Floydada Tennis Club Organized in Meeting Sunday

he council.

Mrs. Herman King, of Lone Star,

Mrs. Holmes appointed the follow-

was named Secretary treasurer.

Tennis players, in a meeting Sunday afternoon at 4 o'clock, organized a club to be known as the Floydada Tennis Club. The meeting was held at the court on south Wall street.

Dale Strickland was named president. Ray Chapman is vice president and J. W. Fowler is secretary reasurer.

Plans for securing new courts were liscussed and Ray Chapman and J. W. Fowler were selected to complete plans and arrangements. It was de-

cided that the membership in the mercial Irish potatoes in 27 Texas club be limited to 50 members. Winifred Newsome, local attorney, was selected to draw up a charter for the club.

Committees appointed by the president were: Membership, Ray Chapman and Carrol McClung; rules, W. A. Amburn, Jr., and Phil Merry, Jr.

### **COUNTY HOME DEMONSTRATION COUN-CIL ORGANIZED IN GENERAL MEETING HELD AT COURT HOUSE SATURDAY**

### Mrs. Ed Holmes, Council Chairman; and Mrs. Herman King Is Secretary Treasurer

An organization of the County [the next council meeting which will ] Home Demonstration council was be held Saturday, May 28.

perfected in a meeting of Floyd Fourteen home demonstration clubs County club women held Saturday have already been organized in the afternoon in the county court room. county and others are in the process Miss Ruth Grimes, county home of organization.

> The minds of men and women of decency and intelligence revolt at the whole situation. Let us encourage them as we improve the opportunity today to present God's moral and spiritual standards.

I. Self Before God (vv. 17-22).

The rich young ruler had many advantages and virtues. He was young, life was before him, vivid was his imagination, strong was his body. He was educated, and developed intelligence is an honor to any man. He had position, which can always be used for good. He had money, which when rightly gained and used, is a powerful and honorable possession. Above all, he had the priceless jewel of good character. Notice that he had kept the commandments, that he came be-

### Natch Your Kidneys

Help Them Cleanse the Blood of Harmful Body Waste

Of Harmful Body Waste Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work-do not act as Nature intended-fail to re-move impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of diziness, getting up nights, swelling, puffiness under the eyes-a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder dis-order may be burning, scanty or too frequent urination.

loved himself and his possessions more than he loved God. Therefore he must give them up before he could really follow Jesus. Sad indeed was his refusal. He came running (v. 17), but he went away sorrowful (v. 22). What stands between you and a full surrender to Christ? Face it

honestly. Be thankful if your pastor or a friend frankly points it out. Shun those who would "pat you on Men see and judge the affairs of the back" and assure you that all is well. A cancer will kill unless it is cut out. The surgeon's knife may hurt, but it is an instrument of good.

> Note that the statement of Jesus in verse 18 is not a denial of His deity, but a definite claim that He is God. He says in effect, "If you call me good you must recognize that I am God.'

#### II. God Before Self (vv. 21-27).

The disciples, who evidently shared the common opinion that money could do almost anything, were surprised to hear that riches were really a hindrance to spirituality, because (v. 24) of the tendency of men to trust in their wealth and forget their need of God.

Jesus does not leave the rich man without hope, for he goes on to say that what is impossible for men and even for the rich man himself is entirely possible with God. He is able so to move on the heart of even a rich man that he will yield himself in humble obedience to Christ and will put God and his cause above self and his possessions.

Two things need emphasis in this connection. First, let those of us who have little of this world's goods be thankful that we have, at least, been delivered from this temptation. It may well be an expression of God's love and grace toward us. Second, let us thank God for every man of wealth who has given himself and what he has into God's hands. Inestimable is the good that has been done by faithful stewards who have not trusted in their riches and denied God, but who have trusted God and consecrated their riches to His service. May their number increase.

III. The Last Before the First (vv. 28-31).

The ways of God are confusing and humbling to the flesh. The way up in spiritual things is to go down (Mark 9:35). Those who are first in the eyes of men are often last in God's sight. Others whom men count as least stand highest in God's sight because they are faithful and true to Him. The world looks at the missionary of the cross and says, "He has sacrificed everything," and knows nothing of the "hundredfold" reward even in this life, "and in the world to come, eternal life" (v. 30).

