Teachers to Work Overtime

Curriculum Drive Launched

FIRST 1967 SOYBEANS harvested in the county were delivered to Farmers Grain Co. at Hart Saturday by Weldon Davis of H. C. Davis & Sons Farms. Davis and his son reported to the elevator at 5 p.m. with this load of Patterson variety soybeans, and received a \$25 bonus from Farmers Grain Co. Davis planted his beans in double rows May 20. The first load tested 10.70 percent in moisture content, 55

pounds per bushel in test weight, and Davis said his yield will be approximately 40 bushels, despite hail damage. Heavy hail on cotton earlier this year caused Castro County producers to go into the soybeans in a big way for the first time, and crop prospects are excellent throughout the county, with the support price standing at \$2.27 per bushel currently.

Dimmitt's teachers will have to stay after school once a month this year to study their curriculum.

And on the same day — the first Wednesday of each month — their students will be dismissed an hour early.

THIS IS ONE of two steps announced this week by Curriculum Director Weldon Skinner to improve the scope and continuity of subject material being taught in Dimmitt's schools.

During the monthly brainstorming sessions, Skinner said, all teachers will work two hours extra — one hour of school time and an hour of their own time — to develop curriculum guides and guidelines.

Skinner urged parents to remember that their children will be dismissed an hour early on the first Wednesday of each month.

THE SECOND step toward curriculum improvement is the hiring of a professional consultant to work with Dimmitt's teachers and school administrators.

"We've engaged Dr. Joe Tidrow of Texas Tech as our curriculum consultant during the coming years," Skinner said. "He has been assistant curriculum director for Tulsa Public Schools and curriculum director at Andrews before going to Tech. He's a

specialist in curriculum construction."

The schools' new emphasis on curriculum guidelines is the result of last year's school evaluation program, headed by Dr. Morris Wallace of Tech. Dr. Wallace and the visiting committee of educators recommended the creation of Skinner's new post and the establishment of schoolwide curriculum guides.

SKINNER SAID the curriculum development program "is going to take a minimum of three years to complete; then we'll need to evaluate the curriculum that we have set up. It's basically the same thing that a good business does every year."

The main curriculum study emphasis this year, Skinner said, is on science in grades 1 through 4, reading in grades 1 through 8 and social studies in grades 4 through 12.

"However, all teachers will be involved in moving toward curriculum guides in their own subjects," he added.

MAIN GOAL of the new emphasis on curriculum, he said, is "to build a program both within grades and between grades in which kids get certain materials at certain age levels without any overlaps or gaps."

Newman Resigns Hospital Post To Accept Vietnam Assignment

Don Newman, administrator of Plains Memorial Hospital for the last four years, has resigned to take an 18-month assignment in South Vietnam with the US Agency for International Development.

NEWMAN submitted his resignation Tuesday when he received word from the State Department that he had been accepted to serve with the public health service program in Vietnam.

His resignation is effective Oct. 20, two days before he is to fly to Washington, D.C., for three weeks of orientation. He will return home for a week, then fly to Saigon to receive his US-AID field assignment.

NEWMAN'S wife, Colleen, and their children, Beverly, 16, and Max, 14, will remain in Dimmitt and Newman will keep Dimmitt as his official residence, he said.

US-AID is a branch of the State Department and is involved mainly in aiding underdeveloped countries. It is staffed completely by US civilians.

Newman, 35, will be a public health field liaison officer with US-AID. His main job will be to work with the Saigon regional office and the provincial health assistance teams to improve communications and effectiveness of the public health program from Saigon into the provincial villages.

NEWMAN'S resignation will leave the Castro County Chamber of Commerce presidency vacant for the second time this year. He was elected to the post after Dr. Bill Bennett resigned to move to Midland.

In addition to being the chamber of commerce president, Newman is also president of the Dimmitt Lions Club, director of the Castro County Agricultural Housing Association, secretary of the County Community Action Program, Training Union director for

First Baptist Church and member of the Dimmitt Rotary Club.

"**THERE ARE** many factors that make it hard for me to leave Dimmitt," he said. "One thing I really did want to do was finish the building project. But with the kind of opportunity I've been offered in Vietnam, I couldn't tell them to wait until I was ready."

Under Newman's administration the hospital started its own Licensed Vocational Nurses' School last year and increased its staff and technical services. Newman also was instrumental in getting the new County Migrant Health Unit organized here this year to improve the health situation among migratory farm workers here.

ABOUT HIS new job in Vietnam, Newman said, "I feel that all of us have an obligation over there, and too, this is a chance to gain experience in the health field that I couldn't get anywhere else in the world."

"What the Agency for International Development is doing in Vietnam is unique in the world," he continued. "I don't think any other nation has ever devoted so much money or so many of its civilians to help upgrade the standard of living in another country. There are doctors over there donating their time — I know of three from the Panhandle alone — and there are REA men building electrical lines there, said many others in all types of special fields."

"**A LOT** of people say that this type of progress is something that only the native people can accomplish, and only in their own time, even if it takes a thousand years," he added. "I don't believe that's right. I believe that you can take the right resources and the right people and you can change the world for the better."

'Barefoot Burglar' Makes Noisy Escape

A would-be bank robber crashed out through the front window of Farmers State Bank at Hart and lost both his shoes after his safecracking job was interrupted by an armored car driver early Monday morning.

THE CASTRO County Sheriff's Office, Texas Rangers and FBI are searching, Cinderella-style, for the barefoot burglar who fits the shoes.

Besides the thief's shoes, officers also have his acetylene torch, sledge hammer, axe and pry-bar which he left behind while making his noisy but successful escape.

WILLIE MORGAN of the Lubbock Armored Car Service interrupted the burglar's work when he made a standard "drop" at the Hart bank at 3:45 a.m. Monday.

Morgan unlocked the back door of the bank to leave his usual

bundle of cancelled checks, and as he stepped into the bank he heard a crash of glass in the front of the building.

MORGAN didn't see the burglar because the back door is on the southwest side of the building and the front window is on the east front, beyond tellers' windows and offices.

In reconstructing the escape before daybreak Monday, officers learned the burglar had grabbed his pry-bar, run to the front of the bank, thrown the pry-bar through the window and jumped through. They found one of his shoes on the sidewalk in front of the bank, and another three-fourths of a block away, in an alley northeast of the bank.

Before Morgan walked in on the safecracking attempt, the burglar had cut two-thirds of the way around the combination dial of one of the bank's two vaults.

"**IT WOULD** have taken him probably two more hours to get into the vault," Bank President Norlan Dudley said.

The barefoot burglar's cutting torch melted the vault lock's tumblers, and a vault specialist has to be called from Lubbock

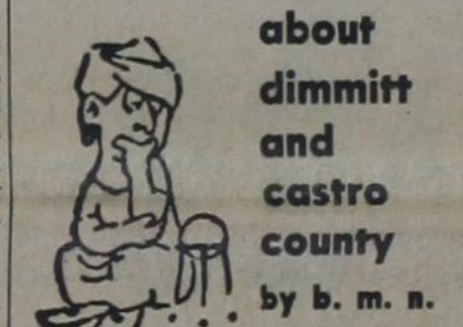

to drill and open the massive steel door Monday.

The burglar apparently tried to pry the night depository open first, then gained entrance by jimmying the back door. The vault was only six feet from the door, in the bank's bookkeeping department.

AS THE surprised Morgan walked in on the torch rig, oxygen tanks and hot vault door, City Marshal Emmett Burress — who was parked just a block down the street — also heard the crashing glass of the front window. He rushed to the bank, and while he and Morgan cautiously identified each other, the burglar escaped in the darkness.

Morgan and Burress tried to pick out the burglar's escape route and follow him, but their effort was fruitless.

BURRESS notified Sheriff Jack Cartwright, who contacted Texas Ranger E. G. "Butch" Albers in Canyon and FBI agents in Lubbock. Officers threw up roadblocks all around Hart, checking for suspects and asking motorists not to pick up hitchhikers, but their efforts also failed to turn up the burglar.

We feel a little conscious stricken here at the News. Someone brought a 1967 West Texas State University Class Ring to the News office several weeks ago and we may not have made as strenuous an effort as we should have to locate the owner. We did run a small notice but apparently it wasn't enough. Our information is that the ring was found at the bottom of the Dimmitt swimming pool by a young diver who was diving for rocks. Inside the ring are the initials J.D.R. We would like for the owner to have the ring and would appreciate any information as to whom it might belong. In case we don't locate the owner I may just become a university graduate, after these many years and start to wearing this particular piece of jewelry myself. It is a man's ring.

We need warm dry weather for the next few weeks, but we will be fortunate if Beulah doesn't shove a bunch of moisture into our area while she is tearing up the gulf coast. Weather people do a pretty good job of charting the course of a norther, invariably they go in a general southerly direction. But when it comes to predicting the course of a hurricane it's a blow of a different color. Maybe the reason they are given feminine names is because they are so unpredictable. The weather people had Beulah going into Old Mexico at various points, and I think in the beginning, when the old girl was way out in the Caribbean, they didn't think she would hit land at all. The Gulf Coast is taking a drubbing and the end is not in sight.

