Police Capture Bank Bandits

Guns drawn, police capture three men near Wilmette, Ill., village limits minutes after they held up a savings and loan association. The \$5,000 loot was recovered, police said. An assistant treasurer saw the men enter a blue and white car for the holdup and called police who seized the men, who are near the car, hatless, and with their backs to police and hands against the auto.

Ike Due Report Tomorrow On Medical Check

WASHINGTON (AP) — President Eisenhower's doctors will give him tomorrow a new medical report which he will study in deciding whether to seek re-election.

In advance of reporting to the President, the physicians who examined him Saturday will be joined by Dr. Paul Dudley White for an analysis of results of the tests.

White, Boston specialist who has been chief consultant on the case since Eisenhower's Sept. 24 heart attack, is scheduled to arrive here late tomorrow morning from the West Coast.

After Eisenhower receives the doctors' report, his findings will be made public, either late tomorrow or Wednesday morning.

About midweek the President will spend several days at the 600-acre plantation of Secretary of the Treasury Humphrey.

Eisenhower told a news conference last week he should have enough information by March 1 to make a decision on whether to seek a second term.

White indicated he will announce it around that time.

The medical tests he completed during a 70-minute stay at the Army's Walter Reed Hospital Saturday were his first on an exhaustive basis since mid-December.

His pulse and blood pressure are checked daily, however.

The Saturday examination included X-rays, a broad chemistry study, and a cardiogram, which measures heart performance and shows the extent of damage repair.

The dead man was identified as Paul Bocherding, 54, meat firm employe.

The injured in Mercy Hospital are James Dunn, 40, a passer-by, who is in serious condition with internal injuries; and Stanley Damschroeder, 53, another meat firm employe, who has burns on his head and hands.

The two missing were identified as Melvin Kegglerman and James Liphart, both meat firm workers.

Firemen wearing gas masks because of strong ammonia fumes, quenched a small fire that followed the blast, rescue squads worked with cranes to move the rubble in a search for bodies.

Hundreds of windows were shattered in a four-block area that includes the Commodore Perry and Secor hotels, two of the largest in the city.

Fire Chief Arnold Pagnhagen estimated the damage at more than a million dollars.

The 12 level 4 buildings housed The Hygrade Food Products Co., the office of manufacturers' agent Stanley J. Brown, the Lutheran Thrift Shop, and a vacant store formerly occupied by a restaurant.

Coroner Dr. Paul Hobly said Damschroeder told him "the whole place went boom" when he struck a cigarette lighter in the meat cooling room.

Damschroeder said he and three other men reported for work as usual. They went into the basement and lit a heater in a room where they changed clothes. Then they went upstairs to the cooling room, where Damschroeder started to light his cigarette.

The roof was blown up and the walls out, and insulation from the cooling room was scattered.

LOS ANGELES (AP) — A bluish white meteor with a brilliant orange tail flashed across the California sky and was seen from points more than 600 miles apart early yesterday.

Observers as far north as Santa Clara, 400 miles from here, and south to El Centro, 175 miles southeast, and east to Winslow, Ariz., reported sightings shortly after 1 a.m. Witnesses reported seeing it for 10 to 30 seconds.

A sentry at Camp Irwin, the Army's huge armored equipment manufacturing base on the Mojave Desert, said blazing objects appeared to fall nearby. Another soldier on the same reservation said he saw the same apparent breakup of the meteor.

Signs, with painted lightning bolts, indicate the fence is electrically charged.

In this two-mile stretch no one except a properly documented traveler in an automobile may appear without jeopardizing his life.

Farm villages which once existed in the "death zone" are now ghosts. The families were moved out. The buildings are in decay.

Czech guards, courteous and efficient, check travel papers and in less than 10 minutes raise the barrier. Half a block down the road is the West German station. The customs guards are glad to see

Natural Gas Probe May Be Widened

Case Hearing Ends On Neff Testimony

WASHINGTON (AP) — John M. Neff oil company lawyer, testified today he had made no contributions in recent months to any senator's "personal campaign funds" other than the \$2,500 which Sen. Francis Case (R-SD) spent.

On this testimony, the special Senate committee created to inquire into the Case incident closed its public hearings.

However, a new, broad inquiry into all "means and methods employed by interests outside the Senate who pressed for the passage or defeat of the natural gas" bill apparently was shaping up.

To clear the way for it, Sen. Hennings (D-Mo) resigned from the Senate Elections subcommittee of which he has been chairman.

He said that he felt the subcommittee could not undertake the inquiry while he remained on it since he is a candidate for re-election.

It has long been Senate custom that the elections subcommittee—which has the job among other things of policing elections—should not include any senator who is currently campaigning for re-election.

Sen. Gore (D-Tenn) is in line to become chairman of the group in succession to Hennings. Gore has repeatedly urged a broad inquiry into efforts to influence votes on the gas bill.

The special Senate committee, headed by Sen. George (D-Ga), has limited its hearings strictly to the Case incident.

This group closed out its hearings with less than an hour's testimony today.

It first called Sheriff Paul Whaley of Dawson County, Nebraska, who accompanied Neff to Sioux Falls, S.D., in January when Neff left \$25,000 bills with a friend of Case's as a campaign contribution.

Whaley, who was just along for the ride, had little pertinent to tell the committee.

Neff, who had told his story last week, was then recalled.

Charles W. Steadman, the committee's counsel, asked him: "Have you at any time since October, 1953, made contributions to the campaign funds of other senators in connection with the Harris-Fulbright (gas) bill?"

"I have made no other contributions to any senator's campaign funds," Neff said.

Steadman then told George "we have no further witnesses."

The committee will recess, subject to the call of the chairman," George said. "As far as the committee knows now, there is no further testimony expected at this time."

Case asked whether some of the South Dakota witnesses could go home. "All the witnesses are still under subpoena, and still subject to call," George said.

After the hearing, Evans was asked by newsmen whether Neff had made any contributions to other persons for the campaign funds of any senator.

Evans replied: "How do I know? I could give you a \$5 bill and I wouldn't know what you did with it."

When reporters pressed the question of whether any indirect campaign contributions might have

been made, Evans answered only: "Read the record."

Neff had testified Saturday that the \$2,500 was from the personal funds of Howard Keck, president of the Superior Oil Co. of Los Angeles.

Whaley was questioned mainly about his associations with Neff.

A sturdy built, graying man in a gray suit, Whaley said he was "a very, very close friend" of Neff and accompanied him on a Nov. 2 trip from Lexington, Neb. to Sioux Falls.

This trip reportedly marked the start of a sequence of events capped with the campaign fund offer last January, while the gas bill was under vigorous Senate debate.

Whaley said he learned only "within the past 30 days" that Neff worked for Superior Oil.

Whaley said he did not know the purpose of the trip to Sioux Falls. He said Neff wanted him to "help drive."

The day after their arrival in the South Dakota city, he said, he accompanied Neff to the office of the Sioux Falls Argus-Leader where he sat while Neff talked to E. J. Kahler, the paper's business manager, for 30 to 40 minutes.

He didn't hear "anything about natural gas," he said.

There has been testimony that Neff asked for the editor when he went to the Argus-Leader but was told the editor was out of town.

