Steps Taken For City Progress

A committee to work on worthwhile projects for the progress of Baird was appointed at the Callahan County Club meeting Wednesday, which is considered to be a step forward right at this time as Baird stands at the threshold of the post-war development era. The appointment of the committee, which is composed of Ace Hickman, Earl Johnson, B. H. Freeland, Ralph Ashlock, and Lonnie Ray, was the result of considerable discussion after the proposition was handed over to the Callahan County Club by a town hall meeting that met last Thursday night. About fifty people gathered at the city hall to work out a plan for hiring a man to promote the development of Baird by seeking governmental appropriations and otherwise. After a three-hour session the group agreed to ask the luncheon club to accept the undertaking.

Although many expressions were made favoring the hiring of a full-time man, a number of those present did not think it advisable to obligate the merchants and business men to that extent. The only remaining hope lies in the efforts put forth by the new committee. Their report to the next club meeting will probably on post-war projects, and what it will take to accomplish the right results.

Among those who registered at the luncheon Wednesday were W. W. Lofland, W. L. Cooke, Dr. M. L. Stubblefield, Ace Hickman, E. L. Woodley, B. L. Russell, Sr., Bob Norrell, W. D. Boydston, D. S. Greene, Roland Dunwoody, J. A. Brashers, Ralph Ashlock, J. C. Lee, Rev. R. H. Campbell, L. L. Blackburn, Earl Johnson, Harold Ray, Raymond Young, B. L. Russell, Jr., N. A. Waldrop, Olaf G. New 1946 Chevrolet At Ray Motor Co.

Gleaming new 1946 Chevrolets, sounding an appealing note in sleek, modern styling, and embodying the latest results of new engineering progress, are on display today at Ray Motor Company in Baird.

"The new models mark an outstanding step in Chevrolet's progress as top producer in the automotive industry," said Harold and Lonnie Ray of the Ray Motor Co. "More Chevrolets than any other motor car were sold in 10 of the last 11 years of prewar automotive production. We are confident that the new postwar car will once again be a sales winner."

"One of the most striking new features, which gives evidence of the inherent over-all artistry of these cars, is the completely new front-end treatment, redesigned to emphasize the low, modish lines. The bumper, bumper guards, radiator grille, parking lamps, hood ornament and name emblem all present an appearance of new, graceful ruggedness."

Outstanding style distinction is immediately apparent in the stunning array of color combinations on the bodies by Fisher for the 1946 Chevrolet. Six different color schemes are available on all regular models. A range of three solid colors is provided, and in addition, ultra-smart two-tone hues are available on specification, all in the newest and latest appealing shades.

The 1946 Chevrolet appears in three lines: the Stylemaster, offering unusual refinements in the lowest-priced bracket; the Fleetmaster, with further advanced finish and appointments, and the Fleetline, most attractively styled model Chevrolet ever has offered. The first Chevrolet to come from factory production lines is the popular Stylemaster sport sedan, a four-door model which is being featured in the initial display at Ray Motor Company. As manufacturing conditions and available materials permit, it is planned to broaden production schedules to include such models as town sedans, business coupes and other types. Fleetmaster and Fleetline output will follow.

Cross Plains has usually made up a premium for the first baler and it was decided that since local business men are called on for several donations during the year that the local Chamber of Commerce would present this year's premium, thereby relieving the businesses of the task of giving extra, and too, most of the business firms pay into the Chamber of Commerce as members.

BILL WHITE RETURNS

W. L. White has returned to Baird after being in Uncle Sam's Navy for forty-four months. Twenty months of that time was spent at sea as communications gunnery officer. His discharge was effective October 13 at Camp Wallace. Returning to Baird, Bill White picked up right where he left off. His old friends gathered around him to bid him welcome. He assumed duties at the high school as principal and took over the Baird Bears as their coach. His first game took place last Friday night at the Bear's Den, resulting in another victory for the local team as they defeated Strawn by a score of 32-14.

Eddie Bulloch served as football coach for two seasons after White entered the service and he held the Bear banner high until Lloyd Connel came in to coach the boys the last season. When White entered service Billy Johnson, high school principal, coached basketball and track one season and Lloyd Connel did the next. When Bill White returned Connel handed him a team that knew no defeat, and a group of boys who play the game in only one way—the way of good sportsmanship. Ball fans are looking to the victorious Bears to go on to more victorious games under the leadership of Mr. White.

