OF NEWS M AROUND THE WORLD

Wheat Yield Drop
The Dominion Bureau of Statistics reported this week that the Canadian wheat crop since the grade and 1937 crop "is indicated although slightly below of 1936."

Production was estimated at 188,999,999 bushels of wheat and 19,192,000 bushels of oats, a total of 208,191,999 bushels, a total was 229,218,000 bushels.

The drought damage in the provinces caused the bureau said, "setting the yield per acre at a new low."

Funeral Services For M. F. (Uncle Mike) Sanders Held Friday Afternoon

Funeral services were held Friday afternoon at the First Baptist Church with Rev. Vernon Shaw officiating, for M. F. (Uncle Mike) Sanders, age 85, who passed away at his home Thursday evening, September 9, at about 8 o'clock, following an illness of only a few days from a heart ailment.

The deceased was preceded in death by his wife who died in May of 1936. Mr. and Mrs. Sanders married 61 years ago in January of this year. They made their home in Floydada for many years.

"Uncle Mike" celebrated his 85th birthday Sunday, March 7, 1937, at his home here and had many friends besides his near relatives as guests for the occasion.

Mr. Sanders is survived by two sons: G. C., of Roaring Springs, Texas, and Fred, of Visalia, California; eleven grandchildren and eight great-grandchildren. Granddaughters are Mrs. J. L. Ester, Quana; Mrs. E. E. Moss, Lubbock; Mrs. M. S. Thacker, Roaring Springs; grand son, Mike Hoyle, Roaring Springs.

Bearers were: Lorien Liebfried, J. D. McBrien, M. L. Solomon, Harry Morkel, Bob Patton, and Roy Patton.

Flower attendants were: Miss Lillie Solomon, Mrs. J. U. Borum, Mrs. W. F. Weatherbee, Mrs. W. L. Bloodworth, Mrs. Roy Patton, Bennie Liebfried, Melrose Estes, Mrs. R. S. Patton, Mrs. J. B. Houston, Mrs. N. W. Williams.

Interment was made in Roaring Springs cemetery with Harmon Funeral Home in charge of arrangements.

Cline's Automotive Repair Installs New Electric Equipment

New electric equipment has been received and installed at Cline's Automotive Repair this week. The new machinery will better equip the shop to take care of their electrical repair work on cars and trucks, Mr. Cline stated.

Mr. Cline has also been busy since Saturday re-arranging the equipment in the shop, and building new tool lockers and work benches for the mechanical department of this plant. The floor of the building will receive a new coat of paint as soon as workmen can finish other painting and repair in the building and to the machinery and fixtures.

Funeral Services For M. F. (Uncle Mike) Sanders Held Friday Afternoon

Funeral services were held Friday afternoon at the First Baptist Church with Rev. Vernon Shaw officiating, for M. F. (Uncle Mike) Sanders, age 85, who passed away at his home Thursday evening, September 9, at about 8 o'clock, following an illness of only a few days from a heart ailment.

The deceased was preceded in death by his wife who died in May of 1936. Mr. and Mrs. Sanders married 61 years ago in January of this year. They made their home in Floydada for many years.

Interment was made in Roaring Springs cemetery with Harmon Funeral Home in charge of arrangements.

Amarillo Selected As Field Office of The Social Security Board

Amarillo, September 15.—A list of counties in the area which will hereafter be served by the Amarillo field office of the Social Security Board was announced today by Malcolm George, acting manager of the Amarillo office.

It was explained by George that hereafter the typing of social security account numbers for the Amarillo field office area has been done by the Dallas office of the Board. Henceforth, George said, assignment and typing of all social security account numbers will be handled by the Amarillo office for the forty-six counties of Armstrong, Briscoe, Carson, Castro, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscombe, Moore, Oldham, Farmer, Potter, Randall, Roberts, Sherman, Swisher, Wheeler, Bailey, Cochran, Cottle, Crosby, Dickens, Fisher, Floyd, Garza, Hale, Hockley, King, Kent, Lamb, Lubbock, Lynn, Motley, Scurry, Stone-wall, Terry, and Yoakum.

In making this announcement, George said in all probability there are many individuals in the counties named who are now entitled to lump-sum benefits under the old-age provisions of the Social Security Act. Lump-sum payments are being made to workers in covered employments who have reached the age of 65 since January 1, 1937, and to the estates of deceased workers who have died since January 1, 1937, and before reaching the age of 65. Lump-sum payments, George explained, amount to 3 1/2 per cent of the total wages received by the worker in covered employments since December 31, 1936, and up to the attainment of age 65 or at the time of death.

"We are anxious to be of assistance to industrial organizations which desire to help their employees in the filing of claims," George said. Employers or employees who desire information regarding the filing of claims or social security account numbers may obtain same by calling at the Amarillo office of the Social Security Board in the Oliver-Eagle Building, or by addressing a letter to the manager, George said.

Retirement System Is Open To School Teachers Over State of Texas

Austin, Sept. 10.—A vast majority of 50,000 public school teachers likely will participate in the state retirement system, S. Mortimer Brown, executive secretary of the retirement board, said today.

Brown announced first teacher retirements were due Oct. 1. Participating teachers must remit 5 per cent of the September salaries at that time, he said.

State funds to match teacher contributions will not be available until the legislature levies a special tax for the purpose, a subject to be considered at a special session beginning September 27.

