Willis Branscum Buried At Earth

Castro Farmer Dies Of Cancer

Funeral rites for Willis W. Branscum, Castro county farmer and noted civic leader in Castro, Lamb and Bailey counties, were held Sunday at 3 p.m. in the First Baptist Church at Earth with Rev. Cecil Meadows officiating. Burial was in the Earth cemetery.

Mr. Branscum, 50, had been in ill health for two years. Early this year he was found to be suffering from cancer and was confined to the hospital at Amherst after undergoing treatment at Houston. He died in the Amherst hospital Thursday (Sept. 15) at 8:15 a.m.

A member of the Baptist Church, Mr. Branscum identified himself as a civic leader and rodeo promoter in several area towns. He helped organize the annual Earth Rodeo, and each year until last year, furnished stock for the Dimmitt, Muleshoe and Earth rodeos. He was also noted for boosting youth activities and organizing boys' clubs.

Mr. Branscum lived in the southwestern corner of Castro county and had farming interests in both Castro and Lamb counties. He also served on the Castro County PMA Committee at one time, now known as the ASC committee.

The deceased was preceded in death by his parents. He leaves several sisters and brothers in this area and in Fort Worth and California. Among these are Mrs. Otis English of the Sunnyside community and Mrs. J. Black of the Big Square community.

Castro Animals And Produce Rank High At Amarillo

Both Castro county youngsters and adults made a good showing at the Tri-State Fair in Amarillo this week.

In the Texas FFA and Wheat Improvement Contest, sponsored by the State Extension Service and held in connection with the fair, Johnny Hodges, Jumbo 4-H Club member, was runner-up to the wheat king and received an engraved plaque as well as \$40 in prize money. Norman Nelson, Dimmitt 4-H'er, placed fourth in this event and received \$25.

In a separate wheat judging event for adults, Doyle Underwood of the Flag community placed first for \$10 in prize money and Rayphord Smithson of the same community was second.

Donnie George of Dimmitt was rated second in the Sears gilt show while George Huseman of Nazareth was fourth in the Sears boar show. George was presented a \$45 cash award and Huseman earned a \$35 cash award.

In the barrow show, Fred Acker of Nazareth was second in the Chester White Division in the junior show and open show. His prize money was two \$4 awards.

The Castro county agricultural booth at the Amarillo fair rated high too. Twenty-two ribbons were conferred upon the booth; five blue, two red, ten white and five pink.

Castro cattleman Harry Rothwell entered 14 head of Shorthorns in the fair stock show and Vincent Braddock also had some Brown Swiss stock in the event.

Morgan Dennis of Dimmitt served as milking shorthorn division judge at the fair. The county had a total of 51 various entries in the Amarillo event.

Instrumental in assembling and erecting the county fair booth at Amarillo were Chamber Manager Glen Youts, Noble Howard, Forrest Collins and County Agent Marvin Simms.

Hayride Accident Kills Boy at Hart

Tragedy marked the news in Castro county Monday night with the disclosure that a young Hart High School youth was instantly killed and another slightly injured in a traffic accident four and one-half miles west of Hart on a farm road between Hart and Sunnyside.

Killed was James Charles Johnston, 14-year-old son of Mrs. T. C. Ray, Jr. and stepson of T. C. Ray, Jr. He was brought to the hospital here by ambulance but was dead on arrival. A companion, Charles Roland, son of Mr. and Mrs. A. M. Roland of Hart, was treated in the local hospital for bruises and shock. He was released in good condition.

Funeral services for young Johnston were held Wednesday at 2:30 p.m. at the Hart Baptist Church with the Rev. Dale West officiating. Burial was in the Hart cemetery under the direction of Dennis Funeral Home of Dimmitt. The Hart school closed following Johnston's death in order that students might attend the funeral.

Johnston was born at Fort Sam Houston, Texas May 28, 1941. He leaves his mother and stepfather; two brothers, A. R. of Norman, Oklahoma, and Kenny of Hart; his maternal grandparents, Mr. and Mrs. Ralph Kratz of Norman, and a grandmother, Mrs. Sue Johnston of Holdenville, Okla.

The accident happened at 7:30 p.m. when a 1940 Ford driven by Yneso Losano, 23-year-old area Mexican worker, struck a tractor-drawn trailer carrying a group of Hart High School freshmen on a hayride and veered out of control into a second tractor driven by Roland and ridden by Johnston. The tractor, according to Castro Sheriff Jack Cartwright who investigated, turned upside down and pinned Johnston beneath.

Losano and a companion, Pedro Nunez, allegedly fled the scene of the accident. They were later arrested by the sheriff and jailed here. Losano has been charged with failure to render aid and leaving the scene of the accident. No charge had been filed against Nunez at this writing. The pair, however, will be confined to jail pending trial in district court.

Sheriff Cartwright said some 25 Hart High School freshmen were on a hayride at the time of the tragedy. The group were riding two four-wheel trailers pulled

by two tractors. The Mexican car struck a wheel on the lead trailer ripping a fender off, careened out of control and crashed head on into the tractor immediately behind the trailer. No other students were hurt nor were either of the Mexicans.

Damages to the car, trailer and tractor were figured at \$1,500. The car was almost a total loss.

The Hart accident marked the fourth wreck this year in which a Castro county resident was

killed and is one of the worst traffic fatality records for a single year in the county's history. Only a week and a half ago two county youths were killed, one near Nazareth and the other near Littlefield. In August a Mexican laborer was killed north of Dimmitt.

Pallbearers for the funeral were Jimmy Sharp, Donnie George, Billy Whitten, Bill Harie, Don Cook, Thomas Brooks, Freddie Lilley and Jack Sharp.

Successful Sunnyside Farm Tour Draws Comment And Discussion From Visitors

Fifteen farmers and farm officials saw on the scene examples of farm management, practices and problems during the successful Sunnyside Farm Tour conducted Tuesday afternoon.

County Agent Marvin Simms, one of the group making the tour, commented after it was over, "I think it was a good tour. With the small group we had there were many questions asked and much comment and discussion."

Sunnyside Farmer Noble Howard, who was instrumental in the planning of the tour, was commended by the group for doing a fine job.

The tourists made their first stop at 1:30 p.m. on the Harry Axtell and Cecil Curtis farms where they saw a "fine" crop of lettuce. The lettuce is heading out and will be ready to harvest in 30 days, according to the owners.

Tommy Alair's farm held considerable interest for the visitors as Alair has a bumper crop of soy beans that he is growing as a money crop and in order to build up his land.

The group next went to the E. R. Sadler place where they saw a field of corn and cow peas being pastured by sheep. Sadler indicated to the group that he can make more out of corn and cow peas this way than any other way because "I get an enormous amount of pasture and don't have harvesting expense."

The tour party saw a cotton breeding plot on the Ray Joe Riley farm. Riley is breeding for long staple cotton and upright growth to facilitate harvesting with a machine.

The group had a break at 3 p.m.

Cats To Face "Acid Test" Against Owls

Bobcats Prep For Strong Hale Center Eleven After Drubbing Turkey, 33-0

The Dimmitt Bobcats clawed their way to an impressive 33-0 victory over Coach Bill Querner's Turkey Turks Friday night to take their second straight non-conference win of the season. However, Coach Leo Fields hinted that despite this one-sided game the Bobcats would have to play their best game to date when they face the strong Hale Center Owls at Hale Center Friday night in what is generally considered "the first acid test of the season."

The Owls, ably coached by "Hoss" Eyerly, have an almost new

starting lineup this season as they lost 13 lettermen from the 1954 roster. In spite of this fact, however, they are rated as favorites with Crosbyton to win their district. They have already convinced sportscasters of their ability by dumping Lockney in their season opener and tying the highly-touted Sundown Roughnecks 13-13 last Friday night.

