## New York Skyscrapers Form Back Drop For Air View of Fair

NEW YORK (Special)—This remarkable air view of the New York Fair shows the World of Tomorrow that has sprung up against the background of New York City of Today.

The Lagoon of Nations. At the lower left is the Court of States. The Transportation Zone can be seen stretching out along the upper left of the Fair grounds. The picture shows the Fair's close proximity to Broadway and the skyscrapers of upper Manhattan. Actually the Fair is only 10 minutes from Broadway by Long Island Railroad, and about 25 minutes by subway. By motor the trip requires about 30 minutes, with 5 parking fields furnishing ample space.

## Juices are Termed Labor Saving Device

Drinking a cup of orange or tomato juice is a labor saving device in securing the daily quota of vitamin C in the average person's diet, since an orange contains the equivalent in this vitamin of three good-sized potatoes, according to Nora Ellen Elliott, Extension Service food preparation specialist of Texas A. and M. College.

Miss Elliott points out that too many Americans depend upon cooked vegetables for the vitamin C element in their diet, and this is unwise since vegetables lose much of their vitamin content with cooking.

Especially in the summertime, the intelligent homemaker will let a cup of orange juice, half of a grapefruit, a bowl of fresh green raw cabbage and green pepper salad furnish the vitamin C for one day's diet. These are not only more refreshing than cooked foods with a similar vitamin equivalent, but Miss Elliott adds, they also help keep the diet from being overloaded with various other food types.

"While drinking orange or tomato juice may be a lazy man's way of obtaining vitamin C, it is not only easy but scientific," she says.

## Dalhart Plans To Honor Old Time Cow-Punchers

Dalhart, July 26.—Dalhart Churches will be asked to dismiss their evening services for the XII Memorial Services to be conducted at the M. E. Church, South, Sunday evening, August 6, according to Rev. Harold Scoggins, chairman of the Memorial Service committee.

C. E. Coombs, Stamford, Secretary of the Cowboy Reunion at Stamford, will make the address. Judge Coombs is an outstanding panhandle citizen, and much in demand as a speaker.

There will also be old-time memorial and range music by singers from all the city choirs. And a roll call of those who have gone West for the last great round-up from which no cowpoke ever returns.

Conspicuously placed in the church will be an empty saddle and lariat and birds, all surrounded by a bank of flowers, silent tribute to the riders who have reached the end of the trail.

## Simpson Burial Rites Held Thursday

From the Amarillo Daily News: Final tribute was paid to the memory of William Simpson, Thursday, July 20 at the N. S. Griggs and Sons Chapel, at 4 o'clock.

Mr. Simpson, well known bond broker in Amarillo, died of a heart ailment at his home, 2116 Hayden Street, Wednesday afternoon. He had suffered a heart attack Tuesday afternoon, while at work.

Burial will be in Cookeville, Tenn. The body was sent there over the Rock Island last night. The Simpson family home is in Cookeville.

Mr. Simpson first came to the Texas Plains in 1922. Previously he had lived in Tennessee. Born June 9, 1893, in Sparta, Tenn., Mr. Simpson's first employment in the Panhandle was in wheat farming in Floyd County. Later he moved to Plainview, where he obtained his start in the brokerage business. Four years later, in 1931, he moved to Amarillo, continuing in bond trading.

Pallbearers at the funeral were Charles Ware, Dale Smiley, J. N. Riggs, E. C. Nelson, C. A. Christoph and Tully C. Garner.

During the eight years that the bond broker lived in Amarillo he became widely known in the area. "Everybody who knew Will was his friend," C. A. Christoph, an intimate friend, stated yesterday. Mr. Simpson was affiliated with the Baptist Church and was a member of the Masonic Order.

Survivors are his wife, Mrs. Merle Simpson; two children, George L. and Mildred Ann, both of Amarillo; three brothers, W. H. Simpson of Floydada, D. C. Simpson of Sparta, Tenn., and George L. Simpson of Dallas; and two sisters, Mrs. D. A. Keeton of Sparta and Mrs. Lillian Eams of Dallas.

## Home Demonstration Meeting Meet Lubbock

July 26.—Biennial officers and probable re-constitution and by-standers of the Demonstration Association gather at Lubbock for their tenth annual

to 560 voting delegates visitors are expected to aggregate attendance to a thousand, according to a sociologist working with women's organizations for College Extension Ser-

## TEXAS MASTER FARMERS COMPLETE STATE ORGANIZATION IN SESSIONS AT A. AND M. COLLEGE MEETING JULY 13

### Sixty Five Farm and Ranch Families Honored By Progressive Farmer With Designations

## Attending National Chiropractic Convention

J. G. Pruitt is spending this week in Dallas attending the National Chiropractic Convention. He left Friday afternoon and is expected to be away until August first.

## Elliott And Thomas Attended Firemens School

Firechief Verne Elliott and Aldrege Thomas of the local fire department returned home Saturday from A. and M. College where they attended the short course school for firemen from July 17 to 21. Mr. Elliott took the advance course in fire fighting while Mr. Thomas took the general course.

In the training given the local fire fighters, the importance of first saving lives, secondly to save the property was stressed, Mr. Elliott said. Sight-seers to fires often times are a handicap to the fire-fighting boys, and local people who rush out to the fire, should bear in mind that they often create a hazard. Visitors to fires should wait and give the fighters a chance. This particular phase was stressed in the school Mr. Elliott indicated.

