Cain Presses Criticism Of Loyalty Plans

WASHINGTON (AP) — Harry P. Cain said today President Eisenhower showed "deep concern and interest" in the government loyalty-security program.

Cain, in further testimony prepared for a Senate Judiciary subcommittee on constitutional rights, charged that "Fascist" type abuses have marked the program to an extent where application for a federal job he said "becomes a terrifying and inhumane trap."

Resuming testimony he began yesterday, he said innocent men and women may be tabbed as security risks without ever learning why, or having a real chance to defend themselves.

Cain, a Republican and a former Washington state senator, has indicated he expects to be dropped from his \$15,000-a-year job as a member of the Subversive Activities Control Board because of his outspoken criticism of the loyalty-security program.

He denounced anew the practice of automatically suspending those against whom derogatory information is turned up. He said, "The President, among many others, wants this practice stopped." He said that before Congress adjourns it should pass a law abolishing the practice.

Eisenhower, he said, did not seem to know, until their face-to-face talk at the White House last Thursday, that under the present system a spy and a drunk are counted alike in the overall tabulation of those fired as security risks.

"The President had thought that a clear distinction was being made between loyalty cases and security cases," he said.

Actually, he said, that was the case until Eisenhower's 1953 executive order setting up the program now in effect. He said this change made the program an "all-encompassing standard which mixes loyalty, security and suitability indiscriminately" with some times "disastrous" results.

This, he said, has resulted in 3,600 employees being fired as security risks and 6,000 others who "resigned because, so it is reported, their files contained derogatory information." He termed those figures so misleading as to constitute an "unattractive numbers game" that he said could become a "racket" unless Congress intervenes.

'Good Leads' In Brady Bombing

BRADY (AP) — Officers checking the car bombing of Sam McCollum III, Brady attorney, said yesterday they were "getting some good leads."

Dist. Atty. Bill Alcorn said that he and Ranger Capt. Gully Casert had questioned several more persons. Casert said one person suspected as an accomplice had been cleared.

The Brady attorney, 37, a witness in the veterans land scandal investigation, was critically injured Friday when a bomb wired under the hood of his car exploded.

Alcorn said B. R. Sheffield had not taken a lie detector test which Sheffield had requested to clear himself. Sheffield is charged on 40 counts.

Baby Fatally Hurt

BROWNSVILLE (AP) — Johnny Ramirez, 5-month-old, died yesterday of injuries received when his father's truck overturned at the airport here Monday. Julio Ramirez, 28, of Brownsville and his wife were injured.

Dulles Won't Meet China Red Leader

WASHINGTON (AP) — State Department officials ruled out today any meeting between Secretary Dulles and Premier-Foreign Minister Chou En-lai of Communist China until the Reds substantially change their behavior.

"The State Department last night made clear the Red Chinese must first:

1. "Fulfill" their agreement of last Sept. 10 to permit 13 Americans imprisoned in China to return home.
2. Make a "meaningful renunciation" of the use or threat of force in connection with its claims on Formosa, the home of Chiang Kai-shek — Chinese — Nationalist Government.

The statement was issued after the Red Chinese regime had disclosed a proposal made at Geneva May 11. This called for a quick agreement on the general renunciation of force by the United States and Red China and for a Dulles-Chou meeting by July 11.

That proposal was rejected by the State Department, and officials said there is not the slightest chance of getting such a meeting as long as the Communist continue on their present line.

On the question of Formosa the Red Chinese proposed last Dec. 1 a "draft agreement under which both sides in general terms would renounce force.

The United States termed this unsatisfactory on the ground that it lacked a binding application to the Formosa issue. The United States proposed wording that would make it apply specifically to "the Taiwan (Formosa) area or elsewhere."

The State Department said the United States had hoped its amendments to the Red Chinese draft agreement would be acceptable, then added:

"But these reasonable hopes were met by a Communist rejection of what amounted to its own proposal."

Art Collection To Be Dissolved

At a gala party in her home in Beverly Hills, Calif., Mrs. Edward G. Robinson bade farewell to one of the most famous art collections in Western America. Mrs. Robinson is due to file for divorce next month from her actor husband and that means the dissolution of the art treasures the Robinsons have collected for a quarter century. Looking over one of the art objects is, left to right: Actress Susan Hayward, Actor Van Johnson, Mrs. Robinson and her son, Edward G. Robinson Jr. (AP Wirephoto).

New School Tax Rate Increased To \$1.70

School taxes will be up next year, at \$1.70 per \$100 of property valuations instead of \$1.50 as in the past.

Trustees fixed the maximum rate last night, although they postponed a decision as to the amounts to be devoted to debt service and operations.

Trustees discussed briefly the prospects for an increase in teacher pay. The \$36,000, they said, would provide a raise of about \$100 per teacher. No action was taken on salaries, however.

The school board decided to take

\$1.70 rate will bring in about \$395,000.

In addition to meeting obligations of the new \$900,000 bond issue, the new rate will provide about \$36,000 in additional operating funds, Pat Murphy, school business manager, estimated.

Trustees discussed briefly the prospects for an increase in teacher pay. The \$36,000, they said, would provide a raise of about \$100 per teacher. No action was taken on salaries, however.

The school board decided to take

Olympic Stables Swept By Flames

STOCKHOLM, Sweden (AP) — The training building of the stables for the Olympic equestrian games caught fire tonight. The entire area was turned into chaos with whinnying horses running wildly about. None of the champion horses was trapped.

The training building, used by the Swedish Guards Regiment and tinder-dry with hay and fodder, burst into flames late in the afternoon.

Fire and smoke enveloped the entire area now being used to decide the 1956 Olympic championships.

The building is surrounded by stables housing the prize horses brought here by 29 nations for the contests.

Flames shot up 100 feet, and from dozens of windows of the training house before the roof collapsed at 5 p.m.

Ambulances were rushed into the area.

There were several thousand spectators along the thoroughfare outside the training house area.

The building, 120 by 450 feet, had been used by Olympic teams for the past week or ten days to train their horses in the intricate dressage exercises.

The Olympic stables are about 400 yards away. A dozen Stock-

holm fire companies concentrated on keeping the flames from spreading to that sector.

Horses belonging to teams from Canada, Germany, Venezuela, Japan, Italy, Spain, Britain and Brazil were led quickly away from one building near the burning structure.

The horses were tied to trees and groomed managed to quiet them.

States Right Bill Proposed

WASHINGTON (AP) — A Southern-sponsored bill approved by the Senate Judiciary Committee would leave state laws in force along with federal legislation in the same field—unless Congress says it is taking over the whole area.

The measure, which won a 7-2 vote in the committee yesterday over Justice Department objections, goes far beyond a bill by Sen. Bridges (R-NH) which the group approved June 5.

The Bridges bill, introduced as a result of the Steve Nelson case in the Supreme Court, provides only that states may continue to enforce their sedition laws. The new bill would cover that and other areas as well.

Nelson, Pennsylvania Communist leader, was convicted under Pennsylvania's sedition law but on April 12 the Supreme Court threw out the verdict. The high court held that the federal government had taken over exclusive jurisdiction with the Smith Act and other anti-subversive laws. Many states have laws on the subject.

The new bill was introduced by Sen. McClellan (D-Ark) and 11 other Southern senators.

Former Governor Ely Dead At 75

WESTFIELD, Mass. (AP) — Joseph B. Ely, Democratic governor of Massachusetts from 1930 through 1934, died early today at his home.

The 75-year-old Ely succumbed six months after he underwent an operation for a brain tumor in a Boston hospital.

With him at the time of death was his only child, Richard, a resident of Weston.

Ike Turns To 'Lot Of Work,' Signs 27 Bills

WASHINGTON (AP) — President Eisenhower took up a considerable amount of official work today although suffering discomfort in the wake of his emergency operation.

Eisenhower held a 45-minute meeting with key White House staff members, signed 27 bills and other official documents. He also arranged to meet tomorrow in his Walter Reed Hospital room with West German Chancellor Konrad Adenauer.

An aide said Eisenhower "looked and sounded quite chipper" and did some personal dictating to his secretary, Mrs. Ann Whitman. This included a message of thanks to Mexican President Ruiz Cortines, who telephoned good wishes earlier in the week.

"We did a lot of work this morning," White House press secretary James C. Hagerly said. He spoke to a news conference about an hour before the lunch-time medical bulletin was scheduled to be issued.

The 8 a.m. medical report said the President spent a fairly comfortable night and that his blood pressure and other physical symptoms were about what could be expected at this stage of recovery from an intestinal operation such as he underwent Saturday.

In all, Eisenhower signed into law eight bills plus other measures. These included three agreements with other countries—Great Britain, New Zealand and the Dominican Republic—relating to the civil uses of atomic energy.

He sent Congress a long list of nominations in the Public Health Service, Coast Guard and Marine Corps. And he signed letters approving the elevation to the rank of minister for Outerbridge Horsey, deputy chief of mission in the American Embassy at Tokyo.

Finally, Eisenhower signed four messages to various private organizations and affixed his signature to two letters to Congress, one each to the Senate and the House reporting on trade fairs held during 1956.

Nation Remains Under Heat Wave

Most of the nation continued to suffer in unseasonably hot and humid weather today.

Early morning temperatures were in the 70s and 80s from the Plains States eastward today after readings of 90 and above yesterday. A cool front moved into the Northern Plains but little relief was expected east of the Mississippi River, where more hot and humid weather was forecast with scattered afternoon and evening thunderstorms.

The hottest June 12 on record. Other high temperatures included Fargo, N.D., 99, El Paso, Tex., 98, Milwaukee and Minneapolis, 95.

Elks Will Sponsor Flag Day Ceremonies Thursday

While they put finishing touches to their plans for a tri-city Flag Day program at Steer Stadium on Thursday evening, Elks officials today appealed to business men and others to display the United States colors all day Thursday.

The Elks, joined by lodges in Odessa, are sponsoring the program which is to start at 7:30 p.m. at the stadium. It will feature music by the Webb AFB band, flag ceremonies by the

Fight Seen On Housing Bill

WASHINGTON (AP) — A big house fight over public housing was in prospect today after the House Banking Committee approved a bill that goes far beyond the program President Eisenhower has requested.

The committee yesterday okayed a measure that would provide for 100,000 new public housing units, plus 20,000 units designated for elderly persons. These would be erected over a three-year span, starting Aug. 1.

Other sections of the general housing bill call for a three-billion-dollar increase in federal Housing Administration mortgage insurance authority, special credit and loan insurance features applying to housing for older persons, veterans and military personnel, broadened slum clearance aid to the states, and bigger home improvement loans.

The President asked Congress to authorize 25,000 public housing units a year for two years.

Burns Are Fatal

HARLINGEN (AP) — Mrs. Ethel Daniels died yesterday of burns suffered in her home Monday. A container of gasoline she had knocked over while cleaning paint brushes had ignited.

Foreign Aid Goes Before Senate Panel

Push Inquiry In C-City Deaths

COLORADO CITY — Authorities are pushing an investigation into the deaths of Mr. and Mrs. James Ables, Colorado City couple whose bodies were found on the bank of the Colorado River 12 miles northeast of here Tuesday afternoon.

An autopsy last night showed that Ables, 36 and his wife, Margaret, 40, died of bullet wounds.

Dr. Jarrett Williams, Abilene pathologist, said Mrs. Ables had been shot three times—in the chest, neck and head. Ables had a bullet wound and skull fracture.

A 22-caliber pistol with seven empty chambers were found at Ables' feet.

It was estimated the two had been dead since Saturday afternoon.

Justice of the Peace G. C. Lemons ordered the autopsies. He had reached no verdict in the inquest this morning.

Bodies of Mr. and Mrs. Ables were found by Gene Miles, a pumpjack operator at Ecolis, Mitchell County oil man. Neither was fully clad. Ables' trousers, found nearby, had the legs rolled up. The upper part of Mrs. Ables' body was undressed. Tracks on the riverbank gave rise to speculation that the two had been wading or swimming in the river.

The two were last seen in Colorado City about 10 a.m. Saturday. Raymond H. Gilchrist, son of Mrs. Ables, said he saw the couple leave their home at 556 E. 5th Street, James Greer, step-father of Ables said he saw them a few minutes later in Ables' pickup.

Mrs. Ables' body was found in the pickup, slumped away from the driver's seat. Ables was on the ground at the right side of the vehicle. Identification was established from jewelry, clothing and papers.

District Attorney Eldon Mahon, Lemons and Sheriff Dick Gregory are conducting the investigation. Mahon said Ables last week asked him to purchase a gun for him. He said also that Mrs. Ables was hospitalized at a hospital May 28 for bruises. Greer said that he, Ables and other members of the family had been fishing Memorial Day

and patriotic talks, including the principal address by Col. Charles M. Young, wing commander at Webb AFB.

Thursday will mark the 179th anniversary of the flag's adoption by the Continental Congress on June 14, 1777.

Ryan Jr., exalted ruler of the Big Spring lodge, urged citizens to fly the flag on his birthday as "an effective way of reaffirming our belief in the American tradition of freedom and self-government."

The Flag Day observance is part of an Elks tradition, and for several years now the formal ceremonies have been retitled between Big Spring, Midland and Odessa. Officials of those lodges will be here Thursday evening to take part in the program.

Ryan said that the schedule indicated the program would be approximately an hour in length. He appealed to people in this area to turn out for the ceremonies.

Johnson Says Ike Has Not 'Proved Case'

WASHINGTON (AP) — Sen. Lyndon Johnson of Texas, the Democratic leader, said today the Eisenhower administration has not yet "proved its case" for a Senate increase in the amount of foreign aid the House voted.

Johnson stated that view as the Senate Foreign Relations Committee completed its first closed-door session on the house-passed \$3,800,000,000 authorization for funds to strengthen other countries against the Communist threat. The amount left in the measure is \$1,104,000,000 less than the administration asked.

Sen. Knowland of California, the Republican leader, said the committee did not get down to the issue of fund ceilings but might do so at an afternoon session.

Johnson said senators would be willing to heed President Eisenhower's appeal for more aid funds "but the administration is going to have to make a case which it hasn't yet."

"If it makes a case, fortifies the testimony its officials gave the House," the Democratic leader said, "the Senate will do what is best for the country."

The Republican senators rallied behind Eisenhower's plea for more money, calling on their colleagues to uphold his "staunch leadership for peace."

Committee Chairman George (D-Ga) led in a move aimed at increasing the House total by 300 millions. Senate sources said passage of this proposal would be "difficult, but possible."

With Sen. H. Alexander Smith (R-NJ), a senior member of the committee, already committed to fight for restoration of at least part of the House cuts, the 10 other Republicans voiced this admonition:

"If we waver in our leadership, uncertainty and doubt among other nations can only lead to a drift that will endanger us all. Let us not throw away the best weapon we have against communism. This is the time above all to hold the staunch leadership for peace which the President represents for all the world."

The signers were Senators Clifford Case (N.J.), Allott (Colo.), Bender (Ohio), Buff (Pa.), Bush (Conn.), Flanders (Vt.), Ives (N.Y.), Kuchel (Calif.), Payne (Maine) and Purtell (Conn.).

Senate leaders who participated in a White House conference on the issue yesterday said the administration would settle for 600 millions above the House figure.

However, George's advocacy of a 500-million-dollar increase appeared to peg that figure as the top possibility.

The statement of the 10 Eisenhower supporters said the Senate is "facing a fateful decision."

"However heavy the aid expense may seem, it is nonetheless infinitely cheaper than the cost of waging war," they asserted. "A cut in mutual security funds does not mean that money will be saved. NATO is still our first line of defense against an onslaught across Europe. We will have to spend several times the amount just to keep up the same level of defense. And clearly we dare not let down our defenses at this new and critical stage in world affairs."

Jury Resumes Deliberation In Chapa Case

FORT STOCKTON (AP) — A jury resumed its deliberations today in the trial of D. C. Chapa, former Benavides School District tax assessor-collector charged with theft and embezzlement. The jury had not reported at noon.

The Duval County case went to the jury at 10:30 p.m. yesterday. Jurors retired for the night 70 minutes later and resumed their deliberations at 8:34 a.m. today.

Chapa lounged in the courtroom awaiting the verdict. His three sons were with him. Except for court attendants, the courtroom was vacant.

Dist. Atty. Sam Burris urged that the jury give Chapa the maximum of 10 years in prison.

Describing Chapa as "an outdoors man, a hunter, not a pen pusher," defense attorney Perry Foreman argued that any missing funds might have been taken by someone in Chapa's office.

Much closing testimony revolved around the sale of 15 registered bulls by Chapa.

Attorneys for Chapa, who is specifically charged with embezzling a \$6,325 check, have contended the former Duval County official had other income.

Chapa's son, O. P. Carrillo, testified earlier his father sold the 15 bulls. He said the transaction was for cash, no bill of sale was made and the purchaser furnished his own truck and shipped the animals to Cuba.

The defense was using Carrillo's testimony concerning the shipment of the bulls in an attempt to explain a part of \$19,000 listed on Chapa's income tax reports as "miscellaneous income."

Gail-Big Spring Road Bids Opened

Improvements on the Gail-Big Spring Highway were part of the work on which bids were taken yesterday by the State Highway Department.

J. O. Boswell, Lubbock, was low bidder on 11.9 miles of grading, structures and paving near Gail on FM 669 (the Big Spring road) and near Snyder on FM 1673.

Bids totaling \$7,744,199 were opened on highways and farm roads throughout the state.

GOP Leaders Still Confident Ike Will Be Their Candidate

WASHINGTON (AP) — Four Republican senators said today they are not even considering the possibility that President Eisenhower will change his mind about running again.

