate this increase to be notable."

"We have projected the average increase in the cost of gas for 1976 and early 1977 in the order of two cents per Mcf per month," he explained. Culver added that "These projections are very sensitive to weather and system operating conditions, but we believe them adequate for customer planning purposes."

M. D. LaGrone, a Pioneer's "cost-of-gas adjustment," or "gas purchase adjustment clause." He pointed out that the June average cost of gas on the Company's West Texas system was 97.60¢, one of the lowest, if not the lowest of the larger gas companies in Texas.

Pre-schoolers To Register

Parents of pre-schoolers are reminded that registration for Kiddie Klub and Tinyville will be held August 17-18 from 8 a. m. to 4 p. m. at the Ozona Community Center. All children's immunization records will be necessary upon registration.

All four-year-olds may attend Kiddie Klub Monday through Friday from 8 a. m. until 11 a. m. at a cost of \$10 per month. Three year olds may attend Tinyville from 1 p. m. to 3 p. m. Tuesday through Thursday, with a nap-time scheduled at a cost of \$6 per month.

The center director may be contacted for a few scholarships which will be available to those meeting the requirements.

NOTICE OF

REWARD

I am offering

\$500 Reward

Meeting Today Crockett County Gains Hwy. Project

Directors of Texas Production Credit Association join PCA officials throughout Texas in Amarillo August 12 for the Production Credit Associations' Directors Conference.

Director participants include J. R. Canning, chairman of Eden, R. C. Chandler, vice chairman and Clifton A. Simcik, both of San Angelo, Aubrey DeLong of Mertzon and J. Burney Ligon of Fort Stockton.

Phil H. Lane, Texas PCA president who will accompany the group, said the conference will re-emphasize credit, policy and management functions of the Production Credit System and bring directors up-to-date on services provided to Texas PCAs by the Federal Intermediate Credit Bank of Houston, source of most PCA loan funds.

Texas PCA has loans outstanding to area farmers and ranchers of approximately \$11 million.

THANK YOU

We would like to express our thanks to our many friends who visited us, and sent food, cards and flowers during the time of our bereavement.

Still 3 sofas on sale at a great savings. BROWN FURNITURE CO.

Highway improvement projects in the San Angelo area are included in the 1976 State Highway Safety and Betterment and Farm to Market Road Improvement Program, recently approved by the State Highway and Public Transportation Commission.

District Engineer D. R. Watson of the State Department of Highways and Public Transportation said work in this area includes the following project in Crockett County - On IH 10 from 6.1 miles East of Ozona to 2.7 miles West of the Sutton County Line, a distance of 6.0 miles. Place an asphalt concrete pavement overlay on Eastbound and Westbound lanes at an estimated cost of \$145,700.

Total District Program is 52.9 miles of road at an estimated cost of \$599,000.

Similar programs had been conducted annually until last year. At that time there was no such program because of the financial crunch facing the State Department of Highways and Public Transportation. Funds remain short for highway work in Texas and most other states in the nation because of soaring inflation and diminishing growth rates of available revenues.

Department officials, however, note that such programs cannot be deferred for long without serious effects. Types of work included in the program will provide extra measures of safety, increase traffic capacity and convenience, and rehabilitate old and obsolete sections.

Programs such as this are necessary to prevent deterioration of the highway system and a resulting decline in mobility.

The program provides for improvement of a total of 3,164.8 miles of highways and FM roads with 58 per cent assigned to US- and State-numbered routes, 39 per cent for FM roads and 3 per cent reserved for later assignment.

In all, the program includes 552 projects in 190 counties of the State.

Topics Told For Mohair Council Meet

The Fall mohair market, future world mohair production, and the development of a European-based promotion organization will be some of the featured topics for discussion at the summer directors meeting of the Mohair Council of America to be held at 10 a. m. Thursday, August 19, at the Community Savings and Loan Association building in Fredericksburg.

James T. Hunt of Sonora, Council president, noted that this summer session should be one of the most interesting and informative meetings the board has held in recent years, and he urges all growers in the mohair producing area of Texas to make every effort to attend.

"We have seen record high prices paid for our fiber in the last two years," Hunt said. "We must take a look at the future to see what our prospects are for future mohair production, what to expect if the demand for our fiber softens, and what measures can be taken to increase our mohair production."

Hunt said the Spring, 1976, mohair clip was considerably less than predicted, due to extremely dry conditions during the winter. The Fall clip, however, is expected to show improvement in tonnage.

In addition to discussing ways to improve mohair production and future market prospects, growers and directors also will hear a special report on the formation of the International Mohair Association, composed of organizations and commercial firms specializing in the processing and manufacturing of mohair goods, which just recently held its annual meeting in Port Elizabeth, South Africa. Several Council representatives attended the meeting.

Also on tap will be a report on the activities of the newly organized Texas Mohair Producers Board which was created this last February to carry out a new method of financing future mohair promotion, market development, and educational programs.

Among special guests attending the meeting will be several officials of the state and federal departments of agriculture, research organization leaders, warehouse operators, buyers, and others in the mohair trade.

ONE MINUTE SPORTS QUIZ

- 1. Who won the Ali-Young bout? 2. Name the winner of the Kentucky Derby. 3. Who won the Houston Open Golf Tournament? 4. Reggie Jackson plays pro baseball for what team? 5. Name the coach of the Boston Celtics.

