VICTIMIZED STALK—Bill Dannevik shows a milo stalk which he said was a model of healthy growth until army worms attacked it last week. The black caterpillars stripped all the leaves to the mid-rib, ruined the grain head and ate into the whorl of the smaller stalk.

Army worms invading milo

Check the corners and edges of your milo and corn fields—especially where you have patches of Johnson grass or watergrass—and see if your plants have any leaf damage.

IF ANY of your plants' leaves have been stripped bare to the mid-rib, start looking for a black caterpillar about an inch long, with a yellow stripe down each side. If you spot any, call your crop sprayer immediately—or you may not have a field left in four or five days.

Those black caterpillars are yellow-striped army worms, and they're on the prowl in the county. If they aren't stopped, they can ruin a field of milo or corn in a matter of days as they strip off the leaves—especially the outer ones.

Infestation has been spotty so far, with the army worms reported mainly in individual fields in the Arney, Nazareth and Sunnyside areas.

BILL DANNEVIK, who sounded the alarm on the worms this week, said the caterpillars were first discovered in the Arney area by an aerial spraying firm.

The army worm is mainly a midwestern pest, although it has been giving farmers headaches in the South Plains area of Texas also.

"We've had a little trouble with them the last two years, but I believe they're more prominent this year," Dannevik said. "They seem to thrive in cool, damp weather, so we're liable to see a big increase of them."

RONNIE GFELLER, entomologist, said the caterpillars apparently are hatching in Johnson grass and watergrass, then moving into the nearest field.

The adult stage of the larva, Gfeller said, is a gray moth which lays its grayish white

Church announces 50th anniversary program schedule

The Sunnyside Baptist Church will observe its 50th anniversary Aug. 22.

THE CHURCH was organized Aug. 10, 1921, with 10 charter members. Two of the charter members are still living—Mrs. John Turner of Dimmitt and Mrs. Asa Wilson of Athens.

Seven candidates were received for baptism the day the church was organized. Four of these are surviving—Carl, Aubrey and Ruby Wimberly (Baker) and Virginia Phipps (Hill).

On April 12, 1960, all of the church buildings including the parsonage were destroyed by a tornado. They were replaced by the present church building and parsonage.

ALL FORMER pastors, former members, friends and present members are invited to attend the anniversary services.

Rev. M. D. Durham will bring the message at the morning worship service and Rev. Murle Rogers will speak at the afternoon worship service. Both are former pastors of the church.

Lunch will be served at noon by the church, and a special afternoon program will be presented from 2 to 4 with a reception following in fellowship hall.

Last rites held for Mrs. Bagwell

Mrs. Nancy Adeline Bagwell of Bethel died in Plains Memorial Hospital last Thursday at the age of 99½ years.

She had lived in the county for 37 years.

FUNERAL services were at 3 p.m. Saturday in the First United Methodist Church. Officiating was Rev. Jim T. Pickens, assisted by Rev. Bill Wadley of the Lee Street Baptist Church. Bill Myers, director of music for the First Baptist Church, was in charge of special music.

Burial was in the Castro Memorial Gardens, under the direction of Dennis Funeral Home.

A native of Hopkins County, Mrs. Bagwell came to Castro County in 1934 with her husband J.A. He preceded her in death in 1965.

SURVIVORS include her four sons, Jerry Ernest, Jim, George and Ivor; two daughters, Mrs. Mildred Gullion of Tulsa, Okla., and Mrs. Hattie Alice Howell of the Bethel community; 23 grandchildren, 43 great grandchildren, and two great great grandchildren.

Active pallbearers were her seven grandsons. Oran Howell, Robert Bagwell, Milton Barwell, Jack Howell, Charles Henry Howell, Jimmy Howell and John Howell.

VEE clinic slated Friday

The Dimmitt Veterinary Clinic will hold another VEE clinic Friday to inoculate any remaining horses in the county that have not already been immunized.

ALMOST ALL of the county's horses have now been inoculated against Venezuelan equine encephalomyelitis, according to Drs. David Bechtol and W. J. Hill. The state has set Aug. 15 as the deadline to have all horses in Texas inoculated.

Horse owners needing the service should call the Dimmitt Veterinary Clinic. The federal government is paying the \$4 inoculation fee on each animal.

Schools prepare for onrush

Classes will begin Aug. 23 in all three of the county's public school systems. But the schools already are abuzz with activity in preparation for the opening of the new year.

For most administrators and special personnel, the 1971-72 school year already has started. Beginning Monday, teachers will start filtering back into their buildings for pre-school workshops and in-service training sessions.

Students in most of the county's schools will register Aug. 19 and 20 for the new year.

IN DIMMITT, Distar Program teachers and aides will report to South Elementary school Monday for a workshop conducted by advisors from the University of Oregon.

Other teachers will meet at 8:30 a.m. Aug. 16 to begin in-service training for the new school year, Supt. Charlie White said this week.

On Aug. 18, teachers will attend an in-service training meet in Canyon, sponsored by the Region XVI Service Center.

REGISTRATION for South and North Elementary students will be held Aug. 19 from 8 a.m. to noon and from 1 to 4 p.m.

High school students will also report to register Aug. 19. Seniors will register from 9 to 10:30 a.m. in the high school building, juniors are scheduled from 10:30 a.m. until noon, sophomores from 1 to 2:30 p.m., and freshmen from 2:30 to 4 p.m. Anyone unable to register the 19th can register on the 20th from 9 a.m. to 4 p.m.

ROBERT RYAN, high school principal, said, "Registration will include giving the students their schedules, making locker assignments, issuing books, and obtaining necessary pre-registration information."

In Dimmitt Junior High, the eighth grade will register from 9 to 10:30 a.m. Aug. 19. The seventh grade will register from 10:30 a.m. to noon.

