

THE FLOYD COUNTY PLAINSMAN

VOLUME NO. 3

Floydada, Floyd County, Texas, Thursday, October 27, 1932

NUMBER 46

WHIRLWINDS VICTORIOUS OVER DRAGONS 27 TO 0 IN FRIDAY GAME; SPECIAL TRAIN CARRIED MORE THAN 300 TO PADUCAH

Marking the winning of the first conference game of the season, the Floydada High School Whirlwinds defeated the Paducah Dragons to the tune of 27 to 0 in the grid tilt Friday.

A special train, run over the Q. A. & P. railroad, carried more than 300 people, including the Whirlwinds and their coach R. P. Terrell, the pep squad and the enthusiastic fans. The train left at 12:30 o'clock Friday afternoon, with a delegation of people at the station wishing the Whirlwinds luck. Leaving Paducah at 6:30 o'clock on the return trip, the special arrived at Floydada at 9:30 o'clock Friday night.

The game was played on the Paducah High School field, the game being called at three thirty o'clock. Floydada won the toss and chose to defend the south goal with the Dragons kicking off.

Freeman of the Dragons kicked to Murray of the Whirlwinds who returned to the Floydada 20 yard line, after being out of bounds. Heald after the first two plays of the game picked up a first down to start the game off right, for the Whirlwinds. The first period of the tilt went overwhelmingly to the Whirlwinds who steadily advanced the pigskin to tally up five first downs to none for the defenders. No scoring was done by either the Dragons or the Whirlwinds in the first quarter although Floydada made their first twenty yard line penetration in the first quarter.

Score in Second
Coach H. A. McDaniels Dragons staged a rally in the second quarter and chalked up two first downs to four for the Whirlwinds during the period. In spite of the fight shown by the Dragons and the comeback spirit exhibited the orange and white were unable to stop the green and white wave.

After the first quarter had ended with the ball on Paducah's 15 yard line in Floydada's possession, to start the second period Murray tossed a pass to Heald which was short. The Whirlwinds were held for downs and Crump punted for the Dragons after they had come into possession of the ball. Murray returned to the Paducah 30 yard line.

Paducah threw the two next plays of the Whirlwinds for losses, Floydada tried a pass but was incomplete and repeated with another pass failure, and Paducah gained possession on the fourth down, on their own 25 yard line. Crump of the Dragons picked up ten yards for the Dragons first down. A pass to Crump was incomplete.

The Dragons attempted another pass which was intercepted by Smith, Whirlwind guard. On the next play after Floydada gained possession of the ball Heald made 12 yards on two plays. Bridges picked up 8 yards to carry the ball into the Paducah 20 yard zone. Paducah gained the ball back in their own territory when Heald fumbled, when hit by a hard tackle. Paducah punted and Floydada gained the ball. Heald around left end to make 30 yards, carrying the ball to Paducah's 20 yard line.

(Continued on back page)

D. D. E. Club of High School Had First Meeting Tuesday
The Debate, Declamation and Extemporaneous Speaking Club of the Floydada High school held its first meeting Tuesday of this week, for the current year.

Officers, who were elected by last year's club took charge of the meeting. Virgil Crawford is president of the 1932-33 D. D. E. Club.

Primary arrangements were made for debate practice to begin soon. Materials on the debate subject for Intermediate League this year will be received soon and the students will be given their study work.

To Have Tournament
Discussions were had on a debate tournament similar to that of last year. Final plans for the tournament will be completed later at the regular meeting which are held every week.

25 students were present but it is expected that more than this number will join the club.

A. D. Cummings, superintendent of schools, is debate coach and sponsors the D. D. E. Club.

County Home Demonstration Council to Meet Saturday, Oct. 29

The Floyd County Home Demonstration club council will meet Saturday, October 29, in the Floyd County court room. The meeting is called for 2 o'clock.

Primary plans will be laid for the annual election of officers for the council to serve during the club year, 1933.

"This meeting is very important and it is to the interest of every club in the county that they have a representative present," Miss Martha Faulkner said.

Winter Makes Unexpected Appearance With First Snow and Rain

Floydada and Floyd County and the Panhandle generally felt Winter's chilling arrival this week. Old man winter, accompanied by a variety of weather including an early snow, made his appearance Monday night.

People of Floyd County were caught unawares Monday night and morning by the first snow, which according to old timers was the earliest in years. Hints of falling weather came Monday evening late with a norther, and later in the night, rain, hail, sleet and finally an inch and a half of snow fell.

Threatening and cloudy weather prevailed until the last week end which was warm and clear. Monday evening the mercury began falling and colder temperatures have prevailed. Following are the temperatures which were recorded for the week: Thursday, high 53, low 41; Friday, high 57, low 49; Saturday, high 73, low 48; Sunday, high 83, low 44; Monday, low 43, high 65; Tuesday, high 50, low 35; Wednesday, low 33. A heavy frost fell Tuesday night, and the lowest temperature of the season of 33 degrees was recorded. The second ice of the season came Wednesday.

The snow which fell Monday night melted rapidly Tuesday morning and this moisture with that brought by the rain will prove a great help to wheat farmers in this section, and will leave a good season for the crop.

Work at Standstill
Cotton picking activities and feed crop harvest was halted by the snow and rain and will probably not be renewed until the latter part of this week or the first of next. Work was well under way in practically every section of the county in the cotton fields.

Roads and highways in Floyd County were heavy and almost impassable Tuesday although some travel had started yesterday and roads are good today.

G. L. FAWVER AND MISS THELMA COLSTON MARRIED LAST WEEK

Miss Thelma Colston and G. L. Fawver were married last week in Floydada. Both are of the Baker community and are popular members of the younger group.

The bride is a daughter of Mr. and Mrs. B. A. Colston, of Baker and the groom is a son of Mr. and Mrs. Geo. Fawver. Both are former students of Baker school and were reared in that community.

They will make their home in the Baker community.

Hester West Circle Started New Lesson Study Tuesday

The Hester West Circle of the Methodist Missionary Societies, met Tuesday afternoon at 4 o'clock at the First Methodist Church.

Mrs. T. W. Whigham taught the lesson which began a new study on Thirty Lessons on the Life of Christ.

The next meeting of the Hester West Circle will be next Tuesday at 4 o'clock at the First Methodist Church.

Billy Joe Welch, who is attending Tech college and John Harvey Scoggin, of Lubbock, visited in Floydada over the week end with Mrs. A. J. Welch and other friends and relatives in this city.

"SHALL I WRITE YOUR NAME?" — By Albert T. Reid

We pledge to see it through:

Whirlwinds to Meet Hard Foe In Yannigans Friday Afternoon

Floydada football fans are promised some loud roaring Friday afternoon when the Floydada High School Whirlwinds encounter the Yannigans, Amarillo Golden Sandies 'B' squad. The green and white Whirlwind may be less powerful than the little golden Sandstorms but that remains to be seen.

The green and white defenders, however, will be in fine physical condition for receiving the Yannigans. In the Paducah-Floydada game Friday the Whirlwinds proved themselves the better physically, taking only one time out for injuries. The Dragons were prone to 'get in the way' of the powerful Whirlwinds too much and several were injured.

