The guests of Mr. and Mrs. Robert
Medlen Sunday included three of Mr.
Medlen's sisters and their families.
They were: Mr. and Mrs. A. Car-
penter of Lufors, Texas; Miss Bessie
Medlen of Roaring Springs; and Mr.
and Mrs. W. K. Bagley and family
of Eastland, Texas.

HIGHWAY WILL LINK ITALY AND GERMANY

Expect to Cut Motoring Time to 14 Hours.

Washington, D. C.—Rome was not built in a day, but eventually it will be "made" in a day by automobile from Germany. Plans have been approved for an 800-mile super-highway binding Berlin to Rome, to be completed by 1941. Arrow-straight wherever possible, free of grade crossings and speed limits, the road will reduce motoring time between the two capitals to a predicted 14 hours. Of the total length, 47 per cent will be in Italy. From there it will cross Austria and proceed north through Germany.

"This highway of modern tempo across three countries coincides in places with an ancient Roman via," says the National Geographic society. "Both then and now the route was chosen to stimulate circulation between the sunny Mediterranean civilization of Italy and the northern-facing German plain, dominated by Berlin, which slopes toward the North sea and the Baltic.

"The highway crosses Austria's western end, so that throughout the whole journey international motorists will drive to the right. It is in eastern Austria that 'keep to the left' is the rule of the road.

Road Runs Due North.

"The route is a slash almost due north across central Europe. Berlin lacks only two degrees of latitude of being mapped straight above Rome.

"The capitals at opposite ends of the road have many opposites in their respective histories. Berlin was a provincial city of somewhat over 300,000 people a century ago; Rome was a world power before the beginning of the Christian era. Now Rome, with a million inhabitants, spreads its domes and florid towers over so much more than seven hills that it is one of the favorite candidates for the title of the world's most extensive city. Berlin ranks sixth in area, but has four times the population of its southern sister city. Industries do not figure in the activities of Rome; Germany's capital on the other hand, is also her industrial center.

"The road from Rome rolls north over the broad plain of the Campagna, and climbs out of the Tiber valley over Tuscan hills. In fact, the Rome-to-Berlin highway goes over mountains, between mountains, or at least through landscape with blue hints of hills around the rim, practically the first half of its way. Exceptions are the broad rolling Campagna, which surrounds Rome, and the ample plain of the Po. Between Florence and Bologna, the road launches right over the Apennine range, the craggy shinsbone which runs the length of the Italian boot. On the southern side lies the peaceful town of Pistoia, whose medieval name and ironworking fame survive in the modern pistol.

"On the other side of the Apennines lies Bologna, whose university once drew famous men to its colonnaded streets. Here Galvani was studying the effect of electricity—at first called 'galvanism'—on frogs' legs at about the same time Franklin was baiting kites to catch lightning.

Through Old Verona.

"Bologna's brick wall and its famous pair of leaning towers disappear across the rich plain of the Po valley as Verona is approached. There, according to Shakespeare, was staged one of the world's greatest romances, the tragic love of Romeo and Juliet.

"Passing the east side of Lake Garda, with its orange and olive grove border, the route to the north leaves the Lombardy plain and climbs Alward through the Trentino district, where Roman control 2,000 years ago has more recently been disputed by German, Austrian, and French domination. The country, however, has been Italian again since the conclusion of the World war.

"The little patch of Tyrol is part of Austria's Alpine elbow nudging Germany away from Italy.

"Dominating the valley in which the Inn river is cradled between two ridges of Alps, the ancient town of 'Inn's Bridge' has grown up to be modern Innsbruck with 80,000 inhabitants, Austria's fourth largest city.

"From Innsbruck the road north toils up to Germany, entering through a pass obligingly punched by a Tyrolian glacier aeons ago. From the Bavarian Alps, highest area in Germany, travel spills down into the South German basin of Bavaria, where the southern metropolis of Munich buzzes with many industries. Nurnberg, across the Danube to the north, sticks to its traditional industry, the manufacture of playthings.

"From Nurnberg the Rome-to-Berlin route turns eastward toward Leipzig. From Leipzig the road slashes across the North German plain to Berlin."

MINING OF METALS IN MONTANA BOOMS

World Rearmament Opens Up Steady Market.

