Claud V. Hall To Speak Monday Night at School Rally

County School Board To Give Rural Students Certificates Monday Night

Floyd County rural school students, who have been neither absent nor tardy during the 1932-33 school term, will be honored at the Floydada High School Monday night, May 29, at 8:30 o'clock.

The county school board is sponsoring the presentation of certificates of award to all rural school children who have a perfect attendance record for the entire year. The certificates to be given will bear the picture of Geo. Washington and will carry out the bi-centennial idea.

Hall Will Speak
Claude V. Hall, teacher in East Texas State Teachers College at Commerce, will be the principal speaker on the occasion. Mr. Hall, a Floyd County pioneer, began his career as a teacher in the rural schools of Floyd County in the early days. He will be in Floydada on May 29 for the Old Settlers Reunion.

"We especially request that pupils who can qualify for one of the certificates to be present and do so. All teachers, trustees, and school patrons are invited to be present," County Superintendent Price Scott said.

The purpose of the part of the county school board, as pointed out and explained by Mr. Scott, is to help create and develop a greater interest in school attendance on the part of both the student and parent.

The policy of presentation of certificates of award for attendance will be followed by the school board during the 1933-34 term also.

Price Scott began Saturday sending out letters to teachers in the county informing them of the program at the Floydada High School auditorium and asking that they make arrangements if possible for their students who will qualify to be present. Less than 100 students in the county will qualify for one of the awards it was said.

A short program, not to exceed one and one-half hours in duration, will be given in connection with the awards. This program has been prepared by County Superintendent Scott and members of the county board.

MEMORIAL DAY

On May 30th it is the custom throughout most of the United States to observe the day as a memorial to the heroes of our nation who gave their lives for its defense. In many states this or some nearby date is observed as a memorial to the soldiers of the Army of the Confederacy who, no less than those others, made the supreme sacrifice for the cause in which they believed.

It is meet and proper that these gallant dead, whether they wore khaki or blue or gray, should be held forever in fond remembrance. For they were brave men who did not hesitate to risk their lives that their beloved homeland might live.

But it is also meet and proper, it seems to us, to consider whether the youth of today are as ready as these sacred dead were, to fight and to die, if necessary, for their principles. We seem to sense a slackening among the youth of our land of the fervent patriotism which America's chiefest glory in the days when our nation was younger. We hear young men say that they would not risk their lives for their country, as their fathers did. We have noted the polls of students in our great universities in which an appalling number have declared that they would not take up arms in defense of America.

If such a feeling is general among the youth of our land, then it is a far more serious matter than mere unemployment or financial distress. If through some failure on the part of our institutions, our schools, our churches, our home training, we are raising a generation which feels no such devotion to the principles of liberty and independence as once made every young American eager to go to war in their defense, then our nation is in a sorry case.

We do not believe that such a spirit prevails generally. We do not believe that the young men of America have become so infected with the germ of internationalism that they no longer look upon their own country as the greatest, the most glorious, the finest place in the whole world.

Many will be the prayers offered on Memorial Day at the graves of those who died honorably on the field of battle. Let it be the fervent prayer of every true American on that day that the honor which finds expression in unselfish self sacrifice for country and for principle may not perish from those who are to take our places.

Floyd County Pioneers Will Gather In Their Fifth Annual Reunion May 29th.

MRS. JOHN L. WEST WANTS NAMES OF ALL DECEASED OLD-TIMERS

Mrs. John L. West, chairman of the memorial committee of the Floyd County Pioneers Association, is urging that any one who knows of any pioneers who have died during the past year to send in their names to the committee.

"We are trying to secure the names of every old settler that has died during the past year and are asking the cooperation of everyone in securing these. Those who know of any deceased please send their names to Tom W. Deen, secretary of the association," Mrs. West said.

One method of securing the names is by seeing the funeral directors in the towns in this county and learning if they have had charge of any old settlers funerals during the year, Mrs. West explained.

Other members of the committee on Memorial are: Mrs. R. J. Willis, Mrs. Beatrice Smith, Mrs. Arthur Barker, Mrs. Carl McAdams.

