Atomic Cannon Fired
 The Army's 280mm "atomic cannon" belches fire and smoke as the gun crew huddles nearby during maneuvers on new range at Fort Sill, Okla., which was acquired several weeks ago. The projectile traveled 18 miles and marked the first time near maximum range was utilized on the gun at Ft. Sill.

Georgia Negroes Plan End To Bus Segregation

ATLANTA (AP)—A "bold move" to end racial barriers on city buses today was proclaimed in this Georgia capital of 500,000—a Southern stronghold of racial segregation.

The plan was dubbed "The love, law and liberation movement" at a mass meeting last night at the Negro Wheat Street Baptist Church where it was perfected.

The first step was detailed to some 100 Negro ministers. They agreed to set out from their individual homes today "and take seats heretofore reserved for whites only."

Enforcement of regulations that Negro passengers seat from the rear and white from the front of the buses presumably first with city police. Chief Herbert C. Jenkins declined to say in advance what steps he might take.

"I don't know of anything I could say that would help the situation," he told newsmen. "Therefore I have nothing to say."

The population of Atlanta and its suburbs now is estimated at 865,000.

Col. W. C. Domy, Georgia director of public safety, declined comment on the move, referring newsmen to the governor's office. Gov. Marvin Griffin was in a meeting with legislators, outlining plans for the approaching session of the legislature.

R. L. Somerville, president of the Atlanta Transit System, said the company planned to carry on its business "the best way we can."

"I don't know what will happen," he said.

Angelo Dries Lose Election By 3-1

SAN ANGELO (AP)—Voters of Tom Green county registered 9,474 votes for 13,374 against the legal sale of alcoholic beverages yesterday.

The returns were from 29 out of 40 precincts, the only missing precinct being in a small rural area with less than 100 voters.

The vote did not change any dry areas to wet. Only two precincts are wet, with beer sales allowed in Precinct 1 and beer and whisky in Precinct 3.

Commission Delays Traffic Changes At Jr. High School

Traffic changes at the Junior High School were deferred by the city commission until a traffic engineer could be consulted.

City commissioners reached this decision Tuesday night after Herbert Whitney, city manager, told them that a traffic engineer from Krause-Hines, manufacturer of traffic lights, would be in Big Spring in the next few weeks.

Proposals before the commission concerned making 10th Street between Main and Johnson a one-way drive, installing a traffic signal at 10th and Rannels, and prohibiting parking on the north side of the two-block area.

Whitney said that the traffic engineer would be here to speak to the city about this matter and several other traffic problems and the commission wanted to get his ideas on the area before making definite changes.

Whitney said that should the city make the street one way going west that it would give four lanes of space. The big trouble is caused by parents waiting in front of the building for their children. They will stop in the middle of the street and block traffic, he said.

One proposal submitted by the Citizens' Traffic Commission was approved. It calls for a stop sign facing west-bound traffic at 15th and State. Signs are on State at the intersection, but because of a blind corner, CTC felt the need of a sign on 15th.

Commissioners discussed the problem of opening Gollad southward to the city limits, which would give J. V. Robb access to an area south of the city that he plans to develop.

The city felt that a 100-foot right-of-way would be needed to handle traffic, but Robb did not know if the city planned to straddle the section line splitting Gollad or put it entirely on one side. Also the problem of gaining right-of-way arose.

Commissioners authorized Commissioner Curtis Driver to speak to one of the property owners and ask Whitney to continue discussions with others.

The groups authorized extension of a sewer line in the Avion Village area to serve five houses on four lots. City Engineer Clifton Bellamy estimated that cost of the 300 feet of sewer line would be about \$450. The area is inside the city limits.

Robert Hill approached the council about opening McEwen Street

Clement Urges Solution To Pupil Problem

NASHVILLE, Tenn. (AP)—Gov. Frank Clement recommended today a voluntary pupil assignment plan for preserving racially segregated public schools in Tennessee.

In a speech prepared for a joint session of the legislature—his first public stand on the issue—Clement said he is making a "moderate" approach to the problem.

"I, for one, will not be a party to any action which would imperil our endanger the continued existence of our public schools," he said.

He recommended five specific acts he wants the legislature to pass:

1. A law allowing local school boards to maintain separate white and Negro schools for children whose parents choose for them to "attend school with members of their own race."
2. A law permitting local school boards to "place, assign and transfer" the pupils in their jurisdiction. The heart of the plan, this act would provide that local boards would base their decisions on "sociological, geographical, physical, psychological, fiscal, educational, and any other factors."
3. An amendment to the existing law authorizing pupils to be transferred from one school system to another.
4. A law permitting two or more boards of education to establish, maintain and operate schools jointly.
5. A law amending the present school statute to agree with the rest of the program.

Clement also disapproved of any changes in the present compulsory school attendance law, because "any weakening of these laws is likely to lead to serious abuses."

His program, he said, "is in harmony with and strengthens our present laws. It envisions no radical changes which would lead to the weakening, if not the destruction, of our present school system."

He spoke to a legislature which opened Monday and which already had before it two resolutions attacking the U. S. Supreme Court's ban on school segregation.

The first, submitted by Clement's top legislative aide denounced the decision as a usurpation of power by the court.

It also pledged the legislature to use all "honorable and legal means" to "resist any and all illegal encroachments upon the powers reserved to the State of Tennessee in order to control its own domestic institutions according to its own exclusive judgment."

Hike In GI Interest Would Hurt Some

WASHINGTON (AP)—An increase in the interest rate on GI home loans would make ineligible some veterans who could now qualify under income requirements for loans.

But business sources, discussing this today, contended that the present interest limit is making money for GI lending scarce even for veterans who can meet all requirements.

Veterans Administration officials said an increase from 4 1/2 to 5 per cent in the maximum permissible interest rate should make more money available for at least the next six months.

These officials declined to discuss whether President Eisenhower will recommend that Congress permit a higher interest rate but other sources indicated this was likely.

Both lending agency officials and government spokesmen have reported a lack of available money for lending at the 4 1/2 per cent rate, especially since the Federal Housing Administration authorized 5 per cent loans early in December. The FHA rate also had been 4 1/2 per cent.

Among other things, a veteran seeking a GI loan must show he can meet the required monthly payments. Under VA regulations, he must have about five times as much net take-home pay or income as the amount of his monthly loan repayment charge.

An increase of half a per cent in the interest rate would increase the monthly cost of loans by from \$2.70 for a twenty-year \$10,000 loan to \$4.50 for a 30-year \$15,000 loan.

Thus, the net take-home pay a veteran would need to qualify would be increased by from \$13.50 to \$22.50 monthly.

Fire Destroys Gasoline Truck

No one was hurt when a gasoline transport truck burned on the Snyder highway early this morning, but it took firemen from the city and Webb AFB to extinguish the blaze.

The driver of the Oil Transport Company truck said that the truck backed up and ignited side tanks. The tanks for hauling were empty.

Webb and city firemen were able to bring the blaze under control but only after the truck was destroyed.

The driver of the Oil Transport Company truck said that the truck backed up and ignited side tanks. The tanks for hauling were empty.

Luther Film Ban Blamed On Pressure

CHICAGO (AP)—Station WGN-TV has announced it will not reschedule the film, "Martin Luther," canceled during the Christmas holiday because of what the station called "emotional reaction."

A group of Protestant clergymen contended the film was canceled because of "pressures" brought by the "Roman Catholic Church."

The film, based on the life of Martin Luther who broke with the Roman Catholic Church in the 16th century and headed the German Protestant movement, was scheduled for a TV world premiere on Dec. 19.

MORE CAN GET FREE X-RAYS

Twice as many people could be accommodated as are taking advantage of the offer of free chest X-rays this week.

Figures released by the sponsoring Howard County Tuberculosis Association showed only 666 persons took time out Monday for the chest X-rays at the courthouse. The number increased to 989 on Tuesday. Only about five minutes is required. Free parking is provided on the south side of the courthouse.

Only four more days remain in which to have these pictures made as a safeguard against any unsuspected tuberculosis or perhaps other chest abnormalities. In past years thousands have indicated they feel it is good "insurance through insurance" just to know there is nothing wrong.

Legislature Whips Through First Bill

WASHINGTON (AP)—The first bill of the 55th Legislature was whipped through the Senate today—a \$2,300,000 measure to pay members salaries and expenses during the session.

It will have to be approved by the House.

Sen. Crawford Martin, Hillsboro, offered the bill. He later told newsmen the total, although higher than the contingency bill offered at the start of last session, was equal to appropriations made throughout the 54th Legislature.

Gov. Allan Shivers will address a joint session of both houses at 10:30 a.m. tomorrow in the House. It will be his final address to the Legislature after serving longer in the governor's chair than any man in Texas history.

Formalities of yesterday's opening ceremonies were completed today.

"The combination of improved working conditions, the commonsense approach and the determination which you already have displayed toward our problems and the spirit of cooperation and teamwork which I have found here convinces me that this House will take full advantage of its many opportunities to serve the people of Texas wisely and well."

Speaker Waggoner Carr told the House yesterday.

Legislators in both the House and Senate indicated a similar urge to get going.

Committee assignments mean a work start for legislators, but they won't have a full picture of their responsibilities for at least several more days. Gov. Shivers is expected to give his recommendations of needed legislation in a joint session scheduled tomorrow morning but Gov.-elect Price Daniel cannot present his definite legislative demands until after the Jan. 15 inauguration.

