

Freedom Demonstration

Shouting and waving banners for a free Hungary, university students clash with Italian national police at the Soviet Embassy in Rome. Demonstrators stoned the embassy building. A dozen persons were injured.

**K-F Members Favoring Hike In Club Dues**

With 20 per cent of the membership voted, it was indicated that the members of the Big Spring Knife and Fork Club prefer to have dues increased to \$7.50 per person a year rather than to diminish the number of speakers the organization presents or lessen the quality of the talent provided.

The club has 300 members. Since these memberships for the most part are made up of husbands and wives, a potential total vote of 150 is possible. Thirty-eight had sent in their votes by Tuesday morning.

One of these proposals was to reduce the number of speakers for the year's program. Another was to increase the dues from the present fee to \$6.25. A third suggested increased dues to \$7.50.

Check of the 38 votes showed that six favored reducing the number of speakers. Eight suggested increase in dues to \$6.25. Twenty-four favored increase in dues to \$7.50.

A report on the vote will probably be made to the club at its November meeting Thursday night at the Hotel Settelles.

**Former Resident Hurt Seriously In Farm Mishap**

A former Big Spring resident, J. G. Davis Jr. of Dimmitt, is slowly recovering from injuries received when his leg was caught in the auger of a cotton stripper near Dimmitt.

The accident occurred last Thursday. Davis' sisters, Mrs. Albert Smith and Mrs. C. L. Richardson of Big Spring, returned Monday from his bedside.

**Pair Back From Hunt In Montana**

Ross Roberts and Rex Bishop have returned from a hunting trip near Miles City, Montana.

Each bagged a deer and an antelope. The deer killed by Roberts weighed 250 pounds and had 13 points, unusual even for that part of the country.

**MARKETS**

**COTTON**  
NEW YORK (AP)—Cotton was 40 cents a bale lower to 63 1/2 higher at noon today. December 32 1/2. March 33 1/2. May 34 1/2.

**LIVESTOCK**  
FORT WORTH (AP)—Cattle 4.00; calves 1.20; steady; good to choice steers 16.00-18.00; fat cows 10.00-13.00; good and choice calves 14.00-18.00; steer yearlings 17.50 down.

**STOCK MARKET**  
NEW YORK (AP)—The stock market continued its downward course today as the threat of a recession loomed.

**WEATHER**

**WEATHER**  
CENTRAL TEXAS—Scattered thunderstorms in east this afternoon, otherwise generally fair through Wednesday.

Admissions—Nancy Thomas, 404 Washington; Jolene Bennett, 204 Princeton; Lena Mae Tucker, Goldsmith; Gladys Stephens, Rt. 1, Box 188; Charles Arnold, Coahoma; Mary Newton, Rt. 1; Brenda Snodgrass, 1201 Barnes; Amanda Schneider, 1206 E. 17th; Charles Vines, 306 Gollard; Kitty Anderson, 605 Washington Blvd.; B. E. Reagan, 1500 E. 6th.

**Wednesday Last Day For 3-Pct. Tax Discounts**

Wednesday is the last day for city property owners to pay their current taxes and get three per cent discount. During October—first month of collections—the city gives (three per cent credit to taxpayers. The discount drops to two per cent during November and one in December.

Perry Johnson, city tax assessor, said that mail receipts postmarked before midnight Wednesday would qualify property owners for the discount, but no payment would be accepted at the tax office after the regular 5 p.m. closing time.

Collection of current taxes through Monday totaled \$198,392.85. This figure included \$14,674.28 coming in Monday. Through 29 days of October—last year, the total collected was \$214,277.44.

**Air Conditioning An Incentive For Use Of City Auditorium?**

The city is thinking of air conditioning the city auditorium—a building that has brought \$85.25 in rental the past summer.

When the city okayed the bond issues in August of 1955, a portion was pegged for renovation of the city hall and auditorium. Commissioners asked \$75,000 for this project.

Reason for including auditorium air conditioning was to create an incentive for groups to use the building. During the past summer, five organizations used the building for various paying programs and their rental fees amounted to \$85.25.

Summer is considered from this standpoint as May 1 to Sept. 1. Revenue from the building dropped sharply from the summer of 1955 and 1954. In 1955, the rental was \$565, and it reached \$814 in '54.

Partial reason for the decline in usage this summer was cancellation of the weekly hillbilly jamboree.

Largest amount charged this summer was \$31.50, which was paid for the performance of Charles Laughton on May 4. Other amounts were \$12.50, \$3.75, \$12.50, and \$20. In all, the auditorium has been used 16 times this year, which included non-paying use. Only three dates are on the calendar for the remainder of the year.

The present ordinance governing rental of the building was passed

in 1939. No changes in prices has been made since then.

Maximum charge for its use is \$100, exclusive of tax. This is the top price charged road shows, opera companies, and groups presenting entertainment here without sponsorship of local bodies. Minimum charge for groups of this type is \$30.

Agencies wishing to purchase a set of tickets for a performance from the city pay \$6.50 per set for them. They can have their own tickets printed if they wish.

Political meetings cost \$80. School commencement and baccalaureate programs are free, as are admission-free programs presented for special occasions—such as Music Week school concerts.

The city charges \$5 for any rehearsal during the day and \$7.50 at night—any time of the year.

City officials could not estimate the cost of air conditioning the building, and they said that firms would not quote them a price without giving the structure a thorough check. The commission—at the time that the bond issue was

formulated—thought that by having the auditorium air conditioned, more agencies would use it.

In the summer of 1955, the building was used for pay 12 times. This included four jamboree performances at \$60 per night.

The building was used 23 times commercially during the summer of 1955, when revenue hit \$814. Nine of the 23 were Jamboree sessions at the same price as charged in 1955.

Except where a fraternal order is using the building and outsiders are not admitted, the city furnishes an employee to control lighting. Also, a man is on hand to help with properties. These services are provided in the rental.

**O'Brien Memorial Services Planned**

LAMESA—Twenty-five members of the O'Brien and P. L. Harp families of Lamesa community left today for Palmdale, Calif., to attend memorial services for John Foy O'Brien Jr., to be conducted Thursday at the First Baptist church in that city.

O'Brien, superintendent of test craft for the North American Aviation Corp., Englewood, with a pilot and another employe of the company disappeared on a flight over Los Angeles bay on Oct. 22.

Cecil O'Brien, a brother who lives here, said that it is evident search for the bodies has been abandoned. O'Brien was the son of Mr. and Mrs. J. F. O'Brien of Lamesa.

**U. S. Favors Stern Action In Mid-East**

WASHINGTON (AP)—The United States was reported today to favor the sternest Western Big Three measures—short of war—to halt Israel's sudden military lunge into Egypt's Sinai Desert.

Administration officials were reported convinced only such united action could induce Israel to withdraw her troops.

U. S. officials obviously were banking also on swift moves by the United Nations to alleviate the threat of all-out Middle East war.

Officials hoped that Israel, with massive public opinion focused on her, might back down before Arab counterattacks could turn the limited fighting into a full-scale conflict. They conceded, however, late.

Eisenhower held an emergency meeting with top military and foreign policy advisers last night. The White House said the United States would stand by a 1950 pledge with Britain and France to aid any victim of aggression in the area.

"We shall honor our pledge," said White House press secretary James C. Hagerty, who said he spoke with Eisenhower's authorized members, Senators Langer (R-ND) and Fulbright (D-Ark), said however, they saw no present need for Congress to re-

assemble. Sen Knowland of California, the GOP Senate leader, told newsmen in Sacramento he doesn't feel a special session is necessary.

A scarcity of precise information on what was happening appeared to be a handicap. Officials suspected that Israel had delayed telegraphic reports to Washington in hope of keeping this capital in the dark about initial developments.

**M. T. Garvin Dies In Lamesa**

LAMESA—Funeral services for Michael (Mike) Travis Garvin, 55-year-old Lamesa cotton buyer who died at 3:30 a.m. Tuesday of a heart attack, will be at 10 a.m. Wednesday in The First Presbyterian Church.

The Rev. Walter Horn is to officiate. Burial will be in Lamesa Memorial Cemetery with 7,382-40th Memorial Funeral home in charge of arrangements.

A resident of Lamesa for 21 years, Garvin was born in Floresville, Oct. 13, 1901. He was a member of the First Presbyterian Church and a Navy veteran of World War II.

He is survived by his wife, who is a teacher in the Lamesa schools; and two brothers, Patrick, of Houston and J. L. of New York City.

**Hundreds See Herald Plant**

Several hundred people toured the Herald's new plant Monday evening before weather pinched off the flow of traffic.

From the time that doors were opened at 6:30 p.m. until heavy wind and then rain came just before 9 p.m. the building was comfortably filled with visitors.

They inspected the offices, with their unique decorative schemes and all new furnishings, watched the composing room force put intricate machinery through its paces, and saw how papers were printed, and finally distributed.

Herald officials expressed regret that the showers made it impractical for many to attend but gratification that so many had inspected the plant.

**Tax Receipts Over \$400,000**

Tax collections to date in the office of Viola Robinson, county tax collector, stood at \$401,324.38 at close of business Monday.

This represents payments of current county and state taxes since Oct. 1, the first day that taxes could be paid.

Mrs. Robinson said that this total does not reflect accurately the total payments made. She pointed to stacks of letters which have come in from mortgage companies, oil firms and others and which have not been processed.

She would not make an estimate on the total dollars taxes represented by the letters.

Tax collections for the year for her office were estimated in the Howard County budget at around one million dollars.

**New Borden Well Potentials For 997-Barrel Flow Of Oil**

A Borden county producer in the Arthur field brought almost 1,000 barrels of oil on a potential check through a partial choke.

The well, Continental No. 1-34 T. J. Good, flowed 977 barrels of 37-degree oil on a final test. Flow was through a half-inch choke. Pay is from the Spraberry, and the producer is seven and a half miles north of Vealmoor.

After pumping load from the Dean at the Standard No. 1 Harvey Adams, operator today installed a pumping unit. The Standard No. 1 Burton is still swabbing. Both are in Howard County.

**Borden**

Rutter-Wilbanks No. 1 Clayton and Johnson has been plugged and abandoned. Operator called it quits after recovering only load oil and water from Spraberry perforations between 5,608-18 and 5,628-42 feet. The venture is six miles south of Gall, C SW SW, 37-31-6n, T&P Survey.

Sunray and Mid-Continent No. 1 Miller, a wildcat 13 miles northeast of Gall, deepened to 8,000 feet in lime, shale, and chert. It is C NE SW, 35-47, H&TC Survey.

Trice No. 1 Clayton and Johnson, a wildcat, cored today below 6,917 feet in lime and shale. Location of the prospector is a mile and a half northeast of the Good field, C NW NW, 21-34-4n, T&P Survey.

Trice No. 1 Morgan-Coates projected to 6,665 feet in lime and shale. It is in the East Vealmoor field C SE NW, 13-27, H&TC Survey, and 29 miles northeast of Big Spring.

Lone Star No. 1 Higginbotham prepared to drill through plug today. The venture is 660 feet from southeast and southwest lines, 7-31-3n, T&P Survey, 14 miles south of Gall.

Standard No. 1-A Griffin continued to pump today. It pumped 15 barrels of oil and the same amount of water in five and a half hours. Perforation interval is 4,926-62 feet in the Spraberry. It is C NW NW, 35-25, H&TC Survey.

Midwest No. 7-A Morris Miller flowed 188.31 barrels of oil and 15

per cent water, in 24 hours on potential through a 16-64-inch choke. Gravity is 30, and gas-oil ratio is 77.2. The well is located 295 feet from east and 1,400 feet from south lines, 24-33-4n, T&P Survey in the Jo-Mill field.

Total depth is 7,660 feet, and top of the pay zone is 7,146 feet. Perforations extend from 7,146-71 feet. Operator treated with 15,000 gallons fracture fluid before testing.

In the Arthur pool, Continental No. 1-34 Good produced 997 barrels of oil and no water through a half-inch choke on potential. Total depth is 8,000 feet, and top of the Spraberry pay zone is 6,383 feet. It is perforated between 7,382-40th feet. Gas-oil ratio is 655-1, and gravity is 37 degrees. Location is C NE SW, 34-33-4n, T&P Survey, and seven and a half miles north of Vealmoor.

**Dawson**

Texas No. 1 W. J. Beckham, a wildcat and a half south of Lamesa, ran logs today at 9,525 feet. It is C NW SW, 17-35-5n, T&P Survey.

Camp-Jones No. 1 Wasson prepared to re-perforate and test the Spraberry. Old perforations were below 7,750 feet. Site is 550 feet from south and 660 feet from east lines, 24-34-4n, T&P Survey, and six miles north of Ackerly.

Humble No. 2 Lane, in the Jo-Mill field, deepened to 5,815 feet in lime and shale. Location is 3,100 feet from north and 1,800 feet from west lines, 45-33-5n, T&P Survey.

A Mungerville Southeast location, Humble No. 1 Hemphill, drilled to 1,070 feet in rebeds. It is C NE NE, Labor 31, League 3, Taylor CSL Survey.

Seaboard No. 1 Miers, also in the Mungerville SE field, found lime while drilling at 6,658 feet. It is C SW SW, Labor 19, League 3, Taylor CSL Survey.

McRae No. 1 Landers drilled to 9,140 feet in sand and lime. Location of the 13,000-foot wildcat is 1,947 feet from north and 2,948 feet from east lines, Labor 4, League 280, Hutchinson CSL Survey.

Daivon-Pembroke No. 3 Burkett

**Howard**

Ashmun-Hilliard-US Smelting No. 1 Grantham cored today at 7,230 feet in lime. It is a wildcat 1,957 feet from south and 660 feet from east lines, 8-33-2n, T&P Survey, 1 1/2 miles northwest of Big Spring.

Standard No. 1 Harvey Adams, five miles northeast of Ackerly, swabbed 205 barrels of load oil and no water in 11 hours. Perforations are in the Dean. Operator is now installing a pump. The venture is C NE SW, 47-34-3n, T&P Survey, and 11 hours and recovered 52 barrels of load oil and 20 barrels of water, and it is still swabbing. Perforations are between 6,607-32 feet. It is C NE NE, 27-33-2n, T&P Survey.

Sunray and Mid-Continent No. 43-B Dora Roberts is amended to deepen past 1,920 feet. Location of the venture in the Howard-Glasscock field is 1,038 feet from south and 330 feet from east lines of the northwest quarter, 137-29, W&NW Survey, and a mile east of Forsan.

Continental No. 46-A W. R. Settelles is a new location in the Howard-Glasscock field, staked 990 feet from north and 1,650 feet from east lines, 158-29, W&NW Survey, a mile south of Forsan. Drilling depth is 3,300 feet.