"No new programs will be implemented in the school system this year," White said.

Concerning the cancelled bilingual program which school officials have been trying to reinstate, White said, "It's too late to do anything this year. We may or may not apply for it next year. It depends on compromises that can be reached on program requirements."

HART SCHOOLS will begin back-to-school activities Aug. 17, when teachers report for in-service training.

Hart High School students will report Aug. 19 for registration and enrollment. The schedule is: seniors, 9-10:30 a.m.; juniors, 10:30 a.m. to noon; sophomores, 1-2:30 p.m.; and freshmen, 2:30-4 p.m.

Junior high students will come in the next day, Aug. 20, to register. Times are: eighth grade, 9 to 10 a.m., and seventh grade 10:30 to noon.

Kindergarten students can register anytime from 9 to 4 in the elementary principal's office or the secretary's office. Students in this group must be 5 on or before Sept. 1.

NAZARETH Public Schools will begin classes Monday, Aug. 23. Supt. John Slavik said this week.

Teachers will report Aug. 16 for in-service training.

A schedule for registration for fall classes will be announced next week, Slavik said.

Physicals slated for DHS gridders

All Dimmitt High School football players will receive their physical examinations Tuesday night at the High Plains Clinic.

HEAD COACH Brown L. Smith said all boys in the ninth through 12th grades who want to play football this year should report to the clinic at 7 p.m. Tuesday.

Sophomore, junior and senior players will be issued their football shoes at 8 a.m. Wednesday in the field house.

On Aug. 16, the football squad will be issued the rest of their practice equipment at 7 a.m. at the field house, and will begin two-day workouts that day.

WORKOUTS will continue twice a day through Aug. 23, with an inter-squad scrimmage slated Saturday morning, Aug. 21.

The following Friday, the varsity squad will travel to Tulsa for a scrimmage, and the following week will host Dalhart in a scrimmage here.

Apply now for free lunches

"Applicants for the free and reduced-price lunch programs can begin signing up Wednesday in my office in the South Elementary building," Elmer Berryhill announced this week.

ALL applicants are urged to sign up as soon as possible so the forms can be processed by Aug. 23, the first day of classes.

ONWARD TO THE SHELVES!— Huge stacks of new textbooks for the Dimmitt Public Schools await unpacking and distribution as Elmer Berryhill, director of special services, and Mrs. Mary Nell King, secretary, start uncrating them. These are about a fifth of all the newly adopted books to be used in the school system this year. They must now be divided by grade, publisher and school building for distribution.

County to get mental health 'outreach' worker

Full-time help soon will be available to Castro County residents with problems resulting from drug abuse, alcoholism, emotional stress, mental illness or mental retardation.

THE SERVICE will be an "outreach" program of the new Central Plains Comprehensive Community Mental Health-Mental Retardation Center in Plainview.

Associated with the new Central Plains General Hospital, the center is designed to serve a nine-county area, including Castro.

The center recently received its federal staffing grant to put its ambitious program into high gear.

The program will bring together the talents of psychiatrists,

clinical psychologists, physicians, social and case workers, and trained technicians to help individuals resolve their personal problems.

A **FULL-TIME** outreach worker soon will be hired to serve as local residents' contact with the center. The outreach worker—who will be headquartered in Plains Memorial Hospital—will help the individual initiate his treatment or rehabilitation at the local level, and also will be on call for follow-up work and personal service.

Each individual's treatment will be tailored to his personal needs and schedule. Services available at the center include in-patient and out-patient care, a partial hospitalization pro-

gram that enables a patient to have hospital care and continue on his job at the same time, emergency care, educational programs and consultation services.

In the nine-county area served by the center, Castro and Bailey counties have been chosen as the pilot counties for the center's outreach program.

EACH OF THE counties in the center's service area has its own advisory board. Chairman of the Castro County board is Noel Gollehon. Members are Dr. J. D. Blackburn, county medical officer; County Judge Raymond E. Wilson; Hospital Administrator Verle West; and Mrs. Helen Richardson, Mrs. Claude Forson, Kenneth Ringo and Mrs. Carol Lantz, R.N., of the Dimmitt Public Schools.

Board members met Monday with Bill Dillard, new administrator of Central Plains General Hospital, who helped them lay plans for putting the program into action here.

"The main thing we need now is to find someone to recommend as the outreach worker," Gollehon said. The local board is to call for applications soon and pass them on, with its recommendations, to the center's staff.

BOARD MEMBERS agreed to follow a procedure suggested by Dr. Blackburn—to draw up a complete description of the outreach worker's job, have it published and call for applications. A salary of \$5,800 per year is authorized for the post.

Dillard explained that the program here "can be started at any time—as soon as the outreach worker is approved and accepted."

CHILDREN and others in grades six through 12:

Polio— At least three doses of oral vaccine, provided one or more doses have been received since the fourth birthday.

Diphtheria-tetanus— minimum of three doses, with last dose within 10 years. Booster dose only after initial series.

Measles— The majority of children in this group will have been previously immunized or obtained natural immunity through infection. Recommended but not required on an individualized basis if history of vaccine or illness is thought to be negative.

Rubella— not required past age 12 years.

Smallpox— One vaccination within the past 10 years.

SINCE MANY types of personal immunization records are in current use, any document listing each immunization received by year will be acceptable during the 1971-1972 school year for either initiating or updating school immunization records.

Signature or rubber-stamp validation of personal records by physicians or public health clinics is recommended but not required until the summer 1972, after which validation of new records will be required.

A new, standard Certificate of Immunization form is being developed; however, compatible documents will always be acceptable.

A COMBINED measles-rubella vaccine is now available which requires only one injection. The age criteria for this vaccine in schools is the same as indicated for measles and rubella separately.

On the Go

Mr. and Mrs. Cecil Dennis attended funeral services for Rev. George Ray Sr. in Dallas last week.

