

Missionaries Are Released By China

HONG KONG (AP)—Communist China today released two American Jesuit missionaries after four years of imprisonment and house arrest.

Father Charles J. McCarthy, 42, San Francisco, and Father John Alexander Houle, 42, Glendale, Calif., left the Shanghai house where they had been kept in 1953, and went to the Jesuit mission headquarters in the Chinese metropolis.

Contacted by telephone from Hong Kong, Father McCarthy said he and Father Houle expected to leave Shanghai for Hong Kong in about 10 days, depending on travel facilities available.

Freeing of the two priests left six Americans still confined in Communist China, three under house arrest in Shanghai and three others believed imprisoned in the Peiping-Tientsin area. The number of Americans in Communist Chinese custody has dropped gradually from a high of 55 in 1951.

Father McCarthy reported that he and Father Houle were both in fair health. He said he couldn't tell if he had lost weight because he hadn't weighed in four years. He added that Father Houle was suffering from a back ailment "but is in much better health than before."

"We are very happy to be free again," Father McCarthy said in a halting voice. He said he wanted to tell friends and relatives "how much we appreciate all their thoughts, all their prayers and their sacrifices."

Asked to comment on his treatment while imprisoned, he replied: "We are still in Shanghai and I would rather not say too much."

The release of the two priests had been expected since their sentences were completed tomorrow. They were arrested June 15, 1953, presumably on the usual charge of "counterrevolutionary activities and spying."

Father McCarthy said the three Americans held under house arrest in Shanghai were two other priests, the Revs. John P. Wagner of Pittsburgh and Joseph P. McCormack of Ossining, N.Y.; and a businessman, Hugh F. Redmond of Yonkers, N.Y. The two priests presumably are the next Americans scheduled for release since they have served four years of their five-year sentences. Redmond is held under a life sentence.

Forsan Woman's Mother Dies Nine Days After Father

Mrs. Sally Davis of Mullen, mother of Mrs. Ab Oglesby of Forsan, died Thursday morning at Mullen, just nine days after the death of her husband, Sam Davis.

Funeral services were to be conducted at 2:30 p.m. today in Mullen with interment in a cemetery there.

Mr. Davis died June 4 and funeral services for him were held June 6. Both were longtime residents of the Mullen area.

Survivors, in addition to Mrs. Oglesby, include a grandson, Pete Oglesby of Forsan, and a great-granddaughter, Mrs. W. E. McIntosh of Big Spring. They and other relatives were in Mullen today for Mrs. Davis' services.

Legion Stages Program In Observance Of 'Flag Day'

Flag Day observance marked the Thursday night meeting of the Howard County Post of the American Legion.

Commander George Zachariah led discussion on proper display and respect for the flag of the United States. The program was in commemoration of Flag Day, being observed throughout the nation today.

Members were given pamphlets prepared by the Legion which outline proper display of the nation's symbol. Members were also briefed in the correct disposal of used flags.

Zachariah called on Legionnaires to lead today's observance of the flag by displaying the colors and in encouraging others to do so. The Legion, he said, remains anxious to assist anyone in determining points of flag etiquette and will be happy to make the proper disposition of worn out flags for anyone.

In other business the group set June 23 as election date for officers of the Post. A joint installation service with the Auxillary is planned.

Membership was reported at 288 with William Baron being introduced as a new member.

Walter George Resting Well

ATLANTA (AP)—Former Sen. Walter F. George is still in serious condition but resting comfortably today at Emory University Hospital where he is being treated for coronary disease.

His attending physician said last night there has been little change since the 79-year-old statesman, now President Eisenhower's special ambassador to NATO, arrived for a checkup Wednesday.

The hospital reported yesterday that "George has had chest pains and shortness of breath due to coronary disease since April of this year. There has been no great change in his condition during the last several weeks and he is now resting comfortably."

Symptoms due to this condition often subside and we must retain an optimistic view. He needs a period of rest and no decisions about his future activities will be made until this is obtained."

'Flag Day' Is Observed Today

Flags are flying today for a very special reason — it is national Flag Day.

The usual commemorative program staged by the Elks Club No. 1386 was staged over TV on Wednesday evening under special dispensation from the national lodge.

T. R. Kaykendall, exalted ruler, said many commendations had been received, but he reminded residents that the advance program did not alter the actual date. He urged everyone who has a flag to display it today.

Blizzard Maroons Men On Pike's Peak

COLORADO SPRINGS, Colo. (AP)—A raging blizzard marooned five men in the Pike's Peak Summit House today as foot-deep snow blocked the highway.

Highway officials said the road, which has been closed by snow 14 times since its 1887 opening on May 1, would be cleared today.

Don Lawrie, Colorado Springs street superintendent and former Pike's Peak highway superintendent, said the spring snows are the worst in his memory. He has been connected with the highway since 1922.

Gets Medal

Richard Chiana of Oxford, England, crewman aboard the Mayflower II, displays his growth of beard and the medal presented him by a reception committee after arrival in Provincetown, Mass. The 28-foot vessel left England 83 days before landing on the U.S. shore. (AP Wirephoto).

Mayflower Hailed For Repeat Voyage

PLYMOUTH, Mass. (AP)—The hardy crew members of Mayflower II were hailed today by the peoples of the United States and England with completion of the re-enactment of the historic saga of 1620.