Relating the Neff-Kahler conversation, as he said he recalled it, Whaley told the committee: "I heard them mention the Harris Bill, but didn't know what it was."

Rep. Harris (D-Ark) sponsored the Natural Gas Bill in the House, Sen. Fulbright (D-Ark) on the Senate side.

"I got the impression Mr. Kahler was well acquainted with Neff, Case," Whaley said.

He said "funds were not mentioned" during the interview.

He said there was some discussion of the farm situation, and "I heard Mr. Kahler say the Republican party and Mr. Case might be in trouble."

"Funds were not mentioned," he said, but it was said "the Republican party and Mr. Case might need some help."

Neff, before being asked whether he had made contributions to other senators was questioned as to his motives in trying to check up on Case's stand on the natural gas bill.

Evans interrupted the questioning to say that his client had answered this inquiry several times, saying "I don't know the witness should be mistrusted."

But Steadman insisted Neff had not answered and Chairman George ruled the question was "pertinent."

Neff finally said: "I do know that they wanted to know the attitude of any senator on the gas bill."

"By they," inquired Steadman, "do you mean the Superior Oil Co.?"

Neff said that he did, and mentioned Elmer Patman, Superior Oil Co., attorney as one specifically interested.

In asking the question about other contributions, Steadman pre-empted his query with the comment that "if a pattern is shown," it would be a matter of interest to the committee "even with its limited jurisdiction."

Case in disclosing the offer said he saw it as evidence of an excessive interest in his position on the bill to free natural gas producers from direct federal price regulation.

Until the special group took over, Hennings had planned a broader study by his group.

Hennings in a prepared statement said he is resigning as chairman and member of the Elections subcommittee because he is convinced that his broader inquiry "could not be made as long as I was a member of it" because of objections, from some fellow senators. It is customary for senators up for re-election to get off the committee.

"I can no longer permit my membership on the subcommittee to serve as a refuge for those who may be adversely affected by an investigation," Hennings said.

"With my resignation today, no legal or procedural objection remains to the commencement of the important inquiry," he said.

The statement said Hennings "is heartened by the knowledge that by stepping aside I will enable the investigation to continue under the able and forthright leadership of Sen. Albert Gore (D-Tenn)."

The Wikini

If this is a criterion, California should offer some interesting attractions this summer. Sally Todd, pretty San Francisco model, demonstrates the new knit Wikini for 1956, with directional stripes of white dacron.

McGowan Murder Trial Begins

HAMILTON (AP) — Raymond McGowan, 47, went on trial today for the slaying of a young rodeo performer at the same time he shot his pretty blonde wife to death in a Waco motel.

Dist. Atty. Howell Cobb sought the death penalty for the Dallas riding stable operator for killing Bobby Darby, 21, of Arlington July 10, McGowan was sentenced at Waco Sept. 23, 1955, to five years for killing his estranged trick rider wife, Pauline McGowan, 27.

Witnesses Cobb said Sheriff Bill Decker of Dallas was unable to find a H. R. Flick, part owner of a sporting goods store at Dallas, and Jack Spellman, a partner in a motel.

Flick testified at McGowan's Waco trial that he sold the revolver used in the slayings. Spellman testified McGowan "told me he shot them twice and right in the face."

McGowan testified at Waco he shot his wife unintentionally as she struggled to keep him from shooting Darby during a jealous rage.

"I was raving mad. I meant to shoot him because he broke up my home—I wanted to be sure I killed him," McGowan testified.

Mrs. McGowan filed for divorce in Dallas June 2, 1955 and returned to Waco to live with her parents, Mr. and Mrs. Paul Pappas. She taught Darby trick riding.

County Buys Shovel, Offers Job To Engineer

Purchase of a new power shovel and an offer to employ Walter Parks of Imlaystown, N. J., as county engineer were highlights of the commissioners court session this morning.

Commissioners voted 3-1 to purchase a 12.5-ton Quickway shovel from the Patton Machinery Company of Abilene for a net of \$15,023. A Patton representative offered the shovel for \$21,600 but reduced the price \$5,700 on trade-in of an old loader, then knocked off three per cent of the net price and allowed \$400 off on tires.

Although lower bids were received on 10-ton shovels, three commissioners said they believed the larger machine was the best value. Commissioner G. E. Gilliam voted against the purchase. He also had opposed advertising for the bids.

Five other bids were received, including an offer from the Patton Machinery Company on a 10-ton shovel. Low was \$12,900 on a 10-ton P&H shovel offered by the Plains Machinery Company of Odessa. Other bidders were Moore-Harris Machinery Company, Wilson Equipment Company and the Texas Machine and Equipment Company.

Commissioners authorized Judge H. H. Weaver to offer Parks engineer's job at a salary of \$6,000 per year. He has indicated he expected a higher salary, however.

A motion disclaiming any interest on the part of the county in a road at the rear of Brown's Trading Post in the Settles Heights Addition in west Big Spring also was passed. S. L. Thurman, owner of property adjacent to the road, had requested the action. The road was opened by vehicles cutting across his land, Thurman said.

A group hospitalization insurance proposal was submitted at the meeting by a representative of the American Investors Life Insurance Company of Houston. The proposition was filed with similar proposals from other concerns. All will be considered, the commissioners said.

In the discussion on the shovel bids, Gilliam said he is opposed to the purchase of any additional equipment until the county has an engineer to determine specifications. He also suggested that all permanent road construction in the county be suspended until an engineer is employed, and urged that the county attempt to acquire free-way bypass right-of-way out of current funds, to avoid payment of interest on any bond issue.

He proposed that \$100,000 per year be taken out of road and bridge funds for the right-of-way purchases. He said such could be provided by cutting back on maintenance and other operations.

Habeas Corpus Hearing Scheduled

PLAINVIEW (AP) — A habeas corpus hearing for C. W. Phares, 43, charged with murdering his wife, will be set for today before Judge E. A. Bills.

Phares' wife, 21, disappeared from their farm home May 4.

Crash Toll Hits 6; Rites Set For Two

Funeral arrangements for two of the persons killed in a two-car collision south of here Saturday night have been completed in Odessa.

Death of Evelyn Arnold Sunday morning brought the wreck toll to six lives.

The accident, the worst in Howard County history in number of fatalities, brought the total killed in traffic accidents in the county this year to eight.

Killed were Mrs. Stella Arnold, 44; her daughters, Evelyn Arnold, 15, and Mrs. Ruby Ludean McCann, 18; Mrs. McCann's month-old son, Gary Wayne; Mrs. Cleo Mildred Sweeney, 45; and Grin Severt Wolburn, 28. All lived in Odessa.

Hubbard Funeral Home of Odessa is handling arrangements of all six. The bodies were transferred from Big Spring funeral homes Sunday.

Funeral services for Mrs. Sweeney will be conducted at the First Methodist Church in Odessa Wednesday at 2 p.m.

Survivors include her husband, Paul T. Sweeney of Odessa; her

father, A. M. Gardner of Oregon; her mother, Mrs. Minnie Gardner of Oklahoma City; five brothers, Ernie, M. L. and Dr. Gene Gardner all of Oklahoma City; Marvin and Carl Gardner of California; two sisters, Mrs. Robert Sedgwick of Norfolk, Va. and Mrs. A. McFratridge of Tucuman, N. M.