Castro County's Roundup kicks off this week with Hart Day on Saturday. Activities continue next week with a square dance, three rodeo performances, western dances, parade, pony show, pet show, barbecue and Old Settlers Reunion.

Here's a schedule of activities for the coming week:

HART DAY

The carnival sponsored by the Hart Lions Club begins tonight (Thursday) across from the Phillips 66 station in Hart. It will continue through Saturday, when it will be open all day.

At 10 a.m. Saturday the Good-neighbor Club will serve free coffee and punch in the community room of the Farmers State Bank.

At 11 a.m. the merchants will hold a drawing for free merchandise and prizes.

From 11:30 to 1:30 p.m., the Lions will sell charcoal broiled hamburgers.

The parade will form north of the W. A. Hawkins home at 1:30 and travel south on Broadway. The winners will be awarded trophies at 2 p.m.

The Hart Day festivities wind up with the queen being crowned at 9:30 p.m. on the carnival grounds.

SQUARE DANCE

The Dimmitt Promenaders will sponsor a square dance on the south side of the square in Dimmitt Wednesday night at 9. Johnny Gillenwater of Tulsa will call and several guest callers will be on hand, also. The club members will operate a refreshment stand during the dance.

PARADE

The annual Roundup Parade will begin at 2:30 p.m. next Thursday with line-up for floats and riding clubs scheduled at 1:30 p.m. on the Dimmitt Gin yard. A pony show will be held immediately following the parade.

BARBECUE

The barbecue will be at 6 p.m. in the American Legion Hall. Dale Carmichael and Maurice Campbell are in charge of the barbecue. Tickets are \$1.50 per person.

RODEO

The rodeo will begin next Thursday at 8:30 p.m. The Dimmitt Rodeo Association will also sponsor a western dance each night of the three-day rodeo, beginning at 9:30 on the concrete dance slab at the rodeo grounds.

No air show

There will be no Jaycee Air show in conjunction with this year's Roundup Week. The Castro County Jaycees voted at their meeting last Thursday to dispense with the air show this year, and enter a float in the Roundup Parade next Thursday instead.

Hospital plans new LVN class

Plains Memorial Hospital will start a new vocational nurses' school Sept. 13, and is now calling for students.

TO BE ELIGIBLE, a person must be 18 or older and possess a high school diploma or General Educational Development (GED) high school equivalency certificate.

Mrs. Kathy Lindley, R.N., the school's director, said all who are interested should meet with her at 10 a.m. Monday in the classroom in the east wing of the hospital, and bring their high school diplomas or GED certificates.

The student nurses will train 40 hours a week for a year, starting with classroom work and phasing into floor work as training progresses.

This will be the fourth class for the local school, which was founded in 1967. Last year the school graduated seven vocational nurses.

Shelly's chatter

By MYRTLE SHEFFY

"America, the Beautiful." That must be true. Last week we heard about the south, this week the north. G. R. and Yvonne Huffines and three children loaded the pickup camper and headed out—first stop Durango, Colo. They made the old train ride, then to Mesa Verde, looked around and saw the cliff dwellings of the early day Indians. They went on to look into the Grand Canyon. G. R. says they didn't feel like riding the donkeys down in that deep place. They stopped at Four Corners. That is four states joining—Utah, New Mexico, Colorado and Arizona. He says you can stand in one and spit in three others. They went through the Zion National Park, and on to Salt Lake City, Utah. They went swimming in the big Lake, saw the beautiful Mormon Temple. It was made without the nails we use. I believe they used wooden pegs. They also saw the Glen Canyon then up to Yellowstone National Park. They say the tourists are thick as flies. They only saw one bear, but many elk. Saw the Teton Mountain range, down the Valley Road, crossed the Snake River, then home after 3500 miles. G. R. is stationmaster for the Fort Worth and Denver Railroad here.

NOEL AND Oleta Gollehon are home from a marvelous trip to the east and south. Noel needed to attend an REA electric school at Gatlinburg, Tenn. The camper was made ready and away they went. They saw the rivers and mountains in Arkansas, Ohio, 14 states in all. In Bardstown they saw the Stephen F. Foster Drama. At Williamsburg, Va. they saw the beautiful restored homes and town that Rockefeller paid for. They saw the stone mountain, also Lookout. Oleta says Virginia was a flower garden of crepe myrtle. The tobacco was beautiful in flower and smelled good, this was in Kentucky. They stopped in Smithville where that good ham is. In Jamestown and Richmond they saw all those statues and all the early historical spots—Fort Knox and Abe Lincoln's birthplace. They said the fruit and vegetables were just right. They cooked their meals in the camper and slept there too, so the only money spent was for gas. Oleta says Atlanta, Ga. was the largest city and took two hours to go across. "YOU TOOK MY PICTURE... AND I WASN'T READY!"
How concerned we are with the image we present to others! And it is right that we should be. How mightily we influence others. It is so important that the self we present is one that will influence others for good. With guidance from God we will be ready to present ourselves to the world in such a manner as to sway others toward God and all that is worthwhile and good. "That ye might walk worthy of the Lord unto all pleasing, being fruitful in every good work, and increasing in the knowledge of God," come to His Church.

Golfers from all over the Panhandle and South Plains are expected to tee off Saturday morning in the annual Dimmitt Low-Ball Partnership Golf Tournament. Half the field will tee off at 8:30 a.m. and the second half at 2:30 p.m.

ENTRY FEE for the two-day meet is \$40, and the deadline for entry is 5 p.m. Friday. There will be four flights with 10 teams in each flight, and a barbecue dinner will be served Saturday night at 8.

Defending champions for the 26-hole medal play event are Dickie Weston and Mike Wells of Plainview.