School Slates Adult Classes

Dimmitt Independent School District will offer night courses in Adult Basic Education beginning Oct. 2.

THE CLASSES will be two nights per week, 2½ hours per night for 24 weeks, and the tuition is free. Any person desiring education below the high school level is eligible for enrollment. Interested persons may pre-register at the County OEO Office with Frank Latimer or Glen Ratcliff. Registrations will also be accepted in the curriculum office in South Elementary School.

Supt. Paul Hilburn urged employers to inform their employees of this opportunity. Classes will be held at North Elementary School.

Telephone Company to Rebuild Dimmitt, Hart Exchange Plants

Thomas L. Anderson, president of West Texas Telephone Co., announced that a contract has been let to the Diamond "G" Line Construction Co. of Levelland for the rebuilding of the Dimmitt and Hart cable exchange plant within the city limits of each town.

WORK IS to start Oct. 13, with completion of the projects expected by Dec. 15.

Anderson said the construction of these new facilities would relieve the present congested conditions as they exist, as well as provide facilities for straight-line service for anyone in these towns who desire it.

In the fall of 1964, West Texas Telephone Co was acquired by Trans-Continental Telephone & Electronics, Inc. Since then, new exchanges have been constructed at Dimmitt, Hart and Nazareth and new toll facilities have been constructed between these exchanges, with new toll positions added in the Dimmitt office and 54 mile of new cable built between Dimmitt and Plainview. Also, free calling service has

been provided between Sunnyside, Dimmitt, Nazareth and Hart.

West Texas Telephone Co is now negotiating with the Bell system to make Dimmitt a full toll center so Dimmitt operators can dial calls anywhere within the United States. The company is also exploring the possibility of providing DDD (direct distance dialing) for Dimmitt, Hart, Nazareth and Sunnyside subscribers, but no final decision has been made as to the feasibility of this project at this time, Anderson said.

Nine Are Injured In August Wrecks

The Texas Highway Patrol investigated 10 accidents on rural highways in Castro County during August, according to Sergeant W. E. Wells, Highway Patrol supervisor of this area.

THESE CRASHES resulted in nine injuries and an estimated property damage of \$6,600, but no deaths.

The rural accident summary for Castro County during the first eight months of 1967 shows a total of 56 accidents resulting in five persons killed, 48 persons injured, and an estimated property damage of \$52,519.

New SCS Man Assigned Here

David G. Springer, 27-year-old Texas Tech graduate, is the new work unit conservator for the Soil Conservation Service here.

HE SUCCEEDS Pete Wright, who took an SCS post in Port Lavaca last month.

A native of Rockwall, near Dallas, Springer is a 1962 graduate of Texas Tech, where he majored in animal husbandry.

Springer has been with the Soil Conservation Service five years, and served as work unit conservator at Midland before moving to Dimmitt. His other SCS experience includes work at Seminole, Littlefield and Muleshoe.

HE AND HIS wife, Linda, and their 6-month-old daughter, Robin, live at 301 W. Halsell St. They are members of the First Methodist Church.

Downtown Pep Rally Set Friday Afternoon

It's going to get awfully loud outside Friday afternoon when Dimmitt High School's entire student body stages a pep rally on the courthouse lawn.

Ladies to Get Lesson in Judo

Dimmitt's Young Homemakers have come up with an intriguing way to observe State Young Homemakers' Week — they're going to learn the manly art of self defense.

THAT'S TO BE the program for their meeting tonight (Thursday) at 8 o'clock in the DHS homemaking rooms. City Marshal W. W. Jones will instruct the young housewives on how to counter-attack thieves and muggers.

The meeting is open to all interested homemakers, and baby-sitters will be provided while the young mothers are learning their foot-blows and judo chops.

Gov. Connally has proclaimed Sept. 17-23 as State Young Homemakers' Week to recognize "the contributions the Young Homemakers of Texas are making to the homes of our state and nation, and to encourage these young women to continue in their work."

DIMMITT'S Young Homemakers are beginning a new program year following their recent installation of officers. Their work this year will include projects for the Golden Spread Nursing Home and cooperation in the county library's "Children's Hour" program.

THE BOBCAT Band will lead the march down Bedford Street at 2 p.m., and the Bobcats will ride downtown in their new team bus. High school will dismiss early for the rally.

In addition to injecting school spirit into the downtown area, the rally will serve as a public "thank you" from the students to the Dimmitt Booster Club for purchasing the team bus for the school.

Keys to the new bus are to be turned over to Supt. Paul Hilburn

Farm Tour Set Next Thursday

The annual Castro County Farm Tour will be held next Thursday starting at 9:30 a.m., according to County Agent Charles Hottel.

SPONSORS of the tour are the Running Water Soil Conservation District, the Extension Service and the County Crops Committee. The tour will assemble at the Dimmitt Feed Yards five miles west of Dimmitt at 9:30, and the group will eat lunch at the Bethel Community Center. Lunch will be provided by First State Bank and served by ladies of the Bethel Home Demonstration Club.

THE COMPLETE itinerary of stops is now being arranged and will appear in next Thursday's issue of the News.

Hottel urged all producers to make plans to attend the tour.

at Friday night's Dimmitt-Springlake game here by Charlie Hays, Booster Club president.

BOOSTER Club members hope to increase their number during the rally, and will be selling memberships for \$2.50 per person.

"We'd like to encourage everyone to become members of the Booster Club," DHS Principal Ike Moore said. "It shows community support, and the organization has been very worthwhile to the schools. The club bought the bus, which is already paid for, and has provided the school with a very good movie camera, in addition to providing organized support for the school and the teams."

Booster Club members meet each Monday at 8 p.m. in the DHS cafeteria to hear coaches' reports on the previous week's games, see the film of the latest varsity game and hear scouting reports on the next varsity opponent.

Genealogists Meet Tonight

The Dimmitt Genealogical Society will meet tonight (Thursday) at 7 o'clock in the Colonial Inn Restaurant for a Dutch treat dinner and program.

LEROY HUTTON, president of the Amarillo Genealogical Society, will be the guest speaker. The meeting is open to all interested persons.

Panhandle South Plains Fair To Feature Vietnamese Village

A glimpse of native life in Vietnam, plus an array of crude Viet Cong weapons, will be featured in a Vietnam village scene scheduled as a highlight of the 50th annual Panhandle South Plains Fair in Lubbock Sept. 25-30.

THE DISPLAY is being furnished by Fort Sam Houston, according to R. E. "Bob" Gee, president of the fair association.

Supervising the display will be members of the US Army Medical Training Center at Fort Sam Houston, all Vietnam war veterans.

The display includes three bamboo huts furnished with hand-made furniture and utensils normally used by natives in their households. Other features include crude weapons utilized by the Viet Cong against American forces, along with an exhibit of mines and booby traps.

The village was originally constructed in Sept., 1965, to demonstrate to military and civilian personnel the conditions and hazards existing in Vietnam. The village is normally maintained at Camp Bullis.

IT IS ONE of the most unusual attractions planned for the golden anniversary edition of the fair. Another is being furnished by the Manned Spacecraft Center at Houston, featuring a simulated trip to the moon and back.

Appearing on stage in Fair Park Coliseum at 3 and 7:30 p.m. daily will be the Eddy Arnold all-star show, including the television and recording star, ventriloquist Jimmy Nelson, plus the Kids Next Door, who appeared here last year as the Young American Singers.

Matinee tickets are priced at \$1.50, \$2, \$2.50 and \$3, and children 12 years and under will be admitted for one-half price. Tickets for evening shows are \$2.

Tri-State Fair Is Inspirational

By IRENE KEATING
Last week sure was a busy one. Charles Hottel and I attended the Tri-State Extension Conference in Lubbock, and heard a very interesting program on management of our time to be more effective extension agents.

SATURDAY I was at the Tri-State Fair in Amarillo. Several of our 4-H'ers and adults entered items. I think everyone in our county should go sometime this week.

This week three Home Demonstration Club women went to Fort Worth to attend the State THDA meeting.

THIS WEEK I'd like to give you the third in a series of aids for emergencies. It will be well for you to heed this advice.

The family doctor and local hospital become commonplace and taken for granted in a normal situation. But what about in an emergency?

ably one of the most difficult of many problems. A flood, hurricane, tornado, blizzard, fire of nuclear disaster could deny you access to commonplace services, such as doctors, nurses, hospitals, drug and grocery stores and normal water, sewage, fuel and power services.

YOUR responsibility is to learn to maintain your health and that of your family without facilities and services normally available.

Keep inoculations up-to-date, along with family records. Have check-ups, including chest X-rays and tuberculin tests.

A well-equipped first-aid kit is necessary during an emergency. Also important is first-aid or medical self-help training for each one family member.

