The Floyd County Plainsman

County Floydada Trained Workers Are Enlisted In Auto Service Flying Field Are Needed

The recent recruiting for the Air Forces which has been completed 20 men from Floydada were enlisted for the Army Flying School now stationed at this large advanced flying school according to information from the Public Relations office at Lubbock.

The number of men from West Texas and Texas and other States in the list. Men were enlisted from New York to California as far south as Florida.

Lubbock furnished the largest number of men from any city or town, while Abilene took second place, Anson followed in fourth place and Lamesa in fifth place followed by Levelland. Men were enlisted from 216 Texas

"Almost every trained worker in the automotive industry who may find himself without work due to the curtailed use of automobiles can qualify for some kind of a civil service job," Paul H. Figg, director, Tenth Civil Service Region, said today.

Auto mechanics, electricians, body and fender men are urged to convert their skills to aircraft employment by Mr. Figg, who pointed out that the federal government needs these experts for civilian jobs at air fields throughout Texas and Louisiana.

Men who have never worked on an airplane engine, but who have two years experience as an auto mechanic can qualify as a junior aircraft engine mechanic, \$1860 a year, and likewise auto electricians with two years experience can qualify as a junior aircraft electrician at the same salary.

Body and fender workers with four years experience can qualify as a sheet metal worker at \$9.12 a day.

Less experienced men may meet the requirements for general mechanic's helper, \$1500 a year, and men without any experience but who have an aptitude for mechanics, may qualify as a mechanic learner, \$1080 a year.

"Many persons without special training or skills will be interested in the classified laborer position, which pays as high as \$.88 an hour in some localities," Mr. Figg said.

Applications may be obtained from the local civil service secretary at any first or second class post office, or from the director, Tenth Civil Service Region, Customhouse, New Orleans, Louisiana, with whom all applications should be filed immediately.

Persons engaged in essential war work need not apply.

As Baptists Are Best in 10 Years

November 24.—Largest Baptist gifts since the peak of the Seventy-Five Million Campaign in the early twenties, announced today by Dr. W. R. White, executive secretary, released figures show contributions of \$1,436,000 for the 1941-42 Convention compared with \$1,210,000 for the 1940-41 Convention.

Dr. Melton of the state, Dr. Melton of all but \$75,420.77 of the state's \$400,000 debt in the Debt Paying Campaign during their recent State Convention at Fort Worth. At the Convention pledges of \$13,000,000 were made in 15 days.

The remaining \$61,559,000 will be in care of in the new budget for 1942-43.

The budget calls for all of \$539,250 to Southwestern Baptist state missions, \$1,000,000 extra to missions and \$122,000 extra for other causes. Included in the program around the

