

FLYDADA—GATEWAY TO THE SHALLOW WATER BELT

# The Floyd County Plainsman

'37's LARGEST WHEAT YIELD OF ANY COUNTY IN TEXAS

Floydada, Floyd County, Texas, Thursday, June 24, 1937

Number 29

## Security Act Penalty For Those Delinquent In Payments

Persons of eight or more who fail to make returns in accordance with the provisions of Title IX of the Social Security Act, which imposes an excise tax on employers, known as the unemployment tax, were warned by the Internal Revenue Commissioner that they faced delinquencies ranging from 5 to 25 per cent of the tax bills call for. The returns were due on April 1, 1937.

Thomas referred to Article 10, Regulations 90, which require the filing of a return under section 406 of the Revenue Act of 1935, a penalty of from 5 to 25 per cent of the amount of the tax, upon the period of delinquency. Employers were granted an extension of time for the filing of returns until the end of the month of July.

Thomas said that recognition of the following facts by all employers would remove a great deal of the confusion that apparently exists in the provisions of Title IX of the Social Security Act: Employer's excise tax, provided Title IX of the Social Security Act is separate and distinct from the employer's excise tax under Title VIII of the Social Security Act.

Federal credit is allowed an employer for a state contribution to the state contribution is due to the date due of the return. Employers alone pay the tax under Title IX.

Advocates Independence For The Philippine Islands  
June 22.—Advocating independence for the Philippines as a vital peace industry for the United States, George Mahon last night at the House of Representatives to consider legislation for independence possible in 1940.

Address to the House, Mahon is advocating for new legislation for new America regardless of war or Asia. We are far from being as we maintain in the Philippines, able to be in the middle of the Orient. This is fortunate, and this untenable should be terminated at the earliest possible moment. It is one of the greatest threats to peace of the world.

pointed out that in addition to a war hazard, the Philippines have been and still are very financially to the United States. The total actual cost to the United States which have made expenditures in the Islands from 1898 to 1936 was estimated at \$900,000,000. Annual expenditures for the army and navy in the Philippines are \$14,500,000, and the present law this expenditure recur each year until 1946.

Congressman stated that these expenditures could best be spent in the development of the Philippines of this country.

is a member of the House Affairs Committee which has introduced legislation affecting the Philippines.

## Dr. V. Andrews Suffers Slight Injuries From Automobile Wreck

The occupants of two cars escaped with only minor injuries Sunday afternoon when their cars collided at the corner of Main and Missouri Streets. One car driven by Floyd Lawson was slightly damaged, while damage to the other, driven by Dr. V. Andrews, was heavier. The car driven by Mr. Lawson struck that of Dr. Andrews as he turned south, thus mashing in the left side of Dr. Andrews' car. The blow was with such force that Dr. Andrews was dazed, but it was thought that his condition would be satisfactory after a few days rest.

## Floyd County Wheat Harvest In Full Swing—Biggest Yield in Years

The Floyd County wheat harvest is on in a big way this week. Many say the crop is yielding more per acre than in 1926, which was the all-time high for the panhandle. And the record of fields already cut indicates that estimate isn't far wrong.

The hum of combine and tractor motors is to be heard in all directions over the county, and the harvest—the biggest in the history of the county is giving employment for all willing workers.

Floyd County unquestionably is the banner county of the South Plains wheat crop this year. Many combines are cutting in 30 bushel wheat. Few are cutting in wheat making less than 15 bushels and some report 40 and a few 50 bushels per acre, with the best dry land crops covering the south east part of the county, where large yields are being harvested.

Combines are running everywhere in the county. Farmers are hauling wheat to the elevators in every conceivable kind of conveyance from old, rattling Model T's, trailers and pick-ups to large, new trucks.

Women and Girls Help Out With Harvest Work  
Many women and girls are driving trucks, pick-ups and trailers to the elevators, pinch-hitting for their men-folks while the big rush is on. They are mostly dressed in shirts and slacks and are putting on a real "harvest tan" hauling in the golden grain.

