Stokes Campbell, 19, Shot; J. R. and V. A. Readhimer are Accused

Stokes Campbell, aged 19, son of Mrs. T. J. Campbell, of the community, died instantly Thursday evening at about 6:20 from gunshot wounds which were inflicted by J. R. Readhimer, about 56, with the aid of V. A. Readhimer, about 27, of the Dougherty community. The shooting occurred in front of the Smith & Smith Sanitarium as Campbell was about to enter a parked car.

Following the shooting the two Readhimers drove to the court house where they surrendered and the elder Readhimer surrendered a revolver to Sheriff E. S. Randerson. A court of inquiry was held Friday morning which the two men were charged with "the killing of Stokes Campbell" with a pistol.

According to testimony given by John Eudy, 16, an eye witness, in an examining trial held Saturday morning in Justice J. S. Solomon's court, Campbell had been to the Smith & Smith Sanitarium to have an eye dressed for an infection and was leaving when called by the elder Readhimer, who with his son, V. A., had driven up in their car.

Campbell, according to Eudy's testimony, was entering or about to enter a parked Ford coupe, in which he was to ride to south Floydada where he made his home. Eudy, who is employed at the sanitarium, was going to the south part of town to milk some cows which belong to the sanitarium and young Campbell had intended to ride with him in the car which belonged to Dr. Geo. Smith.

According to the statements as given by eye witnesses after the elder Readhimer had called to Stokes the two men, (V. A. and J. R. Readhimer), left their car and the younger of the two caught Campbell about the waist and arms and held him while J. R. secured a revolver and fired two shots into Campbell's back.

After the first two shots the victim fell face forward to the ground after V. A. Readhimer released his grip. The elder Readhimer then bent slight forward and fired two additional shots, both of which struck the youth in the back of the head, according to testimony brought out in the examining trial.

J. S. Solomon, Justice of the Peace, arrived a short time later after being notified and pronounced Campbell dead from the wounds, after the inquest.

A court of inquiry was not held Thursday night due to the fact that District Attorney A. J. Folley was in court in another county and did not return in time. This court, however, was held Friday morning and in privacy.

Examining Trial Held
A preliminary hearing on the case was held Saturday morning in Justice Solomon's court in the district court room. Testimony was heard from John Eudy and Dale Strickland, eye witnesses, E. S. Randerson, sheriff, and F. C. Harmon, undertaker.

Bail was denied to the defendants, J. R. and V. A. Readhimer after Justice Solomon heard the charge as read by District Attorney Folley and the testimony of the witnesses. The defendants were returned to Floyd County jail to await the action of the grand jury for the next term of district court which convenes May 15th.

The defense was represented by J. R. and Cooke, of Plainview and E. G. Mathews of Floydada. A. J. Folley and G. T. Hamilton, of Matador, represented the state.

Habeas corpus proceedings to effect release, on bond, of the accused had been started after Justice Solomon had refused bail after hearing the evidence presented.

The habeas corpus hearing started before Judge Kenneth Bain, of 110th Judicial Court, this morning at ten o'clock.

The accused men were removed from Floyd County jail to Lubbock county jail Saturday, it is understood, and were to have been returned for the hearing here today.

**SAYS HER HUSBAND
LOST 16 POUNDS
IN 4 WEEKS**

"I have never found a medicine that 'peps' you up like Kruschen Salts and better still, leaves you 'pepped up.' I take it two or three times a week—not to reduce but merely to feel good and clean. My husband took it to reduce, he lost 16 pounds in 4 weeks." Mrs. E. A. Ferris, Washington, D. C. (December 29, 1932.)

To lose fat and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning.

A jar that lasts 4 weeks costs but a trifle at any drugstore in the world but be sure and get Kruschen Salts the SAFE way to reduce wide hips, prominent front and double chin and again feel the joy of living—money back if dissatisfied after the first jar.—Adv.

**Magnolia Petroleum Co.
Celebrating "Founders
Month" During April**

Special to the Plainsman: Dallas, Texas, April 12.—As evidence of confidence in the revival of business activity, the Magnolia Petroleum Company is celebrating "Founders' Month" in April with one of the most extensive sales and advertising programs in the long history of the company, it is announced by E. P. Angus, Vice President and Manager of Sales. The "Founders' Month" observance this year is of particular significance as it makes the induction into office of D. A. Little as president of the company and Ralph H. Kinsloe as vice president and general manager. Mr. Little succeeds E. R. Brown who has been elevated to the position of chairman of the board, and Mr. Kinsloe succeeds B. H. Stephens, elected vice chairman at a recent meeting of the board.

