

BACKWARD, HO!—Those Spiro Agnew wrist watches have been running an hour ahead of the sun ever since they were placed on the market, thanks to Daylight Saving Time. But come Saturday night, Phillip Brandon — owner of this Agnew watch—will turn the arms of his watch-face Spiro back an hour, then he'll sleep an ex-

tra hour Sunday morning. And unless you're an effete snob, you'll do the same. Calendar in background shows the first day of Standard Time. Daylight Saving Time will officially end at 2 a.m. Sunday—and is likely to receive a cheerful, non-partisan farewell from Establishment and protestors alike.

Mill testing underway

Section by section testing of Dimmitt Wheat Growers' \$10 million corn wet-milling plant is now underway, and management officials feel that the gleaming new plant "will be in full production possibly before the end of the year."

PLANT Manager Barry Love reported that two sections of the mill complex have already proven to be operative, and were received from the builder Saturday after testing had been completed.

These two sections are the service section, which supplies the plant with steam, treated water, power and air; and the steeping section, in which corn is biologically treated before being milled.

Only electrical and instrumentation details are pending in the remainder of the wet milling plant, Love said.

"COMPLETION of these details is being rushed, and is expected shortly," a company spokesman reported.

"Normally, plants of this type require minor modifications, the need for which are brought out upon start-up," the spokesman added. "But these modifications have seemed to us to be minimal."

THE LAST section on the plant's construction schedule is the corn syrup processing section, and work in this refinery "is proceeding rapidly," Love said.

"Recent rains have created some inconvenience due to mud in the unpaved areas, but hasn't hampered the construction work materially," Love added. "We still have about 180 men on the construction payroll."

MEANWHILE, about half of the workers needed to operate the plant have been hired and are being trained by John Tan, wet milling superintendent.

When it goes into full production, the automated plant will require 20 operating personnel and will involve about 15 others in management, department supervision and sales.

The plant's raw products and markets already are secure, Love reported.

THE FIRST year's contracted corn for the hungry mill — some three million bushels — already has been received from the plant's farmer-owners and is now in storage in Dimmitt Wheat Growers' elevators, Love said.

And the market conditions for the plant's production "are believed to be completely favorable, with no difficulty anticipated in selling out the complete plant production at good prices," according to Ken Arnold, sales manager.

The plant's initial products will be powdered dry corn starch, corn bran, corn solubles, corn protein and corn germ. Later, the plant will also process corn syrup.

WHEN IT goes into full production, the mill will have a daily output of 330,000 pounds of starch, 35,000 pounds of germ, 25,000 pounds of protein, 100,000 pounds of corn solubles and 200,000 pounds of high-moisture corn bran.

COLD BUT HAPPY — Hart High School Homecoming Queen Cindy Dyer, right) and her fellow candidates await the start of the Hart-Sudan football game Friday night from their place of honor alongside the midfield. From left are Nelda Henderson, freshman class candidate; Roni McGill, sophomore; Sandy Bennett, senior; and

Miss Dyer, a junior. Here, just after the pre-game crowning ceremony, the girls are cold but happy. However, their spirits waned a bit when the visiting Sudan Hornets defeated the Longhorns, 49-6. The bonfire rally will be held tonight, though, and will include the crowning of a Flame King and Queen.

about dimmitt and castro county by b. m. n.

I don't like to harp too much on the same subject, and as far as that goes, repetition doesn't seem to get any results, but we will continue to call attention to the fact that many, if not all, of the counties in Texas, with the exception of Castro County, abide by the law of the land and publish a quarterly financial statement. For some reason, that they have never tried to explain, the official, or officials, charged with the responsibility of keeping the taxpayers informed as to the financial condition of the county have not seen fit to discharge that particular duty of their office or offices.

For many years I was reluctant to mention the fact that county officials were derelict in their duties in respect to keeping Castro Countians informed as to the financial status of the county. Until a few years ago the News was the only paper in the county and it might look like we were only interested in selling a little space if we called attention to the negligence of county officials in the matter. There is now, and has been for several years, another paper in the county and the legal statute requiring the publication of a quarterly financial statement by the county could be complied with without the services of the News.

Many of the papers coming to our exchange desk have been carrying financial statements of their counties for the third quarter of the year. Even though in very brief form, these quarterly statements do give the taxpayers some idea of the financial condition (See ABOUT DIMMITT, Page 11)

Old-fashioned Halloween Carnival slated

Dimmitt will revive the old-fashioned community Halloween carnival this year, and 16 student groups, service clubs and women's organizations are working to make it a big success.

THE county's fairground show barns will be converted to carnival arenas to provide plenty of space for crowds and fun, and to make sure the carnival will be weatherproof.

THE Dimmitt Lions Club is co-ordinating the carnival, with Jody Minnick serving as chairman, assisted by J. R. Brown, Dr. W. J. Hill and Doug Proffitt.

"We're reviving the old-time Halloween carnival such as we used to have," Bess Lion E. B. Noble said. "It will be good, wholesome entertainment for the whole family."

14 wrecks logged on highways here during September

The Texas Highway Patrol investigated 14 accidents on rural highways in Castro County during September, according to Sgt. Vernon Cawthon, Highway Patrol supervisor of this area.

THESE CRASHES resulted in three persons injured and an estimated property damage of \$76,514.

The rural accident summary for Castro County during the first nine months of 1970 shows a total of 41 accidents resulting in two persons killed, 33 persons injured, and an estimated property damage of \$76,514.

Total traffic accidents in Texas during the last 20 years have increased from 200,000 in 1950 to approximately one million in 1969.

THE CARNIVAL will begin at 8 o'clock Halloween night and will continue "as long as people want to stay," Noble said.

Carnival attractions will include game booths, baseball and basketball throws, a haunted house, dunking board, saddle barrel ride, cake walk, treasure hunt and others.

Also, prizes will be awarded for the best boy's and girl's costumes in two age groups — pre-schoolers and elementary students — through the sixth grade.

CHILDREN and adults alike are encouraged to wear costumes to give the carnival a Mardi Gras atmosphere.

The carnival will be a fund-raising project for all groups with concessions, and the Lions Club will receive a percentage of every concession to help pay off the note on the junior baseball parks.

The Lions Club guaranteed repayment of a \$4,000 loan to help build the two baseball parks in West Dimmitt two years ago, and so far the club has paid off \$2,500 of the note, Noble said.

"**ONE** REASON we're sponsoring the carnival is to consolidate our fund-raising projects instead of having them so diversified," Minnick said. "Every organization in town needs money for their projects and activities, and this is a good, wholesome way to earn it."

Absentee voting starts

Absentee balloting for the Nov. 3 general election started last Wednesday, and County Clerk Zell Maples reports that she has mailed out seven ballots to date.

SHE URGED voters who like to be out of the county on election day to contact her office for an absentee ballot.

