Wave Of Explosions Shakes East Coast

Brooklyn Pier Blast Kills Nine

A tavern explosion in Boston and a factory fire in Pennsylvania early today came only hours after a big fire and blast on a Brooklyn pier killed 9 and injured 247.

The Boston explosion demolished a tavern adjoining the naval shipyard. At least six persons were injured. They were asleep in nearby homes. The six—two women, three infants and a young girl—suffered cuts, bruises or shock.

The blast shook the crowded downtown district of Boston's Charlestown section.

In the tiny community of New Albany, Pa., a roaring fire destroyed a Christmas wreath plant and the 100-year-old town hall. The fire temporarily paralyzed the industrial life of most of New Albany's 500 citizens.

The ruins of a pier on the Brooklyn waterfront still smoldered today. The fire broke out in a pile of foam rubber on the pier yesterday afternoon. A short while later flames reached a mountain of highly inflammable cargo on the pier and touched off a tremendous blast.

The nine killed included three boys who were watching the spectacular fire. The shock wave knocked out windows in many buildings and houses nearby.

Damage was tentatively estimated at 10 million dollars.

The Brooklyn explosion shook the city for miles around. Nine died in the disaster and 247 suffered injuries.

Flames still flickered in the red-hot ruins of the pier today. Fire officials will launch a full-scale probe of the 10-million-dollar blaze.

A dock worker said the fire started about 3:15 p.m. in a pile of foam rubber on the big pier, longest marine terminal in the city. Minute by minute the flames ate toward a mountain of explosive cargo—paint, lacquer, rubber cement, chemicals and fuels.

Firemen, dock workers, school boys and other spectators rushed to the scene—unaware of the impending peril.

Suddenly a sheet of flame shot skyward. The blast ripped off the pier shed's metal and glass roof and showered the area with a deadly hail of fragments.

The shock radiated 35 miles from the explosion. Windows were shattered five miles away.

Chunks of white-hot steel weighing as much as 50 pounds arched over the waterfront.

The blast killed the three boys in their tracks.

The dock workers and three other men were also killed. One was decapitated.

Screaming ambulances raced away with the scores of injured, many of them spectators. Hospitals were soon jammed.

The pier—long as six football fields—was set at \$1,000.

The four men are alleged to have been the persons who stole 12 to 15 gum vending machines, wrenches and other tools from a panel truck owned by Edison Taylor.

Rufus Davidson and Floyd Moore, deputy sheriffs, got a tip that the stolen goods were stored in a vacant house at Coahoma. They staked out the house and two of the men now held came by while the officers were there.

These were arrested.

On a tip from the first two, a third man was arrested in Big Spring. The fourth surrendered voluntarily.

Bernice Cerda was charged with robbery from the person in a complaint signed by Leonardo Gonzalez. Gonzalez alleges the defendant took \$31 from him.

Just Want Peace

Arley Pate, left, 26, of Carbondale, Ill., and Aaron Wilson, 24, of Urania, La., two American turncoats who chose to live in Red China three years ago after their capture during the Korean War, stand outside a hotel in Hong Kong after their arrival from Red China. Pate and Wilson said they just want peace and to be back with their families for Christmas. U.S. and British officials said they will be sent home by the first available means.

MacArthur's Kin New Jap Legate

AUGUSTA, Ga. (AP)—President Eisenhower today picked Douglas MacArthur II, now State Department counselor, to be ambassador to Japan.

MacArthur, a nephew of Gen. Douglas MacArthur, will succeed John M. Allison in Tokyo. Allison will return to the United States for reassignment.

Both MacArthur and Allison are career diplomats with long service.

The President, acting at his vacation headquarters here, gave MacArthur a recess appointment. A formal nomination will be submitted to the Senate when Congress reconvenes in January.

Presidential press secretary James C. Hagerty also announced.

Eisenhower will discuss the administration's 1957 legislative program and the foreign policy picture with congressional leaders in Washington Dec. 31 and New Year's Day.

The meetings originally had been scheduled for Dec. 13-14 but the White House yesterday postponed them because some administration officials, who normally would attend will be in Paris in mid-December for a session of the NATO Ministerial Council.

Eisenhower conferred about 90 minutes this morning with Budget Director Percival Brundage. They discussed sections of the federal budget for the fiscal year starting July 1. It will go to Congress next month.

Brundage arranged to return to Washington later in the day. He will be back here Friday with Secretary of Defense Wilson for a conference on Pentagon plans reportedly calling for 38 billion dollars in military spending in the new fiscal year.

Hagerty said the Eisenhower-Brundage discussions today dealt with the spending plans of other agencies, among them the Agriculture and Interior departments.

DOUGLAS MACARTHUR II
... long career service

Record Broken

NASHVILLE, Tenn. (AP)—The temperature climbed to 74 degrees yesterday breaking an 83-year-old Nashville record for the date of 71 degrees.

Daniel Sees Good Session Of Legislature

AUSTIN (AP)—Gov.-elect Price Daniel said today he felt the 56th Legislature would be a "constructive session." He made it clear he would take no further action in the tangled senatorial election fuss.

Daniel said if no election was called before Jan. 3 he would be in Washington to help organize the Senate. His resignation apparently will be effective Jan. 15, the day he becomes governor.

Gov. Shivers said no vacancy exists until then. Apparently an appointment will have to be made by either Shivers or Daniel until an election can be held possibly in March or April.

"It will be a great disappointment to me if I have to appoint even a temporary successor," Daniel told a news conference. He added he was trying to get his mind on state affairs now.

"I have no plans whatever to change anything" on the senatorial election situation, he said.

Daniel said he had made "no conclusions on any new taxes" and declined to name any appointees. The secretary of state will be his top major appointment.

The senator said "There is no shortage of applicants for the jobs" despite "low salaries which he added was a drawback for getting some people into the state government."

He said he will urge the Legislature to give top priority to providing adequate and permanent housing of the state archives and records.

"Our archives and records have deteriorated at an alarming rate and it's high time we provided for more adequate care," Daniel said.

The senator arrived Sunday night to begin meetings with legislators and with Waggoner Carr of Lubbock, the next House speaker.

"The majority of the members of the Legislature are going to be working as hard as they can to solve these problems that lie ahead. It will be a constructive session," he said, adding that a "serious minded group of people constitute our Legislature."

He also said he would recommend a tougher narcotics law with heavy penalties for persons convicted of selling drugs to minors.

Daniel said state employees were entitled to an increase in salaries "but I don't know about an across the board raise."

He said he felt the local school districts should handle the integration problem and doubted the Legislature "can act effectively in this field."

The three resolutions passed by the voters in a referendum last summer "should be given some consideration by the Legislature," Daniel said. These involved a stronger law against intermarriage of the races, interposition and segregation in the schools.

Banker Jailed Again In Shortage

NEW YORK (AP)—William R. Rose, resigned president of a Texas bank, has been rearrested after an audit showed the bank's records were juggled by false entries in excess of one million dollars, the FBI office here announced today.

The alleged manipulation previously had been set at \$580,000.

The FBI said Rose was seized yesterday at Mineola, on Long Island. It did not say why the wealthy 51-year-old bachelor had come downstate to Mineola.

Record Broken

NASHVILLE, Tenn. (AP)—The temperature climbed to 74 degrees yesterday breaking an 83-year-old Nashville record for the date of 71 degrees.

Minister Beaten In Clinton Race Fuss

Gloomy Groom

The former Florence Hesselberg, 19, of Rockland, Wis., comforts her husband of a few hours, Donald L. Peters, 21, of Caston, Wis., at St. Mary's Hospital in Sparta, Wis., after the groom fell in the church and refracted his left leg. The accident occurred as the couple was about to leave St. Mary's Church at Bangor, after the ceremony. Peters' leg originally was broken in an auto accident. Needless to say, the honeymoon was canceled.

Cotton Allotments For 1956-'57 Given

WASHINGTON (AP)—The Agriculture Department made public today the county breakdown of acreage allotments for the 1957 cotton crop in Texas if production controls are established.

Cotton farmers vote in a national referendum Dec. 11 to determine if they want controlled production—normally a requirement if the government is to support the market price of a commodity.

The national allotment proposed for the 1957 cotton crop is 17,585,463 acres. The Texas share is 7,547,503 acres. The 1956 allotment was 7,410,893 acres.

The figures do not apply to the production of extra long staple Egyptian cotton grown in Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell and Ward counties.

The department's 1957 figures for Texas included a state acreage reserve of 436,614 acres to be used for small farms, for new farms, for inequities and for hardship cases. Acreage specifically allocated to counties throughout the state totaled 7,110,889 acres.

The county breakdown is for "adjusted allotment" for each county. The "adjusted allotment"—reflecting allowances for minimum size farms, production trends and abnormal conditions—is the actual allocation to a county.

The increase is less than one per cent.

Figures revealed by the Agriculture Department in Washington Tuesday showed that the 1957 cotton acreage allotment scheduled for Howard County is 76,633 acres. This compares with 76,016 acres allotted in 1956.

