

York To Quit As Chief Of City Police

Chief of Police E. W. York said this morning that he would offer his resignation to City Manager Herbert Whitney before Tuesday evening's regular city commission meeting.

Temple Man Is Indicted For Shooting Sister

BELTON (AP)—Oscar McQueen, 50, who held his sister prisoner for seven hours in her barricaded Temple home and shot her as police closed in, was indicted yesterday.

The New Orleans cabinet maker, was named twice on charges of assault to murder the sister, Mrs. Mayme Miller, 59, and her daughter, Mrs. Anna Peters.

McQueen let Mrs. Peters leave after a short time, but bound and held Mrs. Miller in a locked bedroom Wednesday. He threatened to shoot her if police tried to enter.

Officers fired tear gas into the room and battered down the door. McQueen fired as they entered, and Mrs. Miller was wounded twice. Her condition was not considered critical.

McQueen said, "I went all to pieces and started shooting. I didn't aim at her. I just started shooting."

York said he had discussed the matter with Whitney and several city commissioners earlier in the week. He said he is resigning because the job doesn't pay enough for "all the headaches and worries" that go with it. The salary is \$400 per month.

Whitney said he would have no comment on the resignation until the commission meets.

York said he plans to have the resignation effective Jan. 15 or possibly Feb. 1. If the commissioners feel they need him that long.

"I have nothing against the officials in the city or anyone else," he said. "I've made up my mind and I'm going to resign."

York said he planned to stay in Big Spring and get another job. He said he has two children in school and his home is here. It will be hard to leave the police department after 13 years, he added, but under the circumstances, it's the only thing I can do.

York came to Big Spring in 1941 and joined the police force March 1, 1943, as a patrolman. His pay was \$123 per month. Since then, he has worked himself up through the ranks to chief. The department has grown from a seven-man force in 1943 to 24 employed now.

He is a graduate of the FBI National Academy and holds 10 other certificates of experience. He has completed courses at the University of Texas, Texas Department of Public Safety, A. & M., and other FBI schools.

BLASTS ROCK LAMESA TODAY

LAMESA — Two successive mystery blasts rocked this city early Friday morning and awakened hundreds of people.

Police and sheriff department officers were flooded by calls, but at mid-morning they were unable to answer the question: "What exploded?"

The first blast at around 3 a. m. rattled windows and in about a minute and a half a second followed, causing houses and TV antennae to shudder. Many residents thought that it came from southwest of town some from the west and some from the northwest. Members of the sheriff's department patrolled the area but found no signs of flames or explosion.

Like To Confer With Benson On Farm Problem

KEY WEST, Fla. (AP)—President Eisenhower and Secretary of Agriculture Benson confer here today on a fresh appeal to Congress for "immediate and drastic attention" to the problem of slumping farm income.

Before them was a draft of a special farm message Eisenhower will send to Congress Monday.

In his State of the Union message yesterday, the confabing President dealt with the crop price decline in general terms.

"Our national farm policy, so vital to the welfare of farm people and all of us, must not become a field for political warfare," he said. "Too much is at stake."

In a discussion of his State of the Union message filed here for later radio and television use, Eisenhower called for "immediate and drastic attention" to the farm problem, which he termed serious.

In the message itself, he said: "Our farm people are not sharing as they should in the general prosperity. They alone of all major groups have seen their incomes decline rather than rise."

He said the government's existing duty must be "to help bring about a change in the balance of power between the farmer and the market."

He urged a many-sided assault to achieve that end among them, "authorization of a soil bank program to alleviate the problem of diverted acres and an overexpanded agricultural plant."

SALE STEERS BRING \$4,500

Bobby Sale, 13-year-old son of Mr. and Mrs. J. C. Sale of Stanton, made more history in Odessa Friday morning when he turned two steers for \$4,500.

Bobby became the first exhibitor ever to show the grand champion and reserve champion of the Sand Hills Herd Show Tuesday when he swept the field.

Friday morning, a syndicate of Odessa businessmen paid young Bobby \$3,000 for his champion calf and the First State Bank of Odessa bid in the reserve for \$1,500.

The champion, weighing in at 940 pounds, was bred by J. C. Sale. The 1,035-pound reserve was bred by Perry Walker of Big Spring.

Polio-Stricken Youth Turns Greenish Color

CHICAGO (AP)—A polio-stricken farm youth, whose nine brothers and sisters and parents also have suffered polio attacks, was reported in grave condition today and his body was described as having turned a greenish color.

The youth, Edward Walsh, 15, has been unconscious since early Wednesday at the Research and Educational Hospital of the University of Illinois.

Twelve of the 18 members of the Karon Walsh family of Durand, a community of 700 in northwestern Illinois, were victims of polio last summer.

The most seriously stricken were Edward and David, 17, the eldest of the children, who has been at the University Medical Center since last October. Six of the children were not stricken. The parents suffered light attacks.

Edward was brought to the hospital Dec. 28 after his condition in a Rockford Hospital became worse. Doctors said his body had a greenish hue. They said they tested his blood serum and found it was green instead of red. They said they did not know what caused the condition.

Three other children have been hospitalized in Rockford. They included twins Julia and Joan, 13, and Rose Ellen, 5. The other children were cared for at the Walsh farm home, and as physiotherapy patients in visits to Rockford hospitals.

The father, 53, and the mother, 45, came to Chicago when Edward's condition became more serious this week.

More than \$7,000 was raised for the Walsh youngsters through contributions coming from all parts of the country.

Autopsy Ordered In Prisoner's Death

An autopsy has been ordered in the death of Perry Dawson who died at Cowper Hospital Thursday afternoon after being taken from the city jail unconscious.

Dawson was arrested at Mae's Place along with three other men for fighting Wednesday evening.

Thursday morning, police noticed a knot on Dawson's head and called a doctor from the Cowper Hospital. The doctor ordered the man taken to the hospital where he died later in the day.

The matter has been turned over to the District Attorney's office which issued the autopsy order.

Negroes Acquitted In Disturbance Case

NEW ORLEANS (AP)—Seventy-two Negroes arrested after a disturbance on a public bus were found innocent last night in Municipal Court.

The Negroes, most of them students at Dillard University, were booked with disturbing the peace after they refused to sit behind a sign separating white and Negro passengers. Fanny Carver, 17-year-old student, also was charged with inciting a riot.

Francis Roux, 36, driver of the bus, and James J. Serpas, who was the only white passenger, refused to sign affidavits accusing the Negroes.

Wheat Developer's Rites Scheduled

COLLEGE STATION (AP)—Edgar McFadden, 64, who saved millions of lives by developing a rust-resistant wheat but was so retiring many of his townsfolk didn't know about it, will be buried tomorrow.

