Israel Takes Gaza, Pushes Sinai Drive

No More War For Them

An Israeli soldier, hand on holster, watches as Egyptian sailors board a bus in Haifa after being taken prisoner when Israel forces captured the Egyptian frigate Ibrahim Awal.

'Near-Freeze' Is Forecast For City

If there are any ducks or wild geese flying over West Texas today, they had better resort to radar and settled down for a spell on the first convenient water they sight.

Hope of hunters that colder weather would arrive with the official opening of the duck hunting season today was partially realized, but neither the hunters nor the ducks were pleased with the clouds of rolling dust which pushed in ahead of the cold.

Big Spring residents awakened Friday morning to look on a chill and brown world. As predicted, dust was whipped into the area by the current turbulent weather conditions which are prevailing over most of Texas.

Temperature in Big Spring dropped to 44 degrees last night. At 8 a.m. it had picked up but two degrees. However, by 11:30 a.m. the mercury had climbed to 57 degrees.

Wind was not particularly high Friday morning in the area and the brown film which blocked out the sky and reduced visibility was definitely imported stuff.

Rains were reported in many parts of Texas but the noon weather forecast for Big Spring and vicinity had no reference to possible moisture.

Promise was held out for colder weather, however.

"Fair and colder this afternoon and tonight," the forecast read, with westerly winds from 16 to 25 miles per hour with blowing dust. Saturday will be fair and cool. Minimum temperature tonight will drop to near-freezing.

Big Spring's chilly weather and drab colored skies were the product of a front which brought thundershowers and dust to many parts of Texas today. For a time early today, the weather bureau flew a small craft weather warning along the Texas coast.

The warning called for shifting winds about 35 miles per hour in thundershowers Friday afternoon. Earlier in the day the Weather Bureau issued a severe weather warning for a large portion of North Central Texas. The warning expired at 8 a.m.

Thundershowers moved eastward across the state. The thundershowers extended from Ardmore, Okla., to west of Fort Worth and to Hamilton, about 100 miles southwest of Fort Worth.

Rainfall totals Friday were: Abilene 22 inches, Austin trace, Dallas .08, Fort Worth .02, Houston .06, San Angelo .21, Waco trace, Wichita Falls .09, Lufkin .06, Junction .03 and Mineral Wells .41.

Temperatures in San Antonio dropped 15 degrees in one hour. Blowing dust, kicked up by westerly winds of 41 miles an hour, cut visibility at Lubbock to one mile. Gusty winds reached 57 miles per hour in the area. At Amarillo, visibility was reduced to six miles.

Rain fell at Lufkin, Junction and Austin Friday morning and thundershowers were reported at Mineral Wells, Wichita Falls, San An-

Allied Air Assaults Hurt Egypt

LONDON (AP)—Israel today announced occupation of the entire Gaza Strip and claimed other smashing victories in ground action against Egyptian forces.

The French Defense Ministry said Egypt's air force had been "completely put out of fighting condition" by repeated poundings from British-French air forces.

There still was no word of a ground invasion by British or French forces. But a French spokesman in Paris said the combined force on Cyprus was increasing steadily.

A spokesman at Israeli headquarters in Tel Aviv reported the surrender of Gaza City, Egyptian headquarters for the Gaza Strip, after a tank-led Israeli task force smashed into the city.

The surrender put the entire Strip in Israeli hands and ended a 24-hour fight for the region. Israeli troops yesterday captured Rafah, the only other major center in the strip.

The British Air Ministry in London said Royal Air Force heavy and medium bombers were keeping up their nonstop strikes against the Egyptian air bases today.

The Israeli spokesman said fighting in the central Sinai desert was "progressing satisfactorily." Israeli forces claimed earlier they had captured the Sinai, routing some 20,000 Egyptian troops. Apparently mop-up operations were under way.

Egyptian President Nasser hinted, however, that the main body of Egypt's forces in the Sinai were being pulled back to defend the Suez Canal and the Nile Delta.

The French Defense Ministry said 105 Egyptian planes had either been destroyed or made unusable. By one unofficial estimate, this was about a fourth of the Egyptian air force.

The Egyptian losses, the French said, included 16 Ilushin 28 twin-jet bombers Egypt recently received from the Soviet Union.

They were reported destroyed at the Luxor base.

The French spokesman told a news conference the British-French air strikes continued yesterday and last night on all Egyptian airfields. The biggest, Cairo West about 25 miles west of the Egyptian capital, was subjected to a "violent bombardment," he reported.

The Israeli Embassy in Washington estimated Egyptian casualties — killed, wounded and captured — at 5,000. "Israeli casualties are relatively light," it added, "including less than 100 killed."

Egypt stepped up a guerrilla campaign. Army headquarters in Tel Aviv said a large number of Egyptian (fedayeen) commando units entered Israel's Negev desert last night, blowing up a number of vehicles and irrigation pipes.

Egypt said navigation in the strategic Middle East waterway already had been halted by the British-French sinking of an Egyptian warship in the channel. British-French headquarters denied this account, saying British planes bombed and sank an Egyptian blockship outside the ship channel.

The statement asserted Egyptian forces were towing the vessel into position for sinking to block canal shipping.

A later British-French announcement from Nicosia claimed the British aircraft only damaged the ship—a tank landing ship.

"Surviving the encounter, though damaged, she was maneuvered downstream and positioned broadside across the channel," it added. "Here she was evidently scuttled by the Egyptians, partially blocking the canal."

Taking All The Fun Out Of School Life

ST. LOUIS (AP)—Inkwellers are on the way out in St. Louis elementary schools. Supt. Philip J. Hickey said ballpoint pens will be introduced in February.

"It will eliminate such unfortunate accidents as when a penpoint is pushed with a little bit of vigor into a person's body," he said.

Adlai Wins 'Vote'

CLEVELAND (AP)—Cleveland Heights High School gave Democrat Adlai E. Stevenson a narrow victory over President Eisenhower in mock voting yesterday. The vote was Stevenson 980, Eisenhower 925.

Rock-N-Roll Good For Chiropractor Business

LEXINGTON, Ky. (AP)—A Lexington chiropractor says dancing to rock 'n' roll music is causing a mild boom in his field.

"This unhibited dancing without any rules or special steps is bringing a variety of sprains and displacements," Dr. George Cheatham Jr. told the Lexington Chiropractic Assn.

It is an "unmeasured risk for even the youngest and most supple citizens," he said. "Young girls come to chiropractors for what can now be diagnosed as 'rock 'n' roll shoulder.'"

Some also have damaged arm sockets caused by being yanked by the wrists with a sharp, rapid pulling movement, he said, adding:

"They often wind up on the floor with sacroiliacs as much out of harmony as the music they dance to."

BULLETIN Allied Suez Invasion Due

PARIS (AP)—The French Defense Ministry said tonight the stage is set for British-French invasion of the Suez Canal zone.

A communique from the ministry said aerial and naval preliminary attacks are over, and that air and naval actions henceforth will be directed at supporting occupation of the canal zone.

The ministry gave no hint when this might happen.

The ministry said the purpose of air and naval bombardment thus far had been to knock out Egyptian air strength and to clear the seas north and south of the Suez Canal.

This objective has been virtually achieved, it said.

U.N. Votes For Cease-Fire In Egypt Conflict

UNITED NATIONS, N.Y. (AP)—The U. N. General Assembly in an unprecedented emergency session voted overwhelmingly early today for an immediate cease-fire in Egypt.

The 76-nation Assembly, adopting a resolution introduced by Secretary of State Dulles, also urged that Israel pull her forces out of Egypt and that Britain and France not move theirs in.

Wary from an all-night meeting, delegates expressed doubt privately that the three nations would comply, since all had argued that their military operations must be carried through to their objectives.

Should they fail to do so, the expectation was that a further proposal would be introduced for stronger action. Dulles' resolution provides for the Assembly to remain in emergency session pending compliance but no time was set for the next meeting.

The vote was 64-5 with 6 abstentions. Britain, France, Israel, Australia and New Zealand voted against the resolution. Canada, South Africa, Belgium, Laos, The Netherlands and Portugal abstained. Luxembourg was absent.

Among those voting with the United States for its proposal were the seven-nation Soviet bloc, the Latin-American nations, the 22 country Asian-African group and Scandinavia. The decision, shortly before 2:30 a.m., got 27 seconds' applause from the floor and gallery in the high-domed Assembly hall.

The Assembly met to deal with Israel's strike into Egypt last Monday and Britain's and France's air and naval actions since Wednesday aimed at occupation of the Suez Canal zone.

The emergency special session was called by the Security Council after British and French vetoes had killed U.S. and Soviet resolutions calling for withdrawal of the Israeli forces.

2 Held, Money Recovered, In Bank Robbery At Sabinal

UVALDE (AP)—Uvalde County Atty. Earl Caddell said charges of armed robbery and auto theft were filed today against Joe Douglas Nance, 35, Austin, and Harold V. Seago, 35, Odessa, in the \$17,200 robbery of the Sabinal State Bank yesterday.

Meanwhile, the two ex-convicts were held in San Angelo where they were arrested last night. Police said all the money had been recovered.

Police Chief Lee Brazier said the men had \$17,391.01 in their possession when they were arrested last night in a local motel. He said both men had admitted serving prison terms in the State Penitentiary at Huntsville.

"The two men came into the bank just before 3 o'clock closing time carrying paper sacks in their hands," said Jimmy Durham, 58-year-old cashier at the bank. He said they did not have masks on.

"One of them shoved a gun through the window at me and said, 'fill it up. This is a stickup.' I filled the bag he handed me. Then he told me to go to the vault and open it."

"While one of the men took me to the vault the other went to the front door to lock it," Durham said.

"The man with me was inside the vault attempting to open the safe and the other was in the front of the building—so I just closed the vault door on the man inside."

"His partner heard him shouting from inside the vault and threatened to harm the women in the bank if I did not let the man out," Durham said.

"I told him if he would not hurt the women I would open the door," Durham said.

After the men filled their sacks with money, Durham said, they ordered the people in the bank to stay in the vault. The two men shut the door of the vault and left the bank.

Faint Hope Held For 114 Miners

Hungary Eyes Russ Troop Move

BUDAPEST (AP)—Tension gripped Budapest today in the wake of fresh Soviet troop movements into Hungary, but Premier Imre Nagy's government sought to minimize the gravity of the situation.

A government spokesman said no new Russian troops had entered Hungary after an estimated two Soviet divisions poured across the border from Russia yesterday.

The spokesman said the situation which was "extremely grave" last night had "relaxed" today. But the Budapest population waited anxiously to see if the Russians would move again.

The Soviet troop move came in the wake of Nagy's announcement that Hungary was pulling out of the Kremlin-dominated Warsaw Pact and claiming neutral freedom from any power bloc.

The government, meanwhile, prepared to resign today to make way temporarily for a small "inner cabinet" of experts under Nagy.

Nagy quickly informed the United Nations of the Soviet military movements and placed Hungary under U.N. protection as a neutral country.

Soviet Embassy representatives assured the Premier the troop movements were only a regrouping and not aggressive. They said their forces had ringed Hungarian airfields to ensure evacuation of wounded Soviet soldiers and dependents. Russian families were seen leaving the Soviet Embassy during the night.

(Italian Ambassador Leonardo Vitelli called on an emergency session of the 76-nation U.N. Assembly in New York last night to do what it could to answer Nagy's appeal. Secretary of State Dulles endorsed Italy's statement and voiced hope the U.N. Security Council would keep the Hungarian case "urgently before it.")

Budapest radio earlier broadcast warnings of a new "Soviet invasion." Reports circulated last night that the government had to restrain Hungary's air force from going into action against Russian armor camped around Budapest airfield.

News of the Soviet action appeared to unite the people more closely behind Nagy.

Hun Cardinal Pleads For West Support

BUDAPEST, Hungary (AP)—Josef Cardinal Mindszenty today pleaded for the Western world to support Hungary's fight for freedom from Communist domination.

The prelate, who was liberated by freedom fighters in the anti-Soviet revolution, addressed a crowded news conference here today. Standing patiently in a small room of his Budapest residence, which still bears the scars of World War II fighting, he blinked into photographer's flashbulbs and said:

"We have many heroes in our country now and thousands of wounded in our hospitals. We ask the West—and especially the big powers—to support us politically, and also to aid us materially in this grave situation."

He faced reporters wearing a black cassock and purple skullcap. In a prepared statement in German he said:

"It was wonderful what started here on Oct. 23 (the day the anti-Soviet, anti-Communist revolution started). Our youth, soldiers, workers, and all also very against the regime. All they want and request is that the Russians should leave Hungary, because Magyars (Hungarians) want to work for themselves and for their own nation."

After his plea for Western support for Hungary, he confirmed he was in contact with Pope Pius and had received the Pope's blessing on his liberation.

Judge Sees Unfairness In Latin Suit

CORPUS CHRISTI (AP)—A U.S. District Court judge yesterday said he believes the District Independent School District has "discriminated unreasonably" against pupils of Latin-American descent.

Judge James V. Allred, who said his remarks were not final, made the statement after conclusion of testimony in a discrimination and damage suit against the school district.

On the other hand, the judge said, it does not appear unreasonable for non-English speaking children to be placed in separate classes during at least a portion of their first year in school.

Any treatment of pupils on the sole basis that they are of Latin-American extraction "is, on the face of it, discrimination," the judge said.

Allred said there is strong evidence that the school district treats all Latin-American students in one way—requiring them to spend four years in the first two grades.

"I can't say it would be unreasonable to require non-English speaking students to spend time in preparation before entering regular classes," he said.

"Children who cannot speak English at the beginning of the years are not qualified to do the work of English speaking children the same age," Judge Allred said.

Arguments which closed at 3:25 p.m. yesterday will be submitted for judgment Dec. 10.

The final defense witness, Dr. Chester Cochran, professor of administrative education at the University of Houston, said children who grow up in English speaking surroundings will always stay ahead of those who have to learn a new language when they enter grade school.

Salt Lake City Gets Snow

Heads down, Salt Lake City pedestrians trudge through snow which fell in heavy, wet flurries measuring over 1/4 inches. The latest fall brought the total for the month of October to almost a foot.

Blast Traps Workers In Canada Mine

SPRINGHILL, N.S. (AP)—Only faint hope was held today for 116 men trapped in a gas-choked coal mine shattered by a blast that already has claimed nine lives.

Rescue workers found four bodies during the night at the 3,400-foot level. They said they saw no sign of life in the deep workings where the remaining 114 were known to be trapped.

