

THE FLOYD COUNTY PLAINSMAN

VOLUME NO. 2

Floydada, Floyd County, Texas, Tuesday, November 17, 1931

NUMBER 49

WHIRLWINDS TO MEET WILDCATS AT LUBBOCK WEDNESDAY

The Floydada High School Whirlwinds and the Littlefield High School Wildcats will clash Wednesday of this week at the Texas Tech Stadium in a tilt for the championship of the north half of this district. In a meeting of the District B Class Football Executives Committee at Lubbock Saturday afternoon, the arrangements for the place and time were completed. Decision of the committee was that the game be played on neutral ground between the two towns.

FACTS ABOUT THE GAME

WHEN—Wednesday afternoon at 3 o'clock.
WHERE—Texas Tech Stadium, Lubbock.
WHO—Floydada High's Whirlwinds vs. Littlefield High's Wildcats.
AT STAKE—Championship of Class B, North Half of District.
PROBABLE STARTING LINE UP—Floydada—ends, Gollightly and de Cordova; tackles, Johnson and McLaughlin; guards, L. Murry and Mooney or Jackson; center, Dorrell or Jackson; backfield, Heald, Bridges, Houghton and Welch. Littlefield—ends, Wimberly and Cooke; tackles, Hale and Stephens; guards, Norman and Brazel; center, Roberts; halfbacks, Powell and Carter; fullback; McMurry and quarterback, Harless.
COACHES: Whirlwinds, Coach L. T. Barksdale, Baylor U. and assistant coach J. M. Teague, Texas Tech; Wildcats—Tucker, John Tarlton and Hopping, Texas Tech.
ADMISSION PRICE: 25c and 50c.

Earlier in this football season, the Whirlwinds defeated the Wildcats by a score of 7 to 6 in a game played on October 16. In the season so far, the Whirlwinds have been defeated only once and that by the Lubbock Westerners early in the season. Coaches L. T. Barksdale and J. M. Teague have been drilling the Whirlwinds hard for the coming tilt and the green and white eleven are in fine form for the Wildcats.

Coaches Tucker and Hopping of the Wildcat squad have made some developments in the maroon and white lineup and are going to be in shape Wednesday to give the Whirlwinds a real game.

Whirlwind Threat Out Wednesday
Floyd Murry, veteran quarterback for the Whirlwinds, will probably be out of the game Wednesday due to a broken finger and injured hand which he sustained in the Armistice tilt with Lockney. Murry is an outstanding player in the backfield this year and his direction of the plays was brought about a great deal of scoring this year.

Marion Heald, halfback, who was on the sideline most of the game on Armistice day, will be back in the backfield lineup Wednesday and will be in fine form for the tilt. Bridges, fullback, who has shaped up into fine running form this week will be in the game and ready for some more slashing gains. Billie Joe Welch, halfback, will also be in the running. Welch is a hard hitting back, and has a shifty, wriggling gait while carrying the ball that is a credit to high school players. Waldo Houghton, another of the Floydada-Lockney game stars, will probably be in the starting line up in Wednesday's game.

Floydada's forward wall will probably include: Gollightly and de Cordova at wing positions; Johnston and McLaughlin at tackles; L. Murry and Mooney at guards and Jackson at pivot position. Other arrangements may find Dorrell at center or tackle position; Mooney at guard and Young at end; Sims at guard or others in the beginning eleven.

HOME FROM MARKET

Jesse Seale and M. D. Jones of the Seale & Jones Dry Goods store of this city, returned Wednesday from market where they had been since Sunday night.

Raymon Berry, of Panhandle, Texas, is visiting in this city this week. He plans to return to his work at Panhandle Wednesday.

GOOD RAINS FALL OVER FLOYD COUNTY FRIDAY NIGHT

Rain which began falling in this vicinity about eleven o'clock Friday night and continuing into the early part of Saturday morning, completely covered Floyd County with precipitation varying from one-half to one inch.

Friday the skies were overhauling with heavy laden clouds accompanied by mist, which gave promises of slow, soaking rains. Similar rains and weather conditions were reported in many other sections of the Panhandle-Plains, Eastern New Mexico and Western Oklahoma sections. Friday and Saturday's rain was followed by a noticeable cooler period.

Wheat in this county is expected to be greatly benefitted by the precipitation, some farmers reporting that before the rain that earth worms were getting into the dry grain and ruining it. Feed and cotton in the field was damaged to a slight extent by the rain.

Heavier rain was reported in the southeastern part of the county than any other section although good rains were had all over the county. Reports from the Center and Campbell communities indicate that more rain was received there than in Floydada.

The Harmony community reports show that approximately the same amount of precipitation fell there as in this city, one-half to three fourths of an inch. Three fourths to one inch of rain fell in the northern and northwestern section of the county.

OCTOBER TERM OF DISTRICT COURT WAS ADJOURNED SAT.

The October term of District Court of Floyd County was adjourned Saturday with the dismissal of the grand jury. The jury reconvened Monday of last week and the paving suits were called before the court. Cases Monday were presided over by Judge A. J. Fires of the 100th Judicial District in exchange with Judge Kenneth Bain who was disqualified in the suits.

All paving suits on which agreement was not reached were continued to the next term of district court. One paving case suit was settled by compromise agreement. A settlement was agreed to in the paving suits on "Baptist Church Block." Settlement was effected between the North Texas Corporation, holders of the paving discript and J. H. Shurbet, T. F. Anderson, D. T. Curry and the First Baptist Church, whose properties are adjoining the paving in the controversy. The agreements made by the above named parties called for the payment of fifty percent of the assessment made by the city, fifty percent of the court costs and fifty percent of the accrued interests.

In the sessions of the grand jury, two indictments for felonies were returned, making ten felony indictments returned for the October term.

Judge Kenneth Bain returned from Clarendon Tuesday night from filling the bench in exchange of Judge Fires.

FLOYD COUNTY WOMEN SENDING PRODUCTS TO BANQUET AT AMARILLO

Various members of Home Demonstration Clubs over Floyd County are preparing 25 small 3-4 ounce containers of crystal pickles to be given at the annual meeting of the American Home Economics Association in Amarillo on Thanksgiving day. These small containers will be given as souvenirs to those attending.

Other counties in District two are sending the same number of containers but filled with some other product. Miss Martha Faulkner is a member of the American Home Economics Association but does not plan to attend the meeting.

Last mid-week Robert A. Garrett made a business trip to Lubbock. He was accompanied by his wife who went as a delegate to the Women's Federated Club Meeting, also Mrs. Fannie Montague who visited with her sister, Mrs. Minnie Reeves, and other relatives while in Lubbock.

Miss Dorothy Hall, of Plainview, visited Wednesday with Miss Winona Felton, of this city.

Hang These On Your Community Christmas Trees

By Albert T. Reid

NOTED EVANGELIST TO WORK WITH CITY PARK CHURCH

John M. Rice, of Abilene, Texas, will begin four months work with the City Park Church of Christ here on January 1.

Rev. Rice will start his work with the church here with a revival meeting on January. He is considered one of the best evangelists of the brotherhood and the City Park Church of Christ congregation is congratulating themselves on obtaining the services of such an evangelist.

REV. S. H. YOUNG SENT TO SNYDER METHODIST CHURCH

Rev. S. H. Young, for the past year, pastor of the First Methodist Church of this city, received appointment to the Snyder First Methodist Church at the Northwest Texas Conference held in Vernon last week.

Rev. Young received his appointment at the regular appointment period at the conference last week where he and F. O. Garner, Methodist Circuit preacher, and others from the local church attended.

Rev. I. A. Smith will fill the pulpit here in replacement for Bro. Young. Rev. Garner will again be Methodist circuit minister being reinstated. Former presiding elder of the Plainview District, M. M. Beavers, was changed to the Clarendon district and E. E. White of the Abilene district was appointed to the Plainview district.

The annual conference closed Sunday night with the devotional service and the last reports, the next meeting, 1932, will be held in Amarillo.