New Backfield Arrangement
The opening whistle for the game Friday will probably find Lloyd Murray, erstwhile immovable guard, in the right halfback position. Murray goes to the ball toting position for Hoffman, who will be at tackle position. With the two Murray brothers in the backfield and Heald and Bridges to complete the ball toting group, Coach R. P. Terrell is expecting some favorable results. F. Murray, Heald and Bridges did their usual good playing in the Paducah game Friday.

The men on the Whirlwinds forward wall will be: de Cordova, left end, Johnston, left tackle, Henry, left guard, Ginn, center, Smith, right guard, Jackson, right tackle, and Jenkins, right end. Smith, who is taking Murray's guard, was an outstanding player in Friday's game.

Coach T. G. Hull's Yannigans this season have defeated Dalhart 19 to 0, tied Friona 0 to 0. The dope is this: Yannigans tied Friona, Friona held Hereford to a 12 to 0 victory, therefore the Hereford Whitefaces are a two touchdown better team than the Yannigans. Hereford is rated as the strongest team in that district and west Texas.

Although the Yannigans are not over heavy, averaging about 160 pounds to the man, they are a hard running and ground gaining aggregation and are rated high. Off tackle plays are their specialty. The Whirlwinds are expecting and preparing for a battle royal Friday afternoon.

The game starts at 3:30 o'clock and will be played on Whirlwind field. Thirty three men on the squad of the Amarillo Yannigans, accompanied by their coach, T. G. Hull, will leave Friday morning at 8 o'clock from Amarillo to make the trip by bus to Floydada, and are expected to arrive here before noon.

Let Cavanaugh do your Printing.

Baptist Church Unions To Have Halloween Parties This Week

In observance of and in keeping with hallowe'en, several auxiliary units of the First Baptist church in Floydada will enjoy parties this week end.

The Berean, young men's class, and the Fidelas, young women's class, will enjoy at joint social at the First Baptist church Thursday evening at 7:30 o'clock.

Members of the Senior B. Y. P. U. will meet at the home of Milton Sims, three miles east of Floydada, in a party. The intermediate and junior B. Y. P. U. groups will hold a joint social in the intermediate department auditorium Friday evening.

The adults and teachers will hold their party on the main floor of the Baptist church on Friday night.

Mr. and Mrs. T. C. Russell Guests at Birthday Dinner in Lubbock

Mr. and Mrs. T. C. Russell, of Floydada, were among the guests at a birthday dinner at Lubbock Thursday evening. Mrs. Russell Morrison was hostess at the dinner honoring her husband on his fiftieth birthday.

Mr. Morrison is well known by a number of Floydada people having been a regular visitor here for a number of years.

MATADOR DEFEATED LOCKNEY

The Matador High School Bullfighters, Matador eleven, won their first conference tilt last Friday by defeating the Lockney Longhorns 59 to 0, in a game at Matador.

The Bullfighters are looming as a strong contender for the district or sectional title and the Whirlwinds are preparing for them. The Bullfighters earlier in the season defeated the Crosbyton Chiefs by a large score.

AT FATHER'S BEDSIDE

Mr. and Mrs. W. B. Aiken and daughter, who reside in the Harmony community, left Saturday for near Waco where they are visiting Mr. Aiken's father, who is seriously ill.

Misses Selma Lider and Margaret Sims, who are attending Wayland Baptist College in Plainview, spent the week end visiting with their parents in this city.

Charles Brown, student in Tech college at Lubbock, visited over the week end with his parents, Mr. and Mrs. R. F. Brown, in this city.

OLLIE M. CONWAY, LAKEVIEW RESIDENT, DIED SATURDAY

O. M. Conway, aged 42 years, 11 months and 28 days, died Saturday morning at 6:45 o'clock at the Smith & Smith sanitarium from a stroke of apoplexy. Mr. Conway became ill early Saturday morning with acute indigestion and was brought to the sanitarium by members of the family. After physicians had ministered aid Mr. Conway became improved and was preparing to return to his home when death occurred instantaneously, from a stroke.

Ollie Mitchell Conway was born November 9, 1889 in Ozan, Arkansas, a son of Mr. and Mrs. R. H. Conway. He had been a resident of Floyd County for sixteen years, making his home in the Lakeview community. During the sixteen years that he resided in Floyd County Mr. Conway became well and favorably known, being a prominent farmer of the Lakeview community, managing the Conway Brothers farms.

Surviving Mr. Conway are his widow, three children, two sons, Price, 19, and Joe, 11, a daughter, Flora, 12; the parents, Mr. and Mrs. R. H. Conway, of Lakeview community, and two brothers, John and Henry, also survive and live in this county.

Funeral Held Sunday

Funeral services for deceased were conducted Sunday afternoon at 3 o'clock from the Lakeview Baptist Church with Rev. J. Mat Harder, of Ralls, in charge. Rev. F. O. Garner, of Floydada Methodist Circuit and Rev. H. N. Reed, of Crosbyton assisted.

A host of friends and the members of the family were present for the funeral services.

Pall bearers, Claude Patton, Lovell Jones, Elmer Roy, Wayne Wright, Luther Kiker, W. T. Hopper; honorary pall bearers, Glad Snodgrass, Fred Zimmerman, Mark Martin, W. N. Jones, Monroe Harrison, Fieldon Roy, Roy Patton, Hugh Nelson, Fred Batty, Harry Jones, B. L. Breed, R. C. Smith.

Flower girls, Opal Nelson, Estelle Nelson, Evelyn Roy, Imogene Roy, Claudine Merle Patton, Vida Battey, Zella Battey, Fannie Ruth Patton, Bernice Patton, Tinnie Patton, Adele Evers, and Lena Mae Nelson.

Interment was made in the Lakeview cemetery with A. L. Mayhew of Harmon's Funeral Directors in charge of arrangements.

Mr. and Mrs. J. H. Houston, and family, of Lubbock, were in Floydada Sunday visiting with Mr. and Mrs. J. B. Houston.

Miss Maxine Sloneker, of Plainview, spent the past week end visiting with Miss Joy Deen at her home in Floydada.

Mallory's Grocery To Entertain With Party This Week

Plans have been completed by Mallory's Grocery, a Red & White store in Floydada, for a reception and open house party Friday evening of this week from 7:30 to 10:00 o'clock.

The general public is being invited to the opening sale and reception. Refreshments will be served and several demonstrations will be given.

Lack of Scoring Punch Causes Breezes Defeat By Lubbock Juniors

Although playing reputable football on both the offensive and defensive, the Little Breezes of Floydada, failed to find the proper power for scoring and went down under a one touchdown defeat before the Lubbock Junior High Eleven. The game was played on the Whirlwind field Monday afternoon, having been postponed until this date from last Thursday.

With the backfield mainstay, Malcom Lider, regular quarterback out of the game due to illness, the Breezes offensive was greatly weakened although they chalked up more first downs than the Lubbock Juniors. Junior Rutledge directed the Breezes play during the game and filled Lidars shoes in the quarter position.

The Breezes penetrated the Lubbock Juniors twenty yard line two or three times during the fray but were held for downs and the Lubbock lads came into possession of the ball.

Score in Last Period

The Lubbock boys were also held scoreless until the last two minutes of the fourth quarter when a well executed fake spin play gained 35 yards and placed the ball on the Breezes twenty yard line. A series of line plays carried the ball over the scoring line and before the next play could be put into action the game ended with the score, Lubbock 6, Floydada 0. This was the first defeat suffered by the Breezes during the current season, having defeated the Plainview Bullpups in one game and tied them in another.