Howard Gains But 637 Acres

Howard County cotton growers are slated to receive additional cotton acreage allotment for 1957 of 637 acres more than in 1956 if production controls are established.

The increase is less than one per cent.

Figures revealed by the Agriculture Department in Washington Tuesday showed that the 1957 cotton acreage allotment scheduled for Howard County is 76,633 acres. This compares with 76,016 acres allotted in 1956.

Another Cold Front Edges In

A cold front bulged toward Texas from the Northwest Tuesday but the state had another mild day.

The front was expected to start chilling the Panhandle Wednesday. It had stalled out over the Dakotas and Minnesota Monday.

Brief morning winds stirred up dust in the South Plains, reducing visibility at Lubbock to six miles.

Damp clouds were pushing across northeast Texas, promising showers during the day.

Highs Monday ranged from 82 at Galveston to 61 at Salt Flat and El Paso.

Hijackers Take \$60 From Operator Of Lamesa Motel

LAMESA — Two gunmen took \$60 from Mrs. Jewel Brown in a bedtime holdup at the Westaire Motel last night.

The hijackers marched Mrs. Brown, wife of the motel owner, into the family's private quarters and forced her to hand over the money from her billfold.

Mrs. Brown was alone in the motel office when the two men entered, displayed pistols and told her to open the cash drawer. She obliged, but the drawer was empty. The bandits then asked where her money was and she told them it was in the adjoining room.

She pleaded with them not to harm her young daughter who was in the room and was told that no one would be harmed if she did what she was told. The gunmen then forced Mrs. Brown into the room and took the money.

The victim was one of the people in a youth, 18 to 20 years of age with black, curly hair and weighing about 190 pounds. The other man, Mrs. Brown said, was about 50, little more than five and a half feet tall, weighing about 130 pounds. Both were wrapped in light-colored overcoats.

Officials Order Closing Of School

CLINTON, Tenn. (AP)—The Anderson County School Board ordered integration - torn Clinton High School closed today in the wake of an attack on a white Baptist minister who accompanied six Negro students back to classes.

The Rev. Paul Turner was beaten by a group of white men a few minutes after he escorted the Negro students into the school building. He suffered a bloody nose and facial cuts but returned home without hospitalization.

Tension mounted in this east Tennessee town, where state troopers and National Guardsmen were called out Labor Day weekend to quell the mobs who protested the integration ordered by a district federal court at Knoxville.

Adding further tension was today's municipal elections, in which the integration question was a major issue.

Principal D. J. Britton said he closed the school on orders of the school board and that it would remain closed indefinitely.

Today's action came only one day after the school board requested federal aid in helping enforce the federal court's integration order, issued last Jan. 4.

The appeal was sent to U. S. Atty. Gen. Herbert Brownell in Washington. No action had been taken to the time of today's school closing.

Officials here said they are trying to reach Gov. Frank Clement in Nashville to advise him of the situation, but the governor's office said shortly before noon it had not received any official word or request for help from Clinton.

Before the governor can act, local officials must advise him that all efforts at law enforcement have broken down. This action was taken Labor Day weekend, resulting in the use of troops and guardsmen.

Burford Lewallen, son of Clinton Mayor W. E. Lewallen, and former speaker of the Tennessee House of Representatives, said he plans to ask U.S. Dist. Judge Robert L. Taylor to cite all persons involved in the attack on the minister.

He said today's disturbances violated an injunction issued several weeks ago by Judge Taylor. It was under this injunction that John Kasper, Washington, D.C., segregationist, recently was fined by Judge Taylor for contempt. Kasper has appealed the fine.

Slain Gunman Said Planning Jailbreak Aid

GREENVILLE, Miss. (AP)—A desperado killed Sunday in a Shamrock, Tex., gunfight with officers was believed en route here to help a former San Quentin inmate break out of jail.

Sheriff Malcolm James said today Texas officers have notified him they found a letter from Levin Lee Shields, in Washington County jail here, on the bullet-riddled body of Robert Meyers, slain at Shamrock. The sheriff said the letter included a diagram of the jail.

Meyers was shot to death by his half-brother who mistook him for a member of a posse which had the two surrounded.

James said he and FBI agents questioned Shields about the letter yesterday but that Shields refused to answer.

Shields and one "Bard Myers" have been charged with the \$12,500 bank robbery at Dover, Ark., several months ago.

Shields, 32, is held for wounding Deputy Sheriff Ed Campbell of Leland, Miss., in a nightclub shooting several weeks ago.

The sheriff said persons who saw Shields (and a partner in the Greenville area before the deputy was shot this week identified the partner as Myers. He said identification came from picture sent here from Texas.

The sheriff said Shields and Myers were cellmates in San Quentin Prison in California.

Cold, Wet Over Northern Areas

By The Associated Press

It was cold and a little wet over northern areas of the country today but mild weather for the season prevailed in most other sections.

Some of the cooler air from Canada spread into the Great Lakes region and southward through the Ohio Valley.

U. S. Asks Egypt For Canal Cleanup

WASHINGTON (AP)—The U. S. government sought today to persuade Egypt to allow quick clearance of the Suez Canal, blocked by sunken ships and other obstacles in the wake of the British-French attack on the area.

The State Department said yesterday, in a statement approved by President Eisenhower, that it would regard each day of delay as a breach of the 1888 treaty which guarantees freedom of transit through the 103-mile waterway.

In London, the British admiral said last night that 51 obstructions clog the canal and others may lie beneath the surface. It said that mines had been laid at the southern end. The admiral urged that British resources be used to help in clearance operations.

Western Europe, facing oil shortages because the canal is closed to all traffic, expects months to pass before it can be cleared.

The U.S. statement was apparently designed to serve notice on President Gamal Abdel Nasser of Egypt that he should cooperate in clearing the canal he declared nationalized July 26.

Nasser is understood to be insisting that work to reopen the canal cannot begin until all British and French troops have been withdrawn and that British or French equipment not be used in the task.

American officials said they hope Nasser will back down on both these points now that Britain and France have formally pledged to pull out all their troops "without delay."

The canal should be cleared swiftly, the State Department said, because its blockage constitutes "a wrong to the large number of nations throughout the world whose economies depend so largely on its reliable operation."

"The United States is equally determined," the statement added, "through the United Nations and in other useful ways, to assist in bringing about a permanent settlement of the other persistent conflicts which have plagued the Middle East over recent years."

This was an obvious reference to Arab-Israeli differences.

Four Charged With Burglary

Four men were charged with burglary from an automobile in cases filed in the court of Walter Grice, justice of the peace, Monday.

Named in the complaints were John Oran Bailey; Bill Landers Read, Donald Ray Ross, and Buford W. Williams. Bond in each case was set at \$1,000.

The four men are alleged to have been the persons who stole 12 to 15 gum vending machines, wrenches and other tools from a panel truck owned by Edison Taylor.

Rufus Davidson and Floyd Moore, deputy sheriffs, got a tip that the stolen goods were stored in a vacant house at Coahoma. They staked out the house and two of the men now held came by while the officers were there.

These were arrested.

On a tip from the first two, a third man was arrested in Big Spring. The fourth surrendered voluntarily.

Bernice Cerda was charged with robbery from the person in a complaint signed by Leonardo Gonzalez. Gonzalez alleges the defendant took \$31 from him.

Wreck, Shooting Victims Improve

Improvement was noted today in the condition of Clarence Yanez, Big Spring man-injured Saturday night in an automobile accident. Yanez was seriously hurt in the same accident which took the life of Juanita Rios.

Also reported as making satisfactory progress was James Puga, Lomax resident, who was shot Sunday night.

Both men are in Cowper Hospital.

Gunman Captured

James William Whiteard, 21, center, is being led from his hiding place in the hills east of Shamrock by Texas Ranger Sergeant Jim Paulk, left, and another officer. The boy spent the night with only his shirt sleeves for protection against the near-freezing air as officers sought to flush him and a companion from the brush following gun fights with the pair in which a teen-age posse member was slain. Whiteard apparently shot his companion to death during the night, thinking him a member of the group seeking capture.

Romania Claims Accord With Russia

MOSCOW (AP)—Romania's Communist government says it is in almost complete accord with the policies laid down by its big neighbor, the Soviet Union. Soviet soldiers can remain on Romanian soil, and Moscow will give Romania economic help.

A 10½-page joint communique signed by Premier Bulganin and Romanian Premier Chivu Stoica last night read like a reiteration of known Kremlin policies on Communist and international affairs.

It calls for a loan to Romania of 450,000 tons of wheat and 60,000 tons of fodder grain to offset a poor harvest, and credit and equipment to expand Romania's chemical and oil industries. The bill for certain other Soviet goods already sold to Romania was deferred from 1957 to 1959.

The Romanians agreed to provide Russia "such materials as are necessary for its national economy" in exchange for Soviet iron ore, coke, pipe and technical assistance.

