Mercury Drops to Zero as Blizzard Hit County

FLOYD COUNTY IN GRIPS OF COLD SPELL FOLLOWING BLIZZARD

Rapidly falling from semi-summer temperatures to below zero in a few hours, the mercury dropped Monday evening when a blizzard hit Floyd County. The blizzard rode in on a cloud of dust accompanied by a shower of rain which turned to sleet and snow in a few minutes. Sweeping across the Texas panhandle, the icy blast struck Floydada at about 7:30 o'clock and sent the mercury to the bottom. From 7:30 o'clock to 12 o'clock Monday night the mercury dropped from 58 degrees to 8 above zero. For ten minutes after the blizzard hit, the temperature dropped more than two degrees a minute and steadily dipped the remainder of the night. Floyd County was caught unawares by the blizzard after having basked in spring-like weather for several days. Some damage was reported to young wheat in the county which had already suffered from high winds in the latter part of last week. Water pipes in several homes in Floydada were split by the hard freeze. Few automobiles were in use Tuesday morning as unexpecting motorists neglected to drain radiators or failed to put their cars in garage. Cattle on ranges in this section was said to have suffered heavily, although few, if any, losses were reported.

6 Below Zero Coldest

Wednesday morning at 8 o'clock the mercury stood at 6 degrees below zero, the coldest of the current cold weather and the lowest temperature in several years. At ten o'clock Tuesday morning the thermometer stood at 4 degrees below zero. Tuesday afternoon the mercury rose to 2 above zero but plunged again at dusk and on through the night. Rainfall was light as was the sleet and snow, although the ground was blanketed. Snow continued to fall in flurries the remainder of the night Monday and to well into the day Tuesday. Wednesday morning found the skies clear and weather moderating in the latter part of the day. Traffic and travel was not halted although much slower in this vicinity.

Charles A. Dawes is Pneumonia Victim, Services Held From Local Church

C. A. Dawes, aged 64 years, 10 months, died Friday morning at 4:15 o'clock of pneumonia. He died at the home of his sister, Mrs. C. E. Meredith, after having been ill for several weeks. Charles A. Dawes was born in Louisiana, March 25, 1868. He first came to Texas in 1907, moving to Lockney in this county. After making his home in Floyd County for five years he moved to Lubbock county and had been a resident there since. He had been in Floydada six weeks before his death.

Survivors include two brothers, F. R. Dawes, of Clarks, Louisiana and Lee Dawes, of El Paso, Texas; three sisters, Mrs. Eva Weaver of Denver, Colorado, Mrs. Dora Simmons, of Gerard, Texas, and Mrs. C. E. Meredith, city.

Funeral services were held from the First Baptist Church, Saturday at 2:30 o'clock. Rev. C. J. McCarty, of Lubbock, conducted.

Flower girls were: Fannie Bolding, Lula Belsler, Mabel Tubbs and Clarabelle, Gollightly. Pall bearers were: R. C. Ross, W. P. Sims, Leo Frizzell, Joe Breed, G. M. Shirley and E. E. Hinson.

Interment was made in the Floydada cemetery with F. C. Harmon's funeral directors in charge of the arrangements.

Floydada Men's Quartette Attended Singing Convention at Sterley Sunday

The Floydada Men's Quartette attended a singing convention held at Sterley Sunday afternoon. The singing was held at the First Methodist Church and was the regular first Sunday convention. Members of the group were G. C. Tubbs, Earl Rainer, Garland Glover and Homer Sims. They were accompanied by Richard Tubbs. Several numbers were given by the men from Floydada. A gospel song service will be presented by the Floydada quartette at the Mount Blanco Baptist Church Sunday.

W. E. Meador returned Friday from Guyton, Oklahoma, where he had been visiting for a month with his sister, Mrs. Lewter.

Mr. and Mrs. J. C. Covington visited Sunday in Morton with Mrs. Covington's sister, Mrs. Arthur Beedy and Mr. Beedy and family.

Time on Delinquent School Tax Penalty Remittance is Extended

Another month is to be given for the payment of delinquent taxes, in the Floydada Independent School district, without the addition of the penalty and interest. The time of the remittance which was formerly set to expire February 1, was extended in a meeting of the Floydada School Board Monday night of this week.

Another provision set out in the motion for extension of time of remittance states that if property owners pay delinquent taxes with school warrants "we will not pay interest on warrants used on such taxes." The first time extension of removal of penalty and interest brought in several tax payments but payments were not as good as expected.