The Breezes probably had a slight edge over the Lubbock crew in scrimmage yardage gained and punting, having made the most first downs. Both teams played exceptionally good football and the fans present witnessed a real tilt between junior teams.

Coach J. "Mule" Davis' Lubbock Junior Eleven were well trained in blocking and handled the ball with skill and ease. The Lubbock eleven used these wingback formation with visible results. The Breezes were in fine condition in spite of the fact that they only practiced a few times since their other game.

Floydada's starting lineup: RE, Johnston; RT, Montgomery; RG, Jones; center, Eudy; LG, Baker; LT, Howard; LE, Smith; Quarterback, Rutledge; halfbacks, Hollingworth and Harmon; fullback, Connelley. Substitutes, Dorsey for Johnston at end, Allen for Jones, at guard, Bishop for Eudy, at center.

Officials: J. C. Wester, referee; Ernest Carter, umpire; F. Murray, headlinesman.

Will Return Game

Coach Richard Stovall's Little Breezes will meet the Lubbock Junior High School Eleven in the return game at Lubbock, November 3. Coach Stovall is looking forward to a victory over the Lubbock Juniors when Lider is back in the game and the Breezes go through their regular practices.

CHRISTIAN ENDEAVOR PRESENTED PROGRAM AT STARKEY CHURCH

The Christian Endeavor union of the First Christian Church took a program to Starkey Sunday night, presenting it at the regular service hour.

Members of the Endeavor were: Mr. and Mrs. J. A. Enoch, Bernice and Daisy Lee Gresham, Gladys Ruth Brown, Blanche and Ruth Enoch and Eugene Beard.

Mr. and Mrs. Tom Walker, of Waynoka, Oklahoma, arrived Saturday for a visit in Floydada with Mrs. Walker's sisters, Mrs. E. F. Eastridge and Mrs. H. O. Pope. They will return to their home about November 1.

FUNERAL SERVICES HELD FOR MRS. C. R. GOEN THURSDAY

Funeral services were conducted Thursday afternoon at 3 o'clock for Mrs. Cornelia Ray Goen, 73, of Floydada. Mrs. Goen died Wednesday night at 7:30 o'clock at her home on South Main street in this city.

Elder Chas. W. Watkins, of Petersburg was in charge of the funeral services, conducted from the Wall Street Church of Christ. Funeral arrangements were in charge of F. C. Harmon Funeral Directors.

Mrs. Goen died following serious illness that continued for two weeks. She had been in failing health for some time but was bedfast for only two weeks.

Cornelia Ray Goen was born February 22, 1859, near Corinth in Mississippi. She came to Johnson county, Texas, with her widowed mother and two sisters in about 1870, her father having been killed in action as a Confederate soldier in the Civil War.

She was married on November 20, 1879 to Prentis Mera Posey Goen and four children were born to this union, three sons and one daughter. The three sons, Arthur Claude Goen and William Stanford Goen, both of this city, and Lewis Prentis Goen of near Lockney, are surviving.

Mrs. Goen's husband and the infant daughter, Phillip, and a son, were killed in a cyclone near Olustee, Oklahoma, May 13, 1892, the family having moved to Greer county, Texas, which later became a part of Oklahoma. The family resided near Olustee for 14 years and moved to Floyd County in 1903, living here since that time.

Mrs. Goen became well known in Floydada during her many years residence here, being better known by her friends as "Grandma" Goen. Surviving also are two sisters, Mrs. M. Carthel of near Lockney and Mrs. Monroe Hones of Portales, New Mexico. All members of the immediate family and a host of friends and other relatives were present for the funeral services.

Active pallbearers at the services were: S. E. Duncan, Ross Henry, Roe McCleskey, W. U. White, John Maxwell and Glad Snodgrass. Flower girls were: Enid Scoggia, Thelma Ritter, Dorothy Goen, Gladys and Olga Carthel, Reba Duncan and Mrs. Hall Ferguson.

First Meat Canning Demonstration to be at Home of Mrs. Jordan

The first of a series of beef canning demonstrations, in Floyd County, will be given next Wednesday in the Center community. The demonstration will be given at the home of Mrs. W. B. Jordan in that community.

Residents of the Center, Fairview, Cedar Hill and north Campbell communities will be accommodated together with any other visitors. S. W. Ross, secretary of the Chamber of Commerce, will make the cutting demonstration, and Miss Martha Faulkner will make the canning demonstration.

The beef will be furnished by Lee Rushing of the Fairview community. A number of the residents of the Center, Fairview, Cedar Hill and Campbell communities are expected to be present.

South Plains will be the scene of second meat canning demonstration to be given November 4. A place had not been arranged for late yesterday, but final plans will be made this week by Miss Faulkner, who will be in charge.

Barn Destroyed by Fire Saturday Afternoon; \$100.00 Damage

A hay barn belonging to Lon M. Davis and located at the rear of his home, 317 West Missouri Street, was completely destroyed by fire Saturday afternoon. The fire was thought to have been caused by spontaneous combustion in several bales of hay in the building.

An alarm was sounded for the Floydada Fire Department and the fire was extinguished in time to save another out building adjoining. Approximately \$100.00 damage was done by the blaze according to Fire Marshal G. R. Strickland.

Mr. and Mrs. A. P. Horn visited in Lubbock one day last week with friends and relatives.

H. C. BOSLEY, 74, INJURED WHEN CAR OVER-TURNS NEAR MATADOR

H. C. Bosley, 74, of Floydada, was painfully injured and shaken up, and Mrs. H. C. Bosley and Miss Vivian Bosley were slightly injured when the car in which they were riding enroute to Wichita Falls overturned seven miles west of Matador.

Miss Bosley, former resident, had been in Floydada visiting with her

parents Sunday and Mr. and Mrs. Bosley were returning with her to visit. Miss Bosley, who was driving the car at the time of the accident, attempted to drive around another vehicle in the highway when the car ran into the ditch. Mr. Bosley was thrown against the steering wheel of the machine, suffering injuries to his chest, shoulder and back. The party was brought to Floydada where Dr. Houghton gave medical aid, and reported that none of the

party sustained broken bones or other serious injuries.

Mr. Bosley is recovering at his home this week and his injuries are not thought to be serious. The car, a new Ford, was not damaged.

Mrs. C. C. Beller, and Claud Pepper, of Anahuac, Texas, came Saturday afternoon for a visit with their sister, Mrs. J. T. McClung and family in Floydada. They visited until this mid-week.

POULTRY FARM POULTRY

GROW MORE CAPONS AS FARM SIDELINE

Surplus Cockerels Do Well for the Purpose.

(By ROY S. DEARSTYNE, Head of North Carolina State College Poultry Department.—WNU Service.)

Nothing is more appetizing on the family table than a well grown and finished capon, and they may be sold readily on local markets.

The surplus cockerels on a farm may be used for this purpose. However, only well-developed birds should be used. If vigorous, robust, worm-free birds are used, they may be grown out into heavy capons that bring good prices. Never use a Leghorn for this purpose, but use such breeds as the Rocks, Brahmas, Orpingtons, Cornish Wyandottes or Jersey Black Giants.