Several teams are expected this week to take advantage of the customary free practice round before this type competition. Extra tickets for the barbecue are available at the snack bar at \$2 each.

Teams already entered who may make a strong bid for this year's title are Keith Lowe of Denton and Gary Fletcher of Canyon; Bruce Winn of Canyon and Fred Green of Amarillo; and the Canyon team of Randall Burton-Mike Shadix.

THE LADIES Golf Association players were divided into flights last week with Polly Holland having the Least Rough Shots on No. 4 and No. 8 (none), to win first in the Championship Flight.

There was a three-way tie for first in the First Flight between Janie Walker, Juanita Bruegel and Neva Hickey, who are to draw for winner. Second Flight winner was Clara Patton, who had two shots in the rough on No. 4 and none on No. 8.

Ladies with handicaps of one through 25 are in the Championship Flight; handicaps of 26 through 50 in the First Flight; and handicaps of 51 through 75 in the Third Flight. These handicaps will not apply for Pro-Ams or Lower Plains play, but just for our local Association play-of-the-day meets.

AN UNUSUALLY large field of contestants competed for prizes in the Monthly Scotch

Foursome Sunday, with a spaghetti dinner afterwards featuring Garnett Holland as chief chef.

Coming in with low net honors over a field of 19 teams was the team of Joe Carver and Bobby Vilas with a net 31. Low gross went to the team of Bob Myers and Jamie Walker with a 42. The husband-wife team of Bo and Carol Bryant secured the high gross spot with a 63. Carol usually plays three or four times a year, whether she wants to or not.

There was a tie for low putts between Sam Gilbreath-Polly Holland and Shorty and Ole Mae Trimble, with 16. High Putts went to the team of Ray Robertson and Dorothy Mayfield.

Teams making unsuccessful bids for prizes were John and Dorothy Gilbreath, Punk and Rosalia Gilbreath, Robert Benton and Neva Hickey, Fred Bruegel Jr. and Juanita Bruegel, Richard and Janie Walker, Jimmy Ross and Jerry Butler, Jimmy and Jerry Butler, Doyle Morris and Bobby Vilas, Bob Vilas and Shirley Underwood, H. B. and Kathy Thomas, Bud and Vaudine Giles, Bob and Doris Lindsey, and Herb Mayfield and Joannis Robertson.

SHORT PUTTS: In the "Broke 90 for the First Time" Department, Stanley Schaeffer shot an 88 Sunday. John Mueller and family are back from their vacation in Minnesota—John didn't waste any time getting back in his death-grip competition with regulars Rex Sheffy and D. H. Malone.

If you see Bob Vilas walking along lopsided, it's from carrying around his b-i-g trophy that H. B. Thomas delivered last week for Bob's big win during the City Tournament.

Mrs. Garnett Holland announced at the regular LGA monthly luncheon meeting that Bobby Vilas and Jamie Walker were in charge of the Old Settlers Parade float that the LGA would enter, depicting how women's past times have changed from quilting bees to golfing in the last 50 years. All members are urged to volunteer their services if possible.

JIM AND Gayle Ratcliff and children of Corpus Christi were weekend guests of their parents Glen and Koma Ratcliff and Jim and Dorothy Elder and Trudy.

John and Sue Merritt went to Las Vegas, Nev. this week where they will meet Sue's sister Ann and Brian Webster of San Mateo, Calif. They plan to see some of the shows. Young Johnnie and Amie will stay with grandmother Pearl Sheffy.

The Kenneth Jacksons received a letter from Mrs. John Flannigan of Crowley, Texas. She sends greetings. Her husband John was a sheriff in this county many years ago. Mrs. Flannigan is a close friend of Clara Fuller's.

Mr. and Mrs. Ralph Glover are home from a good trip to Big Fork, Mont. They visited Ben and Bernice Hill and Joe and Dugan Butler, who have cherry farms. They fished in the Flat Head Lake and Swan River that empties into it. Mrs. Glover says they played golf at Kalispelle and that was some rough course or I will say different from our flat one.

HENRY AND Bobbie Lightfoot and children Denila and LeAnn Lightfoot and boys, Glenn and Dean Burfield have been to Coleman to visit a daughter and husband Mr. and Mrs. Wayne Williams and the new baby Erka. Mrs. Lightfoot is with the Colonial Inn Restaurant.

Bill and Norma Gladman of Amarillo came by here to see his mother Alta and Jack Sum-

mers. They had been to Spring field, Mo., and son Jack and Ola Gladman of Amarillo were here for a visit with the Summers.

Mary and Cyrtia Lopez of Abernathy are staying with Mr. and Mrs. Max Zamarano. The girls are working with the vegetable place. Max is minister of the Iglesia de Cristo.

MRS. VINA Stewart has been in Olton a few days with her niece Tommie and Robert Struve. Her sister is Mrs. Moses and she also visits a brother. Vina is the mother of Gloria Isaacs of Canyon. Robert is the son of Frank and Maxine Struve, Sid's niece.

Bill and Dee Williams made a business trip to Leoti, Kan. Their daughter Connie Stewart and Cheri Dee of Omaha, Neb., met them for a visit. Little Cheri Dee came to Dimmitt for a month's visit.

Sp-5 John David Gardner, his wife Doris and daughters Kimberly and Jennifer of Permasues Germany, have been visitors in the home of his parents J. C. and Maxine Gardner this past week. Donna Mauland of Trenton, Ga., accompanied them. This is the first time the grandparents have seen little Jennifer. She's 3-months-old. David is due back in Germany Aug. 11. Weekend guests were the Gardners daughter Mary and husband John Phillips and son Chris. Sunday, their other sons Kenton and Royce brought their friends to enjoy dinner with their grandparents. The Phillips are from Lubbock and the friends were Cathy Wiley of Plainview, and Sharon Matthews of Lubbock. Raymon and Cindy Wilson and children Paul and Jennifer of Tulsa came over to visit David and family.

