FIREMEN SPRAY SMOLDERING PLANE WRECKAGE
Two airmen perished in crash of jet trainer

TWO JET TRAINERS COLLIDE

Two Webb Officers Killed In Crash Near Garden City

Two T-33 jet trainers collided in the air northeast of Garden City at 9 a. m. Monday, and one of them crashed.

Body of one flier was found in the disintegrated wreckage. The other occupant's body was found about 400 yards to the south of the wreckage shortly before noon today. Officials at Webb AFB said that the pilot had ejected himself from the crippled plane but had not been able to get free from the seat.

Both officers in the second plane got back to Webb AFB safely. They were 1st Lt. William K. Booth, instructor, and 2nd Lt. George P. Kennedy, student officer.

Names of the dead fliers were not immediately released pending the notification of the next of kin.

The craft were flying in formation at the time of the mishap. The plane which crashed appeared to have collided with the one which returned safely.

An occupant of one of the other planes in the formation reported that he positively spotted a parachute in the air immediately after the collision.

Base authorities said that the tail apparently was chopped off the ill-fated plane as it moved upward into the path of the other craft.

The trainer crashed on the rise of a knoll in rolling open country on the Steve Calverley ranch four miles north and three miles east of Garden City. The wreckage burned upon impact.

The helicopter was dispatched immediately from Webb AFB when notified by other planes in the formation and flying in the area. It spotted the wreckage and continued pressing the search for the missing occupant.

Neither of the pilots who returned safely to Webb was believed to have suffered serious injury. They were rushed at once to the base hospital and remained there for observation.

A B-25 from Webb AFB also

joined in the search for the missing flier. No trace of a parachute or evidence that one of the men had parachuted had been turned up at noon.

Sheriff Buster Cox of Garden City was among the first to reach the scene. He was joined by Deputy Jack Shaffer and Fern Cox, District Attorney Guilford Jones and Investigator Bobby West from Big Spring.

The officers reported wreckage of the plane was scattered over a wide area. Flames enveloped the engine and cockpit sections of the fuselage, but were eventually extinguished by a crash truck from Webb.

Revenue Bond Issue Decision Due Tuesday

Big Spring voters will decide Tuesday whether the city shall be enabled to fulfill its obligations to provide water and sewer service for the 460-unit housing project at Webb Air Force Base.

Provision of the service hinges on fate of a \$50,000 water and sewer revenue bond issue proposal. The city proposes to issue the bonds to help finance construction of water and sewer lines to serve the military development as well as private projects in west and southwest Big Spring.

The proposal includes \$30,000 for construction of a new sewer outfall line from the base to the disposal plant and \$20,000 to help finance a water line from the Edwards Heights reservoir to Webb.

If the bonds are approved by voters, the proceeds will be put with \$175,000 being advanced by the government to finance the improvements. The government's advance will be absorbed out of proceeds from sale of water to Webb AFB.

The bonds, if issued, will be retired from proceeds from water and sewer service charges. City officials said there will be no increase in the tax rate since the bonds are of the revenue and not tax variety.

Polls will open at 8 a. m. Tuesday at the City Hall Fire Station and ballots may be cast until 7 p. m.

Seven Die In Storms, Flash Floods

IRONTON, Mo. — Flash floods and violent winds battered this valley area yesterday, leaving seven persons dead and extensive crop and property damage.

Coroner C. A. Howell estimated property damage at nearly a million dollars.

Roads and miles of railroad tracks were blocked by landslides. The Red Cross reported 80 homes damaged or destroyed and 32 other buildings hit.

Fourteen fishermen spent a terror-filled night in trees.

Robert Kitchens, 36, of nearby Gretna, Mo., and his five children drowned in a deep ditch.

The children were Robert Jr., 8; Arthur, 5; Thomas, 3; and Dennis, 1. Mrs. Juanita Kitchens, 27, the mother, was hospitalized with severe shock.

Albert Batterall, 65, of Old Mines, Mo., drowned when a wall of water swept him under as he surveyed damage to his home.

The rain began late Saturday night and continued into the early hours yesterday. It caught the 1,200 residents of this town 100 miles southeast of St. Louis unprepared.

The Kitchens family left their low-lying farm home when the storm hit. Their car stalled on Missouri Highway 21. Arthur Wilson, 44, Arcadia, offered to drive them to his home for the night.

"We just didn't get there," Wilson said sadly later. "We had been going through hupcup water for some time. Suddenly we were in water which covered the car completely."

"I opened the door and tried to help Mrs. Kitchens out. But, the current swept me away. I caught on to a tree but a log hit me and knocked me loose. I grabbed some driftwood but was carried some 300 or 400 yards. I saw Mrs. Kitchens pass me as I was holding on. I just saw her head as she slipped on by me."

Rescue parties in boats picked up Mrs. Kitchens and Wilson and recovered the six bodies.

The fishermen were caught by swiftly rising water at Grubville, 42 miles southwest of St. Louis. They climbed first to the tops of their cars, then were forced to take to the trees as the waters rose.

After nine hours in the trees, an unidentified man and woman heard their calls for help and a boat rescue was made.

Murder Charged In Baby's Death

The 18-year old Spanish-American mother of a nine-month-old baby girl, who died Saturday night, is being held in Howard County jail.

Charges of murder with malice in the death of the child have been filed against her by Guilford Jones, district attorney.

She is Rosa Bustamante, wife of Francisco Bustamante, 29-year-old concrete worker.

The dead child is Mary, one of twin girls of the Bustamante couple. Jones said that she died of multiple bruises, lacerations, skull fracture and internal bleeding.

He contends that the child was subjected to a beating and that its death resulted from this episode.

The woman claimed that the child fell from her bed.

Mary died shortly after midnight at the hospital. She had been admitted to the institution 12 hours earlier.

The mother was taken in custody by city police.

After extensive questioning, charges of murder with malice were formally lodged against her Sunday forenoon and she was transferred from the city jail to the Howard County jail. Walter Grice, justice of the peace, set her bond at \$7,500.

She had not been released on bond Monday noon.

Funeral services for the little girl were conducted at 9 a. m. Monday from Sacred Heart Catholic Church. Father Adolph Metzger officiated and interment was in the City Cemetery with Nalley-Pickles Funeral Home in charge of arrangements.

Survivors of the child in addition to her parents include her twin, Martha, and Aditta, an 18-month-old sister.

Jones said Sunday that questioning of the mother had elicited some information but that no complete statement had been made by the woman.

He said that the charges were filed after examination of the child.

When the injuries were inflicted was indefinite but Jones believed that they occurred not too long before the baby was brought to the hospital.

The incident occurred at the family residence, 213 Ne 7th. The husband was not at home at the time. He had left early Saturday morning to go to his job.

Mary and her sister Martha were born in Stanton on Sept. 26, 1956.

Boys Nabbed After Running Gun Battle

HILLSBORO, Tex. — Police captured the second boy yesterday of a pair who fired at private and police cars alike in a wild race across Central Texas after escaping from a state school.

The captured boys were part of a gang of eight which fled the state boys home at Gatesville Saturday.

Hill County Sheriff Ernest Brooks said Wilford Davis, 16, of San Antonio, admitted firing at motorists who "wouldn't get out of the way." Davis also told officers and newsmen: "I thought it might slow down the sheriff."

George Scott of Corsicana was wounded in the arm by a shotgun blast at his car. The Charlie Armstrong family car had its radiator riddled and the windshield broken by gunfire, but no one was hit.

The sheriff's car and a police patrol car from here had their windshields poked by gunfire during the running gun battle.

Davis was recaptured when a panel truck overturned. He was bleeding about the nose and mouth, but apparently was not seriously hurt.

A companion, Bobby Hodges, 16, of Vernon, escaped but was recaptured yesterday morning at a farmhouse. Weary and barefooted, he offered no resistance, officers said.

The other six were still at large today.

Dr. Herman Sauer, superintendent of the Gatesville school, said all eight escapees were from the home's maximum security unit and were serving terms for car theft and burglary.

He said they had been taken outside to play baseball when "Davis slipped around a building and wired up the attendant's pick-

Another Blistering Day Bakes Texas

Another blistering summer day —relieved only by the chance of a few scattered thunderstorms in the Panhandle—baked Texas Monday.

Boys Nabbed After Running Gun Battle

HILLSBORO, Tex. — Police captured the second boy yesterday of a pair who fired at private and police cars alike in a wild race across Central Texas after escaping from a state school.

The captured boys were part of a gang of eight which fled the state boys home at Gatesville Saturday.

Dr. Herman Sauer, superintendent of the Gatesville school, said all eight escapees were from the home's maximum security unit and were serving terms for car theft and burglary.

He said they had been taken outside to play baseball when "Davis slipped around a building and wired up the attendant's pick-

TRAFFIC ACCIDENTS MAY KILL 535 DURING JULY 4 HOLIDAY

CHICAGO (AP) — Traffic accidents may kill 535 Americans during the long Independence Day holiday, the National Safety Council said today.

The 102-hour period runs from 6 p. m. local time Wednesday to midnight Sunday.

Many Americans had a holiday weekend of corresponding length starting with this year's Memorial Day. During that period 413 motor vehicle deaths were reported.

"If we can do as well over the Fourth of July holiday weekend," stated NSO President Ned Dearborn, "the holiday traffic deaths can be held to 465 or fewer."

"But the cold figures indicate that unless extra care is used to meet the extra holiday hazards, the holiday traffic jam will bring death to 535 persons."

That would be a new high for the Independence Day holiday. The record is 491, established during the four-day period in 1950.

Death Of Washburn Witness' Wife Ruled 'Natural'

SAN ANGELO (AP) — Death by natural causes was ruled today in the case yesterday of Mrs. Christine Nelson, 48, wife of the state star witness in the recent Harry Washburn murder trial.

Justice of Peace O. L. Miller returned the verdict. Mrs. Nelson died in a hospital.

She arrived Friday as officers brought her husband, Andrew Nelson, here.

Dist. Atty. Justin Keever said he would move to dismiss an indictment against Nelson in the auto bomb death of Mrs. Harry Weaver, wealthy club woman.

Nelson, under a life prison sentence, testified at Dallas last week against Washburn, convicted and sentenced to 99 years.

Mrs. N. E. Young, owner of the hotel where Mrs. Nelson was staying, said the woman complained she was "choking to death" before being taken to the hospital.

Storm Death Toll Nears 500 Mark

SURVIVED 6 DAYS

Border Patrol Plane Finds Missing Woman In Big Bend

ALPINE (AP) — Mrs. Clifford White, given up for dead in the blistering Big Bend National Park, was found today by a Border Patrol plane.

Her husband died quickly when he left their air-conditioned station wagon, bogged in sand, and sought help Tuesday. His body was found Wednesday.

Mrs. White survived six days. A park official said it appeared she saved her life by climbing a mountain to cooler elevations and finding the cover of a cave. Robert Faulk of the Border Patrol said identification was positive. A food drop to her was arranged. Ground parties set out immediately, but it was not known when they would reach her.

The cave in which she was found is about seven miles from a farm at which planes can land. Dr. W. E. Lockhart of Alpine was flown in and an ambulance plane stood by at Alpine for use if needed. Ground parties started out in jeeps. They estimated they could get no closer than two miles to the cave by jeep and must traverse very rough country on foot the remainder of the way.

Fliers said Mrs. White picked up the food and water, indicating she was in at least fair condition.

Park Supt. George Miller said she was found about 9 a. m. today.

He told the Fort Worth Star-Telegram that Mrs. White, 46, emerged from a cave and waved a white blouse at the plane.

Miller said a search plane spotted her near a cave high on a mountain about 8 air line miles from where she and her husband abandoned their station wagon. It

had stalled in loose dry sand of an arroyo, on the park's river road, 17 miles east of Castolon.

White, apparently seeking aid, was found dead on the rugged heat-blistered and unimproved road 10 miles from the car.

Footprints near the river caused rescue parties fruitlessly to drag the Rio Grande through Mariscal Canyon, about 20 river miles from the stalled car.

"We felt sure Mrs. White had drowned," Miller said. "Then late Sunday we found a woman's footprints at a water hole near the base of a 2,000-foot precipice, about eight air line miles north of the stalled car."

