The Power of NEWSPAPER Advertising!

Dave Harum said, "When you get hold of ten dollars get it into you or onto you as soon as you can, for there ain't no pocket in a shroud, and you're a long time dead."

If you had nothing but money you would be poor indeed. It is the things for which you can exchange the money you earn that set the standards of your living comforts and conveniences.

You know this. But do you know that it is you who largely determines the value of your dollar?

Many things contribute to the distance a dollar will go, but the greatest agent in "value received" is Advertising.

The advertisements in this paper tell you about the best grades of merchandise. They tell you where they can be had and for how much.

They tell of the new things that manufacturers are producing to make your dollars of real worth to you in greater comforts, better living, more enjoyment.

Read the advertisements. Take time to save time. Take trouble to save trouble. Read to save walking. Search the ads to save searching the stores. And to make the dollar go farther!
