### Homebuilders Club Met November 11

White is better than flashy colors for your bed linens, the Homebuilders bedroom demonstrator Mrs. R. L. Kendrick, told the members of that club when they met in her home November 11.

It pays to buy sheets plenty long; a sheet must not only cover the top of the bed, but extend down the thickness of the mattress at both ends, and tuck under six inches. Allow ten inches for hems and shrinkage; the speaker recommended buying the 108 inch torn size length. The pillow cases should be two inches wider and ten inches longer than the pillow.

Following the recreational period, led by Mrs. D. D. Shipley, the president, Mrs. Raymond Teeple, had charge of the business session, at which time plans for the community Christmas party were discussed. The next club meeting will be with Mrs. Raymond Teeple, November 25.

Visitors present at the meeting were: Mrs. Tip Kendrick, Billie and Don Kendrick and Miss LaVern Eubank. Members present were: Mesdames D. D. Shipley, Roy Curry, P. F. Fuqua, P. F. Bertrand, Raymond Teeple, C. W. Denison, Elbert Parks, A. W. Dunn, Ben Johnston, B. M. Eubank, Elza Cates, C. B. Martin; Misses Lena Gulley, Daisy Aaron, Gladys Bertrand, and the hostess, Mrs. R. L. Kendrick.

Walter Collins and sons and R. W. Cothran attended the Tech-Gonzaga football game in Lubbock last Friday.

### Boy Scouts Accept 35,857 Acres in Kit Carson Country From Mr. and Mrs. Waite Phillips

Boy Scouts of America will enjoy wilderness camping on the new 35,857-acre tract in New Mexico's Kit Carson country, gift of Mr. and Mrs. Waite Phillips of Tulsa, Okla.

A GIFT from Mr. and Mrs. Waite Phillips, Tulsa, Okla., of 35,857 acres of land a few miles northwest of Cimarron, New Mexico, and \$50,000 to be used in improving and developing the land for camping purposes, has just been accepted by the Executive Board of the National Council, Boy Scouts of America.

When he made this announcement, Walter W. Head, President of the Boy Scouts of America, said, "Mr. Phillips offered the property without any restriction whatsoever save that it is to be used for the benefit of members of the Scout Movement. As a matter of fact, he specifically stated, 'If this proposal were being made to any other organization, whose rating was inferior to the record of service made by the Boy Scouts of America, I would be inclined to be more particular in outlining the program, to be assured that the property would be put to full beneficial use as I visualize it.' In accepting this gift the National Executive Board has in mind the establishment of a Boy Scout reservation for the development and furtherance of wilderness camping."

**Kit Carson Country**

Before formally proposing that the Boy Scouts of America accept the ranch property Mr. and Mrs. Phillips and their son Elliott entertained a party of Scout officials at Phillmont Ranch near Cimarron, immediately adjacent to the new Scout Reservation. The party included, besides President Head, Dr. James E. West, Chief Scout Executive, and Arthur A. Schuck, Director of the Division of Operations. The entire group was greatly impressed by the scenic beauty of the area and its usefulness for Scout camping purposes.

Much of the property is virgin territory and under the careful management characteristic of Boy Scout camping those small parts which have been grazed recently will quickly be restored to their natural conditions. Mr. Phillips has proposed, in accordance with general Boy Scout practice, that the property immediately be designated as a game preserve.

In a statement issued to the Executive Board Dr. West described the reservation in this way: "The property is in the Rocky Mountains, all above an elevation of 7,000 feet and rises in spots to at least 11,000 feet. It is the Kit Carson territory and the old Santa Fe trail passes through it. There are nine main canyons on the tract converging either at the Cimarron River or the main branch of the Ponil River, which later flows into the Cimarron.

**Older Boys' Paradise**

"Each of the canyons is of the same general make-up, flanked on each side by ever-changing vistas, rock palisades, timber growth, and with smaller canyons in endless numbers lingering out from the main ones. There are also several high land meadows or mesas, offering excellent additional camping area spots. Bear Canyon, Dean Canyon, and Turkey Canyon have an extensive amount of timber growth, comprised, principally of western pines, Douglas fir, balsam, quaking aspens and cottonwoods. It is the natural habitat of deer and while on the property we saw mule deer, wild turkeys, and dozens of beaver dams and many evidences of bear.