Mrs. Sweeney will be buried in Sunset Gardens at Odessa.

Final rites for Mr. Wolburn will be held Tuesday at 3 p.m. at the Redeemer Lutheran Church in Odessa, and burial will be in Odessa Cemetery.

Mr. Wolburn is survived by his wife, Paula Wolburn of Odessa; four daughters, Judy, Peggy, Nina Joyce, and Donna Sue Wolburn of Odessa; one son, Dennis Wolburn of Odessa; his father, Levi Wolburn of Odessa; three sisters, Mrs. Ada Mae Henry of Goldsmith, Mrs. Willa Mae Williamson of Odessa, and Jo Ann Wolburn of Odessa; and two brothers, Bobby Gene and Levi Wolburn Jr., both of Odessa.

Funeral services for the members of the Arnold family have

AFTER COLD WAVE

Weather In Texas Turns Springlike

By The Associated Press

Scattered by two weeks of snow, sleet and rain, Texas started enjoying springlike weather over the weekend.

Early morning Monday skies were clear over the state and only two points reported freezing weather. Dalhart had 31 degrees and Amarillo 31.

The warmest spot was Brownsville with 58. Temperatures ranged from 39 at Amarillo to 80 at Brownsville Sunday.

Partly cloudy and slightly warmer weather has been forecast for the state Monday and Tuesday. No rain was reported and the Weather Bureau said none was in sight.

Heavy fog cloak much of South, East and South-Central Texas. Lufkin's visibility was down to 1-16th of a mile due to fog and a light drizzle. San Antonio and Victoria each had 1-8th of a mile visibility and Houston and College Station 1-4th.

Warm weather raised the hopes of farmers in East and North Texas.

Pasture grasses should be growing, stock tanks replenished, and planting season should be entered in good shape, a survey by the Dallas News said.

Rains came too late to provide grazing from the grain crop, of great benefit when warmer weather arrives, he said.

Reds Warn Against Force In Mid-East

MOSCOW (AP) — The Soviet Union issued a warning tonight against use of any foreign troops in the Middle East without a prior agreement and U.N. approval.

It said any expansion of "aggressive activities" in the area will fall within the Soviet orbit of interest.

A statement handed to correspondents at the Foreign Ministry said:

"Any act such as the entry of foreign troops on the territory of nations of the Middle and Near East, without the prior agreement of interested governments and without the sanction of the Security Council of the United Nations, would be a rude disruption of the principles of the United Nations and the sovereignty of a number of nations."

The Foreign Ministry said the statement was issued as a result of the Eisenhower-Eden declaration in Washington. This expressed willingness to support any U. N. action to preserve peace in the Middle East. There has been talk of an international army to guard the frontiers between Israel and Arab countries.

"As far as the Soviet Union is concerned," the statement said, "the Soviet Union will defend the freedom, independence and principle of noninterference in the internal affairs of countries of the Middle and Near East. Together with other interested governments, it will support the security of this area."

The Soviet Union held the declaration issued by President Eisenhower and Prime Minister Eden after their Washington conversations "cannot disturb the peace of the Near and Middle East and cannot be a source of tension, independence and sovereignty of nations of that area."

The Eisenhower-Eden declaration had declared the Soviet bloc's supply of arms to the Middle East "added to the tensions in the area and increased the risk of war."

It reiterated U. S. and British determination to guarantee agreed frontiers in the area, and recalled the 1950 agreement of the United States, Britain and France to act "in the event of the use of force or threat of force or of preparation to violate the frontier or armistice lines."

Then it leads through dark forest.

Two miles from the frontier there is no sign of life. Trees have been felled to create open space dangerous for any potential refugee. Along the road there are signs every fifty yards or so:

"Do not halt. It is forbidden."

After a series of these, there is a temptation to drive just a little faster. A sentry tower looms up. A guard peers out. Stretched the way leading to West Germany. For about 45 miles, it is a pleasant ride through countryside and vil-

Gas Blast In Toledo Kills 1, Hurts 2

TOLEDO, Ohio (AP) — A gas explosion in a downtown meat packing firm killed one man and injured two others early today. At least two others are missing in the rubble of several brick buildings which were leveled by the 4 a.m. blast.

The dead man was identified as Paul Bocherding, 54, meat firm employe.

The injured in Mercy Hospital are James Dunn, 40, a passer-by, who is in serious condition with internal injuries; and Stanley Damschroeder, 53, another meat firm employe, who has burns on his head and hands.

The two missing were identified as Melvin Kegglerman and James Liphart, both meat firm workers.

Firemen wearing gas masks because of strong ammonia fumes, quenched a small fire that followed the blast, rescue squads worked with cranes to move the rubble in a search for bodies.

Hundreds of windows were shattered in a four-block area that includes the Commodore Perry and Secor hotels, two of the largest in the city.

Fire Chief Arnold Pagnhagen estimated the damage at more than a million dollars.

The 12 level 4 buildings housed The Hygrade Food Products Co., the office of manufacturers' agent Stanley J. Brown, the Lutheran Thrift Shop, and a vacant store formerly occupied by a restaurant.

Coroner Dr. Paul Hobly said Damschroeder told him "the whole place went boom" when he struck a cigarette lighter in the meat cooling room.

Damschroeder said he and three other men reported for work as usual. They went into the basement and lit a heater in a room where they changed clothes. Then they went upstairs to the cooling room, where Damschroeder started to light his cigarette.

The roof was blown up and the walls out, and insulation from the cooling room was scattered.

LOS ANGELES (AP) — A bluish white meteor with a brilliant orange tail flashed across the California sky and was seen from points more than 600 miles apart early yesterday.

Observers as far north as Santa Clara, 400 miles from here, and south to El Centro, 175 miles southeast, and east to Winslow, Ariz., reported sightings shortly after 1 a.m. Witnesses reported seeing it for 10 to 30 seconds.

A sentry at Camp Irwin, the Army's huge armored equipment manufacturing base on the Mojave Desert, said blazing objects appeared to fall nearby. Another soldier on the same reservation said he saw the same apparent breakup of the meteor.

Signs, with painted lightning bolts, indicate the fence is electrically charged.

In this two-mile stretch no one except a properly documented traveler in an automobile may appear without jeopardizing his life.

Farm villages which once existed in the "death zone" are now ghosts. The families were moved out. The buildings are in decay.

Czech guards, courteous and efficient, check travel papers and in less than 10 minutes raise the barrier. Half a block down the road is the West German station. The customs guards are glad to see

Crew Bails Out Before Crash

NASHVILLE, Tenn. (AP) — An Air Force C119 ferry crew bailed out yesterday after the plane's controls went haywire a few minutes before a fuel crop.

The crew was ferrying the plane from Hagerstown, Md., to their home base at Randolph Field, Tex.

The copilot, Maj. Darrell Calkins, 35, Stillwater, Okla., was treated at a local hospital for face lacerations and taken to Stewart Air Force Base, Smyrna, Tenn.

The other three landed unhurt. They were identified at Stewart as Capt. Robert A. Miller, 33, pilot, San Antonio, Tex.; A. I. C. Robert E. Lesh, 20, crew chief, Battle Creek, Mich.; and A. C. Randall T. Blocker, 22, Glenville, Ga.