Services will be held at 10 a. m. in the A. M. Presbyterian Church here. Burial will be in the College Station city cemetery.

Wages Of Sin

POPLAR BLUFF, Mo. (AP)—For two years, a robin with a tell-tale white spot on the side of his head went on a constant bender whenever the haws were ripe on Dr. Z. Lee Stokely's Hawthorne tree.

The bleary-eyed bird, named Old Soak by "Doc" Stokely, an outdoor columnist, would eat his fill of haws, stagger about the yard, topple over and sink into a stupor.

It happened every day. It probably was during one of these drunks that a hungry cat came along.

All Stokely could find of Old Soak today was a few feathers and a wing.

Sunday will mark probably the best "novillada" of the season at the Juarez bull ring. Three outstanding fighters will be presented on the same card.

The star of the three will be Jesus Delgado "El Estudiante" (The Student). He is one of the finer young bullfighters coming up. Four weeks ago, he was gored at Guadalajara. He stayed in the hospital 15 days.

Ramon Tirado, another novillero, will also appear on Sunday's card. He too, was gored at Guadalajara and will be appearing for the first time since the goring. This fight probably will be Tirado's last appearance in Mexico. He is scheduled to go to Spain where he will be decorated as a full fledged totero.

Jose Gomez is the third fighter. He was asked back for a reappearance after his brilliant performance two weeks ago.

All three of the men are better than average and each will be fighting two bulls. If you have been planning to see a bullfight, see this one.

Incidentally, if you go, be sure to get a seat on the shady side of the arena. The ticket seller is Alfredo Blancas and he will see that

El Estudiante

you get good seats if you tell him you are from Big Spring. El Estudiante, incidentally, is Blancas' godson.

TOUGH DRIVE

2 Texas Insurance Firms Knocked Out

AUSTIN (AP)—The Insurance Commission's drive to give Texas the toughest insurance regulations in the nation knocked out two companies yesterday and had two more in doubt.

Uncontested were the commission's revocation of business permits of Dallas Fire and Casualty Co. of Dallas and U.S. Life Insurance Co. of Waco. The commission asked the attorney general to start receivership actions.

Fighting a commission order to revoke its right to sell insurance, American Atlas Life Insurance Co. of Dallas appealed to the 98th District Court.

The appeal suspended the commission's order, pending a court decision.

The company can continue to sell insurance, but the real purpose, said company attorney Ralph Currie of Dallas, is to gain time to complete the sale of the company and put it under new management.

The appeal also may allow the commission to take another step in testing a new law which says it can lock the door on companies whose officers and directors appear, on the basis of substantial evidence, unworthy of the public confidence.

The fourth company to feel the sting of the commission's crackdown was Southern Medical and Hospital Services. The commission assumed direct supervision of that Waco firm for 30 days and said the firm would be thrown into full conservatorship if management acceptable to the commission is not established in that time.

Conservatorship ordinarily means the company would be turned over to the state liquidator for operation by him until the firm is considered capable of managing its affairs again.

The commission's actions in all four cases were based on findings by the board that management of the firms has not been worthy of public trust and confidence.

The principal target in connection with the Waco firms—U.S. Life Insurance and Southern Medical and Hospital Services—was A. B. Shoemaker of Waco. Shoemaker headed the U.S. Trust and Guaranty Co. and U.S. Automobile Service, thrown into temporary receivership last month.

state in action against Dallas Fire and Casualty and American Atlas Life Insurance was Joe Irwin, president of American Atlas Corp. Currie said it was agreed that Irwin headed American Atlas Life, but he denied Irwin has ever exercised management of Dallas Fire and Casualty.

Commission Chairman Byron Saunders noted a letter included in one of the state's exhibits bearing the signature of Joe Irwin and identifying him as president of Dallas Fire and Casualty sometime during the past year.

With no one claiming to represent Dallas Fire and Casualty, the commission issued its revocation order after Connor introduced company records reflecting what he called "an attempt at voluntary dissolution" April 1.

Connor said outstanding claims include \$15,000 owed to ICT Insurance Co. for a reinsurance agreement, \$9,000 to underwriters at Lloyds of London, and \$1,000 to an Austin insurance man, Emil Halim, who is foreman of a grand jury charged with inquiring into insurance troubles.

Rep. J. B. Walling of Wichita Falls was the first witness to disclose details of the proposed sale of American Atlas Life to the First National Bond and Trust.

Walling, who said he represented the prospective buyers, read from what he said was a written commitment drawn up yesterday by the American Atlas Corp. and his client.

'Idea' Offensive Against Reds In Asia Is Planned

WASHINGTON (AP)—The administration plans to launch a greatly expanded anti-Communist idea offensive in Asia and the Middle East if funds are voted by Congress.

President Eisenhower is expected to ask in his Jan. 16 budget message for an increase of more than 50 per cent in the appropriation for the U.S. Information Agency, for which Congress voted 85 million dollars last year.

Eisenhower gave a tipoff when he said in his State of the Union message yesterday:

"Injustice thrives on ignorance. Because an understanding of the truth about America is one of our most powerful forces, I am recommending a substantial increase in budgetary support of the United States Information Agency."

He did not spell out what purposes the increased propaganda funds would be used for.

However, it was learned that administration officials have decided a much greater effort in the way of words—the idea "offensive" of the cold war—is needed in the Middle East and Asian countries to serve America's own interests there and to counter Communist aims.

The USIA presently operates about 200 posts such as information centers and libraries in 79 countries over the world. But the under-developed countries in Africa and Asia have come increasingly under Soviet pressure and propaganda campaigns.

Officials feel new U.S. efforts should be concentrated in those regions.

Shakespeare Gets Ally In Tomb Plan

HOLLYWOOD (AP)—Whatever old Thomas Walsingham's tomb may contain when they open it, Dr. Frank C. Baxter feels certain it won't be evidence that Christopher Marlowe wrote Shakespeare's plays for him.

Baxter, a Shakespearean scholar and professor of literature at the University of Southern California, expressed his opinion in discussing the latest revival of the Marlowe-Shakespeare controversy.

"Whoever wrote the plays of Shakespeare it was not the learned Marlowe," Baxter said yesterday in an interview with a CBS reporter. "One has only to read a page of 'Dr. Faustus' (by Marlowe) and 'King Lear' (by Shakespeare) side by side to see that there were two different minds and two different kinds of perception."

Three days ago in England, an Anglican bishop's court granted permission for opening of the 500-year-old tomb of the Walsinghams, lords of the manor of Scadbury, in Scadbury chapel of St. Nicholas Church, Chislehurst, a London suburb.

