

Another Scorchers In Texas With Few Clouds, No Rain

The Associated Press

Friday was another hot day in Texas with only a few clouds and no rain.

Dawn temperatures ranged from 60 at Dalhart to 70 at Galveston. Some lightning was reported near Beeville and Palacios.

Temperatures Thursday ranged from 105 at Seymour to 86 at Galveston. Some scattered showers were reported between Midland and El Paso.

Pleasant weather—a little cool and dry—was the outlook for Midland and Northeast sections of the country today.

A fresh batch of cool air moved southward from Canada over the north central part of the country. It extended over the Great Lakes region, southwestward to Missouri and westward to the Dakotas. The cooling breezes were headed eastward and were expected to spread through the Ohio Valley to western Pennsylvania and New York during the day.

During the night there was a warming trend from Arkansas and Louisiana eastward to the coast and northeastward through the Ohio Valley and the North Atlantic Coast states.

Three Killed In Plane Crash

A giant Air Force transport plane with six men aboard crashed and burned at West Palm Beach, Fla., killing three and injuring the other three critically. The pilot flew it over a congested district to a vacant section of land before the crash. Only the tail section was intact after the plane hit the ground and exploded.

States Righters To Push Own Candidate

JACKSON, Miss. (AP)—States Righters who don't like either the Republican or Democratic ticket will meet next month in Memphis, Tenn., to work out their own presidential campaign plans.

Indications the States Righters seek to broaden their scope were seen in the absence of mention of segregation and other regional issues in the announcement after an unannounced conference here yesterday.

The States Righters still aren't saying who their standard bearer will be. The Louisiana faction has endorsed former Internal Revenue Commissioner T. Coleman Andrews. A Tennessee man said Andrews, who now advocates abolishing the income tax, was among prospective nominees discussed at Jackson.

The Jackson meeting was at a downtown hotel. Reporters were not admitted and most men leaving and entering wouldn't give their names or say what the meeting was about.

At its windup, however, Circuit Judge M. M. McGowan of Jackson typed a statement for reporters.

It said the meeting brought together representatives of seven Southern states "interested in placing on the ballot on Nov. 6 presidential electors pledged to support candidates for president and vice president who are dedicated to state rights and constitutional government."

South Carolina, Alabama, Mississippi, Louisiana, Texas, Tennessee and Arkansas had representatives there for that purpose, he said. He added, without explaining why they were listed separately, that "Virginia and Florida had authorized representatives present."

The Sept. 16-15 Memphis meeting was called "to coordinate the efforts of all of the states, both North and South, which have already or are now preparing" to join the splinter movement.

McGowan has said the States Righters hope to gain a "balance of power" in the Electoral College and throw the presidential election into the U. S. House of Representatives, where each state has one vote.

Russ Envoy Steps Out Of 'Fig Leaf'

LONDON (AP)—"Mr. Shepilov," said a Western delegate to the Suez Canal conference, "really came out from behind his fig leaf during those last two days."

It was the Westerner's way of saying that Dmitri T. Shepilov, the Soviet Union's new 50-year-old foreign minister, revealed himself finally as a tough obstructionist in the old Communist manner.

"Shepilov is nothing like as able at the conference table as his predecessor (V. M.) Molotov, but he's learning," said another delegate who has attended many international meetings with the former Russian foreign minister.

A big, handsome man, Shepilov shambled into London last week with a sweet smile on his broad Slavic face. He was so friendly he actually disarmed several diplomats.

His first days at the conference table were affably different from the days of the stone-faced Molotov, snarling Andrei Vishinsky, sarcastic Andrei Gromyko and frowning Jacob Malik.

Shepilov said "Nyet (no)" with a smile. Sometimes he even said "Da (yes)."

But when the Suez conference got down to the vital question of taking action, Shepilov forgot the da's.

He jumped to his feet time and again when 18 of the 23 nations came close to a majority decision — and he objected.

"It was the same old Communist tactics all over again," said a delegate who is familiar with them. "Confuse the issue — and when you can't do that, obstruct."

But he was never so sure of himself as Molotov or Vishinsky.

Britain's Selwyn Lloyd, an adroit lawyer as well as foreign secretary and chairman of the conference, talked Shepilov back into his chair several times.