PIONEER OF CALLAHAN COUNTY VISITS EDITOR

One of Callahan county's beloved pioneer mothers, Mrs. Rosa Green, visited the editor Wednesday. Mrs. Green is a healthy, happy pioneer woman at the age of eighty-six. She uncovered an ancient Masonic ruin at Putnam in 1884. Aunt Rosa has made her home in the same house, under the same roof, in Putnam all these sixty-one years. The original roof on the house is just now needing repairs. Two accidents, one in 1934 while helping her husband get wood and the other in 1940 when she slipped and fell, resulted in two broken legs. Her strong determination to recover enabled her to walk again. She was accompanied to The Star office by Mrs. Earl Jobe of Putnam.

NEW 1946 MODEL CHEVROLET

The Stylemaster Sport Sedan

The new 1946 model Chevrolet, shown above, is outstanding not only for style-leading design, but for quality in materials and construction, advanced engineering, proved performance, economy and dependability.

Every line and contour emphasizes the massiveness and lowness of the vehicle from front to rear. The new, distinctive radiator grille, shown at the right, presents an expanse of gleaming chrome-plated horizontal bars, framed within a low-arched molding. A model of classic simplicity, it tends to emphasize width as well as lowness.

"...To help my husband avoid the money trouble so many people had after the last war.

"...To keep our family budget on an even keel. When a line forms in a mad rush for scarce peacetime goods at high prices—that's one line I'll pass up!

"...To increase our balance in the bank so we will be ready for sickness and other real emergencies—or for something like a down payment on a home, an education for the younger children, a start for our oldest son when he's released from the armed forces.

WARNER BROS. 'HOTEL BERLIN' OPENS SUNDAY AT PLAZA

Fortress Germany is besieged. The blood-drenched bastions of the Third Reich buckle under the weight of Allied armor. Her once arrogant Luftwaffe, beaten from the skies, lies like a crippled bird. The invincible panzers have tasted the bitter fruits of defeat. To Germany, the war is lost.

But not so the peace. For seeds of conquest can be planted underground. Plans of harder men and grimmer reapers can be stored away in men's minds and in the minds of their children and these, too, can grow underground. Then quite suddenly, these can burst from the ground and bear the fruits of another war.

It is of these dreams and of the men who dream them that Warner Bros. have fashioned "Hotel Berlin," their newest and most timely drama to revolve about the war. Adapted from the best selling novel by Vicki Baum and starring Faye Emerson, Raymond Massey, Peter Lorre, Andrea King and Helmut Dantine, "Hotel Berlin" arrives Sunday at the Plaza Theatre.

Mr. and Mrs. Wilbert Voshelle and Wilbert, Jr., of Amarillo spent the weekend with his parents, Mr. and Mrs. Wilbert Voshelle in Baird. He received his discharge from the Army Air Corp August 31 with 98 points. His discharge came after he was evacuated from enemy held territory in Java. His service experience covered five years. Now he holds a civil service job as academic instructor at the Amarillo Air Field, which is similar to his work in the Army.

S-Sgt. David P. Hollis veteran of France and Germany two years, recently received his honorable discharge from the Army and is visiting his parents, Mr. and Mrs. D. P. Hollis, of Clyde.

Mrs. Lenora Boatwright is visiting her sister, Mrs. Homer Boatwright this week. Grandmother Boatwright fell Monday morning and has been confined to her bed since that time.

"ALONG CAME JONES," A ROMANTIC FRONTIER DRAMA

Stressing humor and adroit characterization along with its dynamic love story, "Along Came Jones," co-stars Gary Cooper and Loretta Young in a distinctive thrill-laden tale of the Texas border. This picture is International Pictures' newest offering for RKO release and marks Gary Cooper's debut as a producer, in addition to his starring career.

Unlike the customary outdoor hero, Melody Jones is an easy-going undistinguished brone stomper who once won seventeenth place in a rodeo and who, while he's fairly good with his fists, can't hit the side of a barn with a six-gun.

