West Texas Methodist District Ends Conference Sunday

Its twenty-eighth conference, the Northwest Texas Methodist District terminated the five-day meeting with services Sunday in the form of a "love feast", infant baptism and the ordination of deacons, followed by a sermon by Bishop H. A. Boaz, of Fort Worth, who has served the district for consecutive years and who will retire next year.

The report showed that the district had 71,870 members and that during the year 2,777 were received into the churches of the West Texas Conference.

Gray, and Road Projects Ordered By Austin

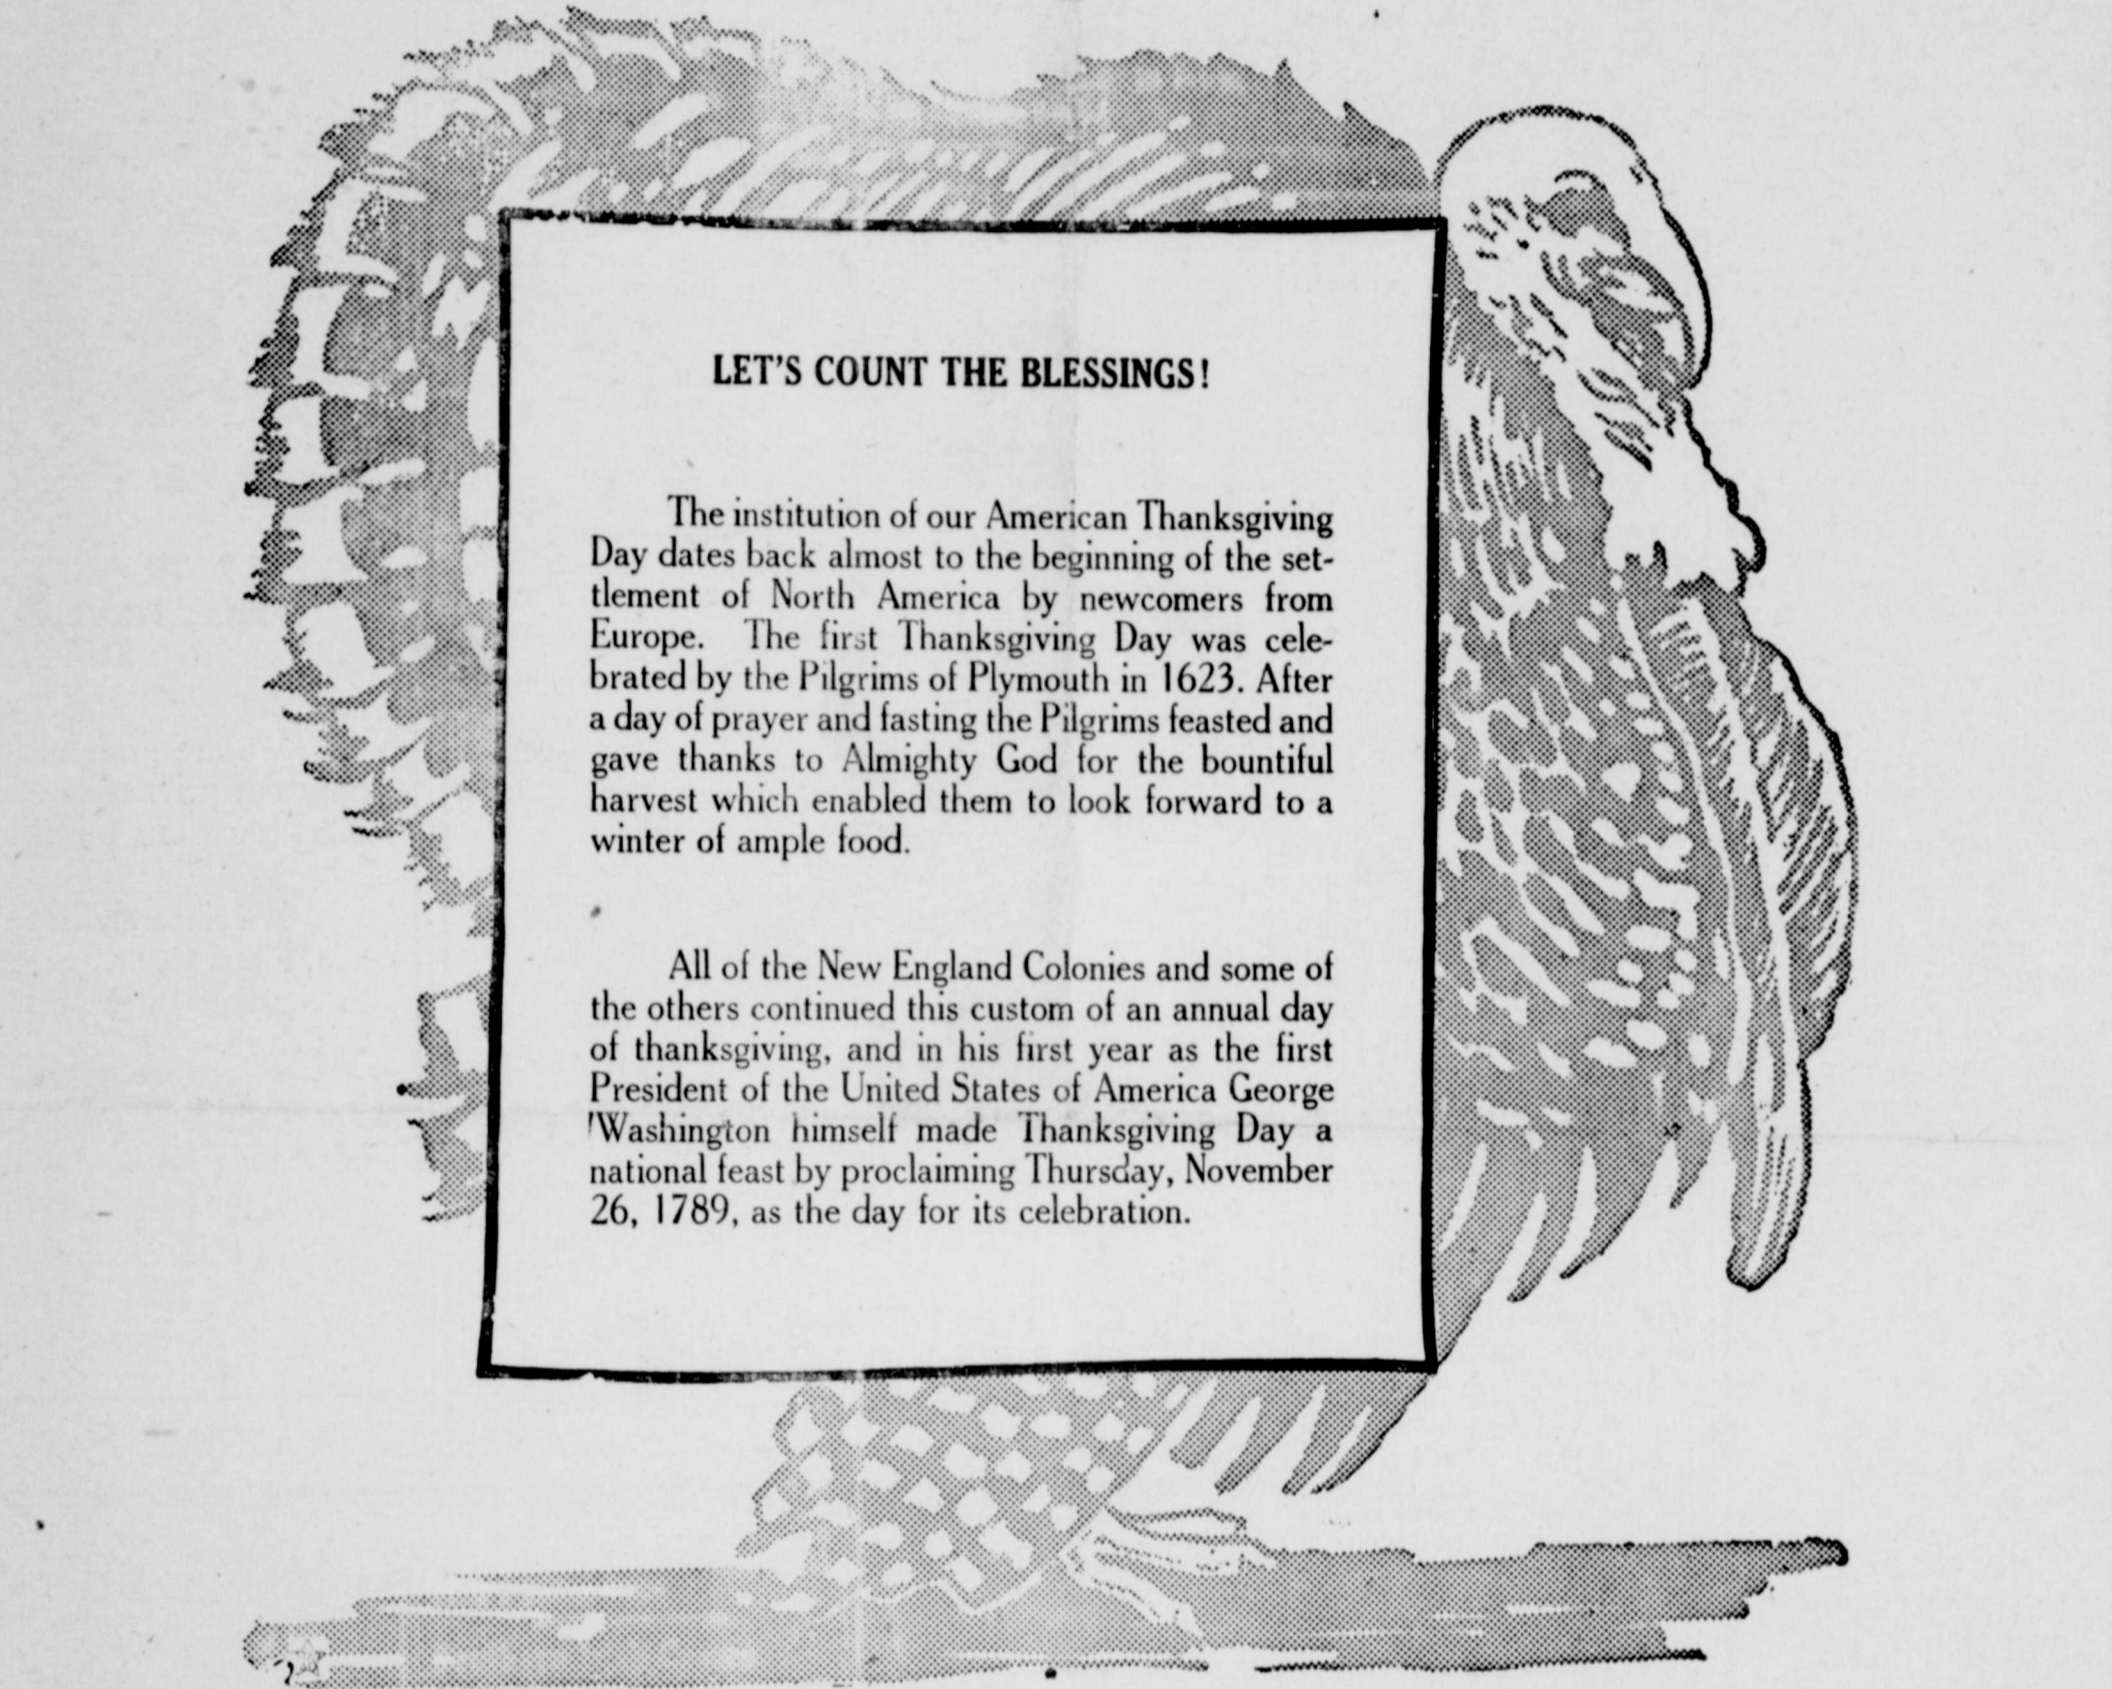

November 18.—Maintenance and repair projects costing \$4,795, were ordered by the highway commission today.

Luna, Former Floydada Citizen, Buried in Plainview Thursday

Funeral services for the late R. M. Luna, 68 year old, who died here Tuesday night after a two months' illness, were conducted here today.

