NUMBER 38

Funeral Services Were Held Saturday For James William Mack Carr

Funeral services were conducted from the Carrs Chapel Church Saturday afternoon at 2 o'clock by Rev. W. H. Strong, of Dodsonville, and Rev. O. C. Coppage, of Petersburg assisting for James William Mack Carr.

The deceased was born February 25, 1868, and was 68 years, 5 months and 25 days of age at the time of his death, which came to him Thursday night at 8:45 following a long illness. He had been in the Plainview hospital for nine weeks suffering from abdominal cancer. He was brought Mr. Carr had made his home in Carrs Chapel for many years.

Survivors are: His widow and three children, two daughters, Mrs. D. L. Hargis, of Floydada and Miss Ruth Carr, of Carrs Chapel, one son, Willie of Oklahoma City, who arrived Friday night for the funeral, his mother, Mrs. Martha J. Carr, who is better known as Grandmother Carr, of Carrs Chapel, two brothers, John and Matha, both of Carrs Chapel, and one sister, Miss Annie Carr.

Interment was made in the Carrs Chapel Cemetery. F. C. Harmon Funeral Home was in charge of the funeral arrangement and burial.

Pallbearers were: M. D. Ramsey, Charlie Watson, W. C. Clubb, C. O. Spence, Sam Hale, Charlie B. Smith, Virgil Hennessee and W. P. Thorpe.

Flower girls were: Misses Estelle Gary, Reda Mae Gary, Lila and Jewel Hennessee, La Rue Williams, Angue Carroll Watson and Mary Hendrix.

Vocational Agriculture Boys Left Monday For Texas Centennial

W. A. King, vocational agricultural teacher and twenty-four vocational agriculture and 4-H club boys left Monday for a three day trip to the Texas Centennial at Dallas. They were accompanied by County Agent D. F. Bredthauer and O. K. Davis, principal of Floydada High School.

Among those attending were: Grover Huskey, Bob Teal, Leroy Cates, Holland Patton, Ervin Graham, Percy Mathews, R. V. Bartlett, Malvin Jarboe, Leon Ferguson, Ray Ramsey, Floyd Montgomery, Chloma Williams urba and Welborn Miller. Charles Cox, Layton Teeple and Fred Cardinal.

4-H boys who attended were: George Elwood Assiter, Percy Tate, Edward Clark, Raymond Colston, Kenneth Martin, iWilburn E. Swift and Carthel.

They are expected to return home Thursday.

Home Owners Of County Receive \$128,952 For Refinancing

Residents of Floyd County received a total of \$128,952 from the Home Owners' Loan Corporation during the three year period of refinancing operations which terminated June 13, 1936, according to the final figures furnished H. P. Drought, state director for the National Emergency Council. This sum represented 76 individual loans.

A total of 44,361 distressed home owners in Texas were extended aid in the sum of \$103,208,774. Of this money it is estimated that \$6,343,000 went toward the payment of taxes and assessments, the estimated average of tax and assessment payment per loan in Texas being \$143.

According to the 1930 United States Census reports there were 374,755 owned non-farm homes in Texas. The Home Owners' Loan Corporation refinanced mortgages on 11.8 per cent of this number.

The total number of loans made in all states, Puerto Rico, Hawaii and Alaska was 1,021,817, involving the sum of \$3,092,870,784, making the average loan \$3,027.

More than 98 per cent of all money involved went for the refinancing of distressed homes by means of long term replacement mortgages which are to be amortized fully over the term of the loan in small monthly payments. The balance of the money advanced went for restoration and conditioning of properties.

It is estimated that \$228,453,000 of the Home Owners' Loan Corporation advances went to the tax offices of the nation, with the national average tax payment per loan being \$224.

Fred N. Ciark Elected Sheriff In Run-Off Election Held Last Saturday

Fred N. Clark of the Blanco community, was nominated for sheriff of Floyd County in the second primary election Saturday, leading over T. B. Hill of Lockney, by 359 votes, according to the unofficial tabulation.

Roe McCleskey was elected commissioner of precinct No. One, over A. S. Cummings, present incumbent by 135 votes.

B. E. Cypert was elected commissioner of precinct No. 3, over M. H. Taylor by a vote of twenty-two, the unofficial count showed.

THE LIFE OF A MARINER WHILE IN U. S. SERVICE

All parents desire that their sons be properly equipped to meet the problems of life. Good health, education, and physical strength are potent factors tending toward success. Can you as a parent in these days of world depression, insure a college education for your son who has graduated from high school? Can you as a parent insure his good health while he is passing through that stage of youth during which he wishes to do as he pleases? Can you as a parent insure that your son takes the proper exercise to maintain the highest standard of health? The United States Marine Corps offers to young men who are high school graduates or who have an equivalent education, and who can pass the requisite physical requirements, many advantages. The Marine Corps is a part of Uncle Sam's great naval fighting machine, and it has a record of great accomplishments and fine traditions. By means of a system of careful selection from among those who apply for enlistment, the Marine Corps represents a cross-section of fine young American manhood chosen from the entire country.

The young man who is fortunate enough to be enlisted, immediately becomes self-supporting, thus reducing the cares of his parents from a financial standpoint, as the United States government provides all uniforms, shoes, socks, underwear, hats, caps, gloves and such other wearing apparel as may be required by the climate of the places where Marines are or may be stationed.

Food, sleeping quarters with bunk and bedding, medical and dental treatment when needed are also provided at government expense, as is all equipment used in the performance of professional duties. In addition to the above, a young man upon first enlistment in the Marine Corps receives twenty-one dollars per month. Physical strength and good health are insured by regularity of life, good food and all of the various forms of athletic diversion which the Marine Corps encourages, in addition to the professional training of Marines. Education and broadening of the vision are provided not only by the travel experienced by Marines but also by the correspondence courses of the Marine Corps Institute. These courses include engineering, accounting, architecture, language, and many other courses, and any Marine who so desires may enroll in the course of his choice without cost to himself.

A limited number of selected applicants are admitted to the Marine Corps each month. For full information as to physical requirements, and application blanks, address Marine Corps Recruiting Office, Room 822 Allen Building, 1700 Commerce Street, Dallas, Texas.

PETER CONAGHY, Major, U. S. Marine Corps.

Mr. and Mrs. Ham Smith Left Friday to Attend Family Reunion

Mr. and Mrs. Ham Smith left Friday for Memphis, Texas, where they attended a reunion of the Floyd family. Mrs. Smith is the daughter of Mr. and Mrs. T. B. Floyd. Most all the relatives planned to attend. They gathered at the home of Mr. and Mrs. Floyd for the reunion.

Mrs. J. R. Cardwell, of Lelia, who has been visiting with her daughter, Mrs. R. B. Hatley, left Friday morning for Slaton, where she will visit with her son, W. B., and family.

Miss Bernice Bishop and Tom Bishop, of Amarillo, spent last week end here visiting with their mother, Mrs. Jennie Bishop, and family.

Six Texas Flags? Here Are Ten More.

Many believe that Texas had only six flags flown over her borders in the four centuries of her history, but in reality there were battle flags from seventeen different states flown during the Texas Revolution. Jan Fortune, author of Cavaleade of Texas, has gotten together all these historic banners for use in the Cavaleade at the Texas Centennial Exposition. These include flags from Ohio, Mississippi, Louisiana, Georgia, Tennessee, Kentucky, South Carolina, Alabama, and some half dozen flags fashioned by Texas men and women patriots. Ten of the flags are shown above held by actors on the Cavaleade set.