"This morning airplane searchers began flying over Punta de la Sierra Range, south of the Chisos Mountains.

"A few minutes ago a pilot radioed us here at Panther Junction Park Headquarters that a woman, who apparently had emerged from a cave between Dominguez Mountain and Backbone Ridge, northeast of Punta de la Sierra and about a mile southwest of Elephant Tusk, waved her blouse at him."

"Ground party already is on its way to the cave."

"We feel sure that the woman is Mrs. White and that she survived the terrific heat of the desert at the foot of the park's mountain country only because she found shelter from the sun and managed to climb to an altitude where the heat is less oppressive."

"During the search last weekend, temperatures rose to 115 degrees along the river road."

Mrs. White, 46, is the personal secretary of Houston oil man Bob Smith and her husband, 51, operated a fixture store in Houston.

They moved to Houston from Nashville, Tenn., three years ago. On Sunday, June 23 they checked into a cabin in the Chisos Mountains Basic resort center and were last seen scouting for cactus plants just before noon Tuesday near the Maverick Junction western entrance to the park.

They had talked to a concession employee in the basin about the river road, but were warned it was impassable and were advised not to go to that section of the park.

Mrs. White's brother, Louis Shindler of Memphis, Tenn., arrived at Alpine Sunday. He said his sister was an excellent swimmer and he did not believe she had drowned in the Rio Grande.

Gasoline Prices Dropping Here

Gasoline prices had fluctuated here over the weekend with a majority of stations showing a 2.4 cent decline.

Most of the major suppliers said that their outlets were posting at 26.9 cents a gallon for regular. Ethyl was listed by these at 29.4 and the top premium grade for 32.4.

The picture, however, was not universal, for often the schedule varies from retailer to retailer. In some cases tankwagon charges had not varied, but retailers were adjusting to the lower price posted by competitors.

Parr Kin Talks At Fraud Trial

HOUSTON (AP) — Archer Parr, former Duval county sheriff and nephew of South Texas political boss George Parr, testified today he filed no charges in an alleged burglary of the Benavides School District office Oct. 3, 1953.

Archer Parr was one of the final defense witnesses in the fourth George Parr mail fraud trial. His uncle and 10 others are charged with using the mails to defraud the school district of more than \$200,000 in tax funds.

Archer Parr, 31, a San Diego lawyer told the court he filed no charges because "no one connected with the school district wanted to file a complaint."

He said he finished work towards a law degree at Austin in October and now is a full time attorney.

He said he is representing his uncle in a Corpus Christi bankruptcy suit.

Earlier witnesses had testified the office was ransacked and minutes of school board meetings taken.

Mrs. Verlon Bridges said she entered the office in time to see Diego Heras leave by a window. Heras was a government witness. Some 80 pages of school board records had been admitted into evidence.

The former sheriff said he investigated the incident after being told of it while in San Diego.

Asked by U.S. Atty. Malcolm Wilkey why no charges were filed, he replied: "There were various and sundry reasons."

"Did you ever interview Diego Heras concerning the alleged burglary?"

"No, I didn't."

A witness who testified last Wednesday, Mrs. Maria Haight, was recalled to the stand briefly.

Jury Investigates Death At C-City

COLORADO CITY — The 32nd Judicial District grand jury of Mitchell County was convened in special session today to probe the death of Jack Edward Kiser, 26, at the police station Saturday night.

Kiser, struck on the head with a "slapper" during an altercation, was pronounced dead at 11:32 p. m.

Roy Barker, a patrolman, turned himself over to Sheriff Dick Gregory. There have been no charges filed and he has not been suspended from the force pending a study by the grand jury.

District Judge A. S. Mauzey convoked the grand jury for a 2 p. m. session today.

County Attorney Frank Ginzell is conducting the investigation in the absence of Eldon Mahon, district attorney, who is on vacation.

Funeral for Kiser, a Korean veteran and ex-Marine, was set for 4:30 p. m. Monday at the First Baptist Church in Westbrook. Burial was to be in the Westbrook cemetery under direction of Kiser and Son Funeral Home.

He is survived by his wife, a step-daughter, Rodee Ranyi Bond, 5; his mother, Mrs. D. C. Coburn, Westbrook; five brothers, A. T. Kiser, Dallas, Harold Kiser, Odessa, Bill Kiser, Amarillo, Alton Kiser, Sherman, and Bob Kiser, Colorado City; and two sisters, Mrs. R. W. Allen, Dallas, and Mrs. Faye Blythe, Whitesboro.

Police said that Kiser was brought to the station on a disturbance complaint Saturday night after he had driven his car into an old cellar at the rear of the Starr Drive Inn east of here on U.S. 80. He left his car and talked with the manager who complained that Kiser used abusive and threatening language.

Police said they scuffled with Kiser at the car before they took him to the police station. As he was being booked, a scuffle broke out again, and he was struck on the head with a slapper. He fell to the floor and a doctor was summoned.

Patrolmen Roy Barker, Jesse Bunch, Arlie Moore and D. O. Seales were in the station at the time of the incident.

Kiser was born June 5, 1931, at Sherman and had been only three weeks in Colorado City, where he worked as a service station operator.

Search Goes On For Victims Of Hurricane

LAKE CHARLES, La. (AP) — Workmen probing the debris of hurricane and wave-stricken Cameron today uncovered many additional bodies, sending estimates of the final death toll upward again.

Val Peterson, President Eisenhower's personal representative at the scene, reported that it is now feared the hurricane death toll in Louisiana will be around 500.

The Lake Charles American Press said the toll would run between 400 and 500, probably about 450, basing its estimate on the rapid discovery of more victims during a systematic check of the surrounding marsh.

Sheriff Ham Reid of Calcasieu Parish — Lake Charles — said he now knows of 246 bodies on hand and "many more are coming in." Reid is in charge of maintaining the official death list. He gave his latest figure at a news conference of federal and state Civil Defense officials.

The official estimate has been 350.

The grim news of a climbing toll broke as Louisiana prepared a mass burial for the nameless dead.

Thousands of survivors of Thursday's great storm still clogged makeshift refugee centers here and in nearby towns. From Washington came a Red Cross estimate of 47,000 still homeless in southwestern Louisiana and southeastern Texas.

EARLIER ESTIMATE

The earlier estimate of the death toll came yesterday from Larry Stephenson, local director of Civil Defense. He based it on a widely accepted premise that uncounted dead still were screened from searchers by storm debris and the slowly receding tidal waters of the now serene Gulf of Mexico.

About 240 bodies have been recovered and searchers report almost constantly that more have been spotted.

Gov. Earl Long inspected the disaster area yesterday and predicted: "The actual count of dead and missing will go way over 400."

He wouldn't guess how long it would take to rebuild an area that suffered a loss running into uncalculated millions of dollars.

"Nobody knows but the Lord," he said.

A growing threat of pestilence spurred the mass burial of unidentified bodies. Last night's humid air in temporary morgues here echoed the soft chant of spirituals as many Negroes besought a final moment "with their dead."

"Oh Lord, oh goodness gracious, oh Lord," one woman cried.

Another moaned just before collapsing: "Oh Lord, there's so many of them."

As far as 80 miles east of the storm center in Louisiana's southwestern tip, typhoid shots ran low. Mosquitoes thrived in the brackish waters swollen by Hurricane Audrey and her deadly escort, a 20-foot tidal wave from the Gulf of Mexico.

CATTLE BLOATED

Tens of thousands of cattle bloated in withering heat.

Peterson told President Eisenhower yesterday by telephone: "There is a very great health program, because of the bodies of both human beings and animals. All of the health agencies are working very hard."

A feverish two-day rescue operation for survivors of the season's first hurricane gave way to a grim quest for the dead. State Route 14 to the south was finally opened from here. At dawn yesterday a caravan of trucks and Army earth-moving equipment roared along 60 desolate miles of storm-stricken territory.

Poisonous snakes and emboiled rats held sway over the bare foundations of homes that once echoed to the laughter and day-to-day bustle of rural Louisianans.

Cameron, a little fishing village that was the focal point of the storm damage, was the target of the initial cleanup. Once its main street was bulldozed clear for traffic, mopup squads turned to the rubble of its modest property. Only its courthouse was left intact by the storm.

He Carries On

Dr. C. L. Clark, Cameron, La., town doctor, treats 78-year-old Mrs. Eulice Richard of Cameron as he carried on his duties as a doctor while his wife and five children were still missing and presumed dead as a result of Hurricane Audrey and tidal wave which hit Cameron. Later his wife and two of the children were found alive. Three of the children were dead.

SERVICES HELD

In Lake Charles, where refugees handling was concentrated, a renewed poignancy drained a population already dazed by shock. Local Protestant and Roman Catholic churches were packed yesterday as refugees joined townsfolk in thanksgiving for the living and honoring the dead.

Graham's Mom Joins Crusade

NEW YORK (AP) — Evangelist Billy Graham's mother joined him on the platform at Madison Square Garden last night to tell of the virtues and blessings of a Christian home.

They were heard by an audience announced as 19,200, including 700 standees. An estimated 5,000 gathered outside. Unable to be admitted to the arena because of building regulations, a spokesman said it was the largest turnout during the 46 days of Graham's New York crusade.

Graham's mother, Mrs. Anne Morrow Graham, a little woman in her 60s, urged that parents rear their children in the Christian faith and the Bible and take them to church and Sunday school. She said she and her husband, William Frank Graham Sr., a North Carolina dairy farmer, did their best to instill a feeling for God in their children.

Total attendance at the Garden meetings to date was announced as 805,800. Graham's call last night for "decisions for Christ" brought 397, making a total of 24,932 since the meetings began May 15.

The upper part of the 100-foot Yankee Tar is all that shows above the water at the Grasso Fish Company docks in Galveston after Hurricane Audrey dealt Galveston County 6-foot tides and gale force winds.

Too Much Rain

GREAT BEND, Kan. (AP) — Kansas wheat farmers, plagued by lack of rain for five years, now are taking a beating from too much rain. Heavy rains are pounding the ripened grain down into mud.

On Vacation

BALTIMORE (AP) — Dr. Milton S. Eisenhower, Johns Hopkins University president recently hospitalized with a kidney infection, left today for a month's vacation at a Wisconsin fishing lodge. Eisenhower is the youngest brother of the President.

Airman Killed

DENISON, (AP) — A fire in a four-room house last night burned to death a man identified as a Perrin Air Base sergeant. His name was withheld.

Hurricane Victim

Scattered showers and thunderstorms were indicated in many parts of the country today, with mild weather prevailing in most areas.

Stormy weather continued during the night in sections of Kansas and Oklahoma. Tornado and thunderstorm warnings were posted for the eastern part of south central Kansas and the eastern section of extreme north central Oklahoma.

Heavy rain and wind storms hit Kansas yesterday and a tornado was reported in the air over Liberal last night. No casualties were reported. Flash floods and strong winds battered eastern Missouri. Seven persons drowned, including a father and his five children in Ironton, Mo. The Red Cross reported 80 homes damaged or destroyed. Roads and miles of railroad track were blocked by landslides.

Security Expert Raked For Indictment Of U.S. Press

WASHINGTON (AP) — Rep. Moss (D-Calif.) today accused a top government security consultant of restating an "unsubstantiated indictment of the American press" without presenting any supporting evidence.

Moss, in a statement prepared for the opening of new House hearings on military information policies, said Loyd Wright "has failed to supply documentary evidence to support his charges" that newsmen had made unauthorized disclosures damaging to national security.

Wright, a Los Angeles lawyer, heads a commission on government security which last week recommended a new law providing heavy fines and prison for anybody violating "security secrets." At present, only government employees come under such a law.

Critics have charged that making newsmen subject to such a law would permit government officials to use "secret" labels to mask improper acts or mistakes.

They challenged Wright to be specific and name persons who allegedly had "purloined secrets."

In a weekend statement, Wright listed cases in which he said newspapers, magazines and a wire service had broken security on such matters as missiles development and jet engine. He cited several previously publicized instances of alleged security breaches during World War II and the Korean War.