Several bills and accounts were proved and other business of a minor nature was disposed of in the ward meeting.

LOCAL MEN RECOVERING FROM EFFECTS OF EXPOSURE DURING BLIZZARD

V. Williams, agent at the Santa Fe station, in Floydada, and A. J. Folley, district attorney, are recovering from effects of over exposure during the blizzard and severe cold weather this week. Both were badly coughing about the face, ears and hands Tuesday.

Mr. Williams walked from his home to the Santa Fe station Tuesday morning, not realizing at the time of his departure from home of the intensity of the cold. The temperature at that time was below zero. Upon arrival at the station Mr. Williams' hands were so numb from cold that he was unable to open the door but with the aid of an assistant succeeded in reaching a fire.

A. S. Hollingsworth, railway express agent, became alarmed at Mr. Williams' condition and carried him to the latter's home and summoned a physician. Following treatment by a physician the agent was able to return to his duties at the station Tuesday afternoon. Except for a severe cold and frost bitten fingers, Mr. Williams is practically recovered from the effects of his experience with a plains blizzard.

A. J. Folley, district attorney, is recovering rapidly from over exposure. He was returning from Memphis, Texas, where he had been on business when his car stopped as he was nearing the caprock. He was unable to start the car and for several hours was subjected to the cold of near zero temperature. J. W. Hardgrove and son, Jim, who had been to Matador on business, discovered the district attorney when returning home and brought him to Floydada for treatment.

Mr. Folley was frozen about the face and ears. Other minor cases of frost bite and exposure have been reported, although none demanding the attention of physicians. Several of these were reported from the Floydada school students who live a distance from the buildings.

Thinks Pay Too High

Congressman-elect Terry Carpenter of Nebraska, says the \$10,000 salary is too much and prevents Congressman from seeing a true picture of the people's needs. He goes to Washington on March 4.

Sells 50 Dozen Cinnamon Rolls Saturday, Through Advertising Last Week

"Run my ad again". That's what J. C. Wester, of Westers' Quality Bakery said after selling fifty dozen cinnamon rolls Saturday and ten dozen several other calls. "I sold all the rolls I baked and could have sold many more if I had baked them," Mr. Wester said. Just another proof that advertising brings results.

Mr. Wester hopes to have rolls enough next Saturday for everybody and says that he likes to see lots of faces in his place of business.

S. E. Honaker, Uncle of Floyd County Residents Died At Vernon

S. E. Honaker, aged 54, died Friday at a hospital at Vernon, Texas. He had been ill for two weeks and in a hospital. He had been failing in health for the past two years. His death followed the amputation of a leg Saturday.

Mr. Honaker was the uncle of Mrs. A. N. Bratton, Mrs. John Haney, Mrs. Lee Trice and Sam Brewer, all of Floydada. Mr. and Mrs. Haney, Mrs. Bratton, Sam Brewer attended the funeral services held Saturday at Vernon.

Mr. Honaker had been a resident of Vernon since 1917 and a resident of Wichita and Wilbarger counties for more than 41 years. He moved to Wichita county in 1891, settling near Electra on a farm. In 1912 he and his family moved into Electra, from where they moved to Vernon. He was made wealthy when oil was discovered on his land near Electra.

Surviving are the widow; a daughter, Miss Morris John Honaker; two sons, Wayne and Mather Treeco Honaker; and two brothers, Will Honaker of Bowie and Mart Honaker, of Electra.

Many Present in Membership Meeting of The American Legion

Seventy ex-service men including ten members of the American Legion Post at Plainview, several from the post at Lockney and the local McDermott Post were present at a social meeting held here Thursday night at the American Legion home.

The prime purpose of the meeting was the enlisting of more ex-service men in American Legion posts or a membership campaign. Discussions centered about the taking of opposing moves to the actions of what is known as the National Economy League of America.

It was explained that the Economy League had thus far taken measures toward reduction only of the compensative or beneficial funds paid to ex-service men and had not touched other government expenditures. It was cited that more members were needed in American Legion in order that the Legislative committee, now in Washington, would represent a larger percent of ex-service men and could get better results.

Membership of ex-service men was urged so those who do not now receive them could receive and read magazines and papers on the actions of the Economy League and other organizations, against the American Legion.

Talks were given by the Plainview Post Commander, the Lockney Post Commander, Hub Mason, and by L. G. Mathews and H. D. Payne of Floydada. Several other impromptu speeches were made by others present. Although no resolutions were drafted or other formal moves made much information was given out regarding the actions of the National Economy League.