"While there are few Boy Scout Local Councils throughout the country which do not have camps both for short camping trips and for summer vacation camping," Dr. West continued, "there is a need of opportunities for Troops and Patrols with experience, training, leadership and proper equipment to secure the benefits of wilderness camping, which I believe will appeal to older boys in all parts of America. By this is implied a more rugged experience with 'nature in the raw' than is possible in the customary local Boy Scout Council camp but at no sacrifice of our essential safeguards of health and safety."

A recent digest of Scout membership records revealed that more than 100,000 Scouts in nearly 4,000 Troops live within a 600 mile radius of the property. From this group will come those who use the property most frequently although Scouts from all parts of the country will head for it on roving tours under adequate leadership and according to provisions laid down by the National Council of the Boy Scouts of America.

Before reaching a decision to accept the Phillips gift the National Council sought advice from the local Boy Scout Councils in the area to be served by the reservation. Forty such groups indicated that they would begin to make use of the spot in the next camping season and many evidences of enthusiasm and offers of active cooperation in the development of the property were received.

**Wilderness Camping Popular**

George W. Olmsted, Chairman of the Camping and Activities Committee for the Boy Scouts of America, reports great need in the Rocky Mountain section for facilities for Troops from far away which seek wilderness camping. The Pikes Peak Council of Colorado Springs, Colo., last summer had requests from New Orleans, Shreveport, Toledo, Chicago, five towns in Texas, four in Kansas, and many individual requests for camping places in the Rocky Mountains. They were able only to help one Troop from Kansas and this demonstrates that there is great need for a place where these Troops can have adequate facilities for mountain camping under proper supervision.

As an evidence of the magnitude of this problem and how the Waite Phillips property would help to solve it, he adds that in 1937, 200 touring permits were granted by the home office of the Scouts with a total mileage of 155,354 miles, averaging 776 miles per tour, with 4,201 Scouts and 674 Scouters in attendance. To date, in 1938, 338 Touring Permits have been issued with an estimated attendance of 7,098 Scouts and 1,115 Scouters. Eighty-nine of the tours during 1938 traveled more than 1,000 miles. Thirty-six traveled more than 2,000 miles.

Mail Order Denture Business Victorious In Court Decision

False teeth may be measured and sold by mail as readily as in a dentist's chair, according to a court ruling, says a recent news item in the Chicago Daily Tribune. The United States Dental Company of Chicago reports that its business both in the United States and outside is growing very rapidly; that its quick, easy, economical way of fitting and constructing dentures from finest materials, with expert craftsmanship, at very low prices, is an achievement of this age. Thousands of grateful letters in its files from satisfied customers all over the country testify to this. This is a distinctly worthy service to people who work in the fields, mountains, or other places where it is inconvenient for them to find local dentists to make good teeth for them at low prices. Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago, © Western Newspaper Union.

Lesson for November 20

THE SACREDNESS OF THE HOME

LESSON TEXT—Exodus 20:14; Matthew 5:27, 28; Mark 10:2-16. GOLDEN TEXT—Keep thyself pure.—1 Timothy 3:22.

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

The importance of the home as the divinely appointed center of all human life has always made it a special target of Satan. That onslaught of the power of hell is apparently redoubled in our day. Books, plays, movies, magazines, all contribute their filthy efforts to break down all sense of moral responsibility. Sex is magnified, and not in any useful or normal sense, but rather for the stimulating of unholily desires and purposes, the breaking down of Christian standards of living and the ultimate prostitution of the most sacred of all human relationships to a level of which animals might well be ashamed.

The lesson of today should be taught with care and tact, but also with a holy boldness and a plainness that will make it effective for God and for our homes. We begin with a word which is little spoken, while far too often the sin for which it stands is practiced and tolerated.

I. Adultery — a Grievous Sin

(Exod. 20:14; Matt. 5:27, 28). First, let us note that any violation of the divine plan for the marriage of one man and one woman, in loving communion for the founding and maintenance of the home, is a direct violation of the law of God. It is also a violation of the law of man. It brings serious results in the destruction of the home, and in the ruin of individual life—physical, moral, and spiritual.