The opening at noon yesterday was smooth and rapid. Lt. Gov. Ben Ramsey rapped the Senate to order and Sen. Otis Lock of Lufkin, a close friend and advisor of Shivers', was unanimously elected president pro tem. After passing a few routine resolutions the Senate recessed until today.

In the House, Secretary of State Tom Reavley was in charge until all representatives took the oath and Carr formally became the new speaker. The House came back in the afternoon for another hour and a half.

Shivers' enthusiastically watched proceedings in the Senate, then slipped back into a back seat of the House where he was spotted and given a round of applause. Results of Carr's advance work among representatives were apparent even before he took the oath as speaker. Rep. Joe Chapman of Sulphur Springs announced that after a talk with Carr, he and other East Texas legislators were dropping their demands for early action on segregation legislation. Carr had said previously that all the major appropriation bills should be decided before other controversial measures were brought up.

Walks Out
 Rep. Wayne Hays (D-Ohio) walks out of an executive (closed) session of the House Foreign Affairs Committee in Washington which was discussing President Eisenhower's Middle-East plan. Hays denounced the "secrecy" he said was accorded to Secretary of State Dulles—"especially when Mr. Dulles' policy seems to be getting in hot water." At the time, Dulles and Admiral Radford were meeting with the committee, of which Hays is a member.

Two Pilots, B-57 Saved At WAFB

For saving a million-dollar airplane and crew during the height of Tuesday's dust storm, members of Webb's GCA (Ground-Controlled Approach) team are receiving official commendations in addition to the personal thanks of the saved crew.

Pilot of a B-57E bomber en route from Blytheville, Ark., to El Paso found himself in trouble when informed by the El Paso center that there would be a one-hour delay there due to weather and he diverted to Webb, his alternate base, only to find exceedingly bad weather here.

As he approached Webb, letting down from 20,000 to 2,000 feet, he was informed that visibility had dropped below minimum allowable for GCA landing.

Winds carrying heavy dust at 40 mph, with gusts up to 85 mph, were blowing across the local runway. A quick radio check revealed, however, that there was no better weather available within reach of the bomber's rapidly dwindling supply of fuel. The pilot declared an emergency and came on in.

The plane got down safely at all on the first pass at the field (an important factor with fuel-hungry jets which can gobble up hundreds of extra gallons in case of a missed attempt) was due to the skill of the GCA operators, S-Sgt. Kenneth E. Severance, chief of the GCA crew and A-3C George Schauf and A-3C Arden L. Prell, controllers.

"You have the finest GCA in the country," said Capt. Paul R. Pitt, pilot of the B-57. "Thanks to them, it's fine to be here. It was definitely a 'save' for two good pilots and a fine type aircraft."

The co-pilot, Capt. Claude P. Phipps, agreed, emphasizing "if we hadn't made it in, we would have had to have left it (bailed out). There was no place else to go."

Major B. R. Payne, Commander of the 1900th AACSS Squadron of El Paso, the local Detachment's parent organization, was present on a staff visit and commended the GCA operators for their fine work.

Commander of the local organization, the 1900-3 AACSS Detachment, is Capt. Oliver E. Rogers Jr. M-Sgt James R. Sage is non-Commissioned Officer in Charge of the GCA unit.

The B-57E bomber is the British "Canberra," a 600 m.p.h. class aircraft which has been adopted by the U. S. Air Force.

Boy Gets Fracture When Hit By Car

A 17-year-old boy was hospitalized with a fractured pelvis after being hit by a car Tuesday.

The boy, James Forrester, of 1500 Stadium, was hit by a car driven by Mrs. W. C. Jones, of 1800 Sycamore. The accident occurred at 700 Eleventh Place.

Forrester was taken to Big Spring Hospital for treatment in a Nalley-Pickle ambulance, and doctors treated him for the injury.

As at the hospital said this morning, however, that the fracture was not a serious one.

Texas Lawmakers Get Assignments

WASHINGTON (AP)—The reshuffling of committee positions by House Democrats gave five members of the Texas congressional delegation new assignments yesterday.

The five and their assignments are:

- Dowdy, judiciary; Rutherford, banking, along with the interior committee assignment he retains; Kilgore, public works, while retaining a position on government operations; Beckworth, post office-civil service; Young, merchant marine-fisheries.
- Other members of the delegation retained their old committee assignments.

Major Oil Buyers Join Price Rise

HOUSTON (AP)—All major purchasers of oil in the Texas, Mid-continent and Louisiana production areas except Shell had joined today in the first general increase in crude since 1935.

A spokesman for Shell Oil Co. said an announcement could be expected from that firm in from "one to four days."

Eden May Resign

LONDON (AP)—Prime Minister Eden went to Buckingham Palace tonight and reports were current that he is resigning.

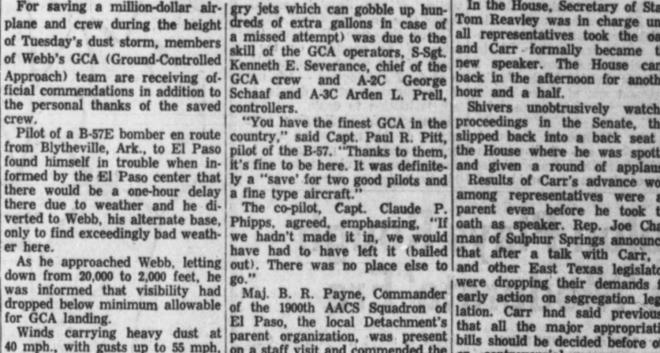

Measure Will Pay Salaries Of Legislators

AUSTIN (AP)—The first bill of the 55th Legislature was whipped through the Senate today—a \$2,300,000 measure to pay members salaries and expenses during the session.

TV Ban Lifted

AUSTIN (AP)—The House today overwhelmingly adopted a rule setting up machinery for live and filmed television and radio broadcasts of its proceedings.

Airmen Receive Thanks
 Capt. Paul Pitt and Capt. Claude Phipps, pilots of the B-57 forced down at Webb AFB Tuesday, give their personal commendations to the three ground-controlled approach technicians who brought them and their million-dollar bomber down safely. Left to right are S-Sgt. Kenneth Severance, Pitt, A-3C George Schauf, Phipps, and A-3C Arden Prell.

Dog Ordinance Gets Approval, Merchants' Patrol Authorized

City commissioners handled a host of matters at their meeting Tuesday night including approval of a new dog ordinance and purchase of a new pickup.

The third and final reading of the dog ordinance was approved and will take effect after being published in The Herald.

The ordinance gives the city permission to pick up a dog, considered rabid if the owner will not keep it penned for at least 10 days. Also the law carries a pound fee for any dog picked up.

This fee is \$1, plus 50 cents for every day or part of day that it is kept in the pound. The pound will be at the city warehouse. Also the ordinance provides that dogs must be vaccinated and registered every year; this was in the current ordinance.

The city purchased a six-cylinder 1957 pickup from the International Harvester Company for \$1,375 and trade-in. It was not purchased through Driver Implement, the Big Spring agent, since Curtis Driver is on the commission and is not eligible to submit a bid.

Only two other bids were submitted, from Tidwell Chevrolet and Jones Motor (on a Dodge). The International will be delivered immediately.

Floyd Moore and Rufus Davidson were given the go-ahead on a request to establish a merchants' patrol service. On Dec. 11, John Skelton, a Midland resident, approached the commission concerning a like system, but H. W. Whitney, city manager, told the commission Tuesday night that the supposed Skelton had given up on the idea.

Whitney said that the Midland police department could not recommend Skelton but the men running the merchants' patrol there at the present time were doing a good job.

W. E. Gilbert, the Midland man running the service there now, also requested authority to start a patrol here. However, the city felt that they would rather see Moore and Davidson, local men, have the

Humphrey Calls For Civil Rights Law

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) called on the 85th Congress today to assert "a claim on history" by passing "the first meaningful civil rights legislation in 80 years."

He said he held "high hopes" that the lawmakers will do just that, declaring that after many years of defeat and frustration backers of civil rights measures now have "an excellent chance" of success.

Humphrey's comments were made in a statement announcing he and a group of colleagues, both Democrats and Republicans, were introducing 13 civil rights bills topped by a measure to provide federal protection of voting rights.

He called that provision "the key to all the rest of our human rights objectives."

The measures include the civil rights program advocated by President Eisenhower, introduced in the Senate Monday by Sen. Dirksen (R-Ill.) and earlier in the House by Rep. Keating (R-NY).

The Eisenhower program also provides for court action to preserve voting and other rights, along with establishment of a civil rights division in the Justice Department and of a presidential committee to investigate civil rights.

Other Humphrey proposals would seek to end all discrimination in interstate transportation and employment, forbid poll

taxes, penalize lynching and provide other protections which, Humphrey conceded, have been considered at numerous lengthy hearings without becoming law.

Sen. Scott (D-NC) said that opponents of such legislation had won the first round in the civil rights battle last week by defeating a move to change Senate rules, but that "the 1957 war on the hot issue is far from over."

He told his constituents in a news letter that "the administration has the votes any time it cares to pick them up on a civil rights bill."

The House passed the Eisenhower program last year, but the legislation was blocked in the Senate. GOP leaders said after a White House conference yesterday that it was on their priority list for the present session.

Humphrey said in an interview that, in addition to the dozen civil rights bills, he also would introduce a resolution to declare one section of the Senate's filibuster rule unconstitutional.

Under the rule, it takes the votes of 64 senators or two-thirds of the entire membership to shut off a filibuster—the use of prolonged, dilatory debate to talk legislation to death.