Brown warned that teachers with prior service credit who failed to remit on October 1 would become ineligible. Less than a dozen have given notice they do not wish to become fund members, he said, although they may waive their participation right for 90 days after September 1.

Pete Nelson, of Fort Worth, is visiting his mother, Mrs. E. C. Nelson here this week.

He was jailed at Nacogdoches.

Franc Takes New Dive as Living Costs Rise

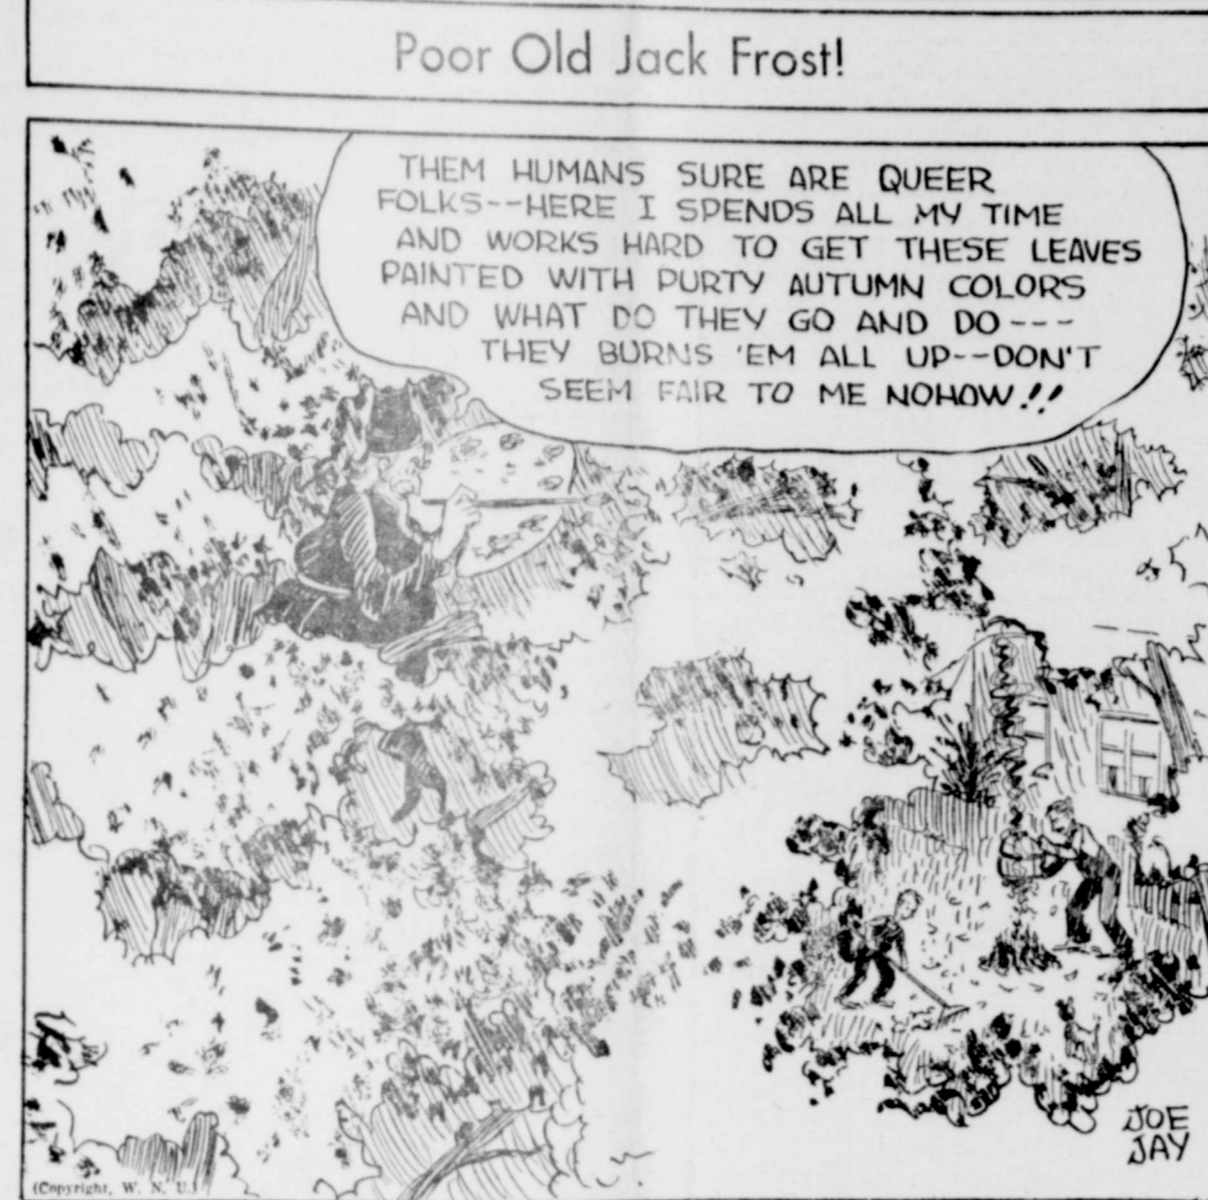

Paris, France, Sept. 10.—A worried national treasury today saw the franc dive to 28.35 to the dollar, the lowest point since it was freed June 30 to seek its "natural level."

