DA RECEIVED 1.36 INCHES RAINFALL SINCE THURSDAY

in Floydada since last week amounted to 1.36 inches, according to official record of the office. Thursday afternoon recording showed .29; Friday .18; Saturday .21; Sunday night .63 inches, the total at one time during the period.

of the county reported rains, and crop prospects according to reports from various parts of the county.

Powerful for Tax Collector to Transfer 1942 Cars

ing is a letter received from E. Marshall, County Tax Collector from Mark State Director of Office Administration, which is explanatory.

are hereby notified that offer for any person to transfer or even offer for a transfer of a 1942 Ford, Chevrolet or Plymouth four-door hard-top passenger automobile.

includes Chevrolet Style Freemaster, Sport Sedan, Deluxe Sportmaster Sedan, Special and Deluxe and Deluxe Six and Deluxe and Deluxe Eight four-door and Plymouth Model Model P-14C four-door Town Sedan.

to or acceptance of these models may not even to holders of certificates issued by a local War Relocation Board.

amendment is effective August 1, 1942. The cooperation of our offices respectfully in refusing to register new passenger automobiles in above description.

Hollis Bond, of Fort Worth, spent the week relatives and friends.

OFFICE OF WAR INFORMATION, POST OFFICE DEPARTMENT, GIVES OUT THE FOLLOWING

The Post Office Department announced today that the V-Mail Service, inaugurated on June 15, 1942, is now past the experimental stage, with each week showing large increases in the number of letters mailed to American soldiers overseas.

The War Department has increased its facilities to handle promptly the volume expected in the future.

Facilities for photographing and reproducing V-Mail to and from the United States and the British Isles, Australia, India, Hawaii and other points are now in operation. A similar service is being planned for Iceland and other points where the volume may warrant.

Pointing out that V-Mail provides a safe means of communication with members of our Armed Forces, the Post Office Department gave assurance that the film (upon which the communications are reproduced) are given the most expeditious dispatch available. Because of the small space taken up by the rolls of film, they often can be carried on ferry planes or bombers.

Every pound of weight which can be saved on air transports overseas, said the Department, means that an equivalent amount of weight can be allotted vital military material.

In recognition of this, and in an effort to insure delivery of mail to as many men as possible at overseas destinations when space is limited, the War and Navy Departments have directed that V-Mail be given priority in dispatch over all other classes—including air mail—when transportation facilities under control of those departments are used.

V-Mail letter sheets have been distributed at all post offices, and have been provided all military and naval personnel at overseas points through Army and Navy post offices and military channels.

Private firms and individuals have also been permitted by the Post Office Department to reproduce the letter sheets. The sheets also will be available soon to all stores selling stationery.

V-Mail Service provides for the use by patrons of a special letter sheet from which is a combination letter and envelope of uniform size and design. The patron writes his message, completes the name and address of the addressee and the return card in the space provided, folds, seals, and mails the letter in the usual manner. Patrons are warned that only the inner or letter side of V-Mail letters are photographed, and should be careful to show the complete address of the person to whom the message is sent in the panel provided therefor above the space for the message. It is preferable to print the address in large block letters. Enclosures must not be placed in the letters.

TEXAS DEFENSE GUARD OFFICERS CONTACT CAMP HELD AT SPUR

The officers and several non-commissioned officers of Company B, 41st Bn., TDG Floydada Defense Guard Unit attended an Officers Contact Camp at Spur Saturday and Sunday, the officers of the entire battalion attended the camp.

Those attending from the Floydada TDG Unit were: Capt. T. P. Collins; 1st Lieut. Harry Morckel, 2nd Lieut. Douglas Hollums, 1st Sgt. Floyd Fuqua, Sgt. H. B. Johnson, Sgt. Billy Henry, Corporal Lloyd Allen, and Corporal Walter Travis.

Robert Scott, son of Mr. and Mrs. R. C. Scott, who has been attending Tech College, is home for a three weeks vacation. Robert plans to attend college again this fall.

to destination in original form by the most expeditious means available. Even in these instances savings in weight and space are accomplished since there are approximately 97 V-Mail letters in a pound, whereas, ordinary letters average 40 per pound.