## J. G. Martin In Market This Week

J. G. Martin, of the Martin Dry Goods Company is in the Dallas and St. Louis market this week for his company. The wholesale market opened Monday in Fort Worth and Dallas.

Mrs. M. L. Childress, of Vernon, arrived last Thursday and is visiting among friends for several days, and attending to business here.

College Station, July 26.—Of the 65 farm and ranch families honored by the Progressive Farmer with the Master Farmer designation since 1926, 21 were present here for their session held July 13 in connection with the Texas A. and M. College Farmers' Short Course.

Organization of the Master Farmers of Texas was completed when they adopted a constitution and elected the following officers: F. O. Masten, Wellington, president; T. Fred Evins, Southton, vice president; Eugene Butler, Editor, Progressive Farmer, Dallas, secretary; Executive committee members: Mrs. J. M. Chamblie, Mabank; C. M. Caraway, De Leon.

Master farmers present were: 1926 winners, J. H. Buson, Pittsburg, Camp county; Mr. and Mrs. C. M. Caraway, De Leon, Comanche; Mr. and Mrs. A. C. Wurzbach, San Antonio, Bexar county.

Winners of 1927 were: B. B. Gary, Floydada, Floyd county; Mr. and

Mrs. L. H. Hensaring, Madisonville, Madison; Cal McCurdy, Decatur, Wise; H. Reuter, Waco, McLennan county.

1928 winners: Mr. and Mrs. T. Fred Evins, Southton, Bexar; Henry Jund, Otto, Falls; F. O. Masten, Wellington, Collingsworth county.

1929 winners: Mr. and Mrs. J. M. Chamblie, Mabank, Kaufman; Mr. and Mrs. C. A. Pepper, San Antonio, Bexar county.

1937 winners: Mr. and Mrs. E. C. Jolie, Clifton, Bosque county; Mr. and Mrs. Walter Lill, Panhandle, Carson; Mr. and Mrs. L. L. Mackey, Longview, Gregg; Mr. and Mrs. Henry Schorsch, Jourdanton, Atascosa; Mr. and Mrs. O. A. Peterson, Roanoke, Denton county.

1938 winners: L. B. McCain, Robstown, Nueces; Mr. and Mrs. A. D. Winston, Whitehouse, Smith; Mr. and Mrs. Guy Beasley, McLean, Gray; Mr. and Mrs. J. H. Kinsler, Austwell, Refugio county.

## Scattered Showers Beneficial to Row Crops

Floydada received showers Wednesday afternoon amounting to one quarter inch, and heavier in places to the south of town. Some residents reported as much as one-half inch, however, it did not cover a very large territory.

The showers will be beneficial to crops that are in need of moisture at this time. Rain, last mid-week, west of town was beneficial to crops in that section of the county.

## Cecil Hagood In Dallas and Fort Worth Markets

Mr. and Mrs. Cecil Hagood left Sunday for Dallas and Fort Worth where they will attend the fall wholesale market which opened Monday. They will return home the latter part of the week.

Mr. and Mrs. Joe E. Pitts, of Amarillo, visited Mrs. Pitts' sister, Mrs. Hollums, Sunday night.

## C. B. Carmack Is Building Hatchery Feed Mill, And Produce House

Work is underway this week on a structure 34x140 feet in size which when finished will be used by C. B. Carmack for his hatchery business. The building is being constructed on a southeast front lot across the street from the Consumers Fuel Association property in East Floydada. The structure will have a south and east frontage.

Mr. Carmack is having the building erected in such manner that it will house in separate compartments, the hatchery department, a produce house, and a feed mill. Material used in the structure will be of the circle type iron, insulated with a heat resisting material. When the structure is completed Mr. Carmack will install machinery to produce poultry and stock feed, using grains grown locally in the manufacture of his products.

Mr. and Mrs. Joe E. Pitts, of Amarillo, visited Mrs. Pitts' sister, Mrs. Hollums, Sunday night.

## SAVING PEAS, BEANS AND GRAIN FROM WEEVIL DAMAGE IS VERY IMPORTANT AT THIS TIME

By ALLIE M. TIPPS, HM Supervisor, Farm Security Administration

If peas, beans, and grain are to be saved from weevil damage, an early start is necessary. Infestation begins in the field and progresses rapidly in storage, especially in warm weather.

Various methods have been successfully used in destroying weevils. Beans and peas that have been allowed to dry on the vines may be shelled and spread to a depth of one half to three fourths of an inch in trays, or shallow pans, and placed in the stove for 20 to 35 minutes at 165 degrees to 180 degrees fahrenheit, or a slow oven. This treatment will destroy insect eggs and weevils, thus reducing the possibilities of loss in storage, but it also destroys the vitality of the material treated, which consequently cannot be used for seed.

Another method frequently used, which also destroys the vitality of the seed is that of scalding. The material to be saved may be dipped in boiling water until the seed has been thoroughly heated. Immediately after being taken from the boiling water, the beans or peas should be drained, thinly spread on wire trays, or a clean surface in the sunshine and stirred occasionally until thoroughly dried.

The successful way of saving these seed for farm use is by using a fumigant. Carbon disulphide, otherwise known as high life is one of the best fumigants used. As the fumes of high life must penetrate the seed, the air temperature must be 60 degrees or higher, preferably higher. The bin or container should be built

tightly so that the gas does not flow away. Double walls and floors with building paper between, make an ideal fumigating bin. Grain piled on the floor or ground may be fumigated with reasonable success by covering with a tarpaulin, or heavy bag, and throwing dirt on the edges. Barrels, boxes, or ton cans, can be used for small amounts.

