Whirlwinds Beat Paducah Dragons 19 to 12 Friday

Floydada High School's Whirlwinds added another victory Friday night when they defeated the Paducah Dragons 19 to 12 to revenge last year's loss.

R. E. Golightly stole the show with a beautiful exhibition of broken field running when he scampered 65 yards for a touchdown.

Outstanding for the Dragons were Stinson and Lee in the Paducah line and Taxton, Best and Gibson in the backfield.

Friday night's game was outstanding in District 4-B and a large number of Floydada fans accompanied the Whirlwinds to Paducah.

A. C. C. Home Coming to be Had November 11-12

Abilene Christian College will hold annual home-coming November 11 and 12. Several ex-students and alumni are expected to attend from Floyd County.

Cruzler Scott, president of the A. C. C. ex-students' association, announces the program plans are well underway for this yearly festival of the college.

137 Register For First Toure Achievement

137 people, including a number of Floydada business men, registered and accompanied the first achievement day tour for Floyd County Home Demonstration Clubs.

Mrs. Ed Holmes, of Sandhill, chair man of the county council reported a successful tour and stated that the visitors enjoyed the day.

Following demonstrators were visited: Mrs. Walter Knight, Home Food Demonstrator, Sandhill; Mrs. Sam Hale, home food demonstrator and Mrs. Charles Watson, bedroom improvement demonstrator, of Harmony; Mrs. A. L. Sparks, Bedroom demonstrator, McCoy; Mrs. J. K. Holmes, bedroom demonstrator and Mrs. Virgil Barton, food demonstrator, Starkey club; Mrs. J. D. Baves, home food demonstrator, and Mrs. Pete Kendrick, bedroom demonstrator, Homebuilders club.

Anita Jo Jenkins Injured in Car Accident

Miss Anita Jo Jenkins, daughter of Mr. and Mrs. W. H. Jenkins of McCoy, sustained painful lacerations on lower limbs Sunday afternoon when the car in which she was riding went into a ditch.

The accident occurred as Miss Jenkins in company with Doris Collins, Holland Patton and Hershel McNutt were driving to Floydada.

Joe Fawver sustained a deep and painful cut on one of his legs last week while working at the Scott Gin Company. He scraped his leg against a nail on a wagon.

Floydada F. F. A. Officers to Attend Meeting

Twelve officers and members of the Floydada Chapter of Future Farmers of America will attend a district training school at Crosbyton Saturday of this week.

Attended Beauty Operators Meet In Amarillo

Mr. and Mrs. R. C. Patton, Mr. and Mrs. Tronton T. Davis, Mrs. Verner C. Norman and Miss Bonnie Pyffe went to Amarillo Sunday, when Mrs. Patton and Miss Pyffe attended a beauty operators convention.

Texas Baptists Hold Annual Meet 8-11

Baptists of Texas meeting in their annual sessions in Dallas November 8 through 11 will hear reports from their war-ravaged mission fields throughout the world, particularly the orient.

The important report on foreign missions, in which the state's 660,000 members of the denomination are keenly interested, will be brought to the convention at an afternoon session November 10.

The convention, said to be the largest gathering of its kind in the world, is expected to draw 12,000 delegates to Dallas.

Woman's Missionary union will hold its forty-eighth annual convention beginning on Monday afternoon, November 7, under the direction of Mrs. B. A. Coppas of Fort Worth, president.

Lider Scores For Baylor Team Against T. C. U.

Malcom Lider, the Floydada flyer, checked up Baylor University's lone touchdown against Texas Christian University in those two teams' Southwest Conference game in Fort Worth Saturday.

Dutch Myers Frogs defeated Morley Jennings' Bruins 39 to 7 in the important conference tilt. Baylor's lone tally came in the second period when Billy Patterson passed to Sam Boyd who lateraled the ball to Lider who consequently galloped 55 yards for the touchdown.

Several Floydada people attended the game. Among those going from Floydada were Mr. and Mrs. Geo. A. Lider and son, George Fry, Mrs. J. M. Gambin, Mrs. Lon M. Davis, Geraldine Gambin, Gordon Voight, Dale Strickland, Coach Odell Winter, Donald Thomas, R. E. Fry, A. B. Clark, and J. C. Wester.

HIGHWAY 'F' TO BE COMPLETED BY NOVEMBER 10

Actual construction on Highway 'F', north of Floydada toward Silverton, is expected to be completed by November 10 if favorable weather is had.

Boil and Braden, Contractors on the six and one-half mile project, completed laying of a caliche base for the road last week.

Members Needed In Red Cross Local Chairman Says

"A larger Red Cross membership in proportion to the population of Texas is necessary for expansion of services within the state this coming year," E. P. Nelson, Floyd County Chairman, said today.

Mr. Nelson expressed confidence that an increase of more than 50,000 members will result when the 239 Texas chapters offer residents in every community an opportunity to join the Red Cross this coming Roll Call, from Armistice to Thanksgiving.

"Local chapters are dependent upon memberships enrolled each year for volunteers as well as for funds to carry on disaster relief and other Red Cross safety, health, educational and welfare services in their respective communities", Mr. Nelson said.

"The greater proportion of membership funds are retained by the chapter for use locally in its community and only fifty cents, not fifty percent of membership, is paid to the National Organization for administration of Red Cross work throughout the nation.

"This national allotment also reverts back to Red Cross work in individual communities," Mr. Nelson explained. "In the last three and one half years to date, for example, the National Organization made \$253,773 available to supplement the \$172,146 raised within Texas for emergency relief and rehabilitation of Texas families stricken by disasters occurring in this state.

"During the first nine months of this year the Red Cross assisted 3,029 Texas families, which included more than 13,000 persons, who suffered losses following six tornadoes and three floods. The \$65,125 contributed to Texas was supplemented by \$56,017 from National Organization funds to provide the necessary medical care, food, clothing, shelter, replacement of household goods, livestock, implements and other equipment to enable stricken families to again establish themselves on a normal living basis.

"Equal assistance made possible by division of membership funds is forthcoming to local chapters in all other Red Cross extend first aid and life saving programs; trained personnel to administer welfare work among U. S. Army and Navy service men, veterans and their families; and service directors to assist chapters in developing needed Red Cross services within their territories.

"It is this national aspect of the Red Cross that makes it possible to render immediate and effective aid to communities stricken by major disasters, such as the recent New England hurricane and the Ohio and Mississippi river flood of last year.

"Texans have demonstrated their willingness to assume responsibility through the Red Cross whenever disasters have reached proportions of a major calamity," Mr. Nelson said.

Frank Cline Completes Work In Carburetion

Frank Cline, owner of Cline's Automotive Repair Service, returned Sunday from St. Louis where he had been for a month in a service school of the Carter Carburetor Company.

Mr. Cline completed a full course in carburetion service and repair, and has been issued a diploma from the Carter company. The course of instruction also included complete motor tuneup and repair.

Richard Tubbs, student in Tech, visited over the week end in Floydada with his parents, Mr. and Mrs. Clifford Tubbs.

Edwin Golightly, Tech student of Lubbock, spent the week end visiting with his parents, Mr. and Mrs. O. R. Golightly at Center.

CITY PASSES RESOLUTION OFFERING TEXAS-NEW MEXICO UTILITIES COMPANY \$60,000.00 FOR PROPERTIES HERE

Municipality Would Have Utilities Relinquish Franchise Granted to Them to Operate Here

1929 Oldsmobile Has Many New Features

The new 1939 model Oldsmobiles, now on display at Geo. M. Finkner's Triangle Garage, has many features that will be appreciated by motorists who desire quality in their motor car.

This year's Oldsmobiles include three series, the sixty, seventy and eighty. The sixty introduces to the low-price field traditional Oldsmobile quality, performance, fine-car features and acknowledged style leadership.

A true aristocrat of the highway could be the phraseology used in describing the series seventy Oldsmobile which offers extra size, roominess and power, together with style. The series eighty combines the advantages of eight-cylinder performance with fine-car size.

Life Of Christ Picture Shown to Baptists

"Life of Christ", a picture depicting the life and work of Jesus Christ, was shown at the First Baptist Church in Floydada Sunday evening.

Aiken 4-H Club Member to National Meet

Percy Tate, 4-H club member of the Aiken community, was chosen for his excellent record in cotton production to attend the National 4-H club congress at Chicago, Illinois. Tate will attend the meet as guest of the Santa Fe Railway, with all expenses paid, from November 22 to December 2.

L. L. Johnson, state 4-H boys club leader of College Station, notified County Agent D. F. Bredthauer last Saturday of the selection of Tate as Floyd County representative.

Tate has been president of the Floyd County 4-H club organization and has taken an active part in 4-H club work during the past three years. Each year he has had three acres of cotton and each time he has produced more cotton per acre than his father, or surrounding neighbors.

Hear Discussion Of 1939 Farm Program Plan

Miss Ruth Grimes, county home demonstration agent, and Mrs. Herman King, secretary of the home demonstration council, were in Lubbock Tuesday and Wednesday to hear discussions on the operation of the 1939 farm program.

Representatives attended from 16 counties in District 2 during the two day educational meet.

See Preview of New Fords at Dallas

J. B. Bishop, Buster Eubank, and Fulton Finley, all of Bishop Motor Company, were in Dallas the first three days of this week to see the new Ford and Mercury cars for 1939.

The new Ford models will be on display in Floydada the latter part of this week, it was thought.

Fire Damages Cotton, Box Car At O. A. & P.

A cotton fire in a box car at the O. A. & P. Railway station Thursday evening damaged three or more bales of cotton and slightly damaged the car.

It was believed that the fire started in the cotton, which was being shipped from the Dougherty and McCoy gins.