The War, Navy and Post Office Departments all cooperated in developing this Service, largely with a view to decreasing the volume of mail to be carried overseas and providing an expeditious service.

The public is urged to use it at every opportunity.

Funeral Rites For Lena Fay Parrish Held Monday

Last rites were held Monday afternoon at 3 o'clock at the First Baptist Church for Lena Fay Parrish, age 18, conducted by Rev. M. M. Robinett. Miss Parrish passed away August 23, 1942, in West Texas Hospital at Lubbock. Burial was made in Floydada Cemetery with Harmon Funeral Home in charge of arrangement.

Deceased was born in Floyd County, July 18, 1924, the daughter of Mr. and Mrs. Omer Parrish, who reside one mile south of Floydada. She is also survived by three brothers, Carl, O. Dumas, Rufus Leland and Albert Richard, of Floydada; three sisters, Lola Pearl, Etola and Mary Helen, Floydada; Grandparents, Mr. and Mrs. C. W. Mallow, Plainview; Mrs. R. M. Parrish, Floydada.

Pallbearers were: Walter Travis, J. K. Holmes, O. F. Cummings, Cecil Griggs, Elwood Assiter, and Lee Howard.

Flower bearers were: Gracie Waller, Almeda Sargent, Sadie Holmes, Mary Helen Day, Thula Moore, Wanda Switzer, and Bobby Diggs.

CHARLIE MASSIE SUSTAINS BROKEN ARM IN FALL

Charlie Massie fell Monday afternoon while working around his scales at the Massie Wholesale Grocery and broke his left arm. Mr. Massie said his foot slipped and he fell on his arm. He is getting along nicely and is about his business as usual.

HOUSEWIVES CAN HELP MAKE BOMBS FOR BERLIN BY CHECKING OVER ALL UNUSABLE ITEMS

House furnishings and other equipment owned by the average American housewife contain a total of nearly 1,000 pounds of iron and steel, part of which may have outlived its usefulness in the present form, according to a statement issued yesterday by the local Scrap Salvage Committee.

This total does not include furnaces, plumbing and heating equipment and other iron and steel used in building the home itself.

"We cite these figures," the Committee said, "to show that a large supply of worn-out metal equipment may be in your kitchen, attic, cellar or closets.

"One old metal bed in the attic will account for 40 pounds of steel scrap. A steel spring mattress will add 20 pounds of

How Food Stamp Program Helps Floyd County

How the Food Stamp Program helps Floyd County farmers as well as underprivileged families was pointed out in a recent release today by C. W. Henderson, issuing office, for the Agricultural Marketing Administration's Food Stamp Plan.

Over \$15,000 in blue food stamps which have been issued to needy families in the county from the beginning of the program, November 1, 1941 through July, 1942, represent addition farm markets created by the program, the report showed. An average of 200 families representing some 750 persons have received increased food purchasing power in the form of blue food stamps each month since the program began.

"Farm products often come to market in season and out in such heavy supply, prices would be ruinous to the farmers if use of the commodities by consumers was not increased," Mr. Henderson explained. "The Food Stamp Program helps bring about this increased use.

"Families using Food Stamps are first required to buy orange stamps with the money they would normally spend for food. They are then issued blue stamps which gives them an increase of 50 per cent in food purchasing power.

"Orange stamps will buy any kind of food while blue stamps will purchase only those foods for which farmers need an additional market."

Blue Stamp Food Lists are subject to change by the Department of Agriculture each month, it was pointed out. Therefore, the commodities for which farmers need added market can be included on the list at all times.

R. T. ROAN, RESIDENT ENGINEER, MOVES TO COLORADO SPRINGS, COLO.

Mr. and Mrs. R. T. Roan, who have resided in Floydada for the past four years, are leaving this week to make their home in Colorado Springs, Colorado. Mr. Roan is resident engineer for the State Highway Department.

Mr. and Mrs. Roan made a trip to Colorado Springs last week end to make arrangements for their transfer which they expect this week.