Humphrey is challenging one section of this rule which specifically exempts proposals to change Senate rules from even this limitation on debate.

Solon Plays Rough In 'Moderate' Era

By JAMES R. SIBBISON
WASHINGTON (AP)—In an age of political "moderation," Ohio's Wayne L. Hays belongs to that small band of congressmen who stand up and say right out loud that they violently disagree.

In fact, Hays has gone even farther than that. On occasion, he has suggested fistfights.

At the moment, the 45-year-old Democrat from Flushing, Ohio, is castigating Secretary of State Dulles in particular and "too much secrecy in government" in general.

It is Hays' contention that Dulles is ducking public discussion of important questions on foreign policy by testifying in secret before the House Foreign Relations Committee.

"That, he said, is why he walked out of a hearing for Hays' views on the Middle East yesterday even though all the other committee members stayed.

Some committee members said little of a secret nature was brought out at the closed-door hearing, but Dulles, Chairman Gordon (D-Ill.) and others said the secrecy was necessary.

"I wasn't angry," Hays insisted today. "I just wanted to spotlight the fact that it was Mr. Dulles who got us into this impossible position in the Middle East.

But there have been occasions when Hays, to all appearances, really was angry.

Once, for example, he got up on the House floor and said he understood the chief of the immigration service, retired Lt. Gen. Joseph M. Swing, was trying to block his

efforts to adopt a 2-year-old German girl.

Said Hays: "I'll guarantee that if he does do that, when I get hold of him, he won't be physically able to hold the job from there on."

This almost caused a fistfight between Hays and Rep. Alfred D. Sieminski, a New Jersey Democrat who once served with Swing. Hays, incidentally, later did adopt the little girl.

On another occasion, Hays threatened to "punch in the nose" a spectator who criticized him for walking out of another hearing, a probe of tax-free foundations.

Then there were the times that Hays suggested the possibility of impeaching Secretary of Agriculture Benson, and denounced, on the floor, his fellow Democrat and former governor, now Sen. Frank J. Lausche (D-Ohio).

But all this, Hays insists, doesn't mean that he has a "chip" on his shoulder.

Conceding that it is "probably a fair statement" that he has a quick temper, he said that "my friends say it isn't as quick as it used to be."

"No," he went on, "it's just that what I feel I feel very vigorously. Perhaps I'm not always diplomatic."

Third Felony Charge Filed

A third felony charge has been filed in connection with the investigation into the burglary of the West Texas Congress on the north side of town.

Mingo Delgado has been named as defendant in a complaint alleging receiving and concealing stolen property.

Earlier Tuesday, charges of theft over \$50 had been filed in two cases naming Louis Ramirez and Felipe Arispe as the defendants.

All of the cases concern the theft of some \$300 worth of firefighting equipment taken from the premises. The loot named in the complaints included fire extinguishers, fog nozzles, and hose connectors.

City police said that the stolen articles have been recovered. Part of the equipment taken was said to be property of the city of Big Spring.

Inaugural Prayer Rendered For Ike

WASHINGTON (AP)—President Eisenhower, approaching his second inauguration, heard last night a new orchestral-choral rendition of his 1953 inaugural prayer.

"The President's Prayer," put to music by M. Robert Rogers, was sung by the all-Negro Howard University choir as part of a concert program by the National Symphony Orchestra.

The brief prayer was uttered by Eisenhower after he took the oath of office four years ago. The Chief Executive, accompanied by Mrs. Eisenhower, listened intently to the performance, the first public rendition of the score.

2-A Big Spring (Texas) Herald, Wed., Jan. 9, 1957

Motherless Children Are Given Away By The Father

MANISTIQUE, Mich. (AP)—The only trouble with Glen Lake's seven motherless children is that "there weren't enough to go around."

For two years after his wife died, Lake, a 36-year-old timber worker, labored to keep his young family together. Finally, he decided he couldn't do it alone.

He took his problem to the Schoolcraft County Probate Court and among the 200 residents of Little Thompson Township, eight miles west of Manistique, he found open hearts and open homes.

In fact, court aides explained, there were more homes than there were children.

At the court made public the terms this week, it also explained that most of the children had been living in foster homes since Dec. 10 and are all "getting along fine."

Lake asked the oldest child, a 15-year-old girl, to remain with him.

Three of the children—Lester, 12; Allen, 10, and Arthur, 7—

Why "Good-Time Charlie" Suffers Uneasy Bladder

Such a common thing as uric acid eating or drinking may be a source of mild, but annoying bladder irritation—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-excitation, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills.

Doan's Pills have three outstanding advantages—not in three ways for your speedy return to comfort. 1—They have an soothing effect on bladder irritation. 2—A fast pain-relieving action on nagging backache, headache, muscular aches and pains. 3—A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 15 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. Ask for new, large, economy size and save money. Get Doan's Pills today!

Conquest Of Space Begins In 1957, With U. S. Leading Way

By ALTON L. BLAKESLEE
AP Science Reporter

With roaring rockets, man begins his conquest of space in 1957. Scientists will continue test-firing the rockets designed to launch a little artificial moon out in space. Whizzing around the earth every 90 minutes, it will be the first man-made messenger exploring the puzzles and hazards of our next great frontier — space travel.

The first little "moon," about the size of a basketball, might even be launched within 12 months. You will be able to see it sometimes as a faint, fast-moving dot of light low in the sky at dusk or morning.

The satellite program will be just part of a wave of new scientific studies to learn more about our earth and universe during the International Geophysical Year beginning in July.

Scientists from 40 nations will cooperate in research to learn more about our weather and its control; about cosmic rays from space, about gravity, magnetism, the exact shape of our globe, the retreat or advance of glaciers, mysteries of the oceans, and about the sun which gives us life. In this line of duty, a handful of scientists will live for a year smack on the South Pole.

Many exciting expectations from science and medicine in 1957 will stem from achievements of 1956. Others will blossom unexpectedly.

As examples:

HEART DISEASE: Look for new surgical techniques to clean out the "rust" that clogs heart arteries and causes heart attacks. The first such surgery was done in October on two men, both victims of heart attacks. Research will also step ahead toward safe drugs to dissolve the dangerous rust, or prevent it from collecting.

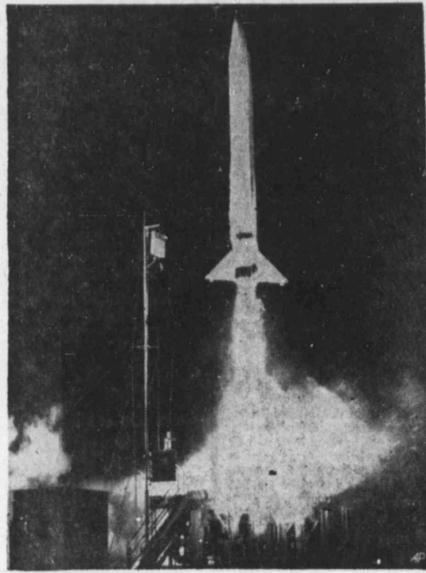

CANCER: Scientists will report new progress toward creating vaccines against cancer, and methods of increasing natural resistance to cancer. 1956 witnessed glimmering hopes along both these lines. It produced a few new drugs that hit cancers temporarily, and chemists will fashion still more.

COMMON COLD: Increased research in the coming year to find a sure-fire cold-stopper, but success is not just around the corner.

POLIO: Virtually no paralysis from polio in 1957, if everyone from children to adults through age 40 take polio shots. Polio paralysis was drastically reduced in 1956, and an abundance of vaccine was assured.

ANTIBIOTICS: In 1957, as in 1956, new antibiotics or combinations of them which strike at germs which have become resistant to older antibiotics. Also better antibiotics, to combat fungus diseases.

ATOMIC ENERGY AND H-BOMBS: A B-52 jet plane air-dropped an H-bomb over a Pacific atoll. Secrecy veils development of ballistic missiles with H-bomb warheads. The Atomic Energy Commission said means

First Step

The U.S. Navy fires an instrument-laden Viking to test the rocket which will carry the earth satellite on the first leg of its three-stage journey into space.

had been found to reduce the fallout created by H-bombs. Controversy raged over the degree of hazard to life and genetics from radioactive fallout. Research was intensified to pin down the answers.

Progress was hinted toward controlling the H-bomb or fusion reaction to create limitless power from hydrogen atoms in the sea.

PSYCHIATRY: A new "peace pill" appeared, and more drugs are

promised to control moods or combat mental illnesses. The big news could be discoveries concerning the biochemical nature of mental health and illness, and remedies for mental ills.

ASTRONOMY: Mars paid its closest visit in 32 years last September. From study of photographs taken then, astronomers should help answer questions about life and the "canals" of our neighbor planet.

East Texas Crops Improve

AUSTIN (AP)—Small grains, winter cover crops and native pastures improved in East Texas during the week ending Monday, the U.S. Department of Agriculture reports.

The USDA said yesterday although the agricultural picture is brighter in parts of the state, large areas of the plains, the plateau, trans-Pecos and South Texas are still critically dry. General statewide rains would be helpful, it added.

Light showers in the Panhandle were enough to boost hopes but were too little to provide real benefit to dryland wheat and other small grains.

Grain fields are providing some pasture, but supplementary feeding is still required, the USDA reported.

In areas that received December rains, small grain pastures are providing some welcome grazing. Many stock tanks are fairly well filled.

Despite some improvement, cattle in these areas are still being fed. Elsewhere, grazing is non-existent except on irrigated high plains wheat pastures. The department said livestock are in fairly good condition as a result of an extremely heavy feeding program.