KEEPING CLEAN in an emergency is an important aspect often forgotten. When water cannot be spared for washing, you can clean the skin with rubbing alcohol, lotions containing alcohol, face

Postmen Deliver ZIP-a-List Kits

Dimmitt letter carriers this week delivered a ZIP-a-list kit to every householder in the area.

POSTMASTER John Wood urged all residents to use the eight postal cards contained in each kit to obtain the ZIP Codes needed for addresses in their personal mailing lists.

No postage is needed, Wood said. The project is part of Postmaster General Lawrence F. O'Brien's program to make ZIP Codes more accessible to the mailing public and increase the use of the codes in mailing addresses.

"ZIP Code is necessary all year round to increase the efficiency of the postal service," Wood said, "but it is more important than ever around the holiday season. This year, the Post Office Department expects to handle over nine billion pieces of mail during the Christmas rush. ZIP Code will be a great help in delivering that mail accurately and on time."

Wood reminded ZIP-a-list users to include their return address so the post office will know where to deliver the completed form. Last year, thousands of people throughout the nation forgot to include the return address and their efforts to cooperate in the project were fruitless, he said.

Dimmitt Man One Of Four Draftees

One man from Dimmitt, one from Farwell and two from Hereford have been inducted into the Army in the last two months from Hereford Local Board 18.

IN THE August induction call-up were Benny D. Hall of Dimmitt and Danny K. Thomas of Farwell. Inducted this month were Johnnie Trujillo Marry and Rudolfo Alvarado Martinez, both of Hereford.

creams and hand lotions or sealed packets of moistened paper towels. To lessen the chance of transmitting disease, give hands special attention.

To dispose of garbage and human waste temporarily, store all waste materials in leakproof covered containers; using household disinfectants in each container; and burying wastes under two feet of dirt when safe and possible.

Most of the preparations you can make for the health of your family in an emergency are as simple as they are important. However, these preparation must be made now because there would not be time during an emergency.

WHO, ME? — Farwell halfback Mike Doshier gathers in a lateral from his falling teammate, quarterback Lewey Bradshaw (12), and adds three more yards to the option play in the fourth quarter of Friday night's Bobcat-Steer game here.

and Lee Buchanan closed the door on Doshier at the Farwell 43. Just minutes later, the Steers capped the drive with a touchdown to tie the score at 21-21, and kicked the extra point but had it nullified by an offside penalty. The Bobcat line blocked the second Steer place kick and the score remained a tie.

Dimmitt to Host Training Program For Cub Workers

Training sessions for adults interested in Cub Scouting will be held at Dimmitt's First Methodist Church for the next five Monday nights.

ALL SESSIONS will begin at 8 p.m., and are open to all adults registered or interested in Cub Scouting.

Conducting the training sessions will be Gordon Gibson, Haynes District Scout executive. He will be assisted by R. D. Rogers, long-time Scout worker in Dimmitt.

Dimmitt Cub Scout Pack 267, headed by John Mueller, is only one of several packs that will be represented in the sessions. Cub workers from throughout the area have been invited to attend and take part, Gibson said.

MAIN PURPOSE of the training session is to educate Cub leaders so they can carry out a more effective program.

Den mothers will be shown how they can provide more exciting meetings for their Cubs, and pack leaders will be instructed in ways to stage interesting monthly pack meetings, Gibson said.

New books for all ranks of Cub Scouts will be explained also. These new books are just off the press for Wolf, Bear and Webe-los ranks, but the Lion rank has been dropped from Cub Scouts,

100,000 Mathematicians

Sandra Nelson, Judy McCure, and Carolyn Gindele are responsible for more calculations in a minute than Pythagoras made in a lifetime.

These ladies are mathematicians for El Paso Natural Gas Company. They design "programs" to make maximum use of the high potentials of modern electronic computers. Their programs make it possible for the computers, in a few minutes, to complete the mathematics of designing a new pipeline system or calculate the taxes to be paid to communities, states, and the federal government or to predict the volumes of

gas to be needed in the future. By using these computers to the fullest, Sandra, Judy, and Carolyn become the equivalent of, say, 100,000 mathematicians of a generation ago.

These ladies supply the brainpower; the computers do the mechanical work. Sandra, Judy, and Carolyn's great competence — along with that of the other 5,400 employees of El Paso Natural Gas Company whose skills range from accounting through geology to mathematics — are among the reasons that the West has assured supplies of natural gas.

EL PASO NATURAL GAS COMPANY Through its pipelines El Paso Natural serves Texas and ten other western states.

A NEW FASTBACK in the XL line (top) and an LTD to-door hardtop with a new formal roof line are two of the 21 Ford models for 1968. All LTD, XL and Country Squire models feature a special die-cast grille with retractable headlamp doors. A new 302-Cubic-inch V-8 engine is standard in LTD and Squire models. New options for 1968 include AM-FM multiplex stereo radio, an automatic load leveler system, a rear window defogger and tilt steering wheel. Brockett Ford in Dimmitt will have a limited number of new models Friday, and is planning a second showing later, pending the outcome of the UAW strike which has halted production at Ford Motor Co. plants in Detroit.

Frio

Ladies Attend Prayer Retreat

By Mrs. Owen Andrews
Those from the Frio WMU attending a prayer retreat at First Baptist Church in Littlefield last Thursday were Mmes. Sam Ogan, Frank Robbins, Floyd Cole, Charles Self, Eugene Baldwin, Chesley Johnston, Clark Andrews and Earl Harkins.

Miss Viola Keene of Levelland visited her sister, Mrs. B. H. Baldwin Friday.

FRIO W.M.U. concluded a series of meetings for state missions this week with a morning program and luncheon in the home of Mrs. Clark Andrews. As the series has been concerning Mexican mission work, the luncheon featured Mexican food.

Officers' election was also held, with Mrs. Frank Robbins re-elected as president, Mrs. Sam Ogan vice-president and Mrs. Earl Harkins as secretary.

The WMU voted to have meeting on the first and third Wednesday

mornings at 9:30, beginning in October.

★ **MRS. RICHARD PRICE** entered Northwest Texas Hospital last Thursday and minor surgery and treatment.

Mrs. T. L. Sparkman Jr., Mrs. Laura Littrell and Miss Alma Andrews visited Mrs. Ralph Hart at Clovis and Mrs. Allie Burris at Texline Tuesday.

Mr. and Mrs. Harlan Barber helped their son, Jimmy, and his wife, Sharon, move from Lubbock to Hutchinson, Kan., last weekend Jimmy is assistant agronomist at Grace Research Project in that area.

★ **MRS. H. M. Mobley** spent several days this week with her mother, Mrs. Leila Taylor, who was in a Throckmorton hospital.

The Mobleys received word Friday of the death of Mrs. Mobley's sister-in-law, Mrs. Art Smiley of Ralls. The funeral was held there Friday.

★ **MR. AND MRS. D. C. Miller** have just returned from a visit to California. Near Oakland they visited the Mike Noland's. She is his daughter and they have a new baby, Doc's first grandchild. At Pleasanton they visited his brother, who with his wife accompanied them as far as Reno. The Millers also visited the Raymon Mobleys at Farmington on the return trip.

Mr. and Mrs. Walter Jay of Elk City, Okla., are spending several days with their daughter, Mrs. James Dobbs and family.

Mr. and Mrs. Robert Haseloff ate lunch with the Joe Andrews Monday. They were enroute to Albuquerque, where he will be stationed in the Air Force. He has trained at Amarillo and Wichita Falls Bases since enlisting.

★ **MRS. G. W. PARKER** visited several days with her sister, Mrs. Dovie Isbel, and brother, J. H. Stalcup and families at Tahoka, returning home Friday. Mrs. Isbel came home with her for a visit. Aother sister, Mrs. Flora Wallace of Ardmore, Okla., also is here to visit the sisters.

The David Yadells and Olin Parrises spent the weekend at Monte Vista, Colo., enjoying the fall weather.

Mrs. Sam Ogan is a member of a team of WMU workers making a tour beginning at El Paso and other points in that area, holding clinics for workers. Mrs. Ogan is state stewardship chairman of Texas WMU.

V.F.W. NEWS

By GEORGE DERRICK
The recent magazine drive sponsored by our post netted us two hospital walkers, plus \$54 cash. This money will be used to buy more equipment of this type.

WE NOW have wheelchairs hospital beds, walkers, and crutches. This equipment is for the general public's use, with no charges. For further information, contact our post quartermaster, Marvin Witt, or this reporter.

★ **SUNDAY** afternoon our post held a "family party" at the local clubhouse. The kids played football and other games. The Ladies Auxiliary served the food, and it was delicious — especially the home-made ice cream.

Plans are being made to have these "family parties" at least, once a month.

The upcoming fish fry will feature channel catfish, bass and red snapper. The exact date for this has not been set, but it will be held at the post clubhouse, and the public will be invited.

On Oct. 6, a delegation from our post and the ladies auxiliary will go to the Veterans Hospital at Amarillo, to host a party for the patients there. This is a very worthy cause, and you may participate, or make a donation.