NHS Homecoming to start tonight

A chili supper, bonfire and pep rally tonight (Thursday) will kick off Nazareth High School's 1970 Homecoming.

THE celebration will continue four days, with a queen's crowning and football game Friday night and the annual Homecoming dinner Sunday.

At 7 o'clock tonight, students will parade from the high school to the bonfire site near the American Legion hall.

Highlight of the outdoor pep rally will be the crowning of the 1970-71 Flame King and Queen.

The Homecoming Queen will be announced and crowned at 6:55 p.m. Friday in pre-game activities at Swift Field.

COACH R. B. Christian's Swifts have drawn a rugged opponent for their Homecoming game — the undefeated Labyrinth Longhorns, one of the top-ranked Class B teams in the state. Kickoff time will be 7:30.

The Nazareth Homecoming Dinner Sunday will feature ham with all the trimmings, home baked bread and homemade pies. The dinner will be served from 11:30 a.m. "until everyone has been served." Prices are \$1.50 for adults, \$1 for students under 12, and 25 cents for pre-schoolers.

Heard during the Homecoming will be the classes of 1930, 1940, 1950, 1960 and 1970, plus the silver anniversary class of 1935.

Last rites held for Mrs. Newton

Funeral services were conducted here Tuesday afternoon for Mrs. Willie Mae Newton of Hereford, former long-time Dimmitt resident.

MRS. NEWTON, wife of Homer Newton, died at 3 a.m. Monday in Deaf Smith County Hospital, seven hours after being admitted for treatment of a cerebral hemorrhage. She was 67 years of age.

Born Feb. 24, 1903, in Waxahachie, Mrs. Newton lived most of her life in Dimmitt. She was the former Mrs. Henry Stalcup. Her first husband died in 1957.

Last rites were conducted at 3 p.m. Tuesday in the Bedford Street Church of Christ. Officiating ministers were Marvin Sturgess of Tulla and J. T. Marlin of Hereford.

BURIAL was in Castro Memorial Gardens, under the direction of Dennis Funeral Home.

Pallbearers were Ward Goldener, Jack Gregory, Goodwin Miller, Dilmond Neumayer, Don Hargrove, Bob Huckabay and Gene Kemmer, all of Dimmitt, and Lee Webb of Amarillo.

Mrs. Newton is survived by her husband, Homer; two daughters, Mrs. Jane Stalcup Killough of Dimmitt and Mrs. Shirley Stalcup Struder of Amarillo; her mother, Mrs. D. M. Thomas of Plainview; three sisters, Mrs. Ray Cowsett of Hereford, Mrs. E. E. Terry of Plainview and Mrs. Jodie Oliver of Welsh, Okla.; two brothers, Jess Thomas of Lubbock and D. M. Thomas Jr. of Phoenix; a stepson, Joe Newton of Red River, N.M.; and six grandchildren.

New gas rate negotiated

In a joint statement Friday, Fred Poe, chairman of the steering committee of West Texas and K. B. Watson, executive vice-president of Pioneer Natural Gas Co., announced agreement on a proposed rate increase for natural gas used in 34 West Texas cities, including Dimmitt and Hart.

THE agreement came in the form of a recommendation to the governing bodies of the member cities for a 13 percent increase in the cost of gas effective on billings dated on or after Nov. 15, 1970.

Pioneer's original proposal was for a 16-percent increase.

Dimmitt's city commissioners tabled discussion of the new rate agreement at their Monday night meeting, since they had not yet received official word from the municipal utilities committee.

The recommendation also included a provision for a gas rate adjustment to Pioneer based on the cost of gas during the calendar year to become effective on April 1 of the following year.

PIONEER agreed to provide each city a verified statement by March 1, of the field cost of gas for the prior year to determine the rate adjustment for the following year.

The first such adjustment report will be delivered to each city by March 1, 1971, for action by April 1, 1971, to become effective April 15, 1971.

The governing body of each member city of the West Texas Municipal Utilities Committee will review the joint recommendation for passage by local ordinance.

Rains hamper harvest again

After four days of clear weather, more rain settled in the area last Wednesday to hold up the county's big harvest again.

LOCAL harvest crews apparently made the best use of the four days of dry weather, though, virtually finishing up the grain sorghum harvest. On most farms, only a few soybeans remained to be combined before the cotton harvest begins.

US Weather Observer Howard Cook reported .90 of an inch of moisture during last week's four-day, on-again, off-again drizzle.

The Face of Dimmitt

OUR LOCAL QUAGMIRE—This was the parking lot of Bobcat Stadium Saturday morning, viewed from the north entrance after football fans' cars had churned the unpaved lot into a quagmire Friday night. At the other end of the parking lot, three lines of cars are funneled into a one-car-wide exit and out into an intersection. Even in dry weather the parking lot contributes to drivers' rudeness, aggravation and fender-scraping as they jockey for position and try to make the best of a bad situation. It need not be that way. Dimmitt should have a paved stadium parking lot, where drivers would not have to stop to pay admission while making a 90-degree turn-in. But the area shown here should not be the site of the new paved parking lot. It should be located east of Dimmitt High School, close by a new stadium.

Proposed amendments--2

What's the fairest way to assess land?

(Editor's Note: This is the second of three articles explaining the seven proposed constitutional amendments on the Nov. 3 ballot. Compiled by the Executive Digest, these analyses are not intended to tell anyone how to vote, but to present facts which will help you determine for yourself whether each amendment is desirable, and in the best interests of our people as a whole.)

PROPOSITION 3

You will be asked to vote FOR or AGAINST: "The Constitutional Amendment to authorize the legislature to provide by law for the establishment of a uniform method of assessment of ranch, farm and forest lands, which shall be based upon the capability of such lands to support the raising of livestock and/or to produce farm and forest crops."

FOUR YEARS ago a constitutional amendment was adopted which provided that land designated by its owner for agricultural use shall be assessed for tax purposes on the basis of its agricultural use only, though it might be more valuable for other purposes. This means that land near a city, for example, can continue to be taxed on its value as ranch

or farm land so long as the owner wants to use it that way, regardless of its worth for present or future development as residential property.

To get this lower assessment, a number of provisions must be met. The land must be owned by natural persons. Products of the soil must be grown under natural conditions, and as a business venture for profit. This must be the primary occupation and source of income of the owner. The requirements for eligibility, filing, etc., are lengthy and detailed.

UNDER the proposed amendment, the legislature could do by law what the present wording of this section guarantees expressly and minutely. However, it would change the impact from the owner applying for a different consideration to requiring the taxing authority to establish a uniform assessment on land meeting the statutory definitions.

The purpose of the amendment is to recognize the problems in inequities under the present assessing practices, particularly as applied to crops which take longer than one year to mature. Its terms are so broad, however, the legislature may find it difficult to define and limit their application.