WHIRLWINDS HAVE 161 MORE POINTS THAN OPPONENTS TO DATE

The Floydada High School Whirlwinds have made a better record this season than in several football years. Many high school boys under the coaching of Coaches L. T. Barksdale and J. M. Teague have trained, practiced and played until they have formed a football club which will be strong contenders if not winners of the district title. Dope also points to the Whirlwinds as contenders in the state championship class B schools.

During this season thus far the Whirlwinds have made 212 points to their opponents 51, winning seven straight games, tying two and losing one to the Lubbock High School Westerners. In the game between the Whirlwinds and the Westerners, the class A team's goal line was crossed once.

Following is a summary of scoring points made by Whirlwinds compared to that of their opponents:

- Clarendon Brones - - - 6; F. H. S. 4
- Plainview Bulldogs - - - 6; F. H. S. 6
- Brownfield Cubs - - - 0; F. H. S. 13
- Paducah Dragons - - - 0; F. H. S. 25
- Silverton Owls - - - 6; F. H. S. 19
- Littlefield Wildcats - - - 7; F. H. S. 7
- Canyon Eagles - - - 14; F. H. S. 26
- Matador Bullfighters 7; F. H. S. 27
- Lockney Longhorns - - - 0; F. H. S. 83

Total - - - 51; Total 212

Miss Juanita Johnston, of Plainview, visited over the week end with relatives here.

PASTORS' ASS'N IN MEETING HERE MONDAY MORNING

The Floydada Pastors' Association met in a session Monday morning at the First Baptist Church. Resolutions regretting the departure of Bro. Sam Young, the Methodist minister, and expressing gratitude to the Floydada newspapers for the generous way in which they handled the news, were ordered drafted by the association.

The following Thanksgiving program, to be held at the Methodist Church, next Thursday, November 26, at ten o'clock was adopted:

- 10 a. m.—Song and prayer.
- 10:05—Old Fashioned Love Feast.
- 10:30—Sermon.
- 11:00—Benediction.

FLOYD CO. H. D. CLUB MEMBERS WON PRIZES AT STATE FAIR

A number of Floyd County Home Demonstration club members won places on their exhibits sent by Miss Martha Faulkner to the State Fair at Dallas. Miss Faulkner, home demonstration agent, received the articles and a letter enclosing the ribbons and checks for the prizes this week.

Mrs. S. M. Lester, of the Roseland home demonstration club, received \$3.00 as second place winner on hooked rug. Mrs. S. T. Cooper of Erick club, won first place on her canned plums and received \$3.00 as the prize. Mrs. C. A. Caffee of Antelope club, received \$4.00 as third place winner on braided rug. Mrs. B. S. Batten of the Harmony club, won second on cucumber pickles.

Mrs. N. Williams won first on her rug at the Tri-State fair at Amarillo recently.

Floyd County Home Demonstration women have had entrances of articles in two fairs in the state this year. The Dallas state fair and the Amarillo Tri-State fair. Only one article was entered in the Tri-State fair and it was a winner. \$12 was the total prize amount received by the home demonstration clubs members who won prizes at the Dallas fair.

LOCAL WOMEN ATTENDED FEDERATED MEETING AT LUBBOCK LAST WEEK

Mrs. W. C. Grigsby, O. P. Rutledge, E. L. Angus, I. W. Hicks, Jeff Welborn, J. D. McBrien, J. M. Wilson, Geo. A. Linder, J. B. Jenkins and Robt. A. Garrett, returned home Wednesday night from Lubbock, where they attended the annual session of the Texas Federated Women's clubs.

The above named women represented women's clubs in this city.

W. E. Patty and Coach L. T. Barksdale and J. M. Teague, went to Lubbock Saturday afternoon where they attended a meeting of District B. Class Football Executives committee men.

Mrs. M. E. McReynolds and children of Amarillo, were week end guests of Mrs. McReynolds' grandparents, Mr. and Mrs. J. C. Dickey.

ONE DAY CHURCH CONVENTION TO CON-VENE IN LUBBOCK

The First Christian Church Convention which convenes in Lubbock for one day, Friday, November 20th, will have a good representation from the First Christian Church here. Rev. Claude Wingo is on the program. The following program will be given:

- Theme of Convention, "Our Message Is Jesus Christ."
- First Session 10 a. m.
- Mrs. Ora A. Shepherd, Leader.
- Others Spoken.
- F. J. Haugel, returned missionary.
- Mrs. Berta E. McMasters missionary worker.
- Jewel Mathews guest speaker.
- Claude Wingo 10:35—"State Missions," and at 3:30 p. m. he will speak on "Faithfulness in Our Stewardship."
- Noon meal will be served free to delegates.
- Banquet at 6 p. m. 35c.

LITTLE BREEZES AND MATADOR SECOND TEAM PLAY TIE

The Little Breezes and the Matador Bullfighters second team battled to a tie in a grid tilt played on a muddy field in the rain, Friday afternoon.

The Breezes first touchdown came in the second period when Connelly, heavy back, intercepted a pass of the Matador boys and galloped 50 yards for a touchdown. Attempt to convert extra point failed. Matador's second string made their touchdown in the third period on a completed pass which resulted in the count. Matador's attempt at extra point failed and the game ended with the score Floydada Breezes 6, Matador second team 6.

Friday's game was played against the hardest team that the Breezes have met this year and were near the same weight and ability of the Andrews Ward aggregation. The Breezes were kept busy during the game by knocking down passes of the Matador boys who made the most gains on passing.

The Little Breezes will meet the Matador Bullfighters second string in a return game to be played on the Whirlwind field, Thursday afternoon at 3:45.

SCHOOL SUPERVISOR PRAISES FLOYDADA HIGH SCHOOL

Miss Opal Gilstrap, supervisor for State Department of Education at Austin, who visited the Floydada High School recently was high in her praise of the school. Miss Gilstrap turned in a very favorable report and recommended that commendation be expressed on the following noteworthy features:

- A—Some excellent work observed and examined.
- B—Good discipline and splendid school spirit.
- C—Well kept records and text books.
- D—Attractive buildings and grounds.
- E—The improvement made on the athletic field especially outstanding.

Rev. G. T. Paimner, formerly pastor of the First Methodist Church here, was a visitor in Floydada Monday.

REV. P. D. O'BRIEN ATTENDED TEXAS BAPTIST CONVENTION

Rev. P. D. O'Brien, pastor of the First Baptist Church of this city, returned Saturday from Waco, where he attended the 83rd annual session of Texas Baptists held there.

Rev. O'Brien left Monday for Falls from where he went with the Falls Baptist church pastor, A. L. Jordan and J. Matt Harder of Cone, to Waco to the parley.

LOCAL CHURCH OF NAZARENE REPRESENTED AT ASSEMBLY

Rev. N. E. Tyler, pastor of the Church of the Nazarene here, and Price Scott were officials of the Floydada church to the annual Assembly of the Nazarene Church, Abilene District. Rev. Tyler and Mr. Scott returned Saturday afternoon having been in attendance at the meeting since Thursday. The assembly was held at Sweetwater.

The Abilene district comprises the entire northwestern part of the state. Mr. Scott states that the attendance was good for the churches and 200 official delegates present not including around 150 others. H. C. Cagle, district superintendent of the Abilene District for the past five years, is succeeded by V. B. Atterbury of Abilene who was elected this year.

MEMORIAL SERVICES WELL ATTENDED ON ARMISTICE DAY

The American Legion, McDermitt Post of this city together with a number of other persons were in attendance at the memorial program which was given at the Palace Theatre last Wednesday, Armistice Day. Approximately 125 members and interested parties discussed the aims and objects of the American Legion and American Legion Auxiliary.

Talks, commemorating the day, were made by Mrs. L. G. Mathews of the Auxiliary, Rev. Claude Wingo, pastor of the First Christian Church, Mrs. Mathews outlined the services of the Auxiliary and the purpose of the organization. Rev. Wingo made the principal address.

The gathering was presided over by Robt. Garrett, post commander of McDermitt Post. The colors, borne by John Maxwell and Homer Stanley, with Roe McCleskey and E. E. Boothe as color guards headed the procession into the theatre.