The 33-man crew under Cmdr. Alan Villiers brought the 66-ton square-rigged bark Mayflower II into Plymouth Harbor yesterday just as the Pilgrims did 337 years ago.

Villiers guided the replica ship 24 miles across Cape Cod Bay yesterday after remaining in Provincetown overnight. The original Mayflower also called at Provincetown before dropping anchor at Plymouth.

Thousands were on shore to welcome Mayflower II as planes and helicopters flew overhead and a cannon salute was fired from a shore battery.

There were messages from President Eisenhower and Prime Minister Harold Macmillan of England.

The 28 crew members were taken into the homes of proud Mayflower descendants who had vied with each other for months for the privilege of playing host.

The 33rd crew member, Joseph Meany Jr., 17, one of few Americans aboard, returned to his home in Waltham, Mass., for a reunion with his family, whom he hadn't seen since last March.

Mayflower II was 64 days in crossing the Atlantic from Plymouth, England, on a 8,000-mile southerly route. The original Pilgrim ship took 66 days on a 3,000-mile direct route.

A crowd, estimated variously at between 10,000 and 50,000, gave a huge cheer as Cmdr. Villiers came ashore with young Meany in a replica of a small workboat such as was used in the 1620s.

Then Villiers and the crew hurried to hot baths and a meal of steaks and vegetables. It was the first hot bath and the first meal of fresh food the crew had had in nearly two months.

Mayflower II carried none of the modern conveniences such as water-heating equipment or refrigeration.

None, however, suffered any ill effects from the long voyage beyond occasional seasickness. The ship's medical officer, Dr. John Stevens, 32, of Capetown, South Africa, said the crew enjoyed good health all the way.

Mayflower II will remain in Plymouth about 12 days, then it will be taken to New York as a tourist attraction for the summer and will be returned here in the fall to remain permanently.

Rich Meets Rich
EDMOND, Okla. (AP)—Oklahoma Highway Trooper Charles R. Rich stopped a motorist east of Oklahoma City yesterday to tell him one of his auto headlights was out. Rich asked to see the motorist's driver's license. The name on the license was Charles R. Rich.

Daniel Backs State's Drive On Gambling

GALVESTON (AP) — Gov. Price Daniel threw his weight behind the state's anti-vice campaign yesterday, promising the shut-down of gambling here would be "applied everywhere that anyone openly flaunts the laws of the state."

Atty. Gen. Will Wilson's squad of assistants continued to press the campaign to close gambling, liquor and bawdy house establishments.

Bank records of all persons named in 52 restraining orders obtained by the attorney general's staff were subpoenaed along with the City Health Department's inspection records. These records were sent to a grand jury room yesterday afternoon.

Special Asst. Atty. Gen. Jim Simpson of Texas City, who has spearheaded the drive, said more petitions would be filed. Asst. Atty. Gen. Cecil Rotsch, head of Wilson's legal task force in Galveston County, prepared to go before a grand jury to discuss "matters we have been working on down here."

Simpson would not detail how the state planned to use the bank records except to say he expected them to help in closing alleged vice operations.

Petitions were filed yesterday against the Chili Bowl and Vic A. (Gigolo Maceo, allegedly operating a bingo parlor at Kemah, in Galveston County; the Boneta Club and W. E. Nelson, also of Kemah; Hope Rooms and Jessie Elliott; the Horseshoe Club and Cotton Guerrant; and the Beach Amusement Park and William H. Wisko.

In Austin, Daniel said the action "against the gambling houses of Galveston and other Gulf Coast counties marks the end of organized gambling and the beginning of a new era of law enforcement in Texas." He did not say what new areas would be hit by Texas Rangers.

It was the governor's first comment on the recent shut-down of gambling and prostitution along the coast. He promised full support in keeping them closed.

A written statement said the action had his "full approval and support," adding: "I shall exercise the powers of the governor's office to see that the gambling houses and other establishments of organized crime are not reopened.

"Any time that it is necessary, the Texas Rangers will be assigned to keep these unlawful establishments from operating."

Kiwanis Hears Talk On Soil

Redeption of the "Jubilee Year" practice of the ancient Hebrews, under which each 50th year saw the soils unsowed, all debts cancelled, all property reverted to its original owners and all slaves and prisoners freed, might work out better for modern day civilization than most people think, Dr. P. D. O'Brien, pastor of First Baptist Church, told the Big Spring Kiwanians Thursday noon.

The speaker, pointing out in a brief talk that wasting of the soil was the most "wicked" sin a man could commit against himself, referred to the "Jubilee Year" because in that interval crops were not planted and the soil was allowed to remain fallow.

"There are naturally thousands of questions that could be asked about such a plan and I think there are answers for each question, if we had time to do so," the speaker said.

The Wheat twins, Walter and Susan, were presented in a group of vocal selections. This was their initial appearance at the Kiwanis Club. They were warmly applauded.

Killed By Car
ST. JOSEPH, Mo. (AP) — Duane Dye, 17, was killed by a car last night when he slid down off a wagon load of hay to go after a friend's hat.

Army Not Pressuring Him, Girard Says In Interview

CAMP WHITTINGTON, Japan (AP)—William S. Girard said today in the presence of a Pentagon general that the U. S. Army is not putting pressure on him.