They Will Star for Bears at Centennial

These pro footballers, all members of the Chicago Bear eleven to appear in the Cotton Bowl at the Texas Centennial Exposition the night of September 7 against an All American team were in the national intercollegiate grid limelight only a few years ago. The two gentlemen carrying the footballs are Bronko Nagurski, left, Bear fullback, and Bill Karr, right, Bear end. In the center from top to bottom are John Siak, halfback; Bill Hewett, end; left, Bernie Masterson, quarterback; right, Beattie Feathers, halfback; left, Jack Manders, fullback; right, George Musso, tackle.

Mr. and Mrs. Alton Noland visited last Thursday with Mrs. Noland's parents, Mr. and Mrs. J. G. McGuffy, and family, of Lockney.

Miss Ruth Jenkins, of Sherwood, spent last week end here visiting with her parents, Mr. and Mrs. J. B. Jenkins, and friends.

Mrs. Maxine Webster, of Springer, New Mexico, who has been here for the past week visiting with friends, returned to her home Thursday.

Judge L. G. Mathews And Family Attend Featherston Reunion

The Featherstons—between 125 and 150 of them—gathered at the F-Bar ranch near Truscot over the week end for the largest reunion which the family has ever held. C. H. Featherston, former resident of Floydada, owner of the F-Bar ranch was host to the huge family party.

Judge L. G. Mathews, wife and daughter, Irene, of Floydada, attended. Mrs. Mathews is a member of the Featherston clan which gathered from six states for the annual reunion.

Misses Lola Mae Grundy And Genell Stovall Received College Degrees

Misses Lola Mae Grundy and Genell Stovall, both of Floydada, received their degrees at graduation Tuesday night at the Texas Technological College in Lubbock, which began at eight o'clock. They both received bachelor of arts degrees.

Miss Grundy is the daughter of Mr. and Mrs. I. R. Grundy, of this city. She has been visiting here with her parents and has attended the Centennial in Dallas. She will remain here until August 30 when she will return to Lubbock where she is employed in the Vogue Shoppe. Miss Grundy has been working in the shop for sometime.

Miss Genell Stovall is the daughter of Mr. and Mrs. E. F. Stovall, of this city. She has been employed in Lubbock at the theatre. Miss Stovall will teach in the R. C. Andrews Ward School here for the term of 1936-37.

Those planning to attend the graduation exercises were: Mr. and Mrs. L. R. Grundy, Mrs. J. B. Grundy, Mrs. W. H. Hilton, Mr. and Mrs. V. F. Stovall and daughters, Misses Virginia and Dorothy Dell Stovall, and Mr. and Mrs. Richard Stovall. Mrs. Bill Grundy, of Amarillo, accompanied the Grundys and also attended the assembly.

Eastern Star Ladies Attend Picnic Held At Roaring Springs

Several members of the Floydada order of the Eastern Star and their families attended a picnic held last Thursday at Roaring Springs honoring Robert Morris, who is the founder of the organization.

Various entertainment was enjoyed during the morning and a breakfast lunch was spread at noon. Mrs. Annie Moore, district deputy, of Lorenzo, was hostess and received the guests. A short program was given in the afternoon. Mrs. G. T. Assiter gave the invocation. Mr. Norris' life was given. He was born August 31, 1818 and has written many poems and songs for the Eastern Star other than founded the organization. He has done many things that has made him famous.

There were fifty-nine members and their families present. This was a district meeting with the following chapters represented: Floydada, Turkey, Paducah, Matador, Dickens, Roaring Springs, Spur, Ralls and Lorenzo. Port Arthur was also represented.

Among those attending from Floydada were: Mrs. Leona Bell and daughter, Alice; Mrs. Leo Howard, Mrs. G. T. Assiter and son, L. V.; Mrs. M. L. Probasco, Mrs. Ruby Boteler, Mrs. W. H. Henderson, Mrs. H. O. Cline and children; Mr. and Mrs. Tom W. Deen and daughter, Miss Wilma.

Audie Noland Was Honored With Birthday Party Saturday Night

Mr. and Mrs. Collis Roland entertained a group of boys last Saturday night with a slumber party, honoring Audie Noland, on his sixteenth birthday.

A three course supper was served to the following guests: Jack and Raulis Harris and Elmer Briggs, of Lockney, Billie and Delinn Williams, Johnnie Hollums, Eddie Brown, Nolan Husky and the honoree Audie Noland.

Miss Clair Bell Yearwood spent from Friday until Sunday in Amarillo visiting with her relatives and friends.

Mr. and Mrs. Tom Noland and family visited Sunday with Mr. and Mrs. Cleland Corder and family.

Lon M. Davis Was Elected President of South Plains Ginners Ass'n

Lon M. Davis was elected president of the South Plains Ginners Association in an annual meeting held in Lubbock Thursday. Mr. Davis succeeded R. E. Patterson, of Lockney. A 35-cent ginning rate was recommended to the group at the meeting. Mr. Davis and Mr. Patterson are also directors of the organization.

Approximately three hundred attended the meeting, which was one of the greatest number ever conducted. The group assembled in the Lubbock hotel, after which they had luncheon in the ballroom.

Speeches were given by A. L. Lockett, of Vernon, president of the state association; John C. Thomason, of Dallas, executive secretary; A. H. Lichte, of College Station, member of the state cotton board. Mr. Patterson, of Lockney, outgoing president, and Ray Grisham.

Those attending the meeting from Floydada were: Mr. and Mrs. C. T. Scott, of the West Texas Gin Company; Mr. and Mrs. J. W. Lanier, of the Texas Cotton Growers Gin, and Lon M. Davis, of the Davis Gin Company; J. E. Newton, of the Newton Gin Company, at Dougherty; Roy E. Patterson, Burton Thornton and Edd Whitfull, all of Lockney, and Charlie Nichols, also of Dougherty.

E. L. Angus Attended Business Meeting Held In Plainview Thursday

E. L. Angus, of the Floydada Armour Creameries, attended a meeting held in Plainview by the creamerymen last Thursday. Mr. Angus was selected to serve on a committee to set up regulations for a contest to be sponsored by the West Texas Cream Improvement Association. Twenty-one men attended the meeting.

The contest will be held for vocational agriculture students in West Texas and for 4-H club boys and girls. The contestants will write an essay on "Why it is Necessary to Produce Good Quality Cream and How it Should Be Done." First place winner will receive a trip to the Texas Centennial in Dallas with all expenses paid.

Mr. Angus returned home Thursday evening.

Football Boys Left Sunday For Encampment At Silver Falls

The future football boys of Floydada High School for the year of 1936 left Sunday for Silver Falls, where they will have a two weeks encampment. They met at the high school at 2 o'clock and from there they were taken to Silver Falls in an independent school bus driven by Lon Blasingame.

Coach Odell Winters, who will be coach for Floydada High School this year, and who was assistant coach to R. P. Terrell here last year, accompanied the boys to Silver Falls. Donley Stevenson also went with the group.

The boys that signed up to go on the trip were: Estel Barker, Edwin Golightly, Irvin Allen, Lillburn Cox, W. H. McClung, James Wilson, Troy Lightfoot, Billy Standiforth, Avon Powell, Oscar Atkinson, Truman Kirk, Charles Neal, Billy Tad Probasco, Ham Smith, Charles Nichols, Fred Beard, Lavon and Norville Rainer, Maurice Davis, Moody Williams, James Hicks, James Fry Gibbs, Harley Hay, Lewis Gilland, Paul Bernard, Frank Jones, Billy Ray Rander-son, P. O. Lyles, J. S. Hale and Ralph Taylor. Preston Badgett and Cleo Stevens will go with the group. Cleo will cook for the boys and Preston will assist in various ways.