#### "Tropic Hurricane" By FLOYD GIBBONS Famous Headline Hunter

HELLO EVERYBODY:

We have had a lot of stories, boys and girls, about people who have had close shaves and gotten out of them by some fast action, or some quick thinking, or by some herculean feat of strength. They were great stories, every doggone one of them. But sometimes I think that men in action don't get half the scare that people do who have to sit quietly and watch death creep up on them while they are powerless to do anything about it.

That is the sort of yarn we have today, fellow adventurers-the story of Tom Brady of New York city--the story of how he sat, helpless, in a strange land, among strange people, while chaos gripped the world and threatened to tumble it in ruins upon his head.

The story, in short, of a tropical hurricane.

#### Tom Had Never Seen a Hurricane.

For years, in his role as traveling man, Tom Brady had been jourand looking over the country. He had heard plenty about the hurricanes they have down there. He had seen wrecked houses, uprooted treesplenty of the evidences a tropical tornado leaves in its destructive wake. He had seen the natives kneeling in the churches, praying for divine protection against the dread wind storms they had learned to fear. But up to the time this story opens-September 11, 1928-Tom had never been caught in a hurricane.

Tom was in the city of Roseau, on the little British island of Dominica on September 11, 1938. He had been there for about ten days, and was

#### Roofs Went Flying Off Houses.

THE national labor relations board took steps to reopen its just about ready to move on. He had his sample trunks all packed and in the Custom house, and was waiting for a steamer due that day which inquiry into the labor practices of was to take him to St. Lucia, another small island in the Windward the Ford Motor company, acting aft- group. Then, what happened?

#### Storm warnings! Barometer falling! No steamer that daynor for a few days to come. Tom was going to see that hurricane now. He couldn't get out of it.

The hotel Tom was stopping at was a frame structure. They said it was safe-said it had stood up under other storms-but Tom had his Woodring and Chester C. Davis of The board asked the United States doubts. Nevertheless, it was the safest place to be found in Roseau, so it as Hobson's choice for Tom.

Resolutions were temperately worded but insistent. Summarized they were substantially as follows: Demand for relief from present tax burdens, the fight transferring itself from the undistributed corporate profits tax and the capital gains tax to the broader field of an former employees. annual tax bill which has jumped 30 per cent in the last two years to a total federal-state-local levy of \$13,-500,000,000 a year.

Urgent request for drastic revision or repeal of the national labor relations act.

Caution and warning on the renewed government spending program, apart from relief expenditures.

Insistence that White House sentiments favoring private enterprise be put into practice through peace with the utilities, abstention from further innovations in government control, and encouragement of private industrial expansion.

#### Manufacturers' Program

THE National Association of Manufacturers, meeting in New York, declared that federal pump priming to stimulate business would be futile "unless it is accompanied by governmental policies that will permit business to accept the priming and go forward.'

The association's board proposed a seven point program for revival of business activity. It included:

"Declaration by the federal government that it will not proceed in competition with private utilities.

"Revision of the Wagner act so as to make it a workable instrument for curtailing labor disputes. "Prompt solution of the underlying railroad problem.

'Avoidance of new federal reform legislation that will result in a fresh period of uncertainty at a time when the nation should be concentrating upon making jobs."

Railroads Vote Pay Cut

**CIFTEEN** per cent reduction in wages of 925,000 union workers, effective July 1, was voted by the Association of American Railroads at a session attended by the executives of more than a hundred railway companies. They declared the two most important reasons for this action were loss of revenue and increases in operating costs.

George Harrison, chairman of the Association of Railway Labor Executives, said: "We don't propose to submit to wage reductions. The acunfortunate and will have a tendency to obstruct the President's recovery program."

D. B. Robertson, president of the Brotherhood of Locomotive Firemen and Enginemen, declared: "There will be no wage reduction agreed to by railroad employees."

#### Co-operate for Recovery

CO-OPERATION with President slept that night. No one wanted to. Roosevelt in his efforts to bring At 5 a. m. the cannon on about economic recovery was offered by 16 leaders of business and industry, prominent

> among whom were Owen D. Young. and Winthrop W. viduals, was given cannon balls. out by John W.

