Plastic Shovel Goes To Work

R. L. Tollett, president of Cosden Petroleum Corporation, uses an all-plastic shovel to break ground for Cosden's new \$3 million styrene plant. Others shown are E. B. McCormick, chief engineer for Cosden; Hector Butler, project engineer for Badger Manufacturing

Company; D. C. Myers, construction superintendent for Badger; George Grimes, refinery superintendent; P. A. Seaver, project coordinator for Badger; and Dan Krausse, manager of manufacturing at Cosden.

MODERN PIONEER

Tollett Breaks Ground For Cosden's 'Boldest Venture'

Ground was broken Thursday morning on what R. L. Tollett, president of Cosden Petroleum Corporation, called "our boldest venture."

On the spot where he turned the first dirt with a plastic shovel made from styrene plastic will rise a \$3 million styrene plant.

Not only will this be the first styrene plant in West Texas, but it will employ techniques of ultra-fractionation never before utilized commercially in the manufacture of the styrene monomer.

Tollett told the Herald Thursday that he has tentatively contracted to sell the entire plant output—20,000,000 pounds annually—for the next five years. As a matter of fact, the contract would cover a demand up to 22 million.

The big plant, which will be located north of the \$2,500,000 Rex-former now under construction, will be considerably different from any other of the Cosden's extremely varied facilities. The separation processes through the ultra-fractionation of the mixed xylene stream to yield ethyl benzene will require fractionating columns up to 200 feet high.

On hand for the ground breaking of the big petro-chemical expansion were representatives of the Badger Manufacturing Company of Cambridge, Mass., contractor for the job. These included P. A. Seaver, project coordinator; Hector Butler, project engineer; and Doug C. Myers, construction superintendent. Dan Krausse, manager of manufacturing; E. B. McCormick, chief engineer; and George

Grimes, refinery superintendent, also took part. Styrene is used in clear plastics and also is one-quarter the component in synthetic rubber. Feed stock for the styrene plant, which is due for completion by Nov. 30 of this year, will come from the xylene yield of the BTX unit. With completion of the Rex-former, the Platformer will be freed of its commitment to furnish a certain amount of retining feed stocks. Consequently, the Platformer will devote all its operating time to feed preparation of aromatic stock for the BTX unit, resulting in a 30 per cent increase in production of benzene, toluene and xylene.

In addition to the styrene facility and the Rex-former, Cosden also has under way extensive modifications of its catalytic cracking unit at an estimated cost of \$935,000. This work will increase the coke burning capacity of the cracker and up its capacity from 10,500 barrels per day to 13,300 barrels.

While not a part of the plant proper, Cosden also has under way a \$1,500,000 products pipeline project to Abilene, with a spur to the Abilene Air Force Base, and a loop from the refinery to Webb AFB. Altogether, this accounts for approximately \$6 million in physical facilities now building.

Nominations Show Call Down For Texas Crude Oil

AUSTIN — Demand for Texas crude oil for April is down, purchasers indicated in nominations to the Railroad Commission yesterday.

The nominations for next month total 2,955,612 barrels per day, off 27,471 from March.

The commission's statewide prorotation hearing will be held tomorrow.

Nominations for April oil are down in eight commission districts, up in four. Nominations by districts:

- 1. Southwest Texas: 59,769 barrels per day, up 592 over March.
2. Southwest Texas: 152,293, down 1,470.
3. Gulf Coast: 441,460, up 1,646.
4. Southwest Texas: 247,745, down 2,494.
5. East Central Texas: 45,587, down 1,237.
6. East Texas (outside): 121,434, down 3,093.
7. East Texas Field: 226,067, down 3,779.
7-B. West Central Texas: 174,029, down 12,255.
7-C. West Central Texas: 190,633, up 2,177.
8. West Texas: 984,179, down 12,244.
9. North Texas: 210,050, up 5,604.
10. Panhandle: 102,406, down 918.

May Take Years For Strikers To Straighten Out Finances

PITTSBURGH — No matter how or when the prolonged Westinghouse strike finally is settled, it may be years before the average worker gets on his feet again financially.

Every day the strike rolls on now just means this "little guy" is squeezed that much harder. The best available estimate of total wages lost exceeds 100 million dollars.

On the other side of the picture, the company estimated early this month the strike had cost it about 250 million dollars worth of business. Net income dropped more than 30 million dollars in 1955 compared with the preceding year and much of the drop was attributed to the strike.

It's been nearly five months since strikers have had a paycheck; five months without a steady income. How have they managed?

"We're not living high. But we're getting along. Nobody's starving, nobody's out in the street, nobody's cold. You couldn't expect more."

That capsule comment came today from Samuel Wilkins, chief union shop steward at Westing-

house Electric Corp.'s East Pittsburgh plant, largest in the firm's far-flung system and one of 40 struck since last October.

"Anyone who has been cold or hungry or in need of medical care, we've taken care of them," said Wilkins, a fitter employed by Westinghouse for 22 years.

By "we" he meant the AFL-CIO International Union of Electrical Workers and its biggest,

most powerful Westinghouse unit, Local 601. At the start of the strike Oct. 17, the local counted some 10,000 members. In all, the IUE called out 44,000 workers.

Wilkins said he knew of no case where a Local 601 member was evicted, lost his home or had his auto repossessed—if he applied to the union for aid.

Emphasizing that it was only a

rough guess, Wilkins said he figured the union has spent about a million dollars for strike relief in the East Pittsburgh area.

In addition to union aid, all strikers are eligible for government surplus food. Some receive public assistance (state relief). Many get help from friends and relatives. Others work part-time at odd jobs. Some have had windfalls in the form of federal income tax refunds and accrued vacation pay. Many took \$100 loans from the company last Christmas.

At best, though, these are but stopgap measures providing the barest necessities. Strikers have had to use their savings and plunge deeply into debt to maintain a reasonable living standard—in spite of strictest budget economies.

Some workers have given up entirely and taken permanent jobs elsewhere. Wilkins estimates the number at East Pittsburgh at a "couple of hundred." For the most part these were younger men with less than 15 years' service. The older men are planning to go back to Westinghouse.

Westinghouse Panelists Seek Aid Of U.S. Experts

WASHINGTON — Negotiators in the tangled 151-day Westinghouse strike sought help today from government experts in solving their remaining points of dispute.

Representatives of the Westinghouse Electric Corp. and the striking International Union of Electrical Workers arranged to meet with the three-man mediation panel which drafted proposed peace terms.

The negotiators have spent the past two days putting into formal contract form those provisions already agreed upon. But they ran into snags on some points and asked the panel to reconvene to help settle them.

The major remaining difference was over 36 workers fired for alleged strike violence. The panel proposed that neutral arbitrators decide whether they should be rehired. The IUE wants local bargaining in each case to determine whether the worker should be restored to his job

Churchmen Take Tour In Moscow

MOSCOW — The 10 members of the delegation of U. S. Protestant churchmen visiting Moscow toured the palaces and ancient cathedrals of the Kremlin today. A troop of Soviet cameramen accompanied the American tourists and recorded every step of their inspection of the religious splendor of czarist days.

The delegation came to Moscow this week for conferences with Soviet clergymen, seeking to establish better understanding between U. S. and Soviet churches and common action for peace.

Archmandrite Piemen, prior of Troitse Sergievo monastery, acted as chief escort. The Kremlin churches and cathedrals now are maintained as a museum. But the archmandrite kept wandering away by himself to examine some of the exhibits more closely. He gave the impression he was as much a stranger in these places as the visitors.

After the churches, the visitors went to the Grand Palace of the Kremlin, which houses the Soviet Union's Parliament, the Supreme Soviet; and to the chambers of the czars.

Gangster's Widow Shoots Herself

FORT WORTH — Mrs. Walter George Eggleston, widow of the underworld character Tiny Eggleston, was in a critical condition today from a pistol wound in her stomach.

She told a Star-Telegram reporter she "did it" because "I'm tired." Officers found her alone in her home with the pistol at her side after detective Capt. O. R. Brown said she called him and told him to get people out of her house and to see that her daughter got "everything." Before he could reply, Brown said a shot echoed into the telephone.

Shideler said his examination disclosed a fractured skull and a large quantity of carbon monoxide content in her blood. He said the fractured skull could have been caused from the intense heat and not necessarily from a blow on the head.

He said the high carbon monoxide content indicated the woman died in the flames and was not slain before the car was set afire.

Police said they were working on the theory that the woman was possibly criminally assaulted, killed or beaten into unconsciousness and left in the car which was then set afire.

Amarillo AFB Men Listed As Killed

ST. JOHN'S, N.D. — The Air Force identified three airmen from Amarillo Air Force Base as among those killed when an Albatross aircraft crashed into the sea Monday after taking off from Argentina.

Five crew members and a Spanish passenger were killed.

The Amarillo Air Force Base men killed were Lt. Donald Nelson and S. C. Campbell and Sgt. F. A. Brown.

Ike Forces Lose Farm Bill Battle

Death In Cyprus

Suspects line a curb in the heart of Nicosia, Cyprus, behind the covered body of a British police sergeant who was shot and killed by pro-Greek terrorists. A Cypriot policeman and a Greek bystander were wounded by the gunfire which rattled through a main street of the British island colony's capital as a general strike in protest against the exiling of Archbishop Makarios continued.

BOTH PARTIES

Odds On Nixon As Ike Running Mate

WASHINGTON — President Eisenhower's statement that "I would be happy to be on any ticket" with Vice President Nixon was interpreted by senators of both parties today as foreshadowing Nixon's nomination.

"That ought to end any rumors the President might have another running mate," Sen. Mundt (R-SD) told an interviewer. He said the Republicans are now in a position to push ahead with their campaign "while the Democrats don't even know who their head man will be."

Eisenhower made the statement, and accompanied it with

Autopsy Veils Death Mystery

ALVA, Okla. — An autopsy on the charred body of a Northwestern State College coed cast a heavier veil of mystery today over the possible cause of her death.

The report of Dr. Max Shideler minimized the theory of officers that pretty Mrs. Mildred Reynolds, 22, was the victim of a murderer's assault.

Her body was found in her blazing auto on a lonely road about four miles from her home at Avard. Her husband, D. R. Reynolds, principal at the Avard High School, identified the body from jewelry and wearing apparel.

Shideler said his examination disclosed a fractured skull and a large quantity of carbon monoxide content in her blood. He said the fractured skull could have been caused from the intense heat and not necessarily from a blow on the head.

He said the high carbon monoxide content indicated the woman died in the flames and was not slain before the car was set afire.

Police said they were working on the theory that the woman was possibly criminally assaulted, killed or beaten into unconsciousness and left in the car which was then set afire.

Snow Falls In Panhandle

By The Associated Press

A light snow, mixed with a freezing drizzle, fell in the Panhandle early Thursday. The Weather Bureau said the sub-freezing temperatures would penetrate deeper into Texas.

The snow was expected to extend in the northwest part of North Central Texas. Occasional rain was predicted for the rest of the state Thursday. The Weather Bureau said the front was wearing out and that clearing skies would follow the snow.

Dalhart and Childress reported snow and freezing rain. Amarillo had light snow flurries. Light rain drizzles were reported at Lufkin, Galveston, Houston, Corpus Christi, Alice, San Antonio, Austin and College Station.

Temperatures ranged from 25 at Dalhart to 59 at Brownsville. Amarillo had 28, Lubbock 24, Abilene 48, San Antonio and Waco 50, Wichita Falls 36, Lufkin 47 and Texarkana 42.

2-Parity System Passes By 1 Vote

WASHINGTON — The administration lost a major farm bill battle by one vote today when the Senate approved, 45-44, use of a dual parity system in computing crop price supports.

The vote kept in the omnibus soil bank farm bill a provision allowing use of either an old or new parity formula, whichever is higher, in calculating the level of price supports.

Sen. Aiken (R-Vt.), who led an unsuccessful effort to strike out the section, said its retention would "be a fatal blow to our hope for a good farm bill this year."

Sen. Anderson (D-NM), former secretary of agriculture who also opposed the dual parity, said "Let's make this bill realistic so

you don't ask the man down in the White House to veto it."

But Democrats and Republicans from Western wheat states combined to engineer the administration setback.

The one-vote margin of victory was aided by Sen. Laird (D-WVa.) who was sworn in only about an hour before the roll call. He was appointed to succeed the late Sen. Kilgore (D-WVa.).

Parity is a theoretical price at which a farm product has a fair purchasing power in terms of costs of things farmers must buy.

Crops are supported at a percentage of parity, so its level determines government price supports on wheat, corn and other major crops.

A new formula for computing parity became effective this year. It raised the level for some crops and lowered it for others—among them corn and wheat.

But the Senate Agriculture Committee wrote a "dual parity" provision into the bill. This would allow farmers to use either the old or the new parity system—whichever was higher—in determining the level of price supports.

It could mean more than 10 cents a bushel on the wheat crop of nearly a billion bushels and somewhat less per bushel on the corn crop that sometimes is above three billion bushels.

Aiken, chief spokesman for the administration's farm proposals, teamed up with Senators Anderson, Holland (D-Fla.) and Williams (R-Del.) in an effort to beat this and retain only the new parity formula.

"I'm not optimistic," Aiken said earlier in an interview. "I don't think the opposition is smart in trying to get a veto, but they think they are."

Aiken, during one of several torrid verbal exchanges yesterday, cautioned that the Senate was heading the farm measure with provisions that President Eisenhower would have to veto.

"That would be attractive in an election year," Young commented.

Aiken and Sen. Humphrey (D-Minn.) figured in one of the sharpest exchanges during the long debate yesterday.

It flared when Humphrey tried to write into the bill provisions of a separate measure already passed by the Senate but deadlocked in a conference with the House.

Humphrey's proposal called for an extra 60 million dollars for the free milk program for schools and other agencies in the next 27 months, and an extra 12 million in the same period for elimination of brucellosis, a livestock disease that causes undulant fever.

The Senate unanimously adopted the addition, but not before Aiken protested it as an effort to load the bill down with favorable provisions that would make a veto highly unpopular.

British Pushing Cyprus Crackdown

NICOSIA, Cyprus — British authorities pressed their clampdown on strife-torn Cyprus today as a general strike protesting the ouster of Archbishop Makarios went into its fourth day.

The British, striving to put a tight lid on the smoldering island, arrested a close friend of Makarios, Abbot Chrysostomos, head of the wealthy Kykkos Monastery, was whisked off to an unknown destination.

Makarios, leader of the Cypriot movement for union with Greece, began his religious career at Kykkos. The monastery financed his education here and abroad.

Scattered violence spluttered again across the island. Gunmen wounded two policemen in Nicosia, the island capital where a British police sergeant was killed 24 hours earlier. Two other policemen were shot at, but their assailant missed. He was nabbed.

The new violence came on the heels of Prime Minister Eden's pledge to restore order in Cyprus before making concessions to the islanders.

Eden was bolstered by a 317-252 vote of confidence in the House of Commons last night after making clear his government intended to keep control over the Mediterranean island colony which is Brit-

ain's last bastion in the Middle East.

British troops and police sealed off with barbed wire a block of downtown Nicosia where the police sergeant was killed yesterday. The British made a thorough search for "a secret hideout for arms and possible terrorists" in the region, where nine British servicemen have been killed by backers of the union-with-Greece movement since last August.

In Lanarca a 7-year-old Greek Cypriot who with other children was stoning military vehicles was shot and killed.

Pakhna village, which refused to pay a collective fine of \$1,680 for attacking the local police station, was put under curfew until the fine was paid.

The general strike paralyzed the island's business. Only a few Turkish shops remained open. There appeared to be a further stiffening of the Greek-Cypriot determination to continue the walk-out which has caused heavy losses for merchants, laborers and clerks.

Big British military construction projects to expand the Middle East base on the island were idled by the strike.

Runaway Puts On One-Chimp Circus

NEW YORK (AP)—Mike the chimpanzee is brooding in captivity today, but he put on a 10-hour side circus on the lower East Side yesterday and last night that will be long remembered.

Mike is 5 feet tall, 5 years old, and weighs 90 pounds. Night club entertainer Frank Quinn bought him for \$500 from a Detroit zoo.

Mike arrived at Quinn's fourth-floor apartment Tuesday. Quinn gave him the run of the flat.

At noon yesterday, Mike went into action. Through an apartment window he went, showering glass and breaking his fall on the way down by grabbing onto a clothes line.

Then he scrambled up an airshaft into the third-floor apartment of Ellis Leipson, a night worker who was asleep. Leipson wakened to the sound of furniture moving and ran out into the hallway yelling: "He's in here!"

Mike, leaving the apartment a wreck, whipped past police and neighbors in the hallway and headed roofward.

A crowd had gathered below, and apparently Mike appreciates an audience. He chinned himself from ledges, made prodigious leaps from building to building in the area and spun around on TV aerials.

Back into another building he went, with his would-be captors

in full cry. In a hallway he took a painful but minor bite out of the arm of agent George Zenkewich of the American Society for the Prevention of Cruelty to Animals.

He met his Waterloo on the seventh floor of a commercial building on East 7th Street. He dashed into an unoccupied ladies room and the door was slammed shut on him.

Police got a box, braced it with a heavy jack and then cut a hole in the washroom door. Ammonia, ether pads and a foaming fire extinguisher were tossed into the room. The conglomeration finally drove Mike into the apparent safety of the box, and he was carted off in a patrol wagon to an ASPCA shelter. By then it was after 10 p.m.

Quinn was given a summons charging him with violation of the city's sanitation code.

Ex-Con Gets 99-Year Sentence For Rape

DALLAS (AP)—Ace Miles, 25, a former convict, was given a 99-year sentence yesterday after being convicted of raping a 40-year-old mother of 11 children last July. Authorities said it was as severe a sentence as any given in Dallas County in a rape case involving Negroes.

Tax Collections For City Show Gain This Year

Tax department receipts for the city in February showed an increase over February 1955 of about \$5,000.

Collections from all phases of the tax department totaled \$10,736.02 of February of this year, while a like period of 1955 brought in \$5,479.37 or a difference of \$5,256.65.

Biggest gain was in current taxes. A total of \$9,867.13 was collected this year as against \$3,557.41 in February of 1955. Delinquent taxes totaled \$394.43 for the month and occupation taxes brought in \$119.50.

