From Jet To Jet

The Air Force released this photo in Washington, Dec. 11, and said it shows the first Boeing KC135 jet tanker-transport refueling a B52 bomber for the first time, high over the Pacific Northwest. The Air Force said KC135 tankers will go into operational units in the spring of 1957 to make possible high altitude, high-speed refueling as a routine Strategic Air Command procedure. In a recent demonstration, a group of the eight-jet B52s flew more than 16,000 miles non-stop with the aid of aerial refueling.

## New Anti-Red Violence Reported From Poland

**By COLIN FROST**

WARSAW (AP)—New anti-government violence was reported in Poland today in the wake of the mob attack on the Soviet consulate at Stettin. Eighty-eight persons, many of them youths, were reported jailed for the Stettin riot.

Trybuna Ludu, official organ of the Polish United Workers' (Communist) party, disclosed a crowd attacked a police building in Olecko, a town near the northeastern city of Bialystok.

The Communist paper reported that crowds demolished municipal offices at Nowy Ciechocinek in the northern midlands.

Other demonstrators beat up a local Communist party secretary at Nieszawa, in the same district.

The paper added: "More such incidents can be reported."

Poland's nationalist Communist government, seeking to avert any repetition of the Soviet military intervention in Hungary, sped an apology to the Soviets for the attack on the Russian consulate in the outburst at Stettin (Szczecin) Monday night.

Newspapers which first played down the riots as drunken hooliganism reported that the demonstrators attacked police headquar-

## Federal Jury Still Out In Parr Mail Fraud Trial

HOUSTON (AP)—A federal jury resumed deliberations today in the trial of George Parr, South Texas political leader, eight Duval County associates, and two banks charged with mail fraud and conspiracy.

Judge Allen Hanney sent the case to the jury yesterday. The jurors deliberated six hours and were dismissed for the night.

A maximum sentence for each of the 20 counts in the indictment is five years in prison and a \$10,000 fine.

Deliberations were expected to take days because decisions must be made on each count of the indictment as it affects each defendant.

The government presented 81 witnesses and 171 exhibits trying to prove the defendants diverted more than \$200,000 in school funds to personal use.

The defense presented 12 witnesses and 17 exhibits. It argued the trial was part of a scheme to persecute Parr, that the charges were based on circumstantial evidence and on testimony from accomplices.

All defendants pleaded innocent.

## Russia Complains Against U. S. In General Assembly

UNITED NATIONS, N. Y. (AP)—The Soviet Union formally laid before the U. N. General Assembly today a complaint charging the United States with "subversive action" in the Soviet-dominated countries of Eastern Europe.

The move came as delegates to the 79-nation Assembly rallied behind an American-backed resolution condemning Russia for tampering in Hungarian affairs.

Specifically, the Soviet delegation proposed that the Assembly add to its agenda an item entitled: "Intervention by the United States of America in the domestic affairs of the peoples democracies and its subversive activity against those states."

Such charges had been made by the Russians in previous sessions of the Assembly and rejected as unfounded.

Three more sponsors—Spain, Turkey and Colombia—threw their support behind the resolution to condemn Russia, bringing the total sponsorship to 20 countries.

The 20 sponsors met last night to discuss a companion resolution entered by India and her three closest Asian allies—Burma, Ceylon and Indonesia. The Asian proposal omits actual condemnation of Russia. But U. S. Chief Delegate Henry Cabot Lodge Jr. told his cosponsors it was noteworthy in that it implied a strong rebuke.

## Cross Claims Fear Cause Of Shooting

O. R. (Bud) Cross, 25-year-old tavern operator, told a district court jury today that he shot Hugh E. (Cotton) George, 27, a customer, when the latter started across the bar because he believed that he was in danger.

Speaking in a voice so low that he had to be repeatedly admonished by his attorney to speak up, the young defendant in the murder case now before 118th District Court insisted that he was "not mad" at the time but that he "was scared."

He said the shooting climaxed a lengthy interval in which the dead man cursed him, tried to get him to go outside and fight. He said he hoped that no trouble would develop and that his action in picking up the pistol and firing four shots was because he felt he was in danger.

Cross was the final witness before a noon recess in the trial which has been in progress in district court since Monday.

It took him an hour to recite his version of what transpired in his tavern at midnight on Oct. 2. He was subjected to a 40-minute cross-examination at the hands of Guilford Jones, district attorney.

## Protest Strike By Hungarians In Second Day

VIENNA (AP)—A protest strike against Premier Janos Kadar's Soviet-imposed government went into its second day today in Hungary.

Word arrived in the West of many isolated clashes between striking workers and Russian soldiers. But so far there was no repetition of the bloodbath with which Soviet troops and tanks beat back the armed Hungarian revolt Nov. 4.

Kadar sent his security police and Soviet occupation troops to break up workers' demonstrations. The puppet Premier vowed that, having defeated his foes militarily, "we will also defeat them politically."

Soviet troops were reported moving to wipe out a band of rebel guerrillas holding out in the hills northwest of Budapest. Informed Hungarian sources said the freedom fighters were encircled but fighting to escape extinction.

The general strike, ordered to last until midnight tonight, brought industry and commerce almost to a standstill on its first day. A Yugoslav correspondent reported from Budapest that at least 80 per cent of Hungary's workers obeyed the cease work order from the outlawed Central Workers' Council. Other dispatches said the work stoppage was nearly 100 per cent effective in the provinces.

Moscow radio and Kadar's Budapest broadcasting station played down the effectiveness of the strike, called to protest the Kadar regime's dictatorial actions.

But in its next words Budapest radio pleaded for a return to normalcy.

The station quoted Kadar as saying each day of the general strike would cost the nation's economy 300 million forints (about 25 million dollars).

The broadcast said the Premier warned a workers' delegation that he would consolidate the Red army's military victory over the Oct. 23 rebellion with complete defeat of political foes.

## Negro Beating Case Is Ousted

BUSHNELL, Fla. (AP)—Seven white men were cleared today of charges of flogging Jesse Woods, 39-year-old Negro who had been forcibly taken from nearby Wildwood jail.

The men were cleared on a directed verdict by Circuit Judge T. G. Futch after State Atty. A. P. Buie himself asked that four of the men be freed.

The case blew wide open when Buie complained that witnesses changed their stories when they came into Sumter County Court-house to testify.

(Earlier story on Page 8-A)

## To Make Plea For Hungarians

W. C. Blankenship for the American Red Cross, and Dr. P. D. O'Brien for the Pastors Association, will be on TV Channel 4 this evening to renew an appeal for help from this community for the refugees from Hungary.

These organizations are joining in the plea for cash and clothing to help meet the Austrian people's desperate needs.

Big Springers are reminded again that trucks will tour the city Sunday afternoon from 2 to 5 p. m. to collect bundles of clothing that can be shipped to the Austrians. People are asked simply to have bundles of usable items on their front porches for collection during those hours.

Volunteer truckers are to meet at 1:30 p. m. at the old Herald building, 9th and Main, for area assignments then will return the bundles to that building for packing.

It is emphasized that wearable items are needed for men, women and children. Bedding, too is needed.

The cash appeal continues, and local contributions today had reached only \$119. The community is asked to raise \$832, to help the people who have sacrificed for freedom. Checks should be made to the RED CROSS, but mailed to The Herald for clearing.

## Mild Weather Is Rule In State

By The Associated Press

Mild weather hung on in Texas Wednesday as a cold air mass drifted down from the northwest.

Lubbock was the coldest spot early Wednesday with 30 degrees. Beaumont had 68.

## Japan Ends State Of War With Russia

TOKYO (AP)—Japan and the Soviet Union formally ended World War II today—11 years and 4 months after Russian soldiers marched south into Manchuria in the final week of fighting. The two nations reopened diplomatic relations.

The agreement, largely on Soviet terms, leaves Russia in possession of Japanese territory occupied after Japan surrendered but gives Japan promise of Soviet support for admission to the United Nations and release of thousands of war prisoners.

Soviet Vice Foreign Minister Nicolai Fedorenko and Japanese Foreign Minister Mamoru Shigemitsu exchanged documents ratifying the peace agreement signed in Moscow Oct. 19. Then they toasted the accord in champagne.

The agreement is not a final peace treaty because the two nations were unable to agree on the ownership of the Sakhalin and Kurile Islands north of Japan, which Soviet troops occupied after the war.

But it ended the technical state of war that has existed since Aug. 8, 1945, when Soviet troops marched south from Siberia at the urging of the other allies who fought together in Europe. Japan surrendered Aug. 14.

Japan now has resumed relations with all her adversaries in World War II except Communist Poland and Czechoslovakia. They are expected to follow Moscow's lead in ending the war.

The three Communist nations refused to sign the 1951 San Francisco Peace Treaty that made peace between Japan and the other Allies.

# Rebel Bands Sweep Through North Ireland

## Protest Strike By Hungarians In Second Day

VIENNA (AP)—A protest strike against Premier Janos Kadar's Soviet-imposed government went into its second day today in Hungary.

## Hollywood Sets Up A New Morality Code

NEW YORK (AP)—Movie industry censors have revised the movie code for the first time since it was adopted in 1930.

New standards, stricter in some senses and more lenient in others, were announced yesterday by the Motion Picture Assn. of America, the movie industry's self-imposed censoring board.

Eric Johnston, president of the MPA, in announcing some 20 changes, said the new code "is already in effect—Hollywood has been advised."

Johnston and Ken Clark, vice president of the association, said it was not possible to "characterize or sloganize" the effect of the revision. Johnston said, however, he thought the code was "more flexible" than the old one.

The new code permits the treatment, "within the limits of good taste," of such subjects as abortions, the kidnaping of children and the illegal traffic in and use of narcotics.

At the same time, it adds "thou shalt nots" in the form of mercy killings, blasphemy and double-meanings.

Under a general section entitled "sex," the new code specifically bans "open-mouth kissing," adding this to a section that already forbids "lustful kissing, lustful embraces, suggestive posture and gestures."

## City Authorizes Sewer Extension

City commissioners Tuesday authorized a sewer extension on the Northside and made provisions for another.

A group of citizens from areas without sewer facilities came before the commission and asked for sewer service. As a result, a new line will be installed near the Negro park.

One property owner said that no additional space was available on her property for septic tanks.

City engineer Jack Bellamy reported that cost for 2,240 feet of six-inch line would be about \$3,800. This line would serve some 40 lots. City manager H. W. Whitney said petitions had been circulated previously and all persons were anxious to get the sewer service.

Whitney said that Lige Fox, city sanitarian, had circulated the petitions.

Another group of residents on Northwest Fourth was told to circulate a petition in their area for a line. This line would be about 900 feet and would serve seven lots. The commission said that all persons were to have the understanding that if the line passed their property, they must tie into it.

Jack C. Skelton, a resident of Midland, approached the commission asking permission to establish a private patrol service in Big Spring. This service would essentially be a roving nightwatch-

## Cause Million Dollars In Damage

BELFAST, Northern Ireland (AP)—The outlawed Irish Republican army staged a mass raid at 12 points in British North Ireland today, causing an estimated million dollars worth of damage.

Before they were beaten back by the Royal Ulster Constabulary, the invaders blew up a \$100,000 British Broadcasting Corp. radio transmitter, two buildings, and two bridges, set fire to a courthouse and tried to capture a military barracks.

They set off what police described as "a night of terror" along a line stretching almost 200 miles across Northern Ireland—Ulster. Five of Ulster's six counties were affected.

A policeman was wounded slightly and five raiders were captured before the invaders fled. Police said at least three of those who escaped were wounded. The constables found two bullet-riddled cars, machineguns and hundreds of rounds of ammunition.

Heavy detachments of constabulary, and helicopters and police dogs, were thrown into the hunt for the fleeing invaders. Barbed-wire roadblocks were thrown up at the wooded and mountainous border with the Irish Republic. But police said the main body of the raiders apparently had escaped across the border.

Police said the raid apparently was a show of strength on the part of IRA leaders to discourage any bid for control by dissident factions within its own ranks. Breakaway groups within the IRA have recently staged minor raids on British customs posts.

The main purpose of the underground organization—outlawed by both the British and the Irish Republic—is to have the six counties of Ulster made a part of the Irish Republic.

Ulster is now a part of the United Kingdom.

The vest-pocket invasion began shortly after midnight. Before it ended with the withdrawal of the raiders, police said there were these incidents:

The barracks of the Royal Irish Fusiliers at Armagh was attacked by about 15 men, their faces blackened with cork, who threw hand grenades and tried to scale a wall. Barracks guards beat them off. An Armagh policeman who tried to stop a fleeing car was wounded slightly by submachinegun fire. Other constables captured two armed men.

A building in Londonderry housed a relay transmitter of the British Broadcasting Corp. (BBC) was blown up.

A dozen men dressed in police uniforms kidnaped the caretaker of the courthouse at Magherafelt and his wife and set the building ablaze. The kidnaped couple were released—unharmd three miles away.

The headquarters building of a British territorial army unit—equivalent to a U. S. National Guard company—at Enniskillen was blown up, along with two bridges at nearby Inishmore and Newtown Butler.

An armed band hiding in a truck exchanged shots near Torr Head. Three men were arrested in Cork, in the Irish Republic.

A wooden police hut was burned down at Newry.

## Japan Okayed For U.N. Entry

UNITED NATIONS, N. Y. (AP)—The Security Council today recommended unanimously that Japan be admitted to the United Nations as its 80th member.

The council's action opened the way for quick final action in the 79-nation General Assembly where approval was only a formality.

The approval of Japan came after more than four years of waiting. The application, first submitted July 16, 1952, had been vetoed four times by the Soviet Union.

which also is participating in the scientific program and has announced plans to launch its own earth satellites.

Hagen made the comments to newsmen who toured the naval research laboratory where work on the project is being done. The idea is that three powerful stages of rockets will carry a 20-inch metal sphere high enough to go into an orbit around the earth at 18,000 miles an hour.

The sphere will be crammed with instruments and automatic radio transmitters for sending data back to earth.

How long the first satellite will stay aloft depends on how high it can be fired, Hagen said. If it reaches a level of about 300 miles, it could continue whizzing around the earth in an elliptical orbit for about a year. But if it should climb only to 100 miles, its life span might be only an hour or two. Then it would fall into the thick atmosphere and burn up like a meteor.

Prototypes of satellites are being made here, but the actual spheres which will be used are produced by the Detroit firms of Brooks and Perkins.

## Stranger

This little girl knows that her name is Alvilda Barneac but that is all as police tried to find out who her parents or relatives are in New York. About four years old, she was found at International Airport in a baggage room in New York. Officials think she arrived on a flight from Puerto Rico. Airport officials notified police, who took her to a Children's Center. So far, efforts to find information on her parents, relatives or home have been unavailing.