The Owls will field a line averaging about 165 pounds and a backfield averaging about 155 pounds compared to Dimmitt's line of between 175 and 180 pounds and backfield of approximately 160 pounds. The Cats have the weight advantage but the Owls reportedly are a fast running and passing team.

The Bobcats will likely see plenty of such starting backfield men as: Quarterback Leon Douglas, 142 pounds; Fullback Ferman McBeth, 170 pounds; Tailback Neil McDowell, 148; and Wingback Durward Hart, 141 pounds.

Don Sheffy, 135 pounds; Monte Boozer, 190 pounds; Wilmer Studer, 155 pounds; and Don Mobley, 155 pounds will likely bear the purple and white colors for Dimmitt in the backfield. Jimmy Cole at 210, Howard Smithson at 200, Billy Gafford at 160 and Joe Ben Mitchell at 150 will probably be among linemen seeing action for Dimmitt when the Bobcats take on Hale Center at Hale Center Friday night at 8 p.m.

In their game with Turkey, the Bobcats scored touchdowns in the first and second quarters and were leading 13-0 at halftime. Capping a 35 yard drive in the first quarter, Altor Bates plunged through the middle for five yards and a score and Don Sheffy carried over for the conversion. The Cats went wild in the third period with Bates again plunging over for five yards and a TD and Monte Boozer running the extra point over. Boozer ripped off 11 yards for a touchdown and Gary Cleaver pulled in a 25 yard aerial from Wilmer Studer to account for the other two third quarter scores.

The teams played fairly even in the fourth quarter as Coach Fields put in reserves at the close of the contest. Turkey did threaten once going to the Cat 10 yard stripe in the third before giving up the ball.

Dimmitt Girl Hurt In Highway Wreck

A traffic accident just east of Dimmitt Tuesday night resulted in serious injury to Dimmitt Resident Linda Hance, daughter of Mr. and Mrs. Raymond Hance, according to a report from the sheriff's office.

Miss Hance was hospitalized here where she was treated for a cut on the back of her head and multiple bruises and scratches. She is reported to be in satisfactory condition.

According to Sheriff Jack Cartwright, faulty steering caused the 1950 Chevrolet pickup Miss Hance was driving to leave Highway 86, a mile east of town, and turn over two times. The victim was pinned underneath but was rescued a short time later by passing motorists and brought to the hospital here.

Damage to the vehicle was estimated at \$400.

Popular Youth Leaders To Direct Fall Baptist Revival Here Sept. 24-Oct. 2

Two popular Christian youth leaders will be in charge of the fall Baptist revival starting here Saturday, September 24 and continuing through Sunday, Oct. 2.

Rev. Lonnie Kliever, 23-year-old State Baptist Student Union president, will be the speaker, and Rev. John Petty, secretary of the Baptist Youth Center at West Texas State College, will be in charge of music. Services will be held daily at 7:30 a.m. and 8 p.m.

The guest speaker was popular in college and headed a number of campus clubs and organizations. Rev. Kliever has led thirty youth revivals; has been a speaker at the Rirdgecrest and Glorieta Student Retreats; and served as associate pastor of the First Baptist Church, El Paso, during the summer just past.

Rev. Petty is a graduate of Hardin-Simmons University, also, and has been a very prominent youth worker in the state. Both he and Rev. Kliever have had active parts in the youth encampments at Plains Baptist Assembly near Floydada.

Teenagers are especially urged to attend services as youth emphasis will be the revival theme. All age groups are invited to be present as the revival will hold interest for both young and old.

THE BIG ONE that didn't get away is exhibited above by proud fishermen, H. H. Houtchens, at left, and his son-in-law Marvin Boyd. The huge cat fish tipped the scales at 55 pounds and was hooked on a trout line in Elephant Butte Lake during a recent fishing trip at Truth or Consequences, N. M. Accompanying Houtchens and Boyd on the trip were Mrs. Houtchens and Mrs. Boyd and family. The Dimmitt party caught a total of 512 pounds of fish, ranging in weight from four pounds to 55 pounds. They were very pleased with the 15 fish which were caught on this particular outing with live minnows.

New Telephone Service Inaugurated In Area With "Cutover" Ceremony

A number of local telephone officials, employees and other interested persons were on hand Saturday night to witness a service cutover by the Dimmitt telephone company. The cutover of facilities from the old building to the new was made at 11:30 p.m.

T. A. Singer, local company owner and a pioneer of telephone service in this area, presided at the ceremony which went according to plans with only a minimum amount of service interruption.

The cutover from a 24-volt operation to a 48-volt operation was executed within a matter of minutes as everything had been prearranged. Singer's son, Elton, stated following the ceremony, "We realized at the time of the cutover that there will be some bugs and it will take time to work things out. However, if the people will be patient we will have things running smooth as soon as possible."

The expanded service and facilities necessitated the installation of 16,000 feet of cable or more than twice the amount that was in use before the cutover. It also doubled the capacity of the old three-position board. The local company will have a long distance operator on full time duty which will greatly facilitate this service.

Open house for the new headquarters, which is located in a new brick and tile building next to the old building in northeast Dimmitt, will be held at a later date in order that the public might inspect new equipment and facilities.

Better service to more people is the goal of the local company. And with the opening of the new building, officials hope to achieve this goal.

Father Of Local Man Is Buried

Services were conducted Thursday (Sept. 15) for George Marion Martin, 83-year-old Wichita Falls resident and father of Ray Martin of Dimmitt. Mr. Martin died Tuesday morning (Sept. 13) in a Wichita Falls hospital after an illness of several years. The service, under direction of Rix Funeral Home of Lubbock, was held in the First Four Square Church there with Rev. Floyd Dawson, pastor, officiating. Interment was in Lubbock City Cemetery.

Besides his son here, Mr. Martin leaves six other sons and six daughters, also 39 grandchildren and 20 great-grandchildren.

County Yield Set At 750 Million Pounds

Hart Farmer Makes 1st Grain Sorghum Loan Application Here On Friday

The first grain sorghum loans for Castro county were written up at the local Agricultural Stabilization and Conservation office Friday, according to Doyle Thomas, secretary.

R. W. Welsch of Hart made the first loan application on 171,087 pounds for a net of \$1.51 per hundred pounds. Welsch's best yield was figured at 4,000 pounds while poorest yield was estimated at 3,000 pounds to air acre. His crop is reported better this year than last year.

The first 1955 loan compares

with the first 1954 loan applied for by Lorenzo Lee, also of Hart. The total amount of grain sorghums Lee put into loan came to 31,470 pounds. He netted \$2.02 per hundred pounds.

Thomas estimates that between 250,000 and 300,000 acres are seeded to grain sorghums in the county this year. This is above the 1954 total acreage which was less than 200,000. The predicted county yield this year will be slightly above 1954, too, as an estimated 750 million pounds of grain sorghums will be harvested in Castro this fall. 1954 was a record harvest. However, 1955 is expected to set still another record.

The average grain sorghum yield in the county this year is figured at between 2,800 and 3,000 pounds per acre. Thomas expects to take between 3,500 and 4,000 loan applications on the 1955 crop.

Strong Winds Hit Castro County

Winds up to 40 miles an hour swept across Castro county late Wednesday night as an indirect result of coastal hurricanes that have taken a large toll of human lives and caused high property damages.

According to weather forecasters, the Wednesday night storm in the Panhandle was caused by hurricane-driven rains that swept across the state, colliding with a slow moving cold front in this area.

There was no report of property damages or injuries in Dimmitt and only between .05 and .10 of an inch of rain fell in the county seat. Some maize in the county was believed to have been blown down because of the storm, but otherwise crops were undamaged.

W. T. NELSON

Lion Governor Speaks Here

District Lion Governor W. T. (Dub) Nelson of Childress received a standing ovation from fellow Dimmitt Lions when he spoke here at their Tuesday luncheon meeting.