A 1966 constitutional amendment does not outlaw use of market value to determine the tax value of agricultural land, the Texas Supreme Court has ruled. Kerr County ranchers had contended valuation should be determined on net income per acre from agricultural use only.

The view from your library

By MARY EDNA HENDRIX

We are receiving a few generous donations for the purchase of a new library site. We hope everyone in the county will see fit to give something toward this fund, no matter how small the donation may be.

YOU MAY think you would never use a library—but someday your children or grandchildren may need a special book, and if it is not in the school library, then they would need to use the county library. If we do not have the book you need in our library, then we can call the Amarillo Public Library and get it through the Interlibrary Loan System. Even if you do not like to read, you may need to use a reference book or some book on a special subject, just to be informed—so a library is important to a community!

If one person can donate enough money for the building, surely the people in the county can donate enough money to buy a site. Let's try!

CHARLES BAKER, the new state library field consultant, met with the Castro County Library Board members and the president of the Book Club, Mrs. Esta Vandiver, last Wednesday. He is replacing Austin Hoover, who took a similar job in Colorado.

Decima Dennis donated a beautiful set of encyclopedias to the library. It is the New Illustrated Encyclopedia of Gardening. There are 13 volumes of colorful pages of flowers, shrubs, trees and vegetables, one volume on pests and diseases, and a Garden Calendar volume. Thanks Decima—we are so proud of this set of books!

Mac Strother came into the library last week and checked out some books. He is working Amarillo and plans to go back to college. He is a member of the Discussion Group Great Books Fourth Year. This is a group that meets at the Amarillo Public Library and reads books that are 50 years old or older. Phoebe Strother has been visiting the library all summer with her sister, Elaine, who is an avid reader.

I ATTENDED the housewarming for Betty and Lonnie Booth Friday night with Irene Carpenter and Ruth Hays. Betty has a beautiful home and she has one section in the basement den for her books. She had all her encyclopedias on the shelves, but she still needed to unpack the other books when she has more shelves built.

Mr. and Mrs. R. E. Bramlett of Dallas visited a few days with Mr. and Mrs. Murray Snyder.

Mr. and Mrs. Jack Rister were in Abilene on business and to visit kinfolks. They also attended funeral services for a cousin, J. C. Rister of Tye.

Mrs. Bud McElroy visited in Morton Monday with Mrs. L. H. Hooper.

Brand recording is now required

Dove, early teal seasons are set

The Texas Parks and Wildlife Commission has set dates for the state's dove seasons and early teal duck season.

THERE WERE no changes in bag or possession limits from last year, and each season for 1971-72 will be the same number of days as the previous year's seasons.

The open season on mourning doves in the North Zone will be Sept. 1 through Oct. 30, from 12 noon to sunset. In the South Zone, the dates are Sept. 25 through Nov. 23, except for the counties which have a season for white-winged doves. In these counties, the mourning dove season ends Nov. 19. However mourning doves may be taken in these counties during the whitewing season, Sept. 4-5 and 11-12. Shooting hours statewide are 12 noon to sunset.

The daily bag and possession limit is unchanged from last year at 10 and 20 birds for both species.

THE EARLY teal season this year will be Sept. 11 through Sept. 19. The daily bag limit will be four birds in the aggregate of the three species of teal (blue-winged, green-winged and cinnamon), and possession limit is eight in the aggregate.

Both the migratory waterfowl seasons and quail seasons will be set later. The migratory bird seasons, bag limits and other regulations will be detailed in the 1971-72 Migratory Game Birds Hunting Digest to be published by the department this fall.

State's top two races shaping up Yarborough will be on 'Hotline'

 Competition is shaping up in the top two state races for 1972.

SATE SEN. Joe Christie of El Paso emerged recently as a possible candidate for the Democratic US Senate nomination. Christie, a 38-year El Pasoan, said he would be reluctant to abandon his state senate place, but he is keeping a close eye on US Senator John Tower's activities in the Senate and considers him vulnerable to contest by a strong Democrat.

Christie's statement was seen as a trial balloon aimed at detecting just how serious Democratic leaders are about fielding a candidate against Tower—and whether they would consider him as the man to unite behind.

MEANWHILE, Dolph Briscoe of Uvalde is declaring his candidacy for governor and asking support in a series of statewide speeches.

Lt. Gov. Ben Barnes, of course, announced his candidacy for governor in mid-June, and

State's co-ops hold annual meet

"Out of Concern—Action!" was the theme for the 31st annual meeting of Texas Electric Cooperatives last week, as about 750 rural electric leaders, suppliers, wives and guests from throughout the state convened in Dallas to plot their statewide organization's course for the coming year.

THEIR CONCERN was with the future of rural Texas itself in today's fast-changing world and with the leadership role the state's 80 rural electric systems will play in that future. Congressman J. J. "Jake" Pickle urged the delegates to assume greater leadership in all facets of rural development, saying, "Co-ops are one of the

few agencies that have the stability, resources, money, manpower, and know-how to do the job."

In addition to Pickle, the rural electric leaders heard from former US Senator Ralph Yarborough, who asked their advice in determining his political future; REA Administrator David Hamill, who told them developments on the nationwide rural electric scene, and J. K. Smith, governor of the National Rural Utilities Cooperative Finance Corporation (CFC), the cooperatives' supplemental finance organization.

A highlight of the meeting was the Miss Texas Rural Electrification Pageant, at which Cynthia Lynn Akin of Slaton was selected to represent the organization for the coming year.

James T. Hull

Hull elected TEC president

James T. Hull, manager of Lone Wolf Electric Cooperative, Inc., was elected president of Texas Electric Cooperatives, Inc. during the state association's 31st annual meeting in Dallas.

