Sleeps After Space Flight

Maj. David G. Simons slept soundly in the helicopter which brought him to Fargo, N.D., after his 32-hour balloon flight into space. Simons landed near Fargo, N.D., after reaching altitudes of 100,000 feet. Simons has a small cut on his chin, received when the gondola tipped over on landing. (Story on Page 10-A).

Far-Ranging Couple Plans To Wed Again

NEWARK, N.J. (AP)—The honeymoon is over for Mr. and Mrs. David Bruen, both 17, but they plan to get married again.

The young couple, who arrived here yesterday after a Saturday night date that lasted 12 days and ended in elopement to Nuevo Laredo, Mexico, said they wanted to have the knot retied by a minister this week. Then, they said, they are planning to find jobs, get an apartment and go out on their own.

The bridegroom's parents, Mr. and Mrs. Harvey Bruen, approved of the plans. The Bruens and two of David's younger sisters met the couple at the bus terminal here. It was a friendly reception as the women kissed and giggled and father and son greeted each other cordially.

Young Mrs. Bruen—the former Cynthia Roberts—admitted she had been the feminine brain behind the whole idea. The Bruens and a 16-year-old couple—Charlotte Cooke and Curtis Winston—drove to New York on a date last Aug. 10 in the Bruen car. Cynthia said she started kidding around on the way back.

"Let's all get married," she suggested.

The group laughed and then they started to drive—and kept going. They got to North Carolina and bought a wedding ring, but couldn't get married.

So, they kept going and finally found more accommodating laws in Mexico.

The parents of the four teenagers had become frantic with worry and a 13-state alarm went out. But the young lovers somehow managed to keep always one step ahead of the alarm.

Finally, they called with the news from Texas. Soon afterwards they started homeward. The Winstons arrived here by plane Monday and immediately went to separate homes.

Lyndon Claims Ike's Jumping Gun On Election

WASHINGTON (AP)—Sen. Lyndon B. Johnson (D-Tex.) said today President Eisenhower's political advisers "have got him jumping the gun" on 1958 campaigning by criticizing the Democratic-controlled Congress.

"It looks to me as though some of these advisers are getting frantic about their prospects in next year's congressional election," Johnson said. Control of Congress will be at stake in the balloting then.

Eisenhower told his news conference yesterday he is "tremendously disappointed" because Congress has passed so little of the legislation he recommended.

However, Eisenhower apparently holds Republicans, as well as Democrats, accountable. He said in a response to a question that "everybody who voted against what I thought was the right thing to do—why, they have to share the blame."

Eisenhower said the proposals he sent to Congress comprise a Republican program that he said is aimed at meeting the best interests of the country as a whole.

Johnson, Senate Democratic leader, said the record of the Democratic-controlled Congress would speak for itself.

"By the time Congress adjourns it will have given serious consideration to all of the recommendations the President has made," Johnson said. "We will have approved those we think are in the best interests of the country and will have defeated those we think are bad."

Senate Republican Leader Knowland of California declined comment. But Sen. Clifford Case (R-N.J.), who likes to be called a liberal Republican, said in a separate interview he agrees with Eisenhower that the record of Congress is bad.

Auto Makers Silent On Reuther Proposal

DETROIT (AP)—The Big Three are keeping a tight-lipped silence on what their replies are to Walter P. Reuther's proposal that they cut prices on 1958 cars this fall and in return the United Auto Workers will go easy on wage demands next year.

Reuther called it a plan to stop and reverse the inflationary trend. The hush-hush attitude—"no body is leaking a word"—is a sign of the respect top industrialists have for the forensic and bargaining talents of the UAW chief.

The best talent at General Motors Corp., Ford Motor Co. and Chrysler Corp. apparently is in the work on the task of phrasing a reply to Reuther's 6,000-word letter. In saying no to Reuther, the companies have to convince the public they too are against inflation.

The impression here is that the auto industry regards Reuther's proposal as a clever propaganda maneuver. Reuther says it was a sincere proposal—not a publicity device.

Industry circles say price tags on 1958 models, when they are introduced this fall, will go higher because of already mounting labor and material costs. They say the present contracts with the UAW have built-in inflation. The contracts provide cost-of-living and also automatic annual wage increases.

The auto industry has spent 1 1/2 billion dollars in styling and engineering for 1958 models. This is the largest investment ever made for model changovers in a single year.

Brewster Rapped For Contempt

WASHINGTON (AP)—Frank W. Brewster, Western boss of the Teamsters Union, today was sentenced to a year in jail and fined \$1,000 for contempt of Congress.

Judge Sirica allowed Brewster to remain free on \$1,000 bond pending the outcome of an appeal.

Brewster's conviction June 26 grew out of his refusal to produce records and answer questions before the Senate Investigations subcommittee in January.

The 60-year-old labor official challenged the subcommittee's authority to investigate internal affairs of labor unions.

Contract Let For Snyder Road Work

Bid of Cape Brothers Construction Company was accepted Wednesday by the State Highway Department for improvements to State 350 (Snyder Highway) north-east of Big Spring.

The highway will be widened and resurfaced from Big Spring northeastward for 11.8 miles. The San Antonio firm's bid was \$407,002.

Pleads Innocent

NEW YORK (AP)—Johnny Dio, a central figure in the Senate inquiry into labor rackets, pleaded innocent in U. S. District Court today to a charge of evading \$20,169 in income taxes.

But he did not say how high he would go.

Sen. Ellender (D-La.), who favors cutting below the \$2,524,760,000 in new foreign aid funds voted by the House, told a reporter Johnson's stand made the prospect doubtful.

"But I am convinced the committee will not vote a cent above three billion dollars in new appropriations," Ellender said.

Eisenhower told newsmen yesterday he hoped the Senate would vote the full amount of the previous authorization bill, \$3,267,000,000, and then get as much as possible out of a conference with the House.

Crashed Flier Is Identified

The body of Lt. Samuel K. Bacon Jr., former Webb AFB flier, was removed Wednesday from his F100 jet plane which crashed July 25 on a flight from Webb to George AFB, Victoria, Calif.

Wreckage of the plane was discovered Tuesday and positive identification of the pilot was completed by the Air Force yesterday.

A search had been under way since Lt. Bacon disappeared from a flight of six jets over Tucson, Ariz.

The crash occurred about 75 miles southwest of Wendover AFB, Utah.

The six Super Sabre jets from Victorville had flown to Webb the afternoon of July 25 on a test flight. After refueling, they were returning to George AFB when the crash occurred.

Lt. Bacon received flight training at Webb, graduating last October.

He is survived by his wife, Doris, an infant daughter, his parents, Dr. and Mrs. Samuel K. Bacon, and a brother, Carl of Tucson.

Contract Let For Snyder Road Work

Bid of Cape Brothers Construction Company was accepted Wednesday by the State Highway Department for improvements to State 350 (Snyder Highway) north-east of Big Spring.

The highway will be widened and resurfaced from Big Spring northeastward for 11.8 miles. The San Antonio firm's bid was \$407,002.

Demos Keep Ike Guessing On Salvage Of Foreign Aid Fund

WASHINGTON (AP)—Democratic leaders kept President Eisenhower guessing today over how much of his battered foreign aid money bill may be salvaged. They postponed a showdown in the Senate Appropriations Committee.