Tax collections for 11 months of the fiscal year—April 1 through Feb. 29—were \$34,105.68 and at the same stage of the game last year, the figure was \$287,235.64 or \$46,870.04 less than this year.

Big Spring used 81,059,600 gallons of water during the month, which is 1,078,500 gallons more than the city used during January. Also it was an increase of 10,311,700 gallons over February, 1955.

Water and sewer charges were \$51,979.80 with the receipts being \$28,586 more than were collected in January.

General fund receipts included \$252 from electrical permits, \$259 from building permits, \$3,105 from fines and court costs, \$5,204.03 from gas franchise, \$130 from auditorium rental, \$125 from fishing permits, and \$90 from peddler registration fees.

Receipts from the golf course included \$85.50 from nine-hole green fees, \$18.75 from 18-hole fees, \$57.50 from monthly golf cards, and \$235 for rental on buildings.

Parking meter collections amounted to \$4,306.31.

The report from the police department showed 1,220 tickets were issued for all types of offenses.

Fines of \$2,657 were assessed against 117 drunks, and 37 vagrancy charges meant \$501 in fines. Six were fined \$170 for disturbance and four affray offenses cost \$140.

No drivers license cases numbered 15 and fines from these totaled \$260. There were 64 moving violations, and \$591 in fines were assessed.

Parking tickets—1,333 of them—were handed at the police window.

Chamber Asks Girlstown Aid

LEVELLAND (AP)—State and South Plains junior chambers of commerce were urged yesterday by the Levelland Junior Chamber of Commerce to support a "Save Girlstown" campaign.

Charlie Bird, president of the Levelland group, said the idea is to keep Girlstown "as it is" and prevent it from being put under state control or closed.

He said the campaign was not necessarily an endorsement of the founder and director, Miss Amelia Anthony, but that the Jaycees did not want to see the ranch for neglected girls to be abolished as result of the current state investigation.

The state Welfare Department has conducted a hearing after saying it planned to revoke Girlstown's license.

Biology, Chemistry Hold Attractions

WASHINGTON (AP)—Greta Oppe, head of the science department of Ball High School at Galveston, where two years of science are required, estimated today that out of Ball's 1,000 students 500 take biology this year and nearly 200 take chemistry—although fewer than 100 take physics.

Miss Oppe is attending the convention of the National Science Teachers Assn. and joined in an interview about the nation's future supply of scientists.

"Emphasis is on mathematics scores a good many off from physics who might otherwise enroll because of their interest in physical principals," Miss Oppe said.

Burglary Suspect Is Freed On Bond

Stanley Wesley Griffin, charged with burglary, posted \$1,000 bond and was released from county jail Wednesday.

He is charged jointly with Burke Plant Jr. and an unnamed juvenile in connection with a break-in at Big Spring. Plant is also at liberty on \$1,000 bond.

Plan Research Into Religious Drives

NEW YORK (AP)—The Synagogue Council of America is planning a research project "designed to explore people's underlying religious motivations." It is described as the first scientific inquiry ever attempted into basic factors which turn individuals toward—or away from—the active worship of God.

To Name Officers

STANTON — Nominating committees has been named to propose new officers for the Stanton Lions Club. On the committee are Finley Rhodes, chairman, Weldon Martin, L. M. Hays, and Dr. R. M. Delman. The club also is planning for presentation of a hydraulic lift to the Martin County Memorial Hospital.

Ike Hints New Look At Mid-East Policy

WASHINGTON (AP)—President Eisenhower has provided fresh evidence that his administration is taking a critical new look at the whole range of its Arab-Israeli policies.

He told a news conference yesterday that neither he nor Secretary of State Dulles had ever said "that we would not furnish arms to Israel." But he added that "we were hoping for a better solution."

His use of the past tense renewed speculation that eventually the administration may decide to let the Israelis buy at least part of the 63 million dollars worth of weapons which they are seeking. The Israelis submitted the request in November, saying they want to offset the purchase of Soviet bloc arms by Egypt.

It was learned that the request is under active study now after being on the shelf for months while Eisenhower and Dulles emphasized a policy of avoiding an arms race with the Soviets in the Middle East.

State Department officials said that until now there has been no actual change in American policy on the Middle East. It was learned last weekend, however, that the United States is re-studying relations with Egypt in the light of Cairo's increasingly strong anti-Israeli moves.

The United States reportedly has not been averse to Egypt's Arab bloc leadership but has hoped it would stress the possibilities of peace rather than emphasizing Arab enmity toward Israel.

(The New York Times in a dispatch from Washington reported that the United States is drawing up proposals for a watchdog U.N. commission to rove through Israel and the Arab states. The Times said the commission would alert the Security Council to any threat of war or aggression in the Middle East and recommend action to maintain or restore peace. The U.N. set up such a commission in Greece in 1947 when that nation was threatened by Communist guerrillas supported by her Soviet bloc neighbors.)

Girl Dies After Eating Bottle Of Laxative Pills

POTTSTOWN, Pa. (AP)—A 4-year-old girl died last night of poisoning said by authorities at Pottstown Hospital to have resulted from swallowing half the contents of a bottle of laxative pills.

The girl, Patricia Dudley, was given the pills a week before by an aunt, Rose Mars, 8, while the two children were playing at the Mars' home. Authorities said the girls thought the bottle contained candy pills.

The dead girl had been treated at the hospital and discharged Tuesday. Yesterday she had a convulsion and was readmitted.

Dulles Arrives In Manila On Journey Home

MANILA (AP)—Secretary of State Dulles arrived here today for an overnight stop in the Philippines en route home from the SEATO conference in Karachi.

Dulles was to confer with President Ramon Magsaysay later today and to attend a state dinner tonight.

In a statement at the airport, the secretary paid tribute to Magsaysay for drafting the Pacific Charter adopted in Manila when the Southeast Asia Treaty Organization was formed in September 1954.

Dulles said the charter had "become a moving force toward further achievement for Asia of the independence of which the Philippine Republic is so ardent a champion."

The pact provided the right of self-determination for Asian peoples. It was also aimed at repelling any aggression against the soil of the United States, Britain, France, Australia, New Zealand, Thailand, Pakistan and the Philippines.

Dulles, who will stop next at Formosa, came here from Saigon conferences with President Ngo Dinh Diem of South Viet Nam.

Reliable sources said the secretary was convinced after his talk that there will be no renewal of war in Indochina even if elections to unite North and South Viet Nam are not held in July.

Houston Man Found Guilty Of Murder

HOUSTON (AP)—Eugene Phillips was sentenced to 35 years on yesterday for the murder of his wife Oct. 23. Witnesses said Phillips gave his wife permission to go dancing with friends. They testified he then took his son, Jerry, to his mother-in-law's home, and waited with a borrowed pistol under the bed in his home for his wife to return from the dance.

A-To-Z Allergies Keep Boy, 8, In Constant Rash

TULSA, Okla. (AP)—Life is full of temptations for 8-year-old Rickie Reynolds, whose allergies range from A to Z.

Like most youngsters, he has cravings for chocolates, fruits and pet animals but he can't have them. When he judges and eats something he shouldn't he develops a headache, an itch, a wheeze, a cough or a runaway nose.

"Rickie is allergic to just about everything God put on this good earth," said his mother Mrs. Pierce James Reynolds.

He can't stand feathers or hair, so his pets are a pair of goldfish. A robust third-grader, Rickie has to weigh his playing against the consequences. When he runs and breathes faster he inhales dust and pollen which set off reactions. The lad is unable to swim in pools treated with chlorine.

Mrs. Reynolds said his allergies change from time to time and as a result he was given 87 test injections last year to discover whether he had developed any new ones.

His body apparently builds up immunity to certain drugs and about ten new medicines are substituted, she said.

Every day Rickie is dosed with pills, ointments and a vitamin capsule to counteract his multitude of allergies.

He washes with special soap which costs 40 cents a cake. He gets two inoculations every Saturday.

Fresh milk, pillows, starch in his trousers, one type of sulfa drug, flannel clothes and rugs are a few of the things taboo with Rickie.

Doctors have told the family Rickie's allergy encompasses 65 per cent of his blood cells.

there's a secret

...to making good coffee!

...and the secret is MARYLAND CLUB! For no matter what strength you like your coffee... mild, medium or strong... you can't make a really good cup unless you use a coffee that's rich in flavor. And rich flavor comes only from rich coffee... the kind that actually costs more... the kind you enjoy in every cup of MARYLAND CLUB, the world's richest flavor in coffee! Also, because of this extra flavor richness, you use much less coffee per cup when you make it with MARYLAND CLUB than with a less-flavorful brand... so, actually, MARYLAND CLUB costs you no more, cup for cup! Why serve your family and friends "just any" coffee when, for just a penny or so more, you can serve them the very best... MARYLAND CLUB!

Try it, in either vacuum-pack or instant... you'll be proud that you did.

Measure Maryland Club against all other coffees!

Measure MARYLAND CLUB, either vacuum or instant, against any other coffee. Measure its richer flavor... its more cups per can or jar... its true cost. Here's what you'll discover... because with MARYLAND CLUB you actually can use less coffee per cup than with less-flavorful brands. And no other coffee offers you so much real flavor satisfaction. For MARYLAND CLUB is not "just another" coffee... it's a celebrated blend of the world's finest coffees. Try it, and you'll agree... measure for measure, MARYLAND CLUB is matched by none!

The coffee you'd drink if you owned all the coffee in the world!

WHITE'S Springtime VALUES!

\$50⁰⁰ Trade-in Allowance for your old range — regardless of age or condition when purchasing this Beautiful New 1956 Catalina

Regular \$229.95
White's Springtime Value Special **179⁹⁵**
now with your old range!

- Just look at these Sensational Cooking Features:
- 2 convenient simmer burners
 - Electric clock
 - Glass oven window
 - 4-hour time reminder
 - Fluorescent lamp
 - 2 big storage compartments
- Listed above are only a few of the many value-plus features to be found in this magnificent new 1956 Catalina Gas Range. This sensational new model fits all the requirements modern housewives desire. It's beautifully trimmed, finished in acid-resisting Titanium porcelain enamel. Now at a NEW LOW PRICE.

USE WHITE'S PERSONALIZED CREDIT TERMS!

Price Cut! Big 17.2 cu. ft. Revco custom-designed food freezer with 5-year food spoilage warranty!

by Jess Blair

The new agriculture teacher at Coahoma High School is Harry Middleton, who was appointed to the position after the death of Wayne White.

Middleton is a native of Big Spring. He graduated from Texas Tech in 1954 and has taught some of the classes in the veterans' agricultural program. During the last few years he has also been ranching, and still has a small herd of cattle on a ranch near Vealmore.

A time or two we have said Howard County would never amount to much as an irrigated area. This may be partly wrong, because some good wells are being drilled in the Lomax community.

Lawrence Atkins is irrigating with a new 525-gallon well. He will irrigate 76 acres of new cotton land and has already nearly covered it the first time. He said he might try some commercial fertilizer on it.

He recently acidized the two little wells he had been using. It not only doubled the output of one, but was a kiss-of-death to the other. The well stopped pumping altogether. He then circulated water through it for two days and brought it back somewhat, but it still hasn't reached the normal flow.

Just north of Atkins' new well there is a 900-gallon well on the Bob Eberley place. It will be operated by J. D. Henderson. They have laid an eight-inch steel pipe to the center of the field from there the sprinkler pipe will be attached so the water can be rotated to any part of the field.

One of the pioneers in the caged-egg project of this area is F. W. Burkholder of Coahoma. He built a poultry house in 1953 alongside that of a Mr. Jenkins, who was then agriculture teacher at Coahoma. Later Jenkins moved to El Paso, and Burkholder took over both houses.

He says that poultrymen who went in back then made their share of mistakes and they were all costly.

"I didn't make any money until this year," he said. "We let diseases get into our flocks and we knew nothing about chickens. Most of us had to learn by experience." Burkholder says it costs from \$2 to \$2.25 to get a baby chick up to the laying age. If she keeps laying for a year, she will show a profit. But if something happens and she stops in a few months, the owner loses money.

Burkholder spends about three or four hours a day tending his 900 hens. He is building another house now to raise the chicks to laying size. The ones he buys are the finest strain available and cost about 60 cents each at one day old. "The market has been good since last summer," he said, "but the egg business goes up and down every two years. I doubt if 1956 will equal 1955. This last year eggs didn't get as high as predicted, so this year they may not get as low as some people expect."

At the local livestock show Tuesday afternoon, two of the smaller boys were washing and trimming a lamb. One of the boys kept scolding the other for using too much water. "But we gotta use water to get

Lake Water Levels Holding Good Despite High Winds

March winds are hard on lake reserves but levels are holding comparatively well in this vicinity. Figures this week show that Lake J. B. Thomas, the reservoir for the Colorado River Municipal Water District, is at elevation 2,252.71. This put it about three feet under the peak of 2,255.75 reached on Oct. 7, 1955, and within five and a quarter feet of the spillway level.

Lake Colorado City, the Texas Electric Service reservoir on Morgan Creek, is at elevation 2,064.50, or five and a half feet from spillway level. Powell Creek, one of two lakes impounded in southeast Howard County by the City of Big Spring, now stands at 17 feet and 8 inches. This is five and half feet below

Elks Nominate Officer Slate

New officers for the Big Spring Elks Lodge will be elected March 27.

Nominees were picked for the various offices at the lodge meeting Tuesday night. Elks also inducted Elliott Yell as a new member and granted a transfer of Jack Conley's membership to Wichita Falls. A letter from Charles C. Bowie, Elks' state chairman for youth activities, complimenting the local lodge on its youth leadership program, was read at the meeting.

Officer nominees selected include C. C. Ryan Jr. and Glen Gale for exalted ruler, M. T. Kuykendall for leading knight, Jack Taylor for loyal knight, L. D. Cobb and Jasper Atkins for lecturing knight, R. H. Snider for tiler, R. L. Heith for secretary, Bart Wilkinson for treasurer, and Oliver Cofer for five-year trustee. Cofer and Bill Ragsdale were nominated as alternate representatives to the grand lodge.

Nominations and other business activities followed a barbecued pork chop dinner.

Hats Off—Cap Back In High Fashion Again

NEW YORK (AP)—Hats off to the cap, men—it's back again. And in high style too.

This ancient form of head covering, worn for centuries in one form or another, had all but followed the handmade nickel cigar into oblivion.

A nifty new type of cap, called the "Ivy League" because of its first popularity on Ivy League college campuses, turned the trick.

This one is a neat, trim, jaunty little item which doesn't overhang in the back or drape over the sides. It has a single-piece top and short visor. It fits snugly over the top of the head.

Manufacturers are doing headstands of delight over its success.

"Business is going up terrifically," said a spokesman for one large concern today.

"It's one of the biggest changes in the hat business in years," said Bernard L. Salesky, president of the giant Hat Corp. of America.

"Our guess, based on present sales, is that it will be one of the most important developments in the men's apparel industry since President Eisenhower decided to wear a Homburg instead of a silk topper at his inauguration."

Airman's Buddies Help Sick Mother

LIVERMORE, Calif. (AP)—All 30 men in a rookie airman's training flight at Parks Air Force Base have volunteered blood for his sick mother.

The airman is Robert Harvey, 17, of Richmond, Calif.

Twenty-two pints of blood were needed for a stomach ulcer operation for his mother Mrs. Edna Harvey, who was stricken five weeks ago.

The Air Force said the 36 men would make their donations tomorrow.

Congressional Poll Of A Different Stripe

WASHINGTON (AP)—A congressional poll of a different stripe—the barber poll—was initiated by Rep. Russell V. Mack (R-Wash) today. Asserting that he knows of "no one who has his ear closer to grass roots public opinion than the barber," Mack asked the 236 barbers in his southwest Washington state district for opinions on current issues.

Scientists Leave Solons Bedazzled

WASHINGTON, March 15 (AP)—Scientists who will send man-made moons whizzing around the earth at 18,000 miles an hour have told Congress:

That plans now call for 12 of the satellites, each 20 to 30 inches in diameter. Some may fizzle before they take off, and certainly they all won't be circling the earth into oblivion.

That at least one expert, Joseph Kaplan, looks on the international rocket program "as perhaps the greatest new scientific effort we have had since the invention of the telescope."

That the earth, like a congressman, tends to bulge about the middle. The satellites, filled with delicate instruments that will send back data by radio, will give clues on how big that bulge is, as well as supply information on atmospheric mysteries as high as 800 miles up.

The scientists gave their views last week to a House Appropriations subcommittee that will have to pass on the \$19,262,000 project will cost. Their testimony was made public today.

Congressmen often like to argue with witnesses, but they seemed remarkably docile with the scientists around.

For example, Dr. Richard W. Porter, who is chairman of satellite technical panel, was explaining how you'd probably need binoculars to see the thing.

"I think," Porter said, "the chance of a person seeing it with his naked eye is not very great."

"If you do not mind my using a little equation," Porter said, and he stepped to a blackboard to write a formula that went something like this:

$$m \times \text{times } r \text{ squared over } r \text{ is equal to } m \times \text{times } r \text{ squared over } r \text{ squared.}$$

The silence that greeted this equation was bipartisan.

The plans now call for launching the satellites during the International Geophysical Year that begins July 1, 1957.

Have there been complaints from countries it will fly over? Quite the contrary, Porter said. He said he had been to an international meeting in Germany, and "the only complaint I heard was from those countries over which it did not go, because they wanted to have a look at the thing."

Well, the talk drifted along, and finally Rep. John Phillips (R-Calif) asked:

"What happens when it falls down?"

Porter explained how it would race madly around the world for weeks, maybe months, but as it comes down into a thicker atmosphere the friction will burn it "into

Fire Destroys Mental Hospital

FULTON, Mo. (AP)—A spectacular fire destroyed most of the 105-year-old administration building at the state mental hospital here early today, doing millions of dollars worth of damage.

Seven hundred and twenty patients were evacuated from patient wings, parts of which also went up in flames.

Miss Ponda Farris, a staff member who lived in the administration building, suffered a cut or burn on one foot, but there were no reports of other injuries.

At the height of the blaze it could be seen for 10 miles and the glow was visible in Jefferson City, state capital 25 miles to the south.