Chiropractors Meet in Lockney Sunday

A thirty chiropractors from the territory attended a district meeting in Lockney Sunday.

LET'S COUNT THE BLESSINGS!

The institution of our American Thanksgiving Day dates back almost to the beginning of the settlement of North America by newcomers from Europe. The first Thanksgiving Day was celebrated by the Pilgrims of Plymouth in 1623. After a day of prayer and fasting the Pilgrims feasted and gave thanks to Almighty God for the bountiful harvest which enabled them to look forward to a winter of ample food.

All of the New England Colonies and some of the others continued this custom of an annual day of thanksgiving, and in his first year as the first President of the United States of America George Washington himself made Thanksgiving Day a national feast by proclaiming Thursday, November 26, 1789, as the day for its celebration.

Blanchard Dry Goods Company to Open Business in Floydada Saturday

The Blanchard Dry Goods Company, located in the Brown Brothers' Building next door to White's Drug, opened for business Saturday, November 20; however, the stock will not be complete until the last of this week, R. S. Blanchard, manager, stated.

Punch and Judy Shows Solve Kids' Behavior Problems

'Problem Child' Analyzed by Puppet Dramas

CLEVELAND.—Punch and Judy and other puppet show characters beloved of children are helping psychiatrists untangle serious behavior difficulties and ward off mental and personality disorders. Details of this new use for puppet shows were given by Dr. Lauretta Bender and Adolph Woltmann of Bellevue hospital, New York city, at a meeting of the American Orthopsychiatric association.

The method has met with striking success, the New York psychiatrists said. It was developed in the children's observation ward of the hospital where hundreds of children suffering from all kinds of behavior problems are sent in each year from children's courts, mental hygiene clinics, schools and other institutions.

The greatest need among this group of children is, first, an adequate understanding of their emotional problems and, second, a form of treatment that will deal with the emotional problems involved. Because of the small staff, it is impossible to give individual attention to each group of children. The puppet shows, however, can be used to detect the difficulties of the children in a group and also to help the children work out the solution of their problems.

How the Plots Develop.

The shows are written and produced to deal directly with such problems of children as rivalry between brothers and sisters, the unloved child, aggression, and over-devotion to one or the other parent. The hero, Caspar, can in the shows face all kinds of problems and the children in the audience can help him decide what to do.

The children are also taught to make the puppets and write and produce their own plays. In the course of these classes, the children discuss freely the various problems in the impersonal terms of the puppets. The puppets have in this way helped the psychiatrists enormously in gaining insight into the various complexes of the children.

Mr. and Mrs. Marvin English and son, Robert Hicks, spent Sunday in Amarillo.

Keeping Up With Science
By Science Service

Childbirth's Pains Safely Banned by Savants' Discovery

New Chemical Formula Puts Mother to Sleep

WASHINGTON. — A safe way of taking the suffering out of childbirth has long been a goal of medical scientists as well as the prayer of countless mothers the world over. One by one, various anesthetics and pain-killing agents have been tried—chloroform, ether, nitrous oxide or "laughing gas" and twilight sleep.

Some have been rejected because of danger to mother and child. Others were of limited use because complicated apparatus and skilled anesthetists were needed to give them. Others have brought only partial relief of suffering, or have relieved the pain in some cases and not in others.

Years of Research.

The long quest seems now to have been ended by a discovery of two Washington (D. C.) physicians, Drs. Howard F. Kane and George B. Roth of George Washington University Medical School. After years of careful research they have hit on what may prove to be the ideal childbirth anesthetic.

The agent they use is a mixture of paraldehyde and benzyl alcohol. The mixture is injected when the first labor pains are reported and the patient falls asleep within half an hour or an hour. She awakens refreshed some six or eight hours after delivery.

Is Easily Administered.

The chief advantage of the new method, Doctor Kane said, is that there is no danger to either mother or child. Another advantage is the fact that the anesthetic can be easily given and requires no complicated apparatus. It has been tried in several hundred cases during the last three and a half years at the George Washington University hospital, and no ill effects have been noticed in either mother or child.