"You should have been there," said a delegate. "He slapped him down a couple of times and each time Shepilov blushed. Molotov never did that."

Traffic Diverted In Deraiment Of Train

TOWNER, Colo. (AP)—Traffic was diverted to a spur line of the Missouri Pacific Railroad today after 22 cars of a 70-car MP freight train was derailed in this eastern Colorado town. Damage in yesterday's pileup was set at about \$100,000. A burned-out journal box was blamed. There were no injuries.

2 Instructor Pilots Injured In Crash

SAN MARCOS (AP)—Two instructor pilots were injured yesterday when a L19 airplane crashed on takeoff near Seguin. Lt. Gene Babcock and Henry Baldwin, both of San Marcos, were injured "painfully, but not critically."

Search On For Mental Patients

CATONSVILLE, Md. (AP)—Police were searching this suburban Baltimore community today for two dangerous women mental hospital patients who overpowered a woman attendant, took her with them to freedom, then released her.

The attendant, Mrs. Betty Nichols of Ellicott City, mother of three children, was taken to a wooded area about two miles from the Spring Grove State Hospital here, stripped to her underwear and released. She returned to the hospital early this morning, several hours after the escape.

Authorities at the hospital said the two escaped women, identified as Romona Sensabaugh, 21, of Roanoke, Va., and Grace Maham, 18, of Baltimore, have homicidal and suicidal tendencies.

Dr. Isadore Tuerk, hospital superintendent, said Mrs. Nichols was working in the institution's white patient building when the two jumped her, took her keys and forced her to go with them as they unlocked their way to the outside world.

Nixon Says He'll 'Work Hard' For Ike

SAN FRANCISCO (AP)—Vice President Nixon says he intends to work hard in the coming campaign in order to help President Eisenhower complete his "unfinished tasks."

Accepting renomination yesterday, he also promised the Republican National Convention he would carry the "great message" of the Eisenhower administration "to every corner of this land."

After delivering his speech to heavy applause, Nixon flew back to the bedside of his ailing 77-year-old father in La Habra, east of Los Angeles. The length of his stay there will depend on the elder Nixon's condition.

The vice president smiled happily, but he was a tired man when he began his 26-minute speech before a capacity audience in the Cow Palace.

He flew in from southern California a few hours before he stepped before the final session of the 1956 party gathering. Called away by his father's illness the day before, he worked on his text to the last minute.

"I am grateful beyond measure," Nixon said, "that you have given me the privilege of running on the same ticket with President Eisenhower. I shall work hard to re-elect the President by an even greater majority than the landslide of four years ago."

His wife Pat sat on the platform listening proudly as her husband—a House member at 33, a U.S. senator at 37 and vice president at 40—crossed another threshold in his fast-moving political career. Their two daughters, Patricia, 10, and Julie, 8, saw it all on television. They were with relatives in Whittier.

Afterward, the Nixons celebrated quietly in their 11th-floor hotel suite with a few friends.

In his speech, the vice president declared, "The American people support the record of President Eisenhower and will overwhelmingly re-elect him on that record."

"But the President himself looks forward to greater achievement and progress," he said. "He needs more time to carry out the program that he feels to be so vital for the future of our nation."

He said American living standards must rise still higher—"and they will do so under the sound economic policies of the Eisenhower administration."

Declaring that not all Americans have shared equally in the country's prosperity, he said, "We must move ahead with vigor and imagination to root out any economic problems in our midst."

He got a big hand when he said, "Our prosperity must be fully shared by the 17 million Negro Americans."

AT CONVENTION

Ike Sees Victory In Acceptance Talk

SAN FRANCISCO (AP)—President Eisenhower has sent the Republican party into battle with the confident prediction that its program "will be decisively approved by the American people" in the fall elections.

He got a tumultuous reception yesterday from thousands of Republican National Convention delegates and San Franciscans who packed the Cow Palace to hear him formally accept his party's renomination.

He pictured the GOP as forward looking — "the party of the future" — and, by implication, accused the Democrats of looking backward.

He told the convention he was accepting its standard again "humbly but confidently." And, he said, "I pledge you my best efforts to bring victory to our cause next November."

