

Grid Helmet For The Queen

Lewis Porter, co-captain of the Big Spring High School Steers, "crowns" Sue Barnes with his headgear during the half-time program at the Big Spring-Midland football game. Miss Barnes was chosen football queen for 1956. A senior student, she is the daughter of Mr. and Mrs. Chester Barnes. Assisting with the coronation was Johnny Janak, the other Steer co-captain.

Lamesa C Of C Adopts Record Budget, Maps Work Program

LAMESA Nov. 10 — Directors of the Lamesa Chamber of Commerce Friday adopted the largest budget in the history of the organization — \$23,723.35. The budget is based on estimated income of \$23,726.25. Among the items increased in the new budget are tourist and convention promotion, sports and recreation, Christmas activities, and practically every facet of the activities of the agriculture committee.

The industrial and oil committees were both given greatly increased budget credits, in an effort to better serve the needs of oil and industry here. In other action, the directors approved the report of the program of work committee, headed by Richard Crawley. The committee recommended several areas under which the Chamber should continue to work — civic, industrial, agricultural and trade improvement. Included in the civic activities are an adequate water supply, additional street paving, additional sewage collection and disposal facilities, an improved key fire rate, improved library facilities, support

of a city planning and zoning plan, continued active cooperation with the Canadian River Municipal Water Authority, support of the Citizens Traffic Commission, and support of all programs contributing to the health and welfare of every resident of the area.

The industrial phases of the program will include a survey regarding local facilities and resources, and the making of those facts available to industrial prospects, the continued cooperation with established industries, continued cooperation with those seeking better telephone service through extended area coverage, and the continued

Local CTC Group To Attend Awards Banquet In Lubbock

Eighteen persons from Big Spring are planning to attend the fifth annual Police Awards banquet sponsored by the Lubbock Traffic Commission next Thursday.

James Eubanks, secretary of the local CTC, said the list is subject to change, but the 18 had indicated they planned to go to Lubbock for the meeting.

It will be held in the Lubbock city coliseum at 6:30 p.m. Thursday. Speaker for the occasion will be Arthur B. Langlie, governor of Washington. The governor is well known as a speaker for safety meetings, Eubanks said. He spoke to the President's Conference on Safety at Miami during the winter. Also expected to be present is Gov. Allan Shivers of Texas. James Hill of the National Safety Council in Chicago will be master of ceremonies.

Planning to attend from here are Mr. and Mrs. Eubanks, Larson Lloyd, president of the CTC; Dr. and Mrs. Lee Rogers, Mr. and Mrs.

New East-West Alignment Seen After Ike's Victory

WASHINGTON, Nov. 10 (AP)—President Eisenhower's landslide victory over Adlai E. Stevenson and the Democrats' counterstroke to retain control of Congress pointed today toward a new East-West political alignment.

At the same time, the first signs cropped up of the beginning struggle within the major parties for favored position in the presidential nomination contests four years away.

Eisenhower's tremendous margin of more than nine million votes over his Democratic rival was piled up largely in the industrial states of the East and Midwest — once considered largely Democratic strongholds.

Democrats went west of the Mississippi to oust Republicans from the House seats that insured their control of that body. They picked up their gain in governors and local officials in the same general area, where Republicans often were strong in the past.

Whether this seeming shift in political strength is temporary, it seems likely to have some effect on the parties' selection of their presidential candidates as well as the course they will follow in fashioning policy.

The Eisenhower administration already has undertaken a resurvey of its natural resource and power policies as a result of the shelling GOP Senate and House candidates took in the Far West.

In the next presidential contest, Republicans have a natural in Vice President Nixon. Nixon has campaigned in almost every state; he has come to know the local party workers and he has been highly praised by Eisenhower.

All of this doesn't mean that Nixon won't face a terrific fight for the GOP nomination in 1960. It is likely to begin right at home for him in California, if Gov. Goodwin J. Knight is re-elected in 1958.

Sen. William Knowland of California, the Senate Republican leader, has his own ambitions for the presidency. He is not likely to give Nixon California's nominating votes without a fight.

Gov. William G. Stratton of Illinois, newly re-elected, may have some thoughts about the GOP nomination. There has been some speculation that former Gov. Thomas E. Dewey of New York, twice the party's presidential nominee, might become secretary of state if Secretary Dulles steps out. That would put Dewey in the limelight again.

President Eisenhower, who says he wants to put a "modern Republicanism" stamp on his party, may try to influence the choice of his successor.

Eisenhower is the best vote-getter the Republicans ever had. The fact that he could win so big while other GOP candidates were going down to defeat is regarded as likely to influence the party toward adopting his "moderate progressive" approach.

But most politicians think that Eisenhower will find as his final term lengthens his influence on the choice of a successor will wane.

The strategists have not overlooked the fact that the President couldn't rub his own popularity off on other candidates. He handpicked former secretary of the Interior Douglas McKay and Gov. Arthur B. Langlie of Washington to run for the Senate. Both lost. GOP Sen. Herman Welker was defeated in Idaho despite display of a "Dear Herman" letter from Eisenhower.

Eisenhower gave only token help to GOP Sen. Alexander Wiley who won in Wisconsin and to Jacob Javits, who took a Senate seat away from the Democrats in New York. On the other hand, Eisenhower's margin apparently helped Republican candidates grab two Senate seats in Kentucky.

On the Democratic side, Stevenson was counted out of the circle likely to influence the choice of that party's 1960 nominee. He ran behind his ticket locally in most states, a cardinal political sin.

The Democratic nomination is up for grabs at this point, with just about everybody who is anybody in the party eyeing his chances.

Sen. Estes Kefauver of Tennessee, the vice-presidential nominee, has a wide acquaintance with party organization members. He has visited almost every city, town and hamlet in his campaign activities.

But Kefauver bears the stigma of defeat along with Stevenson. He didn't carry his own state and that too, is a cardinal political sin. So far as the Democrats are concerned, the spotlight seems likely to be directed in the next four years on Congress. Moving conspicuously in that light will be Sen. Lyndon B. Johnson of Texas, the Senate's Democratic leader.

Johnson had a heart attack 15 months ago. But Eisenhower's re-election has removed that as a factor and there is little doubt Johnson would like to be president.

The Democrats have some new members and some holdovers in the Senate who can be said to regard themselves as possible presidential timber.

Among the freshmen is Gov. Frank J. Lausche of Ohio, who bears a reputation for being about as nonpartisan as a politician can be an still get elected.

Sen.-elect Joseph Clark of Pennsylvania will have a chance to show his wares. Among the holdovers, Sens. Kennedy of Massachusetts, Humphrey of Minnesota and Gore of Tennessee are tabbed have having higher ambitions. The Democrats also have a

Labor Peace Is Expected To Continue

WASHINGTON, Nov. 10 (AP)—The extraordinary degree of labor peace that prevailed during President Eisenhower's first four years in office is likely to continue well into his second term.

Veterans Day Program Set At Lamesa

LAMESA, Nov. 10—The three veterans organizations and the National Guard unit here will observe Veterans Day Sunday with a short program following a breakfast at the Green Hut Cafe.

AF General Warns Against Use Of Outmoded Weapons

GEN. ANDERSON

Maj. Gen. Orvil A. Anderson, USAF retired, commander of the 6th U.S. Air Force in Europe during World War II and co-holder, with the late Maj. Albert W. Stevens, of the world's altitude record, addressed some 500 Webb officers Friday.

'Town Hall' Talks Slated In Lamesa On Water Problem

LAMESA, Nov. 10—The Adult Education Committee, headed by Mrs. Buster Reed, Friday made final plans for the Nov. 19 "Town Hall" meeting at the Lamar Forest Community Center.

Dr. Casey Fine of the agriculture department at Texas Tech, and G. H. Peters, executive associate, adult education department at Tech and a representative of the Texas Extension Service, are to attend and assist in the consideration of two topics:

years—are in effect in the auto, steel, aircraft, apparel, construction, meat packing and electrical manufacturing industries.

There may be a renewal of scattered labor troubles in the South, among smaller worker groups.

Living costs are a record high and appear to be rising. But labor unions generally have taken care of this by providing, in their long term contracts, for pre-arranged annual raises and living cost pay boosts.

Controversy may come on the legislative front, in Congress and state legislatures. The Republican party is pledged to "a complete overhaul" of the Taft-Hartley labor law and the Democratic party to its outright repeal.

But the forces in Congress one way or the other are so closely balanced few expect much to be accomplished in altering Taft-Hartley.

More Honors For Engine Changers

Remaining members of Webb's World Championship Jet Engine Change Team receive outstanding service certificates from the Big Spring Rotary Club. Maj. Max Wilmon, left, representing the Rotary Club, presents the certificates to Maj. Maurice A. January, maintenance officer. Team members are, left to right, A-2C Mathew L. Bertalini, A-1C Bobby W. Burch, S-Sgt. Arnold E. Key, S-Sgt. Robert K. Perrine, S-Sgt. Robert A. Nicholas, A-1C David M. Ray, and T-Sgt. Donald Fulton.

Some County Offices To Be Closed Monday

Whether Monday will be a holiday for the Howard County courthouse was more or less a "Hobson's choice" deal on Saturday.

County Judge R. H. Weaver said that if the commissioners were meeting, he would have to be present and as a result that office would be functioning.

The Howard County Library was in a quandary. It was not known if it would be open or closed. This also applied to the Red Cross, the county welfare office and others.

Walter Parks, county engineer, has notified his workers to take the day off and his office will not be open.

District Judge Charlie Sullivan in 11th District Court has notified a petit jury to report Monday morning. A civil docket has been scheduled. This will mean that Wade Choate, district clerk, will be on duty in his office.

The sheriff's staff will be on duty as usual. Holidays do not apply, it was said, in their office.

County commissioners court will meet but other than for the routine approval of bills, nothing of significance is slated for consideration.

The ASC office and the state welfare office will be closed.

Observation of Monday as Veterans Day since the holiday itself falls on Sunday this year is the reason for the shutdown. Old timers at the courthouse said that Nov. 11 is a traditional holiday for county offices and has been observed as such for many years.

Radio Station Barred From Use Of Newspaper's Items

TOLEDO (AP)—A permanent injunction barring radio station WOHO from using Toledo Blade or Toledo Times news items in broadcasts for at least 24 hours after publication was issued yesterday by Common Pleas Judge Tom Stahl.

The court order does not prevent the radio station's staff from using published news items as leads or "tips" to news events, and then independently gathering its own information for broadcast.

The injunction settled a \$250,000 damage suit brought by the Toledo Blade Co. against Midwest Broadcasting Co. Aug. 30, 1955. The Blade withdrew its claim for damages as part of the settlement.

Judge Stahl initiated WOHO.

New Clerk Starts With Police Dept.

A new employee at the city hall is Mrs. Freddy Marstrand. Mrs. Marstrand is the new police clerk, succeeding Mrs. Jack Shafter, who resigned effective Saturday.

The police clerk handles fines, keeps safety and criminal records, and makes receipts for overtime parking tickets.

Scout Training Sessions Under Way

Two sections of the Scout training sessions got started last week.

Big Spring (Texas) Herald, Sun., Nov. 11, 1956 3-A

and the second meeting in the series will be held Thursday at Howard County Junior College. The Cubbers will meet at 7:30 p.m. in SB-10 and the Scouters at the same hour in SB-8. Explorer advisors are in the process of organizing their course.

New Task-Force 57 Chevrolet Trucks!

They "flattened" Yukon mountains with the most modern truck V8's of all!

Rated G.V.W. of these heavyweights goes all the way up to 32,000 pounds.

New V8-powered '57 Chevrolet trucks, heavily loaded, made one of the world's toughest roads look easy! In a straight-through test run, they rolled over the famous ALCAN Highway to Alaska—in less than 45 hours (normally a 72-hour run). Here's proof-in-action of power that'll handle your toughest jobs—and keep coming back for more!

Six new Task-Force huskies made the run. And six ultra-modern Chevy engines proved their power and performance—with gas mileage up to 18.17 miles per gallon! Two of the engines were not stopped once, and they hummed along at peak efficiency the entire 1,520 miles!

Chevy's big V8's turned in top performance jobs—up and down towering grades and through washouts that sucked wheels into hub-deep mud. They roared on through miles of heavy dust that narrowed visibility to a few hundred feet. And in spite of the varying altitudes and temperatures, not a single truck dropped out or turned back due to mechanical failure! Stop by and see them soon!

Six-speed Powermatic with built-in retarder added to safety on downgrades!

The new Super Taskmaster V8 showed plenty of "stunt" on steep grades.

Proved on the Alcan Highway Champs of every weight class!

Only franchised Chevrolet dealers display this famous trademark

Lamesa Barber Shop Quartet

One of the quartets that make up the SPEBSQSA chapter at Lamesa gets set for a few bars of barber shop harmony. Left to right are Ed Johnson, Vernon Flenniken, Earle Hise and Jim Wade. Johnson is a former Big Springer who helped organize the Lamesa chapter.

Israel Claims Big Haul In Weapons

TEL AVIV, Israel, Nov. 10 (AP)—Israel claimed today its lightning Sinai campaign netted a vast store of Egyptian tanks, vehicles and munitions valued at approximately 50 million dollars. The arms were unable to get after years of pleading we got in four days thanks to the army. Mrs. Golda Meir, the Israeli foreign minister, told a wildly cheering meeting of the Mapai (Labor) party. Mrs. Meir declared some of the captured equipment "was so secret it has not been displayed even in the countries of origin."

THE WEEK

(Continued from Page 1) evening at the football game. The senior band had best look to its laurels. Our fair city was the scene for a couple of area gatherings during the week. On Wednesday the West Texas Funeral Directors met here for their autumn parley, and on Saturday the West Texas Letter Carriers Association was our guest. The Chamber of Commerce is looking to 1957 for another big area conclave. Directors have approved plans for holding a fire inspection clinic here. Not only would it attract a lot of attention, but it could make our city infinitely safer. Old Man Winter blew his icy breath across our landscape Friday. We had a season's low of 29 degrees — right on schedule for the average first killing frost date. Most of us will welcome a little cooler weather — but what we really want is wet weather. The county tax office (collecting for itself, the state, junior college and some school districts) took in just a little less than three-fourths of a million dollars in October. Add the independent school districts and city to that and the total take will be well beyond a million and a quarter dollars. Our United Fund campaign is in trouble, but only because workers have not followed through on contacting prospective donors. And of course, there are a lot of donors who will not respond to their civic duty unless someone comes and begs them to do their duty. Please consider this a fervent 'beg.'

R. E. McKinney and Garner McAdams have been elected captains of the Quarterback Club to succeed Lew Porter and Jack Johnson next spring. These two enthusiastic backers of the local athletic teams are bound to keep the good work going.

The current concert series will start Thursday at 8 p.m. in the City Auditorium. First up is Mantovani with his 45 musicians who make such wonderful melodies that their recording company is hard pressed to keep up with the demand. Howard County Farm Bureau officials will be doing a real effective job, for they were all re-elected to another term at the annual business session of the board last week. Ralph White, president, has been a leader in the fight to get West Texas cotton acreage allotments back on an equitable basis.

Lamesa Forms SPEBSQSA, To Get Charter

LAMESA, Nov. 10.—Twenty-five men have banded together in Lamesa to form the nucleus of a Lamesa Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America. The Lamesa chapter was organized in August, when Ed Johnson, former president of the Big Spring chapter and now a resident of Lamesa, called 19 Lamesa men together and, with the aid of 15 from Odessa, eight from Lubbock, and one from Midland, started the ball rolling. Officers elected for the group include Ed Johnson, president; Grady A. Cuff, vice president; Earle J. Hise, treasurer; Richard Crowley, director; and Ronnie Shepherd, secretary.

At the Tuesday night meeting this week, plans will be made for the charter night which will be held within the next three weeks. As sponsor chapter, the Odessa SPEBSQSA will make the presentation at the dinner meeting. Other chapters over the South Plains area are invited to attend with their wives. Members of the Lamesa chapter are G. C. Clift Jr., Danny Parker, Joe Hansard, Everett McAulay, Stansell Jones, Gene Campbell, Gwinn Liddell, J. W. Parker, Tom Wade, Howard Garner, Z. D. Lee, George Flippo, Holmes Rowan, Jim Wade, Vernon Flenniken, Tommie Passmore, Pat Ryan, Garner Jones, Lester Nelmever, Oatus Roberts, Ed Johnson, Grady A. Cuff, Ronnie Shepherd, Earle Hise and Richard Crowley.

Poppy Sale Nets \$520

About \$520 came in Saturday from the sale of poppies by the American Legion Auxiliary. The amount collected is just about the same as last year, when the group got \$518. Borden Milk Company donated the containers for making collections, and Howard House served as headquarters for the drive. That one is set for Nov. 29 in Austin.

HUNGARY

(Continued from Page 1) Cross relief supplies enter from Austria. It insisted the supplies must come through neighboring Yugoslavia. The Soviet news agency Tass asserted in a dispatch from Budapest the Red Cross supplies from Austria were barred because some parcels contained arms for "reactionary, antigovernment forces."

A general strike which has paralyzed the capital for almost three weeks is still in force and the puppet Communist government installed by Soviet guns seems utterly powerless, said this informant who, because he has relatives in Hungary, cannot be quoted by name.

The government tried desperately to lure workers back to their jobs with offers of food and bonuses. Radio Budapest expressed fear the country now faced the twin menaces of hunger and starvation. But Vienna press reports said the Russians were adopting starvation tactics in an attempt to break the rebel resistance, holding up supply transports at the borders.

Budapest is a ravaged city, the informant said. Scarcely a house in the downtown sections has escaped shells or bullets. He estimated at least 20,000 persons have been killed in Budapest since the Russians opened their drive Sunday to crush the Hungarian freedom movement.

The food situation in the capital is critical, the informant said, and lines of people a half-mile long can be seen outside any store which is open and has anything to sell. Many of the capital's streets are impassable for automobiles and street car traffic is nonexistent.

Thanksgiving Doubled Again, In Texas Style

By ROBERT E. FORD
By The Associated Press

Texas is blessed with two Thanksgivings this year. No other state can make that claim. The Pilgrims' Congress, the Legislature, the spirit of Franklin D. Roosevelt and the States Rights political party will add a couple or more pounds to your waistline late this month. Provided, of course, that you like roast turkey.

If you're an advertiser trying to sell cranberries, or a school-marm interested in whooping it up at the state teachers' convention, you have your problem. Texans can celebrate either Nov. 22 or Nov. 29—take your pick. Fact is, a great many persons can't make up their minds. Some are just plain confused.

Consider the banks in San Angelo. They got together (No anti-trust laws involved, please, Mr. Brownell.) Their profound decision was to celebrate Nov. 22 because that was when all the federal reserve banks were to close for the observance.

All but the Dallas Federal Reserve Bank. It suffered a touch of states rights and decided to observe Nov. 29. Then the San Angelo members of the Federal Reserve Bank switched to Nov. 22. It was somewhat confused.

Or consider the astuteness of school kids at Sweetwater. Various local proclamations gave them the prospect of taking off from the classrooms for two whole weekends. The school board which had picked Nov. 29, tumbled into action and moved the school holiday back to Nov. 22, the day the Board of City Development selected for merchants to close shop.

So it goes throughout Texas, the right hand not letting the left er, the chamber of commerce not letting the school board know what it is doing, or the other way around. The confusion has a comfortable, Texan history. Roosevelt decreed the fourth Thursday of November as Thanksgiving in 1939. His idea was to give the wives of the poor breadwinners more time to spend Christmas shopping money.

That stirred up a hornet's nest, let me tell you. People said even FDR couldn't fool with tradition. States rights had a field day. Congress, two years later, surrendered and made it official—in federal circles only. Texas stuck by its cannon, and the governor each year selected his own holiday for the state.

In 1951, the Legislature decreed the "last Thursday" in November as Thanksgiving. That means, until someone rewrites the calendar, there will be November Thanksgivings because sometimes there are five Thursdays in that penultimate month. The postoffice has its problem. A statewide meeting in Dallas Nov. 6 tried to solve it and got nowhere much.

The outcome was that all post-offices, being under Uncle Sam, will observe Nov. 22. Most state and local agencies will mark Nov. 29, but you can't bet on it. The state teachers' traditional Thanksgiving convention will be held in Houston Nov. 29, when many teachers will be busy hammering knowledge into hard little heads.

At Bryan, which is just a short punt from Texas A&M, everyone will wonder why the banks and postoffice are closed Nov. 22, if they are. Thanksgiving at Bryan and College Station mean only one thing: the classic A&M-Texas football game.

That one is set for Nov. 29 in Austin.

Fisher Posse Wins In C-City Parade

COLORADO CITY, Nov. 10 (SC)—Fisher County Sheriff's Posse was rated top riding outfit in the big parade which officially opened the second annual meeting of the Texas Barrel Ropers association here this afternoon. The Posse was presented with a trophy.

Second place winner was the Ector County Sheriff's Posse and third place went to the Idalou Riding Club. Bob Madley, president of the Colorado City B-R club, host to the meeting, presented the trophies.

One rider was hospitalized as result of injuries sustained in the bull riding contest. He is Sonny Harrell, Snyder. His condition is not believed to be serious. Harrell was trampled by the bull. None of the nine riders entered in this event was able to stay out the ride.

Second performance of the TBRA show is slated at 2 p.m. Sunday.

LAS ARTISTAS' PICTURES ON DISPLAY
All painted in last year by local artists.

Big Crowd Sees Exhibition By Local Artists

Las Artistas, Big Spring art club, transformed the park in front of the War Memorial on the courthouse square into a miniature replica of Greenwich Village Saturday.

It was the outdoor art show of Las Artistas members for the current year — second such event in the history of the club. Approximately 80 paintings, most in oil, were displayed out-of-doors all day Saturday.

The pictures attracted many visitors. Most of the day the walks along which the paintings were displayed were thronged with spectators who manifested deep interest in the work. A ballot box had been set up and each visitor was asked to vote for his or her favorite of the canvases on display. The ballot box was filled several times during the day. The display was started at 10 a.m. and terminated at 5 p.m.

Mrs. W. D. Conway is president of the club. She said that this year's show — which was the local group's observance of National Art Week — was as successful as the first held in 1955. She said that fewer pictures were displayed this year than last. The club had required that all of the paintings shown be originals of the member artists and that all must be pictures painted during the present year. Thus, none of the canvases on display this year were on display a year ago.

Courts Facing 'Wave Of Hate'

LUBBOCK, Nov. 10 (AP)—This is open season on the Supreme Court. Federal Judge Robert Thomson of El Paso told the judicial section of the State Bar last night.

"The nation's courts are being threatened by a tidal wave of hate and prejudice," Thomson asserted. He said one senator recently called members of the Supreme Court "midgets," and another charged the court has been "indoctrinated and brainwashed by Communists."

"If they do not like the present personnel of the Supreme Court," he said, "they should accept their share of the responsibility of being there."

Stanton's New Student Council Officers Named

STANTON, Nov. 10.—Delton Chesser has been elected president of the new student council at Stanton High School.

Other officers of the organization are Phil Foreman, vice president; Sara Mott, secretary-treasurer; and Joe Ann Hayes, reporter.

Class representatives to the council are: Freshmen—Joyce Anderson and Carl Wright; Bobby Kelly, alternate.

Sophomores — Anita Ringener and Jimmy Hamilton; Virgil Miller, alternate.

Juniors — Myrtle Miller and Garland Polson; Johnny Anderson, alternate.

Seniors — Delbert Donelson and Doris Godwin; Nina Rice, alternate.

Texan Set To Play 'Taps' In France

PARIS, Nov. 10 (AP)—American Legionnaires scurried about Paris today seeking some old World War tunes to complete the costume of Texas bugler Hartley Edwards and help him fulfill his dream.

The veteran from Denison, last played his bugle in France 37 years ago before French Marshal Ferdinand Foch and U.S. Gen. John J. Pershing. Ever since then he has looked forward to the day when he could answer the invitation Foch gave him on that occasion and play "Taps" at a Paris Armistice Day celebration.

Whether puttees are found or not, he's going to do it tomorrow. "I've been looking forward to it for a long time," Edwards, 61, said today. "I'm going home early tonight for some more practice to make sure."

On Armistice Day in 1918 Edwards was bugler with H Company, 50th Regiment, 4th Division at the front. Later he was selected for the Pershing Drum and Bugle Corps, which played in victory celebrations in France and Britain in 1919.

Hunters Bag 4 Elk, Moose

You can kill elk and moose in the rough, rugged and icebound Jackson Hole country of Wyoming in the fall months, but the killing isn't easy.

It takes stamina and nerve and a willingness to endure bitter cold and primitive existence. This is the view of eight West Texans, including seven Big Spring men, who have just returned from a 10-day trek into the Teton Hill country.

The hunters had only fair luck on their safari. They killed four elk and one moose. Three did not bring back any game. The party consisted of R. H. Weaver, county judge, Ward Hall, Big Spring business man, and city commissioner; Guilford Jones, Merriam, Throckmorton, brother-in-law of Jones; Dr. Clyde Thomas; George Thomas, attorney; J. L. LeBlau, oil distributor and M. R. Koger, insurance man.

Jones, Merriam, Dr. Thomas, and George Thomas were all fortunate enough to get an elk; Koger bagged a moose.

Temperature dropped to below zero on several of the days the men were in the field and heavy snows fell most of the time.

Stanton's New Student Council Officers Named

STANTON, Nov. 10.—Delton Chesser has been elected president of the new student council at Stanton High School.

Other officers of the organization are Phil Foreman, vice president; Sara Mott, secretary-treasurer; and Joe Ann Hayes, reporter.

Class representatives to the council are: Freshmen—Joyce Anderson and Carl Wright; Bobby Kelly, alternate.

Sophomores — Anita Ringener and Jimmy Hamilton; Virgil Miller, alternate.

Fewer Texas Counties Gave Ike A Margin

DALLAS, Nov. 10 (AP)—President Eisenhower Tuesday won even a greater victory in his home state than he did four years ago but the number of Texas counties in which he led dropped.

Virtually complete unofficial tabulations by the Texas Election Bureau showed the Republican standard bearer garnered 1,072,832 votes while his Democratic opponent, Adlai Stevenson, received 853,486 in Texas. T. Coleman Andrews, the Constitutional party candidate, got 12,016.

Eisenhower received 53.34 per cent of the vote in 1956, compared to 53.22 per cent in 1952. The tabulation, the last to be issued by the bureau, showed this year Eisenhower led in 133 counties while Stevenson was favored in 121. Four years ago, the President led in 137 counties and Stevenson in 115. In that year Eisenhower received 1,102,878 and Stevenson 969,228 votes.

The tabulations were virtually complete. Of the state's 254 counties, the results were completed in 232 and were "virtually complete" in the remaining 22.

In the governor's race, Price Daniel, Democrat, polled 1,368,703 votes, his Republican opponent, William R. Bryant, 264,208, and W. Lee O'Daniel, a write-in candidate who made the race after being eliminated in the Democratic primary, received 116,930.

DAV Head Speaks At Meeting Here

Joe Ramsey Jr., state commander of Disabled American Veterans, told local DAV members Friday night they should strive for increased membership in their organization.

Ramsey also outlined prospects for the new veterans land program which received a \$100,000,000 shot in the arm last week on passage of a Texas constitutional amendment. He said approval of the amendment will provide more opportunity for Texas veterans as well as a boost for the state's economy.

The DAV commander went from Big Spring to Laredo where he is to deliver a Veterans Day address today.

Much of the cotton leaves were still green yesterday, though part of the growth has been nipped by frost. In some of the low spots a few more days without a freeze will be a lot of help.

C. A. Cranfill's irrigated cotton northeast of Big Spring is still maturing, with a top growth of bolls. Cranfill put in his irrigation well for this crop and irrigated about 40 acres of cotton. He already has out 35 bales and will get several more.

