## COUNTY AND DISTRICT SCHOOL TRUSTEES DISCUSS FINANCE PLANS

"What effect will the loss of finances have on Floyd county schools for another year and how to make up this deficit" was the main topic discussed in the joint meeting of Floyd county school trustees and school district trustees, held in the county court room Friday afternoon.

Priest Scott, county superintendent, presided over the assembly of about 100 persons including 85 or 90 percent of the school district trustees, Floyd county school board members and other interested parties.

Discussions were centered on the idea of reducing expenditures of school systems to meet the present economic conditions and keeping the expenditures within the bounds of the income.

"Since the local tax is governed by the tax valuations of property in Floyd county, then a loss of rendition in value of property will and does effect the net revenue of schools from local tax," was a statement in part made by Priest Scott in addressing the assembly.

"Since we are finding a heavy loss in enrollment of scholastics in the county, we will also find a heavy loss in revenue coming to the schools from the state available fund. This loss is in direct ratio to what the scholastic loss in enrollment proves it to be. A loss in scholastics automatically lowers the classification of the school in all departments in which state aid is available. Therefore it is inevitable that several school districts for another year will lose heavily from the state aid funds," Mr. Scott further stated.

Mr. Scott further explained that school trustees were faced with the problem of meeting the present conditions and three issues were discussed by which expenditures could be reduced. These were: 1. Cut the term of school year. 2. Reduce the teaching force and 3. Reduce the salaries being paid these teachers. Either of these or a combination of all three will be necessary to meet the loss of money coming into the school district funds.

In connection with the first item, another question arises in regard to the starting date of the schools. If the term is reduced to 7 months or less, it is a question whether or not to start in September. Mr. Scott stated, "If terms are cut to seven months or less I recommend that school be started in November or later."

If the teaching force is reduced this will automatically have a bearing on the number of grades taught in the schools. Some schools now teaching ten grades will be compelled to teach less and likewise all others using this plan will have to reduce the number of grades being taught.

Three members of the commissioners court were present in addition to the trustees in Floyd county, they were, W. H. Henderson, T. Z. Reed and M. F. Taylor.

Mr. Scott stated Friday that 80 or 90 percent of the school trustees were present and that this was the largest percent present in a meeting of this kind since he had been in the superintendent's position.

E. C. Nelson, chairman of the Floyd County School Board addressed the group briefly in regard to the school activity.

T. A. Norman, of the First National Bank, also discussed the question of the records and financial system with the trustees.

**New Record System Introduced**  
A new system of handling records and new system of handling school finances was introduced at the meeting by Mr. Scott and Mr. Norman. The new system, which will be inaugurated next year will dispose of the warrant system as used this year. No warrants will be issued in Floyd county superintendents office until there is sufficient money in the school depository. First National Bank, to take care of them. Vouchers will be issued and filed in the county superintendents office and payments will be made in term and turn of recording there.

The new system will be handled through the bank as usual. This system is destined to be a more simplified plan for payments and records than the old one, is the belief of Mr. Norman and Mrs. Scott.

W. A. Brewster, of Lockney, candidate for sheriff, was in Floydada Tuesday of this week.

## TRACK TEAM WON MEDLEY RELAY IN TEXAS TECH RELAYS

The Floydada High School track team, winners of the Floyd County winners in the Medley Relay divisions of the Texas Tech relays, held in Lubbock Saturday.

The Medley relay team members were: Lowell Gamblin, team captain; Herman Nelson, Malcom Bridges, and Ersel Mathews. Nelson run the quarter of mile, Gamblin the half mile run, and Bridges and Mathews the 220 yard dash. Lowell Gamblin also won fourth in the low hurdles.

Floydada won over the favored San Angelo and Plainview teams in the medley relay. Sixth place with six points was also won by the local team, competing against fifty teams from three states; New Mexico, Texas and Oklahoma. Snyder won first, Amarillo won second, Lubbock third and Plainview fifth in the relays championship.