The words of Jesus broaden the interpretation of the commandment to cover all sexual impurity in thought, word, or deed. While we recognize that the outward act of immorality carries with it consequences both in the life of the individual and those with and against whom he sins, which do not follow upon the thought of evil without the act, yet it is true that essentially he is guilty who had it in his heart to do the wicked thing even though a sense of prudence or circumstances hindered its execution. We need clean hearts and minds if there are to be clean lives.

II. Marriage—a Divine Institution

(Mark 10:6-8). As the proper background for a discussion of divorce our Lord makes clear that marriage was ordained by God, and that it involves a holy union of two individuals which makes them one. All those who look forward to marriage should realize that it is not a casual thing, or a merely temporary legal contract. It is a union for life—be it for better or worse, in sickness or health, in prosperity or adversity. All who are married should therefore highly regard their sacred vows.

III. Divorce Limited and Remarriage Forbidden

(Mark 10:2-4, 10-12). This passage, and other scriptures, teach that divorce is not permitted except on the ground of adultery (Matt. 5:32), and that any remarriage involves the parties in the guilt of adultery. Aware as we are of the laxness of some branches of the church in such matters, and the almost entire lack of standards in the world, we cannot but present the plain teachings of our Lord and urge every reader to follow the commandment of God's Word.

There can be no question that divorce is a major evil in our day. The writer has been astonished to find one family after another in his own respectable neighborhood where the children bear one name and their mothers another, or there are two "sets" of children in one family with different surnames because of divorce and remarriage. In some cases he knows of the fathers of children coming to see their offspring at the home of the second husband. What utter confusion such situations must create in the minds and hearts of the boys and girls!

IV. Children—the Gift of God to the Home

(Mark 10:13-16). How relieved we are to leave the consideration of such sordid, even though vitally important, matters as moral impurity and divorce, and turn to the beautiful picture of Christ blessing the little children. It would appear that Jesus desired to turn the thought of His hearers from the negative "thou shalt not" to the positive solution of the home problem.

Children make the home. They are God's benediction upon the marriage of man and woman. Sad and disillusioned will be the men and women who make themselves childless, hoping thus for more comfort and pleasure. The road to happiness does not go that way. The soft and tender baby hand has led many a couple to full happiness, and the joy of watching our children grow into manhood and womanhood cannot be evaluated in the mint of gold or earthly pleasures.

THERE ARE POSSIBILITIES

One of our readers has suggested the possibilities and advantages of a textile manufacturing plant for Floyd County as an aid to relieve the unemployment situation and to use Floyd County produced cotton. Such a plant, our reader thinks, would provide a trade and consumption outlet for cotton produced in this section and adjoining territory.

Just what degree of success a venture of this nature would meet is somewhat of a question. Doubtless an enterprise that would provide employment and a dependable payroll would help this entire county. Only one cotton mill of any importance is located in this section of Texas, the Garza Mills at Post, Texas. This plant has been in continual operation for a number of years and through the lean years has provided a substantial payroll for Garza County.

The Federal government has expended gigantic sums for projects of practically every other nature including parks, playgrounds, dams, highways, museums, power plants, public buildings, libraries etc. It is possible that a textile manufacturing plant could be built in Floyd County through the use of government grants, perhaps matched by issues of the municipality or county.

Miss Elnora Miller Becomes Bride of Floyd Willis

The first wedding ritual ever performed in the Rushing Chapel Methodist Church, Fairview community, united in marriage Miss Elnora Miller and Floyd Willis Friday afternoon at 2:30.

Rev. W. V. O'Kelly of Aiken, former pastor of the church in which the bride was a member, officiated at the simple ring ceremony that joined members of two prominent Floyd County families.

Faye Hart sang "I Love You Truly" as a pre-nuptial solo and was accompanied by Mrs. Hart at the piano. The bridal party entered to the strains of Mendelssohn's wedding march, played by Mrs. W. V. O'Kelly, and stood before the altar decorated with tall baskets of fern and cut flowers. On the pulpit was placed a bible which belonged to R. T. Miller, grandfather of the bride.

The bride's maid, Miss Lola Lee Teal, of Fairview wore a floor length archid silk dress and carried an arm bouquet of rainbow asters. Mr. Welborn Miller, brother of the bride, was best man.

The bride wore a floor length dress of white satin trimmed in white velvet, a necklace of blue sapphire and opal colored stones, and a bride's veil that was caught with a wreath of orange blossoms. She carried a shower bouquet of white chrysanthemums and fever few and a white, embroidered handkerchief which was her mother's at her wedding.

