AMENDMENT TO EASE STORAGE PROBLEM OF NATION'S FARMERS

TEXAS GOES TO MAYO FOR MEDICAL EXAMINATION

Mrs. A. A. Hoots and Mrs. Finley left Saturday for Minnesota, where Mr. Mrs. Finley go to Mayo medical examination. They return home Saturday.

DAMAGED FROM HAIL NIGHT

Damage was reported in the county this week, following showers and hail. The damage to crops in the southeast parts of the county will be light but will be the row crops.

Funeral Rites held Friday for Person Infant

Funeral rites were held Saturday at Levelland for the infant of Mrs. Albert R. Epp. The child died at birth Friday at the hospital. Mother of the child is doing nicely.

SHERILL LEFT WED. TO REPORT FOR

Mr. Sherill left Wednesday for the report for the Navy. He has been waiting his last time.

Mrs. Josh Hopkins, of Texas, arrived Sunday for visit with Mrs. Hopkins, Mr. and Mrs. Noel

Hollingsworth returned Sunday after having spent weeks with his family. He was accompanied by his son, Larry Joe, and Mrs. Somers. Mr. and Mrs. Somers remained for a week's visit.

Mrs. A. S. Hollingsworth returned home to Houston where they daughter, Mrs. Jim Mr. Bandy the past week. He came with them for several

Texas farmers may now order lumber from local dealers for farm storage construction, packing or boxing 1942 crops.

The Texas USDA War Board announces an amendment to the recent War Production Board lumber freeze which permits release of mill stocks of lumber. This is expected to help ease the difficulty farmers in some areas are having in obtaining materials to build and repair farm storage needed to handle the 1942 grain crops.

Farmers desiring lumber must sign endorsements to the effect that the lumber is obtained for purposes specified as exempt from the lumber freeze order. If dealers do not have necessary lumber on hand, they may use farmers' statements to obtain stocks from lumber mills, the board said.

Lumber dealers also may endorse orders to mills so long as material in the order is restricted to specified purposes. Dealers operating under this plan will not have to await sufficient farmer endorsements to obtain full carloads before placing order to mills.

Certain grades and sizes of lumber which are not being purchased for war purposes at the present time also are released. Included are short lengths and sizes suitable for side wall and roof framing, for sheathing and sub-flooring in all types of housing and small buildings.

Any construction made from lumber obtained as a result of the WPB ruling will be subject to the limitation under the recent conservation order which requires permission for farm construction costing more than \$1,000. In such cases, farmers may file applications with county USDA War Boards, just as they have been during past weeks.

Winter Legumes Off-Set Fertilizer Shortage

The most practical way Texas farmers have to off-set shortage of nitrogenous fertilizers is by planting winter legumes, George Slaughter, chairman, Texas AAA committee, said this week.

Farmers are being asked to order seed and superphosphate now, since utilization of transportation facilities for war materials is likely to delay orders if they are not placed early.

Already, 78 counties have established plans under which they will distribute winter legume seed next fall.

Miss Marian Beedy, of Lubbock, spent the week end with her parents, Mr. and Mrs. Arthur Beedy.

Old Glory Waves Out New Challenge on Bonds

This new 24-sheet poster, drawn for the Defense Savings Staff by Paul Paulson, of Harrington, Park, N. J., is the first of 35,000 erected by the outdoor advertising industry to aid in the sale of Defense Savings Bonds throughout the country. Paulson is a native of South Dakota and has been associated with Outdoor Advertising Incorporated for several years. In 1940 he won an award in a poster contest sponsored by the Committee to Defend America by aiding the Allies.

Convert Medium Trucks to Take Over Big Haul

Detroit, Michigan, June 18.—Practical exhaustion of the supply of heavy-duty trucks, upon which hinge the major hauling operations in the country, focuses attention upon the necessity for truck dealers to convert so-called "medium" trucks to take over the big-haul operations which must be done if the nation's transportation system is to handle to end of the war job, W. E. Fish, manager of Chevrolet's truck department said here today.

Foreseeing the present critical situation, Chevrolet has made available to dealers full instructions for expanding the capacities of medium trucks to pinch-hit for the no longer available heavy-duty units, Fish said.

"Such conversion and expansion is no new development in the truck field," Fish pointed out. "Responsible manufacturers have produced conversion equipment for many years. The present war emergency highlights the necessity for producing trucks of expanded capacity. Our prime effort has been to serve as liaison between Chevrolet dealers and these established manufacturers of converting and specializing equipment."

Specialized mechanical information treating exclusively with truck conversion has been presented to Chevrolet dealers, who still have adequate supplies of either new or used medium trucks, all of which can be converted into units capable of handling heavy-duty loads.

"More than 60 per cent of all trucks require some form of special equipment," Fish pointed out, "for the truck has become a highly specialized transport unit. Chevrolet dealers have made a thorough study of the special equipment field and are conversant with the many individualized operations a converted truck can handle."

"Thousands of truck operators can not purchase new equipment under the rulings established by the Office of Defense Transportation. And even those operators who are eligible are up against a dire shortage of the heavier equipment. The only answer open to the automotive industry and the businessmen it must serve, is conversion of such equipment as is still available, which is in full accord with the stated aims of the ODT and the War Production Board, as expressed by R. L. Vaniman, deputy chief of the WPB automotive branch."

Mr. and Mrs. Dale Self and son, Fred, of Levelland, spent the week end with Mrs. Self's parents, Mr. and Mrs. A. F. Craft. Mr. Self returned to Levelland Sunday and Mrs. Self and son remained for a few days visit.

Return Lime-Sulphur Containers

There is an abundance of lime-sulphur concentrate for spraying fruit trees, but it is imperative that buyers should return the containers to the manufacturer, says Cameron Siddall, entomologist of the A. and M. College Extension Service.

No shortage of the concentrate is expected, but there is strong likelihood that no materials will be allocated this year for manufacturing the wooden barrels and 50 to 55 gallon steel drums in which it is marketed. For that reason, Siddall says, it is important that fruit growers should return the containers to the manufacturer as soon as they are emptied.

"This will tend to prevent a shortage of barrels or drums, which might limit the shipment of lime-sulphur concentrates next year," he explains.

Glider Pilot Training Change Announced

Sergeant Harvey M. Gist, U. S. Army Recruiting Officer, Plainview, announces the following changes in requirements for Glider Pilot training.

Applicants between their 18th and 30th birthday without aerial service may now be accepted for enlistment for glider pilot training provided they are able to pass or have previously passed either the army general classification test with a score of 110 or the aviation cadet test AC TEN AHS a minimum score of 75 or aviation cadet test AC-10-B minimum score of 65 and have physical qualifications for glider pilot.

This course includes flying a light plane and a limited number of selected graduates in each class will receive commissions as second lieutenants army of the United States and others will be appointed staff sergeants on flying status.

For further information see the U. S. Army Recruiting Agent nearest you.