## EAST WARD SCHOOL TO BE DISCONTINUED FOR 32-33 TERM

The East Ward School system of the Floydada Public Schools will be discontinued for the term of 1932-33 as an economy measure made by the Floydada School trustees.

The school board met Thursday night of last week to make plans for 1932-33 and discuss business pertaining to the school system.

Further economy measures taken by the trustees was reduction of teachers salaries for the ensuing year to \$80.00 for ward school faculty members and \$100.00 for high school teachers.

This cut in salary will only make a total reduction of 25 percent from the wage in 1930; a 10 percent cut having been made in 1931-32.

Necessity for an economy measure was further forwarded by the loss of 120 scholastics in the enrollment for the coming year, which will mean a loss of much money in per capita apportionments.

**Teachers Elected**  
Faculties for the schools for 1932-33 term were elected by the board as follows:  
High school—A. D. Cummings, accepted as superintendent of schools; Miss Daltis Res, Miss Studie Miller, Mrs. Lon V. Smith, Mrs. Joe Breed, Mrs. J. M. Teague, O. T. Williams, Mrs. Odus Steggen, Odus Steggen, Mrs. Richard Stovall, Mrs. Burchfield, Librarian.

Andrews ward—O. K. Davis, principal; J. M. Teague, elected subject to assignment; Miss Lula Belsher, Richard Stovall, Mrs. O. T. Williams, Mrs. J. H. Green, Miss Fannie Bolding, Miss Vera Meredith, Mrs. Miriam McDonald, Miss Eddyth Walker, Mrs. J. N. Johnston, Miss Vera Hamilton, Miss Emma Lou McKinney, Miss Ruby Norton;

Colored school—Mrs. Annie Taylor.

Teachers named above were elected for the months that the schools will be able to operate; it is not definitely known whether or not the schools will have sufficient finances to continue for nine months next year. Following the election of the teachers a motion was made and seconded and carried to place the following teachers on a waiting list: J. H. Myers, Mrs. T. W. Whigham, Miss Myrtle Terry, Mrs. Jennie Winters and Mrs. Hazel Hughes.

Other discussion was had in connection with economic issues for the year but no definite action was taken in regard to them.

Following were those present at the meeting: Trustees J. B. Turner, L. H. Dorrell, M. L. Probasco, W. Edd Brown, Mal Jarboe, Wilson Kimble and J. C. Wester.

## PLANS BEING MADE TO REBUILD LAKEVIEW SCHOOL HOUSE

The debris of the Lakeview District School building, which was destroyed by fire recently, is being cleared away preparatory to the construction of a new building. Material in the building, brick and stone, is being reconducted to be used in the new building.

The Lakeview school trustees, R. C. Smith, president; B. L. Breed, secretary; and John Lloyd, in a conference in the county superintendent's office Monday employed S. B. Haines, architect of Lubbock, to prepare plans and specifications. The contract has not been let to the present time for the construction of the building.

Present plans of the school board are to build a building with space for four class rooms and the auditorium. Some discussion has been had as to the possibility of a combination auditorium and gymnasium similar to the Andrews Ward building in this city, but as plans are to rebuild with the insurance funds, prospective costs will not allow this procedure.

Insurance adjustment made last week was \$9,500.00, including \$7,100.00 for the house, \$2,000.00 for furnishings and \$400.00 for text books.

It has been planned to build the new building with out voting new bonds; however, prospective costs have not been determined by architect as yet. The building is to be a one-story structure.

Home labor will probably be used as much as possible in the construction project, it has been stated.

## GLAD AND MRS. SNODGRASS VISIT DAUGHTER IN NASHVILLE

Mr. and Mrs. Glad Snodgrass returned Thursday night from Nashville, Tennessee, where they visited their daughter, Miss Gwendolyn, who is attending Ward Belmont School. They were with their daughter on her birthday.

**THE WAY OUT AND CITIZENSHIP**

With reference to the article written by our "Tax Payer" friend, appearing in this issue of the Plainsman, we wish to state that we feel there is no urgent need for the organization of a tax payers league. In the first place we think that was taken care of shortly after the organization of the state of Texas, when our forefathers had a law passed whereby each and everyone of our legally authorized citizens would have the same right to express an opinion in the matters of running the affairs of the county and state in which they lived if they were willing to become citizens of such county and state by paying their taxes.