On the face of the official bureau quotations, tourists now jamming Paris for the exposition will receive 1.49 francs more for each dollar than they got two days ago. But while it may be a boon to visitors, the fall of the franc brought dire forebodings from the French, who have seen the cost of living rise steadily with its decline.

Poor Old Jack Frost!

THEM HUMANS SURE ARE QUEER FOLKS--HERE I SPENDS ALL MY TIME AND WORKS HARD TO GET THESE LEAVES PAINTED WITH PURTY AUTUMN COLORS AND WHAT DO THEY GO AND DO--- THEY BURNS 'EM ALL UP--DON'T SEEM FAIR TO ME NOWH!!

Good Attendance Is Reported At Second Sunday Singing

The regular monthly Second Sunday Singing which started Sunday afternoon at the Missionary Baptist Church in Floydada, had a good attendance. Due to road conditions people who live in the rural communities were unable to attend. They reported good singing and lots of interest shown.

Southwestern Bell Telephone Co Receive Many Visitors

The Southwestern Bell Telephone Company held open house Tuesday from 2 o'clock to 9:30 p. m., in their new location on West California Street.

The guests were received by employees of the company and W. G. Riddle, district manager.

The Andrews Ward Parent-Teachers Association served punch to the visitors who called on the telephone company during the afternoon and evening.

Mrs. V. Andrews Entertained Pupils Friday Evening

Friday evening, September 10th, Mrs. V. Andrews entertained her pupils in expression with a social "get acquainted" meeting.

During the business session it was decided to divide the class into two groups. A captain being appointed for each group. LaVerne Russell and Kenneth Baird Bishop were appointed captains. It will be the duty of each captain to keep tab of his or her group on attendances, memory work, department, new pupils enrolled. At the close of each month the group receiving the highest number of points will be entertained by the defeated group. Much enthusiasm was shown by the pupils, each one said they had enlisted to do their best and to win out if possible.

Those present were: Frances McRobert, Rubby Tribble, Bruce Foster, Betty Eakin, Dorothy Greer, Arla Vee Bishop, Greer McCleskey, Frankie Wright, Wilma Russell, Neitha Denison, Joy Jones, J. Roy Tribble, Bryan Meredith, La Verne Russell, Kenneth Baird Bishop.

Chocolate and fancy cakes were served by the hostess, Mrs. Andrews.

Mr. and Mrs. Wilmer Jones left Wednesday for their home at Jonesboro after having spent the past two weeks in Floydada visiting their parents, Mr. and Mrs. G. C. Tubbs and Mr. and Mrs. W. O. Jones.

Crowell Defeats Floydada In Opening Game On Westerfield Friday

Floydada whirlwinds were defeated by the Crowell team Friday night in the opening game of the season. The score was 32 to 19.

McClung, Hollingsworth, and Martin counted touchdowns for Floydada. Orr, Simmons and Canup scored once each for Crowell, and Joy counted twice.

Crowell made 14 first downs and Floydada made five.

Miss Wilmina Salisbury left Friday morning for Waskom, Texas, where she is employed in the public schools for the coming term.

First Floyd County Bale Of Cotton Was Ginned Saturday, September 11

Floyd County's first bale of 1937 cotton was received Saturday and ginned by the Scott Gin Company of Floydada. The cotton was grown by Clarence Redding on his farm two and one-half miles Southwest of the Starkey school house.

The county's first bale this year was eleven days later than last year's first bale.

The bale weighed 489 pounds and had not been sold the early part of week.

Cotton harvesting will not be in full swing for at least twenty days, which will be the latter part of September, close observers are predicting.

West Texas Gas Company Give Notice Of Odorization Of Gas

In compliance with the rules and regulations promulgated by the Railroad Commission of the State of Texas on the 27th day of July, A. D. 1937, in G. U. D. No. 122, effective on or about September 21, 1937, all gas supplied to you will have been odorized with a malodorant for the purpose of making present in such gas a different odor than heretofore existed in gas supplied by this company, the announcement said.

In the event unusual odor is at any time detected in and about your premises you should immediately communicate with the company, in order that your gas service may be discontinued until proper repairs have been made. You should also immediately call your plumber and have him determine the origin of any leak, and to repair such leaks that might exist in your service line or appliances on your premises, the announcement further set out. The responsibility herein mentioned for the repairing of such leaks is that of the consumer, and not of the company.

The malodorant agent used shall be harmless and neither toxic nor nauseating; it shall be non-corrosive to steel, iron, brass, bronze or leather; and it shall be insoluble in water.

It was explained that the products of combustion from the malodorant will be such that they are neither toxic nor nauseating to a person breathing air containing these products of combustion, and the products of combustion shall also be such as not to corrode or be harmful to the normal materials with which these products of combustion would come in contact in places where gas is burned.

Court Of Honor To Be Held At Lockney On Tuesday, September 21

Plans are being made for the Northeastern District Court of Honor to be held at Lockney on Tuesday, September 21 at 8 o'clock at the First Methodist Church, H. H. Hamilton, district Court of Honor chairman, announced this week.

A program is being prepared and with the continued increase in enrollment and interest in the Boy Scout movement it is thought that a large attendance will be present.

The public is invited to attend the court of honor and see the scouts receive their advancement. The court of honor ladder adds real interest to the program in determining the troop that has the most advancement.