The "peace, prosperity and progress" theme ran through Eisenhower's speech, in which he referred to the Republican party as the "rallying point for Americans of all callings, races and incomes."

These Americans, he said, see in the party's "broad, forward-moving, straight-down-the-road, fighting program the best promise for their own steady progress toward a bright future."

Politics Steps Aside For Golf

PEBBLE BEACH, Calif. (AP)—President Eisenhower, a bit tired but happy, put politics on the shelf temporarily today and looked forward to whacking a few balls at this golfers' paradise on the Pacific Ocean.

The President arrived at nearby Monterey by special train last night from San Francisco. A few hours earlier he had accepted nomination for a second term at the closing session of the Republican National Convention.

A police-estimated crowd of 5,000 persons was on hand to greet him and Mrs. Eisenhower as they stepped from their private car here.

Mayor Dan Searle, who served under Eisenhower in Africa as a lieutenant colonel in World War II, was on hand. He asked Eisenhower about his golf game. The President—back at it only a few weeks since his June 9 abdominal operation—laughed and remarked, "These days any time I make a 95 I'm really happy."

The President and his party were driven immediately to the swanky Cypress Point Club, where he will vacation three or four days as a guest of the members.

The golf course on the edge of the Pacific is rated by experts as one of the toughest and trickiest in the country—site of the annual Bing Crosby tournament.

The President arrived in San Francisco for the GOP convention Tuesday evening and engaged in probably more activity than at any time since his surgery in June.

"He's a bit tired but certainly not a bit more so than any of the rest of us here," White House press secretary James C. Hagerty told newsmen.

"He's going to take a couple of days of rest here and we certainly are not going to do any campaign planning for a day or so."

Hagerty said Eisenhower probably would hit a few balls today and perhaps play a few holes. He didn't look for the President to play a full round before tomorrow.

In labeling the GOP the party of the future, he said this is so because:

"It is the party of long-range principle, not short-term expediency . . . (1) concentrates on the facts of issues of today and tomorrow . . . (2) draws people together, not drives them apart. . . . It is the party through which the many things that still need doing will soonest be done. . . ."

Further, he said, "a party of the future must be completely dedicated to peace . . . for without peace there is no future."

He said that this country's economic power "is displaying a capacity for growth which is both rapid and sound even while supporting record military budgets."

And he declared that "our country has never before in peacetime been so well prepared militarily."

Eisenhower skipped any jabs at the Democratic presidential and vice presidential candidates, Adlai E. Stevenson and Sen. Estes Kefauver of Tennessee.

But he slipped at the Democrats for their approach to solutions of farm and labor problems. And, in setting up the image of the Democrats as a party living in the past, he asserted:

"More than 20 years ago, our opponents found in the problems of the depression a battleground on which they scored many political victories. . . . Their obsession with depression still blinds many of these critics to the insistent demands of today."

7 Convicted In Court-Martial In German Rape

WUERZBURG, Germany, Aug. 24 (AP)—A U.S. court-martial today convicted seven American soldiers of rape. A 15-year-old German schoolgirl last July 9 in the woods of nearby Bamberg. The nine-officer board deliberated 2 1/2 hours. After pronouncing the defendants guilty, the court adjourned until tomorrow when the sentences are expected. The trial, which started Aug. 7, was one of the most publicized court-martials in West Germany since World War II. The soldiers' attack on the girl set off a nationwide protest against what the Germans called a soldier crime wave. Even the trial came under fire with the public complaining against the way it was conducted.

5 Jurors Seated For Brink's Trial

BOSTON (AP)—Five jurors have been seated with nine more to go as the trial of eight men charged with the \$1,218,211 Brink's robbery today entered its 14th day. Nearly 1,300 prospective jurors have been examined and dismissed. Not before chief defense counsel Paul T. Smith exhausted his allotted 262 peremptory (without cause) challenges was the first juror selected. From now on, the defense can challenge jurors only for cause, subject to a ruling from Superior Court Judge Felix Forte. The prosecution still has a backlog of 173 without-cause challenges.

