ADVANCE PREPARATION FOR RECEIPT OF CANNING SUGAR IS NECESSARY TO APPLICANT

General Services For Pioneer Resident

College Station, June 11.—Home-makers canning fruit this year will save themselves time and trouble if they do some advance preparation before applying to their local rationing board for certificates.

"Be prepared to answer these three questions when you go," advised Winifred Jones, specialist in food preservation for the A. and M. Extension Service: How many quarts of fruit did you can last year? How many quarts of fruit do you plan to can this year? How many quarts of last year's fruit do you still have on hand? Another word of advice is: "Keep a record of the fruit you can with your rationed sugar because your rationing board will ask for it when you apply for more sugar."

Answering these questions will be relatively simple for the thousands of rural homemakers who have kept records and filled food preservation budgets as recommended by county home demonstration agents of the Extension Service.

Rural homemakers may stretch their sugar allowances by using thinner syrups for canning fruits and fruit juices and by using corn syrup or honey as substitutes in canning recipes, Miss Jones says. Information on these methods can be obtained from county home demonstration agents. She warns that saccharine, a coal tar product with an extremely sweet taste, cannot be used in canning because it becomes bitter when heated.

Here is the specialist's summary of the rationing regulations as they apply to sugar for canning:

"You will get one pound of sugar for every four quarts of finished fruit you are putting up, and you may can as much fruit as your family needs. You may have an additional pound of sugar for each person in your family to make a small supply of jams, jellies, and fruit butters."

SHAW IS RECOVERING FROM INCIDENT

Shaw, who was accidentally shot in the chest while discharging a rifle at a range, was discharged from the hospital for treatment at his home last Wednesday. He is much improved and it is expected he will soon be home.

County Singing Convention to meet

County Singing Convention will be held at Lakeview Sunday, June 14, starting at 2 o'clock. Second Sunday Singing Convention will give over for the convention.

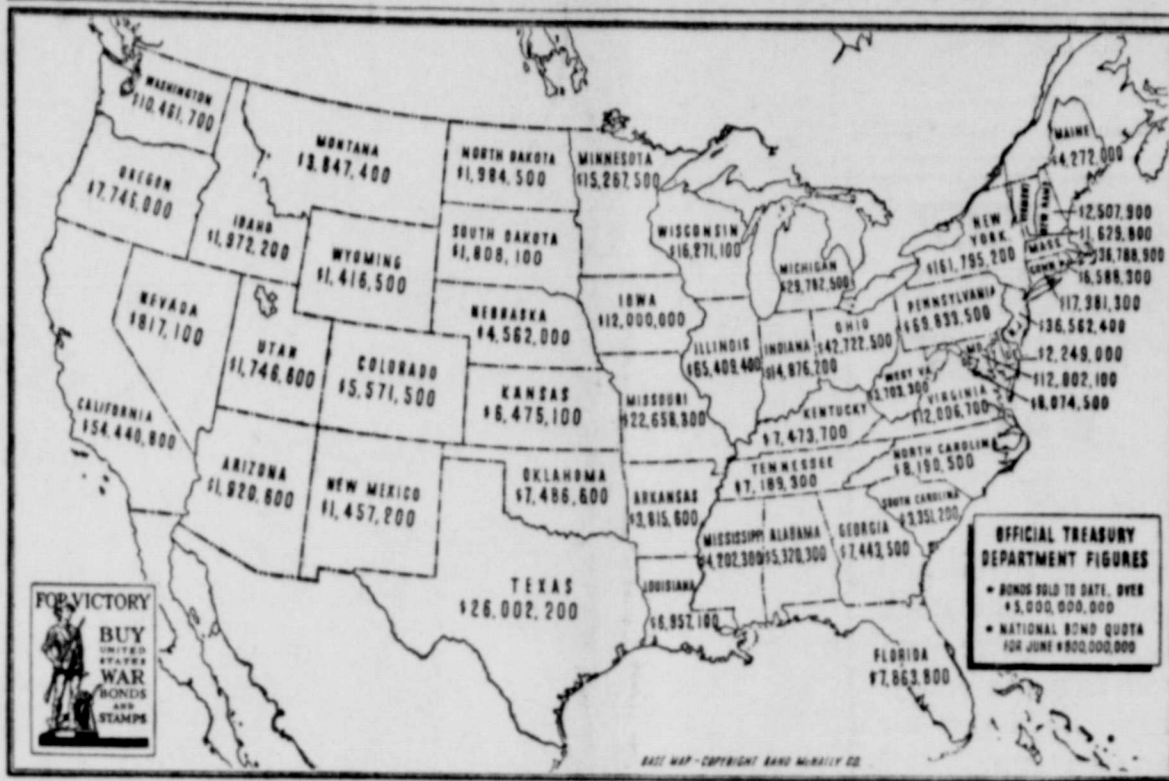

A crowd is expected to be present and many out of towners will be in attendance. He is invited to attend.