Presumably this payment will be made in oil. Romania, situated between the Soviet Ukraine and Yugoslavia, produces nearly 11 million tons of oil a year.

The agreement also calls for continued stationing of Soviet troops in Romania, subject only to final negotiations by the two nations and other members of the Eastern European Warsaw Pact.

On international issues, Romania went down the line in support of Kremlin policies. The communique expressed agreement that Russia was doing its "duty to the working people of Hungary"—another of Romania's neighbors—in using Soviet troops to fight what is termed "an attempt to destroy the Socialist system and create in Hungary a hotbed of fascism threatened peace in Europe."

Soviet leaders headed by Bulganin and Communist party boss Nikita Khrushchev feted the Romanian party afterward at a Kremlin reception. Diplomats of the United States, Britain, France and Canada stayed away.

The Romanians left for home today by plane.

Jap Bungles Suicide Pact

TOKYO (AP)—A desperate Japanese Romeo crawled to safety today after spending 15 hours inside the smoldering crater of Mt. Mihara, Japan's suicide mountain 50 miles southwest of Tokyo. His illicit sweetheart was believed dead.

The couple were Tsunoyoshi Nakashima, 29-year-old farmer, married and the father of two children, and Yoshiko Onigata, a 26-year-old waitress. They decided their love was hopeless and double suicide the only way open to them.

They jumped into the smoking crater at noon Monday. A tourist who saw them called the police. Two policemen were lowered into the crater and found Nakashima on a lava cliff 1,800 feet from Sulphur fumes and falling light forced them to leave him there at nightfall.

Early today the farmer managed to climb out. He said he had tried to complete the suicide but "the faces of my babies loomed in front of my eyes. I became desperate and madly scaled the rocks."

Police said Nakashima would recover after a month in the hospital. Miss Onigata's body has not been found.

Cuban Legislature Lifts Constitution

HAVANA, Cuba (AP)—Congress today approved a presidential decree suspending constitutional guarantees in four provinces in eastern Cuba where revolution and sabotage have occurred intermittently since Friday.

President Fulgencio Batista earlier signed the decree suspending for 45 days the guarantees of free speech and assembly in the provinces of Oriente, Pinar del Rio, Las Villas and Camaguey. Congress approved the action 132-23. The decree covers all of Cuba except the provinces of Havana and Matanzas.

Santiago, a port on Cuba's southeast coast in Oriente province, has been the scene of the chief fighting. A small rebel invasion force was reported trapped in a sante quarry in that area last night as Cuban army units struck to wipe out the last remnants of the uprising.

A band of revolutionaries reportedly landed on Cuba's south coast about 40 miles east of Santiago Sunday night. Cuban troops engaged them yesterday and unconfirmed reports said the rebels had been driven into the quarry.

Rebel civilians opened the fighting with attacks on Santiago police stations. The aim of the movement was to unseat the Batista government. The government said the revolt was put down in a few hours with 12 persons killed and more than 50 wounded. Rooftop sniping and isolated firing continued over the weekend, climaxed by the reported seaborne landing of the army named Fidel Castro Ruz, 30-year-old former Havana student, as the chief plottor behind the uprising. Castro has been in exile in Mexico, but Adj. Gen. Pedro Rodriguez Abila said the rebel landing force was led by the ex-student. Later President Batista said he doubted Castro was in the country.

There also had been rumors that Castro had died in a government aerial attack but Batista said he definitely had not been killed.

Miguel de Leon Rojas, Santiago's representative in Congress, said the rebels involved in the uprising were well supplied with arms but did not know how to use them. He said the rebel force was made up of about 500 young men.

Oklahoma Decrease Drops Oil Average

TULSA (AP)—Daily average oil production dropped 66,450 barrels, most of it in Oklahoma, to 7,107,850 during the week ended Dec. 1, the Oil and Gas Journal said today.

Oklahoma's output fell 53,700 barrels to 546,600. Colorado, up 2,600 barrels to 158,400, was the week's top gainer.

The Journal estimated 1956 production at 2,396,806,800 barrels compared to 2,270,483,832 a year ago.

Arkansas was down 1,250 barrels to 78,250 and Louisiana 300 to 483,650. New Mexico increased 100 to 249,625.

Production was unchanged in Texas at 2,006,100.

Cypriot Teen-Agers Get Jail Sentences

NICOSIA, Cyprus (AP)—A British court sentenced two teen-age Cypriot girls to long jail terms today for having a homemade bomb. They were the first girls sentenced for such an offense.

Pamfisa Constantinou, 19, was sentenced to seven years and Rita Anthouli, 18, to two years.

Dies In Own Fire

SAN FRANCISCO (AP)—An arson prober says a man who died from smoke in an apartment house fire Thanksgiving Day was the person who started it. Lt. George Kelley said Leroy Shannon, 29, was responsible for setting the two-alarm, \$10,000 fire.

Judge Ruled Private Roads Out Of Case For Antelope

EDINBURG, Tex. (AP)—Judge S. N. McWhorter was disqualified yesterday from hearing the Rio Grande Valley's complicated water suit because he has land-owning relatives in the Valley.

Judge H. D. Barrow of Jourdanton disqualified McWhorter after attorneys presented lengthy briefs. McWhorter was appointed last month after Judge Cullen Briggs resigned.

The suit for a water control program covers all diversions from the Rio Grande on the lower river. It asks an adjudication of all water rights.

A committee meets today to write proposals for an interim program for water controls.

Lawyers will meet Friday to make final changes and Barrow is to return Saturday to officially institute the proposal as an agreed order of the court.

The proposal was submitted by Special Water Master Kenneth Smith of McAllen. It would divide all United States water among all the users. Each would be able to either use it immediately or store it at Falcon Dam.

A provision to penalize water users for waste was knocked out.

ring's vast antelope herds frequently cross U. S. 30.

The Highway Department could not get federal aid funds, unless the highway is adequately fenced — and the State Game and Fish Department maintained the antelope herd, vital to the state's recreational and tourist economy, would be wiped out if the migration paths were blocked.

The solution: When U. S. 30 is improved to four lanes under the interstate highway program, underpasses will be constructed every two miles along nearly 300 miles of road — just to let the antelope cross.

Defense Opens In Acid Attack Trial

NEW YORK (AP)—The defense opens today in the trial of three men on charges that they conspired to aid an acid hurler after being blinded labor columnist Victor Riesel.

At least one of the defendants, Leo Telvi, is expected to take the stand in his own defense. Telvi's slain brother Abe is allegedly the man who threw the acid at Riesel.

Also on trial are Gondolfo Miranti and Domenico Bando. Four others, including labor racketeer Johnny Dio Dioguardi, are to be tried later on charges of plotting the attack.

Board Wants Help

Chairman R. G. Crosson of Anderson County school board reads a letter the board sent to Justice Department asking aid in enforcing racial integration at Clinton High, Clinton, Tenn. Supt. Frank Irwin (left), and Principal D. J. Brittan Jr., (rear), listen.

More Mansfield Rioting Predicted

MANSFIELD, Tex. — O. C. Rawdon, school board president, said yesterday the crowds which formed to keep Negro students out of Mansfield High last fall may return if Negroes try to enroll again as a result of yesterday's U. S. Supreme Court ruling. The reaction of townspeople would be about the same as before, Rawdon said. The court held that local opposition cannot be made the basis for delaying racial integration in schools. The superintendent of schools, F. L. Hittman, said that he has to enroll them. There's nothing else we can do. Tom Beard, the constable of this small north Texas town, said it's peaceful in Mansfield, but when word of this ruling gets around there's no telling what will happen. He said that if Negroes tried to enroll "there's a possibility that a crowd would take the Negroes, policeman and all." Beard said, "The teenagers don't care what happens. These kids here don't pay attention, but the parents do—that's where the hitch comes in." These people like the niggers all right — but they like them in their place," Beard said. In Fort Worth, L. Clifford Davis, Negro attorney for the students, said "more study will be given the situation" before any action is taken. Catherine Peterson, editor of the weekly Mansfield News, agreed with others who said the Negroes did not want to attend the Mansfield school with its 175 white students.

Jury Probes Union Use Of Dues For Political Funds

WASHINGTON — Congressional sources said today a federal grand jury is investigating charges that Flint, Mich. labor groups unlawfully used dues funds in the 1956 election campaign. The investigation involves allegations, aired publicly by Sen. Curtis (R-Mich.), that the Greater Flint Industrial Council-CIO last September caused some \$25,000 of United Auto Workers members' dues to be diverted into a fund for "partisan political purposes" in violation of election laws. The law forbids labor unions or corporations to contribute directly to political campaigns. Senate sources, declining to be quoted by name, said the grand jury has been convened in Bay City, Mich., to consider evidence gathered by the FBI. The Justice Department reserved comment. Curtis outlined these and other allegations: 1. That the Greater Flint Industrial Council had "caused local unions to take money from their general fund, made up from dues, and have it transferred for partisan political purposes to affect the outcome of the current election." 2. That Local 399 of the UAW in Flint, in response to a request from its executive board, voted Sept. 9 to provide money for political purposes and that minutes of the local's meeting would show "it was discussed that what was being done was in violation of law." 3. That the local approved a plan to pay 100 or more "election workers" at a rate of \$20 a day, plus \$5 a day in expenses for three days, and that its total "political" expenditures had been estimated at around \$25,000.