Troops to participate in the court include Matador, Floydada, and Lockney.

Mrs. Lon Smith and daughter, Miss Emma Louise, spent last week in Electra visiting Mrs. Smith's sister, Mrs. D. R. Person. Miss Smith left Electra Sunday for Waco where she enrolled in Baylor University and her mother returned to Floydada.

DAUGHTER OF MR. AND MRS. S. N. McPEAK SERIOUSLY INJURED IN CAR WRECK

Mrs. Mammie McDonald, of Lubbock, daughter of Mr. and Mrs. S. N. McPeak of this city, was seriously injured last Friday morning in a car accident in Lubbock. Her parents and sister, Mrs. Jess Brown were notified of her condition and they left immediately for Lubbock where Mrs. McDonald was receiving treatment in a hospital. They reported that she was alone in her car when the accident happened, but did not learn the details, however, she received a broken back, broken foot, and several cuts and bruises on the body, and that her condition is very serious.

Mrs. Brown returned home Monday and Mr. and Mrs. McPeak returned home Wednesday.

Mr. and Mrs. J. W. Chapman and two small children spent the week end in Pampa visiting Mrs. Mattie Minter and family.

2:40 Report on Resolutions—A. B. Munney.
2:50 Report on Nominating Committee—Clifford Tubbs.
3:00 Civic Righteousness—Rev. C. J. McCarty.

20 Years Show Large Increase In Texas' Dairy Products Says Renner

Back in 1920, Texas was known as an importer of approximately 60 per cent of the dairy products consumed within the state. Today it produces the bulk of all these foods used within its boundaries and actually exports some of these Texas commodities.

This may in part explain why the South this fall will be honored for the first time by the staging of the Dairy Industries Exposition, largest regularly occurring industrial exposition in America, at New Orleans, October 21 to 27 and the annual conventions of the International Association of Ice Cream Manufacturers and of the International Association of Milk Dealers at Dallas, October 18-20 and October 21-23, respectively.

The South has grown to such an extent that these great groups can no longer overlook its importance, and Texas has done its share in bringing this about.

According to Kenneth M. Renner, head of the Department of Dairy Manufacturers, Texas Technological College, Lubbock, the bulk of the state's progress in dairying and dairy products manufacture has been made in the past 17 years.

"Butter manufacture," he points out, "has increased from approximately 9,500,000 pounds in 1920 to over 28,000,000 in 1936. In the same period, ice cream manufacture has increased by several million gallons.

"There is no record of manufacture of condensed milk, evaporated milk and powdered milk in 1920, yet today Texas ranks fourteenth among the states of the Union in the production of condensed milk; twenty-first in evaporated milk and twenty-third in dry milk.

"Cheese manufacture has skyrocketed. No regular factories or manufacture were reported in Texas as late as 1925, while today the state boasts of 28 cheese factories and ranks tenth among the states producing cheese. Milk casein manufacture was started only last year.

"The future of dairying in Texas is bright. The number of good dairy cows is increasing. Dairy herd improvement work is making rapid progress in raising the standard of Texas dairy cattle. Land reclamation and soil erosion service is putting more land back into pasture crops. All this means more economical production and economic security for the future dairy farmer of Texas.

"Texas is rapidly assuming its place in the manufacture of dairy products. Competition is much keener than in 1920. The manufacturer who wishes to stay in business today must be an alert, energetic, capable business manager. He must keep in touch with the latest information regarding his particular line of business. Equipment must be kept up-to-date in order to meet competition and produce a quality product.

"New merchandising methods, new processes, new services and new and improved dairy supplies, which are a necessary part of our future progress in Texas, will be on display at the Dairy Industries Exposition. It is an opportunity to learn more about the great dairy industry.

"Members of the Texas dairy industry will show by their presence at New Orleans October 21 to 27 that the Dairy Industries Exposition is justified in going South in 1937, and that Texas is interested in the continued growth and development of the dairy industry."

Ed Sparks, of Phoenix, Arizona, returned to his home last Saturday afternoon, after having visited the past week in Floydada and Floyd County with relatives and friends. Ed Formerly lived in Floydada be- fore moving to California seven years ago. They have been making their home in Phoenix for the past four years.

Mr. and Mrs. W. O. Jones, returned home Sunday night from Jones- boro, Texas, where they spent several days on business.

Cook and Bake FASTER

MAGIC CHEF gas range

with this modern, automatic

This range was designed and built for the modern homemaker. It was built to save her time; to enable her to enjoy perfect cooking results; to make it possible for her to prepare better meals more economically. Congressman Mahon Returned To Colorado Office Saturday

Colorado City, Texas, September 7.—Congressman George Mahon returned from Washington Friday and opened his Colorado office Saturday. His secretary, Lloyd Croslin, will remain in the Washington office in order to maintain direct contact with the government departments. Mahon stated that after about ten days in his Colorado office he would spend much time in various portions of the district conferring with the people.

In referring to the past session of congress, Mahon stated that his chief concern had been farm legislation. He said that congress was still friendly toward agriculture and that the next congress would no doubt enact a substitute law for the present AAA. He pointed out that this year congress appropriated \$500,000,000 for AAA payments to farmers who cooperate in this year's program. This will tend to counteract the injury done agriculture by the tariff which for many years has accorded special privileges to industry and raised the prices to the consumers. This will be in addition to the subsidy payments on cotton, provided in the closing days of the session, which will tend to guarantee the farmer a total of about 12c per pound on cotton.