Six other miners were fatally injured when the explosion roared through the Cumberland Railway and Coal Co. mine slope last night, leveling buildings and reducing surface workings to rubble. Gas fumes killed one rescue worker.

Nine men were hospitalized. The fumes hampered volunteer efforts to get the men entombed in gas-filled shafts. If efforts fail, it will be Canada's worst mine disaster in 40 years.

"There is still hope — though it may only be a faint hope — that the men are still alive," said mine manager George Calder.

Hundreds of relatives, many of them sobbing, stood around the blackened ruins of mine buildings. Truckloads of soldiers, first aid supplies and ambulances were rushed to the scene. Helicopters and planes helped bring in doctors and supplies and cars used their headlights to illuminate wartime runway at an airfield in neighboring Amherst so the planes could land.

The explosion was believed caused by coal dust.

Rescue workers said they could not bring out the bodies because the tunnels were blocked. They said a hoist would have to be rigged before their search could continue. But they added that the air seemed to be circulating better in the mine depths, a hopeful sign.

Almost every family in Springhill, a town of 7,000 near the New Brunswick border, was represented.

The explosion blew out the inclined entrance of No. 4. It hurled one man through a window, smashed nearby buildings and shook the surrounding countryside.

The Springhill coal field has been described as one of the most dangerous in Nova Scotia because of the gas fumes. In 1914, a mine blast at Buller's, Alta., cost 193 lives. Springhill itself suffered a major disaster in 1891, when 125 miners were killed.

Viet-Nam Reds Vow Changes

HONG KONG (AP)—North Viet Nam's Communist rulers, apparently fearful of repercussions from the anti-Red revolts in Eastern Europe, today promised a sweeping liberalization of their regime. The program looked good on paper.

A communique broadcast by Hanoi radio said the Communist North's first elections will be held in 1957, "enabling the people further to participate in management of the state and control of the administration."

The broadcast said an extraordinary meeting of the Council of Ministers presided over by President Ho Chi Minh also decided:

1. "To readjust and develop the democratic organs of the people."

2. "To give new powers to the present puppet National Assembly appointed 10 years ago."

3. "To ensure the people's democratic rights and strengthen the basis of democratic legality."

4. "To pass new laws guaranteeing greater freedom of movement and speech."

5. "To improve living conditions of workers through 'a more reasonable wage system.'"

The government which rules some 12 1/2 million people in the northern half of war-divided Viet Nam admitted "grave mistakes and present difficulties."

Water Committee Urges Supplies Aid

AUSTIN (AP)—The Texas Water Resources Committee yesterday postponed action on three proposed bills but said it would ask the Legislature for 10 million dollars annually to increase the public water supply.

The 10 million dollar annual request will be made in the form of a resolution. The money would be used to buy water conservation storage space in federal-built reservoirs.

Gives Thanks

Josef Cardinal Mindszenty talks to a group in his Budapest residence following his return to the Hungarian capital from the castle at Felsopeteny where he was serving a life imprisonment term after his conviction as a traitor by a Red court in 1949. Mindszenty said "I thank God I am now perfectly well, both mentally and physically, though I have been seriously ill for a long time."

Judge Sees Unfairness In Latin Suit

CORPUS CHRISTI (AP)—A U.S. District Court judge yesterday said he believes the District Independent School District has "discriminated unreasonably" against pupils of Latin-American descent.

Judge James V. Allred, who said his remarks were not final, made the statement after conclusion of testimony in a discrimination and damage suit against the school district.

Teachers' Contributions

Bryce Wiginton, right, chairman of the employe division of the United Fund campaign, accepts Big Spring public school teachers' contributions to the UF from Supt. Floyd Parsons. More than \$2,000 was either given or pledged by some 220 Big Spring teachers.

Humorist 'Fails To Click', K-F Members Disappointed

Big Spring Knife and Fork Club members, 150 strong, were visibly disappointed Thursday night with the lecture efforts of the November speaker, Win Pendleton. Pendleton, billed in advance publicly as a public relations counselor and newspaper columnist from Washington, was the "Flying Reporter" entry in the current Knife and Fork Club

speaker derby. He didn't click and officials of the club sent in a report to the national office from which talent is secured rating the speaker as "poor." Pendleton's speech was intended to be humorous but it fell flat from almost the outset. Few of his jokes, roused more than faint chuckles from his audience and an obvious restlessness prevailed throughout the session.

Mrs. Boynton Dies Thursday

Funeral for Mrs. Elzada M. Boynton, 71, mother of Mrs. Alton Cook of Garden City, will be held in Garden City on Monday. Rites have been set for 2 p.m. in the Garden City Baptist Church with the Rev. Roy Fish officiating. Burial will be in the Garden City Cemetery under direction of the River Funeral Home. Pallbearers will be Burl Belew, Haley Haynes, Lloyd Hardy, Clyde Berry, Jack Cook and Allie B. Cook.

Mrs. Boynton died suddenly while visiting a daughter in Pasco, Wash. The remains will be met at 10 a.m. Sunday at Amarillo by a River coach. A long time resident of Scurry County, Mrs. Boynton had been a resident of Dallas for the past nine years. She was a member of Cliff Temple Baptist Church there. Surviving are her husband, E. V. Boynton, Dallas; a son, E. V. Boynton Jr., Hobbs, N. M.; two daughters, Mrs. Raymond Hinds, Pasco, Wash., and Mrs. Alton Cook, Garden City; six grandchildren; and one brother, Sam Dane, Dallas.

Late Theft Report

fore reporting theft of a pair of fender skirts. A Mr. Rockwell, 1003 NW 3rd, told the police Thursday that a set of fender skirts was taken from his car on Oct. 23.

Standard To Test Canyon In Borden County Jo-Mill Field

Standard of Texas is locating a venture in the Jo-Mill field of Dawson County which plans to test the Canyon. Reports have indicated the recent Canyon discovery, Camp No. 1 Blue, is being placed in the Jo-Mill field. Present production in the field is all from the Spraberry. The new venture will be the No. 1-1 Mrs. E. P. Blue and will be about six miles north of Ackerly. Drilling depth is 9,200 feet.

Borden

Lone Star No. 1 Higginbotham, a wildcat 14 miles south of Gall, deepened to 5,004 feet in black shale. The venture is 660 feet from southeast and southwest lines, 7-31-3n, T&P Survey. Sunray and Mid-Continent No. 1 Callie Miller, C NE SW, 365-97, H&TC Survey, drilled on to 6,193 feet after taking a drillstem test in the C zone of the Strawn. The test, run for 45 minutes, was from 8,000-93 feet. Strong blows weakened and died in 30 minutes. Operator recovered 7.796 feet of salty sulphur water. Flowing pressure was 3,196-605, and 15-minute shut-in pressure was 3,505 pounds. The venture is 13 miles northeast of Gall and is testing to 8,100 feet looking for Pennsylvania pay. Trice No. 1 Clayton-Johnson projected to 7,147 feet in lime. Drill-site is nine miles northeast of Vealmoor, CC NW NW, 21-32-4n, T&P Survey. Trice No. 1 Coates ventured to 7,073 feet in shale and sand. The East Vealmoor field location is C SE, NW, 13-27, H&TC Survey.

Dawson

Humble No. 2 J. A. Lane, in the Jo-Mill field, penetrated to 6,

563 feet in shale. The location is 20 miles southeast of Lamesa, 3-100 feet from north and 1,800 feet from west lines, 45-33-5n, T&P Survey. In the Mungerville Southeast field, Humble No. 1 Hemphill reached anhydrite and salt at 3-150 feet and deepened. The venture is, 660 feet from north and east lines, Labor 31, League 3, Taylor CSL Survey. Standard of Texas No. 1-1 Mrs. E. P. Blue is a new location in the Jo-Mill field and will try for Canyon pay. It is a west offset to the Camp No. 1 Blue, Canyon discovery. Railroad Commission filings indicated the discovery is considered in the Jo-Mill as a Canyon field. The No. 1-1 Blue will be 467 feet from north and east lines of the west half, 25-34-4n, T&P Survey, and six miles north of Ackerly. Drilling depth with rotary tools will be 9,200 feet. Camp-Jones No. 1 Wasson today fractured Spraberry perforations with 15,000 gallons. It is a wildcat six miles north of Ackerly and one location south of the Camp No. 1 Blue. Perforations are between 7,735-43, 7,750-58, and 7,764-73 feet. Drill-site is 550 feet from south and 660 feet from east lines, 24-34-4n, T&P Survey. McRae No. 1 Landers, 14 miles east of Lamesa, projected to 9,468 feet in sandy lime and shale. Location is 1,984.7 feet from north and 2,348 feet from east lines, Labor 4, League 280, Hutchinson CSL Survey. Seaboard No. 1 Miers deepened to 7,147 feet in lime. The Mungerville Southeast venture is 660 feet from south and west lines, Labor 19, League 3, Taylor CSL Survey. It is one location northeast of the Seaboard No. 1-A Weaver, field discovery. Seaboard No. 5-UT L. I. Dean will be located in the Spraberry West Deep field about half a mile

south of Midland. Location is 2,193 feet from south and 1,333 feet from west lines, 29-34-5n, T&P Survey, on a 213-acre tract. Drilling depth will be 8,000 feet.

Howard Ashmun-Hilliard-US Smelting No. 1 Grantham drilled through sand and shale at 7,516 feet today. It is a 9,500-foot wildcat 13 1/2 miles northwest of Big Spring. Drillsite is 1,937 feet from south and 660 feet from east lines, 8-33-2n, T&P Survey. Continental No. 21-A Settles, in the Howard-Glasscock field, completed from a second zone, bringing 336 barrels of oil and no water on a potential test. The pay was from San Andres perforations between 2,520-47 feet. It completed originally from a deeper zone in September of 1954. Total depth is 3,065 feet, and it was plugged back to 2,365 feet. Top of the San Andres pay zone is 2,232 feet. Gravity of the oil is 30 degrees, and before testing operator treated with 1,000 gallons fracture fluid. Well-site is five miles south of Forsan, 2,310 feet from north and 990 feet from west lines, 135-29, W&NW Survey. Also in the Howard-Glasscock, Humble No. 19 Clay pumped 189.90 barrels of oil, and five per cent water, in 24 hours. Gravity is 27.2 degrees. Perforation interval is 2,380-480 feet, and pay is reached at 2,380 feet; the hole bottoms at 2,510 feet. The venture is nine miles south of Big Spring, 2,310 feet from south and 330 feet from west lines, 138-29, W&NW Survey.

Martin

BBM No. 1 Cowden is building tanks today. It is a wildcat finding production in the Strawn 8 1/2 x 8 1/2 and a half miles northwest of Midland. Drillsite is C NE SE, 31-40-1n, T&P Survey.

HOSPITAL NOTES

BIG SPRING HOSPITAL
Admissions—Ernest Byrd Sr., 619 NW 4th; Marvin Trolinger, Midland; W. L. Eggleston, 603 E. 16th; Lucille Chambers, New Orleans; George Rojo, 510 N. Johnson; V. A. Key, 201 NE 10th.
Dismissals—Ramona Hernandez, Rt. 1; Mrs. Jewell Calley, Pecos; Inez Barrera, 508 NW 8th; Mrs. B. W. Dennis, 503 Nolan; Sammy Seale, El Paso; Armand Schneider, 1206 E. 17th; Leonard Coleman, Star Rt., Ackerly.

Trash Cans Stolen

Late report of Halloween pranks included trash cans taken. Carl Strom reported four trash cans were stolen from behind the Permian Building sometime Wednesday night.

Chess Players Organize, Start 'Round Robin'

Swiftly and unanimously, before you could say gambit, the Howard County Chess Association was formed Thursday evening. This was the initial meeting of the chess players, held at the Servicemen's Center. Besides adopting a constitution and electing officers, the association launched a tournament. Orland W. Johnson was elected president; Charles Cain Sr., vice president and chairman of rules and promotion; and Grover Cunningham Jr., secretary. Players may meet at the Servicemen's Center on East Second, from 5 p.m. to 10:30 p.m. any Thursday, or at the Service Club at Webb AFB any day except Tuesday.

The entire business session lasted only 45 minutes with S-Sgt. D. W. Dain serving as temporary secretary and Charles Cain as temporary chairman. A vote of thanks was extended to Mrs. Lois O'Barr Smith for use of the Servicemen's Center. Chess veterans and beginners came from Webb AFB, Big Spring, and Knott included housewives, teachers, students, a lawyer, farmer, plumber, librarian, store clerk, Scout leader, welder, writer, and airman.

Undeclared after two or more games are Roger Tate of Knott with three victories, and A. H. Tate of Knott, Cunningham, Edward R. Moren, and C. E. Sturdevant with two each. Some experienced players, busy instructing beginners, have not yet completed. Beginners may enter the round robin tournament, allow for the factor of improvement in play, tournament standings at any time will be based on only the two most recently completed rounds.

CRMWD Gets Top Priority

Top priority has been given by the State Mapping Committee to a request of the Colorado River Municipal Water District for topographical surveys. These would cover the lower part of Mitchell County and parts of Coke and Sterling Counties. Armed with this priority, E. V. Spence, general manager of the Colorado River Municipal Water District, will request final approval of the United States Geological Survey, which would conduct the topographic survey. It is possible that he may go Washington, D. C., within a week to lay the request before Gerald Fitzgerald, chief topographic engineer for the USGS. The CRMWD is seeking the map work during this winter as a basis for studies of a new potential basin site on the Colorado River in southern Mitchell County. Initial studies have indicated possibilities of a lake which would be at least half again as large as Lake J. B. Thomas, the big reservoir of the CRMWD.

Truck Mishap Injures Rider

George Rojo, 510 N. Johnson, is recuperating from painful bruises and cuts sustained at 9:30 p.m. Thursday when a pickup truck in which he was riding turned over and, according to investigating officers, ran over him. Rojo is in Big Spring Hospital. Deputy Fred Taylor investigating officer, said that Rojo was passenger in a pickup owned by Jack Bennett and driven by Tommy Davidson, 17. Taylor said the truck left the Snyder Highway near Charlie's Liquor Store, plowed into the roadside ditch and turned over. The truck was extensively damaged.

Election Supplies Being Distributed For Tuesday Vote

Judges for the 16 voting boxes in Howard County were notified today by Pauline Petty, county clerk, that the election supplies for the Nov. 6 voting are ready for them. The judges are asked to pick up the ballot boxes, tabulation sheets and other election material today, or by noon Saturday. Deadline for absentee voting expires at 5 p.m. Friday. A total of 379 absentee ballots had been cast at 10 a.m. Friday. It was believed that 400 or more absentee ballots would have been polled by close of business today. Voting is also under way for the special election on Nov. 13. Twenty-one absentee ballots for this second voting have been cast at the clerk's office.