The two weeks will be spent in practicing plays and runs. They will have a general practice to get ready to play the games in the fall. All kinds of work-outs will be used. Swimming will be enjoyed during the two weeks. The boys will return home in time for school to start Monday, September 7th.

Herbert (Yam) Sims left Thursday morning for Dallas, where he will spend his vacation attending the Texas Centennial Exposition.

Johnnie Hollums spent last Sunday with Eddie Brown.

Thirty Indian Tribes Attending Ceremonial At Gallup, New Mexico

(Note: The following story appearing in the Cortez Sentinel, of Cortez, Colorado, was handed us through the courtesy of D. W. Pyffe, who makes regular trips to this part of the country in carrying out his trucking business.)

Gallup, New Mexico, August 19.—Indian tribes of five western states are now trekking toward Gallup, New Mexico, "The Indian Capitol," where they will participate in their fifteenth annual Inter-Tribal Indian Ceremonial, August 26, 27, and 28. During these three days and nights the seven thousand Indians of the thirty tribes that gather will dance, chant, pow wow and engage in native races, sports, games and arts and crafts.

From distant South Dakota twenty Ogalala Sioux from the Pine Ridge Reservation will come to the Ceremonial. Their great teepees will be pitched on the Ceremonial Grounds where the groups of men, women and children will live during the Ceremonial. The Sioux are rated as America's finest costumed Indians. Formerly fierce warriors, they are very picturesque in their costumes of buskin and their great feathered head dresses.

In contrast to the Sioux teepee camp there will be hundred of Navajo camps scattered all over the Ceremonial Grounds. The Pueblo Indians have more sedate living quarters in adobe buildings and regulation tents.

Next to the Sioux the most distant tribes to be represented are the colorful Kiow of Oklahoma and the Pawnee from the same state. They are famous as dancers, craftsmen and artists. A nine year old Pawnee boy, Bunky Echo Hawk, will demonstrate his fancy roping.

Host to the visiting Indians will be the Navajo who surround Gallup, America's largest tribe. They are famous for their vivid blankets and for their beautiful silver jewelry.

Among the tribes from Arizona who will participate are the Hopi, noted for their Snake Dance and as fine craftsmen. Among the New Mexico tribes to participate will be Acoma, Laguna, Taos, Zuni, San Idefonso, Santa Clara, Jemez, Zia and several others. Additional tribes not represented on the programs will compete with their arts and crafts in the Exhibit Hall which will house ten thousand square feet of colorful handicrafts. Cash awards are made on arts and crafts and for excellence in all other Ceremonial activities.

More than a score of Indian craftsmen will demonstrate all processes in their ancient crafts in the Exhibit Hall. Sand paintings will be done daily by the Navajo.

Ceremonial days open with a parade of the costumed performers, led by an all-Indian band, through downtown Gallup. Picture-taking is permitted at all times during the Ceremonial. Afternoon programs are devoted to races, sports and games with a few dances in between.

Evening programs are full of dances, chants, weird rites, Indian magic and Indian music. Gallup has ample accommodations for all visitors.

THANKS, VOTERS OF FLOYD COUNTY

I wish to thank the voters of Floyd County for their loyal support given me in Saturday's primary election.

I assure you I will strive to fill the office as sheriff of Floyd County to the best of my ability.

Yours truly,
F. N. (FRED) CLARK.

American Expeditionary Forces Announce Dates Of Reunion at Dallas

Major General Beaumont B. Buck National Chairman of the American Expeditionary Forces Reunion has announced the following schedules for the coming AEF Reunion to be held in Dallas, Texas September 10th through 13th, inclusive as a feature of the Texas Centennial, these schedules having been approved after conference between federal, state, centennial, and AEF officials. September 10th will be Regular Army, Navy and Marines day in honor of the 1st, 2nd, 3rd, 4th, 5th 6th and 7th AEF divisions with the war time ships of the navy and marines who served in France. September 11th, will be National Guard Day in honor of the 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, and 42nd divisions. September 12th, will be National Army Day in honor of the 76th, 77th, 78th, 79th 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th 91st, and 92nd AEF divisions.

September 13th will be a combined reunion of all the AEF divisions, Navy and Marines. Regiments and smaller units will meet each morning at 10 a. m. at their respective divisional assembly points on the Centennial grounds, division meetings will be held at these same points at 3 p. m. Retreat will be held at 5:25 p. m. each day, formal guard mount and military band concert at 6:45 p. m. each day. On September 12th in honor of St. Mihiel victory the largest military and national defense parade in the history of Texas is being planned, Lt. General Robert L. Ballard, president of the National Security League and one of our greatest AEF generals, has been asked to lead this parade. The night of September 13th a memorial service in memory of the 50,000 AEF dead will be held, all of the churches in Texas being asked to take part closing the Memorial Services and the AEF reunion with a solemn prayer that Americas dead have not died in vain.

Home Owners Of County Receive \$128,952 For Refinancing

Residents of Floyd County received a total of \$128,952 from the Home Owners' Loan Corporation during the three year period of refinancing operations which terminated June 13, 1936, according to the final figures furnished H. P. Drought, state director for the National Emergency Council. This sum represented 76 individual loans.

A total of 44,361 distressed home owners in Texas were extended aid in the sum of \$103,208,774. Of this money it is estimated that \$6,343,000 went toward the payment of taxes and assessments, the estimated average of tax and assessment payment per loan in Texas being \$143.

According to the 1930 United States Census reports there were 374,755 owned non-farm homes in Texas. The Home Owners' Loan Corporation refinanced mortgages on 11.8 per cent of this number.

The total number of loans made in all states, Puerto Rico, Hawaii and Alaska was 1,021,817, involving the sum of \$3,092,870,784, making the average loan \$3,027.

More than 98 per cent of all money involved went for the refinancing of distressed homes by means of long term replacement mortgages which are to be amortized fully over the term of the loan in small monthly payments. The balance of the money advanced went for restoration and conditioning of properties.

It is estimated that \$228,453,000 of the Home Owners' Loan Corporation advances went to the tax offices of the nation, with the national average tax payment per loan being \$224.

Mrs. J. R. Cardwell, of Lelia, who has been visiting with her daughter, Mrs. R. B. Hatley, left Friday morning for Slaton, where she will visit with her son, W. B., and family.

Alva Lee Gill Recovering From Injuries Received By Horse

Alva Lee Gill, 7 year old son of Mr. and Mrs. Elvis Gill, who was kicked in the face and near the heart by a horse last Wednesday night at the home of his father, is recovering satisfactorily. He was returned home Tuesday of this week from the Plainview Hospital where he received medical treatment following the accident.

Mrs. Wayne Finley Was Honoree At Bridal Shower

Mrs. Wayne Finley was honoree at a bridal shower Friday evening at 7 o'clock, on the back lawn of Mrs. W. O. Jones.

Hostesses were: Mesdames Geo. A. Linder, J. W. Chapman, W. I. Cannaday, Edwin Heald, J. V. Daniel, A. E. Shelton, G. C. Tubbs, W. O. Jones, Wilmer James, Jr.; Misses Ina Sims, Margaret Sims, Selma Linder, Lera Opal Patton, and Bernice Patton.

The yard was fixed to represent a miniature farm, with hoes, rakes, shovels, plows and all sorts of garden implements. The registration table and punch table were made of bales of alfalfa. The punch was served from an old fashioned wooden bucket with a dipper. Old fashioned drop cookies were served with the punch. As the guests registered at the front of the house they were brought through a wire gate over which Miss Ina Sims presided. Some 50 guests registered.