EVERY CANADIAN IS FIGHTING

men and women must be found for war industries. Recognizing the need for maintaining farm production, the government has granted indefinite postponement of military service for agricultural workers. They may enlist as volunteers in the armed forces but must not accept non-agricultural work without special permission. Training centers and placement services have been established to introduce more workers into war industry and transportation may be arranged to an area where women workers are required. Men fit for military service between 17 and 45 years are barred from accepting employment in a long list of restricted occupations which include almost every civilian job not connected with war work. Every Canadian is affected in some measure by the regulations.

Official U. S. Treasury War Bond Quotas for June

The above map of the country shows the War Bond Quota by states for the month of June totalling \$800,000,000. Everybody every day is expected to invest at least ten per cent of his income in War Bonds to aid in financing America's offensive against the Axis powers.

Local Merchants Feature Onions — The Victory Food

One of the largest crops of mature onions ever produced at this time of year is now on the market, according to Carl Minor. Local merchants are cooperating in the nationwide campaign to feature onions which Secretary Wickard has designated a Victory Food Special, June 8-15.

Clever cooks who know the chief value of the onion is its flavor will not fail to take advantage of the plentiful supply of onions which are being sold at such reasonable prices. For with a little ingenuity, onions can prove their weight in gold by varying the flavor of nutritious foods which are served from day to day, he said.

Registration of all Men 18 to 20 Will Be Held June 30

Registration of all men born on or after January 1, 1922, and on or before June 30, 1942, will be held June 30, 1942, at the office of the Local Board in the American Legion Hall, and in the basement of the Methodist Church at Lockney. This registration will include all men who have reached the age of 18 and who have not already registered, up to the age of sixty five.

Hours of registration will be between 7:00 a. m. and 9:00 p. m., and the Local Board will register on Saturday, Sunday and Monday, as well as on Tuesday, the registration day, and will have sufficient help so that there should be very little delay, as this will be right at harvest time.

This Year is Time To Make Good Cotton Crop

College Station, June 11.—It's horse sense to build up cotton yields this year and hold down losses. Low losses mean low premiums but high losses mean high premium rates under the Federal Crop Insurance program.

"Higher the premiums soar, less effective will become the program which helps stabilize farm income," Donald L. Cothran, state crop insurance supervisor, said in explaining that loss experience each year is used to determine premium rates in future years.

He pointed out that cotton crop insurance won't make a farmer profit on labor and investment but that it served as an income safeguard when conditions beyond control of the grower deprived him of a normal crop.

Labor costs and prices of fertilizer and insecticides are likely to be higher this year, but lint is bringing around \$100 a bale, and cottonseed, none too plentiful, is selling at higher prices than in past years. To capitalize on these more profitable returns, Cothran urges farmers to produce as nearly a full crop as conditions permit.

While crop insurance contracts protect growers against losses due to unavoidable crop hazards, insured farmers must follow good farming practices and exercise reasonable precautions to avoid losses before indemnity payments will be paid by FCIC.

"We buy Federal Crop Insurance for protection, not for dividends, and like fire insurance, it certainly comes in handy when calamity knocks on the door," he explained.

Charles O. Hargis Reports for Special Train

Fort Custer, Michigan, June 6.—Private Charles O. Hargis, of Floydada, Texas, was among a group of enlisted men from two hospitals in training here have reported to the Commanding Officer of the Army and Navy Hospital at Hot Springs, Arkansas, for a month's course of instruction. The men were selected for the special duty because of their initiative and ability in the work assigned.

Private Charles O. Hargis, is studying the Medical Technician Course.

Your Dime's In The Army Now!

—Courtesy Richard Yardley and Baltimore Sun.

First World War Naval Officers are Invited

Naval officers of the first World War who are physically fit to perform duty are invited to make application for Naval commissions in the present war, according to announcement received from Commander F. C. Huntoon of New Orleans, director of Naval Officer Procurement in the Eighth Naval District.

Commander Huntoon said appropriate rank will be awarded, and proper consideration given to waiver of physical defects. Those with commissioned officer experience in the Navy at other periods also are needed, he said, and will receive the same consideration.