One ounce of high life per barrel, computing not only the volume of the grain, but the capacity of the container is needed. The gas settles downward, therefore the material should be applied at the top of the grain mass. As the efficiency depends upon rapidity of evaporation, the material should be applied in shallow pans, or saturated of cloths that will provide a broad evaporating surface.

If the grain is to be used for seed, the container should be kept tightly closed for 24 hours. If it is to be used for food, continue to fumigate for 48 hours. At the end of fumigation period as stated, ventilate thoroughly. This is of especial importance where the grain is to be used for planting. Where grain is fumigated in tight barrels, it will be well to tie a covering of burlap over it, and invert the barrel for an hour or two to permit the gas to flow away.

Fumigation does not prevent the seeds from being used for food, as the fumes are lost in the early stage of cooking. Nor does fumigation make the grain immune to attack by weevils later coming from outside sources. Hence, careful watch must be kept, and treatment again applied, as found necessary.

## Robbers Knock Knob of Hagood's Safe

Last Thursday night robbers entered Hagood's Dry Goods store through the skylight and knocked the knob of the safe and secured about \$175 in cash. A close check of the stock indicated that no merchandise was taken by the thieves. The safe was considerably damaged.

After making the cash haul the robbers made their exit through the back door of the store, leaving the rope anchored to the skylight which was used to lower themselves to the floor of the building.

## Floydada FFA Wins Honors At Temple

Temple, July 21.—The Crosbyton chapter of Future Farmers of America was named the outstanding chapter in the 16 areas of Texas in the Lone Star chapter contest at the state FFA convention here today.

Cotulla was second and Kaufman third. Awards were announced by the chapter committee.

Ablene High School was first in national chapter contest; McGregor, second, and Floydada, third.

Lavernia was first in the first year chapter competition, with Terrell second, and Lampasas third.

## Mining Town Is Ghost at Last

### Only Shacks Are Reminder Of Old Boom Days in Wyoming City.

SOUTH PASS CITY, WYO.—Wyoming's newest ghost town, South Pass City, has only a few weather-beaten frame shacks to remind visitors of the days when it boasted a population of 5,000 gold-hunters, pioneers and gamblers.

Abandoned more than 30 years after the rest of the state's famous early-time mining camps were deserted by their nomadic settlers, South Pass City is surrounded by several booming modern mining camps. It lies near the crest of the Continental Divide on the old Oregon Trail, 60 miles northeast of Rock Springs.

In 1860 when the gold rush began, Easterners and Mid-Westerners flocked to the almost-virgin wilderness of Wyoming. Ore was found in large quantities, and the rapid influx of gold-seekers continued.

**Wind All That Remains.**

Gamblers, bartenders and dance hall girls followed so that by 1865 South Pass City was one of a score of rip-roaring mining towns, echoing to the clink of picks and shovels on rock, the blaring music of honky-tonk dance halls, the bark of six-shooters and the whine of the wind. The wind is all that remains to disturb the quiet of the hastily-constructed boom town.

In 1878, with the decline of metal markets, the rest of the roaring frontier communities became ghost towns. The miners, gamblers and entertainers moved on to more lucrative fields.

South Pass City, however, survived, although most of its residents departed. When modern methods were introduced in the 1920s, several large mining firms established themselves near the once-famous town to extract an estimated \$500,000 in gold ore from the surrounding hillsides.

**Hung On for Time.**

The little town retained its post office and place on the map while other communities of its kind were remembered only in name.

Other ghost towns of the state, some marked by a few staggering frame shacks, still others torn down by the elements and settlers, include Cambria, in northeastern Wyoming near Newcastle; Battle, south of South Pass City in the Medicine Bow National forest; Rambler, two miles south of Battle; Eadsville, atop scenic Casper mountain, and Lavoye, in the Salt Creek field in Natrona county.

## National Parks to Offer More Camping Facilities

SAN FRANCISCO.—Americans are rapidly becoming camping conscious, according to Julian H. Salomon, national park service camping specialist of Washington.

On a tour of the California camping sites, Salomon explained this phase of the national park service's work as follows:

"It was assumed," he said, "that there were numerous agencies in the country interested in camp operations if they could be assisted in obtaining suitable sites and facilities."

"It was also thought that smaller agencies operating camps would be able to pool their efforts if offered improved facilities to encourage better service."

"As a result, through consultation with local agencies, camp development was studied thoroughly from the viewpoint of the committee's needs. Out of these consultations came organized camping for family boys, girls, educational and other groups utilizing facilities carefully planned to provide the greatest use at a minimum cost."

Salomon said that in 1936 there were only nine camps in operation in the United States with a total of 37,310 camper days.

For 1938 these figures were increased to 49 camps with a total of 378,173 camper days.

The service expects to have at least 80 camps in operation with a probable total of 60,000 camper days for 1939.

## Matrimonial Agency Is Operated From Prison

COLUMBUS, OHIO.—The operation of a matrimonial agency known as the "Idealist club," from Ohio penitentiary, was disclosed today with suspension of S. M. Current, a Bertillon officer.

Current, whose job it was to take photographs, fingerprints and measurements of prisoners, had been engaging in the matrimonial enterprise on his employers' time. Acting Warden William F. Amrine said. He was suspended 30 days.