Clarence Burton, engineer and fire chief at the hospital, said he did not know how the blaze started. He added, however, that the electrical wiring in the building was in "bad shape."

C. Rouss Gallop, state director of public health and welfare, and B. E. Ragland, Director of the Division of Mental Diseases, estimated it will take three million dollars to replace the damaged building.

Body Of Mussolini's Sweetheart Exhumed

MILAN, Italy (AP)—The body of Claretta Petacci, Mussolini's mistress who died with the dictator at the hands of Italian partisans, was exhumed last night from its Milan grave and turned over to her family.

It reportedly was being shipped to Rome for reburial there.

Miss Petacci was shot with Mussolini on April 28, 1945. The partisans hanged the pair by their heels in a Milan square.

The government has kept Mussolini's burial place secret for fear Fascists might make a shrine of it.

"She is a real trouper," Caesar said. "Everyone on the show joins me in wishing for Nan all the success she so richly deserves."

Miss Fabray said she and Caesar "shed some tears at rehearsal" yesterday. The attractive 33-year-old brunette will leave the show in June.

Miss Fabray, who said she and Caesar "were apart on many phases of the contract," said she was making plans of her own for next year. She did not elaborate.

Girls Admit Burglary

Two girls, one of whom is 14 years old and married, have confessed to A. E. Long, county juvenile officer, and Lindy Oldfield, city police officer, to breaking into a residence at 1704 Johnson.

The other girl, aged 15, is from Lubbock.

The two girls are accused of having forced a window on the residence, which is occupied by a sister of one of the two, and stealing a piggy bank containing between \$25 and \$30.

The girls told Long and Oldfield they broke open the bank and spent the money.

The burglary occurred on Monday and the two girls were arrested on Tuesday afternoon.

They are being held for juvenile court action.

Relieve Bladder Irritations—Get Comfortable Again

Such a common thing as unwise eating or drinking may be a source of mild, but annoying bladder irritations—making you feel restless, tense, and uncomfortable. And if restful nights, with nagging backache, headache or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills.

Doan's Pills have three outstanding advantages—act in three ways for your speedy return to comfort. 1—They have an easing soothing effect on bladder irritations. 2—Act pain-relieving action on nagging backache, headache, muscular aches and pains. 3—A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 15 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. Get Doan's Pills today.

ROBERT LOMAX AND CHAMPION STEER
Exhibitor also had grand champion lamb.

TWO GRAND CHAMPIONS

Robert Lomax Grabs Most Of Honors At County Stock Show

By SAM BLACKBURN
Wednesday was really Robert Lomax day even though the official caption called it judging day for the 19th annual Howard County 4-H and FA Fat Stock Show.

The Lomax expert won the grand championship of the show in the lamb division, grand championship in steer division, first place in heavy weight steers; first place in light weight capons and first place in light weight lambs.

In addition to these awards, he also won second honors as lamb showman.

Of course, there was really nothing new in Robert's victories. He has been a consistent winner in shows for several years. His most recent out-of-town victories were last week in San Angelo where he showed the reserve grand champion steer and brought home honors as top steer showman of that exposition.

His victory on Wednesday at the Howard County show was not as easy as it appears in words. The competition was keen and the entry list large. He scored his steer championship over a field of 18; his lamb championship was in competition with 150 other young showmen and his other victories were in equally crowded fields.

Rodney Brooks, whose light weight steer was tops in its class, won the coveted steer showman-

ship honors. Wanda Boatler was second and Joyce Robinson third. Kenneth Duffer was top showman in the capon division. Lonnie Anderson, whose bird had won the grand championship, was second and Hugh Covert, who placed eighth in the light weight capon competition, was rated as third in showmanship.

Don White showed the reserve grand champion of the capon division.

Lamb division winners of top money were Darrell Robinson, who won championship honors in the heavy fine wool lamb competition; Jack Burkholder, championship in the light fine wool division; Ronnie Burks, championship in cross-bred lambs; Billy Spears, championship in Southdown Cross Bred Lambs; Jessie Overton, championship, heavy Southdown lambs and Lomax, championship in light weight Southdown event.

Reserve champion of the lamb competition was shown by George Lowke. Lowke's entry had placed second in the light weight Southdown contest.

Mac Robinson was top lamb showman. Lomax placed second and Jessie Overton third.

Calvin Holcombe, Tulia, judge of the steer division, had his hands full with the quality animals before him.

Results of the steer judging: Heavy weight — Robert Lomax, Wanda Boatler, Melvin Fryar, Jerry Iden, Zena Kay Robinson and Patricia Iden.

Middle weight — Joyce Robinson, Mac Robinson, Royce Hill, Judy Brooks, Jimmy Sherrod, and Charles Harrington.

Light weight — Rodney Brooks, Martha Robinson, Mac Robinson, Delroy Buchanan, Sammy Buchanan and Johnny Sherrod.

Tonight's big event—the auction sale of championship animals in the arena at the show barns—will

bring the 1956 edition of the exposition to a close.

Jimmy Taylor, show superintendent, urged all Big Spring residents to attend the sale. Starting at 7:30 p.m. in the Howard County Fair Association plant south of the Rodeo bowl, the sale is scheduled to ring down the curtain on this season's show activities for Howard County 4-H Clubbers and FFA members.

Walter Britten, College Station, will be the auctioneer.

Caesar Was A 'Pagan'—So, No Holiday

ROME (AP)—Julius Caesar received another unkind cut today—Rome refused to celebrate his Ides of March as the 2,000th anniversary of his death.

Some scholars argue this is only the 1,999th anniversary of the day Brutus and the conspirators plunged their daggers into Caesar at the foot of Pompey's statue.

An official at Rome's City Hall conceded "this is the bimillenary" but said the city isn't celebrating.

"We celebrate the deaths of saints, not of pagans," he explained.

However, a green wreath did decorate the brow of his bronze statue which gazes across Rome's broad Via Dei Fori Imperiali—Street of the Imperial Forum. At its feet was a bouquet of red and white carnations.

Italy President Sees Need For Friendship

NEW YORK (AP)—Italian President Giovanni Gronchi says his visit to this country "has confirmed my deep conviction that friendship with the United States must be strengthened and maintained in all its aspects" through the North Atlantic Treaty Organization. Gronchi left by plane yesterday for his homeland.

San Angelo Taxicab Pioneer Is Killed

SAN ANGELO (AP)—A man who started a taxicab business here with a one-horse hack in 1900, Will Lawson, 73, was killed 20 miles west of here yesterday. His car struck an abutment.

Man In Moon Will Be Real

LOS ANGELES (AP)—There may be a real man in the moon within 10 years, says a noted astrophysicist.

Space travel to the moon on free fuel is possible, in the opinion of Dr. Fritz Zwicky, if 10 million dollars is made available for research and for construction of a rocket ship.

The California Institute of Technology professor told a news-conference yesterday that such a ship could travel indefinitely on power collected as it rushes along far above the earth.

Fragments of molecules could be scooped up by the ship while speeding through space, Dr. Zwicky said. These fragments could be held inert by extreme cold and then heated to release tremendous energy.

Former C-Citizen Dies At Odessa

COLORADO CITY — John McCordie, 36, formerly of Colorado City, died about seven o'clock Tuesday evening in the Odessa Medical Center as a result of a fall from an oil rig on Dec. 15.

Funeral services for McCordie were to be conducted in Odessa at 4 p.m. Thursday. Burial was to be in Odessa cemetery.

McCordie, a resident of Odessa for several years, had been hospitalized since the accident. He was born in Colorado City and married Fay Smith of this city.

He is survived by his wife, his mother, Mrs. H. F. McCordie of Colorado City, three brothers, Jack, of Sweetwater, Jimmie, of Alaska, and Harlan, of New York; and five sisters, Miss Virginia McCordie, of San Antonio, Mrs. Bill Oyler, of Colorado City, Miss Frances McCordie, of Washington, D. C., Mrs. Alice Rogers, of Amarillo, and Mrs. Floyd Pond, of Monahans.

Meeting Postponed

Howard County Junior College trustees have postponed the regular meeting, scheduled for 5:15 p.m. today, until Tuesday at the same hour.

Several members of the board are engaged in the First Methodist Church finance campaign, which is having its loyalty dinner affair this evening.

Blanco Spots Wildcat Test 7 Miles Northeast Of Lamesa

A wildcat venture has been staked in northeastern Dawson County as Blanco Oil Company's No. 1 Middleton. The venture will be drilled about seven miles northeast of Sterling City.

The depth will be 9,000 feet with rotary equipment. Meanwhile, another wildcat—this one in Sterling County—has been abandoned. It is Sun No. 1 J. F. Ellwood about 13 miles northeast of Sterling City.

The venture was started Jan. 1 and was drilled to 1,200 feet before being plugged and abandoned. Continental has staked another location in Howard County as the No. 2 Belle Overton. It is about three miles northwest of Forsan and will be drilled to 2,600 feet. It is in the Howard-Glasscock field.

Borden Kernaghan and Smith No. 1 Lemmon will be drilled 1,900 feet from north and west lines, 517-97. H&TC Survey on a 120-acre tract two miles northwest of Fluvanna. The location is in the Fluvanna field and will be drilled to 8,500 feet with rotary tools.

Southern California No. 4 J. Jones, C SE NW, 421-97, H&TC Survey, is waiting on cement. Seaboard No. 1-33 Good has deepened to 8,226 feet in shale. Site is C SE SE, 33-33-4n. T&P Survey.

Tennessee No. 1 Thomas is shut in. It is C SW NE, 7-33-3n, T&P Survey. Tennessee No. 1 Cluck is drilled at 1,275 feet in redbeds. Site is 1,980 feet from south and east lines, 7-33-3n, T&P Survey.

Southland No. 1 Dorward, C NW NW NW, 1-32-5n, T&P Survey, is waiting on orders. Texas Pacific No. 1-B Johnson swabbed 18 barrels of oil and 204 barrels of salt water in 17 hours. Operator is now waiting on orders. Site is C SW NW, 7-32-5n, T&P Survey in the Pot Luck field.

Few Quality For Mail Delivery In New Areas

Most residents on Purdue, Harvard, Yale, Kentucky Way and Morrison Streets apparently aren't interested in the mail delivery service proposed for the new areas in east Big Spring.

Only two have installed suitable mailboxes at their curbs, the post office reported. Truck delivery service has been authorized for the new streets. The Post Office Department specified that rural-type mail boxes must be installed at the curb by at least 50 per cent of the residents before the service could be started, however.

Several residents have put up porch-type boxes, but only two houses have installed the rural boxes which protect mail from winds and other adverse weather. Delivery was approved by the Post Office Department subject to the following conditions:

- 1. Mail boxes be of the rural type.
2. Boxes be erected at the curb about 40 inches from the street.
3. At least 50 per cent of the patrons must meet the box requirements.

In the past, the Post Office Department has been the decision of the local postmaster as to what type of boxes should be erected, but due to high winds, there have been many complaints regarding mail being blown out of porch-type boxes and on occasions being damaged by rain.

Postmaster E. Boatler wrote many of the potential patrons. "It has been decided it is not advisable to deliver mail to this type (porch) box. At this time of year, many people are receiving checks for refunds on income taxes and some of these checks have been lost and never been found."

"It will not be possible to start delivery on the new streets until the above mentioned conditions have been met on all streets," the postmaster said. Any questions should be directed to Boatler at Telephone 4-7511.

HOSPITAL NOTES

BIG SPRING HOSPITAL Admissions — Frank Morgan, 1004 E. 14th; Mrs. W. L. McCollister, Box 885; Margaret Carr, 701 E. 16th; June Lovelace, 1900 Morrison Drive; Doris Randall, Box 1665; Johnny Kay Parker, 1907 N. Monticello; Helen Wise, 601 Steakley; Lee Lemon, Box 197, Ackerly. Dismissals — Nora Cummings, 204 W. 14th; Ophelia Hilario, 671 NW 7th; Effie Teeter, 211 W. 5th; E. G. Tate, 611 Holbert; L. B. Mauldin, 1517 Tuscum; E. J. Eggleston, 406 Gregg; C. R. Cooper, 1206 Pickens; Mrs. Loy Smith, 505 Bell.

700 Cattle Auctioned

An unusually large run of stock occurred at the Big Spring Livestock Auction Company's sale Wednesday, when 700 cattle and 75 hogs were paraded before the buyers.

The market remained steady in practically all lines. Cows sold from 8.00 to 12.00, fat butcher calves and yearlings for 15.00 to 17.50. Cows beside calves for 95.00 to 125.00, stocker steer calves up to 17.00, heifer calves up to 16.00 and hogs up to 12.75.

Continental No. 20 Overton will be located 323 feet from north and 2,210 feet from east lines, 5-32-2n, T&P Survey about three miles northwest of Forsan. It will be drilled to 2,600 feet with rotary tools.

Phillips No. 2 Satterwhite has deepened to 9,560 feet. It is C SE NE, 12-32-1n, T&P Survey.

Warren No. 1 Flynn is drilling past 10,410 feet in lime and shale. Site is C SE SE, Labor 8, League 249, Hartley CSL Survey.

Standline No. 1 Lindsey progressed to 508 feet in redbeds and is now shut down for repairs. It is 2,080 feet from north and 660 feet from east lines, 16-38-1n, T&P Survey.

Pearson-Siebert No. 1 Foster set seven-inch casing at 3,032 feet with 105 sacks of cement and is now waiting on the cement to harden. Site is C SE SE SE, 44-29-1n, T&P Survey.

Sun No. 1 Ellwood has been plugged and abandoned at 8,000 feet in dolomite. Site of the wildcat is C NE NE, 10-2, H&TC Survey and about 13 miles northeast of Sterling City.

Sun No. 1-B Stinger has deepened to 1,877 feet in lime and shale after taking drillstem test. The test was from 1,470-52 feet using a 3/4 by 1/2-inch choke. Tool was open two hours, and the test recovered 1,080 feet of salty sulphur water. Site is 330 feet from north and east lines, 14-11, SCRR Survey.

Sun No. 1-C Bryans will be located 1,980 feet from south and east lines, 8-36-5n, T&P Survey. The amended location is about 22 miles southwest of Garden City and will be drilled to 6,500 feet with cable to plug back.

Sohio No. 1-B Bryans in the Spraberry Trend (Clear Fork) field will be located 1,980 feet from south and east lines, 5-36-5n, T&P Survey. Likewise, it will be cleaned up to 6,300 feet with cable tools to plug back.

Sohio No. 2-A Bigby is an amended location 23 miles southwest of Garden City and 4,980 feet from north and west lines, 16-36-4n, T&P Survey.

E. M. Newton, Resident Here 50 Years, Dies

Funeral services will be conducted at 2:30 p.m. Sunday for Emsey Milton Newton, 76, longtime Howard County resident who died Wednesday while on a visit to California.

Place for the services will be announced by River Funeral Home which is to be in charge of interment at the City Cemetery.

Mr. Newton was born Aug. 4, 1879, in Mount Vernon, Texas. He had lived in Howard County since 1906. He was engaged in farming for many years.

He was married March 7 to his third wife, the former Mrs. Bertha Denmon, in Lovington, N. M. The couple was on a visit with his daughter, Mrs. Alta Warren, in Farmersville, Calif., when he died at 9:15 a.m. Wednesday.

Survivors include Mrs. Newton, six sons, Howard, Milton, Mack, Lester, Marion and Troy Newton, all of Big Spring; two daughters, Mrs. Warren and Mrs. G. C. Broughton of Big Spring; two stepsons, Floyd White of Lubbock and Elmer White of Big Spring; one step-daughter, Mrs. Opal Wooten of Big Spring; two brothers, J. M. Newton of Bay City and W. H. Newton of Harlingen; 23 grandchildren and 11 great-grandchildren.

Mr. Newton was a Methodist and member of the Woodmen of the World. His first wife, Mrs. Jewell Newton, died July 4, 1929, and his second wife, Mrs. Zora Newton, died in April, 1947. One daughter also is deceased.

Kefauver Lashes Party For Endorsing Of Adlai

Farmer-Labor party for its endorsement of Adlai Stevenson in the state's presidential primary Tuesday.

"Outside of those in Minnesota, I've done more for the DFL cause than anyone else," Kefauver told an audience of about 700 here. "I came to Minnesota in 1952 on behalf of the DFL candidates."

"But when they gathered and selected the other candidate (Stevenson), I wasn't given a hearing or an invitation."

It was the first time he had assailed the DFL in his campaign swing through Minnesota. It was believed inspired by the fact that Ray Hemenway, state DFL chairman, Tuesday ruled against a joint appearance by Kefauver and Stevenson at a celebration in Moorhead Saturday afternoon.

Scout Expansion Plans Approved

Preparations for organization of at least seven new scout units in the Lone Star District were made at a meeting of the executive and the organization and extension committees Wednesday evening.

Teams accepted the responsibility of making contacts on some 15 prospective institutions. They will be asked to consider sponsorship of either a Cub Pack, Boy Scout troop, or an Explorer post, and in some cases at least two of the three types of units.

John Taylor, vice chairman of the district, accepted chairmanship of the special project, which will be completed within a period of six weeks, if possible. Cliff Fisher, organization and extension chairman, said that initial contacts were to be made by March 26. The meeting was held in the office of A. C. LaCroix, district chairman, at the T&P building.

Oil, Gas Transactions

ROYALTY DEEDS E. G. Keston to J. O. McCarty, Sec. 27, Block 22, Township 1-South, T&P Survey. Arnold Lloyd to W. C. Stovall, west 1/2 of Section 48, Block 23, Sec. 27, Township 1-South, T&P Survey.

WARRANTY DEEDS Wayne W. Miller et al to Fox Stripling, part of northwest quarter of Section 6, Block 22, Township 1-South, T&P Survey.

NEW AUTOMOBILES Wayne W. Ques, 196 E. 2nd Oldsmobile. Mrs. J. B. Braden, 113 E. 2nd Oldsmobile. C. L. Cook, 1960 Oldsmobile. Mrs. T. H. McCann, 1955 Oldsmobile. James E. Feltz, Jr., 1951 Oldsmobile. Ralph Fox, 1954 Oldsmobile. Ralph Fox, 1951 Oldsmobile. James H. Chandler, 1955 Oldsmobile.