We express to each of you in our humble way our sincere appreciation for your prayers, kindness, the food and care of sympathy during Grace's illness and hospitalization. Thank you Dr. Lee and the wonderful nurses and technicians at the hospital and those who kindly donated blood. Also Bro. McCormick and his wonderful wife. May God bless each of you. GRACE AND IRA BROWN AND FAMILY

"In Gratitude" We have learned that words are not always adequate to express our feelings at times like these. But, in this way, we would like to say, with grateful hearts, "Thank You" to Dr. Bischoff, the nurses in attendance, our ministers, Bro. McCormick, Bro. Stanford, and Rennie Parker and to everyone who sent food and cards and to all our dear friends. By being near you have helped us bear our loss. MRS. ELMO BELL MR. AND MRS. LONNIE BELL MR. AND MRS. Coming Next: Soybean Nylon

The prospects are excellent for using soybean oil as a raw material in producing nylon 9, a nylon with properties desired in the manufacture of many products US Department of Agriculture scientists have reported.

Soy nylon has properties not now available in domestic nylon; soybean oil is available in large volume and at stable prices and the nylon market is growing in size and variety, the report said.

MODERN AGRICULTURE

Farmer Can Substitute Wheat An Barley Acreage for 1968

A farmer who would rather grow wheat instead of barley for 1968 harvest may substitute wheat on the barley base acreage established for his farm.

IN EFFECT, this makes it possible for a wheat grower to qualify for wheat program payments even though he plants wheat on his farm's barley base in addition to his wheat allotment acres.

County ASCS Secretary Charley Hill said producers wanting to grow wheat on barley acreage should request the establishment of a barley base for their farms for this purpose.

No diversion from the barley base will be necessary, so the whole base may be planted to wheat. If only a part of the base is devoted to wheat, the balance of the barley base may be planted to barley.

Barley will not be in the feed grain diversion program for 1968. However, price support will be available for the barley crop grown, regardless of how much acreage is planted to barley.

If his farm has a corn or grain sorghum base, the producer who requests the establishment of a barley base would need to participate in the 1968 feed grain program as well as in the wheat program. This means that he would need to reduce his corn-sorghum acreage by at least the minimum amount necessary and meet other feed grain program provisions.

In 1968, corn and sorghum cannot be produced on barley bases, but barley can be grown on wheat allotment acreage and on corn-grain sorghum base acreage, Hill reported.

Ag Science Week To Start Sunday

Sept. 24-30 will be observed as National Agriculture Science Week in the United States.

WHEN THE US Department of Agriculture and the Land Grant College systems were established in 1862, each farm worker provided food and fiber for only five persons. Now he supports almost 40.

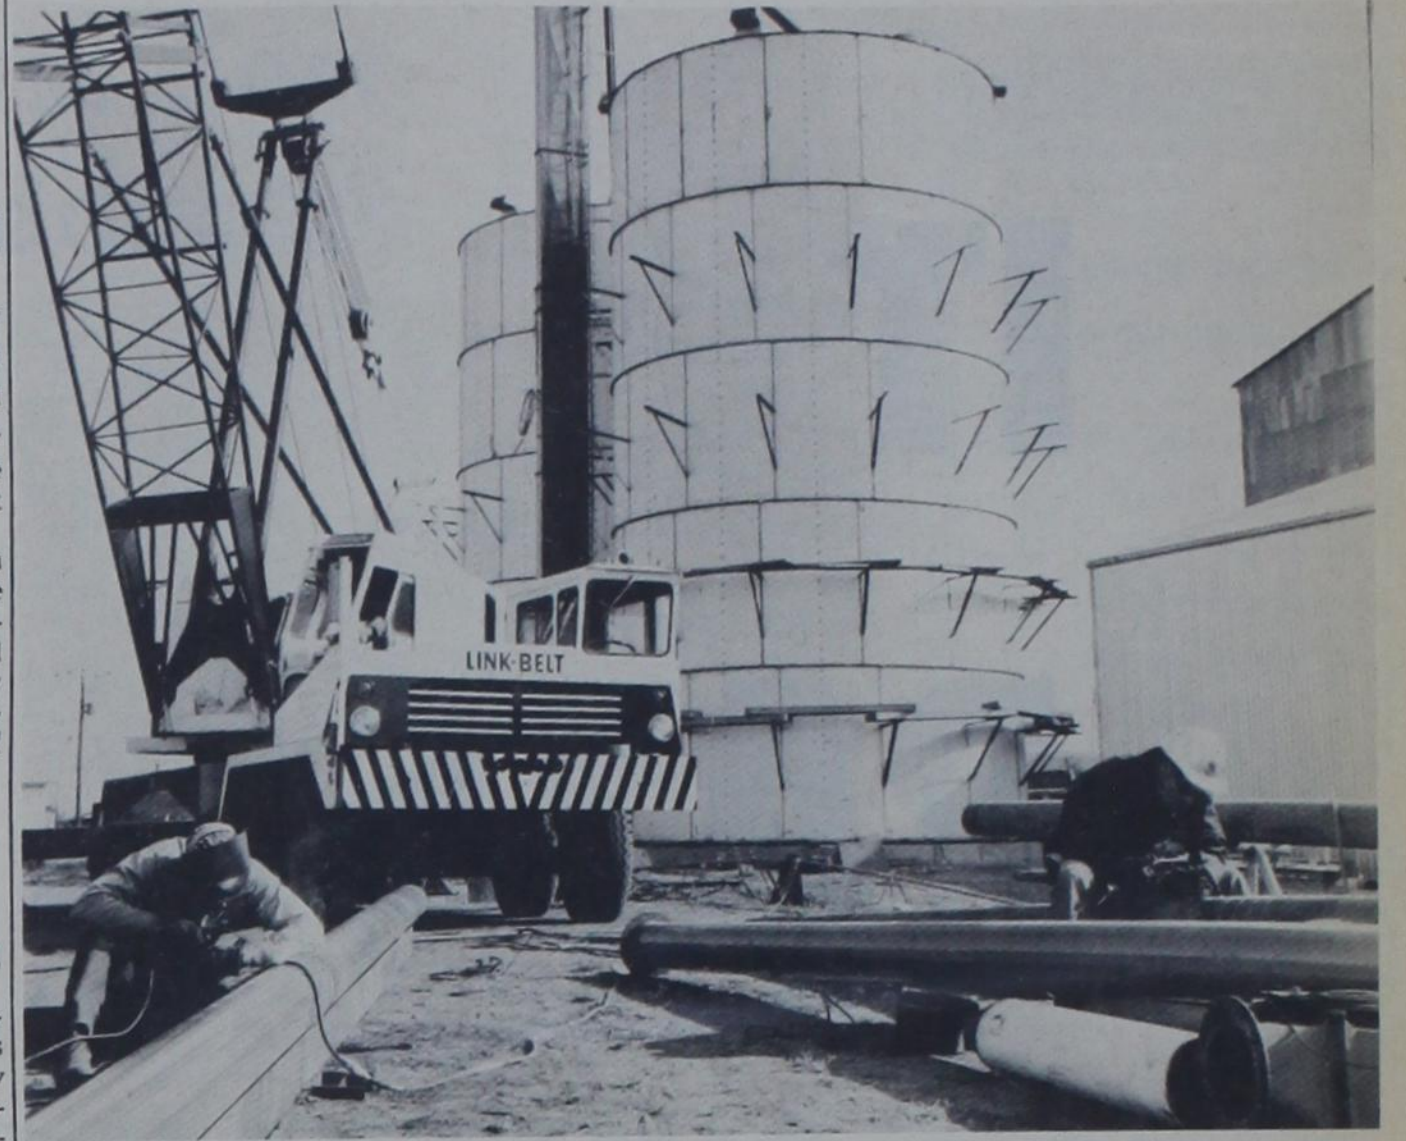

Agricultural science has been responsible for developing entire new industries to process and distribute industrial, medical, food and fiber products, said Secretary of Agriculture Freeman in asking for widespread observance of the week.

Hart Soldier Gets Promotion

Joe Rubalcaba, 21, son of Anastacio Rubalcaba of Hart, has been promoted to the Army rank of Specialist 5 near Gieson, Germany, where he is serving with the 79th Artillery.

RUBALCABA, a survey recorder, is assigned to Headquarters and Service Battery of the 79th Artillery's 3rd Battalion. He entered the Army in December 1965 and received his basic training at Ft. Polk, La.

He is a 1964 graduate of Hart High School.

THE SOYBEAN HARVEST is the deadline for this storage addition project at Flagg Grain Co. Three 40-ft. steel elevator tanks are now being erected and outfitted at Flagg Grain Co. by Brown-McKee, Inc., Lubbock contracting and engineering firm. In foreground, two Brown-McKee welders

cut steel pipe for the elevators. The large steel tanks were purchased from Cummings Feed & Seed Co. of Friona, and Flagg Grain Manager George Blanton said all three will be used exclusively for soybean storage.