He also listed 15 cases which he said the Defense Department gave his commission last September as "examples of publication prejudicial to the national security." But this list did not name any allegedly offending publications.

Wright said that during the past week, he had requested "the responsible official" to release some information that Wright contended would back up his charges. But, he added, "I regret to report that this request for declassifications was denied, and that the information is apparently entombed forever... never to be disseminated to the American people who are entitled to know the full details of these dark chapters of betrayal."

Wright did not name the "responsible official" involved. Investigators for Moss' subcommittee on government information policies said they plan to try to find out the official's identity.

Tito Jumps At Chance To Put Own Views Alongside Mao's

By WILLIAM L. RYAN
AP Foreign News Analyst

President Tito of Yugoslavia has jumped at an opportunity to associate himself with the current views of Red China's Mao Tse-tung.

With what looked suspiciously like a sly twinkle, Tito said in a television interview yesterday he was "pleased to be able to say that our views do not contradict with the views outlined by Mao Tse-tung, but on the contrary they are to a great extent identical."

The President gave the impression that in lining up with Mao, and in expanding his ideas of "roads to socialism," he was still fighting Joseph Stalin's ghost.

So long as a suspicion of Stalinism in the Kremlin remains, Tito apparently will be inclined to the West and the protection it affords.

He said, for example, he thought the resistance in Poland was basically a resistance to Stalinism.

It has been fairly clear too that much of what Mao has been talking about concerns Stalinist-line mistakes.

It may be Tito was posing, along with Mao, as one of two interpreters of something new and daring in Communist doctrine.

But his remarks were not likely to widen his rift with Moscow.

At the outset of his interview, the Yugoslav chief admitted that what separates him ideologically from Moscow is a rather fine thread. He emerged as a man with whose ideas Moscow could hardly quarrel.

Regarding Mao's much-publicized statement on contradictions in a Communist-ruled country, Tito told his interviewer many of the things the Chinese leader said could be considered new. But, like Soviet boss Khrushchev in his television interview, Tito went on to say that the special features of a country like China require a special approach to internal problems.

Tito did not deviate notably from the Soviet foreign-policy line. In the case of Hungary, he described the Soviet crushing of the rebellion as "unavoidable." He accepted the excuse that the Soviet troops acted under the terms of the Warsaw Pact. He indicated the Hungarian revolution went too far. Thus it might be a danger to all Red regimes, including Tito's.

Tito asked the American public to believe the present Hungarian regime installed by Soviet guns "enjoys more and more support of the people and the working class."

Tito supported the Soviet position in the Middle East and denounced the Eisenhower Doctrine as a troublemaker. He supported the Soviet line that East Germans must sit down with West Germans to work out their problems of reunification.

Tito's television speech will remind the American public that he has been an ally of the United States because he had to be.

Mild Weather For Most Areas

By The Associated Press

Scattered showers and thunderstorms were indicated in many parts of the country today, with mild weather prevailing in most areas.

Stormy weather continued during the night in sections of Kansas and Oklahoma. Tornado and thunderstorm warnings were posted for the eastern part of south central Kansas and the eastern section of extreme north central Oklahoma.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem."

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H. At your druggist. Money back guarantee.

Most amazing of all—results were so thorough that sufferers made

Coahoma Woman Praises New Medicine

To my Friends and Loved Ones:
This is my first time to write a testimonial about any kind of medicine, but this Citru-Mix has helped me so much that I want to tell others who suffer from that dreadful thing called rheumatism.

Mrs. Mary Wilson
Coahoma, Texas
Citru-Mix is sold by the name of R-12 at Collins Brothers Drug Store and Walgreen Agency in Big Spring, Texas (Adv.)

COURTEOUS

is the word for Humble Service

That's the way women customers (and many men) describe Humble service.

It's genuine Texas courtesy that's based on friendliness and a real desire to be helpful.

It's courtesy that makes you feel at home when you stop on the driveway... that not only welcomes you but thanks you warmly... that reflects an interest in doing a good job to keep a neighbor's car running right and looking good.

Stop for courteous service under your neighbor's Humble sign.

HUMBLE OIL & REFINING COMPANY

Rest rooms under Humble signs are extra clean!

A Bible Thought For Today

But he answered and said, It is written, Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God. (St. Matthew 4:4.)

Vote Tuesday And Get Others To Vote

Big Spring voters, who have duly rendered property for taxes, will have the opportunity Tuesday of deciding on \$50,000 in revenue bonds. Few issues have been so important.
 Proceeds of this particular issue will make up the city's direct share of a \$225,000 cost of extending water and sewer lines in connection with the big on-base housing project. The government has pledged to loan the city \$175,000 without interest and to take payment in the form of percentage credit on monthly water bills. The city must furnish the remaining \$50,000.

Walter Lippmann You Can't Change The Law Of Physics

Every day in 1956 seven people went out and managed to get themselves killed on the highways of Texas.
 Every day another 305 were injured, some so seriously they will be crippled for life. Every day there were 625 highway accidents causing \$650,000 in economic loss.
 Extend these figures for the year and you have 2,611 killed, 111,325 injured (roughly one person out of 70) in 228,125 accidents. The property loss was an appalling \$237,250,000.

Marquis Childs The New Storm Around The High Court

WASHINGTON — Not since the early days of the New Deal has such a storm broken around the Supreme Court as is now raging over the civil liberties decisions.
 The parallel is striking. While the wind comes from a different direction, its force is similar to that which blew up in the early '30s as the court threw out one New Deal act after another.
 What the New Dealers were saying then about the court and specifically about Chief Justice Charles Evans Hughes and his conservative associates, Justices Willis Van Devanter, James McReynolds, George Sutherland, Pierce Butler and Owen J. Roberts is just what right-wing critics are saying today about Chief Justice Earl Warren and the justices making up the majority. It adds up in baseball language to, "Throw the umpire out."

What Others Say

No wonder the Free World was given no least of the speech made in Peiping last February by Red China's ruler, Mao Tse-tung.
 Bits of it have been leaking out, and the latest is this:
 "We in China also have used force to deal with enemies of the people. The total number of those who were liquidated by our security forces numbers 800,000."
 "Liquidated" is a euphemism for "slaughtered."
 Mao's estimate may be a grave understatement. The Asian People's Anti-Communist League says the Peiping regime actually has killed 15,168,887 "counter-revolutionaries."
 To ruthless communism, these hordes are a drop in the bucket of China's 600 million people—easily expendable to bring the rest to heel.
 Free men take a different view. It is that life was precious to every single one of those slaughtered, whether 800,000 or 15 million.

No Room For Error

James Marlow Playing Peek-A-Boo With Reality

WASHINGTON — Marshal Tito, the Communist boss of Yugoslavia, may in spite of himself turn out to have been the ruin of world communism.
 But you'd never guess it from what he said Sunday in a televised interview with Edward R. Murrow.
 Tito, who has received American aid since breaking with Stalin in 1948, said nothing to offend Russia and nothing to please the United States.
 When Russian Communist party boss Khrushchev gave a televised interview a few weeks ago he was relaxed, hearty, and to the point. Not Tito. He was tense. He chain-smoked. And he beat around the bush a lot.
 No wonder. He's in a cagey game. He's playing both ends — the United States and Russia — against the middle. He's glad to get it. And he's glad to get it.
 He's been skipping them out. He's line up solidly with the other side, he's in a good spot to get what he can. Like Nehru of India, also glad to get help from both sides, Tito takes the neutral road.
 He's careful not to go out either side in the cold war. But he's a Communist, even if he plays actionary elements might have won control and through the ef-

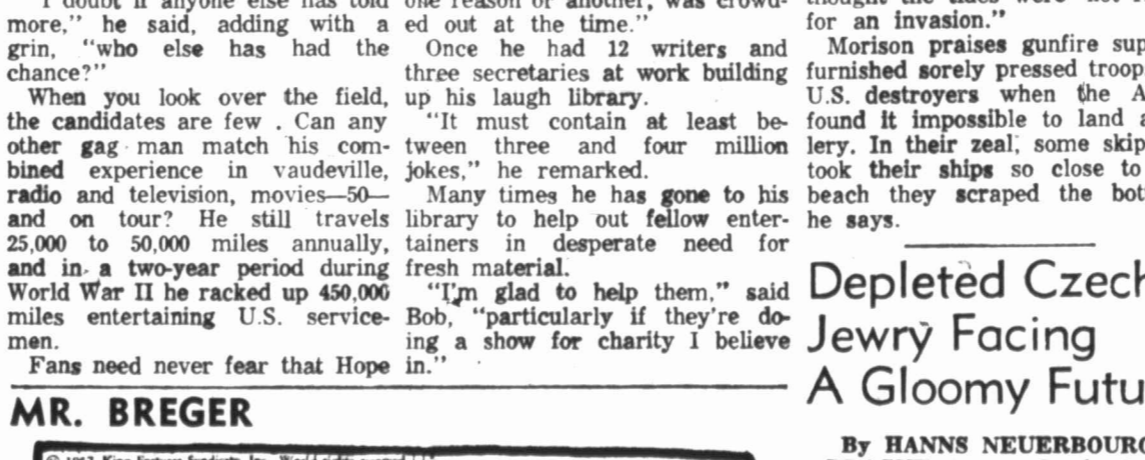

Admiral Sees Victories As Divine Guidance

By TOM HORGAN
 Associated Press Writer
 Rear Adm. Samuel Eliot Morison, the U.S. Navy's seafaring historian, says the Allied invasion of Europe in World War II was accompanied by "things so remarkable as to suggest divine guidance."
 Morison makes the statement in the 11th volume of his 14-volume history of United States naval operations in World War II, which will be published Monday by Little, Brown & Co. The volume covers the invasions of France and Germany in 1944-45.
 His vivid account of the Channel crossing says, "The crowded movement of thousands of vessels and small craft ran off very close to schedule in spite of the foul weather. Small craft had a rough passage, and some strayed—but none foundered and few were seriously late."
 Another amazing circumstance, he adds, was "the enemy's complete unawareness of what was going on. Everyone was astounded to observe the light at Cape Barleur, one of the world's tallest and most conspicuous lighthouses, burning brightly. No enemy reconnaissance planes had discovered anything unusual. German E-boats had failed to make their marine patrol on the night of 5-6 June, because their commander thought that the weather was too foul both for them and for us, and because Adm. Krancke thought the tides were 'not right' for an invasion."
 Morison praises gunfire support furnished sorely pressed troops by U.S. destroyers who had to make their marine patrol on the night of 5-6 June, because their commander thought that the weather was too foul both for them and for us, and because Adm. Krancke thought the tides were 'not right' for an invasion.

Hal Boyle History's Greatest Joker

NEW YORK — Bob Hope, the comedian's Croesus, believes he probably has told more jokes than any other man in history.
 He's been skipping them out past his ski-slope nose at the rate of better than 10,000 a year for the last quarter century.
 "I figure I've told at least a quarter million jokes," he said, "and if you count repeat jokes, that is jokes told over and over to different audiences while on tour, the number would go into the millions."
 "I doubt if anyone else has told more," he said, adding with a grin, "who else has had the chance?"
 When you look over the field, the candidates are few. Can any other gag man match his combined experience in vaudeville, radio and television, movies—50—and on tour? He still travels 25,000 to 30,000 miles annually, and in a two-year period during World War II he racked up 450,000 miles entertaining U.S. servicemen.
 Fans need never fear that Hope will run out of jokes. The Mississippi River is more likely to go dry.
 Although he is known as one of the best ad libbers in the business, Bob also is a methodical as a clock. He has perhaps the finest individual humor library of anyone in the show world. It runs to about 80 file cabinets.
 "It must contain at least between three and four million jokes," he remarked.
 Many times he has gone to his library to help out fellow entertainers in desperate need for fresh material.
 "I'm glad to help them," said Bob, "particularly if they're doing a show for charity. I believe in."

MR. BREGER

"I think the power seat needs some sort of adjustment."