Also in the Howard-Glasscock Continental No. 21 Settles will plug back to 2,580 feet and test the San Andres. Drill site is 2,310 feet from north and 990 feet from west lines, 135-29, W&NW Survey, and half a mile south of Forsan.

**Martin**

BBM No. 1 Cowden is still shuttin waiting to take potential. It is a wildcat seven and a half miles northwest of Midland and will complete as a Strawn discovery.

**Soil Bank Checks Reach \$312,000**

Six hundred checks to farmers, landowners, and others holding interests in Howard County farm land enrolled in the Federal Soil Bank program have been delivered. Aggregate for the 600 checks totals \$312,000 according to Gabe Hammack, ASC office manager.

This is more than half of the total cash the soil bank will distribute in Howard County for this year's program, but, percentage-wise, Hammack said that the office is still not at the half-way mark in payment of benefits.

"We'll still be issuing soil bank checks as late as December," he said. The 600 checks issued represent

payment to landlords, to tenants, to mortgage holders and others entitled to share in benefits paid for tracts of land enrolled on the soil bank lists.

Hammack said there are a considerable number of cases in his files which will be delayed in settlement. Some of these contain slight irregularities which must be adjusted before settlement can be made. To date, Hammack said his office has been unable to get instructions on just how these are to be handled.

A total of half a million dollars was estimated as payable to Howard County soil bank participants for this year.

**"One Tankful Convicted Me!"**

**"Flite-Fuel brings out the best performance qualities of my car, and... IT'S PERFORMANCE THAT COUNTS!"**

There's a reason why Phillips 66 FLITE-FUEL is winning new users at a record-breaking pace. That reason is... performance!

Test drive FLITE-FUEL! You'll discover ease of starting and responsiveness that you may never have suspected your motor could deliver. You'll benefit from the smoothness of advanced high octane. You'll get the advantages of controlled volatility and positive anti-stalling, and many, many miles per gallon, too. No other gasoline gives you the combination of high performance components you get in FLITE-FUEL.

Fill up at any station where you see the orange and black Phillips 66 Shield.

Phillips 66 Trop-Artic Motor Oil and Phillips 66 FLITE-FUEL are made for each other! While you get important benefits by using either one alone, you will enjoy even better performance when you use these two fine products together!

# Defense Issues, Ike Take Spotlight In Texas Politics

By WHITEY SAWYER  
Associated Press Staff

Both Democrats and Republicans hammered at the national defense issue Monday night, but much of the GOP's effort was directed toward making President Eisenhower's visit to Dallas Wednesday a success. However, a question became moot when Eisenhower cancelled his trip because of Israel's military thrust into Egypt. Sen. Mike Monroney of Oklahoma, speaking at Fort Worth, defended Democratic presidential nominee Adlai Stevenson's H-bomb proposal as the gateway to "America's real and genuine destiny."

The Sooner Democrat charged that Republican business policies are "a body thrust to the solar plexus of every economic interest in Texas." He said agriculture Sec. Benson's farm policies and the President's failure to support legislation against oil imports cost Texans millions of dollars annually. Monroney said one-third of the world is neutral and looking to the West and to America for solid gestures for peace and even our allies are growing fearful of our stress on atomic armament.

The senator said that with the proper government support, the United States can "crack the atom for peace as we have for death." At Wichita Falls, Presidential Aide Harold Stassen called Stevenson's proposal to stop testing the H-bomb and to end the draft "two steps toward a weaker America." Stassen charged Stevenson went outside his party's platform in his propositions. He said the Democratic platform called for strong military forces.

Democrat, told Wood County citizens at Quitman that actions of the Republican party in Texas and the nation did "not warrant the confidence of the voters." He said "Eisenhower alone must stand responsible for the plight of the farmers." Sen. Albert Gore (D-Tenn.), speaking at Lufkin, told about 500 East Texans that the United States should stop building larger H-bombs and concentrate on building and stockpiling smaller A-bombs for use in tactical warfare. "We already have a substantial lead in the testing and stockpiling of H-bombs. If the United States and Russia both stopped the tests now we will maintain the advantage over the Soviet," Gore said. Rep. George Mahon (D-Tex) charged at Lubbock that Republican defense policies have allowed

Russia to overtake the United States in the production of jet bombers and fighters. He said President Eisenhower "let Secretary of Defense Wilson whack a five billion dollar Air Force buildup program off the Air Force budget" in 1953. At Baltimore, House Speaker Sam Rayburn said any agreement to suspend H-bomb tests would not have to include inspections to enforce the agreement, as proposed by President Eisenhower. Rayburn said inspection would not be necessary "for the very simple reason that if anyone of the three (big powers) violates the agreement and explodes a hydrogen bomb, the world would know it not in minutes but in seconds."

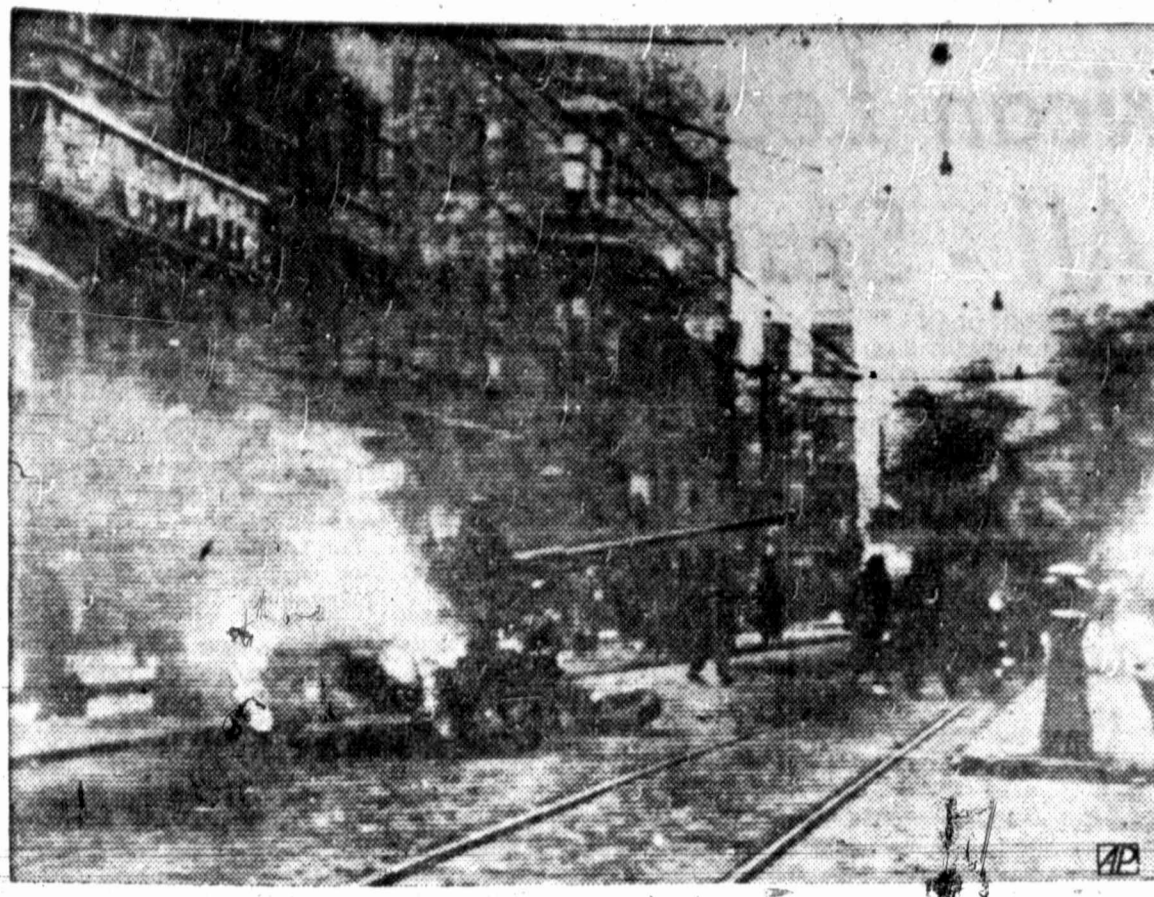

Meanwhile, Gov. Shivers gave the President a "50-50 chance" of carrying Texas again. Shivers said "I have been getting very, very favorable reports. Today all indications point to a 50-50 chance of Eisenhower carrying Texas again." Byron Skelton, Democratic na-

tional committeeman from Temple, charged that Shivers is a political trickster. He said "There is no such thing as a Democrat for Eisenhower."

"These people in Texas, including Allan Shivers, who go about the state claiming to be Democrats and at the same time working to elect Eisenhower, the Republican, are engaging in political trickery and deceit. . . It is as absurd to say you are a 'Democrat for Eisenhower' as it would be to say you are a 'Baptist for the Pope of Rome,'" Skelton said. Tuesday Stassen speaks in Waco, Rep. Wright Patman (D-Tex) at Paris, and Rep. Jim Wright (D-Tex) at McAllen.

"My doctor prefers St. Joseph Aspirin For Children" Says Mrs. W. C. KEIM, Washington, D. C. The 114 grain tablets assure accurate dosage without breaking. Children like its orange flavor, except it will sting.

ST. JOSEPH ASPIRIN FOR CHILDREN

## Soviet Gun Afire

Smoke rises from the blazing tires of a Communist mobile gun on a Budapest street after fighting in Hungary's anti-Soviet rebellion. The gun was set afire by rebels near a building housing a Communist party newspaper. Fighting is still reported in sections of the Hungarian capital, despite the promise by Premier Imre Nagy to pull Soviet troops out of the city.

## Two Bitter Battles Rage In Vermont

By CORNELIUS F. HURLEY  
MONTPELIER, Vt. (AP) — Two Democrats are waging the hottest campaign in years for governor and U. S. senator in traditionally Republican Vermont. E. Frank Branon, the Democratic nominee for governor, claims he will get enough votes from the state's minority of Democrats and a group of dissatisfied Republicans to become the first Democratic governor of the state in 102 years. Branon, a state senator and dairy farmer from the small town of Fairfield, is out to displace Gov. Joseph B. Johnson, who defeated him by a 5,200-vote margin in 1954.

In the other principal contest, Sen. George D. Aiken (R-Vt) is running for his third full term with opposition from Bernard G. O'Shea, the 35-year-old editor of a Swanton weekly newspaper. Both Republicans and Democratic leaders agree that President Eisenhower again will get the state's three electoral votes. And they agree also that Branon's campaign is the stronger of the two being waged by the Democrats.

## 2 Killed As Car Hits Truck

HOUSTON (AP) — Two young sons of a Bellaire housewife were killed, a daughter was injured critically and a third son hurt seriously early today when the car driven by their mother struck a parked truck. Killed were Larry Focht, 6, and Neile Focht, six weeks. Near death was Laurie Focht, 2. The mother, Mrs. Barbara Focht, 26, and the other child, Glen, 4, sustained undetermined injuries. Doctors said neither was in danger.

Mrs. Focht, en route home from the airport, struck the rear of a Houston Shell and Concrete truck. The driver, Joe Palmer, 26, told sheriff's Capt. Edd White the truck had broken down while he was en route to work and that he was parked on the side of the road, headed west, when Mrs. Focht's car hit him from behind. Palmer said the truck was parked two feet off the highway. Other witnesses confirmed this.

Mrs. Focht told White she dozed off while driving. She said she had been up all night with the infant, Neile. Mrs. Focht said she had taken her husband, Tuck Focht, a petroleum engineer for Humble Oil, to the airport to catch a plane to New Orleans. Focht's plane had taken off before the accident occurred. A Humble plane was dispatched by company officials to return the father to Houston. White said the crash knocked the heavy, dual-wheeled concrete truck 40 feet across a ditch. Mrs. Focht's car was a total loss.

## Cold Serum Said Near

LONG BEACH, Calif. (AP) — An official of the California State Health Department says science is close to control of the common cold. Dr. Arthur C. Hollister, Jr., chief of the Bureau of Acute Communicable Diseases, said the chief handicap to development of a cold vaccine is the many strains of virus involved in the cold. "Many viruses appear in the laboratory when we start to take the common cold apart," Dr. Hollister told representatives of 150 southern California public health departments yesterday. "Where the polio vaccine had to deal with three strains, a cold vaccine may have to deal with as many as 10."

## Chief Gets Ticket

SALT LAKE CITY (AP) — Was Chief W. Cleon Skousen mad when Special Officer Mildred Frazier gave him a ticket for overtime parking? In a letter of commendation, he wrote her, "Traffic laws allow police cars freedom from restriction only in cases of emergency," indicating he wasn't parked on any emergency.

## Stanton Capon Show Scheduled

STANTON — Martin County's annual fall capon show has been scheduled for Nov. 17. The Chamber of Commerce also voted to support the Rotary Club efforts to organize a United Fund for Martin County. R. W. Caton, county attorney, is a leader of the movement to form the "Fund" and discussed the matter with Chamber directors.

# THE MIGHTY CHRYSLER FOR 1957

Here's the glamorous, low-priced 1957 Chrysler Windsor V-8

## Announcing the most glamorous car in a generation!

You never looked or felt as good in anything before!

Other cars have changed models . . . this one changes motoring. Look at its rich, racy lines . . . at the long, low silhouette . . . at the dramatic upweep of the rear fenders that plume back from the waist like the wake of a hydroplane. It's a streak of a car with the elegance of the boulevard and the spirit of the speedway.

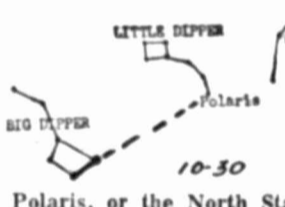

Get into this car, drive it into traffic or out on the open highway and you enter a new domain of travel. In the 1957 Chrysler, with its new Torsion-Aire Ride, motion has a new "feel". And wait till you toe the throttle. A new Pushbutton TorqueFlite Transmission teams with a mighty airplane-type V-8 engine, developing up to 325 horsepower, to give you a new high-velocity getaway, matchless passing power when you need it. Come in this week and visit our showrooms. See and drive the most completely new car of the year!

Torsion-Aire Ride pours the road under you!

Try Chrysler's new Torsion-Aire Ride and you'll think some of the laws of gravity, motion and inertia have been suspended in your favor. No more rock and roll. No more pitch when you stop. Chrysler's new torque rod suspension and lower center of gravity give you a brand new ground-skimming "feel" of the road. The wheels ride the contours . . . but you don't. The road just pours under you.

