Two Trucks at Once Lead Harvest Parade

Although the wheat crop is sparse this year, Castro County got a double-start on it.

Television viewers, during the past week, had an opportunity to witness, and hear, the actual proceedings in the United Nations Security Council meetings. Delegates from the various nations involved were given unlimited time, and apparently as often requested, to present their side of the issue.

Granted, the arguments were not always pitched on the highest plane, and by our standards, in many instances, were uncouth and boorish. But the fact remains that there was a place for representatives of nations of the world to get together and plan a ceasefire which was eventually brought about.

Wes Izzard and other arch enemies of the United Nations are already declaring that the world organization is as dead as a mackerel because of its ineffectiveness in the current crisis. The fact is the United Nations provided the means by which citizens of the world were informed first hand of many of the underlying causes of the conflict and were given an opportunity to judge the nations involved by the attitude and pronouncements of the representatives.

Israel is being denounced by Russia and the Arab nations as the aggressor, but the fact is that Israel was hemmed in by a ring of steel manned by legions of Egyptian and Arab soldiers and their only means of defense was a swift and all out offense. They had the general, manpower and equipment to get the job done. If war wasn't so tragic, many of the stories concerning one of the shortest major wars in history would be rather humorous. Even when you are pleased by the turn of events, and you honestly believe that right has triumphed, it is impossible to overlook the suffering of the vanquished as well as the killed and maimed in the ranks of the victors.

The wheat harvest is getting underway. The peak will be reached next week, and the job will be completed by the middle of the following week. The high winds and blowing sand (Continued on Page 14)

Salaries Up \$600 Over State Level

After a month of fund-jockeying by the legislature and the school board, Dimmitt teachers have come out with an adopted salary schedule \$600 above the state schedule and \$230 above last year's Dimmitt level.

ACCORDING to Supt. Paul Hilburn, salary for a beginning teacher with a bachelor's degree is \$5,334 annually. Maximum for a teacher with a bachelor's degree is \$6,504. For a teacher with a master's degree, the annual wage ranges from \$5,640 to \$7,512, depending to number of years' teaching experience.

The new ruling also calls for the school to pay one-half of the premium on Blue Cross and Blue Shield hospitalization insurance. Previously, the teacher's individual insurance was paid entirely by the school.

JOE LANGE, manager of the Dimmitt Wheat Growers elevator at Nazareth, found himself in a delightful dilemma at 4 p.m. Wednesday of last week when he received Castro County's first two loads of 1967 wheat, from separate farms — at the same time. One of the trucks turning off the highway to Lange's elevator was driven by Mrs. Lawrence Wagner and the other by William C. Hochstein. Their arrival at the Nazareth elevator officially kicked off the county's '67 wheat harvest.

Dimmitt Wheat Growers called it a draw and awarded duplicate bonuses of 15 cents a bushel and new Stetsons.

THE BONUSES were about the only consolation for the Wagner and Hochstein who, like most other producers in the county, have seen their wheat crops damaged badly this year by combinations of greenbugs, late freeze, drought and hail.

The Wagner wheat, raised on the family farm 4 1/2 miles northeast of Dimmitt, will be "poor to fair" in yield this year, Mrs. Wagner said, with their early wheat averaging eight to 10 bushels per acre.

Their wheat, Early Triumph variety, had to withstand all four nemesis this year — greenbugs, freeze, drought and hail. But it tested out well at 13.7 percent

moisture content and 60 pounds per bushel.

HOCHSTEIN'S first cutting was averaging between 15 to 20 bushels per acre, and he estimated his later wheat will make 30 or better. His first load tested 13.1 on moisture content and 58 pounds on weight.

Hochstein said his crop "was the prettiest wheat I've ever had until the greenbugs and freeze hit it." He planted the Caddo variety wheat Sept. 1 on his farm half a mile east of Nazareth, irrigated it twice, and did not graze it.

"It didn't catch any hail, and was already in good seed before the freeze hit," he said. "But it's been hurt pretty badly, mainly by greenbugs."

LANGE VOICED the feelings of all elevator operators in the county when he said this year's wheat crop is going to be "pretty short."

"A lot of it looks good, but the grain isn't there," he said. "The bad part is that if the farmers ever needed a crop, they need it this year."

Dimmitt's first wheat came in at 8:45 a.m. last Thursday when Mrs. Donald Wright brought a truckload to Castro County Grain Co. Thomas Lee Brooks was the first in at Hart, with a load to Hart Grain Co. Thursday afternoon.

Prof Asks Help On Place Names

Residents of Castro County were asked this week to help solve the mystery of the origins of several geographical names found on county maps.

The information is needed for a dictionary of Texas place names, including Castro and the other 253 counties, to be published soon by the East Texas State University press.

BEFORE Dr. Fred Tarpley, professor of English at the university, submits his final manuscript, he is appealing to county residents for assistance in contributing information about several names with unexplained origins.

He said he needs the reasons for the choice of these place names in Castro County:

ARNEY, Bethel, Boom, Dodd,

Easter, Gresham, Hendrix, Hilburn, Jumbo, Lambert, Muller, Red Barn, Roy, Running Water Creek, Schmucker, Sunnyside and Tam Anne.

Dr. Tarpley, who started his research on Texas geographical names five years ago, has exhausted material available to him in history books, newspaper files, student research, and interviews with county leaders. He is hoping that the story behind the naming of the communities, creeks, and other geographical sites listed above can be explained before his book goes to press.

Information should be addressed to Dr. Fred Tarpley, Department of English, East Texas State University, Commerce, Texas 75428.

County Activities Committee Will Sponsor Carnival Here June 11-19

The Castro County Activities Committee will sponsor the S. B. Rhodes Carnival here next week, Monday through Saturday.

PROCEEDS from the carnival will provide revenue for the county-wide celebration Aug. 11-19. The committee sponsors this event to relieve county merchants from financing the pageant through donations.

The carnival will be open each night Monday through Saturday, and also Saturday afternoon.

A COUNTY association community will be responsible for the carnival each night. The schedule is:

Monday — Dimmitt Rodeo Association.
Tuesday — Hart.
Wednesday — Nazareth.
Thursday — Dimmitt Volunteer Fire Dept.
Friday — Easter.
Saturday — Castro County Chamber of Commerce (afternoon) and Bethel (night).

Proceeds from the carnival will go for the 4-H Youth Fair, Pony Show, parades, Youth Day trophies, Riders Club Bar-B-Q, fireworks, O'd Settlers Day ex-

4 Youths Jailed For Disturbance, Beer Possession

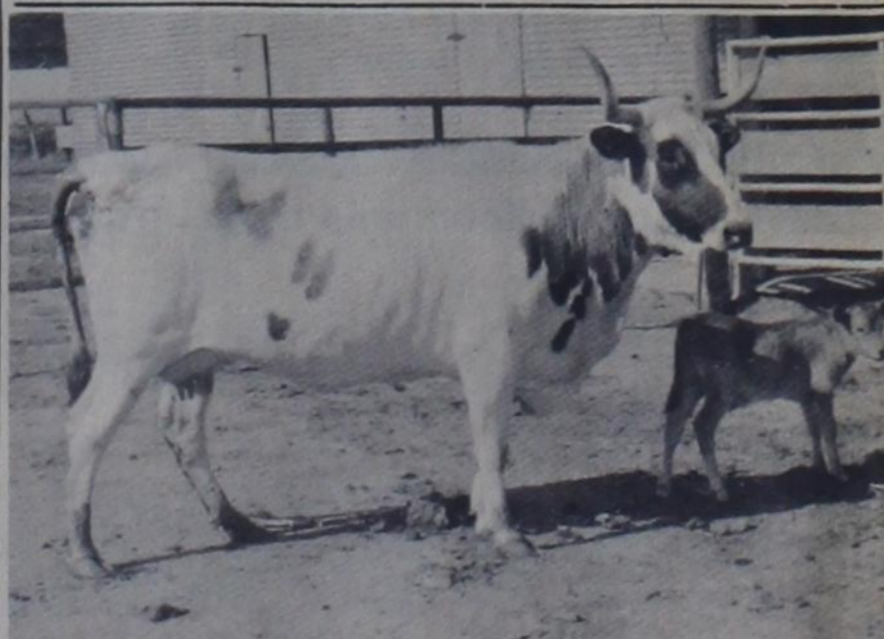

Screaming tires, loud mufflers and possession of beer landed four local boys in jail Monday night.

THE BOYS, one juvenile and three minors, were arrested about midnight Monday by City Marshal W. W. Jones, who said he went to investigate when residents of Seventh and Halsell Streets called him and complained of the noise.

The boys went before County Judge Raymond Wilson Tuesday and paid a total of \$90 in fines for possession of beer. The 16-year-old driver of the car was also charged with creating a disturbance with a motor vehicle.

Jones said all the boys had been previously warned.

Corporation to Be Formed To Go After New Industry

The Chamber of Commerce board voted Friday in favor of establishing a private industrial development corporation for Dimmitt if it proves feasible.

IN UNANIMOUS vote, the board adopted a motion by Earl Brock to authorize new Chamber President Don Newman to "appoint a steering committee to study the feasibility and set up an industrial development corporation."

The steering committee will work side-by-side with the chamber's industrial committee, headed by James Horton.