This is the only cotton field in that area, though a few miles north the dryland cotton made a little. Only one of the two Coahoma gins was in operation this fall. A. D. Shive, manager, said his gin had turned out 263 bales, and might get a total of 300 by the end of the season.

Most of the cotton was from dryland fields, though Frank Lovess and C. A. Cranfill ginned their irrigated cotton there. Shive said this amounted to nearly one-fourth of the total ginned. "It was about the poorest season we ever had except in 1952," Shive said.

In 1952 neither gin operated, and hardly any cotton was made. Ralph White gathered a few bales that year, and Donald Lay made eight or 10 bales on a sandy land field. Shive is also an official with the Lomax Gin. Down there he recorded is altogether different. He said they have ginned over 1,000 bales and expect to end the season with about 1,250.

This cotton came from Glasscock, Martin and Howard counties, with perhaps the larger part coming out of Glasscock where the irrigation wells are more numerous and larger. Boll pulling slowed up a little because of the recent cold weather, but will be in full swing again this coming week. John Whitaker, bookkeeper at a local gin, said the slight freeze would probably make the smaller bolls open quicker.

The old bugaboo of high feed prices is still menacing the dairy men, and as time goes along, the problem gets worse. J. R. Chaney, who operates a dairy with his son, says roughage is especially high at present. Not too long ago he was buying cottonseed hulls for \$16 a ton, but in recent months they have advanced to over \$30. Hay has likewise gone up almost every month, until good alfalfa hay is selling for \$45 per ton and more.

"We all use a lot of roughage," Chaney said, "because you can burn a cow out with a high protein diet. And when we get a dry year like this one and can't raise any fodder, we really pay a high price for it." Chaney is milking about 25 cows and brings the milk to Big Spring every morning, where it is loaded onto a refrigerated truck to be carried to a Midland milk plant. During the last week or so the cattle market has been going up and down like a bouncing rubber ball, according to the Casey brothers, Mickey and Bill, who own a local packing company. No one knows what is causing it or what is going to happen, they said. Choice cattle went up two and a half cents in recent days, but by this time next week might be back down where they started. "A cent a pound doesn't look like much difference," said Billy Casey. "But when a man has several hundred head, it can mean a lot of money."

Mercury Shows New Line For 1957

"Dream car" design is offered by Mercury in its completely new line for 1957. The unique styling theme is highlighted by sculptured side projectiles topping rear fenders and terminating in massive V-angle tail lights. Bodies are new, wider, longer and roomier. Overall height has been reduced four inches, yet headroom has been increased two inches. Mercury has 15 new models in Monterey, Montclair and station wagon series. This is the Montclair four-door sedan. The new line formally goes on display locally Monday at Truman Jones Motor Co., 403 Rannels.

ON DISPLAY HERE MONDAY

Completely Re-Designed Line Offered By Mercury For 1957

"Dream car" design is the tag put on the new Mercury line for 1957, which will be presented publicly Monday, and locally at Truman Jones Motor Co., 403 Rannels St. The 1957 Mercurys are distinguished by an unusually low silhouette, a new and larger body, choice of 255 hp. and 290 hp. engines, and a new "floating ride." The 1957 Mercury is 5 inches longer than the previous model, 3 inches wider and 4 inches lower. Headroom has been increased 2 inches and there is also more hip room and leg room. Wheelbase is up 3 inches from 119 to 122 inches and the front tread is one and a half inches wider. The new Mercury styling starts with the thin, crisp roof with its distinctive front and rear overhang. With sharply reduced car height, the roof has become an integral part of car design. First to recognize this important transition, Mercury has imposed a clean-cut channel in the center of the roof which

continues in the rear deck with the channel extending past the rear window into the package tray. For better vision, total glass area has been increased by 700 square inches. The projectile side theme on rear fenders accents the feeling of motion induced by the car's low silhouette and the projectiles as well as the distinctive V-angle tail lights are trimmed in chrome. Jet-flow double bumpers with large, twin ovals protect both front and rear. A full-width grill composed of verticle strips of bright metal houses combination parking lights and turn signals and is topped with projecting headlamps and forward-thrust fender hoods. Mechanically as well as in styling design, the 1957 Mercury makes noteworthy strides forward. Outstanding features are: New Keyboard control with Mercur-O-Matic transmission which is mounted on the instrument panel to the left of the steering column.

It features a "Neutral Start" button which automatically cancels the previous push button setting and engages the starter when the ignition is in the "On" position. Buttons are illuminated for night visibility. Air cushion rear suspension — first in the industry for passenger cars — is featured in many models as part of Mercury's all-new "floating ride," designed to smother bumps, vibrations and road noises and provide smooth, effortless driving. An air cushion (at atmospheric pressure) the size and shape of a 6-inch by 1 1/2 inch tire is inserted between the frame and the rear spring front eye and absorbs both driving and braking forces together with bumps and jounces encountered in any type of road. New "floating ride" — which provides jolt-free comfort at all times and includes new, improved springing action with longer, softer front coil springs and more flexible rear leaf springs; swept-back ball-joint front suspension through which the front wheels are pulled over, rather than pushed into bumps; a lower center of gravity and scientific weight distribution which contribute to better ride, easier handling and more responsive steering. 15 Models in 3 series — for 1957 Mercury offers a new station wagon series of 6 models and the Monterey and Montclair series, each consisting of a four-door sedan, Phaeton coupe, (2-door hardtop), and a two-door convertible. The lower priced Monterey series also includes a two-door sedan. The new station wagon series includes three Commuter models—a two-door, six passenger wagon—a four-door, six passenger and four-door nine passenger wagon. The Voyager models are a two-door six passenger wagon and a four-door 9 passenger wagon. The exclusive Colony Park wagon with simulated wood grained exterior trim comes in a four-door, 9 passenger model.

Euclid's Ideas To Be Studied

Carl A. Benson, leader of the Big Spring Great Books group, will be moderator Monday in the discussion of Book I of Euclid's "Elements of Geometry." To the apprehensive he has given an assurance that there will be no test or lesson in geometry. The purpose is to consider Euclid's thought and its place in human history. Howard County Junior College will be site of the meeting, which is scheduled for 8 p.m. in Room 107 of the music building. Later sessions will take up Marcus Aurelius, Sextus Empiricus, the Volungs and Nibelungs, Thomas Aquinas, Montaigne, Shakespeare, Locke, Milton, Hume, Nietzsche and William James.

2 Traffic Mishaps Reported Friday

Two accidents were reported in Big Spring Friday. An accident at 1007 Scurry involved Nelva Briden, 1007 Scurry, and Tom Peterson, 800 Main. A Virginia and Park streets, David Foxworth of Warren, and Walter Davis, Ellis Homes, collided.

Race Ruling Due

DALLAS, Nov. 10 (AP)—A ruling is expected Monday in the pre-trial deposition in the Dallas school integration case.

FIRST THING

'Giveaway' Winners Better Check With Income Tax Man

No one in Big Spring or Howard County has been involved in any of the big TV or radio giveaway shows or has won a big prize in any sort of contest—insofar as the records go. Regardless, the agents in the office of the United States Internal Revenue Department in the Permian building, are keeping their eyes open for just such a windfall. The best that the office has come up with, according to Ben Hawkins, local agent, was one Howard County resident who was the lucky winner of a new Buick. This man, wise to the ways of the tax collector, didn't beat about the bush. He walked right up and settled the tax feature of the gift without delay. It was just as well, according to the officers. If he hadn't shown he would still have been queried about it. It was probably easier on the winner to pay off early than to wait until the agents began writing him letters. The Texas Bar Association is advising citizens that the smart thing to do if you do win a prize regardless of its size is to find out about the taxes and settle "em in-stanter. The chances of anyone winning

any kind of a tax-free prize or award have been materially thinned by recently passed federal tax laws. The laws specify tax must be paid on gains such as: Prizes or awards in cash or property from any kind of radio or TV contest or any giveaway program; any door prize; any treasurer's prize; any award for winning an essay contest; incentive awards, prizes or bonuses from employers. The Big Spring Chamber of Commerce, for instance, is preparing to launch a big "giveaway" prize deal involving awards which aggregate \$3,500 value as a part of the community Christmas shopping program. Under the interpretation of the law as made by the Texas Bar Association, it is quite likely if you win one of these prizes during December, you may be required to report it and pay taxes on it. The Bar cites the current television program "The \$64,000 Question" as a good example of just

how interested Uncle Sugar is when his nephews and nieces pick up some extra cash. Suppose, says the bar association, that single person with no other income should win the \$64,000 question. Uncle Sam is the big winner—he keeps \$38,200 of the pot. That leaves \$27,800 for the person answering the big question. Says the bar association in its release on this subject: "The result is simple and unpleasant. Your entire winnings in anything that remotely resembles a contest are taxable. As with other income, the more you win the greater the share going to taxes. Before you spend your prize or award, you should set aside enough for the taxes." The bar association goes on to emphasize that all such winnings must be reported as taxable income. It adds an ominous note at this point: "The tax collector usually knows who the winners are!" Winnings or prizes are taxable even if all you did to win was as

simple as answering the telephone and finding yourself given money. According to the bar and to the income tax department, Congress has tightened up the law to specify all such financial or property gains as taxable. There are three exceptions as measured by the following rules: The award was given for achievements in the field of religion, science, education, art, literature, charitable services or civic affairs, and the winner was selected without any action on his part, and he will not have to perform any substantial future work in order to win the prize. If you should win the Nobel Prize, says the bar—and the income tax collector concur—you are that much ahead. This award is rated as "no contest." Any other prizes, however, which fall in your lap are probably taxable. And if you want to save a headache later on it's better to drop in on the tax collector, tell him what happened, and write out your check for what ever part of the winning Uncle Sam thinks he should get.

Happier Birthday For Mamie At 60

WASHINGTON, Nov. 10 (AP)—Mrs. Mamie Eisenhower observes her 60th birthday Wednesday in much happier circumstances than last year and ready to start another four years as the nation's First Lady. The White House has not yet announced any special plans for the day, but there is sure to be some celebration. Last year, the formal party for Mrs. Eisenhower's birthday was delayed four months because of the President's illness. Eisenhower, stricken with a heart attack in Denver on Sept. 24, was able to fly back to Gettysburg, Pa., on Nov. 12 and Mamie's birthday, Nov. 14, was spent quietly at their farm home. Four months later, on March 22, Mrs. Eisenhower had her official birthday party, including a nationally televised program of her favorite tunes entitled: "To Mamie With Music." This birthday—the diamond ju-

bilee 60th—finds Mrs. Eisenhower also observing her 40th year of marriage, with four grandchildren. Since she married Dwight David Eisenhower at the age of 19, Mamie has come up the ladder as an Army wife, moving her home 25 times. In the four years she has been mistress of the White House, Washington has gained some impressions of Mrs. Eisenhower, who was born in Boone, Iowa, in 1896. She has had few meetings with the press, and much of what is known of her comes indirectly from friends, her secretary, other associates and from observations at public functions. Entertaining at the White House picked up some during Mamie's tenure, and she is credited with injecting a certain informality, sparked by her own "friendly, enthusiastic, bubbling" personality.

Glittering diamond-cut crystals... AURORA BOREALIS by LAGUNA. Iridescent diamond-cut crystals that flash and glitter in myriad gleams of brilliant color. Adjustable necklaces, earrings and bracelets. From \$3.30.

15 Models in 3 series — for 1957 Mercury offers a new station wagon series of 6 models and the Monterey and Montclair series, each consisting of a four-door sedan, Phaeton coupe, (2-door hardtop), and a two-door convertible. The lower priced Monterey series also includes a two-door sedan. The new station wagon series includes three Commuter models—a two-door, six passenger wagon—a four-door, six passenger and four-door nine passenger wagon. The Voyager models are a two-door six passenger wagon and a four-door 9 passenger wagon. The exclusive Colony Park wagon with simulated wood grained exterior trim comes in a four-door, 9 passenger model.

Uncle Ray: Spiders Captured For Young Of Wasps

By RAMON COFFMAN A letter has come to me from Joe Ramsey Abuchon, a boy who says that he lives "out in the country by a small creek." His letter reads, in part: "I recently had the pleasure of watching a small mud dauber at work. I became fascinated and watched it fly off each time. I should like you to tell something about mud daubers." Mud daubers are wasps. They have long bodies, and such thin waists that we might expect them to break in two at any moment. Going to a muddy place (perhaps to the edge of a pond) the female mud dauber finds mud which she carries in her jaws to a place chosen for her nest. Hundreds of trips are made, and at last the nest has as much mud as will be needed. The mud may be placed on the under side of a shelf of rock, or it may be attached to the ceiling in a building. Often an opening in a wall, or the lower side of a rafter in an attic, is chosen. The mud dauber makes several holes in the mud, each one about an inch long but hardly one eighth of an inch in diameter. In each hole she places one or more spiders. The spider is stung before it is put in position. The stinging paralyzes it, but fails to kill it. Q. Why are the spiders placed in the holes? A. To provide food for the young. Before a hole is closed, an egg is laid inside. Later this egg will hatch into a grub, and the grub will eat the spider food. Still later, the young will change into wasps. Q. What is the color of a mud dauber? A. There are two main kinds, blue and yellow. The blue ones are so dark that they look just about black. The yellow ones (as well as the blue) have thin waists, and these waists make it possible to tell them apart from yellowjackets. Q. What are the tool-using wasps? A. They are relatives of the mud daubers, but burrow into soil, and store their nests with caterpillars instead of spiders. To close their burrows, they use tiny pebbles which they hold in their jaws while they tamper the soil. For NATURE section of your scrapbook.

Abandoned Dawson Test Re-completes

Davidson and Pembroke opened two new wells in the Welch field of Dawson County. One is a venture previously abandoned.

It is the Davidson-Pembroke No. 1 J. F. Stokes, three miles north-west of Welch.

Operator pumped 63 barrels of oil plus 40 per cent water, on a 24-hour potential. Gravity is 34 degrees, and gas-oil ratio is only 100-1.

Perforations are between 4,872-912 feet, and top of the pay zone is 4,872 feet. It is plugged back

to 4,992 feet from 12,367 feet, and 8 1/2-inch string extends to 5,287 feet.

Before taking potential, operator treated with 3,000 gallons acid and 10,000 gallons fracture fluid.

The well was drilled originally by Tidewater Oil and was plugged and abandoned in 1951 at 12,397 feet. Location is 660 feet from north and east lines of the northeast quarter, 3-C30, PSL Survey.

The other new well, Davidson and Pembroke No. 1 W. J. Burkett, pumped 52 barrels of oil on po-

SOUTH EDGER TO PAROCHIAL BADE POOL IS SCHEDULED

An operator from Odessa, G. C. Bingham, filed application for a venture in the Parochial Bade (Clear Fork) field of Sterling County.

It will be the Bingham No. 1 W. L. Foster Jr., about 12 miles southwest of Sterling City. Plotted location is 330 feet from north and east lines of the south half of the northeast quarters, 28-22, H&TC Survey, on a 240-acre tract.

From an estimated elevation of 2,523 feet, operator will project to 2,800 feet with rotary tools.

Public Land Policy Aids In Development

HOUSTON, Nov. 10 (AP)—Independent oil operators believe the federal government's policy to promote development of public lands has been successful.

The federal and public lands committee of the Independent Petroleum Assn. of America said

Pennsylvanian Discovery Plugs Back To Produce In Spraberry

A well that completed in November of 1954 to open the Arthur (Pennsylvanian) field has now completed from the Spraberry.

The well is in Borden County. It is the Seaboard Oil Company No. 1-45 T. J. Good and is about four miles east of Ackerly, 660 feet from north and 1,834.2 feet from west lines, 45-33-4n, T&P Survey.

On a 24-hour potential from the Spraberry, it pumped 172.2 barrels of oil, plus 34 per cent water. Gravity is 28.5 degrees, and gas-oil ratio is 622-1. The Spraberry perforation interval is 7,494-524 feet. It is plugged back to 7,525 feet.

Before testing, operator fractured with 15,000 gallons.

Operators completed the well originally in November of 1954 to open the Pennsylvanian area of the field. It bottomed at 8,853 feet then and potential 228 barrels of oil through a partial choke.

The Texas Company has staked another venture in the Jo-Mill (Spraberry) field of Borden. It is the No. 6-A W. L. Miller and is about 15 miles southwest of Gail. Drillsite is 1,980 feet from north and 660 feet from east lines, 26-33-4n, T&P Survey, on a 1,172-acre tract.

It will project to 7,800 feet with rotary equipment.

A wildcard in Borden County found nothing promising on a drillstem test in the Lower Spraberry. It is Lone Star Producing No. 1 J. L. Higginbotham.

Operator took a drillstem test from 6,290-450 feet in the Lower Spraberry, with the tool open one

hour. It recovered only 60 feet of mud with no shows of oil or gas.

Operator has now deepened to 6,586 feet in shale.

The project is 14 miles south of Gail, 660 feet from southwest and southeast lines, 7-31-3n, T&P Survey. Operator contracted to drill to 8,200 feet.

In the Ackerly (Pennsylvanian) field, Cosden Petroleum's No. 1 M. E. Dyer deepened to 7,830 feet in lime and shale this weekend.

The venture is two and a half miles northeast of Ackerly, 660 feet from south and east lines, 43-33-4n, T&P Survey. It is drilling to 9,500 feet.

Small Mitchell Producer Finalled By Blue Danube

Blue Danube Oil Company of Fort Worth finalled a project in the Westbrook field of Mitchell County.

It is the No. 3-A O. L. Simpson, which is about nine miles north of Westbrook. Location is 330 feet from south and 1,320 feet from west

Completions Over 14,000

AUSTIN, Nov. 10 (AP)—The Railroad Commission said today 53 oil wells had been brought in this week, bringing the year total to 14,126.

This compares with 13,056 a year ago. Thirty gas wells were completed, making 1,535 for the year against 1,912. Wells plugged this year total 10,200, including 224 this week, compared with 8,464.

Ten wildcard oil wells were drilled and 1 gas well. This brought the sum of oil wildcaters for the year to 502 and gas wells to 114 compared to 348 and 76, respectively, a year ago.

The daily crude allowable today was 3,367,449 barrels compared with 3,359,495 a week ago, an increase of 7,954.

Deep Prospect Due In Nolan

Miami Operating Company of Abilene will drill a 7,000-foot venture in Nolan County.

It will be the Miami No. 1-D Nita Brooks and is 660 feet from south and east lines, 105-X, T&P Survey. Location is about six and a half miles northeast of Mary Neal.

Operator will project to 7,000 feet looking for pay in the Cambrian.

A three-fourth mile extension well to the Nena Lucia (Strawn) field is the Union of California No. 1-87 M. L. Compton. It is 660 feet from south and east lines, 87-1A, H&TC Survey. It is 20 miles southeast of Colorado City.

It flowed 282 barrels of oil and no water through an 18-64-inch choke in 24 hours. Gravity is 44.3 degrees, and gas-oil ratio is 1,047-1.

Perforations in the Strawn are between 6,915-28 feet.

Operator treated with 5,000 gallons before testing.

Mahon Is Invited To 'Forum' Here

Rep. George Mahon is being invited to stage a sort of "congressional forum" in Big Spring before he returns to Washington for opening of the 85th Congress Jan. 3.

Larson Lloyd, chairman of the Public and National Affairs Committee of the Chamber of Commerce, has written Mahon proposing the forum. He suggested that Mahon choose another legislator to participate.

The proposed program would be for a general discussion of matters expected to come before the next Congress, Lloyd said.

Continental Slates Three Local Tests

Continental Oil Company has announced location of three new projects in the Howard-Glasscock field of southeastern Howard County.

Two are drilling to 1,300 feet and the other to 2,800 feet.

Continental No. 31-S-A-134 W. R. Settles will drill to 1,300 feet. It is located 2,310 feet from north and

990 feet from west lines, 134-29 W&NW Survey, about 26 miles southeast of Big Spring.

The No. 30-S-W. R. Settles is the other 1,300-foot try.

It is 2,310 feet from south and 1,650 feet from west lines, 134-29 W&NW Survey, on a 640-acre tract. Location is about 16 miles southeast of Big Spring.

Drilling to 2,800 feet to try the San Andres is the Continental No. 45-A W. R. Settles. It is 330 feet from north and 1,650 feet from west lines, 135-29, W&NW Survey, on a 400-acre lease.

Location is about two miles south of Forsan.

In the Moore field, Cosden No. 2 Barnett-Connelly deepened to 2,977 feet in anhydrite and lime. Location is 990 feet from north and east lines, 28-33-1, T&P Survey, and four miles southwest of Big Spring.

C. W. Guthrie has drilled the No. 1 Sarah Hyman to 1,967 feet this weekend. The wildcard is a south offset to the Guthrie No. 1 Bowen and is about a mile and a half northeast of the Howard-Glasscock field.

Lion To Build Nitric Plant

EL DORADO, Ark. — Construction has begun on a nitric acid concentrator at the El Dorado chemical plant, according to an announcement by T. M. Martin, president of Lion Oil Company, a division of Monsanto Chemical Company.

The addition, which represents a substantial investment, will concentrate 58 per cent nitric acid now being manufactured at two existing units. It is expected to gear into department chairman, 40 tons per day of nitric acid of 95 per cent strength, which will be used primarily as a raw material by another Monsanto plant.

Included in the construction will be blending facilities which will also permit the production of 68 per cent nitric acid.

The new unit will be housed in a steel framework equivalent in height to a four-story building. Completion is scheduled for March, 1957.

Concession Given For Development In Venezuela Sector

Lion Oil Company Division of Monsanto Chemical Company has joined with four other U. S. corporations in the acquisition of an oil and gas exploitation concession in Lake Maracaibo, Venezuela.

T. M. Martin, Lion president, has announced.

The concession, which includes approximately 2,000 acres, was one of those recently granted in that lake area by the Venezuelan government. Bidding stirred considerable interest among oil firms as the producing areas in the lake north of these concessions have, for many years, accounted for the greater part of Venezuelan oil. Bonuses paid by those acquiring concessions on 43,000 acres included in the Maracaibo letting yielded the government nearly \$79 million.

The other corporations included in the ownership of the Maracaibo concession are Tennessee Gas Transmission Co., Union Oil & Gas Corp., Murphy Corp. and San Jacinto Petroleum Corp.

Wind Erosion Threat Looms

All land in this area is now susceptible to wind erosion and going into the winter season there is "an extreme lack" of vegetative cover.

As a result, last spring's wind erosion problems will seem small in comparison to the coming spring—unless substantial cover is established during the winter.

That's the forecast of local Soil Conservation Service personnel who are plugging for the planting of cover crops of various kinds. The SCS said that Howard County farmers should take advantage of the ASC program which provides partial payment for establishments of cover crops.

At present, there is sufficient moisture in most sections of the county to get cover crops started, according to the SCS. Some crops already are going in.

Austrian winter peas, rye, and vetch have been planted as cover crops on farms operated by Lawrence Adkins, L. O. Max, Ralph Coates, Lomax, Sam Buchanan, D. C. Buchanan and Roscoe Buchanan, Salem Church; and W. C. Heckler, J. A. Ryan, and O. J. Brown, Luther.

Donald Lay, of Coahoma has 15 acres of rye he is irrigating as a multipurpose cover, soil improving, and winter grazing crop. Under irrigation, a substantial number of cattle can be run on the 15 acres.

Change In Terms Of C-C Officials To Be Proposed

Executive committee of the Chamber of Commerce will be asked to sanction a change in the tenure of C-C directors and officers.

A meeting of the committee has been set for 4 p.m. Friday. Wayne Red Smith, Chamber manager, said he will ask that terms of officers and directors be changed to extend from January to January. At present, the terms start at the annual banquet, usually held late in February.

Smith explained that he believes the organization can carry out a more effective program by having new officers take over early in the year.

The executive committee also will consider proposals for the 1957 program of work and whether it will be developed by committees or members. And if terms of officers are rescheduled, steps may be taken toward the election of 1957 directors.

The manager said study also may be given a re-evaluation survey of Chamber of Commerce membership dues.

Friday's meeting will be held in the Chamber offices at the Permian Building.

Cosden To Plug Panhandle Test

Cosden Petroleum Corporation has given up on its lone venture in the Panhandle.

The try, its No. 1 V. E. Ellis, has been plugged and abandoned after testing the Morrow sand and the Mississippian. Operator tried both zones and found no shows in either.

The site is an old abandoned wildcard. Humble tried it first and abandoned at 4,765 feet. Location is 1,980 feet from north and west lines, 21-1, WCRS Survey. It is in Hansford County, just five miles south of the Oklahoma border.

Another Cosden venture, the one in Andrews County, deepened this weekend.

It is Cosden No. 1-Q University. Operator reported drilling to 3,558 feet in anhydrite and lime. It is to test the Queens sand, and operator hoped to hit the zone about 4,800 feet.

Phillips To Resume Its Purchases

Phillips Petroleum Company may resume normal purchases of crude oil in December.

K. S. Adams, chairman, and Paul Endacott, president, announced that it now appeared possible to move sufficient crude to permit resumption of normal purchases, probably about Dec. 1. This is dependent upon adequate pipeline facilities to take oil to ports where the demand exists.

The company has been buying crude oil on a curtailed basis in Texas, Oklahoma, Kansas and New Mexico since Oct. 1 when it reduced its purchases to 75 per cent of August purchases.

In the meantime, the company will lift its restrictions on crude oil nominations in individual fields or areas immediately as sales and pipeline transportation arrangements will permit.

The big hitch is in pipeline capacity. Phillips has made some sales but still has a large surplus that cannot be moved to market at coastal points. It is at these points that the demand exists by reason of recent international developments which cramped foreign oil movement.

Drilling Is Up Slightly

Rotary drilling in the United States and Western Canada increased during the past week, nearly to the level of a month ago.

At the end of the week of Nov. 5, the figure was 2,794 rigs going as against 2,771 the previous week. This compared with 2,805 a month ago and still well under the 3,024 in the comparable week of 1955.

The biggest gain was in western Canada where the total reached 252, up 18 from the previous week according to the survey by Hughes Tool Company for the American Association of Oilwell Drilling Contractors.

In the United States there were 2,542 rigs turning a net gain of only five for the week. Texas had 1,002 rigs, six more than the week before and West Texas was up only two in reaching 383.

Illinois picked up 16 operations to reach a total of 17, and South Louisiana had 383 rigs going ahead, an increase of 12. Oklahoma's 258 rigs represented eight more than the week earlier.

Scout Exposition Postponed A Week

Dates for the Scout Exposition, scheduled for Nov. 30-Dec. 1, have been pushed back one week.

The new dates are Dec. 7-8, according to Sam McComb, camping and activities chairman who presided over a meeting of the exposition committee in the absence of Maurice Koger, chairman.

The postponement was ordered because the schools will be observing the weekend of Nov. 29-30 as Thanksgiving and many of the participating Scouts and Cubs may be out of town.

In the exposition, Scouts, Cubs and Explorers take various activities in the Scouting program and work out booths to illustrate or dramatize them.

MEN IN SERVICE

David R. Wise, USN, son of Mr. and Mrs. Charles J. Wise Jr., 1504 Kentucky Way, aboard the anti-submarine warfare support aircraft carrier USS Antrim, arrived in Brest, France, Oct. 22 on a good-will and training cruise with the Navy's Hunter-Killer Group 2.

Visits were made to the famous Normandy coast, site of the allied landings in Europe during WWII. The group which left Norfolk, Va., Oct. 1, consists of an aircraft carrier with anti-submarine and fighter aircraft, six escort destroyers, two submarines and an oiler.

While en route to Brest the group took part in a six-day search for survivors of a military air transport service plane which had crashed into the Atlantic Ocean with 59 servicemen on board.

Pvt. Santiago Abreo, son of Mr. and Mrs. Dominggo W. Abreo, 605 NW 5th, recently was assigned to the 1st Infantry Division's 18th Regiment at Fort Riley, Kan. Abreo, a radio and telephone operator in the regiment's heavy mortar company, entered the Army in June of this year and received basic training at Fort Chaffee, Ark.