\$324,670 May Be Spent On Tick Eradication

San Antonio, Nov. 2.—The campaign to eradicate cattle fever ticks in various Texas areas will be continued through a Works Progress Administration project involving Federal expenditures of \$324,670, it was reported today by E. A. Baugh, WPA state director of operations.

Notification that WPA funds are available for the work has been received in the state office. Sponsors of the project are the Bureau of Animal Industry of the U. S. Department of Agriculture, and the Texas Livestock Sanitary Commission.

Although statewide in scope, the project is intended to operate mainly in the timbered region of East Texas, including Nacogdoches, Angelina, Tyler, Polk, Trinity, San Augustine, Sabine, Harris, Shelby, Newton, and Jasper counties.

It is estimated that WPA will employ 782 workers and that 277 workers employed by the sponsoring agencies will take part in the tick eradication activity. Materials valued at \$42,000 will be supplied by the sponsors.

Mrs. W. E. Grimes' Father Better At Crowell

C. L. Gray, of Crowell, is thought improving after having been seriously ill for several days. Mr. Gray is the father of Mrs. W. E. Grimes of Floydada.

Mr. and Mrs. Grimes and family returned Saturday after having been in Crowell for several days.

District A. A. A. Meeting Held in Lubbock

Details of the agricultural conservation program for 1939 were outlined in a district meeting of county agents, committeemen, home demonstration club agents and others interested in the farm program, held in Lubbock Tuesday and Wednesday of this week.

Representatives from Texas A. & M. college and from Washington outlined plans for the new AAA program. Agent D. F. Bredthauer and Committeemen A. A. Tubbs, G. B. Johnston and L. A. Williams, together with administrative assistant H. H. Marshall attended the two-day conference.

Explanations on the 1939 program will be given in a meeting of Floyd County farmers to be held Saturday afternoon at 2 o'clock in the district court room.

Little Damage Done by Fire at Frogge Home

Damage from a fire at the rear of the N. B. Frogge and family residence Sunday afternoon was slight. The alarm was sounded when a fence caught fire from a trash burner.

Floydada Fire Department answered the call.

Floydada's City Council, in a meeting Tuesday night at the City Hall, passed a resolution to offer the Texas-New Mexico Utilities Company \$60,000.00 for certain of that company's transmission and distribution properties in the corporate limits of the City of Floydada.

A copy of the resolution, which was to be submitted to each of the Texas-New Mexico Utilities Company's three offices in this territory, was ordered made. The City Council offered and proposed in their resolution to purchase from the utilities company that part of the power transmitting and distributing system that would be duplicated by the proposed Municipal Power and Lighting Plant.

Under the terms of the proposal to the utilities company, the City of Floydada asks that the company relinquish any and all alleged existing contracts or franchises. The Texas-New Mexico Utilities Company would be permitted to retain transmission and distribution lines and equipment necessary for serving the Ice Plant and customers outside the corporate limits of the City of Floydada. November 16 was said to be the date for answer from the Texas-New Mexico Utilities Company on the resolution. The company was asked either to reject or accept same.

Mrs. D. M. Moore Hostess to Homebuilders

Mrs. D. M. Moore was hostess to the Home Builders Demonstration Club at a regular meeting Friday, October 28.

Mrs. Shipley gave the council report for October 22 and the achievement day tour was decided on for November 1. At the election of officers the following were named for the ensuing year.

President, Mrs. Raymond Teeple; vice president, Mrs. E. W. Moore; Reporter, Gladys Bertrand; secretary treasurer, Daisy Aaron; bedroom demonstrator, Mrs. J. A. Ballard; food demonstrator, Mrs. Elza Cates; Sunshine committee, Mrs. Roy Curry, Mrs. Elbert Parks, and Lena Gully; finance committee, Mrs. F. E. Fuqua, Mrs. Pete Kendrick, and Mrs. D. M. Moore.

Place committee, Mrs. Ben Johnston, Mrs. C. B. Martin, and Mrs. C. W. Denison. Daisy Aaron resigned as reporter and Mrs. C. W. Denison resigned as secretary treasurer.

The club quilt was sold and Mrs. E. W. Moore received it.

Mrs. Pete Kendrick told how to make feather quilts and also "Washing Wool". Next meeting of the club will be with Mrs. Pete Kendrick's November 11.

Refreshments were served to: Mrs. E. W. Moore, Mrs. Elbert Parks, Mrs. C. W. Denison, Mrs. Raymond Teeple, Mrs. T. J. Hoard, Mrs. Austin Hoard, Mrs. Ben Johnston, Mrs. Elza Cates, Mrs. J. A. Ballard, Mrs. D. D. Shipley, Mrs. F. P. Bertrand, Mrs. Pete Kendrick, Mrs. Roy Curry, Mrs. John Lloyd, Mrs. F. E. Fuqua, Mrs. A. W. Dunn, Mrs. C. B. Martin, Miss Lena Gully, Miss Gladys Bertrand, Miss Jay Dunavant, Miss Myra Dunavant and Miss Daisy Aaron.

Friday Morning Fire Destroyed Garage; \$75 Loss

A fire Friday morning destroyed a garage back of the J. W. Reasoner residence on West Kentucky street. Damage was estimated at around \$75.00.

The Floydada Firemen answered the call and extinguished the blaze before it could spread to neighboring buildings.

Ralph Hammonds, who is attending Texas Technological College in Lubbock, visited in Floydada Saturday and Sunday with his parents, Mr. and Mrs. J. I. Hammonds.

At Least Five Tax Measures To Get Congressional Hearing

By Joseph W. La Bine

White House

Inconveniently close to election day have come piecemeal reports and offhand predictions concerning the U. S. fiscal situation.

Facts: Despite upswinging business, the U. S. treasury deficit for the current year jumped above one billion dollars October 30, leaping forward several million dollars a day.

SECRETARY MORGENTHAU Coolest of all concerned...

fiscal year ends, the U. S. public debt will hit \$40,000,000,000, compared with \$16,800,000,000 in June, 1931.

Forecast: Though "pump-priming" will help business, the 1940 budget will be unbalanced. Only by continued spending can the administration hold a mass vote for the 1940 election, thereby forestalling the normal swing to Republicanism.

(1) A 10 per cent "one shot" income tax levy to garner \$263,000,000 needed for increased armament; (2) a processing tax to pay for the agriculture department's proposed "domestic dumping" program for crop surpluses;

Coolest of all concerned with fiscal affairs has been the man in direct charge, Secretary of the Treasury Henry Morgenthau Jr. Unworried by mounting gold reserves, he has chosen not to deny the hope that next year's budget may be balanced.

War

With 42,000 troops, Japan covered 100 miles in nine days, capturing Canton without dropping a single bomb. Such peaceful aggression has hitherto been unheard of in the Chinese war, giving rise to charges of a Cantonese "sellout."

But these squabbles have become secondary to China's completely despairing picture. With both Canton and Hankow in their grab bag, Japs intend to push on until all Chinese opposition crumbles.

Virtually sneering at Great Britain's charge of a Cantonese "sell-out," angry Chinese trace their fast-sinking morale directly to Great Britain's own "sellout" at Munich, when it became apparent the British lion was unwilling to help her European neighbors—much less a distant nation.

Labor

Second only to taxation in unpopularity among U. S. industrialists is the national labor relations board, which last April 9 ordered Republic Steel to reinstate 5,000 workers who struck in May, 1937.

er's gullet was NLRB's denial of the Republic contention that many workers should not be reinstated because they engaged in violence. Answered NLRB: "It must be remembered that the acts of which the respondent (Republic) complains were committed by strikers in the heat and turmoil of bitter industrial strife, in which the threat of violence on the part of the respondent against the strikers was ever present and frequently carried into execution."

Domestic

The new wage-hour law affecting the lives of some 11,000,000 people engaged in interstate commerce industries, has gone into effect with much less bluster and coercion than the ill-fated NRA. Placing a floor (25 cents an hour) under wages, and a ceiling (44 a week) over hours, the act brings pay raises to 750,000 people, with shorter hours for 1,500,000 more.

Politics

In an organization the size of WPA, corruption will creep in regardless of who holds the reins. Spasmodically pecking away at New Deal prestige for three years, corruption has again raised its ugly head at the crucial election time.

But a much more distasteful case has arisen in New Mexico, where a crusading grand jury returned indictments against 73 persons charged with making political capital of WPA. Behind this wicked picture stands Democratic Sen. Dennis Chavez, who, like every other senator, has wangled every possible cent of WPA cash for his home state.

NEW MEXICO'S CHAVEZ Lightning struck close to home.

enforced political contribution on pain of discharge for noncompliance, enforced membership in political clubs disguised as "social" organizations and diversion of WPA funds for personal use.

Indictment in one form or another is almost a prerequisite for nomination in Pennsylvania, where Republican Sen. James J. Davis (once indicted for running a Moose lottery) and Democratic Gov. George H. Earle (indicted for alleged graft in office) are opposing each other for the senatorial seat.

Although Pennsylvania tax payers have good reason to dislike their Democratic state administration, observers are wondering whether the opulent Republican machine has very much more political prestige. Reason: The five "angels" of Pennsylvania Republicanism are Joseph N. Pew, oil millionaire; Moses I. Annenberg, Philadelphia newspaper publisher who has purchased an immense interest in the party; Ernest T. Weir of steel fame; Jay Cooke, rich Philadelphia political leader, and Joseph N. Grundy, a reactionary of amazing tenacity.

bothering to question the motives of these men, shrewd politicians nevertheless recognize that in 1938 a quietest of millionaire sponsors is an unpopular asset for any party.

Agriculture

One feature of the 1938 farm bill calls for U. S. loans on crops affected by falling prices. When crops are sold, loans must be repaid. Due November 1 were repayments on loans covering 48,000,000 bushels of corn. But by mid-October, with corn selling on the farm from 33 to 38 cents, and at market for 44 cents, disgruntled farmers saw they would be money ahead to default on loans and give Uncle Sam their corn.