Former Naval officers desiring to re-enter the service should, if convenient, call in person at one of the branch offices of the Naval Officer Procurement in Houston and Dallas, Texas; Birmingham, Alabama; Nashville, Tennessee, and Oklahoma City, Oklahoma.

If unable to call in person at one of these branches, they should write to the Director of Naval Officer Procurement, 217 Camp Street, New Orleans, Louisiana.

GEORGIA LEE HENRY IMPROVED

Georgia Lee Henry, who underwent an operation in a Plainview hospital three weeks ago, was brought to his home last Thursday. He is improving satisfactorily.

Many Groups of Cotton Growers Sign up

More than 80 groups of Texas cotton growers, organized for cotton improvement practices, have filed application for free cotton classification and market news service for the 1942 crops, according to M. C. Jaynes, cotton work specialist of the A. and M. College Extension Service.

The deadlines for filing application with the Agricultural Marketing Administration of the U. S. Department of Agriculture place Texas growers into two classes. Counties lying entirely, or for the most part, east of the 100th meridian are limited to August 1, while the final filing date for those entirely, or for the most part, west of the meridian is August 15.

Application may be made by any organized cotton improvement group as soon as its members have planted their cotton. Instructions for making application and forms therefore can be obtained by writing to the offices of the Agricultural Marketing Administration at 1104 South Ervy Street, Dallas; Box 1140, Austin; and Room 517 U. S. Courthouse, El Paso.

Jaynes said it appeared likely that more groups in Texas will file applications this year than the 1,294 which participated in 1941. Membership of organized groups in Texas cooperating in the Smith-Doxey program jumped from a total of 1,704 in 1938 to 115,509 in 1941.

Selectees Leave Today For Induction Station

The following Selectees will leave for Induction Station at Lubbock on Thursday, June 11th:

Thurmon Brown Thomas, Lockney. Leo Hershel Hand, Floydada. Hershel Swepton, Floydada. G. H. Hall, Floydada. William L. V. Hale, Floydada. John Samuel Hale, Floydada. Lonnie Pope, Floydada. Louis Earl Boothe, Floydada. Sidney Reeves, Lockney. Maneard Andrew Harris, Lockney. Cecil Edmund Queen, Floydada. Arthur Lewis Nigh, Lockney. Willie Edgar Bell, Floydada.

The following men were also inducted in the Call, but have asked for transfer for induction to other places, where they are working:

Lynn Warren McGaugh, Lockney. Dale Wesley McGaugh, Lockney. Lester Lee Mallow, Floydada. Benjamin Anton Cook, Lockney.

Also included in this Call were Homer T. Starkey and Earl Lemoyne O'Neal, of Lockney, who have enlisted in the Service, and three men whose induction was postponed to give them additional time to close out their business affairs, as the Government is trying to prevent any hardship being worked upon any Selectee.

Mr. and Mrs. Thomas Wright, of Lowry Field, Denver, Colorado, are leaving this week with Mr. and Mrs. S. H. Wright.

ROBERT LINDER AND FAMILY MOVE TO AMARILLO

Robert Linder, principal of Floydada High School, moved to Amarillo where he will be employed. Mr. and Mrs. Linder and daughter left last Friday for Amarillo. Mr. Linder had been employed on the school faculty for the past three years as principal.

Young men may enlist in the Navy now and retire on half-pay before they are 40 years old. That's something!

Don't join the Navy just to see the world—join it to free the world!

U.S. Marines — by Keab

Sails Torn Ship In Epic Voyage

**Captain Tells of Heroic
Battle of Marblehead,
Battered Cruiser.**

AT AN EASTERN U. S. PORT.—Capt. Arthur G. Robinson, captain of the United States cruiser Marblehead, brought half around the world despite gaping wounds from Jap bombs, said that his ship underwent three hours of incessant bombing by at least 37 Japanese planes.

Interviewed in his office aboard the ship amid the din of riveters and workmen as her repairs proceeded, Captain Robinson said the ship had less than a 50-50 chance of getting back during the first eight or ten hours after the attack in the battle of Macassar Strait.

The Marblehead was on a mission under orders of a Dutch admiral to intercept a large, well protected Japanese convoy which was en route to Macassar, the captain said.

"En route our force was intercepted by a large fleet of land based enemy planes," he related. "The ships scattered and then it was a question of individual action."

"More than 37 Japanese planes began the attack on us and the attack continued with three hours of incessant bombing. We evaded them pretty well, with the exception of one unfortunate hit.

In Serious Situation.