SCRAP HARVEST CAMPAIGN IS OFF TO GOOD START; MUCH MATERIAL IS BEING SALVAGED

COMMISSIONERS COURT SET TAX RATE SATURDAY IN SPECIAL SESSION

In a special session of the Commissioners Court Saturday, the county tax rate was set by the court at 63 cents, same as previous years.

State atx rate was set the early part of August at 75 cents, an increase over last year of 17 cents. The total state and county tax for the year will be \$1.33.

Methodist Church Revival Will Close Sunday Night

The revival at The Methodist Church will close Sunday night. Services for the rest of the week will be at ten o'clock in the mornings and at eight-thirty evenings. The Reverend Bob Gilpin, young twenty-six year old pastor of the McCullough Memorial Church in Pampa, is preaching extraordinarily effective sermons at each of the services daily. At four o'clock each day he preaches in front of Norman's Store. The public is invited by the pastor and the church to hear him at all these hours, with the assurance that it will not be disappointing.

Thursday is Young People's Night. Gilpin has a modern message for modern young people, and every young man and woman, boy and girl is asked to hear this young preacher of wide experience and training, and talent.

Friday night is Family Night. Families are asked to sit together in the good old way. And Sunday morning's service will be a memorial to the dead. The subject is: "Where are the dead, and will we know our loved ones in heaven?" Gilpin says: "We'd rather hold a service WITH you than OVER you; a hearse is a mighty poor way in which to attend church. Why WAIT; attend the revival NOW."

Parents Urged to Have Children Examined

Austin.—The State Health Department urges all parents to have their children undergo a thorough physical examination before entering school this fall.

The importance of such examinations can not be over-emphasized according to Dr. Geo. W. Cox, State Health Officer, who declares that the health of a child has a direct bearing on his progress in school.

"It is advisable to have school children examined several days or even weeks before school begins," Dr. Cox asserted, "so that minor ailments can be corrected and any possible serious ones placed under treatment."

HOME FROM TEN DAYS VACATION TRIP

Dr. and Mrs. Wilson Kimble and Rev. and Mrs. W. Donald Harris, of Jacksonville, returned home Friday from a ten days vacation trip. The party visited in Albuquerque and Red River, New Mexico, and Colorado Springs and Denver, Colorado while away. Mrs. Kimble said they enjoyed the trip very much and saw lots of beautiful scenery.

Floyd County's scrap harvest campaign got off to a flying start with many tons of iron and steel weighed in at the scrap concentration points in the county during the first few days of the drive. But most of the material remains yet to be gathered. Every farm in the county needs to be combed for scrap that may be used for war purposes and every farm home is expected to yield its share of the "harvest."

County Salvage Committee Chairman, Miss Edith L. Wilson, reports that the farmers are working splendidly looking for scrap, but urges all to get their collections in as soon as possible to swell the total and help the county reach its quota.

Collection depots have been established at Floydada and Lockney. Farmers are advised to collect their scrap and carry it to these points, where authorized junk dealers will be present to weigh it and pay for it on the spot. All scrap will be bought under established local prices based on government-fixed ceiling prices at the mills.

The Nation needs most kinds of metal, as well as rubber and other materials for use in building weapons of war. The farmer can bear in mind that practically everything that contains iron or steel, zinc, copper, brass, lead, tin or aluminum is needed. Parts of worn-out farm implements, such as iron wheels, gears, nuts and bolts; old plows, cultivators, harrow teeth, hayrakes, hoes, broken hammers, nails, wire, both iron and copper. Many such articles are lying unused.

The farm kitchen can supply such articles as pots and pans, burned stove grates, sausage grinders, old flatirons, light bulbs, electric cords, refrigerator parts.

All articles containing rubber are needed. Old automobile and bicycle tires and tubes, boots, overshoes, rubber heels, gloves, hot water bottles are only a starter at what the families of Floyd County are turning in.

Rags, socks with holes in them, broken and frayed rope are examples of another kind of scrap needed for reworking into war uses. Find it, gather it, turn it in. Those who want to, can invest the money they receive for this junk and scrap in War Bonds and Stamps, a loan to Uncle Sam to help him finance the war.

