EDITORIAL HONESTY

Beneath eight lines of humorous verse, the Floyd County (Floydada) Plainsman inserts this simple legend, "Swiped." Editor Cavanaugh is entitled to a bow for candor. The witty filler often graces type without credit. Sometimes you see it labeled "Exchange" or "Anonymous." The Floydada scorns such polite subterfuge and cheerfully admits that he pilfered the gem to account for the necessary space between Tuesday night's rain and a plea to let Cavanaugh do your printing. He who steals verse usually steals trash anyway, but the label takes the sting out of the Floydada rapacity.—The State Press in the Dallas Morning News.

Thanks, very much. There is nothing which we would rather have our neighbors say of us than that "He is honest." To be honest covers a multitude of sins according to the way we see things.

A rare bit of political power was demonstrated last week by the Commissioners Court of Lamb county when that body of gentlemen granted petitioners from the Littlefield precinct a date for a beer localoption election which was scheduled for September 9. Editor Drake gave the court an eight-line screamer head telling his readers of the incident.

Ever since March 4, things have been humming at Washington, and of late there has been a noticeable acceleration. President Roosevelt described one of his late weeks as being the most exhaustive since he took office. The strain, of course, is mental as well as physical—he has an army of advisors but he must make the last decision in every case and will get the blame if it is wrong. A recent week went something like this: Dispatched warships to Cuba and withdrew them when need had passed. Speeded recovery program and approved steel, oil and lumber industries' codes. Approved a number of farm relief plans and worked on details of paying benefits to farmers reducing cotton crops. Got public works program moving more smoothly and rapidly. Decided to abandon several army posts in interest of economy. Made important diplomatic appointments. Held conferences on possibilities for inflation, and studied economic trends. Made plans for extending Civilian Conservation Corps through winter. Arranged for opening negotiations with Latin American countries on reciprocal tariff agreements. In addition the President must make innumerable less important decisions, meet many callers, go through a stiff and unavoidable routine that is part of the chief executive's job.

During recent weeks there has been observable a let-down in general business. It's nothing to get excited about, however, and is much less intense than the customary seasonal drop. Best late progress has been made in promoting employment, due both to increased industrial activity and the N. R. A. drive. Secretary of Labor Perkins announced that 1,100,000 individual workers obtained jobs between March 4 and the middle of August. Four-hundred-thousand new factory jobs appeared in July. During May and June the number of families receiving charity dropped from 4,222,000 to 3,745,000. Employment is about 21 per cent greater now than last year at this time. Only major industrial group to show decrease is tobacco manufacturers.

Mrs. A. G. Stevenson, of Silverton, spent the past Thursday night visiting in Floydada with Judge and Mrs. K. E. Bain. Mrs. Stevenson is a sister-in-law of Mrs. Bain's. She accompanied Judge and Mrs. Bain to Spur Friday where he is in court.

Tom Bishop, of Amarillo, visited in Floydada the first of this week with his mother, Mrs. Jennie Bishop.

F. W. COLLIER OF SPUR ELECTED PRESIDENT OF CAPROCK BANKERS

F. W. Collier, cashier of the Spur National Bank, was elected president of the Caprock Bankers Association in the Labor Day meeting held here Monday. The session was held at the Methodist Church in Floydada.

Other officers elected were: Wade Cooper, assistant president, of Crosbyton; E. L. Norman, secretary, First National Bank of Floydada.

J. V. Daniel, of First National Bank of Floydada, was in charge of the meeting.

Matador was selected as the next meeting place of the association the meeting to be held in March next year. 35 bankers and visitors were in attendance and enjoyed a banquet at the church dining room.

A TAX DESTROYED BUILDING

Up to a short time ago a 20-story skyscraper stood in the famous Loop district of Chicago. The building returned a rent of \$50,000 a year. A Chicago business man was offered the opportunity to buy it for \$5,000. And he turned it down!

Since then the building has been wrecked, and the lot it stood on is being used for a parking space.

This amazing little story appeared recently in the editorial columns of the San Francisco Call-Bulletin. As the knowing will have guessed, the trouble with the building was taxes. They came to \$40,000 a year. And the owners were in arrears an entire year. To continue to operate they would have had to pay out \$80,000. The rent return didn't justify it.

And the result? Well, everyone lost: The owners of the building, who had invested money in it and were finally forced to destroy it in self-defense; the city, which was out thousands in taxes; and, lastly, the general public, which must make up the taxes the building would normally pay.

This is the old story of excessive taxation, and it has been told a thousand times. Bankruptcy, unemployment, industrial recession, slowed community progress—these are the inevitable corollaries of wasteful and expensive government. It is time our law-makers read the handwriting on the wall.

TEXAS HAS CASH AS YEAR CLOSES

Austin, August 31.—Texas' fiscal year came to a close today, with money in the state's strong box, but none to the credit of the general fund. In fact the general revenue fund was \$7,077,020 in the red. The Confederate pension fund also was overdrawn to the amount of \$3,880,895.

Balances of \$612,884 for the available school fund; \$2,232,474 for the highway motor fuel fund \$4,447,390 for the highway fund and \$1,031,316 for cigarette tax fund were shown by the treasurer's books. With the advent of a new year, all state employees and members of the judiciary will receive smaller pay checks. Reductions ranging from 25 to 30 per cent were ordered by the legislature effective September 1.