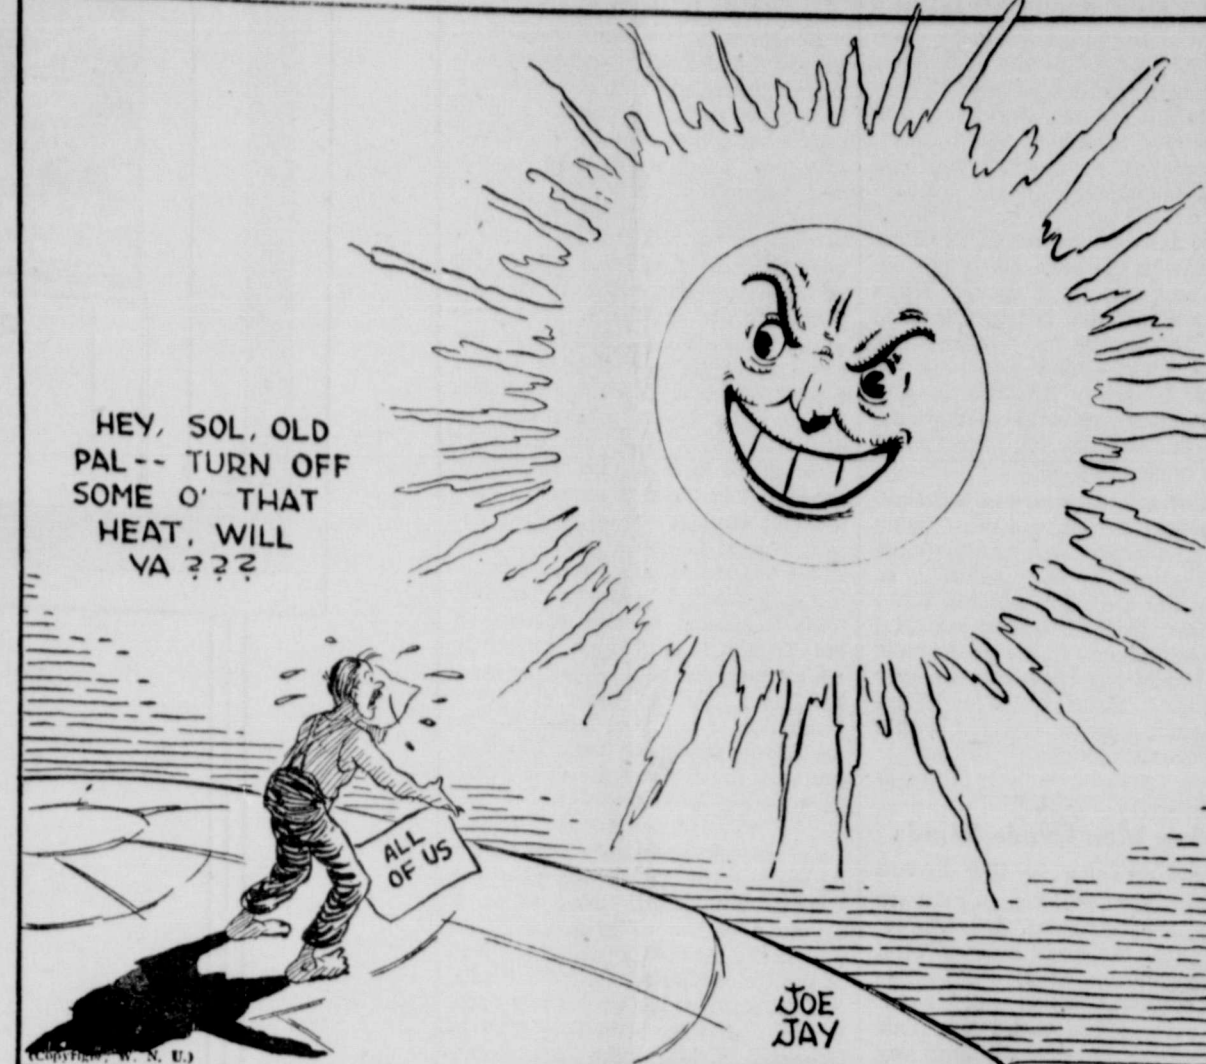

## Wilson Reunion Held At Home Of Mrs. Montague Sunday, June 20th

A reunion was held here Sunday, June 20, at the home of Mrs. Fannie Montague and Mr. and Mrs. R. A. Garrett, at which all members of the Wilson family were present. Mrs. Montague, formerly a Wilson, was hostess for the affair. Guests began arriving Friday and continued to arrive until Sunday, which was the day set for the main celebration. A luncheon, served buffet style, included everything in the catalogue of cats; and most of the guests remained for a picnic supper.

Out of town guests present were: Mr. and Mrs. C. W. Gound and daughter, Mrs. Ted Snead, all of Welsaco; Mr. and Mrs. J. A. Wilson of Knox City, Mr. and Mrs. J. E. Wimberly and Mrs. H. L. McKinstry, all of Hagerman, Mexico; Rev. and Mrs. Joe Wilson and daughter, Billie Jean, of Miami; Mrs. Minnie Reeves of Pampa, Mrs. Wanda Jacobsen and daughter, Jean Kay, of Lubbock; Mr. C. A. Wilson of South Plains, Mr. and Mrs. Bill Beedy and children, Charles and Bradford, of South Plains; and Mr. and Mrs. Sim Reeves and children, Jack, Carrol, Raymond, and Bobby, of South Plains.

Those present who live here were: Mrs. Fannie Montague, Mr. and Mrs. R. A. Garrett and children, Frances Ruth, Roberts Mae, and Edith Faye; and Mrs. W. B. Wilson and son, Randolph, and daughter, Edna Beth.

## How About It, Sol?

## Mrs. W. O. Jones and Children Home After Four Weeks Absence

Mrs. W. O. Jones and children, Watson, Dalton, and Mary Frances, and Miss Mary Louise Tubbs, returned home Sunday after a four weeks visit in Hamilton and Jonesboro. They visited with relatives and also helped harvest a good crop. While away, they spent some time visiting and seeing sights in Austin and San Antonio. They also spent a day at Buchanan Dam, near Burnet, Texas, which when completed will be the longest dam in the state. They were accompanied home by Mr. W. O. Jones, who joined them in Jonesboro last Thursday.

## H. G. McChesney Receiving Treatments In Albuquerque Hospital

Mr. and Mrs. H. G. McChesney left Tuesday for Albuquerque, New Mexico, where Mr. McChesney who has been in ill health will receive treatment in the hospital for some time. Mrs. McChesney will remain with him until he is able to return home.

## Mrs. A. P. McKinnon Leaves Friday For Three Month Vacation

Mrs. A. P. McKinnon will leave tomorrow to spend the remaining summer months in the mountains. She is accompanying her daughter and son-in-law, Mr. and Mrs. R. F. Kirchner, who have been visiting with her for some time. Their first stop will be at Carlsbad Caverns; after which they plan to visit other places of interest in New Mexico and Colorado. They will likely spend much time in Pueblo, Colorado Springs, and Denver.

Benard Martin of Wichita Falls, Texas, was here Monday attending to business and visiting with his brothers, J. G., and Claud Martin.

Mr. and Mrs. R. B. Rosson of Roswell, New Mexico, are here visiting with Mrs. Rosson's mother, Mrs. A. D. White. Mr. Rosson is also looking after his farming interests here. They will likely remain until after harvest.

Hoyt Sittern, minister from Petersburg, preached at the Church of Christ on Wall Street Sunday morning.

## Lions' Club Makes Plans For Carnival Here July 1, 2 and 3

The Lions' Club met Thursday, June 17, with thirty members present. A visitor in attendance at the luncheon was Mr. Tom Lane of Big Spring, Texas, guest of Roy Eubank. The club omitted its usual program, and plans were made for the Lions' Carnival which is to be held the first, second, and third days of July. Homer Steen was named general program chairman for the carnival.

## Sheriff Fred N. Clark Attended Sheriff's Meeting In New Braunfels

Sheriff Fred N. Clark returned home Saturday night from New Braunfels, where he attended the Sheriff's Association of Texas, Friday and Saturday. He was accompanied by Jimmie Williams, Sheriff of Crosby County on the trip. Amarillo was selected as the city for the 1938 convention. More than 500 delegates attended the three-day session.

## County Superintendent's Office Received \$2.00 Per Capita This Week

The County Superintendent reports that \$2.00 per capita was received for the schools of this county Monday, June 21, making the total received on that date \$2,780. The state appropriation for each student is \$19.00, and the superintendent states that \$17.00 per capita has already been received in this county, leaving only \$2.00 to be paid.

Miss Eula Smith of Clayton, New Mexico, visited here the first of this week with her sister, Mrs. Homer Hopkins.

Dr. and Mrs. I. W. Hicks have as their visitors this week Mrs. Hicks' mother, Mrs. D. A. Ford, and also John T. Ashford, who is Mrs. Hicks' nephew. They plan to return to their home in Lubbock the last of the week.

Wayne Gound arrived here this week to join his wife and daughter, who have been here for several days. They will remain in this city with relatives and friends until July 1, at which time Mr. Gound will begin work at Camp's Pharmacy at Plainview, where he has recently been employed.