WALL STREET NEW YORK (AP) — The stock market opened higher today, with the Dow Jones Industrial Average up 10.38 points to 1,000.00.

MARKETS COTTON NEW YORK (AP) — Cotton was 25 cents a bale higher, 17 1/2 lower, 50 1/2. NEW YORK (AP) — Cattle 1.10; sheep 5.00; hogs 11.00.

THE WEATHER FORECAST NORTH CENTRAL TEXAS—Occasional rain this afternoon, becoming partly cloudy tonight and Friday. Colder tonight with low clouds.

TEMPERATURES MAX. MIN. Abilene 66 46 Amarillo 66 46 Big Spring 66 46 Chicago 66 46 Denver 66 46 El Paso 66 46 Fort Worth 66 46 Houston 66 46 New York 66 46 Philadelphia 66 46 St. Louis 66 46

Appraisers Named In Condemnations

Special commissioners have been named to appraise and determine damages to be paid two groups of property owners for land which the municipality needs for water improvement projects.

One of the tracts is owned by Pearl Cole and Jo Cole and is described as "three tracts in the south half of Section 5 of Block 23, Township 1-South." It is south of College Heights School.

M. R. Koger, Lawrence Robinson and Carl Strom have been named by County Judge R. H. Weaver to serve as special commissioners in this matter. They have set hearing for March 23.

The other tract of land sought by the city in condemnation action is a part of the Edwards Estate. Merle J. Stewart and E. E. Ellis, executors, are named in the petition.

This land, it is stated, is needed for construction of storage tank or reservoir. The city requires 1.53 acres and the tract is described in "the southwest quarter of Section 6, Block 32, Township 1-south," which is in the southwest part of the city.

Cattlemen Ask Beef Buying Program As Drought Aid

FORT WORTH (AP)—Resolutions asking a beef purchase program and other government emergency programs to aid drought stricken ranchers were adopted at the closing session of the Texas and Southwest Livestock Raisers Association here yesterday.

All of the resolutions, which association officials said were recommended to prevent cattlemen in the region from being forced into bankruptcy, were passed without a dissenting voice.

'Like Old Times,' Says Mrs. O'Daniel DALLAS (AP)—It's just "like the good old times," Mrs. Lee O'Daniel said yesterday describing the result of a broadcast made by O'Daniel Saturday asking Texans if they wanted him to run for governor.

Mrs. O'Daniel asserted thousands of letters and telegrams have been pouring in and said they "definitely want O'Daniel to run again."

Services were to be held at 4:30 p.m. Thursday at the First Baptist Church in San Angelo for Jimmy Paul Miller, 15, son of Mr. and Mrs. Jimmy E. Miller, 727 N. Jackson, San Angelo.

Miller, of Big Spring, was hurt fatally when his motorcycle was struck by a car driven by a teenager in San Angelo on the way to school Wednesday morning.

Services Set For Resident's Grandson

What Is The Redman—Noble Hero Or Drain On Treasury?

Development. A few other tribes are talking about similar long-range projects but most lack the necessary developed resources on their reservations to provide enough tribal funds to do the job.

Although influenza and tuberculosis and infant mortality rates are still higher among Indians than among whites, the Indian population is increasing.

In 1900, the race stood at 270,000 and seemed on the way to extinction. Today there are 450,000 on tribal rolls, but Chief Justice Johnson says there are more than that in Oklahoma alone.

But while Indian population is increasing, reservation land is shrinking. In 1881, Indians had 156 million acres, roughly comparable to the state of Texas. Today they hold 56 million acres—a little higher than Idaho. Most of the land is arid, mountainous or desert and can't support the people who live on it.

What's the answer? Beyond basic agreement that no blanket solution will work for all Indians, living as members of 193 organized tribes and some 260 identifiable bands, there is little meeting of informed minds.

NOBODY CARES The Indian, caught in this crossfire of good intentions, has come to feel nobody cares what he wants.

Thomas Segundo, former Papage tribal chairman and a Whitey Foundation fellow at the University of Chicago, says: "Indians have developed certain assumptions."

After the hearings Sen. William Everglades told the Senate that since Congress would appropriate 3 1/2 billion dollars that year to take care of people outside the United States the least it could do was appropriate 200 million to help raise the Indians' standard of living. Nothing came of his suggestion.

There are bright spots, however. The Public Health Service has taken over the entire health program from the Bureau of Indian Affairs—and with a larger appropriation from Congress.

Things also are improving in the field of education. More and more Indian children are getting college educations through scholarship funds set up by foundations, church groups, the government and the tribes themselves.

Navajos, whose plight was so critical a few years ago that drives for food and clothing were conducted in many cities, still are not well off. But from revenue from timber operations, royalties on vanadium and uranium, oil and gas, \$300,000 in tribal revenues has been allotted to work with surrounding communities in efforts to attract industry into the 25,000-mile reservation, which also extends into New Mexico and Utah.

The Southern Ute and Ute Mountain tribes, with income from oil and gas leases, are conducting rehabilitation programs that include home construction and farm

Presidents At Tea

Mrs. R. V. Middleton serves tea to the state president of music clubs, Mrs. Paul Moss, of Odessa, center, and Mrs. H. M. Jarratt, district president. The occasion was a tea given in the Jarratt home Wednesday afternoon, at which Mrs. Moss was guest speaker. Mrs. Moss has recently been chosen Odessa's Woman of the Year.

Music Club Hears State President

"Have faith in music club work. Share it with others and it will be a blessing to you," Mrs. Paul Moss of Odessa told members of the Music Study Club Wednesday afternoon.

Mrs. Moss, state president of federated music clubs, was guest speaker at the meeting held in the home of Mrs. H. M. Jarratt, who is district president of music clubs.

The speaker, in discussing "Faith in Music, Faith in the Federation," reminded members that music has given happiness throughout America, and that it should be spread among the nations of the world.

Mrs. Moss urged participation in the music of local churches, telling her listeners that a hymn-singing

is a happy nation. She spoke of the importance of music among the youth and told of how it would help put down juvenile delinquency.

The local club was urged to take part in the district project of awarding scholarships. One is to be given in the Ninth District for Camp Karankawa at Center Point.

Tributes were paid to many composers of Texas, some being David Guion, Oscar Fox, Don Gillis, Walter Hendl, of Dallas Symphony Orchestra fame. Others are Julia Smith, who is an author as well as a composer, Thor Johnson, Dr. Paul Fiske, and W. J. Marsh, composer of "Texas, Our Texas."

During the business meeting, a program committee was appointed, consisting of Mrs. Robert Mason, Roberta Gay and Joyce Howard. Members of the nominating committee are Edith Gay, Mrs. Leslie Green and Mrs. Robert Middleton.

It was announced that the nominee for Woman of the Year had been chosen. Plans were made for the meeting of April 24. At that time, the club will present Mrs. T. A. Mitchell of Fort Worth, chairman of the Texas Composers' Guild, in a program of Texas music. With her will be Harriet Emerson Brooks, violinist. Members of all music clubs in the district will be guests for the program and the tea to follow, scheduled for the auditorium at Howard County Junior College.

To begin the program Wednesday afternoon, Mrs. Middleton discussed the hymn of the month, "Jesus, Lover of My Soul." Mrs. Fred Beckham led a discussion of the music of eastern Europe.

Appearing on the program with musical selections were Mrs. Mason, Mrs. Chester Barnes, Mrs. Bobby Robbins, Miss Howard, and Roberta Gay.

Hostesses for the tea hour were Mrs. Middleton and Miss Howard, with Mrs. Bill Bonner assisting. The table was covered with a handmade linen cloth, brought to Mrs. Jarratt from Venice, Italy, by her brother. A centerpiece of jonquils, iris and snapdragons was flanked by yellow candles in crystal holders.

Gay Hill Scouts Slate March 23 For Banquet Date

LUTHER — Gay Hill Girl Scouts and Boy Scouts will be honored at a banquet March 23.

Troop 342 recently gave demonstrations of sewing on buttons and putting in hems. Ten scouts and leaders attended the meeting.

Mr. and Mrs. Art Gary and daughters visited relatives in South Texas.

Mr. and Mrs. Carl Lockhart, Sue and Jimmy, and Mrs. J. W. Barber of Big Spring visited Mr. and Mrs. Roy Taylor in Austin, where they were met by Mrs. Lockhart's sister, Mrs. Glenn Taylor. They visited Dr. Nell Kirkpatrick at Taylor and Jess Lockhart at Georgetown before returning home.

E. R. Williamson is in a Big Spring hospital.

Mr. and Mrs. R. R. Crow and Sandra visited Connie Crow and Mr. and Mrs. D. C. Wells in Lubbock.

Mrs. Russell Williamson and baby of Oklahoma have been visiting Mr. and Mrs. E. R. Williamson.

Mr. and Mrs. Gene Lockhart and children of Merkel have been visiting Mr. and Mrs. Carl Lockhart.

Simple as can be and yet beautifully wearable. Pretty junior style that can go anyplace all summer. If you like, add bands of lace.

No. 1423 with PATT-ORAMA included is in sizes 11, 12, 13, 14, 16, 18. Size 12, short sleeve, 4 1/2 yards of 35-inch.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, 367 W. Adams St., Chicago 6, Ill.

John O. Johansen Advises Planters To Tidy Yards Now

"Now is the time to clean up yards," advised John O. Johansen, park superintendent, at a Wednesday afternoon meeting of the Planters' Garden Club in the home of Mrs. Herb Glau, 1106 Main.

Johansen also recommended leveling lawns during this season. Filling up bare spots should be postponed until April or May when the ground is warm, he said. He suggested Bermuda as the most hardy grass for the local climate.

Nine members heard the talk with these guests: Mrs. R. L. Reaves, Mrs. R. C. Armstrong, Mrs. Pat Patterson, Mrs. Bruce Frazier Jr. and Mrs. Bob Carlile.

The next scheduled meeting, 2:30 p.m. April 11, will be held in the home of Mrs. C. W. Neeff, 1701 Purdie.

Garden Club Meets In Called Session

Members of the Big Spring Garden Club met for a called session Wednesday morning in the home of Mrs. Robert Stripling.

Mrs. D. S. Riley presided for the business meeting, during which a Woman of the Year nominee was chosen.

Announcement was made of the Spring Flower Show to be sponsored by the Spuders Garden Club. Members voted to participate in the show.

Marilyn Mann Gives Tri-Hi-Y Program

Marilyn Mann had charge of the program Wednesday afternoon when 30 eighth grade Tri-Hi-Y members met at the YMCA.

Miss Pat Bouchette sponsors the group.

Motif Takes Irish Turn At NCO Tea

A green and white tea honored new and retiring officers of the NCO Wives' Club Wednesday afternoon.

A St. Patrick setting was used at the Service Club at Webb Air Base with Mrs. Robert Hayes and Mrs. Cletus Piper hostessing and receiving guests.

Pastel green candles in silver holders were used on a matching cloth on the main table. The centerpiece was a teapot planter, awarded as a special prize to Mrs. William Pearce. A silver service was used.

Marshmallow Irish lassies marked places for 21 guests at smaller tables.

Green carnation corsages were presented to the retiring president, Mrs. Robert Thompson, and the new president, Mrs. J. R. Wadkins. A miniature corsage was given to a departing member, Mrs. Leon Kaylor.

Newcomers were also recognized at the affair.

Tables of pinochle and canasta were formed after the tea. Winning prizes were Mrs. Leonard Batterton, Mrs. Robert Stewart and Mrs. Vincent Best.

Study Group Hears Mrs. G. H. Briden

Mrs. G. H. Briden, speaking on "Moral and Spiritual Education in the Home, School and Community," brought the Wednesday afternoon program for Central Ward Parent-Teacher Association Study Group.

The six members attending participated in a question and answer period following the talk.

Hostess in her home, 802 Gregg, was Mrs. J. H. Homan.

Shower Compliments Mrs. Dewitt Tidwell

A surprise bridal shower complimented Mrs. Dewitt Tidwell Jr. in the home of Mrs. J. W. Harris, 706 Gollad, Wednesday night.

Betty Harris was co-hostess. Mrs. Tidwell, the former Neida Parker, was married March 8.

"Neida and Dee" was inscribed on the cake and napkins. A spring motif was used. Twenty attended.

Ideal hand protection — a lovely set of fruit portholders. No. 145 contains hot-iron transfer for 3 portholders and full directions.

Send 25 cents in coins for this pattern to MAI THA MADISON, Big Spring Herald, 367 W. Adams St., Chicago 6, Ill.

HOLLYWOOD BEAUTY

Magnani Puts Stress On Her Individuality

By LYDIA LANE
HOLLYWOOD — Anna Magnani has been called by members of her own profession "the world's greatest actress."

This fiery Italian does not fit into any standard mold of beauty. She scorns glamorizing make-up tricks, yet she is capable of creating an illusion of great beauty.

"I have never considered myself beautiful," Miss Magnani told me just before she left Hollywood after completing "The Rose Tattoo," which many critics believe will win her an Academy Award. "And any success I have had as an actress has not been because of it."

Miss Magnani confessed that the art of make-up does not interest her.

"Individuality interests me," she announced.

"Do you feel that Hollywood actresses place too much importance on make-up tricks?" I asked.

"You are a young country," she said, parrying my question.

Miss Magnani's friend who came from Rome with her explained, "Anna cannot stand anything false. When she is working she will not

let them do anything to her, no matter how flattering, if she feels it is a false note."

"What do you admire most about American women?" I asked.

"They are so slender," Miss Magnani replied quickly. "I suppose it is easier to stay thin in this country—you do not eat as much pasta and rich sauces. But there must be more than that," she said with intensity. "Tell me, how does the woman here keep a girl's figure?"

"She counts calories," I explained.

"Calories?" Miss Magnani's face lit up with interest. She asked me to explain all about them.

"Calories," she repeated when I had finished. "Yes, I will try this when I get back to Italy." She asked that I send her my calorie chart and sample reducing diets.

As we talked I admired Miss Magnani's perfume. She seemed pleased as a child and disappeared from the room for a moment, returning with a small bottle which she presented to me. It was a floral scent from Europe.

"I like it very much," she said, "but the real purpose of perfume is for others to like it."

Interested In Calories

Anna Magnani, who was nominated for an Academy Award for her first Hollywood movie, Paramount's "The Rose Tattoo," asks Lydia Lane in today's interview for a calorie chart. Miss Magnani wanted to take the chart back to Italy with her.

Mr. and Mrs. C. B. Lawrence, 1700 Rummels, visited Bellingrath Gardens and the Bellingrath Home while in Mobile, Ala.

'Texas Day' Theme Dominates Program For Lamesa Clubs

LAMESA — Texas Day dominated the program for a joint meeting of Woman's Study Club and Junior Woman's Study Club at the Club House Tuesday night.

Mrs. J. Lon Teel, Lubbock, spoke on "Early Texas Culture." She mentioned sports, missions, cattle brands and the home. Mrs. Teel was introduced by Mrs. R. R. Townsend, program leader.

A panel of representatives from the Chamber of Commerce discussed the County Hospital. Speakers were R. B. Snell, Fred Barbee Jr. and Tom Brannon.

Texas music was furnished by Leta Cope, Joan Taylor, Silvia Reed and Tahita Neimeyer.

The serving table was centered with a miniature replica of the first Texas capitol with a background of bluebonnets and snapdragons. Refreshments were served to 60 by the hostesses, Mrs. Sam Jenkins and Mrs. Buster Reed. They were assisted by Mrs. Loo Randalls, Mrs. Joe Spikes, and Mrs. R. R. Townsend.

Mothers Discuss Band Contest Trip

LAMESA — A trip to a band contest in Ruidoso, N. M., March 29-April 2, and a banquet April 20 were planned at a meeting of High School Band Mothers Tuesday afternoon.

The director of the West Texas State College Band, Canyon, will spend a day with the local band before the contest. Mrs. B. B. Lee was appointed chairman of banquet arrangements.

Selected as sponsors for the trip were Mrs. Ed Lauderdale, Mrs. J. W. Butcher, Mrs. Roland Hamilton, Mrs. W. D. Phillips, Mrs. A. C. Carson, Mrs. Harley Campbell, Mrs. Ed Hatch, Mrs. Vernon Bryant, Mrs. Elmer Cope, Mr. and Mrs. Ed Burt and Mr. and Mrs. B. B. Lee.

WCS Circle Meets For Study At Church

Mrs. C. E. Thiele brought "A Serious Call to a Devout and Holy Life" at a Tuesday morning meeting of Women's Society of Christian Service Sylvia Lamun Circle at First Methodist Church.

Mrs. Ralph Gossett was in charge of a continuation of a study on "Five Great Spiritual Classics." Mrs. B. W. Thompson brought the devotion.

Hostess to the ten members present was Mrs. M. L. Walters.

Knott HDC Schedules Early Coffee Social

A "come as you are" coffee will be held at 7:30 a.m. March 22 for Knott Home Demonstration Club members.

Mrs. W. A. Burchell will be hostess in her home. The social was planned at a recent meeting in the home of Mrs. O. B. Gaskin, who gave a devotion from Matt. 7:10-20.

Nine attended. The next meeting is scheduled for 2 p.m. March 27.

Scout Troop Learns New Games Recently

Wyetta Smith taught games to four other Girl Scouts when Troop Six met Wednesday afternoon.

Earning of badges was discussed during the meeting, which was held in the home of the leader, Mrs. R. O. Smith, 1113 N. Bell.

Tri-Hi-Y Tournament

Members of the seventh grade Tri-Hi-Y held a ping pong tournament at the regular meeting Wednesday afternoon at the Y. Dianna Woods gave the devotion; Betty Merrell offered the prayer. A business meeting was held preceding the tournament.

Lamesa Style Show

LAMESA — Plans for the annual spring style show sponsored by the '48 Delphians were completed when they met Monday evening. The style show, entitled "A World of Fashion" will be presented Friday evening at 8 o'clock in the high school cafeteria.

Wednesday Night Club Has Dance

About 30 couples danced to the music of Preston Love and his orchestra Wednesday evening at the Big Spring Country Club. It was the first dance of the season for members of the Wednesday Night Dance Club.