In adopting a substitute for the present farm program, Mahon stated that great care would have to be exercised in order to prevent discrimination against West Texas because the problem here is different from that of the old south.

Mahon said that the farm tenancy program which was adopted would be of little effect for them time, but he praised the expansion of the vocational education program in the schools which was made possible this session.

In commenting on the probabilities of the United States becoming involved in war, he said, "I join others in deploring the treatment accorded American citizens in Shanghai and other parts of the Orient, but I have no fear that we are going to rush into war. The cost is too great for us to go to war to protect the Shanghai dollars of the American investors. We learned something from the last war. I am confident that the President, the Congress, and, above all, the people are determined to keep out of war."

SHERIFF'S SALE

The State of Texas, County of Floyd.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Dallas County, of the 23rd day of August, 1937, by Geo. W. Harwood, Clerk District Court of said 44th Judicial District of Texas, for the sum of Seven Hundred Thirty-Nine & 64/100 (\$739.64) Dollars together with interest thereon from July 19th, 1937, at the rate of 6 per cent per annum, and cost of suit, under a Judgment, in favor of Claude C. Gray, Trustee in a certain cause in said Court, No. 29738-A-B and styled Claude C. Gray, Trustee vs. L. C. McDonald and wife, Mrs. L. C. McDonald, placed in my hands for service, I, F. N. Clark as Sheriff of Floyd County, Texas, did, on the 30th day of August, 1937, levy on certain Real Estate, situated in Floyd County, Texas, described as follows, to-wit: The South 85 feet of Lot No. 16 in Block 4 of West Side Heights Addition to the City of Floydada, Floyd County, Texas, and levied upon as the property of L. C. McDonald and Mrs. L. C. McDonald and that on the first Tuesday in October, 1937, the same being the 5th day of said month, at the Court House door, of Floyd County, in the town of Floydada, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said L. C. McDonald and Mrs. L. C. McDonald.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Floyd County Plainsman a newspaper published in Floyd County.

Witness my hand, this 30th day of August, 1937.
F. N. CLARK,
Sheriff Floyd County, Texas.
39-3tc By Maud Merrick, Deputy.

DOAN'S PILLS

YOU CAN THROW IT IN HIS FACE ONCE TOO OFTEN

WHEN you have those "cramps" when your legs go all on edge—don't take on the man you love. Your husband can't know how you feel for the reason that he is a man. A three-quarter size man no wife at all in the past had band seven days out of the month. For three generations we have told another how to get "stuffed through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomfort of the functional disorders of women. Women must endure the ordeals of life: 1. Turning girlhood to womanhood, 2. Parting for motherhood, 3. Approaching "middle age." Don't be a three-quarter size man. Take **LYDIA E. PINKHAM'S VEGETABLE COMPOUND**. Go "Stuffing Through."

New Electric Equipment Installed

We have just installed some New Electric Equipment in our mechanical department which will enable us to take better care of your electrical needs on your automobile and truck. We especially invite you to call on us when you need work of this kind.

A MIRACLE of Silent Freezing

IT SAVES YOU MONEY YEAR AFTER YEAR

SERVEL ELECTROLUX
HAS NO MOVING PARTS
That's why it gives you

- LONGER, SATISFACTORY SERVICE
- NO MOVING PARTS TO WEAR
- PERMANENT SILENCE
- CONTINUED LOW OPERATING COST
- FULLEST FOOD PROTECTION
- SAVINGS THAT PAY FOR IT

Plus . . .
Extra Modern Convenience
Streamlined Beauty
Extra Roominess
Greater Ice Cube Capacity

Picture this beautiful GAS refrigerator in your kitchen!

YOUR own ears will tell you that Servel Electrolux differs basically from all other refrigerators—it's permanently silent! And this is more than a real advantage in itself. It means bigger savings . . . longer service for you. There is no noise, because there are no moving parts in its freezing system. And for the same reason, there is no wear, no loss of efficiency due to moving, wearing parts. A tiny gas flame does all the work in this remarkable refrigerator. It circulates the refrigerant that, coming in today and see the beautiful new 1937 models for yourself. Get the whole story. The more you learn about the modern gas refrigerator, the more you'll understand why owners are so enthusiastic about it.

PACIFIC DEFENSE LINES LENGTHENED

Navy to Patrol Coast With Fleet of Giant Bombers.

San Diego, Calif.—The navy is lengthening and strengthening its "first line of defense" in the Pacific.

Before the end of 1938, huge patrol bombing planes, most powerful air fighters of their type in the world, will be droning along daily over some part of an area embracing 5,000,000 square miles. The planes will be stationed so as to be instantly available should trouble rise in the Pacific.

It is the plan of the navy to have 140 of these most modern fighting craft on duty in the great semicircle extending from the Aleutian islands, through Guam, Wake and Midway to the Hawaiian group and then bending eastward to Panama before another twelve months passes.

Planes designated for this duty are the PBY-2s, with a cruising range of nearly 4,000 miles, a top speed of in excess of 150 miles an hour with a full load. The full load consists of at least 10,000 pounds of gasoline, a crew of six or seven men, machine guns, munitions and more than a ton of bombs.