Train Hits Rail Barrier

MEMPHIS, Tenn. (AP) — The streamliner City of New Orleans, traveling nearly 80 miles an hour, smashed into a crude barrier across the tracks about three miles north of the city limits yesterday.

There was no damage to the Illinois Central train, en route from Chicago to New Orleans. The barrier was a telephone pole crossarm and a log six inches thick.

Sheriff's deputies, who were investigating along with the FBI and railroad detectives, said the train sliced off a portion of the heavy log and tossed it aside. The cross-arm was "chewed into splinters and scattered for 200 or 300 feet."

Aiken Predicts Soil Plan Could Aid Farm Income

WASHINGTON (AP)—Sen. Aiken (R-Vt.) predicted today that the new soil bank program "could add some two billion dollars to farm income this year" if Congress retains flexible price supports.

Aiken, in an interview, repeated his forecast of a presidential veto if Congress ties rigid price supports to the soil bank proposals of President Eisenhower and Secretary of Agriculture Benson.

His comments came after Chairman Ellender (D-La.) of the Senate Agriculture Committee and Sen. Young (R-ND) said they were willing to risk a veto in order to try to get higher mandatory supports for cotton, wheat, corn, rice and peanuts.

As the soil bank bill goes to the Senate it will include this provision inserted by an 87 vote of the Agriculture Committee.

Ellender and Young contend the soil bank payments, authorized at \$1,100,000,000 this year, would mean little actual profit to farmers unless something is also done to raise prices and support levels.

Sen. Anderson (D-NM), another member of the committee, supported Aiken's view that the President would veto the bill in its present form. But he added, in an NBC-TV interview, that he hopes Eisenhower never has the opportunity to do so. "He called the bill 'atrocious' and 'completely inadequate,'" he said.

Benson, in another NBC-TV interview, said he couldn't say with certainty what Eisenhower would do, but said that if the President asks his advice he would recommend a veto.

He said he didn't think either he or Eisenhower would approve a farm bill including the high price supports, and added, "I think probably my advice will not be necessary in this case."

Calling a return to the high support levels "a step backward," he noted that Eisenhower already has said such action would "defeat the main object" of creating a soil bank to reduce crop surpluses.

But Ellender contended that whatever the price support level, Benson "has authority to control production of basic crops if he wishes to do so."

Cold Spot
A West Berlin border guard shovels snow from his post near the Brandenburg Gate, one of the principal entrances to Communist-controlled East Berlin. Heavy snow fell in Berlin during the recent freezing weather that gripped most of Europe.

Unionists See 1956 Political Edge For GOP

MIAMI BEACH, Fla. (AP)—AFL-CIO political strategists have decided that "the Republicans will have an edge" in the 1956 presidential race regardless of whether President Eisenhower decides to run again.

This view is contained in an analysis of the political situation submitted confidentially to the 29-member AFL-CIO Executive Council during its winter session here by AFL-CIO political codirectors James L. McDewitt and Jack Kroll. A major reason for this appraisal is that Eisenhower's recommendation for increased spending for schools, housing, social security, health and roads have "to a large extent deprived the Democrats of some of their most appealing issues."

The conclusion is reached that the decline in farm prices is "the most powerful" domestic issue left to the Democrats.

"Although it is impossible to evaluate the presidential election until there is an announcement of Eisenhower's intention," the report says, "the Republicans will have an edge in the race."

"This will result from a shift in the party character to provide more appeal for city voters and their control of communications."

The view is expressed that Eisenhower's announcement of his political intentions is "being delayed" for two reasons:

"1. Further shorten the campaign time to give the greatest possible advantage to a blitz campaign into which large financial resources could be poured and in which the full advantage of the one-party press, radio and television could be mobilized.

"2. Solidify the hold of the Eisenhower-Dewey wing on the Republican party by delaying the organization of the anti-Eisenhower forces around any single candidate."

The report continues that "in view of the attacks which have been made on the (AFL-CIO) merger by reactionary groups," it will be necessary for organized labor to "conduct a campaign primarily on the educational level without fanfare of publicity."

"Change in character of the Republican party," the report said, "is evidenced by the fact that at present 34 out of 48 Republican state organizations now have leaders selected after the election of President Eisenhower."

Adlai, Harriman Differ Over Race Issue In Education Aid

By The Associated Press

Another round of comment on civil rights questions leaves Adlai Stevenson and Averell Harriman differing sharply on one issue growing out of the segregation dispute.

Harriman, governor of New York and an "inactive" candidate for the Democratic presidential nomination for which Stevenson is campaigning, said last night he favors barring federal grants to schools that resist desegregation.

Stevenson, however, said it wouldn't help reduce race prejudice to cut off Southern states from "the means of improving the educational standards of all their people."

In a statement issued at Portland, Ore., Stevenson also said that the segregation issue be kept out of this year's presidential campaign. Among the Republicans, National Chairman Leonard Hall said he would pick former President Truman "because I want the American people to have a choice between what they now have and what they had under Mr. Truman."

As for the GOP candidate, Hall repeated that he is operating on "the absolute, definite and positive theory that President Eisenhower will seek a second term."

The school aid issue dividing Stevenson and Harriman stems from an amendment proposed by Rep. Powell (D-NY) to a federal school construction program pending in Congress. The amendment would prohibit allocation of federal funds to communities resisting integration.

Eisenhower has opposed the amendment.

In a radio interview, Harriman said he believes "the correct position" is to support the Powell amendment.

Sen. Kefauver of Tennessee, another Democratic presidential hopeful, hasn't taken a final position on the question. He has observed, though, that the amendment might result in defeat of the bill.

Stevenson, in his Portland statement, said he can "think of no greater dereliction to our country than to exploit for political ends the tensions that have followed in the wake of the Supreme Court decision" ordering desegregation.

He urged "all reasonable speed" in carrying out the court's decision.

Harriman said the U. S. attorney general "must take action in supporting federal law and in bringing to justice violators of the federal law."

Referring to mob violence that followed admission by court order of a Negro woman to the University of Alabama, Harriman said, "I haven't seen the (federal) activity which I think the situation demands."

Kefauver's most recent statement on the segregation issue came in a news conference Friday at St. Paul, Minn. He said:

"The ruling of the Supreme Court is the law of the land. I think it is high time that intelligent, thoughtful leaders of both races get together and find a solution. Nothing should be done to hurt or destroy the public school system."

Saturday night's Lincoln Day dinners found Republican orators comparing Eisenhower with the first Republican President. Postmaster General Arthur Summerfield said Detroit that Eisenhower is "the greatest President since Abraham Lincoln." At Springfield, Ill., Chairman Hall saw "remarkable parallels" between the two.

The GOP speakers also hailed the record of Eisenhower administration. Summerfield said, "We have reduced Communist aggression to bluster and empty verbiage." Secretary of Labor Mitchell said at Akron, Ohio: "The drift toward massive government... has been halted."

DEATH TOLL 333

New Storms Raise Europe's Misery

LONDON (AP)—Fresh snowstorms heaped more misery today on freezing Western Europe. The toll of recorded weather deaths climbed to 333 for the past two weeks and scores were missing.

Avalanches struck at least six Yugoslav villages and authorities said they feared "a great number of people" were trapped. At least 10 workers were reported killed at Strezimir, and three at Torbeski. Other snow and earth slides were reported from Trnava, Nicpor, Sirovica and at the Mavrovo hydroelectric power station.