This permission was sought by Stevenson's Son Leaves Hospital

CHICAGO (AP)—John Fell Stevenson, son of Democratic presidential candidate Adlai E. Stevenson, left Passavant Hospital yesterday after confinement for two weeks for treatment of injuries suffered in a car collision in which two schoolmates were killed.

Stevenson, 19, walked with the aid of a cane. His right leg, encased in a plaster cast, is minus the kneecap, which was shattered in the accident near Goshen, Ind., Dec. 21.

Young Stevenson expects to return to studies at Harvard University Sunday.

Hardware Firm Adds RCA Line

Big Spring Hardware Company has added the RCA Whirlpool line of appliances, Jasper Atkins, head of the concern, announced Friday.

Already most of the items are in stock and by summer the complete line will be available. Including the RCA line of appliances, Atkins said the company would continue to handle its other familiar appliances, both heavy and light.

"We are simply broadening our offerings to the public," he said. Included in the new line will be such items as the Whirlpool washers and dryers, television sets, radios, electric ranges, air conditioners, record players and other appliances.

Most Of Chile Under State Of Siege In Strike Threat

SANTIAGO, Chile (AP)—Most of Chile was under a state of siege today as the government moved to meet a nationwide strike call and what it termed "Communist agitation."

The government of President Carlos Ibáñez declared the state of siege—a modified form of martial law—last night after adjourning Congress. All military leaves were canceled and all soldiers were ordered on the alert.

Chile's big Central Labor Union (CUT) called for the nationwide strike Jan. 9 to protest the government's plan to freeze wages, prices and pensions for civil servants as an anti-inflation step. Labor leaders said the freeze would cause hunger through the nation.

Crowds marched through Santiago's streets last night, demonstrating against the government action.

Police started a roundup of prominent labor leaders, arresting 51. They included Cletario Bliest, head of the CUT.

The Prince And The Queen

Grace Kelly, the queen of the American movies, poses with Prince Rainier III, of Monaco, after their engagement was announced at a luncheon given by Miss Kelly's parents in Philadelphia.

DYNASTY GOES ON

Tiny Monaco Decks Out For Celebration

MONTE CARLO, Monaco (AP)—"Bravo, prince, well done," said a gardener at Monte Carlo's famed casino. "Now the life of the dynasty can be assured," said the mayor of the nation's only town. Thus the residents of this tiny Mediterranean principality responded today to long-awaited word that their bachelor prince Rainier III would finally have a princess. American film star Grace Kelly — and they hope a heir. "Monegasques" decked the town with their country's colors — red and blue — and put the day aside to celebrate. Flower-festooned pictures of the prince showed in shop windows everywhere. Beside them, when they could be found, were photographs of the blonde beauty whose betrothal to the 32-year-old prince was announced yesterday. Mayor Robert Boisson was jubilant. "All Monegasques are happy at the news," he told reporters, "happy because the prince will be married and he could have children

Electrocution Victim Dies

DENVER (AP)—Little Neal Demers, electrocuted and then restored to life by a quick-thinking doctor's New Year's Eve, is dead. The 4-year-old died yesterday at Colorado General Hospital, where he lay unconscious for 4 1/2 days. Neal fell at his home, toppling a lighted Christmas tree onto the tracks of his new electric train. The wires short-circuited, and Neal was electrocuted when his head struck the tracks. Summoned by the parents, Mr. and Mrs. Earl E. Demers of suburban Aurora, Dr. Robert Squires first pronounced Neal dead. Then he opened the boy's chest with a razor blade and massaged the heart. It fluttered into life. Neal was placed in an oxygen tent and fed by a tube. Another tube was inserted into the windpipe after pneumonia developed.

Leukemia Victim Keeps Mailman Busy

CHICAGO (AP)—The mailman on the route embracing little Helen Wilson's home has had a busy week. He has delivered about 3,500 cards and letters and 100 packages to the 5-year-old girl's home at 3829 Plainfield Ave. The writers, from all parts of the country, were answering the request of policemen of the Jefferson Park station for persons to write to Helen, whose father Kenneth, is a policeman at the station. The mail was sought in an effort to make a probably brief span of life brighter for Helen, who has leukemia.

Grace Kelly, Prince Set Wedding Date

PHILADELPHIA (AP)—Grace Kelly, the movies' blonde beauty with the patrician manner, will marry Prince Rainier III of Monaco soon after Easter. She said so at a press reception in her parents' home here late yesterday, several hours after the surprise announcement that the Oscar-winning actress and one of the most eligible bachelors anywhere were engaged. Hollywood, used to surprises, has seldom been more flabbergasted. The little Riviera domain of the handsome 32-year-old Arainier made today a full holiday, keeping up a merry pace set by a jubilant people when they heard the first radio bulletin. The radio in Monte Carlo, gambling mecca and showplace of the principality, has talked about little else ever since. The prince and his 26-year-old serene highness-to-be were toasted in champagne. Flowers were wreathed around their pictures in shop windows. Everyone rejoiced that Rainier at last would take a wife. If he were to die without heir his principality, which requires its 20,000 permanent residents to pay no taxes, would revert to French rule with French tax rates prevailing. Miss Kelly, in radiant mood, told newsmen who jammed the family mansion for the reception that she did indeed plan a family. Both Miss Kelly and the prince are Roman Catholics. Neither has been married before. What's more, Grace said that she was in love only once before, with a Philadelphia boy now dead. Thus did she dispose of persistent rumors until recently of a romance between her and actor Jean Pierre Aumont. The press reception in the big, sprawling house of John B. Kelly, millionaire builder and civic leader, was gay and informal. A reporter asked Kelly: "How do you feel about this? Are you happy about it?" "Sure," said the father genially. "It's all right. Yes, it's fine." When the question was put to Miss Kelly whether she planned a large family, she laughed and nodded yes. She was about to elaborate but her mother took it from there, asserting: "Why, certainly she'll have a large family. I'm a grandmother, and I like a lot of grandchildren." Earlier there had been talk that Mrs. Kelly was slightly piqued because Monaco had got the jump on Philadelphia in making the engagement announcement. No evidence of this crept into the lively affair for the press. Mrs. Kelly was in the thick of everything, obviously enjoying it. Miss Kelly said the actual wedding date has not been set, and that it is uncertain whether the ceremony will be performed here or in Monaco. She and the prince are due in New York for tonight's Monte Carlo Ball at the Waldorf Astoria, an annual charity affair. They will be guests of honor. On schedule for the afternoon is a reception for the couple at Miss Kelly's Fifth Avenue apartment. Miss Kelly said she intends to leave New York by air for Hollywood tomorrow morning. Soon afterward the prince will set out for Florida in his automobile, but he did not specify his exact destination. Miss Kelly, whose rise to the top in films has been one of Hollywood's outstanding stories of well-deserved success, said she will take a leave of absence after completing her commitments on two pictures, work on the first of which is expected to start Jan. 17. Does the elegant Grace Kelly, Oscar winner in 1955, mean to retire from the movies after her marriage in April? "I plan to live in Monaco" was all that she would say. At the moment she was more interested in showing off her engagement ring of interlocking diamonds and rubies. If Miss Kelly goes to live in Monaco, someone asked, will she have a title? The prince obliged brightly: Yes, she'll be known as "Her Serene Highness, Princess of Monaco." Rumor had it that the romance blossomed on the Riviera during the filming last year of the movie "To Catch a Thief." Actually, the courtship grew out of the star's meeting with the prince at the Cannes Film Festival last March. At that time she was entertained in the palace at Monte Carlo. "His simplicity completely conquered me," she said.