## Mr. and Mrs. Roy Holmes Are Home Following Wedding Tour

Mr. and Mrs. Roy Holmes returned home last week after a wedding tour through Colorado. While away, they visited many interesting points, such as Estes Park, Colorado Springs, Denver, and the Royal Gorge. Mr. Holmes has recently bought the Russell building and is moving his studio this week. The studio will be open at the new location, on the west side of the square, after this week. Mr. and Mrs. Holmes are making their home in the Pleasant Valley community.

## Federal Deposit Insurance Corporation Expected To Pay Off

Within a short time the Federal Deposit Insurance Corporation is expected to begin payments to depositors of the Union State Bank and Trust Company of Bryan, Texas, which closed on June 16th. The bank held total deposits of approximately \$220,000.00 at the time of suspension and it is estimated that about \$120,000 of that amount was insured by the corporation. There were more than 620 depositors in the bank.

## Foundation For New Telephone Building Laid This Week

The foundation for a new telephone building on California Street was laid this week, and the brick laying has just begun. According to J. L. Woods, of Fort Worth, superintendent of the construction, it will be some six or eight weeks before the building is ready for use. Both Mr. Woods and Mr. J. D. Johnson, contractor, assure us of an attractive building, which will house completely new and modern equipment.

Mr. and Mrs. A.S. Cummings of the Sandhill community had as their visitors this week Mr. and Mrs. Ennis Cummings and family of Friona, and Mr. and Mrs. Clyde Cummings and family of Galveston, Texas.

Eldred McKinnon of Houston, Texas, and Austin James McKinnon of Dallas, Texas, were visitors the first part of the week at the home of their mother, Mrs. A. P. McKinnon. Eldred McKinnon is superintendent of the building project for the monument which is under construction at San Jacinto Park near Houston. Austin McKinnon is employed with the R. F. C. in Dallas.

Mrs. E. C. Nelson is spending this week in Amarillo where she is visiting her son, Judge E. C. Nelson, Jr.

## Dynamite Riddles Hand Of Seven Year Old Boy

James, Currel, seven year old boy who makes his home here with his uncle and aunt, Mr. and Mrs. Clifford Ray, had a painful experience Sunday morning when he played with a stick of dynamite. While playing about at the Blue Goose Camp, which is his home at present, he picked up a small stick of dynamite. Not realizing his danger, he carried it about and accidentally gave it a blow which set it off. His hand was so badly riddled that amputation of one joint from each of two fingers was necessary, while another finger was dably split.

A serum to prevent blood poisoning was given, and he is reported to be doing nicely. No one has been able to explain the presence of the explosive.

## County Agent Received Large Quantity Of Sodium Arsenite Solution

According to County Agent, D. F. Bredthauer, the grasshopper situation in Floyd County is rapidly advancing to a stage where serious damage could be done especially in the area where pastures are abundant. At present it is hard to predict what the outcome may be, as most of the hoppers are now feeding in the grass lands and fence rows, where grass has made almost luxuriant growth in the past few weeks. The point may come at a later date that the hoppers will migrate into fields and feed upon the row crops, and at this stage much damage could be done.

A systematic poisoning program at this date may cope with the entire situation, as it is much easier and more profitable to poison the hoppers while they are in the fence rows and pasture lands than after they reach the row crops. In many sections of the state the grasshopper situation has become acute; and in order to be in position to render the farmers of this county service in regard to the grasshopper control, the County Agricultural Agent made application for poison some three weeks ago and now has received a large quantity of sodium arsenite solution. It will be distributed among the farmers of this county who are interested in protecting their row crops from grasshoppers' damage. Although the farmers in the poisoning program must accept the responsibility for accidents or ill results; however, there is practically no danger to stock or poultry where the mash is applied in the quantity and manner suggested.

The formula for a five acre infestation: Use 25 pounds of coarse wheat bran; 1 pint of sodium arsenite, which can be had by making application at the County Agent's office; add 6 lemons; grind the rinds in a fine food chopper; add 2 quarts of sorghum syrup; sufficient water is to be added to make a mixture mash. Further information can be had at the office. This quantity of mash is to be broadcast so as to cover 5 acres. A good practice is to mix in the night and sow early in the morning before 9 o'clock, since the hoppers do not actively feed until the dew dries up.

If the control of hoppers in the grass land is desired, sow the entire acreage where they are migrating from the fence rows and pasture land into the row crops; sow fence rows on a fairly broad margin of the pasture and also a broad margin of the cultivated crops with the mixture.

All farmers wishing to take advantage of this program should bring jugs or cans so as to be able to carry the poisoning solution back to their farms, since the poison was delivered to this county in 700 pound drums.

Miss Doxie Henderson, formerly of this city, arrived here last week from California. Miss Henderson plans to be here for several weeks.

L. A. Keek and W. M. Speers, mechanic at the Triangle Garage, spent Wednesday and Thursday of last week in Dallas attending to business.

## Jim Willson Re-elected District Committeeman At Legion Convention

A resolution urging the Federal Government to establish a veteran's hospital in West Texas was among actions taken by the nineteenth district American Legion convention closing a two-day joint meeting with the Women's Auxiliaries of the district in Plainview Sunday afternoon. Jim Willson, Floydada, was re-elected district committeeman and Mrs. Fred Higbee, Lubbock, was nominated for the past of district committeewoman to be voted upon at the state convention at San Angelo, August 21-24.

Fred Young, state American Legion adjutant, addressed a joint session of legionnaires and auxiliary members Sunday afternoon. Frank Day of Plainview delivered the address of welcome to which Durwood Bradley of Lubbock responded.

Louise Goodrich, Shamrock, 31st district attorney, addressed the joint meeting on "Americanism and Progress." Other speakers were Jim Willson, of Floydada, and Jack Thoman, Levelland, fifth district commander. Musical entertainment was provided by Mrs. J. W. Walker and Mrs. J. O. Jensen with Miss Mary Angeline Russell accompanying their two vocal numbers, and by Warren and Meredith Jensen in a clarinet duet.

The women met Sunday morning for a breakfast at the Hilton hotel and a noon for a joint luncheon at the Legion Hall with Legionnaires. Among women's activities Saturday was organization by the Plainview unit of junior girls' auxiliary, membership being composed of daughters of legionnaires. Sixteen members were received.

## Fred Zimmerman, Jr., Viewed Preliminary Exhibit Of New York World's Fair

New York, June 22.—Many visitors from the state of Texas are daily viewing a preliminary exhibit of the New York World's Fair of 1939 in the Empire State Building. Among those from Floydada who have recently visited the exhibit are: Fred Zimmerman, Jr.