## Satellite Creators Said 'On Schedule'

By ELTON C. FAY

WASHINGTON (AP)—The creators of the earth satellite say they think they'll meet the target date set for launching artificial little moonlets into the lower reaches of space.

Dr. John P. Hagen, director of the "Vanguard" satellite program for the Navy, told newsmen yesterday "We are essentially on schedule" in the project.

The White House has asked that the U. S. military and civilian scientists be ready to send up satellites during the International Geophysical Year beginning next July.

A dozen satellites are planned by the United States to be used in delving into the secrets of high altitudes, from a height of 200 to 1,500 miles.

Last night, Dr. Joseph Kaplan told an Ohio University audience in Athens he believes the first of the satellites will be launched about Jan. 1, 1958, Kaplan, chairman of the U. S. National Committee for the Geophysical Year, said "it will be a good percentage" if six of the satellites turn out successfully.

Hagen insisted that "we are not in any way racing with Russia."

## 8 Believed Dead In Plane Crash

BARTLESVILLE, Okla. (AP)—A Phillips Petroleum Co. airplane reported carrying eight persons crashed and burned south of here today.

In Washington the Phillips office said those aboard were A. M. Rippe, W. C. Reece, C. W. Binckley, George Sneed, D. F. Mayfield and T. D. Young, all company officials or employees, and Joe Bowers and R. E. Ulrich, pilots.

### Strauss Calls For More Effort In Atomic Program

WASHINGTON (AP) — Chairman Lewis L. Strauss of the Atomic Energy Commission called last night for a redoubling of U.S. government and private efforts to develop cheaper peaceful electric power from the atom.

He said substantial progress has been made toward that goal, but that the country cannot be satisfied because, he said, results so far "represent only a fraction of the bright prospects for nuclear power development in the United States the next five or six years."

He announced a series of steps designed to expand the present program.

A number of Democrats in Congress have been critical of Strauss on the ground that he has not pushed the peaceful power program hard enough.

Strauss opposed as not needed a Democratic-sponsored bill in the 104th Congress to undertake a \$400-million-dollar program to build demonstration plants.

### Terror Hits Haiti During Political Crisis

MIAMI, Fla. (AP) — Terror and confusion swept Haiti today as a boiling political crisis — which the present regime says has been aggravated by American government organizations — headed toward a showdown.

The country is virtually paralyzed by a silent but deadly weapon, a mass sitdown, the refusal of thousands of persons to work.

Its object is to force bull-headed Gen. Paul E. Magloire to step out of Port-au-Prince, the capital, and permit general elections for a new president.

It is cutting into the supplies of food from the countryside, closing stores, crippling transportation by starving gasoline stations.

The law courts have suspended telephone communications and are sketchy when they operate at all, and pistol-packing army officers are stationed in communications offices censoring all messages, press or personal.

Soldiers and sailors are patrolling the streets.

No Americans have been arrested so far as is known. But Paul Kennedy, correspondent of the New York Times, was hustled out of Haiti on six hours' notice without explanation.

I left Port-au-Prince last night after five days there.

The explosive situation hit a climax last week.

On Thursday, Magloire resigned as president. Under one interpretation of the constitution, his six-year term ended Dec. 6. The Haitian constitution does not permit a president to succeed himself.

Hours later, however, Magloire resumed office as "chief of state," presumably at the request of the army.

He then imprisoned the principal presidential candidates and about 49 others. He also dissolved the Senate and Legislature, and in effect suspended constitutional authority.

Magloire told this correspondent he was forced to take the measures. He said political leaders had caused a series of bombings and shootings during their campaigns, and created a situation that blocked all possibility of a legitimate general election.

One man was killed, a woman seriously injured, and a huge reservoir damaged, but not vitally, by bombs.

### 200 Refugees Are Brought To U. S.

McGUIRE AIR FORCE BASE, N. J. (AP) — Four military transport planes landed some 200 Hungarians here today.

The goal is to bring some 21,500 fugitives from Communist terror to America by New Year's.

The Military Air Transport Service started its inaugural flights from Munich, Germany, yesterday and will lift some 9,500 men, women and children across the Atlantic Ocean by the end of the year.

Fifty children landed today, the youngest being six-month-old Johanna Toth. U.S. Consul General Edward R. Page Jr. of Munich, shortly before the planes departed there, rushed up with suitcases bulging with rag dolls for the kids.

Of the 21,500 Hungarians to be granted asylum in the United States, more than 3,000 already have reached these shores in flights from Austria chartered by the International Council of European Migration. The organization plans to bring in another 3,000 before it winds up its part in the operation Dec. 23.

Five ICEM flights also were to arrive today with some 350 more refugees. Two of the chartered flights landed at Philadelphia shortly after midnight when visibility was poor here.

Also taking part in the program is the military sea transportation service. Three transport ships, ordinarily used to carry U.S. servicemen and their dependents to and from stations overseas, will leave Bremerhaven, Germany, starting next week. They will bring 1,725 refugees each.

The Air Force, in one of the biggest programs of its kind since the Berlin airlift, has scheduled 102 flights from Munich, 46 of them

In commercial airliners under contract. It expects to land 500 refugees a day when the lift gets into full operation.

Since no foreign military forces are permitted on Austrian soil under the Austrian peace treaty, the Air Force abandoned plans to fly the refugees directly from Vienna as the ICEM has been doing.

### Ex-AF Officer Record Cleared

WASHINGTON (AP) — The Air Force has decided to give an honorable discharge to Lt. Titus A. Saunders, a reserve officer who resigned amid disagreement over a 1954 conviction on a drunken driving charge.

When Saunders chose to resign Nov. 27, the Air Force said he would be given a general discharge. That connotes honorable conditions, but it is less desirable than an honorable discharge.

Secretary of the Air Force Quarles announced late yesterday that Saunders, a Negro, is being given an honorable discharge after study of his case by a discharge review board.

Saunders has said the Air Force was pressured by Sen. Stennis (D-Miss) to get rid of him — a contention disputed by Stennis and the Air Force. At his home in DeKalb, Miss., Stennis said he had no comment on the new action.

The Air Force has maintained it followed normal procedure in telling Saunders he had to resign or be dropped from the service because of his conviction on a drunken driving charge in Mississippi.

While he denies that he applied "pressure" to the Air Force to drop Saunders, Stennis said at the time of the Negro officer's resignation that he had written top Pentagon officials about the case.

He said he had called on them "to take action with reference to keeping an officer who was in default of his bond."

Stennis said he also had told defense and Air Force chiefs that the sworn record shows "excessive use of profanity" at the time of Saunders' arrest, in the presence of witnesses including a woman acquaintance of the senator. Stennis said he had asked what would be done about "this conduct unbecoming to an officer."

### HCJC Displays Local Paintings

Ten paintings by local artists will be on display for the next two weeks in the library of Howard County Junior College.

Paul Vagt, librarian, said that the paintings were those by members in the Las Artistas Club. Each has been on exhibit in out-of-town shows and has won no lower than honorable mention. Several have won first places.

A number of the scenes are local and of special interest.

Vagt urged the public to visit the library and to view these pictures during the time they are on special display.

**Cats Have Trouble Descending Trees**

By RAMON COFFMAN  
In all my years, I never had the opportunity to save another human being from death by risking my own life. If there was enough time, I would rather save an exhausted swimmer by rowing to him and stretching out an oar for him to grasp, than to dive into the water and try to take him to safety. Nevertheless, I know that I risked my life several times during my boyhood — without good reason, and without knowing how much risk I was taking. For example, I used to walk or run on the flat roof of an old, abandoned ice house. The roof might easily have broken under me, causing a fall of 40 feet. One time I did know a bit about the risk I was taking. A cat had climbed to the top of a telephone pole, and was perched up there, as if it feared to come down. I climbed the pole and rescued the animal. How high that pole was, I don't know, but it seemed mighty high that day! That little incident comes to my mind when I think of the fact that cats seldom climb poles, or the straight trunks of trees. They are able to go up, but it is a big task for them to get down. If we could make them understand, we might tell them to come down backward — that is, tail first.

A Persian cat (left) and a Chinchilla cat.

Q. What are the colors of the eyes of domestic cats?  
A. They differ widely. Some are green, others blue, hazel or brown. Now and then we find a cat with gray, yellow or orange eyes. In some breeds, it is fairly common for a cat to have two colors of eyes — say one blue eye and one yellow!

Q. How many kinds of cats are there?  
A. There are about two dozen "main" kinds. These include the Angora, Persian, Siamese, Manx and Maltese cats. We also have chinchilla cats and blue tortoiseshell cats. There are Burmese and Abyssinian cats, Mexican hairless cats and Russian blue cats.

Outlook For Cotton

Ralph White, left, president of the Howard County Farm Bureau, and Earl Sears look over charts which portray potential shares of the fiber market cotton may command in the next few years. It all depends on the extent of promotion and research undertaken by the cotton industry, said Sears, Southwest supervisor for the National Cotton Council.

FARMERS MEET

Cotton Research, Promotion Urged

The cotton surplus is increasing and production costs are rising, but acreage and profits are being reduced, a group of Howard County farmers and operators of businesses allied with the cotton industry heard here yesterday.

The answer to the dilemma the group was told, is expanded research and promotion.

Speakers were three representatives of the National Cotton Council who are holding a series of meetings with cotton producers of this area.

Earl Sears, Memphis, Tenn., Cotton Council supervisor for the Southwest, told the producers that the cotton market is apt to shrink even further unless research and promotion are expanded to improve cotton's competitive position in relation to other fibers.

Unless the present trend of other fibers increasing their share of the market is reversed, domestic and foreign cotton consumption will drop to 8 million bales by 1960 and to 7 million bales by 1965, Sears said.

On the other hand, he foresaw a market for 15 million bales by 1960 and 17 to 20 million bales by 1965.

if sufficient research and promotion is undertaken.

Sears, John Gregg of Lubbock and Dale Anderson of Durant, Okla., used slides and other visual aids to illustrate cotton's present and potential positions on the fiber market.

The situation, they stressed, calls for cotton "out-research, out-price and out-promote aggressive competitors."

Ralph White of Coahoma, president of the Howard County Farm Bureau, presided at the meeting.

Meter revenue for the past week was only about \$8 more than the previous week.

The city counted \$992.62 for the past week, and the total for the week ending Dec. 3 was \$984.71.

Of the latest total, \$563.30 was in nickels, \$437.62 was in pennies, and \$170 was in dimes.

In December of last year, the revenue topped \$1,000 for four straight weeks.

Clubs To Staff Downtown Yule 'Cheer' Posts

Several civic and service clubs have volunteered to man the Salvation Army kettles in an effort to step up the rate of flow for Christmas cheer for the needy.

Through Tuesday, the total contributions stood just above \$600. This, spread over applications from 200 families, wouldn't go very far.

Meantime, Capt. Dexter Breazeale of the Salvation Army urged response to mail appeals and for contributions dropped into the kettles and wishing well downtown.

So far the kettle contributions have totaled \$276.18, the response by mail \$319.50, a grand total of \$605.68.

On Friday the ABC Club will operate the kettles and on Saturday the Evening Lions Club will solicit the contributions downtown.

Kiwanians will operate the kettles on Monday and on Friday (Dec. 21) the Rotary Club will take over.

Downtown Lions Club members will be ringing the bells on Saturday (Dec. 22).

Among latest donors through the mail are J. E. Stokes, Sgt. Daugherty, Charles Eberley, E. T. O'Daniel, M. M. Fairchild, Merle Stewart, Louis B. Conrad, George Bobb, Helen Harkins, Dr. Q. D. Conkling, Mrs. Jack Ward, Essie Hubbell, Mr. and Mrs. W. I. Broadus, R. W. Thompson, T. E. Jordan, R. K. Burns, C. L. Rowe, Elaine Jones, Morgan Coates, Mrs. W. A. Hutchison, and Floyd McIntyre.

Farm Bureau Sets Membership Goal

Howard County Farm Bureau directors last night set their organization's membership goal at 650 for the end of 1957.

That will be an increase of 24 from the present membership. Directors are confident the goal can be reached. A year ago with 588 members, the organization set a 1956 objective of 600. The figure was exceeded by 26 members.

The annual Christmas party for directors and their wives was held in conjunction with the board meeting last night. About 30 persons were on hand for games, exchange of gifts, and refreshments.

Also attending the session was Ed Cumble of Bronte, district

representative for the Texas Farm Bureau Federation. R. V. Fryar, one of the directors, showed motion pictures taken at the State Farm Bureau convention in Houston recently.

Ralph White, Howard County president, announced committee appointments for the next year. They include:

Policy Execution — L. J. Davidson, Joe Hill and Frank Loveless. Service — Ellis Iden, Larry Shaw and Neil Fryar.

Publicity — Sue DeVaney, Joe Dunn and Jack Buchanan.

Hodges Rites Set At Lamesa

LAMESA — Funeral services for a 67-year-old retired Dawson County farmer, John Ward Hodges, are slated for the Higginbotham Funeral Chapel at 10 a.m. Thursday.

Conducting services for the 18-year resident of Lamesa will be W. T. Hamilton, minister of the Lamesa Church of Christ. Survivors include four daughters, Mrs. Hugh Gaines, Lamesa; Mrs. Cecil Treadway, Tulsa, Okla.; Mrs. Virginia Oliver and Mrs. Catherine Carter, both of Lynn, Massachusetts; four stepdaughters, Mrs. Lonnie Feaster, and Mrs. Eddie Stitz, both of Fort Sumner, N.M.; Mrs. T. G. Brown, Fort Worth; and Mrs. S. N. Lewis Jr., Roswell, N.M.; a sister, Mrs. Louis Barnard, Bakersfield, Calif.; three brothers, Menefee Hodges and Charlie Hodges, both of Mills County; and Will Hodges of Ballinger; seven grandchildren, 10 step-grandchildren and two step-great-grandchildren.

A native of Mills County, Mr. Hodges passed away Tuesday morning in Sloan Clinic at Lubbock.

Dawson Airport To Get Beacon From Childress

LAMESA — Dawson County Judge Aubrey Boswell reported Tuesday that the Civil Aeronautics Authority has given the County and the City of Lamesa the warning beacon and tower at the former Childress Army Flying School at Childress. The municipalities will have to stand the cost of dismantling and moving them to Lamesa.

The Commissioners Court Monday approved purchase of the site for the new airport from Raymond Orson. The action gave Judge Boswell authority to go ahead with the purchase plans when the city and county receive official notification of approval of the "master plan" from the CAA. The Lamesa City Council approved the purchase last week at their regular meeting.

Howard County cotton growers went along Tuesday with their colleagues all over the state in voting top-heavy approval for a plan to keep cotton under government control next year.