Seaman Barely Makes it Aboard

SAN DIEGO, Calif. (AP)—The aircraft carrier Princeton left for Pearl Harbor and the Orient with a full crew yesterday — but just barely. An unidentified seaman was hauled white-faced aboard the 27,000-ton carrier when he arrived at the dock in a taxicab after the gangplank had been lifted and lines cast off. Crew mates tossed him a light line. It broke as he was being hauled aboard and he tumbled back onto the pier. A heavier line was thrown and the sailor finally hauled aboard while the band played "Home, Sweet Home" and the crowd cheered.

Nation Gets Varied Weather

By The Associated Press
There was a variety of weather in the nation today, with rapid changes in temperatures in many areas. A fresh surge of arctic air crossed the border into the Northern Plains and northern Rockies and sent temperatures falling nearly 40 degrees in some areas. The cold air, which spread over Montana, the Dakotas and northwestern Minnesota, moved southward and eastward. It was expected to reach central Illinois and Indiana by tonight. At Havre, Mont., it was near zero after yesterday's top mark of 42. It was —4 at Glasgow, Mont. Southerly winds brought a warming to the upper Mississippi Valley and the western Great Lakes region. Readings were 10 to 20 degrees higher than 24 hours earlier. It was springlike weather in the Central Plains yesterday with readings in the 60s and 70s in sections of Kansas, Missouri, Colorado and the Texas Panhandle. The day's top mark was 82 at Dalt, Tex. There also was some warming along the central and west Gulf coast and readings this morning were in the 50s. More rain fell along the rain-soaked West coast.

Nearly Everyone Reports Income

Nearly every citizen or resident of the U. S. who had an income during 1955 should file a tax return, according to Ben Hawkins, of the Internal Revenue Service office at 202 Petroleum Building.

If you are less than 65 years of age and had a gross income of \$600 or more, you must file a tax return, said Hawkins. Those 65 and over, however, must file a return when their gross income is \$1,200 or more.

"Self-employed individuals with net earnings of \$400 or more must also file an annual return," Hawkins added.

"A person with income of less than \$600 or \$1,200 for those 65 or over) should file a return to get a refund of the tax that was withheld each payday," he added.

"Every taxpayer should read the 1955 tax instruction pamphlet so he will not pay more or less tax than he owes," he urged.

Juvenile Placed Under Probation

A Big Spring youth was committed to the State Correction School but he was probationed to his parents on good behavior today in Juvenile Court.

Catarina Nunez was the driver of the car in collision with George Zachariah Nov. 14, hospitalizing both of the drivers. The car which Nunez was driving belonged to Juan Tovar, Knott Route.

The 14-year-old youth has just recovered from injuries sustained in the accident and went before the Juvenile court today. The sentence was pronounced but he was probationed to his parents.

The court declared him delinquent and neglected. If he violates any law or fails to attend school regularly, the court authorized Juvenile Officer A. E. Long to take him directly to the Gatesville school without further court proceedings.

She leaves two daughters, Mrs. Susie Wooten, Abilene, and Mrs. Winona Tucker, Amarillo; the son, one sister, Mrs. Vivian Sample, Morgan; one brother, David Burnett, San Antonio, and 11 grandchildren.

Three more grain stores have been added to the list of authorized dealers who can handle emergency grain purchase orders for Howard County farmers.

The three dealers are the Martin C. Reed Wood Warehouse of Sterling City, Power Feed Mills of Abilene, and the Producer's Grain Corporation of Amarillo.

Previously reported was a list of nine other establishments who had signed agreements with the federal government to handle the purchase orders.

Rainwater Named New UF President

Champ Rainwater, active civic leader throughout his 11 years in Big Spring, Thursday night was assigned another big public-service job.

He was elected president of the United Fund of Big Spring and Howard County, at the annual meeting of the board of trustees. Rainwater succeeds Dick Simpson, who has served for the past two years as campaign chairman and then president.

Approximately 350 bicycles were taped during the afternoon.

VIRGINIA SCHOOL SQUABBLE

Byrd Urges Amendment As Religious Leaders Open Fire

RICHMOND, Va. (AP)—Sen. Byrd (D-Va) voiced a new appeal for support of a proposed state constitutional change today amid a flurry of new attacks from religious leaders against the plan to use public funds for private education.

The new statements came as Virginia headed into the final week-end of intensive campaigning on the proposal to issue tuition grants for attendance at private schools as a means of avoiding compulsory integration.

Virginians will vote Monday to determine whether a constitutional convention shall be held.

Byrd, in a statement being broadcast over 15 radio stations during the day, said "not a single leading educator" has claimed the proposal would destroy the public school system.

But new opposition came from religious groups. The Hampton Roads Rabbinical Assn., 28 Southwestern Diocese Episcopal ministers, and the Harrisonburg Ministerial Assn. announced stands against the tuition grant plan.

There were also these developments: Rep. William M. Tuck of the 5th Dist., in a speech at Farmville Monday night, said the issue boiled down to whether "we favor or oppose the mixing of the races."

Dr. Reuben Alley, editor of the Baptist Religious Herald, said in an editorial it was "absurd" to say a vote against the amendment was a vote for integration.

Dr. George Reamey, editor of the Virginia Methodist Advocate, asked "what will become of the vast army of poor children" whose parents cannot afford to send them to private schools.

Ted Duconso of Richmond, a national AFL-CIO official, told a Bristol labor meeting approval of the amendment might produce increased juvenile delinquency and relaxation of child labor laws.

Colgate W. Darden Jr., president of the University of Virginia, urged a Bristol audience to support the amendment and "not turn your backs" on southside Virginia.

Byrd said the amendment would merely give the Legislature "some carefully guarded leeway in its efforts to preserve our public school system which is now seriously threatened under the recent decision by the U. S. Supreme Court."

The head of the state's Democratic organization said he believed Virginians could "rely upon the intelligence, the patriotism and the good faith of members" of the General Assembly.

