Floydada, Floyd County, Texas, February 1, 1934

NUMBER 6

## Alton B. Chapman, of Dickens Co., Candidate For District Attorney

To the People of Floyd County:

In announcing to you my candidacy for the office of District Attorney of the 110th Judicial District I do so not entirely as a stranger to the people of Floyd County, for I had the pleasure of associations with many of you back in the high-school days of 1922 and 1923 during friendly games of base-ball between the Floydada and Spur Schools, some of you will remember me for the work we did together in the cotton fields and wheat fields, and then later I knew some of you in the class rooms of Simmons University; all of which associations I prize very highly. However, to the many of you who do not know me at this time I feel I should say a few things regarding myself, that you may better judge me.

I was born on a small farm near Rochester, in Haskell County, Texas, in 1904, and am the sixth member of a family of twelve children. I moved with my parents to Dickens County in 1918 where we have made our home since, and where I lived with them on a farm until I married, since which time I have lived in Spur.

I am a graduate of Spur and Haskell High-Schools, the Spur School having been unaffiliated at the time I finished it. I received my college preparatory work in Simmons University at Abilene, Texas, and my law training in the University of Texas at Austin. My father being a poor man and having a large family, it was necessary for me to work my way both in high-school and college, which I did by washing dishes, mowing lawns, milking cows and clerking in Department Stores. I also taught school one year in order to get money to go back to school.

In 1929 I started practicing law, and have been active in the courts ever since. For about four months during 1929 and 1930 I was associated temporarily with the District Attorney in the practice of law at Borger, Texas. Since that time I have practiced law in Dickens County.

In my race for County Attorney of Dickens County in 1930 the people among whom I had been reared from a very small lad elected me over my opponent, a man much older than I, by a vote of almost three to one and without my losing a single voting box in the county.

I have always been and always expect to be a Democrat, and at every opportunity expect to do what I can for my party. I was a delegate from Dickens County to the State Democratic Convention and a delegate from this district and attended the National Democratic Convention in Chicago that nominated our great President, Franklin D. Roosevelt. I believe in the Democratic form of Government and the manner in which our laws are made—"by the majority". And once a law has been engraved upon our statutes and as long as it remains there, regardless of whether we may like it or dislike it, I BELIEVE IT SHOULD BE OBSERVED AND RESPECTED.

My idea of what a District Attorney should be is a man that is FAIR, but a man that is FIRM, ACTIVE, VIGOROUS, and AGGRESSIVE, both in the preparation and prosecution of his cases, and if I should have the honor of serving this Judicial District in the capacity of District Attorney it will be my desire and aim and I PLEDGE MYSELF TO GIVE ALL VIOLATIONS OF LAW THAT COME WITHIN MY JURISDICTION A VIGOROUS, FIRM, AND FAIR PROSECUTION, to the end that the people of the 110th Judicial District may feel safe in the ownership of their property and in the well being of their person. I invite you to investigate my record in Dickens County and ascertain whether or not I have conducted the County Attorney's office in this manner.

In asking for this office I feel proud that I can do so as a native son of West Texas, for in my experiences with people of other localities I find that I appreciate all the more the ideas and ideals of West Texans.

The high standing, fairness and good judgment of the citizenship of Floyd County has been highly praised to me, and all that I ask of you people of this Judicial District, regardless of where you live, is that you vote for the man that will make

Mr. and Mrs. T. C. Russell visited in Amarillo Friday on business.

The District the best and most efficient District Attorney. I feel that I have the merits on which to base my candidacy, and on these merits I shall conduct my race, not on the demerits of anyone else.

I hope to see all the voters of the district before election day, but in a district as large as this one it will be almost impossible to do so. If I do not see you please take this as my personal solicitation for your vote and your influence.

Very sincerely yours,  
ALTON B. CHAPMAN.

## Debate Question For Interscholastic League Discussed By Director

The question for debate in the Interscholastic League this year is: Resolved, That the United States should adopt the essential features of the British system of radio control and operation.

"This question," according to C. A. Cass, who has been elected director of debate contest in this county, "has the great advantage of enlightening the interest from the outset."

"Everybody, old and young, is a radio fan, almost without exception. The debate involves a discussion of the best use to which radio may be put. It is necessary to examine the various plans different nations have adopted in seeking to make radio of just as much social service as possible. England has one plan, Germany another, France another, and so on.

"The pupil who studies this question will have his vision enlarged by making a world wide survey of radio control and operation and making critical comparisons with the method used in this country. It is a vital public question.

"The bureau of public school interests, extension division, of the University of Texas, has collected several publications, copies of which are distributed to member schools. First comes the official debate handbook of more than 200 pages, next the reference shelf, on Radio Control, a cloth bound book of 300 pages or more, a third, the Congressional Digest issue, in which the pros and cons of the question are set forth by the best authorities. Each school in this county expecting to enter debate should send in its entries at once", Mr. Cass said.

## County Health Nurse Says Chicken Pox Prevaling Disease in County

"At the present time, Chicken Pox seems to be the most prevailing disease in our county," Miss Eddie Mae Gilliland, county health nurse says this week after making a partial survey of the county.

"This is an acute contagious disease of unknown origin, characterized by the eruption of small blisters. Ten to fifteen days pass from exposure until the first appearance of symptoms, which are an occasional chill, vomiting and pain in the back.

"The rash appears within 24 hours from the onset of the fever, first as red pimples then clear blisters. After two days, this fluid becomes pus, then two days later dark brown crusts appear, leaving no scar unless the patient scratches them.