Girard, 21-year-old Army specialist third class scheduled to be tried in Japanese courts for the shooting of a Japanese woman, made a press conference appearance flanked by Brig. Gen. Charles Decker, assistant judge advocate general of the Army, and Maj. Stanley Levin, the soldier's personal legal adviser appointed by the Army Far East Command.

The GI in a transpacific telephone conversation yesterday told his older brother in the United States that "the whole Far East Command" was putting pressure on him but he didn't know what they were trying to get him to do.

Girard also said in the telephone talk that Levin had told him he would get a stiffer sentence if tried by the Army than if tried by the Japanese. Girard's brother is now waging a court fight in Washington to prevent William's trial in the Japanese court.

Ike Boosts Foreign Aid As Best Way To Wage Peace

WASHINGTON (AP) — President Eisenhower was quoted as telling 42 House Republicans today the administration's foreign aid program amounts to one of the "best possible ways to wage peace."

Rep. Fulton of Pennsylvania reported the President's view at the conclusion of the second of a series of White House breakfasts for GOP members of Congress.

Eisenhower moved from table to table for chats with various groups.

Rep. Halleck of Indiana said in reply to a question that he "didn't hear any criticism" of the administration's program while Eisenhower was at his table.

But there was no immediate evidence, either, that the President has had won any converts.

Rep. Gross of Iowa came back with a quick "No, no" when a reporter asked whether he had been won over to Eisenhower's program of "Modern Republicanism."

Earlier, Levin acknowledged he discussed with Girard the relative advantages of being tried by a Japanese court or a court-martial. He refused to say whether he advised Girard to accept the Japanese trial because conviction probably would carry a lighter sentence.

French Report Rebels Killed In North Africa

ALGIERS (AP) — The French today claimed their forces killed 180 rebels during the past 24 hours. They said 10 of their own soldiers were killed or wounded.

Clashes appeared to be sharpest west of Algiers, which itself was calm.

The French laid a new massacre—of 35 Arab men—to the rebel National Liberation Front (FLN). The French also attributed the massacre of 303 Algerians in the Melouza area last month to the FLN.

A French communique said the second massacre occurred May 30 in the Wagram area of western Algeria. It gave this account: Thirty FLN rebels, armed with machine guns and rifles, "assembled the male adults from the sections of Ouled Zebouki, Ouled Benkhoba and Ouled Bouhalia and massacred them in two rooms of a farm." Twenty-seven were killed and 16 wounded.

Later, eight men were killed and four wounded in Douar Ouled Faleide, about nine miles to the south.

An FLN statement issued in Tunis charged that the wild anti-Muslim rioting by an enraged French population in Algiers Tuesday killed 61 Algerians and wounded 200.

Official French sources listed five Algerians killed in the riots, which followed funeral services for French victims of a terrorist bombing.

Military Brass In Policy Conference

QUANTICO, Va. (AP)—Dollars and disarmament provided prime topics for discussion by military leaders today.

Secretary of State Dulles was among listed speakers as more than 170 officials of the Defense Department's civilian and military top command opened their fifth annual meeting at this Marine base.

It appeared likely that among other things, Dulles would discuss developments in the London disarmament talks—a subject of major interest to military men.

Others addressing the closed meeting are the chiefs of the three military services, Army Gen. Maxwell D. Taylor, Adm. Arleigh A. Burke and Gen. Thomas White, who will become Air Force chief of staff when Gen. Nathan F. Twining becomes chairman of the Joint Chiefs.

On money angles, Secretary of Defense Wilson told a news conference yesterday the military doesn't have any "elastic dollars" which can be stretched to cover the increasing cost of soldiers' salaries and new equipment.

So he thinks the Pentagon is "likely to do whatever is necessary" to keep its spending within a 38-million-dollar ceiling set in the military budget.

The House already has voted to trim 2½ billion dollars from new defense money requests and senators have indicated they will restore only a fraction of that amount.

The three days of meetings can provide a forum for generals and admirals and civilian secretaries to state the expected impact of budget reductions on their services.

Wilson said at his news conference a "mild stretchout" in a manpower cutback wouldn't be "big enough to affect the economy of the country."

Present strength of the armed forces is about 2,800,000. A new cut, it was indicated, might eventually trim away about 200,000.

Lamesa Building Code Due Study

LAMESA (AP)—The Building Code Sub-committee of the Community Improvement Committee of the Lamesa Chamber of Commerce will meet at 7 a.m. Saturday in the third of a series of study sessions.

The committee headed by Howard Allen is studying adaptations of the abbreviated form of the National Building Code for Lamesa. When a code is approved by the committee, it will be presented to the Community Improvement Committee and will then be laid before the City Council.

Ranchman Dies

SHAMROCK (AP)—Funeral services were held today for S. P. Britt, 89, prominent Wheeler County rancher who died at his home near here Wednesday night.

Girls' Program Set

LAMESA — The Girls Summer Recreation Program is scheduled to begin here Monday, July 1, according to Jimmie Lou Davis, director of the program for the third straight year. While many of the details of the month remain to be worked out, the group will bowl one morning per week.

Give God A Chance—God Will Open Doors For You!

WEDDING DAY

"With this ring I thee wed."