Fraternity Member

AUSTIN, Nov. 10 — Sam H. Hall, University of Texas student from Big Spring, is a new member of Delta Sigma Pi, men's professional commerce and business administration organization. Hall, junior business law student, is the son of Mr. and Mrs. A. G. Hall, 1501 Scurry.

Geologist-Engineer Joins U-T Staff

AUSTIN — Special lecturer in the University of Texas Petroleum Engineering department for the remainder of the 1956-57 academic year will be Paul D. Torrey of Austin, internationally known geologist and petroleum engineer.

Torrey will lecture on special topics throughout the year. Dr. George H. Pancher, Petroleum Engineering department, chairman.

Torrey is president of Orchem Corporation, an oil recovery chemical company in Austin. He formerly was employed by the U. S. Geological Survey.

He has lectured at several colleges, including the University of Pittsburgh, where he received a Bachelor of Science degree in petroleum geology and a petroleum engineering degree. An honorary Doctor of Science degree was conferred on him in 1952 by Marietta College.

Torrey has made significant improvements in oil production by secondary recovery through his development of delayed drilling,

Dawson Library Busy In October, 1,811 Books Loaned

LAMESA Nov. 10 — The Dawson County Library loaned 1,811 books during the month of October, according to Mrs. Lex Brock, librarian. In addition, 148 magazines were loaned from the library.

Fifty-nine books and 609 magazines were donated to the library during the month, said Mrs. Brock, raising the total of books to over 10,000. In addition, there are over 500 books on loan here from the State Library at Austin, including a display of late children's books which parents hunting gift suggestions might look over.

Mrs. Brock reported that 1,920 persons have used the library facilities this year. A goal of 2,000 users has been set by January 1, 1957. During the month of November, "Know Your Library Month," each person is urged to visit the library.

A. D. BARTON

MEET THE 'seniors'
OF THE COSDEN FAMILY ...

This is the thirteenth in a series of special Cosden presentations recognizing the long and valued services of those employees who have been associated with the Company 15 years or longer. Cosden is proud of its record of workers who have contributed their efforts through so many years toward the success of the Company.

A. D. Barton has stretched a two-day assignment into 15 years and is still going strong.

"Blackie Hines hired me for two days," he explained, "and I've been working for Cosden ever since." Today this experienced pipeliner is one of Cosden's real veterans.

Barton was born June 12, 1917 in Bosque County near the community of Mosheim, where he also attended school. In 1937 he went to work for his father on their blackland farm and a year later came to Forsan. His first work was at a service station in Forsan, and it was in 1941 that Hines offered him the temporary job with Cosden's pipeline section.

At first work was in maintenance on the pipeline. Over the years there were some minor extensions fitted into the general maintenance. Subsequently, he became a "pusher," that is a foreman. In 1947 Barton began some night and relief gauging and for several months now he has been in a regular situation as daytime gauger. His job is to ascertain just how much oil Cosden has actually bought from the various leases.

Barton took time out during World War II to put in approximately three years with the U. S. Navy as a Seabee. He spent no less than 33 months overseas, mostly in the South Pacific. Upon separation he came right back to Cosden.

He was married in 1940 to Lucille Wilson, whose family had lived at Forsan almost since it became a community. They have one son, Van Allan, who is now 3 years old.

Barton is a member of the Forsan Baptist Church, a take-it-or-leave-it golfer, a member of the Forsan Service Club and the Forsan Country Club. He also is a fisherman of sorts—a trotline man who likes to fish for rest and relaxation.

New Styling Marks Cadillac

The completely new styling of the 1957 Cadillac is apparent in this Sedan de Ville, the four-door hardtop introduced last year. The overall car is lower, the hood and rear deck are below the fender line and a restyled Cadillac tail fin has been adapted. A new instrument panel, deep post steering column and wide selection of trims are featured in interior styling. The 1957 Cadillacs will be presented Monday at McEwen Motor Co., 403 Scurry.

COMPLETE CHANGE IN DESIGN

Cadillac Line For 1957 To Be Presented To Public Monday

New from bumper to bumper, the 1957 Cadillac represents the most complete model change in the company's history, and yet its features are distinctively Cadillac. The new line will be offered Monday, at McEwen Motor Co., 403 Scurry.

Dramatic changes, with lower silhouette resulting, have been made on all of the 10 Cadillac models.

In keeping with the reduction of over-all height both the hood and rear deck have been lowered so that they nestle below the profile of front and rear fenders.

A restyled chrome-capped adaptation of the Cadillac tail fin makes its appearance on all models this year on the rear quarter panel. An Eldorado feature finding its way into production is the twin rear lamps—one houses the back-up light while the other contains the stop light, tail light and turn light—located directly above the vertically shaped exhaust

ports.

Glass treatment on this body has been redone. The wraparound front windshield features supporting posts which slant forward, giving motion to the appearance and improving visibility even more. A more pronounced wrap-around treatment has been given the rear window.

Like the rest of the car, the front end styling is all new. Unquestionably, the cellular grille effect, gull-wing bumpers and bumper guards are reminiscent of recent Cadillac styling, but they have been redone to tie in with low, sweeping design of the 1957 models.

A new styling innovation in 1957 models is the use of rubber tips on the bumper guards—just one more Cadillac safety feature. Matching fog and parking lights are located in the outer ends of the bottom bumper section. Built into the center section is a stylized license frame.

Behind this front end is a 300-horsepower engine, the most powerful and the highest performance engine ever offered by Cadillac as standard equipment. This V-type overhead valve engine has a 10 to 1 compression ratio, a four-inch bore and a displacement of 365 cubic inches.

Eldorado owners can have the 300-horsepower engine or a modified engine with twin four-barrel carburetors and a 325-horsepower rating.

The customized Fleetwood 60 Special Sedan is even further distinguished in its 1957 appearance. Besides being a four-door hardtop for the first time, it has a new, low silhouette, three inches below that of 1956.

Additionally, it features a long rear deck and stylized stainless steel shield on the lower rear quarter panel which extends forward from the rear bumper past the wheel well into the rear door. Back-up lights are flush mounted in the rear deck.

A third four-door hardtop in the 1957 Cadillac line is the 62 Sedan. Additionally, it is three inches lower than the 1956 counterpart.

Like the exterior, the interiors are completely new. Immediately obvious is the increased visibility resulting from the rear slant of the windshield pillar post. Equally apparent are the newly designed instrument panel and steering wheel with the hub recessed below the spokes for increased safety.

Another desirable feature is the air conditioning outlets which are installed on the forward edge of the instrument panel edge. This is the first time Cadillac has had the air conditioning outlets so situated. The air conditioning system itself is front mounted for the first time.

Zoning Change On Commission Agenda

City officials point to a short meeting of the commission Tuesday night.

The group will meet in regular session at 5:15 p.m. in the commission room.

Herbert Whitney, city manager, said that the group will accept bids on a truck for the garbage department, consider zoning changes, and discuss the Air Force water and sewer lines.

The truck will be used to carry a garbage bed. One of the present trucks will be changed to haul a water tank. The truck now being used with the water tank was purchased from the Army after World War II.

A possible zoning change between Gregg and Main from 10th to 12th streets will be considered. The matter came up at the meeting of the commission but final action was delayed. Some of the property owners in the area did not have an opportunity to speak in connection with the change.

At the present time, the area is zoned B—two-party residences—and it is being considered for an F zone—business. The change has been approved by the planning and zoning board, but at the last meeting of the city commission, city attorney Walton Morrison recommended that the commission delay until Tuesday any action.

This, he said, would give any dissenting property owners time to reply. All owners are notified of the public hearing by the zoning board, but some persons were in the process of buying were not notified.

The Air Force and the city have

not agreed on any proposals for water and sewer lines to serve the AF's new housing unit southwest of Big Spring, and the commission will discuss the matter Tuesday night.

About two weeks ago, an Air Force civilian from Washington told the city that the government would loan the city money to lay a water line from the air base to the water reservoir at four percent interest, but would not pay for the line. Sewage would be handled through the present Webb line, he said.

Previously, the city had had word from the Air Force that it would pay for laying private water and sewer lines. If the city wished to increase size of the lines for its use, the additional cost would be paid by the city on a proportional basis.

Whitney said he would bring the commission up-to-date on the matter Tuesday night.

He indicated the group might consider possible maintenance work at Powell Lake.

Murder Hearing To Open Monday

PALO PINTO, Tex., Nov. 10 (AP)—Walter Vaughn of Denver City, charged with murder in the shooting Dec. 18 of the Rev. Chester Stevens of Weatherford, goes on trial here Monday.

Stevens was shot 6 times in the head and chest at the Baptist minister's home in Weatherford. Mrs. Vaughn contends her husband "was justified" in the shooting. Vaughn was a former member of the Denver City Baptist Church where the Rev. Stevens was pastor before coming to Weatherford.

Police Holding H-SU Class Ring

Some Hardin-Simmons University graduate is without a class ring.

The police department now has an H-SU senior ring found under the football stadium stands. It contained the initials PDA, the department reported.

City Worker Will Take Short Course

Freddy Overman, a city water department employee, left for Lubbock today for a short course on water problems.

The course begins Monday and continues through Thursday. It will cover water department problems, procedures, and methods. The schools are held annually.

Farmer's Find Of Riches Just Bogus Bills

WEATHERFORD, Nov. 10 (AP)—Secret Service agents shattered the dreams today of a dairy farmer when they told him the \$25,000 he had found were counterfeit bills similar to those discovered in a wrecked plane near Corpus Christi.

Leo Williams, Treasury Department Secret Service agent from Dallas, examined the soiled bills Oscar Womack, 27, had picked up yesterday in weeds along the bank of Willow Creek which runs through his farm and said they were bogus.

"It's a sloppy job, too," he added.

Agent Forrest Sorrels said the bills were same kind as the \$100 bills found on the body of Robert Keller Jr., 31, Fort Worth lawyer and promoter killed in a plane crash near Corpus Christi in August.

Williams said the bills had an artificial look because they were printed from an engraving of a photograph of a genuine \$100 bill. He said they had been looking for bills of that type ever since the August plane crash because they didn't believe the counterfeiters would stop after turning out just nine of the bills.

The Womack farm near this West Texas town was visited by a number of neighbors after Womack's mother, Mrs. Annie Womack, about 50, brought the bills wrapped in a yellow scarf to the First National Bank yesterday.

Bank officials said there were scorched marks on some of the bills, indicating someone had attempted to burn them.

Womack said he picked up money on his farm until he "just got tired of picking it up."

New Manager

Bob McClellan will become general manager of Radio Station KTXC here Nov. 15. He and Mrs. McClellan and their three children will move here from Midland where he has been program manager for KMD-TV. He was manager of KTXL in San Angelo before moving to Midland in 1953.

Big Spring (Texas) Herald, Sun., Nov. 11, 1956 7-A

Savings Stamp Sales Plan Set

School chairmen have been named and a tentative starting date has been set for the United States Savings Stamp sales in Big Spring Schools.

These plans were developed Friday at a meeting in the home of Mrs. H. L. Gahman, 1300 Tucson.

Plans now are to begin the sales in the elementary schools on Nov. 22. Thereafter (except on Nov. 29), stamps will be sold to the youngsters on Thursdays.

Chairmen announced at the meeting were Mrs. W. A. Cobb, College Heights; Mrs. R. J. Leighty, North Ward; Mrs. J. T. Thornton, South Ward; Mary Vasquez, Kate Morrison; Mrs. Varn Vigar, Airport; Mrs. B. L. Helth, Washington Place; Mrs. James D. Farmer, West Ward; and Mrs. Elwood Carlile, East Ward.

Each of these chairmen will name members of her committee to be responsible for the weekly sales.

Jordan-Israel Outbreak Now Threatened

WASHINGTON, Nov. 10 (AP)—A Defense Department spokesman said today it would not be surprising if "something breaks out" in the Jordan-Israel border area in the next few days.

The spokesman said the border situation there is becoming "potentially dangerous" while the picture in Suez grows brighter. Jordan, long engaged in raid-type warfare with Israel along their common border, was described as "impetuous," ready to jump off into full war without "thinking through" the possibilities. And Syria is of somewhat similar unpredictable disposition, the spokesman told newsmen. He declined to be quoted by name.

While United Nations truce forces were on the way to stabilize the Suez situation, the Israeli have been free to begin shifting their forces to face the menace from Jordan, Syria and other Arab nations concentrating troops in Jordan, it was pointed out. The raiding operations between the Israelis and Arabs quieted down for a time while the war in Suez flared up. But on the night of Nov. 7-8, small raids were launched into Israeli-claimed territory along a 30-mile section of the border.

The spokesman commented that these raids did not penetrate deeply and did not seem to be a concerted, organized campaign but that they did "make for a dangerous situation."

He expressed confidence in the ability of Israeli forces to deal with any organized attack by the Arabs, unless another major power, Russia, should move in with substantial assistance.

Error Made In Names In Suit

The Big Spring Herald wrongly printed on Oct. 22 that a divorce suit had been filed in the 118th District Court styled "Katherine Thornton versus Wallace Thornton."

This statement was not true. A divorce petition had been filed in the court that week, styled "Leatrice Thornton Versus Wallace Thornton Sr." Due to an unintentional mistake, the first name of the plaintiff was wrongly published.

The Herald regrets this blunder. It is happy to correct the record and apologize to the persons wrongly named in the report.

Bicycle, Batteries On Stolen Report

The first bicycle reported stolen here in over a week was listed as missing Saturday.

Marshall White of 1102 E. 15th told the police department that his bike was taken from in front of the Ritz Theatre Saturday morning. Stolen Friday were three batteries from the T&P Railroad, police said.

RETIREE CARRIERS CHESTER THOMAS, JOHN WILLIAMS
... With photographs of early-day mail rigs.

Colorado City Mail Carrier Ends 32 Years On Rural Route

COLORADO CITY, Nov. 10 (AP)—John S. Williams, who retired as rural carrier at Colorado City last week, plans to devote a little time to some serious fishing.

The 61-year-old carrier, who has devoted 32 years to delivering mail, has been a weekend fisherman for many years, and his fellow

employees presented him with a new reel and tackle box when he made his last round. He plans to visit a daughter in Corpus Christi in the near future and may try a line on some of the big ones.

Rural carrier positions are considered the most desirable of post-office jobs and when Williams' up-

coming retirement was announced, competition was keen among local employees who wished to transfer to the post. In the latter part of October, Postmaster S. A. Palmer was notified that the vacancy would be filled by the transfer of William R. Motley III, substitute clerk.

Motley is a veteran of World War II and has been employed for about eight years as a substitute city carrier and clerk. He has a wife and son.

Motley is the second postal employee to transfer to a rural route in the past three months. In August, Ed Mooser, assistant postmaster, transferred to Route 2 to fill a vacancy left by the retirement of carrier E. E. Smith.

Postmaster Palmer has pointed out that recent retirements and consequent changes of assignment has the great majority of Colorado City employees working at new jobs on the city and rural route and within the office.

Route 1 was the first route established at Colorado City (then simply "Colorado") and service began on Nov. 2, 1908, at an annual salary of \$900, "including horse hire." Chester Thomas, present day real estate dealer, was the first carrier to have the long sand dunes on Mitchell County lanes. He began service with a horse and buggy, but shifted to a motorcycle in 1912. Thomas became "tired of bucking those cold northers and sand beds" with a motorcycle and resigned in 1916.

In Thomas' time, the majority of roads were "just wagon ruts and cow trails," and one of the biggest steady sales he had, was for money orders to H. Brann & Co. That was a Fort Worth liquor store and Mitchell County was a "dry" county. His patrons ordered their whiskey shipped out and picked it up at the express office.

Thomas and Williams, between them, carried Route 1 for 40 of its 48 years of postal service.

Concert Association Ends '56 Membership Campaign

With the first program of the season just four days away, the Big Spring Concert Association is calling in its membership offers.

And as workers turn in their ticket supplies, the last chance for others in this area to take in what is regarded as the strongest all-around series of the association will be gone. No single admissions will be sold at the door for any of the performances.

"We believe we have our budget within sight," said Mrs. Clyde Angel, president. "Of course, we would love to have had more members, but we have to be glad that the membership campaign was a

coming to an end. So we are withdrawing the membership offer."

All workers who have not made their final report are urged to do this Monday, checking into the proper association officials or to Mrs. Floyd Mays, the membership chairman.

Mantovani and his world-famous 45-piece orchestra play here Thursday at 8 p.m. in the City Auditorium.

He is currently on his first transcontinental tour of the United States, and everywhere he has been the story is the same—enthusiastic reviews by the critics and spontaneous reaction by capacity audiences.

Mantovani has developed a distinctive style and system of arrangement which has won him the acclaim of making "new music." There is nothing—from the classics to the popular ballads of today—beyond the range of this versatile orchestra. His gifted musicians are equally at home on an aria or a contemporary waltz.

At the moment Mantovani is working back to the East after a swing to the West Coast. His appearance here will be his second in Texas.

Other programs booked on the series include the Chicago Opera Ballet, featuring Marjorie Tallchief and George Skibine; and the renowned First Piano Quartet.

Formby, Petry May Hold Road Talks In City

Two Texas Highway Commission members may come to Big Spring early next year for discussions on highway improvements proposed by Big Springers and other West Texans for this area.

Marshall Formby of Plainview, West Texas member of the commission, told C-C Manager Wayne (Red) Smith Saturday he would visit here in January for the highway talks. He said he also would ask Herb P. Petry of Carrizo Springs, another member of the highway commission, to be on hand.

Smith had invited Formby here for talks on propositions for extending State Highway 350 from Snyder to Aspermont and Knox City, construction of a new road from Gail to Post, improvement of roads leading to Lake J. B. Thomas, and inclusion of U.S. 87 in this area in the federal interstate highway system.

All of the projects have been under consideration by the local Chamber of Commerce Highway Committee, which Friday voted to invite Formby here.

Formby suggested that a joint meeting of all service clubs be arranged for a part of the discussions. Smith said another session, to which local officials and representatives of Snyder, Gail, Aspermont, Knox City and Post would be invited, probably will be planned.

The Chamber of Commerce also will invite Petry to the meetings, Smith said. He reported that Formby will be unable to come here until after Jan. 1. Highway Committee members had asked that the highway commissioner be invited to visit Big Spring in the next few weeks.

LOOKING 'EM OVER

With Tommy Hart

The co-coaching arrangement instigated at the local high school this year, unique in Texas schoolboy circles, is working out fine, if you take the word of the other mentors on the staff for it. Roy Baird and Harold Bentley, who agreed to take the job on that basis, have delegated assignments so that no one is complaining of overwork. Everyone agrees, too, that the two have gotten the most out of their material. They should rate a lot of consideration when it comes time for the school board to start making plans for next year. Monterey's Plainmen of Lubbock, one of the area's finest basketball teams last year, recently defeated the other Lubbock team, Lubbock High, 54-51, in a scrimmage. Dale Glazey led the Plainmen in scoring with 15 points. Tony Godsey bucketed ten. Monterey would probably have won its conference championship in any district other than 1-AAA last year, where Palo Duro of Amarillo reigned supreme. Carmen Basilio, youngest of the world's championship boxers, will be 30 years of age next April. All clubs were pronounced ready to try it again when the Southwestern Baseball League held a recent winter meeting but there are reports both Carlsbad and Ballinger would like to transfer their franchises to Lubbock. It's possible to score a touchdown in football this season before a second of playing time has elapsed on the clock. Present regulations say a player on the receiving team must "legally touch" the ball before the clock begins ticking off the seconds. If the receiving team fails to touch the ball and it rolls into the end zone, a member of the kicking team can fall on it for a TD. At 125 pounds, halfback Speedy Nolan is the smallest member of the San Angelo Bobcat football team. The Big Spring Steers will be meeting next Friday. Is Pat Stasey about to make the big switch from Hobbs to San Angelo?

Hogs Can Improve On 17-7-1 Record

Although he is not the same type ball player as Christoval's Jack Pardee, Forsan's Pat Brunton could make a whale of an 11-man footballer in college. Brunton is fast, boasts great staying power and is quite a bruiser. HNU wanted to send its freshman football team here Thursday of next week to play the Goodfellow AFB team of San Angelo but couldn't get the proper encouragement. He was asked for a \$500 plus two meals each for members of the Goodfellow team. UCLA probably tried harder to beat Stanford than any other team on its schedule this year because they think school officials up that way did a good hatchet job before the football scandals broke out on the coast. The UCLA band had rehearsed the song, "When The Saints Come Marching In," before last week's game but never did play it, for some reason. Michigan played to an average attendance of \$5,540 paying customers for each of its first five home games this season. Another candidate for the year's "hard luck player" is Leveland's Jimmy Johnson, an ace

Brunton Would Go Good In College

There are reports the former Breckenridge mentor, Joe Kerbel, is unhappy with his present position at Amarillo High School and may move on when propriety dictates. In event you haven't heard, Southwest Conference football teams have a 17-7-1 won-lost-tied record against outside competition this season and get a chance to improve on that mark when Arkansas plays LSU Nov. 24. Despite its 1-5 record, Texas Tech has compiled more victories since the start of the 1951 football season (Coach DeWitt Weaver's first year at the helm) than any other major college in Texas. The crowd for the Big Spring-Kermitt game several weeks ago was considerably below pre-game estimates. The cash intake amounted to \$3,133.24, which means not more than 3,500 witnessed the clash. Kermitt observers had looked for a turnout of between 5,000 and 6,000. Big Spring will open its 1957 football season with Andrews here the night of Sept. 13. The Steers' second game

Auburn Bests Mississippi State With Late Touchdown

AUBURN, Ala., Nov. 10 (AP)—Auburn drove 80 yards for a touchdown in the closing minutes of a wild offensive football battle to defeat Mississippi State 27-20 today. Terrific performances by halfbacks Tommy Lorino and Bobby Hoppe had given Auburn a 20-7 lead, but State rallied in the final quarter for two touchdowns to make it 20-20 with seven minutes left. Quarterback Jimmy Cook threw a 33-yard pass to end Jerry Elliott for the winning marker. Lorino, carrying the ball only eight times, ran for 82 yards, in-

Beavers Bid For Rose Bowl

PALO ALTO, Calif., Nov. 10 (AP)—Oregon State beat Stanford's John Brodie at his own passing game today, edging the Indians 20-19 and virtually wrapping up its first Pacific Coast title and Rose Bowl bid since 1941.

The Beavers probably would meet Iowa, victor over Minnesota 7-0 today, in a rematch in the Pasadena bowl. Iowa beat Oregon State 14-13 in an early season game. Trailing 19-14 midway in the fourth quarter today, Oregon State's fullback, Tom Berry, picked off one of Brodie's passes at the OSC 49. Six plays later, tailback Joe Francis passed 21 yards to end Frank Negri in the end zone for the winning score. Including a 31-yarder for a score and an 18-yarder to set up another. He clinched the victory with a neat pass interception to cut off

Aggies Crush Methodists To Nail Down Top Spot

By HAROLD V. RATLIFF, DALLAS, Nov. 10 (AP)—Texas A&M's scythe-like ground attack featuring mighty John Crow and a defense that rattled Southern Methodist to its cleats swept to a crushing 37-7 victory and first place in the Southwest Conference football race today. The roughhouse Aggies were rolling on undefeated toward the Cotton Bowl and their first championship in 15 years. Two games away are the title they have wanted for so frustratingly long. It was the worst defeat A&M had administered to the Methodists since 1944 when the Aggies won 39-6. Crow smashed to two touch-

downs on runs of 15 and 13 yards. Little Don Watson raced 23 yards for another, substitute fullback George Gillard skipped 44 yards for a fourth and reserve end Don Smith made the fifth with an 8-yard pass reception. A crowd of 62,500 watched the talented Aggies do everything right, including the interception of three of SMU quarterback Charley Arnold's passes, two of which set up Aggie touchdowns. An SMU fumble gave the Aggies the opportunity to make another. The Methodists scored in the last two minutes against Aggie reserves with Arnold's passing

carrying them on a 71-yard drive. Charley Jackson got the touchdown and swept 70 yards to a touchdown despite 20 yards in penalties. An 11-yard run by Crow got them moving but the key play was a fourth-down gamble in which Osborne sped 19 yards on a laked punt to set the ball in SMU territory. A 21-yard run by Taylor figured strongest in the drive. It set the ball on the SMU 15 and from here Crow whirled around right end for the score. Taylor missed the conversion. Bobby Conrad intercepted a

pass to set up another Aggie touchdown just before the first period ended. Conrad took it on the Aggie 47 and scattered to the SMU 35. Richard Gay and Conrad hammered to the SMU 23 and Watson circled left end for the score. Taylor again missed the extra point. The Aggies were back threatening again, as the second period opened, on a 56-yard punt return by Crow that put the ball on the SMU 29. But SMU braced and through the aid of Aggie penalties took over on its 45. The Methodists rambled down to the Aggie 13 on the passing of Larry Click, substituting for Arnold, but passes failed here and the Aggies took over. An SMU fumble set up a third Aggie touchdown just before the half ended. Click dropped the ball and guard Jim Stanley recovered on the Southern Methodist 34. Jack Pardee gouged out nine yards in two runs and Osborne made it first down on the 18. Osborne got five in two tries and Crow circled right end to the touchdown. Taylor kicked the extra point. The 44-yard dash by Gillard brought the Aggies another touchdown midway of the third period. Watson had taken a punt back into SMU territory when, on the first play, Gillard cut over left guard and slanted to the sidelines to fall across for a touchdown at the corner flag. Bobby Conrad converted. SMU managed to get out of its territory late in the third period, driving to the Aggie 40 but was halted by a tightened Aggie defense. The Aggies romped to the SMU 11 and seemed on the way to another touchdown but Jim Wright, reserve quarterback, fumbled and Ray Masters recovered for SMU. Gene Stallings intercepted an Arnold pass on the Aggie 40 to set up the final A&M touchdown. Wright's passing swept the Aggies to the SMU eight and here Wright pitched to Smith in the end zone for the score. Then, in the fading minutes, SMU came to life for its touchdown surge. Masters was the leading ground-gainer for SMU with 30 yards while Jackson had 21. Arnold completed 10 of 24 passes for 97 yards. The upset came before 23,000 fans, many of them partisan Texas Christian followers—this was a game trip for the TCU student body. It was the biggest home crowd of the season for Tech, and the Raider partisans got their money's worth. It was no fluke win. From the opening, shattering score, through the final tally, it was mostly Red Raider, except for the brief Horned Frog struggle as the second half opened. In final desperation, Charlie Curtis tossed passes all over the field in the last quarter, but they got the Frogs nowhere. It was that first touchdown by the Raiders that electrified the crowd. Duke Frisbie took the TCU kickoff on his 12 and flitted to his own 36. Gene Bentley, No. 1 fullback, picked up 4 to the Tech 41 and was injured. Dixon, a strong offensive man, was picked as Bentley's substitute over Doug Duncan, more noted on defense. Dixon took a handoff, slashed over right guard, cut to his left to pick up blockers and was gone for the touchdown.