Capability is capacity of being used or developed. It is having the ability or qualities necessary for the purpose, in this instance for raising livestock or producing crops. The full potential of a piece of land, and of neighboring property, might be affected by intensity of development, fertilizers, the kind of crops grown, or the breed of livestock raised.

The legislature apparently could define what constitutes farm or forest land. It might find such a definition necessary in order to distinguish property near enough to a city, or an oil well, or other development which it determines should be assessed on its speculative value.

WHILE the amendment would "allow" the legislature to adopt a new assessment method, it also would require it. If the amendment passes, and the legislature does not act, the assessing policies will revert to those in effect prior to November, 1966. If and when it does adopt legislation, the method of assessment will have to be uniform, apparently in all cases and throughout the state. If the legislature should feel it was necessary, this could include consolidation of assessing authorities within certain areas, or some sort

of state agency to insure uniform statewide application of the law, or both.

If either approach is reasonably successful and accepted, pressure may be generated for uniform methods of assessing all other ad valorem taxes.

The powers are broad enough and the problems are big enough to spur some new thinking and some new approaches to tax problems, and to other relations between local governments and the state.

PROPOSITION 4

In the Nov. 3 election you will be asked to vote FOR or AGAINST: "The constitutional amendment reconstituting the State Building Commission as a three-member appointive commission. This is a proposal to change the membership of the state building commission from state officials, ex-officio, to three citizens appointed by the governor with the advice and consent of the senate."

will be a member named for a two-year term, one for four years and one for six years. Thereafter, the governor will appoint a new member every two years, for a six-year term. He will designate one member as chairman and also fill the vacancy of any unexpired term.

This section of the constitution creating a state building commission was adopted in November, 1954. The commission was authorized to acquire property and construct and equip buildings for state purposes. The first structure was required to be the State Supreme Court Building. Land has been acquired and several buildings constructed in the development of a capitol complex stretching northward from the main capitol building.

THE commission has had available the revenues remaining and unused each year from a two-cent ad valorem tax for Confederate veterans' pensions. A 1968 constitutional amendment would change the financing provisions. After 1976 the commission would have available to it only the money which the legislature appropriates from the general revenue fund. The amendment would be self-enacting.

Hospital - Medicare conflict is target of new Price bill

Congressman Bob Price of Pampa has introduced legislation changing the nursing staff requirements for small hospitals receiving benefits under the medicare program.

PRICE SAID, "We must never lose sight of the fact that hospitals exist to meet community health needs. Artificial rules must not be allowed to frustrate this simple goal."

PRICE SAID, "According to present laws a hospital, to be eligible to receive medicare benefits, must have at least one registered nurse on duty during each of the three eight-hour shifts the hospital operates on."

PRICE SAID, "In Texas alone, more than 150 small hospitals run the risk of having their participation in the medicare program terminated simply because they do not have enough registered nurses to meet federal requirements."

Wheat may gain new markets via research-promotion plan

"Domestic utilization of wheat in human nutrition and industry can be encouraged by the recently enacted Wheat Research and Promotion Act," Secretary of Agriculture Clifford M. Hardin declared last week.

"The prospect is quite promising that research can develop new products and greater utilization of wheat," Secretary Hardin stated. "Many other farm commodities are seeing the fruits of an effective research and promotion program, and this self-help effort by the wheat industry is in that same spirit."

The Congressional measure (HR 13543) could provide more than \$4 million for research on new uses for wheat and market development.

It authorizes the Secretary to enter into agreements with farm organizations representing wheat producer interests, such as the

newly-formed National Wheat Institute, to carry out research and promotion. The Institute is a non-profit organization representing a cooperative effort among wheat producer groups to increase domestic wheat usage. The Institute incorporates the requirements outlined by the US Department of Agriculture for eligibility to receive contracts under the program.

FINANCING of the program will come from proceeds of the 1968 wheat export certificate pool not claimed by eligible farmers. The \$4.2 million pool is the result of legislation passed several years ago that provides for excess collection of export certificates to be distributed pro rata among wheat producers.

Wheat exporters are required to buy export certificates for any lot of wheat exported whenever the US price is less than the world price.

Whenever the US price exceeds the world price, an export subsidy is paid to the exporter to make the wheat competitive in world markets. The world market price for the 1968 crop of wheat was at times higher than the US price and an export certificate pool of slightly over \$4.2 million was accumulated.

COUNTY Agricultural Stabilization and Conservation Service officials will notify eligible wheat producers of their pro rata share of the pool. Producers may elect to receive their share or leave it to finance the research and promotion program. They will have until Dec. 24, to notify their county ASCS office whether they elect to receive the payment.

Fashion expert takes a guess at state revue

By IRENE KEATING

Last weekend was the State 4-H Dress Revue in Dallas. Judy McLeroy represented District I and did a real nice job. All the girls were attractive and such good seamstresses.

MRS. LINDA Gaylor from the J. C. Penney Co. at Dallas-Fort Worth gave an interesting pre-

view of fashions for winter and the holidays.

Here was her forecast for winter. Colors are purple, wine, rust, red, gold, green and navy. These will fit into many of our wardrobes. Fabrics are knits, vinyl, suede, and fake furs. Also many reptile prints, tweeds, plaids, stripes, (especially for holidays and Spring '71) and space dye or malage where colors are mingled together.

Pant suits are the best fashion for all occasions. This is due to the current dilemma about lengths. We saw many pant suits and also midis at Dallas.

Accessories are small scarves tied cowboy fashion, sunglasses to coordinate with the wardrobe, Indian look headband, choker style necklaces and the return of the bracelet. Also plain simple, rings, leather belts, hats, are on the return, with big brims as well as the cloche cap. Handbags are shoulder strap style in suede and crushed patent.

KNEE SOCKS, opaque stockings and the body stocking are new in the hosiery field. Boots are excellent. Higher heels in shoes but shoes are very much up to the individual.

OVER 400 million persons suffer from trachoma. For 5 cents the United Nations Children's Fund can provide antibiotic ointment to save one of them from blindness.

On Oct. 13 the Friends of the Library met. Present were Irene Keating, president, Rita Hartman, Margaret Womack and Roxie Louder. We are working on overdue books now, so if you have a library book in your home please return it as soon as possible.

THE BOARD members of the Castro County Library met Oct. 14 with the chairman, Jack Miller, presiding. Other board members present were Mrs. Snider, Mrs. Riley, Mrs. Little and Miss Hazel Merritt. Irene Keating, president of the Friends of the Library and Esta Vandiver, president of the Book Club; were asked to attend the meeting.

Mrs. Eloise McDougal from Hereford, a long-time friend of mine, was the guest reviewer at the Book Club last Wednesday. She reviewed "The New Man For Our Time," by Elton Trueblood. Mrs. McDougal and my sister-in-law taught school together and visited us on several weekends when we were living in Lubbock.