Classes Schedule Christmas Parties

LAMESA—The Berean Sunday School Class of the First Methodist Church will have its Christmas party Friday at 7 p.m. in the home of Mrs. C. W. Shaler. Each member will bring a covered dish. Instead of exchanging gifts, the members plan to bring money they would have spent and put it in the piano fund. All members and associate members are invited to be present. The Wesley Workers Class of the First Methodist Church will have its Christmas party Tuesday at 7 p.m. in the home of Mrs. George Norman Jr. All members are invited and there will be an exchange of gifts.

Children Injured

PARIS, Tex. — Twenty-five children were injured yesterday when a school bus skidded into a ditch on a highway. Most of the pupils suffered minor injuries. Two were hospitalized. Police Chief Lawrence King said one has remained in the rear of the other, which had stopped to pick up a student.

Fly Home for Christmas

Lengthen the joy of Christmas pleasure by flying Continental. Get there faster... give yourself more time with family and friends.

When traveling with the family, remember Continental's Half-Fare Family Plan, now on four days... Monday noon to Thursday noon... and save up to 50%.

Yes, this Christmas be home, instead of enroute... fly Continental.

Call Continental at AM 4-8971

Large Number Of Negroes Work For U. S.

WASHINGTON — A presidential committee reported today that Negroes comprise 23.4 per cent of the federal employees in five major cities, including this one. Chairman Maxwell Abbell of President Eisenhower's Committee on Government Employment Policy, which compiled the figures said the survey turned up two findings which he termed of particular significance. "The first is that Negroes are employed by the federal government well above their ratio to the total population," Abbell said. "The second is that Negroes are by no means confined either to the menial jobs of the government or to the lower grades in the civil service classification act." The ratio of Negroes to the total U. S. population is about 11 per cent.

Besides the capital cities covered by the survey were Chicago, St. Louis, Los Angeles and Mobile, Ala.

The committee found that 43 per cent of the Negroes employed in the five cities held "classification act" or "white collar" jobs and 31 per cent held "wage board" or "blue collar" jobs paid on a per-day basis. The 26 per cent listed in "other" jobs included postal employees. The survey showed that of all Negro federal workers in the five cities, 5 per cent were in supervisory jobs and had administrative direction over other employees. The "white collar" civil service jobs are graded by number from 1 through 15, with 15 carrying the highest salary. Fifteen per cent of the Negroes employed in the five cities were found to be distributed from grades 5 through 15, as compared with 67 per cent of the whites in the same cities. Eighty-five per cent of the Negroes and 33 per cent of the white in the same cities were in grades 1 through 4.

Medic's Chest Is Cut Open, Heart Massaged To Life

COLORADO SPRINGS, Colo. — When Dr. Frederick C. Hoebel collapsed at a friend's house Saturday night, two other doctors quickly cut open his chest with a penknife and started massaging his heart. The Colorado Springs Medical Center reported today he has improved rapidly and probably will recover with few if any aftereffects. A spokesman at the center said its records show only three other cases where doctors were able to get a heart to work again after a lapse of as much as four minutes. Dr. Hoebel's collapse was attributed to a heart attack. He is 46. The two doctors maintained his respiration by mouth-to-mouth breathing. They continued to massage his heart while he was taken to the hospital in an ambulance. It was two hours before his heart started beating normally again.

Parks Lodge Plan May Fail

AUSTIN — The plan to construct 252-unit lodges at Atlanta, Denison and Burnet may fail because state bonds cannot be sold, the State Parks Board indicated yesterday.

The Legislature-approved 25 million dollar program has been pushed by local delegations from the three cities, but a Chicago bonding firm reported an "extremely unfavorable" money market at this time and asked the board to postpone construction plans. "We'll keep it open for local financing if possible," Chairman Andrew Hogsley of Albany said. Others agreed with board member Raymond Dillard of Mexia. He said the program was taking too much attention "to the neglect of other things we're trying to do."

In other action, the board: 1. Heard of a proposed organization which would support a long-range program for Texas parks. Its temporary steering committee is headed by Keith Wright of Abilene with Joe Cooley of Abilene, secretary. Various business group directors and chamber of commerce officials will be asked to attend the group's organization meeting here Jan. 7. 2. Signed a deed to take over as a state park the Hog-Varner plantation of 52 acres, near West Columbia in Brazoria County. Miss Ima Hogg, daughter of the late Gov. James Hogg who lived at the plantation, gave with the deed about \$49,000 worth of stock. The dividends would be used to take care of the park.

Lamesa Scouts Tour Caverns

LAMESA—Scoutmaster R. L. Price and Boy Scout Troop 25 left Saturday for Carlsbad Caverns, an annual two-day trip for members of the troop. For the past seven years, on the Saturday and Sunday following Thanksgiving Troop 25 has made the trip to New Mexico and a trip through the caverns. Twenty-five members made the trip.

Sweet Goodbye

President Eisenhower sports a bashful grin as his wife Mamie gives a goodbye kiss to Secretary of State Dulles as he leaves the Augusta, Ga., National Golf Club. The President and Dulles had just concluded a conference on world affairs.

Parr Witness Can't Recall Statements To Grand Jury

HOUSTON — Mrs. Hilda Gonzales, a deputy tax collector in the Benavides School District, told Asst. U.S. Atty. Edgar Bottler yesterday she couldn't remember anything she said before a federal grand jury here less than a year ago. Appearing as a defense witness in the mail fraud trial of George Parr and eight South Texas associates, she testified she endorsed taxpayers' checks and had them cashed at the Merchants Exchange Bank in Benavides. She also said she made out deposits for the school district to the Texas State Bank in Alice and said defendant D. C. Chapa, former tax collector-assessor, seldom did any of this work. Bottler read as her grand jury testimony statements that mail with tax checks weren't opened until Chapa was present; Chapa supervised bank deposits; she never endorsed any school district checks except her own; she didn't know large checks were cashed at the Merchants Exchange Bank, and money in a cash box was never more than \$400. Yesterday she testified she endorsed checks and cashed them at the Merchants Bank when there was a possibility they might not be good. She said the money was kept in the cash box and sometimes totaled \$15,000. Confronted with her grand jury testimony, she said she couldn't remember any questions or answers before the grand jury. She testified Diego Heras, former deputy collector and star government witness, was "very good" at imitating handwriting. The government alleges the defendants cashed taxpayers' checks at unauthorized bank depositories, made out checks to fictitious persons or for fictitious work and took the money, and bought merchandise for their own use with school funds.

U.S. Children Have 'Dirtiest Mouths'

SAN ANTONIO, Tex. — "American children have the dirtiest mouths in the world," according to Dr. Maury Massler, head of the children's dentistry department of the University of Illinois College of Dentistry. "This is paradoxical as American mothers spend so much time keeping their children's bodies and clothes clean, Massler told the Southwestern Dental Assembly. He said the average child in his city has 12 cavities by the time he is 12, whereas the average child in southern Italy has less than one at the same age. He said 66 per cent of American children at age 12 have mouths without fillings, while 98 per cent of the children in southern Italy reach 12 without needing fillings. He said there are two main reasons children of other nations have fewer cavities: "They end each meal with fruit, nature's toothbrush, or in the case of Mohammedan children, they wash out their mouths with water; second, only American children are allowed to eat sweets between meals."

Syria Warned On Aggression

DAMASCUS, Syria — Reliable Syrian sources say the United States has told Syria it will tolerate no more aggression in the Middle East.

American Ambassador James M. Moore was reported to have given that word to Premier Sabri Assali in a 90-minute interview, with the declaration "covering moves against Syria or any other nation in the Middle East area."

The U.S. Embassy declined to comment on the report of the meeting. Assali told reporters Moore "explained to me the new United States policy toward the Middle East."

He said the ambassador also outlined America's "eagerness that all Middle Eastern countries should maintain their freedom, and independence."

'Finest Restaurant' Still Expanding

Mr. and Mrs. H. M. Rainbolt have completed modernization of the entrance lobby at the Wagon Wheel Restaurant and have started expansion on the west, as the view above shows. The west wall is being moved outward to double the size of the

small private dining room. The work won't be completed until after Christmas, however, so that the dining room will be available throughout the Yule season.

McGibbon Oil Company Is Distributor Of Phil-Gas, Installs Butane Systems

You can have all the modern conveniences, even if you reside in a rural area, if you subscribe to Phil-Gas, local agent for which is the McGibbon Oil Company with main offices at 601 E. 1st Street.

Phil-Gas not only insures you a safe, economical fuel for heating the house during the winter months, but can accomplish such chores as maintaining a steady temperature in chick incubators, heating water and running some farm implements, as well.