Price Claims Farm Situation Is Main US Domestic Problem

In a series of Town Hall meetings at Silverton, Quitaque and Memphis Saturday, Panhandle Congressman Bob Price said the farm problem, next to the war in Vietnam, is the most critical the nation faces and one that has to be solved.

EVEN THE overcrowded and explosive situation in our cities is largely a result of drastic changes that have taken place in our agricultural economy during recent years," Price said.

"The continuing deterioration of farm income in times of rising prices and so-called prosperity

are driving more people from farms and small towns into already over-crowded and sium-ridden cities with unemployment problems of their own," he charged.

"Secretary of Agriculture Orville Freeman recently testified before a housing committee in Congress that deterioration in rural America feeds blight in cities," Price said, and while I might not agree with Secretary Freeman on the means of accomplishing renewal and redevelopment of rural America, I agree wholeheartedly that it must be done."

PRICE TOLD the Town Hall meetings that a record US wheat crop of 1.5 billion bushels plus a world crop that was bigger than predicted had pushed wheat prices down. He said he and other Republican members of the House Agriculture Committee's Subcommittee on Livestock and Grains had recently urged Freeman in a letter to raise the price at which the government sells wheat to full parity minus the value of domestic certificates paid for by wheat processors. They also asked the Secretary to raise the government sale price on feed grains and soybeans to 100 percent of parity.

"We pointed out," Price said, "that the present policy of the Commodity Credit Corporation is to sell its stores of wheat and feed grains back into the market at 115 percent of the loan level plus carrying charges which, in the case of wheat is \$1.44 per bushel and about what the domestic market price of wheat now is."

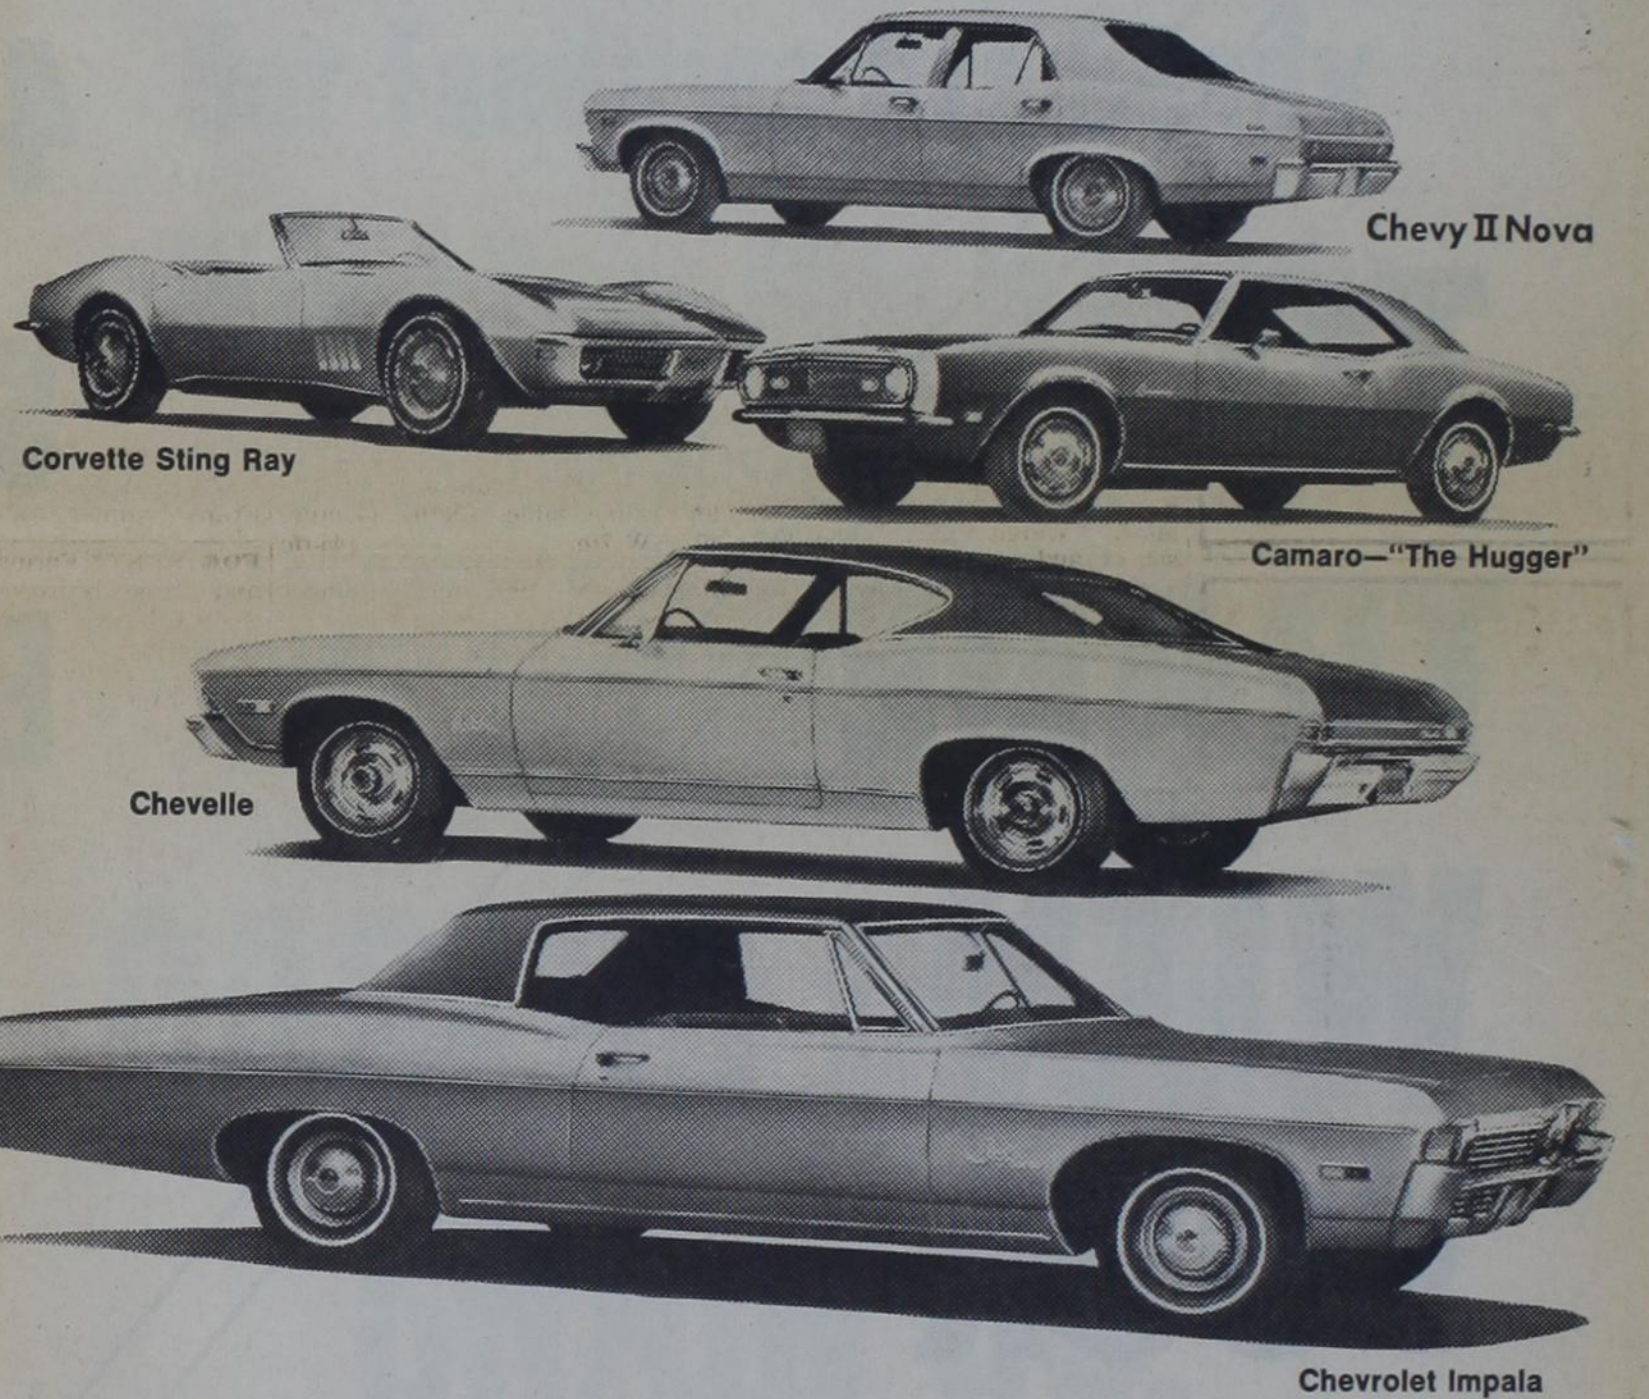

"UNDER OUR proposal — and the Secretary has the authority to do this — government-owned wheat would be sold for not less than \$1.87 per bushel and grain sorghum for not less than \$2.58 per cwt. I sincerely feel that the Secretary of Agriculture could materially improve the present grain price situation if he would do this," Price said.