## Uncle Ray: Great Dipper Will Change Its Outline

By RAMON COFFMAN  
The constellations are mentioned in a letter from Mrs. Rosalyn Lichtblau, who writes: "I am interested in the planets, but the true stars seem more mysterious to me." This reader goes on to say that she has heard that the Great Dipper and other star groups are exactly the same shape as when they were seen by characters in the Old Testament. She also has heard that the stars in the handle of the Great Dipper point eastward, and that the Arabs used the handle stars to tell direction instead of the North Star. The constellations have kept the same general shape for a long time, but modern astronomers know that all stars are moving. Special work has been done to learn the speed and direction of stars in several important groups. The Great Dipper (also known as the Plow) has, or seems to have, seven stars. Actually one of the seven is a "double star." Most of the stars in the Great Dipper are moving in the same direction, but the one at the end of the handle and the upper Pointer star are going in different directions than the rest. In 10 thousand years the Big Dipper would look less like a dipper. Later it will have the shape

Polaris, or the North Star, may be found on any clear night in the North Temperate Zone.

of a retiling chair. The way to tell directions is to use the pointer stars. Let your eye travel from the lower to the upper one, then on to "the first bright star." That will be the North Star, and you will have the northern direction.

The other day a woman complained to me that the North Star is "not bright enough." She seemed to feel that the human race had been cheated because a really bright star (of the first magnitude) does not exist there!

The handle of the Big Dipper has a star at the end which "drops." That is one reason why it does not show direction. Still more important is the swing of the dipper which makes the handle point in various directions.

# Many All-America Hopes Are Dashed

By BOB HOOBING  
The Associated Press

Injuries like the one which ended the college football career of Michigan State halfback Clarence Peaks are wrecking many an All-America aspiration and team record these days.

The versatile Peaks, prime mover of the Spartans' multiple offense, suffered a torn cartilage in his left knee during Illinois' 20-13 upset last week and must undergo surgery.

How Michigan State, rated fourth in the latest Associated Press poll, will fare without him is uncertain though the talent at East Lansing is plentiful. It is sure, however, that the injury robbed one of the nation's finest backs of All-America consideration. A full season is necessary to judge a player's ability under all conditions.

## Hogs Feel Too Good About It All: Mitchell

By The Associated Press

Light workouts were the general rule for Southwest Conference teams Monday as the clubs headed for a weekend of three conference matches and an inter-sectional tilt.

Texas A&M, victors over Baylor last week and now favored for the conference title, studied movies of last week's game. Coach Bear Bryant said tackle Charles Krueger was the outstanding lineman.

The Aggies worked out, but the ones who played against Baylor did not scrimmage.

Arkansas, which goes to College Station to meet A&M this week, had a light workout with just a little running in it. The Ponkers watched movies of their upset victory over Ole Miss Saturday. Coach Jack Mitchell said the Razorbacks were feeling too good about the victory.

"We're going to be in for it in Texas A&M Saturday," Mitchell said. "Everybody's living it up and nobody's thinking about the Aggies."

Coach Sam Boyd had his Baylor Bears in uniform only 40 minutes after a long skull drill. The Bears concentrated on running exercises and play timing.

TCU was the exception to the light workout rule. The Horned Frogs, who lost their second straight game Saturday, went through their longest and hardest Monday drill of the season.

Coach Abe Martin had his Frogs down pads for a long drill emphasizing blocking. He also had all units except the first scrimmage.

Dick Finney, number two quarterback last season and No. 2 left halfback this year, was alternating at the two posts.

SMU, which took last week off, started heavy preparation for Saturday's game with Texas. Coach Woody Woodard said his team would work on both offense and defense with Texas specifically in mind.

Texas gridders worked out in shorts and sweat suits, limbering up for harder drills Tuesday.

Rice, which clubbed Texas last week, worked out in shorts Monday. Coach Jess Neely said the squad was in fine spirits and would resume hard work Tuesday for the Utah game.

## Six American Leaguers Are On All-Star Team

By BEN OLAN

NEW YORK (AP)—A heavy-hitting major league all-star team, with six American Leaguers including Mickey Mantle, Ted Williams and Yogi Berra, today was selected by members of the Baseball Writers' Assn. of America in the annual Associated Press poll.

The powerful array was backed up by Brooklyn righthander Don Newcombe and Billy Pierce, Chicago White Sox lefthander, who drew a majority of the votes cast for pitchers.

Mantle, the American League leader in home runs, 52, runs batted in, 130, and batting average, .353, was named to an outfield spot on 202 of the 208 ballots.

Milwaukee's Hank Aaron, the National League batting leader, and Detroit's slugger Al Kaline, who received 79 votes to Williams' 83.

Williams took the other outfield spot with 79 votes to the National League's Stan Musial, 68.

Williams, first baseman Ted Kluszewski of Cincinnati and second baseman Nellie Fox of the White Sox are the only repeaters from last year's "dream" team.

Kluszewski, a .302 batter with 35 homers, beat out Stan Musial of St. Louis—64 votes to 60. Stan also got 25 "firsts" for the outfield where he played the first two months of the season.

Rounding out the All-Stars were third baseman Ken Boyer of the St. Louis Cardinals and shortstop Harry Kim of Detroit.

Collectively, the All-Stars had 1,407 hits in 4,415 times at bat for a .312 average. They had 209 home runs and 753 runs batted in for an average of 26 homers and 94 RBIs.

The National League dominated the second team. In addition to those mentioned, Red Schoendienst and Willie Mays of the Giants, Duke Snider of Brooklyn and Frank Robinson of Cincinnati captured runner-up positions.

NEW YORK (AP)—The Associated Press major league all-star team with 1956 records in parentheses: 1b, Ted Kluszewski, Cin. NL (.302); 2b, Nelson Fox, Chi. AL (.306); 3b, Ken Boyer, St. L. NL (.306); ss, Harvey Kuenn, AL (.332); of, Mickey Mantle, N.Y. AL (.353); of, Hank Aaron, Mil. NL (.328); of, Ted Williams, Bos. AL (.348); p, Yogi Berra, N.Y. AL (.298); p, Don Newcombe, Bkn. NL (.27-7); p, Billy Pierce, Chi. AL (.26-9).

SECOND TEAM  
1b, Stan Musial, St. L. NL (.310); 2b, R. Schoendienst, NY NL (.302); 3b, Ed Mathews, Mil. NL (.272); ss, Roy McMillan, Cin. NL (.283); of, Duke Snider, Bkn. NL (.296); of, Willie Mays, N.Y. NL (.296); of, Frank Robinson, Cin. NL (.290); c, Ed Bailey, Cin. NL (.266); p, Sal Maglie, Bkn. NL (.13-5); p, Whitely Ford, N.Y. AL (.19-4).

DUTCH MEYER, TCU athletic director: "I'd like to be running things again during a game, but I don't care to get back out on that hot practice field. When you feel that way, you shouldn't coach."

VINCE DIFRANCESCO, Iowa State football mentor, after his club had been routed by Colorado, 52-0: "How good is Colorado? Let's put it this way. If their play against us was a typical Saturday's performance for them, it would appear that they might have a chance against Oklahoma . . . They did a good job, hitting hard, running well, and everything they did was right. But I'm wondering if they weren't a bit over their heads, and if we weren't so lousy that we made them look good."

JIM KELLY, U.S. Olympic track coach: "Our big problem right now is the athletes want to do too much. I had to call a halt the other day. We're most fortunate. This is a happy team and it will do a good job at Melbourne next month. The injury problem as it now exists is not defeating, and we're still going to get our 12 gold medals and maybe more. You can bank on that."

DUB BEHRENS, Coahoma football coach: "My assistant, G. W. Walker, caught Merkel in his 72-0 rout of Rotan and he seemed to think Merkel was lucky. He didn't think Merkel was more than three touchdowns better than Rotan."

Surprise! OU Is Returned To Top Spot In AP Poll

By DON WEISS  
The Associated Press  
Oklahoma's one-week exile from the top spot in college football is over. To the surprise of no one, a 40-0 walloping of whipping boy Notre Dame coupled with Michigan State's loss to Illinois regained for the powerful Sooners the No. 1 ranking in the weekly Associated Press poll.

The weekend activities, in which form suffered its worst relapse of the season, drew out the heaviest vote of the year from the nation's sports writers and sportscasters.

Roughly 77 per cent, 143 out of 186, named Bud Wilkinson's Sooners first. Among other contenders, only Georgia Tech, which moved up to second, and Tennessee, now third, got more than a handful of first-place support.

Tech was named first on 31 ballots after making Tulane its fifth straight victim 40-0. Tennessee, also 5-0, drew eight first-place votes.

Michigan State, which displaced Oklahoma a week ago as the national leader after a 47-14 whacking of Notre Dame, slipped back to fourth place with nary a top vote. Last week, the Spartans had 96.

On the basis of 10 for first, 9 for second, etc., Oklahoma wound up with 1,768 points, Georgia Tech with 1,614, Tennessee with 1,302 and Michigan State with 1,029.

Behind them the shuffling continued as a result of Texas A&M's 19-13 victory over Baylor, Ohio State's 21-0 victory over Wisconsin, Iowa's 21-20 squeaker over Purdue, Minnesota's 20-7 upset of Michigan, Miami of Florida's 14-0 victory over TCU and Stanford's 27-19 victory over Southern California.

MAJOR AND MRS. OLIE CORDILL

## Cordills Stop Over Here On Way To New Station

Major Olie Cordill, who went from football star to hero at Big Spring High School to even greater renown at Rice Institute, stopped in Big Spring for a visit over the weekend.

Major Cordill, now a career man in the United States Air Force, departed this morning for his new station with a radar unit at Point Arena north of San Francisco, Calif.

Accompanying him were his wife and former schoolmate at Rice; and three strapping sons, Olie Jr., 13; David, 10; and Doug, 5.

Although he still has that youthful, vigorous look, Cordill recently was grounded because of miseries in the back. He was involved in two crashes during World War II, one of them in North Africa that almost proved fatal.

Olie returned to civilian life shortly after the war ended but later decided to make the Air Force a career. After being re-assigned, he served as the coach of an Air Force football team in Japan for a while.

Cordill was a junior on the 1934 Big Spring team that won the district football championship and went to the quarterfinals before losing to Amarillo, 33-21.

He was a member of the last Big Spring team that defeated Sweetwater, in Sweetwater, incidentally. The tab was 44-0. That was in 1935.

At Rice, Olie teamed with Ernie Lane to give the Owls one of the school's greatest passing combinations. Rice's winning effort against Arkansas, when the Owls scored three times in the last few minutes, is still regarded as one of the all-time thrillers in Southwest Conference history.

He played in the Cotton Bowl as a sophomore, starting on a Rice team that defeated Whizzer White and Colorado University, 28-14.

After leaving college, Olie tried his hand in pro ball for a while, performing for the now defunct Miami Seahawks, before entering the service to become a flier.

He recently completed two months of study in the field of radar at Tyndall Field, near Panama City, Fla. Prior to that he was stationed at Lafayette, La., where he found time to manage a Little League baseball team.

Olie started in all sports while living here but he gave up basketball in college to concentrate on football.

His three sons all played small-field baseball in Lafayette last summer. Olie Jr., was in the Pony League while the other two continued their talents to the Little Leagues.

All three think there is no school but Rice Institute and hope to wind up there some day, although they lean toward baseball as their favorite sport now and any one of them could take it up as a career.

As far as athletics go, big Olie is going to let them chart their own courses.

The family stopped here a couple of days to visit with Olie's mother, Mrs. Gertrude Cordill, and other relatives.

## Coyotes Advance To 2nd In Poll

DALLAS (AP)—Abilene still holds first place in the Dallas Morning News' AAAA schoolboy football poll.

The biggest advance of the week was taken by Amarillo's Palo Duro which climbed from the bottom of the list to fifth.

Here is the week's top 10, their point totals and the spot each held in last week's voting:

1. Abilene 150 (1)
2. Wichita Falls 129 (3)
3. Highland Park 108 (4)
4. San Angelo 88 (2)
5. Palo Duro 66 (9-10)
6. Baytown 55 (6)
7. Amarillo High 53 (-)
8. Corpus Christi Miller 44 (5)
9. Corpus Christi Ray 39 (8)
10. Galveston Ball 27 (7)

## Abilene-BS Game Attracted 5,066

The official paid attendance at last Friday's Big Spring-Abilene football game here was 5,066, which fell far short of expectations.

Of the aggregate turnout, 540 adult and 300 students came on tickets purchased in Abilene. That city asked for 2,000 adult and 1,000 student tickets.

Total income from the game amounted to \$5,538.85. Expenses came to \$28.16. Each school netted \$2,005.34.

## Mexican Athletes To Leave Nov. 11

MEXICO CITY (AP)—The Mexican Olympic delegation is scheduled to leave Nov. 11 by plane for Melbourne, the Olympic committee announced last night.

Mexico is entering 25 athletes in nine events—back and field, fencing, cycling, wrestling, weightlifting, swimming, modern pentathlon, rowing and shooting.

## Noakes Tallest Of Tech Frosh

LUBBOCK (SC)—Four basketballers who won first team all-state honors in high school are among the candidates for Texas Tech's freshman basketball team.

Gene Gibson is completing a schedule for the frosh, who will play in the Lubbock Municipal Coliseum in a preliminary game preceding most of the varsity's 14 home contests.

Tallest of the group is 6-10 Pat Noakes, who made Conference AAAA all-state playing for Fort Worth's Polytechnic High School. Other all-state first teamers are Gene Arlington, 6-4, of Amarillo Palo Duro, and Dale McKeenan, 6-5, of Sweetwater, Conference B-A first team; and Bill Pfleger, 5-11, of Eden, Conference B first team.

Also, the Pickadors have a Conference B third team all-stater in Durwood Hart, 5-11, of Hale Center.

Other leading candidates are Robert Echols, 6-1, Palo Duro; James Wiley, 6-5, Lubbock Monterey; Ronald Pysant, 6-1, P. F. T. Worth Arlington Heights; Bruce Boyd, 5-11½, Abilene; Jerry Selridge, 6-2, Borger; Preston Davis, 5-11, Monterey; Ronny Maedgen, 5-10½, Ballinger; Bert Williams, 6-2 Farwell; and Bill Early, 6-3, Dallas Hillcrest.

## Connelly Says He Will Break Mark

LOS ANGELES (AP)—Harold Connelly, whose mightiest loss Saturday week count because his hammer was too light by perhaps the weight of an insect, says:

"It doesn't matter to me. I'll break the record again Thursday."

He and other members of the U. S. Olympic team held their last practice meet then before leaving for the Games in Australia.

Connelly hurled the hammer 224 feet, 8¼ inches during a practice meet at nearby Santa Ana, bettering the 220-10½ mark made last week by Mikhail Krivonozov of Russia.

The hammer was weighed yesterday on a Los Angeles Department of Weights and Measures scale and found to be five-eighths of an ounce light.

## Baird Gridder Is Shooting Victim

BAIRD, Tex. (AP)—A football star for Baird High School was shot to death here last night.