SANTA FEE R. WEEK END CARLOADINGS

The Santa Fe System carloadings for the week ending June 13, 1942, were 23,027 compared with 22,107 for the same week in 1941. Received from connections were 10,633 compared with 7,015 for the same week in 1941. The total cars moved were 33,660 compared with 29,015 for the same week in 1941. The Santa Fe handled a total of 32,590 cars during the preceding week of this year.

Mr. and Mrs. Orville Fawver, of Amarillo, visited with relatives a short while Sunday.

Baptists Announce Debt Paying Campaign

Dallas, June 18.—The Baptist General Convention of Texas plans to be debt free by October 31, 1942, Dr. W. W. Melton, Dallas, executive secretary, said today as he announced a debt-paying campaign for the denomination in Texas.

The Convention now owes \$421,000 on which it is paying \$10,000 per month principal. A few years ago the amount owed was approximately \$2,000,000. These amounts do not include debts of Baptist institutions in the State.

Authorized by the executive board of the Convention to launch the debt-paying campaign, Dr. Melton expressed the belief that now is the best time to "pay up" because of uncertainties in connection with the present world situation. Being debt free, he said, would save Texas Baptists \$16,000 annually in interest. "Further, it would insure the permanence of Baptist work, should a post-war depression hit this country."

The Baptist Brotherhood of Texas, with R. A. Springer, Dallas, state secretary, and Judge E. S. Cummings Abilene, Brotherhood Convention state president, is taking the debt-paying campaign as its principal objective for the remainder of this Convention year.

Farmers Urged to Produce Conservation Way

College Station, June 18.—Soil Conservation always has been a sound farm policy but this year it's a war necessity.

Failure of Texas farmers to carry out conservation practices this year not only would result in loss of thousands of dollars in AAA soil-building payments but would seriously affect production under next year's Food for Freedom program.

In making these statements, George Slaughter, chairman, Texas AAA committee, urged each farmer to carry out practices essential to continuous production. Construction of terraces and check dams, seeding summer legumes and other cover crops are some of the practical conservation practices which should be carried out during June in some areas of the state.

"Every farmer knows that the best way to increase production per farm is to increase production per acre and the only way to increase production per acre is to farm the conservation way," the chairman said.

Hershell Swepton, who was recently inducted into the army at Fort Sill, Oklahoma, is home on a ten day furlough.

FLOYD COUNTY FARMERS PARTICIPATE IN MARKETING PROGRAM

4-H Livestock Members Have Need of Contest

Chicago, June 18.—Incentives to 4-H livestock club members as offered in the national meat animal contest, are more important this year than ever before, according to a statement by the National 4-H Committee in Chicago in announcing it for 1942. This is because some shows in which 4-H members enter have been cancelled.

"Even without a chance to show, 4-H owners of livestock can still put their work into competition if they enter the contest," it is stated "since it emphasizes the rate and cost of gains contained in the project record book, and also the general standing of the member in home, club and community activities."

With roundly a third of a million of clubsters growing market and breeding animals this year it is recognized by club leaders as good policy to keep alive their influence in the business and have the benefit of the large volume of their production for war and domestic needs.

Medals for county winners, watches for state victories and four fine trips are provided for this year's 13th annual contest by Thos. E. Wilson, chairman of the committee. The contest is accepted in this state.

Auto Tax Stamps Are on Sale at Postoffice

The new Auto Tax Stamps are on sale at the Postoffice according to announcement made by Mrs. Barbara Smith, Postmaster. The new stamps cost \$5.00 and will cover the years from July 1 through June 30, 1943, Mrs. Smith said.

Stamps will replace those now in use, which expires on June 30.

Mrs. Wm. Murray and sons, Billy and Martin, of Harrisburg, Pennsylvania, arrived last Monday for a months visit with her parents, Mr. and Mrs. W. M. Massee.

Eddie Duncan returned home Sunday from San Diego, California, where he visited his brother, Bob Duncan and Mrs. Duncan.

Let Cavanaugh do your Printing.

Farmers of Floyd County and families participating in the Agricultural Marketing Administration's food stamp program have received many benefits from the program since its inauguration, Carl L. Minor, chairman of the Floyd County Food Industry Committee, said today.

The issuance of blue stamps has benefited local farmers by helping create a ready local and national market for the "blue stamp food" families participating in the program have received additional health building food, he explained.

Floyd County families participating in the food stamp program received \$1,790.50 worth of blue stamps during May. A total of 761 local people participated during the month. Since the beginning of the program November 3, 1941, local participants have received \$11,743.00 worth of blue food stamps.

Mr. Minor pointed out under the program families whose diets are inadequate according to standards of the money they have available for food and then receive additional food purchasing power in the form of blue stamps. Because families receive extra food purchasing power they create additional markets locally and nationally for farm products. These additional markets help assure farmers a fair return for their full production effort under the "Food for Freedom" campaign.

RAY COLLINS PROMOTED TO RANK OF 2ND LIEUT. AT JOHN TARLETON COLLEGE

Upon the recommendation of their company commander and with the approval of Dean J. Thomas Davis, Lt. McCullough, Professor of Military Science and Tactics, at John Tarleton Agricultural College, has made appointments and promotions for the Tarleton Cadet Corps.

Among those of recent appointment is Ray Collins, of Floydada, who has been promoted to the rank of 2nd Lieutenant in the Tarleton Cadet Corps. The cadet officers and non-commissioned officers drill the R. O. T. C. unit and exercise the same authority as regular army officers of the same rank. This gives the commissioned and non-commissioned officers an opportunity to develop qualities of leadership.

MRS. R. A. BURROWS BRAKES WRIST

Mrs. R. A. Burrows sustained a broken wrist Friday when she fell on her left arm. She is suffering considerable pain from the injury. Mr. Burrow said, but it is thought she is recovering nicely.

The Town That War Built

Canadian Munitions City of... day. Religious services are held on Sunday in the recreation hall. A thousand employees are engaged in construction of additional building facilities. Using modern production methods and safety devices the plant turns out shells of all sizes, 500-pound bombs, depth charges and many other items. Remote control preparation of cordite as a propellant for heavy calibre shells is an interesting series of operations; it is weighed, tied in bundles and cut to the required lengths on a machine once used for paper-cutting—all without being touched by human hands.

RECOGNIZE THE GENTLEMAN ON THE RIGHT?—This hitherto unpublished photograph shows Gen. Douglas MacArthur as Texans last saw him, in April, 1937, when MacArthur accompanied President Manuel Quezon of the Philippines, at left, on a goodwill trip through Texas to Mexico. James V. Allred, center, then governor, welcomed the visitors to the state. Then a major general and American advisor to the Filipino army, MacArthur wore a business suit as impeccably as the military dress with which Americans are more familiar now.

American Quarter Horse Ass'n Show At Stamford

Stamford June 18.—For the third consecutive year the official show of the American Quarter Horse Association is to be held in connection with the Texas Cowboy Reunion here July 2, 3, and 4. The association, which has grown steadily, now has a total of 248 members.

A total of approximately \$600 in cash prizes and awards has been listed with five winning places being named in each class. There are four classes listed other than the grand champion stallion and the grand champion mare. Entry fee is \$5 per horse and \$4 per horse for stall fee.