Refreshments were served to those present following the meeting.

Preston Bullard, of Fairview, Injured in Motorcycle Accident Thursday

Injured in a motorcycle accident Thursday evening, Preston Bullard, 19, of Fairview, is in the hospital here suffering from severe head injuries which he sustained.

The accident occurred when Preston was returning home from work at a neighboring farm about dusk. He was riding through the pasture of the farm of his father, G. M. Bullard, which is located 12 miles northeast of Floydada in the Fairview community. It is said that he was driving the machine about 60 miles per hour when the front wheel turned sidewise, suddenly checking the momentum. Preston was thrown from the motorcycle and his head struck the ground, knocking him unconscious.

Members of the family and friends rushed the accident victim to the sanitarium for medical aid. He regained consciousness Friday morning.

Floyd County Delegation Seeks Hearing by Officials On Highway 28 Project

J. N. Johnston, chairman of the Floyd County Highway Committee, left Tuesday afternoon for Austin to represent the Floyd County road project at a hearing by the State Highway Commission Thursday of this week. Mr. Johnston with A. B. Tarwater, of Plainview, state representative, will comprise a delegation for the highway project through Floyd County.

The hearing on the Floyd County Highway 28 hard surfacing project was set for Thursday. Although some definite action is inevitable it is not assured. Mr. Johnston with Representative Tarwater will present the petition before the commission. Guy R. Johnston, division highway engineer, left this week to be present for the hearing. Several plain projects have been set for hearing this week.

Temple B. Ingram, project engineer in charge of Floyd County undertaking, said Floyd County plans and details were completed and ready for consideration. He further stated that the highway project was among the first completed in the plains-panhandle division.

With J. N. Johnston, of Floydada, Representative Tarwater, of Plainview, and District Engineer Johnston, of Lubbock, appearing before the commission in behalf and in the interest of the Floyd County proposed project, the possibilities of a hard surfaced road are considerably strengthened is the belief of road enthusiasts.

Floyd County's delegation is one of thirty-seven appearing before the Highway Commission this week in hearings.

Both Mr. Cline and Mr. Patton made good grades on the tests.

Floydada Whirlwinds Win South Plains Cage Tournery Played Here

After advancing, by victories over Lorenzo and Matador quintets, to the final match with the Ralls High School Jackrabbits, the Floydada Whirlwinds won the basketball tournament here Friday and Saturday. The Whirlwinds, led by F. Murray who chalked up 20 points in the fray, defeated the Rabbits by a score of 38 to 33 in the final game.

Six teams entered competition in the South Plains Invitation Basketball tournament, held in the E. C. Andrews Ward gymnasium Friday and Saturday of last week. 39 players and five coaches from Lorenzo, Dougherty, Lakeview, Ralls and Matador were here for the tournery. Lorenzo, Ralls and Matador players and coaches were guests in Floydada homes during the contests.

A. F. Day, A. C. C. ex-student of Ralls, was referee of the matches. A total of 7 games, which included the consolation final match, were played during the tournament. First rounds began Friday afternoon and the final games were played Saturday night. Good crowds were present at each of the cage games and a fine spirit prevailed throughout the tournery.

A gold trophy was awarded to the winning team Saturday night following the games and gold miniature basketbolls were given to members of the winning Whirlwinds team. Silver basketbolls, to individual members, were given for second place honors to Ralls.

Game by Game Summary

Following is a game by game summary of the entire tournament as kept by the scorers.

Latin Peoples
The races commonly referred to as Latin include those whose languages are derived chiefly from the Latin. These comprise the French, Italian, Spanish, Portuguese, the peoples of Central and South America, Canada and Mexico, etc. It also would include the French speaking sections of Belgium and Switzerland, the people of Rumania whose language is derived from Latin, and others.

Be Healthy and Graceful
If we want to be graceful, we must have good feet. Notice how gracefully the animals walk. They have no shoes to bother them. Badly fitted shoes work mischief with the body. Health is the basis of ease and grace. Keep yourself healthy and graceful by wearing the proper shoes. They must be plenty long enough and wide enough.—Grit.

Dice Thrown for Bibles
Dice were thrown for Bibles at St. Ives, England, recently. The custom is observed annually, and three Anglican and three Nonconformist children each receive a Testament. The custom follows the provisions of the will, dated 1688, of Dr. Robert Wilde, and the cost of the Bibles is defrayed by rents from land known as Bible orchard.