Gold Output Value Exceeds Billion for First Time

NEW YORK.—Gold mining, among the oldest industries of man, entered the billion dollar business stage for the first time in 1935, the meeting here of the American Institute of Mining and Metallurgical Engineers learned.

"Preliminary estimates for 1935," declared John J. Croston, Boston mining engineer, "indicate that more than 30,000,000 ounces of gold were produced, 10 per cent more than the 1934 record.

"Ranking in order as gold producers were the Union of South Africa, Russia, the United States and Canada, with Russia showing the greatest percentage of increase. In view of the large number of new mines being prepared for production in Canada, Australia, the Gold Coast and the United States, further increases in production are expected.

Depression Boomed Mines.
The start of the depression in 1929, Mr. Croston pointed out, marked the turning point for gold mining from a declining to an increased industry. Up till 1929 there was a gradual depletion of known gold deposits and the operating costs increased while the price of gold was pegged—as it had been since 1917—at \$20.67 an ounce.

Biggest spur, of course, was when Great Britain and finally the United States went off the gold standard.

Lipstick Scent Causes Occasional Skin Trouble

CHICAGO. — Change the scent of your lipstick, girls, if the kind you are using brings on a skin trouble.

The doctors have traced some cases of lipstick dermatitis—the skin disorder that occasionally develops among users of a lip rouge—to the perfume it contains.

A particular offender is a perfume containing methyl heptene carbonate, The Journal of the American Medical Association states.

A young woman came to her doctor with a breaking out on the skin, which he traced to her use of lipstick. She had been using a certain brand for years with no ill effects until she changed shades.

By patch tests on the girl's arm, the physician found that she was sensitive not to the oil or dyes in the rouge but to the perfume used in two shades she had been using.

HELP KIDNEYS

To Get Rid of Acid and Poisonous Waste
Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.
Turning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.
You may suffer nagging backache, persistent headache, attacks of dizziness, "stirring up" nights, swelling, puffiness under the eyes—feel weak, nervous, all mixed up.
In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!

DOAN'S PILLS

Richard Tubbs, student at Texas Tech, spent the week end visiting with his parents, Mr. and Mrs. Clifford Tubbs.

AUTOISTS' RIDING COSTS THEM PLENTY

Only 84 Cents of Dollar Goes for Road Work.

Washington, D. C.—American motorists paid into state treasuries more than a billion dollars last year in gasoline taxes, motor vehicle registration fees and motor carrier taxes.

Figures compiled by the bureau of public roads of the Department of Agriculture showed \$169,344,000—16 cents out of every dollar—was used for nonhighway purposes. That was an increase of \$22,202,000 over 1935.

Combined state and federal allocations for highway purposes last year totaled \$1,131,000,000, bureau officials said. Federal contributions to states made up about \$250,000,000 of that amount.

States last year spent \$585,616,000 for state highway purposes, \$265,490,000 for local roads and streets, \$37,942,000 for collection and administration and \$1,597,000 for other highway purposes, such as park and forest roads. They had \$8,346,000 of undistributed state highway funds.

Criticizes States.

The states derived \$691,420,000 from gasoline taxes, \$359,784,000 from registration fees and licenses and \$15,137,000 from special taxes on motor carriers last year, the bureau said.

The bureau criticized states for use of automobile taxes for any purpose other than road-building and maintenance. Any other use of the funds, the bureau said, "detracts materially from the upkeep of the highways for which the motoring public is paying."

"In 1936," the bureau said, "almost one-third as much was used for nonhighway purposes as was used for the building and maintenance of state highways."

Of state taxes on highway users employed for other than highway purposes about \$89,000,000 went to general state, county and municipal funds, \$36,500,000 for relief of unemployment, \$33,000,000 was given to education and approximately \$11,000,000 for miscellaneous purposes, the bureau said.

New Jersey Penalized.

States are permitted under the Hayden-Cartright act, by which congress made available federal funds for state highway aid, to continue the same proportion of diversion of highway funds for other purposes as was diverted in the year prior to the act.

States are required to match federal highway allotments, dollar for dollar. Recently the bureau deducted \$250,000 from the federal allotment to New Jersey because that state used an excessive proportion of state highway funds for relief purposes.