This is but one phase of a Chinese puzzle known as the American farm problem. Since 1933 it has been the personal headache of Iowa's Henry A. Wallace, secretary of agriculture, who can remember the halcyon days when all surplus wheat and cotton—the two basic crops—were

SECRETARY WALLACE Poor people are also a problem.

bought readily by foreign nations. But foreign markets are now glutted. American farm surpluses must either be dumped abroad at any price foreign buyers are willing to pay, or be left to rot in U. S. granaries. Most people have favored the latter policy, meanwhile deploring the economic imbalance that allows many U. S. citizens to go hungry despite bountiful crops.

The easiest remedy would be to let low prices drive American farmers off the land, but this is socially inhumane, politically unsound and economically foolhardy. When the New Deal started in 1933, AAA was formulated to pay farmers for limiting their acreage. Funds came from processing taxes levied against manufacturers, but ultimately paid by consumers. When the Supreme court ruled processing taxes invalid, a "soil conservation" program was set up to pay farmers for retiring their land, ostensibly to give it a rest but actually to limit production.

Last spring, with surpluses still piling up, congress passed a new farm law, too late to limit production this year, which partially accounted for its failure. Under it the government may (1) control production with consent of a majority of farmers; (2) make payments for retiring land; (3) make additional "parity" payments as a protection against less-than-production-cost prices; (4) loan money against crops; (5) compulsory control is enforced next year—as provided—wheat and cotton acreages must be reduced one half. Agricultural rebellion would result.

Still seeking the answer, Secretary Wallace recently tried export subsidies, which the state department's Undersecretary Francis B. Sayre condemns as "the uneconomic giving away of our substance to foreign nations." Though U. S. farmers are being subsidized the difference between export prices and the domestic market price, many observers consider it ridiculous to sell surplus foodstuffs abroad at a loss when several million Americans are going hungry. Consequently next winter's congress will be asked to adopt still another farm bill, the most far-reaching attempt yet made to kill two birds with one stone. The birds: farm problem and poor relief. The Wallace plan: surplus farm products would be distributed to U. S. low-income groups instead of being dumped abroad.

Though the federal surplus commodities corporation already distributes potatoes, prunes, milk and other minor products not affected by AAA, the new plan would include beef, pork, wheat, corn and cotton. Broadly, it would follow New York city's method of selling milk to relief families for eight cents a quart, the city paying the difference. If expanded to a national proposition, the U. S. would pay retailers the difference between standard price and cost price.

To pay for it, Secretary Wallace asks restoration of processing taxes, which theoretically fall on manufacturers but ultimately strike the consumer. Opponents argue that retail prices would rise, that consumption would drop and substitutes would be encouraged, thereby hurting the farmer. But since the government hopes to stabilize farm prices, its counter-argument is that producers would have steady income, thereby boosting U. S. prosperity. These are the arguments next winter's congress will hear.

Dies Committee Bares Activities Of Radical, Communist Groups

Unseen and Malignant Growths Are Being Bred Into Our National Life by Agitators Who Seek to Destroy Our Government; Spread Poison in Labor Ranks.

By WILLIAM BRUCKART

WNU Service, National Press Bldg., Washington, D. C.

WASHINGTON.—"Unless something is done to curb radicalism in my section, there is going to be an awful clash and a lot of people are going to get hurt."

So spoke Fred W. Frahm, superintendent of police of the city of Detroit, Mich. And his statement was under oath, for he was giving testimony before a committee of the house of representatives, a committee charged with exposing to view the un-American activities of certain groups in this country. It was the statement of a man who is serving a city in an official capacity and who has gone through 246 sit-down strikes which he asserted were the direct result of agitation by the radicals to which he referred. He looks for more in the near future and added, by way of emphasis, that "these communists and radicals do not want to seek adjustment of differences between labor and management; they want to make trouble all of the time."

Through a number of weeks, the house committee before which Mr. Frahm testified, has been taking testimony, gathering evidence, digging here and there in its effort to uncover the activities of subversive groups and expose them to public view.

It has been the contention of the chairman, Representative Dies of Texas and some other members of the committee, that most of us are not aware of the unseen and malignant growths that are being bred into our national life. They are out to destroy our government, to bring to us the type of thing that has made Russia famous.

Mr. Dies is a sincere and honest legislator, and he is trying to do the job assigned him, even when several of his committee members have sought to balk his efforts. But there is much more to be done in the direction of exposing radicalism and the chiseling, cheating, cowardly efforts the agitators put forth.

Charge Communists Active In Government Offices

What I am wondering is why Mr. Dies has not sent his investigators into the very offices of the federal government, itself. Or, if he has done that, as it is gossiped about, then why shield anybody? Why not turn the spotlight of publicity on the individuals who want to destroy the American system, the American form of government, American tradition, the American profit system of doing business? There has been much talk in the last several years about the operations of communists within the very walls of the government, men and women who are boring from within as termites destroy lumber, and we ought to know the truth. If they are within the government, they ought to be exposed and chased out of the western hemisphere; if they are not operating as it is gossiped around, then their names ought to be cleared. In any event, I hope the Dies committee goes on and shows the cancerous nature of groups that do not believe in our system, whether they be Russians, or Germans, or Italians, or British or what have you.

It has been the favorite device of the radicals and their henchmen to characterize any official who attacks them as being a subject for the insane hospitals. Their game has been to laugh people out of court whenever an effort was made to tell of some of the things the agitators were doing. Many will recall an investigation by a house committee several years ago where the witnesses were laughed down and a courageous superintendent of schools from Gary, Ind., was made to look foolish because of the charges he made. Well, if my opinion be worth anything, the folks who were the suckers in that play were the supposedly intelligent members of congress who made up the committee. It was they who fell for a trick of propaganda. Elsewhere that was the case, or the members of that committee were just plain dumb.

Lewis Cannot Break Grip Of Communists On C. I. O.

Concerning the sit-down strikes about which Mr. Frahm testified, I want to boast that I wrote of communist participation in those sit-down strikes when they were happening. I had several letters thereafter, calling me crazy and describing me as a red-baiter. Mr. Frahm now has put into official records the facts that must be obvious to any real American, and he further has expressed the opinion that John L. Lewis, head of the C. I. O., cannot break the grip that the communists have on his organization. That may be the reason why Mr. Lewis has been so silent the last several months. Maybe he sees that the labor group of which he was so proud has become a gargantuan monster that is slowly swallowing him, physically large as he is.

There is, of course, the danger that a lot of people will make foolish and unsupported statements about red activities, thus throwing doubt on the really serious phases. That always seems to happen. Unwittingly, that type of person which shouts and shouts and has no proof creates the impression that all cries of "wolf, wolf," are meaningless. But when a congressional committee has the courage—rather, when its chairman over-objects of some of its members—has the courage to bring the stuff out for public examination, there must, indeed, be a basis for it.

The tragedy of the thing is that the labor movement as a whole will suffer a severe setback. The fact that the radicals have grabbed control of the automobile workers' union means that they have "cells" in other groups also, and that these cells slowly but surely will be spreading poison and trouble. The agitators seize upon the unthinking, the foreign-born who are not steeped in our customs or love of country, or upon elements that have been badly treated, and they will use these innocent victims to carry out their destructive plans.

C. I. O. Being Used as Tool For Destructive Purposes

There will be much more labor trouble. You can count on that. The Communist party representatives will never allow the slightest chance for creating trouble to escape them. They are determined to convince labor that it cannot trust the managements, they are encouraging the breaking of agreements between labor and management to the end that employers will have no faith in the leaders of labor, and they are using the national labor relations board wherever that can be done to give official voice to labor troubles. That fact is chiefly responsible for the position which the C. I. O. group has taken in opposition to proposals for revision of the labor relations act. William Green and the American Federation of Labor are urging revision of the law, but C. I. O., having its tentacles in the labor board, obviously does not want its grip broken.

It has been known for a long time that the C. I. O. was being used as a tool for destructive purposes, but the agitators and emissaries were sly and careful. They covered their tracks. Such information as leaked out was promptly discredited by the very reds who had done the job—and they discredited any individual who repeated the story by laughing at his gullibility.

However, there is one instance which cannot be denied. The clerks in the rural electrification administration organized a union and affiliated with C. I. O. It was to have social as well as fraternal aspects. There was a dance scheduled. Negro workers attended and insisted on inter-racial participation in everything that was done. They said they were told to do so by representatives of C. I. O. After the dance was concluded, so participants have reported, a phonograph record was procured and the following notes of "The Internationale," "communist anthem, blared forth.

Dies Committee Exposes Methods Used by Radicals

The Dies committee record is full of testimony about methods employed by the communists in their devious borings and destructive tactics. The record tells, too, of how many innocent appearing organizations, created for an allegedly useful purpose, are captured by communists and used by them to obtain money contributions—for which no accounting ever is made. And tragic, also, are the stories of how the real leaders laughed at the suckers who gave hard-earned money, laughed in the secret recesses of their hideouts about the soft and easy minds of Americans.

But another session of congress is coming. The Dies committee will make a report and probably will ask an appropriation to enable it to go on. We will see who opposes that appropriation. There probably will be opposition from two or three members of the committee itself, and we will see who they are. If they are outspoken in their opposition, I suspect most people will know why.

I think this condition has reached the point where attention should be paid to it by the federal government. It is now hot on the trail of some alleged German spies who were seeking American military secrets. So why not make a thorough job of it and lift up the lid that hides various other kinds of spies whose work, to my mind, is much more dangerous to American national life?

Floyd Gibbons ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

"Dogged by Danger"

HELLO EVERYBODY: All John Gerien wants is a job that's safe. He tried out two jobs, but they were too hazardous. Lady Adventure stepped in and spoiled both of them. Now he's working at the safest job there is what John thinks. Well, after seeing what happens on his other jobs, maybe he's right in his own way, let's get on with the story and see how he does with his first two.