The invocation was read Pastor E. C. Comfort, of the Cumberland Presbyterian Church. A number of war day songs were sung by the audience led by Mrs. E. L. Angus and J. C. Gilliam. The songs were followed by a reading by Mrs. Robt. A. Sene "Billy, the Soldier Boy". Taps, honoring the war dead were sounded by Tom Goslee of the American Legion, ending the program at eleven o'clock.

Mr. and Mrs. C. M. Stephenson Longview, where they had been for several weeks.

Don Tye of Amarillo, arrived yesterday for a visit with friends and relatives here.

Rev. G. T. Paimner, formerly pastor of the First Methodist Church here, was a visitor in Floydada Monday.

WHIRLWINDS ROUT LONGHORNS AND WIN 83-0 ARMISTICE TILT

Coach L. T. Barksdale's green and white Whirlwinds, after running wild for three quarters over the Lockney Longhorns, brought the game to the close in the last quarter by substituting the second string in the line-up.

Wednesday's game, the annual Armistice tangle between the Whirlwinds and the Longhorns, was a very easy win with all the Whirlwind eleven carrying the ball at some time during the game. The Whirlwinds recorded thirteen touchdowns during the fray and made five extra points for a score 83 to 0.

The game was played at the Whirlwind Park with probably the largest crowd of the entire season witnessing the tilt. A large number of Longhorns supporters and visitors, in addition to the Floydada fans witnessed the game.

The game started at three o'clock with the first kick off by the Longhorns to the Whirlwinds. Lockney recovered their own kickoff by covering an easy side kick. Lockney fumbled on the first play and the ball was covered by Murray for the Whirlwinds. Floydada was held for downs here and Bridges, fullback attempted a punt which was blocked and recovered by Lockney. Lockney was then held for downs and the ball changed to the Whirlwinds.

Floydada fumbled on the first play after receiving the ball but recovered. Murray then carried the oval for a first down and the first of the game by either side. Heald then skirted end for eleven yards and another first down. Welch on the next play fumbled and recovered for a slight loss. The first touchdown for the Whirlwinds was made on the next play by a pass from Bridges to Heald for the counter. Attempt to convert extra point by a kick failed. Lockney kicked off to Floydada after the first touchdown and the ball was returned to the 47 yard line by de Cordova, Whirlwind end. Bridges carried for a twenty yard gain on the first play and on the next he made 12 yards through the line. Murray then carried the ball for a touchdown by circling end for 22 yards. Attempt to make extra point this time failed.

No further scoring was done in this quarter and the first period ended with the score, Whirlwinds 12, Longhorns 0.

(Continued on Back Page)

THE PLAINSMAN AND PALACE THEATRE TO GIVE THEATRE PARTY

We take this method of extending to the Floydada High School Whirlwinds, the coaches, the High School Pep Squad and their sponsors, an invitation to be our guests at a Theatre Party to be given at the Palace Theatre Wednesday night, November 25th.

Theatre Manager Jack Deakins has secured the picture: "Ladies of Leisure" for this special occasion.

COUNTY SCHOOLS ARE PRACTICALLY ALL OPEN AGAIN

Most of the Floyd County schools which had suspended activities for the past few weeks in order to enable the students to help gather the crops, have started again this week.

Recent rains and weather conditions have made farm activities almost impossible and most of the crops were gathered before the rains, therefore, rural school authorities decided to open again for the school term.

SHORT SESSION AT HIGH SCHOOL WEDNESDAY

The Short Session plan as used during the cotton picking season to allow students to assist in the gathering of the crops, will be followed Wednesday of this week. Students and the pep squad who wish to do so will be given the opportunity to go to Lubbock to see the Whirlwind-Wildcat football game Wednesday afternoon.

Many local fans will go to Lubbock to see the important tilt and will be present to give the Floydada boys their support.

Glamorous Spain

Spain, it is safe to say, is richer in romance, in luxuriant natural beauty, from the peaks of the Pyrenees to the orange groves of Andalusia, in priceless gems of architecture, in relics of widely differing civilizations, ancient, medieval and modern, in the abundance of local fetes of gay color and charm and in the pride with which the people regard their glorious history, than any other country. The lure of glamorous Spain, once it has made itself felt, will never be lost.

Rain Colored by Dust

Widespread falls of dust occur from time to time in nearly all parts of the world. If rain happens to be falling at the same time it is more or less distinctly colored by the dust, though the color is not always red. In the United States occasionally showers fall in which the rain is colored yellow by pollen, generally from pine trees. In former times the substance thus deposited was mistaken for sulphur.

Sun's Position

The sun is always directly overhead at some point within the tropics. At the time of the spring and autumn equinoxes, it is directly overhead at the equator; at the time of our summer solstice, June 21, it is directly overhead at the tropic of Cancer, 23 1/2 degrees N.; at the time of our winter solstice, it is directly overhead at the tropic of Capricorn, 23 1/2 degrees S.

Odd Showers Not Miracles

Tornadoes and waterpots passing over bodies of shallow water are quite capable of sucking fish up into the clouds and depositing them at distant places along the path of the storm. Showers of fish are thus easily explained, and falls of various other objects, animate and inanimate, are accounted for in a similar manner.

Natural Gentleman

He that can enjoy the intimacy of the great and on no occasion disgust them with familiarity or disgrace himself with servility, proves that he is as perfect a gentleman by nature as his companions are by rank.—Colton.

Looking Ahead

Some day, an anthropologist tells us, the human brain may work 100 times as efficiently as it does today. Then we had better begin thinking of things to think about.—Stoddard King in the Spokane Spokesman-Review.

Love Welds All Together

Love is the fusing element of all life; the tremulous, softly defined horizon-line that at once separates and unites the spheres, terminating our human vision; the trying place where earth and heaven meet.—Lucy Larcom.

While Dobbin Grazed

The members of the younger generation needn't think the clutch used in an automobile is something new. Dad can tell you it was often used in the old-time buggy on a quiet country road.—Louisville Times.

Popular Story

A man who said he was a destitute writer of fiction grabbed a tray of jewels in a New York store and was promptly arrested, thus becoming the author of his most widely read story.—Boston Transcript.

Under Table Etiquette

"Bridge shin" is said to be a newly discovered disease. It is contracted by a husband sitting across from his wife and forgetting what trumps are.—Pittsfield Magazine.

Secret of Success

To know what is right and what is wrong and always to choose the right is to have learned the secret of success, the joy of work, and the road to happiness.

Superstition and Sense

One of life's little ironies is found in the fact that so many people who give no heed to danger when crossing the street take care not to walk under a ladder.

Largest Edible Fish

One of the European sturgeons, huso huso, called huchen in Germany, is the largest known edible fish. It reaches a weight of 3,000 pounds.

Art and Gastronomy

The fact that 200 of them recently attended a dinner in New York would seem to disprove the old theory that poets don't eat.—Louisville Times.

Importance of Kitchens

Kitchens are necessary, even in this tin-can age. Parents must have some place to sit while daughter entertains.—San Francisco Chronicle.

Reindeer's Winter Food

Reindeer dig through the snow for the succulent lichens or reindeer moss, upon which they feed in the winter.

Leprosy Not Incurable

Lepers have been cured. In fact, there have been at least 50 cures at the government institution at Carville.

The Failure

In this fat country a man who can eat more than he can earn ought to starve.—E. W. Howe's Monthly.

A Crooked Line

If all true-confession authors were pressed and to end, they'd still be lying.—Pittsfield Magazine.

Early American Glass

The first industrial enterprise in the United States was a glass bottle factory erected in the Virginia colony soon after 1607. It was located in the woods about a mile distant from Jamestown. Window glass was manufactured in what is believed to be the first glass factory in New Jersey. It was built about 1730, a mile east of Alloways-town, Salem county, by Caspar Wistar.

Living Happily

We live in an ascending scale when we live happily, one thing leading to another in an endless series. There is always a new horizon for forward-looking men, and although we dwell on a small planet, immersed in petty business, and not enduring beyond a brief period of years, we are so constituted that our hopes are inaccessible and the term of hoping is prolonged until the term of life.—Robert Louis Stevenson.