Mr. and Mrs. Lorin Leibfried and family left Friday for Roby, Texas, where they visited with relatives and friends during the week end.

Denal Wayne Fortenberry, of Cedar Hill, spent last week end visiting with Mr. and Mrs. Elvis Gill and son.

Miss Peggy McKinney and brother John, returned home Sunday from Dallas where they visited the Texas Centennial.

Mr. and Mrs. Ernest Newton and children spent Sunday with Mr. and Mrs. A. L. Hollums and family.

Mr. and Mrs. Collis Roland spent Sunday with Mrs. Roland's father, T. M. Noland and family.

T. M. Noland and son, Audie, visited last Saturday with Mr. and Mrs. Collis Roland.

Mr. and Mrs. T. C. Hollums visited with Mr. and Mrs. A. L. Hollums and family.

Miss Irene Probasco returned home Saturday from Clovis, New Mexico, where she had visited with relatives for a week.

Miss Bernice Hollyfield, who has been visiting the past week with Miss Margery Kirk, returned to her home at Stephenville Monday. She was accompanied home by Miss Kirk who will visit with her for several days.

Miss Worth Gwendolyn Shipley returned home Friday after spending three months visiting with her sister, Mrs. C. P. Weber, of Denver, Colorado. She was accompanied home by Mrs. Weber and Miss Marguerite Kemp, of Denver, who returned home Monday.

A. S. Cummings Thanks Voters of Precinct Number One

I wish to thank my friends who supported me throughout the primaries. I hold no ill-will toward any one who saw fit to support my opponent. I appreciate the splendid cooperation I have had as your commissioner. I hope that my successor may enjoy the same fine cooperation.

I feel that though I am sincerely grateful to every supporter I had in the campaign, I am especially grateful to my neighbors in the Sand-hill community. Your support and your work for me is deeply appreciated.

A. S. CUMMINGS.
(Political Advertising)

TO THE VOTERS OF FLOYD COUNTY

I wish to thank the voters of Floyd County for the support they gave me in the recent primary election.

Even though I was not elected I have only the kindest feeling for all the people of Floyd County who so loyally supported me in any way during my campaign.

Yours very truly,
T. B. (BARLOW) HILL.

Floydada's Day At Fort Worth Frontier To Be September 11

Mayor W. C. Hanna has been advised that Floydada's Day at the Fort Worth Frontier Exposition has been designated as September 11th. A personal invitation has been extended Mayor Hanna and all Floydada and Floyd County to attend the Frontier Exposition on that day.

E. C. Potter returned home Thursday night after spending the summer months working in Hereford. He visited in Amarillo before returning home.

Right Kind of Food Important To Health

That vigorous good health depends not alone upon freedom from disease, but upon the proper amounts and kinds of foods eaten is stressed in a statement from Dr. John W. Brown, state health officer.

"The human body," he said, "may be compared to a steam engine burning fuel for the steam, which furnishes power. The food we eat is fuel and when digested and absorbed gives the energy necessary to live and go about our daily activities."

"In considering the proper amount of food for our individual needs, we should take into consideration the kind of work our body will be called upon to perform during the days. When more food is taken into the body than is needed to carry on its activities, extra work is thrown on the organs that carry off waste. This is especially true of the kidneys, and often results in serious after effects.

"The growing child will need more tissue building food than older people, but must also have the foods which supply eat and energy, and minerals to regulate the body. The foods which contain vitamins, such as fruits, vegetables, and milk are necessary to old and young alike.

"The various kinds of foods needed by the body are:

Tissue building foods, meats, fish, milk, beans, and nuts. Energy and heat giving foods, bread and cereals, fats, and all sweets. Foods containing minerals, vegetables, fruits, and whole wheat. Foods rich in vitamins, milk, vegetables, and fruits.

"An important thing to remember in our food problem is the fact that it is not necessary to eat until we feel 'filled up.' Take plenty of time eating and do not follow food fads or eat certain things because they agree with some friend who has recommended them to you. If your food does not agree with you, go to your doctor and let him find out what is causing the trouble."

MACKINAC ISLAND SHRINE OF LEGEND

Michigan Resort Is Rich in Historic Interests.

Washington.—The perennial discussion of need for a bridge to span the Straits of Mackinac is on again. Each year increasing numbers of business men, home builders and vacationists are lured to Michigan's upper peninsula and to islands in and near the straits, thus giving weight to the proposals of the bridge advocates.

"Among the favored vacation spots of northern Michigan which will become accessible to greater numbers of people by the construction of the bridge will be Mackinac Island, lying east of the straits, about three miles from where the proposed span would touch the upper peninsula," says the National Geographic society.

Famous for What It Lacks.

"Inhabitants of Mackinac have a strange way of boasting of their island. Instead of praising its cool, breezy summer climate and other outstanding features, they tell the world what it lacks—hay fever, mosquitoes, automobiles, street cars and railroad trains.

"From the deck of an approaching ship, a visitor sees white limestone bluffs that are a foil to the island's green crown of forest. The huge porticoed face of the Grand hotel, the walls of the old fort and most houses in the island's only town are spotless white. The visitor's first impression of order and cleanliness is augmented on landing when he hears no honking taxis and is attacked by no fumes of gasoline. The old fishing and trading village has expanded into a modern resort town with fine shops, all modern public utilities and splendid hotels and summer homes. For a tour of the numerous shrines of history and legend, one may hail a carriage-for-hire. The enforced slow pace of the vehicle allows full enjoyment of the rich scenic resources contained within the island's skimpy limits—two by three miles.

"There are more than 25 miles of drives, saddle paths and foot trails on the island. They lead to spots whose historic associations or curious natural formation require a visit. The wave-curved Arch Rock, with its 50-foot span; thimblelike, limestone Sugar Loaf; and the Devil's Kitchen, a favorite cave where tourists roast marshmallows in a huge fireplace, are a few of the points of interest.

Has State Park.

"Since the end of French domination, activity on the island has centered about its Fort Mackinac, which lies on the hill slope north of the town. Above its walls have waved both British and American flags as the two nations banded control of the region. Begun in 1780, it was built to replace Old Mackinac on the mainland which was insecure against attack by Indians and American Revolutionary soldiers. In 1805 the fort passed from national to state control and it is now included in the Mackinac Island State park. Picturesque stone blockhouses have been restored.

"Fort Holmes, perched on the highest point of the island north-eastward from Fort Mackinac, was erected by the British during the War of 1812. Here one delights in a panorama of Lake Huron with its tree-covered islets, and the distant shores of the straits.

"Indians of the Chippewa, Huron and Ottawa tribes inhabited Mackinac at various times. In 1763, at the close of the French and Indian war, control of the Mackinac region passed from the French to the British, who organized an important fur trading center about the straits and protected it with the fort. It was surrendered to the Americans in 1796 and became the base of operations for John Jacob Astor's American Fur company when Mackinac was the provincial capital of the Northwest territories. The old Astor house still holds early record books of the fur company. The Treaty of Ghent (1814) gave Mackinac permanently to the United States after a temporary reoccupation by the British."

Professor Discovers That Women Have Brains

Memphis, Tenn.—This yarn should rate orchids from the ladies for Dr. W. E. Atkinson of Southwestern university here.

"The professor says: 'Women have brains, just as men.' The statement came as a counter-belt of many that women's actions are caused by intuition of any other special sense.