Around The Rim Mosquitoes And Marital Happiness

One thing and another: Writing checks certainly comes easy with a lot of folks.
 The nation's banks handled checkbook spending in excess of \$3 trillion last year, the first time in history that figure has been reached.
 It was estimated that near ten billion checks were drawn on the nation's 14,000 banks in this huge volume of transactions.
 Unless you can anticipate a mosquito sitting down on you, you're going to get bit a lot of times in the next few weeks.
 A hungry mosquito can plunge its proboscis into its victim as soon as it lights within a second.
 In some of the heavily mosquito-infested areas of northern Canada, an exposed forearm may receive as many as 200 bites within a minute, a University of Western Ontario professor has stated.
 At that rate, a naked man could theoretically be drained of all his blood in less than two hours of exposure.
 You, no doubt, would have to go a long way to find a nudist camp in northern Canada.
 Consider this recipe for marital happiness from a French actress:
 Take your daily quota of snags and disappointments, mix well into a light ball. Leave to soak in a mixture of patience and understanding for 24 hours, then drain off the bad temper. Cook for half an hour in warm affection and serve with a liberal lacing of love.

Inez Robb Do-It-Yourself-Ideal For Russians

If the United States really wants to throw a big, economy-sized monkey wrench into the Russian machinery and take the U.S.S.R. out of play for years to come, an unparalleled opportunity has been handed us.
 Pravda pointed the way a few days ago. In 40 years, the Communist mouthpiece inadvertently confirmed, the "Workers' Paradise" has been unable to supply its people with anything approaching adequate housing. Promises, promises, promises! But no place to hang the hat or set up the samovar.
 So Pravda has suggested to millions of home-hungry Russians that they had best smarten up and start building their own. Here, if we act fast, is a heaven-sent chance to wreck the Communist motherland with a dastardly plot worthy of the MVD.
 All we Americans need do to perpetrate this sneaky coup de main is to wrap up and mail to Ivan Ivanovich all those do-it-yourself manuals and blueprints that are now beginning to gather dust in closets, shelves and basements. (This would also serve to keep the Grand Canyon clear and sacred to razor blades.)
 Let us bravely face the fact that this nation is losing much of its do-it-yourself verve and élan since Pa lost the argument with the power saw, the do-it-yourself plaster fell down on Ma and Uncle Horace had to be soaked for a week in the bathtub to get off the pre-pasted wallpaper. And never mind the fact that Uncle Horace was also pre-pasted. They've got vodka in Russia, nyet?
 It figures that if Ivan is encouraged to start building his own nest and scrounging for supplies, the general snafu in Russia can stall the Siberian railroad and louse up the next four five-year plans.
 There is scarcely a citizen of the U.S.A. who does not know at least one couple that started building a home with its own hands and is now living in a tree, or — even more interesting — a family that started a do-it-yourself manor by digging a basement and has never been heard of since.
 It is not enough merely to send do-it-yourself house plans. Every true-blue American, in order to confound confusion, will wrap up with the home blueprint the do-it-yourself interior decorating charts and furniture plans. Furthermore — and this is so diabolical it makes my flesh creep — no do-it-yourself kit intended for Ivan should be minus the brochure on how to assemble a hi-fi set, complete with tweeters and woofers.
 Let Olga, in her hours off from the tractor, try to put together a tester bed or a Winthrop desk from old borsch and caviar crates, regional substitutes for the American orange crate, or, better still, let her whip up a Duncan Phyfe table from those soapboxes scattered all over the U.S.S.R., just in case Khrushchev or Bulganin drop in.
 This could spell the end of the state farm, just as factory norms and Stakhanovism will be over the hill when Ivan gets going with the hi-fi assembly, plus stereophonic sound.
 There is real merit to this plan of mine, and I hope John Foster Dulles will not give it the back of his hand just because he didn't think of it first. The American people may never again have such a splendid chance to invade the U.S.S.R. with a do-it-yourself Trojan horse.
 —TOMMY HART

David Lawrence Supreme Court Brings In 'New Witnesses'

WASHINGTON — The Supreme Court of the United States doesn't practice what it preaches.
 From time immemorial it has been a rule of law that, when an expert witness testifies in court, he must be present for cross-examination by the other side.
 The Supreme Court has just said, moreover, that when the FBI puts on a witness in a criminal case, the other side must have access to anything and everything about the witness which is in the files of the law-enforcement agency so that the credibility of such a witness may be tested in court.
 But the Supreme Court of the United States doesn't allow this in its own proceedings. Thus, the famous decision on school integration violated all the rules of modern courts by declaring that it was based on the "authority" or witnesses who never were revealed in court at all.
 Some of these "witnesses" were connected with Communist-front organizations, and one of them was a Swedish Socialist who bitterly criticized the American Constitution. The lawyers for the several sovereign states who argued the case before the Supreme Court were not told that the Court had any "secret witnesses" or "experts" up its judicial sleeve. Only when the decision was printed did the American people learn what "witnesses" had influenced the Supreme Court's conclusions.
 Today one of the bitterest controversies in American history has grown out of the same Supreme Court decision, which says candidly that its ruling was based on information derived from certain "experts."
 The decision says that "whatever may have been the extent of psychological knowledge" at the time (1896) that the opinion (Plessy v. Brown) was handed down which permitted "separate but equal" school facilities, the new finding "is amply supported by modern authority."
 The Supreme Court, in its opinion, then cited six "authorities" and said in a footnote: "And see generally Myrdal, 'An American Dilemma' (1944)."
 Senator Eastland of Mississippi, Democrat, chairman of the Senate Judiciary Committee, has placed before the Senate a resolution containing information which nobody was evidently permitted to place before the Supreme Court during the time the case was being argued. He says that a "provisional investigation of the authorities upon which the Supreme Court relied reveals to a shocking degree their connection with and participation in the world-wide Communist conspiracy, in that Brameld and Frazier, listed in the group of six authorities, have no less than 28 citations in the files of the Committee on Un-American Activities of the United States House of Representatives revealing membership in, or partici-

Depleted Czech Jewry Facing A Gloomy Future

By HANNES NEUERBURG
 PRAGUE — Czech Jewry, which produced such personalities as Sigmund Freud and Franz Kafka, is facing a gloomy future.
 Nazi extermination practices hit the Jewish community, and more than half those who survived the Prague Jewish monthly, Vestnik.
 "There are only 500 Jewish children in all of Bohemia and Moravia. Then there is a big gap. The aspects for the future are not favorable."
 Of 18,000 children marched to Nazi concentration camps and ghettos, only 200 returned. Of 457 Jewish communities, only 50 still exist. The Jewish population in Bohemia and Moravia is estimated by Ilie at about 10,000, compared with 108,000 in March 1939.

Naval Hoseman

SAN DIEGO, Calif. — When 18-year-old Carl Two Horses arrived at the naval training center as a recruit from Cannon Ball, N. D., he said his Sioux Indian family name went back to the time his great-grandfather acquired two horses.
 Two Horses followed other Indian recruits with such names as Marcus Two-Hatchett, Fred Big Horse, Leroy Everybodytalkabout and Sam Tall Bear.

Happy Taxpayer

RICHMOND, Va. — Allen V. Jay, called for jury duty, was asked if he had been a citizen of Virginia for 12 months. He replied that he wasn't even a citizen of the United States, but a Briton.
 Jay said he had received polltax bills for several years and paid them rather than quibble.

HOLLYWOOD BEAUTY

Ex - Model Establishes Feeling Of 'Presence'

By LYDIA LANE
HOLLYWOOD - Former cover girl Pamela Curran makes her first film appearance in "The Desk Set." When this blonde beauty entered the commissary at 20th Century-Fox with me the other day many an admiring eye followed her to our table.

Pamela was wearing a delightful scent which I admired. "A woman should find the perfume which is right for her and stay with it until she makes it her very own. You may have to try quite a few before you discover the one that you and all your friends will like."

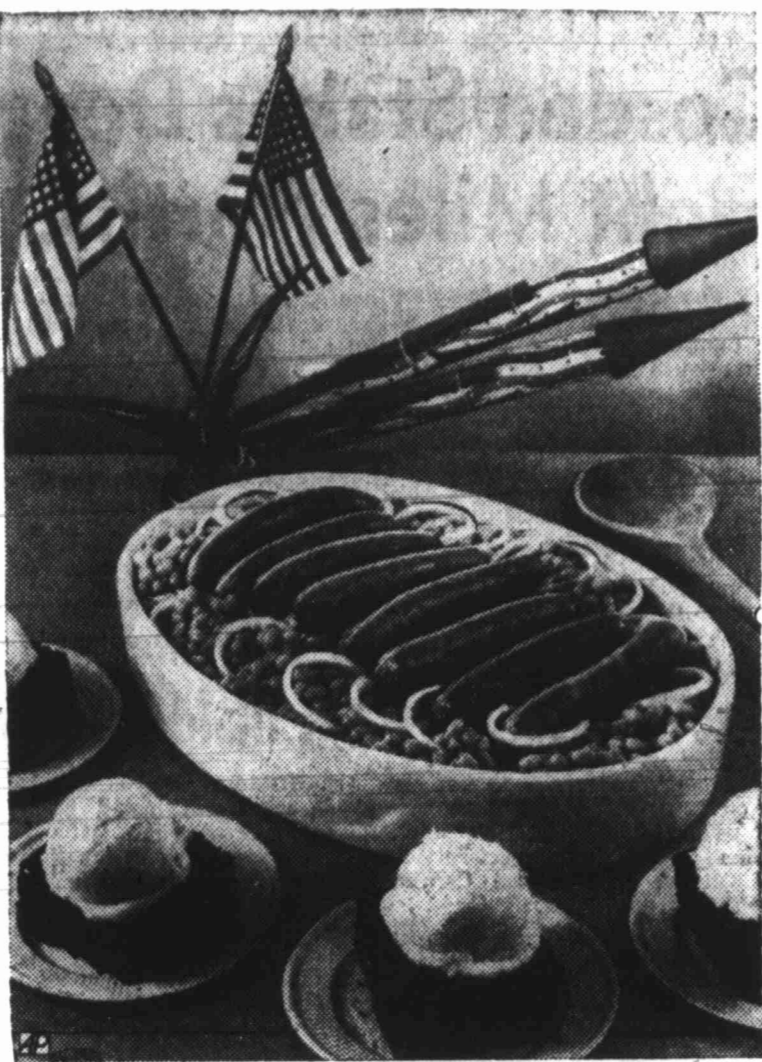

"Men like perfume, but you never know how much enjoyment it brings to men unless they tell you. I have it in everything - my soap, bath powder, bath oil, and I keep a sachet in my sheets and lingerie."

"I prefer a perfume that is not too commonly worn and one that will stay with me." The talk turned to charm. "It's difficult to define just what charm is but anyone who can get along with both sexes, when men, women and children like you, there's no doubt about it. You have charm," Pamela said as we finished lunch.

CHOOSE YOUR PERFUME

The right perfume choice is one of the most important steps in grooming. The wrong scent, whether too heavy or too light, can destroy the aura a woman tries to achieve.

If this is a problem to you, Leaflet M-26, "Perfume: How to Choose and Use It," may be just what you are looking for. For your copy send 5 CENTS AND A SELF-ADDRESSED, STAMPED ENVELOPE to Lydia Lane, Hollywood Beauty in care of "The Big Spring Herald. Please remember to ask for Leaflet M-26.

For Old-Fashioned Fourth

Try a picnic at home with a big casserole of baked beans, topped off with onion rings and frank. Dessert can be gingerbread or a loaf, or maybe you'll like a lemon sauce instead of ice cream.

Glamour Girls Swim All Day, Call It Work

By GENE HANDSAKER
LOS ANGELES (AP)—A green-eyed blonde and a green-eyed brunette have unusual jobs at a swimsuit factory here. They test new-model bathing suits in the factory pool. Give 'em, you might say, sort of the opposite of a dry run.

How do you test a bathing suit? Just put it on and jump into the water? Yes, but there's considerably more to it than that.

"I'm told to look for whether it's too long or too short or too tight or too loose or too hard to get into," said Sue Higgins, 19.

She's the blonde. Size: A perfect 12. Former San Bernardino, Calif., Valley Junior College student, "Miss San Bernardino of 1956." Visited her sister's mother-in-law at the factory one day and was offered a job. Real pretty.