Our marriage is beginning where a marriage should begin—in Church. Our hands meet across the Bible. My eyes fall to the printed page, and the verse I see there is so appropriate that I catch my breath in awe and amazement.

Here is the story of a king who long ago sought for a virtuous woman and was told that her price would be far above rubies. Here are detailed the qualities that a truly virtuous woman would have—faithfulness, industry, thrift, compassion, courage, strength, honor.

As I look up at my new husband, I feel a surge of humility. I make a silent pledge that these words in Proverbs will be my guide as his wife. They're a challenge, I know. A big challenge! But, with the help of the Church, I'm going to try to live up to them.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship, strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible, daily.

Billy Graham No Help To The Tavern Trade

NEW YORK (AP)—Saloons around Madison Square Garden are having a slack season. Whatover Billy Graham is reviving, it's not the tavern trade. "He's killing it," said bartender Joseph Crotty, jerking his thumb toward the arena where Graham is preaching nightly. "Things are dead. It's the same all up and down the avenue. Before and after the evangelist's meetings, the streets swarm thick with crowds, but behind the neon-lit plate glass of the bars, stools go empty. "We're getting nothing at all these days," said Victor Scimeca, manager of another tavern. "When there's a fight or hockey game or anything else at the Garden, we're packed. But this. . . . He shook his head, frowning. Some of the bar help in the establishments lining 8th Avenue and sidestreets have been laid off, particularly table waitresses. At a corner cigar store, Frank Goldner, the operator, said they "don't smoke much either. Most of them just buy candy, mints or books." Goldner has stocked up with some Bibles for the new kind of patrons. Graham preached to 17,000 people last night, taking his text from Acts 16:12-34, and dwelling on this passage: "Believe on the Lord Jesus Christ, and thou shalt be saved. . . . What is necessary, he said, is not just an intellectual assent, or a recitation of platitudes, or a mere emotion, but a definite, clear-cut "act of the will" in accepting Christ as "Lord or your life and savior." At the end of the sermon, 441 people came forward, raising to 17,670 the total "decisions for Christ" during the crusade.

Swimming Pupils Get Certificates

Certificates were issued today to 154 youngsters out of the 161 who started out in the YMCA's initial swimming session. Most of those who did not qualify failed through lack of attendance. Several have indicated they will re-enter the second session. Registrations start for this Saturday and will continue through June 22. Actual instruction will begin on June 24 and continue through July 6. Those receiving certificates included 63 "tadpoles," or those who are just learning to paddle; 55 "minnows," or those able to do certain maneuvers and swim at least 30 feet; 16 "fish," or those able to swim at least 60 feet. There were no "flying fish" and "sharks," those who are becoming rather adept as swimmers. Bobo Hardy, general secretary of the YMCA, said that the Y would remain open from 9 a.m. to 5:30 p.m. next week to take reservations. Parents must come by the Y to enroll their children. Instruction in the five skill levels will run on weekdays from 9 a.m. to 10 a.m. for boys and from 10 a.m. to 11 a.m. for girls. Mrs. George Dawson is the aquatics director. Fee for the course (which is really the fee paid for entering the pool) is \$1.

Water Therapy Program Will Start In Late July

Tentative plans are being made to begin the water therapy program sponsored by the Big Spring-Howard County Health Unit during the latter part of July and first part of August county health nurse, Bo Bowen, said Thursday. The program will be held later this year in order for swimming instructors from the YMCA swimming program to take part. The purpose of the program is to give physiotherapy to children crippled by polio and other diseases. Approximately 20 to 25 children are expected to take part in the therapy this year. Most of this group participated in last year's program also. The main need for this year's children is transportation to and from the pool, Miss Bowen said. She added that there would be plenty of time to work that out though. The water therapy classes will be held at the swimming pool at the Westward Ho Motel.

Arab Rulers Pledge Unity

AMMAN, Jordan (AP)—King Hussein and visiting King Saud of Saudi Arabia again have paid lip service to the standard Arab unity positions despite the crack in the Arab front. The two rulers issued a communique last night on their Amman talks but made no reference to the current bitter dispute between Jordan and Egypt. Instead, they declared they will "dedicate all possible efforts to preserve the purity of the atmosphere of brotherly relations among Arab states and tighten the national ties among them on the basis of true cooperation and complete understanding." Of perhaps greatest importance to impoverished Jordan was the announcement the two kings had agreed to study carefully economic cooperation and encouragement of investment of Saudi and Jordanian capital in economic projects in both kingdoms. This presumably was a diplomatic way of saying that Saud might invest some of his vast oil wealth in his neighbor.

Ban Comic Books

BOISE, Idaho (AP)—Some Idaho teen-agers think the so-called "terror" or "horror" type comic books would best be dispensed with. In the first day of the Boys' State Legislature yesterday, a bill was introduced which would prohibit the sale of such comic books. No action was immediately taken.