O'DANIEL WINS IN U. S. SENATE RACE SATURDAY LATE COUNT INDICATES

According to latest reports on the election W. Lee O'Daniel was elected over James V. Alfred by a comparatively small vote in Saturday's election. Latest estimates place the majority for O'Daniel at about 16,000.

In the race for the court of civil appeals, district seven, it is reported that Pitts of Lubbock, is leading Nelson of Amarillo.

G. C. Tubbs, present incumbent was re-elected County Judge, over Morgan Wright by 145 votes.

W. H. (Bill) Brock defeated A. S. Cummings for Commissioner of Precinct Number one, by a vote of 154.

Miss Margaret Collier, deputy county clerk, is on a two weeks vacation visiting her mother, Mrs. Kate Collier, at Lockney. Miss Emma Lou Bedford is assisting Miss Emma Louise Smith during Miss Collier's vacation.

H. J. R. No. 1

A JOINT RESOLUTION

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1943, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1943, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1943, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the

first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:

"For the Amendment to the Constitution of the State of Texas, requiring appropriation bill passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words:

"Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

Wheat Crop Insurance Deadline Set For August 31

If you want to insure your 1943 wheat crop, you'd better hurry to your county AAA office and get your name on the dotted line.

For Monday, August 31, is the last day on which applications for Federal all-risk wheat crop insurance can be obtained under the new plan in which the producer insures his crops for the next three years, E. R. Duke, Texas wheat crop insurance supervisor, warned this week.

To date 3,387 applications for insurance have been received in the state office, but several thousand more are expected. Meanwhile, 1942 insured producers who had crop losses have been receiving indemnity payments. Duke reports 5,493 claims totaling 941,249 bushels have been paid to Texas producers so far.

Mr. and Mrs. Paul Wright, of San Antonio, is visiting this week with Mr. Wright's parents, Mr. and Mrs. S. H. Wright.

Mr. and Mrs. Joe Conway and little daughter, Jo Dene, of Fort Worth, arrived Sunday for a week's visit with Mr. Conway's mother, Mrs. O. M. Conway, and Mrs. Conway's parents, Mr. and Mrs. Claude Carpenter.

Mr. and Mrs. Somer Hollingsworth visited in Lubbock Saturday night with Somer's brother, Lewis Hollingsworth.

Mrs. Alma Smalley, of Clovis, New Mexico, returned home Sunday after visiting several days with relatives and friends here.

Miss Muriel Fagan returned home Friday from Lubbock, where she attended the summer term at Tech College.

FIREMEN ESTABLISH AN UNPARALLELED PUBLIC SERVICE DEVELOPING THEIR SERVICE

SUN LEMONS
70% MORE JUICE
IDENTIFIED FOR YOUR PROTECTION
FROM KEITH'S
AGE AND LEMONS
TOGETHER.

"Texas firemen have established a record of unparalleled public service in their respective communities," Marvin Hall, State Fire Insurance Commissioner, has asserted in recognition of the work by fire fighting organizations of Texas.

"Fire is one of man's most savage enemies," he continued. "Encouraged by human carelessness and indifference to its dangers, fire has become our most destructive force, whether in time of peace or in time of war."

"Too few of us realize just how much our safety from the fire demon has depended upon the work of our home town firemen. They render an unselfish service; one that often means personal sacrifice in many ways. Present conditions raise such devoted service for home protection to the rank of an important patriotic service."

"Lower insurance costs to the property owner have inevitably followed successful fire prevention. Our firemen have been the leaders in teaching us the practice of fire prevention—practices which have reduced our fire insurance costs."

"These firemen of ours have constantly improved their own training, and sought to keep their equipment in the best possible condition; they have extended full cooperation in fire prevention studies in our schools; training in fire drills; investigations; vigilant fire prevention in the removal of hazards that jeopardized the safety of our property; and have sought in every manner possible to reduce both fires and the cost of fire insurance."