They have seen, among other things, models of the fair as it will appear both by day and night and a replica of the 200-foot Perisphere, and the three-sided spire, the 700-foot Trylon, towering beside it to form the dominant architectural group of the exposition.

The fair, it is estimated, will cost in excess of \$125,000,000 and the attendance in 1939 is put at 50,000,000. Bills for state participation have been introduced in 36 State Legislatures and passed in 25 states. Grading of the 1216½ acre site at Flushing Meadow, Queens, has been completed, construction is under way on a \$900,000 administration building and architectural plans have been drawn or are in preparation for more than a dozen other buildings. The Perisphere and Trylon, comprising the Theme Center of the fair and costing around \$1,200,000, will be under construction within a few weeks.

## Northwest Texas Farm Women And Club Girls Find Profit In Poultry

Home demonstration club members and 4-H club girls of Northwest Texas are reporting to their county home demonstration agents that their farm poultry flocks are a source of pleasure as well as adding variety to meals.

A Hockley county 4-H clubgirl, Margie Rea of the Anton club, has 95 eight week old chickens that weigh from one and three-quarters to two pounds each. Margie, through the use of a natural gas heated brooder, has lost only six of the 101 Buff Orpington chicks she bought the latter part of March. Care in sanitation of the chicks surroundings was a major factor in her record, she believes.

Mr. and Mrs. J. B. Claiborne spent Saturday night and Sunday visiting with relatives in Olney, Texas.

**THE FLOYD COUNTY PLAINSMAN**  
Published Thursday of Each Week.

**A new kind of Deodorant YODORA**

is gentle as your face cream

It only takes 2 dabs of Yodora after which it vanishes instantly.

Soothing as a cold cream and does not stain delicate clothing.

You get positive protection with Yodora. Quick to disappear—there's no waiting, no "drying". You can use it right after shaving. Yodora protects from the moment you apply it. It brings you security! Yodora is ideal for sanitary napkins—soothing and safe. In Tubes and Jars—each 25c.

At Your Favorite Drug Store

**A CLUE!**  
The sure clue to good shaves is a Star Single-edge Blade. Made since 1880 by the inventors of the original safety razor. Keen, long-lasting, uniform.

**STAR BLADES**  
FOR GEM AND EVER-READY RAZORS

**Watch Your Kidneys!**

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained. Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes, feel nervous, miserable—all upset.

Don't delay? Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

**DOAN'S PILLS**

**"Pieces of Eight" Known in Time of Shakespeare**

The Spanish peso or eight reals of the Seventeenth and Eighteenth centuries circulated throughout the American continent and was known as the "piece of eight." This name, relates a writer in the Detroit News, is found in English literature as early as Shakespeare's time. The coin was worth approximately as much as our dollar. Because of its design, it is sometimes known as the "pillar dollar," and it has been supposed by some that these "pillars of Hercules" with the ribbon about them gave rise to the dollar sign. Webster's dictionary, however, shows that this was originally a modification of "Ps," Mexican abbreviation of "pesos" or "pistres." The "s" was at first placed above and to the right of the "p" but later was lowered and twined around that letter. Early manuscripts have shown the sign to be the result of evolution, independently in different places. It was written after the numeral in Spanish America, but before the numeral, like the pound sign, by the English colonists, and was widely used before the adoption of the United States dollar in 1785. It is employed also for the dollar in Canada, West Indies, Hong Kong and Straits Settlements; for the peso in Argentine, Chile, Mexico, Colombia, Paraguay, Uruguay; for the milreis in Brazil; for the escudo in Portugal; for the lempira in Honduras.

**Ancient Holyrood Castle Once Was a Royal Palace**

Edinburgh, the capital and show city of Scotland, consists of an old town and a new, both as much unlike each other as are Paris and Constantinople. Both are situated on lofty, parallel ridges, separated by a broad, deep ravine planted with trees and shrubbery, across which stretches a bridge of giddy height.

Holyrood palace, long the seat of Scottish royalty, is perhaps the outstanding historical attraction in Edinburgh, says a writer in the Los Angeles Times. Holyrood is the thank offering of a Scottish king, David I, who met the adventure which started the story surrounding the old palace. Attacked by an infuriated stag here, the legend goes, he was miraculously saved by the lost Holy Cross, or Rood, which fell from the stag's antlers, and at sight of which the animal turned and fled. In his joy over his deliverance, the king erected an abbey on the spot as a mark of gratitude. Four hundred years later the abbey was replaced by a great palace, built by King James V.

Many royal names are written into the history of the old gray pile, but the nimbus of romance encircles especially the memory of three: Mary Queen of Scots, Lord Rizzio, her husband, and David Rizzio, her chief minister.

**The Conic Hand**

The Conic hand is medium-sized, tapering slightly in the palm. The fingers are long and tapering, full at the base and slightly pointed at the nail. With this kind of hand, according to a writer in Pearson's London Weekly, you are artistic and luxury-loving, but are inclined to be over-impulsive and indolent. Not for you is the strife of the world and you would far sooner be left to vegetate in some quiet backwater of life. Emotional and sensitive you have in you the qualities of the great artist and the world-famous musician. However, whether or not you will make use of these fine qualities depends largely on whether or not your hands are hard and firm. The firmer they are the more likely it is that you will make your mark in the world.

**Spelling "Scissors"**

Lexicographers have figured out that the word "scissors" can be spelled 58,365,440 ways, the Literary Digest observes in pointing out the various sounds of letters and diphthongs in the English language. Of six elementary sounds in "scissors," it states, the first can be indicated by seventeen combinations, the second by thirty-six, the third by seventeen, the fourth by thirty-three, the fifth by ten and the sixth by seventeen; making the result 17x36x17x33x10x17, or 58,365,440.

**Youth Needs Much Sleep**

A boy fifteen or sixteen years old needs more sleep than at any other time in his life after his infancy. He should have about nine to ten hours a day of sleep. He also needs more food at that time than at any other because of rapid development at that period of his life. Much of his future health depends on the care exercised through adolescence.

**"Taupe" of French Origin**

The color term "taupe" originated in France in the early Nineteenth century and was immediately adopted into English. The word, according to the Maerz and Paul "Dictionary of Color," means "mole"—the name of the little burrowing animal.

**Quicker Than Thought**

The quickest-acting muscles in the body are those controlling the eyelids. That is why the eye itself invariably escapes injury. The sudden, sharpest blow rarely lands before the lid has closed.