Cancer Remedy Rumors Boost Drug Stock

NEW YORK (AP)—Rumors of a new anticancer drug sent a stock soaring on the New York Stock Exchange yesterday. But the companies concerned later said the compound "is still in its infancy clinically" and requires much further study to determine its ultimate usefulness. As rumors swept the exchange, the common stock of the Olin Mathieson Chemical Corp.—parent company of E. R. Squibb & Sons—rose to a new 1957 high. The stock closed yesterday at \$58.50, up \$4.62 a share from Wednesday. After the exchange closed, both companies in a joint statement confirmed the existence of the compound—a steroid—but denied that it was a "cure." A spokesman for the firms said: "The compound is still in its infancy clinically. Many chemical studies, involving hundreds and often thousands of patients, are conducted before an intelligent evaluation of the drug's utility may be made." The spokesman said it "clearly would be premature to even attempt a deduction as to the compound's ultimate effectiveness at this extremely early point in its testing." The spokesman described the product as a "palliative"—one that eases rather than cures a specific ailment—and said it might prove useful "in certain cases of cancer." The compound is under study at Jackson Memorial Hospital of the University of Miami Medical School, and has been accepted for study by the Clinical Studies Panel of the National Cancer Institute at Bethesda, Md. A spokesman for the Sloan Kettering Institute for cancer research in New York said last night that it had used the Squibb product in experiments, adding: "There is absolutely no evidence that it is any more useful than other similar materials that are now on trial."

Headon Collision Takes Three Lives

GUTHRIE (AP)—Three persons were killed and four others injured yesterday in a head-on collision just west of here. The victims were Mr. and Mrs. Joe Louis Warren of Portland, Ark., and Mrs. Leora Ballard Bachman, 40, of Dumont, Tex. Joe and Emily Warren, children of the dead couple, were seriously injured. Mickey and Ronnie Bachman, children of Mrs. Bachman, were listed in critical condition.

Jobs Talkin'

The rains may bring on a bumper crop of insects according to County Agent James Taylor. He said there was no way of knowing this far in advance, but quite likely the thrips and fleashoppers would be on cotton within a week or so after it emerges. Taylor said that cabbage loopers were already working on cotton in the Pecos area. A salesman with an insecticide company came through Big Spring and reported that Reeves County had a heavy infestation of loopers, even though the cotton is still very small. Taylor says farmers often overlook the heavy damage that can be done by the tiny insects. He thinks that thrips and fleashoppers often cause a greater loss than that done by the loopers. The loopers rag the cotton a bit, while the small insects work on the squares and fruiting part of the plant. A few dry spots may still be found in Texas, but it's wet all the way from here to Corpus Christi and on down another 50 miles to Kingsville. Though everything is moist and green, this doesn't mean there are good crops everywhere. East of San Angelo the feed crops looked fine but farmers are still planting and replanting cotton. Down southeast of Eden and clear on to San Antonio the oat crop had turned brown with the rust. One farmer near Melvin said his oats had been completely lost to the fungus. Between Brady and San Antonio feed crops are late and spotted, though the corn in the San Antonio area is already tasseling out. I didn't see much cotton in that area, but there were a lot of weedy fields, where farmers hadn't plowed in several weeks. After we reached Beville and the Coastal Prairie the picture

DAY & NIGHT WATER HEATERS are rustproof and SUPER-CHARGED. Plenty of hot, clear water for washing clothes, dishes, dogs and people. Enough hot water to supply every hot water need in your home, all at once.

DYER'S City Plumbing Co. 1786 Gregg Dial AM 4-7851

changed entirely, and I saw the kind of crops that are made only every 10 years. South of Corpus Christi the maize is almost head high and already turning red. Most of it will thresh out from one to two tons per acre, while the cotton is almost ready to bloom. This area around Robstown was the best I saw on the trip. They haven't had quite so much rain down there, and it fell in small showers that didn't destroy the early plantings. I attended a writers conference in Corpus Christi, and part of the entertainment part of it included a trip to the King Ranch, located about 45 miles from Corpus. There were three bus loads of us, and a ranch manager named John Cypher took us over one part of the vast place. We saw their famous Santa Gertrudis cattle and were amazed at their size. Unlike most scrubby South Texas cattle, these big red animals weigh well over a thousand pounds when fully grown. Cypher told us they had 2,000 steers on feed this summer. Some of the older steers weighed about 900 pounds, and were being fed a longer period as an experiment. The ranch hasn't been stocked heavily the last few years because of the drought, Cypher said, but now that rains are bringing out the grass and clover, the cattle will be increased. The most interesting part of their operations is the raising of horses. They have two kinds, the famous thoroughbred race horses and equally well-bred quarter horse. Cypher said they had about 2,000 quarter horses on the ranch. Some are sold every year, but they keep a lot of them for ranch work. The cowboys down there are real punchers, and use horses instead of pick-ups. Evidently they must ride a lot or else the hot, South Texas climate wears the animals out in a hurry. Cypher said each cowboy used from 12 to 15 horses during a busy season. The King Ranch is still the biggest in the nation, and covers 946 square miles. In addition the company owns ranches in many other places. They have one in Kentucky and in Pennsylvania. They also have one in Cuba, three in Brazil and three in Australia. The ranch was started by Richard King, a river boat captain who landed his boat on the shores of what is now the ranch site and waded out to dry land. From that day onward he ceased to be a boat captain and instead became the largest ranch owner in the world. King started hiring Mexicans to operate the ranch, and the method continues to this day. The herdsmen, publicity boys and other professional help are usually men but the real cowboys are still Mexicans. There are four main camps to the ranch. The one we visited had 33 families, with each one being in a neat, four-room brick building painted white. Each house is surrounded by a trim lawn, while a paved road leads directly to the place. These camps are really small towns, with stores, schools, a fire department, post office and other public buildings. Apparently the workers are not only well housed and well-paid, but they seem to be completely satisfied with their way of life. Most of them were born on the ranch and descending from the first Mexican cowboys who helped Captain King carve out this vast cattle empire. "We never had any labor trouble," said one of the foremen, who is an Anglo-American. "The workers are much better off than the working classes who live in town, and they have a thousand per cent higher living standard than people in Mexico."