"After we were hit, the ship was in a very serious situation because we were badly flooded, had two fires, and the main deck was covered with fuel oil and water. We had difficulty moving the wounded. The sick bay was completely demolished and we had to improvise a new one.

"Many of the men not detailed pitched in and helped pull the wounded out of the fire. Our steering gear was gone and other hits came while our gear was damaged and we were turning in circles.

"The attack continued while all hands were trying to stop the rush of water. Anti-aircraft batteries were blazing away. I was trying to maneuver the ship as best as I could. My reaction was fatalistic. There we were going in circles and that's all there was to it.

"We steered her with the motors. We'd tickle her with the left propeller and then with the right, and when we had her straight we'd go full speed ahead."

Sailed 13,000 Miles.

The ship, which lost 15 men killed in the bombing, made port in the Netherlands Indies, where temporary repairs were made, then proceeded to Ceylon for additional repairs. Later at South Africa, the ship was made seaworthy for its trip back to the United States. Its trip from the battle scene totaled 13,000 miles.

The skipper repeatedly praised his officers and crew for their "courage, stamina, and resourcefulness" and their "continued cheerfulness." He spent 60 hours continuously on the bridge without sleep during the battle and subsequent fight to reach port.

"Lieut. Comm. Martin J. Drury of Jamestown, R. I., in charge of damage control saved the ship. We had to have a bucket brigade of all hands to supplement the pumps and the men bailed without stopping for 48 hours. We steered 500 miles without a rudder."

Shouts of 'Figone' Now Mean 'Come and Get It'

FORT F. E. WARREN, WYO.—The cry of "chow" and of "Figone" have the same meaning for Company I, Fifth Quartermaster Training Regiment, Quartermaster replacement training center, at Fort Warren. It means it's time to eat.

Private Frank Figone's father owns a restaurant in Berkeley, Calif., and Mr. Figone likes the army so much he ships his son and Company I whole crates of grapefruit, oranges, apples, eggs and recently a roasted turkey.

When the boys cry "Figone," it means a fresh shipment has just arrived from California and everybody eats.

Tire Rationer Hears Advice His Office Gave

GRUNDY CENTER, IOWA.—Howard Nickerson's most embarrassing moment has to do with tires.

He was going along the highway at 70 miles an hour when a policeman stopped him. The officer told him it wasn't against the law to go 70, it was hard on the tires.

"How would you like to have me report you to the tire rationing board in Grundy county?" he asked Nickerson.

Nickerson said he wouldn't like that at all. Nickerson is chairman of the Grundy county tire rationing board.

This Man Getting All Set for the Duration

SANTA FE, N. M.—Herbert Gerhart, clerk of the New Mexico supreme court, spent years nurturing a rubber plant he kept in a tub in the court building until the specimen reached a height of 15 feet. His project took on more point recently when he was appointed chairman of the county tire rationing board. "Maybe," mused Gerhart when he was notified of his appointment, "I can tap it for a tire or two."

LESTER BOONE

Pledging himself to "an all-out war effort," Lester Boone, Fort Worth Representative, has formally announced his candidacy for the Texas Railroad Commission, and called attention to the fact that it was one of Texas' most vital factors in the war effort. He further pledged in his announcement to attend all commission meetings.

Boone, who is now serving in the Texas Legislature from Fort Worth, sponsored the Omnibus Tax Bill which made possible the payment of old age pensions, teachers retirement pay, aid to the blind, and aid to crippled and dependent children. As a member of the House Military Affairs Committee, he aided in the passage of the Texas Defense Guard Bill, which became a law, thereby giving Texas greater security in the present crisis.

"I pledge an administration of harmony and will cooperate with other members of the commission," Boone said in his announcement. "I pledge myself to an all-out war effort in this vital department of State Government and will attend all commission meetings."

Committeeman Says Grassland Will Pay Off

Texas ranchmen have been getting ready for just such an emergency as 1942 presents. With ranchmen and farmers engaged in the biggest food and feed production job in history as their part in total war, grassland which has been restored to farmer grazing capacity will pay off in livestock production this year, declares How-

ard Kingsbery, state AAA committeeman and ranchman from Santa Anna.

Practices carried out most extensively under the 1941 range conservation program, as in former years, include counter furrowing, deferred grazing, and eradication of noxious plants.

Cooperating under last year's program, 7,304 Texas ranchmen cleared 1,671,155 acres of prickly pear, cedar, mesquite, and lechugilla. Of the total acreage from which noxious plants were cleared, 1,147,590 represented prickly pear while 381,548 represented cedar.