CARD OF THANKS

We want to express our thanks to all the friends and neighbors for the lovely flowers, delicious food and sympathetic understanding during the illness and passing of our loved one, Mrs. Zeb Morris. Thanks again and may each of you be blessed—as we have at moments like this. Zeb Morris. Mr. and Mrs. Melvin Morris and Family. Mr. and Mrs. Lonnie Morris and Family. Mrs. Carrie Kincaid and Family. Mr. and Mrs. T. F. Reeves and Daughter. Mr. and Mrs. Singletary and Daughter.

ALMOST RIGHT, BUT NOT QUITE

The make and model were the same, the color was identical, but the ownership was different, a resident found out this morning. Louis Jones, 806 San Antonio went to a brown 1956 Ford parked outside the Dog House, W. 3rd, Thursday night and drove the vehicle home. Shortly afterwards, M. F. Beardson called the police department and reported his brown 1956 Ford stolen. He said the vehicle was parked outside the Dog House. The matter was solved this morning, when Jones returned the car. He said he took a car which he thought was his only to learn it wasn't after a closer check. It belonged to Beardson.

Airman's Clothing Stolen Wednesday, Recovered Today

An assortment of clothing stolen from a Webb officer here Wednesday was recovered this morning, with the exception of one item. Over \$250 in civilian and military clothing were taken from a car belonging to Lt. William M. Cline, of 1594A Virginia and Webb AFB Wednesday night. Cline's 1956 Pontiac was parked at Third and Main. Taken were a tweed overcoat, a flannel suit coat, a wool sport coat, a summer dress uniform, two khaki uniforms, two AF jackets, an AF raincoat, and a light weight jacket. All but the overcoat were recovered this morning by Edward Bignam, 1704 Johnson.

Plans On VA Project

Specifications and drawings for installation of a "flame failure protection control" at the Big Spring VA Hospital are on display at the Chamber of Commerce. Bids on the project will be accepted by the VA until Dec. 4.

Sessing Baby's Rites Pending

Funeral arrangements are pending at Nalley-Pickle Funeral Home for Dewayne Herman Sessing, 7 1/2-month-old son of Mr. and Mrs. Frank Sessing of Big Spring. The child died in a hospital here last night. He was born March 15, 1956, in Carlsbad, N. M. Survivors include the parents, one sister, Melinda Dale; two half-brothers, Jerry and Herbert Fite; one half-sister, Linda Fite, the grandparents, Mr. and Mrs. H. H. Sessing of Carlsbad and Mr. and Mrs. H. M. Doughty of Muenster; and three great-grandmothers, Mrs. Charles Doughty of Muenster, Mrs. Emma Sessing of Baldwin Park, Calif., and Mrs. E. G. Dean of Bonanza, Ark.

WEATHER

North Central Texas — Fair and cooler today and tonight; lowest 35-40; Saturday fair and cool. West Texas — Fair and cooler today and tonight; lowest 25-33 Panhandle and upper South Plains and 23-45 elsewhere tonight; Saturday fair and cool.

5-DAY FORECAST

West Texas: Temperatures near or slightly below normal. Normal minimum 39-45 north and 48-55 south. Normal maximum 62-74. Cool through Sunday with slow rising trend Monday and Tuesday. Little or no precipitation.

On Sinai Peninsula

Israeli troops advance up a barren hill in drive across Egypt's Sinai Peninsula toward Suez Canal. This photo was released in Tel Aviv by an Israeli Army source which did not indicate when or where it was taken. An Israeli Army spokesman in Jerusalem said the forces in the Sinai theater had enlarged their field of action.

White House Denies Backing End To Tests

WASHINGTON (AP) — The White House says it isn't so that President Eisenhower once backed the idea of ending tests of big hydrogen weapons. Four Democratic senators had asked.

Eisenhower "has never changed from the judgment," press secretary James C. Hagerty said yesterday, that along with any agreement to end use of testing of nuclear weapons "there must be proper safeguards."

He was replying to a telegram from Senators Anderson (D-NM), Maroney (D-Ola), Fulbright (D-Ark) and Mansfield (D-Mont). And indirectly he was replying to Adlai E. Stevenson, who a week ago in Albuquerque, N. M., referred to newspaper reports which he said related that Eisenhower administration officials had favored halting bomb tests until Stevenson made a similar proposal.

Stevenson, the Democratic presidential nominee, has urged repeatedly that this country take the lead in seeking agreement to halt major H-bomb tests. Eisenhower has said this isn't safe without some system of inspection to insure compliance with such an agreement.

The four senators, in their telegram, asked Eisenhower whether some White House advisers had not recommended steps to halt testing of the big weapons, and whether Eisenhower hadn't agreed with the idea and ordered studies to follow it up.

Hagerty, who earlier had said the senators had "wrong information," said Eisenhower has "urgently sought" an international agreement to end the manufacture, use and testing of atomic weapons but "has never changed" his stand that safeguards are necessary.

Experts Disagree On Effects Of Mid-East Crisis On Voting

WASHINGTON (AP) — Republican and Democratic strategists disagreed today about the probable impact of the flaming Middle Eastern crisis on next Tuesday's presidential election.

Democrats contended the fighting in Egypt had tarnished the "peace" issue on which the Republicans have leaned heavily. They said events had added weight to Adlai E. Stevenson's contentions that President Eisenhower's Middle Eastern policies have led to "catastrophic failure."

Republicans countered that the gravity of the situation will turn previously undecided voters to Eisenhower as a man equipped by his military and White House experience to deal with the crisis. They pointed to Eisenhower's promise that "there will be no

United States involvement in these present hostilities" as shoring up their claim that Eisenhower represents the best hope for peace.

Nevertheless, there was some evident uneasiness within the GOP camp as to the effect on the Jewish vote of the Eisenhower administration's resolution in the United Nations Security Council. An intensive telephone poll by the Republican National Committee was said to have indicated Eisenhower generally has maintained or picked up strength. At the same time, however,

there were reports of some loss of strength for the Republican ticket — at least for some senatorial candidates — among Jewish voters in the larger cities.

One of Stevenson's strategists predicted this vote will make itself felt against Eisenhower in New York City, Chicago, Los Angeles, Philadelphia, Boston, Miami, Detroit and in New Jersey's urban areas.

On the other hand, he said that Eisenhower's protests against the British and French attacks on Egypt may have gained some votes for the GOP in Midwestern sections where there has been opposition to economic and military aid to those countries.

Last Few Arrests Ones That Hurt

LOUISVILLE, Ky. (AP) — David Louis (Cockey) Bennett has been arrested 134 times since 1938, but it's the last few times that hurt, Bennett complained to the FBI. The 39-year-old unemployed laborer says Louisville police, who arrested him five times during the past week for loitering, violated his civil rights. The FBI said it would investigate.

Dirty Literature Said Getting Stale

CINCINNATI (AP) — H. Joseph Houlihan of Lexington, Ky., president of the American Booksellers Assn., says smut, obscenity and sex are not the easy road to fortune in fiction writing that they were for some years. Houlihan, speaking at a meeting of his association, said: "I think the demand for dirty literature is leveling off and, in fact, the public is showing some signs of revulsion against the stuff."

GOP Reports Ike Will Sweep Texas

By The Associated Press
Republicans were cheered Thursday by reports that President Eisenhower would carry 24 more counties in Texas than he did in 1952, but Democrats went right on trying to drum up votes and raise funds in Texas.

Gov. Allan Shivers, who will campaign for Eisenhower until election time, spoke in Abilene and Lubbock. If Texas should go for Eisenhower, as it did in 1952, the governor said, it would be "our contribution to the stability, the safety and the preservation of this country."

In Abilene he said, "No electoral votes for anti-H-bomb Adlai. No electoral votes for anti-Texas-lands-one-world coonsin Kefauver."

He spoke about Stevenson's proposal to end the testing of H-bombs in Lubbock. Shivers said: "We don't have time to listen to Adlai Stevenson's prattle about stopping the draft and slowing down the H-bomb development. But we do have time to get down on our knees and thank God that we have Dwight David Eisenhower as our President."

Democratic Senator Clinton Anderson, New Mexico, cancelled his scheduled talk in Waco Thursday night. He blamed bad weather.

In Wichita Falls, Sen. Albert Gore (D-Tenn) told a crowd at a \$10 a plate fund raising dinner that for "lack of virile and aggressive leadership," the United States has what he called a "fall-behind administration."

He said the United States is falling behind in world prestige, air power, atomic power, inter-continental ballistic missiles, development of natural resources and social progress at home.

Gore was introduced by Sen. Lyndon Johnson who called Gore a "leader in the field of atomic energy and a qualified expert in that ever-expanding field."

Also at the dinner was House Speaker Sam Rayburn who hit at what he called the "little or no gratitude" of what he called the "oil business in Texas." Rayburn said oil money was being used to defeat Democrats.

Gore spoke of the dangers of radiation from the H-bomb. He said that "when taken internally the harmful effect of radiation is multiplied many times." Gore said that "once in the system it stays in for 30 years."

Rep. Jim Wright of Weatherford Thursday told 300 East Texas Democrats in Tyler that "Texas is a Democratic state because that is the party that is sympathetic to its needs."

Adlai Stevenson's proposals on

nuclear tests, Wright said, has been the most misrepresented and misunderstood issue of the campaign.

"It was never suggested that the United States stop production, stockpiling, research and testing of the smaller nuclear weapons," he said.

"The suggestion was that the world should come to its senses and stop exploding giant hydrogen bombs which pour radiation into the stratosphere that later sifts down to earth."

An Eisenhower rally in Edna was told by Mrs. Ovetta Culp Hobby by that the security of this nation and the peace of the world may well depend on the re-election of Eisenhower.

She said, "The world cannot yet know where the Middle East crisis may take us. But for the United States it means that the selection of a tested and experienced president takes on even more importance."

Mrs. Hobby is publisher of the Houston Post and a former member of the President's Cabinet.

"This is not the time to experiment in leadership. This is the time to use the best we have—the best in experience, the best in leadership and the best in courage," she said.

Former Texas Governor Coke R. Stevenson said that Eisenhower stands for individual liberties and local rights and that is what I stand for. The other candidate, Adlai Stevenson, apparently doesn't."

Three former attorneys general of Texas endorsed the Stevenson-Kefauver ticket. They were Gerald C. Mann of Dallas, Robert Lee Bobbitt of San Antonio and Grover Sellers of Sulphur Springs. They urged a return of Democratic party leadership in Washington as being in the best interests of Texas and the nation.

Democrats for Eisenhower headquarters said that its check of campaign managers in 84 counties showed that 45 counties were for Eisenhower, 15 for Stevenson, 24 close with Eisenhower "gaining rapidly." All the counties were in rural areas.

Democrats were also claiming victory.

State Eisenhower-Nixon campaign Manager Paul C. Ledrick predicted that Eisenhower's statewide majority would be larger than in 1952. In that year Eisenhower led in 141 Texas counties while Stevenson led in 113.

Leading the swing to Eisenhower Ledrick said are:

Jefferson (Beaumont-Port Ar-

thur), McLennan (Waco) and Galveston.

Also expected to switch from Stevenson, Ledrick said, were: Andrews, Angelina, Bell, Bowie, Brazoria, Burnet, Cherokee, Coke, Coryell, Garza, Houston, Howard, Irion, Jim Wells, Lamar, Newton, Nueces, Orange, Sabine, Webb, Zapata, Armstrong, Atascosa, Bosque, Briscoe, Callahan, Karnes, Liberty and Loving.

Doubtful: Calhoun, Frio, Medina and Val Verde among former Ike counties and Maverick and Duval among Stevenson counties.

Reports from a majority of the state's 254 counties show Stevenson is best helped by farmer unrest growing out of the continuing drought.

A Big Spring team that has already won two more games than some observers thought it would try to improve on that record in an 8 o'clock engagement with Odessa this tonight.

execute its battle plan without the help of Ed Norman, fullback; James Ratliff, left halfback; and Fred Gibson, guard.

Billy Johnson will again run the Big Spring show and will probably take to the air a lot, seeking out such receivers as Jan Loudermilk, Bobby Suggs and Edward Staley.

Coaches Roy Baird and Harold Bentley have been doing a lot of experimenting in practice this week, switching boys from one position to another.

The moves were forced on them by the rash of injuries and illness that has struck the local camp.

End Rickey Terry, one of the de-

fensive stars all year, will be used sparingly, if at all, due to a shoulder separation. Edward Staley is ready to go in his place.

Odessa has been showing steady improvement week by week, although it has only a 3-4 won-lost record. Last week, the Hosses outplayed San Angelo, one of the state's top-rated teams, although losing, 13-6.

Hayden Fry, former athletic hero at Odessa High and later at Baylor, is in his first year as head coach at Odessa.

The game will be the eighth of the year for Big Spring and its close-to-last one on the road. They close out against San Angelo there Nov. 16.

Manager
One of the managers of the Big Spring High School football team is able Calvin Bourdosky (above), who has served in that capacity the past two years. It is Calvin's job to look after the equipment of the gridgers.

Two New World Records Set By Olympic Team

By BOB MYERS
LOS ANGELES (AP)—Two new world records were pointed to today, and the selections committee of Uncle Sam's powerful Olympic Games track and field team breathed easier after solving a few problems in athletic personnel.

Head coach Jim Kelly was happy after watching his athletes in their final tuneup on home soil before heading for the games in Australia next week.

The outstanding performances yesterday:

A shot put—63 feet 2 inches—by the world king of the event, Parry O'Brien. This shattered his

official record of 60 feet 10 inches.

A mile relay by Charley Jenkins, Lon Spurrier, Tom Courtney and Lou Jones that cracked the existing world mark, and the time of the second-place team which also eclipsed the record.

The winning time was 3:07.3. The second team of Arnie Sowell, Josh Culbreath, Glenn Davis and Eddie Southern did it in 3:08.1. The existing record is 3:08.8, set in 1952 in London by Gene Cole, J. W. Mashburn, Reggie Peerman and Mal Whitfield.

Jim Graham, Oklahoma A&M pole vaulter, relieved the selection committee of a ticklish problem when he voluntarily withdrew from the team, to be replaced by Bob Gutowski of Occidental, the alternate.