AN IMPORTANT DATE FOR
THOUSANDS OF ARMY VETERANS
NOW IN CIVILIAN LIFE

Between now and November 21, thousands of Army veterans will reenlist in Uncle Sam's new volunteer peacetime Army. Because—men who have been discharged between May 12 and November 1 of this year and reenlist on or before November 21 will be able to return to the Army with the same grade as they held when discharged.

Men with six months of satisfactory service discharged as privates will, on reenlistment before November 21, be given the grade of private first class.

Men now in the Army who apply for discharge after NOVEMBER 1 for the purpose of reenlisting in the Regular Army will also retain their present grades, if they enlist within 20 days after discharge and before FEBRUARY 1, 1946.

Can you think of any other job that would give you good pay, your food, clothing, quarters, free medical and dental care, world-wide travel, 30 days' furlough every year, education and training in any of nearly 200 skills or trades, and—*enable you to retire with a life income any time after 20 years' service!*

There isn't any! That's why a job in the Regular Army has been called "The Best Job in the World."

EDITORIAL

Three weeks tests have been given and everyone can see much room for improvement.

School days are passing by more quickly than we realize; if we don't gain all the knowledge we can, we're apt to regret it.

We've much to do, and little time, so from now on, let's put out our best efforts. We'll be sure to win in the game of life.

HELLO AND THANKS

We want to thank Lloyd Connel for the good work he did with our football team. He laid a good foundation, and will be remembered for many games our boys played.

Bill White has been discharged from the navy and has taken over where Connel left off. It seems he has been doing a good job, too, for we won the football game Friday night.

Thanks, Mr. Connel; hello again, Mr. White.

BAIRD TURNS BACK STRAWN 32-14 MEET BUFFALOES TONIGHT

"WICKED" WEST

The Baird Bears won an important non-conference game last Friday night from Strawn, an 8B power. The Bears really got rolling on the first play from scrimmage when Cook ran 45 yards to be pulled down on the Strawn 25 yard line. The next play, however, Strawn recovered a Bear fumble to stop this drive.

The Bears broke the scoring ice midway in the first period when Nordyke went 41 yards over the middle for a score. A pass for point failed.

When the second quarter got under way, the Bears ran rampant to score three times. Nordyke made the first one on a 15 yard dash; a pass from Nordyke to Hawk added the extra point. Cook made the next counter on a 2 yard plunge; try for extra point failed.

Cook ran 40 yards in the next drive but it was stopped by a Bear fumble. In the warning minutes of the first half a pass from Nordyke to Barner clicked for 40 yards and another score.

A pass for point failed. After the intermission the Bears scored again with Nordyke going 20 yards for the score. Nordyke ran over the extra point. During this time the Greyhounds never got within striking distance of the Bear goal. At this point the second string took over and played the last quarter.

The Greyhounds scored twice during the time the second string was in; the first on a fifty yard pass play, when kick for extra point was good. The Strawn team scored again in the last minutes and kicked the extra point.

The Bears played a very good game and held the Greyhounds to very little ground while the first string was in.

Nordyke and Cook shared backfield honors, Nordyke scoring three times and passing for another, while Cook scored once but ripped off some very fine runs.

Poindexter and Barner stood out in the backfield line.

A YEAR IN BAIRD

Just one year ago this week, the present owner of The Baird Star moved to Baird and assumed ownership of this newspaper. We didn't know a sole among the good people of this city, but you opened your arms and invited us to make ourselves at home. And that is exactly what we have been doing—making ourselves right at home, and enjoying life in Baird to the fullest degree. The hundreds of good people we have met throughout the county are the best in all the world, and as we walk among you, we are thankful that we came to Callahan County. Never have folks been so good to us, and to repay you in a measure, we are trying to give you the best newspaper that is possible to be published here.

Among some of the changes we have made in the Star during this short year: We have changed the page size from six columns to seven columns, thus increasing the number of inches for news and advertising to the page. We set the type solid 8-point, taking advantage of running more news to the column. We have overhauled the presses and other machinery, making it possible to obtain a sharp print, and also, greater production of all commercial job printing. We have re-arranged the entire print shop and front office to be better able to handle all printing jobs and attend to the customer's needs. We have installed a complete line of office supplies, which is something The Star office never handled heretofore, thus our friends in the city may purchase these supplies here at home without having to order them from out-of-town at higher prices than we supply them. Files have been set up on subscriptions, and in fifty years from now, a subscriber may see exactly how his subscription had been paid each year from the time we came here last November.