Owen D. Hanes of the securi-Young ties exchange com-

ident, who pronounced it excellent. The joint statement said in part: "It is the responsibility of government to protect and to encourage the proper function of business . Wide but honest differences of opinion exist as to ways and means.

"The President has clearly indicated that he believes that America's continued prosperity requires closer co-operation between business and the government.

"We pledge ourselves to aid to the full extent of our ability in such efforts of consultation and co-opera tion.

#### F.D.R. Hits at Monopolies

JUST before leaving for his short vacation at sea, President Roosevelt called on congress to authorize a \$500,000 federal inquiry into concentration of industrial economic power, preparatory to a thorough revision at a later date of the nation's anti-trust laws.

He recommended study of existing conditions rather than immediate legislation.

The President asked congress for action at this session only on legislation calling for federal control of bank holding companies.

#### Plane Crash in Italy

NINETEEN persons were killed when a hydroplane from Tiration of the roads is ill-advised and na, Albania, crashed in Italy. Most of the victims were returning from King Zog's wedding. Among them was Helen Lindheim of New York.

An assortment of jewels valued at \$1,052,000 belonging to Paris and Vienna firms, from which King Zog had selected several pieces for his bride, was destroyed.

Along about sundown, rain and wind began coming in short, fitful enforce its order made against the gusts. At 8 o'clock, the cannon at the fort-the only means the police had Ford concern in December. In that of advising the natives that the storm was headed their way-boomed order the board directed the com. out its ominous warning! Get ready. Board up your windows. Take pany to cease practices which it as. shelter. Then the wind began rising slowly-steadily-relentlessly.

#### Havoc Wreaked by the Fierce Storm.

All through the night lightning flashes ripped the black skies while the wind rose and the rain increased. The colored natives were screaming now, and chanting prayers in the streets. Everywhere people were scrambling about, boarding up their houses as best they could. No one

#### At 5 a. m. the cannon on the fort boomed again, this time with a message of far more evil portent than the first. "It's upon us!" And on its heels, the fury of the storm, lashing and tearing-carving its path of havoc and destruction from the seawall to the farthest limits of the town.

The seawall was the first to go. Its solid concrete bulk, running the General Electric length of the town, crumbled like ashes under the force of the sea that board chairman, battered against it. The Custom house jetty-the Belle jetty-the Fish market by the seawall were wrecked by the fury of the wind and carried Aldrich, chairman away on the reeling, lashing tide that was momentarily getting higher of the Chase Nation- and higher. Roofs went flying off houses. Sheets of tin went sailing al bank of New through the air-went scraping and clattering down the streets. The York. Their state- tops of palm trees snapped off as if they had been match stems. Cocoment, made as indi- nuts went winging and bounding in all directions, like a barrage of

In his hotel, a block and a half from the seawall, Tom Brady watched the waterfront "coming up the street." The gallery on the side of the hotel he was in was ripped off and carried away. Shutters were torn mission. It was laid before the Pres- from their fastenings. The rain was coming in. The wind blew all the furniture against the opposite wall.

#### He Found Out What Fear Was.

#### Downstairs, they were lifting a huge wooden trap door and putting the women and the servants in the cellar. They were expecting the roof to go next. And in those moments, Tom Brady found out what it was to be afraid.

They say a drowning man sees his whole life pass before him before he dies. Tom saw just that. There, all alone, a thousand miles away from home, on a strange island, among strange people, he thought out his own obituary. He prayed, and he isn't ashamed of it. He promised the Lord he'd be a better man if he was spared this time-and he meant it-every doggone word of it-at the time.

Still the tempest raged. A church steeple came crashing down. Death, ruin, destruction were all about him. Tom himself was literally thrown about the room by the sickening impact of the blow. From time to time the wind would shift-strike the hotel from another angle. Then the men in that room would board up the windows again and be safefor a time. In all, Tom was boarded up for 23 hours-the worst 23 hours he ever spent in his life. And it wasn't the danger that bothered him so much as the inactivity-the uncertainty. The terrible nerve-racking sensation of waiting-waiting to be washed away by the ocean, or buried alive under a falling roof.

It was the next morning-at 4 a. m., when the storm finally passed over. The town was a shambles-the streets full of debris-the houses in ruins. Tom took some pictures and thanked God he was alive. He says: "I went to church religiously for about four or five Sundays after that, and then, like a good many more of us, not being scared any more, I started to miss again."