They were accompanied by Jane Womack, who also played two novelty numbers. The program was arranged by John Horn, Abilene, who services the Kiwanis-sponsored gumball machines here.

Olask, in his report to the club, said that the year was one of the most successful — financially if not otherwise — for the club. He cited the participation of the club in the project to light the Kate Morrison

The Spaders Garden Club heard rules for pruning at their meeting Thursday afternoon in the home of Mrs. Bob Gray.

Events Of Week Have Been A Trial To Me!

By ANNE LEFEVER
I know you have days when you felt that you "should have stood in bed" on mornings when the alarm didn't go off because you forgot to wind the clock the night before, didn't it seem that you had more interruptions than usual? And that nothing turned out right? Let me tell you right now that I have had a whole week of days like that! It's not that I overleapt. My little black dog, Punkin, would take care of that! Smart as she is, she can't tell when Sunday comes and that I can sleep an hour longer.

It has been here at the office that I've hit a snag nearly each time I've turned around.

First, there have been fewer inches in ads on our society pages, which left us more inches to fill with the happenings in town. And in the doldrums following the holidays, very few clubs met: there was just a measly number of women energetic enough to give parties, and the wedding stories were few and far between.

This week is the period that all of us spend going back over our year's stories, too. That accomplishes two things. One, I cringe at the mistakes in the society section, and we make a concise record of the outstanding events of the past year.

The crowning blow fell, however, when I learned that the pictures made early in the week for the society section's front page were not usable, due to the camera's not working properly. That did it! To have the stories that again, late in the week, was about the last straw. Here is the end of the week, though, and I haven't quite had a running fit — I'm not saying how far I am from one, though. However, there's this about it. Next week can't be worse, and I just bet everything goes along smoothly! They usually do after a time like this — or maybe you're just too numb to notice.

Baptist Ministers To Hold State Meet In Fort Worth

Pastors and laymen from every Southern Baptist church in Texas are expected to be among the 5,000 persons gathering in Fort Worth Monday for a three-day statewide evangelistic conference.

The sessions will last from Jan. 9-11 and will be held in the Will Rogers Auditorium. The purpose of the conference is to inspire both church members and pastors toward greater efforts in soul winning. Various phases of the Texas Baptist evangelistic work will also be explained and dramatized during the meeting.

Two national leaders of the Southern Baptist Convention, 10 men from the Dallas offices of the Baptist General Convention of Texas, 10 Texas pastors, a layman and a student are among those who will speak.

The overall theme for the meeting is "Ye Are My Witnesses," Monday will be devoted to "The Motive for Witnessing"; Tuesday to "The Message of the Witness," "Growing a Witnessing Church" and "The Methods of Witnessing." The 1956 goal for Texas Baptists is 75,000 new converts. The churches baptized more than 70,000 persons during the past year, and more than half a million during the past eight years. Another half million, it is hoped, will be won by 1961.

Heading the list of speakers, who will appear in Fort Worth, are Dr. James L. Sullivan, executive secretary-treasurer for the Sunday School Board of the Southern Baptist Convention, and Dr. C. E. Wilbanks, a member of the SBC Home Mission Board.

The Rev. J. W. Arnett of Big Spring is one of 68 Texas missionaries who will gather in Cedar Hill next Wednesday to plan the 1956 missionary work of 3,625 Southern Baptist churches over the state. Rev. Arnett is the missions secretary for District 8, Baptist General Convention of Texas.

Several phases of the denomination's activities — such as building programs, endowment, work among minority groups and industrial services — will be outlined and discussed.

The three-day sessions will last from 2 p.m. Wednesday through noon Friday and will be held at the Woman's Missionary Union Lodge on the grounds of the Mount Lebanon Baptist Encampment.

Boys In Maine Learn Cooking And Sewing

By BILL LANGZETTEL
ELLSWORTH, Maine—Ellsworth High School has an all-boys home economics class.

And it's not a snap course designed to keep football players happy.

The boys have different reasons for taking the course. Edward Womchaba, for instance, wants to be a chef; his brother, Bill, figures that "I've got to learn something, anyway." Several are thinking ahead to the Army, with a view to getting a cook's job.

The 16 boys — there aren't enough facilities for many others who wanted to join them — started out by learning how to run a sewing machine. Now they're making chef's aprons and caps they'll wear in the next phase of their studies — cooking.

Admittedly skeptical at first, teacher Mrs. James Moore now is enthusiastic.

"The boys are no trouble at all," she says. "They keep the classroom in good order, although they sometimes forget their turns at cleaning up."

Principal Thurlow Pitts thinks Mrs. Moore is the key to the success of the project. He said the course "has proved very valuable but has to be skillfully taught and not every high school is prepared to present it."

Food preparation is the main subject in the curriculum. But the boys also will be taught which spoon to use when dining out, how to plan a budget, simple sewing and even a little first aid.

Mrs. Moore quickly found that her boy pupils have one definite advantage over girls. When a sewing machine gets out of whack, she says, a girl will call for help, but a boy will go right ahead and fix it.

Burglar Apologizes For Smashing Window

KEARNEY, Neb. (AP)—A burglar smashed a window to enter the Tolleson sporting goods store here yesterday, took some guns from a rack, loaded them from the stock of shells, then left them on a counter.

Police found a note reading: "This mess you see before you is the loot I almost walked out with but God told me not to, so I didn't. I am sorry about the window. Please forgive me."

Continuing the explanation of prayer, a correlative passage from

"Science and Health with Key to the Scriptures" states: (15:9): "To enter into the heart of prayer, the door of the erring senses must be closed. Lips must be mute and materialism silent, that man may have audience with Spirit, the divine Principle, Love, which destroys all error."

Jesus Teaches Confidence in God

FEAR NOT, TRUST IN THE FATHER TO SUPPLY YOUR NEEDS

Scripture—Luke 12:4-5.

By NEWMAN CAMPBELL
CONFIDENCE in God is what Jesus teaches us in this lesson. If we keep His teaching in mind, not just when we are studying the lesson, but in all our activities during our lives, we could get rid of the fears and anxieties that haunt us, and live in full confidence that we will receive help when we need it.

Even little children have their fears and anxieties. If they can talk them over with their mothers and the mothers have memorized our Lord's teachings, they can turn the youngsters to God and lessen or do away with their fears. And they can show their little ones in their own lives how to cultivate this confidence in their Maker.

Jesus has been speaking with great severity about hypocrisy. Now he turns to the subject of fear. In our day, in spite of the fact that the majority of people in our nation are earning more money than ever before, and own more of the comforts of life, they are filled with anxieties that have never been known before.

They fear that war may break forth in uneasy parts of the world; they fear the atom bomb

spin not; and yet I say unto you, that Solomon in all his glory was not arrayed like one of these.