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, SUNDAY, NOVEMBER 11, 1956 SEC. B

Raiders Torpedo Frogs In Classic Upset, 21-7

By ROBERT E. FORD, LUBBOCK, Tex., Nov. 10 (AP)—A third string Texas Tech fullback, Charlie Dixon, dashed off the bench today to start a rout of Texas Christian University in a shocking upset of the defending Southwest Conference champions. The final score was 21-7. Tech did almost everything right in the first half, then arose with new fury in the final quarter to

throw Texas Christian for repeated losses, or hold the Horned Frogs to no gain. A desperate TCU passing attack in the fourth period got nowhere. Dixon scored on the third play from scrimmage—a lightning strike when the clock had ticked off only 33 seconds. He subbed for Gene Bentley who was injured on the first scrimmage play. From then on, it was all Red

Raider. Hugh Fewin made two more tallies, one on a two-yard plunge and another on a lateral from Don Williams on the Texas Christian 15, a play that covered 21 yards. The second score came in the second period and the third tally in the fourth. Williams converted after each touchdown. Texas Christian whipped up a storm at the start of the second half, going 60 yards in 10 plays to score with all-America Jim Swink making it from 9 yards out. Harold Pollard converted. It was a glittering triumph for the member-elect of the Southwest Conference which had suffered one of the worst seasons in its history until today. The Raiders up to this bright Texas Tech victory had lost 4, won one and lost one. Texas Christian, 17th this week in the Associated Press football rankings, had won four and lost two. The upset came before 23,000 fans, many of them partisan Texas Christian followers—this was a game trip for the TCU student body. It was the biggest home crowd of the season for Tech, and the Raider partisans got their money's worth. It was no fluke win. From the opening, shattering score, through the final tally, it was mostly Red Raider, except for the brief Horned Frog struggle as the second half opened. In final desperation, Charlie Curtis tossed passes all over the field in the last quarter, but they got the Frogs nowhere. It was that first touchdown by the Raiders that electrified the crowd. Duke Frisbie took the TCU kickoff on his 12 and flitted to his own 36. Gene Bentley, No. 1 fullback, picked up 4 to the Tech 41 and was injured. Dixon, a strong offensive man, was picked as Bentley's substitute over Doug Duncan, more noted on defense. Dixon took a handoff, slashed over right guard, cut to his left to pick up blockers and was gone for the touchdown.

Late Field Goal Provides Baylor With 10-7 Victory

By DAVE CHEAVENS, WACO, Nov. 10 (AP)—Baylor reserve halfback Donnell Berry's 19 yard field goal from a tough angle gave the Bears a 10-7 victory over the Texas Longhorns in a Southwest Conference game here today. Berry, out of play until today because of severe burns suffered in a pre-season fire, came in for the first time this season to give the Bears the necessary margin. Last year Berry's failure to kick an extra point gave Texas a 21-20 victory over Baylor.

Baylor opened and closed the scoring in a game with little sparkle outside of a 55-yard touchdown run by Baylor's fleet halfback, Delbert Shofner. Shofner's score came early in the second period. He led the runners with a total of 123 yards on six carries. Texas came back late in the second period with a series of deceptive drive plays that baffled the usually-good Baylor defense for its only score. The touchdown after the 63 yard drive came on a short pass from quarterback Joe Clements to halfback Clair Branch. Berry was burned in a gasoline fire at a National Guard armory at his home town of Temple in September and returned to practice only two weeks ago.

Sooners Set Another Mark AMES, Iowa, Nov. 10 (AP)—Oklahoma's flashing speed swept past Iowa State 44-0 today to give the Sooners an official, all-time national college winning record of 37 consecutive games. The Sooners owned today's Big Seven Conference victory with less than five minutes played in the first quarter when Tommy McDonald plunged one foot for the first of his two touchdowns. McDonald's touchdown twin, halfback Clendon Thomas, also accounted for a pair of touchdowns on plunges of less than one yard.

Iowa Upsets Gophers, 7-0

MINNEAPOLIS, Nov. 10 (AP)—Reurgent Iowa sent its Rose Bowl hopes soaring today with a 7-0 upset victory over Minnesota in a jungle-law battle decided by Hawkeye alertness in the face of game-long Gopher fumbling. Iowa, all but counted out of the Rose Bowl sweepstakes after losing to Michigan last week, stormed 38 yards to a touchdown in the first quarter behind the line strikes of Don Dobrino and Bill Hoppel and the clutch passing of quarterback Kenny Ploen. Fullback Fred Harris bucked over from the 1 on first down and Bob Prescott converted.

Odessa B Blasts Big Spring, 51-0

ODESSA, Nov. 10 (SC)—The Odessa B team poured it on the young Big Springers here tonight, to the tune of 51-0. Odessa scored six points in the first quarter, 18 in the second, 20 in the third, and slacked off with seven in the final 12 minutes. Most of the Odessa yardage was made on the ground, while the Big Spring Bees came up with 94 through the air. For Big Spring, Lanny Hamby and Benny McCrary were outstanding on defense, and McCrary and Scotty Ellison were the offensive standouts.

Janak May Be Out For Season

Johnny Janak, speedy halfback and a sparkplug of the Big Spring Steers, is likely out for the season. He sustained a severely bruised hip in Friday's game with Midland. At first it was feared he might have sustained new hurt to an old groin injury. He may be hospitalized for a day or two, and it is unlikely that he will be used in the final game of the season Friday at San Angelo.

Yearlings Lose By 13-7 Score

Big Spring's Yearlings lost a hard-fought football battle to Crockett of Odessa, 13-7, Saturday night. Two successive holding penalties after the Yearlings reached the Odessa four late in the last quarter stole victory from within their grasp. Big Spring scored on its third play of the game with Freddy Brown breaking clear on a quick opener and sprinting down the sideline. J. B. Davis ran the extra point across. Odessa scored on the first series of plays of the third quarter. After receiving the Crockett kickoff, Big Spring fumbled after one play and Odessa scored again. Gordon Bristow, the Yearling quarterback, completed four of five passes.

16th Olympic Games To Open In 11 Days

By ED CORRIGAN
The Associated Press

The 16th edition of the modern Olympic Games begins in Melbourne, Australia, in just 11 days with the vision of wartime destruction still fresh in the minds of some athletes. Six nations, Iraq, Red China, Egypt, Holland, Switzerland and Spain already have withdrawn in the face of world tension. Others have been debating the best course of action. Originally, there were 75 nations entered, an all-time record. Still, if there are no other withdrawals, about 3,500 athletes will vie for gold medals in 17 sports. Two short months ago, the main worry of Olympic officials was accommodating the anticipated influx of visitors to Melbourne. But crisis after crisis has these same officials struggling to keep the games together. With each passing day accusations are hurled back and forth among nations. Some even have injected politics into the games. All this would have grieved Baron Pierre de Coubertin, the founding father of the modern Olympics. When he began his movement in 1896, his idea was to bring the athletes of the world together in friendly competition. He wanted the sportsmen to get to know and respect each other and in that way bring brotherhood to the nations of the world.

Local Boys Help McMurry Cause

ABILENE (Sp) — Three ex-Big Spring High School Steers are helping carry the McMurry Indian attack this season. The ex-Steers on McMurry's 33-man traveling squad are Bob Hayworth, senior quarterback; Tommy McAdams, sophomore quarterback; and Wylie Wise, sophomore end. Hayworth and Wise are on McMurry's second unit, and McAdams is the Tribe's No. 3 signal caller. The son of Mrs. Kila Hayworth 902 Bell St., Bob has missed three games this season with a knee injury. He returned to action three weeks ago, and turned in a fine performance recently against Howard Payne. Hayworth completed two of four pass attempts against HPC for 30 yards, to bring his total for the season to 7 completions on 14 attempts for 85 yards and a 500 per cent. He also recovered a Howard Payne fumble. Wise was on the receiving end of one of Hayworth's tosses, the second he has caught for the Indians this year. The 200-pound sophomore also intercepted a pass for the Tribe against the University of Corpus Christi. Wise is the son of Odie Wise, 1608 Owens St., Big Spring. McAdams, who has seen only limited action with the McMurry varsity, has led the college's B-team Papooses to two victories. Most recent and most spectacular of McAdams' performances with the Papooses was a 17-14 win over the Goodfellow A1. Force Sky-hawks last week in San Angelo. With the score tied at 14-all and only four seconds remaining in the game, McAdams booted a field goal from 19 yards out at a difficult side angle to score the victory margin for McMurry. Against Goodfellow, McAdams al-

Sterling Upset By Christoval

STERLING CITY, Nov. 10 (SC) — The Christoval Cougars sprang a classic upset here Friday night, turning back Sterling City, 40-39. The defeat was the first of the year for the Eagles and dropped them into a three-way tie for the lead with Merton and Forsan. Curtis Vaughn scored 19 points for Sterling. Wayne Solomon had 13 and Clyde Wilkinson had seven. The Cougars were driving for another score when the game ended. The final whistle caught them on the Eagles' 15. Melvin Foster counted 18 points for Sterling. Lynn Glass had 14, Bill Young six and Kelton Gaston one. Christoval's won-lost record in conference play is 2-2.

Coahoma Loses To Rotan, 19-6

STORY IN FIGURES
First downs 11 13
Rushing yardage 146 250
Passes 2 of 7 0 of 5
Passes intercepted by 2 for 36 2 for 54
Yards penalized 1 1
Fumbles lost 1 1

ROTAN, Nov. 10 (SC)—Rotan insured itself a high finish in District 6-A football standings by belting the Coahoma Bulldogs here Friday night, 19-6. Coahoma scored first when Don White barreled over from the one in the second quarter. The drive went 95 yards and was highlighted by sprints of 19 and 50 yards by White, Coahoma's leading candidate for all-conference honors. Rotan scrapped back to go ahead before the period was out when Jackie Waggoner passed to Benny Ivey for the tally. The play covered 45 yards. Waggoner then passed to Ivey for the extra point. The Yellow Hammers didn't score again until the fourth period, when George Bridges powered over from the two. Later, Bridges helped ice away the decision by a 10-yard run for a TD. Waggoner had set up the touchdown with a 45-yard run.

Lions Fall Again

HANOVER, N. H., Nov. 10 (AP)—Little Lou Rovero, a speedy senior sideline with an injury most of the season, sped 68 yards for one touchdown and set up another with some brilliant running today to lead Dartmouth to a 14-0 victory over Columbia in an Ivy League football clash.

Stanton Loses Offensive Thriller To Plowboys

STANTON, Nov. 10 (SC)—Stanton's Homecoming ceremonies Friday were marred by only one thing — the crushing ground game of the Roscoe Plowboys. As a result, the Stanton eleven found itself on the short end of a 34-26 count in the football game Friday night. The Plowboys roared to 396 yards on the ground while marching to the 6-A conference win. Roscoe is coached by former Big Spring Cliff Patton. The Buffs showed a supremacy in the air but their aerial game was no match for the force of Roscoe ball carriers. The entire contest, Roscoe failed to show a gain on only four plays. On three, they were stopped at the scrimmage line, and they were dropped for a loss once. Jack May, a hard-running halfback, personally accounted for 190 of the Plowboys' yards in 17 carries. Three of the 17 runs went for touchdowns. May countered the first time to put Roscoe in the lead midway of the first quarter. Roscoe received the opening kickoff and scored before losing the ball. The drive

originated on the Roscoe 27, and it took nine plays to score. Big gainer in the drive was a 23-yard scamper by Zane Richburg on the second play of the game. May skirted his own left end for the six points, and Delbert Smith kicked his first of four extra points. Stanton knotted it — scored five yards deep in the second period when Rodney Myrick fell into the end zone after taking a 15-yard pass from Delton Chesser. Delbert Donelson kicked the extra point. The tie lasted only a few plays, however, as the Roscoe eleven roared back with the kickoff and scored in eight plays. Of the 71 yards needed to go on the drive, May accounted for 44 on two plays, and the second — which went for 18 yards — set up the touchdown. Larry McBurnett scampered around right end for the TD to put the Plowboys out in front for keeps. With the aid of a recovered fumble, Roscoe went to work again after four plays. The Plowboys took over on the Stanton 44 and reached pay dirt in five downs. May started the drive with a 21-yard race down the sideline and scored the TD from the 10. Smith's conversion pushed the score to 21-7 with only about a minute remaining in the half. But the score was not destined to read that at the intermission. Stanton started to work on its 36 after the kickoff, but a five-yard penalty set the Buffs back to the 31. Phil Foreman gained nine. And

on the next play, Dwayne Thompson dropped back and fired a pass to M. J. McDonald. McDonald gathered in the aerial on the Roscoe 40 and proceeded to outrun the defenders to the goal. The Farmers added to their lead on the 10th play of the third period when McBurnett roared over his right tackle for six. The play started on the five-yard line. May in the five-play drive contributed a run of 41 yards up the middle to set up the TD. Stanton's Donelson pulled in a Roscoe pass in Buff territory and returned it to the Plowboy 45 to start Stanton toward a touchdown. Thompson scored on a keeper play from the 11 after Donelson had moved the ball to that point on a 12-yard run. Following the kickoff, Roscoe crushed to another tally with May going the last eight yards on a

reverse. The counter was the last for the Farmers, but the 34-point total was sufficient. Stanton did counter again however with Rodney Myrick crossing the goal. Starting the drive, Stanton threw two incomplete passes before Thompson connected with Myrick on a screen pass. The play went for 40 yards, from where the Buffs hugged the ground and moved to the two. Donelson added the 26th point, and scoring was over for the game. Roscoe was on the move again however when the game ended. During the halftime exercises, Jan Nichols was crowned Homecoming Queen by the football captains. The Buffs close the grid season next Friday, meeting Coahoma on foreign soil.

"Where Moving is a Business, Not a Sideline!"

The entire squad was then sent into training in southern Russia. All this time the world's amateurs were questioning the Russian methods. Some flatly accused the Russians of being professionals. Avery Brundage, the American president of the International Olympic Committee, made a trip to Moscow and reported that the Russians told him they were observing the Olympic pledge. The Russians mean business. They spent almost a million dollars in training and equipping their team. They'll improve, but in general it appears that if they want to manufacture points, they are going to have to do it in women's track and gymnastics. One of their gymnastics, Vladimir Tchoukarine, competed in seven events in the '32 games in Helsinki and came out with 42 points. The point totals, incidentally, are unofficial. The IOC does not recognize any team competition in the United States. 10 points are awarded for a first place, five for second, four for third, three for fourth, two for fifth and one for sixth. Under that system, the United States was high scorer in the last Olympics with 614 points. The Russians were second with 553.

In track and field, again is the dominant power despite the Russians' efforts in this direction. The American team, under Coach Jim Kelly of the University of Minnesota, very well could match its staggering output of the '32 games and win 14 gold medals. The point totals, incidentally, are unofficial. The IOC does not recognize any team competition in the United States. 10 points are awarded for a first place, five for second, four for third, three for fourth, two for fifth and one for sixth. Under that system, the United States was high scorer in the last Olympics with 614 points. The Russians were second with 553.

MOUNTAINERS WIN OVER SOLDIERS
MORGANTOWN, W. Va., Nov. 10 (AP)—West Virginia's Mountaineers rode to their 29th straight Southern Conference football victory, 13-6, over Virginia Military Institute today on the arm of quarterback Alex Szech and running of fullback Noel Whipkey. The sparse Mountaineer field gathering of 12,000 sat through the cold, gray afternoon to see West Virginia score a touchdown the second time it got its hands on the ball. ed out to Scott and Scott scored. Feagan made it 21-0. The Wolves took the kickoff and marched 62 yards, but the half-time horn sounded as the Wolves marked up a first down on the three. The third quarter was played in the Sweetwater end of the field, and the Wolves were inside the Mustang 20 on two occasions, but were unable to punch over a score. On the first play of the fourth quarter, Sweetwater's Taylor Daniel carried 13 yards and fumbled on his 40. Colorado City recovered and scored in seven plays. Bancker Cade made 5, a pass from quarterback Richard Compton to end Jim Richardson was good for a first down. Don Black made 2, and a pass from Compton to Richardson netted 22 yards and set the ball on the five-yard line. Black picked up two at tackle, a penalty franked the ball to the one and Roy Mapples scored standing up. Joe Maddox, Colorado City guard, converted. John Bryant, Mustang back, picked off one of Compton's passes to set up the next score. Bryant went down on the Wolf 35. Galtner faked a handoff, broke into the clear and scored. Feagan added the point. The final score capped the only long, sustained drive in the game. The Mustangs went 76 yards to score, with the snapper being a 26-yard pass from Bryant to end Johnny Wilkinson. Feagan fumbled his first point try to leave the final score at 34-7. Colorado City plays at Snyder next week in another conference game. The Wolves have lost eight straight this season and will be underdogs at Tiger Town.

COLORADO CITY Nov. 10 (SC) — The Sweetwater Mustangs found a Wolf at their door Friday night, and in a switch ending of the old fable — used his hide as a welcome mat. The Hosses from Nolan County thundered over the Colorado City Wolves 34-7 in the District 3-AAA game played at Colorado City. A blocked punt set up the first Sweetwater TD, about two minutes deep in the first quarter. The Wolves sent Big Jim Windham back to kick from his 10 and the charging Mustang line broke through to block his kick which bounded back into the end zone. Mustang tackle Sammy Glass covered for the score and Jimmy Feagan converted. The Wolves played on even terms with the wild hosses until the final minutes of the second quarter when the Mustangs broke out with a brace of touchdowns. The first came when Colorado City kicked out to the Mustang 46 from deep in their own territory. A line play, a pass and a penalty took the ball down to the 13-yard line and Eddie Scott, Mustang back, swept left end for the score. Feagan converted the EP. The Wolves set the Mustangs up in business again when they fumbled the kickoff. Sweetwater recovered on the Wolf 21. Taylor Daniel rammed the line for a yard, quarterback Ardis Galtner pitched

Cardinals And Giants Square Off In Vital NFL Contest

By The Associated Press Four teams ruled the National Football League roost today and with the race heading into the last half of the schedule they must keep on winning in order to get a crack at the playoff prize.

Perhaps the most important struggle of the day will be in Yankee Stadium, where the Chicago Cardinals and New York Giants battle for first place in the Eastern Conference. The Cards and Giants are tied for the lead, each with five victories and a lone defeat.

In the Western Conference, the unbeaten Detroit Lions will try to make it seven in a row, playing the Redskins in Washington's Griffith Stadium. The second-place Chicago Bears, sporting a 5-1 mark, entertain the Green Bay Packers in Wrigley Field.

Also on tap are: Baltimore Colts at Cleveland Browns, Pittsburgh Steelers at Philadelphia Eagles, San Francisco 49ers at Los Angeles Rams.

The Giants will have to devise ways of stopping Lamar McHan, Cards' quarterback, who was the main cog in Chicago's early season 35-27 win over New York. Last week McHan fired four touchdown passes as the Cardinals beat Philadelphia 28-17.

New York had a tussle before beating Pittsburgh last Sunday, 17-14, with Ben Agajanian's field goal the margin of victory.

Detroit also had a squeaker, finally downing San Francisco 17-13, after another 49er touchdown was nullified in the final two minutes by an offside penalty.

It was Washington which handed the Cardinals their only loss, a 17-14 job two weeks ago. The Redskins, along with Baltimore, were idle last week, and should be primed for the Detroit invasion.

Cleveland, a perennial leader in the East, is deadlocked for last place with Philadelphia and Pittsburgh, each 2-4.

The Bears appear too much for Green Bay, having trimmed the Packers several weeks ago, 37-21. Los Angeles already has defeated San Francisco this year, 33-30, while Philadelphia holds an early

Pound for pound, it's... the most powerful truck ever built!

New GMC light duties with 206 h.p. and new styling advances bow to no passenger car on any point of roadability

HERE, headlining GMC's 1957 Blue Chip Money-Makers, our new light duty becomes a truly phenomenal vehicle. It has one horsepower for every 15 1/2 pounds of its weight. You'll be bossing around engine power usually found only in trucks rated at more than four times this truck's capacity.

TO PAY BY CHECK

You'll find it good business to make a habit of paying all your bills by check. Your cancelled checks are valid receipts and your stubs give you an up-to-date balance at a glance.

First National Bank IN BIG SPRING

Hillin On The Loose

One of the many Midland backs who gave Big Spring a lot of trouble Friday night was Bobby Hillin (14), above with the ball. He had picked up a sizable gain before Jimmy Evans, nearest the camera, came in for the tackle. Others pictured are Danny Birdwell (81) and Bobby Lawdermilk (80). Midland won, 46-0.

Midland Bulldogs Kayo Big Springers, 46-0

Table with 2 columns: Midland and Big Spring. Rows include First Downs, Yards Rushing, Yards Passing, Passes Completed, Passes Inter. By, Points, Average, Own Punt/Block Rec, Penalties.

Midland's Bulldogs handed the Big Spring Steers their most decisive trouncing of the season here Friday night, winning, 46-0. Not even the Abilene Eagles manhandled the Longhorns like the Purple and White, who ran through and around the locals at will. The Bulldogs seemed to be able to score when ever they felt like it and they obviously were in the mood.

The crippled Steers, defending more poorly than they have all year, never mounted a threat until the very end, when they hammered their way down to Midland's 21 against the Bulldog reserves. Working his left arm like a semaphore, quarterback Larry Cooper threw the Big Spring camp into utter confusion when he took the ball. The Steers never quite knew what to make of him or how to get him down. He had all kinds of help, too—young men who were eager to get in their licks against the Steers.

Big Crappie Are Hungry At Lake J. B. Thomas

Crappie fishing was never better at Lake J. B. Thomas than now. Cooler and even cold weather seems to have made the big ones hungry. Tommy Huttox and Jake Hancock pulled out big crappie almost as fast as they could bait their hooks, reported H. C. Reid, lake patrolman. Mr. and Mrs. J. Tom Rogers took home a nice string, too. Mr. and Mrs. Quinon Reid spent a day at the lake and hooked 30 big fat crappie. Just to show her versatility, Mrs. Reid got a 5 1/2-pound yellow cat. As for the biggest catfish, you can usually count on Henry Moates or Marvin Dupre — and this time it was Dupre. The Vincent fisherman took a 16 1/2-pounder off his trotline. Buster Broughton cancelled plans to go to Lake Buchanan and concentrated his fishing on Lake Thomas. Everyday in the week he caught his limit of crappie, and in addition he got four catfish from three to five pounds. Bass fishermen weren't out in numbers, but the patrolman threw out a silverspoon plug just to see what would happen. He proved that

after the Bulldogs had recovered a Steer fumble on the Midland 47, Hedges' boot made it 27-0. Midland beat the half-time clock to score again, Cooper flipping a pass into the end zones to Don Hammock. A short punt that sailed out of bounds on Big Spring's 26 had given Midland possession. This time, John Bennett kicked the point and the score mounted to 34-0. Midland scored once in the third and its final tally in the fourth. On both occasions, reserve back L. G. Cornish broke loose for the scores. The first time, he rolled 33 yards to the payoff window, at the end of a 59-yard drive. He got his second of the night 4:08 minutes deep in the fourth

TIED FOR FIRST Buffaloes Trounce Bearcats, 64-31

FORSAN Nov. 10. (SC) Forsan bombed Garden City, 64-31, here Friday night and moved back into a tie for first place in District 8 six-man standings with Mertzon and Sterling City. The Buffaloes scored in every quarter and were limited to one TD in only one period — the third. They closed out with a 22-point fourth round. A 22-yard pass play from George White to Johnny King scored the Buffs' first tally in the opening period. Ronnie Howard kicked for two points. Another pass from White to Pat Brunton, good was 50 yards, added six more points to Forsan's aggregate in the first. A handoff from Brunton to White moved the ball four yards for the Buffs' third TD in the initial period. Garden City got a tally in the first on a pass from Lorin McDowell to Doug Gray, good for two yards. Forsan picked up 14 additional points in the second. A 38-yard run

following a handoff from White to Brunton, provided the Buffs with one TD. A pass from Brunton to Howard, good for 28 yards, accounted for another. Howard also kicked a PAT. A handoff from White to Gary Starr went 50 yards for another Forsan tally in the third and Howard added two more points with a kick. Garden City closed the gap, however, by scoring twice. Jimmy Davee, who was injured later, went three yards for one score. A pass from McDowell to Bobby Fisher got the extra point. Then Milton Mow traveled four yards for still another Garden City tally. Most of the offensive fireworks took place in the fourth. Gary Starr scored on a 35-yard run, after which Howard again found the uprights with his conversion try. Tony Starr zipped 34 yards for the 56th Forsan point, and Howard made good on his PAT try. Garden City clocked on a pass from McDowell to Frank Murphy, good for 15 paces but Forsan fought back to score again when White passed to Charles Skeen for 30 yards and a TD. Garden City wound up the scoring for the night on a 30-yard pass play from McDowell to Murphy. Otto Willis, sophomore end, and Skeen were among stickouts for the Buffaloes.

Gay Hill, Elbow Team Split Four

GAY HILL, Nov. 10 (SC) — Teams representing Gay Hill and Elbow split four basketball games here Friday night. The Elbow PeeWee girls won, 18-4. Morton tossed in 16 points for Elbow. Carr and Holt each had two for Gay Hill. The Elbow PeeWee boys, still undefeated, won a 16-10 verdict. O'Brien had 16 for Elbow. Buchanan six for Gay Hill. The 'big' girls representing Gay Hill won, 59-31. Gwen Parker had 22 points for Gay Hill. Newsom collected 16 for the losers. Gay Hill's 'big' boys also won, 45-32. Jim McEachern led Gay Hill with 14 points. Seal counted 10 for Elbow. Gay Hill goes to Vealmoor Tuesday for games.

Newcombe Gets Ike's Support

TOKYO, Nov. 10 (AP)—President Eisenhower told Dodger pitcher Don Newcombe that "I for one was pulling for you" in the World Series but "hard luck is something that no one in the world can explain."

In a personal letter to the big pitcher, who was pounded out of the box twice in the series with the New York Yankees, President Eisenhower said: "Every athlete in every sport in the world knows that some days things just don't break right."

The President, in his letter delivered through the American Embassy in Tokyo, added: "I think I know how much you wanted to win a World Series game; I for one was pulling for you. But I suggest when you think over this past season, you think of the 27 games you won that were so important in bringing Brooklyn into the World Series. Good luck in Japan."

Newcombe has had bad luck in Japan. He was batted out of the box in his first appearance against a Japan team, without getting a batter out. He complained of a sore arm that prevented him from throwing curves and has appeared only in pinch-hitting roles since then.

Newcombe, criticized for failing to win a World Series game, said his throwing arm has hurt him since the last game of the regular National League season against the Pittsburgh Pirates. The President said the first game of the World Series in Brooklyn in which Newcombe did not appear.

Knott Tournament Is Cancelled Out

KNOTT, Nov. 10 (SC) — The bi-annual Knott Invitational Basketball Tournament, which was to have been held Dec. 6-7-8, has been called off. Instead, the Hill Billies will enter tournaments at Stanton Dec. 12-13-14, at Sterling City Jan. 10-11-12 and at Klondike Jan. 23-24-25 this season.

Carpenter, Gregory Star As Abilene Wins, 46-7

ABILENE, Nov. 10 (SC) — Odessa threw up surprising resistance but lost a 46-7 District 2-AAAA decision to the mighty Abilene Eagles here Friday night. The Bronchos did have the satisfaction of scoring the second touchdown of the season on Abilene's A team. Abilene recovered a fumble on the first play from scrimmage and scored when Jimmy Carpenter scored on the second play of the series. A minute and 10 seconds had elapsed on the clock. Jimmy Carpenter roared 55 yards to a tally the next time Abilene got its hands on the ball. Glenn Gregory converted to make it 13-0. The Eagles counted again before the quarter was out, when Carpenter broke loose on a 31-yard run. Odessa scored with two minutes left in the half following recovery of an Abilene fumble on the 22-yard 33. Dick Murphy powered over from the one. Aroused, Abilene scrapped back to get a tally before the period ran out. Gregory flitted 66 yards across the double stripes and then kicked the PAT to make it 26-6. Abilene marched 57 yards for a score without losing possession when play was resumed. Fullback Bill Sides moved across from the one. Gregory converted again and it was 33-6. Shortly before the end of the pe-

Knott Breaks Losing Skein

KNOTT, Nov. 10. (SC) — The Knott Hill Billies saved the best for the last here Friday night, defeating the Flower Grove Dragons, 33-31, in their final six-man game of the season.

It was the first win of the year for the Billies, after nine defeats and it was decided on the strength of extra points made by Bruce Parker, Buck McNew and Luther Witt.