"There never has been a slackening in the training and preparation of our firemen. If anything, they have redoubled their efforts to protect us against losses—fighting with their backs to the wall. All of our fire fighting organizations in Texas are to be commended on the courage and ability of their men."

"Whenever fire insurance costs have been lowered, whether by good fire record credits, lower

key rates, or lower rate schedules on various classes of property, the firemen are justly entitled to a good measure of credit for such reductions.

"The importance of work done by fire estimated. Then too, city officials, who have accepted the responsibility and recognized the serious need for adequate protection, are to be commended fully for their part in supplying the fire departments with adequate fire fighting equipment."

"Texas today enjoys the lowest insurance rates in history. Thanks to the excellent work of firemen in teaching us fire prevention and reducing our fire losses. However, we must not stop here. We are faced with serious conditions on the fire front. We must keep our fire losses low, and make even lower if possible."

"Our fire departments are faced with the problem of reduced manpower. The war has drawn many of our best trained firemen into the armed services, while others have assumed duties in important war production plants. The best we can do will be to extend our fullest cooperation to our fire departments and the men who protect our homes."

Treatment For Loose Smut is Best Safeguard

Seed treatment is a safeguard against the ravages of smut in winter grain crops, according to E. A. Miller, agronomist for the Texas A. and M. College Extension Service. Much progress has been made in controlling stinking smut, one type of the disease, by chemical treatment, but loose smut which differs from the other, cannot be controlled by this method because the fungus is carried inside the seed.

Spores of loose smut are distributed about the time healthy wheat is in bloom, and these lodging in the flowers germinate and grow into the young kernels. Infected kernels when mature cannot be distinguished from healthy ones, but when these are planted the smut fungus threads grow up with the stalk and destroy the heads.

The hot water treatment is an effective control, but requires a vat or similar container where gas or steam is available to control the temperature. One method is to pre-soak the seed for four hours in cold water and then warm it by dipping in water of about 120 degrees F. Afterward it is soaked for 10 minutes in water at 129 degrees. It is imperative to have the water at the right temperature.

Smut in barley and oats can be controlled by treating the seed with one half ounce a bushel of the new improved ceresan.

A mixture of one pint of commercial formaldehyde with from 10 to 40 gallons of water at a temperature of 60 to 70 degrees also may be used. Using a sprinkling can, it should be spread uniformly over 50 bushels of seed while it is being shoveled from one pile to another. Then cover with a sheet for at least four hours, or over night. Sow at once or spread the seed out to dry. One pint of formaldehyde mixed with one pint of water sprayed over 50 bushels is recommended only for oats. Cover for four to eight hours then sow immediately or thoroughly aerate.

TO THE VOTERS OF FLOYD COUNTY:

I wish to thank each and every one for the good vote extended me in Saturday's primary election.

Since Mr. Tubbs was winner in the race, I feel that we all should line up and help work for the common good of all Floyd County.

Sincerely yours,
MORGAN WRIGHT.

School Milk Program Will Be Pushed

College Station.—Thousands of Texans are familiar with the community school lunch program, and in time they may become equally familiar with the school milk program which is being expanded by the Agricultural Marketing Administration.

Details of the plan recently were explained to the home demonstration staff of the Texas A. and M. Extension Service by Grace I. Neely, nutritionist for AMA's southern region. Formerly, Miss Neely was an extension specialist.

Milk used is purchased from local farmers and dairymen, who receive the price prevailing locally for unprocessed milk which is sold for fluid consumption. The USDA Agricultural Marketing Administration pays the farmer's price for the milk to local schools, which in turn pay the dairymen.

Schools participating in the program make arrangements with dairies for supplying, processing, and delivering the milk, and provide for serving milk to the children. In addition, schools must arrange for payment to the processor of the difference between the price of unprocessed milk paid by AMA and the cost of processed milk delivered to the school. Co-sponsors, such as Parent Teacher Associations, may bear this expense.

All children in schools taking part in the new school milk program will be eligible to receive a half pint of milk each day. The school may charge up to one cent a half pint to defray the school's cost of the program."