The people of the state of Texas, and as to that matter, the people of the United States, are solely responsible for the predicament in which we find ourselves today. Many of us are prone to sit back and refuse to pay our tax obligations simply because we feel that we are not having as much money to spend for the frivolous things of life as we would like to use in that manner. As a matter of fact, we hear some of our neighbors almost daily, bemoaning the fact that they will not pay their taxes because they are too high. It grieves the writer very sorely to hear a person speak in such terms about the taxes which they, themselves, have had a part in heaping upon the people of the county and state in which we live. As a matter of fact the burden under which we are laboring is one of the most just obligations, to our way of thinking, which the people of the community are faced with today, and this ob-

literation, we believe, should be met without the uproaring noise which has been made over Floyd county during the past few months.

We frankly believe that taxes are too high, and that something should be done to eliminate a part of the burden. But we do not believe the course to pursue would be to organize a tax payers league. Because, in the first place, we already have a stronger organization of the taxpayers than a newly organized league could possibly be if we expect immediate results, and that is the taxpayers themselves.

Our remedy and suggestion would be for the taxpayers of the county to go to the polls at the forthcoming elections, and vote for men and women who would run the affairs of the county in an economical way, and who would be willing to pledge themselves to use every effort possible to keep down expense. After this is done, then we, as taxpayers, should quit voting for issues which naturally pile more taxes upon our shoulders.

We believe and accept the tax burden which has been piled upon us by the voters of the county, and the different precincts of the county, to be a just obligation, and see no reason why any sane thinking citizen would feel free to discard this obligation. But that doesn't go to state that we do not believe this burden can't and should not be reduced. For it can be, and must be, if the property holders are to continue in possession of their holdings.

A check of the tax rolls of the city, the school district and the county, divulges the fact that many of our men whom we have been pleased to point out as community leaders, have not paid their taxes. Many of these men are unable to pay their tax, we grant you, but others of them could meet the obligation, if they could only be forced to accept it as an obligation in times like this, and play a great part in saving the backbone of the community, in which they have had an important part in voting the penalty upon themselves, and the rest of their neighbors in gone by days, when we were not so hard run for cash to meet our obligations. To our way of thinking, these people should step out at the very earliest date possible, and pay their taxes, and in so doing, give the city, the school and the county, a chance to carry on with their obligations, and a chance to avoid bankruptcy.

**Exhibits on Farm Special**

Exhibits prepared by the college occupied four cars. Livestock from the college farms filled one car and farm electrification exhibit another. Results of the latest experiments in improved farming practices and livestock production were cited and the possibilities and benefits of a live-at-home program, including home improvement and beautification, were emphasized.

Exhibits of special appeal to women and girls were found in the 4-H pantry and home industries displays. The 4-H pantry display pointed out that no farm family of five, with proper attention to home production, need spend more than \$80 a year in cash on the family larder. The exhibit showed a model pantry, well stocked with home grown and home canned food products bearing the 4-H label.

More than 24,000,000 tin cans and more than 8,000,000 glass jars were sold in Texas in 1931, specialists aboard pointed out in citing the growth of 4-H pantry demonstration work among farm women. Summary of the work in 122 counties showed more than 47,000 women reached during the year, 10,490,578 quarts of fruit, vegetables and meats canned and 6,271,224 pounds of fruit, vegetables and meat dried and cured. These food products put up by Texas farm women represented a value of more than \$3,600,000.

**Farm Home Industries**

Farm home industries exhibit showing various gift packages pointed out what can and what is being done by Texas farm women in augmenting their income through the preparation and sale of better 4-H products and articles. Nearly 900 home industry demonstrators and co-operators received \$31,431 for such products in 1931.

How old wool and cotton garments, discarded hose, feed sacks and scraps of new material may be turned into attractive rugs was the story of one exhibit. During 1931, Texas farm women turned out 3,688 hand made rugs and mats valued at \$15,632.