Timing the caponizing operation is necessary. The best markets exist about Easter and this avoids putting the capons into competition with turkey at Thanksgiving and Christmas. To have birds ready for the Easter market, caponize them about July 1 to 15. This will give them time to develop large frames and go through the intensive feeding period which finishes such a bird in from 10 to 14 days.

Flock Will Respond to Well-Balanced Ration

Eggs from chickens fed a ration full of vitamins A and D are better food than eggs from chickens fed rations less rich in these vitamins, according to the results of recent research available to the department of poultry husbandry at the Ohio State university.

Recent experiments indicate, says the department, that the amount of vitamin A and D supplied to the birds is directly reflected in the vitamin content of the eggs produced. Thus, in feeding his hens to maintain their health, the poultryman is feeding for eggs of better quality and more worth.

A ration for hens rich in vitamins would contain yellow corn, alfalfa leaf meal, or a high grade cod liver oil.

Vitamin D prevents rickets and assists with the building of bone. Vitamin A builds resistance to disease and infection.

Fight Lice

Hens like to dust and it probably removes quite a few lice, but the method is not desirable for controlling lice in the poultry house. When hens are working in the dust troling lice in the poultry house, is unhealthful for the owner and it seems as if colds are more prevalent among the birds when their nostrils are often filled with dry dust.

The poultryman is more apt to control lice if the hens are crated at least twice a year and each given the blue ointment or sodium fluoride treatment. If you do not wish to catch the hens, use the nicotine sulphate (Black-Leaf 40) on the roosts at sundown.—Indiana Farmer's Guide.

Early and Late Chicks

Chicks hatched early have many advantages over those hatched late. As a general rule they are more vigorous; the mortality is less; the cockerels may be sold for better prices, and the pullets will mature in time to lay high-priced eggs next fall.

Just why the early chick is more vigorous is hard to explain. That less mortality is experienced is probably due to the fact that coccidia and parasites, such as worms and mites, are less active before the onset of hot weather. It is true that more trouble from these pests is experienced later in the season.

POULTRY NOTES

Skimping on growing chicks' rations never pays—"Feed them or sell them."

It is estimated that a chick will consume four pounds of feed during the first eight weeks of its growth.

Since production the first year is usually 15 to 30 per cent higher than in later years, one should cull during that time, discard the poor producers, and keep the best over for the next year.

Ducks are apt to be the most satisfactory breeders during their first season of production.

Only one chick disease is known to be transmitted directly from hen to chick. This is pullorum disease, commonly known as bacillary white diarrhea.

A palatable and economical mash feed for fowls may be made of 200 pounds each of cornmeal, bran and shorts, 150 pounds of meat scrap and 7 1/2 pounds of salt.

The first ten to twelve weeks after hatching is the critical time with young turkeys. Once safely by this period the birds grow well and, if given reasonable care, will return a profit.

TO PREVENT LOSS FROM ROUND WORMS

How Poultry Pests May Be Combated.

(By C. M. FERGUSON, Poultry Extension Specialist, Ohio State University.—WNU Service.)

Costly losses from troublesome round worms that sap vitality and produce runts in the poultry flock may be prevented by taking three simple precautions. The first step in protecting the chick crop against round worms is complete isolation of the chicks from the adult birds. This is most easily accomplished, by keeping the laying flock either confined to the laying house or confined to a limited range. It may also be done by brooding the chicks on ground which has not been used for poultry or where poultry manure has not been spread for at least two years, and where the adult birds cannot come in contact with the chicks.

The second step is to take precautions in preventing the carrying of infective material on the shoes, buckets and equipment when the poultryman is walking from the laying house to the brooding quarters.

Frequent cleaning of the poultry buildings and the removal of manure to some distant field where it should be spread thinly is the third step in controlling this dreaded pest of the farm flock. If this is not practical, a manure pit constructed to keep out the flies, insects, and rodents will not only aid in the prevention of round worm infestation, but will also tend to prevent the spread of tapeworms from adult birds to the growing chicks.

Feed Mixtures on Which Chickens Will Thrive

A good mash feed for chickens, when milk is the only drink, is mixed as follows: 150 pounds of ground yellow corn, 100 pounds of wheat bran, 100 pounds of oat flour, 75 pounds of wheat shorts or middlings and 50 pounds of high-grade meat scrap.

When the chicks do not have access to green leafy feed, five pounds of alfalfa leaf meal should be added to each 100 pounds of the mash, says the Dakota Farmer. If meat and bone scrap are not used, three pounds of bone meal should be included to each 100 pounds of mash. One pound of sifted table salt and one pint of high-grade cod-liver oil per 100 pounds of the mash should be mixed in. The cod-liver oil should be mixed with the bran first. Chick-size oyster shell, calcite or high-grade limestone should also be kept available.

Feather Picking Checked

A subscriber writes from Sheboygan county, asking what may be done to prevent hens from pulling out feathers from each other.

Feather picking is a mean habit sometimes acquired by flocks in close quarters. It usually disappears when they are let out on the range. Watch and take the worst offenders out of the flock.

The addition of meat scraps or meat in some form to the ration will also help to check this bad habit.—Wisconsin Agriculturist.

Poultry Outlook

The poultryman has led all of his fellow farmers in adjusting supply to demand. Four hens, on an average, have been taken out of every farm flock in the United States or about 20,000,000 hens. In addition fewer chicks have been hatched, so much of a decrease in fact that some forecast a shortage of eggs next winter. Prices are bound to reflect this adjustment just as they will in every other agricultural product when the same adjustment takes place.—Exchange.

Let Sun Shine In

On warm days the fronts of poultry houses should be thrown open so that the sunlight may get into the house and on the birds. It will help keep the flock strong and healthy in addition to keeping the house dry. Sunlight not only aids in improving the health of the flock, but also tends to increase laying and to improve the shell strength of eggs, states E. W. Henderson, Iowa State college. Soft-shelled eggs often result from insufficient sunlight.

POULTRY FACTS

Stale, inferior eggs probably kill the demand for eggs far more than do prices.

Overheated incubators represent a real fire hazard. Lamps should be carefully inspected and watched.

If your poultry flock has experienced an outbreak of fowl pox within the past year, vaccinate all chickens between the ages of three and one-half and four months.

Poultry production and poultry population has decreased, according to the federal authorities.

Advice Given on Record and Performances.

Low soybean and alfalfa seed prices this year may result in more of these two crops being grown, according to R. D. Lewis, extension specialist in farm crops at the Ohio State university.

Because of the fine record and performance made by soybean seed available locally, the variety Manchito should be preferred in 1932 for hay or grain production, he believes. There is a specially selected strain of Manchito here in Ohio that is superior to strains from other states. Peking, Virginia, and possibly Wilson are superior hay beans for southern Ohio. Only soybean seed that has been tested recently for germination should be purchased.

Alfalfa seed prices also are very low in 1932 and in some cases may be obtained as reasonably as red clover. On suitable soils some of it may well be included in the regular hay mixture. Pure stands may be seeded at low costs where all conditions as to drainage and line forecast successful results.

For best performance and persistent stands, Lewis recommends the variegated alfalfa. Of these, the new Hardigan alfalfa from Michigan is superior. Grimm is a close second.