A big part of her work is standing around in the boss's office in a bathing suit while the boss experimentally pins new fabrics, proposed pockets and tentative trims here and there on her.

The boss is per Rose Marie Reid, whose name is on the factory.

Sue comes to work in pedal pushers, dons a bathing suit and changes suits "lots" of times during an average working day.

"Twenty times, say?" she was asked. "Oh, lots more than that," Sue replied.

The girl who does most of the water-testing of new suits is Chris Clark. Excellent swimmer and diver. Learned to swim in an irrigation ditch near her native Orem, Utah. Graduated from Utah State. Taught elementary school in Hawaii; Anchorage, Alaska, and Seattle.

She's married to an ex-GI. Took the suit-testing job, for lack of a teaching credential, when they moved here. Won't tell her age; early twenty-ish; attractive; bright.

"Quality Control," she said, nodding toward a section of the factory, "tests everything from fabric and thread to zippers and sequins. They leave foot-square swatches of material in the sun and in chlorinated water and then in salt water for 40 hours at a time, to see if it fades."

"But strength - and whether there's anything objectionable in the fabric, or the way it's sewn, or the style - can only be tested by a girl in the water."

Some suit models have what Chris called a standaway bra. Sort of a false front that stands like two shields over the inner, working bra. To the casual observer it gives an illusion of more bosom than may exist. A factory assistant, Miss Hazel Fath, explained: "Unfortunately most women are not as big in the bust as they are in the hips. The double bra gives a more balancing effect."

"On white or light suits we look for transparency after they're wet," Chris continued.

"We test for shrinkage, before and after a suit is wet, with a tape measure. We also test for 'growth' of the fabric - whether it's baggy and unfit to wear after it's wet - and whether colors hold up or fade."

"One claret-colored suit had denim pants under it. But when the suit was wet, the pants came out red, so that material couldn't be used."

The girls also watch for any rusting tendency on metal clasps. They fill out a mimeographed report form after testing each model. Chris averages a couple of hours a day in the pool, which has a sign, "Testing Laboratory," beside it. It's thrown open for recreation of employees and their friends after working hours.

The testing operations seemingly gave the company's pattern developer, Manny Rubens, a bad shock one day. Somebody had left two suits floating in the pool to see how the material and colors would stand up in the chlorinated water. Manny, happening by, feigned alarm.

"The suits are holding up just fine," he cried, "but the girls have disintegrated!"

Circles Won't Meet

Circles of the First Methodist WSCS will not meet this Tuesday as announced Sunday. The circles will meet July 9.

Local Woman Praises New Medicine

Dear Mr. Collins: I read in the Big Spring Daily Herald about a tablet for rheumatism called Citru-Mix, so I decided to try it as I have what the doctors call spinal rheumatism. My back hurts sometimes until I just can't stand it. I have taken most everything for it. I have been to Hot Springs and Mineral Wells - but I only got relief while I was there.

I am glad to tell you that one bottle of Citru-Mix has given me more help and relief than any other thing that I have taken in all my life.

I am on my second bottle now and I am sleeping all night sound and up doing all my housework for a family of six.

I live at 819 West 4th St., and I will recommend it to anybody who has suffered as I have.

Respectfully, Mrs. Ralph Harvey

The above letter was received by Mr. Alfred Collins praising the new medicine Citru-Mix, marketed under the name R-12, is on sale at Collins Brothers Drug Store at Second and Rannels and at the Walgreen Agency located at Third and Main Streets in Big Spring, Texas (Adv.)

Wear It On Dates

This special design for Teen Types is perfect for date wear all summer long. Sew another version without the collar and with lace trim.

No. 1595 with PHOTO-GUIDE is in sizes 10, 12, 14, 16. Size 12, 32 bust, with collar, 5 1/2 yards of 85-inch.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 438, Midtown Station, New York 18, N.Y.

Send 25 cents now for Home Sewing for '57, a new, different sewing manual with styles for every season. Gift pattern-printed inside the book.

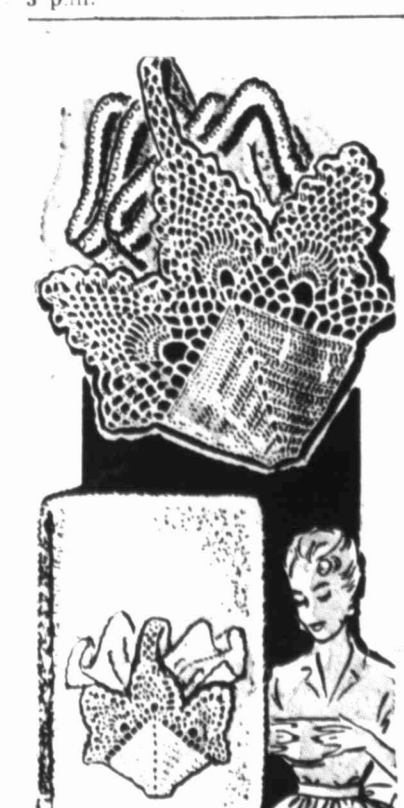

She Likes Perfume

Pamela Curran, who makes her movie debut in "The Desk Set," likes perfume. Therefore she uses it in everything - her soap, bath powder - and keeps a sachet in her sheets and lingerie.

Homemakers Class

The Homemakers SS class of the First Christian Church will meet in the home of Mrs. Tom Rossen, 103 Lincoln, Tuesday at 3 p.m.

White House Adds Butterfly To Springtime Decor

The White House has now added make-believe butterflies to its springtime tea party decor, along with the recorded birdsong it introduced earlier this season. Guests at a recent affair given by the First Lady could hardly believe they hadn't been transported to the garden, so realistic was the setting. Lilacs were twined around the marble pillars in the lobby and bouquets of lilacs and roses were everywhere in the East Room, the Blue Room where Mamie received them, and in the State Dining Room. There was a 10-foot maypole in the East Room, and two small maypoles decorated the tea table.

Pre-Packaged

Fresh fruits and vegetables in handy, consumer-sized packages are becoming increasingly popular. Pre-packaged items now represent about 20 per cent of the total produce poundage sold in this country.

Summertime Special

Alternate layers of slightly sweetened crushed strawberries and vanilla ice cream in chilled parfait glasses. Top each with a whole, uncapped strawberry and one or two water-thin cookies on the sidelines.

Porch Of Yesteryear Gains New Popularity

Contemporary architecture refers to them as "entrance courts", "sitting terraces" and a variety of other dressed-up terms, but they boil down to a variation of the front porch of yesteryear.

There are lots of reasons for the returning popularity of the front porch. For one thing, the porch provides a pleasant transition from street to living room. It makes even small homes appear larger, more hospitable, and it furnishes added outdoor living space.

Front porches may range in size and style from the front-sweeping Colonial veranda, to a porch suggestion with overhanging roof and paved or decking floor around the entrance.

Hospitality in design is further enhanced by the use of warm wood exterior siding on home and entrance. Many patterns of siding are available in rich red-brown western red cedar or sturdy and beautiful Douglas fir. Boards and battens, drop and bevel siding are just a few of the many. Two or more of these patterns may also be used together for strikingly individual effects.

These woods reflect the beauty of nature itself and therefore become a part of landscaping, adapting to any period style.

Site imperfections may be utilized to advantage in deciding upon a design for your front porch. If the house is on a lower elevation than the upper section of your lot, the front porch may be sunken, and retaining walls built around the boundaries to hold shrubbery and small blossoming plants. Such an arrangement gives even more coziness to the front porch.

If the porch looks directly across the street into the neighbor's living room, screen some privacy in with a cedar fence section in one of the lowered or basketweave styles. You may even add shelving to your fence sections for potted plant hanging gardens.

Other front porch accessories include cedar shrub tubs to match exterior siding and furnish a neutral setting for lovely plants.

If your porch is to be elevated from the lawn, try one of the new fir decking styles which adds a cosmopolitan air to your home, yet is simple to construct, economical and easy to maintain. Fir decking may be installed in sections for a checkerboard effect, or run it parallel over the entire porch area.

You may wish to build simple cedar or fir fence banisters, and maybe even banister seats, sloping the back for comfort.

Of course, your family needs, your geographical location, and your own tastes will dictate to a large extent the design of your front porch. It may be screened in, it may serve as a summertime play pen for the kiddies, in which case it must be enclosed, or it may extend around two sides of the house if you entertain outdoors a great deal. Wood serves well in any case and is never limited by design eccentricities or strength problems.

Rev. Floyd Hull Is Honored With Birthday Party

The Rev. Floyd Hull was honored Saturday evening with a surprise 51st birthday party in the home of his son and daughter-in-law, Mr. and Mrs. Buford Hull. Other hosts were friends and relatives.

The honoree was presented with numerous gifts and games were played. A large birthday cake and ice cream was served to 35 guests.

Out of town guests were Mr. and Mrs. H. A. Hull of Lamesa and the Rev. and Mrs. Mark Reeves of Coahoma.

Explosion On Sun Happens At Right Time -- Opening Of IGY

By FRANK CAREY
AP Science Reporter

WASHINGTON — Scientists of many countries concentrated today on studying the effects of a major explosion on the sun which coincided nicely with the opening of the International Geophysical Year.

IGY is a cooperative scientific effort by 62 nations — including Russia and most of her satellites — to glean new information about the earth, its oceans, its atmosphere and the sun which strongly affects life on the planet. About 10,000 scientists are participating in the 18-month studies, opening officially today.

Practical benefits such as better weather forecasting, improved communications and navigation are hoped for as a result of the pooled research.

The solar flare—a giant geyser of solar particles and radiation streaming out probably hundreds of thousands of miles from the sun's surface—reached the earth yesterday in the form of magnetic storms in the high atmosphere.

Such high-altitude storms, which sometimes disrupt radio and telegraph communications, are "as tempestuous as hurricanes are in weather disturbances," said a special bulletin from American IGY headquarters.

Radio blackouts were expected to occur in many places throughout the world before nightfall today.

"Aircraft and ships at sea dependent on radio navigation and communication have been alerted to take precautionary measures in view of the impending radio blackout," said the IGY announcement.

Already, the phenomenon has caused brilliant displays of the aurora — Northern and Southern lights — at high altitudes in the Northern and Southern hemispheres.

Solar flares of varying intensity occur periodically on the sun — reaching maximum intensity in 11-year cycles, as do sun spots.

In fact, the 18-month IGY was timed to conform with the peak of the current 11-year cycle of solar activity.

Actually, the flare erupted three days ago, but its effects were not noted until early yesterday.

Russian scientists at Moscow were the first to report it. They flashed word to IGY communications centers all over the world, including the IGY world warning agency at Ft. Belvoir, Va.

"The word was passed promptly along to scientists at 2,000 IGY stations from the arctic to the antarctic, alerting them to intensify their observations and measurements."

Studies of the sun are just one phase of the concentrated scientific study.

Among several nations planning rocket firings, Russia reportedly is working on a project to shoot dogs in rockets up to 125 miles and have them parachute to earth in a new appraisal of the rigors of space travel.

Both Russia and the United States plan to send aloft earth satellites to learn more information about outer space.

Dr. John P. Hagen, director of the U.S. satellite program, said in a radio-TV interview the date for the first U.S. launching probably will be determined in about a month.

Most of the difficulties with the satellites and their launching rockets have been ironed out, he said, but telescopes for tracing the satellites are not now expected to be ready until next spring.

President Eisenhower, in a message wishing good luck to the scientific adventures of our time.

He said that while scientists say they cannot possibly anticipate all of the valuable scientific knowledge that will result from their efforts, "they believe that many of the facts thus acquired will give us new understanding and new power over the forces of nature."

"As I see it, however," the President added, "the most important result of the International Geophysical Year is the demonstration of the ability of people of all nations to work together harmoniously for the common good."

"I hope this can become common practice in other fields of human endeavor."

U. S. Negroes, Magyar Rebels Are Compared

DETROIT — A parallel between the American Negro and the Hungarian freedom fighter was drawn by a top Negro leader yesterday.