Graham has been troubled by an ankle injury. Kelly called his action "one of the finest demonstrations of sportsmanship in his memory."

Kelly announced the javelin lineup will remain unchanged with Cy Young, 1952 Olympic champion, Phil Conley and Ben Garcia the entries.

This means that the Rev. Franklin 'Bud' Held, the world record-holder who has been out-throwing all others this fall, but who failed to make the grade in the final trials last June is out in the cold. Kelly termed this regrettable but unavoidable.

Big Turnout Due For Knott Game

KNOTT (SC)—Perhaps the biggest crowd of the season will be on hand tonight for the Homecoming football game between Knott and Ackery, although both teams are down on their luck.

Knott has yet to win a game this season and will enter the game not in the best of physical condition. However, as long as Woody Long is in there throwing the ball for the Billies, Knott remains a threat.

Tabbies Point For Rebels

ABILENE (SC)—After snapping a three-game losing streak, the Abilene Christian College Wildcats hope to move above the 500 mark Saturday when they invade Hattiesburg, Miss. for a game against potent Mississippi Southern.

The Wildcats leave by chartered plane Friday morning and will return Saturday night immediately after the contest. Coach N. L. Nichols plans to take 28 players on the trip. A few of them will leave by regular commercial flight on Thursday.

The Wildcats will be seeking their first victory in the series against the Southerners, who have won both contests between the two teams. Last year's game went to the Mississippi crew, 40-0.

ACC bounced back last week after dropping games to Texas Western, Trinity and Chattanooga in a swamp Southwest Texas State, 26-0.

Coach Nicholson was pleased that his offense continued to be effective. It had gone sour since the opening victories over McMurry and East Texas State. "I think the balance we had is encouraging," Nicholson said. "Both halfbacks ran well and our fullback was picking up yards, too."

Contact work was slated the first three days this week. Nicholson said he will concentrate on improving the over-all team defense, especially his second unit. He added that the first unit needs some defensive improvement, too.

Offensively, Nicholson will concentrate on polishing plays. Saturday's victory enabled the Wildcats to beef up their statistics. Left Half Eddie Campbell continued his brilliant play by adding another 115 yards on 15 tries for a total of 473 yards in 70 carries. That total also makes him tops in the offense.

Aggies, TCU, SMU And Rice Favored By Writer

By HAROLD V. RATLIFF
Associated Press Sports Editor
Texas A&M hopes to take another solid step in the direction of the Southwest Conference football championship Saturday when the Aggies meet Arkansas.

This one is particularly significant for Texas A&M because of what happened last year. The Razorbacks tied the Aggies in a grueling struggle and A&M couldn't recover the lost ground. A loss to Texas ruined A&M's dreams of a title.

The Aggies are favored to win, as they were last season.

Dogies Clash With Lamesa

The Big Spring High School B football team will go all out to try and win its first game of the season in a 7:30 p.m. clash with the Lamesa reserves here Saturday night.

Terry Stanley, who hasn't played since Oct. 18, have their work cut out for them, however, since Billy Bob Satterwhite, regular quarterback, probably won't play due to a slight brain concussion. He was hospitalized but is due to be released today.

Terry Stanley and Bill French will probably direct the team in his absence.

Lamesa won the last game between the two teams, 6-0.

Lamesa Trims Locals, 19-6

LAMESA (SC)—The Lamesa Whirlwinds counted touchdowns in the first, third and fourth periods to defeat the Big Spring Ninth Graders, 19-6, here Thursday night and avenge an early season trouncing suffered at the hands of the Yearlings.

Big Spring counted its lone tally in the third following a 50-yard run by Freddy Brown J. B. Davis legged it across from the 30.

Davis fumbled on Lamesa's ten as Big Spring was driving for another score.

In all, the Yearlings fumbled six times, including two punts that hurt them dearly.

Bristow and Donnie Everett both looked to advantage at quarterback for Big Spring. Roy Deel glinted in the Big Spring line.

The Yearlings close out their home season next week, meeting a powerful Crockett of Odessa contingent a week from tomorrow night.

Steers After 2nd Win Over Odessa

Big Spring has beaten Odessa only once in their 11-game series, that time in 1939 by a score of 7-0. The two teams tied the following year.

The schools last met each other in football in 1950, at which time Odessa won, 64-0.

The series:

1939—Big Spring 7 Odessa 0
1940—Big Spring 0 Odessa 6
1941—Odessa 21 Big Spring 6
1942—Odessa 23 Big Spring 6
1943—Odessa 41 Big Spring 6
1944—Odessa 34 Big Spring 6
1945—Odessa 54 Big Spring 0
1946—Odessa 12 Big Spring 0
1947—Odessa 40 Big Spring 0

Crippled Bulldogs Try For Win Over Badgers

COAHOMA (SC)—The Coahoma Bulldogs, who have been experiencing their troubles of late, tackle a big assignment here tonight.

Dub Behrens' boys take on the Merkel Badgers, one of the most rugged Class A teams in Texas. Game time is 7:30 p.m.

The Bulldogs will be trying to scrap back after being upset by Roby last week.

Coahoma will be far below peak strength. Shorty Barr, who has been dividing time at the quarterback post with Mac Robinson, is in the hospital with a bruised kidney.

Bobby Myrick, an end, was stepped on in practice earlier this week and had to have six stitches taken in his hand.

Back Eddie Allen has been missing from practice more than a week, due to a siege of the flu. Others have assorted hurts.

7TH GRADE WINS Yearling Elevens Split Twin Bill

Big Spring teams gained a split in a football double header played with Lamesa representatives here Thursday night.

Dean Lee led the Seventh Grade Yearlings, coached by Jimmy Marcus and Hugh Hamm, to an impressive 20-12 victory over their Lamesa counterparts.

Lee, a speed merchant, scored all three touchdowns for the Seventh Graders on runs of 60, 50 and 30 yards. The locals again used the double reverse play with deadly effectiveness.

The half-time score favored Big Spring, 13-0, but the Lamesans fought back strong to count twice in the third period.

Jimmy Madry made both the extra points for Big Spring on runs.

Big Spring, which gave the Lamesans one TD on a fumble, was on the opposition's ten-yard line when the game ended.

The win was the second in a row for Big Spring over the Lamesans and their seventh of the season, against a lone setback.

Center John Porter, guard Ernie Samples, tackle Ken Moeling, linebacker Gene Hartin, Lee and Madry were standouts for the Yearlings.

The Big Spring Eighth Graders played one of their better games against the Lamesa Warriors in the afterpiece but lost, 14-0.

Lamesa scored in the second period following a Yearling fumble on their own one-yard line. Gary Everett grabbing the ball and diving into the end zone. Richard Crump added the PAT on a run.

The Warriors tallied again in the fourth when the Yearlings again fumbled on their own 33 and Lamesa drove across the double stripes.

Marcel Dorothy bruised through from the six and Crump again converted.

Big Spring had its best drive blunted in the third when a Lamesa lineman grabbed the ball from a Big Spring back's hands on the Big Spring 35 and ran all the way to the Yearling three before being overtaken by Carey King. The Warriors couldn't go over from that point, however.

Poor downfield blocking hurt the Yearlings on other occasions.

Newcomer George Madry, a big end, looked to good advantage defensively for Big Spring. King was the locals' leading offensive threat.

Elbow Teams Win Three Contests

ELBOW (SC)—Elbow school basketball team won three of four games from Gay Hill contingents here Thursday evening.

The Pee-wee boys, team prevailed, 18-6. The Pee-wee girls finished on the long end of a 12-2 score. The boys' A quintet triumphed, 23-17, while the girls' A squad lost, 35-28.

For the Pee-wee boys, it represented the fifth win without a loss.

Tonight, the Elbow teams play in Vealmoor.

Southern Methodist's 19-13 victory over Notre Dame in the 1956 marked SMU's second win in eight games with the Irish.

Those Versatile Sooners

Tommy McDonald, Oklahoma halfback, and Jim Harris, the quarterback, are two big reasons for the Sooners' Number One ranking in The Associated Press football poll. These two speedy backs can handle almost any job on the gridiron and these are some examples of their talent. Top strip shows McDonald at work as a runner, passer and pass receiver. In bottom strip Harris demonstrates his talents as a runner, passer and blocker. (AP Wirephoto).

LOOKING 'EM OVER

With Tommy Hart

Ollie Cordill, the former Big Spring and Rice Institute football star who stepped in here earlier in the week en route to a new assignment with the Air Force in California, grasped the opportunity to watch the Rice freshmen in a football game with the Texas frosh last week. Ollie was very impressed with the play of Jerry Graves, the Big Spring product who is playing center and linebacker for the Owlets. According to Cordill, Jerry was coming up with more than half the tackles. He thinks Graves is All-America timber, if Jerry can improve his speed a bit.

Ollie reasons Jerry will be playing regularly next year and is of the opinion that Rice will figure largely in the championship picture in 1957, with sophomores-to-be manning many of the positions up front.

Attendance at home football games of the Lubbock schoolboy football teams is about half of what it was five years ago, according to the Lubbock scribe, Charley Gillespie.

Big Spring is probably the first team this year to hold the Abilene Eagles scoreless for a half. The War Birds quit scoring in their game here last Friday night after the first 18 minutes of play.

Contrary to some reports, Abilene played its first string line most of the way against the Steers.

One of the bright spots in the Abilene-Big Spring game, as far as local observers are concerned, was the performance of Knox Pitzer, who found he could move one of Abilene's most highly-touted players just about anywhere and at any time he wanted to.

Young Pitzer, who is only a junior, should emerge as one of the state's finest guards before he's through.

The LSU football stadium in Baton Rouge seats 67,409 but only 19,921 of those are on the sidelines. That means the other 48,000 are located beyond the end zones.

Amarillo opens its third high school as early as 1958 and Odessa is planning to have in operation a third high school as early as 1960.

Bevo Francis, who accompanied the Harlem Globetrotters here last year, has quit the pro basketball game to spend more time with his wife and children at Wellsville, Ohio.

Francis is the fellow who set all those scoring records (some of which were clouded) for little Rio Grande College three or four years ago.

Harold Rosson, the former Big Spring High School and HCCJ cager, is now assigned with the Corps of Engineers of the U.S. Army in Yokohama, Japan, where he's coaching the company basketball team.

Joey Giardello, the Middleweight boxer who went to jail for a while for acting the tough guy, says Gene Fullmer will be easy for Ray Robinson to handle in their upcoming fight for the Middleweight championship.

"If he don't knock Gene out, he can coast the first ten rounds," says Joey.

Giardello also insists he could take either boy without a great deal of effort.

Forsan Buffaloes Clash With Sterling Tonight

FORSAN (SC) — The Forsan Buffaloes face their biggest challenge of the season here tonight, at which time they meet Diddle Young's powerful Sterling City Eagles. Kickoff time is 8 o'clock. The winner is almost sure to proceed to the District 8 six-man championship.

Sterling, on the strength of its undefeated record, is slightly favored. However, the Bisons might have played the tougher schedule. Sterling leans heavily upon such boys as Lynn Glass, Bill Young and Kelton Gaston.

Fat Brunton, who missed most of last week's game with Paint Creek due to an injury, will be ready to pace the Forsan offense.

Stanton Underdog In Game Tonight

STANTON (SC) — Stanton is the underdog in its District 6-A football game with Rotan here tonight. However, the Bisons are in better shape than they have been in recent weeks and may be ready to play their best game of the year.

Bearcats In Last Home Go Tonight

GARDEN CITY (SC) — Garden City plays its final home game of the 1956 season here tonight, tangling with strong Mertzon at 8 o'clock.

The Bearcats, who have broken even in two District 8 six-man starts, close out the season on the road with games against Forsan and Water Valley.

Brunton is one of the finest ball carriers six-man circles have had out this way in years. George White, Gary and Tony Starr, Edell Ratliff and Travis Schafer will also lend assistance in the Forsan attack. Forsan has defeated Flower Grove, Ackerly, Knott, Water Valley and Mertzon while losing to Norton and Paint Creek.

Miner Aerial Game Working

EL PASO (SC) — Texas Western is primarily a running team, but when the Miners connect on a pass, it usually pays big dividends. Coach Mike Brumbelow's team has passed only 66 times in six games, and have completed only 27 of those tries. But the Miners have gained an average of 22.6 yards per completion.

The Miner pass defense has been almost as efficient as the team's offense. Texas Western has held the opposition to 36 completions in 34 attempts, an average of 38 percent. Two opponents have averaged only 11.3 yards per completion, and Miner defenders have intercepted 12 passes.

Texas Western expects to need all the pass defense it can muster against The Hardin-Simmons Cowboys here Saturday night in a homecoming contest. The Cowboys are coached by a pass-master in Sammy Baugh, and have two good throwers in Ken Ford and Gene Saur.

Texas Western's pass defense will suffer by the absence of halfback Rusty Rutledge of Midland, who is sidelined with a leg injury. Rutledge will be replaced by freshman Truman Hobbs of Olney, a speedy little fellow who has been shifted from quarterback.

Rutledge is the only major Miner casualty this far. Starting right guard C. L. Chappel is expected to return after a week's layoff because of a leg injury, although he will not be at peak form, but the rest of the team is in fine condition.

Leahy Likes His Present Position

HOLLYWOOD (P) — Frank Leahy, who retired from coaching at Notre Dame several years ago, said today he doubted seriously that he would leave his present position to become coach or athletic director at the University of Texas.

Leahy acknowledged that some Texans had approached him regarding replacing Ed Price, who resigned Wednesday as coach, at Texas, or D. X. Bible, who retires next September as athletic director.

But, Leahy said, his work as vice president in the public relations department for a New York construction firm, and in television was very lucrative.

UT Regents Meet To Discuss Coach

By ED OVERHOLSER AUSTIN (P) — The University of Texas regents go into session today to begin solving the many-pronged problem of replacing Ed Price, who announced Wednesday his resignation as football coach at the end of this year, and Bible, athletic director, who devoted 75 years between them to athletics.

Whether one man would take over both jobs was just one of the many facts yet to be decided. Apparently there is now no one outstanding candidate.

This summer, Bible, 65, announced he would leave active duty and become athletic director emeritus effective Sept. 1, 1957. He has spent 50 years as athlete, coach and administrator, the last 20 as director of Texas' athletic program.

Price, 47, has spent 25 years in football at Texas, either as player or coach. Price's successor—whether he is Bible's successor or not—probably will be picked in time to allow him opportunity to get into the competitive recruiting work in Texas.