With the House involved in maneuvering over the controversial civil rights measure, Senate Democratic Leader Lyndon B. Johnson of Texas appeared in a hurry to have the mutual security appropriations bill come up in the Senate.

The Appropriations Committee turned to working on an atomic energy appropriations bill amid indications it will put off further

action on foreign aid, probably until Monday.

Chairman Hayden (D-Ariz.) said some of the committee members have indicated they want further time to study figures on unspent aid funds available from previous years. These figures were submitted to the committee yesterday, and copies of that transcript will not be available to committee members before tomorrow.

Johnson announced yesterday he will vote for restoration of at least some of the \$899,650,000 in new aid funds slashed by the House. Johnson said he believed a majority of the Senate will support an adequate increase over House figures.

Rayburn Indicates Civil Rights Compromise OK

RUSSIANS CLAIMING THEIR OWN ABOMINABLE SNOWMAN

LONDON (AP)—The Russians are now claiming their own Abominable Snowman. They're sending an expedition to find one.

If they succeed, it will be the first one found. The Abominable Snowman, supposed to look like a man and stand eight feet when walking upright, long has been reported high in the Himalayas of Nepal. Expeditions to track one down across the snow-covered mountains have failed.

Moscow radio said a Soviet expedition left today for a previously unsuspected habitat of the elusive furry footed creature, the Pamir Mountains in the corner of Soviet Central Asia where Russia meets China and Afghanistan.

The Pamirs are part of the same connected ridge of Asian mountains that contains the Himalayas.

The most recent western expedition to return with nothing more than sightings of mysterious footprints and strands of hair was conducted by Tom Slick, oilman from San Antonio, Tex. He said last May he would return to the Himalayas this September with a larger hunting party.

CONFIDENTIAL Defendant Relates Reporting Method

LOS ANGELES (AP)—Investigators for Confidential magazine substantiated stories about singer Dorothy Dandridge and actress Mae West with signed statements from the men involved, a defendant in the libel trial has testified.

Fred Meade, who with his wife Marjorie operated Hollywood Research, Inc., said yesterday that band leader Dan Terry gave him an affidavit about a purported affair with Miss Dandridge. Meade said this was the basis for a Confidential story entitled "What Dorothy Dandridge Did in the Woods."

And Meade said he and private detective Barney Ruditsky obtained a statement from the late boxer Chalky Wright that he lived in an apartment with Miss West for a year. The Confidential story was titled "Mae West's Open Door Policy."

Meade testified that he interviewed boxers about "Miss West's affinity for prize fighters."

Meade, who is being tried along with his wife and Confidential and Whisper magazines on charges of conspiracy to commit criminal libel, said he also got a signed statement from Hollywood play girl Gloria Wellman that she and five other women cavorted in the nude at the home of actor John Carroll.

Missing Girl Found Unhurt

PROVIDENCE, R. I. (AP)—Little Eileen Fahey, 3 1/2, lodged all night in a tiny space between two buildings within a block of her home, was found alive today after a search for 18 hours.

The child was removed conscious, her face tear-stained and dirty, at 10:40 a. m., about an hour and a half after she was spotted by Gerald des Roches, 19, a neighbor, from the second story of a nearby building.

A crowd of more than 500 cheered wildly when workmen broke through the last section of a wall and freed the child.

More than 200 searchers had hunted through the Fox Point tenement district during the night for Eileen, who was reported missing yesterday afternoon.

Police theorized Eileen became lodged in the crack between a garage and a barbershop while following a cat.

Her overjoyed father, John Fahey, a New Haven Railroad brakeman, said Eileen, one of his five children, "is a chip off the old block. She's just like her grandmother, who pulled out of many tight spots."

Mrs. Fahey, under sedatives through the night, collapsed when told Eileen was found. She revived quickly when she was told the child was alive.

Police Sgt. Warren A. McQueeney held Eileen's hand while workmen labored to free her. He said the child cried and whined for Eileen, who was reported missing yesterday afternoon.

Police said the search was the biggest in the city's history. More than 200 policemen were joined by hundreds of volunteers.

Woman Held In Embezzlements Called Fantastic

TULSA, Okla. (AP)—A 51-year-old mother, who FBI authorities say weaved a fantastic trail of embezzlement through four states, Canada and Hawaii since 1939, was apprehended here because a doctor's receptionist spotted the woman's freckles.

Mrs. Margaret Lydia Burton was tabbed by the receptionist, Mrs. Juanita Hettwer, 36, as the woman she read about in a local newspaper who was being sought in connection with a \$100,000 embezzlement of a Decatur, Ga., medical clinic last month.

Mrs. Burton, who the FBI says has used 22 aliases, was working as bookkeeper in the doctor's office here for about a week. She called herself Madge Barton in Tulsa.

The woman was arrested yesterday and charged with transporting stolen property in interstate commerce. She was placed in the county jail in lieu of \$30,000 bond. Her daughter Sheila Joy Burton, 20, was arrested as a conspirator and fined to post \$10,000 bond. Newsmen were not permitted to interview the pair.

Probe Reports Joe Louis Paid To Sit At Trial

WASHINGTON (AP)—Sen. McClellan (D-Ark.) said today he has a report that former heavyweight champion Joe Louis was paid \$2,500 to sit for two hours at the recent bribery trial of James R. Hoffa, Midwest Teamsters Union official.

Hoffa was acquitted of the charge by a jury made up of eight Negroes and four white persons. Members of the jury said in later interviews that the racial issue had not entered into their decision.

McClellan told Hoffa about the report as the Teamsters boss started a third day of quizzing by the Senate Rackets Investigating Committee about his alleged links with New York racketeers. The Arkansas senator heads the committee.

Hoffa replied: "If he was, he wasn't paid by Hoffa."

McClellan asked Hoffa to check to see whether any Teamsters funds were used to pay Louis an appearance fee.

It was Hoffa's third day in the witness chair, and the committee promised to play more wiretapped telephone conversations of purported conversations with New York racketeers.

The committee contends that Hoffa formed an alliance several years ago with Johnny Dio to enhance Hoffa's power in the New York area.

Hoffa is odds-on choice to succeed Dave Beck as president of the 1 1/2-million member Teamsters Union, largest in the nation.

Dio, a convicted extortionist, is now in jail awaiting sentence. He has long had a reputation as a racketeer.

Dio, a convicted extortionist, is now in jail awaiting sentence. He has long had a reputation as a racketeer.

Still Hopes For Voting Rights Bill

WASHINGTON (AP)—Speaker Rayburn (D-Tex.) said today House Democrats are willing to consider an agreement on the deadlocked civil rights bill based on a new GOP compromise proposal or some other one.

Rayburn said he still hopes for a right-to-vote bill at this session of Congress, but he avoided any commitment to accept a compromise.

The plan put forward yesterday by Republican House Leader Martin of Massachusetts with President Eisenhower's approval was coolly received at first by Democrats.

But Rayburn told a news conference today that he and "my colleagues and those interested in this matter are going to give it serious consideration."

"That doesn't mean we are going to accept it in toto or any what parts we might accept," he continued. He said there has not yet been time for discussions leading to any firm decision "about this compromise or another."