American military forces on the Continent were mobilized for mercy details. The U. S. Air Force in Germany sent 22 Flying Boxcars loaded with relief supplies for Italy, where more than 100 communities are snowbound. Italian military vehicles were standing by to rush the blankets, food and warm clothing to stricken areas in central Italy.

The sun broke out over most of Britain, bringing some winter warmth. But temperatures were still well below freezing in Scandinavia and on the Continent—especially in remote regions.

Mad Dog Killer To Be Returned

SAN FRANCISCO (AP)—Leslie (Mad Dog) Irvin, who says he will waive extradition, will be headed back tomorrow to Indiana and the electric chair.

Irvin, convicted of one murder and charged with five others, escaped jail at Princeton, Ind., and hitchhiked to California. San Francisco police arrested him Thursday when he attempted to pawn stolen diamonds.

Meeting Tuesday On Water Bonds At Sterling City

STERLING CITY — The controversial question of putting in a municipal water and sewerage system may come to a vote again, according to Mayor John Woolraven. A meeting has been called for tomorrow night, when the city officials may decide on whether to call another election.

At a previous election the \$250,000 bond issue to provide a water and sewerage system was voted down by 13 votes. Opinions were sharply divided, and intense feeling prevailed on both sides.

"This time we may decide to hold an election on the installation of a water system alone," said Woolraven. "Some residents seem to think this would have a better chance of succeeding in the next election."

Woolraven, who was in favor of the bond issue, said that some of the water in Sterling City was unsafe for drinking purposes. Contamination had resulted from the numerous septic tanks in town.

"I don't know just what the tests showed," he said, "but the state health department did find harmful bacteria in some of the samples."

Plane Missing

ATHENS, Greece (AP)—A Greek air force Dakota with 17 persons aboard was missing today on a flight to drop supplies to snow-bound villages in Acedonia, north-east Greece.

Twin Boys Held In Youth's Death

WHEELING, W. Va. (AP)—Twin 14-year-old boys charged with the slaying of a 9-year-old Cub Scout steadfastly insisted they were innocent during eight hours of questioning yesterday.

Police and other officials who saw Thomas and Joseph Williams calmly answer questions—and submit to lie detector tests—scheduled a meeting to correlate their information.

Members of the family of David Powell gathered for his funeral today.

After the interrogation of the twins, Ohio County Prosecutor Joseph Gompers said a mental examination is planned, adding:

"I still don't think we've got the truth from the boys."

The lads are charged with murder and are being held in a juvenile detention home.

Dressed in blue jeans and wear-

Laredo Man Lost 64 Pounds With Barcetrat

"I have used 9 bottles of Barcetrat in 3 months and lost 64 pounds in weight and 13 inches in my waist line, but I still take Barcetrat for regularity and pep."

Signed Raymond S. Thompson, 2125 Ash Street, Laredo, Texas.

—and Mrs. M. C. Parker, Route 2, Mesquite, Texas, says she lost 16 pounds taking Barcetrat.

If the very first bottle doesn't show you the way to take off ugly fat, return the empty bottle for your money back. Get Barcetrat from any Texas drugist.

Val Peterson May Get CAB Position

OMAHA (AP)—The World-Herald today quoted a "high Republican source" as saying Federal Civil Defense Administrator Val Peterson "almost certainly" will be named chairman of the Civil Aeronautics Board.

Missing Diplomats Leave Many Riddles Unanswered

MOSCOW (AP)—Nearly five years of mystery surrounding the whereabouts of former British diplomats Guy Burgess and Donald Maclean have been lifted in the shadow of the Kremlin. But most of the riddles were not answered.

Hold News Conference

Missing British diplomats Donald Maclean, left, and Guy Burgess, right, turned up in Moscow, a stone's throw from the Kremlin. Moscow radio interrupted its home service programs to broadcast a report that the missing British diplomats had held a news conference there. The two men disappeared from their homeland in May, 1951, and were presumed to have gone to the Soviet Union.

The Russians staged a dramatic appearance of the two turncoats Saturday in the National Hotel, three days before the opening of the Soviet Communist party's 20th congress. Two British and two Soviet newsmen were summoned to their five-minute "press conference."

Immediately after, the two were driven off into the night. They left unanswered a host of questions:

What underground route carried them through the police nets of Europe? What secrets did they give the Russians? And what world events did this knowledge set off? Did it cause the Chinese Reds to enter the Korean War? Why did the Russians remain silent so long, then choose this time to disclose their whereabouts? How are they doing now and how are they living?

Burgess and Maclean said in a prepared statement they had been Communists since their days at Cambridge University but denied they had been secret agents as charged last year by the British.

They said they had fled to Russia "to make our contribution to a policy aimed at achieving greater mutual understanding between the Soviet Union and the West."

They charged that a "small but powerful" group in the West had opposed a mutual understanding. They particularly criticized U. S. foreign policy.

Maclean and Burgess slipped across the English Channel on a small steamer in May 1951 and disappeared. It seemed clear they had vanished behind the Iron Curtain but Soviet officials blandly denied knowledge of their whereabouts.

Maclean had been head of the American Department of the British Foreign Office, Burgess, carried with BBC and the British Secret Service, was second secretary of the British Embassy in Washington.

Both were in close touch with the secrets of U. S. British diplomacy then.

The British Foreign Office said in a white paper last year that the two had fled when the government, suspicious at the leak of secrets to Moscow, ordered Maclean questioned.

Maclean's American-born wife, the former Melinda Marling of Chicago, followed her husband to Russia in 1953 with their three children. Mrs. Maclean is the daughter of Francis N. Marling, advertising manager of the Pure Oil Co.

Maclean said in the statement that he had found himself "more and more alone" in his objections to British foreign policy.

"It was becoming increasingly difficult to find anyone to think of something else than the Communist menace, to understand the

senselessness and danger of American policy in the Far East and Europe," said the veteran of 18 years in Britain's diplomatic service. "To further remain in the diplomatic service was becoming impossible."

The statement continued that Maclean, spied upon by British agents, had discussed his situation and views with Burgess, found him sympathetic and they decided to flee together.

In Canberra, Australia, the former Soviet spy chief there said Maclean and Burgess lied when they said they never had been Soviet agents.

Vladimir Petrov, who deserted his espionage job with the Russian

embassy in April 1954, said in a statement: "Burgess and Maclean worked for the MGB (Soviet Ministry of State Security) and gave much secret information. For these reasons the MGB arranged for Burgess and Maclean to travel secretly to the Soviet Union when British security authorities discovered that they were Soviet agents."

Gen. Douglas MacArthur recently asserted that Red China intervened in the Korean War because Burgess and Maclean had tipped off the Communists that the United States would not counterattack Manchuria.

Gen. Douglas MacArthur recently asserted that Red China intervened in the Korean War because Burgess and Maclean had tipped off the Communists that the United States would not counterattack Manchuria.

Graham Mental Tests Renewed

DENVER (AP)—Doctors at Colorado Psychopathic Hospital today began a new series of examinations for John Gilbert Graham, the 24-year-old Denver man accused of blowing up an airliner.

A hospital spokesman said the tests are expected to last between 7 and 10 days.