BUZ SAWYER

ARE YOU SURE YOU DIDN'T RETURN TO MR. ZORKA'S SUITE WHILE I WAS OUT TO DINNER?

BUZ GOES TO THE ROOM OF THE EX-STARLET... QUESTIONS HER ABOUT ZORKA'S DISAPPEARANCE.

FAH? I KNOW NOTHING OF ZORKA NOW GET OUT! I HAVE GUESTS.

FOR THE LOBBY, WE RUN INTO THE "JEWEL MERCHANT," WHO'S TRYING TO FEEL HIM OUT.

ZORKA'S ALWAYS DISAPPEARING ON MYSTERIOUS BUSINESS. NAFF NO FEAR. HE WILL RETURN.

I HOPE YOU'RE RIGHT.

MAYBE THE POLICE WAS RIGHT IN THINKING NOTHING HAS HAPPENED TO ZORKA... STILL I WONDER.

FINALLY BUZ GOES BACK UP TO HIS ROOM.

DIXIE DUGAN

WE FORGOT TO TELL YOU SHE'S A THIEF TRYING TO ELUDE THE POLICE!

GET THE BOAT!

Mean Bulls, Broncs Rout Cowboys; Three Injured

Riders bit the dust in profusion Thursday evening as fractious horses and bulls livened the second performance of the 34th annual Big Spring Rodeo. The third performance is at 8 p.m. today. Attendance fell off from the opening night, but not like the baraback and saddle bronc riders, and the few cowhands who tried their luck against some wicked Brahma bulls. Upwards of 3,000 were in the rodeo bowl.

Cost Of Salt Lake Dam About \$1,500

Final cost of constructing a dam over the H. H. Wilkinson ranch natural dam would be about \$750 each for the city and county. City Manager H. W. Whitney said the bill for work done by Cagle Brothers Contractors had been received, but he said that the cost had not been broken down between the two groups.

City Hall Remodeling Plans To Be Shown Commission

City officials announced this morning that plans for remodeling the city hall are practically completed. Final drawings will be submitted to the city commission at its next meeting, June 25. City Manager H. W. Whitney talked with Olen Puckett, the architect, this morning and Puckett said that his firm would be ready with the final plans by the June 25 meeting. At the same time, the city will probably advertise for bids on the work.

Polio Victims Air Evacuated

Big Spring's first polio cases of the year were reported by Webb Air Force Base today. Second Lt. Peter W. Dart, a student pilot, and Sharon Bounds, two-year-old daughter of S-Sgt. and Mrs. Franklin Bounds, are victims of the disease.

Robbery Suspects In Glasscock Jail

Buster Cox said Friday that he expects officers from Nashville, N. H., to reach here sometime this weekend to seek custody of two men which he arrested on June 6. The two men in the Glasscock County jail are Dallas Melendy, 32, and Walter Nash, 36. Cox said that Nashville wants the pair to answer a charge of armed robbery. He said that in his telephone conversation with the New Hampshire officers, he was not advised as to when the robbery occurred nor any details concerning it.

Girl's Condition Said 'Satisfactory'

Danne Green, daughter of Mr. and Mrs. Bud Green, was reported in a satisfactory condition at Big Spring Hospital today. She fainted Thursday morning and was taken to the hospital for treatment of what doctors at first thought was an overdose of a sedative. Doctors at the hospital said this morning that this diagnosis was apparently wrong. Previously, sleeping pills had been prescribed for her, but a check showed no medication taken.

Lyon Baby's Rites To Be Held Today

Gravestone services were to have been held at 2 p.m. today in Trinity Memorial Park for the infant son of L.A. and Mrs. Joe M. Lyon Jr. Dr. F. D. O'Brien, pastor of the First Baptist Church, was to officiate. Natley - Picklike Funeral Home was in charge of arranging the funeral. The baby was stillborn at a hospital here Wednesday.

Noted Vocalist Takes HCJC Music Post

Ira Shantz, one of the outstanding tenors of West Texas and a voice instructor at Texas Tech, has been elected to the music faculty at Howard County Junior College.

Key Men At Graduation

Lt. Roger Gilbert of Webb AFB holds the Air Training Command "Commander's Trophy" he won as outstanding pilot graduate at Webb AFB last night. At left is Col. Kyle Riddle, base executive officer, and at right is Raymond L. Tollett, graduation speaker.

66 Webb Grads Hear R. L. Tollett

Webb AFB graduated 66 jet pilots Thursday evening before a capacity crowd in the base chapel. Raymond L. Tollett of Big Spring, president of Cosden Petroleum Corporation, was graduation speaker. Holding the attention of the fliers and their guests through his talk, he discussed economics, pitting the communistic system against capitalistic enterprise.

Sweeney Fills Lt. Webb Post

With the departure of Lt. Charles H. Webb Jr., who has completed his tour of duty and returned to civilian life, Lt. Bruce L. Sweeney has been appointed as personnel service officer at Webb AFB.