Doris Payne has been working in the library some this week. Some of the seniors are needing money for their class rings, so I will help her by letting her work in the library a few hours.

Mrs. Hardison helped with the Children's Story Hour last week. She read one story and then I started to read one, but I had so many interruptions that she had to finish for me. Mrs. Hardison decided that I really do need help during the Story Hour, so she promised to help me as often as possible. She brought two boys besides her own, and there was one girl present.

Wells said that officers of the organization's county units and county membership committee chairmen will attend the Lubbock meeting, along with the organization's officers and directors.

There are currently about 2,200 active members in Water, Inc., and directors have set a goal of 3,000 by the annual meeting in mid-February.

THE SPECIAL emphasis on membership will extend through November with solicitation teams working in virtually every community served by Water, Inc.

Water, Inc., activities are financed through membership dues, each member pledging an annual contribution to the work. In addition to financing, each individual member is encouraged to become a leader in the educational drive for water resource development. Water, Inc., is a "grassroots" organization working toward adequate future water for all. It played a lead role in development of the Texas Water Plan and is currently working toward implementation of the plan, which calls for importation of water into areas of scarcity.

Old rivalry will be renewed when Cats go to Littlefield

By JIM MILLER
Dimmitt's rejuvenated Bobcats, back on the victory trail with a win over the Morton Indians, will travel to Littlefield Friday night hoping to annex their fourth victory of the season.

FRIDAY night's District 3-AA bout will be the first grid match between Dimmitt and Littlefield since 1945. It will mark the renewal of a fierce rivalry of long ago, when the dreaded Wildcats dominated Texas Class A football and the Bobcats tried every year to knock them off — usually without success.

The Bobcats, 3-3 so far, will encounter a Littlefield team that is winless to date. The Wildcats, who have dropped six decisions, were handed their most recent loss by Friona, 13-0.

The Wildcats must win soon if they are to better the 3-7 record that the '69 edition fashioned. The Maroon and White are involved in a rebuilding program and hope to come up with some breathing room eventually.

GRADUATION, that nemesis of all coaches, cut deeply into the Wildcat squad last year. Littlefield had only 13 lettermen and five starters returning from last year, and several of those are benched with injuries.

Even the Wildcat coaching staff has been hit with a season-long casualty. Head Coach Deverell Lewis suffered a heart attack just before the second game, and has had to turn over most of his coaching duties to his assistants.

Offensively, the Wildcats will go with several sets. These include the I, the Straight T and the Wing T. It'll be a wide-open offense designed to spread folks out and give the backs some running room. Defensively, the Wildcats will use a basic "Arkana-

Alamo stuns Swifts, 36-6

By "THE SWIFT"
Alamo Catholic's Mike Pierson scored three touchdowns on runs of 1, 22 and 33 yards to lead his Mustangs to a 36-6 victory over Nazareth Friday night in Amarillo.

BUT THE Amarillo lads had to come from behind to do it. Nazareth's Ben Huseman ran 60 yards on an end-around reverse that put the Swifts off front on the scoreboard with only a minute and 20 seconds gone in the first quarter. The try for two points failed and the Swifts were in front, 6-0.

Alamo made one first down on its opening possession, but was forced to punt from its own 44-yard line. The Swifts were then deep in their own territory from the punt that rolled to their 6-yard line.

NEITHER team threatened a gain and the first quarter ended 6-0 with the Swifts still on top. Alamo's gridders started the second quarter on their own 42 after a punt by Melvin Wethington. But Nazareth was called for pass interference and the Mustangs were suddenly deep in Swift territory. Two plays later, Pierson ran 22 yards for the first Mustang TD. The extra point was good and Alamo was in front, 7-0.

Pierson scored again on a one-yard plunge after a drive of 45 yards. The extra point failed and Alamo led, 13-6, at the end of the hard-fought first half.

THE RED and Gold increased their lead in the third quarter with a 20-yard touchdown run. The kick failed and Alamo led, 19-6. The Swifts could not muster a threatening drive through the remainder of the third quarter and were continually forced to punt.

With only 10 seconds elapsed on the clock in the fourth quarter, Alamo kicked a 26-yard field goal to hike its margin to 22-6.

Alamo scored again on a quarterback sneak, and with a two-point conversion, they were now in front, 30-6.

NAZARETH was again forced to punt but it was blocked, setting up the final Mustang TD. Pierson ran 33 yards on first down, ending the game with a 36-6 score.

Hornets spoil Homecoming

By DAVID BASS
The Sudan Hornets struck for three touchdowns in the first four minutes Friday night, then coasted to a 59-6 victory over the Hart Longhorns on a slippery, muddy field.

IT WAS Homecoming for the Longhorns, but it sure wasn't happy. The only bright spot of the

night came when junior Cindy Dyer, daughter of Mr. and Mrs. Jack Dyer, was crowned Queen of the 1970 Homecoming.

Sudan received the opening kickoff in the District 3-A bout, and just 59 seconds later the Hornets tallied their first score. It came when Steve Edwards scampered 45 yards. The kick for the extra point was blocked by Greg Cooby, making the score 6-0 for the heavily favored Hornets.

Hart could do nothing with the ball and had to punt. On second down, after a long run had almost broken for a TD, Gregory McNabb went 12 yards for the second Hornet score with just two minutes elapsed. Kim Engram kicked the point and Sudan led, 13-

0. The Longhorns looked as though they might move the ball on their next set of downs, but a third down pass play was shy by inches and they had to punt. It took a little longer this time, but the Hornets still managed to score. This time it was with David Weaver on a 22-yard run. Engram kicked the point, making the score 20-0. That's how the first quarter ended.

The ball changed hands twice in the early minutes of the second quarter as the Horns recovered a Sudan fumble only to have the ball taken right back from them on an interception. This quarter was nearly all defense until the middle of the period, when David Weaver broke loose on a 12-yard TD run. The kick was no good and the half ended with Sudan leading, 26-0.

THE THIRD quarter was the highest scoring period in the game, with both teams getting into the act. Sudan scored first on a 41-yard run by David Weaver. The kick

was no good, leaving the score at 32-0. Sudan also scored the next two touchdowns. The first came on a four-yard run by Roger Boyles, with Engram kicking the point, and the second came on a two-yard run by Roger Ballar. The kick was also good that time. These two TDs left the score at 45-0.

Then it was Hart's turn. Stanley Dyer broke through the Hornet line for a 49-yard touchdown scamper. The extra point try failed and the score stood at 45-6 at the end of the third quarter.

SUDAN used a sustained drive to score its next touchdown. Again, it was Roger Bellar carrying the mail from the 2-yard line into the end zone. The kick was good by Engram, and the score stood at 52-6.

Sudan's final score came a little later when Roger Boyles ran the 34-yard line. Engram kicked the extra point, making the final score: Sudan Hornets 59, Hart Longhorns 6.