And Sen. Kefauver (D-Tenn), an aspirant for the Democratic presidential nomination, said he thinks the "Republicans will run the President if they can possibly do it."

Kefauver also said he regards as "wide open" the Democratic race and has no intention of quitting it because of his crushing defeat in the California primary by Adlai E. Stevenson.

"I don't think anybody has the nomination sewed up and I am going to continue my campaign to get it," Kefauver said. "I took

the hard ones along with the easy ones in the primaries, and California was a hard one for me. But I am encouraged by the reassurances I have had from my supporters since then. My delegates are all standing firmly behind me."

Stevenson's friends have talked of a possible second-ballot nomination, but Kefauver said he doesn't think anything like that will happen. Kefauver said he does not have any agreement with Gov. Averell Harriman of New York, who threw his hat into the ring as an active candidate Saturday.

Eisenhower is certain of the GOP nomination unless he should reverse his Feb. 29 decision to seek a second term.

The four Republicans — Sena-

tors Mundt of South Dakota, Payne of Maine, Bridges of New Hampshire and Jenner of Indiana—all figuratively threw up their hands when asked in separate interviews to speculate on the name of a candidate if Eisenhower doesn't run.

"My candidate is Eisenhower," Bridges said, "and beyond him I haven't got any candidate."

Jenner said he thinks Eisenhower is "indestructible" and will not be swayed down long.

Payne said: "I think those who say he might not be a candidate are just indulging in wishful thinking."

Mundt said he thinks Eisenhower will be able to put on a more vigorous campaign than ever because an old physical ailment has been removed by the operation.

VACATION-PAK IS FREE!

All you do, before you leave on your vacation, is call The Herald Circulation Department, 4-4331, and ask for "Vacation-Pak."

This means that all your papers will be saved for you during your absence, then will be delivered in a handy plastic bag, good for many uses.

Make the Vacation-Pak order one of your going-away "musts."

Netherlands Votes For A Parliament

THE HAGUE, Netherlands (AP)—Some six million Dutch citizens were expected today to elect a new lower house of Parliament. No major foreign policy issues were involved.

The general elections for the 100-member second chamber will again bring an alliance government. None of the country's political parties can win enough seats to rule alone.

Front runners in the ballot contest were the Labor party and the Roman Catholic People's party.

The Catholic People's party, a middle-of-the-road group, has taken in a right-wing Catholic party and expected to gain two or three seats from that action. The Labor party hoped to attract some of the votes that elected six Communist members in the last elections.

Premier Willem Drees, a 63-year-old Laborite, has led a four-party coalition government. Pre-election speculation had it that Drees would return as premier if the Labor party pulled out in front, or if there is another Labor-Catholic draw. It was regarded as unlikely that Drees would serve a cabinet under a Catholic premier.

The outgoing government was agreed on a foreign policy featuring Western cooperation and European integration. Compromises were reached on such domestic issues as anti-inflation measures and a housing shortage.

Charges were filed here this morning against two men accused of burglary in connection with the break-in of Hughes Tool Company here June 3.

One of the two was caught with a juvenile in the Hughes building in Big Lake Monday night. Statements were taken from them Tuesday. Detective Jack Shaffer said, Shaffer and Police Chief C. L. Rogers were in Big Lake to question the suspects Tuesday.

The second was to have been apprehended in San Angelo today; all are from San Angelo.

Charged here were Jim Jack Blackshear, 35, and Arthur C. Jones, 18. The juvenile case will be turned over to A. E. Long, juvenile officer.

Four Hughes burglaries in Abilene, plus three, in Big Lake and one here are being charged to the three.

Statements said the three were selling drill bits to re-tipping firms in San Angelo. They agreed to take authorities to the establishments today. They were selling the used bits to the re-tipping firms for \$7.50 each, the statement said.

Warrant Issued For Freeman Imprisonment

A warrant for arrest of B. E. Freeman, former Howard County tax collector, and order for his commitment to the state penitentiary was issued by George Choate, district court clerk, Jess Slough, sheriff, served the warrant on the former official Tuesday afternoon.

Freeman is under a two-year prison sentence for misappropriation of public funds. He was convicted in 118th District Court Dec. 3, 1953.

Originally arrested on an indictment by the grand jury Freeman posted bond on June 19, 1955.

He will probably go to the state penitentiary within the next day or so, it was said at the county courthouse.

Freeman was not listed on the jail blotter as being in jail. Deputies in the office of Sheriff Slaughter said that the sheriff had personally served the warrant and they did not know any details about the matter. Efforts to contact Slaughter, who was said to be on an assignment, were unsuccessful.

A bonding company handed the county a check for \$9,252.52 on Monday as settlement for the alleged shortages in the accounts of Freeman while he was tax collector for the county. The check was to cover the years 1949-50-51-52.

County commissioners court accepted the check and gave the Hartford Accident and Indemnity Co. a release securing it from further liability in the matter.

Freeman has made a succession of appeals to the Texas Court of Criminal Appeals since his conviction. All have been denied.

'Tax Dodging' Case Against Ex-Officials Goes To Jury

ST. LOUIS (AP)—The month-old tax-fixing trial of two former Truman administration officials went to the jury today with a judge's instructions that even though the government was depending on circumstantial evidence it could be as "conclusive as direct evidence."

The jury immediately began deliberating after the instruction from U.S. Dist. Judge Ruben M. Hulien.

Attorneys for Matthew J. Connelly and T. Lamar Caudle told

them yesterday they should acquit the defendants. They said the prosecution had failed to prove they conspired to defraud the government.

Connelly, White House appointments secretary under former President Truman, and Caudle, who headed the Justice Department's Tax Division, are charged with fixing the income tax case of Irving Sachs, St. Louis shoe manufacturer.

John J. Hooker of Nashville, Tenn., a defense attorney, told

the jury "the overwhelming weight of the evidence points to Caudle's innocence."

He pointed to physicians reports that prosecution; of Sachs would endanger his life and then asked: "Is everybody dishonest? Can you say anything was fixed about these letters from these fine doctors?"

Connelly's attorney John H. Lashley of St. Louis said the former White House aide "is not to be tried on suspicion or gossip or innuendo."

"The basis for the government's case has to be proof. There has been a flood of suspicion in the record."

Chief prosecutor Willis S. Newcomb said the evidence shows two oil royalties were purchased for Connelly and Caudle by Atty. Harry I. Schwimmer with Sachs' money, and Schwimmer's intent was to purchase influence.

Schwimmer, former Kansas City attorney now a Puerto Rico businessman, was also a defendant in the trial until he was granted a mistrial because of illness.

Sachs was fined \$40,000 on a guilty plea in 1951 but escaped a prison term on health grounds.

Elks Win Award For Publication

Big Spring Elks have received a trophy for the outstanding lodge publication in the state.

"The Elk's Horn," paper of the local lodge, won the distinction in judging at the state Elks convention in Fort Worth during the past weekend.

W. C. Ragsdale of Big Spring received a special merit award for this work as chairman of the state publicity committee for Elks. He also was re-appointed to the post. W. D. Boyd of Big Spring was offered the state chaplaincy for the third term.

Attending the convention from the local lodge were C. C. Ryan Jr., exalted ruler, R. L. Heath, secretary, Mr. and Mrs. Ragsdale and Rev. and Mrs. Boyd.

Discussion Group Closes Course On Economic System

The Chamber of Commerce economics discussion group closed out its 17-lesson study of the "American Competitive Enterprise Economy" this morning.

Participants agreed after the final discussion period that the series was "beneficial" and Dr. W. A. Hunt, president of Howard County Junior College, announced plans to include the short course in the HCC adult education program next fall.

Certificates will be awarded to nine members of the group who attended at least 80 per cent of the meetings, said J. H. Greene, Chamber manager. Among these will be Clyde Hollingsworth, Cecil Bowles, George Larson and J. B. Apple, who attended all of the sessions.

Thirty-two persons enrolled for the short course which was prepared by the U. S. Chamber of Commerce.

Regulation Cited As Threat To Farm Ownership, Freedom

Members of the Howard County Farm Bureau heard a stern warning last night that continued broadening of government control and regulation of their farming operations could ultimately lead to their losing their freedom as individuals and to the confiscation of their farms.

The speaker was Millard Shivers, organization director for the Texas Farm Bureau. He was guest speaker of the Howard County Farm Bureau at the quarterly meeting of the organization. The meeting was in the Howard County Junior College Auditorium. About 100 farmers and members of their families from Howard and Dawson County were in attendance.

Shivers, who quoted from current magazine and newspaper reports, cited the dangers of too much dependence on government for too many things and warned the Farm Bureau members that "we have already gone a long way along the same road which was followed by peoples of other lands who now have been deprived of every freedom and liberty."

He emphasized that the halt of this threat to individual freedom is a responsibility of every man and woman in the land. Working in cooperation through organizations

such as the Farm Bureau, he declared, could correct conditions which are building up to the danger point.

C. H. DeVaney, state director, introduced the speaker.

Ralph White, president of the local bureau, presided at the meeting and presented Scott Russell,

Chased Raccoon In Unusual Place

PROVIDENCE, R. I. (AP) — Two special agents battled and captured their prey on the ledge of a 10th floor office building in the downtown business district.

Then the two agents from the Society for the Prevention of Cruelty to Animals asked, "How did the raccoon get to the 10th floor of an office building?"

Smuggling Charged

MANILA (AP) — Philippine police charged today that American service personnel are involved in a smuggling ring with a Chinese jeweler. The Navy had no immediate comment.

Youth On Trial At Boys' Ranch

Intervention by friends has saved a 14-year-old Big Spring boy, who has confessed to burglarizing seven business establishments in this city, from being sent to Gatesville Training School.

Instead, the boy has been taken to the Boys Ranch at San Angelo. He has been held in jail for several weeks while his case has been under consideration. He was first examined by the Big Spring State Hospital mental experts. The hospital reported that the youth is mentally ill but that the state hospital had no facilities for

Lost 82 Pounds With Barcentrate

"When I commenced to take Barcentrate, I weighed 290 pounds," writes Mrs. W. L. Toms, 805 S. 15th St., Corsicana, Texas. "I now weigh 208, a loss of 82 pounds."

Barcentrate is the original home recipe for taking off ugly fat. If the very first bottle doesn't show you the way to reduce safely, easily, without starvation diet, return the empty bottle for your money back.

Get Barcentrate at any Texas drugist. Over six million bottles sold in Texas in 10 years. This great volume makes Barcentrate cost little.

his car or treatment. Application for his admission to the Boys' Ranch had been filed but considerable investigation by the operators of the ranch had to be made before that institution made its decision. The boy has been removed to the ranch and will be kept there on probation for 90 days. If his conduct justifies he will continue at the ranch.

LETTER TO CANDIDATES

'Fair Campaign Practices' Urged

HOUSTON (AP)—All candidates are being urged to subscribe to a code of fair campaign practices by Texas Protestant, Catholic and Jewish leaders.

The code, developed from recommendations of a Senate subcommittee on privileges and elections and endorsed by the major national political parties, is aimed at insuring fair play and high ethical standards.

Letters to candidates are being sent over the signatures of Bishop Everett Jones, vice president of the Texas Council of Churches; the Rt. Rev. Bishop E. Lucy, archbishop of San Antonio; and Maurice Dammannbaum, chairman of the Southwest Advisory Board of the Anti-Defamation League of B'Nai B'Rith.

The code contains pledges to conduct a campaign "in the best American tradition, discussing the issues as I see them, presenting my record and policies with sincerity and frankness and criticizing without fear or favor the record and policies of my opponent and his party which merit such criticisms."

"Defend and uphold the right of every American voter to full

and equal participation in the electoral process."

Condemn the use of "personal vilification, character defamation, libel, slander or scurrilous attacks on any candidate or his personal or family life."

Condemn the use of "campaign material of any sort which misrepresents, distorts or otherwise falsifies the facts regarding any candidate, as well as the use of malicious or unfounded accusations against any candidate which aim at creating doubts without justification as to his loyalty and patriotism."

Condemn "any appeal to prejudice based on race, creed or national origin."

Condemn "any dishonest or unethical practice which tends to corrupt or undermine our American system of free elections or which hampers or prevents the full and free expression of the will of the voter."

Repudiate at once and publicly "the support of any individual or group which resorts, in behalf of my candidacy, to the methods and tactics which I condemn."

Rescued After Eight Days In Hazards Of River Gorge

MOAB, Utah (AP)—When a boat carrying two uranium prospectors capsized in the raging, muddy Colorado River, one of the men took off "over the rim" to the west.

The other, 43-year-old Charles

L. Robinson of Hot Springs, Ark., elected to work along the river and eat berries to stay alive.

Robinson was rescued yesterday, exactly eight days after the mishap.

Instead of berries, he ate raw lizards and cactus, and he lost 42 pounds during his ordeal.

Lizards taste a lot like sardines or tuna when a guy is good and hungry," he said as he recuperated in a Moab hospital.

Of his adventures, he commented: "This was a stupid, idiotic thing I was rescued alive only by a divine act of God."

"There is nothing heroic about going through there. Those rapids are fantastic. You can't imagine how hot, precipitous the cliffs. . . ."

"You can feel your neck and wrists getting skinny. . . . That stuff about living a month in the forest with a knife is bunk. Not in this country. The lizards are too small."

Robinson declared he is going straight home to Hot Springs, Ark. "where there are trees and water. I've had enough of the Colorado."

Robinson's companion Bryan Waelder, 52, of Long Beach, Calif., was rescued last Friday after walking overland almost 100 miles through the desert toward Hanksville, Utah.

Lamesa C Of C Directors Meet

LAMESA — At a Chamber of Commerce directors meeting this morning, Manager Pat Ryan gave a report of the Transportation Committee that U. S. 87 and 180 associations are now conducting a joint membership drive, seeking \$5 for each association.

The goal is \$400 for each group. He cited benefits of good highways.

Bernie Holt is chairman of the joint drive.

Ryan also reported for the Sports and Recreation Committee regarding the girls recreation program this summer. He said school facilities have been made available and that the city and county have each contributed \$125 to expenses of the program. Miss Jimmie Davis of Odessa has been employed as director and will take over July 2. Chamber President Clyde Branon announced that J. Ledger Craig, U. S. Chamber representative from Denver, has asked to meet with directors and legislative committee on June 21.

Ralph Morgan Of Stage, Screen Dies

NEW YORK (AP)—Funeral services will be held tomorrow at the Little Church Around the Corner for Ralph Morgan, 72, veteran actor of stage and screen.

Morgan, who died at his home here Monday night, began his acting career in 1906. Illness forced his retirement 2½ years ago. He since had been under treatment for a lung ailment.

He was a brother of the late Frank Morgan, also an actor. His daughter Claudia is a radio and television actress.

His greatest success was in the Eugene O'Neill tragedy "Strange Interlude" in 1929. He repeated the role in the film version.

For the next 20 years Morgan concentrated on motion picture roles. He appeared in "The Magnificent Obsession," "Orient Express," "Rasputin" and others.

Boswell Speaks At Lions Meet

LAMESA — Dawson County Judge Aubrey Boswell last night told the Lamesa Evening Lions Club that Dawson County is in healthy financial condition.

He said that in practically every department savings are being made, but that the county still is not skimping. He also discussed the functions of the judge's offices and his courts.

In regard to the juvenile court, he said that in homes where laxity is the rule, trouble arises.

"In Dawson County we find many welfare problems that are without suitable solutions," Boswell also said.

In a business session, the club discussed the possibility of leasing and operating the swimming pool here. A committee was appointed to study the proposition.

DEPENDABILITY? Let's face it! No car at any price can match the solid ruggedness you'll find when you...

DISCOVER THE DIFFERENCE IN DODGE!

Dodge gave the most amazing proof of dependability ever recorded! In a grueling test of endurance at Bonneville, the '56 Dodge was driven at top speed night and day for 14 full days. It went over 31,000 miles at an average speed of 92.86 mph without a single breakdown!

The Dodge frame is built to take it! Massive box-section side rails extend the full length of the frame, are stronger than U-channel or I-beam types used in other cars. Short, rigid brackets anchor the body securely to the frame.

- Dependable in little things, too!
- Electric Windshield Wipers - Never slow down when you speed up!
- Weather-Proof Ignition System - For fast, sure starts always!
- Independent Parking Brakes - Like having a second set of brakes!
- Safety-Rim Wheels - For added blow-out protection!
- Safe-Guard Brakes - Have two cylinders for sure stop!

Methodist WSCS Has Election Of Officers

Members of the First Methodist Women's Society of Christian Service met in their respective groups Tuesday to elect officers for the coming year.

An organizational meeting of the Fannie Stripling Circle of the First Methodist Church was held at the home of the new chairman, Mrs. G. K. Chadd.

Mrs. Chadd was in charge of the study "The Spirit of Christ-For All My Life." She also gave the closing prayer.

Other officers and chairmen will be Mrs. Hugh Duncan, co-chairman; Mrs. H. G. Keaton, missionary education; Mrs. Duncan, spiritual life; Mrs. W. S. Goodlett, CSR; Mrs. Fran Wilson and Mrs. W. A. Underwood, fellowship; Mrs. Jeff Brown, secretary; Mrs. Merle Stewart, treasurer; Mrs. H. J. Whittington, publications and telephone; Mrs. Maurine Mallon, card chairman; Mrs. E. A. Williams, reporter; Mrs. T. J. Walker, membership.

Ten members and one guest attended the meeting. Mrs. Lloyd Curley will be hostess for the July 14 meeting at 9:30 a.m. in her home at 1700 Purdue.

Officers for the next year were elected at the final meeting of the Sylvia Lamun Circle when the group met in the home of Mrs. W. A. Hunt.