Good Growth of Alfalfa Depends on Many Things

Careful planning is necessary to insure a good stand and growth of alfalfa. Many prospective fields have been unprofitable because they were not carefully selected and planned. Unsuitable fields, improperly prepared seedbeds, too thick and growthy nurse crops, and unadapted seed, are causes of failure that are most common.

Alfalfa requires a good loam soil that is well drained. Usually it does not do well on clay and most sand soils lack fertility to give it a good chance. A soil underlaid with gravel to provide natural drainage is desirable. It is useless to sow alfalfa on sour soils. If a soil tests acid it should be treated with limestone. Alfalfa feeds heavily on phosphorus and potassium, and as a crop of alfalfa is left for three or four years, it is essential that the soil be well supplied with these plant foods.

In selecting seed, get clean seed free from weeds. The seed should have been produced in a climate as severe as where the crop is to be grown. Seed produced in mild climates should not be used. The seed should be secured in advance, as last minute purchases may be disappointing.—Prairie Farmer.

PRESBYTERIAN C. E. UNION TO PRESENT PLAY "ADVANCING YOUTH"

"Advancing Youth," is the title of the play to be presented by the Christian Endeavor of the Cumberland Presbyterian Church at the regular church period next Sunday night.

Miss Kate Stiles is director of the play which is on the main theme of Stewardship and in keeping with the observance of young peoples day at the Presbyterian church.

The general public is invited to be present for the play which begins at 7:30 o'clock.

Edward Schultz, of Fargo Oklahoma, visited last week with Dr. and Mrs. Miles Frost in Floydada. Mr. Schultz is connected with a newspaper advertising firm, and was enroute to Dallas where he will assume his duties.

How Doctors Treat Colds and Coughs

To break up a cold overnight and relieve the congestion that makes you cough, thousands of physicians are now recommending Calotabs, the nausealess calomel compound tablets that give you the effects of calomel and salts without the unpleasant effects of either.

One or two Calotabs at bedtime with a glass of sweet milk or water. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you wish,—no danger.

Calotabs are sold in 10c and 35c packages at drug stores. (Adv)

In Final Drive For Votes

Two very informal pictures of the presidential candidates, President Hoover and Franklin D. Roosevelt, as they started on their final drive to win votes for the Republican and Democratic tickets. Here they are, two aggressive candidates—so take your choice.

Legion Heads at Capitol

LOUIS A. Johnson, new National Commander of the American Legion and John T. Taylor of the legislative committee, photographed as they talked upon President Hoover.

After 40 Years

Amos Alonzo Stagg, grand old man of football, and All-American on Walter Camp's early selections, now past 70 years of age, has been forced off the Chicago U. athletic staff because of faculty rule on age.

Sings For Orphan Tots

Frieda Hemple, Grand Opera star, gathered up these two orphan tots at a N. Y. Baby Infirmary, and said certainly she would sing for them at one of the community sings, the proceeds to go to the care of orphans and babies there.

For Relief Work

Margaret Halstead, daughter of the American Consul-General at London, arrives home in the U. S. to do her bit in national relief work. Miss Halstead has scored high in opera roles.

Another Hundred Years for Logan Elm

In the hope to preserve the famous old Logan Elm at Circleville, Ohio, believed to be the oldest tree east of the Rocky Mountains, a special fund is being raised to go toward the tree's preservation.

A Non-Partisan Bob

Ann Taranda posed for this new Non-Partisan bob, the new coiffure for fall and winter shown at the national beauty show in New York. On the left side the hair is curled "down" for the loser; on the right "up" for the winner.

Girl Lead the Way

Miss Ruth De Roo, 16 years old, the Flint, Mich., girl who started veteran boatmen in her sensational driving to win over 120 amateur pilots in the National Outboard Regatta held at Bay City, Mich. This performance stamped her as one of the leading drivers of 1932.

Army Coach for 1933

Lieut. Garrison Davidson, himself a noted Army gridman a few seasons ago, will be head coach of West Point Military Academy football team in 1933 to succeed Major Ralph Sasse, head coach in 1931-32.

Bar Association Head

Clarence E. Martin, of Martinsburg, W. Va., is the new president of the American Bar Association, having been elected at the fifty-fifth meeting to succeed Guy E. Thompson of St. Louis.

When You Visit Five Texas Cities There Are BAKER HOTELS To Make You Comfortable

At each of these Baker Hotels you will find the same excellent service pleasantly rendered, and the same thoughtful provisions for your comfort.

It is an advantage to be able to visit these principal cities of Texas always in hotels under the same efficient system.

THE TRUTH ABOUT RHEUMATIC PAINS
There are many causes of rheumatism. Hence, no one remedy can cure all cases. But if the cause of YOUR rheumatic pains is excess uric acid, then you should know that by taking Gold Medal Haarlem Oil Capsules you can stimulate your kidneys to carry off more uric acid poison. In 257 years this fine, old medicine has relieved millions. INSIST ON GOLD MEDAL. 35c & 75c.

MR. AND MRS. H. B. SAMS ENTERTAINED ROUND DOZEN CLUB

Mr. and Mrs. H. B. Sams entertained the Round Dozen Bridge Club at the regular meeting last Thursday evening at their home in south Floydada.

A hallow'en motif was carried out in the color scheme and decorations of the rooms where the two tables were at play.

Those playing were: Mr. and Mrs. John Hammonds, Mr. and Mrs. Tony B. Maxey, Mr. and Mrs. Louis Condra, and Mr. and Mrs. H. B. Sams. The next meeting will be with Mr. and Mrs. Louis Condra, Thursday evening, November 3, at 7:45 o'clock.

Charlie Snell, of Lubbock, visited in Floydada one day last week with Mr. and Mrs. T. C. Russell.

FIRST METHODIST CHURCH
Rev. I. A. Smith, Pastor.

Following the weekly schedule of meetings during the winter months: Sunday school 9:45 o'clock Sunday morning.

Preaching Services, Mornings 11 o'clock.

Epworth Leagues, 6:30 o'clock Sunday evening.

Preaching services, evening 7:30 o'clock Sunday.

Midweek prayer service, Wednesday evening at 7:30 o'clock.

Public generally invited to all of these meetings.

FIRST CUMBERLAND PRESBYTERIAN CHURCH

Preaching at 11:00 a. m. and 8:00 p. m.

Christian Endeavor at 7:00 p. m.
Prayer Meeting Thursday evening at 8:00.

POULTRY

SAVE THE POULTRY BY KILLING MITES

Simple Treatments to Get Rid of Lice.

By O. C. UFFORD, Extension Poultryman, Colorado Agricultural College—WNU Service.

Many Colorado farmers and poultrymen save money and cut costs of production simply by preventing their poultry houses from becoming infested with lice and mites.

Lice and mite infestations affect the health, growth and production of poultry. These pests can be easily controlled by proper action. Lice, which live on the birds and are known as biting parasites, may be controlled by smearing a small amount of blue ointment mixed with an equal amount of petroleum jelly, lard or vaseline, around the vent.

This treatment should never be used on small chicks. Dusting powders such as sodium fluoride may be placed in the feathers on different parts of the body to control lice.

When large flocks are treated for lice, nicotine sulphate may be applied with a brush or oil can to perches before the birds go to rest. Fumes from the nicotine destroy the parasites. This fluid will also kill mites if they come into contact with it. Badly infested flocks should be treated a second time in about ten days.