Ushers at the church were Lee Rushing and E. R. Chesnut. Mrs. Lee Rushing and Mrs. E. O. Connor registered the 125 guests' names in the bride's panel book.

The bride, a daughter of Mr. and Mrs. Olin S. Miller of Center community, was reared in Floydada and Center community. She attended Floydada High School, graduating with the class of 1937, and Texas Technological College in Lubbock.

The groom, son of Mrs. B. C. Willis, of Lakeview was reared in Floyd County and attended school at Lakeview, graduating in 1935. He is employed with R. H. Willis, contractor.

Out-of-town guests included Mr. and Mrs. M. B. Duke, of Claude, Texas, maternal grandparents of the bride; Earl T. Duke, of Lubbock and Mr. and Mrs. E. R. Duke, and daughter, Linda Mae, of Claude, uncle of the bride; Mrs. R. Hershel Jennings of Canyon and Mrs. C. D. Kellette and daughter, Charlotte Ruth, of Grand Island, Nebraska, aunts of the bride, Mrs. Price Scott and children, of Petersburg; Mrs. Roe C. Bird, of Plainview.

B. Jordan, W. H. Belden, Emmet and Edgar Willis, Alton Morse, Delbert Morse, Garth Morse and Edgar Raye Gound.

RECEPTION HELD

After the ceremony the relatives attended a reception at the home of the bride's parents. The table was laid with lace cloth, over pink, tall candles in crystal candelabra, on either side of the cake. The bride cut the three tiered wedding cake, which was topped with a tiar bride and groom and surrounded by a wreath of fern and pink and white sweetpeas. Mrs. R. Hershel Jennings served the cake and Mrs. E. R. Duke, of Amarillo, poured tea. Mrs. A. H. Jennings of Claude presided at the bride's book in which the sixty guests registered.

Following the reception the couple left for a short honeymoon trip, the bride wearing a going away suit of rust chiffon velvet with brown accessories. Mr. and Mrs. Willis will make their home in Floydada.

THANKSGIVING—317 YEAR OLD HOLIDAY

The first Thanksgiving feast was given after the Puritan's first harvest in 1621. It had no special religious significance. In 1623 an abundant rain followed a protracted drouth "for which mercie—they—set apart a day of thanksgiving." The first Thanksgiving proclamation was issued in 1668 by the Plymouth authorities. The observance of thanksgiving days was common from then on. George Washington issued the first presidential Thanksgiving proclamation. In 1864, President Lincoln proclaimed "the last Thursday in November" as Thanksgiving Day; this date has been similarly proclaimed by all succeeding presidents.

# What to Eat and Why

## Houston Goudiss Describes the Body's Need for Vitamin C; Names Most Significant Sources of This Substance

By C. HOUSTON GOUDISS

The vitamins that should be included in the diet every day, none, perhaps, is more important, nor more provided inadequately, than vitamin C.

There are, I believe, two reasons for this. First, unlike the other vitamins, vitamin C is not stored by the body; that it is impossible to build up a reserve supply.

until today we know that the substance which prevents the disease is vitamin C.

### May Retard Growth in Children

It has also been noted that many cases of latent scurvy can be found among children and adults in all walks of life.

When deprived of this vitamin, experimental animals develop swollen, tender joints, sore jaws and spongy, bleeding gums, while the teeth become loosened and assume irregular positions.

Hemorrhages may occur almost anywhere in the body, due to capillary weakness, and are particularly common in the kidneys, intestines, bone marrow, under the skin, in the muscles and adrenal glands.

Indeed, one of the most interesting of all the discoveries concerning vitamin C was made with guinea pigs.

It was observed that in a healthy animal, the adrenal glands are rich in vitamin C, while in a scorbutic animal, they contain practically none.

### Pyorrhea and Vitamin C

Many investigators have discovered that a deficiency of vitamin C causes profound changes, not only in the gums, but also in the enamel and dentine of the teeth.

It has been suggested that pyorrhea may be associated directly with a vitamin C deficiency.

Certainly, there is enough convincing evidence, as a result of work with both children and adults, to indicate the importance of an adequate supply of vitamin C in maintaining healthy teeth.

### Sources of This Body Regulator

Vitamin C is produced by plants during their growth. It is found in juicy stems, bulbs, roots, tubers and fruits.