After deciding whether to consolidate the two positions, the board will then consider whether to go after a "big name" coach or to select an unheralded "comer" or young coach. Both views have support among the alumni.

Presumably, the salary limit would not be a barrier, especially if the jobs were combined. Price's salary is \$12,500 a year and Bible's also \$12,500. It was \$15,000 when he held both jobs. One top official said \$15,000 probably would be the limit for one man.

Claude Voyles, a regent, emphasized his personal opinion that "We would want a young man on his way up rather than an older man on his way down." Price's team has dropped five of six games this year, including both its Southwest Conference games. His overall mark is 33 wins, 23 losses and 1 tie and his SWC record of 20-11-1 is a better won-lost percentage than any of the other six coaches.

Former President Harry Truman, explaining why he opposed Adlai Stevenson for the Presidential nomination, said on Aug. 11, 1956: "... this convention must name a man who has the experience and the ability to act as President immediately upon assuming office, without risking a period of costly and dangerous trial and error."

We haven't always agreed with Mr. Truman. But this time he was right. The United States can't afford a trial-and-error President. What if Adlai's give-up-the-H-bomb scheme didn't work? Yes, Mr. Truman, that would be a "costly and dangerous" experiment. Ike's stability and experience are good enough for us, say Texas Democrats for Eisenhower, 412 Bolm Building, Austin.

(Pol. Adv.—Paid for by Texas Democrats for Eisenhower, Weldon Hart, Director)

Martin Marion May Return To Cards

ST. LOUIS (P) — Marty Marion has been out of a job only eight days, and already there's talk about him managing two other major league ball clubs.

The 38-year-old Marion was dropped as manager of the Chicago White Sox after piloting them to a third-place finish in the American League.

One rumor had it Marion and Al Lopez, manager of the second-place Cleveland Indians, were to swap jobs. Lopez was named manager of the White Sox.

Leo Durocher's name popped in-

to the Cleveland picture but he turned it down. Marion was back in front again.

The Globe-Democrat said today it learned from a reliable source Marion might come back to the St. Louis Cardinals, with Manager Fred Hutchinson moving over to Cleveland.

Turman TKO Winner

DALLAS (P) — Buddy Turman, Noonday, Tex., who has world's heavyweight championship ambitions, scored a technical knockout over Emil Brtko of Pittsburgh.

OU Favorite Over Bisons

By JACK HAND
The Associated Press

Oklahoma, Georgia Tech and Tennessee, the 1-2-3 of the nation's college football clubs, are expected to hold tight to their honors through another heavy football weekend.

The firing on the top 10 starts tonight, at Miami's Orange Bowl, where the University of Miami, ranked ninth, meets Florida State, Boston will be the scene of another Friday night contest involving Boston College and Villanova.

Oklahoma is supposed to bowl over Colorado for its 36th straight Saturday. It will be a fight for the lead in the Big Seven, but it will take a Colorado earthquake to derail the No. 1 team.

Georgia Tech invades Duke for a prime Southern game. Unbeaten Tech, with five in a row, is favored.

Tennessee's third-ranked Vols take on Coach Jim Tatum's North Carolina team at home, where they expect to roll to a sixth straight.

Michigan State (No. 4) hopes to make up for last week's upset by Illinois by thumping a Wisconsin team that has won only once.

The big game in the Western Conference finds unbeaten Iowa entertaining a Michigan club that could be on the rebound after its 20-7 loss to Minnesota. If Michigan wins, Ohio State can take over the conference lead by thumping Northwestern.

The Texas Aggies must whip Arkansas Saturday night to stay out front in the Southwest Conference if Southern Methodist does the expected by beating Texas.

Stanford can bolster its Rose Bowl situation by following last week's victory over Southern California with a convincing decision over UCLA.

"... I'll stick to straight Kentucky bourbon!"

OLD CHARTER

KENTUCKY'S FINEST STRAIGHT BOURBON

One straight Kentucky bourbon...made only one way ...distilled and bottled in the same Kentucky distillery

There's a very good reason why Old Charter has a mellow richness you can find in no other bourbon. This is a straight Kentucky bourbon—distilled and bottled in a single distillery in the heart of bourbon country. It makes a difference. For in Kentucky you'll find the men who are traditionally skilled in the art of making fine bourbon. There is no substitute for Kentucky skill . . . or for seven long years of aging in charred barrels of new white oak. But judge for yourself. Try Old Charter today.

KENTUCKY STRAIGHT BOURBON WHISKEY • 86 PROOF • 7 YEARS OLD • OLD CHARTER DISTILLERY COMPANY, LOUISVILLE, KENTUCKY

Tick-tock...the whiskey that didn't watch the clock...seven long years!

DISTRIBUTED THROUGHOUT TEXAS BY PENLAND DISTRIBUTORS, INC.

Storms Hit Western Areas

By The Associated Press

Stormy weather hit western sections of the country today, bringing a touch of winter, while most of the eastern half of the country had more Indian summer mildness.

It was around zero in some sections of Wyoming and Montana as cold air and snow hit the central Rockies.

The cold air extended into the Western Plains, with snow report-

ed in western Nebraska. Blowing snow cut visibility to near zero in some areas, and highway conditions were expected to be hazardous in eastern Colorado and parts of Nebraska and Kansas.

Eleven men were reported snowbound at an abandoned mine in the central Idaho wilderness area. Earlier most of an estimated several dozen hunters stranded in the region made their way out after the Forest Service opened a road. Plans were made to drop food and snowshoes to the stranded men and later to rescue them as storms continued along the East-by-a-plane.

More rain and some thunderstorm activity was reported in the Seaboard.

U. S. Railroads Set New Wage Pacts

CHICAGO (AP)—The National Railway Mediation Board announced today that the nation's railroads and 11 nonoperating unions, representing some 700,000 workers, have reached agreement on a long term wage contract.

The board said the new pacts calls for a first-year wage increase of 10 cents an hour effective yesterday, 7 cents an hour Nov. 7, 1957, and another 7 cents an hour Nov. 1, 1958.

The railroads agreed to apply an additional 2½-cent wage increase, or \$4.25 a month per employe, toward the cost of an employe dependents hospital, medical and surgical plan.

Negotiators said a cost-of-living escalator clause is provided. Pay rates will increase or decrease a cent an hour for each half-point change in the government's cost-of-living index. Adjustments will be made beginning May 1, 1957, and each six months thereafter.

Railroad representatives placed the first year cost of the agreement at \$30 million dollars when extended to cover both nonoperating and operating employes. The two subsequent 7 cent increases will each add 185 million, the representatives said.

Still in mediation are disputes affecting some 200,000 operating employes—the Brotherhood of Locomotive Firemen and Engineers, the Brother of Railroad Trainmen and the Switchmen's Union of North America.

There was no announcement as to how close the operating unions and the railroads are to a new contract.

The new agreement with the nonoperating unions established a moratorium until Nov. 1, 1959, on wage increases or decreases or other rules applicable to compensation.

Mid-East Eclipses All Political Issues

By The Associated Press

The Middle East crisis eclipsed all other issues today as the Democratic-Republican struggle for the presidency and control of Congress neared its climax.

President Eisenhower defended as "a path of honor" the course his administration is steering for the country in the situation growing out of the attack by forces of Britain, France and Israel on Egypt.

In his final major political speech of the campaign, he said in Philadelphia last night that "we cannot and we will not condone armed aggression."

Eisenhower, having pledged no military involvement by the United States to halt the Middle East warfare.

Adlai E. Stevenson, his Democratic opponent, said in a nationwide television-radio speech last night that the GOP administration failed to take a firm position in the Middle East, and that this helped bring on the present crisis which Stevenson said threatens the Western alliance against communism.

Stevenson said that "if the President had taken an insistent stand against the shipment of Communist arms to Egypt, I am convinced that the Communists would not have risked arming Egypt as they have."

Had the Eisenhower administration taken a firm stand in the Middle East, had it aided Israel with arms and territorial guarantees, we might, I believe, have been able to prevent the present outbreak of fighting. If this government had not alternately appeased and provoked Egypt, I do think we would command more confidence there and in the Arab world."

Stevenson spoke from a studio in Buffalo, N.Y. His speech was advertised as a reply to Eisenhower's countrywide radio-TV talk on the Middle East crisis the night before.

Later, addressing an applauding rally in Buffalo's Memorial Auditorium, Stevenson said, "America must now move boldly to end the war, to restore the Western Alliance and to seek a new basis for our future relations with the Soviet Union."

The Democratic standard bearer promised to enlarge on this same theme today in Cleveland and tonight in Detroit.

Eisenhower, speaking to the nation over radio and TV, made no direct mention of Stevenson. But there was no doubt the President was referring to his Democratic rival, among others, when he said he is "undisturbed by the strident voices of those few who seem to be seeking to turn world events to political profit."

And Eisenhower took a further swipe at Stevenson when he described as "a design of disaster" the Democratic candidate's proposals that (1) this country take the lead in seeking international agreement to end hydrogen bomb

'Rocky' Political Feud Breaks Out

PARIS, Ky. (AP)—A "rocky" political feud of who's for whom led to the arrest of an insurance salesman on a breach of peace charge.

Deputy sheriff Steve Bacon gave this account after arresting Frank Dalby:

Democrat farmer Alex Miller found the slogan "like '56" painted on two stones on his farm in mid-October. Miller then fixed up two other rocks with a slogan reading "Hoover '28-32."

Miller's Hoover signs were soon covered with paint. Miller said he got the license number of a car parked near the rocks, and police said the number turned out to be Dalby's.

The Democrat said Dalby promised to replace the Hoover signs but later refused. Meanwhile, the like signs were covered with paint, too.

GOVERNMENT STUDENTS STAGE DEMONSTRATION
Seats vacated as demonstrators flood auditorium aisles

Under-Age 'Voters' Show Wide Political Knowledge

By SAM BLACKBURN
Government classes of Big Spring High School, slightly under-age as voters but nevertheless politically minded to a degree which should make older citizens blush for shame, have nominated their candidates for president of the United States.

Through a strange coincidence, the candidates selected by the students represent Democratic and Republican points of view. Oddly still—the two selected are the same candidates that the national parties of this country have selected. Republican candidate is Dwight D. Eisenhower.

The Democratic standard bearer is Adlai E. Stevenson.

They were noisily but unanimously selected at the "national" party conventions of the two major political parties Thursday afternoon. The Democrats conducted their convention an hour earlier than did their opponents but the sessions were held in the same meeting place—namely, the auditorium of the Big Spring High School.

Delegates from the several government classes elected by their classmates on the base of their political leanings, represented the groups at the convention. From a purely mechanics standpoint, the capsule sized conventions were

identical with their real counterparts conducted in Chicago and San Francisco earlier this summer.

The conventions will be followed next Tuesday by an election. The students of the high school will cast their votes for president and vice president—their choice to be determined along party lines. While their parents are marching to the actual voting places to ballot for the same candidates, the youngsters in the high school will be sticking their own ballots into boxes. And when the actual vote of the general election is tabulated, the students will be tabulating their own ballots.

Whether the majority of the students in the school are affiliated with one party or not is a difficult question. The Democratic convention was obviously democratic. Still the Republican session which followed was equally bent toward the principles of the Grand Old Party.

The adults could learn a few things, probably, from these youngsters. There was a better spirit of sportsmanship, a finer display of parliamentary behavior and a spirit of true enthusiasm at the high school conventions which was strangely lacking in the national conventions.

With the exception of the two

"nominating" speeches, the whole operation of both conventions was student managed, student directed and student manned. Frank Hardesty, chairman of the county Democratic committee, spoke as "nominator" for his party. Raymond Tollett, industrialist and leader in Republican politics, suggested the name of Mr. Eisenhower to the Republican gathering.

It may not be fair to these gentlemen to say so—but it was the consensus of other adult non-participants who were present at the conventions—that seconding speeches by students for the two candidates were more convincing, more oratorical and fraught with logic and brighter enthusiasm than were the addresses of the principals.

There were hectic and rather violent demonstrations at the conclusion of the roll calls—just as in the bigtime conventions. Banners flapped high in air; there were yells and cheers, snake dances around the hall and all of the other fanfare which is a traditional feature of the national conventions.

There was one major difference in the miniature convention rallies over their big league counterparts. There were no paid workers to build up the din; yet the din was many times greater than the

largest number of possible participants.

This was achieved by that rare chemical compound—uninhibited and exuberant youth. It was noted that most of the delegates were well below middle age.

It was really a regrettable circumstance that groupings of the county could not have been present at the two conventions.

They would probably have learned more facts about the issues at stake in this campaign from these youngsters in two hours, than they have accumulated from the professional politicians they may have heard or the statements they may have read in newspapers or magazines.

Observation of one spectator (of the older age group, let it be said) summed up the fundamental conclusion about the experiment.

Said this unnamed commentator:

"I feel a lot better about the future. What I have watched here this afternoon gives me a new hope for tomorrow.

"If these kids are so well informed and so mentally alert as they obviously are—we need have no fear for the future. They can and will take care of the situation, no matter what it may be."

Youths Here Collect \$349 For CROP

Big Spring church youth collected \$349.13 for the Christian Rural Overseas Program in a "trick-or-treat" drive for the interdenominational agency Halloween, Barton Grooms, treasurer, reported today.

The youngsters, representing the Big Spring Interdenominational Youth Committee, spread out over the city with Halloween pranks, requesting contributions for CROP. Each \$1 donation made possible the shipment of about \$20 worth of surplus foods to refugees and other needy persons overseas, Grooms said.

The proceeds will be turned over to CROP, which will use the money to send the foods overseas. The federal government is providing the surplus farm products free to approved voluntary agencies such as CROP.

Sixty Big Spring youngsters took part in the drive here. Jimmy Floyd of the Wesley Methodist Church secured the largest volume of gifts—\$40.26.

Grooms said that any other wishing to make contributions may mail their gifts to the Big Spring Interdenominational Youth Committee for CROP, Box 788, Big Spring.

Stewart, Hilliard To Attend Tax Institute

Merle J. Stewart and Neil G. Hilliard of Big Spring will attend the third annual Institute on Taxation, which will be held Nov. 12-14 by the Texas Society of Certified Public Accountants at the University of Houston.

More than 600 certified public accountants and other accountants, attorneys and business executives interested in tax matters are expected to attend.

Scouting Course Opens At HCJC

Lone Star District for the Buffalo Trail Council Boy Scouts opened classes Thursday at the Howard County Junior College.

Dr. W. A. Hunt, president of HCJC, is chairman for the council training program and will direct the classes. The course, described as the new basic training program, will continue through three successive Thursdays. Each session will be two hours.