CAP To Aid Hunt For Missing Plane

CORPUS CHRISTI (AP)—The Civil Air Patrol planned to throw 35 planes in a search today for a Navy F9F Panther jet trainer which disappeared yesterday.

The pilot of the plane was identified as Lt. (jg) Thomas J. Rochford of Colon, Neb., a flight student.

Some 21 planes searched as far as 100 miles into the Gulf of Mexico yesterday without finding a trace of the aircraft.

Ex-Fiance Shoots Coed, Then Turns Gun On Himself

VERMILLION, S.D. (AP)—A University of South Dakota coed was shot to death at her home last night by her former fiance, authorities said. The young man then shot himself in the temple. He died early today.

Jeanne Bruyer, 21, a drum major and campus beauty candidate, was shot by Donald Steele, 20, a sophomore at the university, Clay County State's Atty. Theodore Dolney said.

Steele, son of Dr. D. S. Steele, Robbinsdale, Minn., veterinarian, died at a Sioux City, Iowa, hospital.

Miss Bruyer and Steele were engaged until a month ago when she broke off the engagement. The Bruyer family priest said. Steele had roomed at the Bruyer house until just before Christmas.

The priest said Steele had "mistreated" Miss Bruyer. He did not elaborate.

Howard Connors, university

dean of men, said Steele, a 1955 graduate of Atlantic City (N.J.) High School, had an "emotional problem," and had been advised to go home before Christmas.

Mrs. Evelyn Bruyer said Steele had telephoned her daughter four times yesterday, then went to the Bruyer house about noon. She said she told him he could see Jeanne once more if he promised not "to bother her any more."

She said she was in an adjoining room when she heard her daughter ask Steele last night, "Where did you get that gun?" Before she could act, she said, the shots were fired.

Elvis Gets High Rating

MEMPHIS, Tenn. (AP)—It's a Class I-A rating for Elvis Presley, the rock 'n' roller now awaiting an invitation from Uncle Sam to join the Army.

Presley recently was given a pre-induction examination, and the Army said yesterday that he passed with flying colors.

"Physically he's an A-profile, and that's as high as you can go," said Capt. Elwyn P. Rowan, commander of the Army's recruiting station here.

The teen-age idol's mental rating "was about average," added Rowan.

Draft Board 86 gives the official classification, but the board so far hasn't received Presley's test scores. They're in the mail, however, Rowan said.

The quota Draft Board 87 must fill will determine the date of Presley's draft. By law he can't be called for at least three weeks after his examination. Recently it became the practice to allow six to eight months before draft notification.

"I'll go when they call me," the singer said after taking his physical Friday.

Texas Freed From Prison

NASHVILLE, Tenn. (AP)—Leslie N. Brian, 31, who was convicted in 1954 of killing an ex-convict who attacked him in Memphis, was a free man today with a commutation from Gov. Frank Clement.

His father, Hardy L. Brian, 57, met him in the prison hall, threw his arms around him and said: "Well, look here."

In the prison records office his wife, Bette, 28, rushed into his arms, and whispered, "Don't ever let me go."

"Hi, Daddy," came a shy voice from behind the door. Brian looked around, picked up his 2-year-old daughter, Virginia, and said "Hi, baby."

It was the first carefree moment Brian, of Irving, Tex., had had with his family since he fired three .38 bullets into Willard Johnson of Dallas in a Memphis motel Sept. 12, 1953.

Brian contended he had placed the man under citizen's arrest for stealing from vending machines which Brian was servicing for his father.

The man attacked him, Brian said, and he shot him. The state contended Brian did not have to shoot to ward off the man's attack. He was convicted of voluntary manslaughter.

Marie Puts Name On Crime Report

LOS ANGELES (AP)—Marie McDonald's signature is on a police crime report today, the law's summary of her account of being kidnaped from her Encino home and pushed out of a car on a desert highway 24 hours later.

Once again there was a Hollywood touch to the latest incident. The signing had some of the flourishes of a movie contract agreement ceremony.

Detectives took the report to the actress' home. She received them in her living room late yesterday. She wore a silver brocade Mandarin robe with jeweled collar, not to be confused with the robe she was wearing when she said she was kidnaped last Tuesday night, nor the one she wore for a Hollywoodish, police-directed, filmed re-enactment at her home Monday.

She gestured with a long, gold cigarette holder. At her shoulder, studying the document, proof-reading it and making a few minor penciled corrections, was the watchful legal expert in criminal law, Atty. Jerry Giesler.

She signed, with Giesler's permission.

Later she leafed through two large volumes of assorted pictures of 300 known criminals, pointing out facial characteristics of some similar to the physiognomies of the two men she said snatched her and let her go late Friday night, 150 miles away near Indio, Calif.

From her descriptions, police artist Ector Garcia is making up composite sketches supposed to look like the alleged kidnapers.

1956 Was A Record Construction Year

WASHINGTON (AP)—Americans spent a record 44 1/2 billion dollars on construction in 1956, setting a new money peak for the 10th successive year.

The report was made today by the Commerce and Labor departments, which have predicted construction activity will soar to a new 46 1/2-billion-dollar peak in 1957.

In 1955 expenditures totaled just under 43 billion dollars — 30 1/2 billion for private construction and \$12,400,000,000 in public building.

The physical volume of new building in 1956 was 2 per cent below the unprecedented 1955 level. This indicated that construction dollars brought less, with costs being somewhat higher than in 1955.

Industrial construction passed the three-billion-dollar mark for the first time in history, but home building investment declined by 10 per cent, from 15 billion dollars to 13 1/2 billions.

The government report said housing mortgage demands had to compete increasingly in 1956 "with the heavy demands for funds from many other sectors of the economy."

"Even so," the report said, "the 13 1/2 billion dollars of new private housing put in place in 1956 was second only to the extraordinary volume of the previous year."

"The comparatively high level of home building in 1956 reflects in part the continuing pressure of a sustained demand for larger and better equipped homes, backed by rising incomes; a steadily increasing and highly mobile population; and accelerated

rehabilitation of urban centers."

Virtually all categories of private construction activity gained in 1956 other than housing, farm construction and hospital building.

Private construction expenditures combined totaled \$30,800,000,000 in 1956, only a little above the record 1955 figure. But public construction rose 3 per cent to a new high of \$13,400,000,000.

Choir Clinic Set At H-SU

By The Associated Press

Skies were clear to partly cloudy over Texas Wednesday, but a slow-moving cold front was due to strike the Panhandle and North Texas Wednesday night, bringing freezing rain and snow.

Predawn temperatures Wednesday ranged from 46 at Salt Flat to 68 at Galveston. San Antonio reported zero visibility due to a heavy fog and there was some dust at Wichita Falls and Snyder.

The cold front was not expected to strike in full force until daybreak Thursday, the U.S. Weather Bureau said.

The forecast, however, called for occasional rain changing to freezing rain in the Panhandle. The Weather Bureau said temperatures would drop as low as 10 degrees in parts of West Texas.

The front was located in Kansas early Wednesday.

Program Cover

C., views the design for the official program at President Eisenhower's inauguration Jan. 21. The cover design, the work of artist Norman Rockwell, bears the images of the Chief Executive and Vice President Richard Nixon.

Kefauver Balked On Committee Post

WASHINGTON (AP)—Sen. Kefauver of Tennessee, the 1956 Democratic vice-presidential nominee, has been balked again in his efforts to get a seat on the powerful Foreign Relations Committee.

Instead the spot goes to Sen. Kennedy (D-Mass.), who has four years less seniority than the Tennesseean. Kefauver won the second place on his party's ticket last August by edging Kennedy in dramatic balloting at the Democratic convention.

Democratic committee assignments were decided yesterday in a closed-door session of the Democratic Steering Committee. The meeting was not announced in advance and Kefauver said he was unaware of the session.

"I am disappointed," he told a reporter when informed of the action. He has sought before to get assigned to the foreign relations group.

The 15-member Steering Committee is headed by Senate Majority Leader Lyndon B. Johnson of Texas, who opposed Kefauver's convention bid last summer. Johnson said the Steering Committee decisions were unanimous.

Kefauver said he did not "blame Sen. Kennedy for trying to better his position."

"But I am interested to learn that apparently seniority is a rule that may or may not be applied by the Senate leadership in deciding the rights of senators."

One party leader who asked not to be quoted by name said geographic considerations played a part in Kennedy's selection, as did the fact that the Massachusetts senator never before has been given a committee of his choice.

It was learned from one committee member there was a separate roll call on the Kefauver-Kennedy contest with the Massachusetts senator the unanimous victor.

Oil Men Score Europeans For Charges U. S. 'Holding Back'

FORT WORTH (AP)—A group of Texas oil associations yesterday made a case for Texas producers who have been charged by some Europeans with being partially responsible for oil rationing and higher consumer prices in Europe.

A statement was released by representatives of these associations:

Texas Independent Producers & Royalty Owners Assn.; West Central Texas Oil & Gas Assn.; North Texas Oil & Gas Assn.; Panhandle Producers & Royalty Owners Assn. and the East Texas Oil Assn.

The statement said the governments of "some European countries, together with some large companies, have sought to resist oil products shipments which do not coincide with their desires."

The independents contended that rationing and price hikes were instituted by some European governments to discourage use, but citizens were allowed to believe it was because the United States was denying them oil.

The independents pointed to an import duty hike of 14 cents per gallon on gasoline instituted Dec. 4 by Britain.

They said this was evidence of her insistence upon "resisting gasoline from the United States."