Butte, Mont.—Montana mining of numerous metals is enjoying a heartening boom engendered by high gold prices, industrial recovery, and demand for raw materials to supply world armament needs.

A record of 35 per cent increased production in 1936 over 1935 was attained and even greater increase is considered by mining experts to be in the making for 1937.

Pay rolls are near World war and predepression highs. In tiny, remote mining camps high in the mountains, as well as in the famed super-diggings here on "the richest hill on earth," the boom is on. The new-found prosperity has brought a resurgent optimism and capital is finding its way into the development of new workings and increased operation of established properties.

Change in the law which enable the lone miner or prospector to sell in small quantities to the mints without employment of a middleman have led many veterans and novices of the pan and pick into the hills and along the streams in quest of gold and silver. A gold price of approximately \$35 an ounce makes small operations profitable.

According to the United States bureau of mines, Montana in 1936 produced \$41,857,000 worth of gold, silver, lead, copper and zinc. The 1935 values were \$30,918,000. Last year's gold production was \$8,265,000, about 179,000 ounces. The 1935 values were \$5,258,081—about 151,000 ounces. Nearly all of the increase was believed to have come from two huge placer properties, the Porter at Helena and the Humphrey at old Virginia City, of pioneer vigilante fame. The Humphrey concern, operating the world's largest dry land tractor gold recovery dredge, originally was financed at Virginia City by a New Deal industrial loan.

Proportionate increases were registered in silver, lead and zinc.

FARM POPULATION IS BEING REDUCED

Decrease Is Shown for First Time Since 1929.

Washington.—The nation's farm population has decreased for the first time since 1929, the bureau of agricultural economics reported.

There are now 31,729,000 persons on farms, as against 31,809,000 a year ago, the bureau estimated.

During the last year 1,166,000 persons left farms, while 719,000 moved to farms from villages, towns and cities. Thus gross migration totaled 447,000.

Net migration was 80,000, due to the fact that farm births far exceeded deaths—716,000 to 349,000, the bureau explained.

During the years 1930-35 farm population increased every year. Since 1910 there have been several periods when the farm population showed decreases, particularly during the World war.

The present farm population is a little less than the peak figure of 32,076,960 reported for 1910, but nearly 2,000,000 greater than the 30,169,000 reported in 1930. In this connection, the bureau noted:

"The result of all the changes of the last twenty-seven years is that the farm population today is about one per cent less than in 1910.

"Although the number of persons in the United States has increased by nearly 40 per cent since 1910, the number of persons living on farms today is slightly less than it was in that year. Since 1920, however, more people have moved from farms than to farms during every year except 1932."

The increase in farm population between 1930 and 1935 was due more to the fact that fewer people were moving to towns and cities than to any great "back-to-the-land movement," according to the bureau. With the resumption of urban employment opportunities in recent years, there has been an increase in net migration from farms.

SHERIFF'S SALE

The State of Texas,
County of Floyd.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Dallas County, of the 23rd day of August, 1937, by Geo. W. Harwood, Clerk District Court of said 44th Judicial District of Texas, for the sum of Seven Hundred Thirty-Nine & 64-100 (\$739.64) Dollars together with interest thereon from July 19th, 1937, at the rate of 6 per cent per annum, and cost of suit, under a Judgment, in favor of Claude C. Gray, Trustee in a certain cause in said Court, No. 29738-A-B and styled Claude C. Gray, Trustee vs. L. C. McDonald and wife, Mrs. L. C. McDonald, placed in my hands for service, I, F. N. Clark as Sheriff of Floyd County, Texas, did, on the 30th day of August, 1937, levy on certain Real Estate, situated in Floyd County, Texas, described as follows, to-wit: The South 85 feet of Lot No. 16 in Block 4 of West Side Heights Addition to the City of Floydada, Floyd County, Texas, and levied upon as the property of L. C. McDonald and Mrs. L. C. McDonald and that on the first Tuesday in October, 1937, the same being the 5th day of said month, at the Court House door, of Floyd County, in the town of Floydada, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said L. C. McDonald and Mrs. L. C. McDonald.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Floyd County Plainsman a newspaper published in Floyd County.

Witness my hand, this 30th day of August, 1937.