Farm Saboteur Is Taking Licking In Texas

College Station.—The saboteur on the farm front will take a licking in Texas this year.

"This saboteur's name is erosion and he's been costing us thousands of dollars but we're beating him to the draw this year," says George Slaughter, chairman, Texas AAA committee.

Long recognized as among the farmers' worst enemies, erosion is being beaten through terraces, summer legumes and cover crops, and conservation farming under the AAA program, he said and explained that later on "He'll get another set-back when winter legumes are planted."

Already, orders are being placed and winter legume seeds are being received in county AAA offices where they will be distributed to cooperating farmers who may obtain the seeds and have costs deducted from future AAA payments.

Farmers who plant winter legumes will be converting their farms into nitrogen factories, Slaughter said. He added that winter legumes, which take nitrogen from the air to their roots and transfer it to the soil when plowed under in the spring, provide the most practical way to off-set the shortage of nitrogenous fertilizer.

Deductions for the various legume seed will be at the following rate per hundred weight; hairy vetch, \$11.78; Willamette vetch, \$8.18; and Austrian winter peas and common vetch, \$6.68.

Through the shifting of AAA payments from basic crops, such as cotton and wheat, to soil-building payments, Texas farmers have from two to three times more money with which to buy an interest in their soils than they did in 1941, the AAA official said.

Private Hollis Bond, of Fort Sill, Oklahoma, spent the week end with relatives and friends.

"I live six city blocks north of the Santa Fe main lines. All trains between Chicago and Galveston, between Chicago and Los Angeles and San Diego east or west, go right by my door and you should hear them toot. Try to sleep with your south windows open on a summer night and you will certainly hear them toot."

"It's a continuous procession of swift passenger trains laden with soldiers and long grumbling, rumbling freight trains often with two engines and all night they sound like some cosmic rooster crowing to spell the dawn of the day of doom for America's enemies."

"No other service in the United States is doing such a swell job as the

American railroads. They were ready for it. When the warning came in '39 after we repealed the embargo clause of the Neutrality Law, the railroads knew what was coming. They are now equipped with cars and with rails. Their roundhouses are full but not clogged. They keep the wheels moving. "The American capacity for organization under crisis never was exemplified so splendidly as the American railroads have proved their worth and excellence. It is a great job well done. It is a sort of thing that Americans do better than anything else. Our hard common sense, our indomitable purpose to achieve, all these are back of our effort. The railroads have done their work without friction with either labor or capital. They have responded to a great emergency with splendid intelligence."

"And are they doing their job? You're just right tootin' they are!"

Let's All Pull Together

Increasingly, under war conditions, the railroads must furnish mass transportation, military and civilian, for the nation. The load is already great—and growing steadily. Military movements come first, without question. You can do much to help us maintain adequate rail service for civilian needs as well, in these ways: When you travel, make your reservations

and buy your tickets early; cancel reservations promptly, if necessary; check all personal baggage not actually needed in passenger cars; and spread the travel load by avoiding week-end and holiday rush periods. When you make shipments, order freight cars only to your actual current requirements; load them to capacity; and release them promptly.

AT YOUR SERVICE—Why not talk over your transportation problems with your Santa Fe representative? He'll be glad to help you with practical suggestions.

General Service Workers Needed At Naval Air Base

Five hundred general service workers, between the ages of 17 and 30, are needed immediately for training at the Naval Air Base at Grand Prairie, Lieut. L. H. Ridout, Jr., officer in charge of the North Texas recruiting district, announced today. Men showing marked aptitude for aviation mechanics will be accepted and given a training course.

An additional, unlimited number of trained aviation mechanics, cabinet makers, and fabric experts are in demand to service ships of the Navy's rapidly expanding air fleet and to deal with intricacies of lumber work. Three aerologists, familiar with determining weather conditions, also are being sought. These men may range in age from 17 to 50.

"After being closed for several days to new recruits, the base is being reopened for men with experience in these trades," Lieutenant Ridout said. "How long it will remain open depends upon the response to this latest call."

"I feel certain that such specialists are still available in this territory," he continued. "The opportunity to be assured of following their trades in the service and to spend their initial duty at the Grand Prairie base is one which they must accept without delay."

