EXPECT 60 PERCENT COLLECTION OF CITY OF FLOYDADA TAXES

According to city tax collector, S. E. Duncan, approximately 50 per cent of the Floydada taxes for the 1931 period have been paid to date. Tax payments have far exceeded expectations this year.

Approximately 60 percent of the total tax rendition roll of 1931, \$30,105.39, is expected to be paid this year. 251 poll taxes have been paid for this year.

The 1931 tax roll is \$30,105.39 and the collections to January 30, this year, amounted to \$15,149.28. Bond maturities and interest to September 1 amounts to a total set up of \$13,900.00.

Tax Collector C. M. Meredith, stated yesterday that approximately 50 percent of the total collections on the 1931 tax roll for Floyd County would be in when all the mail received at the office had been worked up and errors and receipts taken in the records. At that time about 48 percent of the total 1931 collections were paid.

The total collections at the office for the month of January from all sources was \$109,713.46; of this amount the total collections for property tax was \$90,328.09, the total collections for car tax was \$19,385.37. TAKE PROHIBITION OUT OF POLITICS

There seems to be a lot of excitement in Washington and among politicians on the question of whether or not the question of repealing the eighteenth amendment should be submitted to the people of the United States for a national referendum vote.

We would hate to see the next presidential election complicated by the prohibition issue. We think that issues far more vital to the welfare of the nation ought to occupy the public mind during the next campaign.

It seems to us that there is a very simple, practical and effective way of taking prohibition entirely out of the next presidential campaign. That is for both parties, Republican and Democratic alike, in their national conventions next June, to adopt a platform plank, agreeing to put through a resolution for a national referendum on prohibition.

We do not know of any intelligent drys who think that the sentiment of the country is wet. We know a great many wets who are sure that public sentiment would be overwhelmingly against prohibition.

BANKS AND BANKERS

It looks to us as if a good deal of financial distress is due to the fact that a great many people who had no right to be in the banking business were permitted to call themselves bankers while the big money boom was on.

These loans were made on the invitation of New York concerns which call themselves investment bankers. The bonds were sold at high prices to individuals and to small banks throughout the country.

BACK TO THE FARM

There were 208,000 more persons living on farms in America at the beginning of 1931 than there were at the beginning of 1930, according to the annual report of the Secretary of Agriculture.

Perhaps the most interesting conclusion which Mr. Hyde draws from these and other figures is that the United States is approaching the stage of a stationary population. In all but four or five of the big cities the death rate today is higher than the birth rate.

We must say that we agree with Mr. Hyde that the dweller in the small town, or on the farm, is much more secure so far as the necessities and most of the real comfort of life go, than most of the people who live in the cities are.

I paid out \$30.00 for feed for the year so my profit on my flock was \$75.00."

MRS. DAVID BATTEY OF HARMONY CLUB HAD GOOD LUCK WITH ORCHARD

Mrs. David Battey, Orchard Demonstrator for the Harmony Home Demonstration Club, planted six cherry trees, three pear trees, six plum trees, and six apple trees in 1930. In 1931 she planted eighteen grape vines, fifty daffodily plants, six young berries and one hundred and twenty five strawberries.

"The orchard demonstration proved to me that little time is required to correctly plant a small orchard, and the labor expended there will be an abundant harvest. My berry vines did not afford many returns last year, but we are expecting much from it this year.

"Being a demonstrator has given me a small orchard, growing and soon ready to bear fruit, and afforded me the knowledge of correctly planting trees and vines," Mrs. Battey states.

MRS. A. H. KREIS SAYS ORCHARD DEMONSTRATION IS VERY VALUABLE

Mrs. A. H. Kreis, Orchard Demonstrator for the Campbell Home Demonstration Club, planted four peach trees, four plum trees, four cherry trees, four apple trees and thirty-nine grape cuttings. All of these are living. The trees were purchased when they were quite expensive at the total cost of the planting was \$19.00.

Mrs. Kreis states, "This was a very valuable demonstration. We learned how to dig the holes, water and fertilize the trees. My orchard is young as it was planted in the spring of 1930. There were a few blooms on the trees last year, and I expect them to bear fruit some this year."

THE VERY LATEST BY MARY MARSHALL

Here is the new shirred evening wrap. It is the sort of thing you would wear at this time of the year merely as an accessory dinner or theatre jacket, but later on in the warmer months of the year it would serve as an adequate outdoor evening wrap.

This little wrap with its all-over shirring may not fit into your scheme of things, but if you do any home dressmaking you will doubtless find other ways of using shirring. The work may be done on chiffon, georgette, silk, crepe, chiffon, velvet or any other soft material. It can be used on yoke, cuffs or collars and if you are working with a paper pattern you do not need to have a

special pattern for the shirred part as the shirring may be done before the piece is cut out. In order to get the best effects you should measure and mark the material carefully to start with making small marks with tailor's chalk along the lines where you want the shirring to appear.