"When Hungarians resist oppression they are called heroes," Roy Wilkins, executive secretary of the National Assn. for the Advancement of Colored People, told the 15,000 persons attending the final session of the 48th convention of the NAACP.

"But when American Negroes legally and peacefully resist oppression they are called agitators," Wilkins said. "Our government sends observers to Hungary, organizes airlifts, sets up refugee camps, and opens immigration doors, but it does not say a mumbled word to the Deep South states about persecution, nor does it offer to aid a single black refugee."

"Only in degree is there a discernible difference between the dictatorship of skin color in certain of the Southern states and the dictatorship of communism in Hungary. In Hungary, the people were not free to speak or protest; in some places in the South, they are not free to do so."

"In Hungary, men were jailed or fined or sent to labor camps or shot for not obeying some new decree. In some parts of our South, new decrees providing for fines and jail terms are being issued every day as legislatures shout them to passage."

Other speakers at the closing session included Jackie Robinson, long-time Brooklyn Dodger baseball player and first Negro to play in the major leagues, and Atty. Thurgood Marshall, who has argued NAACP cases before the Supreme Court.

Robinson, who now heads the NAACP Freedom Fund, urged the huge crowd to give greater financial support to the work of the NAACP.

Marshall, who spearheaded the legal drive to outlaw public school segregation, reported "substantial progress in legal action toward public institutions."

Big Spring (Texas) Herald, Mon., July 1, 1957 7

A Kiss For Dad
Col. John C. Nickerson Jr., gets two big kisses from his son John Charles III, 13, and daughter, Jean, 15, after he received a sentence of being suspended from rank for one year and forfeit of \$100 per month for 15 months and a reprimand in his court-martial at Redstone Arsenal, near Huntsville, Ala. He was convicted of breaching security regulations.

Cop Charged In Shooting

HOUSTON — Houston Police Sgt. Havin Bullock, 31, was charged last night with murder in the fatal shooting of another officer during an off-duty drinking bout in a tavern.

Killed was Patrolman Carroll Posey, 26. Posey died shortly after being taken to a hospital with a bullet wound in his forehead.

A third officer, Patrolman Joe Knighton, 28, was held in jail as a witness to the shooting. "I accidentally shot Posey," Hom-

icide Det. D. M. Fuels quoted Bullock as saying.

"And that's all he (Bullock) would tell us. He refused to discuss it at all," Fuels said.

Police said the owner of the tavern, Arthur Coleman, 40, was the only other witness to the slaying. They reported he said in a written statement the three officers came to his place about midnight carrying a bottle.

Coleman said Bullock was sitting about 35 feet away from an empty beer can sitting on a rafter, which he was attempting to hit with his pistol. The bullet missed, striking Posey, Coleman said.

Army Gives Girard Permission To Wed

CAMP WHITTINGTON, Japan — The U.S. Army today granted Specialist William Girard permission to marry his Japanese fiancée. The young soldier tentatively set Friday as the date for the wedding.

Final approval was granted by 1st Cavalry Division Headquarters, said Maj. Stanley Levin, legal adviser to the 21-year-old Ottawa, Ill., soldier.

"We're tentatively setting the ceremony for 3 o'clock Friday," Levin said. "Girard is quite happy about it."

Girard and Miss Haru (Candy) Sueyama will wed in the white claspboard chapel at Camp Whittington, 40 miles north of Tokyo, where Girard is under Army restriction.

Girard planned to marry Candy in March before he became the center of an international controversy over foreign criminal trials of U.S. servicemen.

The U.S. Supreme Court is expected to rule this month whether the Army can hand Girard over for Japanese trial for the Jan. 30 fatal shooting of a woman scrap metal collector on a U.S. firing range.

Levin said the religious ceremony will follow official processing by U.S. consular officials, who will go to the camp from Tokyo.

The marriage has yet to be cleared by Japanese officials. American servicemen marrying in Japan are required to register the marriage with Japanese town officials and then have the papers witnessed by the U.S. consul.

Nickerson Plans To Continue Fight

HUNTSVILLE, Ala. — Col. John C. Nickerson Jr., under fine and reprimand for misuse of secret defense data, says he will "continue the fight within the armed forces" in behalf of the Army's missile program.

The 41-year-old officer, who pleaded guilty before a court-martial board on 15 counts of leaking secret information, said last night "I will speak my opinions wherever I can."

He also said he has no intention of resigning his Army commission.

Nickerson was fined \$1,500, officially reprimanded and suspended from rank for a year by the 10-man board Saturday at the end of a five-day trial.

The sentence is subject to review by 3rd Army Headquarters in Atlanta, the Department of the Army and Secretary of Defense Charles E. Wilson.

In a telephone interview from his residence at nearby Huntsville Arsenal, Nickerson said the sentence will be appealed.

"We'll wait to see what comes out of 3rd Army," he said, "then we'll exhaust all legal remedies as far as appeal is concerned."

Although stating he was "jubilant" over the outcome of the court-martial, the West Point graduate said he expects to "transfer from the Redstone Arsenal," where much of the Army's ballistic missile research has been done.

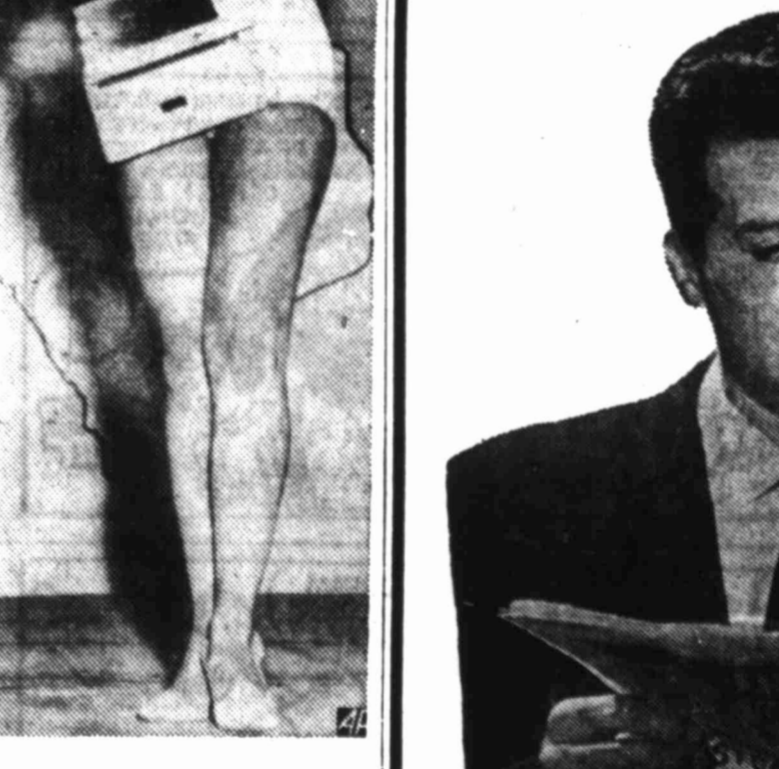

He said he would continue his fight for the missile program "regardless of where it has to be done." The fight, he said, will be carried on through articles and books. He said he would submit his writings for top security clearance.

"I have no definite plan for my writings now. That will take time."

The charges against Nickerson grew out of his efforts to effect a reversal of an order by the secretary of defense, Wilson's order assigned development and use of an intermediate range ballistic missile to the Air Force.

Bomb Threat

DALLAS — An anonymous threat sent three squads of police combing the new Statler-Hilton Hotel here last night. No bomb was found.

Miss Texas
Gloria Lee Hunt, 29, of Corpus Christi, holds the trophy awarded her after she was crowned Miss Texas in the state finals of the Miss Universe Pageant at Lake Whitney. The blue-eyed blonde miss is 5-feet 5-inches tall, weighs 120 pounds and her measurements are 36-23-36.

After 40 Highly Praised

To Whom It May Concern:
I was tired, nervous and had no energy or pep, I knew something was wrong with me, as I am only 46 years old, but all my pep and vitality was gone.

After 40 was recommended to me, I tried one bottle on a money back guarantee. I could tell from the first dose I had gotten help. Some told me I had to go away to some hospital or clinic to be treated, I don't want anything better than After 40.

LOOKING 'EM OVER

With Tommy Hart

Bruce Sweeney, Webb AFB's great athlete, recently missed a chance to go to Europe with a United States track and field team by one position.

Sweeney would have run the intermediate (440-yard) hurdles on the team. Three men who finished ahead of him in the National AAU at Dayton, Ohio, were selected to visit across the pond.

The Idahoan hit a hurdle on the long run at Dayton or he would have finished stronger than he did.

He's making plans to attend the National Pentathlon in El Monte, Calif., this week.

The Webb speedster qualified in the hurdles at Dayton and had a time of 2:33 in the finals but finished no better than eighth.

The lad who won the event is Elijah Gilbert, who is a sophomore at Winston-Salem Teachers College.

Gilbert was clocked in 22.5. Bruce says keep an eye on him. He's Olympic material.

Alice Barron, captain of the last Wayland College girls' basketball team, has been named junior high school girls' athletic coach at Clear Creek, down near Houston.

The only thing that will save the Floyd Patterson-Hurricane Jackson fight from being a flop this month is \$175,000 in television money.

Incidentally, a survey by Toll-TV operators claims that the World Series would attract 25 million viewers at a dollar a head.

Brooke Medical Center, which tipped Webb AFB on the baseball diamond here last week, had some distinguished names on its roster.

Gair Allie, who played third base for the Comets, was with Pittsburgh for two years as a bonus player.

The Yvans party who played second base for Brooke is a brother to Sal Yvans, former catcher for the New York Giants.

And Charles Pruitt, the Medics' center fielder, is the same jet-propelled lad who used to burn up the base paths for Roswell in the old Longhorn League.

They say baseball is a dying game but I wonder what the average attendance at football games would be, were it played every day?

Big league teams are supposed to be hard up if they average no more than 5,000 a game.

Big Spring's Bobby Hayworth, who reports to Lubbock as a coaching aide this fall, has already received two promotions without drawing a pay check.