Knott trailed late in the game, 31-26, but Thomas Day scored on a five-yard run that put the Billies ahead to stay. It was Day's second touchdown of the contest. He also counted a six-pointer in the first, also on a run of five yards. McNew counted touchdowns for Knott on passes from Woody Long in the first and third periods. Each play carried 45 yards. Long crossed the goal line himself on a 15-yard run in the second period.

Knott led at half-time, 20-18, and after three periods of play, 26-24. Thomas Day, Long, McNew and Parker played outstanding defensive games for Knott. Coffman and Froman were outstanding threats for Flower Grove.

Knott To Gail

KNOTT, Nov. 10 (SC) — Girls' A and B basketball teams of Knott visit Gail for practice games Tuesday night. On Nov. 20, the Knott teams play return games with Flower Grove here.

Bengals Deflate Lake View, 46-0

SNYDER, Nov. 10. (SC) — Snyder's battle-tested Tigers mauled the Lake View Chiefs, 46-0, in a District 3-AAA football game here Friday night. The win was the Bengals' eighth, without a loss. Bobby Pollard scored two touchdowns for Snyder while Robert Dabbs, Milton Ham, Mickey McGrew and Bobby Joines managed one each. Lake View mounted a threat in the second period when it drove to Snyder's 15 but it lost the ball on downs at that point. Snyder made 297 yards rushing to 116 for Lake View and 131 passing to 22 for the visitors.

Vols Surprise Georgia Tech

ATLANTA, Nov. 10 (AP)—Tallback Johnny Majors operating behind a swift, savage line hit end Buddy Cruz with two big passes today and Tennessee whipped Georgia Tech 6-0 in their football battle of the unbeaten.

Tennessee went into the game a touchdown underdog and ranked third nationally, one notch behind Tech. The victory made the Vols the top choice for a Cotton or Sugar Bowl bid and gave them a good chance of replacing Oklahoma as the nation's No. 1 football team.

Fullback Tommy Bronson actually got the Vols' major passes to Cruz—a 19-yarder to Tech's 46 and a 45-yarder to the 1—that made it possible.

But line play by both teams really was the big show. It's been a long time since such fierce forward play and thundering tackling has been seen on Grant Field and not since a scoreless tie against Florida in the rain in 1953 had a Tech team been held scoreless. Center Bubba Howe, tackles Charles Rader and John Gordy, guard Bruce Burnham and end Roger Urbano were defensive stalwarts for Tennessee. Center Don Stephenson, tackle Carl Vereen, and guard Leon Askew were Tech standouts.

An overflow crowd of 40,000 plus saw Tech's desperation passing attack in the final minutes halted at the Tennessee 9 when Bronson intercepted a long throw by Poppy Vann.

Tech's best scoring chance came in the second quarter when the Engineers moved to the Vols' 17 where tackle Jim Snelcher slammed into Tech fullback Ken Owen, knocked him loose from the ball and then recovered for Tennessee.

Quarterback Don Shinnick, above, one of UCLA's "five-game seniors" was chosen Associated Press back of the week for his performance last Saturday against Stanford. Sports writers who watched him throw Stanford's John Brodie for frequent losses and knock over opposing tacklers while carrying out his blocking assignments were unanimous in describing his play as the best by a collegian in the Los Angeles Coliseum this year.

Only note of cheer for Wisconsin's record homecoming crowd of 56,445 was a touchdown scored in the closing minutes.

It was the first win for Northwestern over the Badgers since 1948.

Northwestern capitalized on the breaks provided by Wisconsin errors today to score its first Big Ten football victory of the season, 17-7.

It was the first win for Northwestern over the Badgers since 1948.

Calendar Cluttered With All Kinds Of Holidays In Texas

By SAM BLACKBURN
 All we can find out is what we read in the books — lawbooks. And if the lawbooks are right we checked the amendments to the original laws, too, we might add there are a lot more holidays officially legal in Texas than most of us realize. In addition to the established and specified legal holidays, there are a handful of other days which are duly noted by the Legislature and which could be observed.

Who, you may ask, was General Pulaski? Well, we'll tell you. He was a Polish count, an ardent advocate of liberty in that blood-soaked land. Born in 1748, he finally contacted Benjamin Franklin, the colonial emissary in Paris in 1777. He joined Washington in that year as a volunteer. At the battle of Brandywine, he fought with such distinction that Congress rewarded him by making him a brigadier general. Later he was at Valley Forge where he organized a special corps of cavalry known as Pulaski's Legion.

He joined General Lincoln in South Carolina and his men performed outstandingly. In the siege of Savannah, he commanded the French and American cavalry and in an assault on Oct. 9, 1779, he was mortally wounded. He died two days later — Oct. 11. Hence, General Pulaski Day. Every month in the year has its legal holiday or holidays in Texas with the exception of May, and August. May has Memorial Day but there is no direct reference in the lawbooks to this date. However, the day is generally observed as August is the only month with no officially recognized holiday.

In case you get mixed up here is the official list of days which the legislator asserts to be legal holidays and on which due observation may be made:
 Jan 1 — New Year's Day; Jan. 19, Robert E. Lee's birthday; February 22, Washington's birthday; March 2, Texas Independence Day (also Texas Flag Day and Sam Houston Day); April 21, San Jacinto Day; June 3, Jefferson Davis' birthday; July 4, Independence Day; first Monday in September, Labor Day; Oct. 12, Columbus Day; Nov. 11, Veterans Day; last Thursday in November, Thanksgiving Day; Dec. 25, Christmas Day.

TCU Setting Stage For Big Homecoming This Week

FORT WORTH, Nov. 10 — The identity of Texas Christian University's "homecoming queen" will be announced in advance this week, removing the cause of one of the most lively campus controversies in years past. Previously, the Student Congress which conducts the annual election, had maintained that the winner should be kept a deep, dark secret until the Friday night bonfire. "The Skiff," the student newspaper which comes out on Friday morning, has insisted it should have the story in advance. Last year, the dispute reached a climax when the paper made a correct guess on the Queen's identity, printed story and picture on page one Thursday night — only to see the entire edition snatched by parties unknown from the delivery truck. Distribution was delayed a day.

In advance. In fact, the "queen" will be formally introduced at a huge pep rally on Wednesday night. Mean while, final plans for TCU's annual event have been completed. Festivities open Friday with "open house" in all schools, colleges and departments. At 2:30 p.m. Friday, a giant parade will move through the downtown streets of Fort Worth. More than 30 floats, with a theme of children's literature, will file past the reviewing stand. Winning floats in four areas will be decided by a committee of judges. Friday at 8:30 p.m. a giant bonfire and pep rally will be held inside the Amon Carter Stadium. Judge Fred Erisman of Longview, TCU graduate and new trustee, will give the main talk. The student-Exes dance will follow at 9:30 in the Brown-Lupton Student Center. On Saturday morning, the honor class of 1956 will hold a reunion coffee and all former students will be guests.

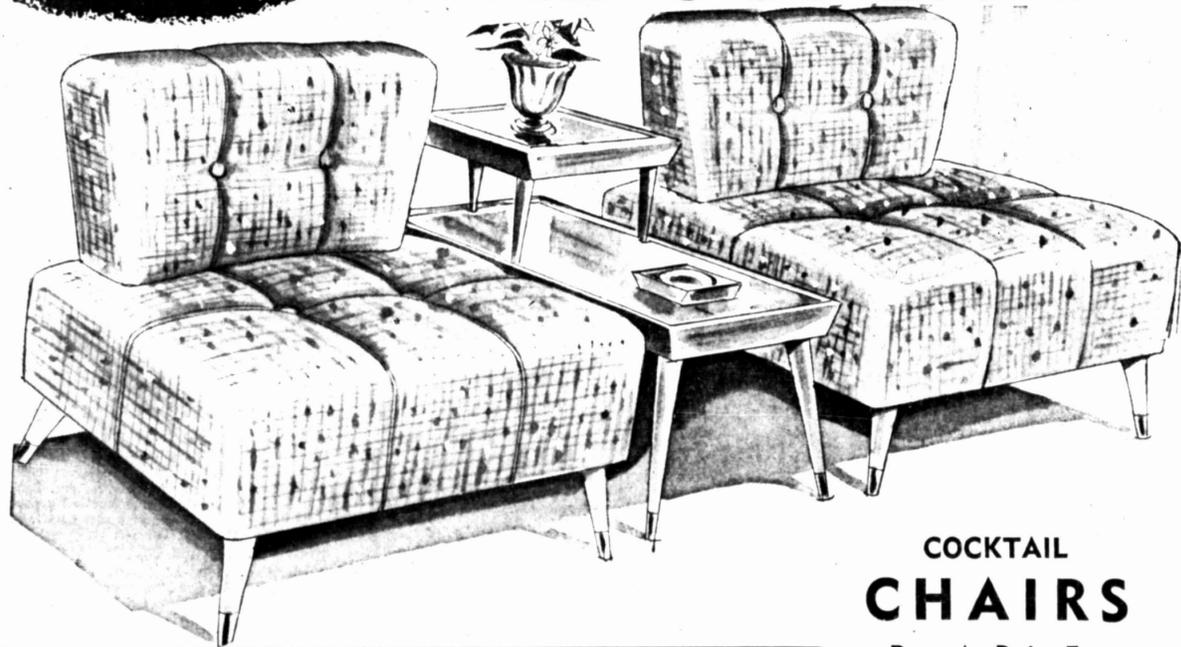

GMC Offering '57 Truck Line

strength of the 1957 GMCs is a styling unrivaled in the industry. Many changes, especially in the front end, enhance the over-all beauty of the vehicles. A new recessed multi-bar grille angled forward at the top retains the rakish GMC "leaning into the load" look. Two raised ribs on the hood, known as "wind splitters," strengthen and help streamline the front end. Exterior features also include safety locks on cabs and panel rear doors, and a redesigned locking device on Model F350 and F370 accessibility doors. A new deep center steering wheel on 100-250 models, with the center column and horn button well-recessed, gives the driver greater crash protection. Two 6-cylinders and a V-8 power various models. Both 6-cylinders have 270 cubic-inch displacement, but through different carburetion, one develops 130 and the other 140 horsepower. With its 347 cubic-inch displacement and its 206 gross horsepower, the V-8 makes GMC light-duty trucks the most powerful in the business. It tops last year's V-8 for comparable models by 26 horsepower. Complementing the under-hood

New GMC trucks for 1957, carrying an advanced look in styling and best-of-industry horsepower for light and medium-duty truck users, are being offered by Shroyer Motor Co., local GMC dealer. A new 347 cubic inch V-8 truck engine with 206 gross horsepower will be in 1957 GMC light and medium-duty trucks, giving them a performance edge that leads the list of many dramatic new model changes. Models in the GMC 100-250 light and 300-370 medium weight brackets range from town-and-country pickups and Suburban station wagons to Dual-Purpose cross-country highway tractors combining in one vehicle the good features of cab-over-engine and conventional vehicle designs. Four-wheel-drive that can be converted to a two-wheel-drive for open highway use by the shift of a single lever is a factory-installed option in the light duty GMC truck line.

HERE'S THE PLAN, says Dr. W. A. Hunt (left above), president of Howard County Junior College, as he discusses BE Day with Ina Mae McCollom and J. B. Wiginton. Miss McCollom is an instructor of social science, history and government at the college; Wiginton is vice president of the Chamber of Commerce. Both groups are working on the developments for the visiting of the teachers and the business men of the city on Nov. 14.

PRACTICE SESSION for BE Day, Nov. 14, is held by Mrs. Steve Baker and Floyd Parsons, superintendent of schools, as she welcomes him to her dress shop (photo at right). Mrs. Baker is one of the merchants who will entertain local teachers for a day as part of the observance of American Education Week. Purpose of the visits is to create a better understanding for the instructors of the problems of business in free enterprise.

BIG SPRING DAILY HERALD

SECTION C BIG SPRING, TEXAS, SUNDAY, NOV. 11, 1956 SOCIETY

Teachers Will See Workings Of Business Firms, On B-E Day

COUNTIN' NOSES are Mrs. Loy Acuff and Walker Bailey, county school superintendent, as they check the number of county teachers to expect for the BE Day observance. In order to observe the manner in which various business concerns operate, teachers will be guests of the firm of their choice for a day. Transportation will be furnished from the high school where the groups will meet at 9 a.m. Wednesday and back to the school at the end of the "visit."

THAT IMPORTANT DATE, Nov. 14, is marked by R. J. Walker and Rosetta Brown of Lakeview School (in photo above). Walker is principal of the school; Miss Brown is teacher of home economics. It is on Wednesday that teachers of the local and county schools will be guests of business men of the city.

A NAME TAG is held by Gilbert Frietz (in photo at right), who will wear it Nov. 14, when he attends the BE Day observance. Mrs. Curtis Beaird, principal at Kate Morrison School, prepares to type a card for Mrs. Theda Wedgeworth, another instructor in the school. Frietz is Latin-American, and Mrs. Wedgeworth is a full-blooded Pawnee Indian.

Let's Study Verbs

Miss Blanche Yarbrough prepares to address her freshman English class at Howard County Junior College. Grammar was the subject of the day. Miss Yarbrough joined the faculty at HCJC this fall and has several classes of freshman English and two classes of sophomores. A year ago Miss Yarbrough was granted the Fulbright Scholarship and taught in a Japanese university for a year. Prior to teaching in Japan and coming to Big Spring, Miss Yarbrough was connected with the Odessa public schools.

HCJC Teacher Enjoyed Japan Teaching Task

"Young people in Japan are eager to learn and become educated." This is the impression of Blanche Yarbrough who taught at the University of Niigata in Japan for one year. Miss Yarbrough, a new English instructor at Howard County Junior College, taught at the university and in a demonstration school in Niigata City, Japan. She was awarded the Fulbright Grant to teach overseas. Niigata is located northwest of Tokyo about 500 miles. Miss Yarbrough said that because of, or since World War II, the people of Japan wanted to become educated. The young people attending the university are very proud of that fact, Miss Yarbrough said, and they think that to do anything unbecoming of a person on that level is disgraceful. She explained that some of the boys of the university told her they would have to quit school for a year to get enough money to continue their education. Miss Yarbrough then suggested that they could get a part time job driving a truck or some similar job. She said that their reaction was that such a job was too undignified for college students. This high regard for an education is the opinion of most Japanese people, Miss Yarbrough remarked. Miss Yarbrough said that Americans in Japan soon became accustomed to the various customs such as eating with chop sticks.

Service Club Views Film On Suez Canal

FORSAN — Forsan Service Club members saw a film about the Suez Canal at their Thursday meeting. W. M. Roman was in charge of the program. Mrs. M. M. Fairchild served dinner to the 20 attending. Fourteen guests attended the party given by Mrs. Sammie Porter recently. Home from a visit in Hobbs, N. M. are Mr. and Mrs. Sam Rust. They were guests of the Otis Griffiths. The two families journeyed to Ruidoso, N. M., for a few days. Mr. and Mrs. Wayne Monroey and Wayne are home after a week's visit in Electra. Guests of Mr. and Mrs. C. B. King have been Mr. and Mrs. Fred York, Winters.

Chairmen Named For Year By City HD Club

Chairmen for the coming year were appointed at a meeting of the City Home Demonstration Club Friday afternoon. Mrs. Armour Long was hostess. Yearbook chairman is Mrs. Tom Stewart; finance, Mrs. Ervin Daniels; education, Mrs. M. F. Hodnett; exhibits, Mrs. M. E. Anderson; recreation, Mrs. Alton Underwood; civil defense, Mrs. E. A. Williams; citizenship, Mrs. H. F. Jarrett; health and safety, Mrs. Johnny Green and personal service, Mrs. Long. Chairman of kitchen demonstrations will be Mrs. W. S. Goodlett; leaders will be Mrs. L. C. Lauder milk and Mrs. J. W. Elrod. Food demonstration chairman will be Mrs. B. F. Mabe, with Mrs. Charles Neefe and Mrs. Ross Callihan as leaders. Mrs. Underwood, Mrs. Elrod and Mrs. Goodlett will serve as a committee to arrange an entertainment number for the Christmas party scheduled for the HD Council. The club voted to send a box of Christmas gifts to the patients at McKnight Sanatorium; Mrs. Jarrett and Mrs. Callihan will serve with that work. The program for the afternoon was given by Elizabeth Pace, county HD agent, who discussed storage space in the kitchen. Roll call was answered by members, who gave a driving hint. Introduced as a new member was Mrs. Robert Satterwhite. At the Nov. 23 meeting, members will bring an arrangement of dried material.

Faculty Ma'ams To View Method Of Fabric Decoration

When the Faculty Ma'ams meet Nov. 20 in the home of Mrs. Ben Johnson, they will learn various ways of using fabrics for room decoration. Mrs. Johnson will serve as commentator for a program of color slides showing room settings and window treatments. Included in the discussion and the pictures are methods of making fabric screens, applying fabric to walls and how to beautify windows inside and outside. Among the fabrics to be used are rayon printed sheers, acetate taffetas in rich colors, antique satins and sturdy upholstery materials. There will be deeply textured fabrics to give the "three-dimension effect" in vivid and pastel shades at prices to suit all tastes and budgets. A special feature of the afternoon will be the awarding of a dress length of fabric.

'ROUND TOWN

With Lucille Pickle

When MRS. FRANK KNAUS heard the familiar "Hello, Mamma!" last week she knew it was her grandson, Lt. Ronald Knaus, but it was a little while before she realized the call was from Madrid, Spain. When he told her he wanted to give her his new address and telephone number, she said "Wait until I get some paper." To which he replied, "It's a long way to wait." While it's an expensive little bit of talking, nothing is quite so thrilling as to hear a loved one's voice.

While we're not as far away, it will be a few days before we get to hear anyone's voice over a telephone, so we are told. If you don't already know, we have finally got moved and we all came through beautifully... just no telephone yet.

The coffee given Friday morning at the Cowden Club was a gay affair. The place for the Thanksgiving season was attractively set with the flowers and other arrangements. I caught a glimpse of MRS. CHARLES READ of Coahoma and met MRS. JOHN D. BEAL of Ackerly, who is the former Merline Merwin. Others whom I had not met before were two lovely young matrons, MRS. VERNON HEARD and MRS. TOMMY WEAVER. MRS. CUIR GRIGSBY JR. was at the party with MRS. DONALD MCADAMS.

MRS. HAROLD STECK and MRS. A. J. MCCLINTON were with Mrs. C. C. Jones. The Stecks, who live in Midland, stayed over for the game Friday night.

MRS. W. F. RODEN of Odessa was assisting the hostesses and looked charming in a shrimp wool jersey dress.

MRS. W. C. HENLEY had just a little more fun than most of the women who attended the Presbytery in Midland recently. It came about by a good visit with two former roomers of hers, MRS. JAMES O. CADE and BETTY TRAVIS. The two were roommates when they taught school here in 1922. Mrs. Cade was Marjorie Prentiss and taught Spanish at high school. She and her husband live in Lubbock. Miss Travis taught English then, and she still teaches it in Odessa Junior College.

MR. AND MRS. CHARLES SWEENEY are expected to return this evening from Houston where they have spent the weekend with other Reef Field stockholders, strictly for fun. While the ladies sipped coffee, lunched, shopped, visited, and all the other things women do when they get together, the husbands entertained themselves with a golf tournament. The games were played at the River Oaks Country Club and while I haven't heard how Charlie came out, I would expect him to have been in the top bracket.

Mrs. Sweeney's mother, MRS. O. C. PEARCE of Durant, Okla. came down to take over the management of the house while the parents were away. She expects to be here until Tuesday.

Engagement Told

Mr. and Mrs. H. W. Butler, 208 Madison, announce the engagement and approaching marriage of their daughter, JoAnn, to Gene Hair. His parents are Mr. and Mrs. Homer Hair of Coahoma. The date of the wedding has been tentatively set for Dec. 26 at the Airport Baptist Church.

Two Texans Write Garden Club Guide

Seems as if everything from the way to attract birds to your garden to the protocol of seating officers at a banquet is covered in a book recently written by two Texas women.

Mrs. G. Taylor Buchanan of Wichita Falls and Mrs. A. Randolph Wilson of Waco have collaborated on a small booklet, "Four Hundred Thousand Strong," which has been published by the National Council of State Garden Clubs Inc.

Taking its title from the 400,000 members presently in garden clubs, the book is in three divisions.

Included in Division One is the history and early development of garden groups. Classes of membership in garden clubs are described and the work of the National Council is discussed.

Division Two deals with the kinds and duties of various committees, awards, programs, conservation, flower show schools, publicity, the Litterbug campaign as well as other information that clubs should have readily available.

In Division Three, the authors have given the method of organizing a garden club, arranging programs, steps in planning for a convention, and hints on parliamentary procedure.

Ideas for club projects are offered in this division as a model for making the by-laws for a garden club.

IOOF, Rebekahs Meet For Dinner

STANTON — Dinner was held Thursday night at the IOOF Hall for the Odd Fellows and their families and the Rebekahs and their families.

Rev. J. R. Murdock gave the invocation. Marshal Yates served as master-of-ceremonies.

Mrs. J. R. Murdock played selections on the piano during the social hour. The string-music band were Chalmer Wren Sr., Dan Saunders, Marion Yell, Hubert Shipp, A. C. Fleming.

The Rebekah Lodge performed their floor drill with Elna Sprawls at the piano, under the leadership of Mrs. Jim McCoy as team captain.

Approximately 75 signed the register.

Mrs. Lewis Roten spent Tuesday in Odessa at a cosmetic school of training.

The FHA Chapter met recently at the Home Economics Building. The meeting was called for the selection of regular meeting days, the second and fourth Thursdays of every month, from 3:30 to 5 p.m.

Forum Hears Mrs. Grooms On Guest Day

Guest Day was observed Friday afternoon by members of the Modern Woman's Forum with a tea in

the home of Mrs. Orion Carter. Cohostess was Mrs. M. A. Cook.

Mrs. Jordan Grooms, guest speaker, gave a discussion of "Impressions of England From A Woman's Viewpoint." She stressed the beauty of the countryside and told of the hospitality of the English people.

Mrs. Grooms was assisted with her talk by Lucille Hester, who showed colored slides during the commentary.

During the tea hour, Mrs. J. P. Dodge, president of the group, presided at a table decorated with bronze and yellow chrysanthemums.

Fifteen members attended with the following guests: Mrs. W. A. Miller, Mrs. C. W. Parmenter, Mrs. W. F. Taylor, Mrs. Felton Smith, Mrs. F. A. Gray, Mrs. A. C. Bass, Mrs. W. R. Douglass and Mrs. J. P. Meador.

Garden Groups To Hear Govenor Of District Thursday

Mrs. Nat Williams of Lubbock, governor of District One, Texas Garden Clubs, Inc. will make two appearances here Thursday.

At 2:30 p.m. in Room Eight at Howard County Junior College, she will speak especially for the two newly-organized clubs, the Four O'Clock Garden Club and the Oasis Garden Club. All members are urged to attend the meetings to hear her discussion of "Successful Garden Clubs."

At 3 p.m. Mrs. Williams will speak to all garden club members on the topic "Horticultural Tips for West Texas." A tea honoring the speaker will follow the meeting.

The appearance of Mrs. Williams is sponsored by members of the Big Spring Garden Club, who have invited all gardeners to attend either or both meetings.

New Jewelry Design Gets Atomic Idea

The nation's jewelry designers are catching up with the atomic age.

Winners of the recent Diamonds U. S. A. awards exhibited modernistic tendencies employing motifs suggesting neutrons, protons and electrons arranged in decorative effects.

Fifteen jewelry designers from all sections of the United States received citations this year for original and effective designs in diamonds, gold, platinum and other precious ingredients. The winning pieces ranged from necklaces and bracelets to rings and earrings, and covered a price range from below \$500 to six figures.

One jeweler designed a pendant of more than 100 diamonds combined with rubies, sapphires and emeralds in a pattern inspired by the particles of the atom. Other winning designs took ideas from outer space in the form of stars, planets and crescent moons.

Among women award winners

was Marianne Ostler of New York, whose prize entry was a pair of earrings in diamonds and pearls shaped like crescent moons to fit both the top and bottom of the ear.

A winning watch design called "Saturalia" hid the time mechanism within a miniature Earth of blue enamel seas, platinum continents and diamond equator.

Band Elects New Officers For Year

LAMESA — New officers were elected by the Lamesa High School Band to serve for the year 1956-57. Rex Duke, son of Mr. and Mrs. C. W. Duke, was elected president. Having been a member of band since the fifth grade as a cornet player, Rex was elected for his loyalty as well as musicianship.

Allan Bratcher, son of Mr. and Mrs. B. B. Bratcher Jr., and a junior, was elected vice president. Janice Shepherd, son of Mr. and Mrs. Ronnie Shepherd, will be the new secretary while Lynda Lauderdale will be the new treasurer. She is the daughter of Mr. and Mrs. Ed Lauderdale. Social chairmen are Charles Allen, son of Mr. and Mrs. Bowers Purcell and Charlene Short, daughter of Mr. and Mrs. Don Short.

Holiday Gaiety Begins With Parties Friday

Ushering in the pre-holiday festivities were two parties given at Cosden Country Club Friday.

A coffee was a courtesy in the morning hours, with a cocktail party in the afternoon.

Hostesses were Mrs. J. L. LeBleu, Mrs. T. A. Thigpen, Mrs. G. T. Orenbaum, Mrs. M. S. Goldman, Mrs. Hayden Griffith, Mrs. Zollie Boykin, Mrs. Franklin Nugent, Mrs. M. C. Grigsby Sr. and Mrs. Johnnie Griffin.

Forming a background for the two affairs was a rural scene at the end of the ballroom. Pyracantha covered fence posts, and a turkey hen roosted on a fence corner. A turkey gobbler strutted in the barnyard among a number of pumpkins. Both turkeys were formed of tiny chrysanthemums in appropriate shades.

Covering the table was a plum-colored linen cloth, and two cornucopias spilled fruit and flowers around the base of a candelabrum holding orange candles. Copper appointments added a warm glow.

Members of the house party, who alternated in receiving guests, and serving, were Mrs. Ward Hall, Mrs. Jake Morgan, Mrs. Clyde Thomas Jr. Mrs. Travis Reed, Mrs. Ralph Baker, Mrs. John Coffee, Mrs. Marvin House, Mrs. Jasper Atkins, Mrs. Walter Moore, Mrs. Bill Bonner, Mrs. Carl Eason, Mrs. Ova Mae Edwards, Mrs. Linus Tucker, Mrs. John Beal of Ackerly, Mrs. Paul Darrow, Mrs. Lowell Baird, Mrs. Ross Boykin, Mrs. George White, Mrs. R. H. Miller, Mrs. Jack Irons, Mrs. Marvin Miller, Mrs. Doug Orme, Mrs. Roy Townsend, Mrs. Bill Roden of Odessa, Mrs. Bob Parks, Mrs. Dorothy Cauble, Mrs. Robert Pondrom, Mrs. Dee Davis, Mrs. Maurice Koger and Mrs. George Tiltinghast of Fort Worth.

CAMPUS
CHATTER

By Mary Sue Hale

One of the nicest affairs honoring parents to be given by an HCJC organization is the Mother-Daughter Lass-O Tea, which will be held in the SUB this afternoon from the hours of 3:30 to 5:30. If you haven't collaborated with your mother about coming, girls, there is still time. Mrs. Clyde Thomas will be principal speaker.

Billy McVain, Neldon Miltstead and Mr. Ray Broussard returned Tuesday from a three-day executive student council meeting in Austin. Junior college state officers, of which HCJC is presently serving as parliamentarian, made basic plans for the state student council convention, which will be held Feb. 21, 22, and 23 in San Antonio.

The four colleges represented were Wharton, president; San Antonio, vice president; San Angelo, reporter and publisher of "The Bulletin," and Howard County.