The Pioneers Parade at 3 o'clock Monday is the outstanding feature of the reunion. Mr. and Mrs. Isaac Wilhoit, aged Floydada couple, will head the procession. Two Indian chiefs, Red Eagle and Quannah Parker will follow.

Pioneers mounted on horses, in wagons, buggies, buckboards and other vehicles will follow. The parade will be arranged to depict the progress made in Floydada since the early days.

Another interesting feature is the main address of the reunion which will be made by Claude V. Hall, at present a teacher in East Texas State Teachers College at Commerce. Mr. Hall is a pioneer Floyd County teacher and newspaper man.

A much better and larger collection of curios and old photographs is expected to be displayed this year if the present plans mature. It is planned by the committee in charge to secure a building on the west side of the square for the display and use show cases.

"The curio and photograph committee extends an urgent invitation to every one who has any old pictures or curios to bring them in for this display and make it as interesting and large as possible. Any curio or photograph of former days may be used," Mrs. Maud Hollums, member of the committee said.

"Pioneers, this is our day, come, let's make it a success," urges Glad Snodgrass, president.

CHECKING UP ON SPORTS

The Indian Motor Speedway Track at Indianapolis will see on May 30 more than sixty racing drivers compete for prizes in the twenty-first annual running of the 500-mile automobile race.

The other day in Detroit Charley Gehring, Detroit second baseman, accepted fourteen chances without an error. The big league marks for chance for a second sacker, is 17, made by Fred Dunlap, of the Cleveland Indians. The league record by Jimmy Dykes, of the Athletics, in 1921.

The report that no national horse show would be held in New York this year has been denied. A golden jubilee celebration will be held this year.

Edmund Soussa is going to retire from billiards because he is too old for the game at the age of 34.

Carl Hubbard, International League umpire, weighs 265 pounds. After the baseball season he plays football for the Green Bay professional team.

Total entries for the United States open golf championship will fall 100 or 200 short of last year's 1,012. The final matches will be played at the North Shore Golf Club, Glenview, Ill., June 8-10.

The national outdoor fencing championships will be held this year on June 23 and 24 at Chicago during the World's Fair.

This year the Intercollegiate Association of Amateur Athletes of America will again hold its titular meet in Harvard Stadium. The dates are May 26 and 26.

The University of North Carolina tennis team, undefeated in team matches since 1929, came to New York the other day to teach a bit of tennis to the boys from New York University. The southern boys won 9 matches to 0.

Lack of places to play in cities and the cost of equipment are given as the reason why so many city boys are turning away from baseball and to other games.

The flying tackle is barred in football but is popular in wrestling.

As soon as the month of May rolls around the sports program for the warmer months gets under way. Hundreds of thousands of men and women are playing golf in all parts of the country despite the fact that reduced incomes have compelled many to drop out of clubs. Tennis is becoming increasingly popular. The attendance at baseball games is excellent.

SAYS HER HUSBAND LOST 16 POUNDS IN 4 WEEKS

"I have never found a medicine that 'peps' you up like Kruschen Salts and better still, leaves you 'pepped up.' I take it two or three times a week—not to reduce but merely to feel good and clean. My husband took it to reduce, he lost 16 pounds in 4 weeks." Mrs. E. A. Ferris, Washington, D. C. (December 29, 1932.)

To lose fat and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning.

A jar that lasts 4 weeks costs but a trifle at any drugstore in the world but be sure and get Kruschen Salts the SAFE way to reduce wide hips, prominent front and double chin and again feel the joy of living—money back if dissatisfied after the first jar.—Adv.

Henry Ford
Dearborn, Mich.

May 15, 1933

Time and again I am told—by my own organization and by others—that I penalize myself by quality.

Friendly critics protest our putting into the Ford V-8 what they call "twenty-year steel." They say such quality is not necessary; the public does not expect it; and that the public does not know the difference anyway.

But I know the difference.

I know that the car a man sees is not the car he drives—he drives the car which the engineer sees. The car which is seen, comprises beauty of design, color and attractive accessories,—all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment given to safety factors; the steady development of comfort, convenience and economy. These make the car.

A car can be built that will last two or three years. But we have never built one. We want the basic material of our car to be as dependable the day it is discarded as the day it is bought. Ford cars built 15 years ago are still on the road. It costs more to build a durable car—but two items we do not skimp are cost and conscience. A great many things could "get by"—the public would never know the difference. But we would know.