"If then God so clothe the grass, which is today in the field, and to-morrow is cast into the oven; how much more will He clothe you, O ye of little faith?"

"But rather seek ye the kingdom of God; and all these things shall be added unto you. Fear not, little flock; for it is your Father's good pleasure to give you the kingdom."

"Sell that ye have, and give alms; provide yourselves bags which wax not old, a treasure in the heavens that faileth not, where no thief approacheth, neither moth corrupteth."

The faithful servant, he who works diligently for his master, even when that master is absent; not he that takes advantage of the absence to do as he pleases and abuses his trust, is the one who wins rewards, said Jesus.

"For unto whomsoever much is given, of him shall be much required; and to whom men have committed much, of him they will ask the more."

So, while we are on earth, we too must be faithful servants, trusting God to bring us through, and working diligently as Jesus teaches, until He come again.

Jesus is asked by one man in the vast multitude that surrounded Him, if He would speak to the man's brother that an inheritance was divided. This man had doubtless been listening only with his ears to the Lord's teaching, but his mind was concerned with earthly things—money that he might lay his hands on.

Jesus said, "Take heed of covetousness, for a man's life, consisteth not in the abundance of the things that he possesseth."

Then the Lord told a parable about a man who had taken such plentiful harvest that his barns were overflowing. He thought he should do, and decided to tear down his old barns and build larger ones, then to sit back and enjoy life. That night God required his life, "then whose shall those things be which thou hast provided?"

"So is he that layeth up treasure for himself and is not rich toward God," Jesus said.

It is always a surprise to me to notice what store many people set by money. True, money

can buy comforts for the home, education for the children, etc., but what if a home is unhappy with friction? How about family and friends who love us, and are willing to sacrifice for us and that we can love and sacrifice for? What makes life truly happy is the help we can be to those who need it, the love we can give to those around us whether we have money or not. The uprightness of our lives. These are the things which make us "rich toward God."

"Therefore I say unto you, take no thought for your life, what ye shall eat; neither for the body, what ye shall put on. The life is more than meat, and the body is more than raiment."

"Consider the ravens; for they neither sow nor reap; which neither have storehouse nor barn; and God feedeth them; how much more are ye better than the fowls?"

A raven is one of loneliest birds known; it indeed has no storehouse of food, is usually alone and sits forlornly on the mountain cliff uttering its doleful croak.

"And which of you with taking thought can add to his stature one cubit? . . . Consider the lilies how they grow; they toil not, they

spin not; and yet I say unto you, that Solomon in all his glory was not arrayed like one of these.

"If then God so clothe the grass, which is today in the field, and to-morrow is cast into the oven; how much more will He clothe you, O ye of little faith?"

"But rather seek ye the kingdom of God; and all these things shall be added unto you. Fear not, little flock; for it is your Father's good pleasure to give you the kingdom."

"Sell that ye have, and give alms; provide yourselves bags which wax not old, a treasure in the heavens that faileth not, where no thief approacheth, neither moth corrupteth."

The faithful servant, he who works diligently for his master, even when that master is absent; not he that takes advantage of the absence to do as he pleases and abuses his trust, is the one who wins rewards, said Jesus.

"For unto whomsoever much is given, of him shall be much required; and to whom men have committed much, of him they will ask the more."

So, while we are on earth, we too must be faithful servants, trusting God to bring us through, and working diligently as Jesus teaches, until He come again.

MEMORY VERSE
"And seek not ye what ye shall eat, or what ye shall drink, neither be ye of doubtful mind. For all these things do the nations of the world seek after; and your Father knoweth that ye have need of these things. But rather seek ye the kingdom of God; and all these things shall be added unto you."—Luke 12:29-31.

Explanation of More Difficult Clues

CLUES DOWN:

- Fully developed favors Latest, since Latest ideas haven't been developed at all.
- Bakers keep a good stock of flour. The Bakery contains, but doesn't keep, a stock of flour.
- Vase is best. To look "all the prettier" infers that it must look pretty even without the flowers. Many a Vase is certainly not pretty—some even hideous—but since Vase is the poetical contraction of Valley it is thought of by this term as something pleasant and pretty to regard. Thus Vase is the surer answer.
- Right cannot be disputed as being the better answer. Light may well mean Light in color only.
- "Of poor taste" suggests Snacks, meaning they may sometimes taste poor. For Snacks it would require to be "in poor taste", not "of poor taste". Neither expression would apply refer to Snacks or Smacks.
- Slim is preferred. Slim children usually are a bit underfed, whereas, in most cases, Slim children can only appear to be.
- Fire is best. The clue implies some unfortunate happening, making Fire the better answer. "Owing to an emergency order" would be more apt for Mira.

CLUES ACROSS:

- Tasks is more apt. Students are not given Talks. They are given lectures. They may certainly be given Tasks of a somewhat technical nature.
- Let is best. A slipshod clerk must Get his employer down quite frequently. "Sooner or later" implies something which will take place eventually; not at the present time, as implied by quite frequently. To Let him down is more serious than to Get him down and might well occur only once and end the clerk's services.
- A Bee has a definite or fixed number of legs, of course—six of them. Most Beds have four legs, but that is not "definite". There are some with just two, etc. Thus the number of legs for a Bed is not definite.
- "Some folks" do, which implies that the majority do not. This makes Bruise the best word. There are some folks who take a particular pleasure in telling all about some accident or operation they have had. Surely everybody, or nearly everybody, who goes on a Cruise, not just some, takes pleasure in telling something about it.
- Change is best. Chance is ruled out because the clue says "might". An understudy definitely would welcome a Chance to step into the star's shoes. That is why she is an "understudy". There is no "might welcome" about it. However, she might, or might not, welcome a Change of some kind in the theatre.
- To Chip is "to strike with small sharp cutting blows", that is, to cut in a "particular way". Clipping can be done in many different ways.
- Revenge is defined as "a spiteful return for injury or wrong". Thus Revenge, which is in settlement of some wrong, fits the clue better than Revenue which is defined in the dictionary as the "income from an investment" or "receipts from a government impost". The return in this case may or may not be a settlement.
- "To Muster" them is "to call them together"; no easy task when they are demoralized. Master does not link up with the sense of the clue. It is necessary to restore their morale, not to Master them.

Uncle Ray: Wool Keeps Sheep Warm In Chilly Mountain Air

By RAMON COFFMAN
In this age of synthetic, man-made materials, it is refreshing to note that wool still serves people in much the same way as it was originally intended by Nature to protect sheep.

Q. Why do sheep have wool?
A. The ancestors of our sheep had a special need to keep warm. Living on high mountains, the ancestors would have found the world extremely cold without an extra good coat to cover them.