The independents offered to put buyers in touch with independent refiners and others who would, they said, gladly ship at least 50 cargoes of motor fuel to Europe. They said gasoline could be laid down at European ports at about 20 cents a gallon, contrasted with the approximate 84 cents per gallon charged to European consumers.

The statement said the independents did not deny oil for a true market either here or abroad. It said they simply opposed allowable increases recommended by what they termed "a few large purchasing companies with selective markets, which did not represent true market demand."

Continued "excessive imports"

Baylor President Favors Jr. College

DALLAS (AP)—Dr. W. R. White, president of Baylor University, said yesterday he favors establishment of a Baptist Junior College in Dallas.

White was in Dallas for a conference to discuss plans for the proposed school.

A spokesman for the group of Baptist leaders said they decided that the Junior College definitely would be affiliated with Baylor University.

The Dallas Baptist Assn. was asked to frame a formal request to the Baylor Board of Trustees asking the Baptist General Convention of Texas to establish a branch of Baylor in Dallas, the spokesman said.

Daniel Due To Leave For Houston

WASHINGTON (AP)—Sen. Price Daniel (D-Tex) was due to leave for Houston today after calling on President Eisenhower yesterday—one of his final acts before taking over as governor of Texas.

Daniel's resignation as U.S. senator becomes effective Jan. 15, the day he will be inaugurated governor.

Daniel said he thanked the President for his plans to fly to Texas to inspect drought conditions. He said he told the President he would find conditions as bad as reports have indicated.

Daniel said he will call a special election at the earliest practical date if the matter of calling one to elect his successor is left to him. Gov. Allan Shivers could call a special election, acting between 12:01 a.m. and noon of Jan. 15.

Daily Oil Average Up

TULSA (AP)—The nation's daily average crude oil production rose 77,315 barrels during the week ending Jan. 5 to 7,395,540 barrels daily. The Oil and Gas Journal said

today total production for the first five days of the year was 36,977,700 barrels compared with 25,985,435 last year. Colorado was up 4,500; Louisiana up 48,250 to 945,250; New Mexico, up 2,500 to 248,850; Oklahoma up 15,200 to 631,600; and Texas, up 12,250 to 3,070,150. Arkansas was down 50 barrels to 77,650.

Natural Resistance To Cancer Indicated

By ALTON L. BLAKESLEE
AP Science Reporter

NEW YORK (AP)—Healthy persons apparently have a natural resistance against cancer which is lost when the disease develops, two researchers reported today. The indication comes from experiments in which cancer cells were injected under the skin of human volunteers, some healthy, and some dying of cancers. The experiments—carried out without danger to the human volunteers—may yield clues to the mechanism by which normal tissues are changed to become malignant.

cells, and 14 with true cancer cells. No tumorous cells appeared in those given the cultured cells, but tumor cells did appear in four of the 14 receiving true cancer cells. These nodules were removed without harm to the volunteers.

Fliers Bail Out Of Jet Trainer

The work was described to a conference on viruses sponsored by the New York Academy of Sciences in honor of the 65th birthday anniversary of Basil O'Connor, president of the National Foundation for Infantile Paralysis.

Doctors Alice E. Moore and Chester Southam of the Sloan-Kettering Institute for Cancer Research, New York, inoculated the volunteers both with true cancer cells, and also with once-normal cells which had been grown artificially in tissue culture. The normal cells had changed under culturing to resemble cancer cells. When cultured cells were injected under the skin of cancer patients, seven developed tumors, while three did not. Nodules appeared for a time in another three.

Then three healthy humans were inoculated with cultured

WACO (AP)—Two Air Force officers bailed out of a new type jet trainer yesterday when the plane went out of control and crashed about 16 miles northeast of here.

Maj. Roscoe Crownrich of Fort Worth said he was piloting the T37 jet trainer when it went into a spin and he couldn't pull out of it. He was reported in serious condition at Lackland AFB Hospital in San Antonio. He suffered cuts and lacerations on the face and head.

His companion, Capt. Clyde O. Armstrong, Waco, was not believed seriously hurt. Maj. Crownrich said he was head of an Air Force project evaluating the aircraft. He was first treated at a hospital in Mexico and was later transferred to the Air Force hospital.

Son To Pinch-Hit For Dad's Band At Inauguration

LUBBOCK (AP)—A reunion between father and son will take place Tuesday when Texas Tech's Red Raider Band journeys to Austin as the official band for the inauguration of Price Daniel as governor. Prof. D. O. Wiley, director of the Tech band, will share honors with his son, Charles A. "Pete" Wiley, who is director of the Lamar Tech band from Beaumont. Because of the distance from Austin to Lubbock, the Tech Band will leave Austin immediately after the inauguration ceremonies and Pete Wiley's band will pinch-hit by playing for the governor's inaugural ball Tuesday night in The University of Texas' Gregory Gym.

A BRIGHTER FUTURE

You too can look forward to a worry-free future if you meet all your obligations on time, every month. Whether you buy on open account or budget, your bills are due by the 10th of the month. Meeting these payments on time will insure your future credit, allow you to buy the items you need and want for a better life.

BORDEN COUNTY'S SHERIFF REEDER
... he never has shot or hit a man

Borden Sheriff May Set Mark For Years In Office

By JESS BLAIR

When Sid Reeder was sworn in as sheriff of Borden County again the other day, the onlookers might have excused him if he had yawned just a little.

Ho-hum. Eighteen years toting the same star could get to be monotonous if a man didn't like the work.

However, Sheriff Reeder is just as alert as when he started his first elective term back in 1939. If he serves the full four-year term just starting, he will probably set a new record for Texas. As far as can be learned, he has already served more consecutive years than any Texas sheriff now in office.

Reeder actually started his law enforcement career back in April, 1937, as deputy sheriff. He ran for the head office in 1938, and since then has had only three opponents — in 1946, 1954 and again in 1956.

REARED ON RANCH

Reeder came by his politics quite naturally. He was born and reared on the family ranch east of Gall. The elder Reeder served as county commissioner several years and then later became county judge.

Sheriffing in Borden County is not too difficult, Reeder says, because crime just doesn't flourish there.

"At least 98 per cent of the lawlessness comes from outsiders," he said. "Most of our people own their own homes and are just not the kind to cause any trouble. Why, we have gone for three or four years without even calling a grand jury."

Back about 10 or 12 years ago there was a little more activity by the criminal element, but now things are very quiet, which is the way Reeder wants it to be.

He does have a good jail, though, if he ever needs it. It was remodeled last summer, and with its thick stone and steel walls is strong enough to hold a Brahma bull. It hasn't been tried out much, but four empty cells are awaiting anyone who wants to sample its conveniences.

SERIOUS ABOUT JOB

Reeder takes his duties seriously but without worry. He handles the big ranching county by himself, though he does have an office deputy, Miss Sadie Smith, who keeps the records and serves as receptionist.

"I've been mighty lucky," he said. "In all those years I've never had to use a gun or hit a man. It's the one part of my record here I'm proud of, and I hope I can say the same thing when I finally leave."

Reeder says his closest call came two or three years ago when he was returning home from Big Spring. He passed a man who was driving along slowly and acting strangely. He kept watching the sheriff but tried to stay out of sight at the same time.

Sensing something was wrong, Reeder stopped and approached the other man's car. He introduced himself, only to have the other fellow call him a liar.

"I know Sid Reeder well," the man said, "and you're not him. Just who are you anyway, and what's the idea of stopping me like this?"

Reeder saw the man was getting excited, and he kept fumbling with something down on the seat beside him. Reeder suspected trouble, so he jerked open the door just in time to grab a pistol in the man's hand. In searching the car, he also found a high-powered rifle.

POTENTIAL KILLER

He carried the suspect to Gall, confiscated the guns and set the man free. When the man returned for his weapons a few days later, Reeder had received a pick-up call from the sheriff's department at Snyder, and arrested the man. The prisoner was a paroled mental patient and was later returned to the state hospital at Wichita Falls.

"That could have been it," Reeder said. "The man definitely had something wrong with him and would have killed someone if we hadn't picked him up."

Since then things have gone smoothly in Borden County. The country is thinly settled and few people live there, but someone must keep order. Even if it is not a hard job, it's an important one. And thus far the residents seem to be well satisfied to leave the law enforcement in Reeder's capable hands.

If there is any criticism, it hasn't been reflected at the polls where he has won handily for 10 consecutive terms.

First National Names New Cashier, Angel Is Made V-P

Changes in official personnel of the First National Bank were announced following annual meetings of stockholders and directors Tuesday afternoon.

Clyde Angel was advanced from cashier to vice president, to fill a vacancy occasioned by the death of Ira L. Thurman.

New cashier of the bank will be Jack I. Davis, who is to assume duties January 16. Davis is resigning as vice president of the First National Bank of Evant, Coryell County, to take the position here, and prior to joining that institution was for several years an assistant national bank examiner.

Directors accepted the resignation of Mrs. Stella Mae Hayworth as an assistant cashier. Mrs. Hayworth, who has been an employe and officer of the bank for many years, is moving to California.

All directors were re-elected, at the stockholders meeting. These are Robt. T. Piner, R. V. Middleton, H. H. Hurt, Hardy Morgan, T. J. Good, L. S. McDowell Jr., G. H. Hayward, Horace Garrett, R. L. Tollett and J. Mark McLaughlin. The directorate held by the late Mr. Thurman was not filled.

Re-elected by directors were these officers: Piner as president; Middleton, Hurt, Garrett and Mrs. Reba Baker, vice presidents; and Mrs. Faye Stratton, assistant cashier.