The district governor, introduced by local Lion President Earl Brock, emphasized the Lion's role in the community and the nation by citing Lion projects for cripple children and blind people. Nelson said that the reason we have a cripple children's camp at Kerrville, Nelson stated. He added, "It's good to give when you know you are helping others. And it gives you a feeling of pride and humility just to know you are a Lion and have had something to do with such worthy projects."

Nelson pointed out the seeing eye dog program in Michigan under the direction of the Lions of that state and the fact that Texas Lions have invested \$680,000 in the camp at Kerrville. "Lionism is a fusion of humanism and the divine," he exclaimed. "Let's continue to work together and help others."

Nelson was the only club guest at the Tuesday meeting. Lions Buster Cooper and Don Williams of the "Lions of the Year" club at the next club meeting.

Parade Entries Draw Applause

Parade fans lined the streets here Saturday morning to applaud float, riding, band and pooh entries in the colorful Castro County Fair parade, one of the best ever staged during fair time.

The Dennis Fungel Home float won first in commercial float competition and the Southwestern Public Service entry placed second. In the class for industrial floats, Dimmitt Implement was first and Castro Motor Company, second. The local Lions Club topped all entries in the organization class and the Dimmitt American Legion and Hart junior class floats ranked second and third respectively in this same class.

The precision marching of the 75-piece Dimmitt High School band drew praise for organization and appearance. However, the local band was not entered in competition.

The parade of poohs attracted attention and interest, and this aspect of the parade will likely be one of the big highlights of next year's event.

Spiritual Singers To Appear Here

The nationally known "Spiritual Singers," from Southwestern Christian College of Terrell, Texas make an appearance at the Church of Christ located at W. Bedford and Southwest Fourth Streets, at 8 p.m. on Sept. 25.

These Negro singers are widely known for the excellence of their performance in presenting both hymns and spirituals. During the past two years they have made appearances before more than one million people in practically every state and in Canada. They are experienced radio and television artists. The public is cordially invited to hear them. A pleasant hour is assured.

Two Commercial Projects To Be Completed Soon

Two commercial projects involving expenditures of \$12,000 will be completed in Dimmitt within the next month and a half.

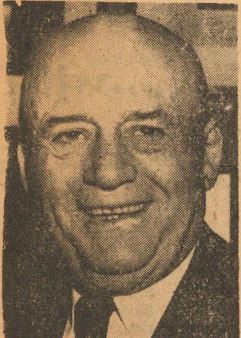

Work will start next week on a new store front and 40 foot extension for Gladman Drug. A modern, all glass and aluminum front will be installed and the interior of the building will be redecorated. All new fixtures will be installed as well as a new air conditioning system. Forty feet will be added to the rear of the building to make more space available.

According to the owner, Don Gladman, the drug store soda fountain will be moved to the rear of the building and wall cases will take up space in the front of the store. A new ceiling will also be installed and all of the store interior will be re-painted. Cost of the project, which is under contract to Harold Gladman and will be completed by November 1, is estimated at \$8,000.

Brown Supply, Lubbock manufacturer of concrete and aluminum irrigation pipes, have already started work on a concrete block branch office near the north city limits. Located just east of Highway 51, the 50x30 foot building will house office space in the front and storage space in the rear.

The Lubbock firm is building the branch office at a cost of \$4,000. Concrete and aluminum pipes as well as road culverts will be available to county farmers at the new location, which will be finished by October 15.

Sam Rayburn In Sudan Friday

SAM RAYBURN

SAM RAYBURN, speaker of the U. S. House of Representatives, will be the main speaker at the United Nations and World Peace pageant to be held at Sudan Friday and Saturday. The program will have an international theme. Rayburn will bring his address at 9 p.m. Saturday in Sudan City Park.

Cash Way Holds Big Open House

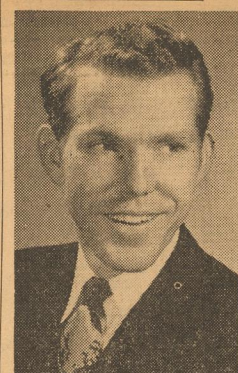

Three thousand persons attended a special open house for the new Cash Way Grocery in north Dimmitt Tuesday night as cars jammed all available parking space around the modern super market.

Store Owner C. W. (Wimpy) Walker later exclaimed that the event was the biggest and most successful that Cash Way has ever known. Walker remarked, "I'm really proud of the splendid turnout for our open house. It was above my expectations."

Some 1,100 persons registered for prizes that will be given away during Cash Way's grand opening sale slated for Friday and Saturday, September 30 and October 1.

Little Joe Crowder and his family, Lubbock radio and TV entertainers, kept the large crowd of visitors in a jovial mood with their "fine brand" of western entertainment. The store remained open until late in order that everyone might inspect new facilities.

Walker stated that two telephones will be installed at the new location to facilitate service in the future. The old phone will be removed and two new numbers will be assigned the store.

REV. CLIFF HANKS

Assembly Of God Slates Revival

Rev. J. A. Bradley, pastor of the Assembly of God Church here, announces a Sunday School revival to begin at the local church Sunday morning, Sept. 25. The revival will continue through September 29 and services will be held each evening at 8 o'clock.

Rev. Cliff Hanks of Wichita Falls will be the visiting evangelist. He is described as an able speaker and teacher. Rev. Hanks will teach from the book, "And He Gave Teachers," written by Rev. D. V. Hurst. This is an intensified, training for service course, designed to increase the Christian's responsibility to "go teach in answer to Jesus' Command." The revival promises to be inspirational, educational and interesting. Rev. Bradley says.

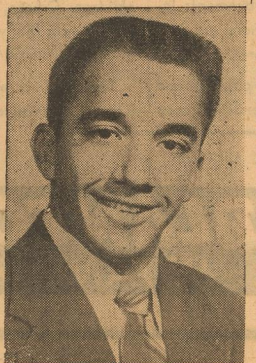

Surrounding Assemblies will cooperate in the revival, which is open to the public.

Grand Jury Hands Down 1 True Bill

Three cases went before September session of Grand Jury here Monday and one true bill was returned.

All three were criminal cases, records show. The true bill is the State of Texas vs Cecil Beavers, local resident. Beavers is charged with driving a vehicle while intoxicated on August 13. He is presently out of jail on \$1,000 bond pending trial in county court. Beavers has been convicted twice before on DWI charges, according to information on his case.

District Judge E. A. Bills presided over the Monday Grand Jury session.

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD
Texas Press Association

Granite in the capitol building is more radioactive than the dirt being used by Texas' mushrooming "uranium dirt-sitting" businesses. So say state health department officials.

Landowners near uranium strikes have erected benches and charge patrons \$2 to \$3 an hour to sit with their feet in the supposedly irradiated dirt. Hundreds of people seeking relief from arthritis and other aches have patronized the places.

After analyzing the dirt, Dr. Henry Holle, health commissioner, said that dirt-sitting does no actual harm—except that it may encourage an ill person to delay visiting a physician.

Farm Hearing Stated

Texas farmers can have their say on federal farm policy at a U. S. Senate committee hearing Nov. 5 in Ft. Worth.

Drought Aid Sought

Federal disaster aid is being sought for Texas' drought-stricken areas.

Gov. Allan Shivers asked President Eisenhower to designate as disaster areas counties to be specified by the U. S. Department of

Agriculture state drought committee.

Crop Production Falls

Texas crops are falling below estimates, according to the USDA. Although above-normal amounts of rain fell in some areas, it did not come where and when it was needed most, said the report. Eastern and southeastern counties, where harvest already had begun, were soaked. But in the west and northwest, dryland cotton and sorghum fields languished.

Water Application Undecided

Still to be decided upon is the application for more Pedernales River water to irrigate U. S. Sen. Lyndon Johnson's Gillespie county farm.

Originally scheduled in July, hearing before the State Board of Water Engineers has been postponed three times. No new date was set last week.

Downstream landowners had protested that Johnson's water storage already worked a hardship.