Tomb of Washingtons
The inscription on the marble slabs on the sarcophagi of George and Martha Washington at Mount Vernon are a sculptured device representing the eagle above the American shield against a drapery of the flag of the Union, and beneath it the single word "Washington." On Martha's are the words "Martha, consort of Washington."

Land of Fancy
Arcadia was a province of Greece noted for its picturesque beauty and the simple kindly nature of its inhabitants. Figuratively speaking, Arcadia is a place where one enjoys simple happiness, innocent pleasures, and untroubled quiet. It is not to be confused with Acadia or Nova Scotia in Canada.

Original Bicycle
The draisine was the forerunner of the bicycle and was invented by the German Baron Von Drais, about 1816. It had two tandem wheels of equal size, connected by a perch, and was propelled by the rider thrusting with his feet on the ground and guiding by a bar connected with the front wheel.

Technical Term
The word "field" used in physics means a region or space traversed by lines of force—gravitational force, exerted by a body; magnetic force, exerted by a magnetic pole or electric current, or electrostatic force, exerted by an electrostatic charge.—Exchange.

Mother Plover Buries Eggs to Insure Safety
Observations of a bird that buries its chicks alive to protect them from enemies and from the hot sun are reported in Ibis, organ of the British Ornithological association, by A. L. Butler, Egyptian ornithologist. This bird is the Egyptian plover, found in the upper Sudan country. The instant a strange noise is heard or the shadow of a hawk falls over the desert sand, he recounts, the chicks instantly flatten themselves in the nearest depression, usually the footprint of some large animal. Then the mother bird shovels sand over them with her bill until they are completely covered.

The chicks are covered in the same way to protect them from the sun when they are not feeding, he observed. From time to time the old birds will sprinkle water over the sand from their beaks to cool their offsprings. This practice continues until the chicks are about three-fourths grown. After the eggs are laid, Butler observed, the mother bird covers them with sand during the day, the incubation process being carried on by the heat of the soil. At night, when the sand cools rapidly, she uncovers the eggs and broods them.

Colorful Eastern Life as Viewed by Traveler
Turkistan is the ancient name of the vast sweep of land between the Caspian sea and the borders of Mongolia. It is larger than England, France, Germany, Switzerland and Italy combined, with a population of 10,000,000, divided largely among five nationalities: Turkomen in the west, Uzbeks in the central portion, Aryan Tajiks in the southeast, Kirghiz in the northeast and Kazaks in the northern steppes. Bukhara, an ancient holy city, is another colorful spot of the East. It has preserved more than 300 mosques, and its bazars are daily chapters in its history. It is not an uncommon sight to see a Kirghiz, a Turkoman and an Uzbek striking a bargain with their rapid jabbering of a tongue strange to American ears or nearby the bazaar a native preparing a goat-skin to make a waterbag, using the shade of a tree for his workshop.

The famous Bukhara rugs, which have furnished many American homes, come from the cities, and travelers can watch diligent natives at work on them. Outside the city can be spotted Kazak yurti, which to you and me is a house made of felt.—Boston Transcript.

Can Not Imitate Kiss
There is one noise the movie industry has not been able to fake. That is kissing.

In the sound libraries maintained by the studios are thousands of feet of film covering hundreds of such varied notes as a train whistling, a pig grunting, and the blue bird singing his native song. But kisses, strangely, are missing. When kiss effects are required, the principals must actually perform. Sound engineers have learned from experience that one man's osculation is another man's comedy. Kissing in serious dramas is mostly silent, anyway, if it is to be effective, and the gentlest smack must be actually delivered under the microphone as well as before the camera to be convincing. They have tried to duplicate that noise in the sound libraries, but it just cannot be done.

Links American Nations
The Pan-American union is the official international organization of all the republics of the western hemisphere, founded and maintained by them for the purpose of exchanging mutual information and fostering commerce, intercourse, friendship and peace. It is supported through their joint contributions, each nation annually paying that part of the budget of expenses which its population bears to the total population of all the republics. Its general control is vested in a governing board made up of the diplomatic representatives in Washington of all the Latin-American governments and the secretary of state of the United States.

Water Boy of the Desert
The little towns located along the desert routes of northern Africa formerly depended upon the camels to carry water to them. The animals were loaded with goat skins filled with water and the quantity carried was quite limited on account of the character of the burden. Automobile tanks with a capacity of nearly 20 tons now carry water over the sands to these settlements. The natives have never been given to any great use of water, but now they are enabled to make use of it a trifle more generously.