He declined to spell out what he might mean by "another."

Republican leaders were said to be inclined to revise their proposal somewhat in an effort to gain Democratic support.

With neither Democratic nor Republican leaders holding to an absolute no-yes stand, hopes rose for a possible quick agreement on the measure which has been stalled in the House Rules Committee since Senate passage Aug. 7.

Rayburn said "I hope there'll be a right-to-vote bill this session of Congress. I certainly do. I want one at this session of Congress."

However, Rayburn said he had not heard of any plans for a meeting of the Rules Committee, whose chairman, Howard W. Smith (D-Va.), is adamantly opposed to passage of any civil rights bill.

The GOP proposal would give

Budget Hearing Is Set At HCJC Today

Public hearing on the proposed budget for Howard County Junior College for the fiscal year beginning Sept. 1 is set for 5:15 p. m. today in the administration building.

The budget, tentatively approved by trustees, subject to the public hearing, calls for a general fund outlay of \$373,634, an increase of \$16,233 over the current budget, or about 4.5 per cent. Overall budget, when bond requirements are figured, will approximate \$448,000.

Of the \$16,233 increase, \$12,155 is represented in salary increases in the various departments. About \$2,500 of this is in administrative and general, \$1,000 in clerical,

\$5,000 in instructional, \$1,700 in library, and about \$3,000 in plant operation and maintenance. With the exception of some minor part-time student help, the salary requirements of the total budget are \$229,966.

Other highlights of the proposed budget include: \$70,084 for administrative and general, an increase of about \$5,200 (including \$1,346 new capital outlay for this division).

General, \$173,754, up about \$5,500. Among sub-division appropriations proposed are \$7,856 general (up about \$1,400); instructional \$136,625 (up about \$5,000); teaching supplies \$8,192; (virtually unchanged); travel \$3,036 (down \$500); library \$16,355 (up about \$3,300); transportation \$1,640 (down about \$1,100).

Auxiliary items \$50,501, an increase of about \$5,000, with most of the gain being shown through these budgetary provisions in the amount of \$7,400 for boys' athletics (up about \$800); \$2,175 for athletic scholarships (previously shown under another category); group activities \$2,728 (up about \$1,000); Student Union supervisor \$1,125 (new appropriation); civic concerts under activities \$1,500 (up \$500).

Plant operations \$41,263 (up about \$500) and capital outlay \$38,032 (down about \$1,900). This makes a general fund total of \$373,634 as against \$357,401 for the previous year.

Actual debt service requirements have not been announced, but last year the charge was \$64,549. It is not expected to vary materially either way.

Prospects are that the 60-cent tax rate will be divided 45 cents to operation and maintenance and 15 cents to debt service. The tax roll total has not been computed but based on county values it should be up a million dollars or more.

General fund receipts are estimated at \$373,634, including \$49,400 in tuition (which would be up by about \$9,400 due partly to increase in rates by the legislature and partly to anticipated greater enrollment), \$83,475 in state subsidy (up \$13,500), local taxes \$108,240 (up \$12,000), \$7,400 cafeteria revenue (virtually unchanged), \$15,852 bookstore sales (virtually unchanged), athletics \$1,500 (down \$2,700).

ederal judges limited powers to punish for criminal contempt in voting rights cases, without a jury trial.

House Republican Leader Martin of Massachusetts unveiled the Republican plan yesterday after President Eisenhower had told newsmen it was coming. Eisenhower endorsed it.

The GOP proposal would give judges sole discretion to decide whether there should be a jury trial in voting rights cases in which a person is accused of criminal contempt for violating a court injunction.

LIMIT TO PENALTY

If the judge tried the case without a jury, he could impose a penalty no stronger than 90 days in jail and a \$300 fine. In the event he decided there should be a jury trial the defendant—if convicted—might be imprisoned for as long as six months and fined up to \$1,000.

The Democratic leaders, after studying this proposal, were understood to object to it, in part because they feel it would involve prejudgment by a judge of a possible penalty.

The bill, as passed by the Senate, would guarantee jury trials to defendants in criminal contempt cases. This would apply not only to voting rights cases but to cases arising under a wide range of laws. Conviction for criminal contempt would carry a possible penalty of up to six months in jail and up to \$1,000 fine.

The House passed a civil rights bill conforming generally to the Eisenhower administration's recommendations. It would authorize the attorney general to seek injunctions against violations of civil rights in general. The House bill contains no jury trial amendment, thus permitting a judge to punish violators of injunctions without a jury trial.

The Senate wrote in the jury trial amendment after limiting the effect of the bill's injunction provisions to voting rights cases.

Yanked From Crowd

Police, armed with long riot sticks, hustle away an unidentified man after they said he was taking part in a demonstration near the home of William Myers, Jr., Negro who moved his family in this previously all-white community of Levittown, Pa., and set off slightly demonstrations. The crowd was dispersed after a rock felled and injured a police sergeant. (Story on Page 10-A).

Checking On A Check

Teamster boss James R. Hoffa huddles with his attorneys over a cancelled check at a Senate investigating committee hearing in Washington, D.C. The lawyers are George Fitzgerald, left, and David Frevant, center.

Arms Talks May End Without Pact Between East And West

WASHINGTON (AP)—U.S. officials expect the London disarmament talks to recess in about two weeks without agreement for ending the East-West arms race. President Eisenhower's new concession to Russia in suspending nuclear tests is regarded here as improving the Western position for negotiating and propaganda. But it does not appear to have broken the basic deadlock. A White House statement yesterday announced Western readiness to accept conditionally a two-year—instead of a 10-month—suspension of tests. This statement implied that the Soviet Union must now make concessions. There have been no indications the Soviet Union will make any important gesture soon. On the contrary, Soviet Delegate Valerian Zorin told American, British, French and Canadian representatives yesterday that if they intend seriously to end nuclear tests they must renounce the link between that issue and the Western demand for an agreement to stop production of atomic explosions for military purposes. Zorin, according to a report to the State Department, welcomed the offer for a two-year test suspension when it was formally presented by U.S. negotiator Harold Stassen with Eisenhower's personal authorization. But news dispatches from London quoted Zorin as saying the new Western proposal contains too many unacceptable conditions. Zorin did, however, promise to give the proposal careful study. Russia had proposed in mid-June that tests be suspended for two or three years and had then repeatedly attacked the Western insistence on the 10-month period. An Eisenhower statement described the new Western offer as a significant change in U.S. disarmament policy. The statement emphasized that any suspension of nuclear weapons tests would be agreed to by the United States and its allies only under "certain conditions and safeguards." The most important of these conditions, the statement made clear, is that the suspension should be part of an agreement for "a permanent cessation of production of fissionable materials for weapons purposes and installation of inspection systems to insure performance." U.S. officials, who went beyond the President's statement in explaining the Allied position, said the West is interested in halting atomic tests only as part of a package disarmament deal. Such a package, they said, should include not only the production cut-off and inspection provisions, but also firm agreements on zones for aerial and ground inspection, on reductions in military forces, cut-backs in conventional armaments and control of missiles development. "I sincerely hope, Eisenhower said, "that the Soviet Union will now join us and our Western colleagues in agreeing to our disarmament proposals, including the cessation of production of fissionable materials for weapons purposes." Meanwhile, the President said, the United States will continue to conduct nuclear tests "as our security requires."