One of Current's matrimonial circulars read:

"Our sole aim is to help you find your ideal and we do not cease in our efforts until the desired goal is reached. Send in the enclosed membership application today and let us start working for your happiness at once."

**Mayor by Night**

ERITH, ENGLAND.—Rev. J. W. Wilkinson, mayor of this town, has so many evening engagements to fulfill that he describes himself as a "night-mayor."

## Lights of New York

By E. L. STEVENSON

Not so long ago, Arthur French played before 50,000 persons. Now he often watches 50,000 persons at play. Back in 1928 he was captain of the Harvard football team and just about single-handedly defeated Yale in the traditional game. Two days after his graduation, he had a job. Punching tickets at Manhattan beach. Since then, he has done just about every chore, except chef in the kitchen about the resort. Now he is general manager and holds the rank of vice president of the Joseph P. Day Enterprises. He married Mr. Day's daughter and lives a happy home life over in Short Hills, N. J. He still keeps up with athletics to a certain extent. Manhattan beach is two miles long. At least 10 times a day, he travels the entire length. Then, too, in his spare time, he invented a football and basketball, one-third regulation size, to train youngsters for those games when they grow up.

Instead of being stranded, vaudeville is now stranded. At least it is out at Manhattan beach. To house the week-end performances, which read like the bills of the old Palace, Mr. French has constructed a modern amphitheater with a seating capacity of 10,000. The stage resembles the Hollywood Bowl but is of original design. It has private offices and dressing rooms for the stars and a private sun porch where the artists can enjoy a day at the beach out of reach of autograph hounds. John Philip Sousa III, grandson of the great bandman, who opened the old Manhattan beach bandstand, is the band leader and he swings the marches of his famous grand sire. Recently he announced his engagement to Miss Jean MacDonald of Hazleton, Pa.

Getting back to General Manager French, the Harvard star of other days. He has still another connection with athletics. Under his supervision are 82 handball courts, 22 tennis courts, 15 basketball courts, several championship swimming pools and numerous other activities, including bridge classes.

In the opinion of Earl Robinson and Alex North, composers for the Federal theater production, "The Life and Death of an American," it is easier to compose a new song than to find an old one, especially if the latter happened to be a national hit. Among the recordings called for by the script are "Yes, We Have No Bananas," "Missouri Waltz," and "Turkey Trot." In the first music shop visited, Robinson and North encountered a girl of about 18. She had never heard of "Yes, We Have No Bananas," but thought it was a swell title. The composers went out feeling like Rip Van Winkles.

The Columbia university library finally yielded "Yes, We Have No Bananas," but could do nothing about "Turkey Trot" or "Missouri Waltz." From the New York public library came the sheet music of "Turkey Trot" and when the play opened, a pit orchestra had to be substituted for a gramophone. The grandmother of a member of the cast donated the "Missouri Waltz" record. Then it was learned that there was no "Over There" record. A long search disclosed one at the bottom of a pile of old records in a Ninth avenue second-hand furniture store.

In the old days, it used to be the cellar. Then it was the basement. Now, according to what I was told at the Court of Flame at the World's fair, it is the "Rumpus Room." It seems that the "Rumpus Room" is a place where you can have a lot of fun and make a lot of noise. The one at the fair has just about everything in the way of athletic apparatus except a bowling alley. And there's an easy chair and book table, too. Curiously enough, it's heated with a gas furnace. And there was a time when I was punished by being sent down to the cellar. That wasn't all there was to it, however. When I got down there I had to sort potatoes.

**Saves Pin Nine Years**

PHILADELPHIA.—An open safety pin that 18-year-old Katherine Norwood, of Lexa, Ark., swallowed nine years ago, has been removed from her lung. Temple university hospital announced. She felt no ill effects until a few weeks ago.

**Who's Grinning**

HARTFORD.—A Connecticut scientist is studying which side of the face people grin on more.

## Old School Photograph Reflects Judge's Regret

MONTREY, CALIF.—After imposing a fine of \$25 on Ralph Small, of Stockton, for reckless driving, Police Judge Monte Hellam drew a mangled grammar school picture from his wallet, and beckoned the prisoner to his side. Pointing to a small boy in the first row, he said:

"Isn't that you?"

"Yes—that's me, all right," the prisoner replied.

Then, pointing to a tall lad in the back row, Judge Hellam said:

"And that's me. Sorry I had to do it, but it's the law."

## Dry Check Artist Has Slim Picking With New Law

First conviction, amount less than \$5, confinement in county jail not exceeding two years, or fine not exceeding \$200. Second conviction, confinement in county jail thirty days to two years.

First conviction on \$5 to \$50, confinement in county jail not to exceed two years, or fine not to exceed \$500. Second conviction, county jail term of thirty days to two years.

First conviction, \$50 and over, confinement in penitentiary not less than two nor more than ten years.

Third or subsequent conviction for either of the above offenses, confinement in the penitentiary for not less than two nor more than ten years, regardless of the amount involved in the first two convictions.

H. B. No. 190, which repeals Section 4 of Article 1546 of the Penal Code of 1925, makes it unlawful for any person, with intent to defraud to obtain any money, goods, service, labor, or other things of value, by giving or drawing any check, draft or order when such person does not have sufficient funds with the drawee to pay the instrument and all other outstanding instruments at the time it was given. Section 1 extends the above provisions to cover the payment for goods and services heretofore received. Section 3 makes it unlawful for a person to secure or retain possession of any personal property to which a lien has attached, by the giving or drawing of such an instrument. In all cases, the non-payment of the instrument upon presentation is prima facie evidence that the person gave or drew it with intent to defraud.