Only 167 cotton growers voted in Tuesday's election out of possible 1,200 eligible to have balloted. Eighty-seven per cent of the 167 voted for the controls.

Official vote as recorded by the ASC office showed 167 votes for the controls and 21 against.

Community A voted 24 for and 8 against; Community B voted 30 for and 5 against; Community C 34 for and 4 against; Community D 37 for and 4 against and Community E 21 for and 2 against.

Richardson, 1311 Johnson; H. H. Stevens, 608 W. 18th; Roy Wadley, 1017 Bluebonnet; Virginia White, 810 NW 4th; Jeff Brown, 2202 Main; Jackie McCowan City; Paul Douglass Nall, Ellis Homes.

Oil Firms Asked To Aid Shortage

WASHINGTON (AP)—The government formally asked 15 U. S. oil firms yesterday to pool their resources, reroute tanker fleets and swap markets in an effort to relieve petroleum shortages in Western Europe.

The aim is to replace some of the Middle Eastern oil lost to Europe through the blocking of the Suez Canal and thus save off suffering, unemployment and perhaps depression.

Cotton Controls Favored Here

Howard County cotton growers went along Tuesday with their colleagues all over the state in voting top-heavy approval for a plan to keep cotton under government control next year.

Only 167 cotton growers voted in Tuesday's election out of possible 1,200 eligible to have balloted. Eighty-seven per cent of the 167 voted for the controls.

Official vote as recorded by the ASC office showed 167 votes for the controls and 21 against.

Community A voted 24 for and 8 against; Community B voted 30 for and 5 against; Community C 34 for and 4 against; Community D 37 for and 4 against and Community E 21 for and 2 against.

Firemen answered a call on the Northside Tuesday, but no damage resulted. It was at 626 NW 4th, the residence of Telesforo Tintero. The fire started while residents were installing a gas stove

MARKETS

WALL STREET — New York again went to the fore today as the rest of the stock market was irregularly higher in fairly active early trading.

Gains in aircraft shares went from fractions to beyond a point. Other key stocks showed advances and declines within a 2-point range.

The opening was active then turned fell off considerably.

Following news that Bethlehem Steel and Youngstown planned to go ahead with their merger despite some stockholder opposition, an item made public after yesterday's close, Bethlehem was up 2 1/2 to 18 1/2 on an opening bid of 2,300 shares, but later slipped its bid to around 2,200.

Youngstown dropped to 12 1/2 on a bid of 2,300 shares but in subsequent trading erased the loss and advanced a major fraction.

Boeing and Chance Vought gained more than a point. United Aircraft and Glenn L. Martin were all ahead fractions to around a point.

Allied Chemical was up around 2. Small gains were made by E. I. du Pont, Amoco, General Electric and American Cyanamid.

Small losses were taken by Du Pont, Gulf Oil, New York Central, Leona's, General Motors and Consolidated Natural Gas.

LIVESTOCK — PORT WORTH (AP) — Cattle 2,000 calves 600, ready to wean good choice steers and yearlings 15,000 to 16,000, good and medium 9,000 to 10,000, some heavyweights to 18,000 and above, common and medium 10,000 to 14,000, culls 8,000 to 10,000, stocker steers calves, 12,000 to 17,000, stocker yearlings, 12,000 to 17,000, head, ready choice butchers 14,000 to 15,000, sheep 2,500, wools to 100 lower, good choice slaughter lambs 15,000 to 16,000, heavy lambs 16,75, cull to medium jumbo 9,000 to 10,000, stocker and feeder lambs 14,000 to 16,000, slaughter ewes 5,000 to 6,000.

COTTON — NEW YORK (AP) — Noon cotton prices were 5 cents a bale lower to 45 cents higher than the previous close. Dec. 31, 34 1/2, March 33 1/2 and May 33 1/2.

Gas-Cut, Oily Mud Recovered On Test Of Garrett Wildcat

Operator garnered only gas cut, slightly oily, mud from a drillstem test at the Cosden Petroleum No. 1 Garrett wildcat north of Big Spring Tuesday on a drillstem test.

The test ran for three hours between 6,505-66 feet, and 1,000 feet of gas cut slightly oily mud was recovered. Operator is trying for Spraberry production at the site about seven miles north of Big Spring.

Tidewater Oil and Cities Service have each staked two new locations in the Welch field. The Tidewater ventures are the Nos. 4 and 5 O. C. Richards. Cities Service staked the Nos. 11-B and 12-B Dupree.

Borden Standard No. 16-6-B Griffin reached 2,616 feet in lime. The wildcat is 1,620 feet from north and 1,120 feet from east lines, 39-25, H&TC Survey.

Phillips No. 1-B Clayton flowed for 12 hours through a quarter-inch choke and made 50 barrels of load oil. In 10 hours it made 88 barrels of load and 20 barrels of salt water. It is still swabbing. Location is C NW SE, 17-32-4n, T&P Survey.

Continental No. 1 Johnson, 16 miles north of Vealmoor, set 13 1/2-inch casing at 340 feet and is now waiting on cement to 350. Location is C SW SW, 31-32-5p, T&P Survey.

Texas No. 4-A-NCT-3 Miller flowed 369.36 barrels of oil on a 24-hour test. The well is in the Jo-Mill field 990 feet from south and east lines, 12-33-4n, T&P Survey. It is plugged back to 7,535 feet from 7,607, and top of the Spraberry pay zone is 7,066 feet. Perforations are between 7,066-176 feet. Gravity is .39 degrees, and gas-oil ratio is 640-1.

Dawson Skelly No. 1 Freeman drilled to 4,303 feet in lime. It is a wildcat 2,118 feet from south and 660 feet from east lines, Labor 11, League 275, Glasscock CSL Survey.

Humble No. 1 Stewart cored below 7,375 feet in shale. It is located 550 feet from north and east lines, 5-33-4n, T&P Survey, in the Jo-Mill field.

Humble No. 2 Lane was bottomed at 7,605 and pulling rods. Drill-

site is 3,100 feet from north and 1,800 feet from west lines, 45-33-5n, T&P Survey.

Humble No. 1 Hemphill deepened and prepared to drillstem test after taking a core from 7,757-808 feet. It recovered 20 feet of hard gray laminated sand with no shows of oil and scattered streaks of shale. It is C NE NE, Labor 31, League 3, Taylor CSL Survey.

Cox No. 1 Love, in the Spraberry West Deep field, pumped 141.5 barrels of oil, plus 50 per cent water, on a final test. Gravity is .32 degrees. Gas-oil ratio is 955-1. Total depth is 4,450 feet, and top of the pay zone is 4,273 feet. Perforations are between 4,287-98 and 4,514-24 feet. The well is C NW NW, 38-34-5n, T&P Survey.

In the same field, Scaboard No. 8 Petteway, is located 2,113 feet from south and 2,965 feet from west lines, 40-34-5n, T&P Survey. It is staked 15 miles southeast of Lamesa and will drill to 7,700 feet.

Tidewater No. 4 Richards is a new Welch field site 560 feet from north and 660 feet from west lines of the south half, 16-C38, PSL Survey, and two miles west of Welch. It will project to 4,950 feet.

Tidewater No. 5 Richards is staked 660 feet from north and west lines of the southeast quarter, 16-C38, PSL Survey. It too will explore to 4,950 feet.

Cities Service No. 11-B Dupree is in the Welch field two and a half miles southwest of Welch. Drill site is 660 feet from north and east lines of the southwest quarter, 69-M, EL&RR Survey. Drilling depth is 3,100 feet.

Cities Service No. 12-B Dupree is 660 feet from south and east lines of the northwest quarter, 69-M, EL&RR Survey, on a 400-acre tract. It will project to 3,100 feet.

Howard Cosden No. 1 Garrett drilled to 6,580 feet in lime after taking a drillstem test from 6,505-66 feet. Open three hours, operator re-

covered 1,000 feet of gas cut, slightly oily mud. Shutin pressure for an unreported time was 1,250. The location is 1,980 feet from south and 2,010 feet from east lines, 48-33-2n, T&P Survey.

Williamson et al No. 1 Anderson deepened to 8,355 feet in shale and lime. The venture is C SE NE, 24-32-1n, T&P Survey, eight miles northeast of Big Spring in the Big Spring field.

Fleming - Fleming - Kimbell No. 31 Dodge Estate is a new location in the Iatan East Howard field about six miles south of Coahoma. Drill site is 330 feet from south and 990 feet from east lines of the north half of the southwest quarter, 15-30-1s, T&P Survey. It will deepen to 3,200 feet.

Texas American No. 2 Percy Jones, in the Iatan field, pumped 18 barrels of oil, plus 10 per cent water, in 24 hours on potential. Gravity is .28 degrees. Total depth is 2,900 feet, and top of the pay zone is 2,857 feet. The well is C NW NW NW, 13-30-1s, T&P Survey.

Continental No. 8-B Settles, in the Howard-Glasscock pool, pumped 10 barrels of oil on potential, plus 91 per cent water. The oil is .31 degrees. Drilled-out depth is 2,838 feet, and top of the pay zone is 2,070 feet. Perforations are between 2,369-421 feet. It is C NW NW, 160-29, W&NW Survey.

Mitchell Shell No. 1 Barber is bottomed at 3,192 feet and taking a straddle-packer test between 4,124-79 feet. The wildcat is C SE NW, 18-28-1s, T&P Survey.

Blake No. 1 Badgett, in the Sharon Ridge 1700 field, pumped 12.2 barrels of 28-degree oil, in 24 hours. It is C NE NE NE, 81-97, H&TC Survey. Total depth is 1,766 feet, and top of pay zone is 1,740 feet.

Col-Tex No. 5 O. T. Bird is located in the Westbrook field, 660 feet from north and 330 feet from east lines of the southwest quarter, 40-28-1n, T&P Survey, and two miles northwest of Westbrook. Rotary tools will carry to 3,300 feet.

Hamilton - Jordan - Blackwell No. 4 Leslie Hamilton is 990 feet from north and 1,320 feet from east lines, 9-27, T&P Survey, in the Sharon Ridge pool. It is about nine miles northwest of Colorado City and will project to 1,600 feet.

### Cross Says Fear Caused George Death

(Continued from Page 1)

house. Cross said he did not want to roll dice but George, the witness testified, insisted and in the end, George was loser. This, Cross said, angered the customer.

Later, George demanded that Cross roll high dice for what money the former had left. Cross refused. He said George began "cussing" him and begging him to come outside the place and fight.

Earlier in the day, Raymond Peterson, a customer, who testified he left the place just a few seconds before the shooting occurred, had told the court that Cross had shot dice with George for the money.

Cross denied that this happened.

Cross told of how he and Frances Williams began preparing to close up for the night and how George continued his abuse. Cross said he was checking the cash register. The pistol had been pulled out from behind the register in removing the change bag.

George came to the counter in front of the cash register, Cross testified. He quoted the dead man as saying "Hell, we might as well get this over with now." With that, Cross said the man began clambering over the bar toward him.

"I grabbed up the gun and shot," he said. He did not know, he related, how many times he shot. Medical testimony had shown earlier that George was struck by three bullets, one in the lower chest causing his death.

Jones hammered at the defendant on why he chose to use a gun when he had other less lethal weapons at hand — beer bottles, telephone, napkin holder and other devices. Cross said he would have to risk what to him seemed a dangerous delay to do such a thing.

Dr. Roscoe Cowper, Big Spring physician was the first defense witness after the noon recess Tuesday. He was also the final state witness.

Dr. Cowper was called primarily to tell the jury of the wounds found on the body of George. X-ray plates were used to show the course of the bullets.

On cross examination, George Thomas asked Cowper if George was conscious at any time after reaching the hospital. The witness said that he was. He testified that the dying man identified himself. "Did he say anything else?" Cowper was asked.

"He said something about being sorry for what had happened," the doctor answered.

The court instructed the jury to disregard certain testimony by Mrs. H. E. George relative to the fact that her husband worked the day the shooting occurred; her statement on his state of mind and any answers she might have given to whether or not he owned a knife. The court also told the jury to disregard all testimony given by Bobby West, district attorney investigator, regarding a search the investigator made of a blue sedan at the scene, and in

which he said he found no weapons.

It was at this time that Jones made his surprise announcement that the state rested. The hour was 2:55 p.m.

On resumption of the trial Frances Williams, waitress in the tavern the night of the shooting, was called as the first witness for the defense. Her examination and the long grueling cross-examination to which she was submitted by Jones continued throughout the afternoon.

Frances told the defense version of what happened at the drive-in. She related that on the night of Oct. 2, she and another waitress were at work in the tavern. Cross was present but she said he was in the kitchen most of the evening, working on books of the establishment. Business was booming, she asserted, and there were numerous people in the place.

Sometime around 11 p.m., Frances told the jury, Cross came out of the kitchen and passed the booth where George was sitting. The latter asked the proprietor to roll dice for drinks for the house. This was done and the customer lost.

According to Frances, this made George "mad." For the balance of the evening, she related, he grumbled. He wanted Cross to roll high dice for the rest of the cash George had. Cross refused. Frances said that George began calling Cross obscene names and wanting him to "come outside." Cross, she said, ignored him.

Late in the evening, she related, when all but Cross, George and herself had left, she went to the cash register to get ready to close for the night. The change bag, she testified was kept back of the cash register. Reaching back to get the bag, it snagged, she related, on the 25-caliber pistol which also was kept back of the register. In pulling the bag out, she pulled the gun

out on the counter. She left it there beside the register.

Cross came to the register to put the change in the bag and count up the day's receipts. George approached, continuing his argument, she said. Cross, the witness related, continued to ignore him.

Then she said George said "Hell, we might as well settle this."

"He reached across the bar and started coming over the top toward us," she testified.

"That was when Cross grabbed up the pistol and began shooting," she said. The shots were so close together that she did not know how many were fired. George spun half around and fell. She called the ambulance and the officers.

Jones, on cross examination, accused the witness of hiding out after the shooting to keep him from talking to her and added that she had changed her story in many material ways from the story she had first told him and the testimony she gave before the grand jury.

Jones asked her "Didn't you hide out where I couldn't find you because George Thomas told you not to tell the district attorney anything?"

She said she hadn't hidden out.

### Power Demand Back To Normal

Consumption dropped back into a rather normal pattern for Cap Rock Electric Cooperative during November.

With completion of the irrigation season, KWH of power purchased dropped to 1,520,760 as compared with 1,378,990 in the same month a year ago. KWH sold reached 1,370,837 as compared with 1,109,340 for November of 1955.

The KWH purchased for the year now stands at 42,415,420, by far a new record. KWH sold aggregated 36,252,896, far above the 26,079,685 for all of 1955, the previous record year.