In order to have these fighters at strategic points, the navy, during the next few months, will sponsor at least nine long-distance mass flights, similar to the three carried out already this year as "routine transfers."

In all, the navy is building sixteen squadrons of the patrol bombers, and fourteen will be stationed in the semicircular "first line of defense area." Of those fourteen squadrons, of twelve planes each, to be stationed in the Pacific area, five will be in Hawaii, three in Panama, two in Seattle and four in San Diego.

Plan to Restore Last Home of Daniel Boone

St. Charles, Mo.—The house in which Daniel Boone died is to be restored to its original appearance. Colonel Francis Marion Curlee, of St. Louis, a direct descendant of Boone's brother, John, is the present owner. The stone house, which changed hands many times, was bought in 1904 by a farmer, Henry Bollman. Bollman sold it to Colonel Curlee in 1925.

Boone's youngest son, Major Nathan Boone, built the house in 1810, taking almost two years to complete the job because the plaster had to be buried during the winter to "ripen." All cutting and finishing was done with an adze. The walls are two-and-a-half feet thick. Their extraordinary thickness makes the house warm in winter and cool in summer.

Most of the furnishing installed by Colonel Curlee are reproductions, some originals, of the pioneer's period. The dining room in the basement, is one of the most interesting rooms in the house. The sunlight enters from the south on a room with a ceiling of huge timbers, native brick floor and sparse furnishings—authentic Windsor chairs, table and an old-fashioned sideboard. Over the fireplace hangs a Kentucky long rifle. The five-foot-long rifle has a sharply curved, short stock fashioned to be fired from the elbow, not the shoulder.

Besides the living room, which extends the breadth of the house along the east side, there are two other chambers on the first floor. Three rooms on the second floor are divided by a hall which has been converted into a library with some 2,000 books. There are many volumes on Boone and a quaint collection of old books on the code of dueling.

Explaining Name Tires Townsfolk in Michigan

Paw Paw, Mich.—Paw Paw filling station attendants are weary of explaining how this town got its name and particularly that the name has nothing at all to do with fathers.

"Southerners never ask about it," one attendant explained. "They know the paw paw is a particularly sweet fruit, something on the order of a small banana. But many northerners and city people never heard of paw paws. The town was actually named by the Indians as it was the Indians who named the Paw Paw river because of the number of paw paw trees which dotted its banks. Then the town was named after the river. In 1867, the name of the township was changed from Lafayette to Paw Paw.

"Simple, isn't it. But it gets tiresome telling that story 20 times a day."

Advise Texas Farmers to Start Growing of Flax

Angleton, Texas.—Flax from which linen is made will grow better in Texas than anywhere else in the nation, according to R. H. Stanzel, chief of the Texas agricultural experiment station here.

Stanzel advised farmers of the Texas coastal region to try the new crop, pointing out that 20,000,000 bushels of flax are imported annually. Flax is produced extensively in North and South Dakota and in Michigan.

Rats Plague Zululand
Johannesburg.—Zululand is suffering from an unparalleled plague of rats.

AIR BASE FOR ARMY USE RISES IN WEST

Reservation at Sacramento Covers 1,200 Acres.

Sacramento, Calif.—Work is being rushed here for the completion by January, 1939, of what will be one of the nation's most important military aviation centers. It will be a base for the repair and maintenance of all army flying fields, planes and materials west of the Rocky mountains.

The new Sacramento air depot will be located on a 1,200-acre tract seven miles northeast of the state capital. It will include an amazing array of huge steel and concrete buildings, housing plane shops, warehouses, aero shops, hangars, offices and many other structures. It will also have a military post, including a headquarters, building, barracks, hospital, quartermaster's facilities, guardhouse, fire stations and quarters for officers and "non-coms."

More than 200 men are working on the base now and this number will be increased to 1,000 when construction is in full swing, according to Major Arthur W. Parker, in charge of the work.

Three Concrete Runways.

For test flying there will be a large, completely equipped air-drome with three concrete runways each 4,000 feet long and 150 feet wide. Leveling the field involves the movement of a million cubic yards of soil.

When finished and in public service the depot will provide employment for about 500 civilian mechanics and a good-sized staff of office workers. Its military force will consist of from 25 to 40 officers and 150 enlisted men.

The outstanding feature of this great base will be the building which will house the engineering shop and the repair dock. It will be 900 feet long by 600 feet wide, or approximately three city blocks long and two blocks wide, covering nearly 13 acres.

Although it will be only one story high, it will require 5,530 tons of structural steel. Its three main doorways will be 250 feet wide by 50 feet high. The doors will be opened and closed by powerful electric motors. Surmounting the vast structure will be a 90-foot flying control tower.

Within this 13-acre plant will be row on row of aeronautical machinery, including everything necessary for overhauling and repairing any type of plane.

Ten-Acre Supply Depot.

Adjoining the engineering shop will be the depot supply warehouse with nearly ten acres of floor space. It will be 850 feet long and 430 feet wide with a one-story height.

Most remarkable from the standpoint of construction, however, will be the two-story equipment repair building, in which plane instruments will be kept in tip-top shape. Its walls, extending 220 feet in one direction and 72 feet in the other, will be almost wholly made of glass blocks four inches thick and without windows.