Reflecting a growing revival in the use of cotton clothing, one display showed cotton garments for a family of five, illustrating the adaptability of such fabrics for mens suits, sports and evening wear for women and numerous other garments. Texas farm club girls during 1931 made articles of clothing valued at \$53,425.

**New Uses For Cotton**

New uses for cotton, opening the way to greater consumption of Texas' major agricultural product, were cited in another exhibit. Specimens of cotton bagging, mesh bags for shipping vegetables, nuts and citrus fruit as well as samples of various textiles, all manufactured from cotton, were on display.

Industrial uses for cotton were illustrated with display of various mechanical parts, such as spools, silent timing gear used in automobiles, airplane propeller tips, and parts for sawing machinery. Attention was called to the fact that 65 per cent of the 6,300,000 bales of cotton consumed in the United States in 1928 was for industrial uses as compared to 34 per cent of the domestic consumption in 1919.

The need of reducing production costs and improving staple quality of the 1932 cotton crop was stressed. Important factories in accomplishing this were cited as terracing of the land to conserve moisture and soil fertility, use of proper crop rotation, planting of good seed of known breeding, seed treatment to hasten germination, proper cultivation, and use of fertilizers.

**Orchards, Gardens and Yards**  
Terracing hillside orchards, featuring the development of pecan orchards in Texas, was the theme of one exhibit showing miniature orchard and the proper method of terracing.

Lath garden sub-irrigation system was the subject of another miniature model showing cross section of underground irrigation system eight inches below the surface. This exhibit called attention to the fact that a vegetable garden, 100 by 150 feet in size, properly cultivated and irrigated, will supply the needs of family of five with fresh and canned vegetables for a year.

How proper landscaping with a few shrubs and a lawn, add to the beauty of the grounds about a house was the story of another exhibit. It was pointed out that in 1931, a total of 1,217 farm yards in Texas were improved with landscaping and planting of shrubs and flowers at a cost of a little more than \$1 a yard.

**Farm Electrification**

Farm electrification exhibit, featuring electricity as the new "hired hand" on the farm, filled one whole car of the train. This display demonstrated the many uses to which electricity may be put in bringing conveniences of the urban home to the farm home, as well as in lightening the tasks and increasing the efficiency on the farm. Appliances and equipment for household, kitchen, laundry, dairy, poultry raising, shop and general farm use were shown. This exhibit was sponsored by the Texas committee on the Relation of Electricity to Agriculture and the Southwest division of the National Electric Light Association.

**Livestock Exhibits**

Livestock from the college herds and flocks filled one car, illustrating points brought out by some of the booth displays in other cars. Beef cattle and dairy stock, hogs, sheep and Angora goats were featured, type, production and care being stressed. Exhibits and specialists aboard brought out that Texas farms and ranches show approximately 4,500,000 beef cattle, 6,000,000 sheep and 3,300,000 goats and that the feeding of calves and lambs in Texas is showing an appreciable increase. All told, it was pointed out, about 150,000 head of cattle and 270,000 lambs are being fed in Texas this year.

Creep feeding of calves was stressed in exhibit showing two Hereford cows with calves, pen arrangement allowing the suckling calves access to approved type of self-feeder being demonstrated. Such feeding will enable a calf to put on 100 pounds additional weight by weaning time with the consumption of ten bushels of corn or equivalent in other grains, specialists aboard pointed out. Booth displays featuring beef production, pointed out advantages of trench silos, pastures, good breeding, creep feeding and the marketing of feed through cattle.

**Dairy Cattle and Hogs**

The dairy exhibit, including two Jersey milkers in the livestock car and booth display in another car, emphasized the economic necessity of keeping only cows capable of high butterfat production if a profit is to be expected. The cow in the exhibit representing the profitable type produced 470 pounds of butter fat in a year, representing value of \$94.08, at feed cost of \$64.38, or a profit of \$29.70, as contrasted with 191 pounds of butter fat for the unprofitable type, valued at \$38.24, or \$9.16 less than the feed cost of \$4.40.