Graham was returned to the hospital Saturday afternoon after he attempted suicide in his Denver County Jail cell Friday night. Authorities strapped him in a straitjacket for the cross-town ambulance trip.

Graham underwent 30 days observation at the hospital between Dec. 9 and Jan. 9. Shortly after, psychiatrists reported in court he was sane at the time a United Airlines plane exploded and crashed near Longmont, Colo., last Nov. 1, killing 44 persons.

Graham has pleaded innocent and innocent by reason of insanity to murder charges in the death of his mother, 54-year-old Mrs. Daisy E. King of Denver, one of the crash victims.

Graham's sanity trial is scheduled for March 5.

Russian Leader Cleans House As Red Meet Nears

NEW YORK (AP)—Nikita Khrushchev has been having a thorough house cleaning in preparation for the opening tomorrow of the Soviet Communist party's 20th congress.

This is the most likely explanation for the recent removal of several important Soviet officials, the demotion of others and the meeting out of severe rebukes to still more leaders in the party.

Party boss Khrushchev, who evidently intends to dominate the congress with a firm hand, appears to be putting his subordinates on notice that they must toe the line or else.

Here are some of the significant recent changes:

1. Sergei Kruglov was fired from his job as minister of internal affairs and replaced by N. P. Dudorov, Kruglov, a veteran police officer, had served for many years under Lavrenty Beria, who was executed as a traitor in 1953. After Beria's arrest Kruglov replaced him as minister of internal affairs.

Dudorov was in charge of construction policies in the Central Communist party at a time when Khrushchev was particularly interested in this field. Dudorov seems to have been moved up because he is a man Khrushchev thinks he can trust.

2. A. M. Puzanov was removed as premier of the Russian Republic and replaced by M. A. Yarov. The latter for a number of years was mayor of Moscow—during Khrushchev's tenure as boss of the city's Communist political machine. Puzanov was demoted to deputy premier.

3. In Lithuania M. A. Gedvilas, long-time premier of the Lithuanian Republic, was replaced by a party secretary, M. Y. Shumaskas. No reason was given.

4. Gen. P. I. Parshin was removed from his position as minister of the machinery and instrument industry when this department was split in two. Parshin was named head of neither of the new organizations.

5. More than a dozen veteran first secretaries of Communist party units in key regions have been ousted.

For slightly more than two years Khrushchev has been removing persons he did not trust from positions of responsibility. Frequently they have been former close associates of ex-Premier Georgia Malenkov.

Tear Gas Breaks Up Riot By Texas Cons

RICHMOND, Tex. (AP)—Tear gas bombs and fire hoses broke up a riot by screaming, cursing convicts at Harlem Prison Farm No. 1 here yesterday.

Approximately 75 armed officers surrounded the two-story concrete dormitory and blocked off all nearby roads in the area after the convicts started smashing windows and setting hundreds of mattresses on fire.

There apparently was no attempt at escape. About half the 400 prisoners at the farm took part in the 11-hour riot. With the exception of 12 Anglo-American trustees, all of the convicts are of Latin-American descent.

O. B. Ellis, manager of the Texas prison system, said the riot was started by about 12 prisoners who he said "appeared to be under the influence of drugs."

Ellis said he knew of no reason for the outbreak of violence nor could he say where the prisoners could have obtained narcotics.

In quelling the riot, firemen directed high-pressure streams of water through the dormitory windows and Texas Rangers then threw in tear gas and nausea gas bombs.

The 12 were isolated and questioned last night. Other prisoners, after being herded into the fenced prison compound and searched, were put to work cleaning up the wreckage and debris.

The riot began about 3 p.m. when convicts on the lower floor began yelling, breaking windows and setting bedding afire. Four guards were inside the building but apparently no attempt was made to harm them.

Choking from tear gas and smoke, the convicts were lined up in the compound outside and searched. Guards smelled each convict's breath, apparently to determine if they had been using narcotics.

The 12 were isolated and questioned last night. Other prisoners, after being herded into the fenced prison compound and searched, were put to work cleaning up the wreckage and debris.

In quelling the riot, firemen directed high-pressure streams of water through the dormitory windows and Texas Rangers then threw in tear gas and nausea gas bombs.

The 12 were isolated and questioned last night. Other prisoners, after being herded into the fenced prison compound and searched, were put to work cleaning up the wreckage and debris.

The riot began about 3 p.m. when convicts on the lower floor began yelling, breaking windows and setting bedding afire. Four guards were inside the building but apparently no attempt was made to harm them.

Choking from tear gas and smoke, the convicts were lined up in the compound outside and searched. Guards smelled each convict's breath, apparently to determine if they had been using narcotics.

Ellis said he knew of no reason for the outbreak of violence nor could he say where the prisoners could have obtained narcotics.

MEN PAST 40

Troubled with GETTING UP NIGHTS Pains in BACK, HIPS, LEGS Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicines that give temporary relief will not remove the causes of your troubles.

Neglect of Glandular Inflammation often leads to premature senility, and incurable malignancy. The past year men from 1,000 communities have been successfully treated here at the Excelsior Institute. They have found soothing relief and a new zest in life.

The Excelsior Institute, devoted to the treatment of diseases peculiar to older men by NON-SURGICAL Methods, has a New FREE BOOK that tells how these troubles may be corrected by proven Non-Surgical treatments. This book may prove of utmost importance in your life. No obligation. Address Excelsior Institute, Dept. W-13, Excelsior Springs, Missouri.

Queen's Careful Grooming Puts Nigeria Fashion-Wise

IBADAN, Nigeria (AP)—Queen Elizabeth II's restrained grooming has jolted Nigeria's Mayfair, where dusky beauties parade in king-size gold ornaments and apply their brown face powder with a ladle.

The royal visit has touched off a spate of lectures in fashion columns of the Nigerian press.

"All of us who are particular about fashion will have something to copy from the Queen," said a woman writer in the Ibadan Tribune.

"Let us watch the style and suitability of her dress. Let us see how nicely she does her hair and applies makeup."

"Adora" of the Lagos Times was more blunt. "How would a distinguished African woman, not even a queen, have landed at Ikeja Airport?" she asked.

"I'll dare tell you. On every other finger there would be at least two gold rings. Around the neck would be rows and rows of gold beads.

"To crown all there would be a long gold chain almost touching the knees. That is not all. On the blouse there would be two large brooches, each vying with the other for place.

"On the ears would be large earrings practically tearing the ears down. Around the wrists there also would be one or two gold bracelets.

"In fact, the only spot that would escape this extremism would be the teeth."

LINCOLN
For 1956: the longest, lowest, most powerful Lincoln ever

Never before a Lincoln so long . . . and so longed-for

This longest, lowest of all Lincolns is total newness. In every distinctive line it says: this is the one and only completely new fine car of the year. There is a fresh newness here . . . of beauty, of power, of performance . . . that has won instant acclaim from those who instinctively recognize the finest.

Lincoln Beauty! Its essence is the clean line . . . the uncluttered sweep of Lincoln's breathtaking length. Here is good taste that speaks with quiet authority.

Lincoln Power! A mighty, new 285-horsepower engine . . . teamed with the incomparably smooth Turbo-Drive transmission . . . delivers more usable power than ever. Laze through traffic with incredible agility . . . leap around highway slow-pokes . . . float up the steepest mountain grade and you'll know at last how a fine car can step.