Table decorations followed a St. Patrick's theme, with green carnations in a silver bowl on the refreshment table.

Host couples for the occasion were Mr. and Mrs. Dick Simpson, Dr. and Mrs. Fred Lurting, Mr. and Mrs. Obie Bristow, Mr. and Mrs. Ted Groehl, Mr. and Mrs. Omar Pizman, Mr. and Mrs. K. H. McGibbon, Mr. and Mrs. Cecil McDonald, Mr. and Mrs. Walter Ross, Mr. and Mrs. Bill French and Dr. and Mrs. Jack Woodall.

Saxton, Basilio May Meet Again In June

Champ Robbed Insist Fans

By JERRY LISKA
CHICAGO (AP)—The Cruel-jabbing Johnny Saxton again held the world welterweight title today, but a hue and cry thundered for a rematch with dethroned and hopping mad Carmen Basilio. It may come in June.

Saxton won a unanimous 15-round decision over Basilio in a nationally televised scrap at the Chicago Stadium last night which left most of 11,373 paid patrons and a host of video fans hollering that Carmen was short-changed. Basilio bleated that the title was "stole" from him.

The International Boxing Club said no rematch had been contracted, but admitted that one now was "definitely possible."

Seldom has a title match here stirred so much controversy, although there was no doubt in the minds of the three officials that the busy, ever-moving Saxton had won.

Basilio snarled that the deck is stacked against him in Chicago after three defeats in as many starts here.

The referee, Frank Gilmer, called it for Saxton 144-142, while Judge Ed Hintz voted for Johnny 145-138 and Judge James McManus, 147-140. The AP had Saxton ahead 145-142.

On the other hand, a ringside poll showed a 13-7 preference for Basilio among the experts covering the fight. Basilio's majority came entirely from Eastern writers, while Saxton's backing was all Mid-western.

Unquestionably, Basilio forced the pace, but the sledgehammer attack that won him the 148-pound crown from Tony DeMarco last June 10 and flattened DeMarco again in a Nov. 30 rematch was missing.

"They don't score double books here," growled Basilio.

On the other hand, Saxton was an effective, if retreating, sharpshooter. Using a stiff left jab with authority all the way, he smashed a nick over Basilio's right eye and had the champ's nose bleeding in the fourth.

Basilio's left eye was almost swollen shut by the 15th round after which Saxton walked to his corner, disdainful of Basilio's effort to slap his back and apparently knowing he had recaptured the 147-pound title.

"I won the fight," protested Basilio. "Hold on, hold on and run, that's all he did."

Saxton first won the welter crown with an equally-disputed 15-round decision over then champion Kid Gavilan at Philadelphia Oct. 20, 1954. He lost it in his first defense to DeMarco on a 14th-round TKO at Boston last April 1.

The principals split 30-30 on a net gate of \$83,008 and radio-TV receipts of \$50,000.

Saxton weighed 146 1/2 against 146 for Basilio.

Billed In Lamesa

Popular Gory Guerrero (above) of Mexico goes against Bill Parks in the semi-final feature of George Dunn's wrestling show in the National Guard Armory in Lamesa tomorrow. The feature match pits Tokyo Joe against Dory Funk.

LOOKING 'EM OVER

With Tommy Hart

Two records which appear to be in imminent danger in the March 30 American Business Club Relays are the 440 yard run and the mile. The quarter mile mark is held jointly by Bob Bauman and Gaylen Fowler, both of Amarillo.

Bauman covered the distance in 51.3 seconds in 1947 and Fowler was clocked in the identical time the following year.

Now, another Amarillo speedster, Billy Walker, appears capable of shattering the standard. He covered the two furlongs in the excellent time of 50.5 in the Border Olympics at Laredo last week. In two more weeks, he may reduce his time to less than 50 seconds and, barring mishap, he'll be running here March 30.

Bobby Fuller, Big Spring's ace miler, might just shade Joe Sparkman's mile record of 4:47.9, set in 1950. Fuller ran a 4:41.7 last week at Graham and is the type of boy who will improve all season. Sparkman, incidentally, ran in Childress High School's colors.

The West Coast papers who were highly critical of the University of Washington's decision to hire Darrell Royal as head football coach perhaps were misled because a favorite son, Joe Kuharich, didn't get the position.

Lee Oma, the former Heavyweight boxer, now runs a pub in New York City known as "The Perfect Alibi."

Not as many boxing champions come out of Golden Gloves ranks as you'd think.

Since the amateur fistcuffing tournaments were originated in Chicago back in 1928, only seven graduates have been crowned titlists among the pros.

They were Barney Ross, Tony Zale, Joe Louis, Ezzard Charles, Joey Maxim, Harold Gade and Wallace (Bud) Smith.

The pari-mutuel take at the Fair Grounds race track the past season amounted to more than \$38,000,000, a record by several millions.

Amarillo's Partnership Golf Tournament, which a couple of Big Spring boys, Bobby Maxwell and Bobby Wright, won last year, will be staged July 26-29.

The Snyder Exes recently drubbed the 1956 team of the Tiger gridders by a 13-0 tab, about the same margin, which graduates of that great 1954 Big Spring team nudged the 1955 Steer club last spring.

The Snyder seniors used a strong ground game to repel the future regulars, rolling up 391 yards rushing to 41 for the '56 club. Jack Spikes, who could very well wind up at Texas Christian University, accounted for 151 yards of that aggregate. He scored one touchdown, Shorty Grimmelt the other.

Bobby Pollard and Mickey McGrew led the 1956 club with 26 yards each in gains.

The Exes had two other TD's called back due to penalties and got inside the Tigers' ten yard line in the fourth quarter on another occasion, only to lose the ball on downs.

There's trouble brewing in Amarillo. The 1956 Squad recently climaxed their spring football work by drubbing the Exes, 60-7. The Seniors were only 12 in number, however, which could account in part for the rout.

Maybe Joe Kerbel is ready to roll up there. He certainly has the entire populace in his corner, judging from all the stories drifting down this way.

Richardson Signed
LIVINGSTON, Tex. (AP)—Jesse L. Richardson, head basketball coach at Livingston High School, announced yesterday he had resigned to become head basketball coach at the University of Corpus Christi.

Bruin Outfield Fight Is Wide Open: Manager

By BEN GLAN

The competition for regular outfield jobs on the Chicago Cubs is tighter than a bank vault after closing time.

Manager Stan Hack said today, "once it gets straightened out this team might cause some trouble in the National League."

It'll take a lot of deciding because the Cubs, seeking to improve on their sixth-place finish of last season, have almost as many outfielders as some teams have pitchers.

They include Hank Sauer, Monte Irvin, Walt Moryn, Jim King, Solly Drake, Gale Wade and Bob Speake.

Then there's Eddie Miksis, labled for utility, and Ted Tappe, a 260 man in 23 games for the Cubs last season.

Some of the experts are giving the nod to Sauer, Drake and Moryn. But there's still lots of spring training to go before the regular campaign begins April 17.

Drake and Sauer got one hit apiece and Irvin and Moryn went hitless yesterday as the Cubs snapped the Giants' four-game winning streak 5-2. Rookie third baseman Don Eaddy clubbed a two-run home run for Chicago, which got four-hit pitching from Sam Jones, Don Kaiser, and Johnny Briggs.

The Cincinnati Redlegs handed the world champion Brooklyn Dodgers their fourth defeat in five starts 6-3. The Redlegs scored all their runs in the sixth inning.

The St. Louis Cardinals scored five times in the third to beat the Detroit Tigers 7-4.

The New York Yankees had good and bad news for their followers. The regulars bowed to the Boston Red Sox 2-0 while the "P" team nipped the Pittsburgh Pirates "A" squad 8-5.

The Red Sox got four-hit pitching from Bob Porterfield, Frank Baumann and Jerry Casale. Tommy Byrne was a wild man for the Yankees, walking four. He was charged with loss.

In other games, Bobby Shantz sent Kansas City's stock up a bit by turning in a one-run job for three innings although the Athletics bowed to the Milwaukee Braves 5-2. Rookie catcher Earl Averill homered in the seventh inning to give the Cleveland Indians a 7-6 victory over the winless Baltimore Orioles. Washington scored nine runs in a third-inning rally sparked by Julio Bequer's bases-loaded triple to beat the Philadelphia Phillies 10-6.

Birdwell, Hill On Purple 11

ABILENE (SC) — A game-like scrimmage is in store Saturday March 17 for the Hardin-Simmons University Cowboys, currently in spring drills.

Coach Sammy Baugh and his aides, Wayne Miller, John Steber, and Howard McChesney, have divided the Purple and Gold squads "pretty evenly."

Scrimmage will get underway at 2:00 p. m. in Parramore Stadium and is open to the public at no charge.

PURPLE SQUAD
LE Connie Baird, Amherst; Robert Green, Fort Worth; Roy Hunter, Roanoke; Tommy Coulter, El Paso; New Mexico; LO Lawrence Hill, Lamesa; and Gary Schmitt, Mason.

GOLD SQUAD
BO D'Alon Blevins, San Angelo; Ed Green, Sweetwater; RT Buddy Coakley, Pampa; Delmer RE Joe Sharp, Brownfield; John Birdwell, Big Spring; SHREVEPORT, LA: John Jones, Lamesa.

ST. JOSEPH, Mo. (AP)—Wayland College, riding a 73-game winning streak, runs into fourth-seeded Iowa Wesleyan in a semifinal game of the Women's National AAU Basketball championship today.

The Flying Queens of Wayland (Plainview, Tex.) continued their high scoring ways by running over Philander Smith College of Little Rock, Ark., 80-19 in yesterday's quarter-finals.

Wesleyan, of Mount Pleasant, Iowa, defeated the Pine-Sol Queens of Jackson, Miss., 62-44; Nashville (Tenn.) Business College beat Kansas City Midland Jewelry 36-31; and Omaha Commercial Extension ousted Clarendon (Tex.) Junior College 37-28.

Y To Play HCJC Reserve Squad
The YMCA girls' volleyball team meets the HCJC reserves in a practice contest in the Hawk Gym at 8:30 o'clock this evening.

Given Fryar captains the Y team, which lost a game to the HCJC regulars recently.

Wise Scores TD In Scrimmage
ABILENE (SC) — Wylie Wise of Big Spring scored one of the touchdowns as the Reds defeated the Whites, 35-20, in a McMurry College intra-squad football game played here Tuesday.

Bobby Hayworth of Big Spring served as one of the quarterbacks for both teams.

Yearlings Play Forsan Today
The Big Spring Junior High girls' volleyball team visits Forsan this afternoon for a game with the Forsan Buffettes.

Forsan defeated Sterling City last Tuesday, 44-7, in a final tune-up for the engagement.

Longhorn Baseball Team Meets Snyder Tomorrow

The Big Spring Steers hope to return to winning ways in their Friday afternoon baseball outing here with the Snyder Tigers. Starting time of the seven-inning game is 4:15 p. m.

The contest was originally booked to be played in Snyder but was moved here upon the recommendation of Milton (Speedy) Moffett, Tiger coach. Moffett said the Snyder field was not ready.

Instead, the Steers will visit Snyder for a March 22 engagement. The Steers blew themselves to 11 errors in yielding a 16-8 decision to Andrews here earlier this week. Big Spring now has a 1-3 won-lost record. That would probably have been reversed had its fielding been anywhere near adequate.

The locals' pitching hasn't been sensational but it has been much better than their defensive play. Snyder didn't improve its stock by losing to Midland by a 15-1 tab yesterday. The Bengals managed only two hits in the game.

Either Billy Blum or Billy Johnson may mount the knoll for Big Spring against Moffett's team. Moffett could counter with Alan Sneed, a senior letterman who saw relief duty against Midland yesterday.

Ricky Terry will again receive the pitcher's slants for Big Spring. George Peacock will be at first base, Preston Daniels at second, Bobby Suggs at shortstop, Jimmy Evans at third, Eugene Hall in left field, Jerry McMahon in center and either Jan Loudernik or Billy Johnson in right.

The engagement will be the last home contest for Big Spring until April 10, at which time the locals meet Midland.

AMARILLO COLLEGE DISQUALIFIES ITSELF AS TOURNAMENT ENTRY

AMARILLO (AP)—Coach Bob Carter of Amarillo College said yesterday that the college had disqualified itself from playing in the National Junior College Basketball Tournament next Tuesday.

Amarillo won the privilege of representing Region 5 in the national tournament at Hutchinson, Kan., by defeating Lawton, Okla., in the finals of the regional tournament here last week.

The school disqualified itself when it found out that its star player, Negro guard Charles Brown, was technically ineligible for the regional tournament because he failed to earn enough scholastic units at San Francisco City College before entering the service.

The Cameron Aggies will represent Region 5 in the national tournament.

SKIPPY BROWNING DIES IN AIRCRAFT ACCIDENT

DALLAS (AP)—David Greig (Skippy) Browning Jr., one of the greatest divers in the history of sports, has been killed in a plane crash, the Navy announced yesterday.

Browning, 24, a lieutenant (j.g.), was killed Tuesday night when his Navy jet plane crashed near Rantoul, Kan., shortly after takeoff. He was based at Moffett Naval Air Station, near Mountain View, Calif., but had been operating from the auxiliary station at Fallon, Nev. He was on a cross-country navigational training flight from Olathe, Kan., to Denver, Colo.

Browning, who started diving when a tot at Corpus Christi, Tex., was the 3-meter Olympics diving champion in 1952, holder of four national Collegiate Athletic Assn. championships and numerous Amateur Athletic Union championships.

He was planning to prepare for the coming Olympics, his father said here last night. The parents live in Dallas. His wife lives in Mountain View.

Born in Boston, Mass., Skippy moved with his family to Corpus Christi when he was 3 years old. He won his first diving prizes by the time he was 10. As a high school student in Dallas he was three times state diving champion on the 1-meter springboard.

After a semester at Wayne University, Detroit, Mich., he transferred to the University of Texas where he was Southwest Conference diving champion on the 3 and 1-meter springboards for three years.

In 1952, he accomplished what no other diver has: He won the AAU, NCAA, and Olympic diving championships. In 1954, when he won his last AAU championship, Skippy was 63 points ahead of his nearest competitor.

San Francisco Meets UCLA In NCAA Playoffs Friday

Western and Eastern quarter-finals are the next step in the long haul to find the 1956 basketball champion in the NCAA Tournament, which already has proved a booby trap for favorites and at least three of the current top five major college winning streaks.

The best game of the tourney to date shapes up tomorrow night at Corvallis, Ore., when firing re-remains after a two-day break with defending champion San Francisco meeting fired-up UCLA. It's an opening game for both in the title chase.

Something's gotta give in that one. San Francisco is nursing the best winning streak ever in major college play with 51 consecutive victories; UCLA has the No. 2 winning string at the moment with 17.

Next in line in successes is Southern Methodist and Alabama, both with 16, and Iowa with 14. Alabama is the only sure bet to carry an unbeaten streak into next season—the Tide passed up the NCAA semifinals and five starters are four-year men and ineligible.

All the other streaks will be on the line tomorrow night, however. The Dons (25-0) and UCLA (21-5) open the Corvallis twin bill that sends Seattle (17-8) against Utah (22-5). The Skyline champ, in the meantime, the other portion of the Western quarter-finals is set for Lawrence, Kan., with SMU (23-2), king of the Southwest, meeting Houston (17-8), the Missouri Valley winner; and Oklahoma City (19-6) playing Kansas State (16-7), the Big Seven champ.

In the Eastern quarter-finals, Iowa (17-5), the Big Ten champion, tackles Morehead (Ky.) State (23-2), and Kentucky (19-5), subbing for "Bama" as the Southern Conference entry, plays Wayne (18-1) in a double-header at Iowa City. At Philadelphia, it's Connecticut (17-9), the Yankee Conference winner, vs. Temple (22-3), the Middle Atlantic choice; and Dartmouth (17-0) the Ivy League champ, vs. Canisius (18-6).

Such first-round favorites as North Carolina State, Holy Cross, West Virginia, Manhattan and DePaul already have been brushed off, while SMU, Oklahoma City and Seattle had a tough time before shaking off underdogs.

Tomorrow night's winners will meet Saturday at the same sites, leaving two Western and two Eastern teams for the title semifinals at Evanston, Ill., March 22. The East-West winners then play for the national championship March 23 at Evanston.

ABC In Meeting To Plan Relays
Members of the American Business Club will gather in Walker Bailey's office at the court house at 7 o'clock this evening to lay final plans for the ABC Relays, which will be staged here Friday, ch 30.

The convlave was originally scheduled for last night but was moved back.

At the meeting, members will be assigned various jobs in the Relays.

Coaches of both the HCJC and Big Spring High School teams will also attend the parley.

Johnny Podres Told To Report Next Monday

NEW YORK (AP)—With the quickness of reflex action, World Series hero Johnny Podres has been ordered to report for military service next Monday in a selective service move within 24 hours of a blast at draft boards by Ted Williams.

The induction order was released yesterday, taking Podres, who southpawed the Brooklyn Dodgers to the world championship last fall, by surprise.

"I guess this is it," he said at the Brooks' Vero Beach, Fla., training camp. "I'll fly home (Withersby, N. Y.) and spend a few days with my family before I go."

"I thought I had at least 30 days."

Podres originally had been ordered to report for induction today by his Ticonderoga, N.Y., draft board. But it was expected he would receive a month's grace when he obtained a transfer to a New York City board.

Tuesday, Williams, the Boston Red Sox slugger who twice served as a Marine pilot, swung from the heels, declaring Podres was called up because "he got famous by beating the Yankees in the World Series."

Williams blamed Podres' call on "gutless politicians, gutless drafters."

Podres, 23, had been classified 4-F because of a bad back. He was reclassified 1-A Dec. 27, but may yet be rejected when he takes his induction physical.

Col. William H. Boughton, New York state selective service director, said, "As far as I know, Podres was processed in accordance with selective service regulations and law."

Podres is due to report for induction here at 7:30 a.m. Monday.

Aggies' Okamoto Favorite In Race

AUSTIN (AP)—The Southwest Conference swimming meet starts here tonight with Tetsuo Okamoto of Texas A&M expected to win the 1,500-yard freestyle race.

Okamoto was a third place winner in the 1952 Olympics while representing Brazil. The 1,500-yard free style will be the only event today.