In approving the idea, the chamber board's main aim is to find out if an industrial development corporation would be a significant aid to the community's efforts to lure new industry here.

THE MAIN advantage of such a corporation, board members felt, was that it would provide a money pool useful in the purchase

of sites, construction of industrial facilities and-or development of an industrial park.

The corporation would have the authority to negotiate in Dimmitt's behalf with any industry interested in locating here. Depending on how it's chartered, it could buy and sell land, sign contract agreements, make financial commitments, advertise, lease sites, or perform other duties that might make Dimmitt a stronger competitor for new industry.

Basically, it would provide "one-stop service" for any industry interested in setting up a plant here.

Newman is to appoint a steering committee for approval by the chamber board at its next meeting in July.

IN OTHER action, the board elected Newman as the new chamber president to complete the term of Dr. Bill Bennett, who is moving to Midland. Newman previously was the chamber's vice-president.

Directors elected Dr. Dennis Blackburn as the new vice-president, and appointed Elvon DeVaney to fill the vacant post on the board of directors.

Pool Elected President Of US 385 Assn.

Ray Pool of Dimmitt has been elected president of the Texas Division of the Highway 385 Association.

His election came at the association's quarterly meeting in Odessa.

POOL, WHO has been active in the association for the past two or three years, said that the group's main problem is trying to extend the highway from Mexico to Canada and keep the same number all the way.

US 385 begins near the Texas-Mexico border and runs to Regina, Saskatchewan, Canada, under the name of International Parks Highway. The late T. A. Singer of Dimmitt was responsible for the naming of the north-south international route. He was one of the main originators of the program when it began in the early 1950s.

The Texas Division meeting in Odessa was held in conjunction with the International Highway 385 Association meeting attended by members from Canada, Mexico and all states through which the highway runs.

Railway Express Seeks to Close; Chamber Protests

Chamber of Commerce President Don Newman and City Manager E. B. Noble were in Austin Wednesday to protest the proposed closing of Railway Express Agency service here.

THEY APPEARED before the Railroad Commission at a 10 a.m. hearing on REA's request, and had with them protest letters signed by Dimmitt merchants who rely on Railway Express.

The Chamber of Commerce BOARD VOTED Friday morning to file a de'legation to Austin for the hearing and try to keep the REA office open here.

REA is seeking permission from the Railroad Commission, which regulates freight line permits, to close its office here because of a lack of business. REA reportedly averages 92 shipments per month here, with a \$500 monthly gross.

Railway Express and Merchants Freight Lines are the only freight companies now serving Dimmitt.

NOBLE TALKED to Railroad Commission members last week and reported to the C of C board, "They were surprised we had only one other freight line operating here because two other companies (Lang Motor Freight Lines and ICX) have permits to operate here."

Newman said lumber companies and clothing stores here would be "seriously affected" by REA's closing, as well as other businesses that rely on REA's combination of rail and truck service.

MARTHA NITSA, AMONG HER SOUVENIRS
... She'll leave Dimmitt for her native Greece in 12 days

MARTHA:

'I Don't Want to Go'

"I don't want to go. I will be glad to see my family and friends again, but I think it's not so nice to leave here, from the people I know."

THAT'S THE mixed emotion Martha Nitsa has about leaving Dimmitt, which she must do in 12 days.

After a glorious year as a senior in Dimmitt High School, as the "daughter" of the Charlie Hays family, and as an adopted resident of Dimmitt, the American Field Service exchange student from Greece will leave Dimmitt June 27.

Then, after a three-week AFS bus tour across the country, she'll sail from New York City July 22 aboard the Europe-Canada Line's steamship Ryndam, bound for her native Greece.

SHE'LL RETURN to her home town of Trikala, below the legendary Mount Olympus in the district of Thessalie, to a familiar two-story, 10-room stone house on the corner of Aristidou Papa and Aesclepius Streets.

Her top-floor room overlooks Aristidou Papa, and behind the large family home is the Nitsas garden, alongside the house, Aesclepius Street runs toward the River Pineos, five blocks away. In a bus terminal near the river, one of her father's three candy shops is located.

Aesclepius Street, named for the Greek god of medicine, is the main street in the city of 45,000.

THERE she'll be reunited with her sisters, Nini, 23, and Ismini, 6, and with her brothers, Demosthenes, 25, Ste'ios, 22, and George, 16.

Another sister, Vasula, 21, is in England, attending St. Michael's School in Oxted on a college scholarship.

Nini is a school teacher in Trikala. Demosthenes and Stelios

manage the family's other two candy shops. George is a junior in high school, and the 6-year-old Ismini is a pre-schooler.

Martha will be glad to see them again, but right now, she said, "What I really would like is to go see my parents and family, and then come back here."

WHEN SHE sails, she'll reluctantly put Dimmitt, the state of

Texas, and the United States into her bag of memories.

But not for long, she hopes, for the determined Grecian girl intends to return to the US she came to love.

"I plan to work for a year in an airport or government office where my English will be useful," she said. "Then I hope to get (Continued on Page 14)

250 Here Sign Letter to LBJ

Dimmitt's Jaycees reported Tuesday that more than 250 Castro Countians signed their "Open Letter to the President," lending moral support to LBJ's Vietnam policy.

THEY SENT their copies of the letter Wednesday to state Jaycee headquarters at Grand Prairie, along with a dollar a signature donated by those who signed.

Hundreds of other copies of the letter, with thousands of signatures, are also pouring in from across the state this week to the Grand Prairie Jaycee headquarters, where they will be compiled for a multipage advertisement in the Austin American-Statesman next week.

On the same day the open letter and signatures appear in the state capital daily, the original signed letters will be presented to President Johnson when he speaks to the national Jaycee convention in Baltimore, Md.

THE MOVE to express grass-roots support for the President's policy in Vietnam started in Dimmitt when Horace Henley and the Jaycees launched a movement to "protest against the protestors" of US involvement in the Southeast Asia nation. They were successful in getting the Texas Junior Chamber of Commerce to adopt the letter campaign as a state project, and it has mushroomed into a statewide drive.

School Evaluator To Give Report

Dr. Morris Wallace of Texas Tech will discuss the strengths and weaknesses of the Dimmitt school system Tuesday night when he presents the findings of a year-long evaluation study at a public meeting in the Dimmitt High School auditorium.

THE MEETING will begin at 8 p.m.

Dr. Wallace headed a 30-committee team to evaluate the school system this year at the request of the local school board. The study included a three-day visit by a team of 15 outside educational experts.

Dr. Wallace Tuesday night will emphasize the improvements which the evaluation showed are needed in the Dimmitt school system.

ULTIMATE objective of the project is to qualify the Dimmitt school system for accreditation in the Southern Association of Secondary and Elementary Schools. This association, which has a big voice in college and university acceptance of individual

schools' standards, serves as a "watchdog" agency for maintaining quality of public school education.

At present, only 196 of Texas' 1,320 high schools have Southern Association membership, and only 71 school districts have qualified both their high schools and elementary schools for membership.

Name Contest Closes Today

Today (Thursday) is the deadline for submitting entries in the name contest for the new memorial park cemetery being constructed on the Clovis highway.

AS OF Tuesday noon, 66 names had been submitted in the contest. Entries must have been postmarked before midnight Wednesday.

The contest winner will be announced in next week's issue of the News.

Lions Award \$250 To Miss Robbins

Carol Robbins, daughter of Mr. and Mrs. Frank Robbins of Frio, was awarded a \$250 scholarship by the Easter Lions Club in its regular meeting Monday night.

Miss Robbins is a graduate of Hereford High School.

THE CLUB also installed new officers for the coming year. They are Alvis Jolly, president; Billy Baker, first vice-president; Houston Frye, second vice-president; Trent Downing, secretary; A. T. Jones, Lion Tamer; Jerry Terrell, Tail Twister; Gene King, treasurer and new directors Melvin Barton and Pat Robbins.

Barbara Jolly is the club's new sweetheart.

A group of 75 members, one and a half times the average attendance, were entertained by the Hereford String Band. Ladies' Night was set for June 26.

Cards Top Braves In Little League

The Cardinals and Braves won two and dropped one apiece during the week to remain 1-2 in Little League standings.

THE CARDS ran their won-lost record to 8-4 by topping the Yankees 10-9 and the Braves 11-5. Their loss came at the hands of the Dodgers by a score of 8-2.

The third place Dodgers are 1-1 for the week with the 8-2 victory over the Cards and a severe loss of 17-5 handed them by the Braves.

The Yankees also won one and lost one for the week defeating the Dodgers by a narrow 15-14 and losing to the Braves 6-3.

Bible Thoughts

"GOD LOVES US"

By Ronnie Parker

The manifestations of God's love have been seen since time began. God made man in his own image and put everything in subjection to man. God provided for every need that man would encounter. His whole creation was suited to the needs of humanity. The supreme manifestation of God's love was the gift of Jesus. "But God commendeth his love toward us in that while we were yet sinners, Christ died for us" (Rom. 5:8). So Christ is the bridge of God over the chasm of sin.

God shows his love to us daily by giving us life, breath, and all things. "Good and perfect gifts" come to us from the Father above yet how prone we are to forget to thank Him. Spiritual life is offered to everyone who is dead in trespasses and sins for God is "rich in mercy, for his great love wherewith he loved us" (Eph. 2:4).