SMITH SAYS

Community Development Aids Industrial Growth

Modern industrialists, when they set out to find a new location for their plant or when they seek a site for some expansion of their operations, look much deeper into the communities they visit than most folk would think, Red Smith, Big Spring's newly appointed Chamber of Commerce manager, told the Big Spring Kiwanians Thursday noon.

Industrialists know that happy workers do better work and when a new location is under consideration, the towns on the list are studied with an eye to the recreational facilities they may provide, the kind of housing accommodations that are available, the churches which serve the community. They investigate the schools, the cost of living and many other factors before they make their choice.

A town must have industry, Smith said, in order to have a bal-

Postal Revenues Show Big Increase

Postal receipts in Big Spring post office for the first 10 months of 1956 are \$31,271.08 ahead of the receipts for the same period in 1955, E. C. Boatler, postmaster, announced today.

October receipts this year were nearly \$6,000 greater than receipts for the same month last year. The figure for October 1956 is \$24,127.26. A year ago, the month reported \$18,714.48.

Total business for the first 10 months of the current year now stands at \$222,043.60. This compares with \$190,772.52 for the same period in 1955.

Total for the entire year 1955, which includes the always heavy business of November and December, was \$246,827.86. That year's receipts were \$12,000 higher than the total for 1954.

Postal officials believe that by the end of November with 11 months of 1956 included, the receipts will be larger than for the entire 12 months of 1955.

A steady increase from year to year in postal receipts has prevailed for the past 10 years.

Box Supper Set At Lamesa School

LAMESA — Four faculty members of Lamesa Junior High School will auction off the boxes at the Junior High box supper at 6:15 p.m. Monday at the junior high cafeteria, according to G. L. Trice, principal.

Trice, Vic Bearden, Jake McFarlin and Don Rowland will act as auctioneers. All junior high mothers and their daughters are urged to bring boxes, while dads and boys in junior high are to bring their billfolds, said Trice. The box supper is replacing the Halloween carnival at junior high this year, said Trice.

A Bible Thought For Today

If ye walk in my statutes, and keep my commandments, and do them; Then I will give you rain in due season, and the land shall yield her increase, and the trees of the field shall yield their fruit. (Leviticus:3-4)

Editorial

'Yes' To Amendment No. 7

Texas is the only state in the nation which still has an archaic law operative which requires that all persons committed to a mental institution be tried by a jury—and found guilty of being insane.

Texas has an opportunity next Tuesday to be rid of this outmoded statute. Amendment No. 7 would pave the way to accomplishment of this objective and still retain the elemental safeguards intended under present law.

Philosophy of the jury trial law in committing cases is to prevent anyone from being railroaded into a mental institution so they would be out of sight or so greedy hands could be fixed on their estates. Under the proposed amendment, we would be done with this unless the patient (defendant) or some relative wanted a jury. Otherwise, patients could be committed to a mental hospital after hearing of competent medical and psychiatric testimony.

The proposed amendment will provide competent medical authorities where no adequate provision is now made. It will be a means of ridding ourselves of the spectacle of sensitive people being tried by a panel of individuals whose chief qualifications are unemployment and a proclivity for resting in or near the courthouse.

We believe that a "yes" vote is in order for amendment No. 7. The Texas Research League, after a study which filled some 14 volumes, recommended the sense of this amendment of getting rid of an archaic law. The State Mental Hospital Development Association is pressing for passage of amendment No. 7; so are the Texas Jaycees, the Texas Council of Churches, the Texas Mental Hygiene Association and a host of other organizations close to the scene. Such unanimity must be an indication that the amendment is needed urgently.

Explosiveness Like A Hellbomb

Suddenly the world seemed to come apart at the seams, as though one of those hellbombs they've been arguing over had let go.

But these troubles had been brewing for a long time. For 10 years the Russians had dominated, browbeaten, enslaved, murdered and reduced to a condition little better than savagery tens of millions of people, people who had known freedom, self-respect and the ordinary decencies of life.

Whether Russia thought she could ease their irons a little bit without touching off explosive forces they had almost, in their arrogance, forgotten existed, is not presently known. But those internal pressures had been building up and building up for years against the local stooges who had acted as wardens and taskmasters for the Russian conquerors, and at the slightest sign of wavering the downtrodden millions rose.

Where it will end, what the outcome will be, no man living is smart enough to figure out; but this much is certain—men who have spilled their own blood in behalf of freedom and decency can never again be wholly mastered, or overawed, or made to submit as long as there is life in them.

As for the Middle East explosion, it has been cooking on for months, for years. The Middle East has been a powderkeg, awaiting only the ultimate match to blow it

to pieces. Perhaps, a firm hand on the part of the West, a prompt slapping down of upstarts like Nasser, a unity of purpose and action by the U. S., Great Britain and France, might have averted a showdown indefinitely.

But the West has been divided on details, on over-all aims, on approaches. This division in the West emboldened the explosive forces that had only been waiting for the psychological moment. It is an old story over again. The West was of two or three minds about Korea, leaving the Reds an opportunity to move in and make hay.

The West has been of three or four minds about the Middle East, and this lack of unity of purpose and action let the bars down.

There has been no meeting of minds in the West, and recent events have shown there has been little liaison among them, little agreement, little mutual understanding.

It is too early now to assess the blame for the ultimate blow-up; the big fact is that a world that seemed so hopeful of peace only a few weeks ago has suddenly come face to face with the stark fact that while men may cry peace, peace there is no peace.

The fat's in the fire. Only a merciful and compassionate God can avert unmitigated disaster.

Walter Lippmann

The End Of The Post-War World

The latest news available as this is written is that the Nagy government has offered the rebels immediate withdrawal of Soviet forces from Budapest, this to be followed by negotiations for their withdrawal from all of Hungary. This would mean that the Nagy government would remain for the time being at least, presumably until the free elections which have been promised.

This is a measure of how far things have gone. In substance it amounts to an offer to the Hungarian nation to settle temporarily on an advance form of Titoism—no Russian troops but not an anti-Russian foreign policy, free elections at home but with a popular front government led by national Communists. Things have gone so far in Eastern Europe that the Soviet government will now be lucky if it can settle for Titoism in the satellite empire.

The Soviet chances of doing this look better in Poland than in Hungary. For in Poland the national Communists led by Gomulka took the initiative in the national movement to throw off the Russian domination. They seemed, to be leading the movement and controlling it. In Hungary, on the other hand, Nagy did not lead the rebellion, and instead of being, like Gomulka, the man who ordered the Russians to return to their barracks, he became the man who invited them to intervene. An internal peace under Nagy's government will therefore be precarious. For it was Nagy's request that the Russian troops have been shooting down Hungarians.

Our true interest, it seems to me, is that in the satellite orbit Titoism should prevail without external political or military interference, and that the national governments be assisted economically to develop in their own way. This is our true interest because with Titoism in Poland and, let us hope, in Czechoslovakia also, Eastern Europe cannot be used as a base for military aggression against Western Europe. The security of the West will be radically improved.

It is our true interest, also, to have Titoism among the satellites because, of the two possible alternatives it is incalculably dangerous. One alternative would be a Soviet decision to reimpose Stalinism. This would mean fearful bloodshed, and enormous danger of a European war into which we might well be sucked.

If our true interest is that Eastern Europe, and particularly the key country of Poland, should become independent, regain national liberty, but should not actually break irrevocably with the Soviet Union, then there are two main lines of policy which we should take. The one line is by diplomatic measures to convince the Russians that their security will not be threatened by an independent Poland. It may be that in this connection the discussion of a general European security pact ought to be renewed.

The other line of policy is to make available to Poland, not only from this country but from Western Europe as well, enough economic assistance to see Poland through the crisis of readjustment which lies ahead. Poland will be emerging from its status as a Soviet colony, and this will involve a difficult readjustment. We ought to give much thought not only to what economic aid will be needed but also to the question of how it will be given, whether by us directly or by some kind of international agency.

The break up of any order, even so obviously provisional an order as that of the post-war era, is bound to mean widespread disorder—as witness the disorders in Hungary, in Algeria, in Cyprus and in Palestine and in Singapore.

What we must do is to keep in mind, a good part of the time no doubt in the back of our minds, the central idea that an order of things is dissolving and that a new order to follow it is now waiting to be conceived, and then brought into being.

World Coming Apart For U.S., Russia

WASHINGTON (AP)—The familiar world is coming apart for both the United States and Russia. Russia had satellites it thought it could control. The United States had allies it thought it could lead.

In the explosions in Poland and Hungary, satellites broke away from the master; in the Middle East, allies broke from their leader. When the dust settles the world will not be the same.

New forces have been let loose. New arrangements will have to be made. Russia will distrust its allies. Both will have to re-examine their thinking.

What both underestimated was the force of nationalism and colonialism within its satellites. The United States the colonialism within its allies.

These recent explosions were

only the latest in a series of which the fuse was lit in World War II. It is only because the others happened a bit at a time that they may have seemed unrelated.

When the sheer exhaustion of World War II shook the hold of the big colonial powers—particularly Britain and France—on their possessions, the newly freed people in Asia, Africa and the Middle East set out eagerly on the road toward self-development.

Their new independence gave them not only a sense of life but a high sensitivity to anything which looked like pressure from their old colonial masters. If they harbored hate, it is understandable. They had been held down for centuries.

Meanwhile, Russia, which had owned nothing outside its borders, took advantage of World War II in the opposite direction: it be-

came the biggest colonial power of all by occupying and communizing the Eastern European countries and erecting an Iron Curtain around it.

The United States then took leadership of the free world in building a barricade against the Iron Curtain. It did so by economic and military help and alliances that stretched around the world.

Since 1948, when the Marshall Plan began, the United States has handed out almost 21½ billion dollars in economic help and over 14 billion in military aid. It put its greatest trust on its military alliance with West Europe, mainly Britain and France.

The first crack in behind the curtain came in 1948 when Yugoslavia, asserting its own nationalism, broke with Stalin although remaining Communist.

One year later the Reds took over China and remained independent of Russia. These examples gave new hope to the satellite peoples—whose nationalism never died. It remained only a hope under the tyranny of Stalin.

But his heirs, apparently conscious of the pressures building up in the satellites, suggested more independent thinking for all Communists, this meant relaxed controls. It lifted the lid. Having tasted again some of their ancient freedom, the Poles and Hungarians wanted more.

But his heirs, apparently conscious of the pressures building up in the satellites, suggested more independent thinking for all Communists, this meant relaxed controls. It lifted the lid. Having tasted again some of their ancient freedom, the Poles and Hungarians wanted more.

Glorifying The Wife

NEW YORK (AP)—What are you doing to glorify your wife?

European men often say American men foolishly spoil their ladies, and that husbands here virtually practice wife worship.

This talk infuriates American wives. Not because it's true—they only wish it were—but because it isn't. They feel that if any husbands are practicing wife worship in this country it must be a secret vice. They see no public signs of it.

The truth is the complaint the average wife makes most often about her husband is, "He's too inattentive. He takes me for granted, just as he does the furniture. Nobody in America really appreciates what it means to be a housewife—except another housewife."

"The trouble with a husband is that he thinks the courtship ends with the honeymoon," a veteran wife lamented. "After that your day is supposed to be made if you recognizes you and calls you by your first name at breakfast."

"Romance? A husband's idea of being romantic is to send his wife a get-well card on Valentine's Day."

Well, ladies, that may have been true before. But now husbands are getting more thoughtful. They're not only praising their haustraus in public. They're doing it in print—and paying for the privilege!

Last month in Miami, Harry Jobson surprised his wife on their anniversary with a 12-by-25-foot billboard poster. It showed him kneeling in humble adoration to a wonderful wife who has borne with me for 20 years."

Recently Mrs. Carl W. Trantam of Springfield, Mo., while scanning the classified ads of her newspaper, was startled to find there a public announcement, paid for by her husband, telling what a great gal she was.

The ad, quoting the Biblical proverb, "Whoso findeth a wife findeth a good thing," said:

"I am responsible for all debts and obligations of my wife, Mildred, both present and future, and am more than happy to be the provider for such a wife who married me 25 years ago today, who has borne me four happy children, all of whom are Christians, and she has manifested continuously such love, patience, understanding, helpfulness, that these have been the happiest years of my life."

But his heirs, apparently conscious of the pressures building up in the satellites, suggested more independent thinking for all Communists, this meant relaxed controls. It lifted the lid. Having tasted again some of their ancient freedom, the Poles and Hungarians wanted more.

But his heirs, apparently conscious of the pressures building up in the satellites, suggested more independent thinking for all Communists, this meant relaxed controls. It lifted the lid. Having tasted again some of their ancient freedom, the Poles and Hungarians wanted more.

Mr. Bregor

But his heirs, apparently conscious of the pressures building up in the satellites, suggested more independent thinking for all Communists, this meant relaxed controls. It lifted the lid. Having tasted again some of their ancient freedom, the Poles and Hungarians wanted more.

But his heirs, apparently conscious of the pressures building up in the satellites, suggested more independent thinking for all Communists, this meant relaxed controls. It lifted the lid. Having tasted again some of their ancient freedom, the Poles and Hungarians wanted more.

Around The Rim

Don't Blame The Comic Books

It looks like kids can't have any fun anymore. There seems to be some sort of plot to keep the tads from growing up, on the theory of "protecting" them from evil influences. There is, for example, an overflow of nabby pambly books for children, some "original," others re-written versions of older children's stories.

There is no blood and thunder in these books. They are "safe" for children. We have the word of some leading psychologists that these nabby pambly books are a safe substitute for such dangerous old favorites as Little Red Riding Hood. We have their solemn judgment that splitting open the big bad wolf who swallowed Grandma will give the poor darlings neuroses. Instead, the "safe" books don't let the wolf swallow Grandma at all, and the wolf isn't allowed to be killed.

Phooey.

These so-called psychologists are not in the majority in their field, but they have found a receptive market among "modern" parents and educators who assume they have become experts from reading a layman's book on psychology, forgetting all the hard lessons mankind has learned through the centuries.

Author John Meehan puts it this way: "When I was a tad we danced with glee when Hansel and Gretel roasted the old witch. Still, there wasn't one delinquent in the neighborhood who tried roasting his grandmother. . . we listened as parents read of Jack's ax work on the beanstalk—which resulted in the giant falling to his death—and there wasn't a dislocated psyche in the mob."