Thirty-five years ago J. S. Cullinan, Calvin N. Payne and Henry C. Folger laid the foundation for the Magnolia Petroleum Company when they built the South's first petroleum refinery at Corsicana, Texas, where oil was first produced in the Southwest. Magnolia's three founders are being honored this month by employees of the company and by the 12,000 Magnolia stations and dealers who serve motor vehicle owners in the five Southwestern states.

In the celebration of "Founders' Month" this year Magnolia is introducing new services to motor vehicle owners and operators including "Mobilubrication," a scientific program of specialized lubrication developed in collaboration with motor vehicle manufacturers. This improved method takes the guess out of lubrication and assures longer life and more economical operation of motor vehicles, Mr. Angus said.

While Magnolia's sales program for April is being devoted to "Mobilubrication," the company's advertising program takes as its theme the remarkable growth of the petroleum industry in the Southwest and its past and present contributions to the progress and prosperity of this territory. The part played by Magnolia, the pioneer producing, refining and marketing organization, is subordinated to the industry as a whole in presenting the story of petroleum.

D. A. Little, Magnolia's new president, and Ralph H. Kinsloe, vice president and general manager, are both veteran employees of the company. Mr. Little, a native of Corsicana, entered Magnolia service in that city nineteen years ago and advanced steadily through the accounting and executive departments to the position of vice president and assistant general manager which he held prior to his recent promotion. Mr. Kinsloe became associated with the petroleum industry in 1904 following his graduation as mechanical engineer from Texas A. & M. College. In 1912 he joined the Magnolia Petroleum Company and became manager of Magnolia's Beaumont refinery in 1913 and was elected vice president in 1929 following his transfer to the home office in Dallas.

**Entire Dues of Farm and
Home Owners League to be
Used Locally is Decision**

An amendment, which calls for a change in the use of the annual dues paid to the Farm and Home Owners Protective League, was approved in a meeting of the league held Saturday in the district court room.

Article 9 of the by-laws of the Farm and Home Owners Protective League now reads: "The entire annual dues of \$1.00 per member shall be used by the Farm and Home Owners League of Floyd County until this county is completely organized."

Article 9, formerly read: "The annual dues shall be \$1.00 per member and divided as follows: 50 cents to the Farm and Home Owners Protective League and 50 cents to the Farmers Protective League in testing the constitutionality of exchanges domination of the prices of farm products."

It was emphasized that the designation, of all the dues paid in, to the local cause would be no means cancel the Floyd County League's membership in the Protective League of America. At any time that the local group, after it has fully organized, wishes to do so it may join in the plans of the National league.

GOOD GAS WITH DEPENDABLE SERVICE

1898 When automobiles looked like this, and only a handful of them were in existence, the founders of the Magnolia Petroleum Company started the first refinery in the Southwest at Corsicana, Texas. The picture below was reproduced from an actual photograph of this first refinery.

1933 Just thirty-five years later, there are over twenty-six million motor vehicles in the United States; petroleum is the fifth largest industry in the country, topped only by agriculture in the Southwest. The photograph below shows the present Magnolia Refinery at Beaumont, Texas.

Magnolia and the Automobile . . .

**They've grown together
for thirty-five years!**

WHEELS, as a rolling device, had been in use for more than four thousand years before the invention of the automobile. From available records, the first application of mechanical power to vehicles seems to have been a carriage propelled by springs, built in Nuremberg, Holland, by Johann Hautsch in the sixteenth century. To Charles E. Duryea, a bicycle manufacturer, who first experimented with steam and later made his first gas engine studies at the Ohio State Fair in 1886, goes credit for the first gasoline engine automobile built in the United States. In 1892, Duryea built a makeshift, under-powered affair of one cylinder. The most that can be said for it was that it did achieve the amazing speed of seven miles per hour.

Perhaps it was coincidence, but, at about the same time the automobile began its meteoric rise, the Southwest came into the picture as a producer of petroleum. By accident, oil was discovered at Corsicana in 1896. Two years later, on Christmas Day, 1898, the founders of the Magnolia Petro-

leum Company fired the stills in the first refinery in the Southwest.