Mites live around perches and roosting places, gradually spreading over poultry houses and farm buildings when not controlled.

Stock dips, formaldehyde or carbolic acid are some of the common materials used for spraying roosts and houses. An effective home remedy can be made by using one gallon of crude crank-case oil, one-half pint of stock dip or crude carbolic acid, and, if necessary, this may be thinned with one or two quarts of kerosene. The easiest time to control lice and mites is in the spring, before they become too numerous.

Best Results Only for Careful Poultry Raiser

The properly balanced ration accomplishes wonderful results when fed to stock that is rightly bred, well managed and correctly housed.

Houses and equipment, such as brooders, feed hoppers, drinking pans, etc., that are sufficient to accommodate 100 chicks will not take care of 500. Satisfactory growth cannot be made under such conditions. Growing stock needs lots of feed; provide a good grain feed and a good growing mash in hoppers so the birds can get it.

The condition of a carcass when it is marketed depends almost entirely on the way the bird is cared for up to the time it is killed. This means the way in which it is grown and the way it is fattened for market.

A poorly grown bird will not take on weight satisfactorily; its digestive organs have not developed sufficiently to handle the more or less concentrated feed that is fed during the fattening period, nor does the bird have the vitality to stand up under this fattening process.

Don't Mix Old and Young

The Bible tells us it is unwise to put new wine in old bottles. Today a modern poultryman will tell you not to attempt to raise young chicks in old quarters. A still much less desirable practice is to attempt to put chicks in quarters occupied by old stock. It is a hopeless task to raise young and old together. The conditions are not sanitary, the ground is teeming with parasitic organisms such as worms and coccidia and the chicks will become badly infested with lice. Again, the baby chick doesn't get an opportunity to eat. They not only cannot eat but are trampled under foot. If one wants to successfully raise chicks, keep them away from the old hens and raise on clean, fresh ground. Losses from rats are much less apt to occur if the chicks are brooded some distance from the farm buildings.—Missouri Farmer.

Diarrhoea in Fowls

Diarrhoea may be caused by feeding spoiled food of some kind and garbage should be pretty carefully inspected before being fed. It may easily contain spoiled bits of meat or moldy food of some kind. A dose of epsom salts, one pound dissolved in the drinking water of 100 fowls, or dissolved in a little water and mixed with a wet mash, so distributed that all can get their share, may be given to clean out the digestive organs of the birds.—Rural New-Yorker.

Poultry for Income

Science has placed the rate of mortality among chicken flocks so low that it is now no longer a major risk. As an income source, both from meat and eggs, poultry offers returns measured fairly accurately by the number of chicks to be used. The initial investment in equipment is offered today at most attractive prices and since the life of equipment extends over a long period of years, the annual investment may be considered very low.

Part of Fertilizer in Farm Management

Means More Than Increase in Production.

The function of a fertilizer is to supply such plant food as the soil, unaided, is able to supply. Fertilizer is a tool of crop production, to be used, like any other tool, when a profit can be made.

There are soils and conditions where other factors are so limiting that a profit from fertilizers is hopeless. But the majority of farmers who will combine the use of fertilizers with other good farm practices will find that fertilizers have an important place in a farm management program to reduce production costs and to give a greater labor return.

While increase in yield is usually the principal effect of fertilizers, other effects, such as improvement in quality, earlier starts, earlier maturity, and greater disease resistance are frequently of equal value. Harder, more mature corn, earlier and plumper small grains, better grading potatoes, heavier heads of cabbage, better tobacco—these are common, rather than unusual effects of good fertilizer treatment.

Few Agricultural Pests Without Bird Enemies

The United States biological survey, in Farmers' Bulletin 1682-F, describes the "Usefulness of Birds on the Farm." W. L. McAtee, in charge of the bureau's division of food habits research, says that hardly an agricultural pest exists but has effective bird enemies. In Utah during an alfalfa weevil outbreak biological survey scientists found 45 species of birds attacking the pest. One killdeer's stomach examined in this investigation contained 383 individual weevils, and the contents of a brewer's blackbird's stomach showed that the bird had eaten 442 weevils, constituting 96 per cent of its food. The everyday services of birds in consuming insects of all kinds and holding back the threatening tide of insect life, are probably of greater significance than their emergency help. A list published in the bulletin shows that the cotton-bill weevil has 96 bird enemies, the gypsy moth 46, the army worm, 43, leaf hoppers 175, the potato beetle 34 and wireworms 205.—Rural New-Yorker.

Inoculate Legumes

Although legume seeds are cheaper this year than they have been, yet compared with prices of other farm crops, they still cost enough that farmers should use every effort to secure a good stand and best results. Inoculating the seed is an important step toward success. There are a number of good commercial inoculants on the market that should be used according to the directions of the manufacturers. Their use simplifies the job of inoculating. For those who wish to use dirt for inoculation, the easiest plan is to secure soil from a field where well inoculated plants were grown last year. This dirt is then mixed with water to the consistency of cream, and is mixed with the seed, care being taken that some of the mud gets on each seed. The seed is then dried and sown. After inoculation seed should be kept out of the sunlight.—Prairie Farmer.

Salt Box for Sheep

A salt box that will supply salt and at the same time apply tar to the noses of the sheep as described by one authority is four inches deep, six inches wide and four feet long. A board three and one-half inches wide, placed flatwise at the back of the trough and three inches from the bottom, runs the entire length of the trough. A strip of sheepskin, wool side out, is tacked to the edge of the three and one-half inch board. This is smeared with tar. The sheep, when they protrude their noses through this two and one-half inch space to secure the salt get their noses tarred. An A-shaped roof over this box high enough so as not to interfere with easy access to the salt will make it weather-proof.—Indiana Farmer's Guide.

Agricultural Squibs

Apple trees in sod need about one-quarter pound of nitrogen fertilizer annually for each year's growth, up to thirty years.

If the garden is carefully planned two vegetables a day will be provided for summer use and two vegetables a day can be canned or stored for winter use.

It is estimated by the American Tree association that there are 120,000,000 idle acres in the United States which are suitable only for trees.

Do not mound up earth around fruit trees just planted. It is better to leave a little depression around each tree to catch rain when it falls.

Silage is a good insurance against a period of scant feed. If the rainfall is sufficient to keep the pastures growing the silage may not be needed. In that case it can be kept over for the next season.

Hog Raisers Differ on Early or Late Weaning

Hog feeders are not unanimous in their opinions as to what is the best age at which to wean young pigs, and it is evident that the differences coincide quite closely with the general feeding plan followed. Those who self-feed are usually definitely in favor of leaving the litters on the sows for at least eight, and sometimes ten weeks. Feeders who hand-feed, and particularly those who feed soaked feed are more apt than not to prefer to wean their pigs at an age of from four to six weeks.

Nor is the practice of early weaning entirely a matter of following a custom of earlier days, for it is a very common experience with hogmen who breed the more prolific breeds, that up to the age of four or five weeks a litter of twelve or fourteen pigs appears as thrifty as could be wished for, only to have them from that time on begin to slow up in growth, lose their baby blooms, and perhaps divide up into five or six husky ones while the rest seem to stop growing altogether. Such a litter weaned as soon as these symptoms first appear will usually come on far better than if left on the sow for another two or three weeks.