The victim was James Tyson, quarterback for the Baird High School team.

Callahan County officers were investigating. No details were available at once.

## Local Boys Figure Largely In McMurry Grid Fortunes

ABILENE (SC)—Big Spring players have figured prominently in the six football games by McMurry College this season, four of which the Indians have won.

In rushing, quarterback Bobby Hayworth, former Big Spring Steer, has gained 24 yards net in seven carries, has completed five of ten passes for 55 yards, had one intercepted. None has gone for a touchdown.

He ranks sixth in total offense on the team, with 79 yards picked up in 17 plays. He has punted once for 40 yards.

## Lopez Signed To Boss Sox

By JOE MOOSHIL  
CHICAGO (AP)—Al Lopez, ex-Cleveland manager who made a career of finishing second to the New York Yankees, and the perennial third-place Chicago White Sox, joined forces yesterday.

Lopez accepted a one-year contract offered by Vice President Chuck Comiskey to manage the White Sox in 1957. Lopez resigned as Cleveland manager Sept. 29 after guiding the Tribe to second place in the American League.

The Tribe won the pennant under Lopez in 1954 with an American League record of 111 victories.

Lopez, one of baseball's "nice guy" managers, succeeds Marty Marion, who bowed out last week as manager of the White Sox.

Meantime, Lopez's boss, Hank Greenberg went to Los Angeles to talk with Leo Durocher, former manager of the New York Giants. Durocher, who once said "Nice guys don't win pennants," has indicated he'll manage Cleveland if the price is right.

Lopez broke into baseball in 1925 and was a catcher with Brooklyn, Boston and Pittsburgh in the National League. In 1947, he played in 87 games with Cleveland. His major league lifetime batting average was .261.

He managed Indianapolis of the American Assn. to a pennant in 1948 and finished second in both 1949 and 1950. He then took over at Cleveland.

Comiskey, in making the announcement, said, "I long have been an admirer of Lopez on and off the field. I think he did an outstanding job at Cleveland and I hope he'll do as well for us. He was the only man considered for the job and he accepted by wire from his home in Florida."

## Terry Suffers Slight Injury In Scrimmage

Rickey Terry, defensive end for the Big Spring Steers, suffered a slight shoulder separation in Monday's scrimmage with the B team, endangering his chances of playing against Odessa Friday night.

Terry has played stellar ball in the last several games and would be sorely missed.

The Longhorns, anxious to get back on the victory track after dropping two straight games to Kermit and Abilene, probably will confine their work to dummy drills the remainder of the week.

The coaches want to take no more chances with their personnel, which is thin in spots. Wayne Fields, running star, is already out of action with a broken wrist.

The Steers will seek to improve upon a 2-5 won-lost record against Odessa, which they haven't beaten since 1955.

The coaches are hoping for much improvement before facing the highly rated San Angelo last week, 13-6.

Scouts back from the game say Odessa outplayed the Bobcats and deserved to win.

Ed Norman, crashing fullback of the Bronchos, will probably be held out of action, according to reports from Odessa.

Odessa will field practically an all-ouster outfit against the Longhorns. Only two of the starters, one back and one lineman, are juniors.

## Ed Price Again Hung In Effigy

AUSTIN (AP)—Texas football Coach Ed Price was hanged in effigy today, for the third time in a little over one week.

The Longhorns have lost five of six games this season and are in the cellar of the Southwest Conference.

The effigy was put on a light standard near the practice field close to Memorial Stadium.

An effigy was hanged Oct. 25 on a business building across from the campus. A sign attached to the dummy, made of discarded clothing, said: "So long, Ed. Thumbs down." Another was strung up Oct. 21.

Price became head coach in 1951 and has one more year on his present \$12,500 a year contract.

His overall record is 33 wins, 33 losses and 1 tie. His Southwest Conference record, including 2 losses this year, is 20 wins, 11 losses and 1 tie.

Last week student and alumni leaders said they attached little significance to the "hangings."

## Mustangs Picked To Win SW Title

DALLAS (AP)—SMU was picked to win the Southwest Conference basketball championship by four league coaches yesterday.

The Mustangs have won two straight.

Coaches Bill Henderson, Baylor; Glen Rose, Arkansas; Don Suman, Rice, and Ken Loeffler, Texas A&M, said Rice was the team most apt to knock the Mustangs off, if anyone does.

The coaches were here for the basketball clinic of the National Assn. of College Commissioners.

SMU Coach Doc Hayes has declared Rice ought to be ranked above the Mustangs.

### Legion To Complete Dance Arrangements

American Legion committees will meet at 7 p.m. today at the organization's clubhouse to complete plans for the Halloween dance party to be staged Wednesday night.

Raymond Andrews, entertainment chairman for the Legion, and Mrs. Jack Pearson, who holds the same office in the auxiliary, headed discussions of the project at a preliminary meeting last night. The Halloween dance will start at 9 p.m. Wednesday in the clubhouse south of Big Spring.

### Uvalde Man Dies For Sonora Killing

HUNTSVILLE (AP)—Lionel Bingham, 36, of Uvalde was executed today for murdering a Sonora woman during a holdup. All last night his family kept watch outside the prison, hoping for the commutation which never came.

Bingham was taken into the

death chamber at 12:02 a.m., received the first charge at 12:04 a.m. and was dead at 12:06 a.m. Warden Emmett Moore asked if he had anything to say. Bingham replied, "No sir."

He showed little emotion as he was strapped into the chair. Once or twice he smiled at the Rev. William Hancock, a Seventh Day Adventist who baptised Bingham in prison last August.

Bingham said goodbye to his mother and brothers yesterday. Mrs. Myrtle Bingham, also of Uvalde, was too grief-stricken to talk after seeing her son.

### Absentee Vote Total Is 248

Two hundred and forty-eight Howard County voters have cast their general election ballots by absentee method, Mrs. Pauline Petty, county clerk, reported Tuesday. Friday is the final date that absentee ballots may be cast.

One hundred and fifty-one of the absentee votes have been polled at the clerk's office. The remainder are mail applications which have been processed by the county clerk.

It was estimated that more than 350 would have cast absentee votes by the deadline Nov. 2.

The Rev. James Senseny of Uvalde and the Rev. Hancock said Bingham "was taking it very well" after visiting him yesterday. Bingham ordered fried chicken for his last meal.

A Uvalde funeral home returned the body to Uvalde.

The Rev. John Payne of Austin told the Pardons Board in a last-day plea that Bingham was converted and baptized in prison.

"He is a leader. He would be a crime to deprive the world of a good leader when we have so few of them. If you need leaders anywhere in the world, you need them in prison," he said.

"I do want his life spared," his mother said, "because I know he can be of help to the Lord."

The U. S. Supreme Court refused to review the case earlier this year.

### Released

Stefan Cardinal Wyzanski, Roman Catholic primate of Poland, poses in Warsaw following his release from house arrest by the country's anti-Stalin Communist regime.

Poland's old Stalinist Communist government confined the 55-year-old church leader to a monastery in 1953 after he had waged a campaign against Red infringement on religious activities. His release was seen as an effort by the government to win wider popular support.

### Attending School

Mrs. Palma Hamill and Sheriff Farmer, police dispatchers, are attending a one-day police communications school at Lamesa today. The meeting was originally slated two weeks ago but was postponed.

### Girl's Leg Broken When Hit By Bike

Katherine Wright, four-year-old daughter of Mr. and Mrs. Edward Wright, 1204 Ridgewood, suffered a broken leg at 4:30 p.m. Monday when she was struck by a bicycle.

She was admitted to Big Spring Hospital where her leg was put in cast and then she was released to go home. There were no details on the accident available. The matter was not reported to the police.

### Ex-Teacher Heads Prohibition Ticket

By HARVEY BREUSCHER GREENVILLE, Ill. (AP)—Greenville is a hilltop southern Illinois city of 4,100 citizens—one of them a candidate for president of the United States.

He is Enoch A. Holtwick, a retired college professor and the recognized leader of the Prohibition party.

Holtwick has brought his party's message to thousands of listeners. But only in 11 states have his efforts been rewarded with a spot on the Nov. 6 election ballot.

Even his home state is missing from the list.

That's the thing that breaks my heart," he said in an interview at his home.

"Illinois law requires us to obtain 25,000 signatures in petitioning for our party's right to the ballot," he said. "That's a hard-ship difficult to overcome."

Holtwick, permanent chairman of the party's last four conventions and its vice-presidential candidate in 1952, was an obvious choice to head the ticket. His running mate is Edwin M. Cooper, a Montebello, Calif., attorney.

Holtwick is 73. His first wife died in 1939. He since has married a widow who once attended his history and government classes at Greenville College. He retired in 1951 after 32 years of teaching. She now heads the school's home economics department.

The Prohibition party ticket appeared on 20 state ballots in the 1952 presidential election and polled 2,377 votes.

Holtwick doesn't expect his vote to approach that total "unless the good Lord is pleased to give special attention to our cause."

"We're at a low in our fight to build a party to pull us from the

## WOMEN WHO COOK ELECTRICALLY KNOW

**Electric Cooking SAVES TIME**

**AUTOMATIC CONTROLS TEND YOUR COOKING FOR YOU!**

Complete oven meals cook to perfection whether you're minutes or miles from your kitchen. Oven turns on and off at pre-set times, keeps food piping hot until you're ready to serve it.

Working wives and busy homemakers agree! Today's electric ranges save time in so many ways. Electric ovens cook complete meals... automatically... while you're out of the kitchen. New super-speed surface units start heating instantly... maintain any pre-selected heat automatically for fast, accurate cooking. New thermostatically-controlled surface units watch over your cooking while you're busy with other things. And because electric heat is so clean, utensils stay bright and shiny without scouring... and your kitchen walls and curtains stay new-looking with much less cleaning and care.

For a full measure of cooking pleasure... **COOK ELECTRICALLY**

See your favorite electric range dealer soon for the model that's exactly right for your family's needs and budget. You'll find electric cooking one of the nicest things about living better... electrically!

**TEXAS ELECTRIC SERVICE COMPANY**  
R. L. BEALE, Manager Phone AM 4-5583

### Play Scheduled For Two Nights

"Blind Alley" will be presented on two nights only—Thursday and Saturday, Nov. 8 and 10—instead of the three nights originally scheduled.

The decision was made at the Monday night meeting of the Evening Lions Club—ticket sale sponsors—when it was pointed out that the Spring High School football team has a home game for Friday (Nov. 9).

Ted Greshl, president, announced that tickets sold for Friday's performance would be honored on either Thursday or Saturday nights.

Attending the Lions Club meeting as representatives of the Big Spring Civic Theatre, Inc., was Lt. Robert Grew, president; Dewey Magee, director; Capt. Richard Franz, chairman of Webb ticket sales; and Robert C. Walker, chairman of publicity and advertising for the production. All members of the group concurred in the decision to give Big Springers an opportunity to back the football team without conflicting with the theatre schedule.

### More Accidents Are Reported

Accidents Monday afternoon numbered two, and another occurred this morning.

Involved in an accident this morning at Third and Johnson were Alonzo Holland, 87 Motel, and T. J. Proctor, 804 Lancaster. Holland had a 1954 Pontiac, and Proctor was driving a truck owned by Sunset Motor Lines.

Howard Armstrong of Ackerly and Katie Alford, 205 E. 8th, were drivers of cars colliding at Third and Rummels Monday afternoon. James Maxwell Dafford, 203 E. 6th, and Coy Scarber of Trout, La., collided at Fourth and Gregg.

# Mid-East Conflict Looms Over Fast-Closing Presidential Race

By The Associated Press

Military developments in the seething Middle East loomed over this nation's fast-closing presidential campaign today.

Israel's military thrust into Egypt forced cancellation of President Eisenhower's plans for the final week of the campaign.

In Boston last night, Adlai Stevenson said the new crisis in the Middle East shows Eisenhower has withheld the "truth" about developments abroad and has endangered "our very survival."

The Democratic presidential nominee scheduled speeches today in Baltimore, Camden, N.J., Philadelphia and a major address at the University of Pennsylvania.

Eisenhower had planned a flying visit tomorrow to Oklahoma, Texas and Tennessee and a major television address from Philadelphia Thursday evening. But Philadelphia Thursday evening.

In Boston, Stevenson said the administration "has been telling us that all is well in the world, that there is peace, that there is—as a few days ago—'good news' from the Middle East."

"These reassurances — as today's news confirms — have been tragically less than the truth."

"Instead," Stevenson said, "during four years of critical history, we've been patted on the back and patted on the head and told that

everything's all right. This is dangerous — dangerous to our very survival in a trouble world."

Eisenhower made flying campaign appearances yesterday in Miami and Jacksonville, Fla., and Richmond, Va. He got the news of the Israeli military thrust into Egypt during the stop at Jacksonville.

Earlier in Miami he had said:

**Home Town Offers Bet On Ike Race**

ABILENE, Kan. (AP)—The Abilene Reflector-Chronicle, which calls itself "Ike's real home town newspaper," has offered to make a small bet with the Denison (Tex.) Herald on President Eisenhower's re-election.

The Herald has come out editorially for Adlai Stevenson.

Eisenhower was born in Denison but his parents moved to Abilene when he was about a year old and he was reared here.

Henry B. Jameson, editor and publisher of the Reflector-Chronicle, offered to bet a year's subscription and wired Denison: "We supported Ike four years ago and are stronger than ever behind him today in the sincere belief his continuing in office is for the best interest of the country."

America must gather its "full moral power" to bring peace to the Middle East.

In Jacksonville, he said this nation must remain militarily strong, pursuing peace at the same time. Referring to efforts in Poland and Hungary to escape Russian domination, he said: "This is not time to stop perfecting our weapons."

It was a clear reference to proposals by Stevenson that the United States must take the lead in seeking a world ban on testing hydrogen bombs and that thought be given to ending the military draft when national security permits.

Eisenhower dealt in general terms in his Florida talks on the civil rights issue, calling a problem to be settled mainly by the states and local communities. He did not mention the matter in Richmond.

Sen. Estes Kefauver, the Democratic vice presidential candidate, campaigned across Ohio yesterday, calling Eisenhower a failure and a promise-breaker, and asking a speedy halt to hydrogen bomb testing.

He said the Eisenhower administration broke promises of full parity for farmers, aid to small business men, action to bring the cost of living, aid to education, slum clearance, public housing and tax relief, among others.

In Los Angeles, Vice President Nixon told a rally "the Iron Curtain shows real evidence of cracking" as a result of the Polish and Hungarian resistance to Russia.

"An overwhelming vote of confidence for President Eisenhower will have a dramatic effect all over the free world in encouraging those who share our desire to build a world in which men can be free, nations can be independent, and people can live together in peace and friendship," he said.