Half a dozen pigs on feed, Duroc Jerseys, Berkshire, and Hampshire, demonstrating use of self-feeder and arrangement of feed, water and shelter facilities so as to give the

animals every possible chance to do well, made up another exhibit in the livestock car.

Cured meats exhibit in adjoining car told a story of how proper butchering on the farm pays, cured and canned products from one 225-pound hog being displayed. These products were valued at \$20 as against \$9 the hog would bring in cash on the market.

**Sheep and Goats**

Two Rambouillet ewes and three Angora does made up sheep and goat exhibit in the livestock car, these being shown as the most practical types for farm and ranch flocks. Proper methods of feeding and shearing sheep and goats and the value of scoring fleeces before marketing were stressed in display booth complementing the sheep and goat exhibit in the livestock car. Use of the wool scouring plant of the Texas Agricultural Experiment Station at the college was urged for wool growers desiring to learn more about their wool crop qualities.

Specimens of desirable grasses and clovers for different sections of the state were shown in pasture exhibit. Growth of interest in the East Texas permanent pasture demonstration contest sponsored by the East Texas Chamber of Commerce was brought out by announcement that more than 1000 entries have been made in the contest this year as compared with 266 entries in 1930.

**Wheat and Grain Sorghums**

The market penalty incurred by smutty wheat and control measures for this serious wheat disease were points emphasized by another exhibit. During 1932, approximately 7 per cent, or about 4,000,000 bushels of the Texas wheat crop graded smutty on the terminal markets, and varying discounts, depending on the degree of smut damage, were assessed by buyers, it was set forth.

Grain sorghum exhibit pointed out the advantages of planting only well bred, pure line seed. During 1931, a total of 1,500,000 pounds of seed, all tracing back to bagged pure line seed developed by the Texas Agricultural Experiment Station, were state certified. This latter information was cited to bring out the point that there is no longer any need of planting other than seed of high producing strains and known pedigree.

**Poultry Exhibits**

Proper care and feeding of poultry with special attention to methods for handling baby chicks made up the subject matter of poultry exhibit. Features of this exhibit included electric brooder, screen flooring to protect the chicks from droppings, practical feed troubles, and water fountains. Cleanliness in chicken house, grounds, feed, water and management was stressed for growing healthy chicks.

Miniature exhibit of horses and mules as farm work animals, featuring big hitch, was another display.

**LOCAL HIGH SCHOOL LATIN STUDENTS ATTENDED TOURNAMENT AT AMARILLO**

Emma Louise Smith and Katherine Gresham, Latin students of the Floydada High School, entered the annual Latin Tournament at Amarillo, Saturday. They were accompanied to Amarillo by Mrs. Joe Breed, Latin teacher, and Mrs. Lon V. Smith.

Big Spring students were major winners in the tournament. Events included tests and essays in several divisions, including first, second and third year groups.

**A CORRECTION**

In a local item which appeared in last week's issue of the Floyd County Plainsman, it was stated that Elder H. P. Cooper, of Lamesa visited here Saturday, when in reality Elder Ira Sanders of Matador was the person referred to. It was mistaken identity on the part of our reporter.

Mr. and Mrs. Virgil Hensley, of Altus, Oklahoma, and Mrs. C. F. Moeck of that city, are visiting in Floydada this week with Mr. and Mrs. M. E. Rogers. Mrs. Hensley will remain until Sunday.

## If baby has COLIC

**CRY** in the night. Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm. It is the sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adult use.

### PUBLIC FORUM TAXPAYERS LEAGUE

We have had considerable discussion and agitation in regard to the reduction of taxes but very little has been done. A taxpayers association should be organized at once in Floyd county. It should be county-wide and operate without any cost to the taxpayers. If the taxpayers of Floyd County will unite with a determination to wipe out all expenses that are not vitally necessary to the operation of our county, schools and cities, we can hammer taxes down to where the people can pay their taxes.

It is disheartening to know the amount of delinquent taxes which are owed by the citizens of Floyd county. Many cannot pay them. Some have decided that the taxes will eat up their property anyway and are not making any effort to pay them. In many instances the taxpayers' money has been squandered. It seems very little effort has been made to reduce the expenses of our schools, cities and county to a basis of our ability to pay the taxes.