Mrs. Hunt will be the leader; Mrs. Rex Baggett, assistant leader; Mrs. Bill Ward, secretary; Mrs. Horace Garrett, treasurer; Mrs. W. M. Roman, missionary education; Mrs. Albert Smith, CSR; Mrs. Arnold Marshall, spiritual life; Mrs. Ralph Gossett, reporter; Mrs. Don Newsom, fellowship; Mrs. James Duncan, supply; Mrs. John Davis, status of women.

Mrs. R. W. River, Mrs. Keith Hanson and Mrs. Richard Deats attended for the first time as new members.

Pledge cards were distributed

Rebekah Instruction School Is Postponed

School of instruction announced for June for the Rebekah Lodges has been postponed until July, according to an announcement made Tuesday evening by Mrs. Jones Lamson.

The lodge's deputy president told the John A. Kee Rebekah Lodge, meeting in Carpenter's Hall, that due to illnesses among members the school will have to be set at a later date and will be held in Stanton. She also announced that the practice for installation of officers is scheduled for the meeting Tuesday evening.

Mrs. Barney Hughes, noble grand, was in charge of the meeting, and memorial services for deceased members of the year were held.

Mrs. Jesse M. Barker became a new member by transfer from the lodge in Rotan.

Thirty-four members attended.

Mrs. M. C. Patterson, noble grand, presided for the meeting of the Big Spring Rebekah Lodge Tuesday evening at the 100F Hall. Members were told of the postponement of the school of instruction,

Marriage Plans For Couple Announced

LAMESA — Mr. and Mrs. Arthur K. Van Hooser, 510 N. Ave. F, Lamesa, announced the engagement and approaching marriage of their daughter, Lois Ann, to Charles Buckalew, son of Mr. and Mrs. Olen Buckalew, of 310 N. Avenue M.

The couple will be married Aug. 12 at 3 o'clock in the First Methodist Church. The Rev. Charles Cooke, pastor of the Clark Methodist Church, will read the ceremony.

The bride-elect was a sophomore the past year at Lamesa High School, where she was a member of the Future Teachers of America and the Future Homemakers of America. The prospective bridegroom attended Lamesa High School and served in the Army with overseas duty.

SSUSN Members

The Society of Spouses of the United States Navy, founded in 1907 by a group of senators' daughters, is still going strong and is still as exclusive as ever. Its members are women who have been chosen by the Navy to christen its combat ships—cruisers, battlewagons, destroyers and submarines.

New members include Mrs. Charles S. Thomas, wife of the secretary of the Navy who christened the aircraft carrier Saratoga, and Mrs. Robert Carney, wife of the former chief of naval operations, who whacked the champagne bottle over the prow of the destroyer John Paul Jones.

Former Residents

Mr. and Mrs. Roy Percifield, Las Vegas, Nev., are visiting here with her sisters, Mrs. L. B. Kinman and Mrs. Jones Lamar, and their families. They have been living in Las Vegas for several years, and he is employed by the Atomic Energy Commission. Two decades ago, they were residents of Big Spring. Mrs. Percifield is the former Fannie Underwood.

At a meeting of the Reba Thomas Circle Tuesday evening in the home of Mrs. Elton Arnold, Mrs. J. W. Dickens was elected chairman.

Chosen vice chairman was Mrs. O. G. Hughes; Mrs. W. A. Roe will serve as treasurer and Mrs. Charles Staggs as secretary. Mrs. Arnold was elected membership chairman; Mrs. Martin Staggs, fellowship; Mrs. J. B. Knox, spiritual life chairman.

Mrs. Warren Sparks is chairman of missionary education; Mrs. Frank McDonald, sunshine chairman; Mrs. E. N. Nichols, Christian Social Relations; Mrs. Lige Fox, literature and publications and Mrs. Beth Lacy, telephone.

Eight attended the meeting.

Hold Exercises At Westbrook Tonight

WESTBROOK — Commencement exercises for the Baptist Vacation Bible School will be held this evening at 8 o'clock at the church. The public is invited to attend.

Announcement has been made that Play Night for the young people of the church is set for Friday evening at 7:30.

The Methodist Vacation Bible School will begin at 8 a.m. Monday and will be in session for five weeks and will run through June 22. Hours will be from 9 to 10 a.m. for children ages 3 through 16. Mrs. Price Hendrix will be principal of the school.

Alabama Plan For Forsan Visit

FORSAN — Mr. and Mrs. Davis Murphree of Birmingham, Ala. are expected in Forsan Thursday evening to be the guests of Mr. and Mrs. John Kubecka and Mr. and Mrs. W. B. Dunn.

Mr. and Mrs. L. W. Moore, Cheryl and Angela spent the weekend in Sweetwater with Mr. and Mrs. Buddy Cox and family.

Mr. and Mrs. G. G. Green and Barbara of Seminole visited there recently.

Mr. and Mrs. Roy S. Klair, Sharon, Sandra and Rickie, plan to leave Sunday for Denver, Colo. for a vacation.

Guests in the home of Mr. and Mrs. E. E. Blankenship have been Mr. and Mrs. M. A. Porter of Gorman.

Mr. and Mrs. Henry Park and family of San Angelo were Sunday guests of her parents, Mr. and Mrs. B. D. Cardwell.

Mr. and Mrs. John Kubecka have recently entertained Mr. and Mrs. Pike McIntosh of Eldorado; Mrs. Christina Stone and children and David Morrison, all of San Angelo.

Bride-Elect Of Local Man Honored At Fete

LAMESA — Betty Jane Hill, bride-elect of Charles Ray Black of Big Spring, was complimented with a gift tea recently in the home of Mrs. Fred Cook. Other hostesses with Mrs. Cook were Mrs. A. J. Beckmyer, Mrs. Lloyd Wiggins, Mrs. A. P. Anderson, Mrs. S. A. Goolsby, Mrs. Fred Herren, Mrs. W. L. Ramsey, Mrs. Mike Davidson and Mrs. Claude Miller.

The bride's chosen colors of blue and white were used in the decorations. The serving table was laid with a white cloth centered with a miniature bridal couple in a satin covered wagon hitched to a silver star. The favors were wedding rings tied with blue and white satin ribbons.

Peggie Davis presided at the punch bowl, assisted by Wilma Ramsey and Peggy Cave. About 50 guests attended.

'Duff, Lush And Fuss'

Visitors to the office of Sen. James Duff (R-Pa.) on Capitol Hill always get a laugh when they're introduced to "Duff, Lush and Fuss." The senator's administrative assistant bears the name G. L. Lush. His secretary is Dave Fuss.

Uppity Mynah Bird

The former ambassador to Portugal, Col. Robert Guggenheim, has a mynah bird that gives wolf calls and gets real uppity in commanding the attention of the family butler by shrieking his name, "Lockwood."

Jeneva Taylor Feted With Bridal Shower

In the home of Mrs. B. D. Rice Tuesday evening, Jeneva Taylor was the honoree for a miscellaneous bridal shower. She is the bride-elect of Rford Dunagan; the wedding is scheduled for July 20 at East Fourth Baptist Church.

Hostesses for the affair were Mrs. James Cauble, Mrs. Bob Craig, Mrs. Ed Stringfellow, Mrs. H. M. Macomber, Mrs. R. C. Stocks and her daughter, Maxine, Mrs. W. H. Forrest, Mrs. H. Reeves and her daughter, Patsy, Mrs. C. A. Tom, Mrs. Maple Avery, Mrs. Geneva Yates, Mrs. Mildred Reid, Mrs. Dick Davis, Marguerite Cooper and Mrs. Leon Cain.

Mrs. Rice greeted guests and presented the honoree, her mother Mrs. L. E. Taylor, and the prospective bridegroom's mother, Mrs. Rescoe Dunagan.

Miss Stocks and Miss Reeves served from a table laid with a lace cloth over green. An arrangement of pink and white gladioli was flanked by white candles in crystal holders. Crystal serving appointments were used.

For her shower, Miss Taylor chose a light blue taffeta dress, long torso and with a low neckline. The skirt was full. She wore pumps in the same shade of the frock and her jewelry was of rhinestones.

The guest list included over 50.

Westbrook WSCS Dinner Celebrates 15th Year

WESTBROOK — In honor of their 15th anniversary, the Women's Society of Christian Service of the Methodist Church recently held a dinner in Fellowship Hall.

The invocation was given by Mrs. C. W. Newton followed by group singing of the hymn, "The Morning Light Is Breaking." Mrs. Price Hendrix, incoming president, gave the welcome address and a special song "Take Us, O Lord, With Thee." Mrs. Bill Reese and Mrs. J. W. Hawkins, accompanied by Mrs. George Sweat at the piano. The outgoing president, Mrs. L. E. Gressett, spoke on "Our Heritage."

Mrs. E. L. Ashford, Mrs. Roy Messinger and Mrs. J. W. Hawkins gave their ideas on "What The Society Means To Me."

A highlight of the dinner was the presentation of a life membership to Mrs. Reese. The award was made by Mrs. Gressett.

The closing song was "Call of Christ." Mrs. Edgar Andrew gave the benediction.

The table was laid with white cut work cloth with an arrangement of cut flowers for a centerpiece. Place favors were miniature fans made of lace doilies, with program and menu printed inside.

Sixteen attended.

Forsan Man Gets 25 Year Recognition

FORSAN — Mr. and Mrs. J. M. Miller have recently attended the 25-year service banquet honoring employees of the Phillips Oil Co. in Bartlesville, Okla. Mr. Miller received a watch in recognition of his quarter century with the company. The Millers will be away for two weeks while vacationing.

Mr. and Mrs. R. Z. Cozart and children have vacationed with friends and relatives in Pampa, Ackerly and Austin.

Mr. and Mrs. Jeff Pike have had as their guests her daughter-in-law and children of Corpus Christi. They were en route to Denver, Colo.

Mr. and Mrs. Gene Huestis and family have been visiting in Lubbock recently.

Sue Miller is in Odessa visiting friends.

J. R. Fullerton of Vernon is in Forsan to spend the summer months with his sister and her family, Mr. and Mrs. Clarence Schwede.

Capitol Hostesses Get Bids In Early

WASHINGTON — Folks planning big shindigs in this town have to get their bids in well in advance.

The committee planning the second International Ball on the eve of the fifth running of the International Race at Laurel, Md., had to confirm their date for Nov. 8 weeks ago. The ball, for the benefit of the Children's Cerebral Palsy Center, is to be held at the Laurel Race Assn., which counts many prominent socialites among its members. Last year's opener was one of the capital's most glamorous affairs and drew the support of all the town's top fighters. He pulled out their most dazzling jewels, ballgowns and furs.

Temple Baptist GA Meets At Church

Members of the Intermediate GA of Temple Baptist met Monday afternoon at the church. Jeanie Cox is president. Oleta Faye Buxette is reporter.

The girls are now making a campaign for new members to be added to the group by the end of July. All girls of the church are urged to attend each Monday at 4 p.m. at the church.

Plans were discussed Monday for the coronation, which is an annual event. Seven attended the meeting.

College Chapel WMU Has Service

A Royal Service program was given for members of the College Chapel WMU Tuesday morning at the church.

Mrs. Leonard Coker was in charge of the program, which was on the topic, "The Word—A Lamp and a Light." Mrs. Boone Harne offered the opening prayer.

Mrs. Coker read selections from the Bible, and Mrs. Paul Warren sang "Break Thou The Bread of Life," accompanied by Mrs. H. W. Bartlett. Others on the program were Mrs. Jimmy Howard, Mrs. James Choate, Mrs. Bob Swift and Mrs. J. D. Stewart.

Refreshments were served to 14 by the members of the Melvina Roberts Circle.

The Juanita Arnett Circle will meet Tuesday in the home of Mrs. Choate. 1706 Young; Mrs. Zack Gray, 1317 Tucson, will be hostess for the Melvina Roberts Circle.

Fifteen Young Folk Attend Fellowship

ACKERLY — Fifteen young people attended the Youth Fellowship at the Ackerly Baptist Church Saturday evening.

Mrs. C. Y. Knowlton of Ranger spent the weekend with her son and family, Mr. and Mrs. M. L. Knowlton. A daughter, Mrs. Elton Clanton, and her family of Seminole accompanied her home for a visit.

Mrs. Ira Myles returned home Saturday after spending the week in Lubbock with her son and family, Mr. and Mrs. Jack Myles.

Mrs. Tommy Horton suffered a badly cut knee when she fell at her home recently.

Mrs. J. Roy Haynes and Jeanne are in Rising Star where they are visiting relatives. They plan to visit in other East Texas towns before returning here.

Merwin and Brenda Beal have returned from Midland where they visited their grandmother, Mrs. Vina B. Beal.

Mary West Honored At Bridal Shower

ACKERLY — Mary West, bride-elect of Kenneth Moore of Lamesa, was honored at a bridal shower given in the Lester Brown home recently.

The serving table was covered with a white Irish linen cloth, and the central arrangement was a bouquet of white stock and fern. Crystal was used in serving by Beverly Russell and June Jaye Brown.

Hostesses for the affair were Mrs. Gaston Martin, Mrs. Travis Russell, Beverly Russell, Mrs. V. H. Coleman, Mrs. Alford-Henson, Mrs. E. G. Cates, Mrs. Brown and Miss Brown.

Dolores Mabry played piano selections during the party hours and Marcia B. Rhea displayed the gifts. Twenty-six friends called during the evening.

Miss West and Mr. Moore will be married June 7 at 3 p.m. at the Ackerly Methodist Church.

In Two Lengths

In a smart, sleeveless sports dress that buttons down the front. Two lengths are provided — street frock or just above the knees.

No. 1499 with PATT-GRAMMA included is in sizes 10, 12, 14, 16, 18, 20. Size 12, dress, sleeveless, 2 1/4 yards of 35-inch; short dress, 2 1/2 yards.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, 367 W. Adams St., Chicago 6, Ill.

Ambassador Gives 'Viennese Party'

WASHINGTON — Austrian Ambassador and Mrs. Karl Gruber treated their friends to something new in the way of entertaining with "A Viennese Evening" at their new embassy residence in nearby Maryland first country to set up an embassy outside the District of Columbia. The Grubers, who came to Washington only a couple of years ago, first lived in a small mansion on Embassy Row on Massachusetts Avenue.

The large picture windows and glass-enclosed porches of the charming new residence overlook flower-filled terraces and a rock garden marked with white stone effects from which the estate gets its name, "White Flint."

The big, handsome ambassador wore a gray flannel Tyrolean suit trimmed with black braid, and Mrs. Gruber a becoming Salzburg costume of black with white lace frills at the cuffs of the long sleeves and a deep garnet silk apron. Austrian dirndls were worn by wives of embassy staff members as well as some of the women guests.

Best Way to Kill Roaches and Ants

COCKROACHES and ants are the most difficult household pests to control. Now you can kill these pests with Johnson's Super No-Roach.

No-Roach is a white viscous substance which you apply with a brush. Within minutes it dries to form a colorless, odorless contact insecticide, that stays effective for months.

Cockroaches

Apply No-Roach to cupboard walls, baseboards, near sink and cabinets, on pipes, and wherever you see cockroaches.

Ants

Brush No-Roach around table legs and counter tops, across window sills and door sills, and across ant trails. Ants will not cross the coating. Pour a few drops into ant hills.

No-Roach is also effective against resistant roaches, spiders, silverfish, waterbugs, bed bugs and other crawling insects. This common sense No-Roach.

Remember, when you use Johnson's Super No-Roach, you don't have to move dishes, pots and pans, or breathe harmful vapors, as you must with contaminating sprays. Apply No-Roach just where you want it. The invisible coating stays effective for months.

Guard against crawling insects this common sense No-Roach.

Yugoslavia Answers Foreign Aid Stand

BELGRADE, Yugoslavia (AP) — The chief organ of the Yugoslav Communist party charged today that certain "reactionary circles in the world" prefer the cold war of the Stalin era to the "significant contribution of the present Soviet leadership to the lessening of world tension."

organized by former Yugoslav Vice President Milovan Djilas. It called him the "hiredling" of "certain reactionary American circles" and accused him of writing an anti-Tito article in Time magazine.

Labor Leader Hits The South On Civil Rights

GRAND RAPIDS, Mich. (AP) — A top official of the United Auto Workers' wants organized labor to help draw up a civil rights plank that would drive Southern advocates of racial segregation from the Democratic party.

Once one of Tito's closest associates, Djilas was ousted from office in January 1954 for deviating from the party line. A year later he was convicted of making statements to foreign correspondents here which "slandered" the government and was given an 18-month suspended sentence.

Djilas has been living in Yugoslavia since his fall. The New York Times published a letter from him May 20 complaining that the Tito regime had prevented him from publishing a book he had written.

The party paper said articles by Djilas involved "slanders and dirty allegations toward prominent leaders and democratic forces which at present are fighting for world peace and friendly relations among peoples."

Certain "reactionary and not peace-loving circles in the world," the party organ said, do not like the "present favorable development of international relations."

The party paper said articles by Djilas involved "slanders and dirty allegations toward prominent leaders and democratic forces which at present are fighting for world peace and friendly relations among peoples."

The 23, including film players Gale Sondergaard, Anne Revere and Howard Da Silva and writers Waldo Salt and Paul Jarrico, asked damages of 2 1/4 million dollars each.

End Over End Race Crash

Thomas Priddy, 27, Louisville, Ky., rode to his death in this spectacular stock-car crash at the Memphis-Arkansas Speedway in Lehi, Ark. He was fatally injured on the first turn of the 39th lap when his 1956 Chevrolet sideswiped another racer. He was thrown clear. Priddy's close friend, Clint McHugh, 28, Biloxi, Miss., was killed in a wreck at the Speedway the day before. (AP Wirephoto).