At the end of November there were 1,891 miles of line energized, a gain of 81 for the year. There were 3,463 members connected, an increase of 198 for the year. Density of members per mile gained one point in reaching 1.83 at the end of November. Average KWH consumption by customers was 396, which was considerably below the 473 average in the previous month.

### Ray Johnson Rites Are Held At Dallas

Edgar Johnson and daughter, Mrs. Alvin Smith, have returned from Dallas where they attended the funeral of his brother, Ray Johnson.

Mr. Ray Johnson had visited in Big Spring on numerous occasions and was well known to a number of people here. Since 1929 he had followed his trade as a barber in Dallas.

### Describes Trip

Dr. P. D. O'Brien, First Baptist minister, discussed the two weeks he recently spent in Alaska on an evangelistic program Tuesday at the luncheon of the Rotary Club. He said he made the trip as a "visiting missionary" for the Baptist denomination. Guests at the luncheon were R. R. McEwen, former Big Spring mayor living in LaJolla, Calif., and Benton Howell of Midland.

### Police At Lamesa Also 'Commended'

The same man who sent a Christmas card to the Big Spring police department from Long Branch, N. J., dispatched one to the Lamesa department this week.

The man sent Lamesa practically the same note as was written in a card here. He said that the Lamesa department treated him with kindness when in Lamesa in 1933 and he wanted to show his appreciation to them. He was picked up by the police department here the same year — probably at the same time.

The late Doc Howell was Lamesa city marshal at the time.

### Mitchell Favors Cotton Controls

COLORADO CITY — Mitchell County farmers voted overwhelmingly for government controls on the growing and selling of cotton, in the annual election held Tuesday at Lorraine, Westbrook and Colorado City.

Mike Custer, ASC manager, reported 181 votes for controls, 21 against. Custer says that each cotton grower and his wife in the county was eligible to vote and estimated the total number of eligibles at about 1,200.

### Party At Lamesa

LAMESA — Mr. and Mrs. Jake Lippard were the hosts to a Christmas party Monday evening for employees of the C. R. Anthony Store following dinner at Turner's Club. He said he made the trip as a "visiting missionary" for the Baptist denomination. Guests at the luncheon were R. R. McEwen, former Big Spring mayor living in LaJolla, Calif., and Benton Howell of Midland.

### Shooting Suspects To Be Brought Here From Snyder

Police officials are in Snyder today to pick up three suspects in the James Puga shooting.

Puga was shot in the stomach on Dec. 2 on the Northside. Witnesses said that the shot was fired from a pickup. Since that time, city police have been searching for a pickup fitting the description given.

At different times, residents of Glasscock County and Snyder have been suspected.

Chief C. L. Rogers and Detective Jack Shaffer went to Snyder this morning armed with warrants for the three men and plan to bring them here this afternoon for additional questioning.

Puga was shot with a .38 caliber pistol. The police department is also

holding a man for questioning in connection with recent Northside burglaries. He has denied being involved, but police report they have witnesses to the crime.

### Rites Set For Wreck Victim

LAMESA — Funeral services are scheduled for 3 p.m. Thursday at the Foursquare Gospel Church in Lamesa for Mrs. Sarah Lee Crumley, 51-year-old Lamesa woman killed Monday night in a car-pickup collision six miles east of Gall.

Conducting funeral services for the 20-year resident of Dawson County will be the Rev. Cecil M. Vest, pastor.

Mrs. Crumley was pronounced dead on arrival at Cogdell Memorial Hospital in Snyder after the car she was driving and a pickup truck driven by Walter McGee, 42, Colorado City, collided about 10:30 p.m. Monday. McGee was described as in fair condition Tuesday afternoon at the Snyder Hospital, as was Mrs. Audrey Reece, 58, of Plains, a passenger in the Crumley auto.

### Sale Of Christmas Seals Opens Today In Dawson Schools

LAMESA — School sales of Christmas Seals began today in all schools in Dawson County, according to C. E. Green, chairman of the school division of the current Christmas Seal sale.

Mrs. L. E. Petty, chairman of the mail sale, reported Tuesday that \$1,475.50 had been sent to the TB Association for Christmas Seals this year. In addition, street sales Saturday netted \$36.38. Mrs. J. P. White, chairman of the booths and street sales division, said that three Girl Scout troops will be working next Saturday.

Additional letters are to go out to Dawson Counties tomorrow as the Association strives to meet the goal of \$2,000 set earlier.

At NCO Dance

Raymond L. Tollett, center, stands with some of his guests at the dance he and Mrs. Tollett sponsored for Webb non-commissioned officers and their wives at the base Monday night. Henry King and his orchestra provided the music and free refreshments were served. Airmen closed the dance as the crowning event of their 1956 social calendar. With Tollett, left to right, are Mrs. Dewey Magee, T-Sgt. Odie Kiefer, Mrs. Dixie Johnson and Airman Nick Trapassas.

**Egyptian Underground Reports  
Kidnaped Lieutenant Was Slain**

PORT SAID, Egypt (AP)—The Egyptian underground says it kidnaped and killed a young British lieutenant.  
The report was brought to British headquarters last night in the face of British insistence that the lieutenant be returned quickly—and alive.  
The British-French occupation command awaited firmer evidence before conceding the officer had been killed. But British Lt. Gen. Sir Hugh Stockwell, the occupation chief, let it be understood that some action would follow if the officer was not given up alive.  
The kidnaping was the latest of a string of actions by the underground to harass the rapidly diminishing British and French forces in the process of withdrawing from Egypt at the demand of the U.N. General Assembly.  
Lt. A. G. Moorehouse, leader of a patrol that captured seven Egyptian commandos Monday night hiding in a dentist's apartment, stopped his jeep in the same street yesterday morning to talk to a man.  
An Arab boy said he saw three men force the British officer into a taxi at the point of the lieutenant's own gun.  
The car was found later—its interior bloodstained. A gag and rope were inside.  
A thorough search of Port Said brought no sign of the missing lieutenant. At dusk an Egyptian civilian brought word from the underground that the officer had been slain. Stockwell said Port Said had been sealed off and the Egyptians could not get the Briton or his body out of town.  
The kidnaping followed the seizure last weekend of a large cache of explosives and ammunition being smuggled into Port Said. An attempted ambush of a British patrol and the appearance of scrawled signs throughout the city warning the British that "Port Said is your graveyard."  
Egyptian authorities disclaimed responsibility for the incidents. Informants said they were the work of members of the fanatic Moslem Brotherhood in Port Said. They said the secret terror organization, outlawed by the government two years ago, was attempting to embarrass President Nasser.

**Polar Crews  
Out Of Gas**

By DON GUY  
McMURDO SOUND, Antarctica (AP)—Operation Deep Freeze is running out of gas, and 75 U.S. Air Force crewmen are grinning about it.  
Instead of a white Christmas in Antarctica, they will fly to sunny New Zealand to fill the tanks of their mammoth 90-ton C124 Globemasters. There won't be many Christmas trees, but—with summer just starting in that country—they can bask on the beach for a day or two.  
The steady depletion of the big tanks at McMurdo Sound will not seriously hamper the job of building scientific stations for study of this icebound continent during the International Geophysical Year.  
A tanker carrying 600,000 gallons is en route here from New Zealand, following the U.S. icebreaker Glacier through the Antarctic ice pack.  
Meanwhile, the Air Force has decided to service its five Globemasters at Christchurch, New Zealand. That will give the crews a brief respite from the antarctic's perpetual snow and cold.  
The Globemasters have been shuttling to the South Pole, 800 miles from here, to airdrop building material for a U.S. base. Each trip consumes 6,000 gallons of gasoline.

**W. Reich Warns  
Of Revolt Danger**

PARIS (AP)—West Germany warned the North Atlantic Council today there is grave danger of East Germany following Hungary into rebellion against Moscow's domination—and NATO had better decide what to do if the revolt comes.  
West German Foreign Minister Heinrich von Brentano sought the advice of the other 14 NATO partners as the foreign, defense and finance ministers of the alliance met for the second day of their annual session.  
Von Brentano put this problem before the Allies.  
Any revolt in East Germany would generate strong pressure among the West German public to rush some form of aid rather than stand by and see the lives of other Germans snuffed out.  
Chancellor Konrad Adenauer's government would resist involvement for fear of inviting retaliation from the Russian army just across the East-West border. The Bonn regime already has spread official word to the East Germans to avoid active resistance to the Communist regime of Premier Otto Grotewohl.  
The West German government obviously fears it would be unable to restrain some West German elements from crossing the border to aid the Germans to the East, and this would provoke retaliations "from the Russians."

**Prosecution Nears Close In  
Beating Trial; No Identification**

BUSHNELL, Fla. (AP)—The prosecution phase of the Jesse Woods case approached an end today without any of the seven white defendants being named a flogger.  
Woods, 39-year-old Negro, was taken from the nearby Wildwood city jail and flogged Oct. 28. The Negro had been arrested on charges of drunkenness and disorderly conduct and police said he said "Hello there, baby" to a white schoolteacher.  
In testimony from 13 state witnesses five of the seven men have been identified as being at the jail when Woods was removed or at the flogging scene east of Wildwood.  
One witness, Ronald Spurling, 17, of Wildwood, testified yesterday that he saw two of the defendants. Ezekiel Alderman of Wildwood and Robert Nesmith of Bellevue, lead Woods to Nesmith's car parked near the crackerbox Wildwood jail.  
Other witnesses testified they saw groups of men estimated to be up to 50 at the jail and up to 30 at the flogging site. Six state witnesses said they saw Woods lying face down and being whacked by belts or being struck by fists but they did not know who dealt the blows.  
Woods himself has testified he was beaten across the shoulders by both ends of a belt, struck by fists and kicked while he lay in the bottom of a car en route to the flogging spot.  
On trial in Sumter County Circuit Court on charges of false imprisonment and aggravated assault are Alderman; Nesmith; George Altman and Max Stumborg, both of Wildwood; Leaman Lundy of Bellevue; Doyle Polk of Marion County; and Keith Sands of Jacksonville.  
All except Polk and Lundy have been named by witnesses as being at the lakeside clearing where Woods was beaten.

**Officers Continue Quiz Of  
'Rotten' Confessed Killer**

OAKLAND, Calif. (AP)—Alameda County sheriff's officers today renewed their questioning of toothless Stephen Nash, self-styled "rotten, cold-hearted" killer.  
Yesterday he told authorities they "hadn't scratched the surface" in investigating five killings he had confessed . . . and promptly confessed six more.  
He said four of the six killings were in Los Angeles, one here and one in Sacramento, Calif.  
Today's search will try to locate the lake in which Nash said he dumped the body of a Mexican boy. He said the youth tried to rob him.  
"We don't know whether to believe him or not," said Sheriff's Capt. Frank Madigan, "but we know he's killed five. I don't know why it might not be eleven."  
Nash said, "I had my sights set on 16."  
The ex-convict was arrested in Los Angeles last week after the fiendish slaying of two boys there. He was indicted for those killings of Larry Rise, 10, and John William Berg, 27, and also for the killing of Robert T. Eche, 21, in San Francisco.  
Monday, in San Francisco, after leading officers to the place one of his victims was dumped in the bay, Nash proclaimed, "I hate people. I'm as rotten as they make them."  
San Francisco Police Lt. Al Nelder said "he's completely animalistic and callous."

### Dog Ordinance Gets Approval, Cat Law Asked

Big Spring will soon have a new dog ordinance.

The city commission, meeting Tuesday, approved the new ordinance and had the first of three readings which are necessary to validate it.

The regulation will take effect about Feb. 1, since it must be published after the final reading to be valid. No meeting is scheduled for the remainder of the month, since the regular session is Dec. 25, so the two meetings in January will be necessary for the readings.

The new ordinance tightens the city's control over dogs, has provisions for a pound and food fee, and gives the city power to hold a dog suspected of rabies if the owner does not agree to do so.

By sections, the ordinance provides:

1. That a license must be purchased from the city tax collector for \$1 per year, Jan. 1 to Jan. 1.
2. That each dog must be vaccinated before it can be registered:

**"DOG TAGS"**

3. That the city will give a metal tag with registration for identification purposes.
4. That lost tags can be replaced for 25 cents by applying at the tax collector's office.
5. That it is unlawful to keep a dog in the city limits without a tag and one that has not been vaccinated.
6. That it is "unlawful for the owner or keeper of any dog within the limits of the city . . . to permit such dog to run at large . . . whether the dog has been vaccinated or has a tag," except where the owner keeps the dog in his sight and control; and that persons permitting their dogs to run loose are guilty of a misdemeanor, with the penalty for this being a fine up to \$100.

7. That a dog catcher be assigned and his duty is to impound dogs, destroy them, and perform other related duties.
8. That the dog catcher shall make monthly reports for the city manager.
9. That a pound fee of \$1 shall be charged for redeeming any dog impounded and also a charge of 50 cents per day or part of a day that the dog is in the pound.
10. That the owner of any dog can redeem it within 72 hours by showing that it has been registered and vaccinated and by paying the pound fees.

**NOTIFICATION**

11. That any dog left in the pound over 72 hours will be destroyed—providing that any dog with a tag will not be killed until 72 hours after the owner has been notified by certified or registered mail—and also that anyone can claim a dog during this period by paying the registration and vaccination fees.
12. That it is unlawful to permit a vicious dog around any "public house, public place, street, or alley in the city . . ."
13. That if a person is bitten by a dog, that animal must be kept penned for a minimum of 10 days, or if the owner does not agree to this, that the police department has power to impound it and keep it the same length of time, and the dog will then be released to the owner only after payment of the fees.

14. The saving clause; and
15. That anyone violating that ordinance is liable for \$100 fine if found guilty of the misdemeanor.

**GAS CHAMBER**

The city plans to destroy the dogs by a method approved by the American Humane Society, which is by carbon monoxide.

At the present time, the city has the dogs destroyed by means of an injection. This work is done by Dr. H. F. Schwarzenbach. He also keeps the impounded dogs for the city.

When the ordinance takes effect, however, the city will have kennels at the city warehouse and handle them there. Six pens would be made and each day's catch would be placed in a separate cage. This would enable the city to keep an animal the correct length of time.

The extermination pen will be constructed at the city warehouse also.

The ordinance has no reference to cats, and the city commission authorized H. W. Whitney, city manager, to prepare a cat ordinance by the next meeting.

The commission said that reason for enactment of the dog ordinance was to better combat rabies, and veterinarians reported that cats cause as much trouble as dogs.

### Winter Weather In Northern Areas

By The Associated Press

Midwinter weather hit northern Midwest areas today as a huge mass of cold air covered sections from Washington state through the Great Lakes region and southward through northwestern Texas.