4-H Gardners' Output is 3,500,000 Bushels

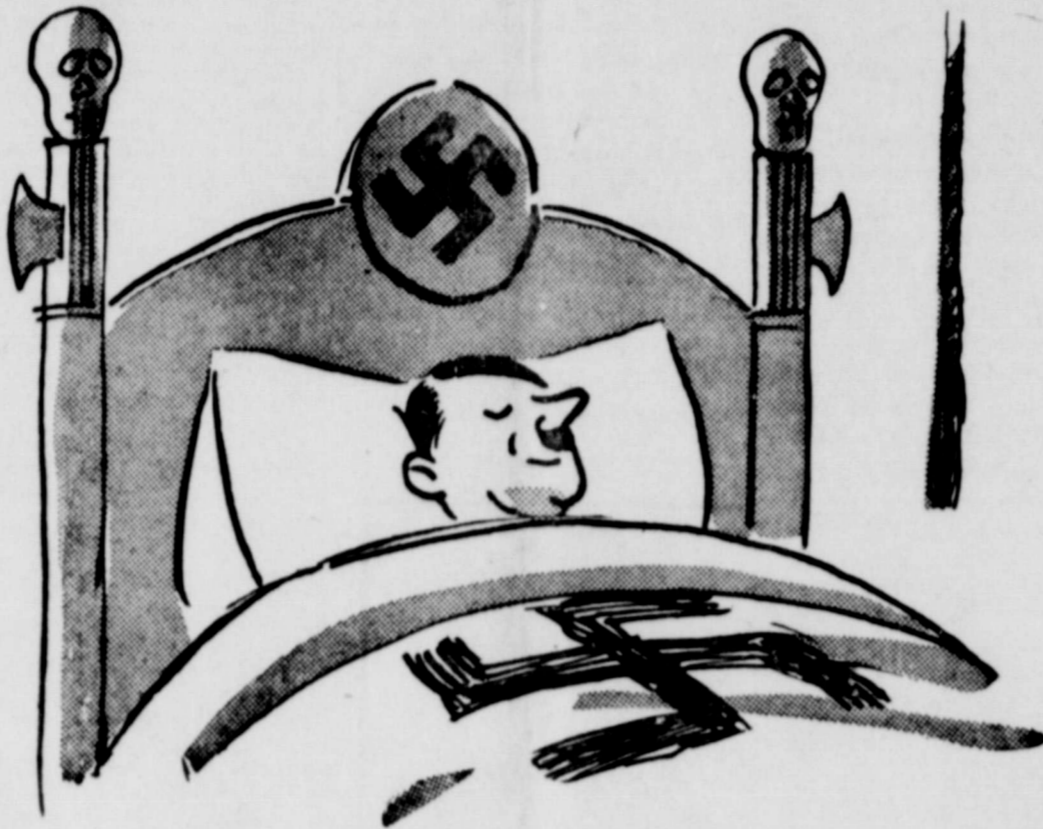

A record output of more than 3 1/2 million bushels of garden vegetables and small fruits will be produced this year by 4-H Club members throughout the nation, in response to the Government's call for super-production of these food stuffs to meet war needs. This output is an increase of 60 percent over last year's production by the clubbers.

Roughly 350,000 members participated in the 1942 National 4-H Victory Garden contest conducted in cooperation with the Extension Service, in which awards consisting chiefly of U. S. War Savings Bonds, were provided. This also is an all-time high enrollment in the 4-H gardening project, and shows how vital 4-H production is to the war effort in this as in all lines.

County winners in this competition received gold-filled medals, and four representatives of each State's blue award group were awarded a \$25 War Savings Bond. One of the latter will be considered in selecting sectional and national winners. All-expense trips will to the 21st National 4-H Club Congress in Chicago, November 29-December 2, will be awarded to the two highest scoring participants in each of the four extension sections, who will also receive a \$100 War Savings Bond apiece.

This man is not dead. He is just sleeping. And sleeping a little more soundly, perhaps, because there are still many Americans who are not putting at least 10% of their pay into War Bonds on a regular Payroll Savings Plan. How about you joining a lot of other fellows in giving the little paperhanger a rude awakening? How about you signing up with a Payroll Savings Plan today . . . to the tune of not 6%, or 7% or 8%, but 10% and more if you can? LET'S TOP THAT 10% BY NEW YEAR'S.

WHAT YOU SHOULD DO:
If you are . . .
1. Already investing 10% of your pay in War Bonds through the Payroll

- Savings Plan—boost that 10% if you can.
- Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
 - Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local bank will be glad to help.
 - Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.

"TOP THAT 10% BY NEW YEAR'S!"

BUY U. S. WAR BONDS THROUGH THE PAYROLL SAVINGS PLAN

GOVERNOR COKE R. STEVENSON CALLS ON VICTORY LEADERS TO USE "HUMAN CHAIN SYSTEM"

Governor Coke Stevenson, chairman of the National Defense Committee for Texas has requested the A. and M. College Extension Service to use the "human chain system of communication" in informing the state's rural families about the government's Share-the-Meat campaign, according to Extension Director H. H. Williamson.

In this movement the Extension Service and the community and neighborhood Victory leaders will cooperate with the OCD and State and county nutrition committees, Director Williamson said.