The last survey of current business issued by the Department of Commerce, which details conditions into the first three weeks of July, is very encouraging. Prices have continued to move upward. Foreign trade showed a substantial increase. Freight car loadings, on the whole, expanded steadily. Automobile production continued its contraseasonal rise. Stimulation was felt in the chemical group.

The groom is a son of Mr. and Mrs. R. L. Smith, of Sterley. Both the bride and groom were reared in this county and attended school here.

FEELS REAL HAPPY AFTER SHE LOST 29 POUNDS OF FAT

"At the end of the 2nd bottle of Kruschen I'm happy to say I'm minus my superfluous 29 lbs. I never had a hungry moment and I felt better all the time I was taking them—much more peppy and I lost that loggy, sluggish feeling in the morning." Fredia Parks, New Haven, Vt.

A trim, slender figure, new energy, glorious health, youthful activity, clear skin, bright eyes—all those splendid results a half teaspoonful of Kruschen Salts first thing each morning in a glass of hot water bring you SAFELY and without discomfort.

One jar lasts 4 weeks and costs but a trifle at any drug-store the world over. Money back if not satisfied. But protect your health—make sure you get Kruschen.—Adv.

Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. ©1931 C. M. Co.

6,000 School Children Given Physical Examinations Since May First

Austin, Texas, September 5.—Over 6 thousand children ready to enter school life this month have been given complete physical examinations since the first of May, according to Dr. H. N. Barnett, director bureau child hygiene, state department of health. These examinations were accomplished under the program sponsored by the Parent Teacher Associations throughout the state.

These summer round ups of preschool children were initiated by Parent Teacher Associations in 1925 and carried on in cooperation with the bureau of child hygiene; they have been so successful that each year has shown an increased interest in this movement. These examinations and corrections are done by doctors and dentists and this group of apparently healthy children showed at least 1 physical defect the majority of which could be remedied without much cost or loss of time.

The aim of these round ups is to have the children entering school 100 percent free from remedial physical and mental defects before the child enters school. Sometime these can be corrected by health habits of more rest, better food, exercises for posture, etc. The chief advantage of such health work is not only to discover such defects but to help the parents to strive for better health for their children and to convince them that physical and dental defects uncorrected will prove to be handicaps in later life.

MR. BUSINESS MAN, HOW ABOUT YOUR

Printing Needs

You have made arrangements for stocking up on other commodities. That is good business. It will also be good business if you will go through your office forms, check your needed items in letter heads, envelopes, bill heads, statements, filing cards, and other forms, and place your order now.

Very soon the printing business throughout the country will be regulated and of one thing you can be certain—prices are going to advance—not only in this section, but in every part of the United States. Already there have been price advances on paper and other items.

It will be to your advantage to place orders now for your printing needs for the next six months. It will be to our advantage, too, to complete this work for you now, during the summer months, when we have the time at our command, and while we can still offer you present day low prices on Quality Printing of all kinds.

Asks Check Of Relief Rolls—Westbrook Says Is Safety Measure

Fort Worth, September—Lawrence Westbrook, state director of relief and rehabilitation, regards the halting of fall work relief in Texas as a safety measure designed to conserve resources that may be needed during the coming winter.

Stopping all work relief with the exception that those affected will seek employment in the cotton fields or elsewhere should result in a material reduction in the number of persons on the relief rolls, declared Westbrook just before he left here by airplane for Washington. He was going to the national capital to confer with federal relief authorities.

Awaits Texas Relief

"Cotton fields are in need of pickers now and, in some instances, there has been difficulty in obtaining them," he explained. "The weather is warm now and we have adequate funds to assure that no one will go hungry. We have in mind the possible plight of women and children who may suffer next winter if relief funds are not conserved."

There is approximately \$1,000,000 of federal allotment funds on hand saved out of the August apportionment, he said, but he has been given notice that there will be no further federal money for Texas until the state has made an appropriation to meet part of its own relief needs.

He looks for a special session of the state legislature to be called for September 11, to make effective the recent constitutional amendment adopted by the voters authorizing a \$20,000,000 relief bond issue.

Drouth Area in Need

Authority should be given by the legislature, Westbrook believes, for the issuance of half or perhaps all of the amount, but the bonds should be sold only as the money is needed. He denied that the interruption of work relief was intended as a move to get action from the legislators.

While here he sent a telegram to J. P. Reed, assistant director, urging that particular attention be given to the needs of West Texas areas that have been experiencing a long dry period.

Where needed, direct relief will be provided, Westbrook said, adding that it is less expensive than work relief.

He considers this a good time for re-investigation of all families on relief rolls with the view of clearing the rolls of numerous cases.

Bread . . . Cast on the waters

IT WON'T BE many days before the bread you cast on the waters in the shape of shorter hours and higher minimum wages comes back in the form of PROSPERITY!

For you're making your own market.

When you sign the President's Reemployment Agreement, cut down working hours, take on more people, increase minimum wages—you're giving people money to spend.

They won't spend it for your product, perhaps. But they'll spend it for things they want—and that will put money in the pockets of the people who want your things.

It's a pleasant circle. Higher wages—

more demand for goods. Greater demand—easier to pay the higher wages.

You've felt this ball start rolling during the last few months. Don't let it stop! You can give it your push this very day by signing the President's Reemployment Agreement—and by buying from those manufacturers and retailers that display the pledge that they, too, have signed.