Local ladies' mother dies
Lest rites were conducted in Hereford Tuesday afternoon for Mrs. Dovie Jane Jones, 78, mother of Mrs. Joe Benson and Mrs. Wes Brown of Dimmitt.

MRS. JONES died Sunday morning in Deaf Smith County Hospital. She first came to Texas from Sidney, Ark., in 1901. She married A. T. Jones in 1910, and the couple moved to Deaf Smith County in 1918. She was a member of the First United Methodist Church of Hereford.

Rev. Herbert Trotter, minister of the Hereford church, officiated at the funeral. Burial was in West Park Cemetery under the direction of Gilliland Funeral Home.

MRS. JONES is survived by her husband, A. T.; three sons, J. P., George and Elmer, all of Hereford; three daughters, Mrs. Gladys Benson and Mrs. Helen Brown, both of Dimmitt, and Mrs. Dovie Harmon of Tulsa; a brother, Earl Springer of Hereford; three sisters, Mrs. T. L. Sparkman and Mrs. Dward Roberson, both of Hereford, and Mrs. Andrew Gillham of Mertzon; 12 grandchildren and 10 great grandchildren.

the main difference between a conservative and a liberal, is that a liberal believes that everyone is entitled to his own point of view, while a conservative is convinced that if you don't agree with him it follows that you are a radical way over to the left field. Nothing could be further from the truth.

Liberal politicians who have fought for the civil rights of minority groups, as well as those of the majority, and who have tried to create an economic structure in which all men could prosper, and who believe that other people in the world, regardless of nationality, are humans, are just as opposed to riots, burning, murder, outlawry, sin and what have you, as is any conservative.

I have refrained from criticizing President Nixon, regardless of the fact that the temptation has been great, but in one of his speeches the other day he made a statement that was unbecoming of the president or even a cheap politician. I don't remember what state he was in, but I think it was Illinois, while he was campaigning against Adlai Stevenson Jr., a democratic candidate for the United States Senate. It so happened that there were some rude people in the neighborhood who apparently booed the president. That was his cue. He teed off on rioters, law breakers and all other unsavory characters he could call to mind, and then with much waving of his arms, he informed his audience that there was one way to put a stop to arid take care of the ilk he had mentioned. That way was represented by one four letter word, so the president said. He carried on quite a while about that one four letter word, and all the while I was trying to fast guess him and come up with the word he had in mind. I thought of the word "love" but not much, seeing as how it was Tricky Dick that held the key. Finally, he gave the secret formula. Again waving his arms high above his head, he solemnly declared, the word is "vote." Now if the president had been persuading people to vote because it is a privilege and responsibility, I would have gone along, even if they couldn't read or write. That wasn't the implication however.

The point he was making was that all of the internal turmoil that has been taking place in this country would be squelched forthright and immediately if the republican candidate was elected to the senate. The alternative would be, in case the democratic candidate was elected, more riots, turmoil, destruction of property and heaven knows what else. This is a low type of political campaigning, and it is hoped that the votes cast for the republican candidate will be for some other reason. Can you imagine the son of Adlai Stevenson condoning the bad things that have been happening in the United States under either a democratic or republican administration.

Cats get back on track in 26-6 win over Morton

Dan Frierson rambled for two touchdowns and Mark Wohlgenuth added two more, one on a pass to Max Newman, as the rejuvenated Dimmitt Bobcats raged over the Morton Indians 26-6 on a rainy, foggy evening in Bobcat Stadium.

FRIERSON treated the sparse crowd to an 80-yard touchdown run on a punt return with 0:31 remaining in the third period. Wohlgenuth also thrilled the foul weather spectators with several long completions, one good for a touchdown to split end Max Newman.

The first stanza found both ball clubs mired down on the rather slick track, although Frierson unlimbered his throwing arm long enough to flip a hully-gully pass to Wohlgenuth for a 25-yard gain. Despite the nifty running of Frierson and David Nino the first quarter was void of scoring.

The second quarter began with the host Bobcats on the Morton one-yard line. Frierson scored off tackle on the next play. Hoyt Hestand missed the conversion and Dimmitt went ahead, 6-0.

The visiting Morton Indians, unable to put it all together despite the nifty running of Kevin Kuebler and Eddie Lewis, were forced to employ their kicking game repeatedly during the entire contest. David Nino got the next Cat drive underway on M. C. Collins' punt he returned for a 26-yard scamper. The Cats were stalled temporarily, however, when Eddie Lewis grabbed a Wohlgenuth aerial on the Morton 10. The Indian running game stalled and the visitors again punted. This time the Cats called on the deft hands of split end Max Newman as he gathered in a 25-yard pass from Wohlgenuth. Frierson and Jay Stanton carried for short yardage and Wohlgenuth added the next score for the hosts as he squirmed to pay dirt on a quarterback keeper. Hard luck kicker Hoyt Hestand missed the point after. The half ended with the Cats featuring a 12-0 lead. The Indians, running out the Texas Wishbone T, saw several first half scoring opportunities go awry as the Cats defensive backs shut off the third down play.

THE THIRD period featured the running of Dimmitt's Dave Nino and Dan Frierson as well as the sparkling gains added by Morton's Eddie Lewis, Elton Patton and Kevin Kuebler.

The Indians appeared to have their attack humming in the third frame as they moved the ball to the Dimmitt 11-yard stripe. The homeowners took over however, and were forced to kick. Morton's attack again stalled and Frierson electrified the damp crowd with an 80-yard scoring romp on the ensuing kick. A two-point conversion attempt failed, giving the Cats a 19-0 edge.

The Indians finally got on the scoreboard with 7:59 left in the game when signal caller Keith Embry hit Ted Thomas on a roll-out pass. The conversion effort missed and the Cats held a 18-6 edge.

A Morton aside kick sailed to running back Dan Frierson, a back with a hot hand despite the cool climate, who returned it to the Morton 25. Morton, however, took over on downs. It was Nino's turn to grab the next turnover with a pass interception. The speedy halfback returned the ball to the Indian's nineyard line. After a carry by Stanton, Wohlgenuth hit Max Newman with a short flip over the top to add another Bobcat tally. Wohlgenuth, an outstanding schoolboy signal chanter, engineered a twopoint conversion to end the scoring at 26-6.

THE Cats offense gained a total of 208 yards for the evening while chalking up nine first downs. Dave Nino averaged 38 yards a punt to add to a very impressive kicking average.

Wohlgenuth completed four of 16 aerial attempts. The Bobcats next game is against the Littlefield Wildcats at Littlefield Friday night.

dition of the county. Unlike many papers, the News is limited on the number of staff members it can employ and as a result it is impossible for us to cover the meetings of the Commissioners Court, the City Council, the School Board and other governing bodies in whose actions the public has a vested interest. In that respect, the News has been derelict in its duties to its readers, this we readily admit. We have, however, tried to keep the public informed on important matters arising in the various political subdivisions of the county, but to peruse the books of a tax-gathering agency and attempt to give a financial report would be too much for a news reporter to attempt.