For the 55th consecutive year, a member of the Morrison family administered the oath of office for the directors and officers. Walton Morrison some years ago took up the rites that had been conducted by his late father and uncle.

CLYDE ANGEL
... gets promotion

State National Heads Re-Elected

Directors and officers of the State National Bank were all re-elected at annual meetings of stockholders and the board Tuesday afternoon.

Continuing on the board are Bernard Fisher, Merle J. Stewart, A. L. Cooper, Robt. W. Currie and Temp S. Currie Jr.

Officers were re-elected as follows: Robt. W. Currie, president; Edith Hatchett and Temp S. Currie Jr., vice presidents; C. M. Havins, cashier; and Ima Deason, Fred Haller and John Currie, assistant cashiers.

Rotarians Told Enthusiasm Necessary In Building City

Leadership, regardless of its enthusiasm and its vision, is not enough to build cities, Sam Blackburn, Big Spring newspaperman told the Big Spring Rotary Club on Tuesday.

Leadership, if it is to succeed in its program must be able to transmit its enthusiasm and faith to the people in such a way that the masses will rally to the support of the plan, the speaker said.

He told the story of Nehemiah and how the militant leader of the ancient Jews rebuilt the city of Jerusalem as an illustration of the kind of enthusiasm a community must have and maintain, if it is to grow and prosper.

Adolph Swartz was program chairman for the day.

Rad Ware, chairman of the current March of Dimes program in this county, urged support of the drive for funds to battle polio, and a film produced in cooperation with the Casden Petroleum Corporation, depicting local work to aid children left crippled by polio, was screened. Dewey Mark presented the film.

The meeting was first of the club sessions since the close down for the Christmas and New Year holidays.

CONSTIPATED? new laxative discovery un-locks bowel blocks without gag, bloat or gripe

Constipation is caused by what doctors call a "thirty" colon. A "thirty" colon is one that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the urge to purge that propels and expels waste from your body.

TO REGAIN NORMAL REGULARITY two things are necessary. First, the dry, shrunken contents of your colon which now block your bowel must be re-moistened. Second, bulk must be brought to your colon to S-T-R-E-T-C-H STIMULATE it and so, excite its muscles to action; to a normal urge to purge.

ONLY A BULK LAXATIVE can 1) re-moisten this dry, shrunken waste and 2) supply vital bulk to re-create a normal urge to purge. And, of all bulk laxatives, COLONOID, the amazing new laxative discovery is so effective that it relieves even chronic constipation overnight, yet is so smooth, so gentle it has been proved safe even for women in the most critical stages of pregnancy.

SUPERIOR TO OLD STYLE bulk, salt or drug laxatives, COLONOID neither gags, bloats nor gripes; does not interfere with your absorption of vitamins and other valuable food nutrients; and in clinical tests, did not cause rash or other side reactions.

IT'S A PHYSIOLOGICAL FACT! Exercise tones your body! And COLONOID exercises your colon to tone it against constipation, overnight! Whether occasional, frequent or chronic, whatever your degree of constipation, get COLONOID, in easy-to-take tablet form at any drug counter, today! The price, only 98¢ for the economical 60 tablet package, brings you positive relief at less than 2¢ per tablet.

District P-TA Conference Set Here For Next March

The spring conference for District No. 16 of the Texas Congress of Parents and Teachers will be held in Big Spring, on some date late in March, Mrs. A. C. LaCroix, president of the P-TA City Council, announced Tuesday.

At the council meeting, Mrs. J. W. Forrester was appointed general chairman of the conference planning committee. Co-chairmen will be Mrs. Buford Hull, Mrs. E. L. Whitley and Mrs. W. N. Norred.

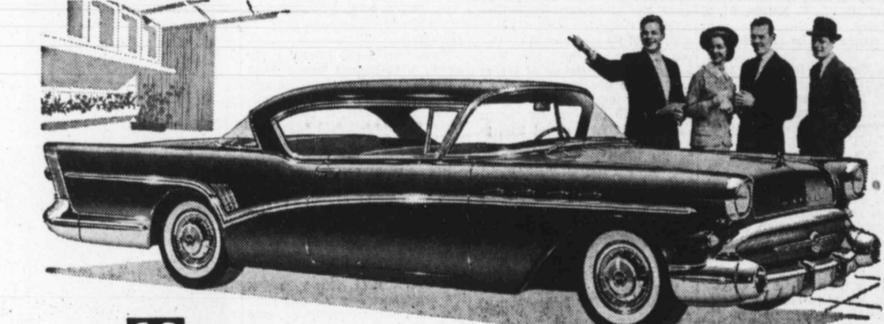

The council also approved plans for a Founders' Day tea to be held Feb. 15 with all local P-TA units participating. Time and place for the tea also will be determined later.

Mrs. G. L. Gahman, general chairman of the defense savings stamps program in the city elementary schools, announced that pupils have purchased \$1,194 in savings stamps since the project was initiated in November. Out of a potential 2,630 students, 2,225 have bought stamps.

Mrs. E. P. Driver, chairman of the Mothers' March on Polio, told the council that the "march" this year will be held Jan. 31. The council voted to assist.

Mrs. Jack Irons, chairman of the Exceptional Children's Committee, presented a program on that phase of P-TA work in Big Spring. Speakers were Mrs. George Bass, secretary of the local Society for Crippled Children, and Miss Bo Bowen, city-county health nurse.

Top Click of the New Car Season

WANT TO GET your New Year off to a rollicking start?

Want to take the wheel of the car that's winning raves from Coast to Coast and back again?

Then take the wheel of a 1957 Buick and try the sparkling-new performance team in all autodom.

We mean the team with the highest-powered V8 engine ever to ginger a Buick — and an advanced new Variable Pitch Dynaflo.*

Here, with just a judicious touch of foot to treadle, you get response so obediently instant, so liquid smooth, and so full range in "Drive"—that you've never in your life felt anything like it.

It's sports-car going in a full-sized traveler that's sheer delight from start to finish.

Know what else?

Folks like the way this new kind of performance comes dressed in sleek and glamorous styling that's fresher than tomorrow's news.

They like the new roominess inside these low-sweep Buicks and the new luxury of their "nested" ride.

They like the new ease of handling, the new steadiness of cornering, the way stops are always on the level no matter how quickly you use the brakes.

Fact is, folks like everything about the newest Buick yet—the car that's fast becoming the biggest hit of the new car year—and you will, too. Come on in and try it this week. We'll have the red carpet out for you.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

SAFETY REMINDER

In fast-moving traffic on turnpikes, parkways and freeways, keep a good distance from the car in front—and a little more for good measure. That way you, and every driver behind you, get a bigger margin of safety for braking action.

Knowland Move Surprising; Few Leave The Senate Readily

By ARTHUR EDSON
 WASHINGTON, Jan. 9 (AP)—Normally no one leaves the Senate unless he dies, wears out, or is soundly beaten at the polls.

That's why the announcement by William F. Knowland (R-Calif.), hearty and vigorous at 48, that he will have had it when his term runs out in 1959 is so surprising.

To be sure, there may be ambitious reasons behind Knowland's decision. The reports say maybe he's looking at the governorship of California and, beyond that, the presidency.

If that is true, Knowland appears to be taking the wisest course. For Congress never has been much of a direct springboard to the top job.

George Stimpson, who went into such things in his "Book About American Politics," found that while many presidents have had congressional experience not one was elected directly from the House. And only Warren Harding and Harry Truman made the jump from the Senate to the White House.

The last election shows how rare it is for a senator to leave under a full head of steam.

Six senators did not choose to run. But three of these had interim appointments. No one had ex-

pected Robert Humphreys (D-Ky), William R. Laird (D-W. Va) or Thomas A. Wofford (D-SC) to try for the seats they had held so briefly.

The other three who quit voluntarily were Eugene Millikin (R-Colo.), Walter F. George (D-Ga.) and Herbert Lehman (D-NY). Millikin was only 65, youthful by senatorial standards set by Sen. Theodore Francis Green (D-R.I.), still frisky at 89. But Millikin had been crippled by arthritis.

George and Lehman both are 78, and in addition George had formidable opposition from Herman Talmadge, who succeeded him.

Yet here is Knowland, 30 years younger, saying he will join them. Knowland's habits add to the

Tooth Maker

LITTLE FORT, B.C. (AP)—Frank Wharton, a local gunsmith, thought false teeth were too high so he got his for a buck—and kept the buck, too. He shot a buck deer, fashioned a set of chompers from its teeth, then ate the deer.

Uncle Ray:

Nelson Had Fight Against Polar Bear

By RAMON COFFMAN
 When Horatio Nelson was a youth in his teens, he made a voyage to the Arctic, and there had a fight with a polar bear. His gun was empty when he came to close grips with his foe, but he managed to hold off the animal by striking it with the butt.

Young Nelson struck with the butt of his gun.

Sailors came to the rescue and saved the youth from death. Otherwise there would have been a difference in British history. A lad destined to be a naval hero would have been lost. As an admiral, Nelson was to lead his fleet to victory over Napoleon's sea forces at Trafalgar.

Nelson's escape from the polar bear took place almost 200 years ago. An adventure of a different kind happened during the present century and was described by Felix Riesenberg. Here, in short form, is the account he gave after his return from the Arctic:

"Morton was on duty as cook and was roasting pieces of ham over the glowing coals. Paul and I sat nearby, waiting to place the morsels between pieces of hard-tack to make sandwiches. On the stove we had a pot of coffee, steaming merrily.