F. N. CLARK,
Sheriff Floyd County, Texas.
39-3tc By Maud Merrick, Deputy.

Mr. and Mrs. Burl Huckabee and family, Mrs. Ola Warren and son and Mrs. W. A. Huckabee spent the week end in Memphis, Texas, visiting with Mr. and Mrs. Jeff Hampton.

Road Study Casts Light on Auto Tire Punctures

London.—An exhaustive inquiry into the causes and cures of automobile tire punctures has just been concluded in Great Britain by 1,000 roads patrols.

The investigation, confined largely to the main roads of the country, was organized by the Automobile association after it had received many complaints that modern methods of road surfacing, combined with the higher braking power and quicker acceleration possessed by cars, shorten the life of the best tires by several thousand miles.

An analysis of the return shows that three-quarters of the punctures that came under the notice of the observers were in the rear tires, and that of the number two-thirds were in tires on the rear side rear wheel.

The explanation was simple. Any loose material on a roadway is scattered by passing cars to the edge of the highway, and the small flints and stone dressing lie there ready to embed themselves in the tires of the cars that follow.

The rear tires, being on the driving wheels, are more prone to suffer first; and the rear side tires are those which come into contact with the most generous share of sharp points. The remedy suggested by an A. A. official is more careful road surfacing and systematic road cleansing, with more attention to the sides.

Funeral for Old Flags Held Over Pyre in Ohio

Urbana, Ohio.—In an impressive ritual 60 American flags "worn out in service" were destroyed here by members of the H. M. Pearce post, American Legion.

Neither the army, navy, nor the American Legion heretofore has used a ceremony on such occasions, Lieut. Col. William Vance, army reserve corps, who drafted the one here, said.

The ritual prescribes an outdoor service with officers and members assigned to stations around an open fire. The ceremony opens with the sergeant-at-arms presenting to the commander all flags to be destroyed with these words:

"I wish to present a number of flags of our country for inspection and disposition."

After their condition has been noted the commander declares:

"They have reached their present state through a service of tribute and memory and love.

"A flag may be a flimsy bit of printed gauze, or a beautiful banner of finest silk. Its intrinsic value may be trifling or great. Its real value is beyond price, for it is a symbol of all that we and our comrades have worked for, and died for—a free nation of free men, true to the faith of the past, devoted to the ideals and practices of liberty, freedom and justice."

The flags are then ordered dipped in kerosene and placed on a rack over a fire. As this is being done the bugler sounds "To the Colors," and the entire company stands at attention. The chaplain says a prayer.

Children Bad in Good Weather and Vice Versa

Milwaukee.—A study of probation officers revealed that when the weather is bad children are good, John J. Kenney, chief probation officer of the juvenile court, said that juvenile delinquency increased 25 per cent in the first five months of 1937 over the same period of 1936.

In 1936, Kenney said, snowdrifts and zero weather kept children indoors, but in 1937 the winter was so mild that the youths were outdoors much of the time and more of them got into trouble.

Kenney said there always is an inverse relationship between the weather and child delinquency.

Mr. and Mrs. Tom Guimarin and son, Tom, Jr., of Olney spent Sunday in Floydada.

They were visiting Mr. Guimarin's parents, Mr. and Mrs. T. P. Guimarin, and other relatives.

Mr. and Mrs. Bill Eldridge, who have been visiting Mr. Eldridge's parents, Rev. and Mrs. Jno. E. Eldridge, left Monday. They planned to visit for a few days in Gainesville before returning to their home in Kansas City, Missouri. Accompanying them home was Miss Suzanne Eldridge, who will remain in Missouri for an extended visit.

Mr. and Mrs. R. A. Garrett and children, Frances Ruth, Roberts, and Edith Payne, returned Monday from a ten day vacation trip.

While away they spent several days in Santa Fe, New Mexico, the remainder of the vacation being spent at Red River, New Mexico, where they enjoyed fishing.

Robert Lincoln's Life Saved by Edwin Booth

Washington.—A story that the life of Abraham Lincoln's late son, Robert Todd Lincoln, was saved by Edwin Booth, actor and brother of John Wilkes Booth, was told here by persons close to the Lincoln family who asked that their identity not be disclosed.

Robert Lincoln, who was president of the Pullman company, told an intimate associate that as he was boarding a Washington-bound train at Jersey City his foot slipped and he feared that he would slide under the wheels.