Official judging is to be held Friday morning, July 3, at 8:30 o'clock. J. H. Minnick, Crowell, has been chosen judge for this year's show. While judging will be completed on July 3, all entries will be kept on exhibit all three days of the show.

A bay stallion, Chubby, owned by W. R. Wandergriff, Canyon, was champion stallion last year, and a bay filly, Duchess, owned by Jess L. Hankins, Rocksprings, was the champion female.

J. F. Hutchins, Pierce, is president of the association, and other officers are R. L. Underwood, Wichita Falls, vice-president; Mrs. M. G. Michael, Fort Worth, secretary; and J. Goodwin Hall, Fort Worth, treasurer. R. W. Arledge, Stamford, is chairman of the quarter horse show.

The show is open to all exhibitors, according to President Hutchins, and is not limited to association members. Prizes are offered jointly by the association and the Texas Cowboy Reunion.

A number of entries already have been received, according to Mr. Arledge, and indications are that a record breaking number of entries is to be expected.

**AIM TO GET
THE BEST
OUT OF YOUR
COOKING**

Follow These Rules:

Roast meat at low temperature in your Gas oven and reduce shrinkage.

Remember that the flexible Gas flame can be regulated to any degree of heat you need, eliminating scorching and over-cooking of food.

Use any remaining vegetable liquids in soups, gravies, sauces, or cold in tomato juice.

Plan one casserole dish a week to use left-overs.

Cook vegetables by the "waterless" method for which your Gas range is especially suited. The flexible Gas flame will give you the exact degree of heat you need.

Bring vegetables to boiling point quickly over full Gas flame, then turn flame low and cook gently.

Keep utensils covered and do not use soda in vegetables.

Do not pre-heat your Gas oven or broiler too long. Remember, Gas is fast.

Plan complete oven and broiler meals, to make full use of Gas.

Avoid using small pans on large or giant top burners.

CLINE AND RAINER

WESTERN AUTO ASSOCIATE STORE

To Wheat Growers

Heretofore we have taken green and damp wheat, and conditioned it ourselves, or had the Terminal Elevator to condition it, but due to the shortage of storage space we will not be in position to take wheat this season, unless it is in condition to store as it comes from the farm.

We are going to do our best to handle the wheat as it comes in, but the reports we get from the Terminal Elevators, it looks like we might get in a jam. If you have some granaries on the farm, it would be well for you to have them cleaned out and repaired.

We will have to have permits from the Terminal Elevators, before we can load wheat to ship for storage. When we cannot find any where to go with the wheat, and get our elevators full here, we cannot take any more wheat.

Walls of Old Fort Pitt Found Intact

Bastion May Be Restored As National Park Feature.

PITTSBURGH.—The walls of historic old Fort Pitt, built by the British in 1759, have been "frozen and preserved" since French and Indian war days, national park service officials have found after an inspection of test diggings here.

Digging under streets and railroad yards in the busy "Point" area of Pittsburgh, WPA workers have unearthed portions of the wall of the old bastion that once was the "Gateway to the West," in accordance with plans of the Point park commission to eventually turn the site into a park.

The findings were examined by Dr. A. R. Kelly, chief of the archeological division of the national park service, and Dr. T. Borresen, also of the NPS, expert on Eighteenth century fortifications, who helped restore the battlefields at Yorktown and Fort Niagara.

"I am surprised and pleased to see that the walls are in such a remarkable state of preservation," Dr. Kelly said. "It is remarkable that the fort has been so completely covered over with several feet of fill that has frozen conditions and preserved them."

Dr. Kelly said he considered the findings "highly significant" and that an inspection of the sections uncovered indicates that practically the entire fort can be excavated.

"The wall is the real goods," he declared. "It is practically as good as when laid down by the British 190-odd years ago."

The officials will report their findings to the national park service, which has been asked to sponsor a national park at the Point, where the Allegheny and Monongahela merge to form the Ohio river.

Wife of Mayor Saves

Bet of Two Soldiers
DETROIT.—A batch of cookies baked by Mrs. Edward J. Jeffries Jr., wife of Detroit's mayor, has won an argument for two army privates stationed at Savannah, Ga.

The privates, William Day and Robert Garden of Detroit, wrote Mrs. Jeffries that they had been bragging to a couple of fellow soldiers from Milwaukee that Detroit had the best baseball team, the best beer, the best mayor, and so on until the Milwaukee lads "bet the mayor's wife couldn't even bake cookies." The losers of the wager were to do the other's laundry for two weeks.

The letter was signed "hopefully yours," Mrs. Jeffries said, adding: "What else could I do? I baked a batch of cookies, fixed up a box and put in some cigarettes and candy. I wrote them a letter and so that there should be no doubt enclosed an affidavit certifying that the 'cookies were made by Mrs. Edward J. Jeffries Jr.'"

Friends of the Detroit soldiers said they reported the cookies were delicious and the laundry service enjoyable.

Beachcombers in Britain

Recover War Materials

LONDON.—Beachcombing is becoming a profitable business on the shores of Great Britain. The ministry of war transport has reminded the public that awards will be offered for cargo or equipment recovered from the sea or washed up on beaches, while failure to give notice of a chance for salvage may result in loss of awards plus fines as high as £100.

A group of Essex residents in recent months has earned £809 by salvaging turpentine, pine oil and rubber from the Thames estuary.

The government points out that, even if things appear ruined by sea water, they can often be processed for use for other purposes. Dried fruits become cattle feed and rubber sent to the bottom in World War I has been recovered for use in the present conflict.

Farmer's Truck, Model of '05, Put Back in Service

KANSAS CITY, MO.—Tire rationing may force many people to ride bicycles or walk, but not Howard Bessmer, a farmer who lives near here.

Bessmer tested out his 1905 International Harvester truck, which runs on solid rubber tires.

The two cylinders in the engine under the driver's seat responded with a roar and the whole contraption quivered and shook.

With the coal oil head lamps rattling in their brackets, Bessmer pulled the throttle wide open and the ancient contraption responded with its top speed of 15 miles an hour.

Pueblos Ahead With

Raid Warning Set-Up

ALBUQUERQUE, N. M.—Civilian defense officials who started to set up an air raid precautions organization got there several centuries too late. They found the identical system of organization used by the white man was used by Pueblos. The setup includes head men, or wardens, assistants, spotters,

Blast Scene of Malta Knights

Inns of Orders That Once Ruled Isle Razed by Nazi Air Raids.

VALLETTA, MALTA.—Many of Malta's most famous and historic buildings, including the palace of the Grand Masters, Auberges, or the Inn of Knights, and the Grand Building of Knights where Napoleon stayed after his capture of the island from the Knights of St. John in 1798, have been either destroyed or badly damaged in the Germans' non-stop air raids against the island.

Not one of the magnificent buildings of the Knights of St. John has escaped destruction or damage. The Auberge of Italy, which was of late a museum, the Auberges of France and of the Auvergne are now mounds of stone debris, in contrast to their former palatial exteriors.