Ink Proved Age of Will
The age of ink on two wills, both dated the same, won for Miss Victoria Nowell the \$30,000 estate of her sister, Miss Harriet Nowell, under a Superior court ruling at Oakland, Calif. When a prominent graphologist and criminologist testified that the shorter of two wills, leaving everything to Miss Nowell, was written at a later date than one dividing the estate with charity the judge ruled in favor of the dead woman's sister.

Gourd of Large Growth
The bureau of plant industry says that there is no type of bean which grows from 18 to 26 feet high and has pods 8 feet long. There is a type of gourd, *Legenaria vulgaris*, known as guada bean, guinea butterbean, or Hercules Club gourd, which comes nearer to these proportions than any other vegetable with which that bureau is familiar. This plant is not a bean, the gourds being members of the cucumber family, Cucurbitaceae. — Washington Star.

Thoughts Reveal the Man
Do you want to know what a man really is? Go into the picture gallery of his mind, and see what pictures are hung there in the strongest light. Look into the studio of his soul, and see what the pictures there upon which he most often gazes. Uncover the contents of his imagination. He made that. That made him. "As a man thinketh in his heart, so is he."—Rev. Edward T. Sullivan.

Grecian Sundials
The Greek historian Herodotus records that his countrymen derived their knowledge of the sundials from the Babylonians, but, the progress made by the Greeks in the study of geometry taught them how complex a subject it was. Some of their dials exist today and are proof of their great ingenuity. The tower of the winds at Athens is one of their most interesting relics.

Annapolis an Old City
Annapolis, Nova Scotia, is the oldest European settlement in North America, north of Florida, having been founded in 1604 by the De Montes and Champlain. It was formerly known as Annapolis Royal and Port Royal. It is situated on Annapolis bay, which opens into the bay of Fundy, noted for its tremendous high tide.

Poppy in History
Fred Richards says: "Since the days of the Sumerians, some five or six thousand years before the birth of Christ, the poppy was known, and in 700 or 800 B. C. it was used in a small way as medicine. By 100 B. C. knowledge of the narcotic qualities of the drug was no longer a secret and Vergil writes of 'the sleep-giving poppy.'"

Clean Phonograph
If you want to clean phonograph records never use a damp cloth. Take a soft cloth and rub on it a little vaseline and use this to wipe off the disks on either side. Be sure that it is well rubbed off. This cleans them without doing any possible harm and is said to improve the tone of old records.

Historic Minister
The name of the minister who married John Rolfe and Pocahontas was Alexander Whitaker. He came to this country in 1611 to convert the Indians. In 1617 he was accidentally drowned in James river and his body was never recovered. He was the first minister of Henrico parish.

Coming of the Dawn
The expression "the scree of dawn" means something like "the avalanche of dawn" or the creeping of the dawn, and is from an Icelandic root verb, *scrite*, forbear of the English dialect word *scride*, meaning to stride or move forward.

"Colonial" and "American"
The year 1750 separates early American from Colonial. The period before that year is termed early American in speaking of architecture and furniture, and the period following is termed Colonial.

The Gentleman
What is it to be a gentleman? It is to be honest, to be gentle, to be brave, to be wise; and possessing all these qualities to exercise them in the most graceful outward manner.—Thackeray.

Guinea Fowl
The common, domesticated Guinea fowl is descended from a wild species found on the west coast of Africa. They were raised as table birds by the ancient Greeks and Romans.

Roman Title
"Pontiff" means bridge builder and was originally applied to the ancient pagan priesthood of Rome because the high priests had charge of the bridges over the Tiber river.

Camouflage for Ships
Experiments in camouflage during the World war indicated a mottled pattern of grays was most effective in rendering ships inconspicuous.

Friendship That is Barter
"A friendship that seeks to measure out favor for favor," said Hi Ho, the sage of Chinatown, "is only barter."—Washington Star.

Sizing Them Up
Our first impression of a man usually is in inverse ratio to the size of his lodge pin.—Los Angeles Times.

Small Dogs
Yorkshire terriers, the smallest breed of dogs, have been known to weigh as little as ten ounces.

Shower and Program at Baptist Church Honored Mrs. W. A. Amburn, Jr.

Misses Amy McRoberts, Clarabelle Golightly and Hazel Borum were joint hostesses Friday afternoon at 5 o'clock at a shower given in the dining room of the First Baptist Church. Mrs. W. A. Amburn, Jr., who before her marriage was Miss Zelma Chambliss, was named honoree.