In the beginning John wasn't worried about safety. He started thinking about it when he signed up in the year 1937 for the trade of ironworker. He worked at that until the summer of that year found him roaming around on the gaudy, trim of a skyscraper in Newark, N. J.

Plunged From Fourteenth Floor.

John was on the fourteenth floor of that building. From the top of the floor he could look down clear to the cellar and see the but the large board that stuck out from each floor—boards were there to set legs of rivets on. He was looking at boards just a few minutes before lunch time. Then the board blew and all hands ran for the lift to get down to the street.

John ran just a bit too fast this time. He missed the lift and plunged over the side.

Down he went. At the thirteenth floor he passed one of the truding boards. A large nail sticking out from the end of it caught on the jaw and ripped his face open clear to the temple. He went again.

He passed the twelfth floor without even hesitating, but he was lucky number. At the eleventh floor another protruding board

He was headed for the path of a moving train.

the straps of his overalls, and there he hung, with nothing but a thin cloth band saving him from a death plunge to the street. Men came running from all over the framework, but John was little they could do for John. The plank would hold his weight—that was all. If anyone tried to walk on it, the board would break and then two men would be their deaths instead of one.

Somebody turned in a fire alarm, and the firemen were called. They rushed to the tenth floor and spread a fire net over the spot where John hung. An ironworker, armed with a pair of pliers, as far as he dared on the rickety board and cut all the straps. Down John plopped into the net. "And that," "finished me with ironworking."

Decided to Look for "Safe" Job.

John went to the hospital with a badly torn face. When he began to think of another job—and this time it was for a safe one. The safest one he could find was driving a milk truck. It was a dangerous job, but a bottle of milk never bit and it could, they wouldn't feed so much of it to babies. It was as falling off a log—and a darned sight safer than falling off a horse.

For two weeks it was fine. John didn't mind jumping the wagon every 10 or 15 feet to run in with a bottle of milk because it gave him a chance to get his feet on the ground that was a swell, comforting feeling. He was having the best of his life until one day, when he was just finishing up, he into the railroad yard to load his empty bottles on a car. Then, half way to the yards, one of the hitching broke. The horse bolted.

Says John: "Nothing was holding the wagon away from the horse. When I pulled on the reins to try to stop him, he would run into him and that would make him run all the way. We shot through traffic and into the freight yard, and as we went to the yard I could see that the crossing gates were down. Let him go, he would crash through those gates and right into the path of a moving train."

For a minute, John thought of jumping. Then he ruled the first place, jumping wasn't such a safe trick with the horse going along at what must have been a 30-mile an hour speed. A second place, he couldn't quite see the justice of leaving that crazed horse to dash to his death without trying his best to save it. They were half way to the crossing gate then, but by chance, he climbed out on the front of the wagon and started the horse. He had seen fear-crazed horses calmed down by a few reassuring words, but this horse wasn't to be talked to. He ran on, faster than ever.

Played His Last Trump Card.

John climbed back to the seat. That in itself was a feat you think it's any joke to move around in a wagon drawn by a runaway horse, just try it some time. John got back all right but by the time he did, the horse was within 10 feet of the crossing. Then John played his last trump card. He dropped one of the bottles, seized the other in both hands, and pulled with all his might. The bit dug into the horse's mouth and turned her head to the right. The wagon swerved, skidded along on two wheels, and it went, dumping bottles all over the place, and dumping John on top of the bottles.

John lay on the ground, out cold. He woke up in the hospital with two broken ribs and a broken arm. Milk wagoning a safe job? Bolony!

Then John stopped fooling around and got himself a job that was safe. And if you ever walk around a corner and run into a quiet evening shooting it out with a bank robber, you'll be up artist—well—maybe it's John. He's on the police force now. Copyright—WNU Service.

Bible Does Not Mention Names of the 'Wise Men'

The names of the "wise men from the East" who followed the star of the new-born Jesus to Jerusalem and Bethlehem are not given in the Bible. Neither does the Bible mention the number of wise men, nor their nationality. Early churchmen fixed the number at three, probably because the Biblical account mentions three gifts—gold, frankincense and myrrh, writes Flora MacFarland in the Cleveland Plain Dealer. A tradition as old as the Second century (resting on Psalms LXXII: 10, and Isaiah XLIX: 7) refers to the three wise men as kings, and at a later period the names Melchior, Gaspar and Balthasar were attached to them. Melchior, "king of light," Gaspar, "king of gold," and Balthasar, "king of frankincense." The first two names, gold, frankincense, and myrrh, are the three gifts mentioned in the Bible. The third, prophetic allusion to the three wise men, is found in the Epiphany.

### Demonstration Club Council Met Saturday

A regular meeting of the county home demonstration council was held Saturday, October 22 at 2 o'clock in the county court room.  
The main business was the completion of plans for the county achievement tours on November 1, 8 and 15. Mrs. Charles Smith, chairman of the education, committee worked out a schedule stating the exact time to be spent at each demonstrator's home. Besides the completed bedroom improvement and home food supply demonstrations to be shown, there will be an exhibit on wool covers at the home of Mrs. John Griffin of Lone Star. The Providence, Dougherty and Sandhill clubs will set up exhibits showing the preparation of sweet potatoes.  
Mrs. Herman King, council secretary, will attend a meeting with Miss Ruth Grimes, home demonstration agent, in Lubbock November 1 and 22. The purpose of the meeting is to acquaint leaders with the 1939 farm program and its operation.  
Sally uth Patterson, Lockney 4-H club girl, gave a report on her trip as a representative to the 4-H club girls encampment at the Dallas Fair.

### NO DAMAGE DONE

Little damage was done in a minor fire at the home of Mr. and Mrs. H. R. Stanley Tuesday morning. Floydada firemen answered the call.

Let Cavanaugh do your printing.

### Highway Dept. Warehouse to be Completed soon

A maintenance warehouse, which is under construction on Highway 28 north of Floydada, is expected to be completed within the next few days. Work was begun about ten days ago. The warehouse, which will serve Floyd County and an adjacent territory, is being constructed of sheet iron and steel.

### Survey on Road to Littlefield to begin This Month

Survey work on a proposed highway from Floydada via Petersburg to Littlefield is expected to begin sometime during the month of November. The project to secure a highway west has been underway for some time. The Texas Highway Department recently approved the survey and if the road is completed Floydada will have a direct outlet in all directions.

### W. T. Branson III

W. T. Branson of Fairview is seriously ill at the local hospital in Floydada. He is suffering from a stomach disorder.

### ANNUAL REUNION OF 90th DIVISION WILL BE HELD IN FORT WORTH, TEXAS, ON NOVEMBER 11th, 12th AND 13th

### Roy T. Kline, Division Association President, Forecasts Record Breaking Attendance

Fort Worth, Texas, Nov. 2.—Final arrangements have been made for the annual reunion of the 90th Division to be held in Fort Worth, Texas, November 11th, 12th, and 13th, according to Roy T. Kline, division association president.

Reports from Texas and Oklahoma, the two states from which the division secured the majority of its war time personnel, assures the local arrangement committee of a record breaking attendance. Members from Iowa and Minnesota are also expected to attend.

The division was organized in 1917 at Camp Travis, Texas as a unit of the national army of the World War. The 90th Division Association was organized in Berncastle, Germany in 1919 while the Division was serving in Pershing's Army of Occupation. This is the twentieth annual reunion of the association.

Registration at the reunion will commence at 8 o'clock Friday morning, November 11th, at headquarters already opened on the mezzanine floor of the Hotel Texas. Registration will continue through Saturday, November 12th, until 10 o'clock Sunday morning, November 13th.

The veterans will participate in the Armistice Day parade in Fort Worth, Texas, Friday morning at 9 o'clock. A luncheon at noon and entertainment in the afternoon in the Longhorn Room of the hotel headquarters will be sponsored by the 90th Division Club of Fort Worth. At 8:00 p. m. Friday night there will be a buffet supper and entertainment for the members and their families.

Two cabaret parties on Saturday, November 12th, will feature the day's entertainment. The first will be held between 10 and 12 o'clock in the morning on the fourteenth floor of the hotel.

At noon all individual company organizations are expected to arrange for a luncheon for their own particular groups. The second cabaret party will be held from 3:00 p. m. to 5:00 p. m.

Also on Saturday the Ladies Auxiliary entertain the visiting ladies with a theatre party, sight-seeing trips and closing with their annual banquet and entertainment.

The Annual Divisional Stag Ban-

quet, on Saturday night at 8 o'clock, will be the high spot of the three day reunion. Colonel Ernest O. Thompson, Texas railroad commission chairman, will deliver the principal address. Eugene H. Morter, Ardmore, will be master of ceremonies. The address of welcome will be delivered by T. J. Harroll, Mayor of the City of Fort Worth, Texas, with Owen J. Watts, Oklahoma City responding. A business session will follow the speaking. New officers will be elected; also the date and meeting place of the 1939 reunion, closing with an elaborate floor show.

Reverend Bryan Kenethley, Mineral Wells, Texas, former National Chaplain of the American Legion will deliver the memorial sermon at the memorial services in the Crystal Ball Room of the Hotel Texas on Sunday morning, November 13th. Judge Frank P. Gluver, Jr., Fort Worth, Texas, will introduce Kenethley and have charge of the services. At the end of the services, the audience will be at attention facing the West in silent tribute to those who lost their lives in the service at which time "Silver Taps" from a huge crowd will climax the three day celebration.

### SOUTH SIDE MISSIONARY BAPTIST CHURCH BIBLE STUDY

The ladies of the Southside Missionary Baptist Church will meet next Monday afternoon at 2:30 in their weekly bible study. The lesson will be the 13th and 14th chapters of Genesis. Every lady is urged to attend. Ladies from other church or ladies that do not attend any church are also invited to attend.