Suddenly a firm hand grasped his shoulder and pulled him out. He not only thanked Edwin Booth for the rescue, but remembered the incident until the last days of his life.

"Hi-Jacks" Cows of Milk

Nashville, Tenn.—A forty-two-year-old negro taught the world a new racket when he took a bucket and began "hi-jacking" cows at the Union stockyards.

Owner Gives Up Car to Pay \$10 Tow Bill

Marshfield, Ore.—Albert Prass of Marshfield went to town for aid after his car stalled on the Oregon Coast highway near a railroad overhead crossing.

In his absence, a policeman called a wrecker. When Pratt returned, he found his car missing.

Pratt and the wrecker met at a nearby town. The wrecker presented Pratt with a \$10 towing bill. Pratt turned the 1925 auto over to the wrecker and marked it up as a total loss.

Urges Husbands to Sing in the Bath

Cincinnati, O.—What this country needs, said Dr. Thomas James Kelly, is "not more professional vocalists but a whole army of bathroom singers."

Widely known as a musical authority, Dr. Kelly spoke before the closing session of a regional conference on adult education.

America's bathing tenors need not press the issue too hard in order to indulge their artistry, he suggested, "admitting" the possibility that too often any suppression was due to "their wives and families."

"Wives should not only encourage their husbands to sing in the bathtub," declared Dr. Kelly, "but they should even bring them out into the living room singing."

Town Makes Own Films

Chauncey, O.—Every Chauncey citizen was given an opportunity to be a "minute" movie actor. The local Parent-Teacher association arranged for a cameraman to take random shots, which were shown later at a party given by the organization.

PLOW TIME

Creates More Repair Jobs

Farmers naturally will need more work on their machinery during the rush season of plowing and harvest than at less rush seasons.

Our shop is completely equipped to handle all classes of:

RADIATOR REPAIR AND CLEANING, REBELT BINDER, TRACTOR AND GENERAL WELDING AND MACHINE WORK,

As usual, we do all classes of AUTOMOBILE REPAIR WORK.

WOMEN WHO HOLD THEIR MEN NEVER LET THEM KNOW

NO matter how much you back ache and your nerves tremble, your husband, because he is only a man, can never understand why you are so hard to live with one week in every month.

Two often the honeymoon experience is wrecked by the nagging tongue of a three-quarter wife. The wife woman never lets her husband know by outward sign that she is a victim of periodic pain.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from childhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and go "Smiling Through."

Elizabeth Hollingsworth And Jim Bandy United In Home Wedding

Miss Elizabeth Hollingsworth and Jim Bandy were united in marriage at the home of the bride's parents, Mr. and Mrs. A. S. Hollingsworth, Tuesday, August 31, at 12:30 p. m. Rev. Jno. E. Eldridge officiated with the ring ceremony.

The bride wore brown and white with brown accessories and a large corsage of orange gladiolas. She was given in marriage by her brother, Somer Hollingsworth, Jr., Lewis Hollingsworth was the groom's only attendant.

Miss Hollingsworth was graduated from Floydada High School with the class of '37. Mr. Bandy was a student at the University of Illinois, after which he attended the School of Pharmacy at Denver, Colorado, receiving his diploma.

Following the wedding ceremony, the bride cut the wedding cake, and punch and cake were served to the guests by Mary Evelyn Davis, Gloria Hammonds, and Elizabeth Hardgrove. Guests were: Mrs. Fred Brown, Mrs. E. L. Angus, Mr. and Mrs. Frank L. Moore, Mr. and Mrs. John Reagan, Mrs. Richard Stovall, Martha Lee McCleskey, Doris Elaine Banker, Mary Evelyn Davis, Gloria Hammonds, Elizabeth Hardgrove, and Reid Strickland.

The couple left immediately for points in Illinois and Michigan. The bride's going-away costume was a suit of navy with accessories of the same color. After remaining in the northern states for about a week, the couple planned to motor back to Floydada in a new car. On their return here they will go to Trinity, Texas, where Mr. Bandy will be employed in the drug business.

Mrs. J. A. Stevenson of Quanah, Texas, arrived Sunday for a week's visit with Mrs. C. M. Stevenson and family.

