SO DOES A RECORD PLAYER Our Nation faces a serious threat of communism just off our shores. At the same time within our nation. they are seeking to undermine our faith in God. There are many sayings and expressions going around in our country that are communist inspired. In order to prevent "parroting" these sayings, that weaken our nation . . . attend church regularly, and study God's word so that the truth is more easily recognized. "Put on the whole armour of God, that ye may be able to stand against the wiles of the devil."

> The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by laving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God. IT IS TRUE that expenditures for food per person in the US have increased from \$306 in 1947-49 to \$511 per person in 1969, but disposable incomes have increased even faster - from \$1,244 per person in 1947-49 to \$3,098 in 1969. The percent of income spent for food by the average American thus has dropped from 24.6 percent in 1947-49 to only 16.5 percent in 1969. Thus, food is still one of our best bargains,

One of the main objectives of the VFW is to help these people and secure benefits to assist disabled and needy veterans.

Billie Dorris, state quartermaster and adjutant, assured us at the district convention that Texas is doing its part in trying to obtain more funds to improve our veterans' hospitals.