"There is no difference between the sexes in this respect," Doctor Atkinson said, and regarding other beliefs:

"Genius and insanity are not akin to each other.

"Mental and physical superiority go together rather than opposite.

"Thoughts do not determine our actions, but our actions determine what we think, especially during the first half of our life, or up to twenty or thirty years of age."

He added to the five senses usually mentioned those of muscle, static, cold, warmth, pain and organic, bringing the total number, in his opinion, up to 11.

Indian Adding Machine Odd String Arrangement

When an Inca king of ancient Peru wanted to announce a law count his army, send a message, record a battle, or issue an edict, he sent for his quipu maker. Unlike the Mayas and the Aztecs to the north the Incas had no written language, and so the quipu took its place. It was made of a number of strings all tied at one end to a main string, relates a writer in Pathfinder Magazine. At first it was used only to count and was quite simple, knots being tied to represent tens, hundreds, and thousands. Later, however, as the makers gained in skill, the quipu became more complicated. Strings of different colors were used, and instead of simply tying knots in the individual strings they were knotted together to convey messages. At the height of the empire quipu makers and translators were stationed in every important town and quipus circulated widely.

A few of these relics are still in existence although their stories remain mostly untold because the art of translation was destroyed with the rest of the Indian culture by the Spaniards. The Field museum, in Chicago, recently ended a ten-year search when a surprised official discovered one where it had been lying unnoticed among other articles in the museum.

Mail for Tristans Not More Than Once a Year

To the inhabitants of Tristan da Cunha, the world's most isolated bit of land, Christmas comes when the mail comes, observes a writer in the Washington Post.

The tiny island is set in the South Atlantic, midway between the Cape of Good Hope and Cape Horn. Thunderous seas break almost continuously over its bleak and forbidding shores. Winds of hurricane force roar day and night.

But because it is a part of the far-flung British empire, Tristan receives at least one steamer visit a year, but few more. There is no anchorage so the vessel stays off shore, and, awaiting a rare calm spell, sends landing parties in small boats.

The arrival of the vessel is the high spot of the year to the 130 or so Tristans—descendants of a small group placed on the island 100 years back when England took possession. The people are hardy and frugal. Their diet consists entirely of fruit, potatoes, fish and mutton. Though monotonous, the diet agrees with them.

Revolutionary War Trick

Maj. David Zelgler, who upon appointment by President Jefferson became the first marshal of the Ohio district, was taken prisoner in Philadelphia during the Revolutionary war together with two other American officers. Soon afterward the three men escaped and, in fleeing, stopped at the house of a German family near the city. Major Zelgler, who had begun his military career in the army of Frederick the Great, posed as a Dutch doctor to gain the friendship of the German family. Making some pills of bread and water, says the Cleveland Plain Dealer, he cured the wife of some minor ailment and the three men were thereafter not only treated cordially but did not have to pay any bills for board and lodging.

Early California

California was almost entirely isolated from the rest of the world, at the time it was admitted as a state, and during the gold rush era that followed. Somehow the primitive words regarding the unpopulated western plains from the Mississippi to the Rockies, the head of buffalo, tribes of warlike Indians, non-existence of telegraph and railroad communication, just simply do not seem to click in the average mind. History asserts that gold seekers made the trip from New York by boat all the way down the coast of the two Americas, round the Horn and up the Pacific coast to San Francisco, in less time than it took expeditions starting from Chicago to cross the plains with prairie schooners, but either trip is hard to visualize.

The Power of Persistence

There is genius and power in persistence. It conquers all opposers; it gives confidence; it annihilates obstacles. Everybody believes in the determined man. People know that when he undertakes a thing, the battle is half won, for his rule is to accomplish whatever he sets out to do. People know that it is useless to oppose a man who uses his stumbling blocks as stepping stones; who does not know when he is defeated; who never, because of criticism or opposition, shrinks from his task.

Most Deadly Animal

The crocodile, not the lion, is the greatest killer of human beings in Africa. This slimy, foul-smelling monster, the largest living reptile known to man, lurks along paths near the water's edge and lies in wait below footlogs hoping that the unwary traveler will fall into the water. He is the most hated, the most feared, and the most hunted creature alive. Yet his numbers seem to increase rather than diminish.

ANCIENT SKELETONS FOUND BY 2 GIRLS

Students Aid in Excavating Arizona Ruin.

Kansas City.—High on an Arizona mesa in the foothills of the mountains, near a worn Apache trail, the only two girls in Kansas City to study the prehistoric culture of the New world, Mary Jane Haden and Virginia Narr, spent ten weeks doing field work under the direction of Dr. Byron Cummings, says the Kansas City Star. It was while assisting in the excavation of the great Kinisbba ruin near Fort Apache that they unearthed an entire room, finding three skeletons and many important relics.

"The ruin which we were uncovering," says Miss Hayden in telling of their experiences, "was called Kinisbba (brown house), the name handed down by legend, as these early inhabitants of the Southwest had no written language. Kinisbba is a tremendous ruin, one of the largest ever discovered in the United States, and is divided into eight separate groups of which one was being excavated. In this group 87 rooms and a patio had been uncovered when we commenced our work.

Rooms Doorless, Windowless.

"It is believed that Kinisbba was built between the dates 1200 and 1320 and was originally a two-story house. The first floor rooms have no windows, no doors and were apparently used for storage. Doctor Cummings is of the opinion that the whole upper story burned and fell into the lower because of the large amount of charcoal and debris as well as doorway slabs found in the excavated rooms.

"In the hope of uncovering another room we were assigned a plot just back of a line of excavated rooms, so we were reasonably certain that we would find some relics before we dug very deep.

"Using picks, shovels and trowels, we turned up the earth near the back wall, as our most important job was to locate the walls of our room and from them to designate the position of every relic which we found.

"We were required to level off the ground at every foot, lifting off layers of dirt instead of digging holes. About nine inches down we unearthed the first evidence of prehistoric life—a mano or stone implement for grinding corn. In quick succession we turned up rubbing stones, stones for smoothing arrow shafts, polishing stones for making pottery, prayer stones and fragments of pottery.

Paints Mixed for Use.

"There were bone relics, too—deer bones, coyote, rodent, bone flints and scrapers for cleaning skins, bone daggers and awls, needles, horn chippers. There were paint dishes made of hollowed-out stone, and nearly small quantities of paint, ground and mixed for use.

"We found spindle whorls made of clay and used in winding yucca yarn, ornaments of shell and bone, pendants, arrowheads and spear points and bracelets. One of the most interesting of these ornaments was a turquoise bead, then a rare and difficult stone to obtain, as few are found in ruins.

"We were down more than five feet before we found our first skeleton.

"Thus far only the bones of babies have been found in the ruins, the bodies of the adults having been placed in a burial ground across the arroyo. Twelve babies, however, were found buried in one room of the ruin, and we found three in ours. The skull of one had been cracked, leading us to believe that the child had been killed in a fall from the second story."

Readers of Esperanto Estimated at 1,000,000

Madison, Wis.—Two small printing presses, sandwiched between a desk and shelves bearing hundreds of books and pamphlets in Esperanto here, are the source of a bi-monthly magazine, *Sciencia Gazeto*, published in this universal language.

The same room also is home of Karl Froding, the magazine's editor and publisher. A card on his door reads "The American Esperanto Institute."

One million persons in the world are adept readers of Esperanto, Froding estimates, and 10,000,000 more have some understanding of it.

Recognizing that it still is "too early to expect anything," Froding is working toward the day when he believes Esperanto will remove the barriers of national languages.