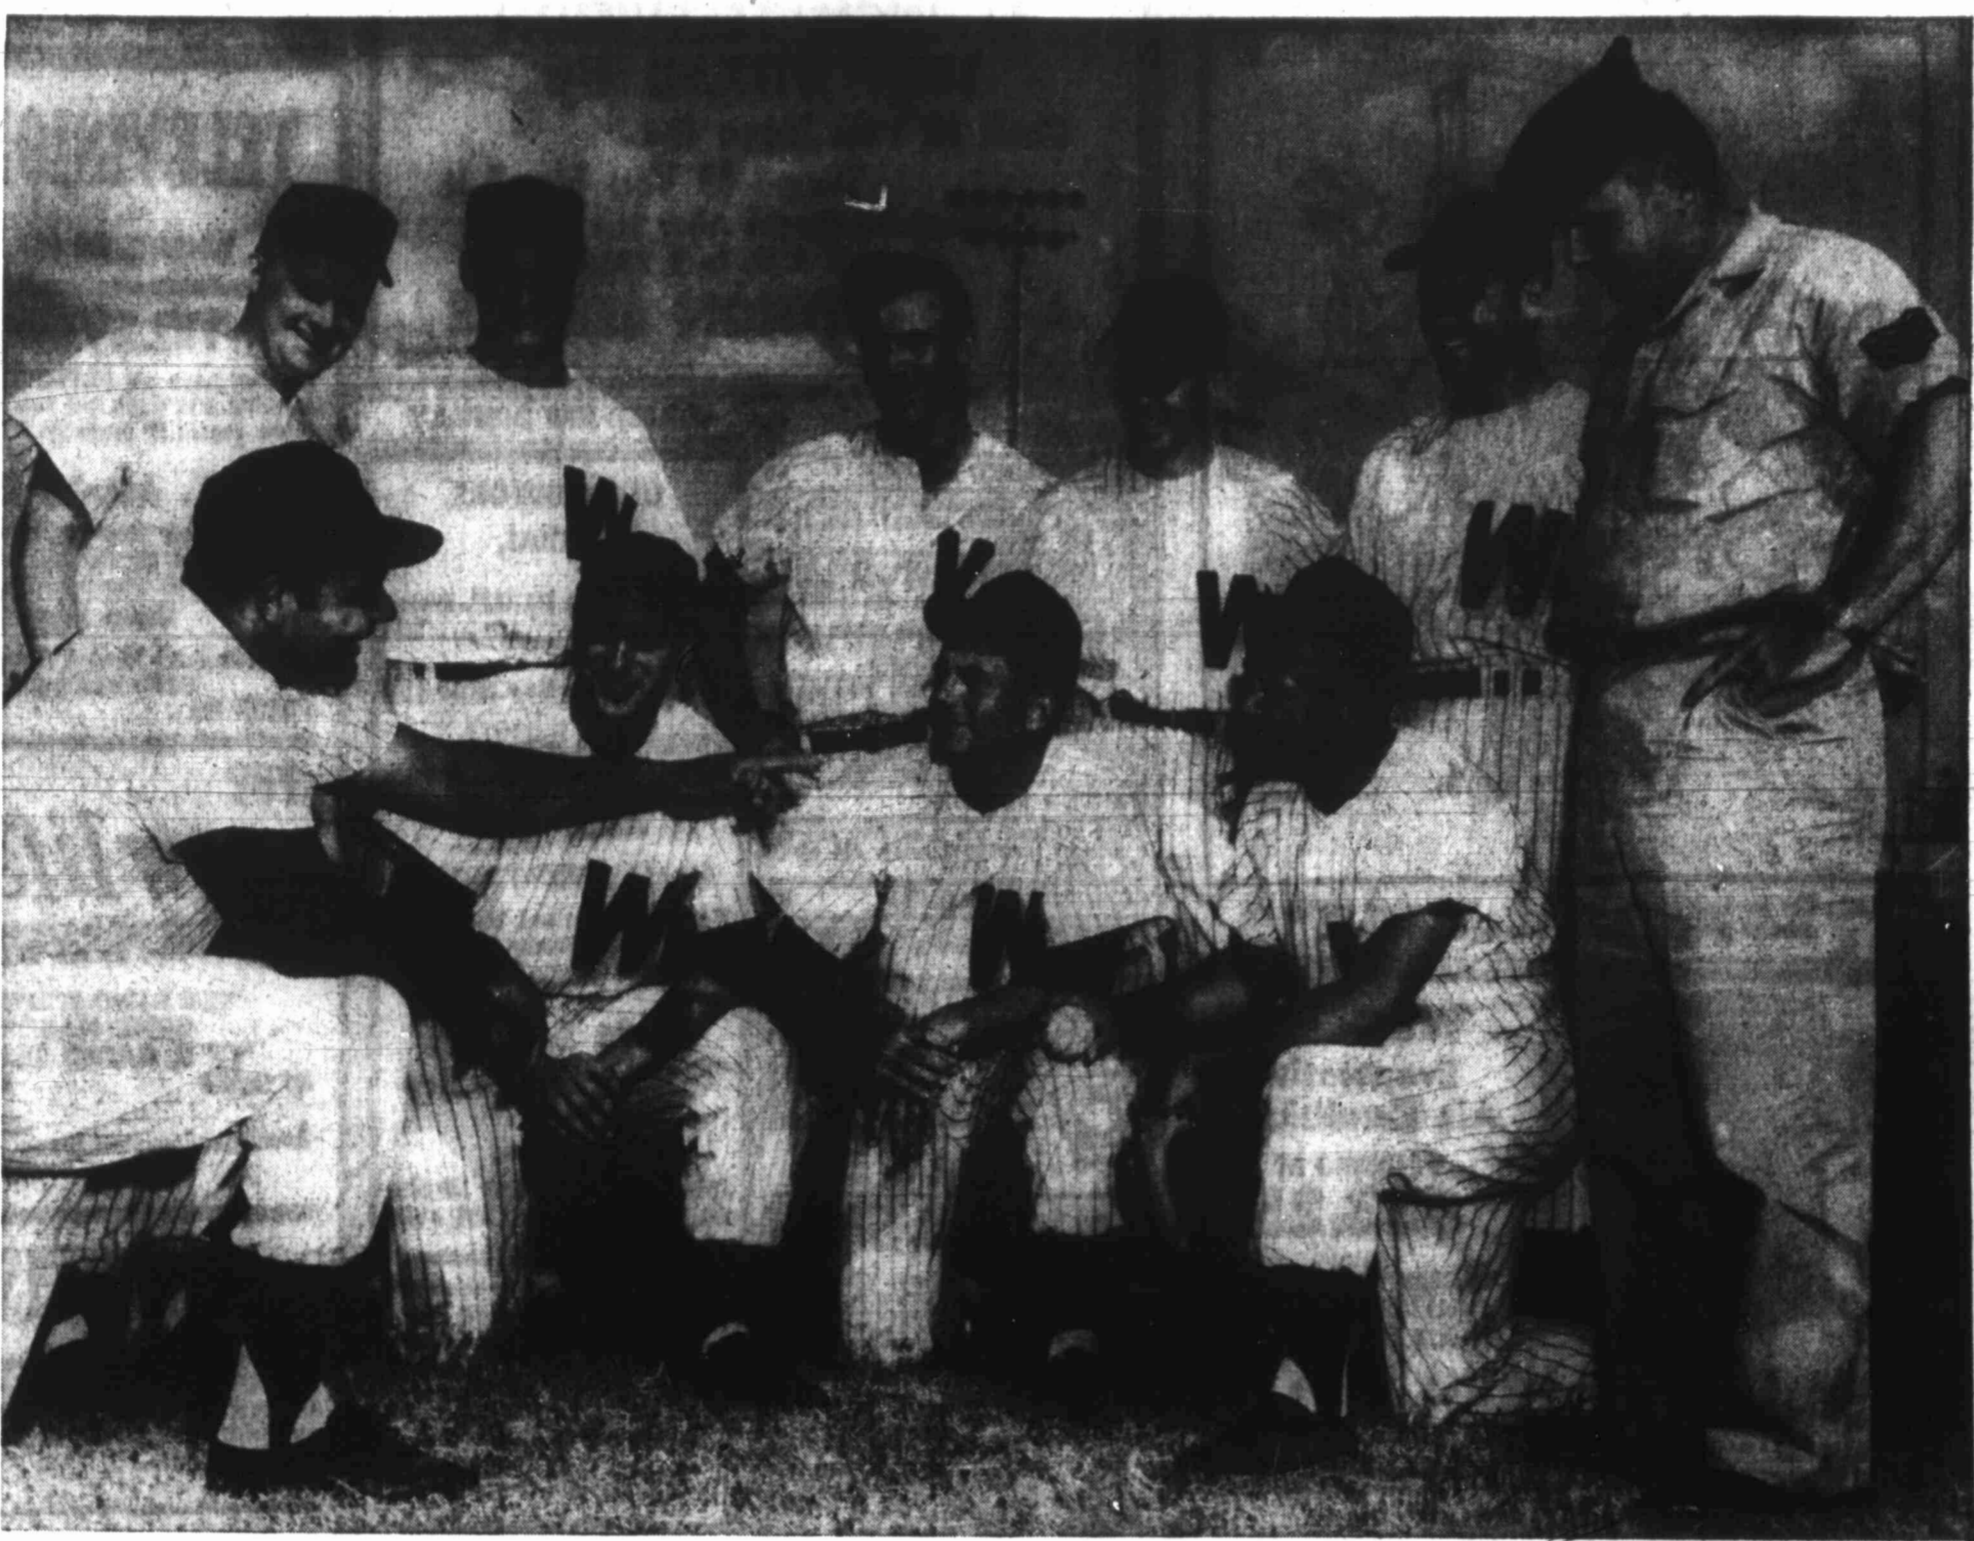

Originally ticketed to tutor in junior high there, the latest plans call for Hayworth, former McMurry quarterback, to help with the Monterey High School B team.

The new job will call for an estimated \$900 more annually than he was originally to have made.

Quite probably, the Cosden Oilers of Big Spring are one of Texas' busiest softball teams.

They've played close to 80 games this season.

SNYDER, (SO)—Abilene's Bill Carlson copped the Snyder Invitational Golf tournament championship by shading the defending

Webb Horsehide Gang

Manager Jim Zapp makes a point emphatic with a gesture as other members of the Webb AFB baseball team gather around him for a picture.

Underwood Tips Hogan, 5 And 4

The two finalists in last year's Fourth of July golf tournament at the Big Spring Country Club will be around when the linksters tee off this Independence Day.

The two — champion James Lee Underwood and runnerup R. H. Weaver — assured themselves of semi-final berths in the tournament to determine a club champion by scoring impressive wins Sunday afternoon.

Underwood ousted Dr. J. E. Hogan, 5 and 4, while Weaver belted out Sunny Edwards, 3 and 2.

Underwood's semi-final foe will be Tommy Hutto, who beat Eil McCormick, 2 and 1; while Weaver will meet Bill Crook, who ousted

Son Powell, 6 and 5. Weaver had Edwards four down at the turn but Sunny staged a sharp rally and almost caught the

R. H. won one, six, seven and nine as Edwards experienced all kinds of trouble around the greens.

Sunny won 10, 11 and 12 to pull within one hole of a tie and missed a birdie putt on 14 that would have enabled him to pull even.

Weaver then won 15 and 16 with birdies to salt away the verdict.

Semi-final matches Thursday will start about 9 a.m. The 18-hole finals go on at about 1:30 p.m.

McComb had Hutto even at nine but Tommy won 10 and 11 and McComb could never get even, after that. Hutto had a 38 his first time around the course.

CHAMPIONSHIP — James Lee Underwood over Dr. J. E. Hogan, 5-4; Tommy Hutto over Eil McCormick, 3-1; R. H. Weaver over Sunny Edwards, 3-2; Bill Crook over Son Powell, 6-5.

FIRST FLIGHT — Oil Jones over Harry Jordan, 5-3; Charles Sweeney over Paul Harmonson, 5-1; Bud Pickett over Weldon Bryant, 5-2; Speedy Ruston over Burl McAllen, 3-1.

SECOND FLIGHT — Ralph McLaughlin over Dick Johnson, 4-3; Travis Reed over Marvin Miller, 1 up; Bill Pounds over Gus Barr, 4-3; Carson over Dave Boren, 6-5.

CHAMPIONSHIP CONSOLATIONS — Earl Reynolds over Jack Cook, 2-1; J. R. Farmer over W. E. Ramsey, 2-1; Weldon Bryant over O. F. Gee, 2 up; Dr. Floyd Mays over Avery Falkner, 1 up; Bill Reynolds beat Ferner in semifinal match, 2-1.

FIRST FLIGHT CONSOLATIONS — Dr. Marcum over Jack Wilson, 5-2; Sam McComb over Tom South, 6-5; Dr. Howard Schwarzenbach over Drain Henson, 5-4; Bob Bright over Dick Pfeiffer, 6-5; McComb over Dr. Marcum, 4-3; and Schwarzenbach over Bright, 5-1, in semifinals.

SECOND FLIGHT CONSOLATIONS — Hudson Landers over John Turner, 2-1; Jim Zike over Jack Irons, 1 up; C. W. Fisher over Carroll Beason, 5-4; Bernie Caughlin over Bennett Brooks, 4-3.

TEXAS LEAGUE SUNDAY'S RESULTS Fort Worth 7, Dallas 6; Houston 10, San Antonio 7; Dallas 10, Houston 7; Fort Worth 8, San Antonio 6.

THREE ON ALL-STARS Cosden Is Second In Odessa Meet

ODESSA (SC) — Midland National Bank defeated a game but dead-tired Cosden of Big Spring team in the finals of the Odessa Invitational softball tournament here Saturday night, 7-3.

Earlier in the evening, Cosden had ousted Blue Top Drive-Inn of Odessa, 7-4, to reach the finals.

N. E. Stephens pitched the win for Midland, limiting the Oilers to three hits. He fanned 12. Ed Sproesser, Pete Cook and Jim Tidwell of the Big Spring club touched him for safeties, all singles.