Hospitals Approved

Five Texas hospital projects have been approved by the State Board of Health for federal aid money.

They are the Collins County Hospital at McKinney, City Hospital at Graham, city-county health center and All Saints Hospital at Ft. Worth, and the Shelby County Hospital at Center.

Short Shorts

Former Secretary of Defense Robert B. Anderson, once considered a possible gubernatorial candidate, is apparently out of the running. He is to become president of Ventures, Ltd., a Canadian holding company with mineral interests spread over two continents.

Atty. Gen. John Ben Shepperd is the newly-elected president of the 53-member National Association of Attorneys General. He was elevated from vice president at the New Hampshire convention.

Selection of a new Democratic National Committeeman, to replace ousted Wright Morrow, has been postponed by the Democratic State Executive committee

until Oct. 6. Also it will meet in Waco instead of Ft. Worth.

Over the week-end Gov. Allan Shivers attended his first meeting of the National Civil Defense Advisory Commission, to which he was appointed by President Eisenhower. It was held in Omaha, Neb.

Mrs. Mary Joe Carrol, wife of a UT history professor, made feminine legal history by emerging as high scorer in state bar exams. She works for the Austin law firm of Looney, Clark and Moorhead.

Texas' new Advisory Committee on Atomic Energy, created by the Legislature, was appointed by Governor Shivers, with Dallas attorney Frank Norton as chairman. Its 17 members were selected from major fields of actual and potential activity in atomic energy research, development, and application.

Texas received another batch of 157,644 "shots" of Salk polio vaccine from Eli Lilly and Co. of Indianapolis. It went direct to commercial drug channels, to be used outside the school program, on doctors' prescriptions.

Irving school teachers, accused of "going on strike" in protest when superintendent was temporarily fired, won a victory in district court in Austin. Judge Jack Roberts denied an application of Irving taxpayers seeking to compel Commissioner of Education J. W. Edgar to forfeit the teachers' certificates. Judge Roberts ruled that the plaintiffs had no "justifiable interest" in the matter, and that the courts probably had no jurisdiction.

Texas Turnpike Authority received a low bid of \$1,856,822.07 on the first unit of construction of the Dallas-Ft. Worth toll expressway. It was made by Austin Bridge Company and Austin Road Company, both of Dallas.

Lyle C. Harris, longtime member of the Board of Pardons and Paroles, died only two months after his appointment for a new six-year term.

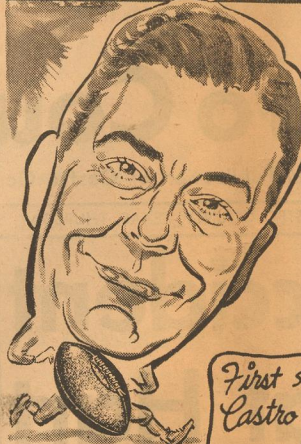

Adlai Stevenson will make a non-political speech in Austin on Sept. 28 in UT's Gregory gym.

Texas contractors look to 1956 as one of their biggest years in history. Future building projects already approved by federal, state and local government units total \$1,760,909,219.00. Construction during the first eight months of 1955 totaled \$613,610,219.00. That's \$58,000,000.00 over the same period last year.

Low bids totaling \$12,960,408.00 on 46 road building projects were tabulated last week by the State Highway Department.

Bond issues hit an all-time high of \$426,000,000.00 on public works projects in Texas cities, counties and school districts during the past year.

Livestock, Range Forage Balance Is Number 1 Problem

COLLEGE STATION, Sept. 22—Maintaining the right balance between livestock numbers and available range feed and forage is one of the toughest problems faced by the ranchman or stock farmer. Weather variables, too dry and less frequently too wet, make necessary continuous adjustments in stocking rates, says A. H. Walker, extension range specialist.

The well planned livestock program, explains the specialist, should be based on average years and not on a single good year. The program should make provisions for deferred grazing of at least one pasture each year; the planting of supplemental grazing crops—summer and winter; adequate reserves of hay and silage; grazing off only about half the growth of native grasses and buying feeds needed early and in season.

Deferred grazing, points out Walker, is usually the cheapest and best method of range recovery. It provides for seed, plant vigor and litter, that is, if the deferred pastures are not grazed until frost. Too, he adds, close grazing results in less forage produced; invasion of pastures by poorer kinds of plants; soil washing or erosion and perhaps of most importance—rainfall penetration is greatly reduced. During May and June 10 inches of rain were recorded at the Spur Experiment Station, on bare soil moisture penetration was 9 inches but was 51 inches on soil with a good grass cover.

If calves or lambs are being held over for the winter, Walker says only a plentiful supply of grass will make the holding a

paying proposition. He says too many operators wait for rain in September and October to produce their range feed for the winter season. "It's a big gamble which seldom pays off and making needed adjustments in livestock numbers before a lack of grass forces marketing is a better method to follow," says Walker.

His final suggestion, try to keep a reserve of cured grass on the range; hay in the barn and silage in the ground.

Mrs. Jimmy Brock Identifies Mystery Farm

Mrs. Jimmy Brock came up with the right answer for mystery farm number 34 and will receive a year's subscription to the News free. Mrs. Brock correctly identified last week's mystery farm picture as that of Mrs. W. S. Dixon, which is currently being rented by Weldon Bradley.

Bradley has been on the farm six years and the farm has been owned by the Dixons for some 33 years. Recent improvements include a new home and well. There are two wells on the entire 640 acre farm.

The farm was first put under plow around 1920. Bradley employs a diversified crop

system, rotating crops as much as possible. He has 500 acres in cultivation; 80 acres in cotton, 20 for summer till wheat and 400 in maize. He also deep breaks each year, believing this is conducive to better yields.

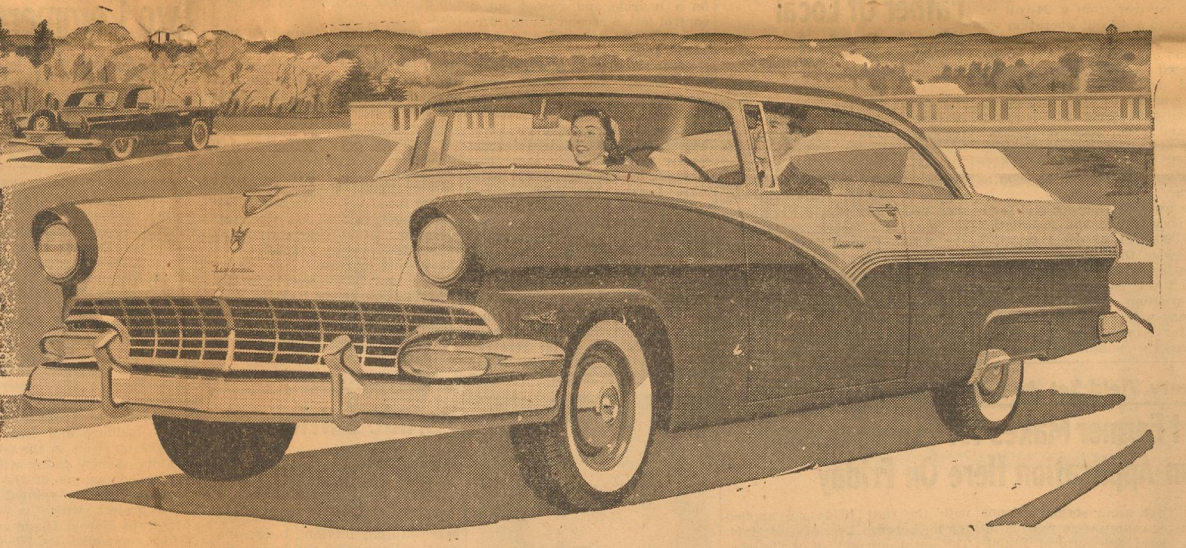

Bradley has 28 head of calves and milk cows. His favorite stock is whitefaces.