# May Ask Congress Aid On Oil Imports

DALLAS (AP)—Independent oil operators have received a recommendation they be prepared to lead their fight against foreign oil imports to Congress if relief does not come this year.

Russell Brown, general counsel for the Independent Petroleum Assn. of America, said the operators must go back to Congress if no solution is found under the Defense Amendment to the Trade Agreements Act.

Dr. Arthur Flemming, director of defense mobilization, told IPAA's 27th annual convention he will take action under the amendment by Dec. 1 unless importers act voluntarily.

Official IPAA comment on Flemming's plans was expected today when the convention's final session receives a report from its committee on imports.

Flemming said continuation of current imports levels in 1957 would endanger orderly growth of the domestic oil industry. The ODM chief said that if the importers fail by Nov. 26 to indicate they will make voluntary reductions he would advise President Eisenhower by Dec. 1 that a threat to national security exists.

The Defense Amendment to the Trade Act authorizes the President to take action should any import commodity threaten national security.

Flemming held hearings last week on a petition from IPAA and other oil and gas groups asking that the President intervene.

Importers are to submit estimates of 1957 receipts by Nov. 8. If the estimates are found too high, Flemming and the Presidential Advisory Committee on energy supplies and resources policy then will submit recommendations for voluntary cutbacks by the importers.

"I think it is a fair assumption the estimates to be submitted by Nov. 8 will be too high," Flemming said. "Our recommendations then will give the importers a chance to change the estimates voluntarily. If by Nov. 26, however, the importers have not indicated substantial compliance with the recommendations I shall refer the matter to the President that a threat to national security exists."

Flemming said he would not speculate on what action the President might take should a certification be made on oil imports.

Brown termed the Defense Amendment the "court of last resort."

"We have launched the last appeal available to us," he said.

Carl Gerstacker, a Dow Chemical Co. vice president, told 1,300 oil men attending the convention that petrochemicals last year consumed about 15½ billion pounds of petroleum and natural gas hydrocarbons.

The Midland, Mich., chemical executive said that if petrochemical production continues to expand in the next two decades as it has the last two the industry should be 20 times as big by 1975.

He said tremendous strides by the plastics industry indicate great petrochemical growth.

# Night Singing Heads To Court

FORT LAUDERDALE, Fla. (AP)—Nighttime hymn-singing appears headed for a circuit court test. Householders told a county prosecutor their rest was disturbed by singing up to 11:30 p.m. and some times till midnight, three times a week, in a West Hollywood church.

The Rev. E. M. Muncy, pastor of the West Hollywood Church of God, said group singing was the manner in which the rites of his church are conducted "throughout the world." Asst. County Solicitor Richard Cory said he would recommend a suit for a temporary injunction be filed "to stop the singing or bring about some measure of relief for the neighbors."

# Viewing With Alarm?

KENNEBUNK, Maine (AP)—The town fathers ordered the fire alarm sounded on the hour every hour while the polls are open Nov. 6. Objective: A record voter turnout.

**The Drinks Were On Him**

LOS ANGELES (AP)—The drinks, police said, were on Audie Curry. Curry, 20, with his station wagon loaded with what police said was stolen liquor, roared away from a market Saturday with officers Leo Wise and Bill McMonagle in pursuit.

A few blocks away, Curry crashed into a hydrant mixing the booze—and Curry—into a giant cocktail.

Wise and McMonagle grabbed Curry. Bystanders grabbed about 100 unbroken pints of spirits.

Curry was booked on suspicion of burglary. Police said about 100 pints were broken in the wreck and another 160 rescued and tagged as evidence.

**Tears Up Ticket, Gets Another**

PASADENA, Calif. (AP)—A policeman gave motorist Lonnie Gene Hill, 23, a ticket for speeding. As he drove away, officer Ben Hetherington said Hill tore up the ticket and threw the scraps from his car. Hetherington halted him again and gave him a ticket for littering a public street.

**Three-Fourths Of Howard Co. Cotton Picked**

Over three-quarters of the cotton crop is harvested in Howard County, the Texas Employment Commission, estimated, while only about 60 per cent in Martin and Glasscock has been brought in.

Through last week, 3,634 bales of cotton have been processed from Howard County fields. This total is about 77 per cent of the estimated crop. The TEC predicted that 4,700 bales would be ginned from Howard this year.

In Martin, the yield thus far is 17,955 bales, which is 63 per cent of the estimated crop. The estimate is 28,000 bales for the area.

Glasscock yield of 6,325 bales is 62 per cent of the total crop. An estimated 10,200 bales will come from the county during the year.

Leon Kinney, director of the employment office here, said that since most of Howard's cotton is from dryland farms, the percentage of the total ginned is naturally greater than counties having irrigated crops at this time.

Most of the Martin and Glasscock cotton is produced on irrigated farms and it produces later, he said.

During the peak weeks of picking, Kinney said that about 50 per cent of the workers in Martin were Mexican Nationals, but the percentage has now dropped to about 20, he said.

**Another Gift For The UF**

A. C. LaCroix, right, western division superintendent for the T&P Railway, turns in his company's contribution to the Howard County United Fund. Receiving the check is R. T. Piner, co-chairman at the Advance Gifts division of the 1956 UF campaign. At left is Cecil McDonald, a worker in Piner's division.

**Ohioan Charged With Burglary**

George Krusely, 27, who claims Youngstown, O., as his home, was arrested in the concession stand at the Sahara Drive-In Theatre at 2 a.m. Tuesday by Rufus Davidson and Floyd Moore, deputy sheriffs.

Charges of burglary have been filed against Krusely in Walter Grice justice court.

Davidson said that the sheriff's office received a phone call advising there a prowler had been seen in the drive-in.

When he and Moore arrived, he said that Krusely was in the concession stand.

**Knife, Fork Club To Hear Humorist**

Win Pendleton, humorist from Washington, D. C., is to be guest speaker at the second meeting of the Big Spring Knife and Fork Club Thursday.

The meeting will be in the ballroom of the Settles Hotel at 7:30 p.m.

All of the club's 300 members are invited to hear Pendleton who is described by those who have heard him as one of the cleverest of today's lecture platform humorists.

"Why Public Relations Men?" is the provocative title of his address.

He is well qualified to discuss the subject since that has been, to a considerable degree, his profession for many years. As a resident of the nation's capital, where the heaviest concentration of public relations groups is found, he has had ample opportunity to study their antics and operations.

Being a public relations man in Washington, Pendleton feels, is about the toughest job there is. Competition in the field is keen and long experience with the clan has stripped them of most of the glamour and regard that otherwise might have been their lot.

Pendleton, however, has been able to keep his sense of humor and the many experiences he has had or has observed gives him a sharp insight into the real life of public relations experts in the capital.

There will be no serious facets to the talk by Pendleton before the Big Spring Knife and Fork Club. Fun is its theme and the theme will be maintained throughout the evening.

John Taylor, president, said that improvements are to be made in the public address system in order that all may hear the lecture.

It is probable that the club will also take up consideration of policies for future operation.

Members have been asked to express their views as to policies the club is to pursue. Four alternative proposals have been submitted in a mail ballot.

Taylor pointed out at the initial meeting of the group this fall that membership dues must be increased if the same number of speakers and the same high quality of talent is to continue.

Increased costs of operation have made this imperative, the president said.

All members have been asked to vote on the question of what course the club is to follow in years ahead.

WIN PENDLETON

**Panel Set For Doctors Meet**

Three representatives from the state level will be at the special school - physician relationships meeting of the Permian Basin Medical Society this evening.

The dinner meeting is scheduled for 7:30 p.m. in the high school cafeteria. Dr. Carl F. Moore, representing the Texas Health Department; Louis Spears, Texas Education Agency, and Dr. Gus Pinkerton, Austin, will be among the panel members. The program has been arranged by Dr. T. J. Williams, chairman of this activity for the society.

**LOADED DOWN?**

**Well deliver!**

**Republicans Name New County Chief**

E. B. McCormick, chief engineer for the Cosden Petroleum Corporation and a life-long Republican, is the new chairman of Howard County Republicans.

McCormick accepted the county chairmanship Monday after a conference with E. B. Buffington, state GOP committee representative, and other Republican leaders. He succeeds G. H. Hayward

who relinquished the post because he lacked the time required for attending to party affairs. Hayward had been county Republican chairman for many years.

The new county chairman has resided in Big Spring for 14 years, serving as Cosden's chief engineer all of that time. He is a native of Indianapolis, Ind.

McCormick was one of the first Republicans to advocate the candidacy of Gen. Dwight Eisenhower for the presidency, and was an Eisenhower supporter during his battle with the late Sen. Robert A. Taft for the 1952 GOP nomination.

The chairman said that because

**Fire Inspection Reports Checked**

Firemen at the Eleventh and Birdwell substations are now in the process of checking forms returned by school children who inspected their respective homes.

The firemen will check the forms and if they find any homes showing possible fire hazards, they will ask to personally inspect the residence.

The fire department passed out these checklists to school students during Fire Prevention Week activities and ask the students to rate their homes. These forms were then returned to the schools and the department picked them up.

Fire Chief H. V. Crocker said this is a method of inspecting the homes without looking at each residence.

**Streets Are Closed**

All streets and alleys in a tract of city land known as the California Heights Addition were ordered closed by the Howard County Commissioners Court at its meeting Monday morning. Owner of the tract had requested the action. The vote was unanimous.

only six days remain before the 1956 general election, he probably will not be able to complete organizational efforts during the remainder of the campaign.

However, McCormick said the Howard County party will be completely organized in the future.

"We'll be ready two years from now," he promised.

Buffington has spent the last few days in Big Spring setting up presidential campaign headquarters in the Howard House.

Long, lean, and packed with punch, the new Ford Fairlane 500 is actually larger than many medium-priced cars... and it's offered at low Ford prices!

**What's new in the new kind of Ford**

NEW choice of sizes. These '57 Fords make "big" a low-priced word. The new Ford Custom and the Custom 300 are lower, wider, than any Ford before and over 16 feet long! The Fairlane and Fairlane 500 are even lower and longer... over 17 feet long! Ford is

the only car in the low-price field that comes in two sizes. You'll find them all only roof high to a parking meter... and they're as easy to get in and out of as putting the coin in the meter slot! There are 20 beautiful new models to choose from.

NEW outswEEP chassis design cradles passengers in a new kind of way for a leveler, smoother ride. It's a completely new chassis idea wherein the frame flares out so that the floor of the rear seat compartment is inside the frame girders. There's more inside room than ever. And there's full road clearance under the heavier frame.

NEW hardtop styling. Fairlane and Fairlane 500 sedans have strong, thin center pillars which are concealed by window frames. With doors closed, you can hardly tell these sedans from hardtops.

NEW endurance and performance. In the most exhaustive test ever given an automobile, a '57 Ford traveled 50,000 miles in less than 20 days... an average speed of 108.16 mph—including all pit stops!

NEW forward-hinged hood—and new engines to go under it! There's a mighty Silver Anniversary V-8 to fit every horsepower need. And there's more power and economy in the new Mileage Maker Six!

NEW low-sweep station wagon roof line. All five of Ford's new station wagons have even more of the beauty and love-for-duty that has made Ford America's favorite wagon. There are three with four doors, two with two doors... seating room for up to nine.

NEW wider wrap-around rear opening. A completely new liftgate provides greater vision, easier loading. In length and width there's enough room to load a 9-foot boat.

**TARBOX-GOSSETT**

### A Bible Thought For Today

When Jesus heard it, he saith unto them, They that are whole have no need of the physician, but they that are sick: I came not to call the righteous, but sinners to repentance. (St. Mark 2:17)

### Editorial

#### Have Fun But No Vandalism, Please

Halloween is a time for having fun and enjoying games, not a time for hooliganism and vandalism. So on Wednesday evening let everyone enjoy the spirit and zest of Halloween without reviving some of its pagan characteristics. Householders may contribute to a peaceful occasion, and protect their own property from harm, by removing temptation from youthful pathways. Move that lawn furniture to the back yard, or into the house. Put the garden hose away. Stow the garbage cans in the garage or somewhere else out of harm's way. They ought to attract the hands of small boys as honey does flies. If trick-or-treaters ring your doorbell, meet them in the spirit of the evening—that is, with bits of candy or cakes,

with courtesy and consideration, with smiles and words of welcome. The overwhelming majority of them are just neighborhood kids, having perhaps their first experience with Halloween trick-or-treating. For those larger folk bent on malicious mischief there should be prompt squelching. It isn't really funny to pile loose objects in the street to cause accidents and injury. It isn't funny to pitch firecrackers into passing cars, or jostle other people on the sidewalk, or utter vulgar remarks. Speeding in cars is twice as dangerous on Halloween as on an ordinary occasion, and should be dealt down with twice the normal vigor. So have yourself a high old time, kids, but remember injury to person or damage to property isn't at all amusing.

#### Adolf's Demise Is Now Official

Adolf Hitler's death by suicide in the Reich Chancellery in Berlin on April 30, 1945, has now been made official. A court in Berchtesgaden, near his mountaintop snuggery, has handed down a verdict to that effect, and the Bavarian Ministry of Justice has in a manner proclaimed its acceptance of the verdict in a four-page document. Hitler shot himself in the right temple the verdict holds, and his bride of a day and longtime mistress, Eva Braun, took poison. Friends, and attendants of Hitler turned the bodies with gasoline just outside the entrance to the fuhrer's bomb-proof shelter. All the allied governments, Russia in particular, had made exhaustive investiga-

tions to make sure Hitler was dead, and none of them entertained any doubt. But as usual wild rumors flew in all directions and kept flying—Hitler wasn't dead, but had fled to South America, Tibet or somewhere else. Hitler left considerable property in the form of literary "remainders," so a court verdict probably was necessary to clarify matters. In the U. S., such characters as John Wilkes Booth, the slayer of Abraham Lincoln, and the notorious outlaw, Jesse James, were long the subject of popular doubt as to their demise. Impostors arose in the case of both, when it became safe to pretend. But like Hitler, they had been long gone.