Without the Southwestern production of petroleum to supply popular priced fuel and lubrication, it is doubtful whether the automobile could have come into such widespread use in so short a time.

As pioneer refiners of the Southwest, the Magnolia Petroleum Company has seen the automobile industry grow from a clumsy, lumbering infant into the world's largest industry.

Just as the founders of this Company were the pacemakers of Southwestern petroleum production, so has Magnolia set the pace for better gasolines, motor oil and greases. Many people living today remember when they chugged over Southwestern roads in their rambling, horseless carriages . . . fueled and lubricated by Magnolia Products! Today these same people may speed over broad paved highways . . . using Mobilgas, Mobilgas Ethyl and Mobiloil, fitted to the needs of their modern motors. Drive in and enjoy these up-to-the-minute petroleum products.

THE AKRON DISASTER

The loss of the huge navy dirigible
"Akron" with seventy-three lives is
the most serious disaster since men
first began to navigate the air.
Caught in the middle of a terrific
thunderstorm off Barnegat Bay the
great airship plunged into the sea
and only four of its crew and pas-
sengers were rescued, one of them
dying shortly afterwards.

Tragedies like this are a part of
the price humanity pays for progress.
Doubtless there will be a great out-
cry against further experiments in
aerial navigation as a result of the
"Akron's" crash. But there were
outcries against railroads, against
the automobile, against airplanes,
when they were young. Millions
have perished at sea, yet nobody
proposes to abolish ships. If safety
were the only rule of life mankind
would still be living in the primitive
jungle.

Credit Banks, the Farm Board, the
Farm Loan Board, the Crop Pro-
duction Loan Office, the Seed Loan Of-
fice, and the Regional Agricultural
Credit Corporations into one agency
under a single head.

Most people did not even know
that there were so many Governmen-
tal sources from which farmers could
borrow money. We must agree with
Mr. Henry Morgenthau, Jr., who is
the new chairman of the Federal
Farm Board and will manage this
whole business of farm loans, that
the old system was too complicated
and expensive and that the average
farmer in need of financial assist-
ance has not known where to apply,
and often had to deal with many
agencies at widely scattered points,
instead of having all of his troubles
attended to in one office.

We understand that no new form
of farm credit is provided for, mere-
ly the centralization of administra-
tion of all existing kinds of credit.
These include long-term mortgage
loans, short-term crop loans, loans
for the purchase of seed and emer-
gency relief loans, besides loans to
cooperatives.

From all we can learn about Mr.
Morgenthau, who has become the big
boss of farm finance, he is a good
man for the job. His early training
in finance was under his father, who
made a large fortune in business and
was President Wilson's Ambassador
to Turkey. The younger Morgent-
thau was in the real estate business
in New York for a time, but went
into farming on a large scale. He
has a 1,400 acre dairy and stock
farm in New York state, and for
several years has been the publisher
of one of the large farm journals,
the American Agriculturist.

With the new set-up and the ad-
ministration of farm credit in com-
petent hands, it looks as if every
real farmer who has a real need for
a loan and can demonstrate that he
is capable of paying it off in time
ought to get the relief he desires.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of
Floyd County—GREETING:
YOU ARE HEREBY COMMAND-
ED, That you summon, by making
Publication of this Citation in some
newspaper published in the County
of Floyd, once each week for four
consecutive weeks previous to the
return day hereof, J. W. Fowler,
Jack Fowler, Aldine Fowler, B. R.
Fowler, Mary Fowler, John Patton,
and Ruby Patton, whose residences
respectively are unknown, to be and
appear before the Hon. District
Court, at the next regular term there-
of, to be holden in the County of
Floyd, at the Court House thereof, in
Floydada on the 15th day of May,
1933, then and there to answer a
Petition filed in said Court, on the
11th day of April A. D. 1933, in a
suit numbered on the docket of said
Court No. 2176, wherein FRANKLIN
SAVINGS BANK is plaintiff and J.
A. Huckabay; Sara F. Huckabay;
Bob Sears; O. W. Hefner; J. W.
Fowler; Jack Fowler; Aldine Fowler;
B. R. Fowler; Mary Fowler; John
Patton; Ruby Patton; Continental
Oil Company; Advance Rumley
Thresher Company; Lewis Day; Com-
merce Farm Credit Company; and
Keystone Mortgage Investment Com-
pany, are defendants. The nature of
the plaintiffs demand being as fol-
lows, to-wit:

Suit on a promissory note dated
January 1, 1926, signed by Defend-
ants J. A. Huckabay and Sara F.
Huckabay; payable to the order of
Defendant Farm Credit Company, on
January 1, 1936, in the principal
sum of \$4,000.00; bearing interest
from date until maturity at the rate
of 6% per annum, the interest pay-
able annually, according to ten in-
terest notes, Nos. 1 to 10, of even
date therewith, each in the sum of
\$240.00, due respectively, January
1, 1927 to January 1, 1936—all past
due principal and interest to bear
interest from maturity at the rate of
10% per annum, and providing that
upon default in the payment of any
instalment of interest, when due,
the holder of said note, at its elec-
tion could mature said indebtedness,
and also providing for 10% attor-
ney's fees if placed in the hands of
an attorney for collection.

That to better secure the payment
of said indebtedness, Defendants J.
A. Huckabay and Sara F. Huckabay
executed and delivered their certain
Deed of Trust of even date with
said notes, by which they conveyed
to Joseph Miller III, Trustee, 240
acres of land, situated in Floyd
County, Texas, being all of the
James H. Krop 80-acre Homestead
Donation Survey, and all of the M.
W. Ferguson 160-Acre Survey—fully
described in said Deed of Trust,
Recorded in Vol. 18, P. 506, Deed of
Trust Records of Floyd County,
Texas; and that the lien thereby
created is a valid, subsisting, and
unsatisfied lien securing the indebt-
edness evidenced by said note.
That Plaintiff is the owner and
holder of the balance of said notes

remaining unpaid, together with the
lien securing the payment of same,
and that said interest notes, respec-
tively, Nos. 5, 6, and 7, each in the
sum of \$240.00, became due respec-
tively January 1, 1931, 1932, and
1933, and payment of same was de-
manded of Defendants at the re-
spective maturity dates thereof, and
same was refused, and by reason of
the failure of Defendants to pay
said instalments of interest, when
due, plaintiff has elected to declare
said principal note due and has
placed the same in the hands of its
attorneys for collection, whereby de-
fendants became liable to pay said
10% attorney's fees; and by reason
of the failure to pay said interest
instalments, at the maturity dates of
same, Defendants became liable to
pay interest on past due principal
and interest at the rate of 10% per
annum, according to the terms of
said note; that by deed dated April
17, 1929, Defendants J. A. Huck-
abay and Sara F. Huckabay con-
veyed said land to Defendant Bob Sears,
who by the terms of said Deed, as-
sumed payment of said notes then
unpaid; and that by Deed dated
October 25, 1929, Defendant Bob
Sears conveyed said land to Defend-
ant O. W. Hefner, and by the terms
of said Deed, said Defendant Hef-
ner assumed payment of the indebt-
edness evidenced by said notes then
remaining unpaid, and by reason of
which said assumption of the pay-
ment of said indebtedness, by said
Bob Sears and O. W. Hefner, said
Defendants J. A. Huckabay, and
Sara F. Huckabay, as makers of said
Note, and said Bob Sears and O. W.
Hefner, by their assumption of same,
became liable jointly and severally,
to pay to plaintiff the sums of mon-
ey in said notes mentioned, accord-
ing to their terms.

That said Defendants J. W. Fowler,
Jack Fowler, Aldine Fowler, B. R.
Fowler, Mary Fowler, John Patton,
Ruby Patton, Continental Oil Com-
pany, Advance Rumley Thresher
Company, Lewis Day, Commerce
Farm Credit Company, and Keystone
Mortgage Investment Company are
claiming some right or interest in
said land, the nature of which plain-
tiff is not advised, but same, if any,
is inferior to the rights of Plain-
tiff.

Plaintiff prays that Defendants be
cited as the law directs, and upon
hearing it have judgment jointly and
severally, against Defendants Bob
Sears and O. W. Hefner for its said
Debt, principal, interest and attor-
ney's fees, with interest on past due
interest; and for judgment for all
costs, jointly and severally, against
Defendants Bob Sears, O. W. Hef-
ner, Continental Oil Company, Ad-
vance Rumley Thresher Company,
Commerce Farm Credit Company,
and Keystone Mortgage Investment
Company; and for foreclosure of its
lien as against all of the defendants,
and that order of sale issue as the
law directs, and that said property
be sold under said order of sale, and
the proceeds applied to the payment
of said judgment, and that the pur-
chaser be placed in possession with-
in 30 days; and further prays for
general and special, legal and equi-
table relief.