The federal government collects approximately \$150,000,000 a year through a uniform 1-cent-a-gallon federal tax on gasoline. State gasoline taxes range from 2 cents a gallon in the District of Columbia and Rhode Island to 7 cents a gallon in Florida, Louisiana and Tennessee.

The weighted average for all states for state gasoline taxes is 3.85 cents a gallon.

Southern Irish Crown

Series of "Local Kings"
Dublin.—Southern Ireland, though it is almost a republic within the British empire, has been choosing a number of "kings" lately.

There is now a "king" of the Aran, the wild, storm-lashed islands off the Galway coast. It is reported that a successor is being sought for the late "queen" of Tory island, off the coast of Donegal. Quite recently a "king" of Dalkey island, near Dublin, was crowned publicly in the presence of some of President Eamon de Valera's staunchest adherents.

Finally, during the three-day annual fair at Killorglin, County Kerry, near Killarney, thousands of farmers witnessed the centuries-old custom of crowning a goat as "king" of Killorglin.

The origin of the latter ceremony is buried in the shades of antiquity. One theory explains, however, that a goat saved the village from destruction by a marauding army in the distant past. To commemorate this event the inhabitants are supposed to have decreed that a goat should be crowned each year at the fair.

Inferior Paper and Ink May Bring 'Lost Century'

Lexington, Ky.—Inferior grades of paper and inks in use today may cause the present age to be known as the "lost century," according to Dr. Frank L. McVey, president of the University of Kentucky.

Dr. McVey said that the inferior products were being used in making books, newspapers and documents of historical interest.

"Records are rapidly passing out of existence," he said. "A hypothetical descendant in the year 2000, attempting to make inquiries into the era beginning in 1910, will find the history of this period completely blotted out. It may be almost impossible for future generations to get any evidence of the age in which we now are living unless, unless greater care is used in the preservation of contemporary documents."

NEW WAYS FOR FINDING OIL WILL KEEP SUPPLY GOING, SCIENTIST SAYS

Houston, November 19.—New methods of underground exploration now being sought are counted on by the oil industry to find the new pools it will need in future years, Dr. W. M. Rust Jr., geophysicist, said Friday.

Dr. Rust delivered a paper tracing the history of electrical prospecting methods before the opening session of the midyear meeting of the Society of Exploration Geophysicists.

Around 150 members of the society, men whom the oil industry looks for its reserves, were in attendance at the meeting, which runs through Friday and Saturday.

Miss Edwina Christian visited friends in Lubbock Monday.

P. T. Hamilton of Lubbock, was in Floydada Sunday and Monday attending to business and visiting with his daughter, Mrs. Trenton Davis.

R. C. Patton and Amy McRoberts visited Sunday with Mr. and Mrs. Floyd Murray in Canyon. They also attended to business in Amarillo.

151 Farmers of Region Twelve Make Settlements In Past Six Weeks

In New Mexico and parts of Texas, Oklahoma, Kansas and Colorado served by Region Twelve of the Farm Security Administration, 151 farmers made settlements of their debts in the past six weeks, according to L. H. Hauter, Regional Director of this Federal Agency.

A report shows that arrangements have been made to repay 71 per cent or more than two-thirds of the amount owed. Debt reduction amounted to \$194,352 or 29 per cent of the original indebtedness.

"The Farm Security Administration cannot be considered a refinancing agency or a credit agency," Hauter said, "because the purpose of the program is farm and family rehabilitation, involving such things as correct farming practices, technical supervision, account keeping, home and farm budgets and farm debt adjustment."

In developing sound farm plans for borrowers it is often found that their debt structure is to high to ever permit repayment, it was pointed out. That is where the work of local farm debt adjustment committees come in. Creditors, farmer debtors and a committee of public spirited citizens work together to bring about a settlement suitable to all.

Hauter called attention to the fact that this farm debt adjustment service is available to all farmers, even though they are not working with this federal agency. "Our committees gladly consider other farm cases and all services are given without cost," he added.