#### Marquis Childs New York's I-Told-You-So Society

NEW YORK — The weaknesses of the Democratic Presidential campaign, and in a sense also of the Democratic party, are nowhere more evident than in this incredible city with its vast contrasts of glittering wealth and drab poverty. What has been written about the resurgence of the Democratic party as a party — and nine state governorships won in the past three years — is true. But it is true with one important qualification. There are a number of separate Democratic parties in state after state. To weld them together nationally a unifying force or a unifying personality, preferably both, is essential. As New York illustrates so well, the force and, to a degree, the personality have been lacking in this campaign. The last time the Democrats defeated an incumbent President was in 1932. The personality of Franklin D. Roosevelt, the Democratic candidate, was certainly not then in clear focus. To many he seemed a well-intentioned aristocrat with personal ambition for high office. But the force that produced a Democratic victory lay in the seeming helplessness of the Hoover Administration in the face of the most terrible depression the country had ever known. The problem in New York in this campaign has been to get the active support of both sides of the political and economic divide — the liberals who believe in Adlai Stevenson and the Democratic party, on one hand, and the mass vote that is subject to direction by bosses, on the other hand. The bosses, embodied by Carmine G. De Sapio, chief of Tammany Hall, and the Volunteers for Stevenson, represented by Thomas K. Finletter and Mrs. Anna Rosenberg, have been working at cross purposes. All this adds up to a despairing sense among Democrats, who have been somewhat detached from the factional quarrel, that they will be very lucky if they are able to produce in New York City a majority of 500,000 for their Senatorial candidate, Mayor Robert Wagner Jr. They have in effect given up on the national ticket. If the Republican candidate for the Senate, Jacob K. Javits, gets less than the normal Republican majority in upstate New York because of the charge of pro-Communism brought against him, then Wagner might pull through.

Complicating the troubles within the Democratic party of New York state, which is as different and as separate from the Democratic parties of Iowa or Mississippi or Montana as night is from day, has been the inordinate ambition of Averell Harriman. Coming late to politics, Harriman to the surprise of almost everyone won the governorship of New York two years ago by a few thousand votes. With the help of this success, Harriman developed an almost Messianic conviction that he was destined to be the next President of the United States. It seemed to many at the Chicago convention that he was determined that if he did not get the nomination, then it was to be worthless to anyone else. In the current campaign, Harriman has made much of the loyal gestures with a solemn face. But all is in readiness here for the formation on November 7 of the first and the largest chapter of the I-told-you-so society, with Harriman as president and grand chief issuer of sorrowful statements and De Sapio as vice president and principal hand-wringer. Speculation about the future of the Democratic party in this state, with all its complications of race, religion and ideology, may be futile. Two years from now the wounds may have healed. Harriman has announced that he will seek re-election for Governor in 1958 and there are some who believe he still cherishes the dream of the Presidency, although he will be 69 when the next national campaign rolls around. It is entirely possible, too, that the feud may not have been resolved and Harriman may find his brief political career at an end. If there is already the nucleus of a large I-told-you-so chapter, there is today a much smaller it-might-have-been society. New York is, politically speaking, a sophisticated state with the kind of electorate capable of responding to Stevenson. A unified organization, or rather combination of organizations, might have brought New York's 45 electoral votes into the Democratic column. That is the sad refrain of Democrats of the it-might-have-been society.

#### Get A Horse

WACO — A steady increase in student-owned automobiles is giving Baylor University some headaches. This year, there are only 1,022 parking spaces on the campus and 2,000 cars are registered for campus parking. Dean of Men W. C. Perry said each new parking space costs the university \$500. Four new parking areas have been added since last year and three are being constructed. This still doesn't keep up with demand.

#### Chain Reaction

PHOENIX, Ariz. — Police, responding to a report that a child was choking, found 6-year-old Richard Johnson tugging on a chain protruding from his mouth. Richard, they learned, had been trying to swallow the chain when a link became hooked around his lower tonsil. The boy was rushed to a hospital, where a physician reached into his throat and untangled the chain. Richard was taken home, tonsil and all.

#### Patient Husband

MEXICO CITY — Alberto Perez told police his wife had given him a hard life for years. But he had made no official complaint, he said, until she beat him with a broomstick and then made off with some of the most valuable objects in the household.

AND SEE WHAT WALKS IN!  
Leave The Door Open—

#### James Marlow Israeli Attack Was Well-Timed

WASHINGTON — The Israeli thrust into Egypt raises the question: Did the Israelis have a pretty good idea they could get away with it? There are some things to watch for: how far the United States is willing to go to stop this military move; and whether Britain and France are willing to join the United States in stopping it. President Eisenhower has built his whole campaign around peace. The Israelis made their attack one week before the U.S. election. Did they figure Eisenhower would hesitate to plunge the United States into Middle East conflict? The Israeli's timing looks more than coincidental. It's also a time when Russia has its hands full with Eastern European riots. In 1950 the United States, Britain and France agreed they would act, either inside or outside the United Nations, to stop any aggression in the Middle East. Last night the White House said this country would honor its 1950 pledge. It also said that today the United States would lay the case before the U.N. But the White House didn't say what this country would do about its pledge if the U.N. did not act, or if Britain, or France should balk. Debate in the U.N. could well last more than a week, or until after next Tuesday's elections. If the U.N. didn't act and this country decided to move into the Middle East, would Britain and France join in the undertaking?

#### Beer Shakers

CHARLESBURG, Wis. — Mrs. William Burg has collected 225 salt and pepper shakers of every conceivable shape and kind in the last 10 years, but she said the most cherished ones are shaped like tiny beer steins. The beer steins came from Frankfurt, Germany and were sent by her son, Sylvester, when he was stationed there with the armed forces.

#### Hal Boyle How To Tell The Difference

NEW YORK — Some critics of this civilization say it is one in which men and women are getting too much alike. There is no doubt the sexes are acting more alike every year as there's a bit of modern woman's compulsion to share every right formerly held by man alone. They talk alike—if anything men are a bit more interested in household topics, while women lean more to baseball and politics; and often dress alike, particularly in their leisure hours. The two-pants suit may be out of date, but now that wives have discovered the comfort of slacks the two-pants family is right in style. However, there is no reason yet to get hysterical. A careful impartial observer can always distinguish between the sexes. Here are a few ways in which you can tell whether any human being is a man or woman, no matter what it wears, what it says, or how it cuts its hair: If it goes through a revolving door without lifting an arm, it's a woman. If it does its fair share of pushing, it's a man. If in a poker game it says, "cov-er your cards, dope, I can see them," it's a man. If it can see every card in your hand and keeps right on looking, it's a woman. If paying its bills gives it a sense of security, it's a man. If running up bills gives it a feeling of freedom, it's a woman. If it always offers you a cigar, it's a man. If it always is asking you for a cigarette, then waits for a light, it's a woman. If it sees a fly buzzing in a spider's web and brushes the insect free, it's a man. If, instead, it watches to see how the spider operates its trap, it's a woman. If it always takes the first seat, it's a man. If it never accepts the first seat and is sure another location would be better, it's a woman. If it always climbs into a taxi ahead of you, it's a woman. If it always pays the cab driver when it gets out, it's a man. If it backs up to you and asks you to fix a stuck zipper, it's a woman. If it sternly and silently solves its zipper problems by itself, it's a man. If it will give a two-bit handout to any seedy tramp, it's a man. But if it gladly spends its whole life looking and raising kids for a no-good ungrateful bum, it's a woman—every time! Any questions?

#### Pressure Builds For New Hike In Steel Prices

NEW YORK — Pressure is building up again for another rise in the price of steel. This comes while the effects of the price boost last summer are still working their way through the production of finished goods you buy in the stores. Several steel executives are contending that another price hike is in the cards. They insist that last summer's rise of around \$8.50 a ton to meet the wage increase that ended the steel strike wasn't enough to make up for still rising costs of materials and services. And another steel wage hike would come automatically if the cost of living index should rise further. Steel wage rates are now tied to the index. The index rose to a new high in September and many think a further climb is ahead. Along with their talk of higher prices, the executives are boosting their optimistic predictions of future production rates. Demand from the construction industry, shipbuilders, oilmen, freight car makers is so high that the steel mills can't meet all of it. Orders are piling up and the mills now predict capacity operations through the first half of next year. It is against this background—rising costs at the steel mills and high demand that appears likely to hold for months—that top men of Bethlehem, Armco and Inland Steel have come forward in recent days to claim that higher prices are needed. Many in the industry see U. S. Steel's traditional reluctance to hike prices as the main factor in holding the present line. Unless U. S. Steel moves, pressure for higher prices is likely to be confined to the talking stage.

#### Some 'Stoar'

TURNERSVILLE — A toxy retailer has displayed a sign atop his store here for many years that challenges the spelling of the King's English. It reads: "Hobin's Stoar." Inside sits an affable Irishman, John Hobin, 77, who has long since become used to people stopping by to tell him how to spell "stoor." They've come from as far away as New York. School children stop by to tell him it's misspelled. But John's nobody's fool. The fading sign "Hobin's Stoar," has made his out-of-the-way establishment known throughout the state. People who otherwise would never have heard of Turnersville or Hobin have come by to see the sign.

#### Still Short

ST. JOHN'S, Nfld. — Despite an increased number of graduates from Memorial University another teacher shortage is predicted for next year in Newfoundland, because of the increase in pupils. Of 9,000 teachers in Newfoundland schools now less than 50 per cent are fully qualified.

### Around The Rim

#### 'It Hath Been Already ...'

"The evidence first presented was designed to establish the existence of a general conspiracy... to murder or kidnap the president and other high officials, to burn steamboats, warehouses and hospitals in Western states, to spread yellow fever and small pox infection in the North, to burn some of the large Eastern cities and to poison the water supply of New York City."

A long, long time ago, the Preacher wrote "There is nothing new under the sun."

The older one gets and the more one observes life the truer this statement becomes. Re-read that first paragraph. Recall how in recent years you have heard and read so much of the grim probability that the next war will see the widespread use of virus and bacteria as weapons? Doubtless you have shuddered as you read of the potential horrors such warfare would create and probably, like myself, you have gained the idea that here is something new and dreadful that man has dreamed up to inflict death and devastation on his fellows. The dreadful nature of the idea is unchanged. It is as horrible as can be visualized. But it lacks much of being a new idea.

It is old — as old perhaps as the basic idea which has produced the atomic and hydrogen bomb. And we know now that the alchemists of the Dark Ages were fundamentally right in their theory that baser metals could be transformed into gold even though these ancient experimenters were not quite correct in their method of accomplishing the end they sought.

Today we know that all matter is made up of atoms. The character of that matter is measured by the arrangement of

the atoms in its structure. Change the arrangement of atoms in lead and you transform that base metal to gold. In an oversimplified form this is the premise on which scientists worked to produce the atomic bomb.

We are told that a small cottage would be a laboratory sufficient for the production of enough anthrax culture, for example, to decimate the peoples of a nation. That other deadly virus can be produced inexpensively and in volume so quickly that these invisible but lethal destroyers can be distributed widely and easily. And in their wake would walk death and desolation.

What dreadful things, we say, has man conjured up for these modern days! It may well be that today he is in a better position to produce and utilize such horrors than ever before but as for the idea itself being new—far from it!

What I copied in the first paragraph is from a condensed report of a famous conspiracy trial conducted in Washington, D. C., during May, 1865. The testimony quoted was from the government witnesses in the hearing against David Herold, George A. Atzerdt, Lewis Payne, Michael O'Laughlin, Edward Spangler, Samuel Arnold, Mary E. Surratt and Samuel A. Mudd.

Who were these people? They were the defendants in the case of the United States of America against the conspirators who walked hand in hand with John Wilkes Booth — the assassin who murdered Abraham Lincoln — the thing that hath been it is that which shall be; that which is done is that which shall be done; and there is no new thing under the sun... Is there any thing whereof it may be said, See, this is new? It hath been already of old time which was before us."

—SAM BLACKBURN

#### David Lawrence Moral Force Versus Oppression

WASHINGTON — Seldom in world history has there been such a prompt vindication of the policy of moral force as is now being revealed in the response of the oppressed peoples of Eastern Europe to the encouragement given them by the free world to rid themselves of tyranny and regain their freedom.

For the peoples of Poland and Hungary have manifested in their incipient revolt a great truth — that individual liberty can be suppressed for a time but inevitably those who seek to crush it are themselves crushed.

It is too soon to tell what the long-range effect of the events in Poland and Hungary will be. It is not possible yet to appraise the true situation even in East Germany, where the riots of 1953 were squelched but left a big problem for the Kremlin to worry about. Shifts in ideology — from one set of leaders to another — may seem for a while only a continued adherence to some form of Communism. But these are phenomena of leadership changes — not evidence of the seeds of underlying revolt which exists everywhere behind the Iron Curtain and which must some day bear fruit.

It is not one outbreak or one series of outbreaks in this or that satellite country which is alone significant. What is more important is that the world in this era is witnessing a vivid demonstration of an age-old principle — that when people in any country unite to assert their will, neither tyrants nor their army commanders trained in their own ideology can withstand the flames of revolution.

Could, for instance, the Polish transformation in recent weeks have been accomplished unless the Polish army was sympathetic? True enough, the contest seems at the moment to involve a clash of ideologies — which kind of Communism is to be applied in domestic policies. But the discontent is there, and the protest against the extremes of Communist socialism is but the forerunner of the historic urge of individualism to assert itself against the state.

Even as early as the 1952 campaign, General Eisenhower and John Foster Dulles sensed the importance of proclaiming America's sympathy toward "liberation" of captive peoples. Partisans in the Demo-

cratic party immediately distorted this into a threat that American troops would be sent into Eastern Europe to "liberate" the oppressed peoples there. This was promptly denied by the Republican spokesmen. The episode showed that the Democrats who had spoken didn't understand the workings of moral force or chose for political reasons to ignore them.

Perhaps the best example of moral force in operation was that which President Eisenhower gave at the Geneva Conference in 1954. He succeeded heroically in removing the impression created by the Communist propagandists that America wanted war. By meeting personally with the Soviet rulers, Mr. Eisenhower was able to reassure the peoples behind the Iron Curtain that America wished to give moral support to the cause of peace and that liberation, too, could come by peaceful means. He has called repeatedly since for free elections. He has refused to recognize the Warsaw Pact which the Soviet government engineered to bind the satellites together in a military alliance.

It is an odd coincidence that this policy of championing moral principles is being so strikingly shown to have been wise at the very time when President Eisenhower is being attacked by Mr. Stevenson as having a "phony" peace program.

There can be no doubt that in the past the use of the threat of war has enabled the Kremlin to keep the enslaved peoples from kicking over the traces. As long as there is an external danger, peoples can be held together by appeals to patriotism. But the Eisenhower policy, which on every occasion emphasizes America's peace intent, has been publicized far and wide by the U. S. Information Services and through public speeches by American officials — there is no danger of attack from America.

Despite the cautious criticisms of some of the Democrats, the administration has maintained steadfastly a single policy — to proclaim America's peaceful purposes so that the peoples behind the Iron Curtain could be encouraged to concentrate on their domestic life. And that's just what they have been doing ever since the Geneva Conference in 1954. The first results are just beginning to show.

#### What About Economy In Government?

A week from today it will be all over, including the shouting. Especially, let us hope, the shouting. A little peace and quiet would go a long way toward curing anything that ails a lot of us.