★ Of late we have been hearing quite a bit about this being a low key election year. Locally, apparently, it is lower than that. Thus far interest is all but non-existent. When you mention something about the election coming up in a week or two, more likely than not somebody will ask you, "What election?" Democrats are saying that if the voter turnout is under 1,600,000 in Texas the Republicans are likely to win; a number of the statewide races. If this analysis is correct, Texas is apt to have two republican senators and possibly a republican governor. If that happens I would prefer a full course by throwing in a republican lieutenant governor.

There is very little, if any, difference in the political philosophy of the two men running for the United States Senate. If many loyal democrats vote in the general election, so far as that race is concerned, it will only be because they think, or would hope, that Bentzen would vote with the democrats in organizing the Senate. In view of the type of campaign he waged against Senator Yarborough in the democratic primaries, it is doubtful if too much faith should be placed in his avowed intentions of remaining loyal to the national democratic party.

Many politicians, including the president, the vice-president and all candidates for high offices in Texas, are emphasizing the fact that they are conservatives and because of that attribute should be elected to office. In a political sense I have come to believe that

Rivera is named 'Bobcat of Week' for second time

Outstanding play against Morton Friday night earned Henry Rivera the "Bobcat of the Week" honors for the second time.

HE WAS announced as the Dimmitt squad's first "Bobcat of the Week" repeater at Monday night's meeting of the Dimmitt Athletic Booster Club, attended by 29 boosters.

The senior guard-linebacker also was a guest of the Dimmitt Lions Club at its Tuesday noon meeting.

After viewing the game film of Dimmitt's victory over Morton, Coach Brown L. Smith and his staff announced that the "Bobcat of the Week" contest was a close race between Rivera, quarterback Mark Wohlgenuth and halfback Daniel Frierson.

RIVERA won the honor by scoring an exceptionally high 79 on offense and 72 on defense in Friday night's game. A grade of 60 is considered winning football under the local scoring system.

Line Coach Doc Parker told the Lions Club Tuesday that on defense, Rivera made tackles "from sideline to sideline," operating from his linebacker position. On offense, Parker said, Rivera "was responsible for some of the key blocks that sprung our runners loose for long gains."

Rivera was a major contributor in one of Dimmitt's touchdown plays as he took cut two would-be tacklers with one block in spring Daniel Frierson loose for an 80-yard touchdown run.

'Powder Puff' nets \$400

The Powder Puff football game proved to be a big success. Mrs. Alexander, a junior class sponsor, said the juniors cleared \$490.14. Two touchdowns were made during the game. Jeanne Petty scored the first touchdown, and Sarita White intercepted a pass and went for a second touchdown. Terrie Newton scored the extra point which in all; gave a victory of 13 to 0 over the sophomores.

FOR YOU people who missed Woodstock, get Craig Vandiver to give you a re-run on it.

The Bobcat Tales Staff says Hi to Gary Wise, a freshman in DHS. Trudy Elder, Diane Dyer, and Terrie Newton took off on "business" Monday morning. Coach Cleveland didn't think it was that important. Can he really swing the board, girls?

A Hall-ween carnival is set for Oct. 31 at the show barns. Various clubs and classes will have booths there. Be sure and attend!

A GROUP of kids from the Bedford Street Church of Christ took a quick trip to Abilene over the week end.

Those who went were: Dawn Parker, Tanya Horton, Anne Golding, Claire Tenallion, Delores Waggoner, George and Charles Copeland, who were the swingers of the group, Max Hastings, Randy Morgan, Lee Summers, Brent Miller, Dean Summers, and Lee Cole. They also went to the football game and saw Abilene Christian College beat Eastern New Mexico University 61-7.

Congratulations to Terrie Newton who got FFA Sweetheart. The other candidates were: Freshman Rhonda Welch; Sophomore, Debbie Hansen; and Senior, Debbie Beams.

Jerry Matthews told Kyle McDermitt to wear old clothes to band practice the other day. They had a problem to settle between each other. Sherri Burrows can't decide which one she wants, or is it supposed to be share and share alike?

There are two outlaws in our school by the name of Sandra Robertson and Celia Morris, or anyway they were handcuffed in American History. Then Mrs. Alexander played a game with the class called "Find the Missing Key." With a threat of a visit with Mr. Moore, the mysterious Key suddenly appeared, and the girls were freed.

ORDERS were taken for "Bobcat '71" last week. Mr. Farrer said this year's annual is looking great and ought to be the best ever in the four years he has been here. A new slant will be used this year. Candid shots will be made of almost every student in Dimmitt High School.

Charles McLean, defensive half-back for the Bobcats, has now switched over to scientific observation. He got quite a shock from Alice Rush at the assembly last Tuesday.

Rhenea Baker and Susan Parish had a problem to settle also. Susan wanted to be sure and get the story straight.

Don't forget to pay your class dues! Deadline for paying dues in the junior class is set for Oct. 31. The dues are \$5. They will be raised a dollar each month for juniors who fail to pay by the deadline. Jeannie Hamilton and Karen Baldrige, Treasurer and Secretary respectively, will take money from the junior class.

HAPPY birthday to: Nancy Tisdale, Debra Hasley, Karen Baldrige, Jeanne Petty, Jill Braafladt, Sandra Jones, Jim Glenn, LaCrotia Sandlin, Rhonda Welch, Ralph Smith, Byron Hutto, Andrea George, Kyle McDermitt, David Schaeffer, Rhenea Baker, Kenny Doss. All were born in the month to October.

Truth or Error-Wedding bells will ring in the ears of Carlos Gonzales. Oct. 30 is the date. Congratulations!

Charlie Zarazue tries again to succeed with an older girl, will she ever know which Charlie she wants?

Joe Hernandez makes his trips to Plainview. He likes the C. R. Anthony there. But with Isidro it is a different story, he likes to go the other direction, Hereford at Peñey's on the Mall.

Ortesia Reuda and Santos Gonzales enjoy their "cool" conversations they have in the halls. What do you all talk about?

HEY, TERESA Mendez, do you and your friend like to take trips downtown with Joe Ferrusco and his friends. Ask Grisaleda Sandoval, Andrea Hernandez and Irma Calzado where the best food is served in town.

Lucy Saenz, is Mary Gauna helping you get the guy you want? Why don't you wear the football jacket?

I've seen that Janie Garza is learning to sew her own dresses in homemaking. Henry Rivera she can really be a "Suzy Homemaker." To our lovers Sandra Casas and Rosemary Guardiola we hope you hear from the guys soon.