Atomic Radiation Tested For Preservation Of Food

ST. LOUIS (AP) — Ladies in about five years you just might be able to serve your family a meal with foods preserved through atomic radiation.

The process was described today to a meeting of the Institute of Food Technologists. It is intended to supplement present-day methods of canning and refrigeration.

Capt. Reuben Pomerantz, radiation preservation officer of the Quartermaster Food and Container

Returning Relics

MOSCOW (AP) — The Soviet government says it will return to Romania historic relics and works of art given "refuge" in Moscow during two world wars. Some of the objects date back to the 6th century B. C.

Harriman And Stevenson Will Stay Friendly

NEW YORK (AP) — Top New York state backers of Gov. Averell Harriman and Adlai E. Stevenson have agreed to remain friendly rivals in the campaign to win the Democratic presidential nomination for their candidates.

They said they endorsed a friendly campaign so as to assure the eventual nominee of united support from New York Democrats after the party's national convention.

The understanding was reached yesterday at a luncheon attended by Carmine G. DeSapio, Democratic national committeeman and Harriman backer; Thomas K. Finletter, chairman of the New York State Stevenson - for - President Committee; and former Air Force secretary and Alef Rose, vice chairman of the Liberal party.

The Liberal party, which exists only in New York state, has not announced support for any candidate, the Liberals backed Stevenson in 1952.

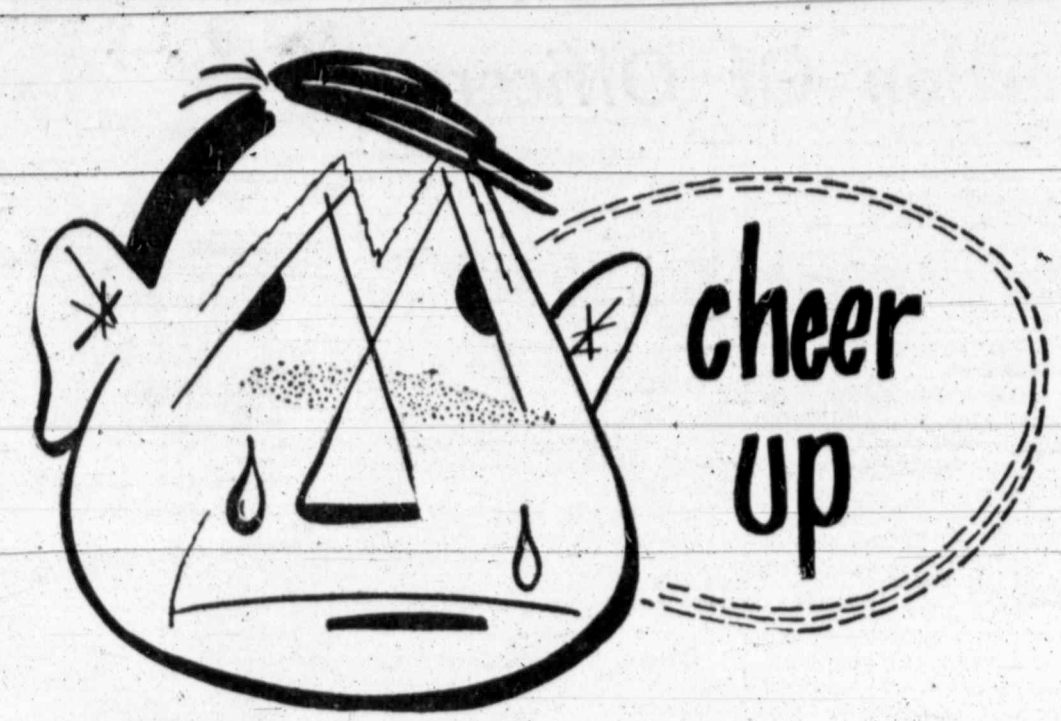

DeSapio, Finletter and Rose issued this joint statement: "While there are supporters in New York state for both candidates, for Gov. Harriman and (former) Gov. Stevenson (of Illinois), our objective is to maintain maximum unity in our ranks so that the nominee of the Democratic convention in Chicago will have united support in New York state."

Currently the Stevenson forces claim seven votes among New York's 98 votes at the convention. The rest are counted for Harriman.

Rotary Club Hears About 4-H Program

Farm Agent James Taylor and three members of the Howard County 4-H Club traced development of the 4-H program and 4-H activities in a program at the Rotary luncheon Tuesday.

On the program with Taylor were 4-H members Mack Robinson, Rodney Brooks and Tommy Newton. Taylor outlined the 4-H development and the boys talked about their projects and activities.

Six Children Are Killed In Sand Cave-In

NEW YORK (AP)—With a whispering rush, a wall of sandy earth swept down on a group of children playing in a Brooklyn excavation last night. Six of them—two girls and four boys—were smothered and crushed to death. Police and the Brooklyn district attorney began an investigation to determine if negligence was involved. It could not be determined immediately whether a watchman had been posted to keep neighborhood children out of the block-square excavation. It was supper time in the teeming Williamsburg section, a district of aging, closely packed tenements. Nine youngsters apparently were digging a tunnel in the soft sand at the foot of the 30-foot wall of the excavation, which was for a highway underpass. Eleven-year-old Marie Stanikunas had been sent to call her brother and sister home for supper. She saw them in the hole. Just then the earth moved. Marie screamed and grabbed another sister, Dolores. The cascading sand swirled around her ankles and sucked off her shoes, but the two girls escaped. A post office employe heard the screaming and arrived in time to pull out 9-year-old Anatole Bykov alive, but seriously injured. Marie pulled a fire alarm box. Soon the pit was swarming with police and fire rescue workers. The six children were pulled out soon, but they could not be revived. Frantic parents and relatives poured down from the surrounding tenements.

Falcon Water Board Calls For Conservation

MALLEN (AP)—All members of the Falcon Water Compact were urged yesterday to discontinue pumping and to help enforce all rules to assure water for the Lower Rio Grande Valley cities. Trustees of the compact asked its members to aid the Falcon watermaster, Col. Kenneth Smith, to enforce the rules of the State Board of Water Engineers. The board ordered all releases of Falcon water on the Rio Grande cut off last Thursday night to conserve the remaining water for Lower Rio Grande Valley cities. The compact trustees set up this policy to govern the compact: 1. The compact recognizes that municipal and domestic use of water are legally superior of the use of water for irrigation and that all proper means should be employed to insure the retention behind Falcon Dam of a proper amount of water for such purposes, and its delivery for such purpose. 2. That the watermaster, attorneys for the compact and all persons acting under him are to cooperate in every way with the State Board of Water Engineers and city officials in the Rio Grande Valley. 3. That all members of the compact discontinue all pumping and use of water for irrigation during the period when restrictions are in effect. Smith said he believed compact members were complying with the orders to shut down their pumps and have been observing their quotas.

'Squash Bugs' Invade County

Millions of squash bugs have invaded Howard County pastures and yards in Big Spring, according to County Agent James Taylor. These bugs come in two sizes, the smaller nymphs which are wingless and of a yellowish-green color, and the adult bugs which have an oblong shape and can fly. Taylor says the bugs can do little damage on rangelands, as they mostly stay on mesquite bushes and do not eat grass. He doesn't think they will do enough damage to justify poisoning. However, if insecticides are applied, he suggests that the owner use three per cent lindane, two per cent parathion or 20 per cent sabdille. The last insecticide is slightly more effective than the others. The squash bug hatches out only one crop of nymphs a year, so he thinks this invasion will not last long. When the adult bugs die, the infestation will probably end until another growing season. Last year squash bugs were found in large numbers in the Lee's community south of Big Spring and particularly on the McDowell ranch. Apparently they did little harm and disappeared within a few weeks.

Killed By Train

PAINTED POST, N.Y. (AP)—Miss Burney Flaniken, 74, of Dallas was killed and her sister critically injured when their stalled auto was struck by a Lackawanna-Rail road freight train here last night. Mrs. Harry Refo, 61, wife of the registrar of Tusculum College at Greenville, Tenn., was injured.

Without The Cap, Who Can Tell?

With his puckish smile, Rep. Hale Boggs (D-La.) could well be your own friendly cab driver. And posed in front of the Capitol, with a slightly overgrown haircut, Wilfred A. Bergeron of New Orleans, La., might have a "Rep." in front of his monicker, too. This bit of fun came when 33 cabbies from many sections of the country toured Washington as winners in a nationwide safe, courteous driving contest. (AP Wirephoto).

British Pull Out Of Suez Canal Zone After 74 Years

PORT SAID, Egypt (AP)—The last British soldier quit the Suez Canal zone today, ending 74 years of British military occupation in Egypt. The last to leave was Brig. J. H. S. Lacey, who quietly handed over the Port Said harbor navy house to the Egyptians at 6:25 a.m. Lacey boarded the British LST Evan Gibb and with 10 officers and 80 enlisted men sailed for Famagusta, Cyprus. They were the last of the British garrison, which two years ago numbered 25,000 men. The Union Jack was lowered for the last time in the zone at 6 a.m. yesterday. Egypt has taken over operation of the huge bases the British built in the area. Britain retains the right to return to them at any time in the next five years if an outside power attacks Turkey or any Arab state. The British pulled out six days before the deadline set in the 1954 British-Egyptian treaty. The Egyptians are planning a major celebration for the deadline date, June 19. The 104-mile Suez Canal, vital water link between Europe and the Far East, remains under the operation of the Compagnie Universelle du Canal Maritime de Suez. The British government holds almost half the shares in the company, which has a concession to operate the canal until 1968.

Will Open Road To New Stadium Site

City maintenance crews will be cutting a road across HCJC property from Eleventh to the proposed football stadium, following action taken by the city commission Tuesday night. Dr. P. W. Malone, representing HCJC, asked the city to cut the road. He said that the two present roads on either side of the site would not handle traffic if and when capacity or near-capacity crowds arrived for games. (The stadium will seat 10,000.) Commissioners have already approved the request and authorized city crews to start work as soon as the street was staked. And Dr. Malone replied that the area would be staked today. Dirt displaced in cutting the road would be taken and placed in the playing area of the football field to raise the ground level. The road will be from Eleventh to the road south of the stadium and will be cut in a line with the east stands. Commissioners were asked just for a dirt road — not paved. It will be about 70 feet wide. A request was granted by the commission to close a portion of a street that actually has never been opened. The section of street is on the extreme end of W. Sixteenth. Making the request were Douglas Orme and Dr. B. Brodick. H. Steward approached the commission concerning interest on paving debts. At the last commission meeting, city fathers rejected his proposal to drop the interest if he would pay the principal. He claimed that water diverted by curbing was overflowing into his yard and under his house. He said Tuesday night that he has spent \$32 repairing the furnace damaged by water under the house. The commission reaffirmed its stand on not removing the interest but did promise to try to work out a method of keeping the water out of his yard. Steward resides at the corner of Sunset and Arizona. The city agreed to pay damages sustained to the car of Eldridge McHenry. McHenry was in an accident involving a city-owned grader, with the fault being laid to the city. The injured party was authorized to get estimates on cost of repairs before having the work done. Commissioners desired more information before acting on a request from Baptist groups wanting a tract of land adjacent to their property south of Big Spring. Church representatives were wanting a 99-year lease on the property. Jewel Barton had requested swimming passes for persons helping her with water therapy classes. Because of the number—between 30 and 40—helping with the training, the council felt it could not authorize the passes. Whitney said he would get more details on the work however. The group also mentioned adding more lights to the softball diamond in the city park but no definite action was taken.

Girls To Compete For Miss Universe

WHITNEY (AP)—Seven regional winners will compete here next Tuesday and Wednesday to represent Texas in the Miss Universe contest in California July 12-22. Finalists include Miss South Plains, Jane DeWald, Snyder; Miss Central Texas, Ann Lightfoot, Sweetwater; and Miss Texoma, Joan Milton, Bonham.

Two Dead, 3 Hurt

WAXAHACHIE (AP)—Two persons were killed and three were injured in a head-on collision of two autos near here yesterday. Killed were Ruth Clemmons, about 13, and Leroy Porter, a Negro, whose car and one in which Miss Clemmons was a passenger, collided.

Best Seller that's hard to beat

This '56 Buick is packed with new features—and priced close to the smaller cars!

WANT SOME QUICK FACTS on the big news in automobiles today—news that can guide you to a smart move and a real smart buy?

Then listen—it won't take long. The 1956 Buick has so many new developments—in styling—in power—in performance—in ride and handling—that it is, literally, the best Buick yet. That's Fact No. 1.

And Fact No. 2 proves it: Buick today is more strongly entrenched than ever in the top three of the nation's best sellers—outselling all other cars in America except two of the well-known smaller cars.

One big reason for this success is the strapping new Buick SPECIAL—like the one pictured here.

It's priced right close to those smaller cars—but, like every '56 Buick, it's a whale of a lot more new car for the money.

It cradles a big, new 322-cubic-inch V8 engine that's record-high in power and compression, and crammed with engineering news even the costly cars can't claim. It makes the most of every bit of power with a new version of Variable Pitch Dynaflow* that's the most efficient yet. With a new development the engineers call "double regeneration," Dynaflow gives you great new acceleration from the first thrifty inch of pedal pressure. Even before you switch the pitch. And this '56 Buick cushions you in the softest ride ever. Shows an uncanny sense of direction on every curve and turn. Puts a whole new feeling of safety, security and solidity into every mile you drive. So before you buy any car—catch up on the latest news. Come try a '56 Buick. When you see how much new automobile your money can buy, we don't think you'll ever settle for less.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

LOOKING 'EM OVER

With Tommy Hart

Mel Steiner, who wore Big Spring baseball livery around 1938 and gave the men-in-blue as much trouble as anyone around the WT-NM League when his hits weren't dropping, is now calling balls and strikes in the Pacific Coast League.

Recently, Mel was involved in a rharub with Ken Aspromonte of the home-town Seals in San Francisco and had to be escorted off the field by a battalion of hobbits.

Aspromonte got out of sorts when Steiner called a close pitch on him and retreated from the batter's box. When he refused to get back in, Steiner ordered the pitcher, Bob Thorpe, to deliver the ball. Two pitches, two more strikes and Steiner-ruled a strikeout.

That brought on Eddie Joost, the Seals' manager. He was promptly thumbed out of the game, whereon many of the crowd of 7,433 proceeded to show which side they were on by hurling cushions onto the field.

The Seals dropped a doubleheader to Los Angeles that day and the fans tried to bury Steiner under a deluge of cushions as he left the park.

Basketballer Bobby Maines, who recently departed the service, is still planning on continuing his college work at Brigham Young University in Utah.

Maines, who played the game with a Marine team in San Diego after leaving HCIC, was scouted by the BYU coach while playing in a tournament in that area two seasons back.

He's spending the summer here and will serve as manager of one of the Teen-Age baseball clubs.

Prep football coaches all get the same money in New York City schools.

Recently voted a raise of \$50 monthly, their monthly earnings now amount to \$875 for football and track, \$700 for basketball and \$612 for baseball.

Instructors in rifle, fencing, bowling, golf and tennis are to receive salaries of \$262.50 each a month.

Floyd Martin, who was in professional baseball parts of six seasons, has received his degree at North Texas State College and is now employed at Webb AFB here.

Floyd will try to get in some baseball this year with the Webb team, which is now being managed by an ex-teammate of his, Jim Zapp.

Zapp, incidentally, has been serving as a part time umpire for Little League games here.

Look for the University of Maryland to beat the tubs for tackle Mike Sandusky, which Herman Hickman has already described as the best in the South "and maybe the entire country."

Mickey Sullivan, the former Longhorn League slugger, is hitting in the 280's for Dallas of the Texas League.

They say Jim Haney, Lubbock's baseball boss, fired his manager, Bill Krueger, because Bill was too excitable.

There's also talk of the ex-Big Spring, Billy Capps, will be brought in from Phoenix to fill out Krueger's term.

NO DECISION

Coleman Seeking 5 More Coaches

School trustees threshed around with Coach Carl Coleman's six recommendations for changing the coaching set-up last night, but they failed to clear away enough chaff to reach a decision.

The board set a special session for June 21 to attempt to decide what to do about the proposals.

At the end of talks with the coach last night, some board members were agreed that additional aides and higher salaries are necessary. Some others were non-committal.

Coleman asked for two additional assistants for the high school athletic program and three more coaches for junior high.

The coach said he has been criticized for not requesting the additional personnel sooner, and declared that he believes both football and basketball can be emphasized. He said his recommendation for pay raises for the present coaching staff was made at the request of the coaches.

Coleman's recommendations were endorsed by Supt. W. C. Blankenship.

It was estimated that employment of the extra aides and the salary increases would cost about \$8,250 per year.

The coach's six recommendations were submitted at a board meeting April 10. At that time, Coleman also asked for a new three-year contract and a salary raise for himself. Both of Coleman's requests have been denied.

The six recommendations he offered concerning the athletic program were:

1. That a teacher capable of coaching athletics be employed for each of the ward schools in the city.

2. That six coaches be assigned to junior high school, two for each grade.

3. That two assistant football coaches be added to the high school staff, making two each available for A, B and C teams. During the basketball season, three of the assistants would be assigned to A, B and C basketball teams and the others would handle other athletics. In the spring, two would serve as baseball coaches, two as track coaches, one as tennis coach and one as golf coach.

4. That all coaches be assigned to no more than four academic classes.

5. That pay for all coaches now on the staff be raised to \$1,500 above base pay and that new

coaches be paid \$1,000 above base.

6. That the school board decide whether it is Coleman's responsibility to assign coaches for the various athletics, with approval of the superintendent.