Although, truth to tell, this is one citizen who isn't going to need any of these new tranquilizing drugs to get her back on the track of post-election normalcy. This is a campaign that has left my fingernails intact and my blood pressure normal.

During the next seven days, some political spark may ignite my hair and my temperature, but on the whole it has been a real dull campaign. This is largely because it is pretty difficult today to tell one major party from the other without a scorecard.

The middle of the road is so crowded by Americans of all kinds, size, shapes, colors and creeds that you can't see the white line for the people. It makes it easy to sum up the 1956 campaign in one sentence: Each candidate has simply promised that his party can do it better than the other fellow's, and that goes for the hydrogen bomb, foreign affairs, domestic policy and Elvis Presley.

Through all the glorious promises of four-day work weeks and an old age of riotous bliss, my ears have been clogged in vain to hear any candidate come out four-square on economy in government. It is possible that some candidate may have made a pass at the national debt while I was nodding, because I have nodded easy in this campaign.

But I have not heard any promise or program to squeeze the water out of the cost of government and/or the application of such savings to the national debt.

If we citizens act head-over-heels in debt to the installment collector for everything we "own," including the clothes on

our respective backs, our government has set the example. Uncle Sam is in hock for around \$280,000,000,000. I sure wish it were hay.

In the meantime, the Hoover Commission keeps emphasizing its report that \$5,500,000,000 in water can be squeezed from government bureaucracy without harm to vital government operations.

But embattled bureaucracy in Washington has so far prevented the enactment of any of the Hoover Commission recommendations that might in any way lop off the privity purse of any unnecessary bureaucracy.

Lame ducks we always have with us, and in the bright lexicon of both the GOP and the Democrats there is no such schdery word as "economy" in the care and feeding of the party faithful.

No matter what his political conviction, there is no relief in sight for the aching back of the taxpayer. But the throbbing in the lumber region might ease a mite if those wasteful billions in bureaucracy could be siphoned off and set to reducing the national debt.

This is wishful thinking, I guess, but no more farfetched than most of the campaign hokum, which — with a little bit of luck — will be history in another seven days.

Pythian Children Are Visitors Here

Children of the Pythian Home, Weatherford, stopped in Big Spring Sunday morning to attend church services, and at noon they were guests of H. M. Rainbolt and J. D. Jones for lunch at the Wagon Wheel, Rainbolt, former grand chancellor of the Knights of Pythias in Texas, and Jones, chancellor commander of the local lodge, are

shown with the group. At extreme right is Hugo Horstmann, superintendent of the home. Annual roll call for the Thanksgiving and Christmas fund for the home will be conducted next Tuesday evening by the local lodge.

# Lots Of Ifs In Weathervane Vote

EVANSVILLE, Ind., Oct. 30 (AP)—If the people of Vanderburgh County vote the way straw polls say they will and if they continue a trend they started in 1896, President Eisenhower will be re-elected next Tuesday. These are big "ifs" because straw polls often are wrong and trends often are broken. Nevertheless, for 15 straight national elections Vanderburgh County has given a majority vote to the winning presidential candidate.

Theory has one flaw — the county is much more urban and industrialized than the national average. The 1950 census showed 128,636 of the county's 160,422 residents lived in Evansville. Percentage-wise, only 14.3 per cent of the county's population was rural and only 3 per cent was classed as farming. The labor vote is a powerful influence, with nearly 40 per cent of the county's employed persons working in manufacturing. This figure includes executives and office workers. Wholesale and retail trade employ about 22 per cent. Evansville's chief industry is the making of refrigerators, followed closely by automobile body making and assembling. Another factor affecting the county's voting is a strong Southern influence in Evansville. An important shipping terminal on the Ohio River, the city lies farther south geographically than Louisville, Ky., and has drawn a large part of its population from the South. Many of its workers commute from Henderson, Ky., just across the river. The Negro population of 5.7 per cent is not high considering the city's location. Evansville schools once were segregated, but no longer are. Henry Gonner, executive secretary of the Evansville Chamber of Commerce, thinks the county may have become a political and industrial center of population.

# City Blamed For Improper Erection Of Traffic Sign

To the Editor: What is wrong with our city government? Monday, we had another terrible accident at 15th and Owens St., in which a little five-year-old girl was injured, fortunately not fatally. However, she will bear the scars of her accident the rest of her life. The fault of this accident lies, not on the drivers of the two cars, but on the shoulders of the city officials who allowed the Stop sign to remain in the condition in which this accident was the result. The wind had blown the sign over; this has been happening every time the wind blows, ever since the sign was put there. Anyone with the intelligence of a gnat knows that you can't stand a sign on top of the ground and expect it to stay there in the wind we have in this section of the country. The accident was caused by the negligence of city officials, who have repeatedly ignored our reports about the sign. We have put

the sign up time and time again, each time reporting it to the city and asking them to do something about it. They buried the sign after the accident. I want to know why they allow these things to happen. Why not attend to our traffic problems before an accident happens? It would take such a short time to place these signs properly and in the right places, but it will take a long time to repair that child's face. MRS. H. D. McCRIGHT 711 East 15th St.

# Church At Stanton Plans Budget Drive

STANTON — The First Methodist Church will start a drive to obtain pledges for the church budget Nov. 5. Ray Simpson and H. S. Blocker are division chairmen. Team captains are Morgan Hall, L. C. Hazlewood Sr., R. O. Rhodes and Ross Hay. Each captain will form a team of eight church members.

# Intestinal Disorder Hits 130

Gastroenteritis, an intestinal and stomach trouble, affected almost as many people last week as did the remainder of communicable diseases combined. The weekly report furnished by the city-county health unit showed there were 130 cases of the malady last week and 135 cases of all other troubles. The next largest number was 43 influenza cases. Forty were bothered by tonsillitis. Strep throat bothered 17, and there were eight cases each of diarrhea and pneumonia. Six persons reported upper respiratory trouble and four had virus. Two each with chicken pox, trench mouth, and empetigo, and one each of mumps and whooping cough completed the report.

# W. Virginia GOP Has 'Even Chance'

By HARRY W. BALL  
CHARLESTON, W. Va. (AP)—For the first time in 14 years, West Virginia Republicans are rated a fairly even chance of sending a senator to Washington. This is in a state that has been heavily Democratic since the Roosevelt sweep of 1932. West Virginians have supported every Democratic presidential candidate since then and have elected Democratic governors. The only Republican breakthrough in the Senate occurred when Chapman Revercomb, Charleston attorney, succeeded Matthew M. Neely in 1942. Revercomb, now 61, is up for the third time to try to regain the Senate seat. He has been unsuccessful in two previous attempts since 1949. His opponent is William Casey Marland, 38, winding up a four-year term as the youngest governor in the state's history. The two are seeking the remaining two years of the Senate term of the late Harley M. Kilgore, who died unexpectedly last Feb. 23. Marland moved quickly into the situation after Kilgore's death. He named an old college chum, politically unknown William R. Laird III of Fayetteville, as "stand-in" senator while he busied himself getting nominated in the May 8 primary. The primary built up an intra-party head of steam which blew off when former Gov. Okey Paterson apologized in a statewide radio speech for what he said was his poor judgment in backing Marland as his successor. Marland won his own primary race by 13,290 votes but the state-house-backed candidate for governor, Milton Ferguson, lost out to Rep. Robert H. Mollohan, supported by Sen. Neely in a mild party rift. Democratic politicians made the usual ostentatious motions of binding up the primary wounds, but there have been mutterings about this or that party stalwart "taking a walk."

# As Advertised in True Story-PHOTOPLAY

BARBARA NICHOLS  
Featured in  
"BEYOND A REASONABLE DOUBT"  
An ABC-Desilu Production

Some Democrats privately agree that Marland may be on shaky grounds — he was elected governor by just 27,000 majority — but they are counting on the "ticket" to put him across. Democrats also are bothered by a public clamor over a so-called "lower fund." This is a device, acknowledged for the first time publicly in the Democratic primary, by which certain state employees are tapped for a percentage of their earnings to support the political campaign. An offshoot was the arrest of Henry McKinley, business manager of the state's biggest mental hospital, charged with illegal solicitation of staff employees for political funds. His case is pending. Such are some of the minus signs on the Democratic ledger. On the plus side is the Democrats' continuing one-sided majority on the registration books, numbering presently about 254,000. Another cornerstone is the labor vote, although no longer the potent deliverable bloc it was back in the '30s and '40s. Some Democrats say they would

# Suit Filed On Canine Films

LOS ANGELES (AP)—Theatrical agent Hugh Hooker filed suit for \$750,000 yesterday, charging that he was frozen out of a deal to produce a Rin Tin Tin series on television. The suit was directed against Herbert Leonard, producer of the films; Lee Duncan, owner of the dog star Rin Tin Tin IV; Screen Gems Inc., the firm which released the pictures; the National Biscuit Co., sponsor; and the American Broadcasting Corp. Hooker contended in his suit that Duncan told him he had abandoned the project, but that 100 films were later produced, resulting in 14-million-dollar profits.

# So They Stay Slender

CINCINNATI (AP)—Housewives burn up more energy than most husbands do on their jobs, a Cleveland heart specialist says. Dr. Herman K. Hellerstein of Western Reserve University's School of Medicine said the average housewife burns from three to five calories of energy per minute. This, he said, is more than is burned up by men on most jobs, except such occupations as "foundry workers, farmers, jobs entailing manhandling of materials and dock workers."

# Texas Prison Rodeo Ends

HUNTSVILLE (AP)—The rugged Texas Prison Rodeo ended Sunday after four weekends of tough convicts risking their necks on wild broncs and bulls. The finale of the 25th annual show was telecast. In four Sundays, the rodeo drew 102,000 fans. Receipts are used to help rehabilitate the 9,000-odd inmates.

# Search Continues In Wyoming For Sex Fiend Suspect

CHEYENNE, Wyo. (AP)—Search continued in southern Wyoming today for a blond haired man, armed with a knife and using vile language, who molested five women last week. Three women attacked in Laramie said the man was "crazy looking" and "bug eyed." A man of that description raped a young mother at knife-point in Cheyenne Friday afternoon. Two Green River, Wyo., high school girls reported they were molested Friday night in Laramie near the University of Wyoming campus. Laramie officers said a man forced his way into a Laramie residence early Saturday and attempted to rape another girl. Two hours later a man attempted to attack a woman on a Laramie street.

# Good Samaritan Rescues Own Son

SACRAMENTO, Calif. (AP)—W. W. Pettit always keeps his eyes open for motorists in trouble since the time five years ago when he was pinned in a wreck for nearly four hours. So, when he saw tell-tale skid marks leading off a road in Colusa County he stopped to investigate. In an overturned pickup truck, 20 feet down an embankment, he found three men. One of them was his own son, Jerry. The three were dazed but not seriously hurt. Coming home from a hunting trip, they had gone off the road when blinded by another car's headlights.

# Slight Tremor

TULSA, Okla. (AP)—A slight earth tremor shook Tulsa about 4:45 a.m. Police said they had no reports of damage.

# GREATEST GASOLENE BARGAIN IN THE WHOLE MIDWEST!

# New Milemaster AT REGULAR PRICE!

(Highest octane standard compression cars can effectively use)

Now Cities Service offers a great new high octane grade of gasolene for standard compression cars. Gives more mileage, more power, faster pick-up, greater engine protection. But—priced the same as regular gas. Fill up with Milemaster!

The gasolene with the two-way stretch

New Cities Service Milemaster literally does a two-way stretch to increase your performance. Stretches your mileage as never before... Stretches your dollars, with its new high octane at regular price. High-octane Milemaster and extra-high octane Super 5-D provide protection against engine deposits and spark-plug fouling... as never before. The result: more power, more mileage, more pick-up... longer engine life.

# For extra-high compression cars... New SUPER 5-D

(extra-high octane)

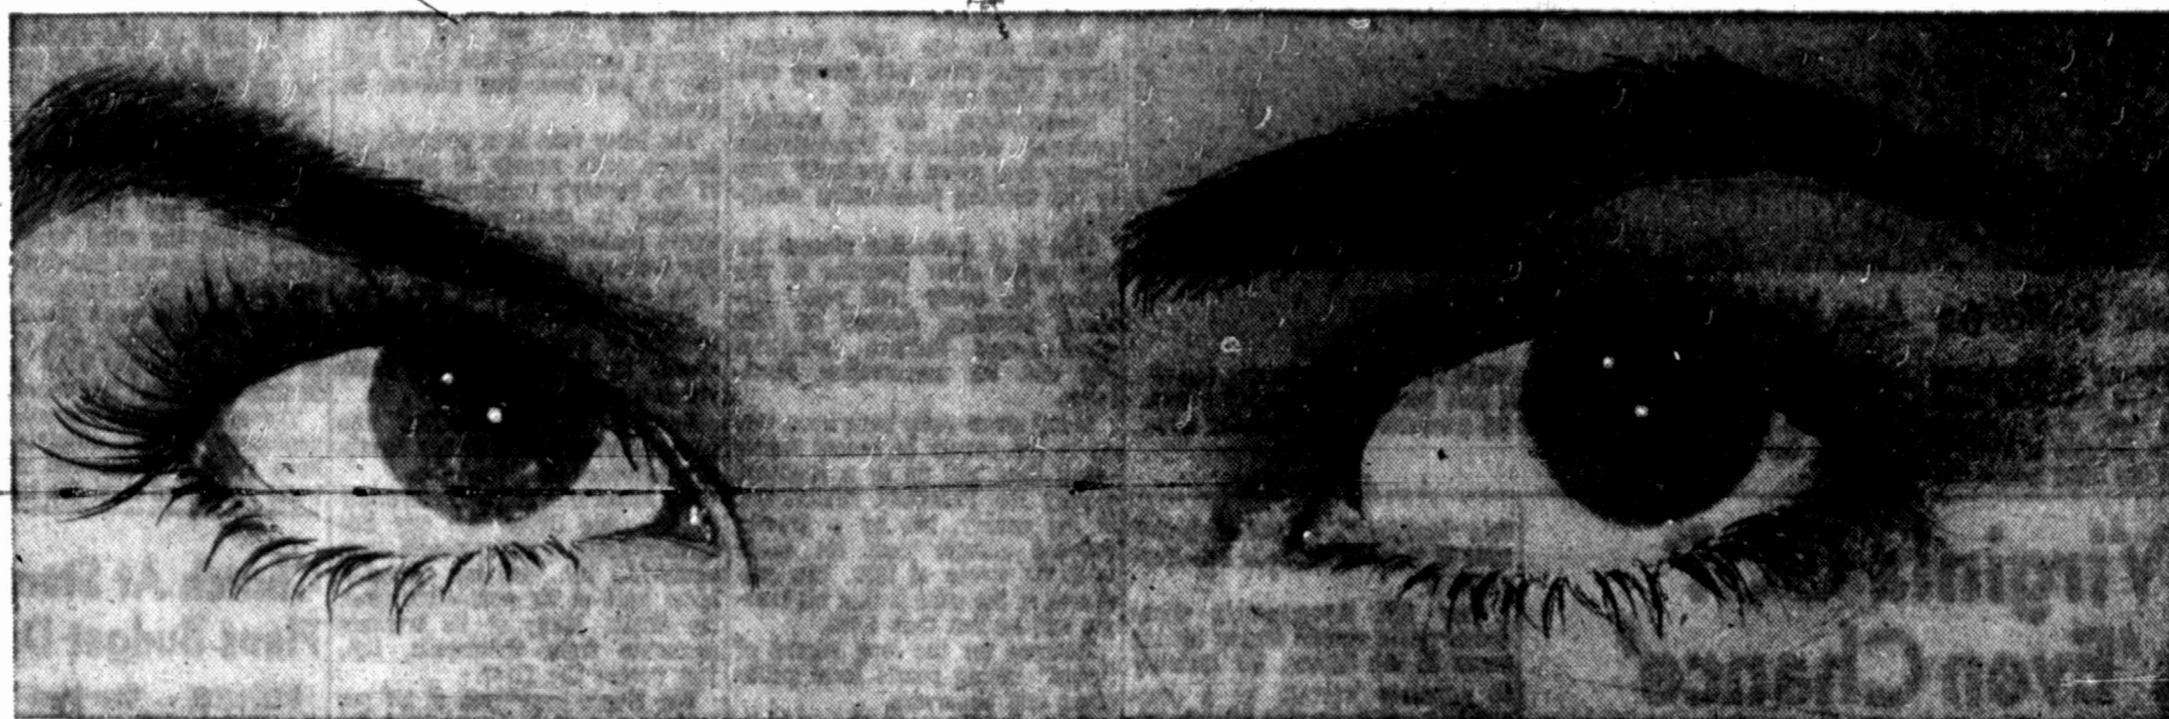

A great new gasolene that sets new standards in the premium class. Stepped-up power. Extra-high octane for extra-high compression motors. AND... the only gasolene with all these motor-saving, mileage-stretching features:

1. Extra-high Octane.
2. Anti-Carbon.
3. Anti-Stalling.
4. Anti-Rust.
5. Upper-Cylinder Lubricant.

when better fuels are required CITIES SERVICE will supply them

Hun Rebellion May Hurt Russ Chances In Asia

WASHINGTON (AP) — Russia's show of the iron fist in Hungary seems likely to damage her ability to build influence in South Asia and the Middle East.

The entrance of Soviet troops into the struggle against Hungary's students and workers, even at the request of Hungary's Communist government, is regarded here as something Moscow must have wanted desperately to avoid.

Some U.S. officials think this action will destroy a myth the Soviets have long nourished. The myth is that people under Communist rule are happy with their lot and feel their system is best.

A part of the myth is that there are voluntarily friendly relationships between Moscow and the satellites.

This picture has been offered to countries in the African-Asian belt for years as the alternative to Western colonialism — a happy state of good living which oppressed peoples could look forward to if they could throw off the "imperialism" which the Reds denounce.

The Western Allies have maintained that the Soviets have been imposing a new imperialism upon vast areas, particularly the satellites in Eastern Europe.

These conflicting arguments have been important in the "battle for men's minds" going on in neutral countries.

Last weekend's successful revolt against Soviet domination in Poland was not nearly so sensational as what has since happened in Hungary.

The big difference is that the Poles never took any overt action which the Communist authorities could use as an excuse for calling in Russian forces.

News reports told of Soviet warships gathering off the Polish coast and Soviet troops moving into positions for action in East Germany and in garrison cities inside Poland itself.

But they never went into action. That they did not is the most striking evidence that Soviet Communist party boss Nikita Khrushchev realized that if Russian soldiers shot down Polish citizens in a fight over political issues, the action might destroy the myth of friendly Russian relations with other Communist states.

Hungary offered the Soviets no such choice. The Polish revolt has been under the control of Communist leaders, but the struggle in Hungary exploded into open civil war.

The picture presented to the world is one of Russian soldiers, tanks and jet planes ruthlessly blasting the desperate attempt of Hungarian revolutionaries to restore their country's independence.

Officials and Western diplomats here are convinced this will do tremendous damage to Russia's fundamental foreign policy and propaganda line.

Parents Too Close

LOUISVILLE, Ky. (AP) — Teachers at Valley High School don't have to send notes home to at least two parents. They can tell them right at school.

Virginia's Demo Regulars Hopeful

By WHITNEY SHOEMAKER RICHMOND (AP) — Conventional victory predictions by the Democratic faithful in restive Virginia are tinged these days with an optimism that was lacking four years ago.

The regulars maintain that Adlai Stevenson is about to recapture this traditionally Democratic commonwealth, which he lost in 1952.

They may be justified. Democrats outnumber Republicans by far. And this year, despite an absence of visible enthusiasm for the candidate himself, there is evidence the Democrats are plugging their national ticket.

A good many of them stood aside in 1952. President Eisenhower's personal popularity — although punctured in some areas by wrath at the Supreme Court's school integration ruling — could still sway Virginia's 12 electoral votes again.

A lot of Democrats aren't happy with Stevenson's civil rights stand either.

Inward uncertainty on both sides is typified in a political cartoon that appeared last week in the Richmond Times Dispatch.

It showed three presidential candidates behind the railing of an apple orchard gazing anxiously toward a sphinx bearing the features of Sen. Harry Flood Byrd.

The senator, Berryville apple grower and dominant figure in Virginia's Democratic party, has preserved the silence of a sphinx while political leaders wonder: Will he come out for Eisenhower or Stevenson?

Byrd didn't endorse Eisenhower in 1952, but he said he could not support Stevenson. In the aftermath, Eisenhower polled 56 per cent of Virginia's vote and became the second Republican presidential candidate to win the state since the Reconstruction period.

Herbert Hoover was the first. The cartoon also served to point up that in Virginia there are three contenders. The third is T. Coleman Andrews, campaigning here with a States Rights party label.

And Andrews, the Eisenhower Democrat who resigned last year as commissioner of internal revenue to condemn the income tax he had been collecting, raises another question:

How much will a third entry hurt the major candidates, and which the most?

At Lynchburg, W. D. Montgomery told me he tentatively plans to vote for Andrews because "I like his views on states' rights."

Montgomery, a telephone company commercial representative, voted for Eisenhower in 1952.

W. Richard Melton, Ferncliff farmer, said folks in his neighborhood "are getting powerful excited" about Andrews. Melton is a precinct Democratic chairman in Louisa County but voted Republican — for the first time in his life — in 1952. Now he says:

"I wouldn't be surprised if I voted for Andrews. Not that he will win, but to show how the South stands on the colored question."

In the Tobacco Belt, J. S. Easley of South Boston contended Andrews would draw from the "grass roots" of the Democratic party and hurt Stevenson.

Easley, 71, is a former president of the state Chamber of Commerce and bar association. He is now an elector on Andrews' slate.

Andrews, who has urged repeal of the income tax and denounced what he calls federal invasion of states' rights, has attracted segregationists who are displeased with both Eisenhower and Stevenson.

In the South Side, where Stevenson fared well in 1952, Andrews seems certain to slice off some Democratic votes. Around Richmond, which gave Eisenhower a solid majority four years ago, the President is more likely to feel the effects.

Most observers think Eisenhower will lose more than Stevenson as a result of Andrews' candidacy.

While Byrd followers wait for a clear signal — one that may not come — from their leader, the party machinery is grinding for Stevenson. Not furiously, but considerably more so than in 1952.

Byrd likely could tip the scales either way by speaking out.

Texas Pilot Rides Jet Down

MITCHELL AFB, N.Y. (AP) — A Texas jet pilot resisted an "overwhelming impulse to bail out and brought his jet plane down safely after it caught fire yesterday.

"I knew I was over Long Island and I did not want my plane plowing through a half dozen houses in a congested area, so I decided to ride it down," Lt. Alan Lancaster of San Antonio said.

He was unhurt and the jet fighter he was ferrying from Dover, Del., to Presque Isle, Me., was not badly damaged.

The fire, apparently started from a short circuit, caused both fuel tanks to drop off in flight but burned itself out before Lancaster landed.

AMERICAN LEGION WEEKS Oct. 20 - Nov. 11

## Hospital Asked For Caged Boy

FOREST CITY, N.C. (AP)—He is the youngest of 16 farm children, now grown into a strong 13-year-old boy of medium height, with a love for watching television by the hour.

He is emotional and given to angry fits, at which times he has unusual strength.

His name is Colon Plato Guffey. He lives at a farmhouse at nearby Cane Creek, in a cage of heavy wooden planks set in the living room. He is mentally deficient and epileptic. He has lived in the cage "ever since he has gotten some growth on him," says a newsman.

The boy's parents, Mr. and Mrs. Colon Guffey, are awaiting word from North Carolina authorities on whether the child can be put in an institution. Authorities say there's a long waiting list of epileptics.

Frank Jeter Jr., editor of the semi-weekly Forest City Courier, brought the situation to light yesterday. Mrs. Guffey says she hopes the publicity will help get the boy into a hospital. An application was made for him June 14 for admission to a state hospital.

Already on the waiting list of epileptics June 14 were 47 children and 291 adults, said Dr. James W. Murdoch, general superintendent of the State Hospitals Board of Control.

## Adlai Vetoes Pension Raise

Senator Kefauver, commenting on Stevenson's veto in Illinois of a 10 per cent increase in old age benefits, said:

"Mr. Stevenson says he vetoed the bill because the Legislature did not provide funds to finance it. But the fact is that Mr. Stevenson also vetoed an amendment which would have provided \$14 million to pay for the increased cost of old age pensions."

—WASHINGTON STAR, May 26, 1956.

The Eisenhower Administration has increased old age benefits. Texas Democrats for Eisenhower, 412 Boim Building, Austin, think Texas will go for Ike again on Nov. 6.

The Sheik On Ice

Everything's here but the sand as Jorge Vallee brings "The Sheik" back to life on the great ice stage in "Holiday On Ice," at the Ector County Coliseum, Odessa, Nov. 7 through 11. The all-new 1956 edition of the popular ice show will use a larger ice surface than last year and will have a much larger company. Tickets for the show are on sale in Big Spring at the Chamber of Commerce.

## Marilyn Impressed With British Queen

LONDON (AP)—A nervous Marilyn Monroe was presented to Britain's Queen Elizabeth II last night and found the monarch a "very warm" person.

"She radiates a wonderful womanly essence and softness," said the actress.

The introduction came at the annual royal command film performance where members of the royal family met a group of international film stars.

"How do you like living in Windsor?" the Queen asked Marilyn.

The startled actress blinked, said "What?" then hastened to add, "I thought we lived at Englefield Green."

"Oh, we're neighbors," said Queen Elizabeth, explaining that Englefield Green, where the actress and her husband, playwright Arthur Miller, have rented a large manor, is near Windsor Castle.

The Queen and the film star, both 30, also chatted about the film Marilyn is making in England, "The Sleeping Prince."

Queen Elizabeth stopped to talk with each of the stars in the line. She was followed down the row of movie personalities by her sister Princess Margaret.

Marilyn's nervousness was shared by other members of the movie group. Said veteran Joan Crawford: "I've never been so scared in all my life. Anyone want to buy a stomach cheap?"

## Reds Deny Interference

MOSCOW (AP)—Soviet Foreign Minister Dmitri Shepilov says Premier Bulganin didn't mean to interfere in the U. S. election with his letter to President Eisenhower suggesting a ban on H-bomb tests.

Shepilov told Western correspondents at a reception: "We did not connect it with the American election. The message raised the question of banning nuclear explosions. I believe that Mr. Bulganin did not think of either the donkey or the elephant."

Adlai Stevenson had been advocating suspension of H-bomb tests when the Bulganin letter arrived 10 days ago. Eisenhower, who opposes ending the tests until an over-all disarmament accord is reached, fired back an answer to Bulganin accusing him of "interference in internal affairs of the United States."

Anyway, Shepilov said, what's said in Russia should not affect the voting in the United States.

## Serum Ordered

DETROIT (AP)—City officials ordered an emergency inoculation program at a Detroit elementary school today to halt the spread of an outbreak of diphtheria. Seventeen persons from the school area have been admitted to a hospital.

## Stassen Says Adlai Left His Platform On Atom Proposals

WICHITA FALLS (AP)—Harold Stassen said last night Adlai Stevenson went outside his party's platform in advocating a halt to H-bomb tests and the end of the draft.

"He wants Uncle Sam to talk louder and carry a smaller stick," said the special assistant to President Eisenhower for disarmament affairs. He added they are "two steps toward a weaker America."

The Democratic presidential nominee's proposal to halt H-bomb tests was "an attempt to frighten people," Stassen said, but said reports from the nation's top scientists show that all the radiation from tests thus far was not as much as contained in ordinary medical and dental X-rays.

Stassen said the Democratic platform called for strong United States military forces and that senators who had helped shape the President's foreign and defense policies had a hand in drafting it.

"It is no wonder that people are now asking if they can depend on

a man who goes outside his party's platform," he said.

In contrast, Stassen said, Eisenhower has insisted that this country will reduce its armaments and put its nuclear weapons under control only if Russia submits to a system of inspection.

Stassen made no mention of the Israeli-Egyptian crisis in his address. He told his news conference, however, that Eisenhower had shown the kind of leadership most likely to handle the crisis without involving this country in war.

Stassen was vigorously applauded by the estimated 500 persons at the rally—the first large-scale effort by Republicans in this predominantly Democratic area which Stevenson carried in 1952.

Observers said Democratic gubernatorial candidates who spoke here this summer drew crowds of 700 to 2,000.

While denouncing the leadership of Eisenhower as "the successful record of a successful man," Stassen said the Democratic presiden-

cial candidate's term as governor of Illinois was one of "expensive examples of bad administration."

Stassen drew a big laugh when

## U.S. Navy Force Called To Alert

THE HAGUE (AP)—An American naval force today was ordered to break off a visit to the Netherlands and leave at noon for a secret destination, a U.S. Embassy spokesman announced.

The ships are those of the U.S. Atlantic Fleet's Hunter Killer Group No. 2. They include the aircraft carrier Anietiam, six destroyers, two submarines and a tanker.

Because of the current Middle East crisis, there was immediate speculation that the ships had been ordered to join the U.S. 6th Fleet in the eastern Mediterranean.

What woman is there that doesn't like the clean masculine fragrance of HIS . . . Elite after-shave or cologne . . . 2.50 plus tax. Also deodorant, pre-electric lotion, and HIS or HERS stick cologne . . . 1.00 plus tax
