This ruling will doubtless be an advantage to many producers. It is estimated that the general soil depleting allotment for 1938 will be from 80 to 84 per cent of the normal general crop acreage for the farm. Some producers have reduced from 16 to 20 per cent of their 1937 general base. The county agricultural agent is of the opinion that producerrs who have done this have estimated their 1938 general soil depleting allotment substantially close and will meet the general soil depleting allotment performance in fine shape in 1938.

# A Man Who Leaves NO WILL Does His Family a Big Injustice

is Protected with

Make Your Will NOW. Safeguard Your Loved Ones.

Everyone needs a Will, those who have little, more than those who have much. Neglect to make a Will causes untold grief, suffering, family disputes.

A happy man with a good wife and two lovely children, owned 4 \$7,000.00 house with only a \$2,000.00 mortgage, and had about \$3,000.00 in the bank. He caught a cold; it developed into double pneumonia and within a week he was dead.

There was no will. An executor had to be appointed by the court, a bond paid and a lawyer appointed. He had two brothers with whom he was on bad terms. Each applied for one-third of the estate. The executor got 5% and had one year to settle.

The mortgage was foreclosed, the widow dispossessed. Today this man's family are on relief, destitute. If our Will booklet at a total cost of one dollar had been used, all this trouble would have been saved. Things like that are happening every day.

This Actually Happened | A Legal Valid Will-S!

Our booklet giving samples of Standard Last Wills and Testaments, with many separate clauses, enables one to make just the kind of Will desired by simply copying the wording and filling in your names.

With our booklet comes a Will blank with full instructions how to sign and have it legally witnessed so as to make in SECRET, without other legal advice, a perfectly legal will.

# **GOVERNMENT LOAN ELIGIBLE FOR PRICE**

College Station-If a farmer has sotton under a 1937 Commodity Credit Corporation loan he may receive a cotton price adjustment payment at the rate in effect on June 30, 1938, regardless of whether or not the cotton has been sold, according to Geo. Slaughter, chairman of the Texas Agricultural Conservation Committee.

If a farmer has cotton under a loan and desires to sell it, the loan must be paid in full before the cotton is sold, he said.

"However, a farmer does not have to sell his cotton to qualify for a cotton price adjustment payment," he pointed out. "oCtton not sold before July 1, 1938, will be considered to have been sold on June 30 whether it was under a loan or not. The date

of sale controls the rate of payment." Numerous reports have been received at the state AAA office at Texas A. and M. College that farmers with cotton under loans have been selling their "equities" in the loan cotton and receiving sale certificates in return, Slaughter. Payments cannot be made on the basis of such socalled sales and persons buying 'equities" on loan cotton cannot obtain payments when they resell the

Under the regulations cotton price adjustment payments will be made on part of the 1937 crop, he explained. and the rate of payment in each case will be the amount by which the average price of cotton on the date of sale is belogw 12 cents. In no case will the payment be more than three cents a pound.

When a farmer sells his cotton prior to July 1, 1938, in a bona fide to buyer, he may receive a payment All members were present, which on that cotton. If the cotton is not be delivered and, therefore, pay-