Lincoln Performance! Here's roadability you've never dared imagine. Unique ball-joint suspension, married to Lincoln's scant 5 feet of lowness, locks you sure-footed and safe to the sharpest of curves.

America's motoring trend-setters have taken Lincoln to their hearts . . . in truly marvelous numbers. Are you, perhaps, denying yourself an experience that should be yours . . . the adventure of Lincoln?

LEGAL NOTICE
NOTICE TO BIDDERS
Sealed bids will be received by the City Commission of the City of Big Spring, Texas until 5:15 P.M., Tuesday, February 20th, 1956 for furnishing and installing radio equipment for the Police and Fire Departments, to consist of one (1) remote controlled base station, three (3) mobile units, two (2) mobile units, and eleven (11) mobile units. Specifications may be obtained at the office of the City Manager, City Hall, Big Spring, Texas. Equipment furnished shall conform to all F. C. C. and P. C. D. A. requirements. The City Commission reserves the right to reject any or all bids, and to waive formalities.

G. W. Dabner
Mayor

ATTEST:
C. B. McClenny
City Secretary

DO IRON CURTAIN NATIONS HAVE AN UNCENSORED "PRESS"?

Now they do! It is the watchful, dependable, truthful voice of Radio Free Europe. Twenty-nine powerful transmitters, plus the far-reaching operations of Free Europe Press and the Freedom Balloons send a steady flow of truthful news and information through Red censorship barriers.

Radio Free Europe broadcasts up to 20 hours of truth a day to five key satellite countries—Poland, Czechoslovakia, Romania, Bulgaria and Hungary. Millions listen . . . then pass the truth along.

Free Europe Press floats the truth over the Communist border—past powerless Red fighter planes and anti-aircraft.

These agencies need your help. Each dollar sponsors a Minute of Truth. How many minutes will you pay for? Send your Truth Dollars to—

MRS. GLENN COOTES

Joyce Connaway Is Wed To Glenn Cootes

Sunday afternoon in the parlor of the First Baptist Church, Joyce Connaway became the bride of Glenn Cootes. Dr. P. D. O'Brien, minister of the church, performed the informal double ring ceremony. Parents of the bride are Mr. and Mrs. Ira Connaway of Brooksmith. The bridegroom is the son of Mrs. Mae Althaus of Houston and Roy Cootes of Arlington. The bride wore a white eyelet embroidery street length dress fashioned with princess lines and a full skirt. The fitted bodice featured a V-neckline and elbow length sleeves. The fingertip length train veil was attached to a bandeau of material as the dress. She carried a bouquet of a gardenia surrounded with white carnations and ribbon streamers. For tradition, her dress was new; a pin which had been a gift from an elderly friend was old; and she borrowed a blue garter from Mrs. John Rudeseal. The couple will temporarily reside at 1000 E. 3rd. They will take a wedding trip to Ohio where they will make their home and operate a weekly newspaper.

Philathea SS Class Has Second Coffee

The second in a series of coffees for the Philathea Sunday School Class of the First Methodist Church was held Sunday afternoon from 3 to 5 at the home of Mrs. Lina Flewelling and Mrs. Irma Harrison. These coffees are being held to create interest and participation in the work of the class. About 50 called during tea hours.

Vealmoor 4-H Club Discusses Clothes

The care of clothing was discussed by the nine members present of the Vealmoor 4-H Club when they met Monday morning at the school. Elizabeth Pace, county home demonstration agent, met with the group. Goal for this month is practicing principles for care of personal clothes. Brenda Green was elected secretary to replace Daphne Hogg. The next meeting will be March 19. They will discuss "Dairy Products."

He's Taking Her To The Lion's Minstrel Thursday And Friday. Plan To Attend

Central Ward P-TA

There will be an executive meeting of the Central Ward P-TA preceding the regular meeting at 2:45 Wednesday at the school. The regular meeting will be at 3:30 p.m.

North Ward P-TA

North Ward P-TA will meet at 3:30 p.m. Tuesday at the school. All parents are urged to attend this meeting.

Marstrand-Bledsoe Vows Repeated In New Mexico

In an informal ceremony Friday evening in the sanctuary of the First Presbyterian Church in Eunice, N. M., Frankie Alice Marstrand and Harold Gene Bledsoe were married. The Rev. O. W. Randall, pastor of the church, officiated the double ring ceremony. Parents of the couple are Mr. and Mrs. C. E. Marstrand, 1512B Spycamore and Mr. and Mrs. W. A. Bledsoe, 207 Jefferson. The bride wore a beige linen princess styled dress with a full skirt and seed pearl and rhinestone trim. The ensemble was completed with a short fitted jacket with three-quarter length sleeves. She wore black accessories. Her corsage was white carnations. Willard Stewart, cousin of the bridegroom and his wife, of Eunice, attended the ceremony. A graduate of Big Spring High School, the bride was very active in band and music activities. She was attending Howard County Junior College at the time of her marriage. She is a former employe at Webb Air Force Base. The bridegroom is also a graduate of Big Spring High School and attended Howard County Junior College. He is now the agent for Continental Air Lines in Big Spring. Temporary home of the couple is 207 Jefferson.

BPO Does Celebrate Anniversary Sunday

BPO does celebrated their 35th anniversary Sunday afternoon with a Founder's Day Tea at the Elk's Lodge. About 50 attended the open house. Mrs. S. D. Jordan was in charge of the hospitality committee. Other arrangements were made by Mrs. Jo Clark, Mrs. Bill Ragsdale, Mrs. A. J. Prager and Mrs. A. E. Walker. The Valentine theme was emphasized in the decorations. The serving table was laid with a red linen cloth with a white net flounce ruffle. A large crystal compote with a red heart, white snap dragons and red carnations served as the centerpiece. The arrangement was flanked by silver candelabra with white tapers. Coffee and tea were served from a silver service. Red napkins with the white letters, "BPO does, 21-36" were favors.

Forsan P-TA Will Meet Tonight

FORSAN - P-TA will hold its first meeting of the new year tonight at 7:30 in the school cafeteria. The second grade will present the program. Mrs. Hamlin Elrod will be the leader.

Forsan Service Club Has 'Ladies Night'

FORSAN - "Ladies Night" was observed recently at the annual banquet of the Forsan Service Club. Approximately 70 were present.

The Rev. Allen Forbis, pastor of the Forsan Methodist Church, gave the invocation. Jeannette Taylor, public school music teacher, sang "Make Believe," accompanied herself. Seven girls, composing the "Small Ensemble" sang several numbers.

Nolan Von Roeder of Snyder showed two films of his travels and hunting trips in Texas, New Mexico and Wyoming. Master of ceremony was Wayne Monroey. All the ladies were presented with corsages.

The serving table was covered with white cloths decorated with red hearts at various places. Mrs. M. M. Fairchild was in charge of the meal preparation. Out-of-town guests included Mr. and Mrs. Von Roeder and Mrs. E. N. Baker of Snyder, Mr. and Mrs. J. D. Leonard of Big Spring, Mr. and Mrs. G. L. Monroey and Mr. and Mrs. E. O. Anderson of Vealmoor.