Briefly, the Share-the-Meat program is a campaign for voluntarily dividing fairly the pork, beef, veal, lamb and mutton which is available for civilians after the needs of the armed services and lend-lease commitments have been met. The "sharing allowance" of two and one-half pounds per adult per week includes only the muscle meats, not fish, poultry, and the "variety meats" such as hearts, kidneys, livers, sweet-breads, and the like.

Since October 1, Director Williamson explains, deliveries of "muscle meats" for civilian consumption have been reduced considerably. That means homemakers who cannot shop early and "diners-out" who get to restaurants late in the meal, may not be able to get their share of meat. "Although families who are heavy meat eaters are asked to limit their consumption, no one expects a person now eating less than two and one-half pounds to cut his consumption. Instead, he should eat his allowable for the sake of good

health," Director Williamson says. During the week November 30-December 6, community and neighborhood leaders will conduct the fact-to-face campaign among farm families and in villages of less than 2,000 population. OCD block leaders will explain the program to families in towns and cities.

Corporal Bruce Ward, of San Diego, California, arrived last Wednesday to spend a ten day furlough with his parents. Bruce is in the Marines and is with the Rifle Range Detachment as instructor. He will leave Thursday for San Diego.

Mrs. Sam Cates Dies at Olton

Mr. and Mrs. J. C. Cates, and daughter, Anna, attended the funeral of Mrs. Sam Cates at Olton, Friday afternoon, November 20. Mrs. Cates is a sister-in-law of J. C. Cates. Rev. C. C. Giffith, Baptist pastor, conducted the services. Interment was made in Olton cemetery.

Mrs. Cates was 73 years of age. Her husband, Sam Cates, died in July of this year.

Born at Magnolia, Ark., Mrs. Cates was married to the late Sam Cates. After their marriage the couple moved to Floyd County where they lived until 1933, when the family moved to Olton.

Mr. and Mrs. Mark W. Duncan, of Lubbock, visited Sunday with Mrs. Sarah K. Duncan.

Training School For Firemen to be Held in Lubbock Funeral Services For Mrs. George T. Thorpe Held Sat.

A wartime training school for firemen in the Second Fire Service District will be held in Lubbock during the week beginning December 7, it was announced by Marvin Hall, commissioner of the Texas Fire Insurance Department.

Commissioner Hall and Fire Service Coordinator of the National Defense Committee for Texas, says the school is an important part of the statewide training program recently announced for Texas firemen.

The series of training schools for the 26 Texas Fire Service Districts has been arranged through cooperation of the State Board of Vocational Education, the Office of Civilian Defense and the National Defense Committee for Texas.

A. H. Davis, Assistant Fire Chief of El Paso, is instructor for the school. On leave from the El Paso Fire Department, Mr. Davis has been employed by the State Board of Vocational Education as an instructor for the firemen's teacher-training program. He has recently attended an OCD regional instructor's school at Stillwater, Oklahoma.

District Two includes the counties of Bailey, Lamb, Hale, Floyd, Cochran, Hockley, Lubbock, Crosby, Yoakum, Terry, Lynn, and Garza.

Two firemen from each department within the district will attend the Lubbock school. Following the week of special training these firemen will return to their respective departments and hold local training sessions to complete the program.

In addition, attendance of representatives from fire departments of both industrial plants and the armed services within the district will be welcomed.

Local arrangements for the school are directed by District Coordinator W. E. Twitty, Lubbock Fire Chief. H. M. Gregg, Plainview Fire Chief, and Hugh Nation, Crosbyton Fire Chief are assistant district coordinators.

R. O. Muenster, Fire Defense Advisor of the Eighth Regional Office of Civilian Defense, is directing the training program in Texas, New Mexico, Oklahoma, Arkansas, and Louisiana. Muenster has been chief of the Luling, Texas, fire department for almost 10 years.

Mr. and Mrs. Mark W. Duncan, of Lubbock, visited Sunday with Mrs. Sarah K. Duncan.