Section 6 of the Act provides that any person who has filed a complaint or furnished information resulting in the acceptance of a complaint by a district or county attorney shall be guilty of a misdemeanor if he suggests or requests that the case be dismissed, and upon conviction shall be fined not less than \$100 nor more than \$500.

In all prosecutions under the Act, the issuance and service of process, either in or out of the county where the prosecution is pending, is to have the same effect as though the offense were a felony. Likewise, officers and witnesses are to be compensated in like manner as though the offense were a felony.

Mr. and Mrs. A. D. White, Jr., and children, of Berger, came Friday for a visit with his mother, Mrs. A. D. White.

Hebe Odum and family, of Azusa, California, visited last week with J. H. Poore and family.

Mr. and Mrs. George Sherrill and Mrs. L. D. Morgan went to Itasca Sunday. Mrs. Morgan remained and Mr. and Mrs. Sherrill returned home Sunday night.

## Forty Tribes Dance at Gallup Ceremonials

War bonnets, ceremonial paint and feathers signal the approach of the Inter-Tribal Indian Ceremonial to be held at Gallup, New Mexico, August 17-20, inclusive.

GALLUP, N. M.—Indian drums are sounding in the far places of the Southwest. Soon it will be time for the many tribes to gather "at the place by the bridge" (Indian for Gallup, N. M.)

Here each year seven thousand Indians from nearly forty different tribes join forces to produce America's most colorful and spectacular Indian Show, the annual Inter-Tribal Indian Ceremonial. For four days they will dance, chant, compete in sports and engage in weird pagan rites before capacity audiences made up of their white brothers. The Gallup Ceremonial is the largest and most authentic Indian spectacle of its kind in the country.

Usually the Ceremonial is held the last part of August. But a change in dates has been announced by Joseph Lieberman, Santa Fe agent and this year's president of the

Ceremonial Association. The event will open on August 17th and run through four days with the last performance scheduled for the evening of the 20th. In addition to seven regular shows, the association has also arranged a colorful street parade each day except Sunday.

A special attraction each year is the unusual display of Indian arts and crafts in the Exhibit Hall where thousands of articles are shown. A score of native craftsmen will be at work showing the technique of Indian handicraft.

Yes, the Indian drums are sounding in the far places of the Southwest, and soon the Navajos, Zunis, Hopis, Utes, Apaches, Lagunas, Acomas and a score of other tribesmen and their families will start the trek to "the place by the bridge," Gallup, N. M.

**Be Helpful to Those About You; M. E. Coyle Says**

Detroit, July 26.—"The best advice I can give you is to try and be helpful to those around you." This counsel is the highlight of the message which M. E. Coyle, general manager of Chevrolet, delivered to the 32 students of the Post-Graduate School of Modern Merchandising and Management at its luncheon in the Recess Club here this week. The school is nearing completion of the sixth session held since its organization by W. E. Holler, general sales manager of Chevrolet, in 1838. "You will graduate and eventually become the heads of your places of business as dealers," said Mr. Coyle. "I do not like the word 'boss' for those who head any establishment or department. I have worked for many people have been under my jurisdiction, and the ones I remember best are those who were helpful to me. "That is the best advice I can give you—try to be helpful to those around you. Do this unselfishly. Be sincere. "Have courage, and confidence in your job. The world isn't finished yet, and it is filled with opportunity for everyone who has these qualities. From this school, you have received not only the background of the industry, but also the broader view which comes of contact with others from different parts of the country. Develop this broader view in your minds. Learn to evaluate and weigh, to form your own opinions and decide your own course of action. "You will learn that you must do your own work. Nobody will, or can, do it for you. Those who have created in the past, and those who have carried on, have had to learn that early. Those who have been leaders these past 40 years of rapid change, built on that foundation. It will be the same in the future."

Mr. and Mrs. John A. Hollums visited in Lubbock Sunday with Mrs. Charley Watkins and Mrs. Sarah K. Duncan.

**Information on Gas Refunds Is Given By Sheppard**

Farmers and gasoline dealers—as well as all others who under the law are entitled to a refund in gasoline taxes—were urged by Comptroller George Sheppard today to study the terms of a new state law making several material changes effective September 1.

Farmers are among largest users of gasoline upon which the tax is paid; and after September 1, Sheppard pointed out, the Comptroller can pay refunds only to those who purchased their fuel from licensed dealers. Hence it is important from the users' standpoint that they make certain the dealer is licensed.

The departmental analysis of the law showed that these changes were made:

1. Beginning September 1, 1939, the Comptroller is prohibited from issuing warrant in payment of a refund claim on any motor fuel not purchased from a licensed dealer.
2. All dealers in motor fuel for refund purposes must obtain license from the Comptroller authorizing such dealers to sell such motor fuel. Failure to obtain license subjects the dealer to criminal prosecution.
3. Licenses and invoices of exemption will be furnished the dealer, free of cost, by the Comptroller's Department when application is made therefor.
4. All invoices of exemption will be serially numbered, and each supply furnished a dealer by the Comptroller's Department will be charged to such dealer, and an accurate account of all such invoices of exemption must be kept by the dealer. No other form of invoice of exemption may be used than that furnished by the Comptroller.
5. The dealer is required to keep accurate record of all motor fuel sold, for a period of two years.
6. Blank invoices of exemption not transferable or assignable unless authorized by the Comptroller. Dealer is not authorized to lend or give away invoices of exemption, as he must keep accurate books, records and account of all invoices of exemption issued to him.
7. Invoices of exemption must be issued at the time of delivery of the motor fuel. Heretofore such invoices have been issued at the time of sale.
8. Unless the users of refund fuel and the dealers who sell refund motor fuel are advised of this change in the law a great deal of confusion will result, and a lot of refund claims will not be payable. It is, therefore, important that each user of refund motor fuel who expects to file claim for a refund of the tax acquaint himself with the new provisions of the law.