SOULFUL NEWS: Alfred Sanders complains, "The reason we 'B' teamers don't win many football games is, we don't have any one to back us during our games." The truth is that the "B" doesn't even have cheerleaders, and only a few people turn out for their games.

Robert Woolbright is still going around yelling "P-l-a-y-e-x support our team." (Robert it's all over for now.)

Melba Chavers top lip tells every one in High School what she does after school hours.

Doris Payne is still waiting for an answer from the President. Ha! Ha!

Charles Stewart, Daniel Friereson, tried the new soulful dancers at the party Rebecca McDonald had last weekend. (Wonder Why?)

Alfred Sanders and Ann Mayberry are really secret lovers from Africa.

Lotsa work, but it was worth it

"I personally had a blast," said Mrs. Broderson commenting on the Powder Puff football game sponsored by the Junior Class.

THE KIDS worked long hours and were not afraid of responsibilities. The sponsors included Mrs. Alexander, who was in charge of the gates, programs and handling money. Mrs. Broderson was in charge of the advertising and cheerleaders and Mrs. Cleveland was head of the football teams.

An estimated \$500.00 was raised to be used for the Junior-Senior banquet for 1971.

The Junior class wishes to thank those who helped in any way, and especially their sponsors, for making the game as successful as it was.

Moore attends state meeting

Ike Moore, DHS Principal, attended the 47th Annual Conference of Texas Association Secondary School Principals in Fort Worth.

THE MEETING was attended by junior high and high school principals throughout the state.

The convention took up all phases of administration, such as evaluating of teachers, scheduling music programs, vocational education and many others.

There were many important speakers and entertainment was provided by some of the high school choirs.

THE principals exchanged ideas concerning current administrative problems.

The principals attended the Dallas Cowboy-Atlanta Falcon game as well as the O.U.-Texas contest.

"After talking to some of the high school principals, we are very fortunate to have this fine bunch of kids," stated Mr. Moore.

WHEN asked about a championship team in Dimmitt, McLean stated, "We need more size and a lot more experience." McLean says the toughest team so far this year was Floydada.

Charles has attended Dimmitt Schools all his life and has played football for the past five years. His college plans are to attend Colorado State in Fort Collins, Colo.

McLean lists his favorite teams as the Kansas City Chiefs and the New York Jets. We, the Fourth Hour Publications Staff, congratulate this fighting Bobcat.

"MR. WATSON gave a very interesting demonstration on atomic energy and radioactivity," stated Coach Don Parker. "This was an assembly geared to the interests of chemical science and biology, but the student body as a whole seemed to enjoy the demonstrations and experiments presented."

The speaker used several students in his experiments including, Alice Rush, Charles McLean, Debra Reed, Randy Griffith, and Kenny Doss.

A LARGE part of UNICEF aid is given in the form of equipment and supplies. UNICEF has helped to equip over 14,500 educational and vocational training institutions; some 10,000 welfare institutions; 45,000 health centers; and over 3000 nutrition institutions. UNICEF provides such supplies as textbooks, audio-visual teaching aids, agricultural tools, medicines, and hospital equipment.

THE WORLD'S future depends on children. Unless they receive the care and education they need, they will not be able to grow into useful productive adults. The United Nations Children's Fund helps the world's children with aid to education. When you help UNICEF you are buying life insurance for the world.

SMITH, as the students refer to him, is a graduate of West Texas State University. He holds a Masters degree in music from WTSU.

Smith is serving in his 19th year as the Dimmitt Band Director.

During an outstanding career Smith has achieved several prestigious awards. These include the president of the Texas Band Masters Association, Board of Directors of Phi Beta Kappa, State Music Selection Committee, UIL Advisory Counsel and he was the director of the Outstanding Band at the Buccaneer High School Band Festival.

Smith's philosophy on band education in general is, a person doesn't deserve respect until he earns it. All young people are basically good and will perform if given the chance. We, as adults, simply need to give them the chance to achieve success.

The Smiths reside at 1004 Pine in Dimmitt. Smith's hobbies are varied. He enjoys fishing, camping, boating and eating.

IN THE developing nations, nearly half the population are under 15 years of age. Approximately three-quarters of the world's children live in areas where the average income is less than \$500 a year. The United Nations Children's Fund helps provide better food and medical care for these youngsters.

UNICEF helps children in 112 developing nations. To improve their lives it provides equipment to schools and training grants to teachers. More schools and teachers are urgently needed. Support UNICEF's work!

HOW MUCH DOES EACH FARM OPERATION COST YOU?

How much does it cost you to

- Fertilize and plant, irrigate
- Feed cattle
- Apply chemicals
- Hire labor
- Keep records
- Cultivate
- Store grain
- Move cattle
- Feed hogs
- Gather eggs
- Cut ensilage
- Harvest vegetables
- Work cattle
- Borrow money
- Combine grain
- Buy feed
- Rent pasture
- Buy insurance . . . ???

WHEN should you

Fertilize, plant, irrigate, spray, cultivate, buy, sell, feed borrow?
 If you don't know the exact answers to questions like these, you need **INFORMATION**.
 For the information to be usable, it must be up-to-date, easy to understand, easy to obtain.
 That's our specialty at Farm Data . . . providing **USABLE INFORMATION**.

Our easy-to-read, monthly reports give you figures on **ALL** costs that go into any farming ventures (we call them enterprises).
 If you're feeding cattle, your Farm Data reports will tell you exactly how much it's costing to buy, feed, vaccinate, etc.
 Or perhaps you're growing corn. With Farm Data reports, you'll know how much you're spending on chemicals, labor, irrigation and cultivation.
 When you **KNOW** what you are spending, you have a sound basis for decisions.

When you KNOW, you may decide to

- irrigate one more time
 - hold stored grain for another month
 - postpone borrowing money
 - sell livestock now instead of later
- Farm Data reports tell you if you are **MAKING** money and how much. Without current information, you'll only know the profit you made at tax time, when it is too late to make decisions concerning **THIS YEAR'S** enterprises. **CURRENT** information may show that a particular enterprise is profitable enough for you to plan to expand next year. Or it may show that the enterprise is so unprofitable you should make other plans for your money in the future.

Farm Data monthly reports enable you to see where expenses are out of line, so that you can turn a potential loss into a profit.

Your reports may show a need for borrowing additional money. You'll find your banker easier to talk to when you have current, exact records to show exactly where money is going.
 And Farm Data reports will enable you to adjust income and expenses for tax purposes.

What is the Farm Data Program?

It is a total, Simplified accounting system that makes possible a Farm Management System by Data Processing.
 In addition to monthly reports on individual enterprises, you receive a budgeting statement, cash flow, insurance statement, net worth report, FICA report and depreciation schedule.

How Does It Work?

All information needed, after initial set-up, is entered from a simple check. There are no complicated forms to complete . . . no extra work for you. The Farm Data computer does the work, and you make extra profit.