Funeral services were held Saturday afternoon at 4 o'clock at the Petersburg Methodist Church for Mrs. George T. Thorpe, sister-in-law of Mrs. Maud Merrick, of Floydada. Mrs. Thorpe died in a Lubbock hospital Wednesday, November 18, 1942, following an operation November 1. Mrs. Thorpe had been ill several weeks.

Rev. Cecil Fox, pastor of the First Methodist Church, of Petersburg, conducted the services, assisted by Rev. Hughes, pastor of the First Baptist Church. Burial was made in Petersburg Cemetery under the direction of Lemon Funeral Home Plainview.

Mrs. Thorpe is survived by her husband, two sons, F. T. Thorpe, of Tahoka, Texas and Cleo Thorpe, in the Marines and stationed at San Diego, California; one daughter, Mrs. Cecil Horton, of Artesia, New Mexico.

Mrs. Merrick was called to Petersburg Wednesday afternoon and remained until Sunday.

Share the Meat Program to act as a "Cushion"

College Station, November 24.—The government's Share-the-Meat program should pave the way to a cheerful acceptance of rationing, and it likely is one of several food programs in which county and municipal food and nutrition committees will be assigned war-time responsibility, executive members of the State Nutrition Committee were told at a recent meeting in Fort Worth.

The local food and nutrition committees, which are a part of the OCD organization in Texas, will train block leaders for a face to face campaign for voluntary sharing of meat, according to Mildred Horton, chairman of the state committee and vice director of the A. and M. College Extension Service. A sub-committee on community planning headed by Dr. Ercel Eppright of the Texas State College for Women, is helping local nutrition committees prepare for their duties in the movement.

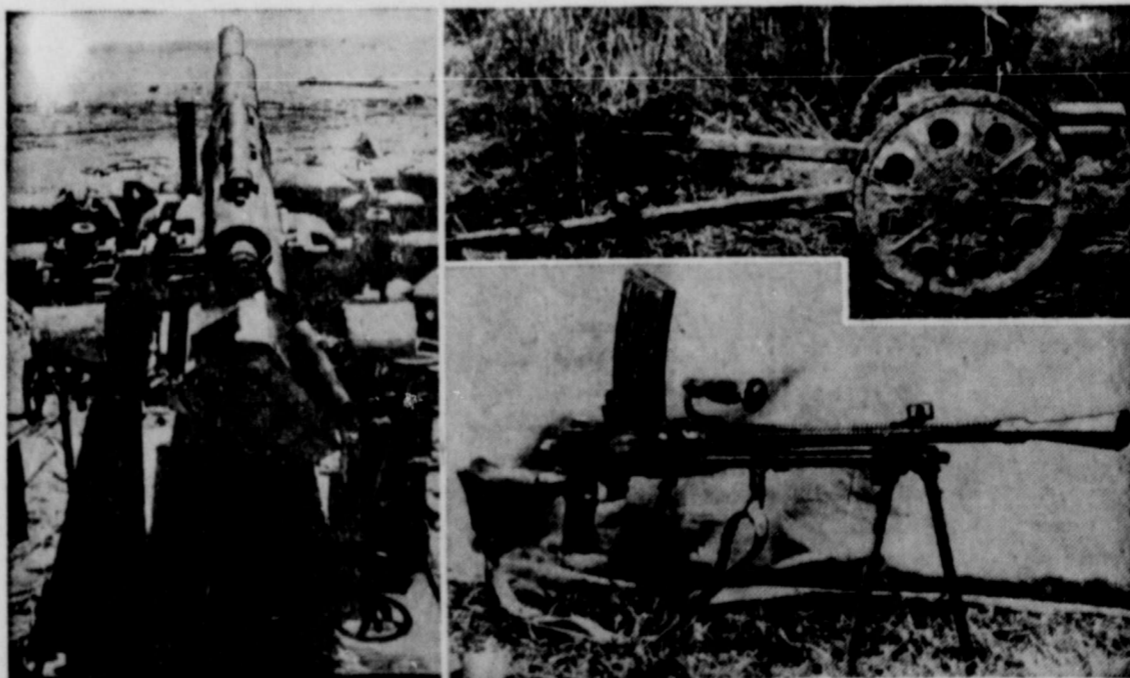

In addition to training the local leaders, nutrition committees will help Texans have adequate diets in the face of increased war-time difficulties. Menus and recipes for "extending meat flavors" and for properly preparing meat and alternate foods will be made available by the local committees. They also will arrange war food demonstrations following the face-to-face campaign of November 30 to December 5.