These are facts we believe our subscribers and friends will like to know. These facts show that we have not been idle during the past year, and we are delighted at the progress this year has meant to The Baird Star. The coming year, 1946, holds even greater things in store for Baird, and this newspaper is standing ready at all times to meet the needs of our people. If it means adding new machinery to adequately serve, we will act quickly to do so. We are here to give Baird the best newspaper and commercial printing plant the people want and need.

R. L. Payne wrote from Clyde Route 2 to have The Star sent to him for another year.

Freight Rate Cut Ordered

Abilene, Nov. 5.—The Interstate Commerce Commission's recent order reducing freight rates throughout the Southwest "carries possibilities that even the imagination cannot conceive," Chairman Olin Culberson of the Texas Railroad Commission declared here today.

Culberson, recognized by the West Texas Chamber of Commerce as the state official most responsible for the money-saving rates now in effect, was the principal speaker at the WTCC's joint Freight Rate Victory Celebration and Directors' and Referendum Assembly held here today at the Wooten Hotel.

Suggesting that the readjustment of freight charges be coupled to Texas' rich storehouse of natural resources for immediate industrial expansion, the speaker pointed out that full employment cannot come until we increase our prewar productivity by more than 50 per cent.

"This is a big job for us. 'This is going to be the test of our financial and industrial leadership—whether they have the initiative and aggressiveness to step out and develop such lines of endeavor and see that such industrial expansion develops in their regions,' the Railroad Commission chairman said.

"Texans' per capita income has increased perceptibly during the last decade," Mr. Culberson reminded the West Texas civic leaders. "Consequently, it is not wishful thinking to say that much of the market, perhaps most of it, for new Southwestern industry is in the Southwest.

"And this market will continue to improve as we grow more industrialized."

Mr. Culberson said he was "not such an optimist as to think that the industry we shall see come into being will be gigantic plants. Rather, I believe that they will be small or modest proportions whose products will be utilized by larger assembling activities.

"Such items as generally move on 'class rates' and to such activities as this, the ICC order will contribute immeasurably.

"This smaller type of industry should not be disappointing, for it must be remembered that most industries have to be new and small before they can be old and large.

"The Southwest must, under its own leadership and finances, develop new industries which fit the resources and environment of this great area of the U. S.

"Let's go after them," Mr. Culberson concluded.

IT'S a fine, balmy day in July—outside, of course. But in the cold room at the John Deere Tractor Works, the thermometer reading was ten below zero when this picture was taken. Humidity can be regulated in this cold room, too. And, if tests require a wind, anything from a gentle zephyr to a howling gale of 40 miles per hour can be created.

Creating their own weather conditions enables John Deere engineers to test ideas and conduct experiments that are of vital importance to the John Deere owner. Here it is possible to check and recheck, adjust and readjust until there is no doubt as to the performance of a John Deere under extreme weather conditions.

There is no substitute for the accumulated experience gained through more than a hundred years of single-minded devotion to the manufacture of better farm implements.

Mrs. F. P. Shackelford & Son
Putnam, Texas

JOHN DEERE QUALITY FARM EQUIPMENT

Of first importance is the matter of lubrication when the motor is cold. Will there be residual lubrication enough to protect gears and operating parts until the cold oil in the crankcase is heated enough to circulate freely?

Add this phase of John Deere research to all the other tests and trials conducted by the planning and experimental departments, and the answer is simple—nothing is left to chance or theory. All the ingenuity and experience of trained engineers have been brought to bear on the main objective—to turn out a tractor that will operate successfully under all conditions and give a maximum of economical, dependable service to the farmer.

J. P. Davis took advantage of The Abilene Reporter-News and The Baird Star subscription club rates this week by ordering both papers sent to him.

O. P. Thompson took advantage of the club rates for the Abilene Reporter-News and The Baird Star by renewing his subscription to the paper when he paid the editor a visit Saturday.

And Another Thing . . .