Lutherans Mull Politics Problem

MINNEAPOLIS (AP)—Lutherans wrestled today with the problem of how far to go in taking the church into world politics. Pending in the Lutheran World Federation's third assembly here was a resolution setting forth the Federation's "grave concern about the problems which continue to obstruct justice and threaten peace." The hub of the resolution is a section applauding a recent statement by the Commission of Churches on International Affairs, which proposed a broad plan looking toward global disarmament. One delegate publicly asked for stronger stand against nuclear testing, urging the organization to say simply and emphatically "We don't want the rulers of the world to endanger the lives of men by atomic tests." Dr. Justus E. Jacobi of Oldenburg, Germany, said the Federa-

tion shouldn't have to "refer to other documents," that it should make its own stand clear. Dr. O. Frederik Nolde, of Philadelphia, in whose report on international affairs the resolution was contained, conceded the assembly delegates might want to adopt a "more definitive" position on disarmament. But he asked for careful deliberation. Christians should not endanger a "reliable" agreement on ending atomic arms production by hastily pressing for an immediate end to nuclear tests, he said.

Syrian Legate Changes Mind On Returning

ROME (AP)—Syria's ousted military attaché in Rome says the regime is changing in his country and that he probably will not return to Damascus to face charges of participating in a purported American plot to overthrow Syria's government. Col. Ibrahim Hussein was fired from his diplomatic post last week. He said then he would return home and declared he had absolute confidence in his country's justice. But last night he said: "For the time being I will not move from Rome." He noted reports from Damascus that army officers have been arrested on charges of conspiring with the United States to overthrow President Shukri Kuwaty's government, a charge firmly denied by the U.S. State Department.

"The situation in my country has worsened in the past few days," Hussein said. "Now it is no longer a question of whether I am guilty. The reality now is that in Syria they are changing regime. Tell me what sort of justice I would find there if I decided to go back." He added that he might seek political refuge in Italy or go to another country, preferably an Arab nation. He also indicated he felt that Communists had seized power in Damascus. Gen. Afif Bizry, who became Syrian army chief of staff Saturday, has denied reports that his rise to power constituted a pro-Soviet coup d'etat. In Damascus, Salah Tarazi, secretary general to the foreign minister's office, called exaggerated reports in the Western press that Communists have taken over the government.

Power This is Col. Abdul Hamid Sarraj, powerful intelligence chief in the army of Syria now headed by pro-Soviet officers

Employee Dishonesty Called Growing Business Problem

By CHARLES L. STAFFORD BALTIMORE (AP)—Employee dishonesty is growing prodigiously as an American business hazard. B. H. Mercer, head of Fidelity and Deposit Co. of Maryland, estimates American employers lost more than 500 million dollars last year to dishonest employees. His firm is the country's largest insurer of employee honesty and Mercer is an expert in the detection and effect of embezzlement. Even here, the traditional first fear of businessmen, takes a back seat to embezzlement, Mercer says. "Furthermore, the trend of embezzlement is steadily rising." The amount bonding companies are paying out has shot upward unprecedentedly since 1944. Last year, Mercer says, they handled about 50,000 separate honesty insurance claims.

Nationally, police estimate embezzlement and fraud arrests have increased 40 per cent in the last five years. One expert said it was impossible to give any estimate of the number of embezzlers caught since many cases go unrecognized for a number of years and many who are caught make private arrangements for restitution. An employer or auditor can usually put his finger on the culprit when money is missing, however. The Washington, D.C., Police Department reports that more than 900 men and women were arrested for embezzlement last year, an increase of 20 per cent over 1955. The American Bankers Assn. reports an increase of 40 per cent in the number of major bank embezzlements uncovered during

1956. During the first six months alone, 35, embezzlements of \$10,000 or more were discovered. One of the most costly cases of 1956 struck at the bank account of a large drug company, a model of efficient management. The firm discovered that three of its trusted, long-time employees had systematically smuggled half a million dollars worth of drugs out of the plant and sold them to distributors at a fraction of their value. A well-managed Washington, D.C., hospital found it had been taken for \$137,000 by its chief clerk. Why is the picture darkening? Authorities say first of all that embezzlements are bigger simply because everything else has grown—larger businesses handling more money. Then, too, the present

Douglas Fairbanks Jr. Sets Off Wrath Of English Nobility

By EDDY GILMORE LONDON, Aug. 22 (AP)—Queen Elizabeth II and her husband Prince Philip have dined not once, but twice, as guests of actor Douglas Fairbanks Jr. It's a double-barreled social accomplishment that turned certain hostesses green with envy. The fact that royalty has singled Fairbanks out in almost unprecedented fashion has churned up a wave of acid criticism in his wake as he sails through London society. Born in New York City in December 1909, son of the swash-buckling, toothy actor and Anna Beth Sully, of Providence, R.I., he made his first trip to Britain when he was 5 months old. Later young Douglas and his mother stayed in a hotel near Buckingham Palace. "They say it was my delight to march up and down with the sentry outside the palace," he recalls. "Forty-three years later he can walk past the sentry with the assurance of a man who is on a personal friendship basis with the folks inside." The Queen has returned regularly to England. Now he lives here.

ant company on imports exports. ODD JOBS "Now and again I do an odd job for the government," he says. "Which government, British or American?" "Both." "And your businesses?" "I handle many products—from popcorn to autos." A Sunday newspaper recently said of him: "Everyone knows everything about Douglas Fairbanks, except, perhaps, that he has made five million dollars out of TV—and stands to make a lot more." He laughs at the idea. It was a coming-out party this summer for his daughter, Daphne, that the Queen, Prince Philip and Princess Margaret stayed until dawn. Guests called it the party of the season. Fairbanks topped off this tremendous social success by appearing at Royal Ascot race course the following afternoon, looking as smiling and relaxed as if he'd been on a vacation. The Queen started court circles by inviting the Fairbanks to the royal enclosure—a place from which divorced persons are supposed to be barred—and telling them how much she enjoyed the party. Both Fairbanks and his wife have been divorced. HARTFORD'S EX Born in Bluefield, W.Va., 44 years ago, Mrs. Fairbanks was the daughter of a dentist, Dr. Giles Epling. In 1932 when she was teaching kindergarten in Cambridge, Mass., she ran off and married George Huntington Hartford, the 29-year-old heir to a 200-million-dollar grocery chain fortune. In 1938, their childless and well-publicized marriage broke up. In the divorce settlement, Mrs. Hartford reportedly received more than \$1 1/2 million dollars. She married Fairbanks shortly afterward. She had met him first at a party given by Merle Oberon. Less than a year later, Fairbanks inherited what his friends say was about \$600,000 from his father's estate. Fairbanks had married actress Joan Crawford in 1929, and was divorced in 1933. Fairbanks is a bright conversationalist and a friendly man. He says he has friends in all walks of life, but the signed photographs on his walls include only well-known people.