Q. Does wool perform the same function for any sheep today?
A. Yes — especially wild sheep, living on tall mountains, often at heights of two miles. Some of the argali sheep of Asia live at points three miles above sea level!

Q. Why were sheep originally tamed?
A. The main reason for taming sheep and making them domestic animals, probably was to obtain wool. We have proof that woolen clothing was worn thousands of years ago. Another value of sheep comes from the meat — or mutton — which they provide.

Q. Are sheep specially bred?
A. Yes — and it appears that the art of breeding sheep of special kinds arose in early times. By choosing sheep with the best wool, it was possible to have flocks with little of the hairy covering of wild sheep. The original mutton of wool has given way to fleece made entirely of wool.

Frozen Bodies Of Family Are Found
ANCHORAGE, Alaska (AP)—The five frozen bodies of the Simeon Wassela family were found yesterday on the snow-swept tundra near Lake Iliamna, 250 miles southwest of Anchorage.

Only two of their nine sled dogs remained alive. Dead were the 40-year old father, his 35-year-old wife and their three children, ranging in age from less than a year to 14.

A Civil Air Patrol plane made the discovery. Searchers said the family apparently died from exposure.

The Wasselas started from their home at Neeshalen Dec. 27 for an overland trip to the native village of Iguigig, 50 miles away

PATTERNS IN THE SNOW

They make pretty patterns on the snow, these fences. But they were not built "for looks." They were erected for protection. They stand as bulwarks against the physical elements.

There are other kinds of bulwarks most of us need in our daily lives—spiritual bulwarks. For even the strongest of us cannot stand alone. Sometimes we think we can, but the moment comes when we realize how much we need help.

It is then that we turn toward the Church. And, no matter how remiss we may have been, the Church stands there with doors open wide, ready to receive us.

But should we wait until we really need a spiritual bulwark? How much better to establish ourselves in the Church now and be assured of its strength and comfort through all our days.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Stanton Junior Stock Show In Planning Stage

STANTON — Details of final preparation for the annual Junior Livestock Show here will be outlined at a meeting of the sponsoring Chamber of Commerce Agriculture Committee Monday at 1:30 p.m.

Date of the show is Jan. 20-21 and the place is the county barn. Prospects are that 50 to 60 hogs will be on exhibit along with 35 lambs and about 10 calves.

There will be an auction for the hogs and lambs but not for the calves, which are due to be showing elsewhere; (Two Martin County calves, shown by Bobby Sale, won both the grandchampion and the reserve champion title of the Sand Hills show in Odessa this week.)

Judge, auctioneer, and other key figures in the show will be announced after the Monday meeting, said James Elland, chairman of the committee.

Employers Meeting To Discuss Unions

ABILENE — Will the AFL-CIO merger create a labor monopoly which should be regulated? Will labor seek to control a political party? Will labor eventually run a candidate for President? Will union organizers concentrate on the Southwest and on Texas?

These are some of the questions to be answered here during the first Employers Payroll Cost Conference sponsored by the West Texas Chamber of Commerce. The one-day program on Jan. 16 will begin at 9:30 a.m. in the Windsor Hotel. The general public is invited.

"Probable Results of the AFL-CIO Merger" is the concluding address on the program. Speaker is to be F. W. Hamper of San Angelo, industrial relations director of the General Telephone Company of the Southwest.

Opening the conference, B. T. McWhorter, Port Arthur businessman and attorney, will discuss "The Situation As It Exists at Port Arthur and What It Means to Employers Throughout Texas."

Weldon Hart Austin, chairman of the Texas Employment Commission, will report on "A Close Look at Unemployment Compensation in Texas."

Hart will be followed by Callan Graham of Houston who will present "A Sound Policy for Texas in the Field of Workmen's Compensation." Graham is general counsel and assistant to the executive vice president of the Texas Manufacturers Association.

Mitchell Group To Process Contracts

COLORADO CITY — The Mitchell County Farm Association, under the management of the Farm Bureau, will soon begin processing its own bracer contracts, Mrs. Ivan Barber, service agent of the Mitchell County Farm Bureau, announced Thursday.

Formerly, the Mitchell County Farm Bureau had worked through the Howard County unit in obtaining Mexican citizens for seasonal work.

The new association will serve farmers in Mitchell, Nolan, Scurry and Fisher counties.

Mrs. Barber said that braceros were used in other than the cotton pulling season by many farmers.

"In fact," she said, "seventeen were used last year in Mitchell County all year long."

Bracero contracts are usually made for a maximum of six months and are renewed if the Mexican worker is needed for a longer period of time, she said.

H. I. Berman Heads C-City Chamber

H. I. Berman, local merchant, was elected president of the Chamber of Commerce at a meeting of the board of directors Thursday night.

Berman will succeed Joe Bell, editor of the Colorado City Record, local semi-weekly newspaper.

Other officers elected were: Bill Handie, first vice president; Sam Majors Jr., second vice president; Pat Bullock, secretary; and Gus Chesney, treasurer.

The newly elected officers will be installed at the annual Chamber of Commerce banquet, Jan. 19. Earl Williams, Dallas dental surgeon, will speak at the banquet.

Sherrad New Ujoh Representative Here

Hilton H. Sherrad, formerly of Lubbock, has arrived here to succeed Jim Bradley as representative of the Ujoh Company in this area.

Mrs. Sherrad and her 13-month-old son, Stephen Kent, will join him as soon as he can acquire housing accommodations.

Bradley, who has been in a Dallas manager for the West Texas-New Mexico district, moved to Lubbock on Dec. 27.

Delinquent Girl Is Released To Father

A 13-year-old girl was released to her father today after having been picked up by juvenile authorities.

After consultation with the county judge, the father promised to make a proper home for the girl. She had been apprehended previously in Lubbock for minor violations there.