SMU was expected to bring a strong diving team and to battle with Texas and Texas A&M for team honors.

Odessa Opposes Indians Today

ODESSA (SC) — The Odessa Bronchos meet Yale in a practice baseball game here this afternoon.

The Hosses carry a 2-1 won-lost record into action, having beaten Tom S. Lubbock of Lubbock twice. Their loss was to the same club.

Rites Today For Jr. High Honor Roll Lists 116 Students

LAMESA — Mrs. Ida Lentz, 66, a resident of Dawson County for 35 years, died early Wednesday morning at the Lamesa General Hospital after an illness of about three weeks.

For the past eight years, Mrs. Lentz had made her home in Lamesa, living for 27 years previous to that on a farm in the Sparenberg community. She was a charter member of St. Paul's Lutheran Church at Sparenberg.

Among survivors are three daughters, Mrs. Earnest Huse, Lamesa, Mrs. Edmund Huse, Weatherford, and Mrs. Alfred Allman, Osage, Iowa; five sons, Karl Lentz, Walter Lentz and Victor Lentz, all of Lamesa, Felix Lentz, Houston, and Henry Lentz, Corpus Christi.

She also leaves four sisters, Mrs. Mary Korb, Malone, Mrs. Bertha Schmidt, and Mrs. Lydia Wilmore, both of Houston, and Mrs. Evelyn Pachall, Big Spring; one brother, Edward Gehring, Malone; 21 grandchildren and two great-grandchildren.

Conducting rites at 3 p.m. Thursday at St. Paul Lutheran Church in Sparenberg was to be the Rev. C. E. Kleiber, pastor. Interment was to be in the Sparenberg Cemetery under direction of the Higginbotham Funeral Home.

Lamesa Kiwanis Sells Tickets For Pancakes

LAMESA — Tickets to the fifth annual Kiwanis Club pancake supper are now on sale by members of the club and the Key Club.

Proceeds from the supper set from 5 p.m. to 8:30 p.m. March 24 at the Lamesa Junior High cafeteria will go to underprivileged children work and other club projects.

Stock Auction Set For Tonight

All of the steers shown in Wednesday's section of the Howard County 4-H and FFA Fat Stock show will go on the auction block tonight at the big sale which starts at 7:30.

Jimmy Taylor, county agent, said that the young exhibitors will sell all of their animals in the steer division.

Approximately half of the lambs which were entered in the show are to be sold. Taylor said 70 lambs are listed for sale.

Sixty capons also will be offered for sale.

Taylor said the first animal to be sold at tonight's sale will be the grand champion steer of the show. Next in order will be champions of other divisions, then reserve champions.

When these have been sold, he said, the bulk of steers, lambs and capons which were shown but did not win championships will be offered.

He sounded a new appeal for all citizens of the county to be present at the sale and to help make it the biggest on record.

School Officials Meet At Lamesa

LAMESA — Two hundred and 50 school superintendents and board members representing about 50 schools attended a meeting last night at the Lamesa High School cafeteria to discuss common school problems.

Leon Grimm of the Texas Education Agency was the main speaker. He stressed the matter of segregation or integration right back into the laps of local districts.

Said Grimm: "As far as integration is concerned, the state board of education has adopted a policy of not influencing the local districts. It is willing to sit in an advisory capacity only, and will not exert any influence."

Entertainment was furnished by a trio of girls from Falls.

Cigarette Blamed In Another Fire

Cigarettes caused another fire in Big Spring Wednesday.

The blaze resulting from a cigarette was at the George Lambert residence at 1900 Morrison.

Only damage reported from the fire was a burned mattress.

An accumulation of grease on a stove at the Skyway Cafe on West Highway 90 caused a fire alarm, but no damage resulted.

The cafe is owned by Shorty Dunbar.

Copper Wire Stolen

Sheriff's deputies are seeking 300 to 400 pounds of copper wire valued at \$80 stolen from a warehouse on the Andrews highway sometime during the past week.

The copper wire was owned by Cosden Petroleum Corporation.

Brotherhood Panel Appeals For Discard Of Prejudices

America cannot afford the luxury of disunity during a time of extreme world peril, Dr. Adolph Philippsborn, Lubbock told a joint service club meeting here Wednesday.

Dr. Philippsborn, president of the Sareth Temple in Lubbock, was on a Brotherhood Week panel with the Rev. William McCooey, pastor of the Sacred Heart Catholic Church in Abilene, and the Rev. David Zacharias, minister of the Westminster Presbyterian Church in Lubbock. They spoke before the combined Lions and Kiwanis Clubs with other club members attending. Dr. W. A. Hunt, president of Howard County Junior College, introduced the panel.

When bullets are fired at Americans they are not labelled for Jew, Catholic, Protestant, rich, poor, black, white, Republican or Democrat—but for Americans, said Dr. Philippsborn. Thus, unity is imperative to preserve America better tomorrow than it was today.

"We cannot absent ourselves from the principle of brotherhood," declared the Rev. McCooey. "While we are aware of the ideal, it is another thing to translate it into action."

He cited the inscription under a statue at Boys' Town—"He's not heavy, Father, He's my brother," as the feeling of real brotherhood.

The Rev. Zacharias cried out against continuance of prejudices because he said they were not innate but acquired, which he felt was manifest evidence they were not from God.

"We look for differences in people without asking why they are different. Why don't we look for where men agree? Why can't we think of God as our Father?"

The panel spoke also at Senior and Junior High Schools, at Howard County Junior College, at Lakeview High School. At the service club meeting, Larson Lloyd, Lions president, was in charge.

8 Absentee Votes Cast In Dawson

LAMESA — Eight Dawson Counties have cast absentee ballots in the \$400,000 hospital bond and tax reallocation election set for March 24.

County Clerk Walter Buckel reported that absentee voting will cease on March 20. The referendum is on \$400,000 in bonds to construct a 60-bed hospital, and a reallocation of the 80-cent ad valorem tax in order that the issue can be financed.

Dummy Rocket Found In Park

Police officials turned over to the Air Police at Webb a dummy rocket Wednesday which had been found in the state park.

The shell had been located by a group of boys who had then tried to hide it. They were seen hiding the shell, and the object was reported to the police.

Funds Urged To Aid States In Polio Fight

WASHINGTON (AP)—The House Appropriations Committee today recommended a new allotment of \$27,800,000 to finance antipolio programs administered by the states.

It also approved, subject to House action next week, 185 million dollars for veterans' readjustment benefits, 25 millions for payments to school districts where population has been boosted by federal activities, and \$9,900,000 for construction of schools in such districts.

These were among the major recommendations in an omnibus \$795,743,823 supplemental appropriation bill to finance miscellaneous activities during the current fiscal year ending June 30.

The total was \$40,155,100 less than President Eisenhower had requested. The biggest cut was \$15,351,500 lopped from the \$129,041,500 requested for the Department of Health, Education and Welfare.

The bill includes 26 million dollars for scientific work in connection with the International Geophysical Year. This program includes plans to send a man-made satellite around the world within the next two years.

The \$34,900,000 recommended for payments to the school districts was the entire amount requested. So were the \$27,800,000 for grants to states to pay for polio vaccinations and the 185 millions for veterans' training benefits.

A large chunk, \$266,711,471, of the bill's total was to meet federal pay raises voted last year by Congress but not financed in last year's appropriations bills. Other allotments included 30 million dollars to pay operating subsidies to ship operators; 100 millions to reimburse states for the government's share of the cost of highway construction projects and 3 millions for forest highway work; 47 millions for grants to states for public assistance; \$200,000 for expenses of the special commission studying government security programs; \$56,000 to start work on a war memorial on Corregidor Island; three millions for construction of the Jefferson National Memorial in St. Louis, and \$300,000 for expenses of special House committee.

Hoover Asks More Appointment Jobs

WASHINGTON (AP)—Former President Hoover urged today the earmarking of 2,000 more top government policy jobs for political appointment, together with better pay, security and prestige for federal workers generally.

He declared that inadequate budget and bookkeeping practices have cost Congress its "control of the national purse" and are now costing the taxpayers four billion dollars a year of needless spending.

Civil service reforms are equally urgent to prevent "government talent from being constantly grabbed by business," Hoover said in a speech prepared for a conference called by the U.S. Chamber of Commerce to rally support for adoption of the year-old recommendations of his commission on federal reorganization.

Hoover said the 25 per cent turnover of government personnel—

representing the loss and replacement of 500,000 workers annually—"would bankrupt any private enterprise twice a year."

"Promotion and pay fail to produce or hold top executive talent," he said, "and there are not enough policy-making positions today subject to party choice to carry out the mandates of the electorate."

He added: "Do not get scared that we are proposing a spoils system. We wish merely to change less than one-tenth of 1 per cent of the total number."

The President, Hoover said, should have perhaps 2,000 additional jobs subject to his appointment, and nonpolitical career workers "should not be required to make policy or to defend administration policy."

Urging adoption of the commission's pay and promotion reforms, Hoover said:

"If our top military officers had been chosen on the civil service basis of promotion, the deadwood at the top would have lost us two world wars."

"The present salaries and fringe benefits in our top civil service are below those in top military service. And worse still, they are far below those in private enterprise."

The 81-year-old ex-President said he had canvassed private firms on the number of workers paid \$15,000 a year or more. This is the top civil service bracket. If government devoted the same proportion of its payroll cost to such salaries, he said, there would be 14,000 federal workers in the \$15,000-and-up brackets, instead of the present 1,364.

Hoover reiterated the commission's proposal for a nonpolitical "senior civil service" of well-paid career executives subject to transfer from agency to agency as needed. These would be paid \$15,000 at the start, rising to \$22,000.

The conference was organized to help prod Congress and the administration into adopting recommendations of the Hoover Commission, sent to Congress last spring.

Only 16 per cent of the 314 recommendations submitted to Congress last spring have been adopted, including 11 bills covering mainly minor points.

Some 250 measures are before Congress, but many are duplications and few are being pressed. No legislation has been offered on some 40 of the 142 proposals which would require action by Congress.

Strengthening of the Bureau of the Budget was urged by J. Harold Stewart, New York, in an address prepared for the opening session. Stewart headed the Hoover Commission's task force on budgeting and accounting.

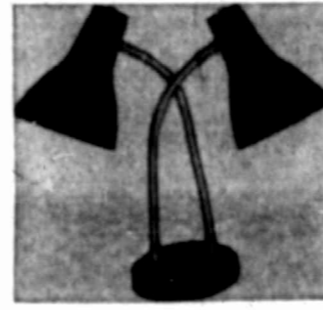

Where improved money management has been found in the government, Stewart said, "it was usually attributable to the personal qualities and abilities of particular individuals," and he continued:

most likely to succeed ...

Auto Union Attacks Election Reform Bill

WASHINGTON (AP)—An elections reform bill now sponsored by 85 senators came under sharp attack from the United Automobile Workers today. The union called it inadequate and in some respects harmful.

"The bill gives the appearance of action towards clean elections without providing the necessary substance to implement that appearance," said an analysis of the bill prepared by the UAW's Washington office.

The statement was given to members of the Senate Rules Committee, to which the measure has been referred.

Senate Democratic Leader Lyndon Johnson of Texas introduced the bill for himself and Republican Leader Knowland of California on Feb. 28.

One of the many objections raised by the UAW was its contention that under the bill "no political committee, other than a political party or branch, can operate at all without the written authorization of the candidate or candidates whom it seeks to support."

It said that under this provision "independent organizations such as labor political action groups, civic groups, (and) third parties might be prevented from carrying

on their traditional political activities."

The UAW maintained the bill is so drafted that "an individual could spend a million dollars in support of a candidate without his authorization, whereas an independent political group could not even spend a hundred dollars without the candidate's written authorization."

The bill would increase the present law's campaign spending limits which apply to any one organization, but would fix an over-all limit on funds to be spent on behalf of any candidate. Johnson has said it is aimed, among other things, at requiring full reporting of campaign expenditures and contributions.

San Angeloan Heads General Telephone

DALLAS (AP)—Don Hunsaker of San Angelo, senior vice president of the General Telephone Co. of the Southwest, was elected president of the Texas Telephone Assn. yesterday. Marion Clay of Lufkin was chosen second vice president, and Papp Grinstead of Kerrville, treasurer.

Late Cold Hangs On Over Nation

By The Associated Press

Late winter snowstorms and cold weather today made the start of the spring season appear far away instead of next week.

More snow was in prospect for Northeastern sections in the wake of yesterday's heavy falls which ranged up to nearly 2 feet in Maine. The fresh snow belt extended from the Ohio Valley and Great Lakes region to New England.

An additional 2 to 4 inches of snow was forecast for eastern New York into northern New Hampshire and Vermont and from 2 to 8 inches in Maine.

Snowstorms which struck Eastern areas yesterday were accompanied by strong winds, with gusts from 50 to 60 m.p.h. through Ohio, Pennsylvania, West Virginia, Virginia and North Carolina.

Cold weather continued from Wisconsin westward through Minnesota, the Dakotas, Montana and Wyoming. Temperatures were 15 degrees above zero or lower with some sections of northwest Wisconsin and northern Minnesota reporting below-zero readings.

Harriman Assails Stand On Israel Arms Shipments

NEW YORK (AP)—Gov. Averell Harriman, assailing the U.S. government's stand on U.S. arms for Israel, said last night, "The inaction of the United States has served to encourage further Communist adventuring."

Harriman, a possibility for the Democratic presidential nomination and former ambassador to Moscow, said:

"To meet directly the Communist arms sale to Egypt and to discourage further maneuvers, our government should at once have honored the request of Israel for defensive arms."

Harriman also said he does not agree "with those who say that providing defensive arms to Israel is futile because the people of Israel are outnumbered by the Arabs."

NEW HAMPSHIRE

Nixon Write-In Is A Political Riddle

By **RELMAN MORIN**
 MANCHESTER, N. H. (AP)—New Hampshire has written a political riddle around Vice President Nixon.

Why did 21,000 people take the trouble to write his name on their ballots when they voted Tuesday in the presidential primary?

Nixon wasn't a candidate. The vote was concerned with presidential candidates and delegates to the national conventions.

He didn't campaign for anybody least of all himself.

And if people were out working for him, organizing this vote, they were unusually quiet about it.

Yet there is the figure — 21,000 write-in votes.

What caused it?

It seems evident that Nixon has received that rarest of political compliments, an unsolicited surge of popular support. The people in New Hampshire entered the controversy over Nixon and spoke with the authority of the ballot.

This reporter, in sampling public opinion around New England, has found sentiment both for and against Nixon.

The New Hampshire vote is by far the most pathetic expression of opinion that has yet appeared.

As State GOP Chairman Judge William Treat commented, the New Hampshire delegates to the national convention "can't ignore the mandate of the Republican voters on Vice President Nixon."

There was no mystery about the result that emerged from the

other side of the New Hampshire balloting Tuesday.

Sen. Estes Kefauver again scooped up all the Democratic delegates. He did it against the opposition of the party organization in the state.

Kefauver's formula is simple — hard work and the handshake.

He came into the state three times.

On Monday, the morning before the election, he was at a factory gate at 7 o'clock, extending his hand to the men as they passed through. The fingers on that hand were bandaged. He had cut them on a broken glass.

Then he had breakfast, held a news conference, and started touring the state.

He went into one of the counties he lost in 1952 and walked through the streets of Dover and Somersworth, fair-sized cities. He stood bareheaded, talking with people, in Raymond and Derry, which are small towns.

He combed his hair in a barber shop, sipped coffee in a coffee shop, ordered a glass of beer in a tavern, bought a pair of rubbers in a shoe store.

A measure of how people liked him appeared in a textile factory where the employes, mostly women, are piece-workers. To stop work costs them money. But they didn't seem to mind.

To everybody, Kefauver said "I'll sure appreciate your help." And they gave it to him.

4 Acres Of Deck Comfort To Fliers

By **ELTON C. FAY**
 ABOARD U.S.S. FORRESTAL, in the Caribbean Sea (AP)—Four acres of flight deck, with the chance to pour on power and fly around again if the approach isn't good, is comfort for those who fly planes off and on this world's biggest flattop.

What is it like?

The young officers who take jet interceptors and jet attack bombers screaming into the air and bring them roaring back to the deck know best.

But even in a relatively slow, piston-engine attack bomber like the Douglas AD Skyraider you get the idea. Like this:

A crewman bundles you into an inflatable life jacket, helps you squeeze your head into a crash helmet, buckles a safety belt, hooks up shoulder straps to restrain you in landing.

"Start engines."

Then you sit and sit and sit, sweltering in the hot sun which pours into the cockpit while a seemingly endless file of planes take off ahead of you.

Your turn comes. The engine roars louder as the plane taxis up to the starting line. Even at that point there remains more than 800 feet of flight deck stretching ahead. The Forrestal is surging forward at more than 300 miles per hour, into a 15- or 20-mile wind. So even before the start of the takeoff run, the plane has a built-in air speed of better than 40 miles per hour.

With brakes set, the engine snarls up to full power.

For Lt. Lee Strunk, whose home was Pleasantville, Ky., before he entered the Navy 15 years ago, this is old and familiar stuff. He does it several times a day.

He watches the flight directing officer below him as the man circles the air with his hand to order full power, then points suddenly down the deck. Brakes release the pull of 2,300 horsepower accelerates the bomber down the long deck. The island structure flashes past. The end of the deck, with the sea beyond, is coming at you but the bomber is airborne, flying easily and banking slightly in a turn as the deck drops away beneath.

The bomber climbs rapidly to

ward three others of the five-plane flight, which eases into a V-formation.

For an hour it is monotony. For a long time there is just the empty sea below. Then, for a little while, the coast of Haiti is down off the left wing. The formation turns back.

Ahead is a mass of high-piled, tropical cloudy columns. The flight leader signals. The formation goes into file formation, each plane trailing the other.

You nose down to pick up speed, then down, picking a way through a valley in the clouds. Five miles away is a little toy ship—the Forrestal.

The flight of planes that made you wait for take-off again delays your landing. Around and around and around while you wait for the radio voice from the carrier to say "Charley" and order you to land. The sea is less than a hundred feet below as you bank left and turn for the approach.