"After eating, we crawled into our sleeping bags. Suddenly we heard sharp claws scratching the frozen tar paper on the roof. Then

there was the thud of a heavy falling body.

"It was a polar bear! We rushed out into the night, and I sent two shots after the big white fellow.

"The bear had nosed his way up the slanting roof of our lean-to until he reached the chimney. He had smelt the ham, but smoke from the chimney must have got into his eyes, causing him to slip to the ground."

That bear returned late, and was shot. Thanks to this game, the white men in the Arctic were helped through a hard period.

surprise. He's a big man—6 feet 1, a hulking 200-pounder—but he has none of the big man's habits in motion.

Most big men give the appearance of moving slowly. Knowland is like a ponderous truck powered by a racing engine. Always he seems in a hurry.

Come to think of it, you might say his decision, at 48, to quit the Senate is right in character. There, too, he looks like a man in a big hurry.

State Of Union Talk Planned

WASHINGTON (AP)—President Eisenhower reportedly has agreed only at the urging of congressional leaders to deliver his State of the Union message to Congress in person tomorrow.

And his decision to trim his message to the bare essentials of his legislative program was reported to reflect his personal belief that Congress is in no mood to listen to a long recital of the administration's aims.

The President was said to be somewhat reluctant to make another personal appearance before the lawmakers so soon after his Saturday address on the Middle Eastern situation.

Leaders of both houses had urged him to do so to preserve tradition. He was said to have replied, however, that this tradition goes back only as far as the administration of Franklin D. Roosevelt.

Eisenhower was reported to feel that his position is well known and doesn't need enlargement on many of the issues before Congress, and that the address should be limited largely to what he regards as issues requiring immediate attention.

White House press secretary James C. Hagerty announced yesterday that, in contrast with past years, Eisenhower will speak for only about 30 minutes. Hagerty said the message would consist mainly of "a review of the domestic and international scene, and will make only a few legislative recommendations on a few subjects."

Other proposals will follow in later messages.

Lost 35 Pounds With Barcentrate

Mrs. F. M. Barfield, 1218 Ave. B, Orange, Texas, wrote us that she lost 35 pounds taking Barcentrate. Barcentrate is the original grapefruit juice recipe for taking off ugly fat.

Get Barcentrate from any Texas drugist. If the very first bottle doesn't show you the way to take off weight quickly, easily and without starvation diet, return the empty bottle for your money back.

Nearly seven million bottles sold in Texas in 15 years.

WHITE Super Deluxe

RAYON TUBE-TYPE OR TUBELESS TIRES

Guaranteed 18,000 Miles!

ELECTRONICALLY PROCESSED RAYON CORD BODY

Why is the White Super Deluxe the right tire for your automobile? Because it is precision-engineered and road-tested for durability and dependability. Because it combines a 100% Cold Rubber Tread with one of the most important tire developments of the century... an electronically processed rayon cord body. Each cord is dipped in chemical-rubber solution to maintain extra strength... all cords are tension-processed, work as one super-strong unit for smoother riding... weak spots are eliminated, giving improved safety and tough blowout resistance... balanced cord strength and Cold Rubber Tread mean longer mileage.

Here comes the Blue Chip line of trucks:

GMC's BIG 1957 MONEY-MAKERS

With new V8's to 232 hp

With 4- and 6-wheel models to 60,000 GCW

With advanced Hydra-Matic Drive*

New cabs with 89" b.b.c.

THESE '57 GMC's are going against the amazingly low cost records set by their famous '56 versions.

But—as you can see—they've got plenty to smash those records with!

In fact, these Blue Chip advantages are in 36 models that can be practically custom-built for their jobs. What you need, we sure have got. Call us—and we'll have a man over to prove it!

*Standard on some models; optional at moderate extra cost on others

Wrecked Airliner

This is the two-engine American Airlines plane that crash-landed six miles north of Tulsa, Okla., on a woody hillside farm. A 70-year-old Tulsa woman, Mrs. Nell Tobler, died in the crash. Nine others were hospitalized. The plane landed in pancake fashion after shearing tree limbs. Wings and motor were crumpled. In the center background is the radar tower and check station house on the approach to the airport. The plane was about 30 yards west of the radar beam when it crashed in fog and rain.

China, East Germany Reaffirm Russia As Communism Leader

MOSCOW (AP)—Premier Chou En-lai of Red China and the leaders of Communist East Germany have reaffirmed their countries' support of the Soviet Union as the leader of the world Communist movement.

Chou also extended his visit in Moscow an extra day, until Friday. Presumably he or the Russians want more consultations before Chou goes on to Poland and Hungary, two countries where the Kremlin's leadership has been challenged.

(Moscow radio reported talks between Soviet and Chinese Communist leaders continued at the Kremlin today. The broadcast said only the conversations concerned "the further development of friendly relations and cooperation between the U.S.S.R. and the People's Republic of China.")

The keynote in Moscow was Communist solidarity against alleged attempts of the West to drive a wedge into the Red world.

The East German delegation

went home after joining Soviet leaders in a party declaration that the two nations would stick together against "imperialist reaction." This, they said, "recently increased attempts to drive a wedge in the ranks of the Socialist (Communist) states with a new wave of anti-Communist hysteria and provocation aimed at sowing distrust in the policies of the Socialist camp."

Chou, who arrived Monday, con-

ferred with Ulbricht and also met at the Kremlin with Soviet leaders. An official announcement said the private talks ranged from Soviet-Chinese relations to "the international situation as it affects both countries."

Red China already had endorsed the Soviet Union's strong action against the revolt in Hungary and denounced Yugoslav President Tito's idea that there can be "different paths to socialism."

Nearly \$18 Billion Sought For Air Force For 1957

NEW YORK (AP)—The New York Times said today that informed sources had disclosed that President Eisenhower will ask Congress for \$17,800,000,000 for the Air Force for the next fiscal year.

A Washington dispatch to the Times noted that this figure is \$2,400,000,000 higher than the President asked a year ago for the current fiscal year and about a billion more than the upwardly revised estimate he sent Congress in August.

The story also said: The airpower-conscious Congress, after a battle that probably will be renewed this year, finally insisted upon appropriating \$17,

700,000,000 for the Air Force. The administration then declared it did not need the extra money. The fiscal year starts July 1.

It also was reported in Washington that Eisenhower will seek \$11,200,000,000 for the Navy, \$10,000,000,000 for the Army and \$200,000,000 for Defense Department expenses. All this would result in a total military budget request of \$29,300,000,000.

This would be \$4,100,000,000 more than the President originally requested for defense—spending authority for the current fiscal year and \$2,600,000,000 more than the revised estimate of last August.

New Booklets On Taxes Out

Two booklets have been developed by the Internal Revenue Service to assist taxpayers in preparing 1956 tax forms.

The 1956 edition of "Your Federal Income Tax," popular publication of past years, contains a wealth of information. There is a sizable increase in subject matter which covers such subjects as who must file a return, when and where, nontaxable income, personal expenditures, sick pay, retirement income, deductions, medical expenses, traveling expenses, collections and refunds, what type of return to file, and the substance of many of the regulations based on recent tax laws.

An addition this year is a new companion publication entitled "Tax Guide For Small Business." It provides the answers to tax questions and problems common to most small businesses, deals with federal income, employment, excise tax problems of corporations, partnerships, sole proprietorships, and covers the operation of a going business, the establishment of a business, and the liquidation of a business.

Copies of either or both booklets may be had for 30 cents per copy from the Dallas Field Office of the U. S. Department of Commerce, Room 3-104, Merchandise Mart Building, Dallas 1, Texas.

Farm Bureau Sets Slate On Income Tax Assistance

The Howard County Farm Bureau has initiated its income tax service for members.

Jack Buchanan is in charge of filling out the tax returns for Bureau members in the offices at 117 Runnels. A schedule has been set up for the remainder of January. The assistance is available for a fee of \$4.50.

The service started Monday, with assistance being given to farmers whose names began with the letter A. The following schedule has been set up for the remainder of the month.

On Jan. 9, members whose names begin with B—Jan. 10, C—Jan. 11, D&E—Jan. 12, F—Jan. 14, G&H—Jan. 15, I&J—Jan. 16, K&L—Jan. 17, M—Jan. 18, N—Jan. 19, O—Jan. 21, P&Q—Jan. 22, R&S—Jan. 23, T—Jan. 24, U&V—Jan. 26, W—Jan. 28, XYZ—Jan. 29, 30 and 31, catch-up days.

Biting Cold Stings Northern Areas

By The Associated Press
Biting cold stung northern sections of the mid-continent today as temperatures plunged to sub-zero levels.

The cold Canadian air moved south and southeastward across the Northern Plains and extended over the area from Montana to western Wisconsin and southward into Kansas.

Temperatures were mostly in the teens near the leading edge of the cold air but to the north and northwest they were below zero in Minnesota, the Dakotas and Montana and in parts of Nebraska, Wisconsin and Iowa.

Do you

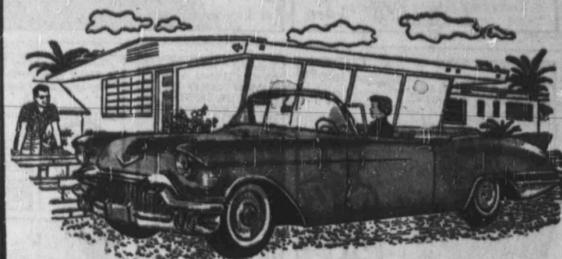

know your 57's?

Check your new-model "know-how" below with this Conoco Quiz.