### HIGHWAY 'F' TO BE COMPLETED BY NOVEMBER 10

Actual construction on Highway 'F', north of Floydada toward Silverton, is expected to be completed by November 10 if favorable weather is had. R. T. Roane, resident engineer, said that topping would be started this week.

Bell and Braden, Contractors on the six and one-half mile project, completed laying of a caliche base for the road last week. The road will be a tripple asphalt and rock top.

### NOTICE TO CREDITORS

Notice is hereby given that Original Letters Testamentary upon the Estate of R. C. Watson, Deceased, were granted to me, the undersigned, on the 17th Day of October, 1938, by the County Court.

All persons having claims against said Estate are hereby required to present the same to me within the time prescribed by law.

My residence and Post Office address is Floydada, Texas.  
MARY ALICE WATSON,  
48-44c Executrix.

# The Fords Tell Their Plans for 1939

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1938

IF WE KNEW anything better we could do for the country than make good motor cars, we would do it.

By every one doing his best in the job he thinks most useful, this country is going to regain its momentum. We have tried to do our best in our job.

When business was suddenly halted in its recovery more than a year ago, we determined that we should keep going anyway, if not at full-volume motor car production, then at getting ready for greater motor car values that would help future production.

### EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

We were told, of course, that this was no time for expansion, that a wiser business policy would be to "hold everything"—which means, stop everything. But no one ever got anywhere standing still.

Besides, we are not defeatists. We do not believe this country has seen its best days. We believe this country is yet in the infancy of its growth. We believe that every atom of faith invested in our Country and our People will be amply justified by the future. We believe America is just beginning. Never yet have our People seen real Prosperity. Never yet have we seen adequate Production. But we shall see it! That is the assurance in which we have built.

Business is not just coming back. It will have to be brought back. That is now becoming well understood in this country; for that reason 1939 will be a co-operative year. Manufacturers, sellers and buyers will co-operate to bring back the business that is waiting to be brought back.

This construction program is almost completed. It has increased activity and payrolls in a number of related industries. It has given us better facilities for building better cars and trucks, and eventually our new tractor which is being perfected.

### THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements . . . a new tool and die plant that will help us cut the cost of dies . . . and a steel-press plant that will enable us to make more of our own automobile bodies. These are in addition to the plants we already had for producing glass, iron, steel, plastics, and many other things.

We don't supply all our own needs, of course, and never expect to. The Ford engine is one thing

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it. The experience and knowledge we gain are freely shared with our suppliers, and with other industries.

We take no profit on anything we make for ourselves and sell to ourselves. Every operation, from the Ford ships which first bring iron ore to the Rouge, is figured at accurate cost. The only profit is on the finished result—the car or truck as it comes off the line. Some years, there is no profit for us. But we see to it that our customers always profit. A basic article of our business creed is that no sale is economically constructive unless it profits the buyer as much as or more than the seller.

Our new plants have helped us build more value into all our cars for 1939. That means more profit on the purchase to the purchaser.

We have not cut quality to reduce costs.

We simply will not build anything inferior.

### NEW TESTING EQUIPMENT

While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

In other tests, every part of the car is punished unmercifully. Then our engineers tear it down to see if they can find abnormal wear or any sign of weakness.

The money we spend on tests saves you money on repairs. And your family car is safer and more dependable when we put it in your hands.

### THE NEW CARS

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car.

It's called the Mercury 8. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr. It is larger than the Ford, with 116-inch wheelbase, hydraulic brakes, and a new 95-horsepower V-type 8-cylinder engine.

We know that our 1939 cars are cars of good quality. We think they're fine values in their price classes.

With new cars, new plants, new equipment, the whole Ford organization is geared to go forward.

### Lesson for November 6

#### HONORING OUR PARENTS

LESSON TEXT—Exodus 20:12; Luke 2:46-52; John 19:26, 27; Ephesians 6:1-4; GOLDEN TEXT—Honor thy father and thy mother; that thy days may be long upon the land which the Lord thy God giveth thee.—Exodus 20:12.

The splendid obedience of parents to their children has been pointed out as one of the remarkable developments of modern life. No, we have not made a mistake in writing or in typesetting. We mean just what we say—the obedience of parents to their children. In all too many homes God's order has been reversed and instead of honoring and obeying their parents, children (both young and old) have taken the place of "boss," and mother and father must obey if they want peace and rest.

The need for our lesson of today is both great and acute. The future happiness of hundreds of thousands of children (Eph. 6:3) and the present welfare of thousands of neglected and boss-ridden parents will depend on the intelligence and faithfulness with which this lesson is taught in our churches, and the honesty of heart with which men and women study and receive its truth.

#### I. The Command of God (Exod. 20:12).

The first and most important consideration to come before us is—what is the mind and will of the Maker of us all regarding this matter of the relation between parents and children? His words are plain—we are to "honor" our fathers and our mothers.

The word "honor" carries with it a great many things, but perhaps the three outstanding elements are respect, obedience, and affection. We should look up to them with high regard, obey them as long as they have the authority over us, and show true affection for them.

#### II. The Example of Jesus (Luke 2:46-52).

The fact that Jesus was God manifest in the flesh only enhances the glory of His conduct. He who is divine presents an example of obedience and consideration both as boy and man which we do well to emulate.

1. As a boy (Luke 2:46-52). The boy Jesus, increasing "in wisdom and stature and in favor with God and man," (v. 52) had come to His twelfth year and with His parents had gone up to Jerusalem to celebrate the Passover. There moved in His heart the conviction that He must now be about His Father's business—an altogether proper and commendable purpose but one which resulted for the moment in separation from His parents. This was far more serious than a physical separation, for we read that they did not understand Him (v. 50). Tragic indeed are the consequences of our failure to understand our children. Notice, however, that Jesus did not withdraw Himself from their watch care, nor refuse to obey them even though they failed to understand Him. Equally tragic are the results of hasty and bitter separations brought about by the disobedience of children.

#### 2. As a man (John 19:26, 27).

The value of our lesson will be greatly reduced if we see only the responsibility of children while they are young. We are the children of our parents as long as we and they live. Being grown up and having a family of one's own does not relieve one of the precious responsibility of care for one's parents. Jesus was dying on the cross, His brethren apparently still regarded Him in unbelief, and His mother now needed a son to care for her. Even in His dying agony Jesus remembers to commit her to the care of His beloved disciple, John. One marvels at the carelessness and hardness of heart that will permit men and women who have time and money for everything else and yet will neglect their aged parents and even shut them off into a public institution for care. Notice the promise that accompanies the command of God (Exod. 20:12; Eph. 6:3). If that is the reward of those who do right, what do you think will be the punishment of those who disobey God?

#### III. The Admonition of Paul (Eph. 6:1-4).

This matter of honoring and obeying parents "is right," says Paul. It is the Lord's way. Only if parents command their children to do wickedness would there be ground for disobedience to parents. Apart from such circumstances every parent has the right to expect the child's obedience.

There is tremendously important truth on the other side of the picture. Parents are not to provoke their children to anger, to disrespect or disobedience. How much we need God's grace at that point. It is so easy to say and do things that needlessly irritate our children. It is so convenient to nag at a careless child. Often we expect more of them than their age will justify. We are apt to punish them in a spirit of anger or revenge and thus to destroy the value of discipline. May God help us, who are parents, that we may take to heart this part of our lesson. Our children are our most valuable possession.

## CLASSIFIED DEPARTMENT

### SALE OR TRADE

Quarter block land in Vermont, light car or livestock. City of J. H. SPENCER, DENVER.

### NUT CRACKER

Assorted, sturdy peanut crackers. Paid. Black walnut crackers. Hourly. Clark Nut Crackers, Inc.

### HOUSEHOLD QUESTIONS

The Singing Kettle—coal stove is used it is allowed the teakettle to be any time. One always can use for boiling or very.

Keeping Mustard Mustard mixed with water will not dry and keep moist until it has used.

Table Linen.—To keep ble linen from turning wrap it in a fast-color paper.

Try Vinegar.—Wipe shelves with a cloth dipped in vinegar. It gives a fresh atmosphere to the room and repels flies.

Cleaning Oven Dishes on fireproof oven dishes removed by rubbing with salt while the dish is still hot.

This is the time of year town and rural folk are ready for Winter. Your favorite dealer and drain the Summer-worms put in Acid-Free Quality Winter Oil. You'll be the first cold morning—Advt.

As the Foe Sees Observe thyself as the enemy would do. So shall thy greatest friend.—Jer. 17.

## NERVOUS

Do you feel so nervous you can't do your work? Are you cross and irritable? Are your nerves on edge? If you need a good general tonic, Lydia's Pink Pills are a reliable remedy. For over 60 years they have been used by millions of people to relieve nervousness, headache, indigestion, and all the ailments of a nervous system. They are a natural and safe remedy for all nervous conditions. Buy a box today.

## TO KILL SCREW WORMS

Your money back if you don't see results. Cannon's Liniment kills worms, heals the wound, and flies away. Ask your dealer.

## TO KILL SCREW WORMS

Success consists not in sitting up at night as being awake during the day.

## TO KILL SCREW WORMS

Reflection: Cheerfulness throws all the paths of life.—Bulwer.

## Troubled Constipation

Get relief this simple, pleasant way.

Take one or two tablets of Ex-Lax before retiring. It tastes like delicious chocolate. No opium, no habit. No pain, no bother! Ex-Lax is easy to use and pleasant to take!

In the morning you have a thorough bowel movement. Ex-Lax works easily, without strain or discomfort. You feel like a new man after taking it, ready and fit for a full day's work!

Ex-Lax is good for every one in the family—the young and the old. It is safe in 10¢ and 25¢ sizes. Try it the next time you need a laxative.