The county unit of home economists will serve as the county planning and coordinating committee where defense nutrition committees have not been organized, Miss Horton says. Governor Coke Stevenson, chairman of the National Defense Committee for Texas, last week urged county and municipal defense coordinators to complete organization of nutrition committees and the block leader system prior to the Share-the-Meat campaign.

Mr. and Mrs. Thomas Wright, who is stationed at Waco, arrived this week for a ten days visit with Mr. Wright's parents, Mr. and Mrs. S. H. Wright, while Thomas is off duty on a furlough.

TEMPORARY GAS PERMITS TO BE GIVEN FOR TRUCKS

Provision was made on the 23 for giving temporary "T" gasoline rations to trucks, buses, taxicabs and other commercial vehicles which have not received certificates of war necessity, it was announced at Washington.

Operators of such vehicles who have applied to the office defense transportation for certificates but have not received them may apply at their local war ration boards for temporary rations which will become valid December 1, according to the announcement.

The "T" ration, on this temporary basis, will provide the amount of gasoline which applicant estimate they will require through December 31.

Ensign J. Holt Waldrep and wife are visiting this week with Mrs. Waldrep's parents, Mr. and Mrs. R. E. Fry. Ensign Holt is stationed at Athens, Georgia.

Mrs. E. C. Thomas, of Roswell, New Mexico, came Tuesday to spend the holidays with her parents, Mr. and Mrs. F. M. Price.

Mrs. Rachel Ivey, of Big Spring, visited this week with her mother, Mrs. C. Surginer and other relatives here.

Miss Grace Beedy, daughter of Mr. and Mrs. A. J. Beedy underwent a tonsil operation Monday at Pitts Hospital. She was carried home Tuesday afternoon.

Wartime Capital Jammed With Girls

Housing of Fair Sex Is a Serious Problem.

WASHINGTON—Girls are people, all right, but landlords in congested Washington prefer men.

Inasmuch as 150,000 government girls are already employed in the wartime capital, outnumbering the "eligible" men by maybe two to one, the situation would be serious enough even if the total were not constantly growing.

The civil service commission, the defense housing registry and the Travelers' Aid society, after devoting a lot of thought to the question, have concluded that landlords do not like girl tenants because:

1. They are generally more trouble than men, require more "looking after."

2. They do their laundry in the bathroom, clogging drains, and causing queues to form at the bathroom door. They also swipe the landlord's current for their electric irons.

3. They often bicker with each other and the landlord over use of the living room for entertaining their boy friends.

Girls in a boomtown present other difficulties. They tend, for one thing, to gang up and "stick together in the strange city," thus creating congestion, and producing "a grave problem to the organizations attempting to meet their housing needs," according to the civil service commission.

As for "stories of girls sleeping on benches in railroad and bus terminals and of girls riding streetcars all night because they were unable to find a place to sleep," the commission said, "if such incidents have occurred, they may be attributed to the failure of these girls to go to the proper agency for advice and assistance."

Soldier-Sailor Is Back

In Navy at Age of 69
PEKIN, ILL.—Thomas W. Gardiner, who has spent more than 20 of his 69 years in Uncle Sam's fighting forces, is going back into the navy with a big grin on his face.

Last July a routine letter notified Gardiner, and all other men who have had extensive navy experience, that he might be subject to recall. From that day on he lived in hope that he could wear a sailor's uniform again.