The Military Hospital of Knights, with its 520-foot-long ward, stated to be the longest hall in Europe, has been badly damaged. The Royal Opera house and the principal Maltese club, where distinguished visitors to the island were entertained, have been destroyed.

Skyline Is Changed.

The skyline of Valletta has been changed as many church spires and belfries are missing and jagged edges and gaps among the buildings are visible everywhere.

Among the churches either damaged or destroyed were St. Ursula, St. James, St. Barbara, St. Francis, the Jesuits church, All Souls and St. Paul's Anglican cathedral.

Almost every square in the city and its suburbs is pitted with bomb craters. Statues of the Grand Masters with drawn swords guarding the city gates have been smashed. Hundreds of homes, offices and shops have also been devastated, and in Florina, the immediate suburb of Valletta, very few buildings are left.

The dome of the Musta church, known as the third largest dome in the world, was pierced by a bomb, but it failed to explode.

The largest number of fatalities yet suffered in a single day was when bombs fell on a crowded movie theater and Malta's principal club. Many of the island's prominent citizens were killed and whole families were wiped out, or, in some cases, young children survived but lost all their relatives.

People Enlarge Tunnels.

But the people have never lost confidence and are straining to carry on. Shopkeepers, continually bombed out, reopen elsewhere. Demolition and clearance squads are steadily busy clearing the streets.

One of the largest shelters in Valletta is in reality an underground city. Tunnels hewn out of rock by the knights three centuries ago have been excavated and widened. Grated doors on both sides of the tunnels open into cubicles that are the people's contribution to the enlargement of the public shelters.

The postmen deliver letters to these underground shelters. What is probably the smallest chapel in the world is in one of the cubicles. It is large enough to hold a small altar and about three men. Marriage ceremonies are performed and babies are born and baptized in this underground city.

Worth \$5 to Call Cop a

Louse, Lady Driver Holds

NEW YORK.—Because he wouldn't let her make a U-turn, Traffic Patrolman James McCullough said Mrs. Margaret Osborne, 40 years old, a writer, called him "a dirty louse."

In court, facing a disorderly conduct charge, Mrs. Osborne said: "I want to refute the statement that I called the patrolman a dirty louse. I called him a louse."

Asked by Magistrate Peter Abeles if she would apologize, Mrs. Osborne looked at Patrolman McCullough and demanded:

"How much will the fine be?"
"Five dollars," said the magistrate.
"I'll pay the fine," said the lady.

Color of Hat Signifies

Job of Shipyard Worker

PORTLAND, ORE.—Every employee of the Willamette Iron & Steel Shipyards whose work makes him liable to head injuries has been issued one of 21 differently colored hard hats. The helmets signify the type of work the wearer is engaged in. Colors range from aluminum for plate hangers and black for sheet metal workers to the cream yellow, electricians; French gray, pipe fitters, and buff orange for machinists. Visitors, along with inspectors and timekeepers, wear white.

New Father Beams With

War Stamps; No Cigars

SAN DIEGO, CALIF.—Don Holmes passed out war stamps in place of cigars when his son was born, thereby starting a new movement.

Other fathers Holmes met at the hospital adopted the idea.

"There must be a couple of million births every year. Think what that would mean if every new parent started handing out stamps," he said.

Work on War Building

Both New Structure House Some 30,000 Men and Women.

WASHINGTON.—A new tenant of the war department of smooth war completion across the pier through the dust remarked, "Big, isn't it?"

the word.

pentagonal nest of buildings in Arlington county, Virginia, now nearly finished, dwarfs the grand old building of the War Department at the Pentagon, which in its day was one of the world's wonders.

As much ground as a football field.

It has nearly 800,000 more square feet of floor space than New York City building, listed in the Guinness as the largest office building in existence.

House 30,000 Workers. The new house some 30,000 men and women "population" about that size, in Conn. or Hutchinson, Kan.

Members of the army's department have just completed six months ahead of schedule. They will be followed by hundreds and then thousands more. Another section of the size is now ready for occupancy by the year's end, the department hopes, the entire building will be finished.

tion of the first section of building, three-story building history-making achievement parallel outside the pages Arabian Nights' tales or the Arabian Nights.

tract was awarded last year. The first ground was broken days later by huge mechanical diggers crawling over the site like machine-age dragons. The 7 1/2 months since, some 200 workmen, aided by their jugs, have moved 2,500,000 cubic yards of earth, poured 225,000 cubic yards of concrete, driven more than 100 concrete piles.

Peace Year's Work.

the builders have accomplished as much as they normally do in two peacetime years. Work has proceeded without delay, raising clouds of red dust and continuing in the past by great pillars of fire—lights stop high towers—at

structure consists of two five-story buildings, one with a gross area of about 3,750,000 square feet compared with the RCA building's 1,244,000. Each of the five of the outer ring is 921 feet compared with the 756-foot base of the Pyramid of

communication from floor to floor stairways and ramps chiefly, and a few escalators will be installed. There will be only one elevator.

fully occupied the war department's new home will be a completely conditioned "city" with a cafeteria, now operating on a large scale, a drugstore, a barber, a post office, a newsstand, a library, a medical station, a bus terminal with seven platforms on the ground floor, a network of roads and parking space for automobiles.

war department official put it as a workshop, not a palace."

Turns Tables;

Cop Must Arrest Self

LOUIS.—Patrolman Theodore Mathews had to arrest himself on charges of careless driving.

Mathews collided with a automobile driven by Cornelius Teer, 50, who took Teer to the station and charged him on careless driving.

Mathews was the only police officer on duty. Mathews had to arrest himself on careless driving so Teer could rmake his way home.

Armed Aviator of

Shoots Down Plane

PORTLAND, ORE.—Squadron Leader J. A. MacLachlan, the Royal Air Force's first armed fighter pilot, shot down a first enemy plane since he was equipped with an artificial arm devised for handling Hurricanes.

MacLachlan's left arm was amputated by a Messerschmitt cannon over Malta in March, 1941.

MacLachlan had a 22 German and Italian

Boost Their Output

Big Victory Setdown

WASHINGTON.—They are just a few of the whole 354,061,000 that they are pitching for.

When the goal of surpassing 1941 output by 13 per cent was already laid 16 per cent in the first quarter of 1942 than in that time in 1941.

Experts said, a hen laying a day. Maybe they're setting a record.

side with enough rapidity to keep the fruit from suffocating, but transmits moisture vapor slowly enough to prevent loss of moisture, retaining the juices and fullness of the fruit, and preserving vitamin content.

SOUTH SIDE SQUARE

To Our Customers

We have come to another harvest, and we are facing something new this time. We have always solicited business, at harvest time and throughout the year, but it looks like now, we will not be so we can take care of our customers. This is going to be pretty hard to have to refuse to take our customers wheat, but if we cannot find some place to go with it, we do not know any thing else to do.

We are going to do our best, and hope something will happen, so the storage situation will not be as serious, as it looks like it is going to be. If you have some bins you can repair, we think it would be well to have them cleaned out and repaired.

Please do not bring wet or green wheat in, as the Terminal Elevators, say they absolutely will not take wet wheat this year.