The new Ford V-8 is a car that I endorse without any hesitancy. I know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

I readily say this in an advertisement because I know the car will back it up.

3 RULES big help to BOWELS

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:

1. Drink a big tumblerful of water before breakfast, and several times a day.
2. Get plenty of outdoor exercise without unduly fatiguing yourself.
3. Try for a bowel movement at exactly the same hour every day.

Everyone's bowels need help at times, but the thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a thorough cleansing out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with your system rid of all that poisonous waste matter.

GERALD SNODGRASS IS RESCUED BY GENE GRAHAM AT LAKE

The medals this week go to Gene Graham, fifteen year old son of Mr. and Mrs. Emit Graham, who Sunday afternoon rescued a drowning friend from the waters of the caliche pit lake in south Floydada. Gerald Snodgrass, 24, was the man who came near drowning.

Snodgrass, young Graham and several other young men were swimming in the lake, which was recently filled to a depth of around ten feet, when the near fatal occurrence happened. Gerald had crossed the lake and was swimming on the return trip when his strength failed him. As he went down he called for assistance.

Gene dived into the lake and dived to the bottom where he found Snodgrass, apparently lifeless. After a hard struggle he succeeded in getting the accident victim within reach of friends on the lakeshore. Graham with the help of companions administered artificial respiration and gave first aid treatment, causing Snodgrass to regain consciousness.

Both have practically recovered from the experience. Snodgrass was given medical treatment and confined to his home for the remainder of the day.

**"The Ole Swimmin' Hole"
Recalled As Lads Plunge In
Lake Just Formed**

"In the Good Ole Summer Time," "The Old Mill Pond," "The Ole Swimmin' Hole" and the other familiar phrases to the youth of years gone by and still familiar to those where there's water (which doesn't include plains boys) were recalled this week by many.

Several of the local lads, whose desires for a swim exceed their desires for a private spot, have made their way, since our rain this year, to the caliche pit in south Floydada for a cooling plunge.

"Hey Bill, pull off your shirt and come on in, the water's fine" is one of the many phrases heard from the lake waters from one of the many coming swim champs.

After all the lake in south Floydada, that has been made several feet deeper by the removal of caliche for the paving of Floydada streets, makes a good swimming place, that is if you overlook the fact that the water is 'sorta' dirty and that the town drains into it.

When asked as to the depth of the hole, one young weismuller replied, "Oh, about ten or fifteen feet."

Unless you want to see them "in the raw" you had better not visit the old swimming hole in Floydada.

**GENERAL RAIN FELL
OVER FLOYD COUNTY
WEDNESDAY EVENING**

Rain, which will greatly benefit farmers in that it will supply moisture for planting of row and cotton crops and help that already planted, fell over Floyd County late Wednesday and Wednesday night.

Some farmers had started planting and had a portion of their row crops and some cotton in the ground. Wheat which had escaped through the drought season just passed will be benefited to a certain extent.

Following close on the good rain Saturday night the precipitation last night will establish a good season. Apparently every section of the county received some rainfall, although the amount varied slightly in points.

From the S. L. Rushing farm in the far northeast section of the county comes the report that approximately one inch of rain fell there. A good general rain was reported at the M. D. Ramsey farm in the Harmony community.

Rain at the T. J. Gill farm in the Center community amounted to seven eighths of an inch. Prospects for a good crop are even better than the first of the week in the Lakeview community where the fall was estimated at three fourths of an inch last night.

A. S. Cummings estimated about an inch of rain at his farm nine miles west in the Sandhill community. He reported the rain as being general but slightly heavier to the southwest.

According to reports from daily newspapers the rainfall was general over the panhandle-plains of Texas and the panhandle of Oklahoma. Three inches of rain were reported at points.

Locally speaking there was no hail damage, nor any hail reported from any section. Floydada received three-fourths of an inch of precipitation in a slow rain in the late afternoon and fore part of the night.

Rev. I. A. Smith, pastor of the First Methodist Church, read the scripture. Mrs. Ruth Brown Hall and Mrs. Geo. A. Lider gave a special song number. Wright Randolph, minister of the City Park Church of Christ, preached the commencement sermon. This was followed by a song by the choir.