Gardiner, who retired in 1929 with the rank of chief boatswain's mate, was ordered on May 1 to report to Chicago for a physical examination. He got there the same day. He was accepted and was ordered to report to the Great Lakes Naval Training station.

In the World war, Gardiner helped chase submarines along the Atlantic coast. He'd relish that assignment again, but expects he'll be on duty in some training station in this war.

In the Spanish-American war Gardiner enlisted in the army but didn't see any fighting. Then he re-enlisted for a three-year hitch in Montana and Wyoming. After that he became a navy man, enlisting in 1902 and serving 27 years.

Australia Wheat Surplus

Eyed as Fuel for Autos
MELBOURNE, AUSTRALIA.—A representative of the Melbourne Herald, after making a test run in an automobile with a gas producer powered by wheat instead of charcoal, thinks economic use is possible of Australia's wheat surplus of 100,000 bushels, equivalent to 100,000 gallons of gasoline.

The inventor, M. J. Martin, a chemical engineer, has driven a car several months on grain mixed with charcoal gas in a gas producer. A bushel of wheat is equal to three gallons of gasoline in mileage and costs five shillings.

Pardon Almost Breaks Up Missourian's Home

KANSAS CITY.—Fred O. Reeves walked into a barrage of questions from his wife. The postman brought a letter from Governor Donnell granting Fred Reeves a pardon.

The former auto salesman, who'd never been in prison, took the letter to police.

They found the pardon was intended for another Fred Reeves.

Free Legal Advice Given Soldiers at Camp Stewart

CAMP STEWART, GA.—When a soldier needs a lawyer he's got one. A soldiers' legal aid clinic composed of 15 lawyer-privates, is functioning at Camp Stewart to aid fellow-soldiers. Private Murray J. Greenbaum is chairman of the group, which considers legal questions solely during off-duty hours and charges no fees for its advice.

He Swallows a Worm To Help War Effort

KOKOMO, IND.—Jefferson school is buzzing with the story of a boy who gulped to help in the war.

War savings stamps were on sale and he hadn't any money.

Three other boys dared him to swallow a fishing worm. He said he would if they'd give him a quarter. He got a stamp.

N. Y. Crowd Fed after "Bombing"

Bombs falling. Crowds of homeless dazed and bewildered. How effectively will volunteer women mobilize and feed them? Central Chapter of Queens, American Red Cross, decided to try it for the first time under surprise conditions in Metropolitan New York. Mrs. Alfred R. Gledhill, the Chapter's canteen chairman, issues surprise "disaster" orders (1), mobilizing women to feed 300 "homeless."

Mrs. Harold Hanover checks disaster supplies (2)—cabbage, bacon, rice, tomatoes, onions, green peppers, applesauce, coffee, and sufficient sanitary paper cups and containers to feed a crowd and avoid contagion hazards. Volunteers prepared nourishing meal, rushed it to "disaster" scene by mobile kitchen, fed crowd including youngsters (3).

4. Mrs. Kay Simonson, canteen worker, from inside Chapter's mobile canteen pours coffee in paper cup for willing raid "victim." Test proved Chapter's ability to mobilize quickly; serve food under sanitary conditions, most essential in disasters; provide a hot, adequate nourishing meal; and work efficiently as a team. It all went like clockwork.

5. Part of crowd eating delicious rice a la creole, coleslaw, bread and butter, applesauce, coffee. The Chapter's emergency food service in an actual air raid could continue two hours or two weeks, till someone could take over more permanent relief.

Santa Fe Serving America in war and peace

Nine Flags of the Minute Men were presented that many units of the Santa Fe Railway Western Lines recently in Amarillo, for payroll purchases of Victory Bonds. More than 97 per cent of the 12,378 employees of this Santa Fe Grand Division, working in Texas, New Mexico, Colorado, Kansas and Oklahoma have enlisted in this bond purchase plan.