**Battleships Are First Built With Blueprints**

Long before the first keel plate of a warship is laid, the vessel has already cost the taxpayer many hundreds of pounds—in blueprints, declares a writer in Pearson's London Weekly. The actual first steps in making a battleship are taken several years before the shipyard workers come into the picture, when complicated charts and blueprints—in some cases as many as 1,200 have to be drawn—are prepared.

Apart from the first originals, dozens of sets of blueprints must also be drawn up, ranging in size from a square foot of paper to a sheet 11 feet long and 3 feet wide.

While this is being done, long and complicated schedules for material are prepared, from which the necessary metal and fittings are ordered.

Some idea of the detail involved is shown by the care given to such trifles as canvas gun covers. When these are ordered the specification gives the number of stitches per inch of canvas, and this must be strictly followed. If there is any variation when official inspectors examine the cloth, it will be returned to the makers.

All through the years of building, new plans are constantly being made to include any modifications or alterations to the originals, so that by the time the warship takes the water, every ounce of material in her is included in the filed plans. Then, should any replacements ever be required, the material for effecting repairs can be ordered within a few hours' notice.

**Weather Men Grade Winds According to the Force**

Technically speaking, winds are graded according to their force. "Strong" is the term for any wind of thirty miles an hour. Fifty miles is the speed at which gales howl. After seventy-five miles an hour they become hurricanes, and any wind falling between these two is known as a "whole gale."

The fastest "straight hurricane" ever measured was one at Mount Washington, New Hampshire, which reached the tremendous speed of 231 miles an hour, though explorers say that in Central Asia winds exceed even that velocity, observes a writer in London Answers Magazine.

Tornadoes, typhoons, and cyclones are something apart. Unless actually caught up by one a person has absolutely no conception how demoralizing they can be, for they are more devastating than any catastrophe except an earthquake. It is queer, incidentally, that more often than not earthquakes are accompanied by tornadoes.

Those who have watched them say that tornadoes start when two enormous banks of clouds traveling in opposite directions come together. A violent whirl begins at cloud level and rapidly works down to earth. The speed at which the internal whirling currents move is estimated to be anything from 300 to 500 miles an hour.

**Cannot All Be Admirals**

The story is told how Nelson, after the Battle of the Baltic, was so impressed with the bravery of a young Danish lieutenant that he said, "That young man ought to be an admiral." The opposing commander immediately replied, "If all my brave officers were admirals, I should have no lieutenants left." This incident, notes a writer in Pearson's London Weekly, has a message for all who are ambitious. We must not be discouraged, but we must do our best. The fact that we are not at the top of the tree does not mean that we are not fitted for success, but simply that we cannot all be "admirals."

**Welding of Iron an Ancient Art**

The welding of iron in the forge is an ancient art. Historians tell us that the process of welding was developed by the Greeks about 600 B. C. At the beginning of the present century forge welding was the only process known and it was possible to weld only relatively small pieces of wrought iron and steel. However, within its obvious limitations forge welding was developed to the point where a weld could be produced which was as strong and as good as the original piece.

**Man in the Iron Mask**

A mysterious individual held for over forty years as a state prisoner by Louis XIV at Pignerol and other prisons, ultimately dying in the Bastille, November 19, 1703, with his identity still undisclosed, is generally called the Man in the Iron Mask. His name was given as Marchiall when he was buried, but despite the numerous conjectures and wide research that have been made, no one knows for certain who he was.

**The Baring Panic in England**

The Baring panic in England in 1890 came at the end of a period of violent over-speculation. The failure of the brokerage house of Baring Brothers precipitated the panic which at once spread to a number of other banks and brokerage houses. The intensity was alleviated by loans of gold obtained by the Bank of England from the Bank of St. Petersburg and the Bank of France.

By L. L. STEVENSON

Recently a correspondent suggested that I write about what high school students should see while visiting New York. It's rather a large order but I'll try to fill it in part at least. The Battery may be seen and possibly an incoming or outgoing ocean liner. The Aquarium is also at the Battery and there a boat may be taken for the Statue of Liberty, which will afford an opportunity for climbing. The boat also passes close to Ellis Island, the gateway to the New World. Or for a nickel each way, a municipal ferry may be taken to St. George, Staten Island, with an excellent view of the harbor. On the return, there is old Trinity church at the head of Wall street, occupying one of the most valuable pieces of land in the world and with a cemetery going away back into the past of New York. Almost in the shadow of old Trinity is the Stock Exchange which may be visited during market hours. Across from the Stock Exchange is a statue which marks the place where George Washington took the oath as the first President of the United States.

On the way uptown, a stop should be made at St. Paul's chapel where George Washington used to be a member of the congregation, his pew being marked by the great seal of the United States. Near St. Paul's is City Hall, which goes away back to 1812. Across from City Hall is Brooklyn bridge, the first span across the East river and still doing full service after more than 50 years. If there is time, a walk across the bridge is interesting because of views of the busy river. On the Brooklyn side, there is the navy yard. The Woolworth building, for many years the highest office building in the world, has lost that distinction but many visitors still visit the tower to get a view of downtown New York. Farther uptown is the Empire State building with a tower 102 floors above the street and with a view extending for miles.

A bus ride up Riverside Drive is always interesting and is even more so if there are any warships in port since they anchor in the Hudson. A bus ride up Fifth avenue is also interesting. By making a transfer, it is possible to ride through Harlem, which is the largest colored city in the world. Or, a ride may be taken up to the George Washington bridge, the first and only bridge to cross the Hudson in New York City. A view of the Palisades may also be had on that trip. On the Fifth avenue trip, the bus passes St. Patrick's cathedral and far uptown is the Cathedral of St. John the Divine. A bus top view of New York is inexpensive and worth while.

As for museums, the Metropolitan is naturally the objective of those interested in art. Then there is the Museum of Natural History, which has such an array of exhibits that even days might be spent there. The Hayden Planetarium should not be overlooked by those interested in astronomy or those to whom the stars are a mystery. Still another museum is in Rockefeller Center, the Museum of Science and Industry. Instead of being a "hands off" museum it is a "hands on" place, visitors being invited to operate the various exhibits. It is also a museum of motion since almost all the exhibits can be worked by the visitor.