The biggest temperature drops, as the arctic air moved southeastward from the Northern Plains, were from the Dakotas through Minnesota and Wisconsin.

Readings in the icy areas averaged about 40 degrees lower than 24 hours earlier. They were near 15 degrees below zero near the Canadian border and ranged to about 10 degrees in South Dakota and southern parts of Minnesota and Wisconsin.

The frigid air, moving eastward, was expected to reach into central and northern Atlantic Coast states during the day.

Watches Her Skin

Skin care tops Angie Dickinson's beauty routine. An actress frequently seen on "Lineup" and other CBS-TV shows, Angie tells how she takes care of her complexion in today's Hollywood beauty.

HOLLYWOOD BEAUTY

Starlet Puts Stress On Good Complexion

By LYDIA LANE
HOLLYWOOD BEAUTY Because Angie Dickinson's father owned a newspaper she thought she wanted to be a writer but when she won a beauty contest with a trip to Hollywood and a small part in a picture she changed her mind.
"I was mystified at the way I looked on the screen," Angie told me at CBS-TV where she was rehearsing a "Lineup" show. "It is quite a shock to sit in a room and see your face fill up a screen. I decided right away that I would look better with lighter hair so I bleached mine for several parts but as you see I have it natural again."
Angie believes that where there's a will there's a way. "Competition is so keen in Hollywood it was difficult to support myself as an actress. But I found a job as a secretary with a wonderful boss who agreed to let me work at night on the days I had a TV part.
I asked Angie her favorite beauty routine.
"On the top of my list is the care of my skin. I think a good complexion means so much to your appearance I have tried many many products to find the right one for removing make-up. I've seen too many skins ruined by careless cleansing. I prefer a fluid to a cream but regardless of what I use I always check my face with an astringent to be sure my pores are not clogged.
"I don't believe in going to bed with creams on. The preparations they make today are quick acting and it seems to me that you can get all the good out of them in ten or fifteen minutes, so why cover your pores all night?
"I make good use of a magnifying

Officers' Wives To Give Holiday Dance

A formal Christmas dance will be held Saturday from 9 p.m. to 1 a.m. at the Officers' Club at Webb AFB. The dance is being sponsored by the Officers' Wives' Club.

Mr. and Mrs. W. O. Washington have returned from Austin where they attended the funeral of his brother, M. F. McClure. Mr. McClure had been in ill health for several months.

IN RED CHINA

# Russian Influence Seen Everywhere

Editor's note — This is another in a series of stories on life in Communist China as observed by Canadian reporter David Lancashire during a 500-mile tour.

By DAVID LANCASHIRE  
PEIPING (AP)—The influence of Soviet Russia is evident in every aspect of Red China's development. This is seen everywhere—from the posters on the walls to trademarks on machinery. But while there are plenty of Russians in China, they do not mingle socially with the ordinary Chinese. China has leaned heavily on the Soviet Union in her expansion program.

"We have followed Russia and patterned ourselves after her, but we have not followed her blindly," said a Foreign Office official. "We have adapted and molded the Soviet system to meet our own needs; but we have also made note of her mistakes and tried to avoid them."

China's first motor vehicles, the big four-ton trucks from the assembly lines at Changchun in the Northeast, were designed in the Soviet Union and put together with Russian machinery. The still-secret jet planes from the Russian-built and closely guarded factory at Wuchang on the Yangtze are being produced under Soviet supervision. They're close copies of Russian aircraft. Almost every factory manager in the Northeast prefaces his explanations with the approved phrase: "Thanks to the selfless generosity of the Soviet Union..."

But as a slight illustration of the Chinese determination to follow their own path, the qualifying words are added: "And under the correct leadership of Chairman Mao and the Communist party..."

The hotels, or "guest houses," in all the industrial centers are packed with Russian engineers and technicians. They are supervising factory construction or installation of machinery, or instructing Chinese workers.

In many plants the Soviet instruction has been completed and the Russians have moved out. Many of China's top technicians have been trained in schools in Russia. Peiping maintains an advisory board of Russian technology experts as trouble-shooters and inspectors for the Northeastern factories.

In south central China, where the first bridge across the Yangtze River is being built at Wuhan,

First Yangtze Bridge

While Chinese junks go about their business in the Yangtze, work proceeds on the first bridge spanning the river, at Wuhan, in south central China. Construction of the 25-million-dollar bridge, which was designed in Russia, is being supervised by 20 top Soviet engineers. This is one of a series of pictures by David Lancashire, who spent six weeks traveling in Red China.

20 top Soviet engineers are supervising the project, which was designed in Russia. A-third of the steel for the 25-million-dollar bridge is being imported from Russia.

The Russians, in their sloppy bell-bottom pants, deadpan expressions and carrying bulging briefcases, can be seen on the streets of any city here, either walking with their families or speeding past in black limousines with the window curtains drawn.

This advisory invasion has brought embarrassing and uncomfortable results for other foreign visitors to China.

In railway stations, schools or even on the street, the foreigner is often jolted by groups of passers-by who form a ring and burst into applause. No matter what the visitor's nationality, he is inevitably taken to be a Russian, and the hand claps follow him wherever he goes.

But Ivan himself moves almost furtively. In factory towns and major cities, the permanent Russian resident lives in his own quarters, separate from the Chinese. There is no Sino-Soviet social life at all except at an official level.

The Russian sees only the eager Chinese who gather around his machine to learn technique, and he is constantly accompanied by one or more interpreters. Aside from them he has few or no Chinese acquaintances. He has strict traveling papers. When his job is done and the technique passed on he leaves.

In Peiping, the semipermanent Soviet residents are assigned to separate hotels from other foreigners or the casual Russian visitors.

School textbooks are Russian-slanted, and students from 7 years old on get a thorough grounding in Russian revolutionary history. Next: A visit to a primary school.

## Matador In Arms Family

BALTIMORE (AP)—The Air Force said today its pilotless bomber, the Matador, is no longer an experimental article. It is now, as much a part of the armed forces as a tank or a gun.

The Air Force's Air Research and Development Command said the final test flight of the Matador missile was made last Nov. 30 at its missile test center at Patrick Air Force Base, Fla. It passed with flying colors.

The ARDC called it "a reliable missile—the Air Force's first completely tactical missile."

The Matador, developed and built by the Glenn L. Martin Co., has been in the testing stage since 1949, when several experimental missiles were tried out at Holloman Air Development Center, N.M.

It is launched by rocket power

from a portable platform barely as long as its own body, and narrower than its own wing span. It is hurled into the air by a booster rocket. After the booster's fuel is expended, the booster drops off, and it continues on its own motors. The missile looks much like a sleek jet fighter. It has a wing span of 22.7 feet and a length of 39.6 feet. It can be equipped with various types of highly destructive warheads. It flies at fighter plane speed and cracks the sound barrier when diving on its target.

PHOENIX, Ariz. (AP)—Six-year-old Michael Sullivan will have a problem on his hands — and arms — when he tries to cut his birthday cake. Mike broke his left arm Oct. 20. On Sunday, Mike fell off a low fence bordering his yard. He broke his right arm.

## What's it Got that Everyone's After?

WE figured folks would go for the '57 Buick—and big. But we sure didn't figure this—the most rousing reception we've ever seen in all our years of selling new Buicks.

We're getting more enthusiastic talk — along with the signed orders—than ever before. And, neighbor, if you want to know why—listen:

This '57 Buick has that sleek low-sweep styling that today's moderns want—and it's here in extra-long measure, in the lowest Buick yet.

It has the room they want — for Buick's new wide-frame chassis permits a sports-car silhouette with more interior roominess than even last year's spacious Buicks.

It has newness everywhere, and newness that's wanted . . .

A smart new panoramic windshield of vaster dimensions and greater visibility.

The sweet, solid surety of a new "nested" ride. A brilliant new handling and cornering and leveled braking that come of an ingenious new ball-joint suspension. It even has the modern answer for today's driving — a new Safety-Minder\* that watches your miles-per-hour for you.

But even more important, this rakish sweep of automobile has a new kind of instant response—and that's the biggest reason for the soaring popularity of the newest Buick yet.

For here is performance—smooth as spun silk — unleashed by a totally new V8 engine 364 cubic inches big, and with the highest compression, torque and horsepower in Buick annals.

And here, to deliver that might, is the

power-pitch action of an advanced new Variable Pitch Dynaflow.\* A Dynaflow of such instantaneous obedience, such smooth and versatile control in "Drive"—the need for "Low" is virtually ended.

In all truth, you've never bossed a car so keenly alive, so smooth in motion, so solid in feel. It's ahead of its time, ahead of the industry — even ahead of your great expectations.

Come check up on all this for yourself. Come drive this shoulder-high sweetheart with the strong he-and-she appeal. Come be our guest—today.

\*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special. Safety-Minder standard on Roadmaster, optional other Series.

## A Bible Thought For Today

In the last day, that great day of the feast, Jesus stood and cried, saying, if any man thirst, let him come unto me, and drink. (St. John 7:37)

## Editorial

### Every Young Person To His Likes

The engineering profession is suffering a crisis—and the country along with it. In a letter to this newspaper, J. B. Dannenbaum, P. E., president of the Texas Society of Professional Engineers, appeals for public understanding and legislative action to help the state out of its engineering difficulties.

The trouble is there are too few engineers, and they are becoming scarcer all the time because colleges and universities are not turning them out in the quantity needed. They are not turning them out because our indigenous colleges and universities are under-equipped with trained teaching staffs. It does no good, Dr. Dannenbaum points out, for high schools to turn out shoals of youngsters yearning for an engineering career if they can't pursue their education through college from lack of adequate equipment, a plenitude of competent teachers, and classroom space.

Many of the better teachers themselves are lured away by the offer of high wages to work for industry, and replacements

are hard to come by, he points out. Many of the state departments, notably that of highways, have their engineer ranks riddled regularly because industry comes along and waves large hunks of cold cash in their faces.

We have brought this matter to public attention before and do so again. But at the same time we would remind young people that there is a shortage of good talent in the journalistic field. The monetary returns may not be as immediately rewarding, but someday engineers again will be in surplus supply as they have been before. The journalists, teachers etc., then will be brought nearer a par in pay. Meantime, there will be the intense satisfaction of having been in a creative profession. Every person who loves engineering ought to pursue it as a career; but none who is better suited to some other field ought to be glamorized or pressurized into engineering. The goal of human beings is happiness, and it is hard to find in a field foreign to one's aptitudes.

### In Giving, Why Not To The Church?

How well do Americans support their churches—the privilege of doing which is one of their most cherished constitutional guarantees?

According to the record, not very. Authority for this is Changing Times, the Kiplinger magazine, in a copyrighted article in its November issue. The overwhelming majority of Americans, the magazine finds, give on a dollar-a-week basis, but many as little as \$2 a year for the support of the church they love to see still in existence at least twice a year—Easter and Christmas.

The article urges members to help their church financially by pledging on a yearly basis. This helps to cover the hiatuses which occur when they stay at home on Sunday. One should pay on time, too, it points out—church expenses take no vacation.

According to Changing Times, of the

ten Protestant churches receiving the greatest total contributions, the following is the average per individual member: Presbyterians (U.S.) \$75.54, Lutherans (Missouri Synod) \$67.82, Presbyterians (U.S.A.) \$61.47, Congregational Christian \$54.76, Protestant Episcopal \$51.84, Lutheran (United) \$50.25, Baptist (American Convention) \$43.17, Baptist (Southern Convention) \$42.17, Methodist \$37.53, and Disciples of Christ \$34.77.

The magazine quotes church leaders as saying members could double their contributions without straining their pocket-books and with considerable beneficial effects on the church. Sounds reasonable, but with considerable beneficial effects on the church. Sounds reasonable, but with considerable beneficial effects on the church. Sounds reasonable, but with considerable beneficial effects on the church.

### Nixon May Be Sent Into Hungary

WASHINGTON — It would not be surprising if Vice President Nixon goes to Austria and Central Europe in the near future to make, in behalf of President Eisenhower, an on-the-spot study of the refugee problem created by the barbarism of the Soviet Union in Hungary.

There are so many questions which will involve action by Congress in January that the President, in making legislative recommendations, needs all the information he can get as to the measures the United States should take to show the civilized world it is humanely concerned with the tragic plight of all the peoples of Central Europe.

Just a few days ago the Vice President made in New York an impressive speech the general ideas of which were talked over in advance with President Eisenhower and Secretary of State Dulles. It reflected the sympathy of the United States with Britain and France in the many economic problems arising out of the Middle East crisis and definitely promised that America would be sympathetic on the matter of financial aid. Since then, hints have come from administration sources that the whole subject of aid to bolster Europe's faltering economy is being carefully studied with the hope of examining some concrete plans later on when the Western European governments have agreed among themselves as to the scope of their immediate needs.

A trip by the Vice President now to Europe would unquestionably show that America is lending moral support to the cause of the oppressed peoples of Eastern Europe. Here is a passage in Mr. Nixon's speech of last week which now becomes especially significant.

"The lesson of Hungary is etched in the minds and seared in the souls of all mankind. As a result, Communist parties are breaking up all over the world. The Soviet cannot count on the loyalty of a single satellite country or even on its own troops. Its campaign to win the neutral nations has blown up in its face.

"Can it be seriously suggested that any

in the world today would trust the butchers of Budapest? What has happened in Hungary is a solemn warning to national leaders everywhere that those who invite the Communist in run the risk of the savage slaughter which has been the lot of the freedom fighters of Hungary. They know that the Communists bring with them not the independence, the freedom, the economic progress and the peace that they promise, but Communist colonialism, slavery, economic exploitation and war.

"At the same time, the events in Hungary have shown our uncommitted friends why the United States believes so strongly in collective security. We are militarily strong only because we know this is necessary to keep the peace today. While we oppose the use of force to settle disputes, we recognize the need of strong forces of self-defense so long as the Communist world is committed to its policies of world domination by force and violence.

"We enter into alliances to protect weaker nations from a fate similar to that of Hungary. No one today could seriously suggest that Hungary, Romania, Czechoslovakia or other Soviet satellites were free or independent. On the other hand, nations which have joined with the United States in collective security pacts have found that their independence has in no way been compromised by this association."

The Vice President's speech is undoubtedly one of the most important utterances that has come from the administration in recent weeks. It underlines the firm purpose of the United States to keep attention focused now on what has been happening and is happening in Hungary. This is not America's task alone. The United Nations has already asked for and been refused admission for its representatives, who merely wanted to observe what is going on inside Hungary. How else can the United Nations tell whether the diplomats claiming to represent the Hungarian government at the U. N. meetings are imposters or really accredited agents of a legitimate government?