Highway Use Tax Returns Should Be Filed Promptly

Administrative Officer Ben Hawkins of the local Internal Revenue Service office said today that Form 2290, Federal Use Tax Return on Highway Motor Vehicles, should be filed immediately. The provisions of the Highway Revenue Act of 1956 require Form 2290 to be filed for all taxable vehicles in use during July of each tax year. An additional Form 2290 must be filed for each month in which additional vehicles are put in use. These returns, which are filed with the District Director of Internal Revenue, are due on or before the last day of the month following the month in which the vehicle is first used. The tax due must be paid when the return is filed. The tax applies to the use of highway motor vehicles having a taxable gross weight of more than 26,000 pounds. The taxable gross weight of trucks and truck-tractors is determined according to the empty weight and the number of axles. The tax applies to the use of single-unit trucks with empty weight of 13,000 pounds or more, and truck-tractors with empty weight of 5,500 pounds or more. The rate of the tax for a full tax year is \$1.50 per 1,000 pounds of taxable gross weight. A full-year tax for one vehicle will range from \$40.50 to \$90.00, depending on its taxable gross weight. Each tax year begins July 1 and ends the following June 30. If the first use of a vehicle in the tax year occurs after July, the tax is prorated according to the number of months remaining in the tax year. Internal Revenue Service publication No. 349, "Federal Use Tax on Highway Motor Vehicles," has been prepared by the Service to answer taxpayers' questions. The booklet defines highway vehicles subject to the new tax, and contains a variety of information on the determination of taxable gross weight, exemptions, the preparation of application forms and returns, and the manner in which payments are to be made. A use-tax schedule of vehicles by category is also included. These booklets and copies of Form 2290 and instructions may be obtained from the Internal Revenue Service office at 306 Permian Building, Big Spring.

Plane Makes Like A Merry-Go-Round

LOS ANGELES (AP)—A big four-engine cargo plane made like a merry-go-round in a freak takeoff accident, spinning on the ground for half an hour before catching fire. The three-man crew escaped by sliding down a rope while the plane still was circling yesterday. Minor rope burns were their only injuries. Capt. Mike Moore, 39, San Carlos, Calif., said the American Airlines DC-8 had just left the ground at International Airport when the right inboard propeller flew off. "It sounded like a tire blow-out," Moore said. The propeller ripped into the fuselage and one blade came out the other side and slashed into the left inboard engine nacelle. Moore set the plane down safely on the runway and cut all power. But the left outboard engine continued running. Its controls had been sheared off by the propeller which smashed through the fuselage. The plane went off the runway and started to spin clockwise while Moore and his crew frantically tried to shut off the runaway engine. For 25 minutes they struggled. Then the left inboard engine caught fire, and Moore, First Officer Mack Haines, 32, Sunnyvale, Calif., and Flight Engineer I. B. Smithson, 35, San Mateo, Calif., decided to leave—without getting the brass ring. They slid to safety down a rope dropped from an escape hatch. The plane continued circling like a top for five more minutes while firemen extinguished the flames. Finally the plane came to a stop—by itself. Why, no one yet knows.

scarcity of labor in many fields is forcing employers to be less selective in hiring. Embezzlement is not a product of "hard times," according to crime experts. They say the person who steals from an employer as a means of solving a real hardship is rare. In the majority of cases, embezzlements are committed to finance needless the employees' honest earnings cannot support. The treasurer of a Tulsa, Okla., credit union went to jail last year for stealing \$15,000, part of which went for an air-conditioned car. The bookkeeper of a real estate agency admitted stealing \$70,000 for cars, jewelry and an expensive home. Gambling is the root of many an employe dishonesty loss, Mercer says.

HARD ON SHOES?

Ike Ready To Announce Okay On U.S. Newsmen to Red China

WASHINGTON (AP)—The Eisenhower administration was reported today to announce soon that about 20 American newsmen will be permitted to go to Red China on a six-month trial basis. The announcement, expected in the next day or so, would end an eight-year blackout on eyewitness news stories written by American reporters operating on the China mainland—provided the Communists still are willing to let them in.

Boy Rescued From Well After 5 Hours

BIG RIVER, Sask. (AP)—A few minutes after a farmer stopped at the 17-foot mark drilling a well test hole last night, his 2-year-old nephew tumbled into it. Five hours later volunteer rescue workers brought the wailing child out through a tunnel from a trench hastily dug beside the 10-inch hole. The child, Kimdale Smith, didn't have a scratch on him and doctors said he was in "very good condition." Nurses said the lad was cheerful. When his mother momentarily left his bedside in a hospital afterward, Kim bounded out of bed to follow her. Kim was wearing only short pants and shoes as he played with his 11-year-old sister, Beverly, about supper time. She saw him toddle to the opening, stumble and disappear. His arms were partly raised and tightly pinned, his hands about at face level. He could move his head and as he wailed up the hole, his mother told him from above to kick his feet to

helpful. It was understood the 12 agencies which previously had men on the China mainland told Dulles they want to send representatives back again. These agencies included The Associated Press, United Press, International News Service, Columbia Broadcasting System, National Broadcasting Co., Mutual Broadcasting System, New York Times, New York Herald Tribune, Chicago Tribune, Chicago Daily News, Christian Science Monitor and Time magazine.

Eight or so others, not named, requested permission to station reporters in China permanently. There was another list. It included news organizations interested in temporary correspondents. But Dulles was understood to have decided such a "one-shot" expedition would have to wait until he saw how the others fared during the six-month trial.

If all went well, the 20 or so permanent correspondents could stay on, and other newsmen could be permitted to make visits. The administration has been under heavy pressure to let American reporters go to Red China. This would mean waiving regulations which ban use of American passports for travel to the China mainland. There also is a ban on travel by Americans to North Korea, North Viet Nam and Bulgaria — all Communist-held areas with which the United States has no diplomatic relations.

For a while after he was found, he was silent. But as volunteers rallied in for a desperate attempt to reach the boy in time, he began a wailing that at least was reassurance he was still conscious. Oxygen was forced down the hole to him.

Demos List Dollars, Delegates

AUSTIN (AP)—An official memo from State Democratic Executive Committee headquarters here reminds Texas Democrats that they have two big problems—dollars and delegates.

State Chairman Jim Lindsey announced yesterday J. E. Connally of Abilene would be head of the Oct. 11-12 finance drive called "Dollars for Democrats." An effort will be made to get at least a dollar from every Democrat in Texas.

Connally will announce the rest of his committee next week. The official party bulletin, Texas Democratic Newsletter, also urged local Democratic groups to get their poll tax drives underway in preparation for the expected hot precinct, county and state conventions in 1958.

The Democrats of Texas, which claims to be made up of Democrats who do not agree with the present state party leadership, has announced an intensive poll tax drive, mostly through the merged AFL-CIO.

The State Executive Committee said yesterday it had completed figuring out the county by county representation for the 1958 state conventions. Lists are being mailed to county chairmen.

Record voting in the governor's race last year boosted 1958 total convention votes almost 2½ times the 1956 vote allowed in 1956. Some of the senatorial districts outside the big city areas took big jumps.

Oil Fiesta Dome

'ROUND TOWN

With Lucille Pickle

If some enterprising person could convince the American people that fried grasshopper legs and rattlesnake steaks are good to eat surely there can be something done along that line with the millions, nay trillions, of small bugs that are pestering us since the rains. There is such a variety of these little insects that it would be without a doubt, properly seasoned of course, give a new interest to the hors d'oeuvre trays that any hostess would no doubt find she had added a feather to her fall cap. We have plenty at our house and if somebody wants to try it they can have ours for free.