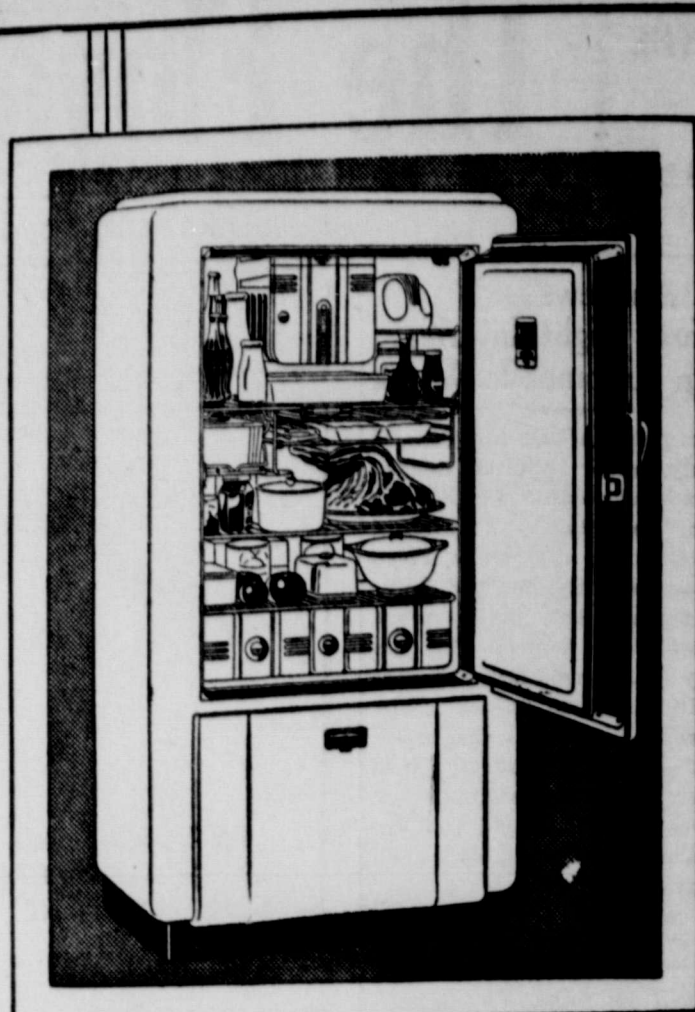

Bronx Park zoo, with its collection of animals, is worth the long ride out into the Bronx. Downtown again, there is old Fraunces Tavern where George Washington said good-bye to his officers after the Revolution. It too, is a museum now. Uptown is the Jumel mansion, which was Washington's headquarters. Uptown also is Columbia university. Then trips through the New York Times building can be arranged. Times Square is most interesting at night when all the lights are blazing. As for a play, if it is still running, "King Richard II" should not be overlooked. It's interesting to non-Shakespearean students. And here I am at the end of the space without having covered nearly all the ground. But the suggestions made will keep the young visitors busy for quite a while. © Bell Syndicate.—WNU Service.

**Ban German Stamp in Czechoslovakia**

Prague, Czechoslovakia. — Police confiscated the latest issue of German stamps bearing Adolf Hitler's image.

They took them from stamp dealers' windows, because, they said, each block of four stamps bore a slogan from Hitler's "My Struggle," saying: "He who wants to save the people can only think heroically."

Prague authorities said that was calculated to excite public irritation.

## New Type Bale Tag Provides Record And Community Trade Mark

College Station, June 23.—A new type of cotton bale tag, developed and tested by the Bureau of Agricultural Economics, is destined to make a major contribution to the improvement of Texas cotton, in the opinion of F. E. Lichte, gaining specialist of the Texas Extension Service.

The bale tag is made of indestructible metal on which is stamped the symbol which permanently identifies the bale. The tag is attached to a heavy 28 inch wire, which is laid in the bale by stopping the trumper momentarily when the bale is half completed. When the bale is taken from the press, the tag is pulled through the bagging.

The tag, which is a public patent, was tried in the field during the 1936-37 season and was found to be satisfactory.

While the use of the tag at present is on a voluntary basis, Lichte points out that the device has many potential benefits. One of the chief ones may be as a trade mark for one variety cotton communities. The tag should result in lower fire insurance rates, he believes, as it will constitute a record of bales lost in fires. Spinners and exporters will welcome the wide use of the tag, as it will enable them to trace placed and other types of bales against which a claim has been lodged.

## Contract Bridge Club Met With Mrs. Fred Nabors Monday Night

The Contract Bridge Club, which had been rather irregular in its meetings for the past few weeks, met Monday night with Mrs. Fred Nabors at the home of her mother, Mrs. Homer Steen. Mrs. Cullen Riley of Herlingen, Texas, was a guest to the club. High score for the evening went to Mrs. Ouida Britton. It was decided that the club would next meet with Mrs. Arthur Stewart, July 1.

Members present were: Mrs. Ouida Britton, Mrs. Lewis Norman, Mrs. Ernest Carter, Mrs. Winifred Cooper, Miss Eulalia Burrus, Mrs. Jimmie Hardgrove, Mrs. Arthur Stewart, Miss Adelaide Scott, Miss Merle Scoggin, Mrs. J. B. Claiborne, and the hostess, Mrs. Fred Nabors.

## Rose Walker Circle Met With Mrs. Clifford Tubbs Monday

The Rose Walker Circle of the Baptist W. M. U. met Monday afternoon at 4 o'clock at the home of Mrs. Clifford Tubbs. The program for the afternoon was a study of the mission book, "God's Plan". Mrs. J. W. Chapman was in charge of the discussion. The next meeting of the circle is to be with Mrs. R. E. Goulightly, Monday, June 28.

Members present at the gathering were: Mrs. Geo. A. Linder, Mrs. J. W. Chapman, Mrs. R. E. Goulightly, Mrs. T. T. Hamilton, Mrs. J. C. Newcome, Mrs. G. N. Shirley, Mrs. G. R. Strickland, and the hostess, Mrs. Clifford Tubbs.

Mr. and Mrs. Orville Stewart of Canyon, Texas, spent Sunday visiting with Mr. and Mrs. F. O. Conner.

J. W. Gamble of Lubbock is spending a few weeks here with his aunt, Mrs. G. R. May. He is working in the wheat harvest.

Mary Ann Kimble was here last week end visiting with her parents, Dr. and Mrs. Wilson Kimble.

Rev. and Mrs. I. A. Smith and daughters, Mabel, and Verlaire, were here the first part of the week visiting with friends and relatives. They are now making their home at Quanah.

Mr. and Mrs. John Austin and son, Billy, of Lubbock visited here last week end with Mr. and Mrs. W. A. Shaw.

Watson Jones, who returned home from Jonesboro, Texas, Sunday, will be employed for the remainder of the summer by Floydada Oil Company.

Mr. and Mrs. H. H. Copeland arrived here Sunday afternoon for a week's visit with their daughter, Mrs. Marvin English. With them are a son, Roy Hicks, and a daughter, Hattie Rue.