Mr. and Mrs. Richard Stovall returned home Sunday from a ten days trip to the New York World's Fair.

**SHERIFF'S SALE**

The State of Texas, County of Floyd. NOTICE IS HEREBY GIVEN that by virtue of a certain Order of Sale issued out of the Honorable District Court of Floyd County, Texas, on the 10th Day of July, 1939, by Geo. E. Marshall, Clerk of said Court, for the sum of ONE HUNDRED EIGHTY-SIX & 79/100 (\$186.79) DOLLARS, with interest thereon from March 7, 1939, at the rate of 6% per annum, and for the further sum of FIVE HUNDRED NINETY-NINE & 56/100 (\$599.56) DOLLARS, with interest thereon from the 16th Day of May, 1939, at the rate of 10% per annum, and all costs of suit, under judgment dated May 16, 1939, in favor of Mark W. Duncan and Maud E. Hollums, Administrators of the Estate of Arthur B. Duncan, Deceased, in a certain Cause in said Court, No. 3065, styled Mark W. Duncan Et Al, Administrators, vs Otis E. Murray Et Al., placed in my hands for service, I, F. N. CLARK, SHERIFF OF FLOYD COUNTY, TEXAS, did on the 10th Day of July, 1939, levy on certain real estate situated in Floyd County, Texas, to-wit:

All of Lot Number Twelve (12), in Block Number Sixty-Two (62), in the Town of Floydada (Floyd City), in Floyd County, Texas, as shown by the Plat of said Town recorded in Vol. 2 P, Page 294, Deed Records of Floyd County, Texas.

And levied upon as the property of Otis E. Murray, one of the Defendants in said Cause, and that on the first Tuesday in September, 1939, the same being the 5th Day of September, 1939, at the Court House Door of Floyd County, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said Order of Sale, I will sell said above described real estate at public venue, for cash to the highest bidder, as the property of said Defendant Otis E. Murray.

And in compliance with law, I give this notice by publication, in the English Language, once a week for three consecutive weeks preceding said day of sale, in The Floyd County Plainsman, a newspaper published in Floyd County, Texas.

WITNESS MY HAND This 10th Day of July, A. D. 1939.

F. N. CLARK, Sheriff Floyd County, Texas.

**Long-Lived Hose Should Be Selected By Women**

College Station, July 26.—Hose with extraordinarily long lives are not just "happen-so's". There's a reason behind their durability, says Mrs. Dora E. Barnes, specialist in clothing for the A. and M. College Extension Service.

Mrs. Barnes points out that most hose wear out because the weight selected is not suitable for the use of the hose, or because they are neither appropriate to the occasion nor to the shoes with which they are worn. Poor fit in hosiery often results in breaks or runs.

"Two-thread," "three-thread," or "four thread" means the number of fiber strands twisted or laid together to make one yarn. Crepe hose are manufactured from yarn that has been highly twisted, and this makes them more resistant to snags, Mrs. Barnes says. She points out also that four and five-thread hose give better general service than two and three-thread, the latter being more appropriate for dress and evening wear. Snags occur where there are open places to catch, due to too few stitches and too few courses. In hose, courses are the round and round rows of knitting that show on the wrong side, the specialist explains.

**SINCE 1883**  
Ballard's Snow Liniment has been an inexpensive aid in relieving the discomforts of Muscular Congestion that accompanies Sprains, Strains, Bruises, and Muscular Soreness from over-exertion or undue exposure. In 30c and 60c bottles.

WHITE DRUG COMPANY

For unusually long life, stockings need reinforcement where the shoe rubs and in the welt or garter top. Especially valuable, Mrs. Barnes adds, is a two-way stretch and a run stop in the garter top of the stocking. Another recent help to the lady hose buyer is the new elastic top stocking. In bending or kneeling the elastic gives, thus avoiding bursting of knees and runs.

Miss Bonnierea Stephens of Lubbock, is visiting this week with her father, W. Stephens and Mrs. Stephens and her sister, Bobbie Jean.

### Reports on Boy, 12, Reared by Baboons

Professor Says It's First Known Case of Kind.

LONDON.—The "Tarzan" existence of a South African Negro boy, said to have been kidnapped and reared by a band of baboons, was described in a report by Prof. Raymond Dart, of the University of Witwatersrand, Johannesburg, South Africa, which was issued here by Prof. R. Ruggles Gates, of the University of London.

According to the report, the boy was about 12 years old when he was found and rescued by white men. He could make only the guttural sounds of the anthropoids with which he had lived. Since then the boy, now named Lucas, has learned to speak Afrikaans (South African Dutch) and has given a vivid account of his experiences.

"My food consisted mainly of crickets, ostrich eggs, prickly pears, green mealies (corn), and wild honey," he said. "I was kicked on the head by an ostrich while raiding its nest, and often was stung by bees while robbing hives."