The stern of the Forrestal looms close. Flaps and wheels and arresting hook drop into place.

The 17,000-pound Skyraider sweeps in. Strunk chops the power and there is a bump. The arresting cable snatches the trailing hook and the bomber stops instantly. Your shoulders lean into the straps for the instant of deceleration, and you are back on the Forrestal.

3 Boys Get Life In Holdup Death

BALTIMORE (AP)—Three boys in their teens faced life in prison today following their conviction of first degree murder in the holdup-slaying of grocer Louis Pristoop last Christmas Eve.

Sentenced yesterday were Tyrone John Stokely, 17, Edward Butler and Richard Avon Briscoe, both 15. All are Negroes.

Judges James K. Cullen and Cornelius P. Mundy, who returned the verdict, said only the age and mental status of the boys saved them from the death penalty.

After the slaying the boys fled from the store without loot.

Czech Regime Steps Up Drive On Religion

VIENNA, Austria (AP)—The Communist rulers of Czechoslovakia have stepped up their attacks against religion, according to Czech newspapers and the reports of refugees reaching Vienna. The prime target is the Roman Catholic Church.

The latest drive concentrates on pressuring members of the Czech armed forces who still belong to churches to drop their membership and quit attending services.

At the same time the government and press are waging intensified campaigns against juvenile delinquency — including teen-age drunkenness and prostitution. But they are not asking the churches to help.

Denouncing religion and church attendance, the Czechoslovak youth paper *Mlada Fronta* declared that "religion soon will be legally ended as something that is superfluous and detrimental to our thinking."

The Ostrava newspaper *Nova Svoboda* said, "Atheistic propaganda must be carried out consistently and systematically on the largest possible scale." It called on all teachers, cultural and political workers to join the drive to explain the "harmful character" of religion.

Recent refugees interviewed by Westerners say Catholic soldiers are commanded to attend lectures attacking their church and to pledge to drop their membership.

At the same time there are renewed reports of secret arrests of more priests in Czechoslovakia. Many are reported sent to labor camps.

The growing problem of juvenile delinquency is attacked by numerous Czechoslovak papers, including the Communist party organ *Rude Pravo* and the trade unions paper *Prace*.

"It is a sad and tragic picture," said *Prace*, relating conditions in Prague, the capital.

Prague police are waging a stiff campaign against prostitution and venereal disease, *Prace* adds, and prostitutes are punished with fines.

Uncle Ray: Mystery Surrounds April Fool Custom

By **RAMON COFFMAN**
 To the fourth month of the year the Romans gave a name meaning Opening Month. When we think of the opening buds of spring and the sprouting seeds, it seems that April was given a good name.

There is a playful day at the start of April. When All Fools Day arrives, many persons try to fool others in one way or another.

As to the origin of that day of joking, we have several theories. One of them goes back to Noah and the Ark! A London newspaper, almost two centuries ago, said that the April fooling custom came from "the mistake of Noah in sending the dove out of the ark before the water had abated."

Another theory relates to the fact that an old French feast fell on the first of April, but was switched to an earlier month. Some persons in France kept on celebrating the old date, and they were called "April fish."

A third idea of the origin of All Fools Day relates to the old feast of Huli in India. Travelers who went to the Orient brought back stories of jokes and fooling on

Three of April's great men.

the last day of March each year. That date is close to the first of April.

Q. Who are some of the famous April-born persons?

A. Charlemagne, early emperor of the Franks; William Harvey, the English doctor who first gave a good description of the circulation of the blood; Washington Irving and John Burroughs, American writers; William Shakespeare; Oliver Cromwell; Raphael, Disraeli, British statesman; Samuel F. B. Morse, inventor; Marcus Aurelius, Roman thinker; Hans Christian Andersen, Danish writer; Thomas Jefferson, U. S. Grant and James Monroe, American presidents.

Dallas Cops Seek Motorist, Hydrant

DALLAS (AP)—Dallas police are not only looking for the motorist who broke off a fire hydrant, they

are also looking for the hydrant. Witnesses told police that the motorist, failing to make a fast turn, smashed into the hydrant, shearing it off.

They said he inspected the damage, circled the block, stopped and loaded the 75-pound hydrant into his car and drove off.

puts the 'good' in Good morning

Lady Cops Don't Like Uniforms

CHICAGO (AP)—Chicago's 81 policemen have been notified they soon will be required to wear uniforms, and most of them don't like it.

After Police Commissioner Timothy J. O'Connor disclosed the uniform plan today, some women objected that:

"Mature figures" aren't suitable for uniforms; that it's a waste of money and will impair efficiency; and "you might as well have policemen at all if you put them in uniforms."

Other police commissioners have proposed uniforms for the women but abandoned the idea.

Air Force Takes Wraps Off New Missile Aircraft

COLORADO SPRINGS, Colo. (AP)—The Air Force today took the wraps off a new version of the Northrop Scorpion known as the F99H. It is the first operational plane to be equipped with the new Falcon air-to-air guided missile.

The new all-weather interceptor, which will be assigned to Continental Air Defense Command bases, also is equipped with air-to-air folding fin rockets. Missiles and rockets are carried and fired from the wing tip pods.

Effective range for the missile is greater than that of rockets or air-borne cannon. The missiles need not be aimed precisely at the target, since they are capable of sensing the presence of a selected target and seeking it out, once released.

Demos Seek Link In Ike, GOP Policies

By JAMES DEVLIN
TRENTON, N. J. (AP) — Democrats seeking to take New Jersey out of President Eisenhower's column say they hope to dispel a feeling he is "above politics" by linking him directly to administration activities that have aroused criticism.

Republican leaders predict Eisenhower will win by a larger margin than his 359,000-vote lead in 1952. They contend efforts to destroy his popularity will get nowhere.

That is the gist of opinion picked up on a reporter's political pulse-taking tour from Jersey City and Newark, through Trenton, to Camden.

Gov. Robert B. Meyner, the state's 47-year-old chief executive, puts the Democratic case this way: "We have a job to acquit the public with the Eisenhower-Nixon record. Too often, the public have a way of dissociating what Eisenhower says and what his Cabinet members say and what his administration does."

On the other side, Republican State Chairman Samuel Bodine of Flemington says he has found the reaction of the average person to Eisenhower's second-term announcement is "excellent."

"They feel the country is safe in his hands," Bodine said. "They want him to continue on."

How about Eisenhower's health, since he suffered his heart attack? "He made the decision to run," said Bodine. "His weakness hasn't been felt up to it. We are willing to abide by that decision."

He said the Democrats would make much of the health question "but they won't fool too many people."

Bodine said he and the overwhelming majority of Eisenhower's supporters would back any vice presidential candidate the President favored. He said he has no objections to Vice President Nixon.

Raymond Bateman, executive director of the Republican State committee, said there has been a recent swing of public opinion in favor of Nixon.

A Democratic local office holder said his party's task is to dispel a popular feeling that Eisenhower is a "dispenser of peace and prosperity . . . above politics."

"How are you going to beat him?" he inquired, asking that he not be named.

But this man saw solace in 1948, when Harry Truman upset predictions by beating out highly favored Thomas E. Dewey.

The Democrats' realization that they have an uphill fight to carry New Jersey, even though it has a Democratic governor, is given emphasis by Republican Bodine. He predicts Eisenhower will win by 400,000 votes.

But a sampling of public opinion shows there is strong Democratic sentiment too.

In Camden, workers of the New York Shipbuilding Corp. roundly booed Eisenhower when he visited there on a campaign tour in 1952.

Five or six workers, interviewed at the same intersection where the boozing occurred, indicated they don't "like Ike" better now.

Robert Grimmie, a welder, of Berlin, N. J., while not attempting to speak for all the men in the yard, said many believe the Taft-Hartley law — though not changed — is being enforced more

strictly under the Eisenhower administration.

He and others pointed to the lengthy Westinghouse strike. They contended mass picketing was banned but that the company was allowed to import busloads of strike-breaking workers.

Grimmie professed no great interest in what candidate the Democrats chose, whether Adlai Stevenson of Illinois, Gov. Averell Harriman of New York or Sen. Estes Kefauver of Tennessee.

He said the main thing is to elect a man of Democratic philosophy, which he described as more favorable to the working man.

Meyner and most other Democratic leaders in New Jersey lean toward Stevenson. Kefauver has some followers. Harriman is reported to have some latent support, particularly in the Jersey City (Hudson County) area across the Hudson River from New York City.

William Egan, of Newark, peppy former Democratic chairman of Essex County, predicts that if it appears Harriman has any chance at all for the nomination he will be supported by 95 per cent of the state's convention delegation — "all except a few eggheads."

"Further," he said, "if a deadlock develops among Stevenson, Harriman and Kefauver, you can expect Truman to get the nomination. He will say he is more than 70 years old but that he will live longer than anybody. That's the way he goes about things."

The people you stop on the street have a variety of views on the election.

A refrigerator salesman in Newark, all out for Eisenhower, said the country is "well off in his hands." He predicted Eisenhower would win by a larger margin than before.

But Ludwig Scapati, a mechanic, of Newark, said, "The Republican line is done. Ike promised too much. The Republicans are doing nothing to help the poor people."

Those Republicans Get Around

Look what was awaiting Secretary of State Dulles when he flew into Colombo, Ceylon. Of course, the elephant-decorated ramp is a natural for one of the island's most useful animals, but the GOP symbol provides quite a coincidence.

Army Forms First Unit To Fire Redstone Missile

WASHINGTON (AP) — The Army today announced it is forming the first battalion to fire the new 300-mile Redstone missile and made a frank bid to retain control of this weapon when its range is extended to 1,500 miles.

In announcing activation of the 217th Field Artillery Missile Battalion, Secretary of Army Wilber Brucker said ground commanders "must have available for modern warfare long-range, surface-

Maybe Sam Bass Wasn't A Bad Man

By TIM PARKER
Associated Press Staff

Maybe Sam Bass, the notorious Texas train robber of the late 1800s, wasn't such a bad man after all.

A new light is thrown on the Denton County terror by a book just published.

It's not a new book. It was written in 1880, just two years after Texas Rangers cut Bass down at Round Rock in a gunfight which helped make the Rangers' reputation a gaudy one.

This old book, a "penny dreadful" of its time which respectable people didn't read when their neighbors were in the house, is being reprinted for the first time.

Ramon Adams, the Dallas author and book collector, says in the introduction that the only copy of "A Sketch of Sam Bass, The Bandit" he knows of is the one in the Library of Congress in Washington.

Adams has about 200 books in his own library about Bass, the outlaw. Adams' collection, one of the most complete known on Bass, fails to include information available in the "Sketch" and Adams says readers and collectors should be grateful for the re-publication.

Born into an honest and industrious Indiana family, Bass moved as a youth to Mississippi where he first took up gambling, whisky drinking and gun handling. He showed up in 1870 in Denton, a reformed, gentle character. For several years he herded cattle for the man who later was to hunt him, gun in hand—Sheriff W. F. Eagan of Denton.

Bass' career in crime, this book says, began with his purchase of "a little sorrel mare" which "tempted him to try his fortunes on the turf" and his meeting with Henry Underwood. Underwood was thereafter the lieutenant of Bass' gang of highwaymen.

After a spell of horse racing, gambling and whisky drinking at San Antonio, the train robberies began. With stage coach robbing in the Dakotas as their training ground, Bass and his highwaymen pulled their first big train robbery. Never again were they to equal their first haul—\$60,000 in \$20 gold pieces from a Union Pacific train at the Big Spring station west of Ogallala, Neb. This was on Sept. 19, 1877.

The rest of their train robberies were in Texas, and from a wilder-

ness headquarters near Denton. The Houston and Texas Central was held up six miles north of McKinney. The same train was held up a few weeks later at Hutchins, 10 miles south of Dallas. A Texas and Pacific train was held up at Eagle Ford in Dallas County. Finally the T&P was held up and robbed again, at Mesquite, 12 miles east of Dallas.

While there was an almost comical manhunt. Sheriffs, their deputies, Texas Rangers and railroad detectives whipped their panting horses back and forth across the wilderness of several Texas counties. Bass and his clever men not only were not caught. They laughed at their pursuers. Only when the law managed to get a spy in their midst was the gang brought to justice.

Written by a newspaperman of the times, Charles Martin, "A Sketch of Sam Bass, The Bandit" depicts Bass as a lover of horses, a jolly companion, faithful to his fellows. Above all, he didn't want to kill.

Like other penny dreadfuls, the "Sketch" tried to warn its young readers. "May the fearful ends of these outlaws," says the book, "prove to be effective warnings to all who are ever tempted to wander from the road right and to outrage the sanctity of God's law, the majesty of the laws of the land."

Would Soundproof School Near Air Base

WASHINGTON (AP) — A bill authorizing the government to soundproof two elementary schools near Carswell Air Force Base at Fort Worth was introduced yesterday by Rep. Jim Wright.

Increased Child Support Asked

LOS ANGELES (AP) — An attractive brunette wants Jess Barker to increase child support payments from \$50 to \$250 a month pending trial of her paternity suit against the actor.

In a superior court petition Miss Yvonne Doughty, 25, said yesterday she requires a "reasonable minimum" of \$250 to care for the 3-month-old girl.

Barker, former husband of actress Susan Hayward, has denied that he is the father of the child. Judge Elmer D. Doyle previously had ordered Barker to pay hospital costs and \$50 a month support pending the paternity trial.

Long, Merciful Deception Ends When Mother Dies

LOS ANGELES (AP) — Thirteen years of merciful deception ended when Mrs. Rebecca Orleck died yesterday without learning that her son Joseph died a Navy hero in World War II.

Mrs. Orleck, bedridden for 15 years with twin hip fractures, believed the newly contrived "white lies," strange happenings and sometimes implausible explanations given by her daughter Ethel as to why Joseph failed to return from the war.

"It had to be this way," said Ethel, "for if mother found that her youngest son had died, I'm sure the shock would have killed her. I had the help of my brother Ben until he died last October, and then I had to explain Ben's absence as well as Joe's. I only hope I did the right thing."

Lt. Joseph Orleck was killed off Salerno, Italy, in 1943. A 2,250-ton destroyer, the Orleck, was commissioned in his honor at Orange, Tex., in 1945.

Southern Hospitality

Busy though she is with a career and homemaking, Georgia bride Pat Boyd proves a gracious hostess to friends in her home. Her success secrets, which she shares with other brides on this page, consist of cooking short-cuts and a helpful husband, Jack. The goodies on the lazy susan are simple refrigerator recipes dressed up for company. (Photo by Keith McMillan.)

Newlyweds Become Experts In Short-Cut Cooking Routine

Sometimes a working girl's best household help is her husband. For Georgia bride Pat Boyd, prepared mixes, easy recipes and other timesavers are a boon, but nothing beats a husband who'll pitch in with the chores.

Lt. Jack Boyd, an instructor at Webb Air Force Base, shares the load of housework and cooking while his wife is working at Webb. The couple married in a formal ceremony at their home in Colquitt, Ga., in June.

Although Jack labels himself the "candy maker of the family," he prefers meals prepared by Pat. This is his favorite dish, which Pat can fix quickly after she gets off work:

QUICK ITALIAN SPAGHETTI
1 pound ground beef
4 ounces long spaghetti
½ chopped bell pepper

1 medium onion, chopped
1 small can tomato paste
1 teaspoon chili powder
Cook spaghetti in boiling salted water for seven minutes. Combine ground beef, chopped pepper and onion with a small amount of hot grease in a skillet. Brown evenly until done.

Drain spaghetti and add tomato paste. Mix thoroughly, then add to ingredients in skillet. Sprinkle in chili powder. Salt to taste and simmer for about four minutes. Serve steaming hot with green salad and rolls.

The recipe will serve Pat and Jack and one guest. The Boyds are active in East Fourth Baptist Church and entertain frequently.

For these get-togethers Pat has two easy refrigerator dessert courses she can serve with coffee and cold drinks. One is an extra-

rich fruit cake for "Christmas all year." Pat says. Here is the recipe:

REFRIGERATOR FRUITCAKE
1 cup sugar
1 large bottle cherries and juice
2 cups chopped nuts
1 box coconut
2 packets graham crackers
1 cup raisins
½ cup canned milk

Crush crackers with rolling pin and put in large mixing bowl. Beat sugar and milk until sugar is dissolved, then add to crackers. Add other ingredients. Mix well and pour into serving dish. Chill about an hour. Slice and serve.

For cookies that can be baked at the last minute and served warm Pat uses these:

REFRIGERATOR COOKIES
1½ cups sifted flour
½ teaspoon soda
½ teaspoon salt
½ cup soft shortening
½ cup granulated sugar
½ cup brown sugar
1 egg
3 teaspoons vanilla
½ cup chopped nuts

Measure flour, soda, salt in sifter and sift together into mixing bowl. In another bowl, cream shortening and sugar; add egg and flour mixture. Mix and add nuts. Form into a long roll, wrap in wax paper and chill until ready to bake. Bake small slices on ungreased cookie sheet at 375 degrees for 10 minutes.

Mrs. Sutton Entertains At First Dinner Party

Mrs. Julian Sutton, 1805½ Nolan, entertained her first dinner guest last week—her husband's flight commander.

The bride of one month topped a broiled steak fillet menu with lemon icebox pie.

Lt. and Mrs. Sutton have decided that buying meat wholesale and storing it in the freezing compartment of their refrigerator is an economical idea. They buy a week's supply of groceries at a time.

For the broiled filets, Mrs. Sutton thawed thick, little steaks she had purchased previously and seasoned them with salt and pepper. She placed the steaks on the lowest rack in her broiler and cooked at 500 degrees for half an hour on each side. She placed a piece of

butter on each side before broiling.

With the filets she served green beans, combination vegetable salad and cheese-topped baked potatoes.

To prepare the potatoes, she scrubbed, greased and pricked baking potatoes and roasted them about an hour in a slow oven. Then she scooped out the cooked potatoes and mixed them with grated cheese, butter, salt and pepper and refilled the shells. She topped each filled potato with a sprinkling of cheese and reheated in the oven for 15 minutes.

Here is the dessert:

ICE BOX LEMON PIE
Beat two egg yolks and add a can of condensed milk. Slowly pour the juice of three lemons into the egg mixture while beating. Pour into crust made by blending ¼ cup sugar and ¼ cup melted butter with 15 crushed graham crackers. The cracker mixture is pressed into an 8-inch pie plate.