It used to be that a kid could simply enjoy a good story. But now, there's a moral in every paragraph. In the good old days there was often a moral to be seen at the end, but it was nearly always an intrinsic part of the situation as presented in the story. And they were deep and lasting morals, not the goody goody quasiethics kids get now. Such as minding Mama and brushing their teeth.

The idea is to avoid giving Junior a neurosis. What most people don't realize

is that we need neuroses. People develop either neuroses or psychoses, and it is the latter that makes them mean. So Junior fails to develop some mild neuroses—so now he's a psychotic character bent on murder and/or mayhem.

All learning is a form of neurosis. What psychiatrists usually mean by the term is a process of learning taken to an extreme. Fear of the dark is a bad neurosis when taken to an extreme, but our morals also are neuroses. Such as the mental block against murdering our fellow man. A psychotic person is one who has never developed those necessary neuroses, and so has no understanding of right and wrong.

There is a woman newspaper columnist of the new school who refers to spanking as "beating," never as "spanking," and goes slightly mad every time she writes on the subject. But it has been demonstrated in the laboratory that, a lesson learned painfully is a lesson learned well.

Blame for juvenile delinquency has been placed on the comic books. But we can't blame even the most horrid of those juvenile publications. Those children who blame comics for their own delinquency are merely using a convenient scapegoat. The generations who built this nation had even worse blood and thunder in their childhood stories, but they did not have a delinquency problem. The "new psychology" must share the blame.

The error is reflected in "modern" education which allows kids to climb the radiator pipe in the rear of the classroom, if they feel like it, and which concentrates on getting the students "co-operation" without physical punishment; it is reflected in the reluctance of parents at accepting the responsibility of teaching right from wrong (the hard way, if necessary.)

There's one bright ray of hope. So far, the moralists haven't succeeded in cutting all that good old blood and thunder from television. Our younger generation may be saved yet.

—BOB SMITH.

Who will ever forget the piteous, heart-rending pictures of Korean civilians—particularly the ragged, suffering, starving children—caught between the battle lines and fleeing Communist hordes in the bitter winters of the Korean War?

Well, to be honest, I'm afraid a lot of us have. But not Colonel Dean E. Hess, who was a small town Protestant minister in the Midwest before he became a fighter pilot in the Air Force. (He flew 50 missions over Europe in World War II and 250 missions over Korea.)

The hundreds of Korean orphans he helped succor during the dreadful winter of 1950-51 are still his charges, tugging at his conscience as much now as then.

He and his orphans had a brief moment on the front pages in that ding-dong winter of the war. Remember? We at home were stunned and proud when Colonel Hess organized "Operation Kiddie Car" that evacuated 1,051 helpless Korean orphans to safety on Cheju Island from Seoul, on which the Communists were once more advancing.

The colonel—he's still in the Air Force, Pentagon-side—was in New York the other day. A slight, youngish man with black hair and a thin, handsome face sparked by deep-set dark eyes, he was here in connection with two projects that he believes will raise \$50,000 for the orphanage he helped create.

That is the sum, minus taxes and agent's fees, he hopes to raise from the publication of his autobiography, "Battle Hymn," and a full length motion picture based on it and soon to be released by Hollywood. (Rock Hudson plays the colonel in the film.)

"All the proceeds from the book and the

picture will go to build a new home for the orphanage near Seoul," the colonel explained. "It has already been started. "One of the most terrible sights in Korea was the kids scrambling over GI garbage dumps for any morsel of food. We kept taking in kids until our outfit looked as much like an orphanage as an Air Force unit," he added.

"Finally, the Air Force cracked down. So we put the children in a Seoul orphanage. But when the Communies were about to take the capital again, we couldn't bear to think of what would happen to our kids."

So the colonel, who was whipping the ROK Air Force into shape and flying combat missions day and night, pestered the high command until it sent him enough C-54s to fly the children to safety on Cheju Island.

(Then the former minister, operating an illicit bar, became the biggest bootlegger in Korea, to support the orphanage. But that's another story.)

Colonel Hess estimates that GIs in Korea, overwhelmed by the country's misery, have volunteered at least \$19,000,000 to Korean welfare and relief since the beginning of the war.

The colonel himself has organized Hope, Incorporated, a non-profit charitable fund, to care for war orphans, no matter what their race, color or creed. The money from his book and picture will go into this fund.

"And," said the colonel with ingratiating slyness, "if you mention that Hope, Incorporated, can be reached by P. O. Box 85, Washington, D. C., maybe other people will want to sweeten the pot, too."

He Hasn't Forgotten Korean Children

WASHINGTON—These are dangerous times in the world. Little wars can break out almost any time. This could mean involvement of America either through United Nations action, as in Korea, or through the provisions of the various alliances which this country has signed and must honor. Under the North Atlantic Treaty Organization, for example, an attack on any one of the other 14 member countries must be considered just the same as an attack on the United States.

Not only must there be military readiness, therefore, on the part of the United States, but diplomacy must make clear constantly the intention of the United States to fulfill its obligations.

American diplomacy, unfortunately, failed to make crystal clear in January 1950 that the United States would fight to defend Korea, and that country was invaded by the Communists six months later.

Today, with the unsettled situations in Eastern Europe and in the Middle East, it is generally agreed the American people need at the helm a calm and courageous leader. They must elect next week the man who will serve as Commander-in-Chief of the Army, the Navy and the Air Force—the biggest military establishment we have ever had in time of peace.

Which of the two presidential candidates has the judgment and the experience to command such a tremendous organization? It is easy enough to say that any President can appoint generals or military advisers and rely on them. But the power of decision, when differing viewpoints are presented, must reside in the President. He cannot delegate that responsibility.

The American people have the obligation to decide whether to retain in office an experienced Commander or to elect a new President who must necessarily depend on the advice and judgment of others without bringing to the job any personal knowledge or experience with military affairs.

Mr. Eisenhower, moreover, was Commander-in-Chief of the Allied armies in Europe during World War II and led the largest military force in history to victory.

Who will ever forget the piteous, heart-rending pictures of Korean civilians—particularly the ragged, suffering, starving children—caught between the battle lines and fleeing Communist hordes in the bitter winters of the Korean War?

By JAMES BACON
HOLLYWOOD, Nov. 2 (AP)—Park Avenue may have its 400 but out here it's the Holmby Hills Rat Pack.

Both are exclusive social sets. Prince Mike Romanoff, breaker of bread with the Rockefellers and Whitneys, calls the Rat Pack "America's most exclusive social group."

It's probably the world's most exclusive group if, for no other reason, than it's the only group of well-fed Bohemians extant.

Mike is more emphatic: "One can be born into the 400. The Rat Pack picks its own." The Rat Pack's origins only go back a few vintages. It's the one social group that stresses a capacity for sour mash bourbon over social background.

And even then, its founding was ad libbed. At a time when headline writers hung the term "rat pack" on juvenile gangs preying in the Los Angeles area, Mrs. Humphrey Bogart took a sweeping look over the gang of assorted millionaires and movie stars that seemed to meet nightly at the Bogart home.

"I think we should call this bunch of adult delinquents the Holmby Hills Rat Pack," quipped Lauren Bacall Bogart. And thus Hollywood history was made.

In appreciation for Miss Bacall's way with a quip, the group elected her den mother, a post she has held ever since.

Radioactivity Over New York

ALBANY, N.Y. (AP)—Gov. Averell Harriman reported today that the New York State Health Department had detected "a remarkably high" level of radioactivity in the atmosphere over New York on Sept. 24.

The governor said in a statement that the Atomic Energy Commission two days later ordered the department, without explanation he said, to stop its radioactivity monitoring program.

He noted that the order came six days after Adlai Stevenson, Democratic presidential candidate proposed the United States take the lead in seeking to end H-bomb tests.

The Democratic governor linked the high-level incident of Sept. 24 to a reported explosion of a Russian H-bomb on Aug. 30.

"The manner in which this program was ended," said Harriman, "is typical of the (Eisenhower) administration's custom of taking action without explanation."

In Washington last night four Senate Democrats asked President Eisenhower if it were not true that some of his advisers had recommended steps toward ending test explosions of "certain types and sizes of the super H-bomb."

Sen. Clinton Anderson of New Mexico, chairman of the Senate-Atomic Energy committee; Mike Monroney of Oklahoma; J. William Fulbright of Arkansas and Mike Mansfield of Montana, said they also asked the President, in a telegram, if it were not true that he had agreed with the idea and had ordered studies to follow it up.

Sen. Fulbright of Arkansas and Mike Mansfield of Montana, said they also asked the President, in a telegram, if it were not true that he had agreed with the idea and had ordered studies to follow it up.

Sen. Clinton Anderson of New Mexico, chairman of the Senate-Atomic Energy committee; Mike Monroney of Oklahoma; J. William Fulbright of Arkansas and Mike Mansfield of Montana, said they also asked the President, in a telegram, if it were not true that he had agreed with the idea and had ordered studies to follow it up.

Riesel To Speak

Victor Riesel, the labor columnist who was blinded last April by the acid-throwing hoodlum, is to be a featured speaker at the 34th annual Conference of Texas Industry in Fort Worth Nov. 11-13. Since his ordeal has renewed his fight against labor racketeers in some unions, his topic will be "The Big Merger—One Year Later."

Loose Comb Ends Long Bachelorhood

OMAHA (AP)—William B. O'Keefe, 81 years a bachelor, is getting married.

It was an old-fashioned comb that 70-year-old Mrs. Mable F. Cree wore to a church meeting that started O'Keefe on the way to the altar.

He related, "The comb was coming loose and I was saying to myself 'Shall I tell her or will she think I'm fresh. I decided to tell her.'"

They "dated" for three years before O'Keefe asked, "How about an engagement ring?" Mrs. Cree recalled "I was very elated!"

Times Have Changed-Students Often Encouraged To Marry

By ROBERT E. FORD
Associated Press Staff

Too young to marry? Ask almost any Texas high school principal.

He'll tell you that—too young or not—married students are in his classrooms.

Possibly he'll add proudly, "And let me tell you, mister, they're about the best students I have."

Then there are unlucky principals. Like the one whose pretty drum major got married and was reluctantly dropped from the drum major corps.

And there are some lucky principals. One found that the graduation gowns neatly concealed certain facts—sometimes termed "interesting facts"—about six of his senior girls last spring.

The situation also poses some mathematical questions: With half of the married people in the world women, why is it that in high school this isn't true?

You don't have to be very old to recall the days when town-people were horrified when young John and Jane eloped. After the parents dried their eyes and simmered down from their threats on annulment, the problem of education arose.

That was quickly solved. They were discreetly but unmistakably told by the school that the school didn't want them. The boy went to work and the girl settled down to housekeeping, and that ended the education of both.

Now, high school authorities have taken a second look and follow this rule:

Texas youngsters have a right to an education, married or not. Some have gone further than that. They encourage young wives who are forced to drop out of school because they expect a baby to finish their studies at home.

This is true at Big Spring. A great many are forced to quit school for this reason. Some school board members,

with customs of their younger days still fresh in their minds, had to have the new rule cracked over their heads by the courts.

What may have been the first such case occurred in Grayson County's District Court a few years ago. A teen-age couple filed an injunction suit to stop action of the school board in expelling them. The couple had eloped during mid-term exams. They charged the board action was "discriminatory and illegal." The young lovers won.

The attorney general's office has ruled that "a student of free school age shall not be deprived of his or her right to attend public schools without payment of tuition because of marriage."

Many high school authorities now seek to help newly married students adjust to what the Corpus Christi school system calls "their new roles."

This is done by counselling at such schools as Corpus Christi, Beaumont's South Park, Amarillo's three high schools, Borger, and others.

The counselors generally are the ones to whom falls the duty of advising girls who are to become mothers that further attendance at school is not advisable.

The curriculum council of the Lubbock High Schools recently began a study of the problem. Suggested were elementary school studies which would show the problems of marrying while still in school.

This frankly would be to discourage high school marriages. There were 150 married students in the Lubbock schools last year.

Recognizing no edict can keep people from falling in love, the system has proposed that night high schools be established for young family breadwinners.

Most schools make no discriminations against married students, although a few do curb their extra-curricular activities.

Denton is considering restrictions to permit married youths to play football but prevent them from being team captains.

Just to be impartial between brawn and brain, the school also is considering allowing married students to join the chemistry club, but would not allow them to be presidents.

About the drum major who married—Beaumont's South Park High School persuaded her that "Mrs." in front of her name wouldn't look quite right on football game programs, so she left the corps.

The school with all the expectant seniors was San Angelo. Why there aren't an equal number of married boys and girls in high schools? Some husbands have to make a living for the young family, but the wife can finish her education. Some young men have graduated and married girls still in school. At Bryan, most married girls in school are wed to Bryan Air Force Base air-men or Texas A&M students.

The specific comment on grades came from Oscar Miller, assistant superintendent at San Antonio.

"Youngsters continuing their high school education, although married, generally maintain higher-than-average scholastic marks," he said.

But it's not so easy for some. In one Amarillo school, the dropout rate for married students was 75 per cent. In another Amarillo school, 108 married students enrolled when school opened, but only 32 remained at the end of the year.

Will The BIG CITY GOP Machines Control Texas Again?

In 1952 Republicans Won Texas In The Big Cities
Don't Let It Happen This Time!
Vote Tuesday

The Republicans carried Texas in 1952, but the GOP failed to win an all-Texas victory!

- Eisenhower's lead in Texas was 133,650 votes.
- Nearly all this margin — 133,002 votes — came from only eight big-city counties: Bexar (San Antonio), Dallas, El Paso, Harris (Houston), Lubbock, Potter, Tarrant (Fort Worth), Travis (Austin).
- More than half the 1952 Republican votes came from the big cities of Texas.
- Outside the five largest counties, Republicans squeezed through with a lead of less than 1 per cent.

Texans outside the big-city precincts know what Republicanism means: neglect, indifference, depression. That is why it is important that you vote Tuesday.

The big-city GOP machines don't care about you. Remember: Four years ago, Democrats piled up an 85,000-vote lead in 106 small-town and rural Texas counties — only to have that lead wiped out by the votes from Dallas and Houston alone.

Make your vote count! Go to the polls Tuesday and take another Democrat with you. Don't let the big city Republican machines control Texas — and you.

Make Your Voice Heard!
VOTE DEMOCRATIC
From Court House to White House

built-in lint filter!

New '57 RCA WHIRLPOOL all-porcelain washer

The new automatic washer with all the automatic features! Convenient built-in filter automatically removes lint, grit, soap-scum—keeps the white specks off those dark socks.