An air-conditioning system will provide ventilation and regulate the temperature. The reason for this is that aero instruments are so delicate they can be properly regulated and tested only in rooms which are dustproof and where the atmosphere is controlled.

The main office building will be 300 feet long and 70 feet wide and three stories in height. Two additional structures will house the engineering and operating offices.

Cure of Leprosy Claimed by African Witch Doctor

Buluwayo, Rhodesia.—Witch doctors in Rhodesia say they can cure leprosy, even when it is so far advanced that the white man's medicine is of no avail.

A native, crippled by the disease, was carried into a native commissioner's office. The local witch doctor came with him.

"Incurable," said the medical officer who examined the patient.

"I guarantee to cure him," retorted the African practitioner.

Three months later doctor and patient were back. The medical officer examined the patient and pronounced him completely cured.

The witch doctor refused to explain how he did it, but hinted that the treatment was a drastic one, on the principle of "kill or cure."

Six Twins in Class

Niles, O.—Three sets of twins are enrolled to start the first grade class in St. Stephen's parochial school here, in September.

A PROCLAMATION

Know all Men, Women and Children By These Presents:

That, WHEREAS the health, happiness, life and safety and general welfare of each citizen are dependent upon existing living conditions, and

WHEREAS, the lives and property of our people are endangered by fire caused by rubbish accumulations in homes, offices, stores, restaurants, alleys and streets, and

WHEREAS, a city is judged largely by its general appearance, of cleanliness, freshness and beauty, and

WHEREAS, fire to a very large degree is prevented by proper application of education in fire prevention and fire protection;

NOW, THEREFORE, I, Glad Snodgrass, Mayor of the City of Floydada do hereby proclaim the week of October 3 to 9 as FIRE PREVENTION WEEK, during which time I most respectfully urge our civic and commercial organizations, our school officials and teachers, and our citizenship as a whole, to cooperate and work with the fire chief, fire marshal and city officials in an effort to control this useless loss of property and life by fire. Every home, office and place of business should be inspected carefully, including alleys, and all fire hazards removed.

IN TESTIMONY WHEREOF, I herewith sign my name and affix my seal of office on this 9th day of September, A. D. 1937.

(Seal) GLAD SNODGRASS,
Mayor of City of Floydada.

FAIRMONT CHURCH ANNOUNCEMENT

The following church services will be held at the Fairmont Baptist Church Sunday, September 19:
Sunday school at 10 a. m.
Preaching at 11 a. m.
Preaching Sunday night at 7:30.
Everyone is cordially invited to attend all these services.

REV. G. W. TUBES, Pastor.
Mrs. C. P. Looper and daughter, Miss Mary, went to Lubbock Monday where Mary enrolled in Tech College for the term. Mrs. Looper returned home Tuesday.

Miss Geraldine Gamblin, daughter of Mr. and Mrs. J. M. Gamblin, left Sunday for Lubbock where she enrolled in Tech College for the term.

Mr. and Mrs. J. M. Gamblin visited their daughter, Miss Geraldine in Lubbock Tuesday.
Jeraldine Hale, of Plainview, spent last week with Miss Geraldine Gamblin.

Use Back of Closed Fist in Winning Dog's Favor

Several of the terriers and large dogs appear hostile upon approach, but it's their keen expression that makes a person wonder about their true disposition.

Some people are timid in making friends with a dog and, due to that mistake, really cause the dog to become a bit wary. In rare cases children are bitten by dogs. This is due to the child's easy manner in approaching and fondling them. Of course, in an instance where a child actually beats or taunts a dog, the animal will resent it and snap at the young offender.

It is always well to bear in mind that, to make friends with a dog, the best way is to let the animal see you. Walk up slowly to the dog and offer the back of your closed fist, advises a writer in the Philadelphia Inquirer. In a second the dog will scent you and make you his new friend. The reason for the closed fist is practical. Should the dog be high strung and snap at you, the bite will not tear at the fleshy portion of your offered hand.

Massive dogs, such as Irish Wolfhounds, Great Danes, Mastiffs, Newfoundland and St. Bernards may loom as giants to be avoided, but they're the easiest to make friends with. All of these appear to have a menacing expression upon their approach, but this is only a mask hiding their gentle dispositions.

You can make friends with these big fellows in easy fashion. The essentials necessary are a few soft-spoken words and gentle patting around the head. The larger the dog, the quicker they will relax and receive your fondling.

Elephant Lives Longest; Reptiles Outlive Birds

When you see an elephant trudging along in the circus, think for a second. That old fellow may have been playing in the jungle during the retreat from Moscow in 1812. This, says a writer in London Tit-Bits Magazine, leads us to the question: Which is the longest-lived animal in the world? There is decided disagreement among scientists. However, the animals of greatest longevity include the elephant, whale, tortoise, alligator, eagle, swan, and parrot.

It is believed that in the case of mammals the rapidity of growth in the early stages of their life has a definite relation to final durability and that slow maturity indicates longevity. On the whole reptiles seem to live longer than birds, and birds longer than mammals. But there are notable exceptions. The elephant is undoubtedly one of the most long-lived animals. The African elephant is supposed to live longer than the Indian variety, 100 years not being considered an unusual age.