In connection with a series of "shirtsleeves" meetings the Department of Agriculture has conducted on the 1968 cotton program, Price said he believed that skip-row penalties should be removed for 1968.

He said he agreed with recommendations that had been made by South Plains cotton growers that the Department of Agriculture should adopt pricing policies and take all action necessary to re-establish and maintain a fair historical share of the world market for US cotton.

"Cotton exports have continued to decline during the past six years and drastic reductions in the US crop have been necessary to manage the surplus," Price said

Dramatic! Distinctive! Daringly new!

'68s Top Secrets are here

1968 Chevrolets

The 1968 Chevrolets are the very essence of modern design. Every line, every curve is in close harmony. It's a smooth, uncluttered look with roof lines compatible with body lines, grilles and bumpers that blend gracefully into long, rounded fenders. Clean, flowing, beautiful in their simplicity, these '68 Chevrolets are rich and advanced in styling beyond any you've ever seen.

A MORE SILENT RIDE

And for 1968, we've gone to every length to give you more peace and quiet inside. The most sophisticated computers have been used to strategically place body mounts and successfully isolate noise and vibration. Shock absorbers have been improved. The wheel stance on many models is wider for greater smoothness. Exhaust systems have been redesigned to make them whisper-quiet. Even the clocks tick more softly. A sound car is a silent car. The '68 Chevrolets are the most silent, highest quality cars we've ever built.

BETTER PERFORMANCE

There are new engines, a bigger standard Six and V8. There's a new

250-hp V8 you can order that runs on regular fuel. Many new engine components increase dependability and keep your new Chevrolet running stronger. There's a new rear axle ratio you can add for greater economy. On most engines equipped with automatic transmissions, there's a special heater for the carburetor which gives you more efficient performance in cold weather. And with every engine, you get the new GM exhaust emission control.

UNIQUE ASTRO VENTILATION

There's a whole new idea in ventilation, called Astro Ventilation, for Camaro, Corvette and the elegant Caprice Coupe. It's also available on many other models. By opening two new vent-ports on the instrument panel, you bring in outside air that can be directed where you want it. This way, you can leave your windows rolled up and add still more to your peace and quiet.

PROVED SAFETY FEATURES

You get the proved GM-developed energy absorbing steering column, folding front seat back latches, dual

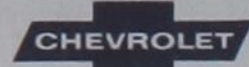

master cylinder brake system with warning light, plus many more new features. Among them: energy absorbing front seat backs, and safety arm-rests that shield the door handles.

MUCH MORE THAT'S NEW

There are new roof lines, some formal and graceful, others sporty and quick. There are new instrument panels, richly designed and all controls within easy reach. There are new interiors, new vinyls, new fabrics, new colors. There are models with Hide-A-Way windshield wipers and headlights that disappear behind grilles. There are new side marker lamps, new recessed taillights. There's even a new ignition alarm buzzer that reminds you not to walk away and leave your keys in the car.

These are the newest, the most different, the most dramatically changed Chevrolets ever. And they're at your Chevrolet dealer's now. You'll thoroughly enjoy slipping behind the wheel, experiencing the smooth new handling and library-quiet ride and, more than anything, seeing and feeling the even greater quality built into every new Chevrolet for 1968.

Be smart! Be sure! Buy now at your Chevrolet dealer's.

There's more quality and value built into Chevrolets than ever before, making every new 1968 model an even better buy!

Dairy Calves Pass Test As Top Beef Producers

Bull and steer dairy calves can be efficient producers of beef, a recent feeding trial directed by Texas A&M University shows.

THE TRIAL also indicates that a high protein level can have more effect than protein quality, and that bull calves can consistently do better than steers in meat production.

Especially significant was the fact that the calves were fed all-concentrate rations. No roughages were provided.

The project was conducted by graduate student Frank Pinkerton at Southwest Texas State College, and directed by A&M's Dr. R. E. Leighton as one of several experiments to demonstrate that feeding male dairy calves on a commercial basis might offer another income source to milk producers and cattle feeders.

THIRTY-TWO Holstein males were fed four different all-concentrate rations, each containing less than 6 percent fiber and ranging from 76 to 88 percent total digestible nutrients (TDN). The research tested two qualities and two levels of protein in the rations.

Each of the four rations was fed individually to four bulls and four steers. Two bulls and two steers on each diet were implanted with 24 milligram of diethylstilbestrol when they reached 200 pounds of body weight.

The main ration ingredients were coarsely ground milo and a 5 percent cottonseed oil product, plus vitamins, minerals and aur-

JAYCEE OF THE MONTH is Jim Ratcliff (left), shown receiving his certificate from President Robert Benton during last Thursday's luncheon meeting. Ratcliff, an accountant with Schaeffer & Harden, won the award for serving as chairman of the successful Jaycee swim meet last month. The meet was originally scheduled as a sidelight event of the Castro County Roundup, but had to be postponed until a week after the celebration because of cold weather.

Library Begins Stricter Policy

Among the books often requested by users of the Castro County Library are "Dr. Zhivago" by Boris Pasternak and "Gone With the Wind" by Margaret Mitchell.

HOWEVER, when these books and 65 others are called for, it is impossible for Librarian Sandra Robb to fulfill the request, for they are on a long overdue list at the county library.

And from now on, the fine for holding them could be as high as \$25, under a new policy going into effect at the library.

"Overdue books, when not returned after a reasonable time, not only inconvenience would-be readers, but if replaced with new copies would make a sizeable dent in the library budget," Hazel Merritt, chairman of the county library board, said.

"A **FACTOR** with which many people are probably unaware is that the librarian is under bond for the proper care of the library, which includes books in circulation," Miss Merritt explained.

"Moreover, library users probably do not realize there is a state law regarding willfully detaining any book or other property belonging to a public library," she said.

At present, 53 persons have from one to four books each that are long overdue at the Castro County Library. The number of books totals 67, and their replacement value is more than \$200.

These books have been overdue two weeks or longer, and some of them have been out of the library more than a year and a half.

BECAUSE of the inconvenience caused by persons who fail to return books when due, and because of the cost of replacement copies, the jeopardy to the librarian's bond and the disregard being shown to library rules, the county library board has announced four new policies regarding overdue books.

THESE RULES have been approved by Mrs. Robb, the library board and the commissioners court:

1. Regular notice of overdue book will be mailed to the holder two weeks after the due date.
2. Notice plus the cost of the book will be mailed, if the book has not been returned four weeks after the due date. (Any lost book may be paid for by the holder.)
3. Notice plus a copy of Article 1367 of the Texas Penal Code will be mailed to the holder six weeks after due date. Article 1367 reads:
 - "**WHOEVER** wilfully detains any book, newspaper, magazine, pamphlet, manuscript or other property belong to any public or incorporated library, reading room, museum or other educational institution for 30 days after notice in writing to return same, given after the expiration of the time which by the rules of such institution such property may be kept, shall be fined not less than \$1 or more than \$25."
 - 4. If, after the third notice has been mailed and the proper time elapsed, the book has not been returned or paid for, the matter will be placed in the hands of the county attorney for further action.

Dairy Cow Eats 35 Tons a Year

The dairy cow is no weight watcher so far as eating and drinking, water that is, are concerned. The average 1,100 pound Texas dairy cow requires about 35 tons of "fuel" annually for maintenance and production purposes, reports A. M. Meekma, Extension dairy specialist at Texas A&M University.

IT IS NO wonder, he adds, that dairymen look to modern labor-saving helpers, such as motors, levers, push button and pipeline milking systems to assist them in moving the needed "fuel" to the animals and handling their milk.

Meekma says a cow producing 11,00 pounds of milk annually (approximately 5,100 quarts) will need 35 tons or more of grass, hay, grain and water. She will eat about 2½ tons of grain and protein feed a year; 2 tons of hay; 3 tons of silage and 5½ tons of pasture forage. Then she will use about 44,000 pounds of water to wash it down. She eats and drinks about 190 pounds of "fuel" daily, says the specialist.

THE WATER a dairy cow drinks helps to build up her blood. This blood, laden with nutrients, is pumped through her udder where, by one of nature's wonderful processes, these nutrients are converted into milk. Meekma says an estimated 400 pounds of blood flows through the cow's udder for each pound of milk produced. Thus, a cow producing 60 pounds of milk daily would have 24,000 pounds of blood flowing through her udder each day.

It all adds up, says Meekma, to the fact that the Dairy cow is a very efficient "manufacturing plant," taking raw materials and converting them into one of our most nearly perfect food products.