Farmers desiring complete information about this service are urged to contact William H. Gore, County Supervisor at Floydada, Texas, or write directly to William Klein, chief of the section, Farm Security Administration, Amarillo, Texas.

The local farm debt adjustment committee is composed of the following men: W. Ed Brown, Lon M. Davis, L. C. McDonald.

Bailey-Savage Nuptial Rites Read In Altus, Oklahoma

In a quiet ceremony performed in Altus, Okla., Wednesday night at 8 o'clock, Miss Elsie Savage of Wichita Falls, popular high school teacher, became the bride of Floyd Bailey of Altus. Rev. A. L. Bowman, pastor of the First Methodist church of Altus, performed the ceremony at the home of the bride's niece, Miss Essie Mae Wynes, with only intimate friends present.

The altar was decorated with southern smilax and silver vases filled with red roses. Miss Betty June Tilley gave the wedding music.

Dr. P. E. Savage of Canyon, brother of the bride, gave her in marriage. She wore a becoming frock of blue slipper satin, floorlength, and carried a small white Bible decorated with a single white rosebud. Her accessories were of wine and silver. Miss Wynes attended her aunt as maid of honor. Joe Bailey of Altus was best man to his brother.

The wedding guests were joined by a large group of friends after the ceremony, for an informal reception. Mrs. F. E. Savage, Miss Beatrice Bailey and Mrs. Ester Sinner assisted in the serving of the wedding cake, and Mrs. Sudie Dean presided at the bride's book.

After the reception, the couple left for a wedding trip to St. Louis, Mo. The bride wore a stone blue Milgrim model suit with wine accessories as her going-away costume.

Mrs. Bailey is a graduate of West Texas State Teachers College of Canyon and will receive her master's degree from S. M. U. next June. Mr. Bailey attended Oklahoma university. He is proprietor of the Altus Booterie, and prominent in civic and social work. The couple will live in Altus.

Miss Savage was a former resident of Floydada and has many friends here who will remember her.

Mrs. William Murray, the former Miss Geraldine Massie, and son, William, Jr., left Monday of this week for their home in Harrisburg, Pennsylvania, after having spent four weeks here visiting Mrs. Murray's parents, Mr. and Mrs. W. M. Massie. Mrs. Murray had planned to spend Thanksgiving here, and was to have been joined by her husband, but was called home on account of the serious illness of Mr. Murray's mother.

Mr. and Mrs. J. W. Pitts from California left Monday for Dallas after having visited here for the past several days with Mrs. L. H. Newell. They were accompanied by Mrs. Newell and daughter, Faye. They will likely return here in two or three weeks before going back to their home in California.

Mr. and Mrs. A. O. Beck, had their dinner guests Sunday, Mr. and Mrs. John L. West and Mrs. Fannie Powell.

"Saved to Serve" Taught at Y. W. A. By Mrs. Vernon Shaw

The Y. W. A. held its regular meeting Monday night at the home of Mrs. Delbert Eubank and repeated the meeting Tuesday night with a continuation of the study of "Saved to Serve", written by Blanche White. Mrs. Vernon Shaw had charge of the program for both nights and dictated an interesting lesson on this most unusual book.

Those present at the gatherings were: Miss Nell Swinson, Miss Ina Sims, Miss Fannie Bolding, Mrs. Modrel Williams, Miss Bernice Dallingier, Miss Agnes Porter, Miss Bernice Patton, Mrs. Vernon Shaw, and the hostess, Mrs. Delbert Eubank.

Senior Girls Sunday School Class Met Friday Night At Church

The Senior Girls Sunday School Class of the Baptist Church met in their regular meeting Friday night of last week at the home of Mrs. Earl Crow. Misses Nell Swinson, Modelle Haney, and Merle Fagan served as hostesses to the class.

After a brief business meeting and an enjoyable social gathering, refreshments were served to the group. The refreshments of individual pumpkin pies and hot spiced tea carried out the Thanksgiving motif.

Those present for the social were: Vera Nell Marshall, Mabel Moore, Thelma Jo Hamilton, Florrie Conway, Alene Warren, Mary Wilson Hicks, Evelyn Hicks, Mrs. Vernon Shaw, Mrs. Earl Crow, and the hostesses, Nell Swinson, Modelle Haney, and Merle Fagan.