To honor friends who are on leave from military service George Lowe and Glenn Bunn entertained Tuesday evening with a barbecue at the F. E. Lowe home. Twenty-five friends gathered to be with KENNY DAVIDSON who is stationed in Phoenix in the Navy. JACKIE CULPEPPER in the Air Force and DELMAN HARTIN who left today for army service.

JOE CONRAD, son of Mr. and Mrs. A. J. Conrad, underwent surgery on his nose today in Fort Worth. When he is dismissed from the hospital he will recuperate at the home of his grandparents, Mr. and Mrs. M. S. Stamps, 2611 Ryan Pl. Dr. in Fort Worth.

Friends of MR. AND MRS. KEITH STEWART who ranch near Sweetwater will be pleased to know that a son was born to them Tuesday morning at Sweetwater.

Two friendly young gentlemen

David Dibrell Feted At Bachelor's Party

David Dibrell, prospective bridegroom, was honored Wednesday evening at a bachelor party given in the home of Mrs. Wayne Gound. Mrs. Gound was assisted by her daughter, Mrs. Verdian Barnes. Male members of the wedding party and friends of Dibrell were included in the guest list for the supper.

Dibrell will be married Friday evening to Marlene Mann.

The buffet serving table featured as a centerpiece a black top hat filled with fall flowers. Placed beside the hat were a pair of men's dress gloves.

Norman Gound, to be best man

Bohl Family Has Ohio Visitors

KNOTT — Recent guests with Mrs. Leslie Bohl and Angela have been Mrs. Adrian Duzan, Rebecca and Orpah Mae Osborn of Williamsburg, Ohio.

Mrs. L. G. Harrell honored her son, Glenn, with a party on his ninth birthday anniversary Tuesday. Guests were Linda Shaw, Martha Robinson, June and Charlotte Burt, Joel Molpus, Mike McClain, Charles Ray Jones, James Robert Haston, Charlotte and Johnny Martin and Lawrence Long.

Visitors with the L. G. Harrells have been her uncle, Cleve Hogue and Mrs. Hogue, their daughter, Mrs. Joe Smith and son, Fort Worth, the Rev. and Mrs. Elbert Gallow and Jimmy Everett, Wash. and Mr. and Mrs. W. J. Hogue and family, Abilene.

On Princess Lines

It's easy to have a fresh, new school outfit with this cute princess-line jumper. Couple it with the crisp blouse. She'll wear her other blouses with it, too. Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y. Send 25 cents now for Home Sewing for '57, a new, different sewing manual with styles for every season. Gift pattern printed inside the book.

who are visiting their grandmother, MRS. MABLE HARRIS, are MICHAEL and JOHN EDWIN HARRIS of Houston. They are the sons of Mr. and Mrs. Edwin Harris and plan to be here until the latter part of the month. Their grandmother has been in Houston where she stayed with her son and John Edwin while Michael accompanied his mother to Caracas, Venezuela, to visit her parents. The boys accompanied her here when she returned recently.

MRS. VERNON LINCOLN is touring Yellowstone National Park with relatives from Coahoma.

When MR. AND MRS. JACK COOK were vacationing in Aspen, Colo., recently, they felt like they had never left home. They heard a familiar voice say "Where are you all from?" and sure enough, there across the street were the Roy Reeders, Dwain Leonards, and the J. D. Joneses. The Merrill Creightons were probably not far away as they were in the latter party of Big Springers who spent some time at Glenwood Springs.

MRS. EDITH PIOR of Phoenix, Ariz., is the houseguest of Mrs. Russell Stringfellow but she's enjoying seeing and visiting a number of friends here. Mrs. Pior is the former Edith Wright and formerly taught school at Coahoma and also at East Ward here.

MR. AND MRS. DEWEY STEVENSON are all set up to make their home in Bryan where he will go to A&M College this next year. They recently returned from Bryan where they bought a house.

Lion's Auxiliary Has Luncheon Wednesday

A luncheon at Cokers Restaurant Wednesday at noon was held by members of the Lion's Auxiliary. Thirteen women were present for the affair.

Hostesses for the September meeting were announced as Mrs. Choc Jones and Mrs. Jimmy Ray Smith.

BLF&E Society Has Charter Draped

At the Wednesday afternoon meeting of the Ladies Society of the BLF&E the charter was draped in memory of the grand president, Mrs. Grace Hatfield, Little Rock, Ark., who died recently.

Fifteen members were served refreshments by Mrs. W. G. Mims and Mrs. L. H. Brooks.

Elbow HD Club

An ice cream supper will be held Friday at 7 p.m. by members of the Elbow Home Demonstration Club. The affair will be held at the special guests being the families of the members.

School Days Are Time To Form Grooming Habits

These days, with competition becoming keener by the month, it takes more than brains and education to land the job of your dreams. Perfect grooming is essential, too.

This is not a matter of how well nature endowed you. It's a matter of what you do with it. And what you do with it while you're still in school is of the greatest importance. Training yourself into the habits of good grooming now could make the difference later between getting the job you want and being told, politely, to look elsewhere.

A clear, fresh complexion will be an invaluable asset when you look for work, and a special kit for skin-troubled teen-agers was

created especially to give you one.

The treatment consists of three simple steps, and the package contains three preparations: a deep cleanser; medicated beauty mask and a pore lotion. Working together, they banish blackheads, whiteheads, surface blemishes, coarse pores and excess oiliness of the skin.

Each kit contains enough of the scientific correctives for 42 treatments. The directions should be followed closely for two weeks, and after that the degree of improvement is the deciding factor in how frequent treatments should be.

The whole treatment takes about 15 minutes a day. Not much, is it, considering how much it could mean when you apply for a job?

Mrs. Sikes Visiting Son In California

ACKERLY — Mrs. Myrtle Sikes and her granddaughter, Sue Mashburn of Stanton left Saturday for Santa Monica, Calif., to visit Mrs. Sikes' son and family, Mr. and Mrs. Wilson Sikes.

Mrs. Reese Adams and her sister, Mrs. Pearl Scott, Big Spring, visited Sunday with their children, Mr. and Mrs. Ray Adams and Mr. and Mrs. Paul Adams.

Mr. and Mrs. E. B. Baker and daughters, Seminole, visited Monday with his parents, Mr. and Mrs. Buck Baker.

Visiting in Georgia is Mrs. D. L. Gilstrap. She is a guest of her son and family, Mr. and Mrs. Laddy Gilstrap. The junior Gilstraps are the parents of a new son, Terry, born Aug. 13.

Mr. and Mrs. J. T. Cook and Joe spent the weekend at Buchanan Dam. Joining them were Mr. and Mrs. Roy Weaver and Mr. and Mrs. Bill Grigg, Big Spring.

Grandson Born

Dr. and Mrs. O. E. Wolfe have received word of the birth of a son, to their son and daughter-in-law, Mr. and Mrs. Spencer Wolfe of Baltimore, Md. The baby, Spencer David, was born Wednesday in Baltimore and weighed 7 pounds. Maternal grandparents are Mr. and Mrs. Conrad Floth, Ft. Collins, Colo.