First Baptist News From My Heart to Yours The Church at Work

It's a good philosophy. I heard it first during "big recess" at Terrapin Grade School. "Can't never can do anything," said my wise grade-school buddy and thus we proceeded to do what the rest said couldn't be done.
I heard it again last night as a man related a success story in which great obstacles were overcome: "The difference between the possible and the impossible is the measure of a man's will."
The challenges we face in our church are large indeed. God always gives big people big jobs. We can do the "impossible" if we believe in what we are doing and if we are willing to make things happen and not just watch things happen.
God has never asked anyone or any church to do anything that He would not equip them to do. "The things which are impossible with men are possible with God." (Luke 18:27). In the words of a familiar song, "May the Lord depend on you?"
Your pastor and friend,
Frank Pollard

Notice To Hearing Aid Users And To The Hard Of Hearing

Now You Can Buy Hearing Aid Batteries In Dimmitt

Mrs. Inez Stewart now sells batteries at her home — 603 N.W. 6th.

Mrs. Stewart recently moved to Dimmitt and found no local source for batteries for her hearing aid.

So, she made arrangements with her hearing aid dealer to furnish batteries for her to sell in Dimmitt.

Mrs. Stewart is home after 3 p.m. each day.

Realizing the need for local service on hearing aids, Mrs. Stewart will allow her home to be used periodically as a service center for hearing aid users and assistance to the hard-of-hearing.

Mr. Ken Goebel, Certified Hearing Aid Audiologist, and owner of the Goebel Hearing Aid Center of 805 Adams, Amarillo — will be at Mrs. Stewart's home TUE., SEPT. 26 — FROM ONE TO SIX P.M.

Call Mrs. Stewart at 647-5555 after 3:00 p.m., for an appointment.

Mr. Goebel does audiometric testing. If a hearing aid fitting is indicated, he will let you "test-hear" one of the many models made by ZEN-ITH.

If you are a hearing aid user, he will be happy to assist you with problems you may be having with your present hearing aid.

Carl Edward Allsup, son of Mr. and Mrs. Dewitt Allsup of Dimmitt, is serving as a resident assistant in a dormitory on the Wayland College campus.

RESIDENT assistants, all upperclassmen, were assigned to dormitories for the first time at the start of the fall semester. They are selected on the basis of leadership ability, academic standing, character and personality. They serve as aids in counseling, help administer the dormitories and lead group discussions.

Mrs. Lena Faye Allford, counselor for women, said aims of the program, in addition to leadership and counseling, is to build a strong Wayland College spirit and provide a ready-made group for handling campus projects.

Stephens Guides LBJ Ranch Tour

By MYRTLE SHEFFY
Harold Stephens of Dimmitt will help conduct a guided tour of the LBJ Ranch near Johnson City Friday during the annual National Conference of Farm Credit Directors.

STEPHENS, who is the Panhandle regional manager of the Federal Land Bank of Houston, is on the arrangements and entertainment committee at the conference.

He flew to Houston last Thursday morning to attend the annual conference, which is being attended by directors from all of the 12 farm credit banks throughout the US.

Conference headquarters is the Shamrock Hilton Hotel, with the farm credit banks of Houston as hosts this year.

The conference started Sunday and will continue through Saturday. On Wednesday the conference moved from Houston to San Antonio's St. Anthony Hotel. While headquartered in San Antonio, the group will make a farm and ranch tour through the hill country, ending with the LBJ Ranch tour Friday.

DOROTHY WRIGHT and her mother were hostesses last Thursday night at a Hawaiian party. Refreshments of ice cream topped with coconut syrup, Hawaiian candy, nuts, iced tea with pineapple spears, coffee, and coconut and pineapple cookies were served. Dorothy showed the colored slides and souvenirs of her recent trip to Hawaii to Irene Keating, Betty Vaughan, Judy Cumiford, Mildred Sheffy, Florene Leinen, Ruth Carter, Zonell Maples, Lola Faye Veazey, Frankie Reed and Joy Barker.

VERA WEBB, Allan and Peggy Webb and their son Johnny, Aural Davis, Suzie Davis and Bob Bradford attended the musical "The Music Man," in the Little Theatre in Lubbock Saturday night. The Webbs' daughter, Kristi Wesson, had a singing part in the townspeople's chorus and a small talking bit.

MRS. E. S. UMBERSON has returned home from a three-week visit with her son Dec and family in Alamogordo.

Mrs. Robert Elliott of Baton Rouge, La., and Miss Erna Forson of Temple have been visiting their brother, Claude, and Mrs. Forson for a few days. Claude is doing well since his recent surgery.

RAY JOE AND Jo Eddie Riley and son took their camping trailer to the ranch at Bonham last week to do a few chores, and wouldn't you know, it rained and rained! And the next week Ray and Edna Riley went down there,

then on to Arkansas for a Davis family reunion.

THE FIRE BOYS were the LBJ guests at a steak supper Friday. Alfred and Celeste Dutton were the hosts. Mrs. Dutton baked a big cake and the boys cooked a pot of beans to go with the steaks.

Recently, Mr. Dutton called the fire fighters out to his place 20 miles southwest on the 25-mile avcnc, to try to save his hay stack that was burning. They went out a second time also. So this was really an appreciation meal.

Guy Waldrop, fire marshal, said the folks here were the Bob Murdocks, the Pat Harbours, the Harlan Dodds, the James Sloughs, the Sherty Barlows, the Pat Pattersons, the Clarence Woods, the Junior Galsbys, the Frank Britts, the Fred Lemmes, the Winston Rundtrecks, the R. D. Rogers, the Mig Morrisons, the McD Smiths, the Joe Walls, the John Woods, the Gene Smiths, the J. B. Moores, the Leon Sanders, R. V. McMathen and Harry Huff.

MR. AND MRS. Charles Guinn and two daughters have moved here recently from Panhandle. They have bought an interest in the Ford Agency. They belong to the Church of Christ, enjoy bridge and have an interest in art. O Yes! They are some kin to Oscar Gross.

Quite a crowd of us went out to see the little Bobcats play Springlake Tuesday. They play a good game.

Q. C. and Mildred Brown of Brownie's Cafe went over to Oklahoma to visit his mother who lives at Wapanucka, near Tishomingo, Okla. (Oh boy, those Indian words). They saw Bryce and Darlene Dowell there. The Dowells have bought a cow and horse ranch near Ardmore.

DID YOU hear that Tim and Vera Patton and Linda Langford were the top winners in a talent contest at Friona. Well the judges said the song and dance act of the Patton kids and Linda's song and dance were equally good — so they divided the prize money.

Teena Proffitt and Rena Fillingim, a former resident here, were honorees at a double birthday party. They are now 15. Mrs. Jasper Proffitt served pizzas and ice cream in Teena's "Pizza Parlor" (the garage). The tables were covered with checkered cloths with the drippy candles. Mrs. Proffitt served many pizzas, cold drinks, salad and two freezers of ice cream. The 16 teenagers enjoyed games and records.

MRS. KATY BURKETT cooked up a good dinner and birthday

cake for her husband, Swain, and her aunt, Annie Browder, who lives at Golden Spread Nursing Home. Guests were Mr. and Mrs. Dow King of Pampa, Mrs. Leona Rethwell, Mrs. A. O. Gregory, and Katy's sister, Mrs. L. B. Cox of Houston, who is a national flower show judge. Mrs. Cox made the lovely arrangement for the table.

The Burketts left for Phoenix, Ariz., Friday to visit son Joe and his new bride and David and his family.

SEVERAL of our girls twirled in Amarillo Monday at the big kickoff parade of the Tri-State Fair. The parents accompanied their daughters, who were Shelby Rogers, Carla King, Gayla and Carla Beehtel, Pam Heard and Rena Baker.

Mrs. Stevensen of Friona has been a guest of her daughter, Mrs. Gerald Harden and family. She also heard the book review by Mrs. Waters.

Shelby Rogers reminds us that the aspencade up towards Red River and Taos will probably be best around the first part of October. Let's go!

Dora Huchens and daughter, Florene Stafford attended the funeral of her brother-in-law, Fred Huchens, 92, at the Christian Church in Electra, one day last week.

Mrs. Barry Eggs of Fort Worth visited a few days with her parents, Mr. and Mrs. Eldon Minchew.

PETER NERO, the well known pianist, will perform Nov. 13 in Hereford High School auditorium. See Ann Touchstone for tickets.

Dr. and Mrs. Charles Vandiver were hosts at a dinner Thursday evening for the Dental Study Club group composed of dentists of this area. Guests were Dr. and

THE CHURCH'S revival begins on the first Sunday in October, which is the day usually observed as Rally Day. Roy (Cowboy) Johnson is the Sunday School superintendent, and an effort is being made to have a 100 percent attendance.

Minister Bedford W. Smith will preach Sunday on the topic, "That You May Prove God Within," at the 10:50 a.m. service, and "When They Had Prayed" at the 6 o'clock vesper service.

Mrs. Albert Perkins of Littlefield, Dr. and Mrs. Charles C. Craig of Floydada, Dr. and Mrs. Lloyd Shackelford of Friona, and Dr. and Mrs. Aaron Williams of Littlefield.