"While with the baboons I walked on all fours and slept in the bush, entirely naked."

"I was hunting food one day with my baboon companions when two policemen shot at us with revolvers, and I was captured by one of the policemen."

Professor Gates said he believed the boy's account, and said it was the first known case of a child adopted and reared by anthropoids, although bears and wolves, he said, have been known in several instances to have reared human beings.

### Evil Effects of Alcohol Are Harder on Women

DWIGHT, ILL.—Steady rise in the number of women alcohol addicts in recent years is largely due to the fact that women are more susceptible to the injurious effects of alcohol than men, according to Dr. R. E. Maupin, of the medical staff of the Keeley institute.

"It is more dangerous for women to start drinking than it is for men," said Dr. Maupin, who pointed out that the institute had recently reconstructed its quarters for women patients to care for an increasing influx.

"Study of hundreds of cases of alcoholism indicates that women's nervous systems react more quickly to the effects of alcohol than do men's. It is thus easier for women to acquire the disease of inebriety."

"No woman—or man for that matter—deliberately takes a drink with the idea of becoming a drunkard. Yet once a susceptible person has acquired an appetite for alcohol, he or she keeps drinking to satisfy a craving by irritated nerve cells that demand the sedative effects of alcohol. Drinking then becomes a hazard to health and position and it becomes necessary to seek medical treatment for the disease."

### Ostrich Slaughter Rises With Demand for Pelts

CAPE TOWN, SOUTH AFRICA.—Because only dusters wear ostrich feathers now half a million ostriches have been slaughtered in the Karroo district of South Africa in the past four years.

Ostrich feathers at one time brought an income of \$10,000,000 to the union. White feathers, which brought \$100 and more a pound in the boom days before the World war, can hardly be sold now at 50 cents a pound.

But as feathers have gone down skins have gone up, and now ostrich skins are selling at \$1.25 each.

So the farmers are killing ostriches for their skins, which are sent to Britain, France and the United States to be made into fancy leather goods. The ostrich farms of the Karroo are giving place to fields of lucerne and vineyards.

### WPA Workers Uncover Century Old Boat Hull

CAPE MAY COURTHOUSE, N. J.—The hull of a 60-foot vessel, believed to be more than a century old, has been uncovered here by WPA workers.

Freeholder O. M. Corson, superintendent of the project, said the boat was constructed of oak and pine timbers joined by spikes made of iron and bronze. Corson said the keel was fairly well preserved.

Bronze spikes have not been used generally in boat building for at least 100 years, according to Edward M. Post, custodian of the Cape May county museum.

### Natives Convinced Valley Is Haunted

PORT MORESBY, PAQUA.—Some of the most fertile valleys in the mountains of Paqua are haunted by evil spirits, according to native superstition. A government officer gave orders for a road to be made through a certain valley, and a bridge built across a stream. Later, he found that nothing had been done. The village constable explained that the spirit of the valley would punish with madness any man who dared to touch the trees growing there.

### Baseball Now Is Big Business

Staggering Figures Appear On Economic Side of National Game.

WASHINGTON.—While historians and pseudo historians are quarreling over the origin of baseball, statisticians reveal staggering figures on the economic side of the game. Old and young, big and little, male and female—baseball is of interest to all of them, either as players or spectators. So strongly has the game caught the fancy of the country that there seems to be something lacking in the man who cannot catch or throw a ball with some semblance of grace, and in a woman who has not stood on the sidelines, become sun-baked in the bleachers, or sipped "pop" in the cool of the grandstand.

"Baseball's contemporary hall of fame met in Cooperstown, N. Y., to celebrate a century of the national game; but baseball for dollars did not arrive until 76 years ago on a field in Brooklyn, N. Y., when the first commercial game was played," says the National Geographic society.

"Out of that game has grown a multi-million dollar business. Compare, for instance, the open fields and the later board fence enclosures where the early game was played, with the gigantic baseball stadia of steel and cement now in every large city.

Runs Into Millions.

"The American league plants alone, not including the value of franchises, are valued at \$20,000,000, and that figure does not include the \$4,000,000 municipally owned stadium used by the Cleveland American league team. The Yankee Stadium in New York was the most costly, topping the Cleveland plant by \$1,000,000.

"Like any other business enterprise, baseball has its ups and downs. Attendance figures do not remain stable from year to year. For instance, the largest number of spectators at a single game did not assemble this year or last year, but in 1932 when 73,592 attended a game in Cleveland. Last year, however, was a banner year for spectators at a double-header when 53,421 people packed the New York Yankees' stadium. This attendance was in striking contrast to the 'gate' at the first commercial game which was witnessed by 1,500 spectators.

"In the early days of baseball clubs, members were required to be in good standing for a month before they could play. Today a player may be literally bought and sold and may then play on a new team immediately after he is acquired. The record price paid for a player in all the history of baseball is \$250,000.

"The cost of running even an average big league team would amaze the throng passing through the turnstiles at any ball yard. The salaries alone of players and employees, numbering about 300 when a team is at home, amount to about a quarter of a million dollars for the season. Then there are additional expenses of about another quarter million. This latter figure includes such items as six dozen baseballs for each of the 77 games at home and two dozen for an equal number of games away.

Make 7,000,000 Baseballs.