HULL SERVED as manager of Lone Wolf Electric Cooperative in Colorado City before moving to his present position in Hereford.

A native of Dawson, the new state officer is a graduate of Sam Houston State University, Huntsville. He served four years in the US Air Force, including 12 months in Korea. Hull and his wife, Mary Sue, have one son, Mike.

State industry shows expansion

(Texas Press Service) A Texas Industrial Commission report lists 161 new industries as starting in the state in the first six months of 1971, an increase of eight over last year.

ONE HUNDRED others expanded. The state commission announced a comprehensive research project to find why some Texas rural areas have a population upsurge and others continue in a slump.

The agency also ordered a feasibility study to determine the future of textile manufacturing in the state. Texas produces more than 30 percent of the nation's cotton, 97 percent of mohair and 50 percent of wool, but most of it is processed in other states.

Holly reports earnings drop

Holly Sugar Corp. has reported sales of \$21,164,000 for the first quarter of its fiscal year, compared with \$24,186,000 for the similar period last year.

PRESIDENT John B. Bunker, in an interim report to stockholders released Friday, said that prices for sugar, beet pulp and molasses continued strong at levels higher than those during the first quarter last year.

However, he said that volume of sugar sold was less than the prior year because of the reduced demand of the California industry.

He reported that sugarbeet crops in northern California are making good progress while those in the Rocky Mountain and Texas areas appear to be satisfactory at this time.

THE 1970 crop of overwintered sugarbeets was harvested on schedule this spring in northern California. The crop now being completed in California's Imperial Valley produced good sugar content and yield, Bunker said.

He reported that a strike of the Southern Pacific Railroad had caused the harvest to be stopped in California's South San Joaquin Valley.

Since sugarbeet processing can be materially affected by seasonal and climatic conditions and because Holly uses the last-in, first-out method of valuing sugar inventories, earnings are not reported on a quarterly basis until the end of the third quarter, Dec. 31.

"By that time the major cost factors are more determinable and permit an unaudited report of the nine months' earnings," Bunker explained.

A DRIVER who failed to prove the other party in a traffic accident was not insured cannot collect on his uninsured motorist policy, the Texas Supreme Court has ruled.

MORE THAN 425,000 Texas horses have been vaccinated in the drive against Venezuelan equine encephalomyelitis (VEE).

Can substitute barley, soybeans

1972 wheat program announced

Major provisions of the 1972 program for wheat have been announced by Secretary of Agriculture Clifford M. Hardin.

THE PROGRAM provides for an acreage set-aside requirement equal to 83 percent of the farm domestic allotment—the maximum provided by law.

It was further announced that the program will again allow the substitution of feed grain for wheat; that soybeans will be a substitute crop next year; and that barley will be included in the 1972 feed grain program. No limit on wheat acreage will be established for 1972.

"These changes in the 1972 programs," Hardin said, "give the farmer greater freedom to plant the commodities which will earn him the best possible income, without losing program benefits. By announcing these changes at this time, producers will have the information they need to make their planting plans for the 1972 crop."

THERE IS no change in the previously announced 1972 domestic wheat allotment of 19.7 million acres or in the loan rate of \$1.25 per bushel national average established for the 1971 crop. Farm-stored and warehouse-stored loans and purchases are available to producers who participate in the program.

The 1972 wheat set-aside percentage is based on preliminary estimates of acreage required for next year's production to meet US domestic and export needs, USDA officials said. It compares with the 1971 set-aside rate of 75 percent of the farm's allotment.

Under the substitution provision, acreage devoted to feed grain or soybeans will be considered planted to wheat to prevent loss of allotment. Acreage devoted to wheat or soybeans will be considered planted to feed grain to prevent loss of the feed grain base. This will enable a producer to plant all or any combination of his acreage to wheat, feed grain or soybeans without loss of planting history or program benefits.

AS IN this year's program, there is no provision regarding excess wheat production in the 1972 program. However, excess wheat stored under prior programs may be released to the

extent production is less than three times the domestic allotment multiplied by the farm yield.

As was the case this year, producers will receive preliminary payments after July 1 equal to 75 percent of the estimated face value of the wheat certificate. Any remainder will be paid after Dec. 1, 1972.

The inclusion of barley in the 1972 feed grain program is the result of USDA estimates that feed grain supplies will be adequate in 1972 due to the improved supply of blight-resistant corn seed. The set-aside requirement for barley will be between 20 and 35 percent of the base. The exact set-aside percentage will be indicated when the 1972 feed grain program provisions are announced.

SOYBEANS have been included as a substituted crop for 1972 in view of the supply outlook. This will also give the producer additional planting options.

Wheat producers in 1972 will receive 100 percent of parity on the production of their full domestic allotment, the same as this year. Face value of the certificates will be the difference between 100 percent of parity on July 1, 1972, and the national average wheat price received by farmers from July through November, 1972.

Under the current program, the farmer may plant as much wheat or any other non-quota crop as he wishes after he has met his acreage set-aside and conserving base requirements. Or, he can choose not to plant any wheat. Crops subject to quotas in 1972 will be peanuts, rice, tobacco, extra long staple cotton, and sugarcane.

PRODUCERS are not required to plant wheat to obtain certificates. However, failure to plant or be considered to have planted at least 90 percent of a farm's 1972 domestic allotment of either wheat, corn, grain sorghum, barley or soybeans can result in a reduction in the 1973 allotment by as much as 20 percent. If no wheat or substitute is planted for three consecutive years, the entire allotment can be lost. All allotments removed from farms will be reallocated to other wheat farms.

Acreage which is not planted

due to a drought, flood, or other natural disaster or a condition beyond the control of the producer will be considered planted to wheat. Also, any producer who makes a required acreage set-aside but elects to receive no payment will not lose his allotment.