It's a delicate subject requiring considerable inquiry, and it could mean the suspension of the privileges of the present representatives of the alleged Hungarian government until all the facts have been made available, either through a U. N. mission or through the diplomatic representatives of U. N. member countries now resident in Budapest. It could involve the indefinite suspension of all representation of the Hungarian government until the situation is cleared.

This procedure is the only one available, inasmuch as the United Nations Charter itself does not provide specific methods of expulsion except by concurrence of the Security Council—one which, of course, the Soviet Union has a veto.

There is every intention here to manifest a continued interest in Hungary and in the other states of Europe where the terrors of Soviet colonialism and militarism have again been arrogantly exhibited to the world.

(Copyright, 1956, New York Herald Tribune, Inc.)

### No Apple

PHOENIX, Ariz. — A company which wanted to welcome the annual convention of the Arizona Teachers Assn. left a barrel of apples in the school gymnasium where the meeting was to be held. But there were no apples for the teachers when they arrived. The students got there first.

Times Change So Fast

## James Marlow

### Rayburn Wields Much Power

WASHINGTON (AP) — Paul M. Butler, Democratic national chairman, misunderstood that thing called power. He stuck his neck out, and Speaker of the House Sam Rayburn chopped it off.

Butler asked 20 Democrats, including 11 members of Congress, to serve as advisers who would coordinate efforts in behalf of Democratic programs and principles.

Butler heads this 20-man committee, supposedly a guiding force for the party which in effect was left leaderless when Adlai E. Stevenson lost the election. There will be no single party leader until the Democrats pick their presidential candidate in 1960.

The day-by-day practicing leadership of the party rests with the Democrats in Congress. They are the ones who will have to establish whatever record the party offers the voters in the congressional elections of 1958 and then in 1960.

Rayburn and a fellow Texan, Sen. Lyndon B. Johnson, the Democratic floor leader, are thus the party's guiding force and the two most powerful Democrats in the capital.

It was the idea of Butler and the Democratic Executive Committee that the 20-member advisory group could help shape a program on which the party could stand in the next two elections.

This meant Rayburn, Johnson and the other members of Congress would be sharing their power with the advisory committee when they didn't really have to.

Butler and the executive com-

mittee may have felt that by having Rayburn, Johnson and other congressional Democrats sitting in with the advisory committee they might be spurred to more liberal programs than they have pushed in the past.

But the way Butler went about issuing his invitations to the 20 advisers left him open to embarrassment. And he got it.

If he had asked each of the 20 individually and quietly whether he would serve, anyone declining could have done so with no one besides Butler being any the wiser. Instead, he announced the 20

names publicly first. Rayburn and three other Democratic House leaders told Butler they would be glad to consult with the committee.

But Rayburn made no promises to follow the committee's ideas. Johnson hasn't been heard from yet but he probably will decline too.

The only members of Congress who have accepted so far are Sen. Hubert Humphrey of Minnesota, Sen. Estes Kefauver of Tennessee, Stevenson's running mate this year, and Rep. Edith Green of Oregon.

## Hal Boyle

### Time To Start Changing

NEW YORK (AP)—Do you want to be a changed man in 1957? Well, now is the time to start removing your personality warts.

Most people wait until New Year's Day to make their good resolutions.

So what happens? You are likely to be hypocritical, unfair to yourself. You don't see yourself in the right perspective. You are full of self-hate. You see a thousand things wrong with you, whereas even a jury of those who really know you best probably wouldn't credit you with more than 750 character faults.

So what happens? You resolve to improve your conduct in 1,000 ways all at once. This is manifestly impossible, unless you lie down and die, which is certainly carrying self-improvement right out the window.

Unable to correct all your supposed 1,000 faults, you soon give up the struggle, saying, "what the use?" That leaves you with the hopeless feeling you have added the 1,001st defect to the list—you're a guy who can't keep a pledge.

The reason you should make your New Year's resolutions right now is that you won't have to make so many. You have a Christmasy feeling toward the world, and are full of goodwill.

You don't see so many things about yourself that need changing, because you love yourself even as you do your neighbor. Maybe even more.

The danger here, of course, is that you may be full of so much

goodwill you find yourself absolutely flawless. You can't think of a single way to change yourself for the better.

In this case you need the help of others. Here's what to do: Take six sheets of paper and give one each to your closest friend, your oldest enemy, your mother, your boss, your favorite bartender and your wife. On second thought, maybe you'd better give your wife a loose-leaf notebook—or a tape recorder.

Next, ask each to write down what they think are your greatest faults and how you can make a better man of yourself in 1957. This may result in your wife getting writer's cramp. But she won't mind. An opportunity like this doesn't come her way often.

Then comes your big problem—weighing and interpreting the criticisms and suggestions. Here's how you get about it:

To start with, examine the list made by your closest friend. Whatever he has written down, it is safe to assume, is what the bum is saying about you behind your back. If you don't like his list, your first resolve should be to get a new friend, one you can trust not to be so honest.

The chances are your enemy merely has written down, "the best way to improve yourself in 1957 is to drop dead." Resist this temptation. To obey it will get you nowhere.

Instead, resolve to forgive your enemy. Go even further. Really bring him into your circle. Bind him to you. The best way to do this is to borrow money from him. Then he'll really have your interest at heart—and his principal.

Next take up the lists made by those who know you at your best and worst—your wife, mother and bartender. Naturally their lists will be long, and it would be impossible to correct in one lifetime all the things they know are wrong with you.

The thing to do is to check the defects that appear on all three lists, and resolve to correct them immediately. Certainly anything about you that offends your mother, wife and bartender needs your urgent attention.

Last, take the boss' list. If he merely has written, "Why, Joe, you're all right as you are," make a quick resolution to hit him for a raise on Jan. 2.

On the other hand, if he lists more than 10 of your bad habits, the odds are he suspects 10 more. You should resolve to look for a new job right away. There's enough trouble in life already without having to work for a boss you can't fool.

One final tip. If your wife writes "You're a perfect husband, darling, and I wouldn't want you to change in any way," you'd better resolve to hire a private detective and find out what she's up to while you're away at work.

## Around The Rim

### More Pills Than Carter Has

Acetylsalicylic acid is a marvelous compound.

It may be used instead of sedatives and barbiturates in some instances; it has been used to advantage in polio treatments; it is an extender for wonder drugs in treatment of arthritic and metabolic diseases. Besides it is good for colds, fever, tonsillitis, pleurisy, neuralgia, muscular pains and old-fashioned headaches.

You may know this nostrum simply as aspirin. Apparently a lot of people know it and use it. Currently, the United States is consuming aspirin at the rate of 16 million pounds per year, four times the rate of 20 years ago. Statisticians for the industry have figured that this is the equivalent of 50 million five-grain tablets per day. Thus, one out of three people in the country takes at least one aspirin tablet per day.

Aspirin is not a newcomer to the medical scene for it has been around for more than half a century. Bayer's U. S. patent on aspirin ran out in 1917, throwing the field wide open. Prior to that the German company had set up a captive production of the remedy in the United States.

On Nov. 28 of this year, Monsanto Chemical Company at St. Louis produced its 100 millionth pound of aspirin. Right now the concern is the world's largest producer of the compound and has been producing longer than any other independent in the country.

The retail value of aspirin and aspirin compounds as internal analgesics (not including cold remedies) hit \$197 million in 1955. This was 20 per cent above 1954, which stepped up the regular 10 per cent per annum rate of increase. Industry leaders figured the cold, wet winter was responsible.

On the occasion of that 100th million pound, the company put its calculators to work and came up with a total of 115 billion aspirin tablets—enough to cure

headaches for every person in the nation every day for more than a year. Moreover, this would have required 11 the water flowing over Niagara Falls in a day and a half to wash down that volume of aspirin. Laid end to end, that many tablets would stretch to the moon and back and then to the moon again. Which proved that when we tackle the space problem with all its headaches, we'll have plenty of aspirin.

At a recent symposium on aspirin tablets at bedtime tend to induce sleep, which would help stem the public's increasing addiction to sleeping potions such as sedatives and barbiturates. It was not mentioned whether there was such a thing as aspirin addiction.

Another report credited aspirin with relieving muscular tightness in polio and preventing the formation of kidney stones in bed-ridden victims of the disease.

A distinguished authority reported that treatment of rheumatic diseases with aspirin in combination with ACTH or cortisone yielded better clinical results than either aspirin or the steroids alone. Besides being more economical to the patient, the smaller dosage of steroids with aspirin as the extender seemed to avoid serious side effects encountered frequently in prolonged use of wonder drugs. This may be because aspirin encourages the natural production of steroids by the body's glandular system and increases the rate at which the body consumes these hormones.

All of this is but gilding the lily, however. One of the main factors contributing to the growing popularity of the aspirin is that for all its versatility it is still about the most economical medicine. Less than half a cent will get you a tablet and for a penny you can knock out a first class headache.

—JOE PICKLE

## Inez Robb

### Unattached Male Welcome In Palm Beach

PALM BEACH, Fla. — As I was saying yesterday when I ran out of time and space, Palm Beach is the place to live it up if you're loaded, and if you aren't, you can still manage to live if you have mastered the art of living on someone else's cuff.

Free-loaders have always found this a land of golden opportunity if they are amusing (the rich need jesters as much now as did their counterparts in the Middle Ages), titled or masculine.

A titled house guest doesn't even have to be amusing. The social aura cast by a British duke or a French princess will get them free food and board here (and always has) in one mansion after another, even if each is a real dull dish.

But even more than it craves jesters and even more than it loves titled guests, Palm Beach needs manpower. The most acute shortage here has always been and still is that commodity lightly known as "an eligible man" or a dinner partner.

As insurance statisticians keep informing us, rich men live to leave behind them rich widows. This community has a special affinity for rich widows, and in no locale do the marcelled, well-curled relics feel the call of the wild more so than on Florida's Gold Coast.

But the widow and her would-be hostesses are only too well aware that the most distressing drug on the social market is an extra woman. The problem of squaring

the circle is no more difficult than scrounging up a dinner partner for her. This creates in Palm Beach a ready-made market for any man who can finesse a fork. Any male between the ages of 18 and 80 who can make small talk and get around the dance floor under his own steam is the answer to some matron's prayer.

Such a man, if he owns a pair of white pants, a dinner jacket and a thumb to get him here, can live on the fat of the land (and no offense meant to the ladies) all season.

What the unattached woman needs here is an escort, and never mind any smart cracks about "gigolos." That term is most offensive to both the parties of the first and second parts.

The man who goes West to seek his fortune at this time of year instead of South isn't really bright enough to qualify for the good life. It only takes a discreet look around the colony to discover that from time to time a lad who came here originally as a dance instructor or a beach boy or an antique salesman has landed in a permanent tub of butter via marriage.

It's the old Cinderella story in reverse. And as a firm believer in equality-for-men, I am glad to see that they are at last alert to a field—placer mining—too long monopolized by my sex.

(Copyright 1956 By United Feature Syndicate, Inc.)

## The Gallup Poll

### U.N. Gets Strong Public Backing

PRINCETON, N. J. — The Eisenhower administration has a strong mandate from the American people to back up the United Nations.

While the public has often been disappointed by the work of the world organization, an overwhelming majority today considers it highly important for this country to try to make the United Nations a greater success.

In fact, the number who feel this way is at a high peak. Whereas four years ago, 77 per cent of the nation's voters felt that it was very important, today 85 per cent hold this view.

This is shown in a survey conducted by the Institute at a time when the United Nations was acting to bring the weight of international opinion to bear in an effort to end or modify Soviet repression in Hungary and to obtain the admission of U. N. observers for a first-hand study of events.

To sound out America's views concerning the importance of the U. N., the Institute assigned its nationwide staff of interviewers to ask a cross-section of voters: "How important do you think it is that the United States try to make the United Nations a success—very important, fairly important, or not so important?"

Here is the vote today and that of four years ago:

Today 1952	Per cent	Per cent
Very important	85	77
Fairly important	8	10
Not so important	3	6
No opinion	4	7

The survey finds that partisan differences of opinion are remarkably small. Republicans, Democrats and Independents all express an overwhelming desire to see the world organization succeed.

Another interesting aspect of the survey is that the more education a person has had, the more likely he is to feel that it is highly important to make the U. N. a success, as the following table shows:

Col High Grade	Per cent	Per cent
Very important	91	86
Fairly important	6	8
Not so important	2	3
No opinion	1	4

Evidence that the nation's voters believe that the U. N., in general, is doing a good job today shows up in the answers to a second question in the survey.

Only about one voter in every 10, or 11 per cent, expresses outright dissatisfaction with the job the world organization is doing.

Voters were asked: "In general, do you think the United Nations is doing a good job or a poor job in trying to solve the problems it has had to face?"

The vote today:

Good job	Poor job	No opinion
51	29	11
59	36	5
66	22	12
55	30	15
59	26	15
80	10	10
77	11	12

The public's attitudes today are particularly interesting in view of recent attacks on the United Nations. Some of its American critics regard the world organization as futile and believe that the United States should pull out of the U. N.

During the 11 years since its founding, Institute surveys have repeatedly shown the American public not only supporting the organization, but wanting to strengthen it.

### Scout's Harvest

WAUKAU, Wis. — The harvest from an acre of ground will finance a Boy Scout's trip to the scouts' national jamboree at Valley Forge, Pa., next summer. Rudolph Freund is providing the acre for scouts of Waukau and Omro, who intend to plant either sweet corn or cucumbers.

Whoever is chosen to attend the encampment will have his expenses paid by proceeds of the one-acre plot.

"Well, how'd the boss react to your request for a raise...?"

## The Big Spring Herald

Published Sunday morning and weekday afternoon except Saturday by AFFILIATED NEWSPAPERS, Inc. 710 SCURRY, DIAL AM 4-4321, Big Spring, Texas. Entered as second class matter July 18, 1938, at the Post Office at Big Spring, Texas under the act of March 3, 1879.

**BUZ SAWYER**

DAY AFTER DAY "A B 19 TAKES BUZ AND THE SKY WITCH TO 30,000 FEET, DROPPING HIM IN PRACTICE FLIGHTS FOR THE ALL-ROCKET LAUNCHING.

RACING, CRASH TRUCKS, FIRE TRUCKS, AMBULANCES ALWAYS MEET THE SKY WITCH. LANDS AT A FAST 200 MILES AN HOUR.

YOU'VE HAD ENOUGH PRACTICE FLIGHTS, BUZ. TOMORROW IT'LL BE THE REAL THING... AN ALL-ROCKET LAUNCHING. BY THE WAY, HOW DO YOU THINK CHRISTY WILL TAKE THE NEWS? THANKS TO YOUR GETTING HER TO FLYING, JEFF, SHE'S QUIT WORRYING SO MUCH ABOUT ME.