Approximately 282,583,971 feet of furrows, and spreader terraces were constructed. Object of these practices is to control water and keep it out of creeks and gullies, catch grass seed which otherwise would be lost, and help prevent erosion.

More than 4, 689,638 acres were devoted to natural and artificial re-seeding while approximately 11,470,224 cubic yards of dirt were used in construction of spreader dams and earthen tanks on 3,378 ranches.

Resume of 1941 range program indicates 13,895 Texas ranchmen signed 62,462,200 acres under the program. Approximately \$3,695,366 were paid cooperators to offset heavy investments made in rebuilding grassland, Kingsbery said.

Summer leaf lettuce of the Grand Rapids variety will produce young, tended leaves in three of four weeks, he says. Other vegetables which should be planted at this time for a late crop of the best quality are tender green mustard and squash. If a larger assortment of summer time eating is desired, plant butter beans, okra, green pepper, eggplant, cream peas and cantaloupes along with them.

If certain spring plantings are not to be repeated, use those spaces for planting hot weather vegetables. For example, English peas may be followed with cream peas, and after white potatoes are dug, use that ground for cream peas also while the soil is well worked up. If plants of green pepper and eggplant are available, use them and thereby hasten production three or four weeks.

Cantaloupe for breakfast, the horticulturist says, has the same place

in the diet as tomatoes or oranges, or other fruit juices. The Perfector variety, which has a tender, highly flavored, salmon colored flesh, is recommended.

Rosborough reminds that it is good garden practice to give plants which grow into the summer months an extra meal of plant food. For tomato plants apply about a half teacupful of fertilizer, like 6-12-6, in a circle 12 or 18 inches away from the plant and mix into the soil about six inches with a hoe.

Watering the more tender vegetables such as lettuce, mustard and etc., during hot weather will hasten growth and improve quality.

Large refrigeration units aboard ship keep fruits, vegetables and meats available for Navy men in all climates.

Let Cavanaugh do your Printing.

POST WILL PUT ON BIG STAMPEDE AND RODEO JUNE 18 AND 19

Post, June 11.—This city will go "all out" in offering the greatest entertainment in this section of the State, Thursday and Friday, June 18-19, when the second annual Stampede and Rodeo will be unveiled in one of the finest rodeo plants in the West. There will be no shortage or rationing of entertainment as directors of the Stampede Association have planned this year's show to be even bigger than last.

Approximately \$1,500.00 will be given in cash prizes in the five major events of the show, calf roping, wild cow milking, steer, and bronc riding, and cowgirls sponsor's contest. Besides the daily cash prizes, a \$100, and \$50 war bond will be presented high point man in calf roping and cow milking. A \$100 war bond,

\$25 war bond, \$10 and \$5 in war stamps, will be presented the four high winners in the cowgirls sponsor's contest. Besides the 5 major events, many special attractions have been planned. To provide color, the Stampede will present "The Allied Nations aMrch." Twenty-six allied flags will be presented and identified during this feature.

There will be two, 3-hour performances each day, at 2:30 and 8:45 p. m. Street parades will be staged each afternoon at 1 p. m. Old fashioned dances will be held each night.

A FEW weeks ago, I had occasion to visit some friends of mine in Nebraska.

Nebraska certainly is a great State. I like Nebraska. I like those immense cornfields that seem to stretch from horizon to horizon. (Plenty of wheatfields in Nebraska, too.)

But the thing that interests me most about Nebraska right now is the very important social experiment the beer people started there several years ago.

Beer itself is naturally a beverage of moderation. Yet, all too often, people are inclined to blame beer wrongly for any misconduct of the customer or the proprietor in a place licensed to sell beer.

So, the brewers got together to see what they could do about this. They weren't really responsible for their retailers . . . in fact, they're not allowed to control retailers. But the brewing industry worked out a plan by which it cooperates with the public authorities to eliminate bad conditions in the minority of places whose conduct would reflect on the law-abiding majority.

The beer people urge proprietors of retail places to conduct them properly and to obey the law. They urge consumers to cooperate, and ask the public generally to report law violations to the authorities. They send warnings to careless retailers and if conditions are not corrected they take the case up with the authorities. Naturally the authorities and the public have welcomed this as an added force in building respect for law and order.

That program is now operating in many states—and with the Nation at war, brewing industry organizations cooperate with civil and military authorities to assure good conditions in beer outlets around the army camps and naval stations.

Somehow, to me, that's a mighty important, public-spirited effort. I don't know of anything like it ever having been tried before. If people really help the brewers with that program they'll be doing a great thing for the country.