Who is Farm Data?

Basically, Farm Data is **Aaron T. Isaacs**. Mr. Isaacs, a farmer, accountant, businessman began in the Agri-Business field as accountant for Dimmitt Wheat Growers in 1956.

In 1959 he was elected General Manager of the \$300,000 corporation. Under his direction, the organization grew to a \$16 million organization in early 1970. Farm Data, Inc. is the result of Mr. Isaacs' experiences in which he proved what can be done with common sense decisions based on current information.

He talks the farmers language, knows the problems and hazards inherent in today's high-production, competitive farming and ranching.

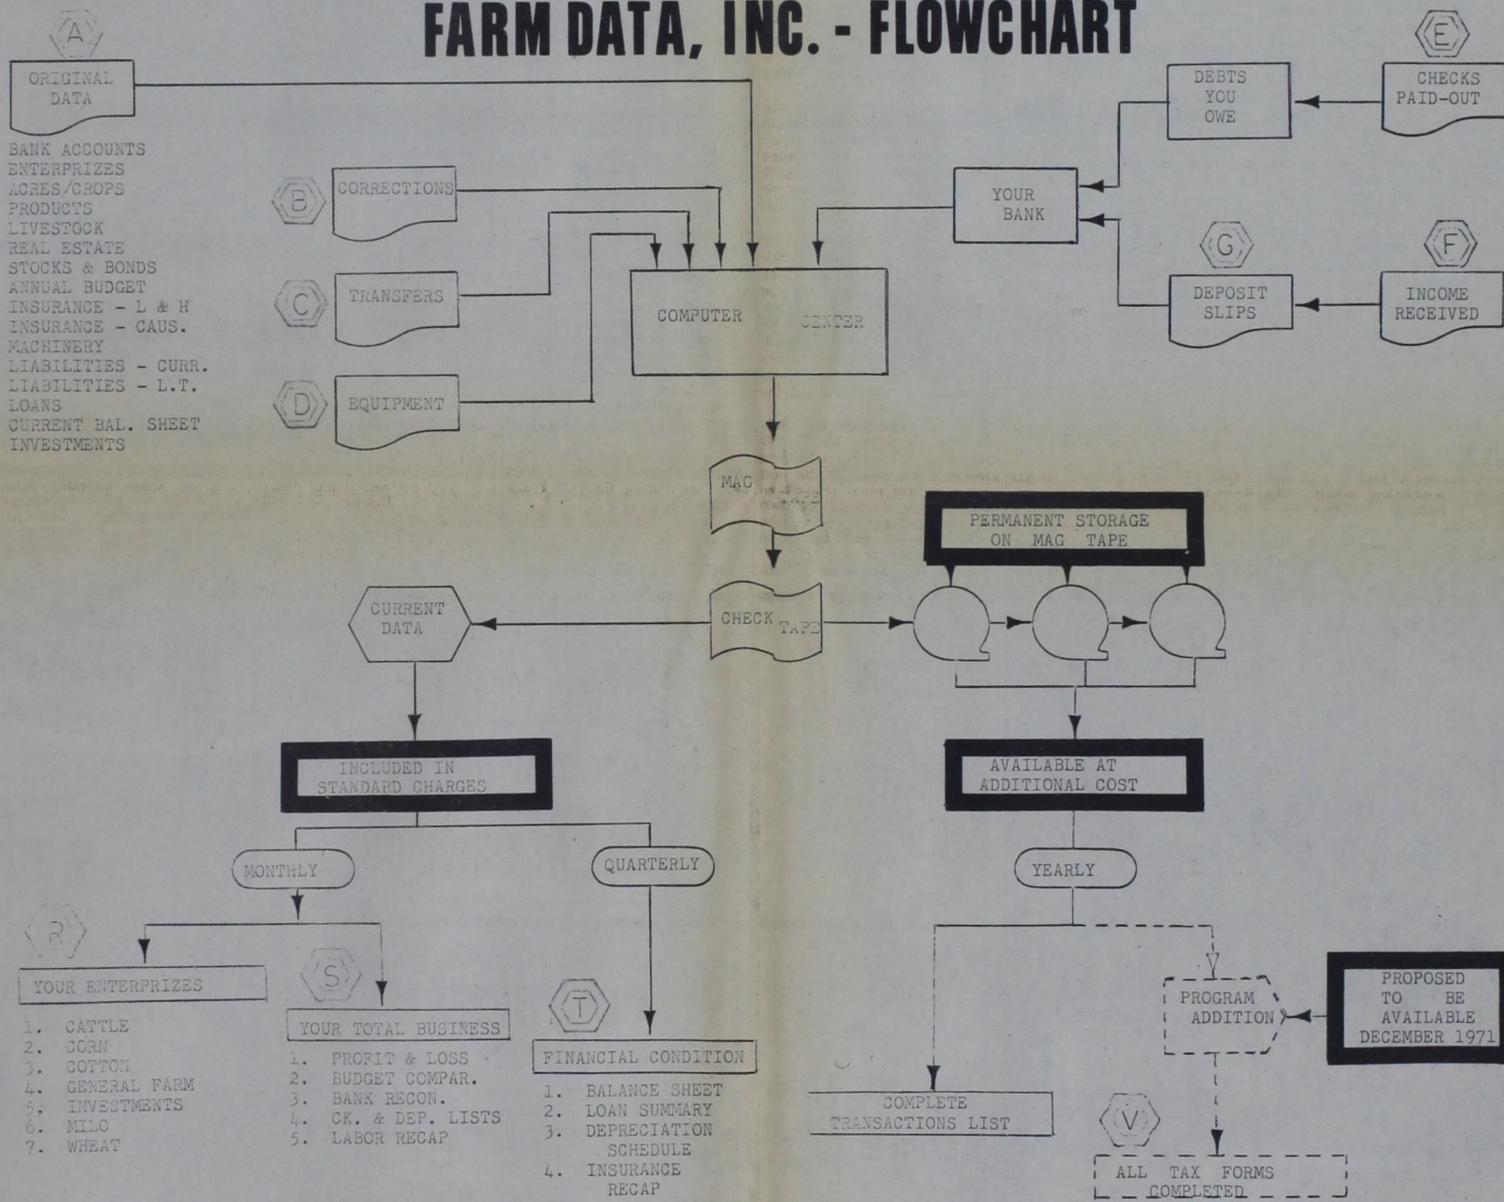

Like all outstanding leaders, Mr. Isaacs has hand-picked a very competent staff. Their purpose is to help him help you. All are agriculturally oriented people. Some are specialists in specific fields such as data processing, communications, economics, etc.

Everyone at Farm Data, Inc. knows his job and does it well.

Farm Data has the program to help you make more profit. Let's get together.

The print-outs of Farm Data, Inc., are processed on NCR equipment at the computer center of Amarillo Christian School.