**DIXIE DUGAN**

MRS. BURNELL WILL BE WITH YOU IN A MOMENT.

DON'T WORRY ABOUT YOUR HUSBAND, MRS. BURNELL—WE'LL GET HIM HOME SAFELY.

BUT I DON'T WANT HIM TO COME HOME. I'M GOING TO JOIN HIM—PLEASE GIVE ME THE RIGHT DIRECTIONS, MISS DUGAN.

**NANCY**

OUCH--- I ALWAYS HIT MY FINGERS

OW--- I DID IT AGAIN

MAYBE I'LL HAVE BETTER LUCK THIS WAY

**L'I'L ABNER**

LINE UP FO' YORE TURNIP TERMITES EXTERMINATOR FOLKS!—

NOW WE SPRAYS OUR FIELDS!

AN' WHEN THEM BILLYUNS O'N GOOD, THEM VINS TERMITES HITS EGGSATCH!

THEY'LL YAK! YAK! DIE IN THE LAST MAN!

Y'LL DIE TO TH' LAST MAN—O STARVATION—AN' THEN DOCKERS'LL BE QUIET—AS-A GRAVE!—

**BLONDIE**

BACKWOOD DO YOU MEAN YOU CAN LIVE ON A BUNCH OF NOT EATING LUNCH?

BUT I'M A WORKING MAN!

IT SAYS HERE THE AVERAGE HUSBAND WITH AN OFFICE JOB JUST REQUIRES TWO MEALS A DAY.

WHO SAYS THAT?

A GROUP OF PROMINENT NUTRITIONAL EXPERTS.

HOW'D YOU FEEL?

THEY PROVED IT WITH WHITE MICE.

**ANNIE ROONEY**

JUST BECAUSE OUR NAME IS ROONEY YOU EXPECT US TO FOOL YOUR BOSS AND THINKING WE'RE LITTLE ANKLES BEAL FATHER AND MOTHER?? NOW?

IT'LL BE EASY. I'VE OVER-HEARD ENOUGH DETAILS TO BRIEF YOU WITH THE RIGHT ANSWERS. EVEN IF K. KING WILL FALL FOR IT.

THE TOUGHEST ANGLE IS TO MAKE UP A PHONY BIRTH CERTIFICATE— BUT WE CAN DO IT. THIS ISN'T A BIG-MONEY CAPER, BUT THERE'LL BE A FEW BUCKS IN IT FOR YOU AND BIK. SO HOW ABOUT IT, MAIZIE?

WE CAN USE A FEW BUCKS. WHO'S PAYING FOR THIS?

OF COURSE NOT. THERE'S A THIRD INTERESTED PARTY IN THIS DEAL. BUT THAT'S MY BUSINESS. I'LL SEE YOU LATER.

OKAY, HARVEY. AND I'VE ALREADY GOT AN IDEA FOR THAT BIRTH CERTIFICATE.

**SNUFFY SMITH**

AUNT LOWEEZY!! I ASKED FOUR YES' NOW— CAN I HAVE A NICKEL?

LA DEE DUM DEE

UNK SNUFFY-- DID YOU HEAR ABOUT M'Z BARLOW LEAVIN' HER HUSBAND AN' NINE YOUNG'UNS AN' RUNNIN' OFF WIT' THAT 'SCICE PEDDLER FRO' TH' FLATLANDS?

WHAT DID YE SAY, JUGHAID?

CAN I HAVE A NICKEL?

**GRANDMA**

OH, GERALD!

OK, GRANDMA, I'LL GET IT FOR YA, RIGHT AWAY!!!

HERE'S TH' THREAD AN' NEEDLE YOU WANTED, GRANDMA.

YOU WATCH AN' TELL ME IF ANYONE IS COMIN' IN A FEW SECONDS WE'LL GO AN' HAVE A NICE SODA!

**DONALD DUCK**

HAVE YOU SAH?

LOOK, NEIGHBOR, WILL YOU PLEASE PUT THAT BANGHER TO SLEEP? I'M SORRY GIR, I'LL TRY!

GO TO SLEEP, MY BAY-BEE! (MY BAY-BEE!)

ORRY, OKAY, I LET THE KID CRY!

**JOE PALOOKA**

AFTER GETTING INSTRUCTIONS FROM THE REFEREE, THE CHAMPION AND THE CHALLENGER AWAIT THE OPENING BELL.

VA KNOW WHAT TOO, BABA... MAKE HIM COME AT YA?

RIGHT, AN' THEN I GIVE HIM TH' "TWISTER"

KNOBBOY SAID VA GOTTA FOIST OF ALL PACE YERSELF... AN' SCORE WITH COUNTER-PUNCHES... SAVE YERSELF FER TH' LATER ROUNDS? MAINLY, VA GOTTA KEEP AWAY FROM BABA!

I'VE GOT TO FINISH THIS QUICKLY... I MUST GET TO KNOBBOY?

BOY, I DON'T HAVE TO MAKE HIM COME AT ME... HE'S DOIN' IT!

**SCORCHY SMITH**

AND SO I DIDN'T HAVE A CHANCE TO TELL UNCLE BART.

...ABOUT THE ACCIDENT! HE WAS SO HAPPY... I COULDN'T TELL HIM— MAYBE YOU—

JAY, IT'S YOUR PROBLEM, I'M AFRAID...

...AND I'M SURE YOU'LL MEASURE UP TO SOLVING IT!

**OAKY DOAKS**

OOH! MY BACK! THAT WOULD MAKE YOU A CRIMINAL, SIR BOLTON!

AND AS SHERIFF, I'D HAVE TO ARREST YOU!

WHY?

YOU'D BE THE RECEIVER OF STOLEN MONEY!

HMM...

SIR BOLTON, HOW WOULD YOU LIKE TO RECEIVE THIS?

**POGO**

YOU'RE BREAKIN' ALL RECORDS ON HOW LONG IT TAKES YOU TO GET THRU TH' PENTATHLON.

SHHH! YER DISTURBIN' MARTHA!

NOW SHE'LL HAVE TO START ALL OVER— I TOLD YOU SHE LOSES HER VOICE WHEN EXCITED... "START OVER WITH YOUR LIVING EYE WITNESS OF THE METEOR, MARTHA."

WELL! I'AN ALP WAS GETTIN' THESE WHIST! THERE'S ANOTHER!

WELL! I'AN ALP WAS GETTIN' THESE WHIST! THERE'S ANOTHER!

NOW YOU HAVE DID IT— MARTHA! YOU HAVE TO BE REVIVED AN' START OVER. I'M SO BEEZIE, JACK, O.P.

**DICKIE DARE**

SUN-COOKED FISH ARE A RAW DEAL. IF YOU ASK ME...

THEY'RE YOUNG— THEY CAN LAUGH! GOOD THING THEY DON'T KNOW AN OLD MAN'S STORY— HOW I LOST MY FAMILY— FOUND THAT WORKING ON WORLD ROOD PROBLEMS GAVE ME SOMETHING TO LIVE FOR...

HOW I FELL IN LOVE WITH A SHIP— SOLD MY HOME TO BUY HER...

MY "TRITON"— NOW YOU'RE GONE— THE THING I LOVED MOST...

**LITTLE SPORT**

COULDN'T GET WITH TEAM! \$20 A DAY!

TRANSPORT.

**MISS YOUR HERALD?**

If delivery is not made properly, please Dial AM 4-4331 by 6:30 p.m. on weekdays and 9:30 a.m. on Sundays.

**Keep plenty of Wrigley's Spearmint on hand for the Holidays**

You'll hear lots of "Thank You's" when you pass this pure, tasty treat around to friends— serve it after party meals— give it to the children. Everybody appreciates delicious Wrigley's Spearmint Gum—and it costs so little. Get a supply today.

# Bovines Grab Early Lead, Slash Snyder

SNYDER (SC) — The Big Spring Steers broke a jinx of long standing by thrashing the Snyder Tigers, 71-55, here Tuesday night.

Johnny Johnson's Bovines assumed an early lead and coasted in. Snyder could manage only nine points in the initial period and 18 points in the first half.

Jan Loudermilk's ability to control the backboards and the defensive play of such boys as Jimmy Evans, Mike Musgrove and Jesse McElreath simply was too much for the tall Tigers.

Loudermilk scored 24 points to pace all point-getters. McElreath tossed in 17 and Musgrove 18.

Evans took only three shots at the basket but hit on each occasion.

Powell Berry, one of the Bengals' six-footers, paced the home club with 14 points while Milton Ham and Robert Dabbs each had ten.

The Steers missed only eight free shots, making good on 25 tries from the penalty line.

Rickey Terry saw action for the first time for the Steers and did a creditable job, as did Billy Blum.

Donald Lovelady was ill with the virus before and during the game and was used sparingly. He failed to get a bucket from the field.

Coach Johnson said his boys played perhaps their best game defensively. The win was the fourth in a row without a defeat for Big Spring.

The Big Spring B teamers also won, 62-46, for their fifth success in six starts.

The Longhorns mark time until Thursday, at which time they

take part in the Andrews Tournament. The Big Springers have defeated Monahans, a highly rated foe, winner of its own tournament recently. The two teams clash at 7:15 p.m. Thursday.

Webb's Pin Downers

Webb AFB team placed second in a field of 35 competitors at the Kirkland AFB Invitational, Tri-State Bowling Tournament held in Albuquerque, N. M. First place honors went to the home team, Kirkland AFB. Varano and Becker placed 8th and Best and McGreevy placed 14th in the doubles competition—in a field of 85 teams. Webb's team is (left to right, front row) A-3C Sammy Varano, A-3C Jack M. Starnes and M-Sgt. Vincent Best; (back row) M-Sgt. Tom McGreevy, M-Sgt. Harry Helse and 1st Lt. Kenny Becker.

## LOOKING 'EM OVER

Tommy Jackson, the speedy halfback Big Spring must face again next year, scored 15 touchdowns for Andrews the past football season.

Max Williams (who went to SMU) wasn't the only fine basketball player Avoca High School (near Abilene) boasted.

Buster Brannon, coach at TCU, has been quoted as saying a 6-3 player named Kenneth King from there will become the best guard the Frogs ever had.

In a Charlotte, N.C., semi-pro baseball game last summer, two runs scored when the ball was hit into a ditch beside a snake.

Waterloo, Iowa, had a high school football back the past season who averaged 21 yards a carry in 72 tries at the line.

He was Bob Klieaman of St. Mary's High.

George McAllister, masterminding the American Business Club's plan to stage a jumbo-size ABC Relay here March 16-17, invited the famed Kilgore Rangerettes to stage an intermission program here at that time.

Directors of the precision troupe had to decline the invitation, however. The Rangerettes are committed to appear at the Tyler Rose Festival on the same weekend.

If he lives up to expectations, Jan Loudermilk is going to become one of the few Big Spring athletes in history to rate all-district honors in both football and basketball.

The big junior has, of course, already won first team football honors on both offense and defense and basketball is supposed to be "his" sport.

A local doctor who has made a study of such things says "football knees" are much more apt to occur in basketball than in the pigskin sport.

He points out that a footballer usually has time to brace himself for collisions, whereas a cager often is slipped up on from his blind side by another boy. As a result, the cartilages in his knees always take a beating.

The most agile player I've ever seen on a basketball court is Mike Powell of Coleman and HCJC, who must have been a whale of a back in football and who probably would have made a tremendous boxer.

Powell can stop and go, stop and go better than any athlete I've ever seen — a boy capable of changing directions in a split second. He has such amazing reflexes, I think — had he been trained for the ring — no one would have ever been able to lay a glove on him.

Coach Harold Davis of HCJC isn't soliciting prizes for the annual Howard College Basketball Tournament here the weekend after New Year's Day but those who would like to make the show a bigger success can feel free to call upon him.

He's not refusing any offers for awards, either.

Four of Iowa's eight professional baseball teams drew an attendance of less than 50,000 each last season, and none is less than a Class B circuit.

Des Moines, which is also declared for AAA ball in 1957 play, attracted only 67,373 paying customers to its Western League home games the past season.

## Murphy's Goal Nips Stanton

GARDEN CITY (SC) — Frank Murphy sank a field goal in the last 30 seconds of play that enabled the Garden City Bearcats to defeat the Stanton Buffaloes, 39-38, here Tuesday night.

Murphy wound up scoring 14 points for scoring honors. Rodney Myrick had 13 for Stanton.

The Buffs limited the Bearcats to a mere two points in the first quarter and 14 points in the first half.

Stanton's girls won the preliminary game, 46-24, after leading at the half, 25-12.

Alice Clark collected 18 points for Garden City. Overby scored 22 for Stanton.

STANTON (38) — Maurice Peirce 3-0-4; Rodney Myrick 3-1-2; Lloyd Jones 1-0-3; Delbert Donelson 1-0-2; Phil Perreman 4-1-9. Lute Budgett 1-0-2. Totals 18-37-38.

GARDEN CITY (39) — Glenn Murphy 3-0-4; Milton New 3-3-3; Lloyd Jones 3-0-4; Harold Jones 1-0-2; Frank Murphy 7-0-14; Loretta McDowell 1-0-2. Totals 18-37-39.

Score by quarters: Garden City 12 12 12 13; Stanton 12 12 12 12.

## Paul Jorgensen Gets Shot At Carmela Costa Tonight

NEW YORK (AP) — Instead of Sugar Ray Robinson and Gene Fullmer, the customers at Madison Square Garden tonight will watch a feather-weight match between Paul Jorgensen, a newcomer from Port Arthur, Tex., and shifty Carmelo Costa of Brooklyn.

When Robinson's illness forced postponement of the middleweight title match until Jan. 2, matchmaker Billy Brown brought together these young featherers for the third time.

They fought a draw in Houston July 31. Jorgensen won a decision Nov. 20. Even so, Costa, a 22-year-old Brooklyn boxer, is a 7-5 favorite.

Costa is well known to network TV audiences for his many appearances at the Garden and at Brooklyn's Eastern Parkway. He hadn't fought outside the New York area until his last three starts. The results indicate he should have remained at home.

He was stopped by Ike Chestnut at Washington and failed to win in his two Houston bouts with Jorgensen.

This will be the first Garden appearance for the 21-year-old Texan, who has confined his ring activities to the Southwest. He has fought 11 times this year, winning 10 and beating such men as Lauro Salas, former lightweight champ, Teddy Davis, Lulu Perez and Jackie Blair.

Jorgensen's record is 46-4-1 and Costa's 29-5-5.

ABC will broadcast and telecast at 10 p.m., EST.

## Stanton's Meet Opens Thursday

STANTON (SC) — Play will get under way at 5 p.m. Thursday in the Stanton boys' and girls' basketball tournament.

Eight teams are entered in each division. Championship contests are down for 8:30 p.m. and 9:45 p.m. Saturday.