By MAUDE GREEN

is being a pioneer, loving flowers and rocks, and owning six and one-quarter acres of fertile sandy land.

Mr. and Mrs. Sam D. Jobe, who are past their middle seventies, are among the real pioneers of Callahan county. In fact, Mr. Jobe is about the real one of them all. When his father first came to the area, Mr. Jobe says, "As far as we knew there just wasn't anybody else around here."

There is no place in the whole of Callahan county which is loved more by its owners than the six and one-quarter acres belonging to Mr. and Mrs. Jobe.

He has not yet been able to decide which is his favorite hobby, flowers or rocks. More than 100 blooming rose bushes grow in their yard and in summer months the place is a riot of phlox, petunias, and anything that blooms. It's always a sad time for Mr. Jobe when summer days die, and he has to rake away his beloved flowers.

Rocks by the thousands have been gathered through the years, all of them from near his place. His plans are to build concrete walks, and place his choice rocks along the sides where they will be shown off best. One is shaped like a hen, another is flat and has the perfect print of the short, broad, thong-tied footprint of an Indian squaw, others resemble all kinds of animals, and some are just plain pretty rocks. They are all sizes, bushel baskets full of small many-colored stones, to larger, somber hued rocks.

But, the most cherished rock of them all, is about a foot long, not quite so wide, and about five inches thick. It's burned black on one side. This keepsake came from the huge fireplace built by Mr. Jobe's father when they came to West Texas, and settled in the southwest part of the county. The old fireplace reminder brings many

happy memories back to an elderly man, who many years ago found warmth, food, and comfort at its hearth.

Another of the Jobe's prized possessions is a water well — rather two wells. One is up in the orchard, and is older than Callahan county. Years ago it was a watering place for all passers-by. The other well is nearer the house, and water can be reached by just leaning down and dipping up a bucket full. The water stands five to seven feet deep and is so soft the womenfolk come from all around to get it to wash their hair, fine linens, and fancy laundry.

The entire six and one-quarter acres of fertile sandy land are planted in fruit trees—plums, pears, peaches, apples, and fig bushes, grape vines, all sorts of good things to eat. Mr. Jobe says he could have sold lots of grapes this summer, "but, we have so many friends who enjoy such things, we just didn't get around to selling such stuff."

About two years ago he was too energetic in working his "patch" and he and Mrs. Jobe, "The Girl" he calls her, couldn't get their plowing and place-tending to done. One morning he saw a man going down one of the back rows, behind a horse and a plow.

A bit later, over in another corner, he saw another man, horse and a plow. Pretty soon he saw men all about, busy plowing his place. Then he realized those men were his neighbors, who had come to do the work he wasn't able to do. "I was so pleased," he said, "and so happy to know they thought that much of me, all I could do was take a cry."

Mrs. E. T. McBride, Mrs. Alfred Newman, and Mrs. Joe L. Box of Abilene accompanied Mrs. W. V. Cleveland Monday to Gorman, where she will undergo an eye operation. Her daughters, Mrs. McBride and Mrs. Box, will stay with their mother.

Fred Farmer of Clyde became a subscriber to The Star Tuesday of last week.

FRANCES PIERCE BRIDE OF LT. RAY GALLOWAY

Frances Pierce, daughter of Mr. and Mrs. Joe E. Pierce of Baird, became the bride of Lt. Ray Galloway, U. S. Army, son of Mr. and Mrs. F. V. Galloway of Bloomington, on Friday, October 26, at 6:30 p. m. in the home of Dr. T. S. Knox, 426 Orange Street, Abilene.

The bride wore a three piece wool suit of aqua and british tan with her accessories of british tan. As her only jewelry, she wore a rhinestone necklace, gift of the bridegroom. Her corsage was of gardenias.

Kathryn Anderson, Cross Plains, was the bride's only attendant. She wore a lime green suit with black accessories and her corsage was gardenias.

Granvel L. Pierce, recently discharged veteran of Baird and brother of the bride, was best man.

Others attending the wedding were Mr. and Mrs. Carol Teel and daughter, Carolyn, of San Diego. Mrs. Teel is a sister of the bridegroom, and Nola Van Gibson of Abilene.