Decorative Cactus Plant

Earthenware bowls artistically planted with cacti have a wonderful sense of character about them. They need very little attention, and being natives of the desert, comparatively little water. So if a housewife forgets to water them for a week, no irreparable damage will be done. But they must have plenty of light and they should be given light and sun upon the window sill.

Electric Trouble

Robby's mother blew a fuse while she was connecting the electric percolator. The house was plunged in darkness, but Robby thought this was great. Shortly afterward Robby was looking out of the window. As it was cloudy he could see no stars, so he came running to his mother, crying: "Mother, the stars have blown a fuse!"

Serves Useful Purpose

The term "blinking" is applied to the moistening or softening of zwiebacks, cakes, crackers and bread crusts in coffee, tea or milk. While it is not considered good form, it is greatly enjoyed by small children and old people whose teeth are no longer strong enough to cope with such hard substances.

German Language

Modern German is derived from the various dialects of the West Germanic tribes. In some ways it resembles most the dialects of Middle German, spoken in Thuringia, Silesia, Upper Saxony, Franconia, etc., while in other ways it resembles the Upper German of Bavaria, Austria, etc.

Salvador Thickly Settled

Although the smallest of the Central American republics, Salvador is thickly settled, the density of population being about 125 people to the square mile, or about three times that of the United States.

Philadelphia Led

Philadelphia was the first of modern municipalities whose plan was prepared for a particular site, and the rectangular plan there adopted has guided city planning in America ever since.

Fused by Time

The word "another" was originally two words of which "an" was the Anglo-Saxon for "one." In the course of time the two were fused and now form a solid compound.—Literary Digest.

Hiking Popular in Germany

Germans believe in hiking, for this nation now has 2,300 hostels for its chief walking club of 85,000 members, where bed and breakfast are found for a few cents.

New Perspective

"Do not destroy all that displeases you," said Hi Ho, the sage of Chinatown. "Think of the future, which always works changes of opinion."—Washington Star.

Best Recommendation

A scientific magazine publishes an alluring dream of abolishing the law of gravity. Any law so generally observed deserves to stay.—Buffalo Courier-Express.

America's National Emblem

The bald eagle was adopted by the United States as the national emblem in 1782. This bird ranges about three feet in length, with a wing spread of perhaps seven.

"Grain" in Wrought Iron

Wrought iron has a "grain" like wood which may be seen without a microscope if the substance is etched with strong acid to lay the fibers bare.

Not Even Your Best Friend

Another thing your best friend won't tell you is the exact allowance the auto dealer made him on his old car.—Des Moines Register.

Named From Holland Town

Edam cheese is named for Edam, a town in North Holland, which lies in the district where this sweet milk cheese is made.

Uncertain Exist

Public idols all start slipping—they do not know just when; neither do their worshippers.—American Magazine.

England's Costly Blunder

The Revolutionary war cost England nearly \$500,000,000 besides the loss of the colonies and about 50,000 soldiers.

Doubly Distinguished

The first white male child born in Kentucky was Daniel Boone's son.

Hoaxed English Scholars

William Henry Ireland, 1777-1835, was the son of Samuel Ireland, who was an author, engraver and dealer in rare books and curios. Young Ireland first forged Shakespearean manuscripts to tease his father. Upon finding how credulous he was these forgeries were foisted upon the public. Many scholars were deceived for a time, but exposure followed. The disgrace was said to have hastened his father's death.

The Good Life

There is no rational life without intelligence and things are good only in so far as they assist man to enjoy that life of the mind which is determined by intelligence. Those things alone, we call evil which hinder man from perfecting his reason and enjoying a rational life.—Spinoza.

Explaining Colored Showers

Showers of so-called ink are due to the presence of smoke or soot in the air, and showers of "milk" to chalky earth. Some of the most remarkable falls of dust, including incidental showers of colored rain, have been caused by explosive volcanic eruptions, in which mineral material was projected to great heights in the atmosphere and subsequently spread far over the globe.

Care of Polo Ponies

The Field says that superhigh-priced polo mounts are never allowed to get out of condition. As soon as the matches are over, the shoes are taken off and the ponies turned loose in a soft soil, grass paddock, which is free from stone. Two or three months later they are shipped South and worked into condition for the early spring matches.

Instrument Calculates

A simple device that will calculate the time at any point on the earth's surface in relation to the time at some other place has been invented by the United States bureau of standards largely because of the demand for such an instrument since the advent of international radio broadcasting.

Watering a Hanging Plant

To water a hanging plant place a small funnel in the center of the basket, leaving the cup part above the soil, but hidden by the foliage. Fill this funnel daily with water. The water will soak into the soil gradually and will not run through onto the floor.

Got Title From Bunyan

"Vanity Fair" seemed to Thackeray an appropriate name for his great book, and was chosen from "Pilgrim's Progress": "And the name of that town is Vanity; and at that town there is a fair kept, called Vanity Fair."

Colder Spots in Refrigerator

Some sections of the household refrigerator are colder than others. Locate and reserve these for meat, milk and other exceptionally perishable foods, advises the United States bureau of home economics.

Nothing to Boast Of

"He who owes no man," said Hi Ho, the sage of Chinatown, "should hesitate to boast if his freedom from debt is due to the fact that no one considered him worthy to be trusted."—Washington Star.

Banquet Formula

A recipe for after-dinner speaking is given tersely as "stand up, speak up, shut up." A good many long-suffering diners would reduce the formula to the last two words.—Birmingham News.

Specializing

A young lady in our block, desiring to buy a watch and chain as a present for a young man, went first to a watch store and then asked the way to a chain store.—Louisville Times.

Biblical Shield in Charm

Mahzel, a device taken from the shield of David, has been carried by devout Jews for 5,500 years as a lucky charm. Mahzel also appears on the Ark in all synagogues.

Dictation

The little boy's definition may be right, at that, when he intimated that "dictation" is what a man takes from his wife and gives to his stenographer.—Savannah News.

Classified

Some people are born failures, others have misfortune thrust upon them, and still others believe they can beat Wall Street.—Atlanta Constitution.

Try It on Your Own

Slip the cheeks until they glow, advise a beauty expert. But first be sure, of course, they're your own.—Adrian Telegram.

No Use Merely Swapping

Burying the hatchet won't do you much good unless you're willing to hang up the hammer.—Fort Wayne News-Sentinel.

Cages Shunt Lightning

Heavy copper wire cages protect forest lookouts from lightning in the northern Rockies.

About Ourselves

We can fix our eyes on perfection, and make almost everything speed toward it.

Fiasco in Nut Business

San Francisco owns a walnut grove that yields \$70,000 worth of nuts annually.

And So Sure of It

Lies are made in a hurry—the truth awaits its turn.

FLOYD COUNTY CO-ED WASHES HER WAY THROUGH COLLEGE

Canyon, Texas, Nov. 16 (NEA)—The chugof a gasoline propelled washing machine is the battle cry of education for Leela Crouch and her brother, R. W., at West Texas State Teachers College here.

A bank failure is responsible for this unusual situation. Leela taught school for two years and saved the money to pay rent, tuition fees and other college expenses for her brother and herself. Just as she was writing checks to defray these expenses, the bank in which she had her funds closed.

Undaunted, she returned to her home in a rural section of Floyd county and returned with the washing machine. She explained her plight to the dean of women. And now she does laundry for many of the faculty members and one of the dormitories of the little school.

Her three-room house stands across the street from the football stadium. The lights that flood the gridiron for night practice also furnish light for Miss Crouch to continue her work. The students, trooping through the gates after a game, see her wearily hanging the last of long lines of clothes.

"I have classes until late in the afternoon so I do most of my work at night," she said. "The ironing is really the hardest because I insist on maintaining a standard as high as any laundry. But people just won't pay as high prices to a home laundry as they will to steam laundries. I made \$7 the first week I worked and it took most of the hours outside school."