It appears that we are just entering into hard times and we may have several years of hand-to-mouth living. If the taxing bodies of Floyd county do not get down to bed-rock with their tax budgets they are liable to be confronted with a taxpayers strike within the near future. There is property in Floydada today that would not sell for enough to pay the taxes. You can hardly interest anyone in buying a residence or business house in Floydada. We have heaped the taxes upon our citizenship until we have killed the spirit of home ownership; the very foundation upon which the destiny of Floydada rests.

Some of our most celebrated economists tell us that we are on the up grade and good times will be with us in the near future. They have been telling us this for about two years when any of us with sense

can see that we are getting into a devil of a fix. Stocks and bonds are declining almost every day. Wheat, cotton, corn, livestock and other farm products are below the actual cost of production and the prospects for the future are very gloomy.

The big men of the United States have built a high tariff wall around their products and broken the backs of the farmers who are the very foundation of the resources of the United States. Alexander Legge, one-time guiding star of the Farm Bureau, president of the International Harvester Company, tells a farmer in his curt way that the only chance for him is to reduce his acreage but still he draws his huge salary and maintains the high price on his machinery and repairs as well as the other big machinery corporations.

The big auto firms of the U. S. flabbergasted that their wares are not selling. How can a man buy a new car when he can barely feed his family? They do not seem to realize that they have shoved the farmer to the very brink of bankruptcy. Our statesmen at Washington and Austin do not seem to know any more what it is all about than we do and are desperately pouring millions of dollars out of the public treasury to artificially restore prosperity. It seems to have never occurred to them that they could eliminate millions of dollars of expense by cutting their own salaries and government employees and refusing appropriations for unnecessary projects. No one can hardly censure a government employee for drawing a high salary, but it doesn't seem right for one person to be drawing a handsome salary from the government while most of the remaining nine are barely existing.

Some tell us that the farmers are better off today than they were a year ago but if you will ask the mass of farmers they will tell you this is not true. Most of them are burdened with a load of debt with interest that is working day and night and not a gambler's chance to pay with the present price of their products. Our homes and farms are going under the sheriff's hammer and unless we do something at once to change conditions it will drastically affect everyone of us.

Optimism is a fine thing in some instances but when conditions are such as they are now I believe it is rank foolishness for us to kid ourselves into believing that we will be all right within a short time. We should know the worst and be

prepared when it comes.

We have bought to the limit, we have mortgaged to the limit, we have borrowed to the limit and now pay day is here and no money on hand and no prospects for better times until we have some radical changes. We are all evidently going back to a lower standard of living and those of us who have been living beyond our means (and most of us have) are now facing a crisis.

I believe it is the duty of every taxpayer in Floyd county to unite and work with the various governing bodies of Floyd County that we may all benefit and bring back a condition that will cause people to wish to own a home or a business in our county.

#### A TAXPAYER.

#### CITATION BY PUBLICATION

#### THE STATE OF TEXAS.

To the Sheriff or any Constable of Floyd County—Greeting:

You are hereby commanded, That you summon, by making publication of this Citation in some newspaper published in the County of Floyd once each week for four consecutive weeks previous to the return day hereof, Lonnie McCarty whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Floyd, at the Court House thereof, in Floydada on the third Monday in May, 1932, same being the 16th day of May, 1932, then and there to answer a Petition filed in said Court, on the 12th day of April, A. D. 1932, in a suit numbered on the docket of said Court No. 2497, wherein Elza McCarty, Mary McCarty, a feme sole, Humphreys, joined pro forma by her husband, D. B. Humphreys, and Roy McCarty, are plaintiffs and C. J. McCarty, Guardian of the Estate of E. B. McCarty, Non Compos Mentis, and Lonnie McCarty are defendants. The nature of the plaintiffs demand being as follows, to-wit:

That the Plaintiffs and Defendants are the joint owners and tenants in common of 366 acres of land situated in Parker County, Texas, and of an undivided One-Half (1/2) Interest in 481 84-100 acres of land situated in Floyd County, Texas, and \$4,806.73 in cash.