Ginger-Haired Tar Ordered From Mayor

London.—The mayor of Southampton is looking for a ginger-haired sailor.

Recently he received the following letter: "Dear Sir—Will you please help me. I have, since a small child, wanted to marry a ginger-haired sailor, but so far have never met one. I should be very grateful if you could put me in touch with a cheery sailor of from thirty-five to forty."

New York Stock Exchange Traced to Year of 1789

Up to March 4, 1789, trading, to Americans, meant hitching up the bays, driving three or four miles to town, and swapping seven dozen eggs and a clot of butter for a bolt of calico. What little cash circulated was kept in private banks, or under the mattress. There were no such things as stocks and bonds, says *Literary Digest*.

On that date the New world became, overnight, a nation of investors; for the first congress of the United States, meeting in the Sub-Treasury building in New York city, authorized the issuance of \$80,000,000 of government bonds, to consolidate and refund the cost of the Revolutionary war.

Thus, by the scratch of a pen, an entirely new form of property was created—a form of property for which there was no regular market nearer than London or Amsterdam. How could such a vast flotation be sold to thousands of small investors scattered throughout the 13 states?

Twenty-four alert auctioneers saw their chance; with a rude wooden table and a bench from a nearby tavern, they set up business under a buttonwood tree on the site of what is now 68 Wall street. When inclement weather drove them indoors, they sought shelter in one of the convenient taverns or coffee houses.

Within three years their business had grown to such proportions that these early traders found it necessary to organize. On May 17, 1792, the 24 signed an agreement fixing certain rules; that was the beginning of the New York Stock exchange.

Smallest Land Is Tuned to Music and Festivals

Music plays an important role in Luxembourg. One-sixth of its small army, it used to be said, composed the band. Ancient tunes and saws are the order of the day for festivals.

One of the most interesting of these is the strange procession at Echternach every Whit Tuesday, when 20,000 dancing pilgrims, swaying three steps forward and two back, go through the town to the old tune, "Adam, He Had Seven Sons." Then at Luxembourg, the capital, the March of the Muttons is celebrated each year, snow-white lambs making their puzzled way through the streets, followed by musicians playing the old Mutton march.

Older than Luxembourg's castles are its Druid ruins and customs. On the summit of one of its hills, which is crowned by a mysterious stone, children build a fire one night each year, and then waving burning brands come rushing down through the torch-lit darkness into the village at the foot of the mountain. This custom began before history was written.

Less than half the size of the little American state of Delaware, the Grand Duchy of Luxembourg has a total population less than that of San Antonio, Texas.

Giants Feared Midgets

Midgets often have keen minds, while giants are frequently below the average in intelligence, says the writer of "The World of Midgets," published in London. The contrast in virility and wits between giants and midgets was amusingly illustrated in the Seventeenth century by an Austrian empress, who collected as many as she could and housed them in the same building. Many people feared the giants would harm the midgets, but the reverse was the case. The midgets teased the life out of the giants, and insulted and robbed them to such an extent that the poor giants, with tears in their eyes, complained about the way they were being bullied! Finally, armed sentinels had to be stationed in the building to protect the poor little giants from the 'great' bullying midgets!"

Bird's Nest Soup

Bird's nest soup, traditionally famous for its nutritive value, both in the Orient and our own country, is not actually made of "bird's nests." The word "nest" is a misnomer, according to a writer in the *Cleveland Plain Dealer*. Bird's nest is a gelatinous substance found in and around the nests of swallows in the rocky regions of Indo-China and the South Sea islands. The substance is derived from fish and certain sea foods which the birds carry to their nests as provision for future use in the period of feather shedding. Some chemical change evidently takes place while being carried by the birds and during storage in their environment. When prepared for soup it is used in small bits or in filaments and is transparent and colorless.

When Bear Grease Was Popular

Some decades ago when bear grease was a popular unguent for the hair, substitutes became so prevalent that London barbers adopted the custom of exhibiting a live bear in their shop windows for some weeks prior to its slaughter, to show they used the genuine article. One proprietor, however, made his bear last for a number of years. Periodically he hid the animal—for several days at a time—and dyed it another color.—*Collier's Weekly*.

Miss Dixie Mae Potter Entertained With A Dinner And Theatre Party

Miss Dixie Mae Potter entertained last Friday night with a dinner and theatre party at the home of her parents, Mr. and Mrs. E. C. Potter. A beautiful bowl of verbenas was placed in the center of the table. The meal was served on small card tables. Following the dinner the group was taken to the theatre where they saw "The Princess Comes Across."

The social was given as a going-away party for Miss Potter, who left Saturday for Fulton, California, where she will attend Fulton Junior College. She will visit with her aunt, Mrs. George C. Hanna, of Pasadena, California, until school begins.

Those attending the social were: Misses Cleo Birch, Virginia McKinney, Lorena Denson, Fern Flukner, Ruth Snell, Evelyn Potter, and the hostess, Miss Dixie Mae Potter. Messrs. Bill Snell, Charles Denson, John McKinney and Cloy Lyles.

B. T. S. Was Entertained By Miss Emma Louise Smith Thursday Evening

Miss Emma Louise Smith entertained the members of the B. T. S. of the First Baptist Church last Thursday evening at the home of her parents, Dr. and Mrs. Lou Smith, 1002 South Wall Street. Various entertainments was enjoyed.

Ice cream watermelon was served to about twenty guests by the hostess.

Starkey Church Announcement

The following services will be held at the Starkey Baptist Church Sunday, August 30:
Sunday school at 10 a. m.
Preaching at 11 a. m.
Baptizing at Will Ferguson's at 4 o'clock p. m.
B. Y. P. U. at 7:30 p. m.
Preaching at 8:30 p. m.
Everyone is cordially invited to attend all these services.
REV. G. W. TUBBS, Pastor.

HUDSON AIDS VISITORS TO MEXICO

Friendly Texan greetings await tourists passing through San Antonio enroute to Mexico City over the new international highway. At the official opening of the highway, this Hudson was the official car of the San Antonio Automobile League. At the left is Jack Edgecomb, San Antonio manager of the American Automobile Association, and at the right, Ward Orsinger, Hudson and Terraplane distributor for the San Antonio territory.

Furthering its policy of rendering every possible aid to tourists, the Hudson Motor Car Company announced today additional service designed to assist Americans traveling to Mexico City over the new Pan-American Highway connecting the Mexican capital with the United States.

Realizing the interest that was bound to focus on this new route, Ward Orsinger of the Orsinger Motor Company, Hudson and Terraplane distributor in San Antonio, made several trips over the new highway, familiarizing himself thoroughly with it and making himself somewhat of an authority on the trip. With the opening of the new route the first of July, Mr. Orsinger announced special service for international tourists, inviting them to call at the Orsinger Motor Company in San Antonio for any assistance or

courtesy that might be needed. At the Orsinger service station, hundreds of tourists already have been advised as to driving conditions and their cars inspected and checked preparatory to the 900 mile run from there to the Mexican capital. Special consideration is given to these tourists, with lubrication and inspection provided in the quickest possible time. At the Orsinger station, maps of the new route are available while special information about the sights of San Antonio, the missions, Brackenridge Park, Randolph Field, the Alamo and other points of interest are given visitors.

At the opening ceremonies for the new highway, held on the International Bridge over the Rio Grande at Laredo, Tex., a Hudson car, provided by Mr. Orsinger, was the official car of the San Antonio Automobile League.