Farmers Grain Co.

American Quarter Horse Ass'n Show At Stamford

Stamford June 18.—For the third consecutive year the official show of the American Quarter Horse Association is to be held in connection with the Texas Cowboy Reunion here July 2, 3, and 4. The association, which has grown steadily, now has a total of 248 members.

A total of approximately \$600 in cash prizes and awards has been listed with five winning places being named in each class. There are four classes listed other than the grand champion stallion and the grand champion mare. Entry fee is \$5 per horse and \$4 per horse for stall fee.

Official judging is to be held Friday morning, July 3, at 8:30 o'clock. J. H. Minnick, Crowell, has been chosen judge for this year's show. While judging will be completed on July 3, all entries will be kept on exhibit all three days of the show.

A bay stallion, Chubby, owned by W. R. Wandergriff, Canyon, was champion stallion last year, and a bay filly, Duchess, owned by Jess L. Hankins, Rocksprings, was the champion female.

J. F. Hutchins, Pierce, is president of the association, and other officers are R. L. Underwood, Wichita Falls, vice-president; Mrs. M. G. Michael, Fort Worth, secretary; and J. Goodwin Hall, Fort Worth, treasurer. R. W. Arledge, Stamford, is chairman of the quarter horse show.

The show is open to all exhibitors, according to President Hutchins, and is not limited to association members. Prizes are offered jointly by the association and the Texas Cowboy Reunion.

A number of entries already have been received, according to Mr. Arledge, and indications are that a record breaking number of entries is to be expected.

**AIM TO GET
THE BEST
OUT OF YOUR
COOKING**

Follow These Rules:

Roast meat at low temperature in your Gas oven and reduce shrinkage.

Remember that the flexible Gas flame can be regulated to any degree of heat you need, eliminating scorching and overcooking of food.

Use any remaining vegetable liquids in soups, gravies, sauces, or cold in tomato juice.

Plan one casserole dish a week to use left-overs.

Cook vegetables by the "waterless" method for which your Gas range is especially suited. The flexible Gas flame will give you the exact degree of heat you need.

Bring vegetables to boiling point quickly over full Gas flame, then turn flame low and cook gently.

Keep utensils covered and do not use soda in vegetables. Do not pre-heat your Gas oven or broiler too long. Remember, Gas is fast.

Plan complete oven and broiler meals, to make full use of Gas.

Avoid using small pans on large or giant top burners.

CLINE AND RAINER
WESTERN AUTO ASSOCIATE STORE

To Wheat Growers

Heretofore we have taken green and damp wheat, and conditioned it ourselves, or had the Terminal Elevator to condition it, but due to the shortage of storage space we will not be in position to take wheat this season, unless it is in condition to store as it comes from the farm.

We are going to do our best to handle the wheat as it comes in, but the reports we get from the Terminal Elevators, it looks like we might get in a jam. If you have some granaries on the farm, it would be well for you to have them cleaned out and repaired.

We will have to have permits from the Terminal Elevators, before we can load wheat to ship for storage. When we cannot find any where to go with the wheat, and get our elevators full here, we cannot take any more wheat.

Walls of Old Fort
Pitt Found Intact

Bastion May Be Restored
As National Park Feature.

PITTSBURGH.—The walls of his-
toric old Fort Pitt, built by the Brit-
ish in 1759, have been "frozen and
preserved" since French and Indian
war days, national park service of-
ficials have found after an inspec-
tion of test diggings here.

Digging under streets and railroad
yards in the busy "Point" area of
Pittsburgh, WPA workers have un-
earthed portions of the wall of the
old bastion that once was the "Gate-
way to the West," in accordance
with plans of the Point park com-
mission to eventually turn the site
into a park.

The findings were examined by
Dr. A. R. Kelly, chief of the arche-
ological division of the national park
service, and Dr. T. Borresen, also
of the NPS, expert on Eighteenth
century fortifications, who helped re-
store the battlefields at Yorktown
and Fort Niagara.

"I am surprised and pleased to
see that the walls are in such a re-
markable state of preservation,"
Dr. Kelly said. "It is remarkable
that the Point has been so com-
pletely covered over with several
feet of fill that has frozen conditions
and preserved them."

Dr. Kelly said he considered the
findings "highly significant" and
that an inspection of the sections un-
covered indicates that practically
the entire fort can be excavated.

"The wall is the real goods," he
declared. "It is practically as good
as when laid down by the British
190-odd years ago."

The officials will report their find-
ings to the national park service,
which has been asked to sponsor a
national park at the Point, where
the Allegheny and Monongahela
merge to form the Ohio river.

Wife of Mayor Saves
Bet of Two Soldiers

DETROIT.—A batch of cookies
baked by Mrs. Edward J. Jeffries
Jr., wife of Detroit's mayor, has
won an argument for two army pri-
vates stationed at Savannah, Ga.

The privates, William Day and
Robert Garden of Detroit, wrote
Mrs. Jeffries that they had been
bragging to a couple of fellow sol-
diers from Milwaukee that Detroit
had the best baseball team, the best
beer, the best mayor, and so on un-
til the Milwaukee lads "bet the
mayor's wife couldn't even bake
cookies."

The losers of the wager
were to do the other's laundry for
two weeks.
The letter was signed "hopefully
yours," Mrs. Jeffries said, adding:
"What else could I do? I baked
a batch of cookies, fixed up a box
and put in some cigarettes and can-
dies. I wrote them a letter and so
that there should be no doubt en-
closed an affidavit certifying that the
cookies were made by Mrs. Ed-
ward J. Jeffries Jr."

Friends of the Detroit soldiers
said they reported the cookies were
delicious and the laundry service
enjoyable.

Beachcombers in Britain
Recover War Materials

LONDON.—Beachcombing is be-
coming a profitable business on the
shores of Great Britain. The mini-
stry of war transport has reminded
the public that awards will be of-
fered for cargo or equipment recov-
ered from the sea or washed up on
beaches, while failure to give notice
of a chance for salvage may result
in loss of awards plus fines as high
as £100.

A group of Essex residents in re-
cent months has earned £800 by sal-
vaging turpentine, pine oil and rub-
ber from the Thames estuary.

The government points out that,
even if things appear ruined by sea
water, they can often be processed
for use for other purposes. Dried
fruits become cattle feed and rubber
sent to the bottom in World War I
has been recovered for use in the
present conflict.

Farmer's Truck, Model of
'05, Put Back in Service

KANSAS CITY, MO.—Tire ration-
ing may force many people to ride
bicycles or walk, but not Howard
Bessmer, a farmer who lives near
here.

Bessmer tested out his 1905 Inter-
national Harvester truck, which runs
on solid rubber tires.

The two cylinders in the engine
under the driver's seat responded
with a roar and the whole contrap-
tion quivered and shook.

With the coal oil head lamps rat-
tling in their brackets, Bessmer
pulled the throttle wide open and
the ancient contraption responded
with its top speed of 15 miles an
hour.