That said Defendant, E. B. McCarty, is a person of unsound mind, and upon whose Estate Guardianship Proceedings are now pending in the County Court of Floyd County, Texas, with said Defendant, C. J. McCarty, as the duly qualified and acting Guardian of his Estate.

That the residence of said Defendant, Lonnie McCarty, is to Plaintiffs unknown; that he left his home in Texas about 30 years ago, and his last temporary home and address was Ogden, Utah, where he was last heard from in 1910; that though diligent search and inquiry has been made by his family, no trace of his whereabouts has been learned; that Plaintiffs verily believe the said Lonnie McCarty to be dead; that if now living, the said Lonnie McCarty would be about 48 years of age; that he was never married, to the knowledge of Plaintiffs.

That said Plaintiffs and said Defendants each own an undivided 1-7 interest in all of said property.

That the estimated value of said above described land is \$14,000.00. Plaintiffs pray for citations as the law directs, for Guardian Ad Litem for Defendant, Lonnie McCarty; for appointment of Commissioners; that said Lonnie McCarty be adjudged dead; that said property be divided into seven equal shares or portions, and one share be decreed to each of the six owners, Plaintiffs and Defendants, and that the remaining one-seventh be decreed jointly to the Plaintiffs and Defendants herein other than said Lonnie McCarty, whose residence is unknown, and that all of the rights and equities of all parties be adjusted and settled by such Orders and Decrees as may to the Court appear proper in the premises.

Herein Full Not, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Floydada, Texas, this 12th day of April, A. D. 1932. ROY O'BRIEN, Clerk District Court, Floyd County, Texas. 18-4tc

### FLOYD COUNTY FEDERATED CLUBS CONVENE HERE

Approximately 75 delegates from Floyd County Women's Clubs were present at the Semi-Annual Floyd County Federated Women's Club meeting held here Tuesday of this week. The meeting was a business session in addition to the program given.

Mrs. J. A. Hill, president of district 7, of Canyon, was the principal speaker of the day, addressing the assembly Tuesday morning. The program also included: Songs by Andrews Ward Girls Skitette and Miss Rho Cloud; two readings by Robertine McIntyre; reading by Martha Morriewether of Lockney and other numbers during the morning.

Mrs. Geraldine Green, dean of girls, Canyon college gave a talk Tuesday afternoon on Government. Rev. Dick O'Brien, pastor of the First Baptist Church, spoke on the "American Home," this number was supplemented by a vocal duet, "Home Sweet Home" by Mrs. Ruth Hall and Mrs. Geo. Lider.

During the business meeting Tuesday afternoon officers were elected as follows: President, Mrs. J. B. Jenkins; Mrs. Harris, secretary; Mrs. Albert King, reporter. The meeting place of the next conference was selected; this meeting will be held in October of this year. Other business concerning activity of the clubs was discussed.

The meeting was held at the First Methodist Church, beginning at 10 o'clock Tuesday morning. Miss Anna Sims, president presided over the assembly.

Lunch was served at the noon hour to the delegates present in the basement dining room of the Methodist church.

The meeting was adjourned Tuesday afternoon following the business meeting.

Rip Snodgrass and Vernie Nelson of Amarillo, were in Floydada Tuesday on business. Mrs. R. I. Teepees accompanied them on their return to Amarillo Tuesday afternoon to visit her daughter, Mrs. Vern Nelson.

### BASEBALL SEASON TO OPEN LOCALLY WITH GAME FRIDAY

The baseball season will open here Friday when the local players meet in an inter-church game at the Floydada ball park at 3 o'clock. Admission will be free and a number of fans are expected to be present.

Players who will probably see service in the game are: Roney Yearwood, Jim Curry, Jack Deakins, Jim Young, A. N. Ward, E. E. Hinson, Callhan, W. M. Salisbury, Groves and Leroy McDonald and T. W. Whigham. These are members of the Methodist team and members of Geo. L. Lider's Sunday school class. Lindsey Graham, Boone Hall, O. K. Davis, Coach Barksdale and J. M. Teague, Alva Hall, Bill Daily, Will Boothe and others, members of the Down town Baptist class will be among the Baptist players.