New Water Lines Awaiting Repairs

An "unfinished" report could be given by the city on construction work by Clyde Yarbrough, contractor from Odessa. Yarbrough completed work on laying water lines for the city about two months ago, but at present the lines have not been accepted by the city. They have been tested and did not stand up to specifications, but Yarbrough has not returned with crews to remedy the troubles. The contractor laid almost 20,000 feet of water lines on contract for the city. Cost of the project was \$144,267.34. Of the total footage, 13,121 was a 20-inch line from the filter plant to the reservoir under construction in the southwest part of the city, 3,500 feet of 12-inch pipe, 355 feet of eight-inch pipe, and 1,600 feet of six inch line. The smaller pipe was laid in the southwestern part of Big Spring. Yarbrough also has contract for the million-gallon reservoir in the southwestern part of Big Spring and is progressing on schedule there. Reinforcement steel has been placed in preparation for pouring the concrete walls. Waiting for equipment is seemingly slowing progress by Clay Carey of Brownwood, contractor on the filter plant renovation. Carey has flocculator equipment on order which is not slated for arrival until October. And until the gear arrives, portions of the construction work cannot be accomplished. Carey's work will double the filtering potential of the plant. Work on the Northside fire station has been at a standstill for over a month awaiting materials. The contractor, G. A. Jones, of Lamesa, reported that he is waiting on door and window frames to start bricking the building. Foundations have been poured and when the frames arrive, he will start brick work. J. D. Jones, contractor on the police building, has completed the superstructure for half of the first floor and is setting the forms on the other half. On the half that is completed, crews have started laying brick. With completion of the swimming pool in the Negro park, only one remains to be finished. It is in the block with the Northside fire station and is bounded by N. Main, Runnels, Seventh and Eighth.

Its cotton picking time in Martin County and there's quite a lot of it to pick. The estimate for the 20,800 acres of irrigated cotton has been placed at 37,500 bales. On the dryland cotton someone made an optimistic guess of 1,350 bales. The county has sent out a call for 350 cotton pickers, with prevailing wages at \$2.05 per hundred pounds. Several crews have come up from South Texas, with 100 workers now on their way here from Rosenberg and Victoria. Farmers are supposed to use native workers if they are available. If they don't want the jobs, then braceros will be brought in for the work. Privately, some farmers say native crews won't stay with it and the county will wind up with Mexican Nationals as usual. One or two crews have already gone to the cotton fields, then decided it didn't pay enough. There is not much demand for other kinds of farm work. Leon Kinney at the Texas Employment Commission said he had two jobs for all around farm hands to stay throughout the year. The price of tractors and farm equipment has been steadily rising, but a farmer could still buy a tractor about as cheaply as he could last year, according to local dealers. "We are not selling any," said one owner, "so a buyer can shop around a little and get one at a lot lower price than the list price. We've got to shave our profit pretty thin. If we don't, our competitors will." This man said the recent steel strike and rise in the wage of workers would be passed on to the buyer, so he thinks all steel products are due for a rise in price. The experts have come up with a new way of raising hogs, according to Joe Scott, a feed representative, who was in Big Spring this week. The plan is a little like that of keeping caged hens. The farmer builds a pole type-house 22 by 30 feet. He puts up a roof on poles with a concrete floor underneath, and wraps a net wire fence around the sides. The concrete floor is sloped gently so it can be cleaned with a pressure hose. In this open-air house are placed 10-hole automatic feeders and automatic waterers. Each house holds 50 shoats weighing from 60 to 80 pounds. The pigs have nothing to do but eat and sleep and are supposed to gain weight fast. At the end of 60 days they will weigh from 200 to 220 pounds apiece, or at least they did down in East Texas where the plan is being used. The owner can run six batches through the house every year. The pigs not only gain fast, but they dress out better than hogs raised the old way. An ordinary hog dresses out from 72 to 74 per cent. These scientific swine go as high as 80 per cent, Scott says. The ratio of feed consumed for meat produced is also higher. For each 100 pounds of feed the hogs put on 34 pounds. Scurry County farmers are planning to ward off any fight on braceros wages this fall. The Farmer's Union has called a meeting for tonight in the Snyder District courtroom to discuss the matter. Also present to help decide on the wages and interpret the rules will be Ben E. Harlow of the Texas Employment Commission at Sweetwater. A representative of the U. S. Department of Labor is expected to be there. A. H. Tate, president of the local Farmer's Union, says there will be a Howard County meeting once a month. A membership drive will get under way next month when Alec Dickie, state president, comes out to meet with members on Sept. 8. Tate says the biggest concentration of Farmer Union members live in the Fairview community, though several live in the Luther-Vealmoor area. The organization was started in the county only a few months ago but already has more than 100 members, Tate said. Charley Creighton plans to enter six Herefords in the West Texas Fair to be held in Abilene, Sept. 10-15. He will take four bulls and two females. Prizes in this show are quite liberal, ranging from a top of \$50 down to \$10 for 15th place in some divisions. The animals will be judged on Sept. 11 by Roy Largent, prominent Texas Hereford rancher and past president of the American Hereford Association. Sept. 11 has also been designated as Roy Largent Day. Water troubles are getting worse in West Texas. Lubbock has been frantically drilling new wells to keep up with the city's growth. As old wells dwindle, new ones are being staked miles from town. Midland at one time had plenty of water, but is now rationing it. Lamesa has more wells than a few years ago but the wells are pumping less, and the city fathers are wisely looking years ahead in planning a water supply. The latest town to feel the underground water drought is Stanton. However, cities throughout the Plains face the same situation. I recently saw some charts put