God again shows His love in the promises He makes for the future. His promise of an eternal home of bliss for the obedient is the anchor of the soul. It gives meaning and purpose to life. If you will come to a knowledge of the love of God, you will be constrained to live your life in obedience and service to Him. "We love, because he first loved us" (1 Jn. 4:19).

FOUNDATION

Our nation is witnessing a building boom, such as has never before been seen. Every day new foundations are being dug and laid. Any builder will tell you that it takes a firm foundation to support today's skyscraper.

Our Lord, in His sermon on the mount, compared those that heed His word, to the wise man that built his house upon a rock, and those that did not heed His word to the foolish man that built his house upon sand and it was washed away.

Build your house upon a rock... Attend church regularly.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Sewell Attends ACTS June 5-9

The Rev. John Sewell, pastor of First Assembly of God in Dimmitt, was one of the 142 persons attending the 14th annual Advanced Christian Training School (ACTS), a specialized training course for Assemblies of God Sunday school teachers and workers, which convened on the campus of Central Bible College, Springfield, Missouri, June 5-9.

THE ONE-WEEK school sponsored by the denomination's Sunday School Department, presented means and methods of Sunday school operation. It attracted students from throughout the nation.

Facing the challenge of the times, the 1967 ACTS program followed the theme, "Challenge of Change." Though the message of the Sunday school is the same, new approaches and methods taught in sessions like these are needed to make it relevant, according to the Rev. William E. Kirschke, national Sunday school secretary.

Guest speaker was the Rev. G. Raymond Carlson, president of North Central Bible College, Minneapolis. A minister in the Assemblies of God for more than 26 years, Rev. Carlson has served as pastor, district Sunday school director, district superintendent, and is currently a member of the executive presbytery, 16-member policy board of the denomination.

FEATURING 24 classes, this year's curriculum included training in creating visuals for teaching, effective records, music in the Sunday school, planning your school's future, obtaining building potential, and teaching through group dynamics.

Faculty personnel represented professional Sunday school leaders, college and public school teachers, ministers, artists, and writers. Three specialized workshops were included in the afternoon scheduling.

The evening sessions combined inspiration and education. Interviews, demonstrations, information about new Sunday school curriculum, and programming helps acquainted workers with the latest advances in Christian education.

Six Attend Boys State This Week

Six Castro County boys are among the 750 Texas high school boys attending the 27th annual American Legion Boys State being held this week on the University of Texas campus in Austin. They are Scott Moran and John Hays of Dimmitt, Danny Rice and David D. Harris of Hart and Mark Gerber and Jerry Aberant of Nazareth.

FOLLOWING registration, the boys are assigned to one of two political parties — the Longhorn or Pioneer. Each citizen then functions as a member of his party; he attends its precinct, county and state conventions and votes in its primary.

In Boys State, the American Legion provides the type of program where the young citizen has the opportunity to learn for himself that his government is just what he makes it. The boys "learn to do by doing."

Highlight of Boys State will be a trip to the Capitol on Friday morning where each elected Boys State official will serve in his respective office for a day, followed by the Governor's Ball Friday night.

JACK W. FLYNT II, Boys State representative from Dimmitt in 1965, is attending Boys State for his second year as junior counselor.

Returns From Houston

Mr. and Mrs. H. E. Hershey returned home Sunday from Houston where they visited their daughter and family, Mr. and Mrs. Don Sorgenfrei. They also visited their son, Elmer in Fort Worth.

HART'S FIRST WHEAT was brought to Hart Grain Co. Inc., at 3 p.m. last Thursday by Thomas Lee Brooks (left). Here, Wister Clevenger (right) takes a sample of the first wheat for testing. Brooks' first load weighed 14,180 pounds, with a test weight of 61 pounds and a moisture content of 14.2. He estimated his freeze-damaged wheat's yield at "not more than 20 bushels an acre average." Brooks' farm is 1 1/2 miles west of Hart.

4-H Dress Revue Slated for July

By IRENE A. KEATING
Home Demonstration Agent
Things have calmed down some since school is out. The 4-H girls are busy preparing for the 4-H Dress Revue. The 1967 Dress Revue will be held on Wednesday, July 5, at 2:30 p.m. in the assembly room of the courthouse. Everyone is urged to come see what good seamstresses there are in 4-H.

★
THIS WEEK I have chosen to give you several short items. But first I'd like to announce that we have a new bulletin, "What's the Best Way to Buy Beef?" It is good for those of you who are trying to decide whether to buy an entire beef carcass for your freezer. We have ordered copies of this bulletin and they should be in next week. Come by and get one if you're interested.

Take precautions when washing fiberglass curtains in the washer. Articles washed next in the machine will pick up the glass fibers. The particles are so tiny they can't be removed. When the articles come in contact with the skin, the small glass fragments will work into the skin and are impossible to be located even by a doctor.

SET A television tray beside the hostess' place at the table to hold rolls and relishes to pass during the meal. You can also use the tray when serving coffee or dessert.

Select plain or small-patterned wallpaper for small rooms. If you like large-scale patterns, use them in big rooms. It will seem to fill empty space and give a furnished look. Put a small over-all pattern on walls and ceilings of rooms with gable windows and

slanting walls. Widen long, narrow rooms by covering long walls with plain paper, end walls with patterned paper. Raise a low ceiling with light ceiling paper or by using striped paper on the walls.

To pack shoe polish for travel, wrap in plastic or enclose in a small pastic bag. Be sure the cap is tight. Heat and pressure can cause leaking of even the tightest packages.

THE USE of plastics in furniture is increasing as a result of wood shortages and the high cost of carving wood. Plastics are being used as finishes, veneers, laminates, and molding. Molded plastics are replacing wood in traditional furniture styles with intricate patterns and carving effects. New methods for finishing and varnishing synthetic woods have resulted in products that look so much like natural woods that most consumers can't tell the difference.

Be choosy in paying off loans. If you can carry a present loan at a low interest, you may reserve your cash for a possible need. Paying ahead on a mortgage makes sense, but paying off an entire low interest bearing mortgage in advance right now probably doesn't.

ONE IN three, or about 15 million, wives earn a paycheck. Half of all working wives earn about a quarter of their family's total income. About forty percent of total consumer spending is estimated to come from homes where the wife is employed. Nearly half of the employed wives are in clerical jobs or work in factories. Over half are between 35 and 54 years of age.

Hoelting Wins Gates Plaque

Cecil Hoelting of A&H Supply won a "money plaque" of new American coins recently after a representative of the Gates Co. spot-checked his inventory and found it well stocked.

AS PART of a stock inventory program, the auto-parts manufacturing firm checks dealers' inventories and rewards those who are well stocked. Hoelting's parts department had all the required sizes of Gates fan belts, hoses, clamps, thermostats and other company products when the Gates representative "spot-checked" his supplies.

Halls Return From Bahamas

Mr. and Mrs. Murray Hall returned Sunday from a four-day jet vacation to Grand Bahama Island, paid partially by the AC Sparkplug Co.

HALL'S FIRM, A&H Supply, won the trip for topping its sales quota of AC products.

The Halls flew to the Bahamas via Eastern Airlines 707 jet, with the trans-continental flight from Lubbock taking only two hours, 45 minutes. They stayed in the Jack-Tar Hotel in West End, GBI, and spent their four days touring the resort island and swimming in the Atlantic.

During their trip, their children stayed with Mrs. Hall's parents, Mr. and Mrs. H. O. Markley, 10th and Pine Sts.

NEW GAS LINE ROUTE THROUGH HIGH PLAINS ... Northern project to cost \$47 million

Northern Gas Co. Constructing 369-Mile Pipeline Across Area

Construction of a 369-mile natural gas pipeline by Northern Natural Gas Company of Omaha, Nebraska across the high plains of Texas is now underway.

THE \$47 MILLION project will snake northeastwardly from Kermit, Texas to Beaver, Oklahoma, carrying natural gas from the Coyanosa, Gomez and Reeves gas fields in the Permian Basin to the Northern Plains States.

Northern, one of the five largest natural gas transmission companies in the nation, estimates the 30-inch pipeline will be ready for service about November.

Prime contractor for the massive undertaking is R. H. Fulton, Contractor, Lubbock.

THE PIPELINE will go under some 20 major highways and across countless rivers and streams that cross its path. One of the most formidable natural obstacles in the pipeline path will be the 7 1/2 mile crossing of Palo Duro Canyon southeast of Amarillo. 11 crossings will be underground.

Pipe will be laid in 80-foot sections on all but 115 miles on the southern end of the job, where lengths will be 60 feet long.

In addition to the huge pipeline, Northern will also construct four compressor stations to move the gas through the pipeline.

EACH STATION will house a 9,300-hp turbine engine and will be located at Kermit, Plainview, Claude and Seminole. Construction of the stations is to begin at once.

The compressor stations will be "unattended stations" — their operating function being carried on by automated equipment — but will require four to five full-time employees for maintenance and other duties.

Two of the stations are expected to be finished at the end of 1967. The other two earlier in 1968.

PROJECT headquarters for the entire construction program is Plainview. Four other subordinate offices will be located along the line.