For the past couple of weeks now, Coach Harold Davis's Jayhawks have been regularly reporting for basketball practice every weekday. Coach Davis has announced that the boys are scheduled to enter two tournaments and to play 19 games.

Eight schools are entered in the fourth annual HCJC basketball tournament to be held on this campus Jan. 3, 4, and 5. Odessa Junior College will be defending champs. The first Jayhawker of the year will be contested against Decatur, here on Dec. 4.

One of the busiest groups on campus are the cheerleaders. Also one of the most diligent, they staged a rummage sale this weekend and are raising additional money by taking orders for cakes. These are baked by various ceds on campus, then sold to people about the town.

Cash raised will foster several projects dreamed up by the girls including a victory bell permanently cemented on campus, somewhere near the gym.

Competition is strong and enthusiasm high among girls participating in the badminton tournament conducted by the Women's Physical Training Department under the instruction of Miss Arab Phillips.

Twenty girls, all volunteers, have been participating in this tournament. Most first-round matches have been played, and the number of winners decreases each day, with many games being played during the noon hour.

The final game will be played on Nov. 19 at the regular meeting of the Women's Recreational Association. The champion and runner-up teams will receive appropriate ribbons.

As the time grows nearer and nearer to the date set for HCJC's Drama Club debut, "Seven Keys to Baldpate," student expectation seems to grow. Optimism is high among the play's cast and director; however, not to the extent of relaxation. Production dates are Nov. 21, 22, and 23.

Serving as production manager is James Johnson. Mrs. Cliff Wiley heads the property crew. Assisting her are Mrs. Verne McFerran, Lillie Guesen, Shirley Kennedy, Patsy Grant and Mary Boetlicher.

Supervising the settings are Joe Neff, Darrell Northcott, Lawrence Albergere, Jerry Howell, John Beggs, Ernest Hayes and Joe Grizzle.

Lighting and sound are under the supervision of Bob Smith, Ernest Byrd Jr., Ernest Hays, Cecil

Shockley and Billy Mayes. Jerry Foresyth attended the SMU-A&M game this weekend in Dallas. Marlene Mann, David Dibrall, Richard Engle, and Jerry Hodges were a few Jayhawkers attending the TCU-Tech game Saturday at Lubbock. Max McCulloch and Mike and Pat Powell went home to Coleman Friday and returned Sunday. Buddy Colvin went home to Turkey last weekend to celebrate his alma mater's homecoming.

I'm sure you won't be forgetting this fact, but here's a reminder that no school will be held Wednesday, due to Business-Education Day, on which all teachers in the public school system and HCJC will visit various cooperating business firms.

No day classes will meet Wednesday, but night school will function as usual.

Another reminder, The College Y will be meeting Tuesday, in the small auditorium, during activity period. If you are a member of this organization, make it a point to be there.

Defensive Sleeping

During the Middle Ages men slept propped up to an almost upright position—the easier to defend themselves against attack. Not very comfortable when compared to our stretch-out, super-size bed-

Forsan Men
Hunting In
New Mexico

FORSAN — Several men from Forsan and surrounding areas are deer hunting in New Mexico. Among the hunters are Bob and Charles Wash, Earl Griffith, Sammy Porter, L. B. McElrath, Frank Theime, Pat Lamb, Big Spring, and Sam Porter, San Angelo.

Guests of Mr. and Mrs. R. A. Chambers have been Mr. and Mrs. Audrey Chambers, Darrell, Barbara and Douglass, Snyder, Mr. and Mrs. D. M. Floyd and Dianne Cavanaugh, Midland, and their grandson, Pfc. Buddy Chambers. Mrs. and Mrs. J. C. Ray and Shirley have as their guests, Mrs. J. P. Ormsby and Theresa of Tatum, N. M.

Recent visitors to Cisco were Mr. and Mrs. O. W. Scudday, Giny and Berney.

Mrs. Jack Chapman, Mineral Wells, has been a guest in the D. W. Roberson home.

Returning this week from a trip to the Gulf Coast was Mrs. Vera Harris.

Visiting in Austin with the Al Whites are Mrs. L. B. McElrath and Mrs. Jesse Overton. Abilene guests in Forsan have been Mr. and Mrs. Frank Phillely and Jenny.

Lincoln's Headboard

Abraham Lincoln would probably object to sleeping in a modern bed—an eight-foot headboard towering above him. A modern sleeper would probably not close an eye in such a bed for fear the thing would fall and crush him. But Lincoln would doubtless appreciate today's super-size beds.

Eager Beavers To
Aid Firemen With
Doll-Dress Project

Making clothes for and dressing 50 dolls will be the project this next week for members of the Eager Beaver Sewing Club.

The group voted at their Friday meeting to dress the dolls, which city firemen have purchased. The dolls will be given to needy children at Christmas time.

An all-day meeting was announced for Nov. 16. The members will work on doll clothes in the home of Mrs. H. D. Bruton, 1610 Douglas. A covered dish luncheon will be served.

Mrs. A. B. Jernigan was hostess Friday when members made seven dozen cancer bandages for the Red Cross.

The group presented Mrs. Jernigan with a hostess gift.

Pythians To Fete
Grand Chancellor

LAMESA — Sam Heberlin, grand chancellor of the State of Texas, will make his annual visit to the Pythian Lodge Monday evening. A dinner will precede the lodge meeting.

Mrs. Sam Floyd is in charge of the dinner arrangements, with Mrs. Earl Henderson having charge of the decorations which will feature an autumn theme.

Other special guests who will attend the meeting are John Hagood, Cameron, special deputy, Russel Hardin, Lubbock and H. M. Rainbolt, Big Spring, both past grand chancellors of the State of Texas.

Jess Merrick, chancellor commander of the Lamesa Lodge, will preside over the Monday night meeting.

A crowd of 75 lodge members and sisters are expected to attend the meeting from Lubbock, Big Spring, Odessa and Midland.

Wedding Date Set

Mr. and Mrs. Floyd T. White, 106 Circle Drive, are announcing the engagement and approaching marriage of their daughter, Ann, to Louis Stipp. He is the son of Mr. and Mrs. H. C. Stipp, 819 West 18th. The wedding will take place Dec. 22 at the First Baptist Church. The Rev. Gage Lloyd, pastor of the First Presbyterian Church, will officiate.

(Photo by Bradshaw)

To Wed In December

Mr. and Mrs. Elmo Murff of Lamesa are announcing the engagement and approaching marriage of their daughter, Jettie, to Bill Woodard of Bonham. He is the son of Mr. and Mrs. Floyd Woodard of Mesquite, former residents of Lamesa. The couple will be married Dec. 15 in the First Baptist Church with the Rev. Milo B. Arbuckle reading the ceremony. The bride is a 1955 graduate of Lamesa High School and of Rutherford Metropolitan School of Business in Midland. She is employed with the Western Company in Midland. The prospective bridegroom was graduated from Lamesa High School in 1955 and is employed with the General Telephone Company in Bonham.

Krezer To Celebrate Golden Wedding Date

LAMESA—A reception to be held this afternoon from 3 to 6 p.m. will compliment Mr. and Mrs. C. J. Krezer on their golden wedding anniversary in the home of their daughter, Mrs. Edwin Huse.

The couple was married on the bride's birthday, Nov. 7, in 1906 at the farm home of her parents near Giddings. Mrs. Krezer is the former Martha Duisberg. The Rev. W. Mueller performed the wedding ceremony.

Shortly after their marriage the couple moved in a covered wagon from Giddings to Lexington, and in 1924 they moved to a farm near the Sparenberg community in Dawson County. After three years of farming, the Krezers moved into Sparenberg where Mr. Krezer operated a filling station until 1936 when they went to San Angelo. Since 1950, they have made their home in Lamesa.

The couple has five children all of whom plan to be home for the reception. They are Mrs. R. C. Huse, Mrs. Edwin Huse, and Alvin Krezer of Lamesa, Mrs. A. H. Baumann of Midland and Mrs. W. C. Krezer of San Angelo.

Italian Artist To Show Work Today

In connection with National Art Week, which begins today, Rene Mazza, famed Italian artist, will have several paintings shown at the HCJC library this week.

Mazza teaches art lessons in Big Spring each Saturday. He is sponsored by Las Artistas Club.

Among paintings which will be shown are several portraits and one noted street scene from Venice.

The public is invited to view the paintings which are to be shown for two weeks.

Canvas Cover Protect

Cotton canvas, traditionally used for summer awnings, assumes a new role in the winter. Covers for window air conditioners can be made from this sturdy fabric, the National Cotton Council reports.

HI--TALK

By CAROL ROGERS

Johnny Janak, senior-of-the-week, has come quite a way since moving here three years ago from Amarillo. One of the best-liked boys in BSHS, Johnny was chosen as class favorite both his sophomore and junior years and as class president his junior year. Selected to Who's Who last year, he is also Key Club president and Hi-Y secretary this year.

Sports are a major interest in Johnny's life as he is co-captain of the football team this year, his second on the A team. He played B team football in his sophomore year. Johnny was on the track team for two years and plans to make this spring his third season.

Johnny is also interested in student council work, having been a representative for three years. He has been a member of Hi-Y and Key Club for three years also. Johnny serves, too, as sports editor on El Rodeo and is a member of the Sportsmen, a trio of senior boys.

Sue Barnes was crowned football queen during the half-time of the football game Friday night. She was presented with a bouquet of gold mums by co-captain Lewis Porter. Co-captain Johnny Janak gave her the traditional kiss. Barbara Shields and Judy Masters were the runners up for this honor.

The school spirit was "revived" in the skit presented by the cheerleaders in the pep rally Friday afternoon preceding the Midland game. Donnie Bryant and Ronnie King also made pep talks.

The Demolays sponsored a dance after the game Friday night at Tarbox-Gossett Motor Company. Some of the kids attending were Kay Wilcox, Richard Hood; Peggy Isaacks, Blanton Dees; Anita Gardner, Calvin Daniels; Judy Masters, Buddy Barnes; Barbara Shields and Jerry McMahan.

School beauty election will be held Monday. The girls nominated for the honor are Sue Barnes, Dianne Green, Shelia Holmes, Barbara Shields, Jacqueline Smith, Nancy King, Janet Hogan, Sammie Sue McComb, Kathy McRee, Carol Rogers, Sue Boykin, Valjean LaCroix, Jo Ann Ebling, Sharon Creighton, Judy Reagan, Cecilia McDonald, Mary Ann Nugent, and Sandy Hale. Pictures of five of these girls, chosen by the students, will be sent to John Robert Power's Modeling School in Dallas for the final judging. The school beauty will be presented at the Christmas Formal. The contest is sponsored by El Rodeo.

College football games prove to be quite popular with BSHS students. Beverly Alexander went to Lubbock this weekend to see Texas Tech play TCU. She is also visiting friends in Lubbock.

Others attending the Texas Tech game were Annette Boykin and David Hodnett. Mr. and Mrs. Ross Boykin, Annette's parents made the trip to Lubbock, also.

Terrall and Melva Turner journeyed to Abilene Saturday for the ACC Homecoming. They returned the same day.

Students and teachers are looking forward to Wednesday as school will be dismissed for the observance of Business Education Day. The teachers will visit local businesses in order to gain a better insight of problems in business.

Cynthia DuPuy is visiting Gerry Lynn Girdner this weekend. Cynthia is a senior in Midland High School.

A real treat was in store for Jacqueline Smith and Londa Coker as they left Big Spring Saturday to attend the Ice Capades in Odesa. The girls will return to Big Spring today.

Another group of girls was out of town this week to attend a show. Jance West, Lynda Glenn, and

JOHNNY JANAK

Vickie Fitzgerald saw the "Rock and Roll" preview in Lubbock this weekend.

Nancy King accompanied Joe Liberty and his parents to Dallas for the A&M-SMU football game. They left Friday and will return today.

Other Aggie fans who attended the game are Jo Ann Ebling, Mary Lane Edwards, and Letty Reynolds, who made the trip to Dal-

las with Mr. and Mrs. Sunny Edwards, Mary Lanes's parents.

"Seven Keys to Success" was the topic Mr. Fred Short, HCJC dramatics director, discussed at the regular meeting of the Drama Workshop Tuesday afternoon. The group also discussed the possibilities of establishing a National Theatrical Society in B. S. H. S. The matter will be decided at the next meeting, Nov. 20.

Sue and Nancy Hodnett of Coahoma, spent Saturday night and Sunday with Annette Boykin last week. Sue attends Coahoma High School and Nancy is in Junior High School.

Only nineteen students' names appeared on the honor roll for the first six weeks. The sophomore class led the list with the following students making the roll: Kola Grant, Mary Barrington, Kay Chadd, Sherry Coats, Janice Downing, Eston Hollis, Michael Jarrett, Linda Jones, Kay Loveland, and Tommy Rader. Pat Fisher, Barton Grooms, Denise Honey, Nancy King, Kathy McRee, and Paul Hon were the students representing the senior class in this honor. Wilma Cole, Nita Jones, and Marie Clackum also made all "A's" the first six weeks.

Delegates to Youth in Government, December 13-18, were elected at Tri-Hi-Y and Hi-Y club meeting Monday night. Those representing the senior clubs will be Sue Boykin, Lou Ann White, Lewis Porter, and Jerry McMahan. Junior representatives are Barbara Coffee, Wesley Grigsby, and George Peacock. Kathleen Thomas and Peggy Isaacs will attend the meeting from the sophomore clubs. Jacqueline Smith will be reporter from Big Spring and Toni Thomas, committee chairman. Youth in Government will be held in Austin.

What Your Own Child May Never Tell You

It's hard to believe, but there's one thing kids don't complain about soon enough.

Fact is, a youngster who will howl with anguish if he has no whipped cream on his pie will wear shoes too small day after day without a murmur. The way he bears the pain from blisters, calluses and corns would shame an Indian fakir on his bed of nails.

This kind of stoicism is no virtue, however. While young feet are growing is the time when a little attention will bring rewards in lifelong comfort. That puts it up to you to see that your child goes to school in a pair of comfortable shoes that fit well and that he get a new pair as soon as he needs them.

The rate of growth varies, of course, but as a general rule children need shoes every two months up to the age of 10; after that they need them every two or three months.

At the shoe store, test each shoe while your child is standing and bearing his full weight on that foot to see that there is growing space at the tip equal to the width of your thumb. But don't get them too large — oversized shoes will cause blisters.

Shoe construction is as important as fit and a little more difficult to judge. Price is some indi-

cation, but not always the whole story.

Junior may be intrigued by a tricky number with a heavy cleated or crepe sole, but it's best to follow the podiatrist's advice and stick to a laced all-leather oxford. Sister will want a shoe like this for play, too.

But for dress-up, she'll want a Mary Jane with a slender strap. It may be detachable so that her slipper turns into a pump. And the slipper itself may be of lustered calf and be trimmed with tiny bows, jewels, and gold or silver or multi-colored inlays. By all means let her gratify her heart's desire for a "big-girl" slipper — just make sure it is well constructed.

Scouts Dress Dolls For Fire Department

Dressing dolls for the Fire Department was the diversion Friday afternoon for members of Girl Scout Troop 6.

The group met in the home of their leader, Mrs. E. O. Smith. Mrs. Edward Brumley, assistant leader, was cohostess.

The group also practiced singing Christmas carols. Refreshments were served to the seven attend-

Lamesa SS Classes Have Parties

LAMESA — Twenty members of the Philathea Class of the First Baptist Church attended a coffee Thursday morning at the home of Mrs. C. E. Ford. Plans were made for the Christmas party during the business meeting. Featured on the serving table were white mums flanked by tapers.

The monthly social and business meeting of the Ruth Class of the First Baptist Church was held Thursday afternoon at the home of Mrs. W. C. Williams. Co-hostesses with Mrs. Williams were Mrs. Ben Moore and Mrs. T. W. McSpadden. Following a Thanksgiving program refreshments were served to 16 members.

The Welcome Class of the First Baptist Church held their annual Thanksgiving dinner Thursday evening in Fellowship Hall. The tables were decorated with miniature shocks of grain while gold mums were used on the serving table.

Following dinner Mrs. Charley Buey directed games in which 25 participated.

Teen-Age Bad Manners Are Causing Sorrow

AP Newswriters
 "Most young people today (and my own are no exception) have atrocious manners," writes a disillusioned parent, "and it is pitiful they aren't aware of how much harm they do themselves or other people."
 How much harm is done by bad manners?
 A mother relates that she has been brought to tears by the actions of a daughter. On one occasion daughter barged into the house with a group of friends and asked her mother and her friends to leave the living room!
 A teacher tells how she has been told over and over again to mind her own business by a number of spoiled girls in her class. "You can't do anything about it," she says, "because even a parent who understands the problem will rush to the school board and complain if you reprimand their grown-up brats."
 Is money the root of the trouble, asks one parent.
 "Young people make too much money for their own good," he says. "Unlike the last generation, they're not putting the money into the family kitty."
 One parent says his young man saved up on an after school job, bought himself a jalopy, and then presented his father with the bills for school tuition, books and clothes.
 School girls are wearing horrible dresses in an effort to be sophisticated, one mother says. When she was shocked by the fit and depth of the neckline plunge, her daughter responded with "I bought this with my own money, so why don't you mind your own business."
 "What can you do when she's all ready to go out?" the mother wails.
 Young people are rude to each other.
 One young girl observed telling a friend that her shoes were the cheapest looking pair she'd ever seen, was appalled when questioned about it. "Well, they were," she countered, not realizing that even if she had been asked to give her opinion her appraisal should have been tempered.
 The girl who'd been insulted was hurt as it turned out, but when asked about it replied:
 "Oh, I don't mind her. She's

afraid to be nice because people will suspect she is soft."
 Does this generation pride itself on being hard boiled?
 Or is this independence the result of working and earning a good income?
 A father has this to say:
 "The last generation slaved to make a few pennies in the wheat fields or in a factory to help out a family. That taught them responsibility."
 But today's young people are only working greedily to coral more choice morsels for the moment. They're getting more egotistical and righteous every day.
 It doesn't cost anything to give a verbal bouquet occasionally; to help out on the family grocery list; to inflate Mom's ego by consulting her about clothes, or to hold your tongue when any elder makes suggestions or offers criticism.
 If so many people are miserable because young people lack that kind of respect, why not give "being nice" a whirl?
 Peggy Ward served as maid of

Hancock-Burkett Repeat Vows In Lamesa Rites

LAMESA — A double ring ceremony, read Friday evening, united in marriage Geraldine Fay Hancock and Leo Burkett. The exchange of vows was made in the church of the First Presbyterian Church before a mantel covered with white mums with the fireplace banked in greenery and flanked by candelabra.
 Parents of the couple are Mr. and Mrs. Joe Hancock, 1606 N. 12th Street, and Mr. and Mrs. Walter Burkett of Rt. B, Lamesa. The Rev. Walter G. Horn read the ceremony.
 Mrs. Matt McCall presented the traditional wedding music and accompanied Mrs. Douglas Black, soloist.
 Given in marriage by J. A. Hancock, her cousin, the bride wore a ballerina length dress of Chantilly type lace which outlined the Sabrina neckline and covered the bodice and sleeves. From the empress waistline stemmed a bouffant skirt of satin. From her tiara of seed pearls fell a shoulder length veil of illusion. She carried a bouquet of white carnations atop a white Bible.
 Peggy Ward served as maid of

honor while Othel McGee was the bridesmaid. They wore identical dresses fashioned after that of the bride in blue lace and taffeta. Their bouquets were of pink carnations.
 Richard Woodward, brother-in-law of the bridegroom, was best man. Tommy Stanfield was the groomsmen.
 Diane and Judy Hancock, cousins of the bride, were candlelighters.
 Following the exchange of vows, the reception was held with the bride's and bridesmaids' bouquets forming the centerpiece for the houseparty included Mrs. David Hughes, Mrs. T. F. Vaughn, Mrs. Don Zweig, Mrs. Richard Woodward, Mrs. Gus Burkett, Mrs. Mae W. Hancock, Mrs. Wilson Scott, Mrs. Leslie Ansley, Mrs. Bill Bowlers, Mrs. Hubert Nelson, Mrs. Forrest Ward, Mrs. V. W. McGee, Mrs. H. D. Hillard, Jan White, Pat Childress, Mrs. Shorty Hancock and Mrs. Gilbert Holladay.
 For travel the bride chose a suit of pink wool with black accessories. They will make their home on Route B following a wedding

trip to points of interest in New Mexico.
 The bride is a senior at Lamesa-High School. Her husband attended Lamesa High and is engaged in farming.
Ackerly Folks Have California Visitors
 ACKERLY—Mrs. Sallie Ingram and Bill Ingram and son of California have been guests of their sister, Mr. and Mrs. Nick West, and also visited friends.
 Johnnie Clark Jr. has returned home from the Ballinger Hospital. Mrs. Joe Lemon recently entertained the Senior Sunday School Class of the Methodist Church with a taffy pull.

Party Compliments Mrs. Bob Wash
 FORSAN — A pink and blue shower was the occasion for honoring Mrs. Bob Wash Friday morning. Mrs. Jesse Overton was the hostess for the party.
 A lace cloth over pink covered the refreshment table and held an arrangement of white chrysanthemums. A novelty corsage was presented the honoree by Mrs. Overton.
 Hostesses were Mrs. Luther Garner, Mrs. Jewell White, Mrs. George Overton, Mrs. Henry Park, Mrs. C. C. Suttles, and Mrs. T. R. Camp.

Reagan Class Meets For Thanksgiving

Dr. P. D. O'Brien was guest speaker for the Thanksgiving dinner of the Barbara Reagan Sunday School Class of the First Baptist Church Thursday evening. Members and their husbands met at the Wagon Wheel.
 Taking the subject, "Missions," Dr. O'Brien told of the need for missionaries in Alaska. This, he discovered on his recent trip to that country.
 Wayne Smith gave the invocation for the 17 attending the dinner. Hostesses were Mrs. Arthur Pachal and Mrs. Howard Erlich.
 A large candle burned in a base of golden grain, grapes and chrysanthemums on the table where guests were seated. Dr. Marshall Cauley dismissed the group with a prayer.

Lamesa OES Report On Chapter Meeting

LAMESA — The Lamesa Order of Eastern Star met Thursday evening for a stated meeting. Mrs. Parker reported on the grand chapter meeting she attended in Fort Worth. This was followed by a report by Mrs. D. L. Adcock on the fraternal visit of the worthy grand matron, Mrs. Pauline Smith.
 A resolution of respect was read by Mrs. Al Griffin and the charter draped. Mrs. Arpie White then paid tribute to Bob Lindsey Jr. Refreshments were served by Mrs. Burger and Mrs. Ed Burkhead to 25 members and two visitors.

GI Enrollment Up At HCJC, Due To New Tuition Proviso

Howard County Junior College—unlike many colleges and universities—is showing an increase in the number of GI students enrolled. While two factors probably contribute to this, one weighs far more heavily because HCJC is (in part) a state supported school.

B. M. Keese, registrar for HCJC, pointed to the crux of the situation—a difference between PL 346 (World War II GI Bill).

Under the act for World War II vets, the single student received \$30 a month plus his tuition, books and fees, and the married vet and with two dependents received \$120 plus books, tuition and fees. Thus, it made no difference to him if he attended a parochial or denominational school with a high tuition charge, for the government picked up the tab.

But now (under the Korean War act for veterans) he receives \$110 per month if single and \$160 per month if he is married and has

two dependents. Out of this increase he pays for his books, fees and tuition. The single veteran finds little difference between the two, provided he is in a low-cost tuition school such as HCJC, and the married veteran with two dependents actually will find himself \$35 to \$50 ahead for the semester. This, again, depends on whether he is in a low cost tuition school.

Thus, Keese believes one of the real reasons why HCJC is showing a gain in GI students while many colleges are down is that parochial and denominational schools have been losing the GIs and the state and locally supported schools have been gaining.

The other reason for the mild upsurge in enrollment by GI students is that many found the deadline looming on their educational benefits.

PL 550 specifies that the veteran must enroll within 36 months of the date of his discharge from service. Failing to do this, his educational benefits are lost. He then has 36 months of schooling avail-

able, provided he does not stretch it out to more than eight years after the date of discharge. Actually, he is permitted interruptions up to 12 months duration in his schooling, but more than two major interruptions in the sequence will terminate his benefits.

The 36 months, however, are entirely adequate for the average four-year college course.

HCJC touched the lowest point for GI students a year ago when there were only about 40 GIs enrolled. At mid-term, because of the benefit deadline, enrollment picked up by approximately 25.

Last spring there were 63 GIs enrolled. This semester there are 84, plus two others who are probably eligible.

Keese has this to say about students under the GI bill of rights—those who enroll soon after discharge invariably make the best students. The reason is simple: they are in dead earnest about an education and it's all a very serious business with them. Consequently, they try to get the most out of their college experience.

CARLOS GRUBER

Latvia Native On Program For Revival Here

A native of Latvia and former evangelist in Brazil, Carlos Gruber of Plainview, will direct music during the revival series at the Baptist Temple Church, Eleventh Place and Goliad, this week.

Rev. Gruber also will present a violin concert preceding services each evening.

The minister was born in Riga, Latvia, but moved to Brazil at the age of 13. He was active in the "jungle missions" in the state of Sao Paulo and graduated from the College of Sao Paulo.

Later, he conducted music programs in Brazilian Baptist churches. He came to this country in 1937 and graduated from the Southwestern Baptist Seminary, Fort Worth, in 1940. He was ordained the same year, and until 1946 served as pastor of the Latvian Baptist Church in New York. At the same time, he was editor of the Latvian monthly, Drauga Vestis ("Friends Message").

He became a U. S. citizen in 1948, the same year he married Vivian Mercer of Bartow, Fla. She was a college teacher of Spanish.

Chaplain C. O. Hitt of the VA Hospital will preach at each of the evening services, as well as today and next Sunday.

Westward Ho Motel Is Sold

A deed recording sale of the Westward Ho Motel, luxury establishment located west on U. S. Highway 80, to two Los Angeles men was filed for record with the Howard County clerk's office Friday afternoon.

Westward Realty Co., Inc., Leon Redner, president, was recorded as selling the property to John J. Bouey and J. Roy Henry; both identified as being from Los Angeles.

No definite price was set up but the internal revenue department stamps on the deed cost \$111.10. The document recited that Bouey and Henry are assuming the balance of a \$200,000 note against the property—balance at this time being given as \$169,341.35—and giving a second note in the sum of \$50,000.

An attached statement relates that the Westward Realty Company stockholders at a recent meeting unanimously authorized Redner as president of the corporation to proceed with the sale of the property. Ann Redner is named as secretary of the corporation.

Land involved in the transaction is described as two tracts—a part of Section 31, Block 3, Township 1-north, Texas and Pacific Railway Survey.

Asks Tighter Laws

WASHINGTON, Nov. 10 (AP)—Sen. Douglas (D-Ill.), contending recent Illinois bank scandals tarnished the good name of the Federal Deposit Insurance Corp., called today for tighter bank laws.

Stripper Convicted

OAKLAND, Calif., Nov. 10 (AP)—Stripper Evelyn West, now in New Orleans, was convicted today of indecent exposure in a performance here Aug. 23.

Draft Registrants Should Report Changes In Status

It's not a new problem at all, but it has been reappearing rather often at the office of the local Draft Board.

The problem deals with the failure of registrants on the lists of the draft board to keep the board duly posted on any changes in their situation in the matter of children born, addresses changed, jobs accepted and so forth.

Young fathers who are on the draft list are warned by the board that it is to their advantage to advise the board of any new children they may have in their home within 10 days after that change develops. Registrants are also advised to notify the board if they are expecting to become fathers.

The board explained that after an order is issued calling a draftee for induction, it does no good for him to call attention to the fact that he is a new father. There is nothing the board can do about it—he still gets inducted.

If the draftee has posted the in-

formation with the board as required by the regulations within 10 days after the change in his status occurred, he can be saved from induction.