Mrs. Galloway is a 1942 graduate of Cross Plains High School. Prior to her marriage she was employed by Russell-Surles Abstracting Co. of Baird. She formerly worked in Brownwood and Ft. Worth.

Lt. Galloway is a 1939 graduate of Skidmore High School. He entered the service November 1940, being with the 636 Tank Destroyer Bn. of the 36th Division. He trained at Camp Bowie, Camp Blanding, Fla., Camp Edwards, Mass., Bowling Green, N. C. While serving 30 months in the European Theatre, he was in North Africa, Sicily, Italy, Southern France, Germany and Austria. Lt. Galloway wears the Bronze Star Medal, Pre-Pearl Harbor ribbon, Good Conduct medal, and the ETO ribbon with six battle stars. After a 45 day leave he reports to Camp Hood.

The couple left immediately after the ceremony for a short honeymoon in California.

Z. C. Melton wrote from Floydada to have The Star sent to him for the coming year.

We Will Be Prepared!

Judging from experience of the past few months, electric service demands in Baird will continue to become greater in the post-war period. Some of our friends have asked if Baird Municipal Light Plant would be able to meet the demand. Our answer is YES. We are at present installing another big diesel engine that will give a third more energy to our present plant. If the unforeseen happens, and more electricity is required, we will be prepared to serve.

Sounds pretty good, doesn't it, for Baird Municipal Light Plant to be a successful, useful, thriving business, ready to meet all demands our growing community might place upon us. But it's true, and the citizens of our city made it so. When you use city electricity, you invest in the growth and development of our city.

GO AHEAD, lady—tear your electric bill apart and see what it's made up of.

This little piece lights all your lamps. This one plays your radios. This cools and keeps your food. This washes your clothes. This takes care of the cooking and ironing and cleaning. And so on.

That's a lot of different jobs to be covered by one small bill. And—hold on! You've paid for more than just electricity. About 25¢ of every dollar you pay for electric service goes in turn for taxes which benefit your community and help carry our heavy federal government expenditures.

Taxes UP... General cost of living UP... You'd think the cost of electric service would be up, too. But it isn't. The overall rate has even come down a little since the war began. Actually—

The average family gets about twice as much electricity for its money today as it did fifteen years ago!

This welcome fact comes from the careful planning and progressive spirit of America's business-managed, self-supporting, tax-paying electric companies.

BIGGER MARKET INDICATED FOR PEANUT CROP

NEW YORK, N. Y., Nov. 5.—New markets for Texas peanut crop, estimated at 398,000,000 pounds this year, are forecast with an announcement from James A. Stewart, vice president in charge of American Can Company's research and development division, that new canned peanut products are being tested.

Mr. Stewart said that his company's research department has canned experimentally peanut scarpapple, peanut succotash, baked peanuts and soy beans in tomato sauce, peanut soup and chocolate pudding with peanuts. He added that results of this experimental canning indicate these products can be commercially packaged.

The high nutritive value of peanuts, one of the best sources of vitamin B1, together with the nut's widely popular flavor, should create an excellent market for such items, the can company official continued. As an indication of the importance of peanuts in the diet of the American soldier, he said that more than 62,000,000 cans of the nuts were supplied the government during the first six months of 1945. During the war the military forces used 150,000,000 cans of peanuts annually. The can company is continuing its research on canning the peanut in various forms, he said further.

"HANGOVER SQUARE" THRILLS WITH WEIRD DRAMA OF STRANGE EMOTION!

More suspenseful—more exciting—more thrilling than "Laura"!

That's the spine-tingling verdict out of Hollywood on 20th Century-Fox's new horror classic, "Hangover Square," which stars Laird Cregar, Linda Darnell and George Sanders, and opens Tuesday at the Plaza Theatre.

For this new super-thriller, 20th Century-Fox has taken every blood-chilling trick of the trade and added an horrific score of new ones to produce the most utterly unusual and fascinating, edge-of-the-seat film excitement of the year.