Recruits should apply at 438 Federal Building, Dallas, for passes to the base, where, with these credentials, interviews will be granted.

Lieutenant Ridout stressed that men may enlist in the Navy as late as the day before they are scheduled for induction.

Farm Saboteur Is Taking Licking In Texas

College Station.—The saboteur on the farm front will take a licking in Texas this year.

"This saboteur's name is erosion and he's been costing us thousands of dollars but we're beating him to the draw this year," says George Slaughter, chairman, Texas AAA committee.

Long recognized as among the farmers' worst enemies, erosion is being beaten through terraces, summer legumes and cover crops, and conservation farming under the AAA program, he said and explained that later on "He'll get another set-back when winter legumes are planted."

Already, orders are being placed and winter legume seeds are being received in county AAA offices where they will be distributed to cooperating farmers who may obtain the seeds and have costs deducted from future AAA payments.

Farmers who plant winter legumes will be converting their farms into nitrogen factories, Slaughter said. He added that winter legumes, which take nitrogen from the air to their roots and transfer it to the soil when plowed under in the spring, provide the most practical way to off-set the shortage of nitrogenous fertilizer.

Deductions for the various legume seed will be at the following rate per hundred weight: hairy vetch, \$11.78; Willamette vetch, \$8.18; and Austrian winter peas and common vetch, \$6.68.

Through the shifting of AAA payments from basic crops, such as cotton and wheat, to soil-building payments, Texas farmers have from two to three times more money with which to buy an interest in their soils than they did in 1941, the AAA official said.

Miss Muriel Fagan returned home Friday from Lubbock, where she attended the summer term at Tech College.

Producers Will Get Seven Pound Allowance

College Station.—Texas cotton farmers will receive a 7-pound per bale allowance for cotton wrapped in cotton patterns this year.

The new program, under which cotton is substituted for the traditional jute wrapping, is the culmination of years of intensive action by state and federal agencies to get buyers and handlers of cotton to make allowance for the additional cotton in a bale wrapped with the fabric.

Cotton patterns and ties on a 500-pound bale weigh about 14 pounds while the jute and ties weigh from 21 to 22 pounds, Fred Rennels, assistant administrative officer of the AAA in Texas, said.

The cotton bale covering not only gives a neat appearing and well protected bale, but permits the packing of more lint per bale and gives producers an opportunity to use a fabric manufactured from their own product, he explained.

The program provides for production of 4,000,000 cotton patterns which will be sold by mills to producers at a fixed price of \$1.10 and to wholesale distributors at \$1.00 per pattern. This is close to prevailing prices for jute patterns.

Since 11,000 bales are required to make enough patterns to cover a 12,000,000-bale cotton crop, Rennels said.

Limited Number of Men Needed as Inspectors

Eighth Naval District Public Relations Office in Dallas announced today there is an immediate need for a limited number of men for billets as petroleum inspectors. They will be called upon to serve within and beyond the continental limits of the United States.

Applicants must present a college degree in petroleum engineering or chemistry and have had experience in refining laboratories in connection with quantitative and qualitative analysis. The age limits are from 25 to 36.

The Navy emphasized that persons with considerable recent experience in chemical analysis, not petroleum engineers who have been doing field work, are desired.

Applications should be addressed to the Office of Officer Procurement, 1530 Allen Building, Dallas.

Physical Exercise Requirement for Vigorous Health

"Physical exercise, despite labor-saving devices, still is one of nature's basic requirements for vigorous health. This fact frequently is overlooked by many middle-aged and older persons who deliberately have reduced exertion to a minimum, permitting gadgets, the automobile and other persons to do for them those things, which, in a less ingenious and abundant age, they would have called on their own muscles to perform. This tendency is being overdone," stated Dr. Geo. W. Cox, State Health Officer.

"For instance, a few days ago a woman of fifty consulted a physician. After relating her vague symptoms, the doctor requested her to outline her daily routine. She said she arose about 9:00 a. m., had breakfast, read the paper, visited with friends on the telephone, had lunch, went to a movie or played bridge, dined at seven, played more bridge or read a book until bedtime. 'You see,' she said, 'I don't do anything.' And that, madam, is exactly your trouble."