Miss Mary Wilbanks, teacher of Home Economics in the Floydada High School, left Friday for her home in Spearman, Texas. Miss Wilbanks has been conducting the "Summer Project" in home economics. She was accompanied home by her sister, Miss Julia Wilbanks, who had been visiting her for a few days.

## Junior Cowboy Contest Will Be Feature Of Stamford Reunion

Stamford, June 23.—A junior cowboy contest, limited to lads under 12 years of age, will be a new feature of this year's Texas Cowboy Reunion which meets in Stamford July 1, 2 and 3. Winner of first place will receive a special made saddle, presented by Jack M. Little of Dallas. Second prize will be a pair of chaps.

Dr. Dallas Southard is chairman of the committee in charge of the new feature. The junior cowboys will be judged largely on the riding ability of the boy and the performance of his horse. The contestant's riding togs and equipment and the appearance of the horse also will be taken into consideration.

The addition of this contest practically completes the program for the reunion. Performances of the rodeo in which actual cowhands compete in calf-roping, wild-cow milking, bronc and steer riding, will be held morning, afternoon and night each of the three days.

Special features include the cutting-horse contest, original with the Texas Cowboy Reunion rodeo, on the morning of July 2, and a calf roping contest for cowboys over 55 years of age on the afternoon of the same day. A junior steer riding contest for boys under 14 will be held at the night performance on July 2 and 3.

Judging of the cowgirls sponsors representing the various towns and cities will begin on the first day. Award of prizes to the most typical cowboy over 55 years of age and the most typical one under 55 will be announced on the third day. The old fiddler's contest will begin at 8:30 a. m. on July 3.

A spectacular feature of the reunion, the grand parade, will move through the streets of the city starting at 11 a. m. Friday, July 2. Cowboy parades will be held on the other two days of the show. Sponsors' dances will be held each night at the new pavilion on the

reunion grounds, while square dances will be conducted at the Cowboy Bunkhouse. Sessions of the Texas Cowboy Reunion Association, composed of oldtime cowboys, will be held at the bunkhouse on the mornings of the first and last day. The members of this organization will be entertained around the chuck wagon at noon each day.

As usual, West Texas ranches are being invited to bring their chuck wagons and camp in the chuck wagon area.

Improvements on the reunion grounds costing \$10,000 have been practically completed. The reunion opens one day earlier than usual this year to avoid operating on Sunday, which falls on July 4.

## \$1 FOR WHEAT \$1

Because increased business activity is increasing the openings for office positions, Draughon's College will accept a limited amount of wheat at \$1 per bu., test 58 or better, to enable young people to prepare for these opportunities. First come, first served. Write today. H. C. Hess, Enrolling secretary, Draughon's college, Lubbock, Texas. 29-1tp

Mrs. Ohmer W. Kirk spent the week end in Waco and Marlin visiting with friends and attending to business. Miss Bernice Holeyfield of Dublin accompanied her home. Miss Holeyfield is resuming her study of music for the few weeks that she will remain here.

Mr. and Mrs. Dorris W. Jones had as their guest Friday night Mr. Jones' uncle, Mr. Homer D. Jones of Electra, Texas.

Miss Lula Belcher, former teacher here, spent the week end with Miss Maudie Meredith. Miss Belcher is now a teacher in the Talco schools. From here, she went to Clovis, New Mexico, where she will visit for some time with relatives.

Mr. B. D. Barnett, general manager of the Western Union, and Mr. J. T. Wilson, superintendent of the Western Union, visited with Mrs. B. Hatley at the Western Union Office here Sunday.

Rev. Hogan, of Arlington, Texas, filled the pulpit at the First Baptist Church for both morning and evening services Sunday.

Mr. and Mrs. J. F. Pundt of Borger, are spending a few weeks here with Mrs. Pundt's mother, Mrs. A. D. White. Mr. Pundt is looking after his farming interests while here.

So you'd like to modernize your kitchen?

**MISS MARTHA LEE McCLESKEY WINS BEAUTY CONTEST AT THEATRE**

The McDermott Post American Legion who sponsored a beauty contest at the Palace Theatre Tuesday night drew a fair attendance. The following young ladies were declared winners:

Miss Martha Lee McCleskey, daughter of Mr. and Mrs. John McCleskey, was declared the first honor. Miss McCleskey represented Martin Dry Goods Company.

Miss Geraldine Gambin, daughter of Mr. and Mrs. J. M. Gambin won second place. Miss Gambin represented Stewart's Tailor Shop.

Miss Dixie Henderson, daughter of W. H. Henderson, was awarded third place. Miss Henderson represented

**Miladies Shoppe.**

It had been announced that the winner will go to a district revue in Sweetwater at an early date. The winner at Sweetwater will be given a free trip to Dallas and Fort Worth for the Pan-American and Frontier Fiesta celebrations.

Judges in the contest were four out-of-town men selected by the committee in charge of the revue.

**Higginbotham-Bartlett Lumber Company Meeting Held In Lubbock**

Marvin English, local manager of the Higginbotham-Bartlett Lumber Company and Dorris W. Jones, bookkeeper, attended a district meeting of the company in Lubbock Tuesday night. Yards of the South Plains were represented at the gathering.

The meeting was held at the Hilton Hotel and was attended by managers and bookkeepers of the various yards over the district.

Mrs. Dorris W. Jones accompanied her husband and Mr. English to Lubbock and visited in the home of her parents, Mr. and Mrs. J. R. Freeman. The party returned home Tuesday night after the adjournment of the meeting.

**Mr. and Mrs. B. K. Barker Entertained Friendship Bridge Club Friday**

The Friendship Bridge Club met with Mr. and Mrs. B. K. Barker Friday evening. A lovely dinner was enjoyed by all present. High score for the evening went to Mrs. J. A. Arwine and J. C. Gilliam. Guests playing were: Mr. and Mrs. R. C. Wakefield, and Mrs. A. A. Bishop of Dallas. High score for guests went to Mrs. Wakefield.

Members present were: Walton Hale, A. B. Keim, Mr. and Mrs. J. A. Arwine, Mr. and Mrs. J. C. Gilliam, L. T. Bishop, Dr. and Mrs. A. E. Guthrie, and Mr. and Mrs. B. K. Barker.

The next meeting of the club will be with Mr. and Mrs. J. C. Gilliam.

Mr. and Mrs. J. F. Cook and daughter, spent from Friday until Sunday in Floydada visiting with Mrs. Cook's sister, Mrs. Geo. A. Linder, and brothers, Luther and R. E. Fry. Mr. and Mrs. Cook, who formerly resided in New Mexico are moving to Siloam Springs, Arkansas, where they have purchased a small farm and will make their home. Mrs. Cook will be remembered as Miss Vera Fry.