#### Mystery in Plant Life

Evidence that living plants contain a mysterious substance which plays a major role in harnessing the energy of sunlight for the creation of living plant substances out of carbon dioxide and water was presented recently.

Largest of Bear Family Kodiak bears have brown fur, and sometimes are called "Alaska is "Proclaim liberty throughout all the land unto all the inhabitants brown bears." They are the largest thereof." It is from Leviticus, 25:10. members of the bear family.

get the true facts and put chemical engineering and the final aside these foolish delusions.

and worry have a detrimental effect on digestion, and, in turn, on the general health. Thus eating meals in constant fear of acidity may upset the digestion and bring about the very symptoms that you are trying to avoid. One wellknown authority contends that perhaps 90 per cent of digestive distress, attributed to the kind or combinations of food eaten, is actually due to unfavorable mental or emotional states, and other causes such as over-eating, even when fatigued, or consuming at one meal too many foods that are difficult to digest. It, therefore, becomes apparent that thousands of people are contributing to their own discomfort as a result of fear, ignorance, or a blind belief in misleading claims which are opposed to scientific facts.

#### Acidosis Uncommon

The danger is not from acidosis, but from the fear of this bugbear, and from self medication in the belief that certain remedies are required to overcome a fancied con-'HE windows shown here are dition. This unique spring hat is a straw Or use a pie pan! Cut the gingham the size of the pan, paste the picpancake affair in navy blue straw ture on gingham and gingham on with a cock's comb in the same pie pan. Tack a small wooden panel shade as its sole decoration. Worn to the back to hold screws and there by Myrna Loy.

resses more holes in their stockings

spector Wood and his men arrived at Dyea where they immediately ing oar, warned the ruffians to keep their distance or he would fire upon them, and, thus arguing back and forth, the two boats finally crossed the bay without any shootings or drownings. Upon arrival at the wharf, however, Inspector Wood and his men received a rough and tumble reception from almost a hundred ruffians lined up and ready for the big robbery. As the Men of the Mounted stepped to the wharf carrying their \$200,000 they were tripped and jostled and pushed Stenos about hither and yon as they tried to make their way toward a small steamer that lay alongside await-

ing their coming. Kicked and pushed and tripped and otherwise held up and delayed, things began to look really serious. The great robbery was imminent. And then, just when it seemed that the Men of the Mounted were about to be smothered by the mob, the captain aboard the steamer tooted the vessel's horn, and instantly a score of armed members of the Royal naval reserve were over the side and down among "Soapy's" gang. In no time the Men of the Mounted and their \$200,000 were snatched from the mob and were aboard the steamer.

"Soapy" Smith, surrounded by at least a score of his most trusted gunmen, had witnessed the whole show from the deck of a tug that was "treading water" nearby. Although he had seen his best plans go haywire, he was still smiling or sneering, when he opened up conversation with Inspector Wood.

"Like ter have yer stay 'round Skagway a day er two, 'Spector," BAGNERES DE BIGERRE, said "Soapy," "it's a mighty nice town . . . y'kin have anyt'ing yer French frontier guard, hundreds of want Name it . an' it's tattered Spanish loyalist soldiers are yores. How 'bout it? 'Spector?"

Big men get the best jobs, I'm told. Because the small men are so often overlooked? Then there was the man who

was so lazy he bought a Great Dane so he wouldn't have to stoop over to pet it.

Money doesn't grow on trees. Just the same, it's the smart birds that get it.

#### Name Is Poetry

It seemed curious that any place should be named "Llanfairpwllgwyngyllgogerychwyrndrobw 1111 andysiliogogogoch." Yet a little Welsh village bears this 58-lettered name. It is a locality of charm and beauty. Llan is "church," Fair is "ot Mary," Pwll Gwyngyll is "the pool of White hazels," Goger is "rather near." while Chwyrn Drobwll is 'the swift whirlpool," and Tysilio gogo goch is "of Tysilio of the ty enough to visit the village of the Church of St. Mary by the attained. And he leaves with his Pool of White hazels near the swift whirlpool of St. Tysilio's Church of the Red Cave?-Detroit News