Coleman said that if Basketball Coach Johnny Johnson assisted with football, only one additional high school assistant would be needed. He pointed out last night, however, that Johnson was assured he would coach only basketball at the time of his employment here.

Bill LaJoie Stars In Lubbock Victory

The Big State League has been featuring its pitching but a batter stands out every so often.

It was Bill LaJoie, Lubbock right fielder, who saw Tuesday that leading Corpus Christi finally lost one. LaJoie drove in five runs with a homer, double, single and sacrifice fly in sparking the Hubbers to a 19-7 triumph.

It didn't endanger the Clipper league lead, because second place Wichita Falls lost to Victoria 6-1 and Abilene, which beat Beaumont 6-5, moved into a tie with the Spudgers—both clubs 5½ games back of Corpus Christi.

Waco used the home run to beat Port Arthur 5-2 and go into a virtual tie with the Chieftains for fourth place.

Rookie Star

Cubs And Cabot Carbon Triumph

The Cubs and Cabot Carbon chalked up victories in American Little League competition here Tuesday night.

Scoring seven runs in a big third inning, the Bruins went on to humiliate Piggly-Wiggly, 8-5, despite the fact that they managed only two hits.

Cabot found the Flicks an easy mark, winning, 11-2. The Flicks were held scoreless until the fifth, when they got both their runs.

Jerry Dunlap, Cabot's star slugger, walked three times and drove out a home run his other time up.

First Game: Piggly Wiggly vs Bruins. Piggly Wiggly: 8 runs, 5 hits, 2 errors. Bruins: 7 runs, 2 hits, 0 errors.

Second Game: Cabot vs Flicks. Cabot: 11 runs, 8 hits, 2 errors. Flicks: 2 runs, 0 hits, 0 errors.

Lamesa Team Disbanded

LAMESA—The Lamesa All Stars semi-pro baseball team is out of business.

The board of directors of the Lamesa Chamber of Commerce this morning voted to cease semi-pro baseball here this year.

At present, the income has totaled \$20,233 and expenses have been \$1,764.24. The players have been losing about \$10 each on every game on their transportation.

On out-of-town games, expenses all come out of players' pockets.

The directors adopted a resolution expressing their thanks to the baseball committee for its efforts in trying to make a go of semi-pro ball.

The average attendance to date has been about 140 adults and 40 children at each game.

Orioles Stumble In Sooner State

The Associated Press

Second-place Paris tumbled to fourth in Sooner State League play Tuesday by losing to top-riding Ardmore 7-3.

McAlester's Rockets moved up to the vacated second spot with a 6-4 win over the cellar team, Seminole.

Lawton slammed out 15 hits for an easy 11-3 triumph over the Ponca City Cubs.

Muskogee scored five runs on four hits in the sixth inning for an 8-1 victory over Shawnee.

Nat'l Opens Almost Free Of Pressure Putts On 18

ROCHESTER, N. Y. (AP)—In the fifty-five years of the National Open golf championship there never has been a situation where a player came up to the 72nd hole knowing he needed to hole the last putt to win.

That's one oddity of the most pressure-packed golf tournament of all. There have been several occasions when a player had a putt to tie and made it. And 162 golfers here this week wouldn't complain if they were the first to face the situation.

"I'd like to be in that position," said Ed Furgol, the 1954 winner who breezed in with a 284 at

Baltusrol and then watched Gene Littler fail on a final bid to match his score.

Ben Hogan won the third of his four Open titles in 1950, beating Lloyd Mangrum and George Fazio in an 18-hole playoff. Hogan still is one of the most feared players in this year's Open even though he belittles his chances and says he isn't playing well.

"I think the best lag putter will win," said Masters champion Jackie Burke, who must be included among the favorites. "The greens aren't too big and they're level, but it will take a man who can hit the ball up close."

Play starts at 7 a.m. Thursday. Jack Fleck of Davenport, Iowa, the defending champion and probably the most overlooked player in the tournament, is scheduled to tee off at 9 a.m. Fleck, who beat Hogan in a playoff last year, has been playing exceptionally well in practice.

Four Cards Lead In Player Poll

NEW YORK (AP)—The St. Louis Cardinals lead the field with four Redbirds on top in the balloting for the National League team for the 1956 All-Star baseball game at Washington July 10.

Red Schoendienst is the leader at second base with a 5,194-vote margin over Cincinnati's Johnny Temple. Ken Boyer has a 2,393-vote edge over Milwaukee's Eddie Mathews at third; Rip Repulski leads Philadelphia's Del Ennis by 807 for left field, and Stan Musial has a 4,692-vote lead over Milwaukee's Hank Aaron for right field.

Schoendienst has polled the most votes in the National League with 6,348 while Mickey Mantle, the New York Yankees' young slugger, is the over-all leader with an 8,635 count and a 7,970-vote edge over Boston's Jim Piersall for the American League's center-field position.

Art Matthews Paces Braves

The Newsom Braves did an about-face in National Minor League play here Tuesday afternoon, belting the Rails, 23-0, behind the one-hit pitching of Art Matthews.

The only hit off Matthews was a double by Pat Patterson. Matthews, who fanned 17 batters in the six-inning contest, collected four hits himself, including a double and three singles.

Bob Moore hit a grand slam home run for the Braves in the fifth, after Donnie Hall had set the example in the second.

The win was the first in four starts for the Braves.

Green Weighing Fabulous Offer

ABILENE (AP)—Freddie Green, Abilene's all-state third baseman, is weighing a \$30,000 offer from the major leagues against a college athletic career.

Green, who has graduated and is looking toward SMU, got the offer from Jess Landrum, Southwestern scout for the Detroit Tigers, because of his work in the state tournament at Austin last week when Abilene won the schoolboy baseball title.

The Eagle star is now working in Galveston.

Other members of the Abilene team drew interest from the scouts but they all have another year in high school. Among them is Glynn Gregory, all-state football player and catcher. Scout Sid Hudson of Boston said Gregory had prospects of a \$40,000 bonus.

Fritz Clement Is Seniors' Leader

NEW YORK (AP)—Franklin G. (Fritz) Clement of Lake Forest, Ill., held a one-shot lead today going into the second round of the U. S. Seniors Golf Tournament.

The 56-year-old Clement, who never has played in the tourney before, sports a plus-2 instead of the usual handicap and the rest of the seniors will have their hands full trying to catch him.

Other members of the Abilene team drew interest from the scouts but they all have another year in high school. Among them is Glynn Gregory, all-state football player and catcher. Scout Sid Hudson of Boston said Gregory had prospects of a \$40,000 bonus.

Check On The Princess

A. R. (Sport) Barrett, Raddose Downs racing secretary, checks morning performance of Princess Margo, after a fast workout. This outstanding five-year-old mare, owned by W. L. McDonald, of Artesia, N.M., is being ridden by H. Hinjosa, with trainer Robert Kennedy alongside.

Nat'l Race A Real Scramble

By ED WILKS
The Associated Press

One of those clubs in the National League race is prime for a pennant pushoff in this hectic month of June, but which one? Pittsburgh? The Pirates are still hot, winning 7 of the 12 games they've played this month. But so have the Cincinnati Reds.

Brooklyn? The world champions are looking real healthy, winning 8 of 13 in June. But the Chicago Cubs have won 9 of 12.

It's been a confused month so far. The lead has changed hands three times in 12 days. Pittsburgh has a half-game edge at the moment, after knocking the Reds to second with a 4-3 decision last night.

The Dodgers kept edging toward the top, banging St. Louis 6-4 and dropping the Cardinals, who have lost 7 of 13 this month, to fourth, Chicago, hustling out of the cellar in its hot streak, knocked New York loose from sixth place by whacking the Giants 8-5.

Milwaukee, in first May 31, is a solid fifth at the moment, losing its ninth in the last 12 in a 5-2 pasting by Philadelphia.

The American League race is easier to figure. The New York Yankees are 4 1/2 games to the good

Five NCAA Champs Seek Honors Again

BERKELEY, Calif. (AP) — Five NCAA track and field champions of 1955 defend their laurels this week.

Pole vaulter Don Bragg of Villanova, shot putter Bill Nieder of Kansas and miler Jim Bailey of Oregon have the best marks among collegians this year in the events they captured in 1955 at Los Angeles.

The same is true of quartermiler J. W. Mashburn of Oklahoma A&M but there is a question mark since he injured a leg muscle at the Compton, Calif., relays two weeks ago.

Les Bitner, Kansas javelin thrower, won last year but his tosses this season haven't been among the nation's best.

Mel Ott And Frank Frisch Can't Agree On Yank Star

BALTIMORE (AP) — No wonder baseball fans get into constant arguments. Even two of the game's greatest hitters, Mel Ott and Frankie Frisch, don't see eye to eye.

Take the hottest question today, whether Mickey Mantle of the New York Yankees has a chance to break Babe Ruth's home run record of 60 for one season.

"I doubt it," says Ott. Only Ruth and Jimmie Foxx hit more homers than Ott in their careers.

"Sure, he has a good chance," said Frisch. He didn't hit them far but he averaged 316 and like Mantle, was a switch hitter with the Giants—same team as Ott—and the St. Louis Cardinals.

Ott thought that universal use of the slider pitch, a development of the last 10 or 12 years, was one of the most influential in baseball since he played in a 22-year career that ended in 1948.

"Ted Williams claims it has taken 15 points off his batting average," says Ott.

"We used to call it the 'nickel rocket curve,'" said Frisch disparagingly. "The nickel rocket was a cheap baseball in which the stuffing was quickly knocked loose."

"It's become a society thing. You know, if you don't have it, you don't belong. Pitchers now talk about the half slider, the three-quarter slider and the five-eighths slider."

"Catchers now have to be a graduate of an engineering college."

Asked then why nobody today was hitting as consistently as the batters of his day, Frisch in turn asked, "How many clubs have any good hitters?"

Ex-Longhorn Tackle New Head Coach At Roscoe Hi

Cliff Patton, one-time Big Spring High School tackle and a son of Mr. and Mrs. J. W. (Wes) Patton of Big Spring, has signed as head coach at Roscoe.

Patton, 32, has been coaching at Clyde for the past two years. He previously starred as a go-kick guard for the Philadelphia Eagles in the National Football League.

Patton has been extended a two-year contract by the Roscoe schools. He plans to move to Roscoe in August.

Cliff is a 1954 graduate of Abilene Christian College. He played pro ball before his graduation, however. After leaving Big Spring High School, he enrolled at TCU and went from there to the Armed Forces.

A veteran of seven years in the NFL, Patton led the circuit in field goals over three seasons.

M. C. (Salty) Jones will remain on the Roscoe staff as head basketball and assistant football coach. He is a graduate of Sul Ross.

Patton succeeds Houston Jolley, who resigned following last season.

Commissions Will Recognize Winner

NEW YORK (AP) — President Jim Norris of the International Boxing Club said today that both the New York State Athletic Commission and the National Boxing Assn. have indicated they would recognize the winner of the proposed Archie Moore-Floyd Patterson bout as heavyweight champion.

The bout probably will be held in the Yankee Stadium at the end of September if Patterson's broken right hand heals in time. He suffered the injury last Friday when he decimated Hurricane Jackson.

Don Jasper Wins

WINDSOR, Ont. (AP) — Heavyweight Don Jasper of Detroit came on strong in the last three rounds at the Windsor Arena Tuesday night to earn a split decision in 10 rounds from Gene White of St. Paul, Minn. Jasper weighed 189 and White scaled 194.

Mabe Pitches 1-Hit Game

By The Associated Press

The Texas League needs a no-hit, no-run game this season to maintain its reputation of being a pitchers' league, and it almost came Tuesday as Bob Mabe, one of leading Houston's classy hurlers, shut out Austin with a lone single.

Mabe went along smoothly for seven innings without a semblance of a hit from the puny Senator bats. But Jack Caro led off the eighth with a Texas League over second base. That was all Austin could do as Houston won 1-0.

Frank Marchio beat the clock with the single that drove in the winning run as Fort Worth edged Tulsa 3-2 in 11 innings.

Tommy Bowers hurled a 5-hitter as Dallas beat Oklahoma City 2-0.

San Antonio continued its march upward, beating Shreveport 8-5. It was the Missions' fourth straight over the Sports and their seventh triumph in nine games.

Ted Rhodes, Negro Golfer, Seeks Title

ROCHESTER, N.Y. (AP) — Ted (Dusty) Rhodes, who broke the color line in big-time golf and taught Joe Louis how to swing a club, believes he has a good chance to become the first Negro to win the U.S. Open Championship.

"If I had to pick anybody it'd have to be me," the lean ex-caddy from Nashville, Tenn., said today with deadly seriousness. "I'm hitting that rock mighty good. I got a big chance."

Rhodes, 42, seven times national Negro champion, is here for the 50th Open Championship, which starts Thursday. Rhodes led the qualifying in the tough Chicago area with 72-68-140 at Medinah. This is his second Open. He played at the Riviera Country Club in Los Angeles in 1948, finishing in a tie for 51st in the tournament with a record 276.

Rhodes, who says he's a puff-baller who "can putt like crazy," has been shooting close to par in practice this week.

Ashenfelter Says He May Not Run

By ED CORRIGAN

NEW YORK (AP) — Horace Ashenfelter, the galloping G-man, said today that all the talk about him making the trip to Melbourne this year to defend his Olympic 3,000-meter steeplechase championship is slightly premature.

"No matter what anyone thinks," said the slim Penn State graduate, "I don't know if I will make the trip."

"I'm going to try out for the Olympic team merely because I'm going to be on the West Coast for the National AAU Championships the week before."

Ashenfelter is the fellow who stunned the world and the Iron Curtain countries by winning the steeplechase in the '52 games and setting a record of 8:45.4 to boot.

"Right now, for example, I am not in top condition. I'm in good condition, but that doesn't win Olympic races."

"For one thing," said Ashenfelter, "I definitely wouldn't consider going if I was not in top condition, and that holds true if I make the team. I'll have to determine myself what kind of condition I'm in."

"Right now, for example, I am not in top condition. I'm in good condition, but that doesn't win Olympic races."

Just nine months ago, J. Chromik of Poland ran the 3,000-meter steeplechase in 8:40.2 in a race in Budapest and the International Amateur Athletic Federation, the world certifying agency, accepted that as a world record.

"I know about him," said Ashenfelter. "That's why I don't want to try for the title again unless I can get in top shape. At best, I'd be a contender. I'm not being modest. Chromik ran the distance better than five seconds under my record, so he should be the favorite in a race with me."

He beat out Russia's Vladimir Kazantsev in the final lap.

Americans rarely have won Olympic races over 1,500 meters so Ashenfelter's effort came as a real shocker for the Eastern European nations, who always have prided themselves on their distance runners.

"For one thing," said Ashenfelter, "I definitely wouldn't consider going if I was not in top condition, and that holds true if I make the team. I'll have to determine myself what kind of condition I'm in."

"Right now, for example, I am not in top condition. I'm in good condition, but that doesn't win Olympic races."

Giambra Seeks Win Over John Sullivan

SYRACUSE, N.Y. (AP) — Joey Giambra sees a win over England's John L. Sullivan in their 10-round return fight tonight as a stepping stone to a title bout with middleweight champ Sugar Ray Robinson.

The fight will be televised and broadcast nationally (ABC, 9 p.m. EST) but will be blacked out locally on television. Scoring will be on a rounds basis.

Why just hope you're getting the best truck buy?

Your best buy is DODGE... and we can prove it!

FROM PICK-UPS

AND PANELS...

TO BIG BRUISERS...

When you go to buy a new truck, you owe it to yourself to stop... look... and think—to think about this, among other things:

How can you possibly know you're getting the best value if you sign up for a new truck without first taking time to stop and look at today's big, husky-muscle DODGE? The answer, obviously, is you can't be sure; you're just hoping you're getting the best buy!

Wouldn't you be wiser to get at least a few facts about DODGE? For instance, such easily proved facts as these—that Dodge trucks give you:

1. Greater gas economy. Dodge's exclusive Chrysler-engineered Power-Dome V-8 engines deliver more miles per gallon, full power on regular gas!
2. Maximum payloads. Dodge trucks are built extra rugged—will haul up to 35% more.
3. Lower upkeep-costs. Dodge short-stroke V-8 engines maintain like-new performance far longer than truck engines of standard design.
4. Shortest turning. Dodge sharp turning angle and shorter wheelbase design make parking and wheeling through traffic much easier, save you both time and effort.
5. Rock-bottom prices. Today, many Dodge models cost less than any other make!

Dodge gives you more in other ways, too. So, before you buy, why not get the full Dodge story? Unless you do, we honestly believe you'll end up paying more and getting less.

DODGE TRUCKS

Set Hearings On Insurance

AUSTIN (AP)—Hearings have been called for next month on whether seven mutual assessment insurance companies should be put out of business, the State Insurance Commission said yesterday.

The seven failed to qualify for licensing for the fiscal year starting June 1.

The condition and affairs of each company was such as to "render the continuance of its business hazardous to the public or to the policyholders," the commission said.

Ordered to appear were Fraternal Burial Assn., Teague; Wood Sheppard Christian Burial Assn., Winona; Williams Funeral Home Burial Assn., Fort Worth; Trans-Western County Mutual Insurance Co., San Antonio; Crespo Burial Assn., Houston; Paul Life Insurance Co., Marlin; and Peoples Christian Burial Assn., Smithville.

Hemphill Wins Carolina Race

COLUMBIA, S.C. (AP)—Robert W. Hemphill of Chester won nomination to the U.S. House of Representatives yesterday with a smashing Democratic primary victory in the 5th district.