Northern last year delivered 681 billion cubic feet of gas to 73 utility and four other pipeline companies in the Northern Plains states. The company currently operates 21,638 miles of pipeline extending from 50 miles north of the Mexican border to within 50 miles of the Canadian border.

Pete Wright, chairman of the Castro County Technical Action Panel, said the Department of Agriculture has instructed its rural development specialists to "end the migration of rural people to large cities by helping small communities revitalize themselves" through a coordinated program for economic development.

WRIGHT SAID instructions had been sent by Assistant Secretary John A. Baker to all the field staffs of USDA agencies urging them to expand efforts to:

—Provide assistance to multi-county planning and development groups.

—Extend services and benefits to all federal agencies into rural areas.

—Help rural communities make economic development plans and secure services needed to carry out the plans.

THE ASSISTANT secretary's action emphasized the importance of the Technical Action Panels that the Secretary of Agriculture has ordered established in each state and the approximately 3,000 rural counties to work with local community development organizations.

"Basically what the department is doing," Baker explains, "is realigning and fortifying its field offices to insure that rural communities do not miss out on help available from any source in their development programs."

"WE HAVE established a 'one-stop' service concept in every rural county to enable local leaders to (1) get help they need in finding out what is impeding the development of their local economy, (2) obtain assistance in preparing economic development plans, and (3) tap all government and private services that can be used to turn dreams into reality," Baker said.

The Castro County Technical Action Panel is composed of Pete Wright, Soil Conservation Service, chairman; Don R. Jennings, Farmers Home Administration, co-chairman; Charley Hill, Agricultural Stabilization and Conservation Service, alternate chairman; Charles Hottel, County Extension Service; and the local vocational agricultural instructors. Meetings will be held on the third Tuesday of each month at 1 p.m. in the local Soil Conservation Service office.

TO GIVE staff support to the panels, a Farmers Home Administration rural development specialist has been assigned as executive director in 40 states.

Baker in his directive also gave details on multi-county panels that are to be set up where needed to service area-wide planning bodies. These panels will include development specialists from the same group of agencies represented on state and county panels but will deal with projects that serve more than one county.

"Modern communications and transportation," Baker pointed out, "have made possible a new kind of functional rural community that has a population base adequate to support a large number of basic public services. Generally this new type of community includes two or more rural counties and at least one small city which is the focal point of local economic, educational and social activity. Areas of this type can undertake development programs that no single county or community could afford."

IN ADDITION, Baker's instruction listed the contributions to be made in rural areas development by USDA agencies that do not have nationwide, county-level field staffs.

For example, the Consumer and Marketing Service will provide technical assistance in the area of marketing services and food assistance programs.

The Farmer Cooperative Service will help provide advisory and educational assistance to rural cooperatives.

The Forest Service, through its cooperative state and private program, will provide technical assistance in each area where forests are economically important.

The Rural Electrification Administration, working through its borrower organizations, will furnish credit-finding aid for commercial and industrial projects.

Support for the program will also be given by the Agricultural Research Service, the Cooperative State Research Service, the Economic Research Service, the Federal Crop Insurance Corporation and the Statistical Reporting Service.

Support for the program will also be given by the Agricultural Research Service, the Cooperative State Research Service, the Economic Research Service, the Federal Crop Insurance Corporation and the Statistical Reporting Service.

Touchstones Fond of Bahamas; Unimpressed With US Tourists

Mr. and Mrs. Jay Lee Touchstone returned Sunday evening from a four-day vacation on Grand Bahama Island.

THEY WON the trip from Dimmitt Parts & Supply in a free drawing last month. The local parts firm had earned the Bahama vacation through its sale of AC parts.

The Touchstones stayed at the Grand Bahama Hotel and Country Club in West End while there, and enjoyed swimming, entertainment and relaxing on the beach of the Atlantic.

"WE STAYED on the beach and in the water nearly all the time, and it was heavenly," Mrs. Touchstone reported. "We found the new resort city of Freeport to be a beautiful city, and we were impressed by the cleanliness of the cities and villages."

"We weren't impressed at all by the actions of many American tourists we saw there," she said. "The 'Ugly American' seemed to be well represented there. We had heard about this, but it surprised us at how obnoxious some of our fellow countrymen could be."

The Touchstones flew by Eastern Airlines 707 jet departing from Amarillo last Thursday morning and touching down at

Lubbock. The cross-country flight from Lubbock took only two hours and 45 minutes, flying over Houston and along the Gulf Coast past the Florida peninsula.

It's Smart To Install Gas Air Conditioning

Play it smart. Give gas air conditioning a careful, hard-nosed look. Really get into it and you'll find there are no moving parts in the cooling cycle... so there's minimum maintenance. Check into the service. It's provided by Pioneer so you are sure it's dependable. And gas is famous for economy — no need to retion coolness. Play it smart and you'll play it cool for trouble-free years and years.

Nazareth Leads League Halfway Through Season

Nazareth is on top of the Irrigation Baseball League with a 6-0 record going into the second half of the season.

LEAGUE PLAY continues today (Thursday) with Amarillo at Umbarger. Sunday Nazareth will be at Hereford and Plainview at Amarillo.

Plainview comes to Nazareth June 21 and Herford meets Umbarger June 22.

Amarillo will play at Nazareth June 24 and June 25 Hereford travels to Amarillo and Umbarger to Plainview.

Plainview will play a make-up game at Umbarger June 21. Nazareth will host the All-Star game July 1 at 8:30 p.m.

Nazareth meets Amarillo there July 2 and Umbarger at Nazareth July 5.

JULY 9 Plainview hosts Hereford for a double-header and Umbarger plays a single game at Amarillo.

Plainview plays at Umbarger July 13.

Nazareth goes to Hereford July 16 and Amarillo travels to Plainview the same day.

Two games are scheduled for July 23 - Nazareth at Plainview and Umbarger at Hereford.

Amarillo goes to Hereford July 30 to wind up the season.

SOW COMFORT IMPORTANT: Hot weather in Texas during the summer can affect year-round hog production. Summer heat stress has resulted in fewer sows "settled" on first breeding and smaller litters farrowed from those bred due to high embryonic mortality.

Youths Go to 'State'

By MYRTLE SHEFFY
Scott Moran and John Hays are in Austin to attend Boys State. They are sponsored by the American Legion.

berley, Nelda Thomas, Dr. Vandiver and me. Hosts were Messers. and Mmes. Go'dman Dyer, John Merritt, Harold Stephens, Russell Moran, Charlie Hays, Elmer Youts, Frank Pollard, Cecil Dennis, Steve Taylor, George Bradford and Aural Davis.

LINDA LANGFORD, daughter of Marie Langford, was the guest of Mrs. Ken White at the Cattlemen's Association banquet in Co-vis Monday night.

BILL AND Millicent Bennett were hosts at a bridge party at the Hereford Country Club Saturday night.

Suzan Wise was hostess at a slumber party Thursday night. Her guests were Kim Miller, Janie Sheffy, Lisa Simpson, Cindy Dyer and Linda Wise.

NANCY AND Jimmy Ross visited their folks in Luling and spent three days at Lakeway Inn (in Austin) on Lake Travis.

Mr. and Mrs. Swain Burkett went to Austin for the University of Texas graduating exercises. Their son Mike received his degree in Industrial Economics.

A few friends came to my house Thursday for bridge. Pie and iced tea were served to Jeanne Miller, who won high score, Ceil Carlile, Edith Ramsey, Josie Bradford, Winnie Cunningham, Edna Touchstone, Maggie Boren, Pearl Sheffy, Helen Braafladt, Rita Cluck, Gladys Cleavinger and Faun Welker.

MR. AND MRS. Herbert S. Clark and daughters, Carol and Jan of Pueblo, Colo., are visiting his brother and family the Arthur Clarks.

THIS HAS been a busy party week. The housewarming for Charles and Esta Vandiver Saturday night, was a most enjoyable one.

FRIDAY NIGHT Sid and I hosted the 42 Club with a steak supper. Sixteen people were here.

Mr. and Mrs. Jay Lee Touchstone left for the Bahamas last week on a trip they won through the courtesy of Dimmitt Parts and Supply.

A'llan Webb was hostess Friday night to 47 girls and their dates with a party, Peggy Webb, her mother, says she made up 200 sandwiches among other foods.

MONA MERRITT was hostess Thursday afternoon with a bridge and refreshment party. Her guests were Carolyn Jones, Shirley Wise, Ina Cleavinger, Dorothy Gilbreath, Nancy Hays, Sue Merritt, Carol Dyer, Nancy Greer, Martha Dannevik, Courtney Armstrong, Ruth Jackson and Jo Eddie Riley.

LIFE-LINES
From Bruce Taylor
COULD YOU USE SOME DOLLARS THAT S-T-R-E-T-C-H?

We're not talking about the phony rubber kind... Were talking about REAL, SPENDABLE DOLLARS... dollars that actually stretch out into a DOUBLE-DUTY PURPOSE in your program of financial security...

We have a plan that will help you s-t-r-e-t-c-h some of your dollars into real DOUBLE DUTY DOLLARS... we'd like to show it to you... it will take just a few minutes, and these few minutes may be the most profitable minutes you'll ever spend.