"The eruption of chicken pox appear first on the trunk, back and chest, seldom on the face. Complications are rare yet gangrene of, and hemorrhage into the pimples may occur.

The rash of chicken pox only involves the skin, but the small pox rash is deeper. Chicken pox is extremely contagious disease especially among children, yet it is mild and self limiting.

"The chief problem is to protect others, by preventing spread of the disease. All precautions should be used to prevent scratching which leaves scars," Miss Gilliland explained.

## Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right dose of a liquid laxative brings a perfect movement, and there is no discomfort at the time, or after. The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels back to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative, effective for all ages, and may be given the youngest child. ## HOW WOMEN CAN WIN MEN AND MEN WIN

The Favor of Other Men

Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you. But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all.

Only a free flow of your bile juice will stop this decay poison in your bowels. A free flow of your bile juice is Carter's Little Liver Pills. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25¢ at drug stores. Refuse "something just as good" for it may gripe, loosen teeth or scald rectum. Ask for Carter's Little Liver Pills by name and get what you ask for. ©1933, C.M.Co.

**Revenue Agents Make Arrests In Panhandle**

And they said the government was out of the liquor picture.

Late Thursday five men were arraigned in federal district court here on charges not of violating the antique and repealed 18th amendment, but for violating the revenue statutes of the nation.

The next term of federal court here this spring will show whether "the new deal" has more teeth in it. It was the first federal raid here or appearance of any agents since the prohibition bureau office was dismantled several months ago and the agents transferred or furloughed.

**On Narcotic Charge**  
With the three revenue men from Dallas was a narcotic agent. Seven men in all have been charged before the U. S. Commissioner here.

Cal White, Scott Vincent, Carl John Devitte, James and Daniel Cornutt were charged with whisky activities near Skellytown and Milford Deek of Perryton was charged with possession of 50 grains of morphine. Paul Ellis has been transferred here from Pampa on a charge of concealing a stolen automobile moved from one state to another. This is not the Paul Ellis of the Amarillo Pipe & Junk Corp., of 910 West Fourth Avenue.

Reports that the revenue men were busy on the South Plains have been reaching here for several weeks but Thursday was their first appearance in this section.

**Charge Tax Evasion**  
A large truck loaded with brewing equipment, 12 and a half gallons of whiskey, yeast on ice, sacks of sugar and kegs and barrels were seized near Skellytown when raiders arrested White and Vincent on a charge of carrying on the business of a retail liquor dealer without having first paid the special tax as required by law and with possession of whiskey without tax being paid. They both made bonds of \$500 each before the U. S. Commissioner.

Devitt and James and Daniel Cornutt are in jail and Cal Cornutt made bond of \$500 on a charge of possession of a still to make spirituous liquors without giving the bond required by law and of distilling without bond. The internal revenue department agents on the job here, all from Dallas, were Frank F. Haddix, Frank W. Lohn and Alfred Julin.

**Narcotic Charge Filed**  
A. D. Stevenson, narcotic agent from Dallas, filed a charge of illegal possession of 50 grains of morphine against Deek. He is in the Potter County jail—Amarillo Daily News.

**Pneumonia Is A Seasonal Disease So Say State Health Dept.**

Austin, Texas, February 1.—Pneumonia is a seasonal disease, in that the incidence and mortality is much increased during wet, cold weather, according to Dr. John W. Brown, State Health Officer. It is more prevalent and serious in towns where contacts with people is more common. Pneumonia is always dangerous but it is especially so to persons in a run down condition. This accounts for the number of cases following illness with some other disease.

The germs that cause pneumonia are spread by careless coughers, sneezers, spitters, and the things that they thus infect. The first symptoms are usually a severe chill and fever, a very sick feeling, loss of appetite, rapid breathing, and a heavy sensation in the chest. Sometimes coughing brings up blood from the inflamed lungs. Any of these signs should be the signal for going to bed at once and sending for your doctor.

The familiar rules of the prevention of other respiratory diseases apply to pneumonia. These rules should become personal habits and not be put on or off at times of prevalence or absence of disease. Persons should avoid careless coughers and sneezers, even if you have to be rude. Wash your hands thoroughly before each meal. Keep your hands, pencils, money and other such things away from your mouth and nose. Get plenty of fresh air day and night. Exercise and eat in moderation and wear clothing suitable to the weather.

Pneumonia ranks second as a cause of death in Texas, in 1932 almost six thousand persons died of this disease. It should be remembered that contagious and infectious diseases cannot be decreased or eliminated without the cooperation of the people and that means that people who are sick with contagious or infectious disease should be isolated and visited as little as possible by relatives and friends.

Kendall Onstott visited in Lubbock Saturday night and Sunday.

# The Power of NEWSPAPER Advertising!

Dave Harum said, "When you get hold of ten dollars get it into you or onto you as soon as you can, for there ain't no pocket in a shroud, and you're a long time dead."

If you had nothing but money you would be poor indeed. It is the things for which you can exchange the money you earn that set the standards of your living comforts and conveniences.

You know this. But do you know that it is you who largely determines the value of your dollar?

Many things contribute to the distance a dollar will go, but the greatest agent in "value received" is Advertising.

The advertisements in this paper tell you about the best grades of merchandise. They tell you where they can be had and for how much.

They tell of the new things that manufacturers are producing to make your dollars of real worth to you in greater comforts, better living, more enjoyment.

Read the advertisements. Take time to save time. Take trouble to save trouble. Read to save walking. Search the ads to save searching the stores. And to make the dollar go farther!