Test the Apples

When planting new varieties of apples in the orchard, it sometimes happens that we get a variety that does not suit us. Instead of waiting for the young tree to come into bearing to find this out, we save a few of the prunings from each young shrub and graft them by top-working onto a thrifty tree of bearing age. In this way I get a sample of the new apples in about 20 months, and if they do not suit me I grub out the young tree and replace it with some other variety. This plan enables us to keep our orchard free of undesirable varieties, and is a big help in detecting trees which are not true to name. The grafting job can be done by any farmer after a little practice, and it has proven successful with us in all varieties of apples.—F. R. C., in Rural New-Yorker.

Walnuts Source of Income

That black walnuts can be made to supplement the family income with but little expense or special equipment is pointed out by the United States Department of Agriculture. There is usually a good demand for well-prepared black walnut kernels. Care in gathering and husking the nuts and extracting the kernels, however, is necessary for the best results. Those who place this product on the market should realize the importance of offering only clean, sound nut kernels.

Your Electric Power Supply Must Be Flexible

Electric Power, to serve any community adequately, must be flexible. It must meet all requirements, large or small—from a huge factory to a small household—at any time and at any place.

The transmission line delivers larger amounts of power AT ONCE without the delay of installing additional equipment. Thus it clears the way for a rapid and permanently expanding industrial growth.

The present day industrial progress of small communities is based on the ample and economical power supply which resulted when transmission systems replaced small plants throughout the Nation.

The Texas Utilities Company, through its widespread 1000-mile transmission line connecting network, makes available about 60,000 horsepower of electric energy ready at the turn of a switch.

Mrs. Le Roy McDonald Entertained San Souci Bridge Club Members

The San Souci Bridge Club met with Mrs. Le Roy McDonald Wednesday afternoon, October 19. At the conclusion of the games, Mrs. Terrel Loran held high score for the members and Mrs. Fay Maxey for the guests.

Delicious refreshments were served to Mrs. Jeff Welborn, Mrs. Bob Ross, Mrs. Sam George, Mrs. Rex Westerfield, Mrs. George McAllister, Mrs. A. D. Cummings, Mrs. Jack Deakins, Mrs. Terrel Loran, members; Mrs. Calvin Steen and Mrs. Fay Maxey were guests of the club. Mrs. Terrel Loran will entertain the club Wednesday, October 26.

BORN—To Mr. and Mrs. John A. Jones, Thursday, October 20, a son.

This Woman Lost 45 Pounds of Fat

"Dear Sirs: For 3 months I've been using your salts and am very much pleased with results. I've lost 45 lbs., 6 inches in hips and bust measure. I've taken 3 bottles—one lasting 5 weeks. I had often tried to reduce by dieting but never could keep it up, but by cutting down and taking Kruschen I've had splendid results. I highly recommend it to my friends."—Mrs. Carl Wilson, Mantou, Mich.

To lose fat SAFELY and HARMLESSLY, take a half teaspoon of Kruschen in a glass of hot water in the morning before breakfast—don't miss a morning. To hasten results go light on fatty meats, potatoes, cream and pastries—a bottle that lasts 4 weeks costs but a bottle—but don't take chances—be sure it's Kruschen—your health comes first—get it at any drugstore in America. If not joyfully satisfied after the first bottle—money back. Adv.

Whirlwinds Victorious Over Dragons 27 to 0 In Friday Game

(Continued from page one)
After Heald carried the ball to the 12 yard line, the Whirlwind picked up a first down to place the ball on the Paducah 5 yard line. A lateral pass from Heald to Bridges was good and the latter hit the line for the first touchdown of the game. Heald kicked, converting extra point. Paducah made a first down in the second quarter but lost the ball on a blocked punt. The first half ended with Floydada in possession of the ball on the Dragons 35 and the score, Floydada 7, Paducah 0.

Second Half
Paducah kicked to Murray to start the second half of play. Floydada was held for downs and Murray punted. Murray of the Whirlwinds and Crump of the Dragons staged a punting duel with the Dragons getting the advantage by kicking out on the Whirlwinds 2 yard line.

The Whirlwinds fighting with their backs to the goal line succeeded in getting off a pretty punt. A series of plays by the Dragons brought the ball to the Whirlwinds 26 yard after a march of several yards. When a score seemed within the Dragons grasp, de Cordova, Whirlwind end broke through the line and tackled Crump for a nine yard loss. Paducah was forced to punt and did kick very efficiently, the ball rolling out of bounds on the Whirlwinds 12. Murray punted but the punt was blocked and a Paducah man recovered the ball but he in turn fumbled and Floydada gained possession on Paducah's 45 yard line.

The Whirlwinds started a march from this point and picked up two first downs. Heald made the second touchdown of the fray, hitting the line and went through standing up. Heald failed to convert extra point by kicking. The score at end of third quarter, Floydada 13, Paducah 0.

Score Twice In Fourth
After kicking off to the Dragons, the Whirlwinds gained possession of the ball on the orange and white 30 yard line after a Paducah player fumbled on their first series of plays. The third counter for the Whirlwinds came when Murray, after a series of plays, went through the left of the line for the touchdowns. A pass from Murray to de Cordova made the extra point.

The fourth and last score for the Whirlwinds came as the result of an intercepted pass. de Cordova, Whirlwind end caught a pass intended for a Dragon end and made two yards. Murray on the next play skirted right end for 40 yards to place the ball across the goal line. This play, however, was called back and Floydada penalized 15 yards. Murray, however, undaunted by this penalty, repeated the stellar action to recover the 15 yard penalty and carry the ball to within 5 yards of the chalk line. Bridges on the next play hit the left side of the line for the touchdown. Jenkins received a beautiful pass from Murray for the extra point.

The Whirlwinds apparently relaxed after chalking up their fourth counter, as the Dragons completed a beautiful pass for a 50 yard gain, on the first play after receiving the kickoff, carrying the ball to Floydada's 30. Murray intercepted another pass attempted by the Dragons. The game ended with the ball in Floydada's possession on their own forty yard line.

Heald And Bridges Star
Heald, fullback, and Bridges, right halfback, both did good playing during the day. Heald's ground gaining broken field end runs was the outstanding feature of the game. Bridges also made substantial gains. A new arrangement by Coach Terrell, of the backfield, with Hoffman at halfback, proved successful. Hoffman and Murray both turned in good games. Murray's 55 yard run was the outstanding play of the game. The Whirlwind line did notable work, holding the Dragons to only 55 yards gain during the game by scrimmage.

Summary of Game
First downs, Floydada 20, Paducah 7, with 4 incomplete, 3 complete two for extra points and one for 8 yards gain; punts, Floydada 6 times, averaging 31 yards, Paducah nine times averaging 29 yards; penalties, Floydada 5 times for 45 yards, Paducah 5 times for 30 yards; yards from scrimmage, Floydada 388, Paducah 55; 20 yards penetrations, Floydada 5, Paducah 0.