Clean-Up To Resume -- 'If'

If the rains don't come and the creek don't rise, the city will resume the trash clean-up drive next Wednesday. The work has been postponed from week to week for over a month by rains which washed city streets. The clean-up work on streets came before the trash clean-up, the city said, and all men in the street department were needed to repair the streets.

Teen-Agers Party Tonight At YMCA

Teen Age Party Night will be held at the YMCA tonight at 8 o'clock. The dance has been arranged for both dancers and non-dancers. The dance will begin at 8 and a full-length movie, "The Jackie Robinson Story," will be shown at 8:30. A comedy will also be shown.

Police Seeking Dealer Who Made \$10 Auto Trade

The police department has an alleged car deal to investigate, but it cannot find the dealer who made the trade. Detective Leo Hill received a report from the sheriff's office at Leavenworth, Kan., concerning a car trade supposedly made here.

MARKETS

WALL STREET NEW YORK (AP) — Stocks opened fractionally higher in active trading today. There was a scattering of bearish notes. The market was up 1/4 at 11:59, Chrysler up 1/4 at 7:59, Revlon up 1/4 at 7:59, International Paper, Sinclair, U. S. Steel, New York Central and Radio Corp. posted small gains.

WEATHER

PARTLY CLOUDY and warm through Saturday with widely scattered afternoon and evening thunderstorms; a few thunderstorms likely Saturday morning. SUNDAY: Partly cloudy, scattered thunderstorms late today or tonight and mainly east and south portion Saturday; clear northwest tonight. MONDAY: Clear to partly cloudy through Saturday with widely scattered, mainly afternoon and evening thunderstorms from east portion east of Pecos River southward; a little cooler Saturday and Sunday.

14 Troopers Are Killed In Truck Mishap

FT. CAMPBELL, Ky. (AP) — A canvas-covered Army truck crumpled off a bridge yesterday and landed upside down in a rocky creek bed, killing 14 paratroopers and injuring nine others. Many of the injured lay trapped among the dead until a helicopter lifted the rear of the flattened truck.

Little Damage To Crops From Rain And Hail

Howard County farmers were not seriously injured by the hail and rainstorm of last Wednesday morning, according to reports made to Jimmy Taylor, county agent. Taylor said that what slight damage from hail occurred was in the western part of the county and that from what he has been told the loss in this section would be light. In other parts of the county, no loss was indicated.

Billfold Returned To Illinois Man

A billfold was brought to the police station Thursday but was claimed in about five hours. Sam Mellinger reported a Colorado City resident found the billfold here and brought it to him. Mellinger in turn turned it over to the police department. In the wallet was the name of Dale Turner of Highland, Ill., and \$4.75. It was turned over to the police about 5 p.m. About 10, Turner came for it.

Borden Wildcat Flows Briefly During Test, Is Now Shutin

Tidewater Oil Co. 1-B Clayton-Johnson wildcat in Borden County flowed for a short time but died, and operator is now shut in for pressure buildup. A wildcat has been plugged and abandoned in Glasscock. The Tidewater venture in Borden County, about 10 miles southwest of Gail, flowed six hours on the last test and made 21 barrels of oil before it died. It flowed previously on tests for one, eight, and 15 hours.

Police Seeking Dealer Who Made \$10 Auto Trade

The police department has an alleged car deal to investigate, but it cannot find the dealer who made the trade. Detective Leo Hill received a report from the sheriff's office at Leavenworth, Kan., concerning a car trade supposedly made here.

4-H Clubbers Back From State Roundup

Howard County 4-H Grass Judging team, competing at the annual 4-H Roundup in College Station early this week, placed ninth according to Bill Sims, assistant county agent. The poultry judging team was placed "somewhere below third place" but its exact position has not been announced.

Gets 60-Day Term

Melvin Ott Brown, charged with DWI, pleaded guilty to the charge when arraigned before E. H. Weaver, in Howard County court, Friday. Judge Weaver sentenced him to serve 60 days in the county jail.

Petit, Grand Jury Panels Summoned

Notices are being sent to the members of the Howard County grand jury and the petit jury needed to serve in 118th District Court the week of June 23. The sheriff's office was busy Friday preparing the summons for duty. Gill Jones, district attorney, said that it was possible between 30 and 35 matters would be laid before the grand jury when it convenes.

Senate Due To OK Atomic Energy Pact

WASHINGTON (AP)—Senate ratification of the International Atomic Energy Agency Treaty seemed assured today after the Foreign Relations Committee attached a "qualification" to its approval resolution.

The "qualification" — so described by Sen. Green (D-R.I.), the committee chairman — states that this country will withdraw from the proposed 80-nation agency if it adopts an amendment to its statute which the Senate rejects.

Senate Republican Leader Knowland of California, who had voiced concern about the treaty, said after the committee acted he believed much of the opposition had been dissipated.

Knowland said the treaty may be debated on the Senate floor next week and that he expects it will win the necessary two-thirds vote after "some discussion."

Before the agency can start functioning, 18 nations must ratify the treaty. At least three of those ratifying must be from among the United States, Russia, Britain, France and Canada. So far, Russia and seven smaller nations have completed ratification action.