The 41-year-old, lawyer and world war II Air Force bomber pilot overwhelmed Tom R. Gettys of Rock Hill. Unofficial returns from 232 of the 251 precincts in the seven-county district gave Hemphill 25,459 votes to 14,172 for Gettys.

The nomination, equivalent to election is for the seat from which Rep. James P. Richards is retiring after 23 years. Richards is the House Foreign Affairs Committee chairman.

School Dismissal 'Without Cause'

AUSTIN (AP)—The dismissal of Charles Langston by the Irving School Board last year was ruled without cause, State Education Commissioner J. W. Edgar ruled yesterday.

Edgar said Langston's contract as coordinator of curriculum for Irving schools was valid and enforceable until it expires in the summer of the 1955-56 school year.

The commissioner held that Langston is entitled to be paid the difference between the contractual pay he would have received for the 1955-56 school year had he not been dismissed and the salary he did realize from other employment during the year.

Argentina Hunting Other Rebel Leaders

BUENOS AIRES, Argentina (AP)—Authorities pushed a dogged hunt today for a second top leader of last weekend's rebellion after seizing and executing his chief in the uprising.

Still sought was Gen. Raul Tanco, an army leader in the regime of ousted President Juan Peron. Executed by a firing squad last night was Gen. Juan Jose Valle, who had hoped to become president if the revolt succeeded.

An army spokesman said police were in hot pursuit of Tanco but gave no details. The government earlier asserted Tanco had been selected to take over as vice president under Valle.

Also cut down by a firing squad in the latest executions was Juan Alberto Abadie, an army reserve lieutenant who was second in command of the uprising within the 7th Infantry Regiment at La Plata.

A government communique announced the two executions but did not say where or when they were carried out. Unofficial sources reported Valle was put to death at

the national penitentiary. He was seized in a police raid on a down-headquarters of Provisional President Pedro Aramburu.

Abadie was reported executed in the kernel area of provincial police headquarters at La Plata. A government statement said he had confessed the slaying of Federal Police Inspector Rafael Fernandez last Sunday morning.

Firing squads earlier had executed 25 persons as participants in the rebellion which broke out Saturday night and was put down after a bloody 12-hour fight.

A source close to the government said death sentences imposed on 150 to 200 rebels had been commuted to life imprisonment. Military courts still were sitting in secret sessions to deliberate the fate of others seized.

The executions—carried out under martial law imposed Saturday night—have no precedent in Argentina's modern history. The usual practice has been to imprison conspirators and perhaps later let them flee to foreign asylum.

Hersholt's Bequest Shows Love For His Adopted Land

LOS ANGELES (AP)—The love of Danish-born actor Jean Hersholt for his adopted country, America, is reflected in his will disposing of his famed and valuable Hans Christian Andersen collection.

The estate attorney said Hersholt, 69 when he died June 2, and his wife, Mrs. Petra Via Hersholt, decided several years ago to give the Hersholt collection of Andersen's original writings in Danish to the U. S. Library of Congress, which did not have any of them.

Similarly, said Atty. L. B. Kornblum, they decided to give translations in English, which Hersholt made, to the Hans Christian Andersen Museum at Odense, Denmark.

The gifts, which already have begun, were legally formalized in Hersholt's will, filed for probate yesterday. The rest of the estate, believed to exceed \$250,000, was left to the widow.

Long said that the youth has a "record" with the Ector County authorities and has been at liberty on parole in connection with a previous offense.

A step-brother of the boy, who is not a juvenile, was arrested in the same instance which placed the youth in jail.

Long said he did not know what disposition Ector County officials would make of the case.

Juvenile Released To Ector Officers

A 16-year-old Odessa youth, who was arrested here last week in connection with the cashing of worthless checks, has been surrendered to Odessa juvenile authorities, according to A. E. Long, county juvenile officer.

It's Snow Time?
BOSTON (AP)—While the temperature in Boston read 91 degrees yesterday, Massachusetts Gov. Hiterter signed into law an act making an additional \$175,000 available for snow removal work.

The money was for payment of back charges for removal of last winter's heavy snows.

Uncle Ray: Molten Rock Rises From Great Depths

By RAMON COFFMAN
When a deep hole is cut into the earth, the temperature keeps rising the farther down the hole goes. The rate of change differs in various areas, but the average increase is about one degree Fahrenheit for each 60 feet of depth.

In a mine a half mile deep, the workmen would find the temperature too high for comfort. Unless the underground chamber was air conditioned they might faint after a little exertion.

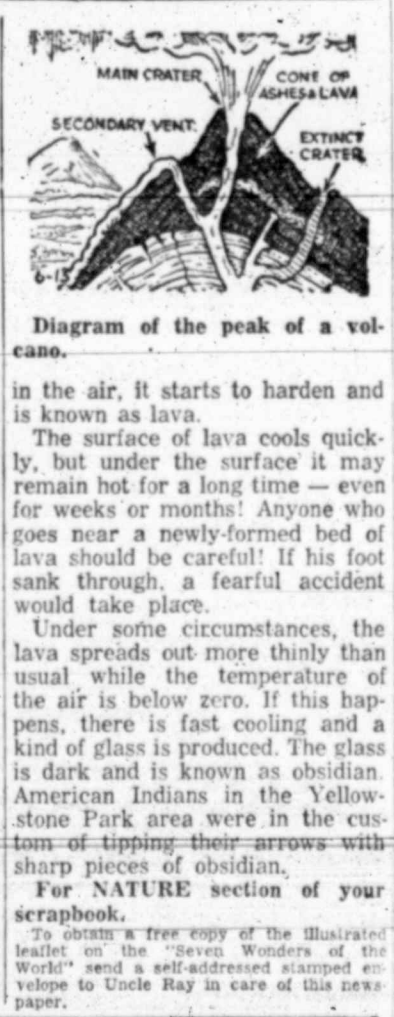

At a depth of two miles, the situation would be far worse. If anyone could go that deep, he would find the temperature above the boiling point of water!

If the temperature kept increasing at the same rate to a depth of 30 miles, how hot would it be down there? Twenty-seven hundred degrees!

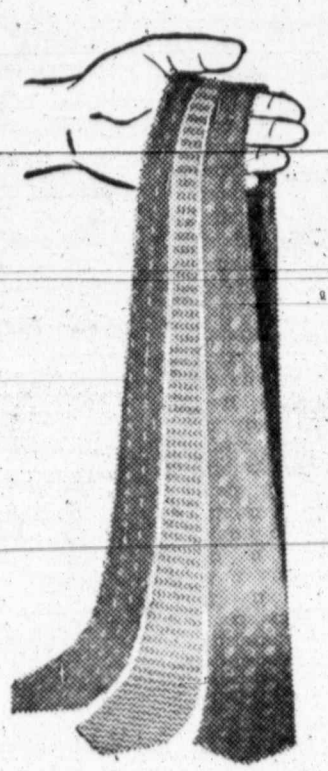

That may seem too hot to be true, but the usual temperature of lava is about 21 hundred degrees when it issues from a crater. It is believed to rise, on the average, from a depth of about 30 miles.

If we allow for the loss of temperature while the molten rock is rising, the figures agree very well.

Q. What is magma, and is it the same as lava?
A. Magma is melted, or molten, rock. It is the same as hot lava except that the name applies to molten rock which is under the surface of the ground. Once it gets

Well-To-Do Mother Victim Of Brutal Assault, Murder

BALTIMORE (AP)—The mother of four children of a well-to-do family was raped and murdered in her home yesterday by an intruder who used two butcher knives, a Japanese saber and a heavy brass figurine to beat and stab her.

Mrs. John H. Bopst, about 47, apparently was surprised as she was eating a bowl of ice cream in her suburban home by someone. Baltimore County police called the crime the "most brutal assault" they had ever seen.

They found the broken bowl of ice cream with its contents spattered about the room. Bloodstains on a table in another room and elsewhere indicated a fierce struggle.

Mrs. Bopst's husband, about 55, a vice president and partner of Mechanical Engineering, Inc., a local contracting firm, found the body when he returned from work. Police found a blue suit coat of medium size near the home, with a beer bottle cap in one pocket

and two empty beer bottles outside the house.

The murderer had evidently taken the keys to the family's 1955 sports coupe from Mrs. Bopst's handbag and escaped in the car, later recovered. No money was found in the bag.

Police said Mrs. Bopst, described by friends as "quiet" and a "delightful mother," apparently was beaten with the brass figurine of a man on a horse, and stabbed with the two knives.

DeMolays To Go To State Meeting

Five local DeMolay members are planning to attend the State Conclave in Dallas Aug. 27-29. They are Wesley Grigsby, David Dibrell, Richard Engle, Norman Gound and Julius Glickman.

At the area meeting in Odessa, Julius Glickman was named to the state executive committee and Richard Engle was chosen sixth preceptor.

With the chapter dad, Oscar Glickman, those attending the Odessa meeting were the chapter sweetheart, Marlene Mann, and Clyde McMahan, J. D. Adams, Julius Glickman, Bob Leach, Wesley Grigsby, Richard Engle and David Dibrell.

One Killed, 14 Injured In Apartment House Blast

CINCINNATI, Ohio (AP)—An explosion that burst out two sides of a Cincinnati apartment house from cellar to roof late last night killed one man and injured 14 other persons; three of them critically.

The body of Robert Swarts, 31, was found in the wreckage. He had been in the basement when the blast went off.

Among the seriously injured was a 2-month-old baby, Dorothy Miller, who was blown out of her crib. Her skull was fractured.

Aides at General Hospital identified the other two critically injured as Buddy Marrs, 25, and Mike Riley, 48.

The blast piled up a hill of rubble behind the four-story brick and frame building in which seven families lived.

The explosion was heard over several miles around the building on Reading Road—which also is U.S. 42, a main route to Cincinnati.

Fire officials said it was likely

BIG SPRING DAILY HERALD

SECTION II BIG SPRING, TEXAS, WEDNESDAY, JUNE 13, 1956 SECTION II

'2-5' Telephone Numbers Will Improve Long Distance Service

When Big Spring's telephone numbers get the "new look" on July 1, it will complete another step in bringing faster and more efficient long distance telephone service to this city, according to Cliff Fisher, telephone company manager.

All Big Spring telephone numbers will change at 1:01 a.m. Sunday, July 1, and will then include an exchange name, "AMherst," and five numerals. For example, a number—"3-5252"—might become "AMherst 3-5252."

Reasons for the change are to provide for future telephone growth here and speed up long distance service, said Fisher. He pointed out that it is part of a nationwide program to provide a uniform numbering plan.

Mrs. Bertha Morton, chief telephone operator, said the new numbering plan will make it easier for both customers and long distance operators to complete calls.

"This dialing system enables the Big Spring long distance operator

to dial directly to the distant number. Big Spring residents call in more than 3,500 cities from coast-to-coast," she said. "And, of course, operators in those cities can dial directly to Big Spring numbers."

"To help both customers and operators, a numbering plan was worked out that will make the numbers easily remembered, pronounced and understood."

She said the exchange name is such as "AMherst" were carefully selected and tested and to meet these requirements. These exchange names are being added to provide for future telephone growth and every dial telephone in the country will have such a number in the future.

When the numbers change, Big Spring residents will begin dialing the first two letters of the exchange name and five numerals on all local calls. To call "AMherst 3-5252," for example, you'll dial "A-M-3-5-2-5-2."

"We call these 2-5 numbers at

the telephone company," Fisher said. "Because they include the first two letters of the exchange name and five numerals."

The manager pointed out that the new numbering plan is also pointed toward the day when Big Spring residents will be able to dial their own long distance telephone calls without the assistance of an operator.

"This system—known as customer distance dialing—is still in the future for Big Spring," he said. "But one of the requirements for it is the 2-5 numbering plan."

He added that the customer distance dialing system will require that no two telephone numbers in the United States be identical and that this numbering plan will achieve this goal.

"We're sure Big Spring residents will find the new telephone numbers easy to use," the manager said. "We're notifying everyone well in advance what their new numbers will be by sending out postcards and stickers to put on the dial face of their telephones."

Crops in most of Dawson County look better than they have in years. From a spot north of Ackerly all the way to Lamesa and across the northwest part, almost all the fields have growing cotton and feed. The cotton is small, but farmers have good stands and the plants are not wilting.

Just across the line in Gaines County and about 30 miles from Lamesa, my brother-in-law was fussing about too much rain. He had over seven inches of moisture in the last few weeks and said his cotton is getting too weedy.

These wet areas are still some what spotted, though. In parts of West Dawson County and some parts in the eastern side, dry places are still numerous.

J. C. Mitchell, who farms three miles south of Patricia in Dawson County, said he had the best crop prospects in several years. He received six inches of rain since planting time. Most of the cotton in that community was planted in April and May, he said, and is now beginning to grow.

Mitchell said farmers south of him had not been so fortunate. Four miles south of Patricia the dry area sets in, and goes all the way across Martin County, and nobody knows how much farther. Maybe all the way to the Panama Canal.

Crops are spotted in the northeast part of Howard County but generally better than elsewhere. C. A. Walker says his cotton looks good now but he doesn't know how long it will hold up without rain.

Quite a lot of interest is being shown in guar, according to Ray Winans, local feed dealer. He isn't selling much seed yet, but says a general rain would cause a big planting of the crop.

Guar can be planted as late as the middle of July, or even the first of August. He said one farmer made a good crop of guar last year by planting in August. The stalks didn't grow very high, but produced a fair bean yield and made the soil much easier to plow this year.

Guar beans will bring \$4 per hundredweight at the plant in Kenedy, Texas, Winans said the price at Big Spring for No. 1 guar would probably be about \$3.40.

Edward Smith of Tarzan who bought 125 geese to weed out his cotton crop found they were not quite as durable as regular workers. Some varmint (a dog, he thinks) got into the flock a few days ago and killed 47.

Smith is undecided about the usefulness of the geese, but has some definite ideas about the dog.

Troy Pierce of Tarzan is well started on another good cotton crop. His cotton is hoed out and ready for another watering.

He planted some dried feed but says it died and will be replanted whenever a rain comes. He recently cut over 100 bales of oats to the acre on a five-acre irrigated patch. He is thinking of sowing this block in alfalfa if he ever finds time to do it.

Paul Bulsterbaum, grocer at Lamesa, says he has been in the

community six years, and it has been dry that long. He says there isn't much prospect for a cotton crop in the community unless rain comes soon.

Bulsterbaum used to live in Dawson County and still has farmland there. On the farm near Ten-Mile Store, he has a good crop. He said all crops were fine in that area with enough moisture to last for some time.

One reason for our hot summers is because so much land is bare and the sand builds up heat. This is the opinion of R. M. Wheeler, who has lived in the county since 1890.

Wheeler came to the Coahoma community before the town existed and lived with his parents on a farm a few miles to the north-east. The first field in Howard County was broke out near there in 1890, and he still has the old turning plow that turned the first sod.

At that time the nearest gin was at Colorado City. His father would spend one day going to the gin, often wait a day to get the cotton ginned, and drive back on the third day. Cotton brought only five cents a pound, but it would buy a big load of groceries and clothes for the family.

Cotton seed were not worth hauling home, and farmers would dump them into the Colorado River.

Wheeler said Coahoma was named by Grandma Shive, who lived near there at that time. It is an Indian word and means "beautiful land."

"It was a beautiful country then, he said, but the early settlers had to put with many hardships. Wildlife was plentiful and antelope were thick as rabbits nowadays. However, Wheeler pre-rippers the present day, even with droughts and crop failures. He said no one would want to live the kind of life he lived as a boy, when there were hardly any schools or churches but lots of hard work and doing without things.

Cap Rock Power Sales Increase

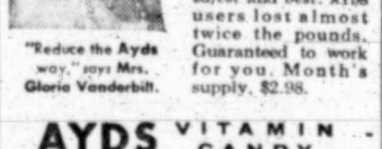

Power sold by the Cap Rock Electric Cooperative during May amounted to 3,075,236 KWH, which boosted the year's deliveries to 14,298,622.

During the month, the system purchased 3,465,906 KWH, which meant that the total purchases for 1956 had reached 16,067,820.

The May purchases compared with 2,896,560 for the same month last year, and the sales compared with 2,421,045 KWH in May of 1955.

At the end of May, 1,860 miles of lines were energized on the Cap Rock system, an increase of only one for the month. There were 3,241 members connected, a gain of 16, and the density (members per mile) gained one point to 1.80. Average bill was \$16.91 which was \$3.51 less than for the previous month, reflecting a slackening of watering in irrigation areas while planting was in progress.

Sunday Worship Featured In Natl. Parks

NEW YORK (AP)—You remember the old song about the Church in the Wildwood?

It's an actuality this summer. You can take your vacation in as wild a wood as you like and still attend church services on Sunday.

You can, that is, if you are vacationing in one of the 23 U.S. National Parks.

There seminary and college students especially trained for these summertime parishes are conducting worship services in whatever "church" is at hand, be it outdoor amphitheater or mountain-side chapel, dance hall, lodge dining room, hotel lobby or linen room.

To get to their congregations they travel by plane, jeep, horseback or on foot.

The student ministers and religious workers, 110 strong, are sponsored by the National Council of Churches, coordinator of the national parks ministry program.

When they aren't actively engaged in church services, campfire powwows or Bible study groups the young men and women earn their keep by working as bellhops, soda jerks, night watchmen, maintenance men, waitresses and maids.

"It's one of the most exciting programs in the church," says the Rev. Warren Ost, the program's 29-year-old director and a minister of the Presbyterian Church, U. S. A. "It's doing a job and it's giving students experience."