Now improved—better than ever! THE ORIGINAL CHOCOLATE.

## GUIDE BOOK GOOD VALUE

When you plan a trip, take a guide book to help you get the most out of your trip. It tells you where to go, what to see, and how to get there. It is a real money saver.

### CHAPTER V—Continued

Kneeland still hesitated. "You can at least tell me who's concerned in it."

"Yes, I can do that. It's Doctor Craig," replied Hale.

Kneeland made a quick decision. "All right, go to it." He added, so artlessly that Hale laughed out, "I don't like the fellow, anyhow."

"Thank you, Uncle Cass. There's something else. I want a little information from you about Miss Kneeland's will."

"Good Lord, what interests you about that?" Kneeland looked bored and a trifle irritated.

"I don't know," Hale said honestly. "I suppose it's all the stuff I've read about heiresses and their danger. But the thing sticks in my crop. I can't forget it."

"I don't mind telling you," Kneeland said gravely, "that my son would inherit most of Joan's estate if she died unmarried. He's her next of kin, and they've been brought up like brother and sister. But Bert is no potential murderer, you young ass, if that's what you've got in your crop."

"It isn't," Hale said promptly. "I've learned to know your son well enough to bet that it isn't. Who else comes in for something?"

"No one else comes in for anything big. Of course Joan will change that will as soon as she marries. Neither Bert nor I ever took it seriously. She has left a fund for some scholarships in her college, and she's given small legacies to half a dozen others that haven't got much money. But if she died tomorrow the big bulk would go to Herbert, who doesn't need it. He'll have all I've got—or at least I hope he will."

His plump face had taken on one of its sudden changes. He looked old and haggard. Rex spoke impulsively.

"Uncle Cass, why do you worry?"

Kneeland shook his head. It was a slow, heavy movement. To Hale it recalled the exhausted, puzzled shake of the head which a bull in the ring indulges in when he is worn out and his torturers are closing around him.

"That's something else again," Kneeland said despondently. "I don't want to talk about it, my boy. Anything else you'd like to know?"

There was much, but Rex realized that this was not the time for further questioning. He said good-night and ran up to his room. In bed, he was wakeful and uneasy. He thumped his pillows, stretched, turned, thumped again. He wanted to be at Halcyon Camp. He told himself he wanted the coolness there and the sound of the waves on the beach. But it was not alone the desire for these things, nor the heat, that kept him awake till dawn.

His first visit the next morning was to the fingerprint bureau. The prints were ready for him, together with a languid exposition which he took in with an intelligence that slightly mellowed his instructor.

"I'll be sending you some more of these," Hale murmured at the discourse ended. He paid for them, and went back to the blistering streets.

He walked along them wrestling with a temptation. There were still things he could do in town. He could lunch at the Engineers' Club that noon and perhaps encounter some more old friends who might be useful. Stuyvesant's guest card had reached him in the morning mail. Good old Stuyvesant. Evidently he had telephoned the club as soon as he got back to his office and had suggested this gratifying briskness of action. He could do these things and still take the half past four o'clock train for the Camp. On the other hand, he had a persistent and unreasonable urge to get back. The fact increasingly disturbed him. He found he was worried about Joan Kneeland, and the sensation was absurd. She could be in no danger. No one at Halcyon Camp would profit by her death except young Kneeland, and he was convinced that whatever was riding Kneeland it was not a guilty conscience or a murderous impulse. Was he himself falling deeper in love with the girl? Was this urgency merely a lover's desire to be with her? That, too, was idiotic. Nevertheless every impulse in him urged him toward Halcyon Camp. It was only nine o'clock. He could get a train that would deposit him there before noon—while the whole crowd was bathing on the beach. While the whole crowd was bathing on the beach!

A sudden thought struck him. The next instant he had caught a passing bus by the elbow, as it were, and was riding toward the Pennsylvania Station. Arriving at the now familiar Long Island station a few minutes after eleven he discovered with satisfaction, the Nash Cub was there. "Want to be a Good Samaritan and give me a lift?" Hale asked the boy.

The Cub briefly asserted that he did. As they started, it developed that he was interested in bull fights. Had Hale seen any? Hale had, and made his descriptions sufficiently gory. The charm of his conversation cramped young Nash's care-free driving and made the journey an affair of fifteen minutes instead of six. But Hale was satisfied. When he approached the house he saw the Halcyon Camp contingent down on the beach or in the water. His eyes were good and he counted its members. Miss Hosanna, Joan Kneeland and Bert were lying on the shore. Three figures in the water looked like Mrs. Spencer Forbes, Craig and Ainsworth. He hurried up to his room, meeting no one on the way. He seized the pair of binoculars he had brought from the other side, and trained them on the water. Mrs. Spencer Forbes certainly, Craig, yes. He was almost sure the figure near them was Ains-

worth. Anyway, he would chance it. Without further hesitation he left his room, glanced up and down the upper hall, and made straight for Craig's eyrie on the floor above. It was locked. He had known it would be and had provided himself with a convenient gadget to meet such disappointments. Under his manipulation the lock snapped back with amazing ease. The next instant he had closed and relocked the door behind him and was standing in the middle of the laboratory.

Craig's laboratory was a small but admirably fitted workshop. Its gleaming whiteness, its immaculate neatness, its shining glass shelves and bottles, above all the completeness of its equipment, surprised the visitor. At right angles to the extra window was a long work-table, with a chair that could be adjusted to any angle of convenience. Another table with a porcelain top stood near some locked metal containers. These probably held the greswome specimens Doctor Craig was able to procure from his hospital. A row of book-shelves filled one wall space. A white porcelain sink filled a corner. The desk table revealed a little heap of pen and ink drawings. One of these Hale promptly picked up with his pincers and put in an envelope he had brought with him.

Hale had no desire to look into the vats. He knew the sort of thing they contained. He opened the door to the room's one bookcase and made a rough inventory of its contents. Aside from the sketches, and the titles and book notes, his visit had not yielded very much. Nevertheless he was making rapid progress, and he knew it. He returned to his room and for a few minutes stood before one of its windows, hands in his pockets, eyes on the sea, thinking out his procedure. The Kneeland group was still on the beach, but he hardly saw it. He finally turned toward his bathroom, with the intention of changing his travel-stained clothes and generally freshening up before luncheon. It was on the short jaunt across his bedroom that he had his second encounter with Daisy. This took place at about the point where he had seen her before. It was a more startling encounter, for now Daisy was no longer a beautiful, black, silky creature, weaving around his legs and purring up at him in friendly ship. Daisy would never weave around any legs again. Daisy was around any legs again in agony, dead, and she had died in his arms. Hale stared down at her. A rage out of all proportion to its cause surged up in him, almost blinding him by its strength. For an instant he hardly saw the pathetic thing at his feet. Then he bent and touched it. It had been dead for many hours. He picked it up, strode out of his room, and carried

it upstairs to the door of the laboratory. He did not take the trouble to use his skeleton key. He had no wish to re-enter the room. He merely laid Daisy down on its outer threshold and turned to descend the short staircase. As he did so he stopped and stiffened. Two steps below him Craig stood, quivering with fury, as erect and as deadly eyed as the sketched cobra. He spoke at once, in a tone he vainly tried to make quiet and steady.

"May I ask," he said, "why you're putting that dead thing at my door?"

Hale met steadily the look of the eyes that burned up at him in the dark passageway.

"Of course you may," he said cheerfully. "I'm bringing the poor thing home to roost."

He had only just time to steady himself, to throw out his arms and catch Craig, as the latter sprang

was still breathing with great difficulty.

"Can I help you to your feet?" Hale asked.

"No. Let me—alone—you—hound."

"Tut, tut, we mustn't have talk like that. It annoys me."

Craig stared up at him. His black eyes were horribly congested, but there was still fire in them.

"You wouldn't—be—so—cocky—if—you—were—up—against—a—man—your—own—size," he gasped. Hale was outraged.

"What do you expect?" he exploded. "You attacked me without warning. Did you think I was going to hold up my hands and smile while you did a vivisection on me?"

Craig continued to stare up at him. Hale waited, watching him. At last Craig made an effort to rise. Hale helped him, and this time he accepted the aid without protest. Once on his feet, and still with some difficulty, he got a keying out of his pocket, selected a key, and unlocked the door.

"Go in there," he ordered. Hale grinned.

"Is this a nice, polite invitation?" he asked with interest. "I'm fussy about such things."

Craig was rapidly pulling himself together. He even tried to smile.

"All right, Goliath," he said more naturally. "That was a silly performance of ours, as you say. Just the same I want a little chat with you before we part, if you have time."

"I'll be charmed."

Hale passed him and strode into the room. "Don't forget Daisy," he suggested, as Craig was following him over the threshold.

Craig made no reply. He closed the door, motioned Hale to a chair, then he dropped into his desk chair. "Those last remarks of yours were eye-openers," Craig began. "I want to discuss them a bit."

"All right. Which remarks were they? I always try to be clear in my statements," Rex added modestly.

"You're clearer in your statements than you are in your mind," Craig muttered. He looked quite natural now, aside from a red throat and a torn collar. "That's why you're here, if you want to know. I'm going to correct a fool idea you have."

"That's good of you," Hale waited.

"You think I poisoned that cat," Craig went on wearily.

"You bet I do. You poisoned it. Then you brought it down to my room."

"Now, why should you imagine I'd do that? I don't poison animals. I don't vivisect them, either."

"Says you."

Hale knew that he was not shining in the dialogue. He was handicapped by a sudden but strong impression that the man facing him was telling the truth.

He got up and stood looking at the other man, who did not move. Craig was trying to force his hand. Hale was not yet ready for a show-down. He thought quickly.

"If you didn't poison that cat and leave it in my room," he went on, "who'd be the obvious suspect. It seems that two other pets died mysteriously before I came here."