Clues: (a) New Flight-Sweep styling... TorqueFlite Transmission... Torsion-Aire Ride... new 295 H.P. FireFlite V-8 engine... Triple-Range Pushbutton Control.

Clues: (c) An American Classic. Successfully combines sports car handling with passenger car comfort. Set the styling trend for a whole new line of cars.

Clues: (b) Mighty 325 H.P. V-type engine with 10 to 1 compression ratio... smooth Hydra-Matic Drive... brilliant new Fleetwood and Eldorado Series.

Clues: (d) Only American car with Jet Stream Supercharger... advanced 275 H.P. V-8 engine... Twin-Traction Safety Differential... luxurious 5-passenger sports car.

Big Clue: All of these beauties get full-time protection with...

CONOCO all-season Super Motor Oil

Conoco all-season Super ensures full-time protection against both friction and corrosion. Oil-Plating—Conoco's exclusive discovery—plates a tough film of lubricant onto the entire engine. It never drains down! Result? Faster, friction-free starts, as much as 80% less engine wear!

Automatic Warmup!

Even with a good premium oil, your engine 'drags' for the first 5-8 minutes, wastes

gasoline, encourages carbon formation. Big— with Conoco all-season Super, warmup's automatic—the second you start. You save up to 3¢ a gallon on gas, get Oil-Plating protection 24 hours a day!

Tell your Conoco Dealer you want Conoco all-season Super... in the can with the Gold Band. Quiz Answers: (a) DeSoto FireFlite 4-Door Sedan (b) Cadillac Eldorado Biarritz (c) Ford Thunderbird (d) Studebaker Golden Hawk.

Makes a powerful difference in your car's performance... regardless of make or year!

Road Smoother For Carolina Cage Quintet

By BEN OLAN
The Associated Press
Unbeaten North Carolina had its 12th college basketball victory neatly tucked away today and the road ahead appeared even smoother. The Tar Heels, ranked second nationally, got past William and Mary last night. Despite the lackluster performance of the Tar Heels and Kansas (11-9), alone boast unblemished records among the major schools. North Carolina can point to its Atlantic Coast Conference games doubled that output in Round Two. The Steers were in charge at halftime, however, 34-18.

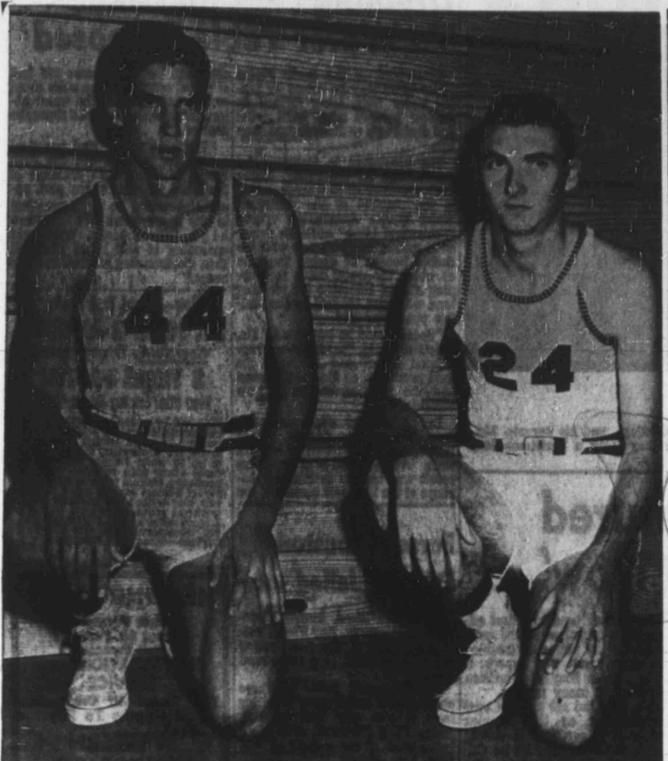

Steers Lash Snyder Five By 68-37 Tab

The Big Spring Steers jumped into an early lead and set the pace all the way in defeating the Snyder Tigers, 68-37, in their final practice game of the season here Tuesday night.

LOOKING 'EM OVER

With Tommy Hart

If Joe Kerbel is hired as the next football coach at Big Spring High School — and there is no indication he is either a formal applicant or stands any more chance than Bob Bodenheimer of Lawson, Okla., or Beville's Tex Kassen — it's obvious he was first attracted to the job by a memory.

Jayhawk Freshmen

Two freshmen standouts with this year's Howard County Junior College basketball team are pictured above. They are Alvin Cobarr (left) of Lamesa, who stands 6-foot-4; and Johnnie Watson, 6-3, of Dogline, La. Watson played his finest game of the season against Wharton JC in the tournament here last week.

Jayhawks Draw 1st Round Bye In Temple Tourney

HCJC's Jayhawks have drawn a first round bye in the third annual Temple Basketball Tournament, which starts Thursday and continues through Saturday of this week.

GOAL IN WRONG BASKET

Ackerly Winner Over Dawson 5

ACKERLY (SC) — In a game highlighted by a goal made in the wrong basket, the Ackerly Eagles kept their record unblemished in District 8-B basketball play by nudging Dawson, 45-42, here Tuesday night.

Wolffpack Nudges ACC High, 50-49

COLORADO CITY (SC) — Colorado City's Wolves nipped the ACC High School cage squad 50 to 49 by virtue of a pair of free throws that counted in the closing seconds of play.

COSDEN GAINS GROUND ON BOWLING LEADERS

Pinkie's Liquor of Big Spring did no better than keep pace with the pace-setting West Texas Reproduction team in Midland Women's Bowling league play Tuesday night.

Mike Lutz Bought By Shreveport

SHREVEPORT, La. (AP) — The purchase of outfielder Mike Lutz from Nashville of the Southern Assn. was announced yesterday by Bonneau Peters, president of the Shreveport Sports.

Coahoma Teams Decision Stanton In Loop Debuts

COAHOMA (SC) — The Coahoma Bulldogs got off on the right foot in District 6-A basketball play, defeating Stanton, 46-41, here Tuesday night.

NCAA Says It Won't Soften Sentences

ST. LOUIS (AP) — The National Collegiate Athletic Assn. has indicated it doesn't plan to soften its penalties against member schools put on probation for infractions of the recruiting rules.

'On Winter Vacation'
Fred Short, right, speech and drama instructor at Howard County Junior College, and his parents, Mr. and Mrs. F. E. Short of Amarillo, are shown in Honolulu, Hawaii, where they spent a Christmas-New Year's vacation. They returned to this country last weekend.

Prostitution In Texarkana Probed
TEXARKANA, Tex. (AP)—A request for a grand jury investigation into reports that open prostitution is permitted in Texarkana, Tex., was to be made today to Dist. Judge Maxwell Welch at Bowie, Tex.

Judge Welch has said he will cooperate with the request by a group of Texarkana ministers. An official of the American Social Hygiene Assn. reported to the Texarkana Ministerial Alliance yesterday that hygiene agents had found openly conducted brothels on the Texas side of this border city.

Clinton Featured Over 'See It Now'
By CHARLES MERCER
NEW YORK (AP)—The citizens of Clinton, Tenn., must be very pleased this week with the fair presentation of their community problem on television by See It Now (CBS-TV) Sunday.

The staff gathered by Edward R. Murrow and Fred W. Friendly for See It Now is unsurpassed in the art of television interviewing.

Draining Natural Lakes To Water Table Proposed
LUBBOCK — The South Plains water table may be raised by taking water from lakes formed in shallow hollows after hard rains and draining it to underground storage.

The possibility is discussed by Dr. George A. Whetstone, Texas Tech professor of civil engineering, in the Journal of the American Water Works Association. These "ephemeral lakes" could be drained to underground storage with the double benefit of easing the rate at which the water table is dropping and of releasing for planting land otherwise covered by the shallow ponds, he said.

"Speed would be important," Dr. Whetstone said, "to minimize evaporation losses and to drain the land promptly, as the rainy season and the planting season often coincide."

Dr. Whetstone cites examples from Famagusta, Cyprus, where lake water was discharged into six wells over a period of 52 days. The result was not too satisfactory because of the high salt content of the silt beds. By using some 900 feet of tunnel connecting the wells about 60 feet underground, the water absorption was increased 4.5 times, he pointed out.

"The plan might find practical application in areas like the High Plains of Texas with drainage of the lakes. Because of the cost, application would be most practical in city areas where land costs are high. Economically, open-pit spreading is still more practical than the tunneling method in rural areas."

Now—Actual Test Proves ST. JOSEPH ASPIRIN Completely Disintegrates 3 TIMES FASTER Than Other Leading Brands Tested

This test by a leading pharmaceutical testing laboratory proves an important fact: St. Joseph Aspirin is ready for absorption faster, ready to go to work 3 times faster than these other pain relievers to ease headache, muscle pain, cold's aches, fever! Fastest aspirin relief money can buy — used by millions daily without stomach upset. World's largest seller at 12¢, 100 tablets 98¢, 200 tablets only 79¢. Get the best for less—demand St. Joseph Aspirin.

Former Houston Official Jailed
HOUSTON (AP)—A former Houston city treasurer, Roy Floyd, yesterday began a five-year prison sentence for theft of a city-owned house.

Floyd pleaded guilty to three other felony indictments resulting from a 1955 city land scandal. Judge King dismissed nine other indictments at the request of Dist. Atty. Dan Walton.

Floyd was sentenced to five years on each of three counts, the sentences to run concurrently.