Several such instances have occurred in recent weeks and the Draft Board points out that there was nothing the board could do to help the principal.

Nixon Stops The Show

WASHINGTON (AP)—Vice President Nixon "stopped the show" last night when he helped singer Carl Brisson with a piano rendition of "The Eyes of Texas Are Upon You."

The Danish-born Brisson, appearing at a hotel here, confessed he was stuck after somebody in the audience requested a Texas song.

Nixon, who was on hand with his wife and a group of friends, volunteered to accompany Brisson on the piano. Nixon also helped on the song's chorus.

The audience gave Nixon a standing ovation after what one spectator called a "nice and loud" performance.

Later, Brisson, who described Nixon as an old acquaintance, said he thanked the vice president—but suggested jokingly to Nixon that he shouldn't "come around too often and steal the show."

Air Power Film To Be Televised

First in a series of CBS-TV programs on U. S. air power will be aired Sunday from 5 to 6 p.m. by the local television transmitter.

The U. S. Air Force, in an announcing release of the film, said it will enable Americans to better evaluate the past and present role of air power as an instrument of national policy, in light of recent advances in world air forces.

Involved In Heart Trouble Of Both Kinds

MEMPHIS (AP)—Handsome Patrick Cain, 45, was involved in both types of heart trouble today—medical and romantic.

Wife 2, shocked when Cain was arrested during their honeymoon on a charge of passing worthless checks, was shocked anew when she learned he had a wife in Kansas City.

Cain was admitted to City Hospital last night after he was stricken in his cell with what appeared to be a heart attack.

That came after wife 1 in Kansas City, Mrs. Caroline Van Horn Cain, 21, described herself as "the world's prize sucker" when it came to picking a husband.

Caroline Cain said her husband, arrested in Memphis Wednesday, deserted her last month in New Orleans after he has "lived up" her \$8,000 inheritance during six months of marriage.

Miss Ruby Larkin of Memphis, who said she married Cain Saturday, briefly pondered Mrs. Caroline Cain's experience.

"Well," she sighed, "I didn't have anything to run through. He told me he didn't have too many years to live and he didn't care anymore. He figured he was going to have all he could while he was alive."

Detective M. A. Hinds said Cain passed bad paper in New Orleans, Kansas City, Memphis, and Fort Smith, Ark.

Piano Concert Set At HCJC Monday

A young man who has his target set on becoming a concert pianist—and whose talents equip him with the ability to zero in on his goal—will be presented in concert Monday.

He is Billy Evans, a senior in Big Spring High School, and one of the most promising young pianists to blossom locally.

At 18, he has played in National Piano Playing Auditions for the past six years—and won highest ratings. Billy has played before numerous clubs and other gatherings and has been piano soloist with the high school band, of which he also is the drum major.

Billy has studied under Mrs. Nell Frazier and presently under Jack Hendricks, head of the piano and organ department at HCJC. He also has studied under his brother who won considerable attention while at North Texas State College and who currently is doing graduate study in London while in the Armed Services.

His concert is set for 8 p.m. in the Howard County Junior College auditorium and will include the Organ Prelude in G Minor (Bach-Silotti), Sonata, Op. 27, No. 2 (Beethoven) in the first portion. His post intermission section will include Nocturne, Op. 9, No. 2, two preludes, Op. 28 No. 2 and No. 15, Etude, Op. 25, No. 9 and three waltzes taken from Op. 64, 69 and 70, all by Chopin. His concluding passages will be Three Fantastic

BILLY EVANS

Dances (Sostakovitch), Clair de Lune (Debussy) and Prelude No. 3 (Gershwin).

Freight Rate Hike

HOUSTON, Nov. 10 (AP)—All Texas congressmen were sent wires yesterday urging them to request the Interstate Commerce Commission grant more time to prepare testimony opposing the railroad's bid for a 15 per cent freight rate increase. Texas Farm Bureau President Walter Hammond sent the wires.

Only the new 1957 RCA WHIRLPOOL gives you built-in lint filter... 2 separate speeds... money-saving Suds-Miser®

FILTERS OUT LINT AS IT WASHES OUT DIRT!

This is the automatic washer that filters and cleans all the time it washes and rinses, filters all the water so lint and thread and soap-scum can't get through to clothes. Works even when water level is low, with any load—big or small.

And it's the only washer with that famous Suds-Miser—the feature that lets you re-use hot, sudsy water safely. It filters and saves suds automatically for extra loads—and that saves you soap, hot water and money!

It's the washer that gives you 2 separate speeds, 2 adjustable time cycles—the right washing action for every fabric, even those filmy, feminine things.

If you want a cleaner wash and a lint-free wash, an easier and more economical laundry, see this new RCA WHIRLPOOL Imperial automatic. Special high trade-in during our introductory days.

Two speeds! Normal for your regular wash—cottons, denim, household linens. 65 agitator strokes a minute, and fast, safe spinning.

Gentle Speed for your Sunday-best! For nylons, Dacrons, rayons, a slower, swishing action, 42 strokes a minute. Slower spin-drying, too.

Exclusive Suds-Miser! It's built-in—not an accessory. Saves up to 26 boxes of soap and 2500 gallons of water per year.

All-Porcelain White or smart new Match-maker colors—pink, yellow, green. Matching gas or electric dryer.

There's just one washer that has everything....

- Built-in lint filter
- Vigorous agitator action
- Two separate speeds
- Free-flow drain
- Any time cycle—1 to 14 minutes
- Seven automatic rinses
- Three water temperatures
- Any water level—11 to 17 gallons
- Full 9-pound capacity
- Ultra-Violet germicidal lamp

RCA Whirlpool

complete—pay as little as \$2.50 a week No money down if you have an old washer to trade

A Bible Thought For Today

The LORD bless thee, and keep thee: The LORD make his face shine upon thee, and be gracious unto thee: The LORD life up his countenance upon thee, and give thee peace. (Numbers 6:24-25:26)

Editorial

An Issue Of Enduring Happiness

This is a season of the year when we all ought to be getting settled into the long routine for winter and spring. It is a season when we ought to give due consideration, if indeed we have not already done so, the role of our churches in our community and our lives.

You cannot put the value of churches on the same basis as other agencies or institutions, although ours would certainly qualify as a major endeavor of our community. There are no figures available, but we venture that contributions to all congregational and mission causes in our city would figure between \$750,000 and \$1 million per year. The total payroll generated by churches would lie between a quarter and a half a million dollars per year. The 30 or more houses of worship are prime customers for utilities. They represent considerable physical value and since the end of World War II have contributed around a million dollars in new building costs.

But these things are brick and mortar and dollars and represent the least important side of our churches. The real side of the churches deals with the spiritual and thus in turn with humanity.

Man is created in the image of God and there is a spark of the Divine in

every one of us. There is an innate longing within the soul of man that draws him magnetically toward his Creator, yet it is the church which becomes the shepherd. Through its ministry and by its special commission, the church can appeal to the nobler instincts of man and can stir him to a more faithful and fruitful discharge of his spiritual duty.

And just as surely as this happens, man is drawn to a closer relationship and understanding with his God.

From this high plane, is it any wonder that this becomes the source of issue of most blessed relations one with another? It is simply in following the Great Commission to love God with all our hearts and souls that we naturally do the rest—to love our neighbors as ourself.

Secular as well as religious philosophers have agreed that we are never quite so genuinely happy as when we are serving our fellow man.

Our churches make this a prime business, and so we say that our community is infinitely more satisfying and better for them, and that they deserve our devoted support.

If you have been playing at your church obligations, won't you begin today to make it the most serious business of your life?

Norman Vincent Peale How To Make The Right Decisions

Last Tuesday, people all over the United States went to the polls and made some choices that will affect the future of our country. Most of them no doubt thought seriously about these choices and voted in the sincere belief that their particular choice was the right one.

But the problem of how to make a right choice is not limited to Election Day. It is with us all year round. We face a series of choices — important and unimportant — each day we live. And the only way we can be certain of making a right choice is to take God's guidance in arriving at any and all decisions we may have to make.

A New Yorker in the construction business was telling me about his company the other day. "This business," he said, "was once on the edge of failure. I couldn't get any of the answers I needed. And I didn't know what to do."

"Then, one day, I was alone and at the end of my rope. I went into my own office and shut the door. It seemed the Lord was right there with me, and I just began to talk to Him like I would speak to a close friend. I told the Lord that He was my partner. I began then to check all decisions in prayer and received definite guidance. God and I rebuilt this business together," he declared, and then continued.

"The first thing that happened to me was that I stopped worrying. I became calm and quiet. I lost that feeling of panic. Then, I began to get new and creative ideas. And I acted on them. My choices and decisions worked out right. My business began to catch hold; I paid off old debts and made progress. I am sure now that this business has been maintained only by the guidance of God and His help in making the right decisions. I have no

lack of confidence about the future."

This is true in business and it is equally true in personal affairs. If you take God in as a partner and let Him help you with your choices, you need feel no lack of confidence in your future. Your ratio of good decisions will greatly increase.

But this doesn't mean that you can sit back and let God do it. God expects you to do your utmost. He gave you brains — but the responsibility for the use of that brainpower is yours. He gave you a body too. And all of us know how the body deteriorates if we neglect it — the muscles become flabby, the bloodstream grows sluggish. The brain is no different — it ceases to give you the best decisions if you do not exercise it.

Here, too, God can help you. He can guide your thinking, watch over you, lead you to correct solutions. Prayer is the best technique for obtaining this help and guidance. Ask God to activate the brain He gave you so that it shares His ideas and His insights. Keep your thinking in contact with Him and He will show you the way to make all the right choices in life.

The late Dr. Peter Marshall was chaplain of the United States Senate. He once wrote a prayer that is worth remembering, not only before making a choice, but on many other occasions: "Our Father, give us the faith to believe that it is possible for us to live victoriously even in the midst of dangerous opportunity that we call crisis. Help us to see that there is something better than patient endurance or keeping a stiff upper lip, and that whistling in the dark is not really bravery."

"Trusting in Thee, may we have the faith that goes singing in the rain, knowing that all things work together for good to them that love Thee."

Walter Lippmann Election Over, Crisis Still Here

This time the professional observers, with no very serious dissent among them, have long been foreseeing the grand results of the election. There has never been any real doubt that if President Eisenhower was physically able to run again, he would be invincible, what with the prosperity of the country, his personal prestige both in war and in peace, and his achievements as the healer of the internal divisions of this country.

While Eisenhower was a certainty from the beginning, it was highly probable that the Democratic party would prove again that it is stronger than the Republican party. The indications are that the correspondents, the commentators, and the pollsters have been essentially right in distinguishing between Eisenhower and his party. He has had an enormous vote of confidence. The Republican party has not had one.

The campaign has been clean and decent, but not enlightening or interesting. It takes two to bring on a debate, and the

President refused to be provoked into debating anything. Since there was a great contented majority behind him, he did not have to admit that there was any issue to debate. To have admitted that there were issues which were debatable might have been to disturb his majority.

Since the weekend the international situation may have reached, and perhaps passed, a very dangerous crisis. The Anglo-French intervention in Suez called for quick and decisive results, for an accomplished fact which created a new situation. In fact the intervention was so slow that in the interval—before the landings and while the Egyptian airfields were being bombed—the Eden government found itself in a whirlpool of opposing forces at home and abroad.

At this point the Soviet government seized an opportunity which it promptly seized. It threatened to intervene on the side of Egypt, confident that in much of the world it would find sympathy. By this action the Soviet government has re-established its position in Egypt and among Egypt's Arab allies. That position would have been lost had the Anglo-French intervention been a quick and complete success.

To this dangerous threat the Eden government has responded by breaking off the military operations at a point where some but not all of its objectives have been achieved. We have responded, as we were bound to do, by warning the Soviet government not to intervene.

The best hope of the world now lies in the plan which has been voted by the United Nations, for an international force to police the occupied territory after the British, French and Israeli armies withdraw. The success of this undertaking is almost certain to depend on whether the Soviet Union really backs it or really opposes it. We can only hope for the best. For the task which is now assigned to the United Nations is far and away the most difficult in all its history, and yet the great powers, whose unanimity is so necessary to any United Nations action, are as never before divided among themselves.

Fortunately, the management of the undertaking is in the hands of Mr. Dag Hammarskjöld, as competent, as cool, as astute, and as objective a diplomat as we have seen for many a long day.

Thorn Among The Roses

J. A. Livingston

Economic Aspects Of The Election Returns

Woodrow Wilson campaigned for the Presidency on the New Freedom. Franklin D. Roosevelt offered the New Deal. And Adlai E. Stevenson proposed a New America. Stevenson lost because the voters liked the old America. They'd never had it so good. They didn't want to change. That's the economics of the election returns.

The farmers were supposed to be "agin" the President. He had denied them firm support prices. Labor leaders, notably Walter Reuther, head of the CIO division of the AFL-CIO, openly campaigned for Stevenson. The AFL-CIO endorsed his candidacy. Argument: Stevenson and the Democrats were for the little man, Eisenhower and the Republicans for big business.

As groups, farmers and workers rejected those pat — you might even say "patsy" — arguments. Why?

President Eisenhower symbolizes what all people want — composure, a settling down after the war. In a postwar era, people want new gadgets rather than new ideas. They want to enjoy America's wealth and opportunity. This is a period of gestation, of readjustment, not the great striving that Stevenson urged on Americans. Slowly, farmers are working out their own destiny. Though prosperity isn't knocking at farm doors, neither is the sheriff. Acreage sells at the record high of \$88, versus \$65 in 1955 and \$75 in 1951 during the Korean War. If farming is such a terrible profession or occupation, why this high price?

Don't put it on the "exurbanite" — the city dweller who craves a farm, attribute it to agriculture's technological revolution. Farmers, themselves, bought nearly 65 per cent of all farms sold last year.

The college-trained technician is taking over. He has studied the uses of machinery, crop rotation, contour planting, fertilizer. He needs scope — land — to exploit his investment in knowledge and equipment. So he and his family buy up neighboring farms. City dwellers buy part-time farms "which could not be operated full-time," according to the Department of Agriculture.

Interestingly, the value of buildings dropped from \$24,500,000,000 in 1955 to \$23,900,000,000 this year. This too is part of the revolution. The farmer who buys nearby acreage doesn't need the house, barn and other outbuildings. He has his own, which are better. Usually, the rundown, the marginal farms are sold. The buildings would need extensive repairs. So the percentage of farm buildings to the total value of farm property (land plus buildings) has dropped from 31 per cent in 1940 to about 23 per cent (see chart).

The wage-earner has a different destiny. He banks in his encumbrances — his home, probably bought on a small down payment, his automobile, mortgaged to its power steering, and the washing machine, ironer, and automatic garbage disposer, financed by a willing finance company or bank. In America, a man's living standard is determined by his capacity to capitalize earning power. Enjoying the present as you pay for it in the future is the essence of our consumeristic society.

Creditors aren't dopes. Bankers, auto dealers, merchants, finance companies know that Americans are good risks — when they work. And they're working.

Joblessness has dropped below 2,000,000 persons. At the same time, wages of workers in manufacturing have climbed to \$82 a week on the average. And in many indus-

tries and occupations, wages of \$100 a week is not unusual. Too, many families have more than one income. Half of all working women are married and living with husbands.

You don't get political upsets in a society in which squeals of prosperity far outnumber the squeals of pain. Today, the people able to buy homes far exceed those who can't get mortgage money. The business man able to borrow exceeded those who say credit's not available. That's the meaning of last Tuesday.

Today's economic problem has been aptly defined by Secretary of the Treasury George M. Humphrey as "living with prosperity. It may be even tougher than the problems of adversity. For when you are in trouble the whole idea is to get it over with — make a change. What we have now we want to keep."

This is still a capital goods boom. Industry is spending record sums on plant and equipment. And some time next year, possibly in the second six months, such outlays could decline. If so, the Eisenhower administration will need plans to (1) reduce taxes and (2) speed road building, public works and home construction — so as to check a deflationary spiral in its incipency.

At the same time, the Federal Reserve Board would have to reverse its tight-money policy. So as to make financing easier, so as to encourage state and municipalities to borrow money for schools, hospitals, roads. In times of prosperity, prepare ...!

Around The Rim Winter Will Come, And Santa Claus, Too

Despite elections and revolutions and other occurrences which seem to indicate the world is going to pot, there remain a few things demonstrating that orderly processes have not entirely vanished.

A couple of examples in the mail this week:

The first letter to Santa Claus has crossed our desks, courtesy of some system of mail routing at the postoffice. Also, the Old Farmer's Almanac(k) has made its annual appearance, and this is for the 165th year.

Some things, like Christmas and winter weather, thus stay fundamental. But even here are some disturbing elements.

For instance, that letter to Santa Claus. Do you think the little girl who wrote it sat down and professed her love for the old gentleman? She did not. Her missive consisted simply of a clipping from a newspaper ad, which pictured a girl's wrist watch offered by a jewelry concern. The implication being that here was the watch that little Miss wants for Christmas, and that Santa had better arrange the order, with no foolishness about it.

This shows you that even the youngest generation has no time to be composing letters in praise of Saint Nick, but adopts the more practical procedure of letting him know what is wanted, period. Sentiment has lost its standing, eh?

The Farmer's Almanac, however, follows the old established pattern, which makes it all the more appealing to us folks who like to believe the eternal verities.

The same home-spun philosophies are evident, and the same standard bits of advice, like planting and gestation tables, are there for ready reference.

The Almanac has gone modern to the

extent that it recognizes mankind's change, and cites that this is Atomic Year 13. But right along with this concession to progress (") comes this comment: "It seems pertinent at this time however that humanity make up its mind whether it wishes to proceed any further along the rim of war and total destruction in the competitive race for bigger and better thermo-nuclear weapons. It seems obvious in the inherent dangers of fall-out atmosphere disturbances, worldwide tensions — to say nothing of war itself — this road of darkness should be abandoned for the one that leads to benefits and happiness."

But to get down to business, the Farmer's Almanac has this to say about the weather for the next 12 months:

From November through March, 1957 — "Even and fine — many storms, but good weather in between. Averages colder than last year especially in February. On the whole, more snow."

April-May-June — "Cold and late."

July-August — "Will be as cool in August as it has been hot in July."

September-October — "Normal — including gales but no hurricanes north of the Carolinas."

The Almanac cites the fact that its forecasting primarily is for the New England area, so you can place your own interpretation on this intelligence.

But the fact remains that the Almanac's weather expert delves deeply into all phenomena, including ocean currents and polar barometric changes, and has some scientific data to support his predictions. And he's been making these forecasts, now, since George Washington's Day.

So winter weather will be here, and Santa Claus, too.

—BOB WHIPKEY

David Lawrence 'Conservative' Supremacy Shown

WASHINGTON — The American people have again voted "conservative." They have given the executive branch of the government to a non-radical, conservative-minded Republican President and the Congress to a coalition of conservative-minded Republicans and Democrats. Incidentally, Mr. Eisenhower describes himself as a "dynamic conservative" — he certainly is not a radical.

The radical wing of the Democratic party, on the other hand, has suffered its worst defeat since the New Deal was born in 1933.

The people — who have a habit of voting "against things" — cast their ballots against Adlai Stevenson, who made a campaign that completely fumbled the main issues. He centered his attack on a personal question — the life span of his opponent, Mr. Stevenson publicly predicted that Eisenhower probably would die during his second term and that Nixon would become President.

But the Democratic nominee's lack of good judgment was apparent on other phases of the campaign, too, throughout the critical weeks of October. He tried to scare the American people by alarming statements about the effects of "fallout" from hydrogen-bomb tests. He was willing to risk an end to H-bomb tests. He implied all sorts of things were happening already to milk being fed children or would happen to bone formations of children of the future — even though all this had been denied by competent scientists of the highest rank.

Many voters turned away from Stevenson in the critical weeks of October. They were indignant over the attacks made by Adlai Stevenson against Dwight Eisenhower as a man who allegedly had been — even before his illness — a "part-time President." An examination of the election returns in many states shows that, where Ike increased his majority, the total vote in many states didn't go up much. Yet the switch from Stevenson was very large indeed. Many people just didn't like Stevenson's attack on a popular idol — a man whom they trusted and believed to be honest and one who had served his country too long to shirk his duty when elected President of the United States.

The international crisis, of course, helped the Eisenhower war broke out, the public-opinion polls showed Ike running far ahead of Stevenson, anyway. The

American people just didn't want a change. They were, generally speaking, satisfied with economic conditions and the incumbent administration's policies.

As for Congress, it is being said now that the Democrats are the "majority party" because they won control of both houses — even though by a narrow margin. But it is also a fact that in the districts and states in the North where there were candidates of both parties in the field, the Republicans won more of the contests than did the Democrats. Thus, there were 79 seats in the House — mostly in the South — won under the Democratic label in districts where there was no Republican party opposition. There were five Republican seats not contested this year. Leaving out these uncontested seats, the Republicans won 197 seats and the Democrats 154. Also, outside of the South, the Republicans won 17 and the Democrats 12 seats in the Senate. There were six "unopposed" seats in the South where the Republicans made no contest. These facts disprove the claim that the Republicans are a minority party in the North today.

The mixed results in the congressional election shows it to have been fought out on local issues and to have been decided on the basis of the popularity or unpopularity of local candidates and on the influence of local conditions. The incumbents — the veterans in campaigning — did better generally than did the challengers.

So divided government — irresponsible government — continues. The partisan fight continues, too. The Democrats in the main will not cooperate with the President to pass any measure except those demanded by a nationwide public opinion. This means that, on many important but less understood issues, the Democrats will block any legislation that can help the Republicans — just as has been the case the last two years.

The campaign between the parties, therefore, goes on, and a responsible system of government — a parliamentary system that is more suitable to America in an atomic age than the present horse-and-buggy model — is still far from being considered. One of these days an international crisis will reveal the shocking need of a Congress and Presidency in a single party responsible together to the people and removable only in elections held when the people want them held.

Inez Robb Cars Need Garbage Disposal Units

Well, sir, as I bade a fond farewell to Detroit a day or so ago, it occurred to me that the auto industry is barking up the wrong cylinder with its long dreams of rocket cars, atom-powered cars and flying hotrods.

For an industry that tries to pierce the veil of the future with all the frenzy of a tea-leaf priestess, car manufacturers consistently overlook the one simple improvement to its product for which the motoring public longs.

What the public craves is not teevee in the back seat or a spigot gushing hot coffee up front but a handy-dandy garbage disposal unit. No other object in common use in this country collects or attracts as much miscellaneous debris in so confined a space as the old family car.

Drive 50 miles through city or country, hill or vale, and at the end of the journey the motorist is buried under a rat's nest of apple cores, candy wrapper, popcorn boxes, facial tissues, old paper cups, tag-ends of sandwiches, newspapers, discarded road maps, pop bottles, and comic books bought in fond hope of keeping the little nippers quiet.

At the end of a day of cross-country driving the motorist isn't certain whether he's in a garbage scow or en route to a rummage sale. Even if he is a scowfall at heart, and crass enough to strew the lovely countryside with trash, his hand is stayed in hundreds of towns and counties by crisp roadside signs saying the penalty for such is jail and/or a stiff fine (\$100 and around Detroit).

What the family car really needs is not

more foam rubber and chrome, but a built-in disposal unit that will care for paper sacks, broken skins, chicken bones and even, in emergencies, obstreperous children.

If the motor industry refuses to take seriously my proposal for a garbage disposal unit, it also sees no threat to its supremacy at home in the present popularity of the small, foreign-made car. It has made no more dent in Detroit than a mosquito dive-bombing an elephant.

The Merlins of the Big Three say flatly that the American motorist wants, in an American car, a juggernaut with the speed of light and all the comforts of home. And that he will not buy an American-made midget.

Only the American Motors Corporation is taking a gamble in 1957 with a new small car. This is the Metropolitan, with a 52-horsepower engine and an overall length of only 12 feet, five and one-half inches. But even though both engine and body of the Metropolitan are made to American specifications, it is being manufactured in England!

This small, snappy two-seater is meant for the two-car family. There is room for the luggage and kids—if real small—in the rear. It will squeeze 35 to 40 miles from a gallon of gas, park on a dime, and sell for about \$1,350 with heater and radio.

It is hoped that the Metropolitan will give the Volkswagen and other midgets a run for their money. But only time will tell.

Bible Words for Today

I CORINTHIANS 14:12 — "Since you are eager for the manifestations of the Spirit, strive to excel in the building up of the church." (RSV)

Today when the church is being challenged by forces of darkness there is great need for "oneness of spirit." I Corinthians was written to a divided church; divided because of the non-essentials as evidenced by the question of tongues and other spiritual gifts.

The different approaches made by religious groups do not necessarily mean there is division. However, when any group stresses its pet creedal position at the expense of the essentials, division is the result. One test of the value of any belief held by a branch of the church is the contribution it makes to the building up of the whole church.

Christianity can be made stronger by its various emphases, for these give a greater opportunity for reaching all the people. We can maintain our identity as denominations and at the same time present a united front against the forces of evil. Whatever spiritual light has come to any should be shared with all. It is a gift of God and we should "strive to excel in the building up of the Church." This is an obligation laid upon all of us.

The Rev. Norman U. Boone
First Methodist Church
Columbia, Miss.

Liz Taylor Plans California Divorce

HOLLYWOOD — Actress Elizabeth Taylor now says she has changed her mind and plans to obtain a California divorce from British actor Michael Wilding.

Previously she indicated she would go to Nevada or Mexico for a "quickie" divorce to clear the way for her expected marriage to show producer Michael Todd, who recently gave her an engagement ring.

Fine Gift

OMAHA — Offenders appearing before Traffic Judge James O'Brien got the usual fine and lecture plus a "gift." The gift was a bumper tag for each offender's car. The tag proclaimed "Slow Down and Live."

Pool Car

NORFOLK, Va. — Ralph Pool, a Norfolk newspaperman, found his car missing when he started to go home from work. Three days later he found it parked where he had left it, but with one meter. It also had a lot more miles on the odometer and a lot more gasoline in the tank.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

| Day | Book | Chapter | Verses |
|-----------|------------|---------|--------|
| Sunday | I Kings | 19 | 9-12 |
| Monday | Matthew | 5 | 1-16 |
| Tuesday | Matthew | 5 | 17-26 |
| Wednesday | Matthew | 5 | 27-48 |
| Thursday | Matthew | 4 | 9-13 |
| Friday | II Timothy | 3 | 16-17 |
| Saturday | II Peter | 1 | 16-21 |

Copyright 1954, Kelter Adv. Service, Strasburg, V.

It happens in offices, in factories, in barracks . . . on ships and trains and airplanes . . . in the quiet of churches, in the thunder of battle; we pause in the turmoil of time to read the Word of Eternity.

And the pages we read bring us close to those at home, or to those away from home.

For the Bible brings us to God, in Whom there are no distances, with Whom love encompasses all.

One of the great Christian enterprises of our time is the American Bible Society. Through the support of Christian churches and individuals it seeks to bring these divine pages before the eyes of men, women and children the world over.

Like the churches of our community it calls men to the Truth on which unity and freedom are founded.

BUZ SAWYER

WHY, IT'S JEFF! COME IN.

MR. CHRISTY, I JUST DROPPED BY WITH SOME NEWS FOR BUZZO.

HYA, PEPPER BOY! HOW'S MY PAL?

UNKA JEFF!

WHAT'S THE NEWS, JEFF?

YOU LEAVE TOMORROW FOR JOHNSVILLE, PA., TO GET A PRESSURE SUIT FITTED FOR YOUR FLIGHTS IN THE SKY WITCH. THEY'LL WANT YOU ABOUT TWO WEEKS FOR INDOCTRINATION.

OH, DEAR! THEN WE'LL HAVE TO MISS THE BIG THANKSGIVING DANCE AT THE CLUB.

NO REASON YOU CAN'T GO. ANGEL, MAYBE JEFF COULD TAKE YOU.

WHY, SURE!

