## Robert Lee, Bronte Girls In District Playoff

Basketball fever reached a high pitch in the Robert Lee High School gym last Friday night and again Tuesday night. The boys split games with the Longhorns, with the varsity team losing and the junior varsity taking a one-point victory. The girls game was the crucial contest of the night, however, and the Robert Lee girls were defeated by Bronte. A win would have given them the district title, but the loss gave the second half title to Bronte and created a playoff situation.

It was decided to have a best two out of three playoff, with the first contest Tuesday night. The Robert Lee girls won it, and now need to take another win at Bronte next Tuesday night to lock up the district. If the girls lose and a third game is required, it will be played Thursday, Feb. 22, on a neutral court at Sterling City.

### FRIDAY GAMES

The girls game last

Friday night was a thriller, with Robert Lee leading most of the way. The Bronte girls pulled ahead in the fourth quarter to take a 45-41 victory and the second half title in district play. Lisa Devoll was high pointer with 20; Delight English had 10; Karen Rasco 4; Debbie Askins 2; Kellye Percifull 2; Dianna Tinkler 2; Renea Flanagan 1.

The boys varsity ended the season with a 56-49 loss to the Longhorns. Mark Riley was high with 11; Kerry Gartman hit 9; Robert Tijerina 8; Brett Clark 7; Kevin Roe 6; Edwin Wilson 4; Wes Sawyer 4.

Coach Roddy McIver commented: "The Steers made a gallant try but fell short in their game against Bronte. The Steers were outscored by Bronte in the second quarter and this was the difference in the game. The boys played a good game and showed a lot of hustle and aggressive play but we just didn't

put the ball in the basket. The game brought an end to our season. We finished our season with a 10-8 and 5-3 district record. I was proud of the way the boys played this year. They all did an outstanding job. We only wish the season could have been a little longer!"

The Junior Varsity Steers avenged two earlier defeats by the JV Longhorns by taking a 44-43 win in the closing minute of the game. Making points were Ricky Tijerina 15; Scot Long 8; Buck Duncan 7; Edwin Wilson 6; Joel Percifull 4.

Coach's comments: "Unlike the second game the Steers trailed throughout the entire game until the closing minute. The boys had really been looking forward to playing this game for a long time. They had worked hard. I'm looking forward to getting these people in the varsity. They have done a good job and will be helpful next year. Their season record is 10-4."

### GIRLS PLAYOFF

The Bronte girls were back in Robert Lee Tuesday night for the first of a three game playoff to determine the district champion. The girls were able to handle the visitors and took a 38-34 win in a game that was hard fought all the way by both teams. Devoll was the big gun for Robert Lee with 25 points; Rasco 4; English 3; Jana Hood 2; Tinkler 2; Karen Kay Flowers 2.

The girls will play Bronte again Tuesday at 7 p.m. in the Bronte gym. If a third game is necessary, it will be played Thursday, Feb. 22, at Sterling City.

Mr. and Mrs. Lynn E. Snyder of Odessa spent the weekend with his mother, Mrs. R.L. Page.

Mrs. C.G. Walker was admitted to St. John's Hospital in San Angelo last Sunday afternoon.

### County Agents News Column

By Sterling Lindsey

I just received word that Coke County has been certified as modified certified brucellosis free. This is not the certification desired - we had hoped to be certified brucellosis free by this time. But this does not mean that the level of infestation of all animals tested during the past qualifying period was less than 5% of the herds with less than 1% of the animals infested. Hopefully, within the next year, the county can be certified free. At the present time, Sterling and Tom Green Counties to the west and south are certified free. Coke County as well as Mitchell, Nolan and Runnels Counties just to the north and east are "a hair" away from the certified free status.

We received calls along about pruning. We have had several lately. For some trees, it is a little late, but for the most part now is a good time to prune,

particular peach trees. Trees such as peach, plum, apricot and again, particularly the peach, should be pruned in the period from January 15 to February 15. As long as the buds are not pushing and the sap is not rising you can prune with no problems.

In pruning peaches, the recommended procedure is to shape the tree like a wagon wheel (if you were looking down from the top) with an opening in the center of the top of the tree. Then take out 1/2 to 2/3 of last years growth. Leave one-third to produce this years crop. If the tree is well watered and fertilized and a late freeze does not get the fruit, this will help insure a good crop year after year.

While I am on fruit trees, if you are bothered with scale (mainly on pecans) now is a good time to spray with dormant oil. Do this before the buds push and get tender.

Also, many people are bothered with curculio and twig borers in their peaches. You need to get ready to start spraying for these insects when the peaches are blooming. If you would like a copy of the "Homeowners Fruit and Nut Spray Schedule", give us a ring. It does not have all the answers, but it does include information on curculio control.

**Tips from a pro on driving to survive.**

**Q: Just out of curiosity, how many miles of roads are in the Texas highway system? —R. Q., Midland**

**A:** A lot of miles. The Texas highway system includes 71,558 miles of designated highways, of which 40,504 are farm-to-market and ranch-to-market roads. Along the way are 1,100 roadside rest areas to help you avoid fatigue on long trips. (Experts recommend a brief rest stop at least once every two hours.) And there are 700,000 signs and markers to tell you stop, slow down, speed up, turn, don't turn, and which way is Dallas . . .

**Q: What do I do if my car has a blowout while driving at high speed? —B.B., Austin**

**A:** Don't slam on the breaks, which might make you lose control completely. Grip the steering wheel firmly to guide the car on a straight path. Ease up on the gas pedal slowly, not suddenly. When the car has slowed down, pump lightly on the brake; then when things are well under control, the car running slowly, pull gently off the road.

**Q: Are there special precautions, besides not smoking, to take when cleaning things with gasoline? —M.M., Dallas**

**A:** The main precaution is to *never use gasoline as a cleaner*. Or a solvent. Or a charcoal starter. Gasoline is dangerous, tricky stuff. It vaporizes easily and the invisible vapors are heavier than air. They can spread along the floor for quite a distance to a water heater, electric motor, car engine. If you use gasoline anyway, for heaven's sake don't stay in the garage but get outside into a well ventilated, open space. Never refill a small engine, like your lawnmower, when it is running or still hot. The heat can ignite the vapors. If you store gasoline, buy a safety can. Never carry extra gasoline in your car trunk.