"And it's rigorous experience. You don't have the normal institutional structure of a church behind you. There's none of the protection afforded by the nice old ladies who sit in the back pew and always tell you it was a wonderful sermon."

"Instead you work 10 hours a day as, say, a garbage collector, then you preach on Sunday to people you work with. You preach more by what you do than what you say, since you work alongside part of the congregation. Consequently, if you don't do what you preach, you aren't saying anything."

The Rev. Mr. Ost more or less pioneered the work. He conducted the first such services in 1949, while a University of Minnesota student working as a bellhop at a Yellowstone Park inn.

Younger Harte Named President Of Angelo Paper

SAN ANGELO (AP)—Houston Harte Jr., 29, has been named president of the San Angelo Standard-Times.

He replaces his brother, Edward H. Harte, 33, who is moving to Corpus Christi where he is vice president of the Corpus Christi Caller-Times. Both newspapers are Texas Harte-Hanks Newspapers.

Edward H. Harte has been president of the Standard-Times since 1952. Prior to that he was editor of the Snyder Daily News. Houston Harte Jr. became editor in Snyder when his brother came to San Angelo.

The younger Harte left Snyder in 1954 when he joined the staff of the Des Moines Register and Tribune to work in the promotion, advertising and circulation departments. He left Des Moines in February.

C-C Studies Are Endorsed

Executive committee of the Chamber of Commerce Monday endorsed proposals for a study of member dues and survey of consumer opinion in this area.

The group recommended that the propositions be submitted to the Chamber board of directors.

The dues project will involve acquainting all members with the percentage of the Chamber budget provided by persons in various business, trade or professional categories. Each member will be asked to adjust his dues accordingly.

Consumers will be polled as to their opinions on merchandise available here, prices, quality of service and merchandising facilities. Information gathered would be made available to any businessman desiring it.

A Bible Thought For Today

For ye know the grace of our LORD Jesus Christ, that, though he was rich, yet for your sakes he became poor, that through his poverty might be rich. (II Corinthians 8:9)

Editorial

Passing It To The Voters

A referendum on three points dealing with the problem of integration is in prospect for the July 23 Democratic primary. The State Democratic Executive Committee voted Monday to submit these questions for a direct vote of the party's voters:

- 1) On exempting children from compulsory attendance in integrated schools where white and Negro children are mixed;
- 2) On perfecting state laws banning marriages between whites and Negroes;
- 3) On the use of interposition to halt federal encroachment on state's rights, including school segregation.

The referendum reflects the rising tide of the opinion poll in our affairs as well as a desire by many, particularly those in the eastern part of the state, to speak out on the integration-segregation issue. The results will have no official standing except as an expression, although they will form the basis of direction and persuasion for a considerable portion of the Legislature.

Only the first point offers any radical departure from existing patterns. An overwhelmingly affirmative answer to this might be the signal for statutory action similar to that of the Virginia attempt to circumvent the United States Supreme Court decision calling for an end to segregation in public schools.

By asking for a direct expression, the executive committee may have dulled the race question as a paramount issue in the current campaign. Until now, voters could be listening to candidates who expressed opinions and took positions nearer their own. Now the voter may be less inclined to listen, knowing that he may vote his own feelings.

The prospect of the referendum could have the effect of stimulating more interest in the primary and thus increase the turnout.

Maybe We Need A Rain-Making Bust

When terrapins start crossing the road it's a sure sign of rain. When dead snakes turn their bellies up it's a sure sign of rain. When it's hot and sultry it's almost certain to rain. When grasshoppers start climbing trees and walls in anticipation of a flood, it's gonna rain. This last superstition, quoted to one of our readers by some optimist, brought this comment from him: "If it doesn't rain in thirty minutes some of our farmers are going to start climbing trees and walls."

Rain-making activity is nothing new in Texas. In 1890 the Army opened up with artillery around El Paso and Midland, an experiment based on the fact that heavy rains sometimes follow heavy artillery duels. Results: inconclusive. In the spring of 1891 in Duval County soldiers and stockmen brought an old cannon from the King Ranch and opened fire on balloons filled with gas. It rained. C. W. Post, the breakfast food tycoon and founder of Post, Texas, is said to have spent \$50,000 with rain-making experiments based on explosives in that area: Just after the rain-maker had been discharged as a failure, torrents of rain came down. Post continued his experiments between 1911 and 1914. Results — yes and no, just as with modern, more scientific experiments. You can't make an artificial raincloud.

The Rock Island Railroad tried its hand in the great drought of 1915-16, importing a rainmaker from Australia. Like Mr. Post's man, this fellow was discharged for apparent failure — and it promptly rained the bottom out, washing away a lot of the Rock Island's embankments.

So, rainmaking, like rain, is an in-and-out proposition. There are times when everything fails — seeding, terrapins, snakes, grasshoppers, rainclouds, explosives and prayer meetings.

The Gallup Poll

Women's Vote Seen As Major Factor

PRINCETON, N.J. — The political maxim that women voters follow the pattern of male voters appears destined for the scrap heap.

In 1952, women voters gave General Eisenhower a much higher percentage of their vote than the men did — by a margin of 58 per cent for women to 53 per cent for men.

Today, in an Institute "trial heat" race matching Eisenhower against Stevenson, the women still give a higher percentage of their vote to Eisenhower than the men do.

But it is interesting to note that the pattern of male voting today more closely parallels that of women voters than was the case four years ago.

Institute interviewers asked men and women voters in all walks of life:

"Suppose the presidential election were being held today. If President Eisenhower were the Republican candidate and Adlai Stevenson were the Democratic candidate, which would you like to see win?"

WOMEN VOTERS

	With	Without	Undecided
Eisenhower	63	45	—
Stevenson	34	35	—
Undecided	3	—	—

MEN VOTERS

	Per Cent
Eisenhower	61
Stevenson	36
Undecided	3

The growing importance of the women's vote can be seen from the fact that there are 2½ million more women than men in our adult population today and the disparity in numbers is growing.

It is still too early to make an estimate of the number of women who will vote in the coming election, but it is entirely possible that more women than men will vote on Nov. 6.

In the last presidential election, 65 per cent of the male adults of the country

What's Eisenhower's Place In History?

WASHINGTON — President Eisenhower, nearing the end of a White House term while recovering from an operation, has time to think of a question which must ever be asked: "What will be my place among the presidents?"

It would be no wonder if Eisenhower felt history might assign him one of the high places among the presidents if he went on to a second term.

"No one-term president except the martyred Lincoln has been honored with the accolade of greatness," says Clinton Rossiter in his book "The American Presidency." He is professor of government at Cornell University.

Like Lincoln, the two-term men at the top of the presidential list faced crises or struggles, internal or foreign, and lived in what Rossiter calls "stirring times."

Eisenhower's White House stay has been placid in comparison with the turbulent years of his immediate predecessors, Presidents Roosevelt and Truman.

They met head on more major crises and struggles, at home and abroad, than Eisenhower has encountered so far.

Roosevelt led a depressed country back into self-confidence and then into an almost through a world war. Truman saw the end of that war, reconversion to peace, the start of the cold war, the Marshall plan, the guided the country from isolation into the United Nations, formed armed alliances against Russia and finally made the decision to fight in Korea.

Eisenhower ended the Korean War. But he did not have to create a foreign policy. He inherited Truman's, and has followed it steadily with no new one of his own.

In the long view of history—if he should quit after one term—his greatest contribution may have been in thawing the cold war by creating among friends and foes confidence that the United States is peaceful.

The Democrats may argue it was the Truman policy of strength which thawed the cold war by forcing the Communists into less aggressiveness.

And they may try to brush off

1954 VOTE FOR CONGRESS

—NATIONWIDE—

	Men	Women
Republican	45	50
Democratic	55	50

Again, it is interesting to note that, whereas in the 1954 Congressional elections, women voted five percentage points more Republican than the men, today the Republicans have gained strength among men to the point where men are within two points of being as Republican as the women.

"If the elections for Congress were being held today, which party would you like to see win in this state—the Republican party or the Democratic party?"

VOTE FOR CONGRESS

—NATIONWIDE—

	Men	Women
Republican	41	50
Democratic	52	50

Here is the vote by men and women in the 35 states outside the South:

FREDERICKSBURG, Va. — A man who said he thought the police would be interested turned in an item at the lost and found desk at police headquarters. Patrolman Donald Balderson was interested. The item was his badge — No. 22 — lost a few days earlier.

When The Air Is Quiet—

David Lawrence

Spiking The Weapon Against Subversives

WASHINGTON — Three justices of the Supreme Court of the United States have just issued a decision which has stricken down the most effective weapon against subversive activity available to the government.

This decision must be good news to Moscow. It must be good news to the thousands of hard-core Communists in America who are trying to get inside the government of the United States through agents, stooges and dupes. It must be good news also to the groups of misguided individuals in certain so-called "liberal" circles who have been striving in recent months to break down the whole security program.

For, by a single stroke, the Supreme Court majority—Justices Harlan, Frankfurter, Douglas, Black, Burton and Chief Justice Warren — has practically opened the doors to Communist subversives inside many agencies of government. Unless the Congress acts immediately by legislation to erase the Supreme Court's tortured concept of what it thinks is the law, the entire security program will be endangered.

The point at issue relates to a law passed in 1950 by Congress which designated certain agencies of the government as "sensitive" but left it to the President to make, in his discretion, that designation for other agencies. The Supreme Court says that, when the President sought by executive order to designate additional agencies as "sensitive," he didn't have the power to do so because he didn't spell out the actual relationship of those agencies to the national security. Also the court argues now that it is not only the individual but the position he occupies which must be declared "sensitive" and the relationship defined. The minority opinion by Justices Reed, Minton and Clark, however, says: "It is not realistic to say that the government can be protected merely by applying the act to sensitive jobs. One never knows just which job is sensitive. The janitor might prove to be in as important a spot security-wise as the top employe in the building."

The President's standard is "complete and unswerving loyalty" not only in sensitive places but throughout the government. The President requires and every employe should give no less. This is all that the act and the order require. They should not be subverted by the technical interpretation the majority places on them today.

It seems incredible that these six Supreme Court justices should be living in such a vacuum that they do not know the technique of Communist infiltration as it has been uncovered in case after case and in the hearings of committees in Congress. An employe in a railroad retirement bureau, for example, may be said not to be working in a "sensitive" agency but, if he can furnish the names of key employes in transportation centers in certain sections of the country and overnight the nation gets into war, the enemy would have a valuable list for its sabotage.

Likewise, with the right to send out letters on government stationery, all kinds of seemingly innocent information, valuable to the enemy, can be acquired. One day a food inspector can be working in a non-sensitive agency, but overnight that same agency can be highly sensitive if it is discovered that bacteriological warfare is being conducted through the distribution of the food supply to the Armed Forces. The cases of dangerous subversion possible in so-called "non-sensitive" agencies are limitless, and that's why the President's executive order covered all government employes.

The six Supreme Court justices, however, do not seem to take account of the "clear and present danger" doctrine which Judge Learned Hand espoused in his famous decision. He wrote:

"The question before us, and the only one, is how long a government, having discovered such a (Communist) conspiracy, must wait. When does the conspiracy become a 'present danger'? The jury has found that the conspirators will strike as soon as success seems possible, and, obviously, no one in his senses would strike sooner."

But the Supreme Court majority evidently argues now that the government must wait till the conspiracy is consummated.

Plainly, the Supreme Court majority has set an impossible task for the government and even the writers of remedial legislation will have a hard time drafting a law that suits the judicial whim of the six justices who insist that the President of the United States cannot be trusted to render a judgment as to which employes may be retained or dismissed or to set up proper procedures to ascertain whether their continuous employment in a government job constitutes a risk to the safety of the government.

'Think Break' Do Any Good?

NEW YORK — Sidewalk scrawlings by a pavement painter: Would a daily "think break" help you in your job?

Harrison Gouch, a University of California psychologist, says "think breaks" should be added to the daily or twice-daily coffee breaks now customary in many offices.

"Workers should be given a think time so that they can sit down and think out their problems without interruption," he said.

The idea sounds attractive on the surface, but it holds hidden perils.

For one thing it might hurt steadily with no new one of his own.

In the long view of history—if he should quit after one term—his greatest contribution may have been in thawing the cold war by creating among friends and foes confidence that the United States is peaceful.

The Democrats may argue it was the Truman policy of strength which thawed the cold war by forcing the Communists into less aggressiveness.

And they may try to brush off

Some bluesones may look askance at Mrs. Gonzalez, who has outlived five of her seven children, and insist her bad habits will surely shorten her life.

But at 106 a girl certainly can afford to gamble a bit, and all we'd like to know is what brand of tequila she recommends and whether she thinks filtered cigarettes are better than the ordinary kind.

Mr. Bregor

Well, sir, at the moment it is certainly Old Home Week on the front pages for veterans of the Monaco campaign.

Grace and Rainier III are back from the honeymoon. So is Oliver.

Father Tucker, once more available for interviews every hour on the hour, isn't sure Her Serene Highness is pregnant but says, "I sure hope she is."

And Lady Norah Docker, a wedding guest who acquired her title by marriage, is in the midst of another fight and in the fettle.

Newsmen were on hand when the honeymooners returned to Monte Carlo to note that the bridegroom tenderly lifted his bride from his yacht into the cutter that took them to shore. They also noted that Rainier lifted Oliver, his bride's black poodle, with equal tenderness from yacht to cutter.

What was the significance of this tender scene? Is an heir apparent? Or does it merely indicate that the bridegroom has quickly adjusted to the dictum, "Love me, love my dog." Time will tell, if Father Tucker doesn't beat time to it.

It is good to know that Lady Docker, the voluble wedding guest, is in good form, although the scene of her current battle is Britain rather than Monte Carlo. This redoubtable Lady has not slugged another water, as she once did at the Casino in Monte Carlo.

This time Lady Docker has drawn a bead on the directors and stockholders of the multimillion-dollar Birmingham Small Arms Corporation, of which her husband,

Amateur Work

FREDERICKSBURG, Va. — A man who said he thought the police would be interested turned in an item at the lost and found desk at police headquarters. Patrolman Donald Balderson was interested. The item was his badge — No. 22 — lost a few days earlier.

Two Bad Breaks

SEMINOLE, Okla. — Bill C. Moore, 29-year-old Seminole oil field worker, slipped on an oil patch and broke his left leg.

Unable to work, Moore decided to take it easy and go fishing.

Coming to a log in the road, Moore hobbled out of his one good leg and started struggling with the log. The car suddenly lurched forward and broke his good leg.

Phones In Braille

TUCSON, Ariz. — A Braille switchboard, he believes to be the largest in the world, is being operated at an airport plant here by Joseph L. Abel, who is president of the Arizona State Assn. for the Blind.

"I hope it will encourage other companies to do the same and make jobs for blind persons," Abel said.

Around The Rim

Sentinel Over Changes It Made

Like the Indian and the buffalo, the windmill seems destined to vanish from the West Texas scene.

Electricity, more efficient internal combustion engines and the drought have conspired to wipe most of these honored symbols of early civilization from the horizon. In their day, however, they constituted about the only notable landmarks on the plains and stood as restless sentinels of life.

For a long time the only highways in West Texas were the trails leading from windmill to windmill. Wells had either their tanks and watering troughs or an earthen pond surrounded by denuded stretches, knobs of bear grass, cow chips and deep paths cut by hooves. Here and there might be a mulberry, hackberry or cottonwood tree, and maybe a few well-licked blocks of salt.

Windmill sounds were as mournful as the plaintive wail of a lonesome cowhand. No matter how much oil or grease was applied to the working parts, there was always some element which would squeak. The big wooden wheels groaned as an errant breeze stirred the mill from its sleep. The gears produced a comforting growl or an easy hum, and usually there was a sort of pounding rhythm as the rods reached the bottom of their stroke and started up with a tremor or jerk.

There was no need to toss dirt into the air to ascertain the force and direction of wind, for the windmill faithfully recorded this. Speed and rattle of the big fan wheel signaled from whence came the breeze and with what force.

Like as not the slicker rod scraped pr

screamed against the side of the tubing and kept a section of the slender pole polished to glassy finish.

The pipe was wonderfully cool below the level of the water column, and many a youngster found that sliding down barelegged produced the thrill of a lifetime. Weary cowboys felt the exhilaration of cool water allowed to jet out to the base of their sweaty heads. They knew, too, that the platform at the top of the derrick would furnish a little shade. From this same perch, they could survey vast stretches of land for cattle or any other sign of life.

Windmills were temperamental, and some said they were undependable. When hot still weather came along, the pitiful bawling of cattle testified that the mill had failed in its hour of need. Long before the engine came, cowhands devised ways to turn the mill by hand to produce the most meagre supplies of water. Always, it seemed, a section of the wheel was falling out so that the mill limped on its job; or a sucker rod would break, or the check valve would stick, and inevitably the leathers would wear out. In the winter time wells would freeze in the face of a stinging norther. Thus the good ranch hand always included in his trilogy of talents the qualification of "windmill fixer."

When the gasoline motor, and later the liquefied gas and electric power plants came along, the windmill was left to pivot restlessly over its decaying skeleton. It had made possible the development of West Texas, and small wonder that it brooded over the changing scene.

What's Eisenhower's Place In History?

WASHINGTON — President Eisenhower, nearing the end of a White House term while recovering from an operation, has time to think of a question which must ever be asked: "What will be my place among the presidents?"

It would be no wonder if Eisenhower felt history might assign him one of the high places among the presidents if he went on to a second term.

"No one-term president except the martyred Lincoln has been honored with the accolade of greatness," says Clinton Rossiter in his book "The American Presidency." He is professor of government at Cornell University.

Like Lincoln, the two-term men at the top of the presidential list faced crises or struggles, internal or foreign, and lived in what Rossiter calls "stirring times."