Two speeds—dial Normal for brisk agitation for cottons, denims, household linens; dial Gentle and, automatically, you get a slower washing action for finer fabrics.

Seven automatic rinses, too. And built-in sun lamp automatically sweetens and sanitizes clothes.

All-porcelain white (rustproof, inside and out) or 3 smart Matchmaker colors!

Weekly payments as low as \$2.50

Your old washer makes the down payment

Matching dryer on same contract

You save big money if you buy 'em together!

Guest Speakers In Local Pulpits

Dr. P. D. O'Brien, pastor of the First Baptist Church, returned Wednesday from his trip to Alaska. Dr. O'Brien will speak at services Sunday at the church.

The Rev. W. A. James, pastor of the Airport Baptist Church is confined to the hospital. A guest speaker will fill the pulpit of his church Sunday.

The Rev. Sam Choy, associated with the University Baptist Church in Abilene, will be the special speaker at services Sunday at the East Fourth Baptist Church. The Rev. Maple Avery, pastor of the church, is conducting revival services in Colorado City this week.

Baptist
 "Healing Hands," will be the Sunday morning sermon topic at the Hillcrest Baptist Church. The Rev. H. L. Bingham, pastor of the church, will speak at both morning and evening services. His evening topic will be "The Bloody Baptism of Jesus."

Dr. P. D. O'Brien, pastor of the First Baptist Church, returned Wednesday from his trip to Alaska. He will be speaking Sunday morning on "There is a Lad Here." "All the World" will be his evening message.

The Rev. Sam Choy, educational director at the University Baptist Church in Abilene, will be guest speaker at both services Sunday at the East Fourth Baptist Church.

The Rev. A. R. Posey, pastor of the Baptist Temple Church, will speak at both morning and evening services Sunday at his church. "The Lord's Provisions," Gen. 22:8, will be the Rev. H. W. Bartlett's subject Sunday morning at the College Baptist Church. His evening message will be "The Matchless Winner," Luke 19:10.

Catholic
 Mass will be said by the Rev. Fr. William J. Moore at 7 a.m. and 10 a.m. at St. Thomas Catholic Church. Confessions will be heard from 5:30 to 6 p.m. and 7 to 8 p.m. on Saturday. Benediction will follow the last Mass.

At the Sacred Heart (Spanish speaking) Church, Mass will be held at 8 a.m. and 10:30 a.m. and 6 p.m. on Saturday, confessions will be heard from 5 to 5:30 p.m. and 7:30 p.m. Benediction will be at 5 p.m. on Sunday.

Mass will be said Sunday at 5:30 p.m. in Coahoma at St. Joseph's Mission by the Rev. Fr. Adolph Metzger, OMI.

Christian
 The Rev. Clyde Nichols will speak on "A Miracle Can Happen" at Sunday morning services at the First Christian Church. A mixed quartet will sing "I Walk With The King," by Ackley. Rev. Nichols' evening topic will be the third in a series of lessons on the life of David titled "More Than A Brother."

Christian Science
 Man's real selfhood as the spiritual image and likeness of God, not subject to sin and sickness, will be emphasized at Christian Science services Sunday. Scriptural readings in the Lesson-Sermon entitled "Adam and Fallen Man" will include the following:

HYMN OF THE MONTH
O WORSHIP THE KING, ALL GLORIOUS ABOVE

Text—Sir Robert Grant (1785-1838)
 Tune—Johann Michael Haydn (1737-1806)

Sir Robert Grant, at one time a member of Parliament, will be chiefly remembered as a hymn writer. The one chosen for our study is a metrical version of a portion of Psalm 104 and is universally and constantly used. Let us note the names of the Deity used in first and last stanzas of this hymn—"King," "Shield," "Defender," "Ancient of Days," "Redeemer," and "Friend."

The tune Lyons is arranged from the music of Johann Michael Haydn (1737-1806). He was an Austrian, a less distinguished musician than his brother Joseph, first known as a boy soprano, then as a violinist and a pianist, and later organist and chorister. His best works are found among his religious compositions, many of them, masses and free rhythms for congregational singing.

Boy Dies In Blast Of Powder Mixture

NEW YORK (AP)—A 15-year-old boy died last night after a batch of home-made black powder exploded as he was grinding the mixture in the kitchen of his Bronx home. Police said Robert Cooper had been concocting a charge for a giant firecracker.

Free and Open to the Public

The Christian Science Reading Room in your community is maintained in simple gratitude by your Christian Science neighbors.

It stands as an outward sign of their appreciation of benefits received through Christian Science—benefits equally available for you.

Release from disease, from fear and limitation, has come for multitudes as they have quietly pondered the Bible teachings in this great new light.

You are welcome at the public Reading Room near you. Here the Bible and the Christian Science textbook

SCIENCE AND HEALTH with Key to the Scriptures by Mary Baker Eddy

may be read, borrowed, or purchased. You may here investigate for yourself its healing message.

CHRISTIAN SCIENCE READING ROOM
 1209 GREGG

Information concerning church services, Sunday School and free public luncheon also available.

9 a.m. and 12:15 p.m. Confessions are heard Saturday from 7 p.m. to 8 p.m.

7th Day Adventist
 Services of the Seventh Day Adventist Church will be at 2:20 p.m. Saturday followed by church services at 3:30 p.m.

Temple Israel
 Friday evening services of Temple Israel will be held at room 511 in the Settles Hotel at 8 o'clock Bible Class

The Businessmen's Bible Class meets Sunday at 9:15 a.m. in the Settles Ballroom with Rupert Rickler as the teacher.

The Suffering Servant
 ISAIAH PROPHECIES THE COMING OF JESUS AND HIS REJECTION AND DEATH

Scripture—Isaiah 52:13—53:12; Matthew 1:18-21.

By NEWMAN CAMPBELL

CENTURIES before Jesus Christ was born, the prophet Isaiah foretold His coming, and these prophecies are the subject of our lesson today. How would the prophet foresee so clearly that when the promised Messiah came He would be rejected of men, suffer and die to save His people from their sins? God told this greatest of all the prophets of old.

Isaiah prophesied, it is thought, between 720 and 710 B.C. in Jerusalem. We read: "He is despised and rejected of men; a man of sorrows, and acquainted with grief; and we hid as it were our faces from Him; He was despised, and we esteemed Him not."

Except for the Apostles, the people whom He healed, and a few others, our Lord was indeed "despised and rejected of men," even though, as Isaiah says,

MEMORY VERSE
 "He was wounded for our transgressions; He was bruised for our iniquities; the chastisement of our peace was upon Him; and with His stripes we are healed."—Isaiah 53:5.

"Surely He hath borne our griefs, and carried our sorrows; yet we did esteem Him stricken, smitten of God, and afflicted."

"But He was wounded for our transgressions, He was bruised for our iniquities; the chastisement of our peace was upon Him; and with His stripes we are healed."

"All we like sheep have gone astray; we have turned every one his own way; and the Lord hath laid on Him the iniquity of us all." After all the centuries have passed since those words were uttered, we of this generation are sadly, still like lost sheep that have gone astray.

Christ told us to love one another; to forgive our enemies; to do good to those who abuse us, yet the newspapers are full of stories of crimes of revenge. Often those who call themselves Christians are cruel to one another, and even many times to

Lord shall prosper in His hand. The last verse of this portion of Isaiah reads like a summary of the foregoing.

"Therefore will I divide Him a portion with the great, and He shall divide the spoil with the strong; because He hath poured out His soul unto death; and He was numbered with the transgressors; and He bare the sin of many, and made intercession for the transgressors."

Even on the cross, our Savior made intercession for the transgressors when He pleaded: "Father, forgive them for they know not what they do."

Centuries later the prophecy came true. The Messiah came, born in a manger. St. Matthew tells how an angel of God came to Joseph, telling him that Mary would have a son, "And thou shalt call His name Jesus, for He shall save His people from their sins."

Write A Happy Ending To Your Sales Effort!

Let A Low Cost WANT AD Help You...

You can use a Herald Want Ad for as little as 90c

Just call AM 4-4331 and ask for the Want Ad Dept.

A friendly, well trained ad taker will help you word your ad and give you a cost estimate without obligation.

Your message will go into more than 10,000 homes within hours after you place it.

Want Ads are easy to place. A Herald Want Ad is the speediest, most economical way to convert unneeded items into useful cash.

The Herald Want Ad Department
 Dial AM 4-4331

THE ANSWER IS GOD!

WORSHIP HIM IN CHURCH EVERY SUNDAY . . . AT HOME EVERY DAY . . .

Moving Together Toward a Common Goal

With the fowl of the air it is *instinct!* God has provided many of His simplest creatures with an innate sense of harmony, and of purpose.

But with man it is an *ideal* . . . still far from realization! Nations and individuals have usually sought their own ends, and little less than attack by a common enemy, has ever brought them to united action.

Today, the challenge for harmony and brotherhood is stronger than ever. We know now that the very existence of civilization depends upon a peaceful world.

Our greatest hope is the Church, which throughout the ages, has unceasingly taught the need for *moving together toward a common goal*. And only the Church has pointed the Way toward that goal.

Join forces with the multitudes in every land who seek the highest goals. Worship with them the only Prince of Peace. And, believing with all Christians in the might of Right, work toward our God-promised destiny.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the good and material support. Plan to go to church regularly and read your Bible daily.

Uncle Ray:

Jupiter Turns At Tremendous Speed

By RAMON COFFMAN
Yesterday we discussed several points about the rotation of the planets. Today I wish to answer a few more questions in the same field.

Q. How long does it take the planet Venus to turn around?
A. That is a hard question to answer at the present time. The thick mist around Venus keeps us from observing the motion of objects on the surface.

Theories have been evolved, however. There is a widespread belief that it takes Venus from 14 to 21 days to rotate once.

It may be that the use of radar will give us the facts which we need to settle the question. It seems to me that it is reasonable to expect a solution before many more years go by.

Q. What about the planet Saturn?
A. Saturn has a very quick rotation. It turns around once in 10 and a half hours. It is second only to Jupiter in the speed at which it rotates.

Q. Does the sun rotate, and if so — how does its speed compare with that of Jupiter?
A. The sun does rotate. The "equator" of the sun goes around once in 24 and two-thirds days. The rotary speed of Jupiter is about six times as great as that of the sun. An object on the surface, at the sun's equator, would move at the speed of 4,665 miles per hour. On the surface of Jupiter an object would whirl almost 28 thousand miles in an hour!

Q. How fast does an object on the earth's equator go around?
A. About one thousand miles an hour.

Jupiter, the fastest-turning planet, compared in size to the earth.

A human being finds it hard to understand how he can be moving rapidly, with the spinning earth, without noticing any special movement. He would realize the speed only if he could observe the passing of objects. The objects would have to be close to the earth's surface but free from the earth's gravity.

Senator's Not 'A Seer

SALT LAKE CITY (AP) — Sen. Arthur V. Watkins (R-Utah) says he's sorry, but ninth-grader Lynda Hambrick will just have to wait a week for an answer to a question she poses in a letter to him.

"Lack of a heavy-duty crystal ball," he wrote, makes it necessary for me to forego responding to your request of Oct. 23 until Nov. 7."

Miss Hambrick had written: "Would you please send all election information, including which way your state will vote, for a ninth grade scrapbook that I'm making."

Odessa Convicted Of Woman's Slaying

ODESSA (AP) — A jury including two women convicted Eugene Moore, 40, last night of the Dec. 21, 1955 slaying of Miss Lucille Vice in Odessa. The jury recommended life imprisonment.

Drinking No Help To Pronunciation

OKLAHOMA CITY (AP) — Booked on a charge of drunkenness, Frank Wauahdoah had a difficult time getting arresting officers to understand his name last night. The Lawton man, 41, finally made himself understood then explained he had been celebrating his release from the state prison. He said he served seven months for drunken driving.

Contraption In Basement Aids Fight Against Kidney Disease

By LEO MARKS
KANSAS CITY, Nov. 2 (AP) — A Rubie Goldberg contraption, put together in a home basement by a team of Kansas City doctors, biologists, electricians and mechanics, is contributing life-saving facts to medical knowledge.

Over six years of experimenting, the nine men have provided a new controlling factor for kidney failure, through an old drug known for 100 years. The drug is papaverine, an opium compound.

Their report, entitled "Studies on the Etiology and Treatment of Acute Renal Failure," was recently published in the Journal of the American Medical Assn.

The report, in a nutshell, says that when acute kidney failure is caused by constriction of blood vessels, such as in shock, certain drugs which dilate the blood vessels restore circulation and can save life.

The best of these, they found, was papaverine.

Dr. Paul N. Johnstone, a surgeon whose experience with kidney deaths spurred him on, organized the project in 1950. Joining him were Dr. Raymond G. Stone and Dr. Harold C. Burdick, University of Kansas City biologists; Dr. Hobart K. B. Allebach, a pathologist; and Frank E. Tuller, maintenance foreman of a major airline.

Four more workers were added

later. Loy F. Patton, another airline foreman; Leo E. Erb, an electronics engineer; L. G. Sturtz, an electrician, and James O. Smith, a drug expert.

First, Dr. Johnstone had to have an artificial circulatory machine, hence the electrical and mechanical experts.

Much of its construction, modification and improvement took place in the basements of Patton's and Dr. Johnstone's homes, and in Tuller's garage. All the ideas, skills and time were contributed.

The experimenting itself went on in laboratories at the university and the Armour and Co. packing plant, where kidneys of freshly killed livestock were used.

Basically, the contraption supplies heartlike pressure and oxygenation to blood drawn from an

animal and connected by tubes to a kidney. Another tube hooked to the kidney's outlet vein allows the blood to circulate.

The idea was to find out why kidneys sometimes "go dead," don't do their filtering and eventually kill. Such balky kidneys killed many war wounded who would otherwise have recovered. Surgical shock often causes a kidney crisis.

It took months before the team found that blood vessel constriction was the key to the problem. Two years later the papaverine test proved out.

The report said: "We treated 11 patients who had acute kidney failure with trial doses. Ten promptly developed material increase in urinary output coincidental with this therapy."

Landslide Riders Sue For Damages

SANTA MONICA, Calif. (AP) — Four women who rode a landslide

down Santa Monica's Pacific Palisades Aug. 26 are suing the city for a total of \$55,000, contending it was the city's land which slid.

Baughman, 72, and Mrs. Norah K. Hayward, 63, said in their suit that they were injured when a portion of the Palisades Park broke away, dropping time—and nearly 12,000 tons of earth—on the Pacific Coast Highway.