"They were run over," Craig snapped contemptuously.

"They may have been. Then again they may not. You say you didn't poison Daisy. To my surprise, I'm inclined to believe you."

"Thanks."

Hale ignored the comment and the tone.

(TO BE CONTINUED)

## FARM TOPICS

### DUBBING TO KEEP COMBS FROM FROST

#### Simple Operation Prevents Damage to the Birds.

By G. T. Klein, Extension Poultry Husbandman, Massachusetts State College.—WNU Service.

Dubbing of the comb and wattles of chickens is a very easy way of preventing injury from freezing. Dubbing is not a bloody and dangerous operation. The comb and wattles are removed with a pair of tin snips with rounding points when the birds are about 8 or 10 weeks old.

There is usually so little bleeding that no precautions to stop it are necessary. Perchloride of iron is a common remedy for stopping flow of blood on birds that give trouble. Dubbed birds should be yarded by themselves, but other extra care is seldom necessary.

The dubbed birds are not particularly attractive, but this is no disadvantage for the production breeder interested in eggs and high hatches of salable chicks. The dubbed males stand up better in the breeding pen and are not affected by cold weather.

With leghorns there is an advantage in dubbing both males and females. With heavy breeds this is not so necessary with the hens.

In sections where dubbing is extensively followed there is a feeling that dubbed birds are more valuable as breeders, not only the first year but the second and third years. This seems entirely reasonable since the comb is a secondary sex organ and is generously supplied with blood. When this supply of blood is not needed by the comb it probably goes to the reproductive organs.

### Urged to Be Cautious in Feeding Live Stock

Proceed with caution this fall cattle and lamb feeders are advised by W. H. Peters, chief of the division of animal and poultry husbandry at University farm, St. Paul.

An analysis of the situation, explains Peters, indicates a strong demand for feeder cattle and lambs, with no weak spot in sight. The present feed supply is larger than last year's, and all feed prices are a little lower. And while the market on grain-fat cattle and fed lambs is some lower than a year ago, it is in a fairly strong position compared to feeder animal cost and feed expense. Added to this is a prediction for stronger industrial activity through the winter and spring months, with hope for a slightly larger outlet for quality meat.

Many cattle and lambs will go to market from the range and pastures in a good grass-fat condition and will be taken by the packers at prices prohibitive to the feeder, says Peters. If thin enough, well-bred cattle and lambs of high grade are a good buy, but their price may be pushed too high as fall buying proceeds.

No farmer should buy animals of feeder type unless he has feed suitable for fattening. More money is lost through trying to fatten high priced steers and lambs on cheap coarse feed than by any other practice in the feeding business. Either buy concentrates to go with the coarse feed, or stay out of the business, he says.

Peters suggests that the farmer with a large supply of coarse feed and little grain buy ewes and raise lambs for next spring, or buy cows and raise calves. He might also buy young heifers or steers and not fatten them, but grow them to an increase in weight and age, thereby making a little money on the coarse feed.

### Marking Broody Hens

As broody hens are not profitable in the laying house, and as broodiness is hereditary, commercial breeders discard all hens that show any decided tendency in this direction. Their method of identifying these broody hens is quite simple. They use colored celluloid leg bands, a different color for each month. Whenever a hen goes broody, she is banded with a ring showing the color used for the current month. Thus it is easy, not only to learn the number of times a hen has quit laying, but also to tell just when these gaps in production have occurred. This supplies much needed information when the poultryman starts to cull his flock and to select breeding stock for the following year.

### Preserving Fence Posts

The United States Forest Service has developed a simple, cheap "tire tube" treatment to prevent or retard decay in fence posts. Zinc chloride is the chemical used as a preservative. Cost: From 5 to 10 cents a post for a year's service. The butts of fresh-cut posts are peeled for a foot or more. Then a section of an old inner tube is closely fitted over each peeled section and tied with strong cord. The zinc solution is poured into the open ends of the tube and left until it has been absorbed. It displaces the sap.

## Favorite Recipe of the Week

CHILLY fall days and cranberry relish go together. Tart relishes do so much to perk up the meat roast. Raw cranberries and fruits put through the food chopper are simple to prepare and inexpensive. No cooking and can be put up for future use in sterilized glasses covered with paraffin.

### Cranberry Orange Relish

(No cooking)

The aristocrat of relishes. Particularly good with all meats, hot or cold.

1 pound (4 cups) cranberries  
2 oranges  
2 cups sugar  
Put cranberries through food chopper. Slice oranges, remove seeds and put rind and oranges through chopper. Mix with berries and sugar. Let stand for a few hours before serving. This easy, popular uncooked relish can be put up for future use in sterilized glasses covered with paraffin.

### Cranberry Horseradish Relish

Mix chopped raw cranberries with grated fresh horseradish in proportions of 2/3 cranberries to 1/3 horseradish. Serve with meats.

## Wait, Mother—Ask Your Doctor First

### Never give your children unknown 'Bargain' remedies to take unless you ask your doctor.

A mother may save a few pennies giving her children unknown preparations. But a child's life is precious beyond pennies. So—ask your doctor before you give any remedy you don't know all about.

And when giving the common children's remedy, milk of magnesia, always ask for "Phillips' Milk of Magnesia."

Because for three generations Phillips' has been favored by many physicians as a standard, reliable and proved preparation—marvelously gentle for youngsters.

Many children like Phillips' in the newer form—tiny peppermint-flavored tablets that chew like candy. Each tablet contains the equivalent of one teaspoonful of the liquid Phillips' 25¢ for a big box.

A bottle of Phillips' liquid Milk of Magnesia costs but 25¢. So—anyone can afford the genuine. Careful mothers ask for it by its full name "Phillips' Milk of Magnesia."

### PHILLIPS' MILK OF MAGNESIA

At 20 years of age, the will reigns; at 30, the wit; and at 40, the judgment.—Gratian.

## CHILDREN'S COUGHS

(due to colds)

Don't let distress of chest colds or spasmodic coughs due to colds go untreated! Rub Children's Musterole on child's throat, chest and back at once. This milder form of regular Musterole penetrates the surface skin, warms and stimulates local circulation. Floods the bronchial tubes with its soothing, relieving vapors. Musterole brings such speedy relief because it's MORE than "just a salve." Recommended by many doctors and nurses. Three strengths: Regular, Children's (mild) and Extra Strong, 40¢. Approved by Good Housekeeping Bureau. All druggists.

### Avocation Into Vocation

Picture Parade

Whether Hollywood producers need doubles for dangerous roles, or insects or animals for atmosphere, their wants can be supplied at almost a moment's notice. This constant striving for reality has made vocations out of many an avocation. Imitators find a ready market—when needed—for their specializations. Collectors can rent out their menageries, early vintage or imported cars and other objects needed for "props" or "gags" in colossal or just spectacular productions. Jack Lipson (above) is the man with the thumb that is the envy of all hitch-hikers. It brings him \$50 a day when used as a comedy gag.

Above, S. W. Allman, who gathers bats, spiders, bugs and snakes, examines part of his collection of tarantulas. At one time he had a call for a dozen big bats from a producer who didn't want to make a \$400 trip to Arizona for them. Allman visited a mine near Los Angeles and returned with eight bats, renting them for \$5 apiece. Right, Slicker, the trained seal, gets instructions from H. W. Winston.

Right, Slicker, the trained seal, gets instructions from H. W. Winston.

No spine where the spine should be . . . Lionel Comport, whose specialty is supplying neybacked horses for "gag" purposes, measures the spine dip of one of his equine freaks. From top to bottom, it's an 11 1/2-inch drop. Nature, it seems, has provided this nag with its own saddle, bringing Mr. Comport \$15 a day for his rental.

### Star Dust

- ★ Western West Point
- ★ Gary Cuts Speed
- ★ Sub Holds the Fort

By Virginia Vale

IN HOLLYWOOD there is a man named Jack Schulze who is one of the wizards of modern times, and it's dollars to doughnuts that you haven't the faintest notion who Jack Schulze is. He's art director for Edward Small Productions, which United Artists releases and here is a brief account of his latest exploit.

Small, producer of "The Duke of West Point," assigned him to a simple little task—just to transport the United States Military academy from West Point to Hollywood. And Schulze did it. That is, he built in Hollywood so perfect a replica of the academy that the West Point graduates who have come in hordes to visit the set felt that they were right back in college.

Perhaps you'll be interested in knowing how it was done. A camera crew was sent to West Point to make films of practically every inch of the academy. That ran into almost 50,000 feet of film, which showed the buildings, the grounds, and was a record of the sort of life that is led there. That's a lot of film, when you consider that the average feature picture, that runs for about an hour and a quarter, is 9,000 feet.

Each morning, before shooting a particular scene, Director Alfred E. Greene goes to his projection room and looks over pictures made under similar circumstances at West Point—pictures showing a day in the life of a cadet. Then he goes to the same spot on the set—there it is, waiting for him, whether it be in the mess hall or on Flirtation walk.

West Point's Michie stadium had to be reproduced for the picture's football game. Army experts approved the story of the picture. Its author, George Bruce, spent many weeks at West Point as the commandant's guest, and made volumes of notes for his story.

Gary Cooper, star of "The Cowboy and the Lady," likes to putter. So, not long ago, he settled down with his car—one of those rakish foreign models, eight years old—to do a bit of tinkering. He was getting only 5 1/2 miles to the gallon of gas; something had to be done about it.

He did it. He gets four miles to the gallon now!

Twelve years ago Hal Roach threw Wheeling, W. Va., into a dither, when he arrived there looking for a double for Baby Peggy. He finally chose Mrs. Wyn's little girl, Nan.

Nan is now one of CBS's prize singers. She opened at a New York night club. She received a carload of floral tributes—among them a huge bouquet with which was enclosed an old photograph of her made up as Baby Peggy.