Pueblos Ahead With
Raid Warning Set-Up

ALBUQUERQUE, N. M.—Civili-
an defense officials who started
to set up an air raid precautions
organization got there several
centuries too late.
They found the identical sys-
tem of organization used by the
white man was used by Pueblos.
The setup includes head men,
or wardens, assistants, spotters,

Blast Scene of
Malta Knights

Inns of Orders That Once
Ruled Isle Razed by
Nazi Air Raids.

VALLETTA, MALTA.—Many of
Malta's most famous and historic
buildings, including the palace of
the Grand Masters, Auberges, or the
Inn of Knights, and the Grand Build-
ing of Knights where Napoleon
stayed after his capture of the island
from the Knights of St. John in
1798, have been either destroyed or
badly damaged in the Germans' non-
stop air raids against the island.

Not one of the magnificent build-
ings of the Knights of St. John has
escaped destruction or damage. The
Auberge of Italy, which was of
late a museum, the Auberges of
France and of the Auvergne are now
mounds of stone debris, in contrast
to their former palatial exteriors.
The Military Hospital of Knights,
with its 520-foot-long ward, stated
to be the longest hall in Europe,
has been badly damaged. The Royal
Opera house and the principal Mal-
test club, where distinguished visi-
tors to the island were entertained,
have been destroyed.

Skyline Is Changed.
The skyline of Valletta has been
changed as many church spires and
bellfries are missing and jagged
edges and gaps among the buildings
are visible everywhere.

Among the churches either dam-
aged or destroyed were St. Ursula,
St. James, St. Barbara, St. Francis,
the Jesuits church, All Souls and
St. Paul's Anglican cathedral.

Almost every square in the city
and its suburbs is pitted with bomb
craters. Statues of the Grand Mas-
ters with drawn swords guarding
the city gates have been smashed.
Hundreds of homes, offices and
shops have also been devastated,
and in Florina, the immediate sub-
urb of Valletta, very few buildings
are left.

The dome of the Musta church,
known as the third largest dome in
the world, was pierced by a bomb,
but it failed to explode.

The largest number of fatalities
yet suffered in a single day was
when bombs fell on a crowded
movie theater and Malta's principal
club. Many of the island's promi-
nent citizens were killed and whole
families were wiped out, or, in
some cases, young children survived
but lost all their relatives.

People Enlarge Tunnels.

But the people have never lost
confidence and are straining to car-
ry on. Shopkeepers, continually
bombed out, reopen elsewhere. Demolition
and clearance squads are
steadily busy clearing the streets.

One of the largest shelters in Val-
letta is in reality an underground
city. Tunnels hewn out of rock by
the knights three centuries ago have
been excavated and widened. Grated
doors on both sides of the tunnels
open into cubicles that are the
people's contribution to the enlarge-
ment of the public shelters.

The postmen deliver letters to
these underground shelters. What
is probably the smallest chapel in
the world is in one of the cubicles.
It is large enough to hold a small
altar and about three men. Mar-
riage ceremonies are performed and
babies are born and baptized in this
underground city.

Worth \$5 to Call Cop a
Louse, Lady Driver Holds

NEW YORK.—Because he
wouldn't let her make a U-turn,
Traffic Patrolman James McCul-
lough said Mrs. Margaret Osborne,
40 years old, a writer, called him "a
dirty louse."

In court, facing a disorderly con-
duct charge, Mrs. Osborne said:
"I want to refute the statement
that I called the patrolman a dirty
louse. I called him a louse."

Asked by Magistrate Peter Abeles
if she would apologize, Mrs. Osborne
looked at Patrolman McCullough
and demanded:
"How much will the fine be?"
"Five dollars," said the magis-
trate.
"I'll pay the fine," said the lady.

Color of Hat Signifies
Job of Shipyard Worker

PORTLAND, ORE.—Every em-
ployee of the Willamette Iron &
Steel Shipyards whose work makes
him liable to head injuries has been
issued one of 21 differently colored
hard hats. The helmets signify the
type of work the wearer is engaged
in. Colors range from aluminum for
plate hangers and black for sheet
metal workers to the cream yel-
low, electricians; French gray, pipe-
fitters, and buff orange for machin-
ists. Visitors, along with inspectors
and timekeepers, wear white.

New Father Beams With
War Stamps; No Cigars

SAN DIEGO, CALIF.—Don
Holmes passed out war stamps in
place of cigars when his son was
born, thereby starting a new move-
ment.
Other fathers Holmes met at the
hospital adopted the idea.
"There must be a couple of mil-
lion births every year. Think what
that would mean if every new par-
ent started handing out stamps," he
said.

Work on
War Building

Both New Structure
House Some 30,000
Men and Women.

WINGTON.—A new tenant of
the war department of-
fice near completion across
the street from the old
building. "Big, isn't it?"
he remarked.

**AIM TO GET
THE BEST
OUT OF YOUR
COOKING**

Follow These Rules:

Roast meat at low temperature in your Gas oven and reduce shrinkage.

Remember that the flexible Gas flame can be regulated to any degree of heat you need, eliminating scorching and overcooking of food.

Use any remaining vegetable liquids in soups, gravies, sauces, or cold in tomato juice.

Plan one casserole dish a week to use left-overs.

Cook vegetables by the "waterless" method for which your Gas range is especially suited. The flexible Gas flame will give you the exact degree of heat you need.

Bring vegetables to boiling point quickly over full Gas flame, then turn flame low and cook gently.

Keep utensils covered and do not use soda in vegetables. Do not pre-heat your Gas oven or broiler too long. Remember, Gas is fast.

Plan complete oven and broiler meals, to make full use of Gas.

Avoid using small pans on large or giant top burners.

CLINE AND RAINER

WESTERN AUTO ASSOCIATE STORE

To Wheat Growers

Heretofore we have taken green and damp wheat, and conditioned it ourselves, or had the Terminal Elevator to condition it, but due to the shortage of storage space we will not be in position to take wheat this season, unless it is in condition to store as it comes from the farm.

We are going to do our best to handle the wheat as it comes in, but the reports we get from the Terminal Elevators, it looks like we might get in a jam. If you have some granaries on the farm, it would be well for you to have them cleaned out and repaired.

We will have to have permits from the Terminal Elevators, before we can load wheat to ship for storage. When we cannot find any where to go with the wheat, and get our elevators full here, we cannot take any more wheat.

Edwards Elevators

BARWISE FLOYDADA DOUGHERTY

"ALONG THE NILE"

Young, casual, likeable — this Egyptian printed Ruffin dress has the sought-after simplicity you love. With your favorite long jacket, patch pockets, and a knife-pleated skirt. A Carole King exclusive in Old Glory red, blue, gold. Sizes 9-15.

Walls of Old Fort Pitt Found Intact

Bastion May Be Restored As National Park Feature.

PITTSBURGH.—The walls of historic old Fort Pitt, built by the British in 1759, have been "frozen and preserved" since French and Indian war days, national park service officials have found after an inspection of test diggings here.

Digging under streets and railroad yards in the busy "Point" area of Pittsburgh, WPA workers have unearthed portions of the wall of the old bastion that once was the "Gateway to the West," in accordance with plans of the Point park commission to eventually turn the site into a park.