First, there is George Harvey Bone (Laird Cregar), a serious young composer, whose mind disappears into a subnormal world, and who is transformed into a homicidal maniac, roaming the foggy London streets at night. Then, there is Netta Longdon (Linda Darnell), a cheap music hall singer who is determined to gain fame by using her beauty as a lure to attract the men who can help her. Too, there is Dr. Allan Middleton (George Sanders), see Scotland Yard psychiatrist-detective, who on the fringe of a terrible secret, is unable to warn the one he loves of impending doom. Added are murder and arson ingeniously blended with overwhelmingly generous portions of suspense, evitment and terror.

If his memorable performance as "The Lodger" weren't enough Laird Cregar's portrayal in "Hangover Square" is more than enough to establish him as the screen's outstanding master of the macabre. In the part of "Netta Longdon," lovely Linda Darnell makes her debut as a femme fatale, for she is the woman who ruins the lives of all with whom she comes in contact. This is Linda's first opportunity with such a part, and her portrayal of the voluptuous "Netta"

SERVICE MEN VISIT IN HUGHES' HOME

Mr. and Mrs. Virgil Hughes had as their guests recently, their son and daughter-in-law, Mr. and Mrs. Crawford Hughes, of Conroe and Dale Bordner of Ohio. Mr. Bordner was one of the other two survivors rescued with Crawford off New Britain Island. Also in the Hughes home was their son-in-law, Herbert Buckner, who recently received his discharge from the Army Air Corps, having spent nineteen months in ETO. Mrs. Buckner and baby made their home with her parents while Sgt. Buckner was overseas.

Mrs. Bob Walley, formerly of Denton Valley, wrote the editor from Hamblin, Mo. to send The Star to her so she might keep up with the folks at home. She is waiting for her husband, Sgt. Bob Walley, who has been in Germany but is in the states now and expects to be home soon.

Mrs. Ira Ray and daughter, Mrs. A. J. Bruce, Mrs. Curtis Jones, and Miss Mayell Elder of Ballinger spent Sunday of last week with Mr. and Mrs. Granval Wolfe of Moran.

Mrs. R. A. Elder of Big Spring made a business trip and visited friends here Friday. She came by The Star office to compliment the editor on getting out such a newsy paper. We appreciate these encouraging remarks.

is bound to prove a delightful revelation for movie-goers. As "Dr. Allan Middleton," George Sanders turns in a wondrously suave performance in the type of role that has made him a screen favorite.

NO RESPECTER OF PERSONS

"Then Peter opened his mouth and said, Of a truth I perceive that God is no respecter of persons: but in every nation he that feareth him, and worketh righteousness, is accepted with him" (Acts 10:34, 35).

Now notice the difference between man and God on this point—'My brethren, have not the faith of our Lord Jesus Christ, the Lord of glory, with respect to persons. For if there come unto your assembly a man with a gold ring, in goodly apparel, and there come in also a poor man in vile raiment; and ye have respect to him that weareth the gay clothing, and say unto him, Sit thou here in a good place; and say to the poor, Stand thou there, or sit here under my footstool; are ye not then partial in yourselves, and are become judges of evil thoughts? (Jas. 2:1-4). I have seen ushers do this very thing—the well-dressed they seat in a prominent place, but those not so well attired they seat in an obscure place. They are, as James teaches, respecters of persons.

Jesus Christ stopped and talked to individuals that other religious people would sneer at, his own disciples were apparently surprised that he would take up time teaching the woman of Samaria. Jesus was enthusiastically interested in persons who were beneath the notice of their neighbors. Matthew was a social and religious outcast among his brethren, be-

cause he accepted the job of collecting the Roman tribute. But Jesus considered him a good subject for a disciple and an apostle. The Pharisees thought the woman taken in adultery ought to be stoned to death, but Jesus thought she ought to be saved. The world has always been overstocked with smart fools—men who are cocksure, dogmatic and intolerant. In the eyes of Jesus there are no shoddy and worthless people. They may have shoddy and worthless ways, but they bear the image of God. It is left to wise fools to find people who are not made in the image of God, and not worth saving.

If any one is totally depraved he does not have the image of God, and therefore is not worth trying to save. But Jesus did not believe in that doctrine. He did not teach it or practice it. He tried to save everybody. He taught that everybody could be saved. He died for everybody. He invited everybody. And so the gospel is to be preached to everybody. And everyone is warned to give heed to the gospel call.—W. M. Davis.