Answers To Sports Quiz

- 1. Ali, in a 15 round decision. 2. Bold Forbes. 3. Lee Elder. 4. Baltimore Orioles. 5. Tom Heinsohn.

Mrs. J. W. Alexander of Ozona, and Mrs. C. G. Williamson of Lampasas, attended "The 81st Old Frontier Days," and Cheyenne Rodeo at Cheyenne, Wyoming the last of July.

MEET THE BRUSH CONTROL SUPERSTARS

Dee Sims-Three Rivers Flying Service and TORDON\* 225 Mixture can help you get more forage from your range. Dee Sims is a professional. He, his crews and equipment are licensed by the Texas Department of Agriculture. Call Dee Sims today. Ask him to help you set up a program of brush and weed control. He has the product and the know-how to help increase the quantity and quality of your forage... the carrying capacity of your range.

TORDON 225 Mixture Herbicide is a brush control superstar, too. It's a consistent performer against mesquite, pricklypear, tasajo and many other undesirable species threatening to take over your valuable rangeland. It kills brush above and below the ground. When applied according to directions by a certified, professional applicator, it will give you good long-lasting control. Effective brush control helps you improve both the quantity and quality of forage... increase the livestock carrying capacity of your rangeland.

Make sure the Brush Control Superstars, DEE SIMS-THREE RIVERS FLYING SERVICE and TORDON 225 Mixture, are on your side. You'll be a winner more ways than one. Dee Sims Three Rivers Flying Service P. O. Box 612 Ph. 944-3906 San Angelo, Tx. 76901

utility would experience "great difficulty" selling bonds or obtaining loans for maintaining or upgrading its facilities without having a "full pass-through" for its cost of gas.

Pioneer officials joined expert witnesses and executives of other gas companies to testify as part of a state-wide hearing conducted by Texas RRC to review the various costs incurred by gas utilities in purchasing natural gas and to examine purchased gas adjustment clauses.

In May, Pioneer Natural Gas Company petitioned the RRC for a hearing to "review its gas costs as to correctness and appropriateness of the method which the company has employed in purchasing gas."

This hearing has been scheduled for September 14, in Austin.

Shannon Dockery is in Houston this week, visiting her uncle, Bill Meineke, and his family.

Jesse Marley returned to his home here Friday after undergoing an emergency appendectomy in a San Angelo hospital earlier in the week.

Claude Montya was released from a San Angelo hospital and returned to his home here Monday where he will continue recuperating.

Mr. and Mrs. Jerry Perry, Dale, and Allen Dews, were in the Fort Worth-Dallas metropolplex over the weekend for a tour of Six Flags.

CANCER ANSWER LINE American Cancer Society M. D. Anderson Hospital and Tumor Institute

Medical 'Detectives' Finding Cancer Patterns

With the aid of maps and health records instead of test tubes and microscopes, a group of scientists are providing new insights to many unanswered questions about cancer.

Known as epidemiologists, they seek the subtle clues that hide behind known patterns of cancer. By finding and understanding discernible patterns throughout the world, they strive to provide essential clues to the cause and prevention of the disease.

"I think one of the things people don't really understand," says Dr. Vincent F. Guinee, director of cancer control activities and head of M. D. Anderson's epidemiology department, "is that not everyone has the same chance of getting cancer."

From one decade to another, explains Dr. Guinee, the patterns of cancer occurrence change and the epidemiologist tries to understand these changing patterns in the population.

If a certain kind of cancer persists in a certain place, there may be highly specific peculiarities about the environment, the people, the work they do or their cultural habits - significant clues to how and why cancer is activated and under what circumstances.

The two major goals of the epidemiologist, notes Dr. Guinee, are to find those factors related by cause to cancer and then to try and take actions that prevent them.

"The epidemiologist actually provides an alternative to pinpointing the specific causes of cancer which continue to prove a difficult task," says Dr. Guinee.

For example, he explains if you know unboiled river water will make you sick or that people who smoke cigarettes have a higher chance of getting lung cancer, then you don't have to know specifically what in the river water or the cigarette causes the problem in order to avoid

them and improve your health. Of course knowing what to avoid and what action to take is not always that simple when you are dealing with a large, complex group of diseases like cancer.

Unlike more common diseases like measles and mumps that only require a week or two to develop, it is known the time between cause and appearance of cancer may be as long as 20 years. To further complicate matters, it is believed that many cancers are the result of combinations of factors such as age, genetics and environmental hazards, to name a few.

Thus, the epidemiologist as a medical detective - using computers, medical histories and a variety of assorted clues - attempts to piece together a constantly changing puzzle. The complexities are obvious. While the computer and medical statistics are invaluable tools for the epidemiologist, they will not tell you what happened in a community 10 years ago, stresses Dr. Guinee. Thus, the emphasis is on knowing the people and their lifestyles just as any doctor must know his patient.

To do this the epidemiologist relies not only on a good medical background but an interest in people, their good health and attention to small details, both past and present.

In recent years the insights and clues epidemiologists throughout the world have uncovered concerning cancer and its patterns of occurrence are generating increased interest - in effect, building a road map to guide future research.

Do you have further questions? Call your local unit of the American Cancer Society or write: Cancer Information Service, The University of Texas, M. D. Anderson Hospital & Tumor Institute, Texas Medical Center, Houston, 77030.