Square Dance Tips

By ANN ALEXANDER
Tuesday, June 6, 36 members of the Dimmitt Promenaders and 12 members of the Muleshoe Square Thrus (six squares) danced to the excellent calling of guest caller Gary Bulls of Muleshoe.

MRS. MABEL HEARD, Dimmitt Junior High School counselor who has been teaching a genealogy class under Castro County Public Library sponsorship, was honored by members of her class last Thursday night at a patio dinner at the home of Mr. and Mrs. Jack Gregory.

Muleshoe captured Dimmitt's square dance banner by bringing more than a square of guests. June 13, Dimmitt will go to Muleshoe in force and recapture our banner.

Others on the program were Dr. and Mrs. Charles Vandiver, Jeanine Wimberley and Ne'da Thomas, who did a trumpet solo.

MR. AND MRS. Curtis Palmer of Garden City were guests of Olen and Mary Rice, the Fred Bruegels, Soapy and Velma Holland and the Georges. Mrs. Palmer will be remembered as May Cox.

Returns Home
Mrs. Edna Lippard returned home Friday from Pampa where she spent two weeks visiting her daughter.

Mr. and Mrs. Rex Sheffy and boys visited her parents near Duke and Mr. and Mrs. Bill Walker in Altus, Okla., last weekend. Opal and Ardy Thompson of Muleshoe were Sunday guests of the Sid Sheffys.

DOC AND JERRY Cummings of East Moline, Ill., were here this week for a visit with friends Herb and Dorothy Mayfield and the Ray Robertsons.

Misses Marian, Marilyn and Sybil Hays and their nephew, Jerry McLain of Crowell attended the final rites for Air Force Major Galen Givens in the First Baptist Church in Quanah Friday afternoon.

Mr. and Mrs. Keith Howard have taken their daughter, Keith Ann to Austin where she will study music at the University of Texas.

Mrs. Francis Warren Norris
... formerly Dianne Hoelting

Hoelting-Norris Vows are Recited

Miss Dianne Hoelting and Francis Warren Norris Jr. were married Saturday in Holy Trinity Catholic Church in Dallas.

PARENTS OF the bride are Mr. and Mrs. Frank G. Hoelting of Nazareth. The bridegroom, a graduate of the University of Maryland and Oregon State University, is the son of Mr. and Mrs. F. W. Norris of Waldorf, Md.

Rev. Father Harold Heiman, uncle of the bride, offered the nuptial mass and officiated at the ceremony.

Given in marriage by her father, the bride wore a carpet-length gown of candlelight silk peau de soie. The moulded empire bodice of re-embroidered Alencon lace was fashioned with decollete neckline framed with scallops of the lace-flowered motif and elbow length sleeves. Tiny covered buttons fastened the back of the gown. A chapel train enhanced by lace scallops of the flowered motif fell from the back of the gown.

HER VEIL of imported pure silk illusion fell in misty tiers to

shoulder length from an Alencon lace coil encrusted with tiny seed pearls and crystal beads. Three delicate peau de soie roses nestled in the lace.

Honor attendants for the bride were Rosemary Vissing of Dallas and Suzanne Keys of Plainview. Donald Norris served as best man. Gregory and Peter Norris, brothers of the bridegroom, were ushers.

After a wedding trip to New Orleans, the couple will be at home at 3333 Blackburn in Dallas.

Last Rites Conducted For Mrs. Lora Benson

(Delayed Last Week) Funeral services were held Thursday afternoon at the Methodist Church, Comanche, Okla. for Mrs. Lora Benson, 95, who had died in a rest home there on Tuesday. A number of relatives live in this area. Those attending the service were Mr. and Mrs. H. F. Benson, Miss Sylvia Sparks, Mrs. T. L. Sparkman Jr., Miss Alma Andrews, D. O. Benson, Mrs. Charles King of Amar-

illo, and W. H. Andrews. Burial was in Duncan Cemetery. Funeral services were held Tuesday afternoon at Avenue Baptist Church, Hereford, for Mrs. H. D. Robbins, 63, who died in Deaf Smith County Hospital early Monday. She had been ill for several years and in the hospital for several days. The Robbins lived in the Frio community from 1927 until about 1955, when they moved into Hereford. Mrs.

Robbins was always active in church and community life. She was a member of Frio Baptist Church while living here. Four of the children still live in the community. They are Frank, Mrs. Weldon Stephan, Mrs. Gary Mason and Pat Robbins. Others, are two other daughters, Mrs. E. H. Little, Texline and Mrs. Leon Martin, Hawaii and a brother from Tennessee and 18 grandchildren.

MR. AND MRS. Adolph Knabe and family were in Muenster most of last week, called by the death of his mother, Mrs. Albert Knabe on Tuesday. Funeral services for Mrs. Knabe, 74, were held on Friday at 10 a.m. at Sacred Heart Church in Muenster. She is survived by her husband, three sons, five daughters and a large number of grandchildren. The Knabes returned home on Saturday.

Rev. and Mrs. Sam Ogan, Sammy and Debbie returned home Monday afternoon after a week's trip to the Stephenville-Dallas-Ft. Worth area. They visited relatives and old friends, as they both grew up in that area. On Sunday Rev. Ogan was guest speaker at a homecoming at Rocky Point Baptist Church where he was a member as a child when his family was there. His father also preached there occasionally during that time. The Ogans also visited her aunt Mrs. Tom Hatchett, and his sister, Mrs. Jim Edwards, Granbury, and attended family gatherings at both places and also a family gathering near Rocky Point.

Wilson Warrick, 59, brother of Elza and Billy Warrick, died in a Laredo hospital on Tuesday night after an illness of several months. Funeral services were planned for Friday at his home town of Freer. Mr. and Mrs. Elza Warrick and Mr. and Mrs. Billy Warrick, Eugene and Raymond, left Thursday for Freer and expected to be there probably through the weekend.

Mr. and Mrs. Glenn Gripp and Gail went Friday to Stephenville to visit Mrs. Gripp's mother, Mrs. Tait Moring, and leave Gail for a few weeks' visit. Also, they were going on to Denton, where Mrs. Gripp will be in summer school at N.T.S.U. the first semester. Glenn and son, Monte, will "batch" while Mrs. Gripp is away and son, Dean, plans to visit his other grandmother, Mrs. A. G. Gripp, at Conway during that time. Mrs. Gripp expects to complete work on her B.S. degree at this session.

AMONG FORMER community residents seen at the Pioneer Day celebration in Hereford Tuesday were Mrs. Glenn Ratcliff, Dimmitt, who was Miss Koma Hyatt when she taught Frio School, during the thirties, and Mrs. Stella Fortenberry Sevier, El Paso, who also taught at Frio, during the forties. Mr. and Mrs. Joe Greer, Amarillo, also were present. They lived on the place which is presently the H. F. Benson home, during the late 1920s. Rev. J. B. Harlin, Dallas, who grew up in this community was there with his parents, Mr. and Mrs. J. B. Harlin, whom he was visiting in their Hereford home.

MODERN AGRICULTURE

'Sturdy' Wheat Variety Coming

Fifteen years of breeding work have provided Texas growers with a "shorty" wheat for irrigation and other high production areas.

The new variety, named Sturdy for its ability to stand up in storms and with heavy loads of grain, will be available after the 1967 harvest from certified seed growers and seedsmen in Texas.

Sturdy was developed cooperatively by the Texas Agricultural Experiment Station and the Department of Agriculture by a team of researchers at several stations. The researchers are Dr. I. M. Atkins and Dr. O. W. Merkle of Texas A&M University, Dr. K. B. Porter of the USDA Southwestern Great Plains Research Center at Bushland, and K. A. Lahr of the Rolling Plains Soil and Crops Research Station at Chillicothe.

DR. ATKINS said the variety came from a complex cross made in 1951 involving several hard, red winter wheat experimental strains and a short stature type from Japan.

"While not related to the famous Gaines, wheat, developed in the Pacific Northwest, it is similar in that it produces a short, sturdy plant that will resist lodging by storms," he said.

Although Sturdy is a hard red winter wheat, Dr. Atkins points out that its adaptation is more limited than most varieties. Regional and state tests have shown that it probably is not winterhardy enough in areas north of Texas.

It may not grow sufficiently tall for normal combine harvesting in very dry seasons," the agronomist added.

PLANTS OF Sturdy wheat are 6 to 10 inches shorter than present commercial varieties when irrigated or grown under high fertility levels. The trait boosts grain yields and avoids excessive straw production.

"Heavy straw growth is difficult to combine and decays slowly during the summer, sometimes being detrimental to a fall seed crop that follows," Atkins explained. "Sturdy frequently sets three and sometimes four seed per spikelet, and this contributes to high yields."

The new variety is early maturing, only two or three days later than Triumph wheat. Plants are resistant to present races of leaf rust but not to stem rust.

MILLING and baking characteristics of Sturdy, Atkins said, are superior in all respects for commercial bakery flour. The variety's quality has been approved by state and federal agencies and by the Crop Quality Council, an organization of commercial and public agencies.

WEATHER TO BLAME Discolored leaf conditions in young cotton in widespread sections of Texas are not the result of any disease but of the unusually cool nights combined with higher daytime temperatures that have persisted over the past several weeks, says F. C. Elliott, Texas A&M University Extension cotton specialist.