Processors of wheat for domestic food use will continue to pay 75 cents per bushel towards the domestic certificates value. Again in the 1972-73 marketing year, no export marketing certificates will be issued.

Established summer-fallow farms which devote at least 15 percent of their cropland to that use will not be required to set-aside any additional acreage in order to qualify for program benefits.

Producers who wish to qualify for program benefits need to sign up to participate. Sign-up dates will be Feb. 28 through April 7, 1972. A producer may participate in the wheat program on any farm or all farms in which he has an interest, as he wishes.

The ASCS county office will notify local wheat producers of their domestic allotments and the applicable set-aside for their

farms at a later date, County Executive Director Charley Hill said.

CLASSES in industrial cooperative training and CVAE are the most recent additions to the Hart High School curriculum, according to a recent announcement by Superintendent Ted Averitt.
These classes afford students both practical and theoretical training in a variety of trades and occupations. Practical work experiences are provided the student through part-time employment each afternoon at some cooperating business or industry within the school area. The local school provides technical instruction on a supervised basis in specially scheduled classes. Students may enroll in other high school subjects needed for graduation.
The program will operate under the direction of George Carroll, coordinator. He will be responsible for the selection and placement of students and will correlate their practical and technical training. An advisory committee of local businessmen

will be set up by the school to assist in organizing and operating the new program.
In commenting upon the new vocational program, high school principal Elmer V. Six said, "We feel the inclusion of this type of program will do much to provide the youth of Hart with a well-rounded educational program that will fulfill the need for practical, down-to-earth training."

As late-summer activities pick up, don't forget your garden calendar

By IRENE KEATING
This last week has been very trying. We have been working in a make-shift office downstairs, at home and in the old office. It seems we can't locate things like we used to—that's what happens in remodeling though. Our office phone has been disconnected, therefore you all weren't getting any response when you tried to call us. We hope to be pretty settled again by tomorrow or next week at least. I am taking a week of my vacation next week. I plan to get a few things done in the house and yard. My folks will be here from Colorado some of the time.
It's time to get all those vacations taken. School will be in session very soon again.

★
IT'S TIME for the monthly garden calendar again.
1. Don't slack up on your rose disease control program if you want attractive roses this fall. Spray every 7 to 10 days with Falthan or Maneb.
2. Make your last pinch on chrysanthemums and stake the taller num plants to prevent wind damage.
3. Make your fall planting of Bermuda grass in August. Use "hulled" seed only. Be sure to roll the seed bed after planting and keep moist until it germinates.
4. PLACE your order for spring flowering bulbs now for best quality.
5. Plant pansy and calendula seed for fall and winter color.
6. If you expect colorful fruit this fall and winter on holly, pyracantha, cotoneaster and others don't forget to water this month.
7. If you forgot to apply the chinch bug control in July, better get it done at once as they like hot dry weather in which to operate.
8. PUT OUT your fall vegetable garden in August. Prepare the beds at once.
9. Make cuttings of your favorite geraniums now for indoor flowers this fall and winter.
10. Spray Crapemyrtle for mildew control using Karathane or Parnon or you can dust with sulfur.
11. Water the compost pile to prevent drying and also speed up decomposition.
12. START A new compost pile and be ready to collect the leaves as they drop this fall.
13. Start thinning your Camellia flower buds now for larger flowers.
14. Don't let spider mite get the upper hand. Spray with a good miticide such as Diazinon, Kelthane, Cygon or Malathion. Follow directions on the container and don't use the same material each time. By changing miticides every few applications there is less opportunity for the mites to develop resistance.
15. Make arrangements with a reliable neighbor or yard man to look after your yard while you are on vacation. At least have him take care of the watering while you are gone.
16. NOW IS the time to begin collecting interesting plant materials for winter bouquets.
17. Prepare beds for September plantings of winter annuals, Day lilies and bearded iris.

New law requires you stop for cop

If you don't stop when you hear a patrol car's siren or see its flashing light behind you, you may be driving yourself right into jail or a stiff fine.
A NEW state law that went into effect last week makes it a "grave misdemeanor" to flee or attempt to elude a police officer.
"I think this law is going to help us a lot," said Highway Patrolman Bill Scott. "We've had several instances here in the past where people have refused to stop right away when we were trying to stop them."
Formerly, failure to stop when being pursued by a patrol car would result only in a ticket for speeding.
BUT NOW, according to County Attorney Robert Buntyn, the law provides for a jail term of 30 days to six months and/or a fine of \$100 to \$500 for "any driver... who willfully fails or refuses to bring his vehicle to a stop" when signaled by a law officer.
The officer's signal may be by hand, voice, emergency light or siren, the law says.

Financial Facts

By Willis A. Hawkins, Jr.

How do you determine the value of a coin? Certainly, we react to the appearance of a coin. Bright shiny pieces are pretty and nice to have regardless of the dollar value. Condition is a prime factor in determining value.
If you are interested in investment value, a coin in excellent condition will gain in value over a period of several years. A coin in poor condition will fail to offer much at all. Consequently, for good investment and good trade material, condition is most important.
Classifying the conditions of coins has the use of several adjectives. "Uncirculated" means a perfect condition showing no signs of wear. At the bottom of the list is "poor" meaning undesirable badly worn, with only part of the design distinguished.

Armed with the proper classifications, you can distinguish the good from the bad in your own collection.

State to reverse ruling on rivers?

(Texas Press Service)

Parks and Wildlife Director James U. Cross and Land Commissioner Bob Armstrong made a helicopter tour of the Canadian River bed to inspect an area involved in a controversy over free public hunting.

THE PARKS and Wildlife Commission June 4 ordered a stop to hunting on state-owned river beds and public lands.

After heated protests from the Panhandle, the state commission indicated it might switch its position for Canadian River lands. The PWC staff was directed to get more information and make its recommendation at a meeting this month.