The findings were examined by Dr. A. R. Kelly, chief of the archeological division of the national park service, and Dr. T. Borresen, also of the NPS, expert on Eighteenth century fortifications, who helped restore the battlefields at Yorktown and Fort Niagara.

"I am surprised and pleased to see that the walls are in such a remarkable state of preservation," Dr. Kelly said. "It is remarkable that the Point has been so completely covered over with several feet of fill that has frozen conditions and preserved them."

Dr. Kelly said he considered the findings "highly significant" and that an inspection of the sections uncovered indicates that practically the entire fort can be excavated.

"The wall is the real goods," he declared. "It is practically as good as when laid down by the British 190-odd years ago."

The officials will report their findings to the national park service, which has been asked to sponsor a national park at the Point, where the Allegheny and Monongahela merge to form the Ohio river.

Wife of Mayor Saves

Bet of Two Soldiers

DETROIT.—A batch of cookies baked by Mrs. Edward J. Jeffries Jr., wife of Detroit's mayor, has won an argument for two army privates stationed at Savannah, Ga.

The privates, William Day and Robert Garden of Detroit, wrote Mrs. Jeffries that they had been bragging to a couple of fellow soldiers from Milwaukee that Detroit had the best baseball team, the best beer, the best mayor, and so on until the Milwaukee lads "bet the mayor's wife couldn't even bake cookies." The losers of the wager were to do the other's laundry for two weeks.

The letter was signed "hopefully yours," Mrs. Jeffries said, adding: "What else could I do? I baked a batch of cookies, fixed up a box and put in some cigarettes and candy. I wrote them a letter and so that there should be no doubt enclosed an affidavit certifying that the 'cookies were made by Mrs. Edward J. Jeffries Jr.'"

Friends of the Detroit soldiers said they reported the cookies were delicious and the laundry service enjoyable.

Beachcombers in Britain

Recover War Materials

LONDON.—Beachcombing is becoming a profitable business on the shores of Great Britain. The ministry of war transport has reminded the public that awards will be offered for cargo or equipment recovered from the sea or washed up on beaches, while failure to give notice of a chance for salvage may result in loss of awards plus fines as high as £100.

A group of Essex residents in recent months has earned £800 by salvaging turpentine, pine oil and rubber from the Thames estuary.

The government points out that, even if things appear ruined by sea water, they can often be processed for use for other purposes. Dried fruits become cattle feed and rubber sent to the bottom in World War I has been recovered for use in the present conflict.

Farmer's Truck, Model of '05, Put Back in Service

KANSAS CITY, MO.—Tire rationing may force many people to ride bicycles or walk, but not Howard Bessmer, a farmer who lives near here.

Bessmer tested out his 1905 International Harvester truck, which runs on solid rubber tires.

The two cylinders in the engine under the driver's seat responded with a roar and the whole contraption quivered and shook.

With the coal oil head lamps rattling in their brackets, Bessmer pulled the throttle wide open and the ancient contraption responded with its top speed of 15 miles an hour.

Pueblos Ahead With

Raid Warning Set-Up

ALBUQUERQUE, N. M.—Civilian defense officials who started to set up an air raid precautions organization got there several centuries too late.

Blast Scene of Malta Knights

Inns of Orders That Once Ruled Isle Razed by Nazi Air Raids.

VALLETTA, MALTA.—Many of Malta's most famous and historic buildings, including the palace of the Grand Masters, Auberges, or the Inn of Knights, and the Grand Building of Knights where Napoleon stayed after his capture of the island from the Knights of St. John in 1798, have been either destroyed or badly damaged in the Germans' non-stop air raids against the island.

Not one of the magnificent buildings of the Knights of St. John has escaped destruction or damage. The Auberge of Italy, which was of late a museum, the Auberges of France and of the Auvergne are now mounds of stone debris, in contrast to their former palatial exteriors.

The Military Hospital of Knights, with its 520-foot-long ward, stated to be the longest hall in Europe, has been badly damaged. The Royal Opera house and the principal Maltese club, where distinguished visitors to the island were entertained, have been destroyed.

Skyline Is Changed.

The skyline of Valletta has been changed as many church spires and belfries are missing and jagged edges and gaps among the buildings are visible everywhere.

Among the churches either damaged or destroyed were St. Ursula, St. James, St. Barbara, St. Francis, the Jesuits church, All Souls and St. Paul's Anglican cathedral.

Almost every square in the city and its suburbs is pitted with bomb craters. Statues of the Grand Masters with drawn swords guarding the city gates have been smashed. Hundreds of homes, offices and shops have also been devastated, and in Florina, the immediate suburb of Valletta, very few buildings are left.

The dome of the Musta church, known as the third largest dome in the world, was pierced by a bomb, but it failed to explode.

The largest number of fatalities yet suffered in a single day was when bombs fell on a crowded movie theater and Malta's principal club. Many of the island's prominent citizens were killed and whole families were wiped out, or, in some cases, young children survived but lost all their relatives.

People Enlarge Tunnels.

But the people have never lost confidence and are straining to carry on. Shopkeepers, continually bombed out, reopen elsewhere. Demolition and clearance squads are steadily busy clearing the streets.

One of the largest shelters in Valletta is in reality an underground city. Tunnels hewn out of rock by the knights three centuries ago have been excavated and widened. Grated doors on both sides of the tunnels open into cubicles that are the people's contribution to the enlargement of the public shelters.

The postmen deliver letters to these underground shelters. What is probably the smallest chapel in the world is in one of the cubicles. It is large enough to hold a small altar and about three men. Marriage ceremonies are performed and babies are born and baptized in this underground city.

Worth \$5 to Call Cop a

Louse, Lady Driver Holds

NEW YORK.—Because he wouldn't let her make a U-turn, Traffic Patrolman James McCullough said Mrs. Margaret Osborne, 40 years old, a writer, called him "a dirty louse."

In court, facing a disorderly conduct charge, Mrs. Osborne said: "I want to refute the statement that I called the patrolman a dirty louse. I called him a louse."

Asked by Magistrate Peter Abeles if she would apologize, Mrs. Osborne looked at Patrolman McCullough and demanded: "How much will the fine be?" "Five dollars," said the magistrate.

"I'll pay the fine," said the lady.

Color of Hat Signifies

Job of Shipyard Worker

PORTLAND, ORE.—Every employee of the Willamette Iron & Steel Shipyards whose work makes him liable to head injuries has been issued one of 21 differently colored hard hats. The helmets signify the type of work the wearer is engaged in. Colors range from aluminum for plate hangers and black for sheet metal workers to the cream yellow, electricians; French gray, pipe fitters, and buff orange for machinists. Visitors, along with inspectors and timekeepers, wear white.

New Father Beams With

War Stamps; No Cigars

SAN DIEGO, CALIF.—Don Holmes passed out war stamps in place of cigars when his son was born, thereby starting a new movement.

Other fathers Holmes met at the hospital adopted the idea.