JOE PALOOKA

TOH, TOH! WHY'D THEY GO AN STEAL OUR TOWN'S TREASURY FUR? AND JUST WHEN I HAD THE BUDGET ALL BALANCED!

LOOK, HUMPH? TH' OL DRIPPINGS LEAD RIGHT TO THAT THERE SHACK! QUICK, PULL OVER!

THEM MEN ARE DESPERATE... AN' THEY'RE ARMED! WE GOTTA BE CAREFUL!

MY GOODNESS! LET'S WAIT TILL IT'S DARK! WE WANT T'AVOID ANY SHOOTIN'S P'VEYING SAKES!

ZZZ ZZZ SHH... THEY ALL FELL ASLEEP GUARDIN' TH' SAFE!

HAT'S FINE, SHERIFF? I KNOW JUST WHAT I GOTTA DO!

DIXIE DUGAN

WHAT'S GOING TO HAPPEN TO YOU WHEN YOU RUN OUT OF FOOD?

HAVEN'T GIVEN IT MUCH THOUGHT.

—AND NO SHIPS OR PLANES PASS BY—

—AND NO FRIENDS TO TURN TO—

STOP RIGHT NOW! I'LL HAVE NO WORRIES HERE!

SORRY

SCORCHY SMITH

THE STORM IS GETTING HEAVIER. WANT TO HELP ME WITH THE HORSES, JAY?

NO, THANKS, SCORCHY, I'LL STAY INDOORS!

HMM! THERE HAS TO BE A WAY TO GET JAY OUT OF HIS SHELL!

BEEP! BEEP! HEY! LOOK OUT!

NANCY

ARE MY PILLS READY?

YES... THEY'RE RIGHT HERE ON THE COUNTER.

I COULDN'T SWALLOW THEM.

COME BACK.

THESE AREN'T YOUR PILLS... THESE ARE RUBBER BALLS FOR THE TOY COUNTER.

OH

OAKY DOAKS

YOUR INTERPRETATION OF THE ELECTION RETURNS IS ABSURD, MISS GLOSS!

BUT, PRINCESS POMONA, THE VOTERS GAVE OAKY AND ME THE SAME NUMBER OF VOTES.

—SO THEY WANT OAKY FOR DUKE AND ME FOR DUCHESS!

IT'LL BE DUCKY TO RUN THIS DUCHY WITH HIM!

AND IT'LL BE DUCKY IF I DUCK OUT OF THIS DUCHY AND GO BACK TO THE ROYAL CASTLE!

I'M DUCKING OUT TOO!

L'I' ABNER

How Sadie Hawkins Day Began (Continued)

BACHELORS! SINCE NONE O' YO BIN MAN ENUFF T'MARRY MAH DOTTER, SADIE—AH GOTTA TAKE FIRM MEASURES!

AM DECLARES THIS "SADIE HAWKINS DAY"! WHEN AH FIRES—YO' STARTS AGIN'! SADIE STARTS! TH' ONE SHE KETCHESLL BE HER HUSBIN—LES GO!

WELL, Sadie did catch one. The other Dogpatch spinsters allowed it were such a good idea—Sadie Hawkins Day was made an annual affair!

WATCH A CRIC BY TH' TIDE—WHEN HE HOLLERS, DON'T LET GO!—THASS HOW AH'LL SAVE MAHSELF IN TH' RACE!

BUT—WHUT DO IT MEAN?

Brave New World

A secret policeman, working for the Anti-Sex League, makes use of a soon-to-be-come type of TV to trap two young lovers who are breaking the law of a Communist world by making love, in this scene from the screen version of George Orwell's frightening novel "1984."

TOPS ON TV

New Series Of Programs To Show U. S. Air Power

"Air Power," CBS Television's forthcoming documentary on the history of flight and its impact on the 20th Century, begins today on KBST-TV at 5 p.m. with an all-star cast of "actors" headed by Gen. Nathan Twining, Chief of Staff of the Air Force. The premiere program, entitled "The Day North America Is Attacked" is a dramatic revelation of what will actually happen within our continental defense establishment if and when such an attack is launched.

The remaining 25 parts of the new film series will be half-hour programs, broadcast each Sunday on Channel 4 from 5 to 5:30. Produced from more than 330 million feet of film from all parts of the world (about 77 million owned by the Air Force alone), "Air Power" will tell the story of some of aviation's heroes: Billy Mitchell, Rickenbacker, Doolittle, Lindbergh and others; and it will relate their achievements to some famous figures of modern history like Churchill, Roosevelt and President Eisenhower.

SILVERS AND CROSBY Phil Silvers and Bing Crosby

CINEMA COMMENT

We're going to stick our neck way out and say that the movie version of George Orwell's "1984" is the week's best film. Not having seen it yet, we couldn't be too sure. The story, as might be expected, has been changed considerably, and as a result much of the book's impact has certainly been lost. But judging from the studio publicity releases (if a person can judge a film from those things) "1984" still packs a wallop. It's a weird tale of terror, not the Frankenstein-Dracula type, but a creepy kind. In the 1984, the entire world has been taken over by the state. The individual is nothing, and even sex has been outlawed. In the book version, "1984" tells the story of one lone and lonely man among millions worked like a machine by the State, and constantly spied upon by the secret police. Helping the police is an array of electronic gadgets, most of which have already been invented or are believed possible, making even the thought of revolt impossible. The Thought Police are everywhere, and the Anti-Sex League has prohibited expression of man's most basic impulse. Family and marriage are no more, and the individual is battered down ruthlessly to the status of an ant.

The movie version is changed to make the hero fall in love with a fellow worker, both of whom plan a revolt against the State and are betrayed.

Perhaps this doesn't belong in the Cinema Comments column, but a little unorthodoxy is beside the point when it comes to Carmen Amaya.

Sunday, Dec. 2, is the date set for Miss Amaya's appearance in Big Spring. She will be accompanied by Sabicas, great Spanish guitarist. Those who may have been privileged to see the Spanish film "Flamenco" will understand what's in store for them with Miss Amaya's appearance. Unfortunately, the film was shown only in "art" theatres in the U. S.

Flamenco, in which Miss Amaya and Sabicas are top stars, is an ancient form of the Spanish dance, song and instrumental music. Its origins are not known with certainty, but it is known that Flamenco grew over the centuries with each invasion of Spain. There are traces of Gypsy, Persian, Arabic, Greek, Egyptian, Hebrew and Indian culture in Flamenco.

People expecting to see a sexy Latin-American type dance, will be sorely disappointed. Flamenco is all fire, flash and frenzy and the rhythms make many a hair stand on end.

Miss Amaya is a pure-blood Gypsy, and has been praised highly by the nation's leading critics and professional musicians. Her show will be worth the price of admission and then some.

Note to fans of UPA Cartoons: "When McGoo Flew" scheduled at the Terrace Drive-In Sunday and Monday.

Movie Version Of '1894' Puts Emphasis On Anti-Sex League

George Orwell's terrifying book, "1984," has been made into a movie emphasizing the sex theme of the novel. The film, starring Edmund O'Brien, Jan Sterling and Michael Redgrave, plays Thursday through Saturday at the Sahara Drive-In Theatre.

Hassle Over War Movie

Filming of the war movie "Attack" brought about a hassle between the Pentagon and a member of Congress. Rep. Melvin Price (D-Ill.), a member of the House Armed Services Committee, charged the Department of Defense with attempted censorship in its refusal to cooperate with the studio. It was produced without the technical assistance and material customarily supplied by the department for movies about the armed forces.

Price's statement said: "I consider it a shameful attempt to impose censorship on a film because it dares to present an officer whose character is marred by the human failings of weakness and cowardice."

"If he were an enlisted man, he could apparently be presented with impunity as a coward and a moral weakling. But according to the Pentagon, an officer may not be shown in such unfavorable light."

Expert Urges Bigger Movies

HOLLYWOOD — "It seems to me the answer to the movie business' problems is bigger pictures. The studios should take what it costs to make six or eight cheap pictures and put that into one big one. Give audiences what they can't get on TV."

This was the view of Frank Capra, one of the all-time great creators of films. He has an unusual perspective because he has been absent from the industry for four years.

"All I hear from picture people is 'gloom,'" he observed. "It's so thick you can cut it with a knife. The last time I remember it like this was in 1941. That was when Hollywood had lost the foreign market and the studios were about ready to quit."

"Then the war came, of course, and the floodgates opened. Producers could send out six or eight reels of anything and make money."

What has been doing for the last four years? "I've been up to my elbows in work," he explained.

His work has consisted of creating four one-hour TV shows on science for the American Telephone and Telegraph Co. The first one, about the sun, will be seen Nov. 19 on CBS. The others, which concern cosmic rays, weather and the blood system, will appear at three-month intervals.

ed to the status of an ant or a robot. People live a mechanical existence devoid of any human emotion except hate. War has not been ended. The world, even in 1984, is still too large and complex to be administered from one capital, and there is a constant state of war between rival dictators. The picture of the future is the exact opposite of that so often depicted in other science-fiction films — worlds of shining push buttons, space ships and improved humanity.

In the film version, the hero falls in love with a fellow worker. This is a crime, since the Anti-Sex League has become all-powerful, but it doesn't stop the young lovers. They are betrayed, however, by a Party member whom they believe is sympathetic with their cause.

PLATTER PALAVER

By Mary Sue Hale

A fairly new name in music is LaVerne Baker. A noteworthy tune is her latest, "I Can't Love You Enough." This tune, having a twinge of rhythm and blues, plus a little rumba, goes over well with the teen-agers.

Perry Como's latest, which caters to the more conservative taste, is "Moonlight Love."

"It's Delightful To Be Married" states Gisselle McKenzie in her latest disc. First noticed by the American public via television, Miss McKenzie appeared on a Hit Parade program. Now her fans have expanded into a larger field.

Her recording of "Love and Marriage" was one of the most popular on the market.

Buchanan and Goodman, the brains behind "Flying Saucer," were the first to release a number patterned along an almost impossible plot. A number of similar releases had none of the impact of "Flying Saucer."

Now Buchanan and Goodman have a new release titled "On Trial." As in their previous release, they have used excerpts from several other popular records.

"Real smooth" is the only fair description of Billy Vaughn's new instrumental number, "Creole Love Call." Good for listening and dancing.

Fast enough to be considered novelty, yet not too outlandish to be enjoyed by all ages, is a latest release by the Ames Brothers, "I Saw Esau Sittin' On A Seesaw." Flip side is "The Game of Love."

"Slow Walk," by Sil Austin, is similar to "Honky Tonk," with a little more added.

"Someone To Love" by the Four Aces is a fast-moving tune, and will be big in no time from now. The flip is "Written in the Wind."

Lets Hair Down Anita Ekberg, termed one of the world's most beautiful women, lets her hair down in "Back From Eternity." Two-thirds of the film called for no makeup, and Miss Ekberg's natural beauty seems to stand up well without war paint.

Flamenco Had Many Origins

The origins, history and growth of the singing, playing and dancing of the flamenco is still debated in works of musical ethnography. Many were the influences, that with each invasion crossed the south of Spain. They were all fused into the melodies, rhythms and styles of the luminous and gay land of Andalusia.

Undoubtedly the songs of such diverse latitudes as Arabia and Persia, Greece and Egypt, Palestine and India, had nevertheless many similarities in their melodic lines, in the endings of the phrases, in the shortness of the intervals, in the flowery molismatic ornaments.

It was simply a question of features common to all the Mediterranean peoples, from East to West, arriving chiefly through North Africa. This is the route of all those songs, saturated of musical phrases and turns of flexible, undulating rhythm, brought by the Arabs to the peninsula, songs which they had learned from their Persian slaves.

On the other hand, the gypsy tribes which arrived in Spain in the middle of the 15th century, derived from far away Hindustan, where their ancestors sang the profane melodies of the "ragas," their similarity to the "cante jondo" being clearly manifest. Less probable seems the influence from the Synagogue.

Still all these influences found in Andalusia a favorable echo as they concurred with the songs the Andalusians practised.

'Doctor At Sea' Is Comedy Fare

That "Doctor In The House" has now become a "Doctor At Sea," Dirk Bogarde, who portrayed a madcap medical student in the previous film, scores again as an ocean liner medic in the sequel showing Sunday through Tuesday at the State Theatre.

Aiding the doctor in his sex-mad adventures are French star Brigitte Bardot and James Robertson Justice, who plays the seagoing bull elephant, captain of the ship.

Author's Widow Dies JACKSON, Miss. (AP)—Mrs. Katherine Bellamann, 79, author and poet, and widow of Henry Bellamann, author of "King's Row," died yesterday. She was born in Mississippi.

Lets Hair Down Anita Ekberg, termed one of the world's most beautiful women, lets her hair down in "Back From Eternity." Two-thirds of the film called for no makeup, and Miss Ekberg's natural beauty seems to stand up well without war paint.

The Week's Playbill

RITZ Sunday through Tuesday "THE UNGUARDED MOMENT," with Esther Williams and George Nader.

Wednesday through Saturday "ATTACK," with Jack Palance and Eddie Albert.

Saturday Kid Show "THE RAID."

STATE Sunday through Tuesday "DOCTOR AT SEA," with Dick Bogarde.

Wednesday and Thursday "TROUBLE IN STORE," with Norman Wisdom.

Friday and Saturday "NEW MEXICO," with Lew Ayres; also, "PROJECT MOONBASE."

TERRACE Sunday and Monday "THE LAST HUNT," with Robert Taylor and Stewart Granger.

Tuesday and Wednesday "A DAY OF FURY," with Dale Robertson.

Thursday through Saturday "VIRGINIA CITY," with Errol Flynn; also, "MILDRERD PIERCE," with Joan Crawford.

JET Sunday and Monday "CANYON RIVER," with George Montgomery.

Tuesday and Wednesday "AMBASSADOR'S DAUGHTER," with Olivia De Havilland.

Thursday through Saturday "THE PROUD AND PROFANE," with William Holden and Deborah Kerr.

SAHARA Sunday through Wednesday

"BACK FROM ETERNITY," with Robert Ryan and Anita Ekberg; also, "THUNDER OVER ARIZONA," with Skip Homeier and Kristine Miller.

Thursday through Saturday "PILLARS OF THE SKY," with Jeff Chandler and Dorothy Malone; also, "1984," with Edmond O'Brien and Jan Sterling.

Buffalo Takes His Revenge In Climax Of 'The Last Hunt'

Robert Taylor and Stewart Granger are cast as partners in "The Last Hunt," a drama of the last great drive against the American bison which left that beast nearly extinct. The film shows Sunday and Monday at the Terrace Drive-In Theatre.

Also starred is Debra Paget as an Indian woman taken prisoner by Taylor, a ruthless killer who finds exultation in extermination of the buffalo. Granger is a peace-loving man persuaded into the venture with some difficulty by Taylor.

Tension builds up as the Indian woman quietly submits to Taylor, with Granger learning to hate his partner and awaiting a sign from the Indian woman that she is willing to rebel against her master.

That signal finally comes, and the couple find themselves at the head of a chase with Taylor bringing up the rear. The climax comes in an unusual ending in which the bison exacts his vengeance.

Famed Spanish Dancer Carmen Amaya To Appear In Big Spring

Famed Spanish dancer Carmen Amaya, accompanied by Sabicas, noted guitarist, will appear in two performances at the Big Spring Municipal Auditorium Sunday, Dec. 2. Shows are scheduled at 2 p.m. and 8 p.m. Also featured is Miss Amaya's company of dancers, singers and musicians. The troupe will present songs, music and dances of the Flamenco, ancient Spanish cultural form. The Flamenco is best known in America in its gypsy forms, but its origins go back to Persia, Araby, Greece, Egypt, Israel and India. The show comes highly recommended by the nation's leading critics and musicians. Speaking of Miss Amaya, Arturo Toscanini says: "Never in my life have I seen a dancer with such fire and rhythm." Leopold Stokowski said: "She has the devil in her body." Cecil B. DeMille: "I know very well what she dances, but now I know how well it can be danced."

CARMEN AMAYA

Walter Winchell: "Carmen Amaya is a real gypsy. She is the glory of the Spanish dance."

Harper's Bazaar had this to say: "Carmen Amaya literally dances as though possessed; her eyes shoot green flames, her fingers clack, her lithe young body pounds out rhythms that she first learned when she was four in the caves inhabited by the gypsies outside Granada." Miss Amaya, a full-blood gypsy, was born to the dance. Her family has specialized in Flamenco dancing and playing for centuries.

War-Time Love Is Jet Feature

A drama of war-time love, "The Proud and Profane," returns Thursday through Saturday to the Jet Drive-In screen. Stars are William Holden, Deborah Kerr and Thelma Ritter. The story is of a woman who feels she has failed her late husband, a casualty of the Pacific war. She joins the Red Cross in an attempt to mollify her feelings of guilt. Stationed in the Pacific under the watchful eye of Thelma Ritter, the Red Cross supervisor, Miss Kerr meets and falls in love with Holden, a tough soldier who uses women for his own desires, then casts them aside. Made pregnant, and discovering Holden's true colors, Miss Kerr attempts suicide, loses the baby as a result, and causes Holden to feel guilty for the first time in his life. How the two straighten out the mess to find happiness makes for emotional drama.

LOOKS AT BOOKS

By Sam Blackburn

FREEDOM OR SECRECY

By James Russell Wiggins, Oxford University Press.

This writer, in the course of his years as a newspaperman, has been gravely alarmed at the growing tendency on the part of officialdom toward secrecy in the conduct of public affairs.

It has been his pet worry for many years and he has from time to time written warnings of the danger of such a policy. He has also made a great many alleged speeches trying to emphasize the threat that pursuit of such a course offers to freedom and the American way of life.

Now, it seems, a newspaper editor, equally concerned, has made an exhaustive study of the problem and written a book on the subject.

That book is "Freedom or Secrecy" by James Russell Wiggins, which was released by the Oxford University Press on Nov. 1.

In "Freedom or Secrecy" a nationally known newspaper editor says that secrecy in the conduct of public affairs endangers the rights and liberties of citizens. Basing his discussion on historical facts and cases, Mr. Wiggins sets forth the different constituent elements of the right to know and shows how each of them is indispensable to public information. This is a timely book on the importance of public knowledge and the dangers of secrecy in federal, state, and local government. The author's provocative study of the sources of our right to freedom of information and the perils to which it has been put in the past sounds a vigorous warning for the future.

Mr. Wiggins's study of the freedoms that the press needs to meet its responsibility to the public is divided into five sections, each dealing with a "right." He discusses the right to information, the right to know about legislation, judicial proceedings, the executive department, the military establishment, and private transactions; the right to print without prior restraint; the right to print without threat of punitive reprisal; the right to access to means of publication; and the right to distribute information without obstruction by government or by private persons countenanced by government.

These five rights are essential if the movement of ideas from the minds of others is not to be impeded by government. Wherever in any of these areas there is interference, the whole democratic system of government is in the greatest jeopardy. For a free government resting upon the consent of the governed cannot be conducted in secret.

James Russell Wiggins is executive editor and vice president of "The Washington Post and Times-Herald." He was born in Luverne, Minnesota, where he began his newspaper career as a reporter and subsequently publisher and editor of the "Rock County Star." He then became successively editorial writer, Washington correspondent, and managing editor of the "St. Paul Dispatch and Pioneer Press." During the war he was a captain in the Army Air Forces, instructor in the AAF Intelligence School, Harrisburg, and intelligence officer with the XIIIth Fighter Command. He returned to St. Paul as editor

Taking A Break

Jack Palance and members of his squad take a break during a lull in the fighting during the Battle of the Bulge, in this scene from the controversial movie "Attack."

'Attack' Is Stark, Brutal Drama Of Cowardly Officer

"Attack" is a stark and brutal drama showing a side of war that seldom comes to the motion picture screen. It is the story of a cowardly officer who is killed by one of his own men. Showing Wednesday through Saturday at the Ritz Theatre, the film stars Eddie Albert as the cowardly officer, Jack Palance as the sergeant who hates his commanding officer, Robert Strauss as the comic relief, Buddy Ebsen as a slow-talking killer and Lee Marvin as a hard and dirty-playing brass hat. Background is the Battle of the Bulge, with a company cut off by the Germans. The coward commands this company, and already has a record of exposing his company to unnecessary danger. The action encompasses a short period including the taking of a house which turns out to be a trap, the escape, and the return of the sergeant to settle a score with the cowardly commander. The controversial movie was chosen by the Italian Film Writers Union for the Pasinetti Award in Venice.

'Pillars Of Sky' Shows At Sahara

Action and religious ardor are the main ingredients in the latest Western epic, "Pillars Of The Sky," showing Thursday through Saturday at the Sahara Drive-In Theatre. Ward Bond, usually cast as a villain, does justice to his role as a medical missionary to the Indians who are stirred into an uprising by their warlike leader after a road is pushed through their territory. Others starred are Jeff Chandler as a tough sergeant, Dorothy Malone as a trouble-making woman and Keith Andes as a timid officer who made good.

Aggie Players Score In 'The Trial'

By MARSHALL COMERER

By The Associated Press A salute to the Aggie Players, who scored a triumph in the young Texas Little Theater season last week with Franz Kafka's experimental play "The Trial."

"A capacity audience sat throughout the first night performance, so completely engrossed in the elusive quality of the play they didn't quit their chairs until the house manager tactfully suggested the performance was finished," reported Eleanor Burchard of the Bryan Daily Eagle.

Cited in this play probing the meaning of existence were director Vic Wienen, designer Ara Haswell and John Caldwell, who had the key role of the highly emotional character.

Dallas' Margo Jones Theater '56, true to the ideals of its late founder, opened last week with a new farce, "Stalin Alee" by movie writers Frederick Kohner and Albert Mannheimer. With East Berlin its locale, the play concerns a Randolph Scott-type of American millionaire who falls in love with a blonde. After many a laugh and due fun poking at the Communists he whisks her and her family off to New York by plane one step ahead of the secret police. With polishing, "Stalin Alee" is considered a possibility for Broadway and a movie.

Odessa music lovers have many kind words for their symphony after its first concert. They praised its fine musicianship and smart appearance and gave it close attention and generous applause.

Several weaknesses are apparent in this orchestra which is a hometown enterprise and display-case for area talent. The orchestra needs most of all persons who can play the oboe or bassoon. Several other sections of the basically sound orchestra also need some bolstering.

The Dallas Symphony opened at Texas State College for Women

Jungle Movie Stars Ekberg

Busy beauty Anita Ekberg is a "blonde without a country" in "Back From Eternity," playing Sunday through Wednesday at the Sahara Drive-In Theatre.

The plot concerns a group of people marooned by a plane accident in the Amazon jungle, where Jivaro headhunters abound. Robert Ryan is a cynical airline pilot whose fatalism evaporates and Rod Steiger portrays a criminal who plays God in deciding who shall escape and who will stay to face the Jivaros.

The plot also presents an imaginary clue to what may have happened to many lost jungle expeditions in the Amazon.

False Identity Is Movie Plot

A fancy shotgun, taken from the body of a professional killer who had tried to bushwhack him, gives a wandering young cowboy a false and sinister identity that involves him with a gang of murderers in "Thunder Over Arizona." The film, starring Skip Homier, Kristine Miller, George Macready and Wallace Ford, plays Sunday through Wednesday at the Sahara Drive-In Theatre.

Amendment Would Benefit The Disabled

What is proposed in the amendment to the Constitution on which Texas voters will ballot Tuesday?

Summarized briefly, the amendment would permit the Legislature to extend public welfare aid to persons who are totally disabled.

The Texas Social Welfare Association, an organization with offices in Fort Worth, advocating approval of the amendment, explains the plan in more detail.

In a brochure which has been widely distributed to persons who are pertinently concerned in public welfare work, the association relates that the amendment would make it possible to provide aid to persons, totally and permanently disabled, who are residents of Texas and the United States and who are between the ages of 18 and 65.

Aid could be provided likewise by the public welfare department to persons who are in need and undergo medical or social examination.

A maximum grant, under the amendment to any totally and permanently disabled person of \$38 per month could be made if the measure is approved. This money would come from state and federal funds and the state's share of the payment could not exceed \$20 per month.

The amount of state funds which could be earmarked for this purpose would be limited to \$1,500,000 and the federal funds to \$4,500,000.

It is specifically provided that application of the provisions of this new amendment must have no effect on old age assistance, aid to the needy blind nor aid to dependent children.

The association emphasizes in its defense of the amendment that its adoption would relieve united funds and other local agencies of the responsibility in such total and permanent disability cases and provide a minimum standard of living for disabled persons.

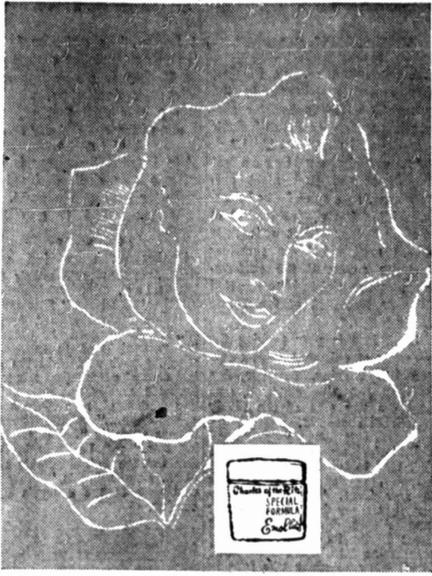

This amendment to the Constitution was one of a series of nine which the last legislature adopted and laid before the voters for decision. Eight of the amendments were voted on — and approved — by Texas voters at the general election last Tuesday.

The ninth, dealing with public welfare aid to totally and permanently disabled persons, will be decided at a special state-wide election Tuesday.

The one week delay was due to an error by the Legislature in its adoption of the proposal. Due to an oversight, the lawmakers wrote in the measure that it should be voted on "on the second Tuesday in November." The intent had been to include it with the other eight on Nov. 6.

In Tuesday morning, the 16 voting places in Howard County will be open at 8 a. m. Voters can ballot on this one question until 7 p. m. Seven thousand ballots have been printed and distributed to the 16 boxes. The general guess is that somewhere between 700 and 1,000 voters will go to the polls Tuesday in this county.

Hemphill-Wells

Special Formula Emollient for the dry skin. One lubricant is all your dry skin needs and Special Formula Emollient is that lubricant. Acting in synergistic harmony, three rich oil groups produce far greater lubrication than the total effect of these same oils when applied separately. A rich, golden-hued emollient completely different, altogether wonderful. 2 ozs. \$5; 4 ozs. \$8.50; 8 ozs. \$15. All plus tax.

MEN IN SERVICE

CAPT. EDWIN MULLETT

Edwin Mullett Jr., son of Mrs. M. B. Mullett, 215 Willa, Big Spring, recently received a commendation ribbon and a promotion to captain while serving at Fort Carson, Colo., with the 9th Infantry Division. Capt. Mullett was commended for outstanding service as supply officer of Company

C of the 8th Infantry Division's 41st Tank Battalion. The captain is a 1950 graduate of Texas Western College in El Paso.

Jimmy D. Newsom and Warren E. Moore were graduated from recruit training at the Naval Training Center at San Diego, Calif., last Saturday.

Newsom is the son of Mr. and Mrs. F. D. Newsom, Vealmoor Rd., and Moore is the son of Herbert Moore of Vealmoor.

Following two weeks leave, the two will report for shipboard duties or service schools depending on the qualifications each demonstrated. The nine weeks of 'boot' camp included drilling and instruction in seamanship, gunnery, life saving, boat handling, and use of small arms.

Pvt. Doyle E. Ford, son of Mr. and Mrs. W. C. Ford, 603 Steakley, Big Spring, is receiving on-the-job training in transportation at Fort Eustis, Va., under the Reserve Forces Act.

After his six-month tour of active duty under the act, Ford will be permitted to complete his military service in a local National Guard or Army Reserve unit. Ford is a 1956 graduate of Big Spring High School.