The treaty sprang from President Eisenhower's "atoms-for-peace" proposals to the United Nations in 1953.

Under it, the few nations having nuclear fuels would make them available to the large number of atomic "have-not" countries. But the recipients would have to agree to use the materials for peaceful purposes, such as electric power production, and accept a rigid inspection system.

AT EXPERIMENT FARM Buildings To Be Erected Rapidly

The Big Spring Field Station will get four new buildings to replace the ones lost in the fire last year, according to Dr. Earl Burnett, station superintendent.

Three of the buildings will be of pre-fabricated steel, and can be erected hurriedly once the work starts, Burnett said. The largest of the three will be 20 by 120 feet in size and will serve as a tractor and implement shed. Another, 32 by 80 feet, will be used for general storage and will also house some of the bulky seed-cleaning equipment. The third building will be 24 by 42 feet in size and will be used for hay and grain storage.

In addition to these service buildings, the old headquarters house will be replaced by a new office and laboratory building. It will be made of concrete blocks and is to be 36 by 120 feet. There will be five offices, two laboratories for chemistry and physics, and another for soil erosion work. There will also be a shop room where the special equipment can be made and repaired.

The bids for the steel structures have already been opened, Burnett said, and the office building contract will be let before July 1. He said the old office building which has been a landmark for several decades, likely will be torn down or moved after the new ones are erected.

Water Board Decisions Delayed By Internal Fuss

AUSTIN (AP)—Authority to construct the multimillion dollar Canyon Dam and whether to fire its chief legal counsel today remained unanswered by the State Board of Water Engineers.

Board chairman R. M. Dixon said the board was going back into "closed conferences" which are not open to the public, in hopes of reaching decisions.

Longtime planned Canyon Dam was the board's major hearing last summer. Sixteen days of testimony—some of which has not been prepared in report form—saw the Guadalupe-Blanco River Authority and the City of San Antonio each seeking for approval of their applications to construct the dam near New Braunfels.

Dixon said he expected a decision early this week. But his insistence to fire chief legal counsel Joe Carter caused a 3-way squabble on the board which has delayed the decision.

After a 6-hour closed conference yesterday, Dixon said engineering points were causing trouble and "everybody can't read the statute alike."

"We're all in disagreement," said member H. A. Beckwith. "There are a lot of things involved that don't shell out as fast as peas in a pod."

Dixon said Carter was "disloyal" and "unco-operative." He said Carter worked against his confirmation in the Senate this year. Dixon, appointed by former Gov. Allan Shivers, was one of the most controversial appointments to be confirmed by the Senate.

Dixon said the board needed "some legal help from somewhere" on the statutes concerning construction of Canyon Dam. However, he said he had not asked either the attorney general or his own counsel, Carter, to help.

AP And Union Sign Contract

NEW YORK (AP)—The Associated Press and the AFL-CIO Commercial Telegraphers Union reached agreement today on terms of a new contract.

The settlement came after 14 hours of continuous negotiations conducted by Commissioner Walter A. Maggilo of the U. S. Mediation and Conciliation Service.

CTU members operate and maintain Teletype and Wirephoto equipment in the offices of The Associated Press, worldwide news cooperative. Approximately 650 employees are in the union. The contract with them expired last Monday but had been twice extended to last midnight.

The new agreement provides for a one-year contract with a money package averaging \$4.62 weekly per employee. Other contract provisions were agreed upon previously.

Harry S. Leimbach, general chairman of AP Division 14 of the CTU, said that "although the members had authorized a strike, a union committee agreed to the settlement in the interest of continued good labor relations with The Associated Press."

Fire In Lisbon

LISBON (AP)—Fire destroyed the roof of the American military mission's headquarters in Lisbon last night. Damage was reported as slight. The cause was not immediately determined.

Uncle Roy:

Cave Has Room For Big Office Building

By RAMON COFFMAN

Here and there in the United States we find caves of special interest. Mammoth Cave in Kentucky is an example. Other famous ones are Wyandotte Cave in Indiana, the Luray Caverns in Virginia and Fingal's Cave on the island of Staffa, off the Scottish coast.

Southern France and northern Spain have caves which were made famous by their residents. Thousands of years ago those caves were occupied by people of the Old Stone Age. Cave artists adorned the walls with pictures of buffaloes, deer and other animals.

Q. What is the world's largest cave?

A. An answer to that question might be disputed. Some persons judge the size of a cave by the number of miles of passage possible for a visitor.

It seems, however, that Carlsbad Caverns should be regarded as the largest in the world today. Aside from the many miles of passage, this chain of caves possesses the Big Room.

Q. What is the size of the Big Room?

A. The widest part measures 625 feet, and the length is three-quarters of a mile! At one point the height is 345 feet. The building might be compared to a

A glimpse inside of the Carlsbad Caverns.

side the space. There could be 70 thousand office rooms inside the building!

Q. Are there many bats in Carlsbad Caverns?

A. The number is enormous. The chief "bat section" has been estimated to be the home of four million bats! The bats cling to the walls and ceiling during the daytime, and go out at night during good weather. When the winter is intensely cold, the bats stay in the caverns during the night as well as the daytime.

For NATURE section of your scrapbook.

An illustrated inset talking about the caverns of the ancient Romans will be included in the next issue of the "NATURE" section.