First round pairings, listed in order of draw:

**GIRLS' BRACKET**  
Stanton vs. Knott, 5 p.m. Thursday; Forsan vs. Loraine, 7:30 p.m. Thursday; Garden City vs. Grand Falls, 5 p.m., Friday; Coahoma B vs. Flower Grove, 7:30 p.m. Friday.

**BOYS' BRACKET**  
Stanton vs. Knott, 6:15 p.m. Thursday; Westbrook vs. Loraine, 8:45 p.m. Thursday; Garden City vs. Wink, 8:15 p.m., Friday; Forsan vs. Flower Grove, 8:45 p.m., Friday.

Semi-final games in the girls' bracket are down for 1:00 and 3:30 p.m., Friday. Semi-finals in the boys' division start at 2:15 and 4:45 p.m. Saturday.

Consolation winners will also be determined.

## Bisons Shade 'Dogs, 44-29

COAHOMA (SC) — Coahoma and Forsan halved a doubleheader played here Tuesday night, after the Coahoma girls had racked up their fifth straight win in the preliminary contest, 42-23.

In the boys' game, Buddy Sullivan and Tony Starr each scored 12 points for Forsan while Mac Robinson had the same number for the Bulldogs.

In the girls' game, Patty Francis tossed in 24 points for Coahoma. Linda Johnson had nine, Peggy Francis five, Sadie Nixon and Jeanie Bobo two each and Brenda Hill one.

For Forsan, Nadine Pitcock led with 11, followed by Gaye Griffith, with ten.

Coahoma led at the end of the first quarter, 12-3; at half time, 22-13; and after three rounds, 38-13.

COAHOMA (29) — Covert 1-0-7; Hill 3-0-8; Hill 1-0-2; Robinson 5-1-1; Sullivan 10-0-20.  
FORSAN (44) — White 3-0-10; Stull 6-4-12; Starr 5-0-12; Brumson 3-0-6; Rhee 1-0-2; Newman 1-0-2. Totals 17-10-44.  
Score by quarters: Coahoma 12 11 17 11; Forsan 12 11 17 11.

## Ackerly Defeats Dragons, 56-48

ACKERLY (SC) — Ackerly and Flower Grove halved a basketball doubleheader here Tuesday night, the Ackerly boys winning a 56-48 decision after the girls had lost, 49-43.

In the girls' game, Wanda Williams hit 22 points and Dorothy Williams 21 for Ackerly. Cook had 29, Oakes 11, Ramsey seven and Anderson two for Flower Grove.

The score was tied, 13-13, at the end of the first period and Ackerly led, 30-26, at half time but the Ackerly team could manage only 13 points the last half.

In the boys' game, the score was tied, 9-9, at the end of the initial period and 22-22 at half time. Flower Grove forged into a 44-43 lead after three periods, only to have Ackerly pull away.

Phil Wallace and James Savell each counted six points for Ackerly. Grigg had five, Gill two, Robert Taylor 15, Gregg two, Cook 12, Peterson two, Kunkle two and Lewis four.

Froman led Flower Grove with 16.

# Major Leagues Extend A Helping Hand To Bushes To Clemson

CHICAGO (AP) — Major league club owners, in a surprisingly brief winter meeting, extended a helping hand to the minor leagues and loosed a swift kick at collegiate baseball.

The owners yesterday concluded their Chicago conclave a day ahead of schedule by:

1. Settling a 26-player limit per club for opening day which will haste as many as 64 players to a minor league start.
2. Rescinding a rule banning the signing of a collegiate player after he has reached his sophomore year. The rule prevailed three years.

The latter action brought a howl of protest from collegiate baseball coaches who depicted it an obvious move to steal talent from campus diamonds.

## AGAINST COLGATE Brown's Effort Rated At Top

NEW YORK (AP) — All-America Jimmy Brown's record 43 points for Syracuse against Colgate has been judged the most outstanding one-game performance by a player in the 1956 college football season.

Despite the heavy support received by the senior halfback, Brown won by a narrow margin over Illinois' Abe Woodson who had his great day against Michigan State.

The balloting was part of The Associated Press annual post-season grid survey.

In the Syracuse regular-season finale, Brown's 212-pounder from Manhasset, N. Y., rang up six touchdowns and seven conversions as the Orangemen defeated a good Colgate team, 61-7.

Never before had a player on a major college team scored as many points against a major opponent.

Brown's scoring spurs ranged from a pair of one-yard plunges to a 50-yard breakaway run with dashes of eight, 15 and 19 in between.

Woodson, a 185-pound halfback from Chicago, was the man who fashioned a headline-making 20-13 upset over Michigan State, Michigan's McGill vs. Princeton, Notre Dame back Paul Hornung vs. North Carolina, Oklahoma center Jerry Tubbs vs. Texas.

the score tied 13-13, Woodson — Big Ten hurdling champion — took a gambling screen pass from Bill Offenbecher, playing his first varsity game. Woodson broke away from one defender and raced 22 yards to score, leaving over a would-be blocker on about the Spartan 30.

Woodson had scored from the two early in the third period and tied the count with a 70-yard burst off tackle.

On the West Coast, Southern California fullback C. R. Roberts drew ballots for his 251 yards against Texas including touchdown jaunts of 74, 73 and 50 yards.

Among the vote-getters: All-America halfback Tommy McDonald of Oklahoma drew support for his games against Notre Dame and Texas.

Others who were named include: Texas A&M fullback Jack Pardee vs. Texas Christian, Pitt quarterback Corney Salverterra vs. Duke, Stanford quarterback John Brodie vs. USC, Tulane fullback Ron Quillian vs. Mississippi State, UCLA sophomore halfback Kirk Wilson vs. Washington, Washington State end Bill Steiger vs. USC, Yale halfback Dennis McGill vs. Princeton, Notre Dame back Paul Hornung vs. North Carolina, Oklahoma center Jerry Tubbs vs. Texas.

## Industrial League Play Will Begin On Dec. 18

Play in the six-team YMCA Industrial Basketball League will get under way Tuesday, Dec. 18, in the Junior High School Gymnasium and continue through Thursday, Jan. 31.

The competing teams and their managers are:

Elliott Drugs, Truett Newell; Couden, Bill Thomas; McGibbon; Oil Company, Darrell Shortes; Nabors Paint Store, Arnold Tonn; Tate, Bristol and Parks, Bill Estes; and Mort Denton's, Tommy Weaver.

Bill Bell and C. A. Tonn will officiate all games.

Entry fee of each team was \$33, which will be used to defray expenses.

No more than ten men can be included on the roster of each team. Games will start at 7:00, 8:00 and 9:00 p.m. nightly.

The schedule will be divided into two halves, with the first portion due to draw to a close on Jan. 10. Second round play begins Jan. 10.

# Wolfpack Loses 96-94 Verdict To Clemson

By ED WILKS  
The Associated Press

Things are tough all over in college basketball. First Louisville, then Kentucky were knocked off and now North Carolina State has come a cropper in a topsy-turvy three nights for the suspected "powers."

Louisville was chilled 79-74 by Canisius Saturday, Kentucky was spilled 71-70 by St. Louis Monday. Last night, N. C. State, ranked eighth in the first Associated Press poll of the season, took the rap with a 96-94 overtime defeat by Clemson, an infrequent winner.

The Tigers hadn't beaten State since 1941.

Southern Methodist and Alabama, the only other top 10 members in action, stayed unbeaten with ease.

SMU, rated No. 5, topped Wichita 93-70. Bama, No. 3, rapped Little Howard (Ala.) 109-68.

Clemson counted 10 points in the last 3 minutes to gain an 86-81 deadlock at the end of the regulation time with eight points scored by Vince Youckel, who was the high scorer with 31. Bill Yarborough sank four consecutive free throws to break things open for Clemson in the overtime.

John Maglio scored 28 and Bob Seitz 22 for the Wolfpack, who seldom led while losing for the first time in four starts.

Jim Krebs, showing no effects of an ankle injury, scored 21 points for SMU as the unbeaten Mustangs led all the way in gaining their fourth victory, Alabama, averaging 106 points a game in rolling up a 4-0 record over small colleges, had a two-way scoring punch in Jack Kubyshyn with 27, and Jim Fulmeier with 25.

## San Angelo Wins 59-57 Decision

ANDREWS (SC) — Norman Marshall's field goal just before the final buzzer provided San Angelo's Bobcats with a thrilling 59-57 basketball victory over the Andrews Mustangs here Tuesday night.

San Angelo trailed most of the way but gathered steam in the waning moments.

Brian Barber scored 17 points to lead San Angelo.

Andrews led at half time, 23-19. SAN ANGELO (59) — Barber 14-20; Marshall 10-17; Evans 6-14; Taylor 2-11-7; Marshall 3-0-3; Evans 3-0-3. Totals 23-17-59.  
ANDREWS (57) — Marshall 6-0-12; Adams 3-0-6; Barber 6-0-11; Evans 3-0-6; Taylor 2-0-4. Totals 23-17-57.

## Wranglers Hand Rangers A Loss

ODESSA (SC) — Odessa Junior College's Wranglers handed the Ranger JC Rangers their fifth straight defeat here Tuesday night, winning, 79-47.

Wayne Evans and James Doherty paced the Wranglers in action, scoring 14 and 13 points, respectively.

James Tull of Ranger paced game scorers, however, with 25 points.

ODESSA JC (79) — Doherty 6-13; Trosser 2-3-7; Steiner 1-0-2; Evans 4-8-22; Lewallen 4-1-9; Lewis 0-1-1; Evans 0-1-1; Gibson 5-0-10; W. Evans 0-1-1; Bennett 3-0-6. Totals 32-15-79.  
RANGER JC (47) — Jordan 3-5-6; Tull 12-1-20; Howell 0-1-1; Darnell 1-0-2; May 1-0-2; Curbo 2-0-4. Totals 19-47.

## Rice Letters 26

HOUSTON (AP) — Head Coach Jess Neely announced 26 letters, including nine juniors and 13 sophomores, last night as Rice Institute held its annual Association Banquet honoring the football team.

# Corn Growers Reject Control Program, Congress Tiff Looms

WASHINGTON (AP)—Farmers' rejection of a new corn control program favored by Secretary of Agriculture Benson appeared today to have opened the door for a broad and politics-studded congressional review of federal farm programs.

In one of five separate crop referendums yesterday, corn growers in an designated commercial area voted in effect to stick with an old program authorized in 1938—even with its widely admitted shortcomings.

Some doubtless voted against the new Benson proposal on the basis of promises of Sen. Humphrey (D-Minn.), a sharp critic of the secretary, that he would sponsor new legislation next year to eliminate weaknesses of the old plan.

Four other referendums went as expected. Farmers voted to continue rigid federal marketing quotas on upland cotton, extra long staple cotton, rice and peanuts. The quotas are designed to help prevent production of surpluses.

Farm legislation this year provided some of the sharpest political skirmishing in Congress, with President Eisenhower vetoing one big Democratic bill.

The corn referendum produced 257,874 votes for the new proposal and 163,227 for the old one. This was a majority of 61.2 per cent for the new one, but a 66.7 per cent or two-thirds majority was required under the law.

The rejected plan, called the soil bank base acreage program, would have allotted 51 million acres to corn farmers in the commercial area, which presently comprises 894 major producing counties in 24 midwestern eastern and southern states.

The old one, referred to as the acreage allotment program, provides for apportionment of only 37,288,000 acres among the same

farmers.

The new plan had been advanced because the old one—using a formula in the 1938 farm law—resulted in sharply reduced allotments and widespread overplanting and noncompliance.

The only penalty for failing to comply with allotments is loss of eligibility for price supports. Because many growers exceeded their allotments and thus became ineligible for price supports, the old program was widely regarded as ineffective in preventing overproduction and in stabilizing prices.

Benson had indicated clearly he favored the new plan, which Congress wrote into the soil bank law this year with his approval.

Their opposition was centered not on the larger allotment of the new plan, but on a provision that would have given the secretary of agriculture much greater leeway in setting price supports on corn after 1957.

Under the old plan which farmers voted to retain, corn must be supported between 75 and 90 per cent of parity. Under the new one, the rate would have ranged between 80 and 90 per cent. Parity is a standard for measuring farm prices declared to be fair to farmers in relation to their costs.

Tests Begin

An instrument-laden rocket is fired from Patrick Air Force Base missile test center at Cape Canaveral, Fla., as a step toward creating the first man-made moon. The rocket soared to a height of 125 miles before it fell in the Atlantic Ocean 180 miles from the base. The missile is a modified form of the standard Viking research rocket. The firing was an experimental prelude to next year's earth satellite project.

# Israel Withdraws Troops From Sinai

TEL AVIV (AP)—The Israeli army has withdrawn the bulk of its troops from the Sinai Peninsula. Some units remain as covering forces for the final phases of the pull-out.

The withdrawal is being timed to mesh with the movement eastward from the Suez Canal of Yugoslav troops of the emergency force.

The Yugoslav advance has been slowed by Israeli-land minefields and roads blown up on the western side of the peninsula.

No date has been announced for the departure of the last Israeli soldier from Sinai. But it is expected to take place within two or three weeks.

By then U. N. troops will have occupied key centers on the eastern side of the desert peninsula. From these they can patrol the Egyptian-Israel border established in the 1949 armistice.

The probable headquarters for the U. N. forces in Sinai will be the road and rail center of El Arish, on the Mediterranean in the northeast corner of the peninsula.

The airfield there, now inoperative and still in Israeli hands could be used to supply the U. N. troops by air if improvements are made.

An Israeli government spokesman said he had no confirmation of Egyptian press reports that Egyptian troops are following the Yugoslav forces into Sinai.

"We envisage Sinai as an international area occupied by an international force. There could also be an Egyptian force there but it would not be a threatening force as long as the international troops are present."

Independent estimates place the number of Israeli troops still in Sinai at several thousand. The number withdrawn has not been given.

During the last six weeks, the Israelis have removed all captured guns, ammunition, vehicles and equipment which could be used or repaired.

# Customs Fine Ruins Yuletide

DETROIT (AP)—It came to Gordon Parrington like a flash. That's where he had hidden the set of dishes he was giving his wife for Christmas—under the hood of his car.

That too was where Canadian customs officials gathered to watch the fire, after the cardboard box containing the dishes had begun to burn.

Parrington, 45, of suburban Detroit said he put the dishes there so his wife wouldn't find them. He said he had forgotten about them as he drove yesterday across the Ambassador Bridge to Windsor, Ont., on the Canadian shore of the Detroit River.

After the blaze was put out, Parrington had to pay customs penalties for not declaring the dishes. The penalties, said customs men, were "just enough to ruin his Christmas."