The income is just barely enough to allow the girl and her brother to meet their expenses, but it is growing steadily and they hope to have enough to enable them to participate in the simple social life at the school before the end of the term.

Leela, who is past 30, decided to complete her education at West Texas Teachers after one of her younger sisters had finished college and begun teaching. She attended the school here one year and then taught for two years to get money to continue.

Miss Crouch and her parents and the remainder of the family have been residents of the Providence community in Floyd County for 24 years, having moved there from Iowa in 1907.

Price Scott, County Superintendent states that he is well acquainted with the family and attended Wayland College at Plainview with one of Miss Leela Crouch's older brothers.

The Crouch family are well and favorably known in the northeast section of Floyd County.

RESOLUTION

Whereas, The Floyd County Plainsman and the Hesperian have habitually opened their columns cheerfully to all Floydada church news items, and

Whereas their editors have been so graciously lenient in case of these items being turned in too near the press deadline, even making extraordinary efforts to print these delayed notices and reports, and

Whereas these Floydada-newspapers have given our church news more the usually prominent space for this type of stories, therefore,

Be it resolved by the Floydada Pastors' Association that we hereby express to The Floyd County Plainsman and the Hesperian our sincere appreciation for such gracious treatment as has been accorded both to us personally and also to the various societies and organizations of our several congregations, and

Be it further resolved that a copy of this resolution be spread on our minutes and a copy be sent each to the Plainsman and the Hesperian.

LAKEVIEW NEWS

Lakeview, November 16.—Church Sunday school was well attended Sunday and Sunday night.

Rev. G. W. Tubbs of Floydada, visited with us Sunday morning and filled Rev. Harder's regular appointment.

The rain that fell here Friday night was enjoyed by the wheat farmers, while it did some damage to the cotton.

Rev. Harder and wife and Rev. Tubbs took dinner with Mrs. Thornton Sunday and were callers in the W. J. Martin home Sunday afternoon.

School began Monday after seven weeks of recess for cotton picking. Mr. and Mrs. W. J. Martin and family, Misses Imogene Roy, Ethel and Georgia Warren spent Sunday with Claud Patton and family.

Mrs. Tom Hopper who has been ill so long was not doing so well this week end.

MR. AND MRS. B. C. RUTHVEN RETURNED LAST NIGHT FROM CONVENTION

Mr. and Mrs. B. C. Ruthven returned to Floydada, Monday night after having attended the annual Health Workers Convention held in Houston.

Mr. Ruthven is Sanitary Engineer for this district. Miss Dorothy Westlund, district health nurse, did not attend the convention but continued with her work here during that time.

MOUNT BLANCO CHURCH ANNOUNCEMENT

The following church services will be held at the Mount Blanco church, November 21 and 22:

Preaching Saturday night at 7 o'clock. Sunday school 10 a. m. Preaching 11 a. m. B. Y. P. U. 6 p. m. Preaching Sunday night 7 o'clock. Everybody cordially invited to attend all these services.

REV. G. W. TUBBS, Pastor.

J. S. JONES HONORED WITH BIRTHDAY DINNER SUNDAY, NOVEMBER 15th

A surprise birthday dinner was given for Mr. J. S. Jones of Petersburg Sunday, November 15th, by his children. Mr. Jones attended church and when he returned home he had a big surprise awaiting him. He found all his children at home except Pearl and Clarence Jones, who are employed at Levelland, and was unable to be present for the occasion.

A bountiful surprise birthday dinner was served and a large cake with 57 candles. Those who were present were: Mr. and Mrs. J. S. Jones and family, Mr. and Mrs. W. H. Taylor and family, Mr. and Mrs. Alvin Foster and little daughter, all of Petersburg; Mr. and Mrs. Geo. Breeding and family, of Tulsa.

The evening was engaged in talking pictures and other amusements. Come and trade with us. You will always find good things to eat here. Our Market & Grocery. U-16

GOOD RAINS REPORTED OVER FLOYD COUNTY EARLY LAST NIGHT

According to reports received at the Plainsman office this morning rainfall was received all over Floyd County to the amount of one half to one inch of moisture last night. Approximately one-half an inch of rain fall was received in this immediate vicinity last night.

Recent rains in Floyd County and other sections of the Panhandle-Plains country have been very beneficial to wheat lands.

The rain falling around seven o'clock last evening (Monday evening) and continued well into the latter part of the night at several intervals.

FRESH FRUIT CAKE

Less Gas and A Better Fire

Impossible? Not at all! It is easy and, besides, makes your home more comfortable, saves gas and keeps your gas bills down.

It is easily possible because a low flame, properly directed, gives the same results or better, than a high flame does and burns half as much gas.

The low properly directed flame is the correct one. It is one of the few simple rules for good gas burning we have been teaching you.

Comfort, economy, convenience are the important things which concern you. They are yours to the degree that you

TO TRADE—Town Lots for acreage or live stock. W. M. Massie & Bro. 44-tfc

One-Glorious Babylon Pathetic in Its Fall

Always the hostile nations of the Near East have largely prevented archaeologists from digging into the remains of the ancient cities there; but since the World War overthrown authority there, the excavations are beginning to look like the Kimberley diamond mines. Museums in all civilized countries are piling up the remnants of the early peoples.

But we learn little about them. Pottery, though it is collected by tons, and necklaces, earrings and indestructible personal adornments tell us little of the inhabitants of Ur, of Assyria and Babylon. The lack of a literature makes everything lack. We can understand what the Greeks thought, what they said and their daily behavior; but the older races are dumb.

As Bill Nye said, "Babylon is a good illustration of a town that does not keep up with the procession. Compare her today with Kansas City." We were reading about this Babylon, just the other day. Every twenty-four hours the train to Baghdad starts by Babylon that way. It whistles, but does not stop, and if the traveler is rapid of eyes he may read on a railroad sign: "Babylon—Train Halt Here to Pick Up Passengers." Could any of the shattering denunciations of this great and terrible city to be read in the Bible be more bitter?—St. Louis Globe-Democrat.

Scientists on Track of Sun's Effect on Plants

The old astrologers imagined that the configuration of the planets controlled the destinies of individual men. The modern astronomer regards astrology as nonsense.

It is interesting, however, to note that each day brings to light more connections between the earth and the rest of the universe, not erratic and superstitious connections such as the old astrologers imagined, but physical connections which can be explained on the basis of science.

The sun is important to life. Without its heat and light life would not be possible. The process by which plants convert the carbon dioxide of the air and the water of the soil into starches and sugars is only possible with the energy of sunlight.

In addition, recent studies at the Mayo foundation tend to indicate that the various wavelengths of sunlight have varying effects upon plants, some even acting as brakes or checks upon certain processes.

Finally, there are the mysterious cosmic rays coming in from outer stellar space. These rays are so penetrating that they pass through and through all living organisms. Perhaps some day they will be found to play some fundamental role in life processes.

Too Much

An actress who has a standing invitation to visit any theater she chooses and ask for a box, took advantage of this privilege a night or two ago, with disastrous results.

Presenting herself at the box office, she gave her name and demanded a free pass.

"Never heard of you," replied the booking clerk, tersely. "It can't be done."

Furious, she sought the management, who apologized profusely, and sent a commissionaire back with her to the box office.

But an even worse humiliation awaited her here, for the good fellow blundered horribly.

"Give this lady a free seat at once," he insisted, pompously. "She's a well-known actor's mother!"—London Opinion.

No Oil in Car

The wife of a Longwood man recently learned to operate their rarer antique automobile. The man himself, to make his garage more clean, now that his wife would use it, placed an oil-drip pan under the car. For two weeks he was gone on a business trip, of such a flying nature that he used the train, leaving the care of the car to his wife.

Last evening he returned home, went to the garage and noted the pan had been removed from in under the car. Upon going in the house, he asked friend wife, How come? Said the little woman (she feels pretty small now, anyway), "Oh, I guess the children moved it. Anyway, there isn't any oil in the car." Looked a couple of days ago, and thought when you came home you could put some in.—Springfield Union.