Cheering the employees in their patriotic achievement are:

(Front row—left to right) Lt. Arthur Trum; Capt. C. S. Haynie and Cecil Abrams, Santa Fe Battalion; H. A. Appleby, signal engineer; H. R. McKee, superintendent, Slaton division; J. B. Briscoe,

superintendent, Plains division; Mayor Joe Jenkins, Amarillo; R. I. Rydin, assistant to the president, Santa Fe System; E. Byron Singleton, associate administrator War Savings; E. P. Dudley, assistant general manager, Northern District; C. R. Tucker, assistant general manager, Southern District; H. C. Vincent, traffic manager, P&SF Ry.

(Back row) Chaplain John A. Mroczka; W. W. Davis, storekeeper; Capt. H. E. Wilson and R. D. McGee, Santa Fe Battalion; C. A. Casler, auditor, P&SF; R. T. Anderson, general passenger agent, Topeka; E. F. Browder, secretary-treasurer, P&SF Ry.; J. E. Owens, tax agent; Homer B. Fink, treasurer, Santa Fe System; G. C. Jefferies, general manager, Santa Fe Western Lines.

Grant Col-Salute Scrap Drives of Rural Districts Is Success

Station, November 24.—Salute to the farmers on their magnificent contribution in food production were expressed recently by Edmund Esar Day, of Cornell University, elected President of the Land-Grant Colleges, and by T. O. Walton of Texas College and chairman of the executive committee of the organization in Chicago.

At the same time, they voiced concern over the difficult confronting agriculture and pledged the full cooperation of the Land-Grant Colleges and Dr. Walton pointed out the production of food and livestock products in the largest in the history of American farming and that they had met its obligations with effort fully and commendably.

This success much credit given not only to men who worked 70 or 80 hours per week also to farm boys and to the farm wives who long hours in the fields in addition to caring for homes and the families." At the same time, both emphasized difficulties in maintaining production in 1943 with the increased shortage of the threat of shortages in equipment, and the ever possibility of droughts and unfavorable weather.

Looking to the next crop year, "It becomes the mission of Grant Colleges in their and through their Extension to work more closely with farmers than ever

Scrap Drives of Rural Districts Is Success

College Station, November 24.—Scrap drives in rural areas of Texas have been highly successful in recent weeks, according to reports of county workers of the A. and M. College Extension Service.

In most counties, salvage campaigns among farm and ranch families have been conducted by county Agricultural Victory Councils which direct the neighborhood leader system.

Among rural people in Victoria County the per capita collection is 62 pounds, and the drive has not been completed. Parker County community and neighborhood Victory leaders have assisted in collecting a million and a half pounds of metal in trucks owned by the Army, the county, the city of Mineral Wells, and by private citizens. A drive in Washington County netted 146 tons and in some communities of that county the per capita collection of school children has averaged as high as 683 pounds.

Victory leaders in Crosby County helped collect 200 tons of scrap. The proceeds of its sale were donated to the Red Cross and U.S.O. The U.S.O. benefited also from the sale of 350 tons of metal in Midland County. Hall County reports 15 car loads of scrap and 228,000 pounds of rubber salvaged through the neighborhood leader system.

Money obtained from the sale of scrap metals in the Beaumont Garden community of Jefferson County has been used to improve a community center building. It has been equipped with black-out curtains, first aid equipment and stretchers, plus an "emergency pantry," for feeding the community in the event of disaster. Communities in Harris County have used their "salvage funds" for such purposes as buying an air

Community School Lunch Program Is Popular

More than 371,000 school children in Texas were provided with nutritious foods through the community school lunch program during the peak month of the last school year, according to results of a survey made by the U. S. Department of Agriculture.

Of the total number of children benefiting in Texas, 273,517 were in rural schools and 97,987 in city schools. The number of Texas schools participating was 5,197.

The national survey, conducted by the Agricultural Marketing Administration which provides many farm products for the pro-

gram, shows that more than six million children participated in all states. In many areas local sponsors provide foods to supplement those supplied by AMA. Too, many schools operated garden and canning projects in connection with the program, thus providing part of the food. Usually, County Extension Service agents assisted in planning these gardens.