The Oilers scored all their runs in the second inning and led by a count of 3-0 until the Bankers came to bat in the lower half of the frame. The Bankers picked up

four runs on three hits, a hit batsman and three Big Spring bloopers.

Cosden managed 11 hits off Blue Top hurling in the semi-final game. Billy Paul Thomas clubbed a third inning home run with the bases empty.

Troy Wetzel, the winning hurler, craved out two doubles and a single for the Oilers while Henry Gunlock had two singles.

Three members of the Oilers were named to the all-star team: Pete Cook, Billy Paul Thomas and Troy Wetzel.

Others selected included N. E. Stephens, Bobby Kelm, Bob Hopkins, John White and Gene Deaton, all of Midland; L. L. Fluharty, Phillips 66; and Don White, L. C. Slope and Doyle Williams, all of Blue Top.

By finishing second, the Cosden team won \$50 in cash and a big trophy. First place Midland earned a larger trophy and \$100 in cash.

July 4 Contests Are Moved Back

Thursday night's Junior Teen-Age baseball league games have been moved back to Saturday in order that all players can see the fireworks display at the city park, League Presy Clyde McComb has announced.

The Big Spring Herald was to have met the Kiwanis and the Bums were to have played the KP's on July 4.

Doug Ford Is Detroit Champ

By Dave Diles DETROIT (AP) — Determined Doug Ford, a crusty veteran of playoff pressure, today had the elusive Western Open golf title that he bootied away just a year ago.

The \$5,000 top prize that goes with it brought Ford's earnings for the year to \$35,000, twice as high as those of any other professional.

Ford won the 54th Western Open Championship yesterday, overcoming the playoff jinx that deprived him of the title last year.

It took a dramatic finish on the final hole for the 34-year-old Mahopac, N.Y. swinger to muscle into a four-way sudden death playoff, and a steady performance in the tension-packed extra hole duel to win it.

The Masters champion beat down the challenges of big George Bayer, Gene Littler and Billy Maxwell after the four tied with 279s at the end of the regulation 72 holes.

Littler, the 1953 national amateur champion from Singing Hills, Calif., and Maxwell, 1951 amateur titlist from Odessa, Tex., departed early, each going over par on the first hole while Bayer and Ford managed par; Ford and Bayer halved No. 2 and Ford won the big money when Bayer, whose wild drive on the third hole struck a spectator, failed to make par.

Tyner To Baylor

HOUSTON (AP)—Buddy Tyner of Bellaire, state discus champion, resigned a Baylor letter of intent yesterday.

Big Spring Panthers Win 9-5 Verdict Over Abilene

Elias Gamboa's Big Spring Panthers copped their third baseball decisions in five starts by subduing Abilene, 9-5, here Sunday afternoon.

Abilene tied the count at 2-all in the fourth, only to have the Panthers pick up two more in their half of the round and add three more in the fifth.

Gus Fierro pitched the win for Big Spring, although he was tagged for 12 hits.

Pat Martinez waxed warm at bat for Big Spring, slugging a double and three singles. Jim Zapp

RED SOX WARM UP IN RACE

By JOE REICHER The Associated Press The New York Yankees were back in first place today but a new threat has risen in the American League pennant race in the person of the Boston Red Sox.

Winners of 11 of their last 16 games, the Red Sox have pushed their way into a virtual third-place tie with Cleveland, only seven games off the pace. Paced by the three-man wrecking crew of Ted Williams, Jackie Jensen and Frank Malzone, the Red Sox flattened Detroit 10-3 yesterday for a sweep of their three-game set over the Tigers, who have lost 10 of their last 13.

Williams rapped a double and single in addition to his 20th home run and drove in three runs. Jensen contributed a grand-slam homer and double, while Malzone bopped a single and triple, driving in two runs.

The Red Sox slugging bee was just one of the many highlights of an eventful Sunday.

Kansas City pitcher Ralph Terry came within five outs of a no-hitter and Yankee pitcher Don Larsen hurled his first complete game of the season as New York made it 11 in a row over the Athletics with 2-1 and 3-1 victories.

Roy Sievers' 8th home run, his second of the day, gave Washington a 10-inning 11-9 victory after the Chicago White Sox had rallied for four runs in the ninth to win the opener 7-6. The Sox overcame a 9-3 deficit in the second game before Sievers' second homer knocked them out of a first-place tie with the Yankees.

Baltimore won its first series from Cleveland since it returned to the American League in 1954, capturing the third game in the four-game set as Billy Loes pitched a four-hit, 12-3 triumph over the Indians.

Henry Aaron became the first major leaguer to reach 100 hits and banged his 22nd and 23rd home runs as the Milwaukee Braves swept a doubleheader from Pittsburgh 7-4 and 6-5. Eddie Mathews' two-run homer in the 13th won the second game and kept the Braves in first place, while a game in front of the Cincinnati Redlegs.

Brooks Lawrence turned in a six-hitter for his ninth victory in Cincinnati's 6-1 triumph over Philadelphia, then came back to snuff out a Philly rally in the ninth as the Redlegs also won the second game 6-3.

Ruben Gomez became the first National League pitcher to post 10 victories as the New York Giants defeated St. Louis 5-3 in the first game. The Cardinals came behind bonus righthander Lindy McDaniel. Stan Musial hit a three-run homer for the Cards, his 18th of the season.

Brooklyn established a record in reverse when 27 Dodgers struck out as they were held to a split of their doubleheader with the Chicago Cubs. After Chicago had won the opener 3-2, in 11 innings, young Danny McDevitt hurled a five-hitter for his third victory, in Brooklyn's 5-1 triumph.

Willard Nixon was the beneficiary of the Red Sox slugging, winning his sixth game although he had to quit in the seventh when he suffered an old knee ailment.

A double by pinch hitter Harry Simpson ruined young Terry's revenge effort against his former Yankee teammates. The blow came with two out and two on in the eighth of the opener. Terry had retired 22 of the first 23 batters he faced when GH McDougald doubled with one out in the eighth for the first hit off the 21-year-old right-hander.

Pinch hitter Joe Collins walked, then Simpson drove in the tying and winning runs.

Larsen, completing his first game since his brilliant World Series perfect game effort, permitted only four hits for his third victory. Mickey Mantle's run-scoring single in the first, and Yogi Berra's 11th homer in the sixth spelled defeat for rookie Jack Urban, another ex-Yankee.

Larry Doby's triple, one of his six hits in the twin bill, climaxed Chicago's four-run rally in the ninth that saw the Sox overcome a 6-3 deficit. Doby also hammered two home runs and three singles. Sievers' 10th-inning homer, with Clint Courtney on base, earned Chuck Slobos his second triumph against 12 defeats in the finale.

Baltimore clubbed loser Bob Lemon and three Cleveland relievers for 14 hits, including a home run by Gus Triandos.

Mathews' 16th home run, with a runner on base in the 13th, won the second game and kept the Braves in first place, while a game in front of the Cincinnati Redlegs.

Brooks Lawrence turned in a six-hitter for his ninth victory in Cincinnati's 6-1 triumph over Philadelphia, then came back to snuff out a Philly rally in the ninth as the Redlegs also won the second game 6-3.

Ruben Gomez became the first National League pitcher to post 10 victories as the New York Giants defeated St. Louis 5-3 in the first game. The Cardinals came behind bonus righthander Lindy McDaniel. Stan Musial hit a three-run homer for the Cards, his 18th of the season.

Brooklyn established a record in reverse when 27 Dodgers struck out as they were held to a split of their doubleheader with the Chicago Cubs. After Chicago had won the opener 3-2, in 11 innings, young Danny McDevitt hurled a five-hitter for his third victory, in Brooklyn's 5-1 triumph.

NEED \$840?

Well, now, just by luck we've got \$840 down here and man, would we like to see YOU tuck it into your wallet and carry it off! When you need \$840, you may need it bad. You may need it quick. You'd like to get it from some outfit who knows and understands just the kind of money problems that brought all this on. Man, we do! We've had 'em — every one at S.I.C., ourselves. And LOOK: \$40.49 a month, 24 months, repays that \$840 S.I.C. loan. How about that? Will you be **SOS-SIC** on down?

Texas Heading For Top Sorghum Crop

By ROBERT E. FORD
Associated Press Staff

Texas appears headed for possibly the greatest grain sorghum crop on record, reports from producing areas indicated Saturday. The apparently great crop was attributed by county agents and other observers to a shift to sorghum because of other acreage controls or destruction of cotton and corn crops by floods and heavy rains, and to generally good moisture conditions.

The crop was in many stages the past week. In the lower Rio Grande Valley it was being harvested. In the Panhandle, it had just been planted. In some sections farmers were awaiting drier weather to plant.

Last year's crop itself was generally good. It was the fourth largest on record at 124,200,000 bushels. The average yield per acre in 1956 was 26 bushels, which exceeded the previous record by about 2 bushels. This good production per acre occurred during a drought year, but was helped by showers at just the right time and by irrigation.

Only in the immediate Houston area was there any concern and that mainly was over the lateness of the crop.

SPOT CHECKS

Here were the reports from several spot checks:

Sherman: Farmers who normally plant cotton and corn planted sorghum because the heavy rains delayed seeding of the usual crops. Many farmers whose wheat and oat harvests were short still had time to shoot for a sorghum crop. It is almost a new crop for the county, with only 7,122 acres planted last year.

Wichita Falls: Most sorghum is grown west and south of Wichita county, and in those areas, moisture conditions appear the best in 5 years for the crop just now being planted. A better than average prospect faced farmers.

Houston: The crop is from 10 to 15 days late, and in Brazoria county, Agent L.M. Vaughan estimates it is a month late. Acreage has been trebled in Brazoria. A "fair" crop for the Houston area is forecast. Matagorda county crop is two weeks ahead of that in Brazoria.

Amarillo: One of the largest sorghum acreages in the history of the Panhandle has been planted. The crop is in several stages of growth because of rain and cool weather. With plenty of moisture and widespread use of hybrid seed, agriculture leaders predict large harvests on both dryland and irrigated acreage.

HOWARD'S LARGEST

Big Spring: Howard County expects to harvest its largest crop in many years. County Agent Jimmy Taylor estimates 75,000 acres have been planted, with some late-planted fields needing moisture before maturity.

Lower Rio Rio Grande Valley: Associate County Agent W.H. Friend at Weslaco says the valley "undoubtedly has a larger

acreage than ever before." Harvest is under way but was stopped frequently by rains. The rains were not expected to cause much damage.

Corpus Christi: Coastal bend observers believe they are on the eve of a record crop. Harvesting will begin this coming week, with major acreage in most counties. Estimates of yield are 1,500 to 4,000 pounds per acre.

Temple: Farm Agent Don Decker predicted a good year. Normal yield of 2,000 pounds per acre should be exceeded if weather will remain dry.

while cotton seeded. Planting time of the two coincide. Sorghum that is up looks good.

RECORD ACREAGE

Abilene: Excellent yields are expected where farmers planted before the heavy rains. Much of the planting was delayed by rains, but a record acreage is expected, since sorghum can be planted as late as July 15 here.

Victoria: Farmers worried about excessive rainfall, which could delay harvesting and cause increased drying costs at warehouses. Harvest is expected to start the coming week.

Lubbock: Jack King, Agronomist of the Texas Extension Service, says prospects are good for the best grain sorghum harvest on the south plains in many years. The crop is a little late this year. Acreage is about 10 per cent greater than even last year, when a larger than usual crop was planted. Also, this is the first year for hybrid sorghum to be planted in large amounts this year and is expected to boost production.

A storage problem was feared in the South Plains, although there is a considerable amount of space. In the Lower valley, farmers have been urged to build their own storage facilities. Elevators in the Coastal Bend area were being emptied to make room for the crop. Storage appeared adequate around Sweetwater, Temple and Victoria, although Victoria expects some spillover from the coastal bend. The exact storage status in the Panhandle will become clear when the size of the wheat crop is determined; some sources said they believe there would be adequate space.

Strike Vote Set

ATOMIC TEST SITE, Nev. (AP)— A strike vote is scheduled tonight or tomorrow by the 125 civilian guards at this nuclear proving ground. A union spokesman said the dispute was over wages.