Community Picnic

The Lomax Home Demonstration Club will sponsor a community picnic Friday evening at the City Park at 7 o'clock. All families of Lomax are invited to attend and bring a picnic basket.

HOLLYWOOD BEAUTY

Find The Fashion That Makes You Feel Good

By LYDIA LANE

LONDON, England—I knew Pat Neal well when she was under contract to Warner Bros. several years ago, but I had not seen her since she left Hollywood and married writer Roald Dahl. They live outside London (an hour by train) in a lovely old Georgian house in Great Messinger with their two daughters. Though the baby is only two months old, Pat already has her figure back.

"If you hold your weight down during pregnancy," she explained, "it's no great problem getting

back to normal. But I think it's necessary to exercise properly so that your organs get into place and your muscles will not be too relaxed."

"Are you still athletically inclined?" I asked.

"My husband is but I am not. But we both enjoy taking long walks," Pat smiled and added, "without walking sticks."

We discussed the contrasts between life in the English countryside and in New York, for Pat and her husband spend their winters in the United States.

"The standards of beauty are so different," Pat remarked. "The English women have a terror of being conspicuous, and I feel they overdo the conservative bit."

"The men seem so much more beautifully groomed and tailored than the women," I observed.

"London is a man's town," Pat reminded me. "A Bond Street suit is as sought after as a Paris gown. There is a great difference in the relationship between men and women over here, too."

"The American girl is more emancipated, but in many cases I think she carries too much responsibility."

"I never have had that something known as a 'fashion sense.' When I lived in Hollywood I hoped to learn from the experts what was right for me, but everyone I talked to had a different idea. I ended up more confused than ever, with a closet full of expensive clothes I didn't wear."

"It's a great mistake to take too much advice. Listen but let your final decision be what YOU feel is best. You have to be comfortable and confident to make a good impression. No matter how smart a dress is from a fashion point of view, it's a failure unless you feel good in it."

"What suggestions have you for developing a 'fashion sense'—for learning how to become well-dressed?" I asked.

"I think it's a question of trial and error. When you wear something you like and others like it, too, analyze why. I learned more from the dresses that were successful than from the 'duds.'"

"Color," Pat added, "is tremendously important. Once in my life I was clever about clothes. On our honeymoon we motored for 10 weeks in Europe. I limited my trousseau to pink. I had blouses and skirts that interchanged; all my accessories went together. It was a color I felt good in."

Pat is quite tall. I asked if she had ever been self-conscious about her height.

"I did a long time ago," she answered. "Now I feel almost tiny, because my husband is six-foot-six."

As I listened to Pat I had to exclaim about her extraordinarily beautiful voice. "Have you worked very hard on it?" I wanted to know.

"The only work I did was to try to lose my southern accent. My voice was always low, but fortunately it had range. There are exercises you can do to lower your voice, but in working this way it's important not to always speak in the same register."

"Voices are so important," Pat continued. "I have known girls with great visual beauty who became commonplace the moment you heard them speak."

"Tension robs a voice of its appealing qualities. This something I have had to struggle with. It was worse in Hollywood because of all the worry."

"I find it helpful to check myself for tension. Did you know your movements, your expression, even your breath is influenced by tension?" I find taking my mind completely away from myself—like

doing something for someone or even listening attentively—proves helpful."

FASHION HELP

If you want to improve your fashion sense, you'll get lots of information from Leaflet M-15, "Fashion and Make-up Secrets of the Stars." The valuable information contained in this leaflet will be yours when you send 5 CENTS and a SELF-ADDRESSED, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald.

Westbrook Folks Have Guests; Take Vacations

WESTBROOK—Mrs. J. D. Ingelhart honored her daughter, Valeria, with a party recently on her eighth birthday anniversary. Thirty guests attended the party. Guests in the Altis Clemmer home have been Mrs. J. V. Hendricks, Sherrill and Pamela, Hobbs, N. M., Mr. and Mrs. Glover Johnson, Jimmy, Linda and Terry of Stanton; Mr. and Mrs. S. W. Webster, Stanton, Ruby Clay of Fort Worth, Mrs. Ross McIlroy and Jimmy and Kenneth, Austin, Mrs. Clarence Collins, Abilene and Mrs. J. D. Sprawls and Evelyn of Coahoma.

Mr. and Mrs. Sam Oden, Maritha Junior and Tim; visited in Saragosa last week with the B. L. Pruett. The group toured the Davis Mountains, visited Ft. Davis observatory and San Marcos and Balmorha Park.

Mr. and Mrs. Leslie Bassinger

and Neta, Andrews, visited in Colorado City and Westbrook over the weekend.

Benny Matlock, Farmington, N. M., visited his parents, Mr. and Mrs. D. L. Matlock over the weekend.

Weekend guests with Mr. and Mrs. Burl Taylor were their children, Glenda and Dean Taylor of Abilene.

Mr. and Mrs. "Bear" Williams and son, Snyder, and Mr. and Mrs. Marion Oden and sons, Fort Worth, were weekend guests with the Sam Odens.

Several Mitchell county residents attended the third annual reunion of the late Lee Kellett family held last weekend at Lake Cisco. Relatives were present from 18 towns and about 100 attended.

Visiting Mr. and Mrs. M. A. Webb have been their daughter and her family, Mr. and Mrs. Ben Elliott, Encino, Tex.

Jaycee-Ettes Hold Dinner Meeting

Five new members were introduced at the dinner meeting of the Jaycee-Ettes Wednesday. They are Mrs. John Austin, Mrs. George Craigh, Mrs. Henry C. Roach, Mrs. Wayne Basden and Mrs. Byron Chudom.

Presiding for the meeting at the Wagon Wheel was Mrs. Douglas Boren, president.

The group discussed inviting the state president, Mrs. Charles Cowley, Rawls, to be the guest speaker at the September meeting. That meeting will be held at Carlos Restaurant with hostesses Mrs. R. L. Heath and Mrs. W. C. Gray.

Following the game of guffie prizes were awarded to Mrs. Chudom, Mrs. Austin and Mrs. Basden.

Hostesses Wednesday were Mrs. James Cape and Mrs. Jack Buchanan. Nine members were present.

Glove Wardrobe

This basic pattern will help you to make a glove wardrobe—in colors and materials to match or complement your clothes. No. 187 has pattern for glove in small, medium, large sizes; full directions.

Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y.

Champ Ready

Full of confidence, heavyweight champion Floyd Patterson pronounced himself ready to take on the challenge of amateur Pete Rademacher as he winds up training for the defense of his title in Seattle, Wash. With him is his manager, Gus D'Amato.

Rademacher, Patterson To Fight Tonight

By JACK HEWINS
SEATTLE (AP)—It is the day the self-made Cinderella man, Pete Rademacher, goes to the fistic ball with King Floyd Patterson to learn if his dreams are made of dust or diamonds.

Most ringwise observers have protested that the big, genial farm boy is leading himself to a slaughter. It is the first heavyweight title fight between an amateur and a professional.

The fight will not be broadcast. The entire stadium is likely to be crammed to its 25,000 capacity with 4,000 worth of paying customers.