Work on War Building

Both New Structure House Some 30,000 Men and Women.

WASHINGTON.—A new tenant of smooth war department offices is peering through the dust of the world.

pentagonal nest of buildings in Arlington county, Virginia, now the fifth finished, dwarfs the ramrod of Cheops, which in 2500 B.C. was one of the world's wonders as much ground as a modern farm.

It has nearly 800,000 more feet of floor space than New RCA building, listed in the Almanac as the largest office building in existence.

House 30,000 Workers.
The house some 30,000 men and women "population" about that of a town, or Hutchinson, Kan.

350 members of the army's engineering department have just completed six months ahead schedule. They will be followed by hundreds and then thousands more.

Another section of the size is now ready for occupancy and by the year's end, the department hopes, the entire building will be finished.

Construction of the first section of the building, three-story building, a history-making achievement, is parallel outside the pages of Arabian Nights' tales or the Arabian Nights.

The contract was awarded last September 11. The first ground was broken four days later by huge mechanical diggers crawling over the site like machine-age dragons. The 7 1/2 months since, some 200 men, aided by their jugs, have moved 2,500,000 cubic yards of earth, poured 225,000 cubic yards of concrete, driven more than 100 concrete piles.

Peace Year's Work.
The builders have accomplished as much as they normally do in peace years.

Work has proceeded without a stop, raising clouds of red dust and continuing in the dust by great pillars of fire—flights atop high towers—at the base of the Pyramid of Cheops.

The structure consists of two five-story buildings, one with a gross area of about 3,750,000 square feet compared with the RCA building's 2,924,006. Each of the five of the outer ring is 921 feet compared with the 756-foot base of the Pyramid of Cheops.

Communication from floor to floor is by stairs and ramps chiefly, with a few escalators will be installed. There will be only one elevator.

Fully occupied the war department's new home will be a completely air-conditioned "city" with a cafeteria, now operating on a scale; a drugstore, a bar, a post office, a newsstand, a medical station, a bus terminal with seven platforms on the ground floor, a network of roads and parking space for automobiles.

The war department official put it this way: "It's a workshop, not a palace."

Turns Tables;

Cop Must Arrest Self

LOUIS.—Patrolman Theodore Mathews had to arrest himself on a charge of careless driving.

Mathews collided with a car driven by Cornelius Teer, 50, who took Teer to the station and charged him with careless driving. He gave a proper signal when he arrested Teer.

Mathews was the only police officer on duty. Mathews had to arrest himself on careless driving so Teer could make his way to the station.

Armed Aviator of

Shoots Down Plane

PORTLAND.—Squadron Leader J. A. Lachlan, the Royal Air Force's first enemy plane since he shot it down with an artificial arm devised for handling Hurricanes.

Lachlan's left arm was amputated at the elbow after he was shot down by a Messerschmitt over Malta in March, 1941. The amputation he had a total of 22 German and Italian planes.

Boost Their Output

Big Victory Setdown

WASHINGTON.—They are just a few of the whole 354,661,000 eggs that they are pitching for the goal of surpassing 1941 output by 13 per cent in the first quarter of 1942 than in the same time in 1941.

ide with enough rapidity to keep the fruit from suffocating, but transmits moisture vapor slowly enough to prevent loss of moisture, retaining the juices and fullness of the fruit, and preserving vitamin content.

LET CAVANAUGH DO YOUR JOB PRINTING.

Rainer Shoe Shop
SOUTH SIDE SQUARE

To Our Customers

We have come to another harvest, and we are facing something new this time. We have always solicited business, at harvest time and throughout the year, but it looks like now, we will not be so we can take care of our customers. This is going to be pretty hard to have to refuse to take our customers wheat, but if we cannot find some place to go with it, we do not know any thing else to do.

We are going to do our best, and hope something will happen, so the storage situation will not be as serious, as it looks like it is going to be. If you have some bins you can repair, we think it would be well to have them cleaned out and repaired.

Please do not bring wet or green wheat in, as the Terminal Elevators, say they absolutely will not take wet wheat this year.

army

We've been mobilizing recruits, too... thousands of girls... eager and cheerful... of right temperament and aptitude to become telephone operators.

Veterans of our service have trained them for today's all-important duties... to speed more telephone calls to more people... to stand guard at vital communication centers in time of war.

So... employed by Bell System telephone companies to meet the nation's growing war demands... more women than ever before courageously and loyally are helping to give you the best telephone service it's possible to get anywhere in the world.

SOUTHWESTERN BELL TELEPHONE CO.

The Battle Against Inflation to be Won On Home Front

College Station, June 18.—The battle against inflation is one that can be won on the home front, according to H. H. Williamson, director of the Texas A. and M. College Extension Service, who has just concluded a series of meetings in various Texas cities with key representatives of all governmental agencies contacting the rural people of Texas.

"The average man and woman in Texas", Williamson says, "is ready and anxious to do everything possible to win the war; but they want to know what they can do now."

"The A. and M. Extension Victory

Councils form a human chain that can disseminate information to every farm home in Texas in a very short time, and the message we want to get across to them at the present time is a simple one.

"Economists estimate that there will be 17 billion dollars more available this year than there will be consumer goods on the market. In other words, if you take a dollar to town, there'll only be 75 cents worth of goods to buy. You can spend that dollar for 75 cents worth of goods if you want to bid up the prices of good, but that is foolish economy. The thing to do is spend your 75 cents and take your quarter in change.

consumer goods that you cannot buy today.

"If you want to go the whole route, just spend half of every dollar you have instead of spending three-fourths of it. That will leave a lot of consumer goods available for the other fellow, and prices will not rise unless one person is willing to pay more for an article than his neighbor."

Pen Roosters after the Hatching Season Ends

After the hatching season ends, pen up the roosters, or sell them or can them. Otherwise, says George P. McCarthy, poultry husbandman of the A. and M. College Extension Ser-

vice, a \$15,000,000 loss may result from production of fertile eggs during the summer. That sum would buy a lot of machine guns or cannon, but even more serious is the loss of food stocks it represents.

Realizing this, County Agricultural Agent John Moosberg arranged a "Rooster Day" through the Shelby County USDA war board, and Mayor Y. W. Rogers of Center made it official with a proclamation which requested that:

"There shall not be heard a cock's crow within the corporate limits of the City of Center during the 150 day period beginning the morning of May 9, 1942, except such cock bird be confined in a pen or yard individually, or with one or more of his kind, and that the owner of the birds so confined should not permit the entry of the female of the species that may or may not be producing eggs which may reach the

kitchens and pantries of the county. But why stop with the rooster? They break eggs and reduce the fertility of eggs. A small pen with nest or roost soon discourages the hens."

Clean litter, especially in the hen house, helps to decrease the number of eggs. If possible have one nest for every five hens. Eggs at least twice a day in a basket, which allows air to circulate around them and reduces the internal temperature. Many farmers have built an iceless refrigerator holding eggs to check temperature and reduce internal temperature. Eggs kept in this refrigerator for which may be obtained county extension agents, stable, if any, deterioration in the when marketed twice weekly.