Employees of the McGibbon Oil Company are expert in installing

and servicing Phil-Gas units. Once installed, the user probably would not settle for any other kind of fuel.

Chub McGibbon, owner and manager of the concern bearing his name, is, of course, the local agent for Phil-Gas. McGibbon Oil Company products, including premium gasolines and motor oils.

All local Phil-Gas stations are modernly-equipped, to offer the best type of automotive service to local and transient motorists.

Owners of vehicles find service the Phil-Gas way the finest service being given in filling stations

today. A number of automotive accessories are, of course, sold in each Phil-Gas station.

McGibbon Oil Company is also the headquarters for the famous Phil-Gas 66 premium quality Ammonium sulfate fertilizer, wonderful for lawns and trees.

Ammonium sulfate works best when applied in early spring or late fall months.

Other types of fertilizers, for such things as sorghums, cotton and other farm products, are sold by the Phil-Gas people.

Fatal Drinking Suit Thrown Out

DAYTON, Ohio (AP) — A \$50,000 damage suit filed against Louis Angoff drunk, 36 martinis and dropped dead was thrown out of Montgomery County Common Pleas Court yesterday.

Judge Charles Lee Mills ruled: While it is illegal under state law to sell liquor to an intoxicated person, the bartender would have been responsible for damages only if he had been issued an order by the State Department of Liquor Control not to serve Angoff.

Angoff collapsed in front of the bar last Aug. 7 after winning a bet that he could drink 16 martinis in less than two hours.

His father filed the suit.

Fiveash Firm Can Keep Pipes From Freezing

Don't let Old Man Winter cut off your water supply by means of a frozen and broken water pipe.

And don't let an old hot water heater keep you freezing in the shower every morning.

The answer to both of these prospective winter problems is rolled into three words — Fiveash Plumbing Company.

Fiveash Plumbing is located at 821 E. 3rd Street but is as near as the telephone. The number is AM 4-6111.

Efficient, fast-working plumbers can locate and repair a broken water line in a short time, or if you call them before the trouble occurs, they will wrap or cover lines to make them winter-proof.

By having the work done before any more freezes occur, residents will not suffer from loss of water or the added expense of having to repair the lines.

The pipes can be in good shape, but if your water heater is old and "on the blink," troubles are still prevalent.

A new water heater from Fiveash will end these worries, however.

General Duroglas heaters are fully guaranteed and can be seen at Fiveash Plumbing. These heaters combine the strength of steel with the permanent rust-resisting qualities of glass to make long-wearing product.

Scientists at the General Water Heater Corporation have developed a glass-steel product that will not shatter or crack even from hammer blows. This product is also shockproof. Extreme and sudden changes in temperature don't faze Douglas.

Another feature of these water heaters is adaptability. They will operate efficiently on either natural or liquefied petroleum gases.

Thixton Stocks Just What Santa Is Looking For

If your son or daughter is expecting some mode of transportation to be waiting under the tree Christmas morning, you might suggest that Santa drop by Cecil Thixton's before he pays his annual visit.

Thixton has a wide assortment of bicycles and some lightweight motorcycles which just might fill the bill at your house. And Santa can save a lot of wear and tear on his reindeer and sleigh by having the delivery made from Thixton's instead of all the way from the North Pole.

Thixton is operator of the Harley Davidson motorcycle agency in Big Spring. And to his array of motorcycles has been added the popular Schwinn brand of lightweight, American-made bicycles.

The Cecil Thixton Motorcycle and Bicycle Shop is located at 908 W. 3rd Street in Big Spring. On display there are the various bicycles and motorcycles which are available for immediate delivery.

Thixton reported that he has a large supply of the new "Hummer" motorcycles, the lightweight machine put out by the Harley-Davidson company, the nation's leading motorcycle manufacturer. In addition, Thixton has on hand a number of the "165" model motorcycles which have proved exceptionally popular with the younger set here.

The owner of the motorcycle agency is especially well-pleased with his big stock of bicycles, which includes both new and rebuilt machines. The bikes Thixton has rebuilt are just like new, from the seat to the tires, and including the paint job.

In the used department, Thixton also has two good motorcycles—a "125" and a "165."

Another popular pre-Christmas item at Thixton's is the bicycle "do-it-yourself" repair kit. This includes a complete set of fenders and braces, painted in the color of your choice, and a can of matching paint with which the bike owner can refinish the frame of his vehicle.

A large assortment of bicycle and motorcycle accessories is maintained at the Thixton establishment. Baskets and luggage carriers for bicycles are stocked, along with lights, handle grips, chain guards, kick-stands, horns and nearly anything else you can name. The same applies to motorcycle accessories. If it has to do with motorcycling, chances are that Thixton has it.

In conjunction with the sales agency, Thixton maintains a complete service department—for both bicycles and motorcycles.

Workers End Strike

TUCSON, Ariz. (AP)—Some 2,500 workers last night ended a week-long strike at the Hughes aircraft plant here, which manufactures the Air Force's Falcon guided missile. The International Machinists approved a new two-year contract which provides an hourly pay boost of 7 to 15 cents.

Around The Rim Public Business A Private Affair?

A Texas legislative committee, discussing proposals concerning legislative sessions, has adopted a policy which bars all newsmen from attending its sessions.

All through my newspaper career I have encountered this growing tendency among the part of governmental officials and agencies to close their doors on reporters.

Each political figure or agency which is permitted to conduct star sessions and forbid the public knowing what it is doing or how it is being done strips the people as a whole of that much more of their fundamental rights.

The people are entitled to know how their public servants function. It is not practical for all of the people to sit in on the deliberations of governmental bodies.

by the public. Thus, the public is able to keep a check on the performance of the men it selects as its servants. And the public is entitled to know just exactly how those officials work and what factors enter into any decisions they may reach.

The press of Texas and the people as well should oppose this newest attempt at suppression of news with all vigor.

David Lawrence UN's Responsibility In Hungary

WASHINGTON — The United Nations has been humiliated by the Soviet government on whose orders the puppet government in Budapest has been refusing U.N. observers any access to Hungary.

How can the United Nations permit the Moscow government or its puppet in Budapest to remain members of that organization? The charter does not contain a specific provision stipulating how expulsion shall be carried out, but certainly under any procedures known to established governments or tribunals there is such a thing as recognition and non-recognition of the credentials of members.

Thus it would be practicable to keep the name of Russia on the membership roll of the U.N., but to ask the representatives of the present government to depart from the U.N. premises because the U.N. no longer recognizes their presence as official. Obviously, any government which will not even extend within its borders the courtesy of access to the representatives of the U.N. has no respect for that institution and hence the privileges of the U.N. should be indefinitely withdrawn.

the Senate, a few days ago called for the expulsion of Soviet Russia from the U.N., because of what has happened in Hungary.

A case can now be made for the withdrawal of recognition of the existing Hungarian government. A simple resolution is all that is needed, declaring the seat of Hungary to be vacant and adding that representatives from Hungary will be accepted whenever a free government arises.

The United Nations has recently received a new lease of life. Persons who have been discouraged before by the failure of the U.N. to assert itself have in the last few weeks taken on new hope.

High School Youth Builds Iron 'Brain'

LOUISVILLE, Ky. — Glenn F. Chestnut Jr., built a thinking machine. It won him an honorable mention in a nationwide scholarship competition.

Do Look Back

SACRAMENTO, Calif. — "Every driver should glance in his rear view mirror every five seconds," delegates to a safety conference here were told.

Lost And Found

SPOKANE, Wash. — When 3-year-old Curtis Hahn disappeared from his home the fifth time in a month police began to catch on.

Double Duck

LOGAN, Ohio — Tommy Woodgeard bagged two ducks with one shot recently at nearby Scott's Creek. It wasn't beginners' luck.

Sam Dawson Office Buildings In Fresh Boom

NEW YORK — The office building boom — brushing aside the question "How can they ever fill all that space?" — is taking a fresh spurt.

New York chiefly — but also in many other cities across the land — new skyscrapers are rising today and plans for still bigger ones are being announced.

Horse Trading

PHOENIX, Ariz. — No one can say "get a horse" to the operators of an automobile agency here. They have one.

Costlier Rib

RICHMOND, Va. — The price squeeze appears to be on the squeeze price according to hospital records. Last August, it cost a 50-year-old Richmond woman \$13 for repairs to a cracked rib she received when hugged too enthusiastically by her husband.

Traffic Problem

SACRAMENTO, Calif. — Do you live in a typical town? G. P. Parmelee of Los Angeles, a leader at a state traffic safety conference, said a typical city of 25,000 has 33 lawbreakers, 22 doctors and not a single traffic engineer.