A. D. Cummings, superintendent of the Floydada schools, made the announcements of other school activities for the week. Rev. N. E. Tyler, pastor of the Church of the Nazarene, said the benediction. Mrs. Ohmer Kirk played the recessional, ending the program for the evening.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS

S. J. R. NO. 3.
RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of Texas be amended by adding thereto a section to be Section 3, which shall provide:

"Section 3. (1) Holding the belief that the highest degree of local self government which is consistent with the efficient conduct of those affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local governmental affairs, it hereby is ordained:

"(2) Any county having a population of sixty-two thousand (62,000) or more according to the then last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate hereto, within the specific limitations hereinafter provided. It further is provided that the Legislature, by a favorable vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of the intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected, not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favorable vote of the resident-qualified electors of the affected county. In elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept and separately counted, and unless there be a favorable majority of the votes cast within and a favorable majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may in anywise affect the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and other systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inconsistent with the sovereignty and established public policies of this State, and no provision having such vice shall have validity against the State. No Charter provision may operate to impair the exemption of home-steads as established by this Constitution and the statutes relating thereto.

"(3) A Charter hereunder may, in the continuance of a Council of Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or, may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such conditions of tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by any such Charter, such governing body shall exercise all powers, and discharge all duties which, in the absence of the provisions hereof, would devolve by law on County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, reorganization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided.

"(4) A Charter hereunder may provide that Judges of County Courts (including that County Court designated in this Constitution), and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this Constitution, and the duties of the Justices thereof, may be confined to that general jurisdiction of a probate Court which elsewhere is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of District Attorney and County Attorney may be confined to representing the State in civil cases to which the State is a party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees.

"(5) Save as hereinabove and hereinafter otherwise provided, such Charters, within the limits expressed therein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the Constitutions or by statute, defined the duties thereof, fix the compensation for service therein, make the same elective or appointive and prescribe the time, qualifications and conditions for tenure in any such office; save, that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of the Courts, District Attorneys, County Attorneys, or any office whatever by the law of the State required to be filled by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may not have expired prior to the adoption of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as hereinafter specified), all terms of county officers and all contracts for the giving of service by deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof.

"(6) Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed, or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real, personal and mixed, shall be a first superior and prior lien thereon.

"(7) In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"(8) Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In case of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(9) Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified services, to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards therefor be not lower than those fixed by the General Laws of the State.

"(10) Subject to the express limitations upon the exercise of the powers by this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either as to some or all of the functions thereof, and yielded to the control of the administrative body of the county. No such transfer or yielding of functions may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature, such a proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified votes cast within the yielding defined governmental entity, and a majority of the qualified votes cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be, provided by law to control such appropriate other governmental agencies were they to be independently administered. Such mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinafter provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"(11) In cases of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those city Charter provisions affected thereby shall cease to control, and the county Charter provisions shall control.

"(12) When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such cities and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof the county, in addition to the primary city and county tax herein authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution, (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town.

"(13) Areas urban in character though not incorporated, under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as control taxation for a city or a town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

"(14) No provision of this Constitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith. Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there must be a favorable majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and, no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing, subject only to the duty of the Legislature to pass all laws (consistent herewith) which may be necessary to carry out the intent and purpose hereof. Further, the Legislature shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon proposed alternate and elective Charter provisions."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more sufficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

"Against the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Each voter shall scratch out one of the above listed clauses on such ballot, leaving unscratched that particular clause which expresses his vote on the proposed Amendment to which it relates.

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth herein shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

W. W. HEATH,
Secretary of State.

THE CONSTITUTION STILL STANDS
We know some good people who have been very greatly worried over what seems to them the usurpation of the powers of Congress by the President of the United States. They are alarmed over the extent of the power to manage the Nation's affairs which has been delegated to the President at his request.

It seems to us that Mr. Roosevelt stated the case very plainly in his recent radio talk. He said: "The functions of Congress is to decide what has to be done and to select the appropriate agency to carry out its will. That policy it has strictly adhered to. The only thing that has been happening has been to designate the President of the United States as the agency to carry out certain of the purposes of Congress. This was Constitutional, and is Constitutional and it is in keeping with the American tradition."