**Uncle Ray:
Writing Opened Way
To Human Progress**

By RAMON COFFMAN
Among all the inventions of history, the art of writing ranks first in importance. Without it, the passing of knowledge from one generation to another would have been blocked to a large extent. Most tests in the field of science would be of little value unless they were written down.
People learned to write in ancient times—in Egypt, Babylonia, China and elsewhere. They used paper (papyrus), clay, leather and stone as materials on which to write.
Ancient writing was limited to a small number of persons. Most of those who could write in Egypt were priests or professional scribes, and they very likely made up less than one per cent of the population. In China only the scholars knew the art of writing.
The story was much the same in Europe during the Middle Ages. Priests, monks and scholars learned to read and write, but the general public went almost entirely without schooling.
There were books in Europe during that period, but they were written by hand. Many were copied on sheepskin or vellum which was kept in rolls. In other cases the copying was done on sheets, and the sheets were bound together after the manner of a modern book.
Toward the end of the Middle Ages there came a change in Europe.

Few persons except monks, priests and college students could read or write during the Middle Ages.

The art of printing was developed. This was hardly second in importance to writing. The printing press made it possible to produce many books for many people.
The printed book pointed the way toward a better future for the human race. No longer were a few persons to be the only ones who could enjoy the world of written knowledge.
Let me hasten to add, that the change was slow. Nothing like our modern system of education came about at that time. Additional persons learned to read in each country where books were printed, but they made up only a small part of the population.

**Recreation Project
Sought For C-City**

COLORADO CITY — The Colorado City Chamber of Commerce will ask the city council for a full time city recreation director at the council's regular meeting Monday night, according to John Merritt, chairman of the Civic Development Committee.
Merritt reported that a meeting had been held with Mayor Trevor Crawford, City Manager Rollin Sneathen, Rev. Bill Austin, pastor of the Oak Street Baptist Church and active in youth work, District Attorney Eldon Mahon and other members of the committee. Saturday afternoon to discuss the proposed project. Merritt said that no decision had been reached other than to present the matter to the city council for study.
The program to be initiated is similar to the recreation program in effect in Colorado City shortly before World War II, when the federal government as a part of its recovery program, set up an all-age recreation plan with emphasis on a youth center. The program was under the direction of Truett Fulcher.
In addition to plans for a youth center, the committee will work toward the improvement of city parks.
It also plans to study the annexation of new areas and the extension of parking meters along streets which do not have them.
Members of the committee are Joe Earnest, Roy Dozier, Mrs. R. B. Baker, Roy Fox, George Witten, Dr. Kenneth Cowan, Dr. R. D. Bridgford and Mrs. L. W. Patterson.

Labor Experts Study Westinghouse Issue

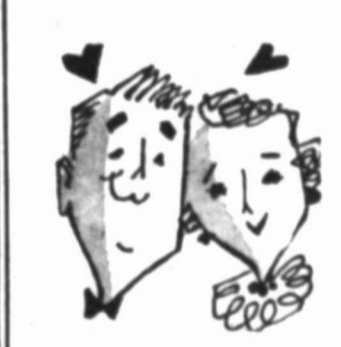

HARRISBURG, Pa. — Two labor experts, appointed as a fact-finding board by Gov. George M. Leader of Pennsylvania, today prepared to study the disputed issues in the 120-day old Westinghouse Electric Corp. strike.
Leader, backed by the governors of four other states affected by the strike, named the labor-management experts to the board yesterday just two days after the Federal Mediation and Conciliation Service quit the negotiations.
The strike has shut down 30 Westinghouse plants and idled about 55,000 workers in two unions—44,000 in the International Union of Electrical Workers (IUE) and 10,500 in the independent United Electrical Workers (UE).
The IUE said in Pittsburgh it "accepts" the fact-finding program. Westinghouse said it wants to examine details of Leader's plan before replying.
Named to the board were: Dr. George W. Taylor, Philadelphia, chairman of the War Labor Board during World War II and now a professor of industrial relations at the University of Pennsylvania. During the Korean War he served as chairman of the National Wage Stabilization Board.
David L. Cole, Paterson, N.J., attorney, former director of the Federal Mediation and Conciliation Service and ex-chairman of the New Jersey State Board of Mediation. He is presently an arbiter of jurisdictional disputes for the AFL-CIO.
Backing up Leader in the action are Governors Averell Harriman of New York, Robert Meyner of New Jersey, Abraham Ribicoff of Connecticut and William C. Marland of West Virginia. All, including Leader, are Democrats.
Leader said the board's purpose will be:
1. To investigate the facts of the dispute which erupted into a strike Oct. 17 for IUE members and eight days later spread to the UE.
2. To determine the unresolved issues of the strike "that are responsible for this long-drawn-out dispute and present them to the general public, to labor, to management, and to myself and the other governors whose states are involved and who are cooperating in this action."
Both unions went on strike to back up demands for a 15-cent hourly pay boost for workers who previously averaged \$2.10 an hour. Other issues in dispute are length of contract and company time studies.

Boy, 14, Relates Sister's Death

ST. LOUIS (AP)—Police say a remorseful 14-year-old boy has related how he accidentally suffocated his 2½-year-old sister, his favorite in a family of four children.
Patrolman Roger Spreck of the suburban Wellston police said Michael Dwyer told him last night the fatal mishap took place Friday.
The parents, Mr. and Mrs. Raymond Dwyer, had left the house Friday, with Michael in charge. They returned several hours later to find Michael gone and the child dead in her play pen.
Police yesterday found the boy wandering the streets in nearby Venice, Ill.
"Mother and Daddy left, and I cried and cried because she thought they were leaving her," Spreck quoted Michael as saying.
"So I put my hand over her mouth to quiet her, and I held my hand over her mouth for two or three minutes. When I took it away she was limp."
An inquest will be held at Clayton today, at which time it will be decided what to do with the boy.

Cold Canadian Air Enters Montana

By The Associated Press
Cold air pushed across the Canadian border into Montana today, showing temperatures below freezing in some areas.
Light snow accompanied the cold front movement, causing some drifting. Glasgow, Mont., had a reading of 6 above. Bismarck, N.D., by contrast, reported a somewhat mild 11.
Elsewhere in the nation, seasonal weather prevailed for the most part in the South while light snow flurries fell in the Great Lakes region.
Snow and rain, which plagued the Northeast in recent days, ended around midnight.

Doctor's Attempt To Hear Whale's Heart Beat Fails

SAN DIEGO, Calif. (AP)—The Pacific gray whales' heart secrets are still their own today despite three tries by Dr. Paul Dudley White, President Eisenhower's heart consultant, to get a gray whale electrocardiogram.
However, Dr. White said last night that he got information on methods that may insure success next time.
The Boston specialist and his expedition, sponsored by the National Geographic Society, invaded a favorite calving lagoon of the whales on the coast of Lower California, Mexico.
They hit one big whale with a harpoon, to which an electrode was attached. It hardly got into the blubber. Another harpoon glanced off. The electrode would have carried the heart record by wire to a water-sled telemeter.
White's previous attempts were in 1953 and 1954. He said before leaving by plane for San Francisco and Washington that no time has been set for the next try.
He says the slow heart action of the big sea mammals, averaging 30 tons each, may reveal information of value in studying human hearts.