ASCS Notes

Castro Farmers Oppose Transfer

By CHARLEY HILL, County ASCS Manager
Castro County disapproved the transfer of cotton allotments by sale or lease outside of the county. The vote was 264 for transfer and 275 against.

PREVENTED PLANTING

If you are prevented from planting cotton and fed grain due to adverse weather conditions (drouth on dryland farms) you must file Form ASCS-574, Application for Adjustment in Acreage Due to Natural Disaster, and obtain approval by the county committee to be eligible for payments.

Please come to see us if you have this problem.

PRODUCTION RECORDS

Production records are now being accepted in Castro County ASCS Office for cotton, grain sorghum, corn and wheat for the years 1964, 1965 and 1966. This information will enable the committee to establish a more accurate production for your farm for 1968. Any producer who filed an appeal for 1967 will already have this information available in the ASCS Office for 1964 and 1965.

CERTIFICATION

Certification of your cotton, feed grain and diverted acreage may be made anytime until Aug. 15. All participating producers in the county must certify their acreage regardless of whether they are receiving the measurement service or not. You are urged to take care of the above at your earliest convenience.

FEDERAL RECREATION PERMITS

Your ASCS Office has for sale permits that admit all members of your party to any of 7,000 federally operated recreation areas, valid from April 1, 1967 through March 31, 1968.

THOUGHT: Self-improvement comes easier if you honestly admit you need self-improvement.

ONCE IS ENOUGH

Lightning may or may not strike twice in the same place but folks with experience say once is enough. Lightning caused fires each year destroy farm buildings, rural homes and stored feed valued at hundreds of thousands of dollars. It also kills more than 400 people and injures another 1,000. Many of these losses could be prevented, says W. S. Allen, Texas A&M University Extension agricultural engineer, through the use of a properly installed lightning protection system.

FIRST IN DIMMITT with a load of wheat this year was Mrs. Katy Wright, who reported in at Castro County Grain Co. with this load at 8:45 a.m. last Thursday. The wheat was grown five miles east and two north, on a farm owned by Edwin "Goose" Ramey (pictured) and operated by Donald

Wright. The test weight on this load of Tascosa wheat was 58 pounds, and the moisture content was 14.0. The Wrights said they averaged 13.7 bushels per acre on the first block, and that their overall yield will be about 16 bushels.

Foundation Names Agronomist To Conduct Soybean Research

Ben Quebe of Plainview has joined the staff of the High Plains Research Foundation as assistant agronomist. Dr. Tom Longnecker, director has announced.

QUEBE WILL assist Dr. Douglas Owen in oil seed research including soybeans, sunflower, sesame and rape seed.

The soybean program at the foundation includes testing of varieties for adaptability to this area and developing new and improved varieties from over 1,000 existing experimental lines.

THIS YEAR the foundation will test 10 varieties and 40 advanced strains, in addition to 36 varieties and strains in the three regional soybean tests conducted in cooperation with the USDA Southern Regional Soybean Laboratory. The experimental nursery will have approximately 1,200 selections for observation and further selection.

Quebe will also supervise the soybeans. In this capacity, he will cooperate with selected

farmers over a wide area in testing varieties and advanced strains to determine the varieties and new strains of soybeans that are best adapted to the various areas.

Dr. Owen said that "the increased interest in soybeans as a cash crop on the High Plains providing an opportunity for more take home money for farmers is the stimulus behind the expansion of the soybean research program at the foundation."

Quebe received his bachelor of science degree from Texas Tech in 1948 in agronomy and agricultural engineering. He completed his army service in 1945 and has farmed a section of land in the Providence area of Floyd County since 1948. His major crops were cotton, grain sorghum and soybeans. Quebe is president of the Noon Optimist Club of Plainview and in 1966 was president of the Plainview Shrine Association.

Mobley Appointed To FHA Committee

Don L. Mobley of Route 5, Dimmitt, has been appointed to the three-man Castro County Farmers Home Administration committee, according to Donald R. Jennings, county supervisor.

The appointment is for a three-year term beginning July 1.

MOBLEY succeeds Floyd M. Stanford, and will join Joseph H. Schumaker of Nazareth and Edgar O. Underwood of Dimmitt on the committee.

The three-member committee advises the county supervisor and determines eligibility for local loan advances for the FHA. Its members are also frequently called upon by the county supervisor to assist in servicing loans and developing other community services.

THE FARMERS Home Administration does not compete with private lenders in the field of agricultural credit.

The FHA granted part of the funds to build the new migrant housing complex in Dimmitt and loaned the rest of the money on the million-dollar project. It also guaranteed the loan to build the new Castro County Recreation Center.

Birkenfeld's Ship Takes Part In Assault at Ben Hai River

Fire Control Technician Third Class Birkenfeld, USN, son of Mr. and Mrs. Chris S. Birkenfeld of Nazareth, took part in an amphibious assault near the "demilitarized zone" (DMZ) which divides North and South Vietnam, while serving aboard the command ship USS St. Paul.

AS PART of an operation named "Beau Charger," his ship helped put a special landing force of U. S. Marines into the southern buffer area of the "DMZ," for a search and destroy sweep through the free zone just south of the Ben Hai River. The Marines were landed by small boat as well as by helicopter.

The Leathernecks who made the sweep are Marines of the First

Battalion, Third Marine Regiment, who first evacuated the South Vietnamese civilians from the area before beginning the sweep.

While "Beau Charger" was underway, pilots from US aircraft carriers in the South China Sea and Tomkin Gulf flew air strikes over the area, and attacked targets indicated by the ground forces below.

Four Will Go In July Draft

The four-county area of Castro, Randall, Deaf Smith and Parmer Counties will be called upon to furnish four of the state's 974-man draft quota for July, according to Col. Morris Schwartz, state selective service director.

SEVENTEEN of the 5,016 men called for pre-induction examination in July will come from the four-county area. Col. Schwartz also said state Selective Service had received a quota for four doctors of osteopathy to enter the Army or Navy in July, August and September.

The Texas quota of 974 men for July is the state's share of a national call of 19,900. This manpower is for the Army.

REVIVAL SERVICES CONTINUE

30 Minute Service at Noon, Through Friday

Lunch Served at 12:30

8:30 Services Nightly Through Saturday

From My Heart to Yours

At this writing (Tuesday morning) we have had only Sunday and Monday's services, yet so much has already encouraged our hearts.

Meaningful decisions and dedication to our Lord have been made! We have new members in our church family! Monday's congregation at both services were larger than ever before! The choir loft was full on Monday night!

I pray that these are indications of the moving of God's spirit. Dear fellow followers of Him, let's not miss anything God has in store for us in these days. Be faithful in praying, witnessing and in attendance.

Prayerful concern must grow and be translated into decisive action. When each of us is willing to become an instrument submitted to the Great Physician we can see the cancer of sin removed from diseased souls.

Dr. Harlan Harris and Mr. Fred Allen are supplying inspired leadership. The music moves our hearts closer to Him. The preaching clearly, powerfully presents His word and applies it to our lives. How thankful we are that they are here to lead us.

Surely you will be in your place at every service.

Your pastor and friend, Frank Pollard

GOOD NEWS FROM RED BARN FOR GRAIN SORGHUM GROWERS

LITHATE 24-D

... BAD NEWS FOR BROADLEAF WEEDS

Lithate 2, 4-D kills many broadleaf weeds, including some varieties tolerant to other forms of 2, 4-D. For example; the tall and resistant nature of giant pigweed, or ragweed, requires a spray application over the top at later stages of grain sorghum growth. Red Barn recommends Lithate for control of this, and other tough weeds, from the time grain sorghum is 4 inches tall until the seed head is within 5 inches of the tip of the boot. Over the top application may be made by air or ground equipment.

Lithate 2, 4-D is fully non-volatile. After proper application, Lithate treated fields cannot give off injurious volatile fumes to damage surrounding crops.

Lithate 2, 4-D is also recommended for use in corn, rice, pasture, small grain, and other places.

INCREASE ACTION OF ATRAZINE BY BLENDING WITH MAIZOIL

MAIZOIL is a new, specially blended oil from Red Barn Chemicals. It increases the weed killing action of Atrazine post-emerge applications.

There's no question about the need for weed control in maize or corn. The only real question is "How?" With MAIZOIL, you can wait until your crop is up to a stand - then spray. An Atrazine oil-water emulsion containing one to two gallons of MAIZOIL and the recommended amount of Atrazine in twenty gallons of total mixture per acre gives fast, effective, weed and grass control.

Rainfall following Atrazine-MAIZOIL post-emerge applications is not as essential as with regular Atrazine-water applications, although soil moisture is essential. Succulent, vigorous growth of weeds is important for good results. MAIZOIL provides better foliar absorption of Atrazine, with less chance of residue. Planting time can be reduced by eliminating the time-consuming pre-emerge application. Broadcast applications by ground equipment or aerial application after maize is 2 to 6 inches tall (depending on soil type) and before grasses are more than 1 1/2 inches in height, gives effective control of weeds and grasses in maize or corn.

Your Voice in State Government

Clayton Outlines Progress Of Legislature's 140 Days

By REP. BILL CLAYTON

Dear Friend: The 60th Legislature adjourned near midnight May 29, after 140 days of the hardest work that any legislature in history has done. I know that longer hours were spent on committees and sub-committees than at any time during the years that I have served my district as a member of the legislature.