Take your problems to Church this week

—millions leave them there!

What do you think of...
when you see a Church?

Have you looked at a church lately?
To almost everyone, the sight of a slender steeple raised to the sky evokes certain emotions—awe, perhaps, nostalgia, maybe—the sense that by not going to church lately, you've been missing something!
Next time you see a church, take a good look... and let yourself really feel what you see. If that makes you decide not only to look at the outside but also to go inside, that will be all to the good. For no matter how lovely a home you may live in, it can't compare with God's House. If you open the door, you'll find that, no matter how long you've been away, the welcome is warmer and more wonderful than you'll find anywhere else.

**THE CHURCH FOR ALL...
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Young Vandals Are Put On Probation

A diminutive 11-year-old lad from Elbow community and his companion, two years older but not much larger physically, told Judge R. H. Weaver Thursday afternoon that they broke into the John David Feed Store and the Merchant's Motor Lines Warehouse last Sunday.

They couldn't tell the court, however, why they did so or what impelled them to vandalize the establishments.

The proprietors of the two raided establishments described the damage done. Davis said that a case of eggs had been thrown and broken; feed sacks punctured, bottles of medicine poured on the floor and cold drink bottles broken.

The two boys gave no reason for their action. Neither had any previous record of law-breaking.

They were two of seven young defendants who were brought before Judge Weaver Thursday. It was one of the heaviest juvenile court dockets to be before the court in many months. All of the defendants were of Spanish-American extraction and all of the escapes which had landed them in the court occurred in the past two weeks.

Judge Weaver remanded the two young vandals to their parents on probation with the stipulation they go to school, stay off the streets, repay the merchants for the damages done, and conduct themselves properly.

Other defendants before the court came in for sterner treatment at the hands of the court. One boy, who has had numerous other occasions to appear in court, was sentenced to Gatesville, A. E. Long, county juvenile officer, was instructed to see that he was removed to the training school at once.

Two other boys, one 15 years old and the other 16, involved in theft of merchandise from a Big Spring store, were given probation on their promise to enroll in school in September and to stay off the streets at night. The 15-year-old lad was turned over to his sister who promised to take him to Midland and see to it that he obeyed the probation requirements.

The father of a youth charged with using a knife on an opponent in connection with a gang fight argued that his son was not guilty. Harvey Hooser, county attorney, said that others in the fight told him that the young defendant used the knife.

The father said he was "investigating the matter" and that he would find out who used the knife and report it to the authorities. The boy was permitted to go with his father on this promise. Another youth, involved in a burglary, was probated to his parents and turned over to his brother for return to his home.

He said that he and his staff worked for more than four hours repairing the damage.

The manager of the Merchant's Motor Lines Company said that the heaviest loss sustained by his place was the taking of 34 steel balls out of precision machined pump bearings. Cartons of merchandise were broken open and their contents were strewn on the floor.