MRS. W. M. JETER OF SANDHILL CLUB IS SUCCESSFUL CHEESE MAKER

"During the year I have made cheese ten times. Each time I made five pounds, showing a total of fifty pounds for home use. Milk and other materials for this amounted to \$3.50. The cheese was worth \$10.00 so my profit was \$6.50," states Mrs. W. M. Jeter of the Sandhill Home Demonstration club.

"I have helped, individually, six other women to make an average of five pounds of cheese each," Mrs. Jeter further states.

"On October 27th, while the agent was at a district meeting in Lubbock, I went with two other women to a newly organized club, Fairmont-Edgin, and gave a cheese demonstration. There were twenty-one ladies present at this meeting. The demonstration was quite successful and as a result numbers of the ladies have made cheese.

"All of the equipment needed to make cheese is a can, any size from five gallons up, a dairy thermometer, a gallon syrup bucket with the bottom melted out and two syrup bucket lids. Anything that is heavy enough may be used for weights.

"I believe that there is more money in making cheese than in selling cream at the present market price.

"I hope to be able some time to standardize cheese and furnish the home markets.

"The only trouble I ever have with cheese is keeping it after it is cut," Mrs. Jeter further states.

Fifty years ago the best entertainment available to rich men could not remotely compare with the Electric "movies" and the Electric Radio that practically all can afford today.

FIRST CHRISTIAN CHURCH

Claude Wingo, Pastor

Good services last Sunday.

Do you know the real joy that passeth understanding?

Have you attended the bible study at the Presbyterian church? If you have not you have missed a great blessing. So far in the course only bible outline has been used. There is not a person anywhere that loves the Lord could object to a study of just bible. If the balance is like those we have had so far I want to recommend to all Christians everywhere and those who love the word of God to attend these studies.

I do not agree with every thing Pastor E. C. Comfort says in respect to many things but when he gives a bible outline using the bible only and lets the bible speak for itself, I am for him.

You still have time to get a great deal of good starting in late as it is. Our teacher training courses being offered are:

Educational task of the local church—Lon M. Davis, teacher.

Psychology of early Adolescence—Mrs. W. Edd Brown, teacher.

The Worker and his Bible—Mrs. Claude Wingo, teacher.

EVANGELIST BOB MUSGROVE

Mrs. John Cook of Putnam, Texas, visited Saturday and Sunday with Mrs. Edwin Heald of Floydada.

KNOW HOW TO HANDLE A CAR WHEN IT STARTS TO SKID?

"TRIAL AND ERROR" in handling sliding, careening cars on winter's slippery streets has made some motorists fairly proficient in preventing serious skidding accidents—providing luck is with them. But thousands crash before they have time to think or act.

This winter, don't you risk it... ride on 30% less air with the General Dual-Balloon. 30% less air than any other tire can stand. 20 lbs. for a Ford; 26 lbs. for a Packard... these are merely examples of the amazing low pressures for which this remarkable tire is designed and built.

Think of the wide-spread, positive traction of 10 to 15 lbs. less air! Think of the comfort... the peace of mind... the safety... of riding on tires that eliminate the hazards of winter driving.

Let us show you our pressure chart listing all makes of cars and demonstrate the many exclusive advantages of the Low-Pressure General Dual-Balloon. Prices were never lower. Now is the time to put on a set for safety and saving.

1496 HOMES EXPECTED TO BE REACHED IN COUNTY WIDE DRIVE FOR MEMBERS

All the women's home demonstration clubs of Floyd County entered a county-wide membership contest February 1. By March 26, 85 percent or 1496 homes in Floyd County are expected to be reached by club members.
 The club reaching the largest percent of the available club women in its vicinity will be county-wide winner in the contest. Reports of the number of members up to date will be due at the council meeting which will be held here February 27.

Detail plans of the contest will be worked out by the membership committee, consisting of: Mrs. S. J. Latta of the Campbell Home Demonstration Club; Mrs. McCollum of Pleasant Valley; Mrs. Carl McPherson of Prairie Chapel; and Miss Martha Faulkner, county home demonstration agent. These plans will be ready and presented to the council at its next meeting.

The present economic conditions make it imperative that every effort shall be made to see that the people of this county are provided with the essentials of life—food, clothing and shelter. All economists agree that the easiest way to reach this goal is to make it possible for people to obtain these essentials by their own efforts. Many new members will be added to home demonstration clubs in Floyd County by this county-wide membership drive and many women will be given the opportunity to belong to a club where training in making a living at home will be given.

3 RULES big help to BOWELS

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:
 1. Drink a big tumblerful of water before breakfast, and several times a day.
 2. Get plenty of outdoor exercise without unduly fatiguing yourself.
 3. Try for a bowel movement at exactly the same hour every day.
 Everyone's bowels need help at times, but the thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a thorough cleaning-out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with your system rid of all that poisonous waste matter.