HOW THE BANKS AID THE GOVERNMENT

Normal and Emergency Needs Met by Advances of Banking Credit

NEW BRUNSWICK, N. J.—The American commercial banking credit system is an absolute essential in the financial operations of business and government. Harold G. Moulton, President of the Brookings Institution of Washington, D. C., said here recently in an address before the Graduate School of Banking conducted under the joint auspices of Rutgers University and the American Bankers Association.

If the flexibility and expansibility provided by commercial banking credit were eliminated, Dr. Moulton declared, "it is scarcely too much to say that the economic system itself would shortly be destroyed."

"Normally the amount of credit extended by commercial banks to the government is small in amount and for the purpose mainly of financing temporary requirements in anticipation of tax collections or bond sales. But in periods of war and acute depression, when the financial requirements of government expand with great rapidity, the expansion of commercial bank credit is on a tremendous scale. Such is the case at the present time."

How Public Needs Are Financed

"The purchase of government securities by individuals and by the commercial banks provides the government with the means by which its manifold activities are financed. The Treasury obtains the funds, with which the Reconstruction Finance Corporation and other government credit agencies finance their operations, through the sale of securities, largely to commercial banks. These funds, in turn, have gone to the assistance of distressed banks and other financial institutions, to aid in industrial and agricultural enterprises, to finance new public and private capital construction, and to provide relief to the unemployed."

Dr. Moulton declared that it is not true that the world depression was caused by a breakdown of the American banking system, "which did not, in fact, occur until the depression had been under way for more than three years." He added:

"Nor is it true that the world maladjustments existing in 1929 can be explained simply by undue extensions of commercial banking credit in the preceding years. These maladjustments involved world agricultural, industrial, commercial and financial relations."

FARM ACCOUNTING REVEALS LESSONS

Principles of Sound Business Management That Apply to All Farms

An analysis made of detailed records kept by a group of Wisconsin farms revealed several important lessons and the principles of sound business management derived from them apply equally well to other farms, says an article in the Bulletin of the Agricultural Commission of the American Bankers Association. The article says:

"Investment costs, including interest, depreciation, repairs, taxes and insurance, are approximately two-thirds of all farm costs. Furthermore, these costs are largely independent of the production program of the farm."

"This means that if a farmer cuts his production of crops or livestock, he increases his investment costs per unit of product produced, as a smaller number of units must then carry as large an expense load as before. This illustrates the importance, from the standpoint of costs, of operating a farm at or near capacity."

"Investment mistakes are more costly than many others because they cannot easily be corrected. If a farmer pays too much for his farm, his investment costs will be abnormally high as long as he owns it. If he constructs a \$4,000 barn when a \$2,000 barn would have served his purpose, he will have excessive barn costs, year after year, during the entire service life of the structure."

"This emphasizes the importance of a knowledge of investment values and the specific investment requirements of individual farms."

Determining Real or False Economy
"In working for greater economy, it is essential that the farm manager be able to distinguish between a real and a false saving. This can be done only through a careful estimate of the contribution to income, over a period of time, of each item of expenditure. Only if more is saved in expense than will be lost in income, can a contemplated cut in expense be designated as a real saving."

"For example, dropping dairy herd improvement work may result in a yearly expense reduction. The question to decide is what effect the dropping of this work will have on the present and future income from the dairy herd. If the estimated loss in livestock receipts due to a lower herd efficiency in feeding and breeding is greater than the original saving, then it would obviously be a false economy."

BANKING SYSTEM SHOWS PROGRESS

State Bank Resources Grow More Than Three Billion Dollars in a Year

NATIONAL BANKS GAIN

American Bankers Association Gives Details of Banking Institutions — Notes Stronger Conditions

NEW YORK. — Continued improvement in the condition of state chartered banking institutions, with an increase of more than three billion dollars in a year in total resources, is shown in a report just issued by the State Bank Division of the American Bankers Association.

The report was prepared by the division's Committee on State Bank Research from data furnished by state banking departments and parallels data issued by the Comptroller of the Currency for national banks which show similar improvements.

"The combined resources of 10,473 state supervised banks were \$35,724,723,000 as of December 31, 1935," the state bank report says. "Total deposits amounted to \$30,526,920,000. Total loans and discounts stood at \$12,430,404,000 and total investments were \$14,170,421,000."

A year previous, tables in the report show, there were 10,544 state supervised banks, with combined resources of \$32,680,203,000, total deposits \$27,297,959,000, loans and discounts \$13,060,033,000 and investments \$12,582,325,000.

Classes of Institutions

Of the reporting state banking institutions on December 31, 1935, \$2% were commercial banks, the report states, 9% trust companies, almost 9% stock and mutual savings banks and less than 1% were private banks. The report adds:

"The parallel upward movements of deposits and total invested funds of total state supervised banks during the years 1934 and 1935, after declines in these items in 1932 and 1933, are indications of definite steps toward recovery in state banking."

"Based on figures assembled for total state supervised banks on resources and liabilities as of December 31, 1931 to 1935, it is noted: (1) that deposits in 1935 rose approximately 12 per cent over the previous year, as compared with an increase of about 9 per cent in 1934 over the year 1933, and declines of 7 per cent and 12 per cent in 1933 and 1932, respectively, from the preceding years of 1932 and 1931; and (2) that total invested funds increased by approximately 2 per cent in 1935 and also in 1934, while they had decreased by 9 per cent in 1933 and by 11 per cent in 1932."

Analysis Shows Stronger Position

In a survey and analysis of earnings and expenses of state banks doing a commercial business, it is brought out that in a majority of states they have increased their earning ability during 1935. On the basis of data covering 7,925 banks in 42 states, the report says:

"The most significant fact to be pointed out is that new profits of state banks — after deducting charge-offs on loans, investments, etc., and adding recoveries — were shown in 37 of the 42 states which reported in 1935, in comparison with net profits in only 11 of the 35 states reporting in 1934. Measured in terms of dollars, net profits in 1935 ranged between \$2.40 and \$1.10 per \$100, with 19 states showing profits of \$1.00, or over, per \$100; while in 1934 net profits did not exceed \$1.20 per \$100 and only three states showed profits of \$1.00, or over."

Bankers Help Farmers

The conviction that 4-H Club work lays the foundation for sound citizenship and intelligent farming influenced a New York City bank executive to contribute \$50 to the Agricultural Committee of the State Bankers Association, to further 4-H Club activities in the state. "I am convinced that the work is so worthy, and is being so well handled that it should interest those who believe in building sound citizenship, as well as intelligent farming for the future," he said.

Unusual prominence was given this past year to agricultural work by the Tennessee Bankers Association. The Agricultural Committee report reveals hearty cooperation between bankers and extension workers. "Key bankers and county agents have been in closer contact than ever before," it says.

Georgia bankers have given both moral and financial backing to a Marketing Project sponsored by the Extension Service of the College of Agriculture, and activities the past year showed significant results. The phases of the Marketing program emphasized in the year's work are: The retail curb market; roadside marketing; miscellaneous marketing (suited to the locality); bartering (exchange of commodities or services with neighbors); standardized canned products for sale prepared in homes or canning centers.

Greek and Roman Houses Proficiently Arranged

The arrangement of rooms in both the Greek and Roman house was carried to a point of proficiency, that has rarely, if ever, been excelled, says a writer in the New York Sun. In every respect, except for electricity, central heating and mechanical devices, the better houses of these two earlier civilizations had about everything which the more recent house has. With a few extra servants, we could live just as comfortably in their homes as in our own.

Heating was a problem, but both the Greek and Roman met changes in seasons ingeniously. In the up-to-date house in the time of Augustus there were enough rooms to follow the sun around the house. Romans, who were the technologists of antiquity, reduced the proper exposure for the different rooms to a formula; the special purpose to which each room served, required a different exposure, suited to convenience, and to the position of the sun. The principles which they set down can be, and often are applied in the orientation of the later house.