The Castro county farmer is married to the former Miss Irene Dixon. They have four children: Ometa, 15, tenth grade; Carl, 12, fifth grade; Molly, 7, second grade; and Lee, 5.

The Bradleys are members of the Baptist Church and the county Farm Bureau.

Here Friday! NEW '56 FORD!

The fine car at half the fine car price!

With new 202-h.p. Thunderbird Y-8

New 202-h.p. Thunderbird Y-8 engine is available in Fordomatic Fairlanes and Station Wagons. In Fordomatic Customlines and Mainlines you can have the 176-h.p. Y-8. And Ford's new 137-h.p. Six is available in all 18 models.

...with new Thunderbird styling

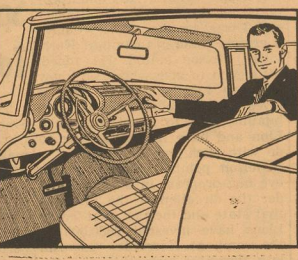

The new '56 Ford looks like the Thunderbird! You'll find the same graceful lines... the same long, low silhouette... the same dashing appearance... styling which helped the fabulous Ford Thunderbird to win America's heart.

...with new Lifeguard Design

For '56, Ford brings you the greatest safety news in a generation... Lifeguard Design. In cooperation with universities, medical associations and safety experts, Ford learned the cause of most serious injuries in accidents. To provide extra protection against these hazards Ford developed the new Lifeguard features described at right.

But there is still more wonderful news! Ford brings you Thunderbird power in a modern deep-block Y-8... Thunderbird beauty, too... rich new interiors... quality throughout.

See it... try it... you'll agree the '56 Ford is the fine car at half the fine car price.

Come in... See the new '56 FORD Friday

Wayne Collins, Melba Curry, Joe Ben Mitchell, Don Mobley, Melba Shelton, Barbara Stevens, Alton Whitworth, and Joe Lee Wilcox.

We Are Growing

The student body of Dimmitt High School is to be commended for their general conduct this school term. Their attitude in the lunch room, for an example, during the noon hour has been such that there are no teachers assigned to watch the line.

The students have been very kind and have helped the new students who have just entered school here at Dimmitt. Again we say we are very proud to have each and every new student.

We as students are so very proud to see the changes and improvements in Dimmitt High. To

the ones who have been here a few years, it is still quite odd to go toward the gym for study hall and toward the old study hall to type. We will be accustomed to it in a few weeks and everyone will have a permanent schedule and the high school curriculum will be moving smoothly once again.

Mr. Newman and Mr. Vestal have complimented the 1955-56 faculty in their work with their students. We have more teachers this year than ever before. Dimmitt Schools have grown tremendously the last years in both size and strength. Again, we are very proud of the progress of our Dimmitt Schools.

Bobcats Roll Over

Turks 33-0

The Bobcats scored on Turkey early in the first quarter climaxing a 70-yard drive when Alton Bates plunged over from the five. Don Sheffy ran over the extra point. The next Bobcat score was set up when halfback Zay Gilbreath interrupted a Turk pass. After a 45-yard drive Mobley scored on a 10-yard end run. Don Sheffy again scored the extra point.

The third touchdown was made by Alton Bates on a 10-yard run. Monty Boozer rammed through for the extra point. The Cats returned a punt to the 30 yard line and drove to the ten where Monty Boozer made a 10-yard drive to paydirt.

In the fourth quarter Dimmitt reserves showed two promising players in quarterback Wilmer Studer and end Gary Cleaver when Studer completed a 40-yard pass to end Gary Cleaver to make the score Dimmitt 33, Turkey 0. Next week the Bobcats' true mettle will be tested when they take on the ever-dangerous Hale Center Owls. Although they have lost several boys from last year's squad, they are one of the powers of Class A. The Bobcats journey to Hale Center for the game.

Bobcat Band Travels

To Tri-State Fair

Teddy bears, dolls, and blisters were brought back from the fair by the Bobcat Band. The spappy 70-piece Bobcat Band participated in the Tri-State Fair Parade, Monday. The band was among 30 other bands to participate in the big parade. It was a two hour parade, and no awards were given. The parade was televised.

After the parade all of the bands went to the fair grounds to enjoy the rides on the Midway. The tired Bobcat Band returned from the trip late Monday afternoon.

FFA Takes Honors

At Castro Fair

Several members of the local FFA Chapter placed high in the Castro County Fair. These programs were under the direction of J. O. Seale, agriculture instructor.

Glenn Odom showed two Poland China gilts and two Poland China boars. He placed 6th and 8th on his gilts and 3rd and 5th on his boars. David Cole placed 4th on his Chested White gilt and 4th, 6th, 7th, and 8th on his barrows. Boyce Tate placed second on his crossbred lamb, and 6th on his barrow, and took a 4th on his gilt. Jimmy Cole got 2nd on his Chester White Gilt, Byron Tate had the Grand Champion Lamb, and won 5th on his Duroc barrow.

At this writing results were not available on livestock shown by Cary Johnson, Wilson DiCuffa, Ronny Nelson, Howard Smithson, Danny Bruton, Donald Curry, Edward DeLozier, and Don Howell.

Kress Wins Over Hart 32-0

Hart played a hard fighting game until the end Friday night. One thing that they can be congratulated on was that there was less fumbling than in their last two games. The scores and statistics were all in Kress's favor.

Kress gained 356 yards in rushing. Hart had only 71 yards. Kress attempted 14 passes, completed two for a gain of 40 yards and had only two intercepted. Hart attempted 12 passes and completed three for 33 yards and had one intercepted. Hart punted six times for an average of 38 yards. Kress punted two times for an average of 30 yards.

Williams, Johnson and Brinkley each made one touchdown while Rheinhardt scored two. Johnson scored both extra points.
Score by quarters:
1st, 20-0; 2nd, 26-0; 3rd, 32-0; 4th, 32-0.

Senior of the Week

Davy Crockett Not Born In Tennessee

Davy Crockett, the ubiquitous king of the wild frontier, was, according to words of the recently inescapable ballad, "born on a mountain top in Tennessee." Now, alas for legend, no less an authority than Rep. B. Carroll Reese, Tennessee Republican, says that

State Education Conference Set

Local school board members, school superintendents and others interested in public education will gather in Austin Oct. 7-8 to study and discuss local and state problems facing Texas public schools.

The Texas Association of School Boards, with editorial and research office at the University of Texas, will devote a large portion of its annual meeting to two live problems faced by local boards; integration and school district organization. Other topics will include school law, school architecture, the reading controversy, personnel policies and school board community relations.

Speakers will include Miss Waurine Walker of the Texas Educational Association; Dr. Frederick Eby, University of Texas professor of the history and philosophy of education; Thomas B. Ramey of Tyler Texas, Texas State Board of Education chairman, and Dr. J. W. Edgar, Texas education commissioner.

Davy Crockett was born neither in Tennessee or in North Carolina, as others claim, but in the short-lived state of Frankland or Franklin which he said was in effective being from 1784 to 1788. Davy was born in 1786.

For the four-year period Franklin was running its own affairs. Its interesting system of legal tender ran something like this: one fox skin equivalent of one shilling and sixpence; a beaver skir was worth six shillings; and a gallon of rye whiskey equalled two shillings and a sixpence. Congress never acted on Franklin's request for valid statehood and the citizens accepted the authority of the State of North Carolina before Davy Crockett "killed him a b'ar when he was only three."

Castro County Fair Winners Listed After Exhibits Before More Than 5,000 Visitors

Visitors from far and near thronged the Castro County Fair grounds Thursday, Friday and Saturday as the annual event, which got off to a slow start, concluded with one of the best attendance marks on record. Between 5,000 and 6,000 persons visited the fair grounds during the successful three-day event.