VERY SHORTLY now I shall close my office here in Austin, and will be in Springlake. It has been a pleasure to represent you during this session of the legislature. I just hope that I have represented you well. Believe me, I have tried.

I sponsored and passed 23 bills, and had four bills that did not pass the House, and two bills that were lost in the Senate. Besides these, I co-authored about 20 other bills.

The State Affairs Committee, of which I was a member, heard 291 bills.

The Counties Committee, of which I was chairman, heard 230 bills.

The Conservation and Reclamation Committee, of which I was a member, heard 275 bills.

The Urban Affairs Committee, of which I was a member, heard over 60 bills.

SO, YOU CAN see these four committees considered 40 percent of the 200 bills introduced in the House and Senate. The Rules Committee, of which I was a member, considered all of the bills that were reported favorably from the various committees before they were placed on the calendar for House action.

I was chairman of 24 sub-committees and on 65 other sub-committees. It is the policy of the House of representatives to send each bill to a sub-committee for closer study than the main full committee can give to every bill. The sub-committee then reports the bill back to the main committee for its action.

SOME OF the major pieces of legislation that passed this session included the following measures: CITY SALES TAX - this measure allows any city in Texas to call an election to determine whether that city shall impose a city sales tax on the people who purchase retail items within the

city. A number of the larger cities plan, in the near future, to exercise this right to vote on whether or not they will have a city sales tax. The tax can not exceed 1 percent.

TRAFFIC SAFETY - this legislation provides that a person must be 16 years of age, and must have taken driver training before he can be licensed to drive an automobile; otherwise the person must be 18 years of age; it also provides that drivers' licenses of persons under 21 years of age will be a different color. This will keep minors from giving false ages in trying to purchase alcoholic beverages.

INDUSTRIAL REVENUE BONDS - this measure allows cities and counties to issue bonds to attract industry; these bonds are to be paid for by the revenue from the industry that is attracted. This should be one of the best ways for small cities to draw industry. I sponsored and passed this bill.

WATER ADJUDICATION ACT - this act allows the Water Rights Commission to adjust water rights in Texas. This is something that has been needed for many years. This will help determine the amount of water available to move to West Texas.

STATE EMPLOYEES' PAY RAISE - gave to the employees of the State the first major raise in salary that they had had in many years, and allowed the State agencies to compete for capable personnel to fill vacancies that have existed because of inadequate salaries. Some of the major areas that were helped were the personnel to staff adequately the Texas Highway Patrol; the State Health Department; the State Highway Department, and other State agencies over the entire State.

EDUCATION Bill - One of the bills of major interest was the increase in teacher pay by \$600 a year; other legislation would set up a sick leave program for teachers; allows pilot programs for 10 months and 12 months school systems, and more money for higher education.

LOCAL COUNTY GOVERNMENT - this legislation affects our local county offices, and standardizes the fees in certain offices such as clerk's and offices

of the justice of the peace.

INDUSTRIAL SAFETY - for the first time Texas has an industrial safety act, which will serve to lessen the number of accidents in the industrial areas of Texas. This was a compromise bill, and was agreed on by industry and labor.

CODE OF CRIMINAL PROCEDURE - this legislation tightens the law in favor of law enforcement. It will help in the apprehension and prosecution of those violating our laws.

OPEN MEETINGS BILL - this measure provides that all State Agencies and political subdivisions shall hold public meetings, open to the press and anyone interested. Nothing can be withheld from the public.

AIR AND WATER POLLUTION - this measure will help the State clean up pollution in the streams, and the air pollution act was strengthened.

PARK BONDS - a revolving fund has been set up for the development of State parks by charging admission to State parks. The charge will be much the same as is now done at Palo Duro State Park.

LEGISLATION was passed that will allow commodity groups to organize to help themselves through research and promotion. This is permissible on the part of each individual farmer.

NATURAL FIBERS COMMISSION STUDY - in all probability this authorized study will lead to the creation of a commission for cotton, wool, and mohair research. This could create a demand for our short staple cotton.

LSJ was placed under the dangerous drugs act - I hope this will stop the use of this drug by many of our young college students.

LEGISLATION to allow research by certain industries in connection with Texas Tech College - this should be a boom to Tech and the area in finding industries that are suitable to West Texas.

THE CREATION of the Western Information Television Network which will be one of the greatest strides in higher education to the people of our area. This system will eventually save millions of dollars by using a combination of talent from the

various schools in the network. It might provide a method of taking college classes in some of the smaller towns or even at home.

THESE ARE few of the more than 900 bills that passed at this session.

Probably three of the most controversial bills that did not pass at this session were:

1. State minimum wage legislation which would have set a minimum of \$1.25 for all workers including farm workers.

2. Liquor by the drink proposal which would have permitted open saloons in Texas.

3. Pari-mutuel betting on horse races which would have allowed several race tracks and gambling in our State.

If you have any questions or if I can be of help to you in any way feel free to call on me at Springlake.

-BILL CLAYTON

Donkey Softball Slated Monday

Dimmitt's Jaycees and the Eastern Lions Club will battle each other and 10 donkeys Monday night in a donkey softball game.

THE HEE-HAW bout will begin at 8:30 p.m. Monday in Bobcat Stadium. The Reynolds Company is providing the donkeys, which have been trained to play positions on the softball diamond and perform their own balky antics around the baselines.

Tickets at \$1 for adults, 50 cents for children under 12 and \$2.50 for a family are on sale by Jaycee members. Family tickets, which will admit up to five, must be purchased in advance.

Takes Fall In Palo Duro. Kerry Wheeler, son of Mr. and Mrs. T. E. Wheeler of Hart, was critically injured Sunday when he fell about 50 feet while climbing in Palo Duro Canyon. He was taken to Neblett Hospital in Canyon for emergency treatment.

More About: About Dimmitt

(Continued From Page 1) last week killed some fields of cotton. Our information is that most, if not all, of the blown out cotton acreage will be planted to soybeans.

Viola and I gathered our cherry crop last weekend. We are lucky to have just one tree. She would make jelly out of the whole mess if we had a twenty acre orchard. Our pear tree is well loaded and the fruit looks healthy. The pear tree is about twenty years old and so far it hasn't produced a pear that wasn't full of worms, maybe this is the year that we will get some returns on the thousands of gallons of city water that we poured into the roots of that wormy fruit producing tree.

Buster Cooper had one of his civic-minded spells one day this week and graded our alley. I went out to offer advice, instructions and encouragement, then Shorty Manning had to come out and put in his two cents worth. Shorty insisted on my taking a look at his garden in back of his house. I will have to admit that his garden looks good and gives promise of being highly productive. If in another week or two you are in need of vegetables I would suggest that you visit Manning's garden. It is easily accessible from the alley. He lives on SW Second Street just one block from Highway 86.

'Mystery Bones' Still Defy Identification

By MRS. J. T. STEHR Our Bethel "mystery bones" still haven't been identified. Maybe they will be soon.

MR. AND MRS. A. T. Morgan were joined at Abilene by her mother, Mrs. E. L. Holmes and her twin brother Earl and a sister, Mrs. C. B. Hawkins, when they went to take their daughter Deanna to Hardin-Simmons University. The Holmeses and Mrs. Hawkins are from Waco.

Mr. and Mrs. George Sides enjoyed an outing at Buffalo Lake Tuesday. They were joined by Mr. and Mrs. Dale Winders, Mr. and Mrs. Charles Wales, Mr. and Mrs. Pat Moran and Mr. and Mrs. John Gilbreath.

MRS. JAMES WELCH spent a week at the college at La Mori, Iowa, at a training meeting for her church. Returning home she spent the night at a hotel in Oklahoma City, where a tornado overhead sent everyone scurrying to the basement. Mrs. Welch says that is the nearest she has been to a tornado.

Recent visitors in the Delbert Timmons home have been Misty Kay Timmons, daughter of the Larry Timmons of Carlsbad, N.M., and Danny Dukatnik from Whitharral. Sunday, the Timmons went to return Danny to his home. Their daughter Debby and son, Ricky stayed for a visit.

Mrs. Herbert Schuler of Friona and children, Glen, Mike, Carrie Sue and Sandra Jo visited her parents, the J. T. Stehrs Thursday and also visited Mrs. Monte Boozier and Kyla Jo.

MRS. J. A. BAGWELL had as guests Friday night Mr. and Mrs. Theo Puckett of Oklahoma City. Mr. Puckett is a nephew of the late J. A. Bagwell.

Mr. and Mrs. Earl Lust and Mr. and Mrs. Vern Lust had lunch with Mr. and Mrs. Ira Brown in Dimmitt Sunday.

Mr. and Mrs. Lloyd Lust of Littlefield visited with his parents the Earl Lusts, Monday night. Linda will spend a few days with her grandparents.

Mr. and Mrs. G. G. Nesbitt and daughter Louise of Morton visited Mrs. Charles Rickerd and family Saturday. They went to Hereford and spent the night with Mr. and Mrs. Henry Miller.

Mrs. Houston Lust took Flo Lust to the dentist Monday at Lubbock.