What frightens some people is the fear that President Roosevelt may use the broad powers given to him unwisely. Others are worried because the system of letting the President be the Executive in fact has been more or less abandoned in the past fifty years. Congress has gradually assumed executive functions, insisting upon dotting the i's and crossing the t's of every law so that the President not only had to do precisely what Congress told him to do, but to do it in a precise, prescribed way, whether that way proved to be effective or not. No business organization in the world could make a success if its head had to hire and fire, according to fixed rules which might have been workable when they were laid down but which needed to be changed from day to day.

As to the wisdom of President Roosevelt, we have the opinion that he is the ablest politician that has been in the White House for a long time. By that we mean that he has his ear closer to the ground than most of his predecessors. He is keenly alive to what the people of the Nation are doing and saying and thinking. He is not, we believe, likely to do anything which will not receive the support of most of the voters of America. He may send up "trial balloons" by letting the report get out that he is contemplating this, that or the other course of action, but if a strong public sentiment is arrayed against the proposal, he will be the first to abandon the idea. In fact, Mr. Roosevelt has already done just that in one or two instances.

So we aren't worrying any about the Constitution being violated. It is a pretty flexible document, after

THE CONSTITUTION STILL STANDS

all. And no Constitution ought to be allowed to stand in the way of anything for the common welfare upon which there is general agreement.

Tire prices may never be so Low again!

GOODYEAR certainly makes it worth while for you to put money in tires now. Your dollars never bought tires to equal the quality, the safety, the mileage which Goodyear is today building in every tire wearing the Goodyear name—
And because Goodyear now concentrates on two main lines of tires—a real saving in costs is passed on to you.

Look at the present prices of the world's most popular tire, the Goodyear All-Weather — and the prices of the thrifty Goodyear Pathfinder — and you'll certainly agree, it's smart to buy Goodyears NOW—while prices are still down close to bottom, and your money buys more than it may ever buy again.

FEED AND COTTON PLANTING STARTS IN FLOYD COUNTY

Floyd County farmers the first of this week started planting cotton, maize and feed stuff, with a good season in the ground left by the rain Saturday night. Reports indicate that rainfall was general over most of the county and would greatly help some of the wheat and leave enough moisture to bring up feed and cotton planted.

Some hail damage was reported to the west of Floydada Saturday night. Some slight damage was had to young gardens and some wheat was reported damaged. Rainfall varied at points in the county from one inch and slightly less to around three inches.

Apparently the heaviest precipitation was in the northeast and east portions of the county, in the Fairview, Hillcrest communities and from there south to Dougherty, Mt. Blanton and McAdoo. Here rain was estimated by community residents at around three inches.

In the south and southwest portions the rain appeared to be considerably lighter with only an inch and less falling. Less than an inch was reported at the G. W. de Cordova farm located near the Harmony community.

At the G. L. Snodgrass farm, west of Floydada in the Harmony-Carr's Chapel section, the rainfall was estimated at one and one-eighth inches.

Mrs. A. S. Cummings reported around one and one-half inches precipitation at their farm nine miles west of Floydada and slightly north, in the Sandhill community. She reported the rain general in that section.

Rainfall north of Sandhill toward Lockney was said to be much heavier with around two inches and more.

Three inches of rain, with no hail or wind damage, was had at the S. L. Rushing farm in the Fairview community. The rain was said to be general. E. J. Hoffman in the same community received two and one-half inches of moisture.

Crop Prospects Brighter
Prospects for a more productive wheat crop this year are some brighter following the rain. That the rain would be beneficial to the wheat was indicated by several farmers in this section. The best prospects are to be had probably in the eastern section of the county where crops have not suffered much from need of moisture. Local grain men have estimated the yield at around 15 bushels per acre on some farms if no further rain is received, in the Dougherty community, Lakeview and other sections.

Rainfall in Floydada and this vicinity Saturday night was better than one and one-half inches. Two rains, one at around ten o'clock, and the other early Sunday morning, fell here. Reports from other sections state that the rain started about nine o'clock and fell steadily through out the remainder of the night.