"In 1937 nearly 3,000,000 bats, 23,000 masks, and 800,000 gloves were manufactured to keep up with the demands of baseball. And manufacturers made more than 7,000,000 baseballs. Covers for the balls are still handwoven in spite of other modern developments in the manufacture of baseball equipment. Horsehide covers largely come from Europe.

"The first amateur association of baseball clubs was organized in 1837 and the first series of games was played the next year between teams from New York and Brooklyn at Flushing, N. Y., near the present World's fair grounds.

"The first intercollegiate game was played July 1, 1859, when Amherst college defeated Williams college at Pittsfield, Mass. The score was 73 to 32—large figures compared with scores of today, but in those days scores of more than 100 were not uncommon.

"Every large city in the United States has a dozen or more baseball clubs. Nearly every college has a varsity team. In rural communities baseball is a favored pastime. Six million spectators have witnessed American league games alone in one year. Add to that the turnstile figures of the National league and scores of lesser leagues, college game spectators, and the fan line at thousands of free amateur 'sandlot' games and you will arrive at a figure that may almost equal the population of the United States."

Killed by Electricity

IONIA, MICH.—Stephen Ludwick, 68 years old, was killed when a pipe he was pulling from a well touched an electric wire. William Baker, at whose home the accident occurred, was hurled several feet by the shock.

Has He a Job?

DANVILLE, PA.—A man walked into the jail and informed the sheriff he had been sentenced to five days.

### Lois Willson Is Home From Vacation

Miss Louise Willson, daughter of Mr. and Mrs. J. M. Willson, returned home last week from Camp Waldemar, near Kerrville, where she had spent a six weeks vacation. The camp activities for the first term closed Friday night with the final banquet at which time numerous awards were made for achievement in camp sports.

Louise was a first year camper and received the felt all star. She also received a gold medal in tap and ballroom dancing. Louise was a member of the Comanche tribe which won the tribal plaque from the rival Tejas tribe. Presentation of this plaque was the climax of the banquet program and was made by the camp director, Miss Doris Johnson.

### D. I. Bolding Underwent Operation

D. I. Bolding, who was taken suddenly ill Sunday night with appendicitis, was carried to a Plainview hospital where he underwent an operation early Monday morning. His condition is considered satisfactory.

Mr. and Mrs. P. T. Hamilton, Jr., and children, P. T. Hamilton, Sr., and Miss Margaret Hamilton, all of Lubbock, visited Mr. and Mrs. Trenton T. Davis Sunday.

Mrs. Alma Smalley and Mrs. O. L. Stannell left Sunday for Clovis, New Mexico, where they were joined by Mrs. Jim Hardgroves and the party went to Colorado for a few days vacation trip.

Misses Bernice Patton, Selma Lidder, Gladie Goin, and Ina Sims spent the week end at Buffalo Lake, near Amarillo, and Mrs. Geo. A. Lidder accompanied them to Amarillo where she visited Mr. Lidder and George Fry until Monday.

Mrs. Jess Brown and Miss Louise Hyatt visited relatives and friends in Lubbock Sunday. Mrs. Brown remained in Lubbock for a two weeks vacation and Miss Hyatt returned home Sunday night.

### Harley Sadler's Show Net \$3,000 For Local Fire Department

In a two-night stand here last week Harley Sadler's Show under the auspices of the local Fire Department, showed to a capacity crowd at three performances. Under the arrangement between Mr. Sadler and the local firemen the fireboys received \$38.00 out of 10% of the front gate. The funds will be added to the treasury of the fire department.

Mr. Sadler was highly pleased with the turn-out of Floydada and Floyd County people.

Starks Green, of Brownsville, is visiting his grandmother, Mrs. J. D. Starks, and his mother, Mrs. Jas. K. Green, here this week.

Mrs. L. D. Morgan, of Westaco, Texas, is visiting her daughter, Mrs. George Sherrill. Mr. and Mrs. Sherrill went to Haskell after Mr. Morgan last Wednesday. She had been visiting her mother, Mrs. J. S. Boone, there for several days.

Mrs. A. C. Sullivan and Mary Lee Thacker returned home Sunday from Chicago, where they had spent the past month visiting with Mrs. Sullivan's daughter, Miss Edna Sullivan. They were met at Amarillo by Dr. and Mrs. C. M. Thacker and Mrs. Judson Chenoweth.

Mr. and Mrs. E. K. Barker and family returned home early this week following a vacation of several days in New Mexico. They went through the Carlsbad Caverns Saturday.

Mr. and Mrs. John A. Hollums visited in Lubbock Sunday with Mrs. Charley Watkins and Mrs. Sarah K. Duncan.

Judge and Mrs. L. G. Mathews returned home Friday night from Formberg, Montana, where they visited their daughter and family, Mr. and Mrs. William G. Graff. Mrs. Mathews had been with her daughter about two months.

M. B. Martin returned home Thursday night from Memphis, Tennessee, where he attended a district managers convention of the W. T. Raleigh Company.

**NAGGING BACKACHE**  
 May Warn of Disordered Kidney Action. Don't Neglect It!

Modern life with its hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, whatnot, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up at night, swelling, puffiness under the eyes — a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance may be burning, scanty or too frequent urination. **THE REASON DOAN'S ARE FAMOUS** All over the country grateful people tell us: "Doan's helped me! I recommend Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores."

It is better to ask your neighbor! In such cases mood them to you. That is why we say: **Ask your neighbor!** Doan's Pills have won world-wide approval than on something less favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores.