The school lunch programs vary from complete hot lunches served from a central kitchen to an apple and a glass of milk distributed by the teachers. Complete lunches, however, were served to 61 per cent of the children.

Local organizations sponsoring the lunch programs included Boards of Education, Parent-Teacher Associations, and home demonstration clubs.

The total annual value of Texas cottonseed products, once dumped at the gins as waste, exceeds \$50,000,000.

ANTI-POLL TAX BILL DEFEATED IN SENATE

The Senate early this week refused to limit debate on House-approved legislation to abolish state poll taxes as a requirement for voting in federal elections. It was indicated by the Senate's action that the bill will be abandoned after a successful period of filibuster by Southerners.

Nearly 200 fairs and festivals are held annually in Texas.

ENSIGN COMMISSION FOR PLAINVIEW WOMAN

Plainview, November 23.—Miss Bernetta Isbell of Plainview has been commissioned an ensign in the women's reserve of the United States Navy and has been assigned to active duty in the Bureau of Arms and Docks at Washington, D. C., according to information reach-

ing here. Miss Isbell formerly taught at Wayland College.

Early in November, Ensign Isbell, with other women, reserves, completed a 4-week indoctrination course at the Naval Reserve Midshipmen's School in Northampton.

The Food Outlook For 1943 Depends on Production

College Station, November 24.—What farm families can produce for themselves will largely determine what kind of diets they will have in 1943, Louise Bryant, specialist in home management, recently told the headquarters staff of the A. and M. College Extension Service on her return from the Annual Outlook Conference in Washington, D. C.

The outlook conference is sponsored annually by the U. S. Department of Agriculture to give research and educational workers a preview of "what's ahead" for agriculture and home economics.

Shortage of containers, labor and transportation mean consumers will use more fresh fruits and vegetables next year, the specialist added. The armed services and lend lease beneficiaries will get the bulk of the country's fruit and vegetable pack plus a large portion of commercially dehydrated fruits and vegetables, she explained. The supply of frozen foods available to civilians also will be limited, although ice cream factories and fur storage houses likely will be converted to sharp freeze and storage plants.

"We're going to buy foods in bulk, too" Miss Bryant reported. For instance, since no canned soups will be available home-makers will either prepare their own or "buy it at the nearest grocery store and take it home in their own glass jars."

Miss Bryant added that rationing will affect the higher income groups more than the lower. She predicted establishment of a point system of rationing which would allow purchases according to food groups, such as proteins, for example. Marked increases in food costs are not possible, the specialist said, since 90 per cent of the nation's food prices already are under control.

Select Next Year's Breeding Turkeys Early in Season

Texas turkey growers should select breeders for next year before all of their better birds have been sold.

"It is only by selecting breeders now," says Geo. P. McCarthy, poultryman for the A. and M. College Extension Service, "that we can maintain the improvement which has been so pronounced during the past five or six years."

Turkey hens which are showing heavy fleshing, especially across the breast and thighs, and have developed fat and feathered out well, including pin feathers, should be kept back as breeders, McCarthy explains. Producers should also be giving serious thought to buying toms to head up next year's breeding flocks. There is an excellent supply of good quality toms in Texas, especially in the broad-breast bronze strain, which may be bought from ROP breeders. Growers buying hens or toms should see that they are pullorum-tested before putting them into breeding flocks.

Under ROP breeding practice all hens are trap nested, and a complete record is kept on eggs produced, their fertility and hatchability. Only toms from hens which have laid at least 50 eggs from February 1 to June 1, and have a hatching record of at least 72 per cent of all eggs set can qualify as ROP. The Texas Extension Service has kept records of all individual turkeys trap nested during the past year. Producers not desiring this quality can buy good selected turkey toms in many parts of the state.

McCarthy estimates this year's crop at 3,724,000 turkeys, explaining that "as a whole, their quality has been improved through better selection and better feeding."