Enthusiasm and interest was high, too, as visitors filed through the various show barns and buildings to view what was termed by many as "some of the finest animals and products ever shown at a Castro County Fair."

Almost every animal exhibited was a grand champion in its own right and judges found it difficult to come up with a top animal in each division. Winning the grand champion gilt award in the Junior Swine Division was Donny George, Aaron Hutto was runner-up with the reserve champion gilt.

Fred Acker showed the grand champion boar with his Chester White barrow. The reserve champion boar award went to Don Howell.

Byron Tate walked away with the grand champion lamb in the Junior Sheep Division and Don Howell exhibited the reserve champion lamb. Exhibiting the grand champion buck was Norman Nelson while his brother, Joe, showed the reserve champion. Joe took both the grand and reserve champion ewe awards.

Marilyn Braddock was the grand champion junior heifer winner and Alphonse Husemar showed the reserve champion.

Displaying the grand and reserve champions in the Junior Beef Division were Richard Hunter and Edward DeLozier, respectively.

The Brown Swiss Division grand champion award went to Vincent Braddock. Braddock also showed the reserve champion. Braddock swept this division by taking the grand and reserve champion cow awards as well.

Roscoe Fort was owner of the grand champion bull in the Aberdeen Angus division and Bill Summers showed the reserve champion heifer in this division.

Grand champion cow winner in the Jersey Division was Frank Huseman.

In the Milking Shorthorn Division, Harry Rothwell of Roth Acres Farms made a clean sweep. Rothwell showed the grand champion in the 2-year-old class; reserve champion in the junior and senior yearling class; reserve champion in the 3-year-old and over cow class; and grand champion in the Division of bulls, over two years

old and under three. George Burch and son exhibited the reserve champion.

In the community exhibits department, Hart placed first, Dimmitt second, Sunnyside third, Bethel fourth, Flagg fifth, Nazarcus for dry cows.

H. D. Robbins took the grand champion award in the Hereford eth sixth and Big Square seventh.

Glenn Ann Maples was declared winner of the champion female chicken award in the poultry division and Berl Couch took reserve champion honors. Berl Couch showed the grand champion male while Wanda Couch had the reserve champion in this same class.

Winners in the individual farm products department went like this:

BALED HAY (alfalfa bale)—1st place, Jim Smith; 2nd place, Eugene Ward.

SUDAN BALE—1st place, Jim Smith; 2nd place, Gayland Anderson.

CORN (yellow corn)—1st place, Jim Smith; 2nd place, James Norman Burgin; 3rd place, Joe Drerup; 4th place, John Lacy.

THE 35TH MYSTERY FARM is this week's "puzzler" pictured above. Can you guess it? Calls have been few in recent weeks indicating that readers have been baffled lately with the mystery farm series. This is a Castro county farm snapped by the aerial photographer from an unusual angle to fool the reader. Try your luck by calling the News at 88. Blanton Butane, Inc. is sponsor of the mystery farm series.

Nazareth News

On Friday, Sept. 9, the fifth and Sixth Grades had a meeting for the election of officers. Marvin Schulte was elected president; Donna Rose Gerber vice-president; Evelyn Birkenfeld secretary and Ralph Brockman, reporter.

Interesting articles have been placed on the bulletin board. To encourage us to read them regularly, we have tests.

Sister Loyola, our teacher, wants to help us in reading. She gave fourteen tests, called "Trouble Shooter Check List." She analyzed our mistakes and we have begun remedial work. She is also giving us a chance to help make

our reports to our parents. We are keeping a record of our arithmetic, reading, and spelling with graphs.

School will be dismissed on Thursday, Sept. 22, in order to give the students an opportunity to visit the Tri-State Fair at Amarillo.

Funeral services were held Sept. 12, in Holy Family Church for Dwight Klemm, four year old son of Mr. and Mrs. Paul Klemm.

He is also survived by his maternal and paternal grandparents, Mr. and Mrs. Walter Schulte, and Mr. and Mrs. Hary Klemm. Pallbearers were David Schulte, Wayne Schulte, Greg Venhaus, and Norbert Gerber.

Miss Joan Book left Sept. 11 to attend school at Texas Technological College in Lubbock.

"Come Thou With Us, and We Will Do The Good"

Something NEW Has Been Added To Better Serve You During the Harvest Season

We are installing a Semi-Truck dump in our No. 1 elevator. This house will also have an overhead dump. Your SemiTruck can dump now almost as quickly as a Bob-tail truck, pickup or four wheel trailer. This new dump should be in operation by September 22.

We have purchased the two small elevators south of us, formerly owned by Kimbell Elevators. We are now repairing these two houses, and will dump all white grain there to relieve the rush on our two main elevators during the peak of the harvest.

We will have 1,000,000 bushels of storage room in the local elevators, and the management is happy to have obtained 1,000,000 bushels of terminal storage. We hope to ship new milo as boxcars are available during the harvest.

We have three experienced elevator men and are training one more who will be regularly employed. We have selected these men carefully. They are sober, honest, and hard working men. These men will treat you with the same courtesy in carefully unloading your Semi-truck, truck, pickup or farm trailer.

We have repaired many parts of the four elevators and with some work still to be done, we feel that your elevators will be in top shape for what will perhaps be the largest harvest in our history.

Your Board of Directors, the Manager, the office employees, and the boys working in and around the elevators want to thank you from the bottom of our hearts for your patronage and cooperation. Remember it doesn't cost you anything to patronize your Cooperative—IT PAYS.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

Respect School Traffic

Thousands of school children are trooping back to school. Many of them will be transported by school buses. Fortunately most people are careful when approaching a school bus which may be standing beside the road or school to pick up school children or allow them to alight. But, nevertheless, we have had some very bad accidents because a child or a motorist, or both, were careless at that very time.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to proceed past same at a speed "which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children."

What many persons do not realize is that the very same rule applies when MEETING a stopped school bus. While everyone is interested in protecting our children, unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can

lead to fines up to \$200.00 even when an accident occurs. Following an accident in which some child is injured or killed, the penalties are rationally much more serious.

Although the above rule does not apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

In the same category is the prohibition against passing on the right in a few specific instances, such as when the vehicle overtaken is making or about to make a left turn, or upon a one-way street with two or more lanes, or upon a four-lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting such movement in safety. And, in no event should such passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Familiar to all are the no passing zones designated by dash lines placed on one side of the center stripe on our highways. Not so well known are the restrictions against crossing the center line when approaching within 100 feet of or when traversing any intersection or railroad grade crossing.

A driver should never cross the

Lonhorns Lose; Prep For Plains

Coach Paul Boswell's Hart Lonhorns settled back to stiff workouts and formations and play drills this week after suffering their third straight loss of the season to the rejuvenated Kress Kangaroos, 32-0.

The Lonhorns are idle this weekend as they have an open date on their schedule. However, they won't be idle on the practice field as Coach Boswell plans plenty of rugged drills in an effort to iron out mistakes and get the maroon and white gridders in peak shape for their second conference encounter at Plains on September 30. Inexperience has hurt the Hart team but their determination to do better is a credit to Boswell who faces the task of building a sturdy squad in his initial year at Hart.

The game with Plains is a conference test. The Cowboys nipped the Meadow Bronchos 14-13 last week and are a formidable team but have a number of weaknesses that the Lonhorns hope to solve. In any event this shapes up as an interesting game and a good crowd is expected.

In the Kress game, the Lonhorns made some scoring threats but were unable to click in the crucial spots. Scoring for Kress were Ellison Williams, Charles Rheinhardt, Larry Johnson and Jimmy Brinkley. Three of the TD's came on 65, 75 and 87 yard runs. The Kangaroos made two of their extra points count.

Sudan To Stage U. N. Pageant

Representative Sam Rayburn, speaker of the United States House of Representatives, will be the main speaker at the fourth annual Parade of Nations and United Nations Pageant scheduled to be held at Sudar Saturday, September 24.