Demos Caution On Ike's Bright Outlook

WASHINGTON (AP)—Several Democrats concerned with the nation's defenses cautioned today against too much optimism over President Eisenhower's view that "the outlook is bright with promise."
Such misgivings were not shared by Republicans. Many of them concurred with the statement of House Minority Leader Martin of Massachusetts that Eisenhower's report to Congress yesterday on the State of the Union demonstrated a "clear understanding of the festering danger of Communist intrigue."
Sen. Russell (D-Ga.), chairman of the Senate Armed Services Committee, said he is "not quite as optimistic as he (Eisenhower) is as to the adequacy of our defenses." Senate Democratic Leader Lyndon B. Johnson of Texas said, "Most Americans know... that the international situation is one of deep concern."
Russell's House counterpart, Chairman Vinson (D-Ga.) of the Armed Services Committee, wouldn't comment for publication. Neither would Speaker of the House Rayburn (D-Tex.) express his reaction to Eisenhower's statement that "our security posture commands respect... Our defenses have been reinforced at sharply reduced costs... In the face of Communist military power, we must, of course, continue to maintain an effective system of collective security."
Rayburn stood by his comment of last Tuesday that: "I am not happy about our foreign relations as things stand. The general situation in the world is not good."
Chairman Cannon (D-Mo.) of the House Appropriations Committee, which scans all defense spending, said:
"The United States is in the greatest danger it has ever been in. I think the President should have said there could be no tax cut until we have an adequate national defense. We do not have it now. We have the most alarming reports of military progress Russia is making. There is only one country Russia has in view—the United States."
"I wish I could enjoy the optimism of the President in relation to world conditions," said House Democratic Leader McCormack of Massachusetts. "It is my opinion that world conditions do not justify such optimism."
Sen. Bricker (R-Ohio) asserted that "the blindly partisan will challenge the President's conclusions that America's position in world leadership and her economic health were never stronger."

Airliner 'Bomb' Was False Alarm

PITTSBURGH (AP)—After many hours of anxiety, Army bomb disposal officers have identified a small object found aboard a TWA passenger plane as a soldering iron heat element often used by airplane mechanics.
Lewis Rinebold, head of the Civil Aeronautics Authority here, said last night the object apparently was harmless unless it was set off and it would acquire considerable force to do so. He said a mechanic probably dropped it after some repair work at Chicago before the two-engine plane took off Tuesday on a flight to Washington.
The pilot discovered the object in the aisle of the plane and turned it over to a TWA representative at a stopover in Wheeling, W. Va. Finally, an Army bomb disposal unit from Pittsburgh and the FBI joined the investigation of the possibility that sabotage was involved. Rinebold said the heat element was a machined steel cylinder containing a small amount of magnesium and some chemical powder.
"It is incendiary only to a small degree," the CAA spokesman added. "It has a percussion cap which when struck causes the rest of the element to give out quite a bit of heat for a few minutes. It is used inside the chamber of a soldering iron."

Jailed On Wife-Beating Charge
Merle Travis, left, composer of the hit tune "16 Tons," is booked at jail in North Hollywood on suspicion of wife beating. Police said he slugged his wife Betty (right), with a pistol and barricaded himself in his home. Police said Travis appeared to be intoxicated and not sure of what had happened.

FOR \$224,654,265 Houston Oil Board Okays Firm's Sale

HOUSTON (AP)—Directors of the Houston Oil Co. approved a plan last night to sell the company's properties to the Atlantic Refining Co. for \$224,654,265.
Harold Decker, president, estimated Houston Oil's stockholders will receive \$165 per share.
The proposal will be presented to stockholders within 60 days. Houston Oil owns all the stock of Southwestern Settlement. It owns half of East Texas Pulp, with Time, Inc., owning the other 50 per cent. There is also another wholly owned subsidiary, Houston Oil Pipe Line Co. of Texas, operators of a pipeline from southwest Texas to Houston.
Decker said directors are now negotiating for sale of Southwestern Settlement and East Texas Pulp properties to Time, the magazine publisher.
Texas Pulp operates a paper mill at Evadale near Beaumont. Southwestern is a timber company.
Reports of sale of Houston Oil have been persistent since February when Sinclair Oil purchased American Republics Corp., a joint owner with Houston Oil in most of its production.
Decker said consummation of the plan is contingent upon approval by stockholders, completion of negotiations for the sale of the properties, and favorable rulings from the Internal Revenue Service on tax aspects.
A number of companies have been reported involved in negotiations with Houston Oil since the American Republics deal. Included were Sinclair, Sohio Petroleum Co., and a Belgian concern, Petrofina.
Under the proposed Houston Oil sale, Atlantic would become a partner with Sinclair in the operation of properties in Texas, Louisiana and Wyoming.
Atlantic, with headquarters in Philadelphia, has oil and gas properties in 13 states.
Houston Oil's gross land under lease includes 696,638 acres, with production acreage of 130,244. Net gas production is 100 million cubic feet daily. Net oil and distillate production is 17,000 barrels.
The company owns an interest in 750 oil wells and 220 gas wells. Its oil and gas properties primarily are in Texas, but also include acreage in Arkansas, Colorado, Louisiana, New Mexico, Oklahoma and five other states.
Houston Pipe Line Co. operates 715 miles of pipe and sells 350 million cubic feet of natural gas daily. Houston Oil has 725 employees, primarily in Houston and other parts of Texas and Louisiana.

Prize Due 2 Women If They Spurn Men, Alcohol, Tobacco

LOS ANGELES (AP)—Two women will receive \$300 a month for life if they can do without three things: alcohol, tobacco and men.
This strange condition was part of a will left by Percy T. Martin, a wealthy real estate developer. He died in 1952 leaving an estate of \$448,946.
Mrs. Helen Dill, 33, a widow now living in Owensville, Ind., and Miss Frances Miller, 51, friends of Martin, were each left \$300 a month if they do not indulge in alcohol, tobacco or become engaged or married.
The will was approved yesterday in Superior Court. Each woman was awarded a retroactive payment of \$8,700. Both had filed affidavits attesting that they were meeting conditions of the bequest.

No Charges Will Be Pressed In Wife-Beating

NORTH HOLLYWOOD, Calif. (AP)—No charges will be pressed against song writer Merle Travis, 37, who climaxed an all-night drinking spree by slugging his wife with a pistol and barricading himself in his San Fernando Valley home for more than 90 minutes.
Travis, who will earn an estimated \$75,000 from his current song hit "Sixteen Tons," said he "didn't remember a thing" after 30 policemen armed with rifles, shotguns and tear gas stormed his modest bungalow.
Police said the husky composer, dressed in pajamas and a robe, was drunk when they found him unarmored in his living room. After a short snooze at the Van Nuys jail, he was released when his wife Betty, 31, refused to sign a wife-beating complaint.
"I love him very much," she said. "He's really a very nice guy, but he was drinking."
Mrs. Travis said her husband began drinking after a television appearance. The next morning she said she found him fondling a bottle of scotch and a Luger automatic.
When she threw the cartridge clip into the back yard, she said, he hit her with the pistol. She was treated later for a one-inch gash behind her ear.
As she herded her two sons by a previous marriage, Mike, 8, and Dennis, 10, to a neighbor's, Mrs. Travis said her husband threatened:
"If anybody shows up I'm going to shoot them."
But police, who kept a tense vigil outside the house, said Travis surrendered meekly when a raiding party led by Police Lt. Ernie Johnson finally knocked on the door.
Travis told officers all he needed was sleep and added:
"You don't do such things as shoot people. I'm the happiest guy in the world."