A-2C Larry Green has completed four years of military service at Loring AFB, Maine. Larry is the son of Lawrence and Bertrice Green and plans to attend school at Texas Tech. He will major in chemistry and is a junior.

NETTIE GRAHAM went home to Fort Worth with her son-in-law A. J. Kemp, for a visit with him and Jean and the children. Mrs. Charles Vandiver sent some apples. (You should see that tree — bushels of big, pretty fruit. You can grow anything here — the soil is fine; just add water and sunshine.)

Do you remember Nelda Thomas? She was the reporter and photographer here with the News a few years ago. She now is working with the magazine, "Irrigation Age." She will take pictures and do feature articles. She goes this week to Garden City, Kan., on a special tour of the corn farms. This job will include travel in Texas, New Mexico, Oklahoma, Nebraska, Kansas and Colorado. Lucky girl — interesting job.

IRENE BRADLEY says they can finally get her mother, Mrs. Elmer Dixon, out to see a foot-

ball game since her grandson is playing on the freshman team. Wasn't that a good game Friday night? We have so many grandkids in "this and that" that we are kept busy.

Dr. and Mrs. Dennis Blackburn are in Dallas this week attending a meeting of general practitioners. Landol Frazier of Fort Worth is home for a few days' visit with his parents, Alvin and Frances Frazier.

A BUNCH of the football folks went home with Coach Brown L. Smith and the Mrs. for coffee and a "replay" after the game Friday night.

Billye Gwen Davis, son Lance and daughter Andrea visited friends, Mr. and Mrs. Alton Hellingworth, in Hereford. Another day their company were Mrs. L. T. Smith of Earth and Mr. and Mrs. Freddie Hamilton, who moved here from Silverton. Freddie is a nephew of Mrs. E. C. Caudle.

Larry and Sue Scoggins, students at Tech, came by here to visit their grandmother, Mrs. Homer Bartlett, and his parents, the Howard Scoggins. They had been on a vacation trip to New Orleans and Houston. And Hilma Carroll of Laramie, Wyo., who teaches and is working on her doctorate at the University of Wyoming was also a guest for a few days of her mother, Mrs. Bartlett.

Roy Dale and Shirley Underwood visited her mother, Mrs. Grant, and other kin in Amarillo

Arney Club Holds Salad Luncheon

The Arney Community Club began its new season with a salad luncheon at Mrs. Gwen McFarland's home. Mrs. A. E. Coggburn was also hostess to the eight members present.

THE YEARBOOK was given out and programs for the year were discussed.

The Childrens Community Club has been invited to present a program on Girlstown USA for the next meeting. Plans are being made to visit the town.

Mrs. Bruce Fields presided at the meeting.

Saturday.

REV. GILBERT DIAZ of St. Luke's Methodist Church presented the service at the First Methodist Church Sunday evening. His congregation came also, and did some special music. A fellowship hour was held later in Lamar Hall with cookies and fruit punch served by the mission committee. These meetings make for a better understanding for the two peoples.

John and Flo Nichols of Tulia stopped in Dimmitt a while on their way to Ruidoso. They recently built a house overlooking the river.

Mrs. Robert Benton and two children flew down to Dallas to visit a few days with her parents, Mr. and Mrs. Adams. Robert will go for them Wednesday.

The Edwin (Goose) Rameys and the W. E. Kirkpatrick were dinner guests in Hereford Sunday and visited with Mr. and Mrs. Horace Baird.

Miss Eastman

Oct. 14 Date Set

Mr. and Mrs. Maurice Eastman of Bangor, Maine, announce the engagement and approaching marriage of their daughter Myrna, to Larry Buckley, son of Mr. and Mrs. Jimmy Buckley of Dimmitt.

MARRIAGE vows will be exchanged Oct. 14 in Bangor.

Miss Eastman is a graduate of Bangor High School and Mr. Bernard's School of Hair. She is assistant manager of Continental Coiffures in Bangor.

Buckley is a Friona High School graduate, attended West Texas State University and recently received his discharge from the US Air Force.

Hart Couple To Wed Oct. 13

Mrs. H. K. Follis of Hart announces the engagement and approaching marriage of her daughter, Oketa Ruth, to Ray Cox of Hart.

THE WEDDING is to be Oct. 13. Miss Follis is a graduate of Clinton High School. Cox is the son of Mr. and Mrs. Olen Cox of Holliday and is a graduate of Holliday High School.

Bridal Shower Fetes Mrs. Bates

A bridal shower honoring Mrs. Larry W. Bates was held Friday from 4:30 to 6 p.m. in the community room of Farmers State Bank in Hart.

The bride is the former Charlotte Ann Murray.

PUNCH AND small decorated cakes were served by Mrs. Andy Gardenhire and Mrs. Preston Upshaw from a table covered with a white linen cloth. The floral arrangement was of small spider mums and greenery with sterling silver candleholders and moss green candles carrying out the bride's colors of moss green and white.

In the receiving line was Mrs. Ralph Futtrell, Mrs. R. J. Murray, Mrs. Weldon Bates and the honoree.

MRS. JACK GEORGE registered the guests. Sharing hostess duties were Meses. Andy Gardenhire, Preston Upshaw, Jack George, Lanny Tucker, Theron Morrison, Boots Rogers, H. L. Cheatham, Joe Bailey, Edd Bennett, Carl Rambo, Orville Sharp and Ralph Futtrell.

The hostess gift was a Mixmaster.

43 Ladies Hear Book Club Review

Forty-three ladies attended the Dimmitt Book Club's first fall meeting last week to hear Mrs. Charles Waters review Adela Rogers St. John's book, "Tell No Man."

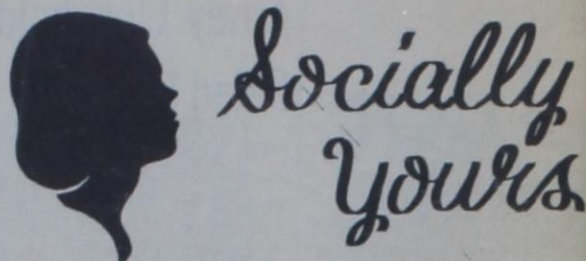

IN HER book, Miss St. John tells the trials of a businessman who felt called to the ministry; of his rich aunt who threatened to cut him off from her will unless he gave up the idea of serving God; and of his wife, who felt she was serving God through committees but didn't want to exchange worldly possessions for herself.

Mrs. Waters was the guest of Mrs. Russel Moran.

Hazel Merritt presided at the business meeting, and Mrs. George Bagwell and Mrs. Jackie Miller served coffee and cookies during the social hour.

On the Go

The Edgar (Unk) Rameys and the Marion Bentons will leave Friday by plane for Montreal, Canada, for the Fair and the river trip up the St. Lawrence river.

Murray-Bates Vows Exchanged at Hart

Double ring vows were exchanged recently between Miss Charlotte Ann Murray and Larry Weldon Bates. Rev. Van Earl Hughes officiated at the ceremony in Hart's First Baptist Church.

Mr. and Mrs. R. J. Murray and Mr. and Mrs. Weldon M. Bates are parents of the couple.

THE BRIDE is a 1967 graduate of Hart High School. The bridegroom is a graduate of White Deer High School and is attending West Texas State University.

Wedding music was provided by Mrs. Carl Rambo, pianist. She accompanied Sylvia Marriott of Amarillo, cousin of the bride, who sang "Walk Hand in Hand" and "Wedding Prayer."

Given in marriage by her father, the bride wore a formal length gown of bridal satin and re-embroidered Alencon lace, fashioned with an empire waist and accents

of seed pearls. The slim A-line skirt was accented by a chapel train. A satin rose secured her tiered veil of illusion and she carried a bouquet of white roses.

Sue Bates, sister of the groom, was maid of honor. She wore a gown of avocado bonded crepe. A rose fashioned from avocado crepe with a veil of tulle was her headpiece. She carried yellow mums.

BEST MAN was Richard Murray, brother of the bride. Ushers were Roger Simmons of White Deer, cousin of the groom, and Bill Murray of Panhandle, cousin of the bride.

A reception was held in the home of the bride's parents following the ceremony. White mums and greenery formed the centerpiece, with the three-tiered wedding cake and lime punch served from crystal appointments.

Community Concert Ticket Sale Starts

Plainview Community Concerts workers started their membership drive Monday, with Mrs. Keith Howard heading the campaign in Dimmitt.

DIMMITT area residents interested in joining Plainview Community Concerts or renewing their memberships should contact Mrs. Howard at 647-5263.

Memberships are \$10 each, and the campaign will end Sept. 30, Mrs. Howard said. Tickets of Plainview members will also be honored by the Community Con-

cert associations in Lubbock, Clovis and Canyon, making as many as 16 concerts available to local members.

HIGHLIGHT attraction for Plainview's 1967-68 season will be Fred Waring and the Pennsylvanians, making a return appearance following a sellout last year. Other concerts already booked are the Chicago Little Symphony and the Vienna Academy Chorus. At least one other attraction will be booked after the membership drive closes Sept. 30.