The colorful pageant attracts persons from all over West Texas and neighboring states each year and is billed as the city's biggest event of the year. The event is dedicated to world peace and depicts the nations of the world in their native costumes with a "parade of nations."

center line of a highway when the left side of the road is not clearly visible and free of oncoming traffic. Generally speaking, when not engaged in passing another vehicle, one should not drive to the left of the center of the roadway.

First Dimmitt Bale Brings Premium Price

The first 1955 bale of cotton ginned in Dimmitt was brought in September 9 and was grown by D. E. Banks on lands owned by Selen Clements, two miles southwest of town.

Dimmitt Gin handled the first local bale, which weighed 590 pounds and was classed middling 15/16. The bale brought a premium price of 50 cents per pound.

Brown Swiss Bulls Sold At Nazareth

Vincent Braddock of Nazareth, a Brown Swiss cattle breeder, recently completed a transaction involving the sale of two bulls from his prize herd, according to a report from Fred S. Idtse, secretary of the Brown Swiss Cattle Breeders' Association.

Braddock sold the bull, Brad-Lou Master, to Martin V. Barnett of White Deer and another bull named Brad-Lou Richard to Herman Birkendoff of Nazareth.

Braddock's animals win awards yearly in the county and regional stock shows.

You are hereby commanded to appear before the Honorable District Court of Castro County at the Court House thereof, in Dimmitt, Texas, at or before 10 o'clock a.m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 17th day of October, 1955, then and there to answer plaintiff's petition filed in said Court on the 31st day of August, 1955, in this cause numbered 2242 on the docket of said court and styled Cleo C. Forson et al, plaintiff, vs. G. M. Etter, et al, defendants.

The parties to said suit are Cleo C. Forson and Claude Forson, plaintiffs, and the parties and or-

ganizations to which this writ is directed are defendants.

A brief statement of the nature of this suit is as follows, to-wit: Trespass to try title, for title and possession of the following real estate in the Original Town of Dimmitt, Castro County, Texas;

All of Lot 10, Block 142; all of Lot 1, Block 141; and all of Lot 7, Block 144, all in the Original Town of Dimmitt, Castro County, Texas; and Approximately 1.337 acres out of the East part of Section 25, Block M-10-A, Castro County, Texas, described by metes and bounds as follows:

BEGINNING at a 2 inch iron pipe, the northeast corner of Section 25 Block M-10-A, Castro County, Texas; THENCE S 0° 7' E, along the East line of Section 25, Block M-10-A, at 2405.3 feet a 3/8 in. reinforcing steel stake in the East line of Section 25 aforesaid, for the northeast corner of this tract; THENCE N 89° 24' W, at 276 ft. a point in the East line of East Street of the Original Town of Dimmitt as staked out by John Flanagan, County Surveyor, in 1907, a succor rod coupling for the Northwest corner of this tract; THENCE S 36° W, along the East line of East Street 210 ft., a succor rod coup-

ling for the Southwest corner of this tract; THENCE S 89° 24' E, at 278.9 ft. a point in the East line of said Section 25, a 1/2 in. reinforcing steel stake, for the Southeast corner of this tract; THENCE North 0° 7' W, 210 ft. to the place of beginning of this tract.

Plaintiff also claims title by virtue of the five and ten year Statutes of Limitation, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the seal of said Court, at office in Dimmitt, Texas, this 31st day of August, A. D. 1955.

Plains Water District Releases Irrigation Data

The portion of Castro county within the boundary of the High Plains Undergruond Water Conservation District covers about 540,000 acres of land. (The total area of the county is 560,640 acres.) The underground reservoir in the Ogallala formation beneath the area within the district contains approximately 15,900,000 acre-feet of ground water in storage available for pumping.

The map in plate 1 shows the thickness of the water-bearing strata between the water table and the redbeds in 1938 before an appreciable amount of water had

been pumped from the reservoir. The map in plate 2 shows the decline of the water table from the spring of 1938 to January 1955. The volume of water remaining in the underground reservoir was determined by subtracting the volume of saturated material in 1938 and multiplying the remainder by the coefficient of storage of 15 percent.

These data show that 17,200,000 acre-feet of water was in storage available for pumping in 1938, and that 1,300,000 acre-feet of water has been removed from storage since 1938. In other

words, 7.6 percent of the volume of the available water has been removed from storage since 1938. Approximately 850,000 acre-feet or about 65 percent of the volume of water removed from storage was pumped during the 5-year period from January 1950 to January 1955.

The approximate quantity of underground water in storage, available for pumping, beneath an individual farm may be determined by multiplying the number of acres in the farm by the thickness of the water-bearing strata underlying the farm and then multiplying by the storage coefficient of 15 percent. Suppose the farm consists of 200 acres and has 200 feet of water bearing strata underlying it, then 200 acres x 200 feet x 0.15 equals 9,600 acre-feet of water available for pumping. An acre-foot of water is the quantity required to cover one acre to a depth of one foot, and it is also equal to 43,560 cubic feet or 325,820 gallons.

An individual may use this information to determine, within reasonable limits, how long the quantity of underground water in storage beneath his farm will last at any annual rate of withdrawal. It is assumed, of course, that his neighbors pump up a comparable amount of water per acre on their farms.

These maps and studies of this type are parts of the regular hydrological work in progress by the staff of the Water District. Similar maps and information will be prepared, as rapidly as practicable, for all the counties within the Water District. Maps of Deaf Smith, Parmer and Castro counties are now available.

Thelma Shepard Is Shower Honoree

A bridal shower was given recently in the lovely home of Mrs. G. B. Duncan honoring Miss Thelma Shepard, bride-elect of Mr. Barney Whigham.

In the receiving line were Miss Shepard, her mother, Mrs. Percy Shepard and her sister, Mrs. C. C. Williams. Little Kaye Williams secured names for the bride's book.

The table was laid with green cloth over-laid with white linen cut work. Mrs. Pearl Sheffy contributed and arranged the beautiful table bouquet. Mrs. H. W. Breeding, cousin of the bride-elect, presided at the table and Mrs. Clyde Renfro poured punch.

The honoree received many lovely gifts of china, pottery and other useful things.

BETHEL NEWS

Visitors in the J. C. Williams home during the weekend were her cousins, Mr. and Mrs. D. P. Rickman of Pochontas, Ark., and Mr. and Mrs. H. R. Hoarseman and Marilyn of Sheffield, Ala.

Mr. and Mrs. Harry Rothwell and Mr. and Mrs. Bobby Warren were in Amarillo the first of the week to show their cattle at the fair.

Carolyn Bagwell returned to Austin this week to enroll in Texas U. for the fall term.

Mr. and Mrs. Carl Bruegel and little daughter are spending a few days in California visiting relatives, and Fred Jr. will return home with them. He has just completed his basic training in the Army.

Harry Rothwell was a business visitor in Plainview Wednesday.

Mrs. Harry Rothwell and Mrs. Bobby Warren and Gary Keith spent Sunday with Mr. and Mrs. C. A. Cryer in Amarillo.

Howard Wins Nail Guessing Contest

The nail guessing contest held at the fair stirred curiosity and resulted in many participants whose guesses ranged from 45 to 45 million.

The actual number of nails in the gallon jar placed on display at the fair by Higginbotham-Bartlett Lumber Company here was 2,721. Joe B. Johnson came the closest to this count by guessing 2,716. Noble Howard was second with a guess of 2,713 and Calvin Petty, third, with a guess of 2,740. First place prize was the equivalent of enough Sherwin-Williams paint to paint three rooms; second prize was two rooms of paint; and third prize, one room of paint.

Mr. and Mrs. Earl Lust attended the Tri-State Fair in Amarillo Tuesday.

Dimmitt 7th And 8th Grade Teams In Season Opener

Tomorrow's gridiron heroes, members of the Dimmitt seventh and eighth grade football teams, turned in fine performances Tuesday night at Plainview in their opening games. The seventh graders played the Plainview seventh grade to a scoreless deadlock while the local eighth grade eleven overpowered their opponent 28-6.