Miss Myrtle Hadaway of Lubbock was a visitor in Floydada Monday and Tuesday of this week.

Malcom Linder left Wednesday for Waco to attend Baylor University for his second year.

National Youth Course Ends Following Six Weeks Of College Training

Austin, August 31.—The resident work and farm training project operated this summer by the National Youth Administration at four Texas colleges ended last week, and 402 farm boys and girls who have had six weeks experience in better farming practices returned to their homes in time to help with the rush work of cotton picking and the harvest season.

Most of the youths were from north, west, and east Texas.

"This work and training project was successful in every sense of the word," J. C. Kellam, Texas Youth Director, commented after attending the closing exercises for youths at North Texas Agricultural College. "We sought to teach farm boys and girls how to do better the things every farmer must do. Through the cooperation of the colleges, the youths were afforded real farm work experience, constructing chicken houses, hog wallows, and working in orchards, fields and pastures. During their spare time the youths received instruction in farm methods from regular members of the college teaching staff."

A certificate was issued to each youth who completed the training course.

Youths were selected for the project because of their interest in farming. Boys were sent to Texas A. & M. College and North Texas Agricultural College, and girls were sent to John Tarleton Agricultural College. Negro youths went to Prairie View. The work these youths performed on campus improvement projects enabled them to earn enough to pay for their board and room and for medical services, and to have a few dollars left over at the end of the training period.

"These farm boys and girls are now in position to learn even more about farming," Mr. Kellam said. "Besides actual instruction they learned where to go for more information."

Mr. and Mrs. Earl Huckabee visited relatives in Knox County from Thursday until Sunday.

Dorothy Nell Swinson returned home Thursday from Dallas, where she has been at the bedside of her mother, who underwent an operation several days ago. Mrs. Swinson's condition is thought to be very satisfactory.

Mr. and Mrs. C. D. Babb arrived Saturday from College Station, where Mr. Babb has been working on his master of arts degree at A. & M. Both Mr. and Mrs. Babb are to teach in the Seagraves High School the coming school year. Mr. Babb is employed as band director, while she will teach English. They are to leave for Seagraves within the next few days.

Among locals who visited out of town over the week end were Mr. and Mrs. Wallace King, who visited with their relatives in Slaton and Tahoka.

Mrs. Marvin English and son, Robert Hicks, and Miss Katherine Copeland spent last week end visiting with relatives and friends in Abilene.

Misses Mary Jo Scott and Bonnie Fyffe were visitors in Olton, last week end. They visited with friends of Miss Fyffe, who was formerly employed in Olton.

Mr. and Mrs. E. S. Smith and family of Lorenzo, spent Sunday in Floydada visiting Mr. and Mrs. Cecil Hagood and family.

Mrs. Harold Merriek and son spent the week end visiting with relatives in Abernathy.

John Steen of Sanford, Texas, left Monday for his home after having spent several days in Floydada visiting with Mr. and Mrs. Calvin Steen.

Mr. and Mrs. C. C. Huckabee and children, Charles, Jr., Archie, and Georgeanne, spent Sunday in Memphis, where they visited relatives, Mr. and Mrs. T. J. Hampton.

Lee Carvin returned to his work at Bishop Drug Friday after having been away on a five day vacation trip.

Miss Sarah Frances Headrick of Martel, Tennessee, arrived here Friday for a few days visit with Mr. and Mrs. Ben G. Morton. Miss Headrick is a granddaughter of Mr. Morton.

Mr. and Mrs. C. W. Boothe and family of Dimmitt, Texas, visited relatives in Floydada this week end. They were also among the many out of town guests who attended the revival meeting which is being held at the First Baptist Church.

Among out of town guests in Floydada the past week were Mr. and Mrs. Will Murphy and family of Snyder, Texas. They spent Friday and Saturday visiting with their friends, Mr. and Mrs. C. C. Huckabee and family.

Mrs. Wanda Jacobson of Spout Sunday in Floydada with her mother, Mrs. P. Jacobson. Her small daughter, been here for the past week, ed for another week's visit.

Mrs. J. M. Parsons of Texas, was a guest last week in the home of Mr. and Mrs. Hammonds.

Miss Emma Lou Bedford of week end visiting friends book.