Glad She Was Fooled

After overhearing a remark by his father that the age of a tree may be estimated by the number of rings about its trunk, a small boy threw a scare at his mother's party. The boy looked confidently into the face of one of the guests, who was on the further side of forty and was fondling her necklace, and remarked, "Lady, I can tell how old you are." Amid frantic attempts at hushing he managed to get out:

"You are twenty-two. I counted the number of rings on your necklace." The lady hugged the boy and the mother sighed her deep relief.

Fat Men Not Criminals

Fat men may not be regarded with approval by modern doctors, but one consolation is theirs—prison authorities, at any rate in Japan, look upon them with considerable respect and esteem. A medical officer at one Japanese jail has just received a diploma from the Imperial university for a thesis on the proposition that fat men are rarely criminals and the most crime is committed by the lean and slender sort.—Manchester Guardian.

Prying Into the Future by Means of Tea Leaves

A few of the ancient superstitions that have drifted down to present days are quite amusing. Some of them work in well when one is planning an evening's jollification, as, for instance, the telling of fortunes by means of tea leaves. Tea grounds, floating in the cup were supposed to indicate company, soft ones representing a woman and hard ones a man. When small, the guest was expected to be a large person; long grounds foretold a tall visitor. If the grounds were thrown under the table the guest was expected to remain over night, or longer, but if left in the cup, the call would be of short duration. Grounds remaining in a cup after the tea had been taken imparted still further knowledge. The cup was turned about several times and placed bottom up on the saucer, when the turning process was continued for a few times before setting the cup upright and studying the grounds. An open pathway through the grounds indicated a journey, its length depending on the length of the path. When the cup was turned sideways, if any tea ran out tears were anticipated on the journey. A ring of grounds, with a small dot in the center, represented a wish, and the owner of the cup was advised to think of what was most deeply desired, as it would certainly be granted.—American Agriculturist.

"Red Hat" Bestowed on Cardinals as a Symbol

The red hat, the most conspicuous feature of the insignia of Roman Catholic cardinals, dates as a vestment from 1245. In that year it was bestowed on secular cardinals by Pope Innocent IV as a symbol of their readiness to shed their blood for Christ and the church. Gregory XIV in 1591 extended the privilege of wearing the red hat to cardinals belonging to religious orders. As now made, the ecclesiastical hat is scarlet in color and has a small, flat crown and a broad brim with cords and tassels of special patterns hanging over it. It is placed on the head of the newly appointed cardinal by the hand of the pope at a public consistory, but the hat is very seldom worn afterward. Instead it is usually laid aside until the funeral obsequies of the cardinal, when it is placed on his casket. In the absence of the cardinal, and sometimes after his death, the red hat may be hung from the roof of the cathedral. The color of the cardinal's hat has become known as cardinal red, and a species of American finch is called the cardinal bird or the red cardinal because of the brilliant plumage of the male.—Pathfinder Magazine.

Growth of Fire Engines

When the greater part of London was burned in 1666 fire engines were operated by hand, and water was ejected by means of a giant syringe. A tank and a pump worked by hand were introduced later, but water could be squirted by this device only a short distance. It was not until 1785 that the engine itself was destroyed by fire. The pumps were gradually improved, and flexible pipes were used, but pumps driven by steam were not invented until the nineteenth century. Horse-drawn engines were employed until 1903 when the first self-propelled fire engines were built.

Auction and Contract Bridge

Auction bridge originated in India. The first record of it is found in a letter, published in the London Times, January 16, 1903, outlining the game and referring to it as "the new game of auction bridge for three players." The Bath club made it a four-handed game and in 1907 the Portland club took it up. The first American code of laws of auction bridge was issued by the New York Whist club in 1910. Contract bridge dates back to 1913 or 1914. In 1915 the New York Whist club considered codifying its laws, but decided that the game was not settled enough for set rules.

Bargain Hunter

Don received a penny for candy. He went to one of the two neighborhood stores and asked: "How many of those do you get for a penny?" and he pointed to some candy. "Five," was the reply. "Is that all?" said Don, and he walked out. He went to the other store and asked the same question. "Three," was the grocer's reply. Don went back to the first store, tossed his penny on the counter and said: "Well, gimme 'em."

Moons Named Months

The names of the Indian months or moons were usually derived from nature, says Don Beard, famous woodsman in Boys' Life. Thus, the Blackfeet say winter is the first moon, after the first snowfall, the time when the year changes. What we call January they call Chitnook, the thawing wind; the moon when the buffalo calves are black. In speaking of spring they say, "when the geese come." June is time for high waters. July and August are home days. October is a real fall month, for it is the moon when the leaves fall.

THE POWER IS ON

Just turn the switch or push the button and power is on. Constantly and with assurance, electrical power from Texas Utilities is used each day for a multiplicity of things. It may be to light the smallest bulb in the city, or again, a sewing machine or electric sweeper, but always and in the same strength, the power is there to perform the task.

Every individual connected with the Texas Utilities is schooled to perform his task with accuracy and precision. Every person is trained to perform his task economically. Were these things not true we could not use the word "constant" in regards to power supplied by us.

Texas Utilities Company "YOUR ELECTRIC SERVANT"

For Unrestricted Comfort

INTERNATIONAL "NAMELESS" FOUNDATION GARMENTS

For better health and greater comfort American women are demanding these lightweight garments that will restrain and gracefully mold, yet not encumber.

Especially the younger generation of today are learning that it is both more wise and less troublesome to retain rather than reclaim their youthful poise.

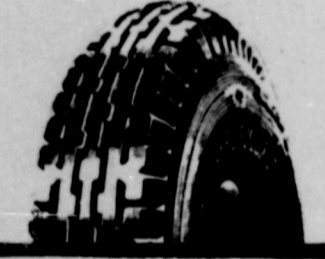

International "Nameless" girdles and super-all are featur-weight yet so scientifically are they designed and constructed with their magic working darts that all this is accomplished to a surprising degree. This feature is patented, and is therefore to be found only in garments bearing the label of the manufacturers.

"WHERE YOU WILL LIKE TO TRADE"

ONLY A LITTLE MORE IN COST • BUT SO MUCH MORE IN SAFETY

Shrewd car owners see in the present price situation not merely, "how little will my new tires cost me"... but... "how much can I get for what I pay".

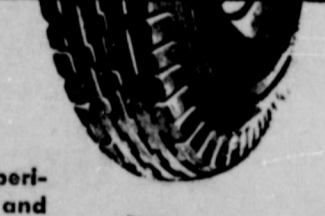

THE BLOWOUT PROOF TIRE

And these same people find that the only answer is Generals. Because: the difference in cost between ordinary makes and Generals is ridiculously little. The difference (in everything that has made and held General's 15 year reputation) is more marked today than ever... the final economy of buying known quality at today's prices can't be side stepped.

Put your car on Generals NOW. Experience for yourself the added safety and comfort made possible by General's patented low pressure construction.

Once you have felt the difference of rolling along safely and with luxurious comfort on 10 to 15 pounds less air, you will never go back to the higher pressures required by other tires.

When BABIES are Upset

When a baby has a colic or is restless, it is often due to indigestion. Castoria is a gentle laxative that helps the baby's bowels move and relieves the discomfort.

For the protection of your baby, use only the genuine Castoria. It is a safe and reliable remedy for all cases of infantile colic, constipation, and other ailments.

"CHAMPIONS, ALL"

That's the insignia on a poster in the background of a window display in the front of the Holms Studio of this city. Roy Holmes, local photographer, has taken pictures of all of the first team Whirlwinds and several outstanding substitutes and arranged the pictures of the players on a miniature football field.

The field is regularly arranged with the ten yard line markers and goal posts at either end decorated in green and white. This window display is a clever and interesting illustration of the support being given the Whirlwinds this year by Floydada business men. The Whirlwinds are "champions all" and have exhibited a fine type of football and sportsmanship this year.

Let Cavanaugh do your Printing.

CITY COUNCIL IN MEETING TUESDAY NIGHT

The Floydada City Council met in the regular meeting last Tuesday night at the city hall.

Regular routine of business was carried out in the meeting.