Winter dining rooms and bath-rooms were in the southwest part of the house for the reason that they need the evening light, and also because the setting sun "facing them with all its splendor, but with abated heat, lends a gentle warmth to that quarter in the evening." Bedrooms and libraries had an eastern exposure, because their purposes required the morning light; furthermore, books in such libraries were less subject to decay. If libraries were on the south, books would soon be ruined by worms and mildew.

May Apple, or Mandrake

Legends of Roman Origin
Because the May apple also is called a mandrake, the Old world legends about mandrakes are often associated with it. These legends go back to Roman times when the mandrake root was considered a good luck charm. Old books, states a writer in the Detroit Free Press, contain very specific directions for digging up the roots of the mandrake so that a maximum of good luck may be derived from it. One of these old accounts reads:

"The dog to the plant while it is being dug. When it is being dug, the dog will give a great shriek, for if a man should dig the plant alone, he will die in a short space after."

At one time Englishmen provided a good market for mandrake roots. People who sold them pretended that these roots had the power of increasing whatever money was placed near them. Sellers claimed that the roots grew nowhere else but in China and were brought to England with great risk and danger. As a matter of fact, the mandrakes were growing right in England's own fields.

Little Walled-in Cities

Greatest attractions of all in Ghent, Belgium, are the lay Be-guinages, or nunneries. Only a few of these can be found in Europe. Here they are little walled cities within the city and in them live some five or six hundred Beguines, women who take no vows, but retire thus from the world for a time. The little cities of walled-in quiet are scrupulously tidy and neat, and each has its little parks, squares and churches. The Beguines themselves pay taxes just as other citizens do, and each of them is free to return to the life and business of the world at any time. It is not uncommon for Belgian women to go to these nunneries for a few months, spending their days in making lace and carrying out religious devotions, then to return home to their old household tasks.

Magnetic Hills

In regard to a certain hill in California that is supposed to have magnetic power sufficient to pull an automobile up at the rate of 25 miles an hour, the so-called magnetic force is imaginary, and cars do not climb them without power from their engines. The rider is simply the victim of an optical illusion, produced by the contrast in two grades. It is often difficult for a driver among the mountains to tell whether he is going up hill, on the level, or downhill. Approaching the hill on a 15-degree grade, he comes to a sharp curve and when he has turned he seems to be still going uphill though his machine will coast without power. In reality he is going down a two-degree grade. Besides the Magnetic hill outside Los Angeles, there are similar "magnetic hills" in other mountainous regions, where the same illusion is experienced.

Five Major Tastes

There are a few fundamental points about the mechanism of the sense of taste, states an authority. The taste buds extending only part way back on the tongue are extremely sensitive to only five major tastes; namely, sweet, sour, salty, bitter, and salt. The really delicate sense of taste is in reality a sense of smell.

In Memory Of My Dear Friend, Mrs. Will J. Lester

One who was as good to me in my years of sickness and sorrow as an own daughter could be. She left this earth for her heavenly home July 21, 1936.

She was saved by the blood of the eternal Christ. Her life proved this to be so. Such love for God is seldom found in this old world of sin and woe.

I loved her as few I have known. Gentle, but strong, brave and true. A friend a neighbor a sister in Christ.

A friend a sister I could always trust. Oh how I miss you dear one. But I know you are watching and waiting for me. And when I get through here, I'll come.

I'll join you in that happy home. That we talked so much about. I know your joy is all complete. And it makes me so happy I could shout.

I miss you dear friend in study and prayer. You were always ready and anxious to pray. And always burdened for lost souls. O God, that others would live that way.

Your life was cleansed by the Gospel of grace. No one who knew you could doubt it. The words that proceeded out of your mouth bore witness and testimony. Yes, 'till evidence of it.

Yes born of the spirit washed in His blood. Loved His commandments and lived His work. This was your life, the world had no charm, To you it was glory to read and live His word.

I shall pray for husband and children you left, The brothers, and sisters, mother, and father. We know that God is able to protect and care, And that His loving arms will reach even further.

Lena and L. G., did love you so dear, But finally agreed for you to go. To be with our blessed Savior, And leave us all down here below.

1. You little blue eyed angelic girl. (God is near Ps. 19:151)
2. Her salvation has been provided. (God loved. John 3:16)
3. Her future life is planned, God guides, Ps. 73:24)
4. Her mother's prayers assended, (God heard. Ps. 28:16)
5. Her joy will be complete. (God is true. Ps. 16:11)

Poor Mr. Lester and sweet boys. Look so sad, lonely and grieved, But, oh, what a happy meeting soon, Will be in that heavenly home.

For if we believe that Jesus died and rose again, even so them also which sleep in Jesus will God bring with Him.

Laugh AT SKIN TROUBLES!

How that awful itching, burning, stinging, and smarting skin trouble is made to disappear with Palmer's "SWEET OINTMENT" and "SWEET CREAM". Also use Palmer's "SWEET SOAP" for each application.

PORTRAIT OF A HAPPY MAN . . .

He knows he's heading home for a SWELL dinner. You see, his wife just bought one of the 1936 Modern Gas Ranges. They make mealtime success a SURETY, and with the new low gas rate, it's so inexpensive in upkeep.

The low gas rate recently fixed by the Railroad Commission of Texas, and put in effect by the company, is lower than the rate in 591 of other Texas Cities and Towns having gas service.

West Texas Gas Co. Good Gas With Dependable Service

For this we say unto you by the word of the Lord. That we which are alive and remain unto the coming of the Lord shall not prevent them which are asleep.

For the Lord himself shall descend from heaven with a shout. With the voice of the Arch Angel. And with the trump of God and the dead in Christ shall rise first.

Then we which are alive and remain shall be caught up together with them in the clouds to meet the Lord in the air. And so shall we even be with the Lord. Wherefore comfort one another with these words. I Thess. 14:18.

A loving friend,
MRS. J. L. KING.

Brotherhood Sunday School Class Hold Watermelon Party

Members of the Brotherhood Sunday School Class of the First Methodist Church had a watermelon feast in the basement of the church last Friday night. A business meeting was conducted by the president, C. L. Minor.

Feed watermelon was served to about thirty-five men.

Mr. and Mrs. Haskell Redd and J. N. Redd returned home Friday night after visiting in New Mexico. They spent most of their time in Las Cruces and Roswell. They also visited in El Paso.

Mr. and Mrs. Clyde Sells, of Lebanon, Tennessee, and Miss Ida Rushing, of Murfreesboro, Tennessee, arrived Tuesday to visit with Mr. and Mrs. S. L. Rushing and family.

Miss Emma Louise Smith Entertained With Swimming Party Friday

Miss Emma Louise Smith entertained several of her friends with a swimming party at Roaring Springs Friday evening. A picnic lunch was served and the rest of the evening was spent in swimming.

The following girls went on the swimming party: Miss Bert Smith, Miss Virginia Stovall, Miss Ruth Troutman, Miss Mary Jo Scott and the hostess, Miss Emma Louise Smith. Mrs. Lon Smith accompanied the girls.

Miss Genell Stovall, of Texas Tech in Lubbock, spent last week end here visiting with her parents, Mr. and Mrs. E. F. Stovall, and family. She has as her guests Misses Virginia Newton and Jan Tinsley.

Watch Your Kidneys!

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained. Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes, feel nervous, miserable—all upset.

Don't delay? Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.