Several of those named above have been practicing at the ball park for several weeks and a good game is expected Friday afternoon. Much interest is being shown in this sport this season. T. W. Whigham has been manager of the local interested players lately.

Friday's game is a free gate and everyone is invited to witness the season opener.

### "IS WORLD GROWING WORSE?" TO BE COMFORT'S THEME

Next Sunday morning at 11 o'clock Pastor E. C. Comfort will preach at the Cumberland Presbyterian church on "Is The World Growing Worse?" All who attend have been urged to bring their bibles. At 8 p. m. of the same day the sermon theme will be, "Is The Church Getting Worse?"

At the Thursday evening prayer meeting the study of the Tabernacle in the Wilderness will be continued. This will be the first midweek service in more than a month, due to suspension during the revival services at the First Christian and the Methodist churches.

The Presbyterian women are making plans for the daily vacation Bible School to be held some time in June. No other textbook than the bible itself will be used; but improved methods are being perfected whereby the interests of the children will be intensified and the memorizing of scripture be made more popular.

Pastor Comfort has been engaged to give a two-weeks lecture course on Revelation in Lubbock, commencing May 30.

The Fifth Sunday rally of the Amarillo presbytery will be held in Amarillo on May 29th. Several carloads of young people from the Floydada church are making preparations to attend.

### MARION HEALD AND BUSTER SMALLEY ENTERED AMARILLO TOURNAMENT

Marion Heald and Buster Smalley, Floyd county champions in tennis doubles, entered the Amarillo High School invitation tournament held in Amarillo Friday and Saturday of the past week.

Due to rain Saturday, Floydada only played one match and that against Littlefield high school players. Smalley and Heald won this match. They returned home Sunday morning without further participation in the tourney.

### METHODIST CHURCH REVIVAL CLOSED SUNDAY NIGHT; VERY SUCCESSFUL

The revival which began Easter Sunday at the First Methodist church closed Sunday night with the evening services. This was probably the most successful meeting held in Floydada in some time.

Rev. I. A. Smith, pastor of the church, conducted the preaching services during the revival. Bob Watkins of Hedley, Texas, led the song services.

Record crowds were in attendance regularly both at the morning and evening services. During the meeting, there were over fifty reconsecrations and several conversions.

### S. G. UNDERWOOD RETURNED TO TEMPLE SANITARIUM SUNDAY FOR TREATMENTS

S. G. Underwood, manager of the Floydada Compress and Warehouse Company, returned to Temple, Texas, Sunday where he will receive further treatments in the Scott-White sanitarium.

Mr. Underwood, who is suffering from a stomach ailment, is reported as improved, following several weeks stay in the sanitarium some time ago. He will probably return in a few days.

### SUNDAY NIGHT AT SETH'S NOW ON THE SCREEN

Combining a wistful, rural simplicity with a stern drama as rugged as the Maine coast, Seth Parker, of broadcast fame, made an auspicious screen debut at the Palace Theatre in RKO-Radio Pictures' "Way Back Home."

The film is a pleasing diversion reminiscent of the vigor, the spontaneous humor and homey rustic atmosphere of the immortal "Way Down East". In it the currently popular Parker brings to the screen for the first time the simple philosophy, the nobility and uncompromising valor of country people in times of stress.

In a sense this unusual picture is an elaboration of the star's weekly broadcasts humanizing the Maine farmer folk, consequently it is distinct novelty whose wholesome character and entertainment values are in sharp contrast with the ruffly falling vogue of gangster films.

Real people activate the film story, but above all rises the striking personality of Parker playing a majestic, modernized Moses who is forever getting his fellow villagers out of trouble. He makes the hamlet tolerant of the errant acts of runaway Rosie, played by Dorothy Peterson, fosters a romance, and adopts a motherless orphan to confound a drunken father.