Miniature Turnpike

Miss Vyvyan Ferrall pays her fee to D. L. Cox at the entrance of what is probably the nation's shortest "turnpike" located on a parking lot between two main streets in downtown Dallas. For over 12 years people have been cutting through the lot despite warning signs posted by the owners who claimed the pedestrian traffic interfered with the parking autos. The owners decided to discourage the short cuts by installing a turnstile and charging a fee. Those used to taking the daily shortcut were undaunted by the fee and over 100 persons passed through the turnstile during the first hour of operation.

Brutal Crushing Of Magyar Revolt Brings No Converts

By LYNN HEINZERLING
VIENNA (AP)—The revolt against Moscow's dictation which blazed so brightly under the Russian guns just a month ago today still smolders in neighboring Hungary.

The spectacular bid for freedom took unknown thousands of lives and may have showered its sparks into neighboring dictatorships, including that of the Soviet Union itself.

Using all the modern paraphernalia of Communist persuasion—tanks, guns, prisons and sealed deportation trains—the Russians have been unable to stifle the spirit which toppled Stalin's statue the night of Oct. 23 and sent boys and girls with rifles against T34 tanks on Nov. 4.

The Russians have all but broken the armed resistance by sheer weight of their numbers and arms. They have deported uncounted hundreds of Hungarians and sent more than 110,000 seeking asylum in the West.

But they have won very few converts for the government of Premier Janos Kadar, a supposedly "liberal" Communist thrust in as front man for the Russian dictatorship on that bloody Sunday a month ago.

Fighting is still reported between rebel guerrilla groups and Russian troops in the Hungarian countryside. Many of these reports apparently grow out of poor or nonexistent communications with Budapest. There are no reliable indications of any military action comparable with the fighting of late October and early November.

The new strength of the freedom fighters lies chiefly in the hands of the workers and students, who spearheaded the rebellion. The workers, through the formation of councils on the Titoist pattern, have been demanding a greater voice in policy making than is accorded in any "people's democracy."

They have insisted and still insist on the withdrawal of Russian troops and the restoration of former Premier Imre Nagy, who promised them free elections and the Soviet withdrawal. The Kadar government rejected these demands, although the puppet

rebel agreed to negotiate for Russian withdrawal after order has been restored.

It was announced officially that Nagy had asked to go to Romania and had been sent there. This has never been confirmed.

Kadar has said that Nagy "committed an unpardonable crime against the Hungarian nation" by failing to take action against the "counterrevolution."

The version of the Hungarian rebellion trumpeted by Moscow and the Kadar government is that it started out as a justified revolution against the misdeeds and institutions of Hungary's old Stalinist leaders, Matyas Rakosi and Ernoe Geroe, but that Fascists then moved in and converted it into a counterrevolution.

Many are still absent and production is sporadic.

The industrial situation is most critical in the coal mines. The coal shortage has kept many industries idle. In many places the

workers have to live and make money, a spokesman explained. Even then, disappointed workers turned up at their benches only for payroll purposes.

Kadar heads a renovated version of the Communist party known as the Socialist Workers' party. Ostensibly it has been cleansed of all Stalinist elements, but it has attacked very few members. Reliable observers in the Hungarian capital say the Kadar government has roots in nothing but the Red army.

British Awaken To Bad Suez Hangover

LONDON (AP)—The British people awakened today to a severe Suez hangover, with Prime Minister Eden's prestige at perhaps the lowest ebb since he took office 20 months ago.

There was widespread feeling that the decision to pull out of Egypt without delay was a national humiliation. Even some of Eden's last-ditch supporters were asking: How long can he hang on as prime minister?

Conservative leaders in the House of Commons, forewarned of revolt in the party ranks, sought to drum up all possible support for a motion of confidence in the government which will come to a vote Thursday night.

The opposition Labor party planned an all-out challenge, probably with a motion seeking to censure the whole policy of intervention in the canal zone.

Even worse than the political crisis, to most Britons, was a looming economic emergency which threatened the stability of the pound and the national standard of living.

Government experts figured the Suez attack by next April would have cost Britain between 300 and 400 million dollars, including extra military spending, loss of Middle East oil and extra cost of shipping around South Africa. Still to be reckoned were enormous future losses: dollars to buy Western Hemisphere oil, Britain's share of

clearing the canal, a general slump anticipated as a result of the oil shortage, and damage to British prestige and business in the Middle East and Asia.

The strong anti-American feeling which welled up in the closing stages of the British-French military adventure in Egypt was all but forgotten in a new general demand for repair of the Atlantic Alliance.

The Daily Telegraph, which for years has backed the Conservatives through thick and thin, said that "the whole affair has been politically bungled by the British government to an incredible degree."

Lord Beaverbrook's independent Daily Express, which had supported Eden strongly, said there was feeling in the House of Commons that Eden "may resign almost at once" after his return from Jamaica.

The Laborite Daily Herald said the decision to get out of Egypt means that the policy of the Conservative government "is in ruins."

The independent but consistently pro-Conservative Times said the withdrawal from Egypt "should be the signal for the American government not only to permit the coordination of emergency oil supplies for Europe but to take the firm initiative in the Middle East as a whole which is so desperately needed."

This dynamic unity, this amazing self-respect, this willingness to suffer, and this refusal to hit back will soon cause the oppressor to become ashamed of his own methods.

Boycott Leader Describes Ways To End Segregation

MONTGOMERY, Ala. (AP)—Five ways Negroes can speed the "inevitable" end of segregation were described last night by the leader of Montgomery's year-old Negro boycott of segregated buses.

The Rev. Martin Luther King Jr. told a packed church at the opening of a Southside Negro institute on passive resistance to racial segregation that "we must speed up the coming of the inevitable."

King described the five ways as:

- "We must continue to gain the ballot... one of the basic keys to the solution to our problem." Both the Democratic and Republican parties have "betrayed" Negro hopes, King said.
- "We must continue to struggle through legislation."
- "We must donate large sums of money to the cause of freedom."
- Negroes must "develop intelligent, courageous and dedicated leadership... one of the pressing needs of the hour."
- And, "we must have the moral courage to stand up and protest against injustice wherever we find it."

Negroes should "meet every act of violence toward an individual Negro with the fact that there are thousands of others who will present themselves in his place as potential victims," King said.

False Alarm For Nerves No Excuse
SAN FRANCISCO (AP)—Municipal Judge James J. Welsh rejected the plea of Mrs. Frances Haines, 34-year-old housewife who said she needed the "relaxing sound of fire engines" to steady her nerves. Judge Welsh fined her \$125 yesterday for turning in a false fire alarm.

YOU ENJOY INCREASED HEADROOM...made possible by recessing the floor within the frame, and by the unique, straight-line design of the roof. Mercury's outside height is a sleek, shoulder-high 4 feet 8 inches.

Texas-big all over! Far longer, wider! Bigger in every important dimension!

Here, by far, is the most spacious Mercury ever built. Even with 6 big passengers, there is no "hemmed in" feeling. There's move-around comfort for all.

BIGGEST SIZE INCREASE IN THE INDUSTRY—The new Mercury is over 17½ feet long, more than 6½ feet wide. Close to 2 tons big. The doors are much wider for easier entrance and exit. The passenger compartment alone is almost 9 feet long. Headroom has been generously increased. THE BIG M is family-car big—with much more leg room, shoulder room, and elbow room for all the family.

FAR GREATER VISION—You are surrounded with up to 4,122 square inches of glass—more glass area than a picture window 3 feet by 9 feet. The corner posts are so slim you scarcely know they're there.

DREAM-CAR STYLED—A new look shared by no other car. Clean-cut, lean, dynamic, it will influence the shape of cars for years to come.

BIGGEST VALUE INCREASE IN THE INDUSTRY—Never before has so much bigness and luxury cost so little. Check the price tags—and our easy terms—at our showroom. You will be amazed at how little more it costs down—and per month—for a big new Mercury than for the lowest priced cars.

YOU'LL SEE DREAM-CAR FEATURES WHEREVER YOU LOOK

- V-angle Tail-lights, Jet-Flo Bumpers, Color-keyed Rear Projectiles
- Merc-O-Matic Keyboard Control that outdates ordinary push-button transmissions
- Power seat that "remembers" your favorite driving position
- Power-Booster Fan, in Montclair series, saves power other cars waste
- Full-Cushion shock absorbers and 3 other bump-smothering advances give you Mercury's exclusive Floating Ride
- New 290-hp Turnpike Cruiser V-8 engine (optional), 255-hp Safety-Surge V-8 engine (standard)

miners have said that until their demands are met, they will mine just enough for their localities and their own needs.

The struggle between the workers and the Kadar government undoubtedly has created chaotic conditions in Hungary's Communist economy. The Premier has recognized this to the extent of approving the council system, patterned after that of Communist Yugoslavia. Through their councils, the workers practically manage their own factories, setting production goals, wages and working conditions.

Sooners Named Top Collegiate Team

By ORLO ROBERTSON
The Associated Press

Oklahoma's high-powered Sooners, winners of 40 straight games after chalking up 10 triumphs this season, have been acclaimed the nation's No. 1 college football team for the second successive year.