LOWERING CLOUDS AND MOISTURE SUSPEND FARM ACTIVITIES

Due to heavy fogs and slowly falling light rain Friday, farmers in this county were unable to gather crops and many of them came to Floydada to make purchases while not at work.

Merchants in this city had good business Friday and much merchandise was cleared out of the stores by real people doing fall clothing buying and making other purchases.

MRS. R. R. JONES VALUES HOME CANNED PRODUCTS AT \$239.35

Mrs. R. R. Jones, garden demonstrator of the Antelope home demonstration club, has canned 11 quarts of leafy vegetables, 180 quarts of starchy vegetables, 32 quarts of fruit, 10 quarts of tomatoes, 200 quarts of meat, 28 quarts of pickles and relishes, 4 quarts of preserves and jellies and 4 quarts of vegetables brined, making a total of 409 quarts.

Mrs. Jones also has cured 200 pounds of meat, has 100 pounds of dried fruit and 100 pounds of dried beans. She values her canned products at \$239.35.

All of the canned products were grown in the garden with the exception of the fruits and meat. There are six members in her family, two adults and four children. Mrs. Jones states that her garden costs practically nothing as she saved the seed planted from her last year's garden.

PEANUT BUTTER

6 quarts peanuts, 2 ounces salt.

Roast the peanuts uniformly brown. Cool, remove the hearts or germs. (If the germ is left it may cause a bitter flavor) grind. Add the salt and grind twice again so as to have the salt well distributed. Use the finest burr possible for grinding. Pack in small jars, pressing each time firmly to remove all air bubbles. Pack entirely full leaving no space between the peanut butter and the lid. Seal. Place 12 ounce containers in a water bath for one hour at 180 degrees F. (Simmering.)

When unshelled peanuts are used they should be roasted in the shells and cooled. After cooling shell, and rub over a wire screen. This removes the red skins and the germs. The meats can be readily cleaned by pouring them from one vessel to another in the open air where the wind will blow the skins.

Do not use rubber packing gaskets or rubber rings as the oil in the peanut butter will dissolve the rubber. Either paper or some other compound that is not attacked by the oil should be used.

SANDWICH SPREAD

Grind 14 medium sized cucumbers or 1 gallon of green tomatoes or 1 quart of carrots. 1 quart of onions, 3 green peppers, 3 red peppers, or one can of pimientos, 3 tsp. of salt. Drain in sack over night. Squeeze out, cover with vinegar and cook 10 minutes, then drain.

Mix the following: 3-4 cup sugar, 1 tsp. ground mustard, 3 tsp. flour, 1 tsp. celery seed, 1 pt. vinegar weakened with a little water, 4 well beaten egg whites, 1 cup sweet cream.

Cook a few minutes, add the tomatoes to the mixture stirring constantly. Cook until thick (About 30 minutes) Pack in jars and seal.

ROTARIANS WIVES GAVE PROGRAM ON ARMISTICE DAY

Wives of the members of the Floydada Rotary club were guests at the regular Wednesday noon meeting of that assembly last Wednesday, November 11th.

In keeping with the Armistice Day observance, the women guests gave an appreciative program for the occasion. The meeting was held in the basement of the First Baptist church with the Baptist Women's Missionary Society in charge of all arrangements.

As opening presentation preceding the assigned program, Allegiance to the Flag was said and "The Star-Spangled Banner" was sung. "In Flanders Field" was read by Mrs. Robert A. Sone, this number was followed by a violin number by Mrs. A. D. Cummings accompanied at the piano by Mrs. E. C. Thomas.

Mrs. A. J. Pooley made a discussion of the subject "How Can Women Best Show Their Patriotism?" Grover C. Good, State secretary of the Affiliated Hi-Y Clubs of America, talked to the assembly on the purpose of the Hi-Y Clubs and what the organization is doing toward the betterment of life for boys in America.

HI-Y OFFICIAL HERE TUESDAY NIGHT—SPOKE TO LOCAL CLUB MEMBERS

Grover C. Good, state representative of the affiliated Hi-Y of America, was in this city on a visit with Floydada chapter of the Hi-Y last Tuesday night. Mr. Good made an address Tuesday evening at the Floydada High School which was heard by the local Hi-Y members and five members of the Plainview chapter.

Jim Boswell, Jim Rankin and Marina Cram, were the members of the Plainview group here. Geo. E. McWhirter, teacher and sponsor of the Hi-Y in Plainview and J. M. Field, or accompanied the boys.

Lucky Whalers Found Fortune in Ambergris

Captain Ingbrigtsen of the Aukra Whaling company recently secured a whale worth a hundred times as much as any ordinary single whale. The average whale is worth about \$400 for the oil obtained from its blubber. The one killed by Captain Ingbrigtsen was worth more than \$40,000.

It was not a very big whale, and it gave no more blubber than usual. But when it was being cut up members of the crew gave a sudden shout of astonishment and delight. Within the whale was found a shapeless lump of yellow matter weighing more than a hundredweight.

That by no means beautiful lump was ambergris, one of the most valuable substances in the world. For it is worth \$20 an ounce, or more than five times as much as gold. Ambergris is in great demand by perfumers, for it has the property of making the odor of any scent to which it is added almost everlasting. Only two larger pieces have ever been found. It is found only in the sperm whale, and is supposed to be a growth caused by the sharp beaks of the cetacean on which the whale lives.—London Tit-Bits.

World Apt to Neglect Its Great Benefactors

Humphrey O'Sullivan was a world benefactor, but he posed as a mere business man. He invented the rubber heel as a necessary sequel to the development of hard streets and sidewalks. Few of the so-called minor inventions have given so much relief and prevented so much injury as the resilient heel. The great benefactors are not always acclimated. The man who invents a new gun or deadly gas or blows up a town is more likely to be conspicuously honored than is the student, scientist or mechanic who tries to help humanity. The inventor of the machine gun was judged by street standards, a greater man than the one who developed the Concord grape. Jesse James was more prominent than Burbank. The heroes of the workbench, farm, shop and library are not the ones who reap the grapes of public favor. Somehow humanity prefers a killer to a builder. O'Sullivan died almost neglected. The same week a fat, degenerate gangster, died in the same city of New York and he had a \$20,000 funeral and several miles of press notices.—Tulsa World.

Ocean Traditions

A tradition of the sea of Biblical origin explains the use of the term Jonah, applied to a shipmate who is considered unlucky or a bringer of ill luck. Numerous strange legends have been the reasons ascribed by ship companies for selecting one of their number to be a hoodoo or a Jonah. Mariners of a century ago believed that no one could so effectively raise a wind as natives of Finland, or Russian Finns, as they were almost respectfully called. Dana preserves the legend in his "Two Years Before the Mast" in one of the tales of the cook, telling of the loss of one of the crew by drowning; Conrad also, in Wamibo of that sea classic, "The Nigger of the Narcissus."

Water Supply Long a Worry

An occasional water shortage is nothing new in New York. Even as far back as 1796 it was a matter of concern, as indicated by a writer who said:

"A want of good water is a great inconvenience to the citizens, there being few wells in the city. Most of the people are supplied every day with fresh water, conveyed to their doors in casks, from a pump near the head of Queen (Pearl) street, which received it from a pond almost a mile from the city. Several proposals have been made by individuals to supply the citizens by pipes, but none have been accepted."—New York Sun.

Odd Headache "Cure"

In the sixteenth century to cure a headache, the patient took a mixture of pepper and mustard, rolled into a ball about the size of a bean, and rolled it on his tongue. He was to eat nothing, but was to keep rolling this awful mixture in his mouth until cured, says an article in a Boston paper.

The "evil humors" of the head were supposed to be drawn by the pellet in the mouth. Without a doubt, the patient thought he had the evil humors in his mouth after rolling the mixture around for a few minutes.

Uncle Sam's Battleships

Under existing statute laws our battleships and armored cruisers are named for states of the Union; our cruisers for cities. Torpedo boat destroyers are named for distinguished naval officers, for heroic enlisted men, for secretaries of the navy, and in a few instances for United States senators and congressmen distinguished in the naval committees, and for distinguished inventors. Mine sweepers are named for various birds. Submarines are designated by letters and numerals.