Outstanding among the fruits are the citrus family, including oranges, lemons and grapefruit; tomatoes and cranberries. Raw cabbage is a good source as is watercress.

So important is vitamin C that one or more generous portions of a vitamin C-rich food should be consumed daily, preferably at every meal.

Orange and tomato juice have been used interchangeably for quite some time as a convenient and easily available source of vitamin C. In recent years, some experiments performed at a leading university have given a high ranking to cranberries on this score, so that they, too, may be ranked as a significant source of vitamin C.

These brilliant little red berries come into market in the fall—the very time when it is important to eat generously of fruits to fortify the body against fall and winter ills.

Their tart flavor helps to stimulate appetite and their fruit acids promote intestinal tone.

Neither the maturity nor variety of the fruit appears to have any influence on the vitamin content, and even when cooked, as whole fruit sauce, they retain from 75 to 80 per cent of the original vitamin C content of the fruit.

Cranberries are also a fair source of vitamin A which is not impaired by cooking, and they contain iodine, iron, copper and manganese.

Because they are such a versatile fruit, cranberries can be utilized throughout the menu and at any meal. Thus orange and tomato juice may be varied at breakfast by serving a cranberry conserve, jelly or sauce, or a cranberry juice cocktail.

For lunch or dinner, this same fruit may be served as an appetizer; with the meat course; or used to make a variety of attractive desserts.

If vitamin C-containing foods are included generously in the daily diet, the homemaker may well feel that she has provided her family with an important form of health insurance.

### Questions Answered

A. F. G. Jr.—Green salads do play several important roles in the diet. They furnish bulk or cellulose, minerals, vitamins and water, and therefore help to balance a meal.

Mrs. F. C. L.—Most authorities now advise giving semi-solid foods to infants before the end of the first year. Usually the cereals, vegetables, and fruit pulps are carefully strained so that they are finely divided and free from harsh particles which would irritate a baby's delicate digestive tract.

★ Good-Will Jalopy  
★ Costly Separation  
★ Picturing Lincoln

By Virginia Vale

Did "Josephine, the Tattooed Jalopy," happen to come your way on her return journey from Hollywood to Hartford, Conn.?

If she didn't, you ought to hear her story. It is really the story of two young men, Frank and Jack Pinney of Hartford, who paid \$13.95 for the ancient car (born in 1928) and set out for Hollywood.

They took along some white paint, and started the movie center by requesting movie stars and celebrities to grasp a paint brush and autograph Josephine.

They were a sensation. Josephine was soon covered with names, and the owners refused an offer of \$2,000 for her, it's said. And the Motion Pictures' Greatest Year representatives were delighted with them; they've become unofficial good-will ambassadors for the industry.

They ran into one difficulty; people whose autographs didn't mean much were all too obliging about scrawling their names on Josephine.

The Pinneys let them do it, and, since Josephine's space was limited and they had to go in for big names only, they'd wipe off the undesirables with a bit of turpentine and then tackle somebody who meant something to them.

Of course, they may thus have obliterated signatures of people, now unknown, who will be stars before the car is a year older, but that couldn't be helped.

Don't ever say that Samuel Goldwyn isn't kind hearted. By sending Jon Hall off to England to do "The Thief of Baghdad" he tore the bridegroom from his bride, Frances Langford.

But he's going to pay for a five-minute transatlantic phone call for them each week that they are separated!

You will recall when Jon and Frances eloped to Prescott, Ariz., last June, Jon's mind was a bit hazy as to his birthplace, he giving it as New York city, instead of Fresno, Calif., on the license application, necessitating a remarriage later to ease their minds as to the legality of their marriage.

Evidently the next cycle in the movies will be based on the life and times of Abraham Lincoln. The success of the play, "Abe Lincoln in Illinois," in New York started it. Now three producers have announced that they will do Lincoln pictures. Goldwyn will star Gary Cooper as the Great Emancipator, Twentieth Century-Fox will cast Henry Fonda in the role, in "Lawyer in the West."

There's something about the radio serial, "Pepper Young's Family," that brings luck to those who have anything to do with it.