HEREIN FAIL NOT, And have
you before said Court, on the said
first day of the next term thereof,
this Writ, with you endorsement
thereon, showing how you have exe-
cuted the same.
Given under my hand and seal of
said Court, at office in Floydada,
Texas, this, the 11th day of April
A. D., 1933.

"I want my telephone put back, please"

HARDLY a day passes but that some person who gave up his telephone service in recent months orders it restored. In many cases, people feel that it is false economy to be without a telephone... that the small cost of the service is repaid many times each month in convenience, in time and actually in money saved.

Some miss the close and personal contact with friends that telephone service makes possible.

Others mention the loss of many pleasant, impromptu social "get-togethers" when their friends are unable to reach them by telephone.

It is all true... what these customer friends of ours say. Telephone service costs so little and its value is so great that in most instances it really doesn't pay to try to do without it.

If you are missing your telephone... just get in touch with our business office. We'll send a man out with a telephone in a hurry.

Texas Almanac and State Industrial Guide off Press of Dallas News

Many new features are contained in the Texas Almanac and State Industrial Guide for 1933, which has just been issued by The Dallas News. There are more than 1,000 articles, statistical tables, illustrations and maps, answering between 50,000 and 100,000 questions about Texas. Every phase of Texas' economic, political and civic development is covered, including farming and live stock, manufacturing, wholesale and retail trade, population, railroads, aviation, highways and automobiles, motor transportation, inland waterways, minerals and mining, government and names of State, district and county officials, education, conservation and numerous other subjects.

A large folded sheet between the leaves of the volume carries political and railroad map on one side and highway map on the other. These maps were made especially for the Texas Almanac and are up to date and accurate. As one runs through the leaves of the volume one comes across such interesting miscellaneous articles as Historic Landmarks of Texas, Archeological Research in Texas, Noteworthy Texas Caves, the Program for State Parks Health Resorts and Places of Recreation, Arts and Artists, Libraries, Old Cattle Trails, Boundary Disputes, Kinds of Salt and Fresh Water Fish Found in Texas, Home Canning and Farm Terracing and Home Tenantry.

If one wishes to know where the principal lakes of Texas are found, how to fly the Texas flag, the depth of the deepest oil well, the amount of oil and gas in Texas reserves, where the McDonald Observatory is to be built, how much is collected from the gasoline tax or the amount of the pay roll of Texas railroads, he will find it in the Texas Almanac.

While many new articles have been included, the chapters of information that have become standard in the Texas Almanac are retained, completely revised and enlarged. There are more than 7,000 names of individuals in the book. Especial attention is given to historical features, particularly those of importance in connection with the tentative plans for a centennial celebration. The volume this year lives fully up to its reputation of being the "Encyclopedia of Texas." Incidentally, a review of its contents reveals a marvelous amount of development in the Lone Star State, even during the last few years of business stagnation.

Mrs. A. P. McKinnon returned Saturday night from Austin, and other points where she spent the winter months. She visited her son in Austin.

Need New TIRES?

TODAY you can buy a Goodyear All-Weather Tire—the world's standard of quality—for less than you paid for little known or unknown brands only a few months back.

When you buy Goodyears here's what you get:

TRACTION

In the center of the tread, where it belongs. The most positive non-skid tread on any tire.

SUPERTWIST

In the body of the tire—cord that absorbs rather than resists shock and strain—the best insurance against blowouts in any tire.

APPEARANCE

If you want good looks, Goodyear is about the handsomest tire on the road.

3 RULES big help to BOWELS

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:

1. Drink a big tumblerful of water before breakfast, and several times a day.
2. Get plenty of outdoor exercise without unduly fatiguing yourself.
3. Try for a bowel movement at exactly the same hour every day.

Everyone's bowels need help at times, but the thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a thorough cleaning-out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with your system rid of all that poisonous waste matter.

Easter Bunnies Right On Time

Easter bunnies will be right on time this year, as always. These two maidens were slightly in doubt so they went out and around and about and did find bunnies, well yes! So now Sara Belle and Evelyn Tiffany, maidens fair of footlight fame, want all good little boys and girls to know that they have the evidence and that Easter bunnies and all their friends will be right on the job on Easter morning.