A memorandum of Colonel Robertson, a British army officer in Ceylon, in 1790, stated that there was an elephant in the stables at Matura whose records showed that it had been captured from the Portuguese by the Dutch in 1656, and had served its new masters 140 years when it fell into British hands. There is said to be a tortoise in Cape Town whose estimated age is 200 years. The large tortoises of the Galapagos islands are believed to live two centuries.

RUINS BARE INDIAN CRADLE IN ARIZONA

Region Oldest Inhabited Area in United States.

Hopi Indian Reservation, Ariz.—The origin of the famous Hopi Indian ceremonials may be discovered this summer by a group of Harvard university scientists who have spent most of two years here seeking evidence to fill many unwritten chapters in the Southwest's 1,600-year history.

John O. Brew of the Peabody museum has announced a long-term program of excavation of "hundreds of Hopi ruins scattered along the windswept mesa of the Jeddito valley."

He also reported the findings of the scientists' two years of intensive research, summarized thusly: 1. This region is part of the oldest continuously inhabited area in the United States and holds an archeological record of the rise and fall "of a great people."

2. Test diggings have revealed the progressive record of the people from about 300 A. D.

3. Fifty gaily colored, well preserved wall paintings were found buried in kivas and showed the development of Indian art from pure geometric design to the first elementary attempts at realism. He said they will be significant for tracing origins of the spectacular Hopi religious festivals and the intricate Hopi social system.

4. A clear picture has been drawn of the true effects of the invading white civilization on a highly developed aboriginal people.

Brew said the long program now planned will uncover "as far as possible every aspect of Indian life in this valley from its earliest occupation."

Hundreds of dwelling sites will be examined. Ruins will be tested to reach sources of important supplies of pottery, clay, stone and mines. Ancient methods of fuel handling and firing pottery also will be sought.

The discovery of the Hopi murals, Brew reported, was the most important achievement of last year's expedition. Awatovi was selected for first elaborate testing from sixty-one archeological sites.

Awatovi was the scene of one of the most notorious massacres of the Southwest.

The tiny village was one of the first Hopi centers encountered by Coronado's men in their march of 1540. The Hopi and the white men were close friends until 1680 when the Indians joined their pueblo neighbors and ejected the Spaniards.

Eight Hundred Adults Slaughtered. The massacre was detonated, most authorities agree, when the people of Awatovi welcomed the Spaniards back several years later in defiance of their red brothers.

In 1779 the neighboring villagers attacked the Awatovi people and slaughtered the 800 adults and razed the town. Thus, after 1,600 years, one of primitive Arizona's most important communities became only a ruined city.

Brew's report disclosed the scientists have gathered and listed more than 150,000 postholes (fragments) which give detailed pictures of the evolution of the Indian arts in the five centuries of their highest development.

Occupation of Jeddito valley, first inhabited by the "basket makers," was recorded as continuous to modern times. The "basket makers" were described as pioneer Indian farmers who lived before the development of the pueblo civilization.

Town Plans to Restore Early Names of Streets

Lewes, Del.—Modern names of local streets are to be replaced by the quaint designations used by Colonial residents.

The board of town commissioners has ordered the changes following a petition presented by the Rotary club. The movement for the change in street names was started six years ago by Mrs. Kenneth E. Stewart, of Biltmore, a descendant of an old Lewes family.

Renaming the streets is part of a civic program to restore the town, as has been done on Cape Cod and in parts of Virginia.

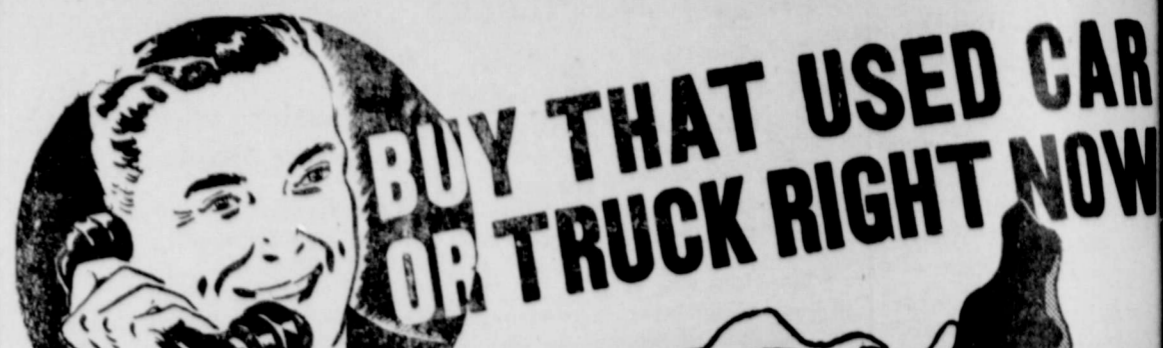

Some of the names to be changed are Park avenue to Ship Carpenter street, and Kings street to Kings highway. The only street whose name will not be altered is Pilot Town road.

Pear Tree Mixed Up; Yields Cherry Crop

Saratoga Springs, N. Y.—Mr. and Mrs. William H. DeFrehn won't hazard a guess as to what will happen next year, but this year they picked cherries from a pear tree.

For the past eight summers Mrs. DeFrehn has picked pears from the tree.

"We never had very many," she said, "but I know they were pears."
"This spring the tree had more than its usual number of blossoms. It wasn't very long before the—whatever they are—stopped growing. I examined the fruit and, sure enough, the tree was bearing cherries."