MR. AND MRS. HALE ENTERTAINED FRIENDSHIP BRIDGE CLUB MEMBERS

Mr. and Mrs. Walton Hale entertained the Friendship Bridge Club Friday evening at 7:30 at their home 620 West Missouri Street.

Mr. and Mrs. J. C. Gilliam won high score for the evening.

Members present were: Mrs. A. B. Keim, Mr. and Mrs. B. K. Barker, Mr. and Mrs. J. C. Gilliam, Mr. and Mrs. L. T. Bishop, Mr. and Mrs. J. A. Arwine, Mr. and Mrs. Walton Hale.

The club will meet with Mr. and Mrs. A. B. Keim, Friday evening, December 3, at 7:30.

Inis Dee Fyffe Honored With Dinner On Birthday

Mrs. D. Fyffe honored Miss Inis Dee Fyffe with a birthday dinner Friday evening. After enjoying a lovely meal, the honoree and the guests attended a dance in Lockney.

Those present for the affair were: Blanche King, Ralph Hammonds, Verner Hodel, of Lockney, Dixie Henderson, W. T. Oliver, and the honoree, Inis Dee Fyffe.

Alathean Class of Baptist Church Held Auction Sale Thursday

The Alathean Class of the Baptist Church met Thursday of last week at the home of Mrs. Sam Bishop and held their annual auction sale. It is their custom to hold the sale each year before Christmas for the benefit of missionary work.

All members of the class brought articles to be sold, most of the articles being suitable for Christmas presents. Canned goods, pillows, aprons and various other items were sold at auction to the highest bidder. Those taking part in the buying included most of the members of the class and several guests. A nice profit was reported.

Kenneth Bain, Jr., freshman from Texas Tech, spent the week end in Floydada visiting with his parents, Judge and Mrs. Kenneth Bain.

LUMBER SHINGLES, TIMBERS, HOUSE BILLS

High quality, close prices. Quick truck or rail delivery. Mail or wire list of items. We guarantee the grade and count.

1937 Farm Program Payments Scheduled to Start In December

College Station, November 21.—The Texas Agricultural Conservation Committee expects payments under the 1937 Federal Agricultural Conservation Program to start early in December, Chairman George Slaughter announced.

The committee, which has headquarters at Texas A. & M. College, indicated the bulk of the payments would be made in December, January and February. The state AAA office is equipped to check and pass applications to the general accounting office at the rate of 3,000 a day, Mr. Slaughter said.

Members believe the limiting factor in the payment process will be failure of counties to send in applications at the earliest possible date. No payments can be made to any county, Mr. Slaughter said, until it has sent in a minimum of 75 per cent of its total applications.

Farmers will have until December 31 to earn payments under the 1937 program, Slaughter pointed out in urging that every advantage be taken of the time remaining to sow soil building crops and to carry out other conservation practices.

"Texas farmers earned only \$4,534,282 in payments of the \$6,361,196 allowance for the state under the 1936 program," Slaughter said.

Classification of Men For Jobs Is Sought

Austin, November 18.—The American Legion's veteran placement bureau, after a study of discrimination against men more than 40 years old, Wednesday proposed legislation to establish specific qualifications to classify men for different types of employment.

A study of discrimination against men past 40, the committee said, revealed cases where men accustomed to hard work were graded physically unfit by examining doctors of compensation insurance companies although conditions of the work created no extra hazard.

After a conference with representatives of the American Federation of Labor, the committee said it was decided to seek the aid of the State Medical Association in recommending.

Miss Mary Ann Kimble spent Sunday and Monday in Lubbock where she is visiting in the Tech girls' dormitory. Miss Kimble was accompanied to Lubbock by Miss Maxine Fry, who spent the week end visiting here with her parents, Mr. and Mrs. R. E. Fry.

Jimmie Jones of San Angelo, arrived here this week end. He began his work Monday morning as assistant manager of the Del Rue Cafe.

THE SEASON IS HERE

COME IN GENTLEMEN, LADIES,

The Store Where Quality Reigns Supreme.