Ambassador Bridge

The Ambassador bridge connecting Detroit and Windsor, Canada, has a clear span of 1,860 feet and was completed at a cost of \$28,000,000. It is 133 feet high at the harbor line and rises to a center height of 185 feet.

Better Substitutes

A dietitian urges spaghetti as a substitute for potatoes. We would rather eat strawberries as a substitute for spinach.—Kansas City Star.

BAYER ASPIRIN is always SAFE

BEWARE OF IMITATIONS

UNLESS you see the name Bayer and the word genuine on the package as pictured above you can never be sure that you are taking the genuine Bayer Aspirin that thousands of physicians prescribe in their daily practice.

The name Bayer means genuine Aspirin. It is your guarantee of purity—your protection against the imitations. Millions of users have proved that it is safe.

Genuine Bayer Aspirin promptly relieves:

- Headaches
- Colds
- Sore Throat
- Rheumatism
- Nervous
- Neuralgia
- Lumbago
- Toothache

No harmful after-effects follow its use. It does not depress the heart.

Let Our Expert Corsetieres Advise You

Corsetry is an art, wonders are accomplished by the experienced corsetiere who knows exactly which Henderson model is best for you. Her advice may be worth more than the price of the garment.

The Henderson model illustrated is just one of the many new styles which we are showing this season.

A brassiere-girdle designed for the slight to average figures. Made of a good grade pink Rayon figured batiste; the bust sections are made of the same material as the body. The garment is slightly boned over abdomen and back.

HERE IS A TIP!!

Straight From Headquarters Of A Man Who Knows

Christmas Is Coming,
There Is Shopping To Do.
The Thrifty Buy Early,
It Will Also Pay You,-

WORDS OF WISDOM from a man who knows are . . . Shop Now! . . . It is a suggestion from Santa in the form of a thrifty tip which particularly pertinent this year . . . Christmas is coming and already is only a few short weeks away . . . Regardless of any doubts you may hold, that this Christmas will be less merry, it will be as happy as in other years and with the spirit of gift-giving bringing a full reward of happiness. . . . So why postpone the selection and purchase of Christmas gifts? . . . Why delay the pleasure you get in shopping for friends and loved one? . . . Why fail to take full advantage of these crisp fall shopping days when you can shop at leisure; inspect all the new merchandise; and make selections from a wide range of practical and suitable gifts . . . The stores of Floydada are full and running over with good, honest, high-value merchandise and at prices lower than you have enjoyed in years . . . Prices will be no lower as the season advances . . . but the selections will be less extensive . . . So shop now for Christmas . . . It is the practical and the profitable way to practice economy . . . and be thrifty . . . Don't resist that urge to give. This is a year when purse-strings should be loosened and everybody give most generously . . . Take a tip from Santa . . . Start your Christmas Shopping . . . today!

The Floyd County Plainsman

**WHIRLWINDS ROU
LONGHORNS AND WIN
83-0 ARMISTICE TILT**

(Continued From Page One)

In the second quarter, after a series of plays by the Whirlwinds, the ball was carried to the eighteen yard line and Bridges on the next play skirted end for the count. Extra point was converted this time by a kick. The next score was made when the kick off by Floydada was recovered by Houghton, who substituted for Heald in the second quarter, and the ball came into Floydada's possession on Lockney's thirty yard line. A series of plays brought the ball to within the twenty yard range and Welch went around left end for the touchdown. Attempt to make extra point failed.

In the latter part of this period, Bridges intercepted a pass by the Longhorns, and returned fifteen yards. On the next play Bridges went around end for ten yards and the touchdown. A second touchdown was made in the first half when Houghton went around end for several yards and the count. Trial at extra point again failed. The first half ended with no further scoring and Lockney in possession of the ball on their own 36 yard line and the fourth down.

In the interval between halves the Pep Squads from Lockney and the local Green Peppers performed some interesting and pretty formations on the field. The green and white pep club led by Misses Alice Mae Fyffe, Genell Stovall and Blanche Hilton, marched out on the field and did some maneuvers which were a credit to some army drill squads. At the closing formation the girls knelt and raised flags then taps was sounded by buglers from the side line.

At the beginning of the second half on the kickoff from Lockney to Floydada, Welch received and returned the ball 90 yards for a touchdown. This period was an easy scoring period and almost every play, whether executed by the linemen or the backs, gained ground for the green and white. Touchdowns in this half were made by Welch, Bridges, McLaughlin, tackle, and Lloyd Murray, guard. During the game almost the entire Whirlwind eleven saw service at ball carrying and some of them at making touchdowns.

In the last half the Whirlwinds made seven touchdowns and converted four extra points making a total of 46 points. The game ended with the score, Floydada Whirlwinds 83, Lockney Longhorns 0.

The winning of Friday's game gave the Whirlwinds the championship of this sub-district of class B. Floydada will meet the Littlefield Wildcats for the championship of the north half of the district and the winner of that tilt will play Lamesa for south half winners of the district title. Lamesa won their section of the district by defeating Post Armistice Day.

Outstanding playing was done in Wednesday's game by Bridges, powerful fullback, who made the major part of the touchdowns and 22 many plays made long gains for the Whirlwinds. Marion Heald, halfback and captain, of the Whirlwinds, was out of the game most of the time due to an injured ankle. Heald will be back in the games however, and will be one of the chief threats to opponents in coming games. Murray and Houghton were also outstanding players in the backfield for the Whirlwinds and both made extensive gains and did excellent defensive playing. Welch, powerful halfback, played the best game that he has played the entire season and is one of the hardest hitting, ground gaining backfield men on the Whirlwind squad. Floydada's entire line did the usual type of fine playing which has been the outstanding feature of the Whirlwind team this year.

Summary

First downs, Floydada 21, Lockney 5; punts, Floydada 2, one blocked the other for 30 yards, Lockney two, one for two yards and the other for 50; passes, Floydada two complete for 34 yards, Lockney, 10 complete for 73 yards, 8 incomplete and two intercepted; penalties, Floydada 20 yards, Lockney 25 yards.

Score by quarters:
Floydada, 12 25 19 27
Lockney - 0 0 0 0

Floydada's starting line up was: Fullback, Houghton and de Cordova; tackle, Johnston and McLaughlin; guards, Murray and Mooney; center, Dorrell; halfbacks, Heald and Welch; fullback, Bridges and quarterback, Murray. Substitutes were: Houghton for Heald, Jackson for Mooney, Sims for Dorrell, Williams for Goightly, Young for de Cordova, Sims for Jackson, Cothran for Welch, Amberg for Johnston.

Referees were: Vaughn, W. T. S. Headrick, A. C. C., and S. W. and Luttrall.

Keim.

**RED CROSS MEMBERSHIP
DRIVE TO START SOON**

The annual Red Cross call will begin here soon and a movement for membership for the assigned quota will be under way. November 11 was the set day for the gigantic movement to start over the entire United States.

Red Cross work has been in existence since 1881 and this year marks the half century mark that the Red Cross organizations have rendered help to humanity.

This year's annual drive for membership was begun Wednesday and will continue until Thanksgiving day, November 26.

Committees are expected to begin functioning the early part of this week.

FIRST CHRISTIAN CHURCH

Rev. Wingo, Pastor
Prayer Meeting Wednesday night 7 p. m.
Banche Ensch Leader.
Sunday morning 11 a. m. "Study in Revelation."
Sunday night 7 p. m. Pageant, "Students of all ages" given by children.
We had 102 in bible school last Sunday. Fine, let's have 150.
Thanksgiving Union Service Thursday, November 26, at the Methodist church, everyone plan to attend.

**How to train BABY'S
BOWELS**

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily half a teaspoonful of this old family doctor's prescription for the bowels.

That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies.

Dr. Caldwell's Syrup Pepsin is good for any baby. For this, you know the word of a famous doctor. Forty-seven years of practice taught him just what babies need to keep their little bowels active, regular, keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3500 babies without loss of one mother or baby.