Bob Burns, substituting for Bing Crosby as master of ceremonies on their radio program during the summer, did so well—with a lot of help from a lot of other swell people—that the program stayed in third place in the popularity ratings.

Now that Bing has returned he's giving more attention to his farm. He has six acres in the San Fernando valley, and it's a real farm. Instead of a swimming pool (fancy a movie star without one!) he's building an extra-special barn. He's going in for the best farm equipment that money can buy, and he's going to market potatoes.

Those popularity polls are interesting. Edgar Bergen and Charlie McCarthy hold their program in first place among the hour-long broadcasts; "The Radio Theater," Monday nights from Hollywood, is second. The Vallee Varieties is fourth of the big shows, Major Bowes' amateurs are fifth.

Malibu used to be the place where a motion picture star simply had to have a beach house. Then the directors discovered it, and the stars sold out and went elsewhere. Along came the writers, and the directors sold. Now the writers are moving—and Malibu is perfectly lovely and quiet.

ODDS AND ENDS—Don Wilson is a busy man these days; he's on two transcontinental programs and is making arrangements at Universal . . . Benny Goodman's to make his classical debut in January at Carnegie Hall in New York, where he gave his sensational swing concert last winter . . . Alan Mowbray ("There Goes My Heart") announced that he wanted to be adopted by America, so that he could have a native town of his own; eight cities promptly took him up on it . . . Anne Shirley and her husband, John Payne (who is one of the Paynes of Virginia and likes to have people remember it), are off to Rounoke on a deferred honeymoon.

# WHAT to EAT and WHY

## C. Houston Goudiss Describes Food Value and Versatility of Gelatin; Outlines Its Many Uses in the Diet

By C. HOUSTON GOUDISS

WHEN we try to appraise the nutritional values of any one food in comparison with others, as a rule we have a difficult task. Most foodstuffs are composed of so many different substances that what is lacking in one will be supplied by another, and making comparisons may therefore be misleading as well as futile. But there is one food which is outstanding, not only because it is far less complex than

most others, but because it is scientifically controlled so as to insure a uniform finished product. Gelatin is sold in two forms: the unflavored, granulated product which requires the addition of flavoring, and when used for dessert purposes, sweetening; and the gelatin dessert powders which contain added sugar, color, flavor and fruit acid. So popular are these convenient gelatin desserts, that about 10,000,000 pounds of gelatin are used annually for this purpose.

What is Gelatin? Gelatin is a protein food which has no equal as a carrier, binder and "extender" of a wide variety of other nutritive materials. Chemically, it is classed as a colloid, which means that in solution, it can be removed from its solvent by filtration. It is because of this that it is so useful in producing smooth, delicious ice creams and other dainties, free from ice crystals.

Gelatin is an almost pure protein—a kind of protein known as an albuminoid. It is not a complete protein, because it is deficient in three of the amino acids that are necessary both to support growth and repair body tissues. In this it differs from meat, cheese, fish, eggs and milk, which are known as complete proteins. It cannot be used as the sole source of protein in the diet, because those three missing amino acids are necessary for the formation of new body tissue. But it is especially rich in lysine, one of the protein building stones that is particularly important in the diet of children. Experiments indicate that no other amino acid can take the place of lysine and that it must be furnished by the food if adequate nutrition is to be maintained.

That coupled with the fact that it is non-irritating and easily digestible accounts for the large part it plays in the diet of infants and young children.

How It Is Made Contrary to old wives' tales, gelatin is not made from hoofs and horns. In fact, there is no gelatin in hoofs or horns. It is extracted from connective tissue in the skins and from the bones of food animals. Every homemaker who has made soup by simmering a knuckle bone for hours, and has found the soup "jellied" after standing overnight in the refrigerator, has prepared gelatin on a small scale. The same principles are followed by the gelatin manufacturer, only he operates in a much larger food kitchen, and each step of the preparation is

Remarkable and widely heralded advances have been made in our knowledge of how to control and prevent many dangerous and debilitating diseases. A decayed tooth is a poison factory, distributing its noxious product to every part of the body. In the body, that poison attacks and centers in the weakest spot. It may lead to neuritis, rheumatic ailments, dyspepsia, or duodenal ulcers. It may even be a contributing cause of heart disease.

Only a small percentage of our population is yet aware of the far-reaching effects of teeth upon health. There is a close relationship between healthy teeth and healthy bodies, and between decayed teeth and sickly bodies.

By learning something of the importance of caring properly for the teeth, some men and women of middle age look and feel younger than their parents did at the same age. I have endeavored in many of the WHAT TO EAT AND WHY articles, which have appeared in this newspaper over my signature, to point out the close relationship between diet and dental disease; between frequent and thorough brushing of the teeth with an efficient dentifrice so as to remove all food particles, and strong, beautiful teeth.

I have received many letters from readers of these articles, showing that homemakers are eager for sound, authoritative advice on the proper care of the teeth. To help these and other readers to know how to properly care for their teeth, I have prepared a booklet on BUILDING AND MAINTAINING HEALTHY TEETH which I am offering FREE, because I feel so strongly that this information should be in every home, knowing as I do, that the salvation of the human race may lie in saving their teeth. Address, C. Houston Goudiss, 210 S. Desplaines St., Chicago, Ill.

Please write your name, address and pattern number plainly.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, Household Arts Dept., 259 W. 14th St., New York, N. Y.

Spent spare moments profitably with your crochet hook and some string and add charm to your home with crocheted accessories that match! Interesting to make and inexpensive, too, you could make either chair set or pillow alone or make a pillow with matching scarf ends. Can't you see what attention they'd attract at a bazaar? Pattern 6168 contains charts and instructions for making the set; illustrations of it and stitches used; materials needed.

orange, raspberry, cherry, strawberry or other well liked flavors. Every mother knows this from her own experience—and I rather suspect that many mothers describe these attractive molded desserts as the prize to be won in return for cleaning the plate of the main course!

### In the Reducing Diet

Both men and women who are counting their calories, in an effort to avoid overweight, or to reduce, can profit by taking gelatin salads and desserts, which satisfy hunger without providing unwanted fuel value.

In cases of digestive disturbance, gelatin is frequently recommended because of its bland taste, and because it leaves no residue in the lower intestinal tract.

This same splendid food is also advised by doctors when a high protein diet is desired to speed growth, or during convalescence from an illness. Gelatin may be added to broths, milk, fruit and vegetables, and these, in turn, may be incorporated in solidified gelatin.

Indeed, this many-sided foodstuff has come to play such a wide and varied role in nutrition, not only by itself but by enhancing the value of other foods, that it must be numbered among the products that help to increase national health and vigor.

## That Everyone Who Takes Aspirin Should Study

Drop a Bayer Tablet in water—it starts to disintegrate in 2 seconds—hence is ready to "go to work" rapidly

This Quick Dissolving Property of Genuine Bayer Aspirin Explains Fast Relief

If you suffer with headaches or the pains of rheumatism or neuritis keep the above picture about genuine Bayer Aspirin in your mind. Especially if quick relief is what you want.

For the way a Bayer Tablet works in the glass is the way it works when you take it. It starts to dissolve almost at once—hence is ready to "take hold" of the rheumatic pain or headache with astonishing speed. Relief often comes in a few minutes.

Always ask for "Bayer Aspirin"—never ask for "aspirin" alone.

### 300 Texas Future Farmers Attend National FFA Convention

KANSAS City, Mo., October 26—The Texas delegation of 300 Future Farmers attending the National F. A. Convention here this year was given a rousing welcome by national agricultural officials.

Above is shown Dr. J. A. Linko, Chief, Agricultural Education Service and National F. F. A. Advisor, Washington, greeting O. A. Lowe, Jr., of Livingston, Texas, F. F. A. President (center). D. M. Clements, Regional F. F. A. Advisor for the Southern States (right) also greeted the Texans.

In the lower picture, the two boys about to lower picture, the two boys about to release horse shoes are Charlie Patton and Don Rhodes, Duncanville, Texas horsehoe pitching champions. These lads challenge all other state delegates at the national convention.

### Mrs. Russell King Hostess to 1934 Study Club

Mrs. Russell King was hostess to the 1934 Study Club Tuesday evening at the home of her sister, Mrs. Marvin English. Miss Mildred Olson had charge of a short business meeting. Two new officers were elected to fill the following places: Miss Bernice Dalinger, custodian; Miss Lois Pouta, treasurer.

The following subjects were discussed: Government of Russia Today by Mrs. Walter Travis; Modern Amplitude Toward Religion in Russia by Oleta Owen; Industrial Life and Regeneration by Miss Jane Hughes.

Refreshments were served to the following ladies: Mesdames Francis Wenter, Virgil Shaw, Russell King, Walter Travis; Misses Roba Copeland, Mildred Olson, Oleta Owen, Alva Weatherford, Jane Hughes, Fannie Mae Ross, Selma Linder, Bernice Dalinger, Beryl Busby, Helen Kruger, Bernice Patton. Mrs. Odell Winter was a visitor.

Miss Dorothea Stevens, of Lubbock, spent the week-end with her father W. Stevens, and sister, Barbara Jean.

### Mrs. A. J. Cline Hostess to Junior G. A.

Mrs. A. J. Cline was hostess to the Junior G. A. of class of the First Baptist Church at her home last Friday evening when she entertained the group with a hallowe'en party. Punny hallowe'en games furnished entertainment for the evening.

Refreshments were served to the following guests: Lina Marie Harris, Ruth Hamilton, Netta Danson, George Ann Huckabee, Norma Beth Catherin, Lillian Fay Taylor, Arloa Vee Bishop, Joyce Williams, Joyce Jounell Stanley, Nella Ruth Chapman. Miss Katie Coker was a guest.

Miss Katherine Welch, of Plainview, spent the week-end visiting with Miss Selma Linder.