Starting lineups were: Floydada, ends, Jenkins and de Cordova; tackles, Johnston and Jackson; guards, Smith and L. Murray; center, Ginn; F. Murray, quarter, Hoffman and Bridges, halfbacks; Heald full; Paducah, ends, Green and Swint; tackles, Craig and Thompson; guards, McKibbin and Beavers; center, Dalton; quarterback, Freeman. Substitutes were, Floydada, Glover for Hoffman, Powell for Jenkins, Cochran for Bridges, Bishop for Ginn, Baxter for Glover; Paducah, F. Green for Cabiness, Willford for Crump.

Mr. and Mrs. C. J. Hollingsworth Entertained Ace Bridge Club

The Ace Bridge Club met Tuesday night with Mr. and Mrs. C. J. Hollingsworth as host and hostess at their home in this city.

A hallowe'en motif was carried out in the refreshments and decorations and the hallowe'en spirit was represented in the tallies. A clever scheme was used to form partners for the games of bridge, each person finding their tally, which was representative of hallowe'en, with the names thereon.

High score in the games for the evening was held by Mrs. L. J. Welborn and A. D. Cummings; members present were: Mr. and Mrs. J. D. McBrien, Mr. and Mrs. Odus Stephen, Mr. and Mrs. L. J. Welborn, Mr. and Mrs. A. D. Cummings, Mr. and Mrs. T. W. Whigham and the host and hostess.

Mr. and Mrs. J. D. McBrien will entertain the club, Tuesday evening, November 8, at 7:45 o'clock.

Miss Gene Mae Owen, teacher in the Baker school, is visiting in Clarendon with Claud Mixon and Doc Garret of Shamrock. Miss Owen will return November 17, to resume her work in the Baker school, which is now dismissed for cotton picking.

Mr. and Mrs. G. L. Kirk went to Plainview Sunday morning where they underwent short treatments at the Plainview hospital and clinic. Mrs. Kirk is improving rapidly.

Miss Blanche Hilton, student at Tech college at Lubbock, was guest over the week end of her parents, Mr. and Mrs. W. H. Hilton, in Floydada.

Mr. and Mrs. W. H. Hilton, in Floydada.

MRS. RUTH KANE GIVEN FIVE YEARS IN AX-SLAYING TRIAL

Mrs. Ruth Kane, age 31, was convicted of murder with malice in district court here last night, and sentenced to 5 years in the state penitentiary as punishment for her crime. Mrs. Kane was on trial for the ax-slaying of J. A. Cunningham, 74, prominent Motley County rancher, April 23, of this year.

District Attorney A. J. Folley closed his argument at 5 o'clock Wednesday and the case went to the jury. A verdict was returned last night at 9:30 o'clock. The jury was selected from a special venire of 100 men which was practically exhausted before the twelve men were found.

The defendant, who did not make any emotional display during the entire proceedings, fainted immediately after Attorney Folley finished his arguments. Her daughter, Edith McComas, 15, was not moved by the sentence, as neither was her mother, the defendant.

Mrs. Kane's parents, Mr. and Mrs. H. H. Stephens of Graham, were with their daughter in the courtroom during the trial and when the verdict was returned. C. C. McDonald, of Wichita Falls, headed the attorneys for the defense who included: G. E. Hamilton, of Matador, Fred T. Arnold, of Graham, Texas, and L. G. Mathews, of Floydada. District Attorney A. J. Folley was assisted in the prosecution by County Attorney Tony B. Maxey.

Edd Brown was foreman of the jury which included: R. E. L. McGuire, O. G. Glassmoyer, E. E. Dyer, W. H. Brock, Morgan Hamilton, J. B. Houston, O. E. Whicker, C. H. Rose, Wm. Wood, Clayton Cox and Sam Phillips.

The district court room was crowded during the entire trial but the crowd was undemonstrative during the sessions.

Jury Dismissed
The jury was dismissed by District Judge Kenneth Bain after they had returned a verdict.

A civil case involving a boundary line suit, is being tried before a jury today. The case styled S. L. Whitmore vs. Mary R. McNally and others, was tried here two years ago.

Wilmer Jones, Jr., student in Texas Technological College at Lubbock, spent the past week end visiting with his parents, Mr. and Mrs. W. O. Jones in Floydada.

Miss Ruth Rutledge, student in Tech college at Lubbock, was a guest over the past week end of her parents, Mr. and Mrs. O. P. Rutledge in Floydada.

Mrs. C. C. Beller, and Claud Pepper, of Anahuac, Texas, came Saturday afternoon for a visit with their sister, Mrs. J. T. McClung and family in Floydada. They visited until this mid-week.

Mr. and Mrs. C. J. Hollingsworth Entertained Ace Bridge Club

The Ace Bridge Club met Tuesday night with Mr. and Mrs. C. J. Hollingsworth as host and hostess at their home in this city.

A hallowe'en motif was carried out in the refreshments and decorations and the hallowe'en spirit was represented in the tallies. A clever scheme was used to form partners for the games of bridge, each person finding their tally, which was representative of hallowe'en, with the names thereon.

High score in the games for the evening was held by Mrs. L. J. Welborn and A. D. Cummings; members present were: Mr. and Mrs. J. D. McBrien, Mr. and Mrs. Odus Stephen, Mr. and Mrs. L. J. Welborn, Mr. and Mrs. A. D. Cummings, Mr. and Mrs. T. W. Whigham and the host and hostess.

Mr. and Mrs. J. D. McBrien will entertain the club, Tuesday evening, November 8, at 7:45 o'clock.

Miss Gene Mae Owen, teacher in the Baker school, is visiting in Clarendon with Claud Mixon and Doc Garret of Shamrock. Miss Owen will return November 17, to resume her work in the Baker school, which is now dismissed for cotton picking.

Mr. and Mrs. G. L. Kirk went to Plainview Sunday morning where they underwent short treatments at the Plainview hospital and clinic. Mrs. Kirk is improving rapidly.

Miss Blanche Hilton, student at Tech college at Lubbock, was guest over the week end of her parents, Mr. and Mrs. W. H. Hilton, in Floydada.

LET'S JUMP IN OUR ROCKET PLANE BOYS AND SCOUT AROUND THE WORLD FOR SOME OF THE VARIOUS WAYS THERE ARE FOR CATCHING FISH

GOLLY THIS IS A LONG RIVER BUD

THE UBANGI RIVER IS 700 MILES LONG BOYS.

AS THE FISH APPROACHES THE NATIVE PULLS UP THE BOARD BY SHIFTING HIS WEIGHT IN THE BOAT, WHILE THE LUCKY LESS FISH SLIDES ALONG THE BOARD AND INTO THE BOAT.....

HURRY NUB NUB IVE GOT A NICE FISH DINNER WAITING FOR YOU.

O.K. MOTHER

BUD NUB WOULD LIKE YOU TO WRITE ABOUT YOUR TOWN FOLKS.

A VERY ANCIENT METHOD OF FISHING IS PUTTING POISONOUS BERRIES OR BOOTS IN A POOL WHICH WILL EITHER STUPEFY OR KILL THE FISH. THE MODERN ARAB USES POISON BREAD CRUMBS AND GATHERS THE FISH AS THEY COME TO THE SURFACE.

THE NATIVES AMONG THE BEES OF TAHITI OFTEN USE A KIND OF BETHUNCA HIT TO POISON FISH WHILE IN MANY PARTS OF OUR CIVILIZED COUNTRIES FISHERMEN USE THE UNSPORTSMANLIKE DYNAMITE CARTRIDGES.....