In the final poll conducted by The Associated Press, 167 sports writers and broadcasters gave the Sooners a total of 1,715 votes compared with 1,618 for the second-place Tennessee Volunteers, who are headed for the Sugar Bowl after an unblemished record in 10 games.

The Sooners, who retired the Rev. J. Hugh O'Donnell, C.S.C. Memorial Trophy, were placed first on 104 ballots. Tennessee received 48 first-place votes. The others were scattered among seven teams, topped by Iowa's 15 and Miami's 12.

STEERS WIN, 82-63

Scoring Records Fall In Opener

Warning to the task after a slow start, the Big Spring Steers kayped the Lamesa Tornados, 82-63, in a practice basketball game here Monday night.

The Longhorns betraying signs of real court class, set two new scoring records along the way.

Big Spring's Loudermilk, cashing in on 15 of 27 opportunities from the foul line, set a Steer Gym scoring record by counting 31 points. The old mark was established by Charley Johnson of the 1955-56 team, who managed an even 30.

The Bovines also scored more points in an opening game than any Steer club in history.

Lamesa, a game outfit, had not benefited from a great deal of practice before moving in here, kept up with the Longhorns for a while and even led them for a quarter, 16-15, but the locals were in command after that.

The Tornados couldn't keep from fouling. They lost their big man, Wayland Holladay, with 31 minutes to go in the third and Steers widened the gap steadily after he had departed. In all, the visitors committed 43 fouls, grapping for the ball.

Jim Barr kept the Lamesans in the game with a 23-point effort. Webb Corbin was the only other Tornado to hit in double figures. He scored 16.

Mike Musgrove and Jesse McElreath counted 16 and 15 points, respectively, for Big Spring. Donald Lovelady chipped in with 12. Big Spring's B team registered an early win, too, finishing on the long end of a 52-31 score.

Preston Hollis paced the Short-horns with 20 points. Charles Rus-

sell had 16 and Bill Thompson 12 for the locals.

Ken Barr paced Lamesa with 13 points.

Host Decatur Indians Tonight

The HCJC Jayhawks launch home basketball play tonight, at which time they meet the strong Decatur Baptist College Indians at 8:30 p.m. as the afterpiece of a unique Big Spring Steer-HCJC double header. Each team will play in its own gym but fans can gain admission to both games by paying \$1 at the high school fieldhouse. The high school team plays Sweetwater at 7:15 p.m.

Hawks, Steers In Cage Double Header Tonight

The basketball fan gets a break tonight, when both the Howard County Junior College Jayhawks and the Big Spring Steers play home games in their own gyms.

For the price of \$1, the adult fan will be able to see both contests. He can purchase a ticket at the High School Gym and it will be honored at the HCJC fieldhouse later in the evening.

The high school team plays Sweetwater, seeking its second year of the year, at 7:15 p.m. That engagement will be completed in time for the fans to drop out Eleventh Place to the HCJC Gym and see the entire Jayhawk-Decatur contest. The second game of the twin bill has been moved back to 8:30 p.m.

The Jayhawks will be opening their 1956-57 season and will be hard-pressed to maintain a record of never having lost a home opener.

YANKS' POINT EDGE MELTS

By TED SMITS
MELBOURNE (AP) — Mrs. Pat Keller McCormick, trying for an unprecedented Olympic "double" won the women's springboard diving today for America's only gold medal as Uncle Sam's precious point total melted under the pressure of Russian shooting victories.

Mrs. McCormick, 26, Lakewood Calif. housewife whose husband is the team's coach, had taken a commanding lead in the first three dives of the finals. In 1952 at Helsinki, Mrs. McCormick won both the springboard and platform titles. The platform competition will be held later in the week.

Russia took gold medals in two shooting events and totalled 31 points with other placings to carve America's margin.

Murray Rose, 17, Australian blond, smashed the Olympic record in winning the men's 400-meter freestyle race in 4:27.3 with plenty to spare on Japan's Takashi Yamanaoka, 17, a high school student. America's only finalist, George Breen of Buffalo, N. Y. finished third.

With the exception of the women's diving, Breen was Uncle Sam's only point getter for the day with four for third place. However, his specialty is the 1,500-meter race in which he again will meet the handsome Australian.

America has a chance to pick up points in women's swimming tomorrow where a 1-2-3 sweep is a distinct possibility in the 100-

Junior Quints Are Defeated

SWEETWATER (SC) — Three Big Spring Junior High School basketball teams suffered defeats in their first games here Monday evening.

The Ninth Graders lost, 59-51. The Eighth Graders were routed, 51-18, while the Seventh Graders yielded a 33-14 decision.

Jim Barr kept the Lamesans in the game with a 23-point effort. Webb Corbin was the only other Tornado to hit in double figures. He scored 16.

Mike Musgrove and Jesse McElreath counted 16 and 15 points, respectively, for Big Spring. Donald Lovelady chipped in with 12. Big Spring's B team registered an early win, too, finishing on the long end of a 52-31 score.

Preston Hollis paced the Short-horns with 20 points. Charles Rus-

LOOKING 'EM OVER

With Tommy Hart

Sports dialogue:

"TIMMY GANNON, New York scribe: "A football better is worse off than a horse player. They've got to listen to all that bum music and hip-hip-hooray while they're freezing to death. Another thing a football degenerate will bet on his own boola boola. I've never seen a horse player with a system any good. But at least he won't gamble because he likes horses."

TERRY BRENNAN, Notre Dame football coach, on why Iowa looked so good in football this fall:

"Iowa's offense is quite a departure from tradition. They use a wingback on most every play and operate in the "T" style as contrasted with the split-T, giving them the opportunity for power blocking. Maybe the Hawkeyes are showing the way for some new wrinkles that will be worked into the offensive repertoire of more teams. Anything new forces an opponent to work much harder."

BENNETT CERF, in Saturday Review magazine:

"Just about 180 years ago, well-trained redcoats commanded by Gen. Sir William Howe chased tatterdemalion colonial revolutionaries all the way from 24th St. to Columbia University — although, of course, neither of these institutions was in existence at the time. At first, the colonials showed so little disposition to fight that their leader, George Washington, dashed his cocked hat to the earth in a rage. At the Polo Grounds, however, the boys staged a spirited rally—something that certainly wasn't seen there in the 1956 season."

GABE PAUL, general manager of the Cincinnati Redlegs:

"There was a lot of guessing around the league concerning the identities of the seven men I offered Pittsburgh for pitcher Bob Friend last winter. The general impression was that I offered halibut kids and has-beens. You'd be surprised if I told you the names of five of the seven. If we had had Friend, we'd have met the Yankees in the World Series."

BIGGIE MUNN, athletic director at Michigan State:

"To me, all sports are wonderful because (1) No-one asks you to coach. (2) No-one asks you to play the game; you go out to play because you love it and (3) No-one forces you to buy a ticket to the game; you do it for the love of the game."

JIM TATUM, coach at North Carolina, on why he wouldn't be accepted as a Naval officer, although he holds a reserve commission: "I'd be turned down because of a broken heart."

LOU PERINI, owner of the Milwaukee Braves:

"Hank Aaron and Eddie Mathews and a lot of our players are not up for trade. Let's not kid ourselves. Who's going to trade with us? Or sell us any good players? We'll be the team to beat in 1957, but who's going to give us any players that will help? Nobody is. And we're not going to strengthen any of the other clubs unless we think we can help ourselves more. We've been a long time building. . . we're going to keep building. We'll be on top before long, and we figure to stay there."

DON LARSEN, famed no-hit hurler of the New York Yankees:

"I can't promise in 1957 to be anything but what I am. I try to do my best. But I know myself. I'm just a night-rider at heart."

JACK KEARNS, the veteran fight manager, after reaching Chicago for the Floyd Patterson-Archie Moore fight:

"I made the town last night. But nobody was there. Just some people. No guys. I made Rush Street, hit the Loop. Couldn't growl up a friendly face all night. I remember the old days. You walk in one of those places. You'd fall over newspaper guys, fight guys and just guys. No more. I guess they're getting old."

Detroit Obtains Finigan In Trade With Athletics

JACKSONVILLE, Fla. — The Detroit Tigers have clinaxed two years of trying by landing infielder Jim Finigan from the Kansas City Athletics.

Finigan and three other players were acquired from the A's last night by the Tigers who traded off three pitchers and reserve first baseman Wayne Belardi in the first major deal since the club changed hands at the end of the season.

In the Kansas City package with Finigan were first baseman Eddie Robinson and pitchers Ed Blake and Bill Harrington. Harrington immediately was assigned to the Tigers' Charleston, W. Va. farm. Blake, one-time Cincinnati right-hander, had been drafted by the A's earlier in the day from Toronto where last year he had the best earned run average in the international league.

Kansas City, which tossed \$20,000 to \$30,000 cash into the deal, received Ned Garver, sidelined almost all last season with a sore arm; Virgil Trucks, 38, veteran hurler who has talked seriously of retiring; Gene Host, 23, left-hander who had a 13-15 mark with Charleston in 1956, and Belardi.