Visitors in the home of Mr. and Mrs. Monte Boozier Sunday were Mr. and Mrs. Jimmy Johnson of Lubbock, Mr. and Mrs. B. H. Sides of Lubbock and Mr. and Mrs. Doyl Underwood.

SEVERL from Bethel are attending Bible School at Dimmitt at the Methodist Church this week.

What's in the Grad's Future?

By SEN. JOHN TOWER (R-TEXAS)

I have just finished a week filled with commencement speeches to several colleges and high schools in our state. It's a time of year I particularly look forward to, because, as a former teacher myself, I always enjoy being with our students again. THEY NEVER fail to challenge me with their enthusiasm, knowledge, determination and confident quest for the future.

Earlier this spring, I was asked to gather my thoughts and to talk with some Louisiana college students about America's future. Here's some of what I said to those students.

"Just as today's politics combines all national technology and all social aspirations, so will tomorrow's politics have to perform the function of collating and coordinating every facet of human behavior and human capability for the greatest good of the greatest number. It is the function of governments, set by men over themselves, to temper technology with reason, to infuse machines with morality, and to safeguard subjectivity from science.

"I DOUBT that we can expect

our future world to be free of tyrants, or of evil, or of the covetous and the selfish. So, let us not expect perfection, though we continue to reach for it. Let us, rather, anticipate challenge and pursue progress.

"You must remember, most importantly, that the future must not shape you; but you must shape the future.

"For nearly two centuries Americans have made government of the people, by the people and for the people' work. With the consent of the governed, we have established a republic encompassing both inflexible liberties and flexible realities.

"We must expect that a Republic which has survived thus far can certainly survive for much, much longer. Over the next century your American government, with your participation and guidance, is going to create a climate for the most secure, most healthy and most prosperous domestic existence ever known to man.

"WE ARE going to meet and deal with such things as tripled population, 100-year life spans, exotic drugs, uninjuring weapons, ocean farming, fusion power, robots, artificial life, weather con-

trol, genetic control, space exploitation, instant communication, urbanization, and the right of privacy.

"We are in the midst of a transition into a new era of emphasis on individual liberties, individual responsibilities, and individual protections against all-powerful, national government.

"We are proceeding into a new era in which every American will have constitutionally equal opportunities, in which increased urbanization will be reflected in equitable urban political power, and in which state governments will be revitalized so that they may help preserve the democratic diversity upon which American strength rests.

"IN THE international political arena we must decide whether tomorrow's world will be the monopoly of communism or the diversity of self-determination.

"I believe our future contains for us neither world war nor communism. I believe this first because there is so'oid evidence this is the way things are going, and second because if we allow ourselves to reap either nuclear war or communism the future of the world will not count for much

anyhow.

"I believe we can safely project this peaceful future because today's United States has it within her power to achieve this future for the world. And, today's United States and strong enough, wise enough and determined enough to do just that."

"This concern about and responsibility for the world's peaceful future is precisely why American citizens must understand why Vietnam today — and likely will confront it, or some other totalitarianism, again.

"THE UNITED States is today and for the future the free world's leader. We did not ask for that job. Sometimes we do not particularly like it. But, we have got it, and it is up to us to make this world secure from aggression so that every nation — large and small — can aspire to self-determination with some reasonable hope to success.

"This is in the world's best interests and in our best interest too.

"I find today's United States firmly dedicated to this hard peace task. Because of that dedication, and because we have the talent and resources to win our point, I believe today's America can will to tomorrow's world both peace and order."

Six More Amendments To Be on Next Ballot

By VERN SANFORD Six proposed changes in the Texas Constitution were approved by the 60th Legislature for submission to the voters this fall — Nov. 11.

THESE proposals are as follows:

—SJR 6 authorizing counties to pay medical, doctor and hospital bills of county law enforcement officers injured in line of duty.

—HJR 12 providing for a \$74,000,000 parks development fund bond issue.

—HJR 17 reviving the Veterans' Land Program and authorizing a total of \$400 million in bonds.

—HJR 3 allowing counties to put tax money in one general fund.

HJR 27 permitting state officers and employees to hold other non-elective positions under the state or U.S. governments where there is no conflict of interests and where the state might actually benefit.

—HJR 37 allowing cities and other units within hospital districts to levy taxes for participation in mental health and mental retardation centers.

FOURTEEN additional amendments were approved by the Legislature for voters' consideration on November 5, 1968. These include the following:

—SJR 14 giving the legislature power to authorize cities and counties to issue revenue bonds to build industrial plants for operation by private concerns.

—SJR 3 revising provisions for investment of the state employees retirement system and changing provisions for its administration.

—SJR 4 providing for contributions to teacher retirement system on the basis of full salary of members (contributions now are limited to \$504 a year).

—SJR 24 permitting the legislature to exempt from ad valorem taxes equipment used in air or water pollution control.

—SJR 32 abolishing the state property tax by 1976.

—SJR 37 allowing Dallas County to issue road bonds on vote of a majority of property taxpayers.

—SJR 41 raising state welfare spending ceiling from \$60 million to \$75 million a year.

—HJR 16 providing for ad valorem tax exemption for property in temporary custody at a warehouse.

—HJR 20 altering investment procedures for University of Texas permanent fund.

—HJR 22 specifying that legislators will not be ineligible for other offices because their terms extend a few days into January.

—HJR 61 raising legislators' salaries from \$4,800 to \$8,400 a year and extending per diem expense allowance from 120 to 140 days of the regular session.

SPECIAL SESSION?

Legislators knew their job was little more than half finished when they adjourned at midnight May 29.

Governor John Connally cheerfully reminded them that he would "see them in the fall or next year," meaning that that is when the 1969 budget and a balancing tax bill must be written.

Later, Connally told reporters that it is highly unlikely he will call the special finance session before next year. He hinted that next year's tax bill may be less than the predicted \$150 million to \$200 million and he does not intend to recommend an increase in the general sales tax rate.

FUNDS FOR AGING PROGRAM APPROVED

A \$140,774 program to develop community programs of direct service to the aged in Lubbock, Big Spring, Fort Worth, Mercedes and San Antonio have been approved by the Governor's Committee on Aging.

Contracts went to Texas Tech College, Lubbock (\$3,786); Big Spring State Hospital Volunteer Advisory Council, Inc. (\$50,122); Tarrant County Community Council (\$27,000); Hidalgo County Committee on Aging (\$14,946); and Senior Community Services, Inc., San Antonio (\$44,920).

AIRPORT FUNDS AVAILABLE

Legislature appropriated \$475,000 for building and improving small town airports. Big Bend National Park will get \$150,000 plus federal aid for new airport; Lake Whitney State Park, \$40,000, and \$25,000 will go to aviation research at a higher education institution.

Texas Aeronautics Commission Director Charles Murphy estimates that 40 percent of these applicants for state aid will share in available funds:

Abernathy, Aransas Pass, Atlanta, Bay City, Brady, Brownwood, Bryan, Canton, Center, Cerveand, College Station, Daingerfield, DIMMITT, Dublin, Eagle Pass, Edinburg, Ennis, Fairfield-Teague, Follett, Georgetown, Giddings, Gilmer, Granbury, Graham, Gregg County, Hamilton,

Funeral Services Held for Father of Mrs. Hyatt

Funeral services for F. M. Wright, 88, of Seminole were held Wednesday in the First Methodist Church of Seminole. Wright was the father of Mrs. Homer Hyatt of Dimmitt.

REV. R. L. Kirk officiated at the services. Burial was in Seminole Cemetery under the direction of Singleton Funeral Home.

More About Martha Nitsa

(Continued from page 1)

An English scholarship from my government. I have to work a year before I can get a scholarship to the US, then the scholarship would require me to stay in the US four years."

WHAT WILL BE her main memories of her year in Dimmitt? "First, my family," she said. (She calls Mr. and Mrs. Hays "Mother" and "Father." Her own parents are "Mama" and "Papa.")

"Then, I think of my friends here."

"Then, I think" — moving a finger across an imaginary line in the air — "Dimmitt."

SHE'S BEEN to Corpus Christi with the DHS Band, to the state basketball tournament in Austin, to Laredo with the student council, to Los Angeles to see the AFS sister who stayed with her family two years ago, to Disneyland, to Abilene with the First Baptist Church YWA, to Santa Fe on a skiing trip, and is in the Colorado Rockies this week.

"But every time she has ever been away, she's always wanted to get back to Dimmitt," Mrs. Hays said.

THE HAPPIEST moment of her year here, she said, was her surprise party on her 19th birthday.

"This may seem like a little thing," she said, "but that was the thing that proved to me that everyone really liked me, and were my friends."

The party was in the community room of First State Bank April 16. Martha went to the bank with her "sister," Mary Hays, 17, not knowing what was in store for her. Suddenly, she found herself among a host of school friends with gifts, and saw a big white cake that had been baked by Mrs. Johnnie Powell, and realized she was the honoree.

(In Greece, birth dates aren't of Biblical origin, and they commemorate "name days" instead.)

ANOTHER highlight of the year came in October, when Martha was elected DHS "Spirit Queen" and crowned during a big bonfire and pep rally.

But first and foremost in her bag of memories, she said, will be her American family, the Hayses. "I can't really find the words to express my feelings for them. Wonderful, I think. They never let me be homesick, and . . . oh, well . . ." she said, unable to fight back the tears.