Originally it was called "Red Davis," and in its second year a young actor who wasn't getting along too well was engaged to play the role of "Red." His name was Burgess Meredith. Broadway producers and Hollywood executives heard of the program, listened to it—and first thing he knew, he was a success on the stage. Then he began to do a picture occasionally; remember him in "Winterset," his first big one?

Later, Martha Scott was engaged to play bits in the serial. And Martha landed in a stage play, "Our Town," which was one of the year's biggest hits of last season, and is still playing.

If Toscanini is your favorite orchestra conductor you can be sure of hearing concerts with him leading the orchestra weekly through December 3; from January 7 through February 25 he will alternate with guest conductors.

When Bill Janney (who plays the title role in "Howie Wing—the Adventures of a Young Aviator") began portraying the daring Howie he hardly knew what made a plane stay in the air. But flying got him; he has been spending his spare time taking flying lessons from Ralph Smith, a pilot on the last Byrd Antarctic expedition.

ODDS AND ENDS... Johnnie, the Call Boy of "Johnnie Presents," is learning the Morse code from one of the radio engineers... That New York elevator boy who was engaged for "Gone With the Wind" spent four months in Hollywood waiting for it to begin, and now has returned to his job in the elevator; he'd rather wait there, he says.

The largest steam locomotives in the world are in operation in the United States. If all tubes and other obstructions were removed from the boiler barrel of one of these locomotives, a standard automobile could be driven through with room to spare.

# HOW TO SEW

by Ruth Wyeth Spears

ors with bright cushions? A clever girl I know saves the good parts of old silk dresses and blouses and buys remnants of bright silks and ribbons for this purpose. Her pillows are always most professional looking. If contrasting pieces are joined, she uses covered cords in the seams and contrasting cordings and neat little frills around the edges to repeat the strongest tones in the room.

There comes a letter from a reader ordering both of the sewing books offered below. She says, "I have to smile when people tell me it does not pay to sew. Recently I had a regular spree of doing over the living room. I spent \$10.35 for materials. The sewing machine and I did the rest. Here is what the ten thirty-five bought. New slipcovers for the davenport and two chairs, chintz curtains for three windows, a new ottoman and a lamp shade. The slipcover for the davenport alone would have cost fifteen dollars if made outside."

NOTE: You also may have smart slipcovers, curtains and dozens of things you have been wanting. Mrs. Spears' books have helped thousands of women. She tells you quickly with pictures the things it would take years to learn by old-fashioned methods. Her sewing sketches clear away all uncertainties both for the beginner and the experienced sewer. ## George May Not See Practical Way to Saw

"George, go find me a clothes prop," ordered the good wife, busy with her washing.

The husband found one he thought suitable, but it had no fork at the top for holding the line, so he asked his neighbor, a Scot, to lend him a step-ladder.

"I want to get to the top of the prop to cut a 'V' in it," he said.

His friend eyed him disdainfully. "Ye are the kind o' mon that gets some folks a name for being daft," he grumbled. "What do ye want a step-ladder for to cut a 'V' in the prop? Haven't ye the sense to lean it against the side o' the house an' cut it wi' a saw out o' the bedroom window?"

## CONSTIPATED? Don't Let Gas, Nerve Pressure Keep You Miserable

When you are constipated two things happen. FIRST: Accumulated wastes swell up the bowels and press on nerves in the digestive tract. This nerve pressure causes headache, a dull, lary feeling, bilious spells, loss of appetite, and distress. SECOND: Fairly digested food starts to decay forming GAS, bringing on sour stomach, acid indigestion, and heartburn, bloating you up until you sometimes gasp for breath. Then you can't eat. You can't sleep. Your stomach is sour. You feel tired out, grouchy, and miserable. Adierka gives you the DOUBLE ACTION you need. This efficient cruminate anthracin relieves that awful GAS almost at once. It usually clears the bowels in less than two hours. No waiting for overnight relief. Sold at all drug stores.

Nearly **1/2** of telephone expenses in Texas goes for wages...

Out of more than 23 1/2 million dollars spent by the Southwestern Bell Telephone Company to provide telephone service in Texas last year, about 10 million dollars . . . nearly half . . . went for wages. Wages to 9,000 telephone people, who in turn spent most of that money in Texas.

Telephone wages play no small part in keeping the state's business moving. And by assuring telephone users of the services of skilled, efficient people, they play a large part in giving you good telephone service at reasonable cost. Southwestern Bell Telephone Company.