Scoring on runs for the eighth grade club were James Collins in the first quarter, Jerry Hyatt in the second and again in the third and Collins in the fourth period. Hyatt ran two of the extra points over and Ed Collins and Jimmy Curtis ran the other two across.

The locals led 14-6 at halftime; broke loose for two more scores in the second half and then settled down to a defensive game.

Showing up on defense for the seventh graders were Marshall Young, Stanley Nelson, Morris Boothe, Sammy Kirk, Larry Sadler and Kent Hance.

Both seventh and eighth grade teams are coached by W. E. Reisdorph and Thomas Harrison.

From the

Castro County Grain Company

By Edd C. McLeroy

\$4.03 PER CWT. FOR MILO?

We're serious. This is what your grain is worth when fed to hogs on the Purina program, and when this is based on only a \$15 hog market! About the same extra cash return applies when you feed grain to cattle the Purina way. Here's what your grain is worth fed with Purina to hogs.

Price of hogs	Return per CWT Milo
\$18	\$5.01
17	4.68
15	4.03
14	3.70
13	3.37
12	3.05

Stop by the store. We will be glad to sit down with you and show you how to sell your grain at these prices on the Purina program. Remember that you have a real opportunity for feeding cattle, too. And we have a program to fit your needs—regardless of the type of cattle you have or the type of roughage you feed. See us soon.

DOG CHOW COUPONS

ARRIVE WITH NATIONAL DOG WEEK

Sept. 19 to 25 is national dog week. Judging from the entries in our recent Purina pooch parade, you would think our county is going to the dogs. As long as our boys and girls enjoy puppies, let's go to the dogs.

Want to save 25 cents on a bag of dog food? Our Purina laying ration have a coupon on each bag that are worth 25 cents toward the purchase of any size bag of Purina dog chow. During September and October, if you are using our laying feeds, take advantage of this offer.

If you own a dog we feel you might like to drop by and check the prices on our dog chows. We know your dog will

"FAST-START TWINS RIGHT START FOR BABY PIGS"

Work out over 200 litters of pigs at the Purina research farm for a five year period proves that new and super-palatable baby pig chow is "right" for starting pigs. It tempts pigs to start eating and gaining early, just the growth boosters young pigs need.

New baby pig chow and pig startena have now teamed up to become Purina's "Fast Start Twins," because they give you extra gain while the pigs are still on the sow.

TREAT SEED WHEAT FOR SMUT AND WIREWORM

Many farmers are dropping by to pick up coppercarb and hytachlor to treat their seed wheat for smut and false wireworms. Hytachlor has proven to be one of the best products on the market for wireworm control. Just 6-8 ounces will treat 100 pounds of seed wheat and it will not harm germination.

FERTILIZE YOUR WHEAT

If you plan to get fall and winter grazing from your wheat, an application of anhydrous ammonia will give you a good return for the dollars invested. We also have on hand Ammonium sulphate and 16-20-0 if your ground is too dry to apply anhydrous.

WEATHER RIGHT TO KILL JOHNSON GRASS AND BINDWEED

These cool, damp days are ideal for applying sodium chlorate and polyborchlorate to Johnson grass and bindweeds for maximum killing results. Drop by and talk to us about your weed problems before you get too busy with milo and cotton harvesting.

Early Attention Can Save Eyes, Holle Emphasizes

AUSTIN, Sept. 22—Emphasizing the urgent need for parental supervision of all phases of child health, Dr. Henry A. Holle, Commissioner of Health, said today, "Much of the impaired eyesight of advanced years could be prevented if sufficient interest in early life were applied and a temporary correction by means of glasses made when required."

Parents should be watchful for conditions in the child such as frowning, squinting, persistent headache, eyecache and watery eyes. If the youngster read too closely or too far away from the face, that situation may also be significant of trouble.

No child fancies wearing glasses. Nevertheless, it is the obligation of those responsible for the future of young folks to have their eyes examined by a reputable specialist if any doubt arises that normal vision does not exist. It is much better for a child to wear glasses for a few years during early school life than to have permanently defective vision in later life.

According to the Commissioner Army every year since 1914 when the rating was established. Faust is out for golf.

of Health, any acute condition of a child's eyes calls for immediate treatment by a person that specializes in diseases of the eyes.

Dr. Holle said neglect of the eyes by no means is limited to children. Many older persons, some through vanity, indifference or carelessness fail to give proper attention to the care of their eyes. Penalties, he warned, are bound to occur for such inexcusable negligence.

The eyes of the young, middle aged and older persons represent perhaps one of the most priceless of bodily possessions, the Com-

IT HAS 2 SEPARATE WASHING ACTIONS TO SAFELY WASH ALL FABRICS AUTOMATICALLY

with beautiful, fully-illuminated GUIDE LITE CONTROL PANEL

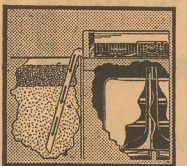

3-Temp Water Selector automatically assures correct water temperature for all materials. Fabric guide eliminates guesswork. Light indicates your selection of water temperature.

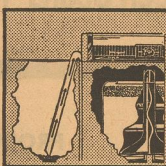

Transparent, Illuminated Timer Dial controls two separate washing actions; (1) normal speed and time for regular washing, and (2) low speed and short time for sheerest fabrics.

3-Level Water Selector automatically saves gallons of water on partial loads. **HIGH** setting is for a full, 9-lb. load; **MED**, for a 7-lb. partial load; **LOW** is for a small 5-lb. load.

ONLY WHIRLPOOL GIVES YOU THESE ADVANTAGES

Hot water is stored after first load.

Only clean hot water is returned for re-use.

Suds-Miser Automatically SAVES OVER 50% of hot water and detergent

Exclusive, built-in, fully-automatic Suds-Miser prevents needless waste of hot sudsy water by storing and returning it automatically for re-use on several wash loads.

ULTRA-VIOLET LAMP
From start to finish, the built-in ultra-violet lamp helps sanitize clothes and gives them a sweet, fresh-air fragrance.

WHIRLPOOL WASHING ACTION
No other automatic washes clothes so clean yet so gently. Whirlpool's superior washing action loosens and removes every trace of soil from a big, 9-lb. load.

PLUS . . .
• 7 Rinses are most thorough yet use less water;
• 5-Year parts warranty on transmission plus many other features you'll want.

Castro County 4-H'ers Make Tour Of Dimmitt Elevators Saturday Afternoon

Eight 4-H members and 4-H Adult Leader Edd McLeRoy toured Dimmitt elevators Saturday afternoon to learn more about the marketing of grain.

The group gathered at Dimmitt Wheat growers to hear Ray Halton discuss and demonstrate the Hot Spot Detector system and moisture and weight tests of grain.

John McCleskey of Dimmitt Grain and Elevator Company showed the 4-H members how to cooper and load a car. He also discussed selling and shipping of milo to CCC and took the boys on a tour of the new elevator being constructed.

George Blanton of Sears Elevator Company explained how to control insects in stored milo and rules set up by the Pure Food and Drug Act concerning kinds and rodents around stored grain. Blanton also stressed the need for keeping grain free of castor beans.

McLeRoy, of Castro County Grain Company, discussed varieties of wheat and pointed out that a discount would be made by CCC on poor milking quality wheat. Each boy was given a list of the more desirable varieties

of wheat to plant. McLeRoy also discussed the processing and marketing of grain as feed.

Odell Arnold of Kearns Elevator discussed receiving and loading out grain as well as the handling of grain in general. Arnold also discussed the billing out of grain for railroad shipment.

4-H members making the tour

included Don Robb, Norman Nelson, Jerry Cluck, Dorlad Renfro, Alphonse Huseman, George Huseman, Sam Burt and Leon Collins.