Arnold Is Better

DALLAS (AP) — SMU quarterback Charles Arnold, who underwent an operation for a ruptured kidney last Friday, was reported showing satisfactory progress yesterday. Arnold was injured against Baylor.

All-Opponent 11

TEMPE, Ariz. — Arizona State football players picked Pete Murray, Pete Hart and Burley Polk of Hardin-Simmons and Jim Bevers of Texas Western for their all-opponent team.

Duster-Abilene Game Postponed

Webb Air Force Base's basketball game with Abilene AFB, which was to have been played last night in Abilene, was called off an hour before the game site. The contest will probably be unreeled sometime in January.

The Dusters next see action here Thursday night at 7:30, at which time they play Amarillo in a better butterfly event. Shelley Mann of Arlington, Va. beat the listed world's record for the best

Fullmer, Jensen Peevd About Delay Of Fight

By DON WEISS
NEW YORK (AP) — Gene Fullmer and Willy Jensen, a discouraged challenger and an agitated man-ager, had a date with the New York State Athletic Commission today — the two latest victims of Sugar Ray Robinson and his pre-fight maladies.

Robinson came down with a severe cold yesterday, necessitating a postponement of his middleweight title defense against the rugged, young Fullmer from Dec. 12 to Jan. 2 at Madison Square Garden.

It was all in good and legitimate order, including announcement of the findings by a commission physician concerning the champion's condition and inability to fight as scheduled.

But with Robinson, there's always the nagging complication of a past history which reveals something on the order of 25 pre-fight fadeouts, including one a couple years ago that followed the weigh-in at noon on the day of a scheduled bout.

Fullmer and Jensen, who negotiated and waited for upwards of six months to get a fight with the champion, got more notice. But the way Jensen reacted, he could not have been more stunned had Robinson been stricken climbing through the ropes.

The manager from West Jordan, Utah, claimed the title by im-

Decatur Nudges Odessa, 46-35

ODESSA (SC) — The Decatur Baptist College Indians rang up their second basketball win of the season at the expense of Odessa Junior College here Monday evening, winning, 46-35.

Both teams were cold from the floor. Odessa hit only ten field goals all night. Decatur courted 16 field goals.

John Guigue and Horace Thompson paced Decatur with ten points each. Jimmy Bennett led the losers with eight.

Decatur was in front at half time, 28-14.

ODESSA JC (35) — Stuckey 12-4; LeValley 10-2; Louis 1-4-4; Zieneghor 1-2-1; Evans 0-2-2; Gibson 0-2-2; Evans 3-1-3; Bennett 3-2-8; Totals 10-15-35.

DECATUR (46) — Guigue 10-20; Thompson 10-20; Bennett 10-20; Lewis 4-10; Walker 2-4; Derryberry 1-2; Guize 4-10; Tomlinson 1-4; Boren 0-1. Totals 16-19-46.

Sweetwater Bops Angelo, 42-38

SWEETWATER (SC) — The Sweetwater Mustangs handed the San Angelo Bobcats a "surprise" package in their first basketball start here Monday night, winning, 42-38.

San Angelo trailed by only two points at the end of the initial period but was farther behind at half time, 22-17.

Donald Kuykendall paced Sweetwater in scoring with 11 points. Bobby Steves had 19 for the losers.

SWEETWATER (42) — Ware 3-12; Wright 3-6-12; Harbin 0-1-1; Craft 1-1-2; Kuykendall 4-3-11; Harvey 1-0-1; O'rear 2-4-1. Totals 15-34-42.

SAN ANGELO (38) — Harvey 1-0-2; Steves 11-19; Barber 3-8-3; English 2-4-1; Lang 2-0-4. Totals 16-39-38.

Jan Loudermilk Is Leading Pass Receiver In 2-AAAA

Jan Loudermilk, Big Spring's big junior end, emerged as the leading pass receiver in District 2-AAAA the past season, according to figures compiled by Don Oliver of the Abilene Reporter-News.

Loudermilk, a leading candidate for all-conference honors, caught a dozen passes in the Steers' four district games. Jan picked up a total of 123 yards. Jim Owens of Midland gained more ground than did Loudermilk, although he caught only nine passes.

Buddy Barnes, Big Spring junior, emerged as the fifth leading ground gainer in the five-team league, averaging 7.6 yards in ten carries. Barnes gained most of that yardage in one sprint, a 55-yard pickup against San Angelo. Billy Johnson, Big Spring, was the second leading passer in the circuit, with 11 completions in 22 tries for gains of 119 yards. Big Spring's Jimmy Evans was right behind him, gaining 118 paces on ten completions in 27 attempts.

Knott Shaded By 55-40 Tab

UNION TERRY (SC) — The Knott girls salvaged the lone Big Spring victory in a three-game basketball series played with Union Terry teams here Monday night, winning, 55-40.

The Knott team boys lost, 55-40, while the Knott boys' reserve squad yielded, 15-14.

Joey Long again led the Knott A team in scoring with the Knott A team with 19 points. Newcomer passed Union Terry with 19.

Knott's girls led at the end of the first quarter, 14-4; at half time, 27-9; and after three periods of play, 47-21.

Jean Sample scored 28 for Knott. Sue Paige had 18, Ann Rogers seven and Virgie Graham two. In all, Coach Bill Bolin played 15 girls.

Gruber led Union Terry in scoring with 17 points. Howell collected nine and Garnett one.

Doyle Rallsback paced the Knott B team in scoring with 11 points. Knott trailed at the end of the first period, 2-1; at half time, 8-4; and after three periods, 12-7.

Knott's teams will be idle until next Tuesday, at which time they play Fluvanna.

Mustangs Roar Past Indians

SMU, champion two seasons in a row, appears to still have it as the Southwest Conference basketball campaign moves into high gear.

The Mustangs rolled up 113 points Monday to open the season with a triumph over McMurry, which got 36.

The Methodists controlled the backboards like they owned them, taking 67 rebounds.

Texas also opened the season with a huge scoring spurt. The Longhorns clouted North Texas State 103-68, running up the biggest total a Texas team ever attained.

Rice won its second game—the Owls opened the season with an 85-55 triumph over Trinity Saturday by beating Lamar Tech 66-59.

TCU started the ball rolling with an 81-62 victory over Austin College while Texas A&M, which lost its opener Saturday to Centenary, 67-59, broke into the victory column with a 69-60 triumph over St. Mary's of San Antonio.

Baylor, which opened the season Saturday night by taking a 68-45 licking from Oklahoma A&M, has a chance to get even Tuesday. The Bears play the Aggies at Waco, Arkansas, which started off with a 59-55 victory over Oklahoma, travels to Wichita.

Henry Is Honored

TULSA (AP) — Tulsa football players named Houston's Dalva Allen, Rudy Spitzberger and Donnie Caraway and Jack Henry of Texas Tech to their all-opponent team.

Charges Filed In Baby Death

EDINBURG (AP) — Charges of murder with malice were filed against Miss Delores Hining in the death of a newly born baby girl whose body was found at the Pharr city dump Saturday.

The cause of death of the infant, found in a cardboard box by salvagers, was listed as suffocation.

Dist. Atty. Jim Bates said Miss Hining signed a statement saying she gave birth to the baby at her home Friday afternoon. Bates said she admitted placing the baby in the box at the city dump. He said she insisted that she thought the baby was dead at birth.

Miss Hining, 25, a waitress who came to Pharr recently from Colby, Kan., was held under guard at Grandview Hospital in Edinburg. She was arrested early yesterday. Bates said she returned to work Friday two or three hours after the baby was born and received no medical treatment.

The district attorney said the box in which the baby was found had originally held restaurant checks. Miss Hining was arrested after officers questioned employees of 17 Pharr restaurants.

Ike Calls Meet On Arms Fund

AUGUSTA, Ga. (AP) — President Eisenhower today called Secretary of Defense Wilson and other administration officials to a Friday meeting here to discuss the level of military spending for the new fiscal year.

At the same time, Eisenhower's vacation headquarters announced the indefinite postponement of the Washington meetings the President had scheduled with Congressional leaders for Dec. 13-14. The sessions had been called for discussion of the administration's legislative program for 1957, to be outlined in Eisenhower's State of the Union message going to Congress early next month.

The meetings are being postponed, White House press secretary James C. Hagerty said, because several administration officials who normally would attend will be in Paris at that time for a conference of the NATO Ministerial Council.

Present indications are the President will stay on here, combining work and golf for longer than the two weeks he had planned originally. He arrived from Washington a week ago today.

Eisenhower's first scheduled Washington engagement at this time is the start of talks with India's Prime Minister Nehru Dec. 16. The two men probably will move outside of Washington for continuance of the talks after meeting there first.

Accompanying Wilson to Augusta Friday will be Budget Director Percival Brundage, Wilfred J. McNeil, assistant secretary of defense, and Eisenhower's chief aide, Sherman Adams.