Arriving guests registered in a bride's book made and presented by Miss Amy McRoberts. A short program was given preceding. Mrs. Geo. A. Linder and Mrs. Boone Hall sang a duet, "Love's Old Sweet Song." Nell Patton gave the reading, "Make Believe Shopping." A violin duet was played by Mrs. L. E. Fagan and Miss Verdene Snodgrass. Mrs. E. L. Angus gave a toast to the bride with Mrs. Amburn making the response.

As the toast was being said by Mrs. Angus, Mary Francis McRoberts and Minnie Lou Heald presented the bride with a large gift box, beautifully decorated in red and white crepe paper and with a large valentine in the center. The box contained a vast assortment of miscellaneous gifts.

Apple sauce cake with whip cream and tea was served to each of the forty three people present, following the program.

THIS WOMAN LOST 35 LBS. OF FAT

Miss M. Katner of Brooklyn, N. Y. writes: "Have used Kruschen for the past 4 months and have not only lost 35 pounds but feel so much better in every way. Even for people who don't care to reduce, Kruschen is wonderful to keep the system healthy. I being a nurse should know for I've tried so many things but only Kruschen answered all purposes." (May 12, 1932.)

To lose fat SAFELY and HARMLESSLY, take a half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast—don't miss a morning—a bottle that lasts 4 weeks costs but a trifle—but don't take chances—be sure it's Kruschen—your health comes first—get it at any drugstore in America. If not joyfully satisfied after the first bottle—money back.

Ruling on Salary Is Given by Allred

Austin, Texas, Feb. 5.—An act of 1929 fixing the compensation of District Attorneys in districts of two or more counties at \$10 a day for 350 days was unconstitutional, but an act of 1927, which the 1929 act amended, providing for compensation of \$20 a day for not more than 175 days was constitutional, Attorney General James V. Allred held Saturday in an opinion to Comptroller George H. Sheppard.

"The effect of the opinion, therefore," the Attorney General said, "is that while District Attorneys may not be paid a salary of \$10 a day for 350 days under the act of 1929, they may be paid twice the amount for half as many days, provided they earn this compensation by necessary attendance on the court and the actual discharge of their duties."

The opinion said that the 1929 act "was, in effect, nothing more than a flat salary, and the Constitution had only authorized the payment of additional compensation to District Attorneys by way of fees, commissions or prerequisites." An allowance of \$500 annually for District Attorneys is provided for by the Constitution. The 1927 act, however, conditioned the payment of the \$20 a day for not more than 175 days "on the number of days they attended the sessions of the District Court in the necessary discharge of their duties, and a like sum for each day spent in representing the State at examining trials, habes corpus proceedings, etc."

CITIES SERVICE STATION SECOND IN STATE IN INCREASE OVER PREVIOUS MONTH

Dale Strickland, manager of the Cities Service Station Number 1 in Floydada, received notice this week that the local station was second place in a state wide sales increase contest. The contest is held from month to month and winners announced.

In the three weeks that Mr. Strickland has been in charge of the station a 125 percent increase has been made in sales, which places the station second in the contest. The Cities Service Station at Temple is first with a record of 232.1 percent increase. Standing of stores was announced in "The Merry Go Round," publication of the Cities Service Oil Company.

Wilmer O. Jones, Jr., of Tech College at Lubbock, spent the past week end visiting in Floydada with his parents, Mr. and Mrs. W. O. Jones. Jack Murcheson, of Wichita Falls, accompanied him and was a guest here during the visit.

Miss Blanche Hilton, who is a student in Texas Technological College at Lubbock, was a guest over the week end in Floydada of her parents, Mr. and Mrs. W. H. Hilton.

Fifty and Fit

A MAN is as old—or as young—as his organs.

At fifty, you can be in your prime.

Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years?

There's a simple little thing anyone can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it. The stimulant that will stir your system to new life is Dr. Caldwell's syrup pepsin. It will make a most amazing difference in many ways.

This famous doctor's prescription is a delicious syrup made with fresh herbs, active senna, and pure pepsin. It starts its good work with the first spoonful. That's all you need to drive away the dullness and headache of a bilious spell, and rid the system of that slow poison that saps your strength. It's better than a tonic for tired bowels, and unlike habit-forming laxatives you can take it freely or give it to any child. And it isn't expensive.

Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can avoid those spells of biliousness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels, or fear of auto-intoxication as you grow older. Dr. Caldwell's syrup pepsin protects the system. All druggists keep this preparation.