A JOINT RESOLUTION

proposing an Amendment to Article 3 of the Constitution of the State of Texas authorizing the lending of Two Million Dollars (\$2,000,000) of the Permanent School Fund for the construction of a State office building or buildings; providing for repayment to the Permanent School Fund; providing for the submission of this Amendment to the voters of this State; and providing for the necessary proclamation and expense of publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 3 of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 49-b, which shall read as follows:

"Section 49-b. The Legislature may provide by law for the issuance of not more than Two Million Dollars (\$2,000,000) in bonds or obligations of the State of Texas to the Permanent School Fund for the construction in the City of Austin of a State office building or buildings, and the State Board of Education is hereby directed to invest not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund therein. Such bonds shall be executed on behalf of the State of Texas by the Governor and Comptroller, and shall bear a rate of interest not to exceed three (3) per cent per annum, payable annually; they shall be of such denomination as may be prescribed by law, and shall be payable in not to exceed twenty-five (25) equal installments beginning one (1) year from date of issuance; and the State Treasurer is hereby authorized and directed to set aside into a special fund annually at the beginning of each fiscal year until all of said bonds shall have been paid off and discharged, a sufficient amount of the first moneys coming into the Treasury for the use and benefit of the General Revenue Fund not otherwise heretofore obligated to the payment of bonds and interest, a sufficient amount to pay the interest becoming due and the bonds maturing during such fiscal year. From said fund, the Treasurer shall pay the interest on said bonds as it comes due, to the credit of the Available School Fund; and shall pay off said bonds as they become due and deposit the amounts so paid to the credit of the Permanent School Fund. The power hereby granted to issue bonds is expressly limited to the amount stated and to five (5) years from and after the adoption of this grant by the people."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at an election to be held on the third day of November, 1942, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Those voters opposing said Amendment shall write or have printed on their ballots the words: "Against the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Sec. 4. The sum of Eight Thousand Dollars (\$8,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election.

Mr. and Mrs. Blondie Finley were business visitors in Dumas last Wednesday and Thursday.

LET CAVANAUGH DO YOUR JOB PRINTING.

Thanks, Voters of Precinct No. 1:

I wish to thank the people of Commissioners Precinct No. One, for their support in the second primary election Saturday.

As your Commissioner I shall endeavor to serve you to the best of my ability. At all times I will have the interest of you in mind while handling financial affairs.

Thanking you, I am,
Yours very truly,
W. H. (BILL) BROCK.
(Political Advertising.)

Mrs. Jewel Teague and Mrs. W. J. Rhoades left Sunday for Oklahoma City, Oklahoma, where they will visit a week with Mrs. Rhoades son, Clifford Rhoades and family.

TO THE VOTERS OF COMMISSIONERS PRECINCT NUMBER ONE:

I wish to thank the voters of Commissioners Precinct No. 1 for the support in the primary election. I have enjoyed serving you as Commissioner, and will cooperate with my successor in every way possible to the best interest of Floyd County.

A. S. CUMMINGS.
(Political Advertising.)

Captain and Mrs. R. Y. Bradford and children, of Albuquerque, New Mexico, visited the past week with Mr. and Mrs. S. H. Wright. Mr. Wright, who had been visiting two weeks with his daughter, in Albuquerque, returned home with the party.

LET CAVANAUGH DO YOUR JOB PRINTING.

To The Voters of Floyd County:

Thanks folks, for your confidence in me by nominating me again as your county judge. I shall do my best for you, please feel free to call upon me any time and I welcome any suggestions you have to offer for the betterment of Floyd County.

G. C. TUBBS.
(Political Advertising.)

Mrs. Sarah K. Duncan returned home Sunday from Lubbock, where she visited the past ten days and received medical treatment. Mrs. Duncan is much improved. Mr. and Mrs. John A. Hollums went to Lubbock after Mrs. Duncan Sunday.