Geo. A. Linder, of Amarillo, spent Saturday and Sunday at home with his family.

Miss Louise Hyatt visited in Crosbyton with her sister and family, Mr. and Mrs. D. M. Shaw, Monday and Tuesday.

Edna May Griffin has just returned from a visit to Hydro, Oklahoma. She visited for a few days with Mrs. W. P. Messimer of Lockney, and went from there to Hydro, where she visited with Mrs. J. H. Messimer.

The B. Y. P. U. will meet tonight at the Baptist Church for a business and social gathering. The session, which will begin at 8 o'clock, will be for both old and young. Sponsors and leaders are to serve the group.

Mr. and Mrs. W. B. Wells of Amarillo, left Sunday after a few days visit with Mrs. Wells' parents, Rev. and Mrs. G. W. Tubbs.

Mrs. W. K. Hale and daughter, Miss Willie, of Lubbock, visited Sunday with her sister and family, Mr. and Mrs. Geo. A. Linder.

Wilma Deen is spending the week in Mineral Wells, where she is enjoying a fishing trip with friends and relatives.

K. J. Matthews, father of Mrs. J. E. Green of Center, is seriously ill in the Lubbock Sanitarium. His son, Tarpley Matthews of Leavensworth, Kansas, has been at his bedside, while other members of the family are arriving.

L. T. Bishop left Tuesday for Whitewright. He will return home soon with his family, who has been visiting there for several weeks with relatives.

Mr. and Mrs. Ray Dickey and son, Richard, of Lubbock, were here Sunday visiting Mrs. Dickey's father, A. L. Bishop.

Miss Ruby Norton and Miss Sudie Miller returned home Monday from Roaring Springs where they have been visiting.

Miss Maudie Meredith is spending the week in Canyon visiting with relatives.

Mrs. R. Y. Bradford of Fort Worth, is visiting with her parents, Mr. and Mrs. S. H. Wright.

Miss Fannie Bolding spent last week in Fort Worth, where she visited friends and relatives.

Dr. and Mrs. Thacker, Mrs. Jessie Brown, and Miss Louise Hyatt spent Sunday in Lubbock.

Floyd Snodgrass is spending this week visiting relatives in Spring Lake, Texas.

Ada Bell Snodgrass is in Clovis, New Mexico, where she is visiting her grandmother, Mrs. S. T. Neeley.

Mrs. J. B. Claiborne and her mother, Mrs. J. G. Wood, returned Thursday, June 17, from a ten day vacation in Colorado.

Rev. Vernon Shaw returned home Monday from Stratford, where he conducted a two weeks revival.

Mrs. J. T. Snodgrass is visiting her daughter, Mrs. J. D. Sanders, in Portales, New Mexico.

Mr. and Mrs. W. B. Cardwell of Slaton, Texas, spent Thursday night here with their relatives, Mr. and Mrs. B. Hatley.

Mr. and Mrs. T. W. Salisbury and children left Friday for Hot Springs, New Mexico, where Mrs. Salisbury plans to take treatments. They were accompanied by Emmett Earl and Herschell Hinson, who are to visit in Hatch, New Mexico, with their grandparents, Mr. and Mrs. S. E. Rush. The group planned to be away for three or four weeks.

Lewis Hollingsworth, who has been employed with the Panhandle Service Station, has recently been employed by Arwine Drug Company. He is filling the vacancy left by Waldo Houghton, who is away attending summer school.

Miss Flora Denson, who has been here for several days visiting with Mrs. Elmer Denson, left Thursday for her home in Borger, Texas.

Mrs. Elmer Denson has as her visitor this week her mother-in-law, Mrs. Callie Denson of Spar.

Mr. and Mrs. Dean Hill have as their visitor Mr. Hill's mother, Mrs. Birdie V. Hill, of Durant, Oklahoma. Mrs. Hill is expected to remain here for several weeks.

Miss Louise Garrett, who has been visiting in Roaring Springs with her grandmother, Mrs. J. R. Thacker, returned here Thursday of last week. Miss Garrett is making her home with Dr. and Mrs. C. M. Thacker.

Mrs. W. B. Clark, who was in Lubbock last week for treatment of erysipelas, was brought back to her home Friday evening. She is reported to be recovering very rapidly.

**"America," as Word, Born in 1507 in French Town**

Although America was born, historically speaking, in 1492, it was not named and christened until 15 years later at Saint Die, a small and attractive French town in the Vosges district, writes a Paris United Press correspondent.

The baptismal certificate is still there as well as the baptismal font where this historical christening took place.

The baptismal certificate consists of a map upon which the newly discovered continent was designated for the first time as America, by Martin Waldseemüller, one of the cartographers, and the baptismal font is the building, still standing, where those cartographers of four centuries ago labored.

It was at Saint Die that a small group of scholars carried on their researches and made eager use of the new art of printing. In an introduction to an edition of the "Cosmography of Ptolemy," in which was included an account of the journeys of Americus Vespucci, it was suggested that the name America be given to this newly discovered continent.

**Parson Brownlaw**

Parson Brownlaw was a camp meeting convert from the mountains of Tennessee who rose to fame as a lay preacher on a circuit including five states. He used as weapons the Bible and a pistol, and had few equals as a master of invective, says the Washington Star. He spared no man or issue in his vitriolic attacks. The following example of his lusty eloquence is from a lecture he made shortly after the Civil war: "If I had been authorized some two or three years ago to select about two or three hundred of your most abominable anti-slavery agitators in the North, and an equal number of God-forsaken and hell-deserving Disunionists at the South, and had marched them to the District of Columbia, hanged them on a common gallows, dug for them a common grave and embalmed their bodies in jimson weed and dog-fennel, there would have been none of this trouble."

**Half-Masting the Flag**

Half-masting the national flag in token of mourning originated at sea, as the use of the term "mast" instead of "staff" indicates. "Hoist your sails half - mast high," said Captain Smith in his "Seaman's Grammar," published in 1627. The custom dates back several centuries and probably grew out of the earlier custom of lowering the flag on vessels at sea as a sign of submission to a foe. The flag is also lowered to half-mast as a signal of distress, a practice followed by the Spanish as early as the Seventeenth century. According to flag etiquette, when a national flag is placed at half-mast as a tribute of respect to the dead it is first raised to the top of the staff or mast and then slowly lowered to a position at or near the middle of the staff.

**"DON'T THEY BUY ANYTHING BUT FORDS IN THIS TOWN?"**