Mrs. Sutton, the former Sally Brown, topped the pie with a meringue made with the two left-over egg whites. She beat the whites until foamy, and added six tablespoons of sugar, one at a time, beating after each addition. When the meringue stood in stiff glossy peaks, she spread it over the pie and browned it in the oven. Then the pie was refrigerated until serving time.

Transform Cookies Into Shamrocks

Shamrocks for your St. Patrick's Day table, of course, crisp and thin. Here is the recipe:

SHAMROCK SUGAR COOKIES
Ingredients:
Two cups sifted cake flour, 1 teaspoon double-action baking powder, ¼ teaspoon salt, 6 tablespoons butter or margarine, ¼ cup sugar, 1 teaspoon vanilla, grated rind of 2 large oranges (about 2 tablespoons), 1 egg, 1 tablespoon milk.

Method:
Sift together the flour, baking powder and salt. Cream butter, sugar, vanilla and grated orange rind. Beat in egg thoroughly. Beat half of sifted ingredients into creamed mixture; beat in milk and remaining dry ingredients. Chill thoroughly or cookie dough will be hard to handle. On well-floured pastry cloth with stockinet covered rolling pin, roll out one-quarter of the dough at one time so it is at least ¼-inch thin. Cut into shamrock shapes with floured cookie cutter. Place about ½-inch apart on lightly greased baking sheet; bake in hot (400 degrees) oven 6 to 9 minutes or until edges are lightly browned. Remove with spatula to cooling racks. When cold, store in tightly covered containers. Makes about 5 dozen cookies if cutters measuring about 3 inches at widest part are used.

Guests Will Enjoy St. Patrick Snacks

What else to serve to that St. Patrick's Day company? How about open sandwiches of corned beef and cole slaw with pickles and green olives for garnishment?

Cook the corned beef yourself or buy it at a delicatessen. It may be served hot or cold, thick or thin.

Spread rye bread with a mixture of butter and prepared mustard, then arrange the corned beef on them. Butter more slices of the bread and pile cole slaw on top of them. Don't hesitate to prepare cole slaw ahead of time; a period of refrigeration will do it no harm—as a matter of fact, it will probably blend and mellow flavors. And a sprinkling of caraway seed in the slaw will taste fine with the corned beef.

Lunch Pail May Carry T-Bone Meal

Charles Hood hasn't seen a sandwich in his lunch pail yet. Married a month, Mrs. Hood uses originally in packing noon meals. With aluminum foil and covered plastic bowls in several sizes she can fix a three-course lunch for her husband, who is not a "bread eater."

A broiled T-bone steak, baked potato, special salad with her own dressing and dessert comprise a typical menu.

Like most of the items Mrs. Hood uses, the steak and potato are fixed the previous night and reheated in foil just before being packed the next morning. The foil retains the heat so that the food is still warm when the noon whistle blows.

Dessert is cookies or cake. Here is the salad, which she makes in three-day batches:

LUNCH PAIL SALAD
Toss together lettuce, tomatoes, green peppers, celery, scallions, parsley, radishes and purple cabbage. Sprinkle a few drops of water over the salad, cover with foil and place in crisper. Mrs. Hood makes this dressing:

DRESSING
1 jar commercial thick French dressing
2 tablespoons sweet relish
2 tablespoons chili sauce
3 tablespoons mayonnaise
Dash of salad oil
Garlic salt

Mix these ingredients and store in a covered jar in the refrigerator.

Each morning Mrs. Hood places a helping of salad in a plastic bowl with the dressing in a separate smaller bowl. Her husband tosses it himself when he is ready to eat.

The Hood's live at 1810 Morrison. She is the former Dot Cauble.

Meringue Takes Real Know-How

For successful meringue, try these rules:

1. Have egg whites at room temperature; they beat to highest volume when not too cold.
2. If you use an electric mixer, set it at high speed when you beat the whites. If you use a hand beater, beat vigorously.
3. Follow directions and beat the egg whites only to the frothy stage before beginning to add sugar. The sugar should dissolve, for a perfect meringue, and it has more chance to do so this way than if the whites are beaten stiff before adding the sugar.
4. If you keep finely granulated sugar in the house, use it in the meringue; it dissolves a little more readily than regular granulated sugar. This fine sugar is called "powdered" in some parts of the country, but it is not confectioners' sugar.
5. When the last of the sugar is beaten into the egg whites, the mixture should form stiff glossy peaks. When you slowly withdraw the beater from the meringue you should have stiff peaks that do not curl over.
6. Spreading the meringue may be done this way: spoon blobs of the egg white mixture around the edge of the filling, then draw toward the inner rim of the pastry all around so no filling shows. Now spread meringue over the rest of the filling. Don't smooth out the meringue; if it is too flat, swirl it up with the back of a spoon.
7. Cool the meringue-topped pie away from drafts.

Jiffy Menu Includes Caesar Salad, Dessert

With a double time handicap, Mrs. Lee Axtens, an August bride, is learning to cook with a flair for taste appeal.

Besides being a homemaker with an additional outside job, Mrs. Axtens must schedule her main meal during her one-hour lunch break because of her husband's irregular working hours.

She prepares most of each day's lunch before she leaves for work in the morning. Utilizing commercial short cuts is "the only way" she feels she can manage meals in a limited time.

One of her typical menus, elaborate enough for guests, includes Caesar salad, porcupine meatballs, whipped potatoes and cherry cobbler. Here it is:

CAESAR SALAD
Tear romaine into bite-sized pieces. Add croutons, which can be purchased already garlic-seasoned. Toss with commercial Caesar salad dressing, to which she adds two teaspoons of lemon juice. Grate a small piece of romello cheese over the salad.

PORCUPINE MEATBALLS
1 pound ground beef
½ cup raw brown rice
3 tablespoons minced onion
Salt and pepper to taste

Mix and shape into little balls. In a pressure cooker, a real timesaver for a working bride, Mrs. Axtens thinks, combine a can of tomato soup and ¼ cup water and heat to boiling. Add meatballs and cook at 15 pounds for 10 minutes. The dish can be reheated quickly when serving time comes at noon. The sealed cooker prevents air and bacteria from entering the food during the morning. Serve the tomato gravy over whipped potatoes.

CHERRY COBLER
Heat one can of cherries with ¼ cup sugar and ¼ teaspoon tapioca. Prepare dough recipe for quick-mix biscuits and cut into tiny biscuits. Place cherries in cobbler dish and put biscuits on top. Bake 12 minutes at 400 degrees.

BRIDE'S DIVINITY
3 cups sugar
¼ cup light corn syrup
¼ cup cold water
2 egg whites
1 teaspoon vanilla

Heat sugar, syrup and water in pan over low heat, stirring only until sugar is dissolved. Cook until soft ball stage. Beat egg whites until stiff. Continue beating and pour half of syrup slowly over beaten egg whites. Continue beating while cooking the rest of the syrup to the hard ball stage. Add gradually to egg mixture while beating. Add vanilla and beat until candy is thick enough to drop from spoon. Add chopped nuts if desired. Place by spoonful on buttered platter. Makes 35 or 40 pieces.

Mrs. Clark obtained this recipe from 4-H Club material. The Clarks live at 207½ E. 9th.

Mrs. Wayman Clark Whips Up Divinity In Half An Hour

Divinity candy stumps many long-time cooks, but Mrs. Wayman Clark, a bride of a month, has an easy recipe which takes her less than half an hour to prepare.

Mrs. Clark, the former Janelle Neel, has an outside job during the day and does most of her cooking in the evening. Using her new electric mixer, she whips her husband's favorite candy this way:

CHERRY PIE 'Bakes' In Refrigerator

Refrigerator desserts are favorites with brides, especially those who are still handling careers.

Mrs. Gene Bledsoe, married Feb. 10, has a rich cherry dish she prepares for company. She is the former Frankie Marstrand. Here it is:

CHERRY ICE BOX PIE
1 can condensed milk
Juice of 2 lemons
1 can drained pie cherries
1 cup sugar
½ pint whipped cream

Blend milk and lemon juice. Add sugar and cherries. Then fold in whipped cream.

For a crust, mix ½ stick butter and 1 cup finely crushed vanilla wafers. Press into 9-inch pie plate. Bake 10 minutes at 325 degrees. Cool. Pour filling into shell and refrigerate.

Top with more whipped cream and garnish with whole cherries for an even richer dessert.

Bread Sea Scallops Fix Quick Breakfast

Breading sea scallops for a Friday night supper? Count on a quarter cup of fine dry bread crumbs for each pound of scallops.

Work saver: canned scrapple that needs only to be sliced and fried. Nice for Sunday morning breakfast.

CHERRY COBLER
Heat one can of cherries with ¼ cup sugar and ¼ teaspoon tapioca. Prepare dough recipe for quick-mix biscuits and cut into tiny biscuits. Place cherries in cobbler dish and put biscuits on top. Bake 12 minutes at 400 degrees.

BRIDE'S DIVINITY
3 cups sugar
¼ cup light corn syrup
¼ cup cold water
2 egg whites
1 teaspoon vanilla

Heat sugar, syrup and water in pan over low heat, stirring only until sugar is dissolved. Cook until soft ball stage. Beat egg whites until stiff. Continue beating and pour half of syrup slowly over beaten egg whites. Continue beating while cooking the rest of the syrup to the hard ball stage. Add gradually to egg mixture while beating. Girl, 12, Gives Birth

COLUMBIA, S.C. (AP)—A 12-year-old Columbia girl gave birth to a son yesterday and both were reported today "doing nicely" at a local hospital.

She is Mrs. Lewis Meetez, who has been married about a year to a teen-age West Columbia construction worker.

An attending physician said the baby weighed a healthy 6 pounds, 14 ounces.

Wife Brings 2 Black Eyes To Court In Beating Complaint

CHICAGO (AP)—A woman who obtained an injunction Friday to prohibit her husband from adding to her claimed total of 1,151 beatings in 12 years of marriage was back in court yesterday with two black eyes.

"He beat her twice more before the injunction could be served," explained the attorney for Mrs. Phyllis Valentino, 41. "That brings the total beatings he has given her in their 12 years of marriage to 1,153—assuming she has not overlooked any."

Judge Harry G. Hershenson then issued a new order—that Peter Valentino, also 41, leave the house and pay \$40 a week for support of his wife and two daughters.

Blind Bank Workers Doing Work Of 18

HOUSTON, Tex. (AP)—Nine blind workers at the National Bank of Commerce are doing a job in three days that used to take 15 to 18 workers as long as a week. They are stuffing the annual report of Tennessee Gas Transmission Co. into envelopes to be mailed to some 60,000 stockholders.

Hospitals Here Still Waiting For Ford Foundation Grants

Two Big Spring hospitals feel reasonably certain they are to get nice fat checks from the Ford Foundation but they are not placing any bets on just how soon these checks will be here.

The Big Spring Hospital was advised in December that it has been listed to receive \$24,600 from the Foundation. On the same day, the Malone-Hogan Hospital was notified it was in line to get \$21,400.

In a few days, the hospital managers received letters advising them to process and file their formal requests with the foundation. They were told they had until March 15, 1956, to have those requests with the Foundation.

Naturally, neither of the Big Spring hospitals waited.

"We have had our request on file for a long time," said D. S. Riley, manager of the Malone-Hogan Hospital.

"Our application was in the hands of the Foundation by mid-February," reports Charles Weeg, manager of the Big Spring Hospital.

WILL TAKE TIME

Neither Weeg nor Riley believes that the checks will be in the mail on March 15. They think it will be a long time after the March 15 deadline for requests before the checks.

"According to the information I have," Riley said, "after the request is processed and approved, the first payment will be only for one half of the grant. The second half will be paid to the hospital within 18 months after the first, as I understand the plan."

Weeg said it was evident that the task of studying the requests and processing the grants would be a ponderous one.

"Hundreds and hundreds of hospitals, large and small, were included in the original lists issued by the Foundation. Of course, every one of these filed a request."

"From the letters we have received it is obvious that the officials of the Ford Foundation will go over these requests very carefully. That is certainly going to take some time."

"I do not look for any payment of the grants here before mid-July or perhaps later."

Under the terms of the offer, the hospitals must pledge themselves to use the funds for special purposes—extending new services not now provided, purchase of needed equipment and similar improvements.

MONEY WILL BE WELCOME

Both Big Spring Hospital and Malone-Hogan Hospital plan to make use of the funds, when they are available, for such purposes.

"Every hospital," said Riley, "has a hundred places where it can use money. We need new equipment, for example, and it is possible much of our grant, if and when we get it, will go for that use."

Weeg said his request had been made as general as possible in order to leave as much leeway as could be arranged for the use of the money.

It is specified that the funds must not be used for ordinary operation expenses nor for liquidation of accumulated obligations against the hospital.

Weeg pointed out that the agreement with the Foundation also specifies that each hospital receiving grants must submit a detailed report at the end of three months after the money is at hand. In this report the use to which the funds are being put must be described.

Two years later, the Foundation will require a second report. In this statement, the hospital must show what use it has made of the money, how much of the total has been spent and how much remains of the original funds.

Driver Gets Even With Top Spinner

SAN ANTONIO (AP)—Frank Salazar, 4, was spinning a top in front of his home when the top spun away and struck a passing car. Police said today the angered motorist stopped the car, got out, spanked the youngster and drove away.

Girl, 16, Holds Police At Bay

ATLANTA (AP)—A 16-year-old girl with red hair, a straight razor and a switch-blade knife held suburban DeKalb County authorities at bay for three tense hours yesterday before she was disarmed.

Police Capt. Harry Christian said she placed the razor at her throat and the open knife at her side and warned officers:

"One step more and I'll kill myself."

Christian and juvenile Judge Murphy Chandler eventually persuaded her to put down the knife. Then the police captain grabbed the razor. He said his trouser leg was slashed open in the struggle.

The girl was found in a wooded area near her home after chasing her step-father and her mother across the street. They called police.

Christian said she seemed to think her family was too strict. "She told us she'd been sent to an institution last December and stayed for six weeks. She said she'd die before going back."

MEN IN SERVICE

Mr. and Mrs. J. M. Williams, 1011 E. 21st, have received word that their son and family, S. Sgt. and Mrs. Jerry M. Williams and children, have arrived in Tokyo, Japan, where Sgt. Williams is starting a three-year tour of duty with the Air Force.

The airman was stationed at Webb AFB until last Jan. 24. This is his second assignment to Japan, but the first visit to the Orient for Mrs. Williams and the children, Jimmie, Jerome and Carolyn Sue.

Sgt. Williams has been in the Air Force for six years and was stationed in Japan in 1951 and 1952.

Two men from here have been transferred to San Diego, Calif., for their recruit Navy training after enlisting last week.

The two are Bertie D. Tucker, son of Mr. and Mrs. James W. Tucker, 911 N. Gregg, and Jerry Mike Thomas, son of Mrs. Ruby Edna Thomas, 1010 Main.

The two will be given nine weeks of recruit training, receive 14 days leave, and then be assigned to a permanent base or job. All men enlisting for the Navy during March will be sent to San Diego for their initial training.

Pvt. Charles E. Butler recently was assigned to the 732nd Anti-Aircraft Artillery Battalion at Ft. Mason, Calif.

Butler's wife is residing in Stanton. He is currently assigned as a cannoneer in Battery A of the Battalion. Prior to assignment at Ft. Mason, Butler was serving at Ft. Bliss.

Recently taking part in an amphibious training mission with the 25th Infantry Division in Hawaii was Pvt. Pete R. Rasmussen, son of Mrs. H. J. Smith, 1004 E. 21st.

The training, including an actual beach landing from troopships, was designed to familiarize the men with the basic techniques of regimental and battalion size amphibious operations.

Rasmussen is a truck driver in Service Battery of the 25th Division's 90th Field Artillery Battalion. He entered the Army in November of 1954 and prior to going to Hawaii he was stationed at Camp Gordon, Ga.

The 90th Battalion is stationed at Schofield Barracks, Hawaii.

Vicious Circle

OSWEGATCHIE, N.Y. (AP)—This is what is known as a vicious circle: A fire truck couldn't get to a fire in the town garage here because of snow-covered roads. The fire, which leveled the garage, was discovered as highway workers reported for snow removal. Three snowplows were destroyed.

Spurned Suitor Sent To Prison

AUSTIN (AP)—Al Bennett Jr., who fired a bullet into the face of a pretty young woman he had hoped to marry, has started a two-year prison sentence.

Before Judge Harris Gardner issued the prison sentence yesterday the girl, Frances Senkel, now Mrs. Steve Hawley, asked that her former fiance, 21, not be sent to prison.

She was shot as she and her husband-to-be left a nightclub here late last year. The bullet went into her open mouth, lodging in the back of her neck, missing the spinal cord. Her face was not marred.

Gardner refused Bennett's plea for probation, calling the offense too serious. Bennett pleaded guilty to a first degree assault to murder charge Monday.

The final six firms combined force is less since Cameron O'Daniel W. Lee Co., of Dallas, \$114,624 in from \$5,000. Reached Mrs. O'Daniel husband who did not locate.

"The police do not know who shot the man," O'Daniel said. "My husband was not located."

"The police do not know who shot the man," O'Daniel said. "My husband was not located."

32 Boys Charged In Home Damage

OKLAHOMA CITY (AP)—Some 32 high school boys were arraigned on criminal charges growing out of the wrecking of a widow's farm home near here Friday night.

Oklahoma City Atty. Granville Scanland charged 12 boys with malicious destruction and 20 with unlawful assembly. Both misdemeanor charges are punishable by a year in jail or \$500 fine, or both, on conviction.

The boys admitted the vandalism. Scanland said he decided to proceed with prosecution although the widow, Mrs. Lulla Long, 80, said she didn't want to prosecute. Parents agreed to rebuild her house.

Tulsa Negro, 100, Gets Married Again

TULSA, Okla. (AP)—Charley Stewart, a Tulsa Negro who listed his age as 100, was married last night to "a girl up the street half my age." His bride is Miss Beatrice Daniel. His first wife, by whom he had 12 children, died 12 years ago, he said.