Eisenhower's White House stay has been placid in comparison with the turbulent years of his immediate predecessors, Presidents Roosevelt and Truman.

They met head on more major crises and struggles, at home and abroad, than Eisenhower has encountered so far.

Roosevelt led a depressed country back into self-confidence and then into an almost through a world war. Truman saw the end of that war, reconversion to peace, the start of the cold war, the Marshall plan, the guided the country from isolation into the United Nations, formed armed alliances against Russia and finally made the decision to fight in Korea.

Eisenhower ended the Korean War. But he did not have to create a foreign policy. He inherited Truman's, and has followed it steadily with no new one of his own.

In the long view of history—if he should quit after one term—his greatest contribution may have been in thawing the cold war by creating among friends and foes confidence that the United States is peaceful.

The Democrats may argue it was the Truman policy of strength which thawed the cold war by forcing the Communists into less aggressiveness.

And they may try to brush off

Wandering Dog

SOUTH HADLEY FALLS, Mass. — William Engel's three-year-old collie Prince got a touch of wanderlust and took an 80-mile trip.

Prince was gone eight days when Engel got a call from George Westris of Slaterville, R. I., — 80 miles away — that Prince was there. The dog's address was on his tag. Engel brought him home and Prince seemed content to stay around — for a while anyway.

Twirling Teacher

Yvonne Caldwell, twirling with the McMurry Indian Band, will teach her specialty during the summer band school at McMurry College July 15-28. The two-week school is one of the largest in the Southwest. It is directed by Raymond T. Bynum, professor of music at McMurry.

Heavy-Duty Trucks Bringing In Profits For Auto Industry

DETROIT (AP)—Two-toned cars may be the glamor girls of the automobile industry but this year it's the broad-beamed trucks that have been bringing home the sales and the profits.

But of late even the trucks, like so many other things in the economy, have begun to show a split personality. Light weight truck sales have turned soft, industry spokesmen here say. They report a drop in purchasing by farmers, one of their big customers. Makers hope for a sales pickup in the fall as farmers move harvest to market.

Heavy duty trucks, on the other hand, are still barreling right down the highway. And the new multimillion-dollar highway system now in the works doesn't cloud their forward vision in the least. Backlogs of orders are high. Truck builders think the times are right for them.

They cite: The many new plants being built on the outskirts of cities or along the throughways; the plants being dispersed into semi-rural or previously non-industrial areas; the rush to the suburbs from the cities, meaning a rash of shopping centers and branch stores to be served; and changes in a number of state laws to permit bigger truck and trailer units to pound the highways. Heavy duty truck builders point out that for some time their gains

have outpaced the truck market as a whole. The independent truck makers have worked this field hard. The big auto companies are now bringing out new designs to fight for more of the heavy truck sales volume.

Robert F. Black, chairman of White Motor, a heavy truck builder, finds business much better than last year. He believes "the healthy demand for the heavy duty trucks will be sustained for some time." John L. McCaffrey, chairman of International Harvester, says in Chicago, "Our backlog of motor truck orders shows no signs of diminishing." White Motor forecasts a healthy gain in output of heavy-duty trucks.

Trailer makers are right in there, too. Roy Fruehauf, president of Fruehauf Trailer, is even more confident in his predictions than are the truck builders. He says his sales should show a 70 per cent gain this year. Those roads are going to get more crowded all the time!

Several Big Spring men will be in Dallas Sunday for the grand lodge meeting of Texas Knights of Pythias. H. M. Rainbolt, Texas representative to the supreme lodge, will attend the three-day meeting, as will Clyde McMahon, Paul Darrow, and J. D. Jones, representatives of the Frontier Lodge of Big Spring. The convention which opens Sunday evening will close at noon Wednesday.

Norman Gound Registers For Band Training

ABILENE—Norman Gound, son of Mr. and Mrs. Wayne Gound of Big Spring, has registered for the eighth annual summer band and twirling school of McMurry College, to be held July 15-28.

Gound will receive instruction in alto saxophone. Raymond T. Bynum, professor of music and director of the Indian Band at McMurry, said that 196 students from 42 Texas towns and cities have registered for the band clinic. Final registration is expected to top last summer's record enrollment of 370 students, Bynum said.

The students will be housed in McMurry dormitories and will take their meals in the college dining hall. They will receive instruction in solo, ensemble and concert band playing, music theory and directing, twirling and drum majoring.

Texas public school band directors who will serve as instructors include Fred Smith, Brownfield; D. W. Crain Jr., Abilene; Robert Toombs, Wylie; Fred Steffy Jr., Abilene; Gene Smith and J. R. McIntyre, Odessa; Gary D-Shauro, Ballinger; Betty Wallace, Dallas; Fred Hotzler, Donna; and B. I. Green, Lamesa.

Soviets Make Progress With Film Industry

MOSCOW (AP)—A top movie star in the Soviet Union can earn about 200,000 rubles a year and nearly 90 per cent of it is take-home pay.

(At the government-pegged rate of four rubles to the dollar that is \$50,000.) That may not be enough to start a stampede from Hollywood but it's still several pegs above the average Soviet worker's annual take of 9,000 rubles.

Things are looking up generally in the post-Stalin movie industry. Studios are going up, production has doubled, and an industry leader reports, "preproduction censorship has been removed."

Ivan Alexandrovich Piriev, director of Mosfilm, the Soviet Union's oldest and biggest studio, told reporters recently his studio has scheduled 22 full-length films for 1956 and hopes to raise the target to 30 in 1957. Mosfilm produced 8 pictures in 1953, 12 in 1954 and 18 in 1955.

Piriev said pay at Mosfilm ranges from 1,500 to 6,000 rubles a month. In addition actors earn 200 to 1,000 rubles for each day of shooting. He said some actors turn out two or three movies a year, during which time they may work as much as 150 days.

Mosfilm employs 350 actors among a total staff of 3,500. Piriev, in announcing the abolition of preproduction censorship, told reporters a number of movies banned by the authorities several years ago will be released soon.

"The theoreticians of that day maintained that only the actions of heroes were worth portraying," Piriev said. "The ordinary tractor driver or worker was not considered suitable subject matter. 'Now we want to portray the life of the man in the street, his heart and soul, his happiness, his sorrow and his drama.'"

Don't wait another single day to enjoy the gasoline with a great "new high" in octane...

CONOCO Super Gasoline with TCP!

COUNT ON IT, MR. GREEN!
CONOCO SUPER WITH TCP* IS MADE -TO-ORDER FOR YOUR CAR'S HIGH-COMPRESSION ENGINE... JUST AS IT'S PERFECT FOR OLDER CARS!

WHY, AFTER TWO TANKFULS OF THIS GASOLINE, YOU'LL GET LOTS MORE POWER, BETTER GAS MILEAGE, LONGER SPARK-PLUG LIFE. IN FACT, IT'S JUST LIKE AN ENGINE TUNE-UP!

TCP GIVES YOU FULL-TIME POWER FOR BOTH STOP-AND-GO AND HIGHWAY DRIVING. TAKE MY WORD FOR IT...TCP IS STILL THE GREATEST GASOLINE DEVELOPMENT IN 31 YEARS!

I get Power plus Protection with the Conoco Super-Twins!

For full-time power, Ed, use Conoco Super with TCP! It's got a great "new high" in octane... plus TCP to neutralize power-robbing lead and carbon deposits.

And for full-time protection, I use New Conoco Super, the all-season oil in the can with the gold band. It conquers both friction and corrosive wear every single day of the year!

I team up both Super products... and get top engine performance... faster starts... and, because my engine stays clean, full power from my high-octane gasoline!

301 East First Street

Goodrich Tires Designed For Safe Driving

Choose for yourself; there's a B. F. Goodrich tire for your driving needs. And those tires can be found today at Jones & Jones Service Station, at the corner of Eighteenth and Gregg.

Jones & Jones is headquarters for the best in Conoco petroleum products and Goodrich rubber items. And now, you can purchase that needed set of tires before starting your vacation with your Conoco Credit Card or Credit Checkbook and take up to six months to pay for the tires and still not be docked for interest or carrying charges.

The tires to buy are Goodrich tubeless. Goodrich pioneered in tubeless models, and they are still the top name. Two of their best models currently on sale at Jones and Jones are the Life-Saver and Safeyliner tubeless tires.

Both are available with nylon cords and whitewalls.

The Life-Saver tread has thousands of flexible grip-like ridges that hold the road where other tires slide. They grip with caterpillar action. A patented liner slows air loss, changing blowouts to "slow-outs."

Scalp Conditioner Is Popular Product

Collins Bros. Cut-rate Drug Stores are having excellent demand for a new hair and scalp conditioner called V05.

This all-purpose blend of fine oils is first choice as a hair and scalp conditioner in beauty salons all over the country.

Collins Bros. Drug store has found that V05 is first choice in particular with all who use it and discover the splendid results it gives in the care of the hair.

Collins Bros. explain that there are good reasons for this. It is an accepted fact that if any oil or substance is good for the hair or skin, Lanolin and Cholesterol head the list. V05 has a base made of these two fine compounds.

To these, the manufacturers add other vital oils in a blend that has finer, more costly ingredients than anything on the market. And, Collins Bros. point out, V05, unlike ordinary hair oil, is in concentrated form so that a little goes a long way. This makes it most economical to use.

V05 is unsurpassed as a hair and scalp conditioner... a helpful treatment for dry brittle hair... and aid to the best results in permanent waving... for better finger waves... to eliminate snarls and tangles after shampooing, bleaching, tinting... and as a non-greasy, pleasant and helpful aid for attractive grooming of the hair," said Collins Bros.

"Men, too, appreciate how V05 keeps their hair looking its natural best. V05 supplements natural hair oils... checks dry scalp... grooms their hair, giving it that alive, clean, well-kept look.

"V05 is a wonderful aid in the care of children's hair, too.

"We are happy to tell you about this superb hair and scalp conditioner and to have you prove what it will do for you. New friends are lasting friends for V05.

Ready For Vacation Trip

This display of new tires at the Jones & Jones Conoco Station, 18th and Gregg, is to remind Big Spring-ers to have their tires checked before leaving town on any vacation trip. Jones & Jones suggest that old tires be replaced with a set of the new Safeyliner or Life Saver B. F. Goodrich tires. The tubeless tires—safer because there is no inner tube to blow out—are available for as little as \$18.95 exchange. They can be purchased with a Conoco Credit Card or Credit Check with six months to pay with no interest or carrying charge.

Nalley-Pickle Has Insurance Program

A concern whose true value to a community comes into sharp focus when tragedy strikes is a mortuary, the employees of which are trained to act quickly and correctly in an emergency.

Such an establishment is the Nalley-Pickle Funeral Home, located at 906 Gregg St.

Owned and operated by Coy Nalley and J. C. Pickle, the concern is prepared to offer a helping hand to the public 24 hours a day, 365 days a year.

Both Nalley and Pickle are licensed to plan a funeral service. They and their employees are prepared to relieve a family of all details at the time of bereavement, when the need for such help is greatest.

The Nalley-Pickle chapel is large enough for any type service and is equipped to supply organ music, if such is desired.

The three Nalley-Pickle ambulances and their drivers remain on alert 24 hours a day. If one is needed, the concern can be contacted by dialing 4-6331.

The Nalley-Pickle Burial Insurance plan, offered by the concern, is becoming increasingly popular.

The policy is designed primarily to ease the financial burdens of a family, when a loved one is taken by death. Payments can be arranged to suit the subscriber. Almost any type burial plan can be written upon request.

"Understanding service built up over years of service" is the motto of the Nalley-Pickle Funeral Home and the personnel of the concern tries to live up to every word of it.

NEW LIQUID CLEANS AND POLISHES CARS

Polish your car as you clean it — with POLISHAMPOO. Just apply rich harmless auto, then simply wash off dirt and "road film" that resist ordinary washings. Car dries quickly with no rubbing or wiping, leaving a polished surface. Use POLISHAMPOO regularly to keep car clean and polished. Bottle containing 8 shampoos, 98¢ Available at Piggly Wiggly, J. O. Newman Supermarket, J. & S. Green Food Mkt., Dale Douglas Food Mkt., Jack's Drive In Gro., Tony's Drive In Gro., Hull & Phillips Gro., Dist. by Strippling Supply Co.

SOLVED — CARPET CLEANING PROBLEM

Science finally has the answer to carpet cleaning. Blue Lustre, a new development, is mixed with water and brushed into carpet or upholstery. It's amazing the way forgotten colors spring out. The nap is left open and lofty. It's easy to apply. One half-gallon of Blue Lustre cleans three 9 x 12 rugs. Available at **BIG SPRING HARDWARE CO.** 117-119 Main St.

Hurricane Anna May Show Up Soon; Warnings Are Ready

MIAMI, Fla., June 13 (AP)—The likelihood of a hurricane is increasing these days as the brassy tropical sun warms the middle Atlantic Ocean and its adjacent waters. Somewhere, soon, a mass of

moist, warm air will raise off the water and drift upward. Showers will develop around the column. New surface air moving in to equalize the pressure will pick up a spin from the rotation of the earth and begin to circulate around the column.

Fed by new moisture and more heat, the disturbance will develop winds of 60 to 75 miles an hour, or much more. It will have become 1956's first tropical storm. It may be born in the western part of the middle Atlantic, or on the Caribbean Sea or the Gulf of Mexico. But form it will, and a Weather Bureau at Miami, New Orleans or San Juan, Puerto Rico, will flash:

"Advisory No. 1, Hurricane Anna." The advisory, giving Anna's loca-

tion, her intensity and direction of travel, will be distributed by wire services, printed in newspapers and broadcast over radio and television stations.

The daily progress of the storm will be followed carefully by residents of the southern and eastern United States.

For hurricanes — once labeled "Florida" hurricanes because of their destruction in this state — have in recent years bypassed Florida, wreaked havoc in other parts of the country and become a national concern.

Property damage from last year's storms amounted to an estimated two billion dollars, the highest on record. Half of this damage was caused by Hurricane Diane's floods in southern New England, eastern Pennsylvania, New York and New Jersey. Three hurricanes hit North Carolina.

The U. S. Weather Bureau, while it is alert all year for the monster storms, officially opens its hurricane season next Friday and continues it through Nov. 15.

These are the dates between which a special Teletype circuit will be operated as part of the bureau's Hurricane Warning Service. Forecasters will be shifted to strategic spots.

Air Force and Navy planes which will fly through and over the storms to observe them have been on the job since June 1 and will remain there through Nov. 30.

Several changes and improvements have been put into effect for this year.

The Weather Bureau has abandoned use of the ominous-sounding term "hurricane alert." It was replaced by a "hurricane watch." Like the alert, the term will be used when the Weather Bureau wants to warn coastal residents that they should keep abreast of the storm's movement and watch for a hurricane warning that may be posted later.

The Weather Bureau found many persons were using the alert as an actual warning.

This year for the first time the bureau will use its vast radar network to supplement the Weather Bureau's own radar. The screens will be trained on approaching hurricanes when they come within range and threaten any part of the coastline.

The radar network, vastly expanded since last year, gives coverage to the entire Eastern Seaboard and to most of the Gulf Coast. A 160-mile stretch of the northwest Florida coast between Pensacola and Apalachicola is still outside radar range.

The storms of 1956 will be studied more closely than any in the past. A new cooperative effort named the National Hurricane Research Project has been set up by the Weather Bureau, the armed services, many universities and other research organizations. Its aim is to learn everything possible about hurricanes.

The first goal of the project is to perfect a perfect 24-hour hurricane warning.

Later the experts will look into the possibilities of breaking up these storms or turning them away from heavily populated areas through cloud seeding.

Fishermen Rescued

YOKOSUKA, Japan (AP)—The U. S. destroyer Jarvis today rescued eight crewmen of a Japanese fishing boat which had capsized. The men were pulled from the sea south of Tokyo Bay.

Peacetime Use Of Atomic Energy Affects Medicine

CHICAGO (AP)—Medical tips today from the annual meeting of the American Medical Assn.: Some illnesses may not be "just your nerves" simply because there's no readily apparent physical cause. Deeper checking sometimes turns up a real physical cause. — Dr. Robert L. Faucett, Mayo Clinic, Rochester, Minn., psychiatrist.

There's new evidence of an abnormal chemical change in the red blood cells of patients with schizophrenia, the most common form of mental illness. It's found in the way certain digestive enzymes in the blood of schizophrenic patients react to radioactive phosphorus. It might be significant in diagnosing such patients sometimes — Dr. Ivan Boszormenyi, Navy.

An age of "atomic medicine" is fast approaching, as part of peacetime uses of atomic energy. More use of atomic or nuclear radiation, in power plants, industry, medicine, will increase the amount of radioactivity in our life. Physicians should be given data to help guard against radiation sickness from accidents, and bad effects upon future generations — Dr.

I. Phillips Frohman, Washington, D. C.

A new anesthetic given by vein puts you to sleep in a matter of seconds, but permits fully coordinated alertness 10 to 30 minutes after it is stopped. It promises to be useful in surgery and also dental anesthesia. It is named Methital sodium (trade name Neraval) — Dr. Irving M. Riffin and Dr. Max Block, Montclair, N. J.

Range Management Field Day Planned

A field day is being held by the Texas Section of the American Society of Range Management at the Dick Simpson and Tom Good ranches on Friday.

The day's activities will start with assembly at the Big Spring Experiment Station at 9 a.m.

Everyone interested in seeing good range management is invited to attend. Cooperating ranchers with the Martin-Howard Soil Conservation District are especially urged to attend, said Marion Everhart, Soil Conservation Service work unit leader.