PARKS and Wildlife Department has moved up its game management officer training schedule four months, to Aug. 29.

Balls celebrate anniversary

By TEENY BOWDEN
Mr. and Mrs. Bob Ball of Olton were honored on their 50th anniversary by their children with a private family celebration in their home last Sunday.

Mr. Ball had been in the hospital all last week suffering the effects of a stroke recently, and he was re-admitted last Sunday night, and has been quite ill all this week. They had planned an open house, but because of his illness they made it a quiet family affair.

Where once there was a church

PROGRESS PHOTOS show the various stages in the razing project of the old First Baptist Church complex during the past six weeks. The darker, square building is the original church, which was converted to an education and recreation building when the larger sanctuary was built. Workers made the razing project fast and efficient, selling the used brick to a Hereford builder as they were knocked loose

and cleaned. By the time the bottom right photo was taken Friday, only a bare lot and basement area remained on the quarter-block where the landmark buildings had stood so long. A service station soon will be built on the corner, and the only trace remaining of the old church complex will be the new education wing, which has not yet been sold.

Conservationists thank legislators

(Texas Press Service)
 The League of Conservation Voters has rated 11 senators with perfect voting records on seven selected environmental issues this year.

EIGHT OTHERS were given a passing score, and 12 flunked (with less than five favorable votes out of seven). Seven of the latter group who registered two or less votes deemed correct by the environmentalists were put down as having "abominable records."

The Senate's record, said the environmentalists, was better than that of the House, though only a "fraction" of strong pollution-control and conservation bills that were proposed ever passed either house.

Army worms

(Continued from Page One)
 and Parathion seems to be the most effective so far.

GFELLER SAID the army worms probably will be a problem in the wheat crop to be planted later this year, also.

"I imagine these worms that are in the fields now will complete their life cycle, then they'll play out, then they'll probably start a new life cycle about the time the wheat comes up," he said.

Matson tells Jaycees:

WTSU athletics have bright future in MVC

"**THE WTSU** athletic program has its future ahead of it, really, because of the university's admission into the Missouri Valley Conference," the Castro County Jaycees were told last Thursday by a world-famous athlete who is helping build West Texas State University to major-college maturity in athletics.

SPEAKING to the Jaycees at their noon meeting was Randy Matson, world record holder in the shot put.

The former Texas A&M star is now the executive director of the Buffalo Club, which raises funds for athletic scholarships, promotes ticket sales and serves as a service arm for the WTSU Athletic Dept.

Matson termed the Missouri Valley Conference as "probably the strongest overall basketball conference in the nation," and said that WTSU—which has had to apologize to no one for its basketball strength in recent years—will need 100 more athletic scholarships in all sports to compete with such conference heavyweights as Louisville,

Tulsa, Drake, North Texas and Memphis State.

"**THIS NEED** for more scholarships is one of the main reasons the Buffalo Club was formed," Matson told the Jaycees. "Last year was just our first year—our organizational year—but we raised \$32,000 for scholarships. Our main job now is to build up our scholarship fund."

He also explained, "We are involved in the operation of the WTSU Athletic Dept. We try to just raise money and turn it over to the department—we don't try to tell them where to

place the scholarships or how to run things."

Prospects are bright for the upcoming football season, Matson said.

"**WE SOLD 2,200** season tickets for football last year, and we've already sold 2,800 for this next season," he said. "But what we really need to do is sell 6,000 season tickets every year to make our athletic program self-supporting. A university's entire athletic department depends for its financial success on the football program. All the other sports lose money at all schools, and the basketball program will break even if you're lucky."

He added that recruiting practices have changed under new Buffalo Head Coach Gene Mayfield.

"**All the new WTSU** football recruits but two this year were Texas boys," Matson noted. "West Texas State is a regional university, and we feel we have to draw from the nearest sources for players and from the entire Panhandle for fans if we're to have the type of program we want, and the continuous support that the program will need."

IN BASKETBALL, Matson noted that WTSU defeated four teams that went into the NCAA playoffs last year, and said the program for next year "is looking pretty good, overall."

He expressed the hope that WTSU could bring baseball back into its athletic program in the future. This, he said, will depend largely on how well the area supports the football program.

Concerning his own plans with the 16-lb. steel ball, Matson said he has just started training toward the 1972 Olympic Games, which will be held next August.

MATSON, a Pampa native, is the defending Olympic shot-put champion and holds the world record of 71 ft., 5 1/2 inches. He was the first Texan ever to top the magical 60-ft. mark, and is the only human ever to break the 70-ft. barrier.

"**HOWEVER**, I'm going to be lucky just to make the Olympic team," he said, "and I may have to break my world record if I'm to win the Olympic gold medal again next year."

"I used to be six or eight feet ahead of everybody and wasn't worried," he said, "but now I'm just two or three feet ahead. An East German thrower hit 68 feet recently for a new European record; that has me a little worried. I've got my work cut out for me."

Youths arrested on drug charges

Sheriff's officers have charged two Dimmitt boys—one 17 and the other 15—with possession of marijuana after arresting them on a farm road west of Dimmitt last week.

THE 17-year-old youth is free under \$1,500 bond, pending Grand Jury action. If indicted by the next Grand Jury session, he would face trial as an adult on a felony narcotics violation charge.

The 15-year-old's case has been turned over to the county juvenile court.

NEW RED WAGON — City Fire Marshal Guy Waldrop proudly shows a 1971 Chevrolet station wagon now being sported by the Dimmitt Volunteer Fire Dept. The city and county governments purchased the nine-passenger, air-conditioned wagon

from Webb-Mears Chevrolet and presented it to the department recently. The new red wagon is to be used by members of the department to attend firemen's schools and seminars in other cities, and to use on department business locally.