Less than a month ago Patterson, 23, cut down Hurricane Jackson in New York. The referee stopped the fight in the 10th round. Tonight the champion will meet a much larger and stronger opponent — and one Cus D'Amato, Patterson's manager, has called more skillful than the tamed Hurricane.

Rademacher, 28, goes into the ring with a weight advantage of some 25 pounds. The 210-pounder has almost spindly legs for such a large man, but he is massive in torso, shoulders and biceps. He can hit—his string of more than 30 knockouts attests to that.

He can also be hit. He has been knocked out twice in his amateur career of 79 bouts. He has been knocked down in others—and won them. Those who have watched his training-camp workouts expect big Pete to force the fight, to keep atop the champion and lessen the force of Patterson's sharp jabs and vicious combinations.

1-Run Margins Are Decisive In TL Games

By The Associated Press
Four of the five Texas League games Wednesday were won by one run.

Shreveport whipped leading Dallas 8-4 for the only big margin victory. Fort Worth downed Houston 6-5, Tulsa nipped Austin 4-3 and San Antonio got Oklahoma City 3-2, then lost the second game 5-4.

Dallas committed three errors in the third inning to allow five unearned runs and that's what put Shreveport across.

Fort Worth rolled up a 6-1 lead through the third and held on to beat Houston. Frank Ernaga's two-run homer in the third was the eventual winning margin.

San Antonio won the first over Oklahoma City by taking a 3-1 lead and coasting in as Bob Harrison, Dick Luebke and Carl Scheib teamed to limit the Indians to four hits. Oklahoma City captured the nightcap with Hal Grote throttling a Mission rally in the ninth with a perfect throw to the plate to cut down what would have been the tying run.

Jack Lundquist doubled in the winning run in the ninth as Tulsa edged Austin. The Senators got all their runs in the first inning, then couldn't handle pitcher Al Widmar for more tallies as the Oilers pecked away.

Milwaukee To Try Tying Ribbon On National Flag

By ED WILKS
The Associated Press
If Milwaukee's Braves have the National League pennant wrapped up, as some folks say, this is the time to put a ribbon on it. They open a three-game series against Brooklyn's Dodgers tonight at Ebbets Field.

The Braves broke up the log jam in the race by winning 10 in a row and jolting two contenders in the process, plunking the St. Louis Cardinals out of the lead and crashing Cincinnati out of the race.

The Dodgers climbed within a percentage point of second-place St. Louis yesterday by rapping Cincinnati 10 as Don Newcombe (10-10) finally got back into the act with a five-hitter for his first victory and complete game since July 12.

The Cardinals, who had won four in a row, were chopped down 13-6 by the New York Giants.

Those were the only two games scheduled in the NL and left the Cards and Dodgers both 6½ games behind the Braves.

In the American, New York's lead was trimmed to six games as the Kansas City A's made it two in a row over the Yankees, 6-3, and Chicago's second-place White Sox walloped Washington 12-6. Boston beat Cleveland 3-1 and Baltimore defeated Detroit 9-3.

Boston's Ted Williams and Yankee Mickey Mantle were hitless for the second straight day in their battle for the bat title. Williams (0-for-4) has a .385 average, Mantle (0-for-3) is .378.

Newk, last season's Most Valuable Player in the National and the majors' pitcher of the year at 27-7, had lost four in a row since beating Cincinnati last month. He struck out six and walked one. Frank Robinson had three of the Red Sox hits.

Cino Cimoli clinched it with a three-run homer in the third off Hal Jeffcoat. The Dodgers, who had 11 hits, then counted five in the seventh.

Lefty Mike McCormick gained a 3-0 record for the Giants, checking the Cards on eight hits in 8 2-3 relief innings. The Jints belted Lindy McDaniel (10-8) and four relievers for 13 hits, including home runs by Willie Mays and Hank Sauer. The Cards counted homers from Wally Moon, Ken Boyer, Eddie Miksis and Stan Musial.

The A's, taking a series from the Yankees for the first time since shifting to Kansas City in 1955, chased Johnny Kucks (7-8) with three in the first and then tagged Art Ditmar and Al Cicotte for the rest. Jack Urban won his third with Virgil Trucks' relief after the Yankees out-hit the A's 8-7.

Jim Piersall's two-run homer off Mike Garcia won it for the Red Sox, who had lost five in a row.

Milwaukee Open Attracts Big Field

MILWAUKEE (AP)—Led by Ed Furgol, the defending champion, a field of 137 pros and 19 amateurs tee off today in the \$35,000 Milwaukee Open Golf Tournament amid indications of subpar runs in wholesale lots.

The 72-hole medal test, which winds up Sunday, is being held at the Tripoli Golf Club, a 6,350-yard layout in gently rolling hill country north of the city. Par is 35-35-70.

Furgol, of St. Andrews, Ill., won the \$6,000 first prize last year at Tripoli with a 15-under-par 265.

Furgol, whose withered left arm is no handicap once he picks up a golf club, heads a list of well-known stars entered here.

They include Cary Middlecoff, the former Memphis dentist, San Francisco's Ken Venturi, who won his first pro meet at St. Paul, Minn., last week; PGA champion Lionel Hebert from Lafayette, La.; Jackie Burke Jr., 1956 PGA titlist from Klamath Falls, N.Y.; and Sam Snead, of White Sulphur Springs, W.Va.

Peter Thomson of Australia, who captured the British Open title an unprecedented three years in a row, 1954-56, heads a small foreign contingent.

LL World Series Reset For Today
WILLIAMSPORT, Pa. (AP)—Sixty boys from Michigan, California, Connecticut and Mexico were itching to play some baseball today and get the 1957 Little League World Series under way.

Since Monday teams from La Mesa, Calif.; Escanaba, Mich.; Bridgeport, Conn.; and Monterrey have been on hand anxious to play ball. Twice postponements have forced a delay in the championships in this birthplace of the Little League movement.

The latest schedule, after a postponement due to rain yesterday and an earlier delay because of colds suffered by several boys, calls for both semifinal games today. Mexico plays Connecticut in the first and Michigan faces California in the second.

The final game is set for Friday afternoon.

MVC Announces 'Five-Year Plan'
KANSAS CITY (AP)—A "five year plan" to strengthen its athletic family was adopted yesterday by the Missouri Valley Conference.

Dr. George Small of Tulsa, president of the conference, said the plan is simple: "Each school is expected to strengthen all phases of its athletic program and to report its progress within five seasons. St. Louis which has not competed for sometime apparently has no immediate plans to return to the gridiron.

Battle To Draw
CHICAGO (AP)—Joe Brown, lightweight champion, was held to a draw last night in an overweight, non-title bout by Joey Lopes of Sacramento, Calif.

16 In Tournament
ST. LOUIS (AP)—The Western Amateur Golf Tournament gets down to business today with 16 survivors of the 72-hole qualifier launching four rounds of match play.

Special 'Allowance' Races Slated At Ruidoso Friday

RUIDOSO, N. M. — "The Jim Burke Allowance" for quarter horses and the "Red Canyon Allowances" for thoroughbreds share top billing this Friday at Ruidoso Downs.

"The Jim Burke Allowances," at 400 yards, co-features Bob's Folly and Sure Nuv, Sure Nuv, winner of the "Miss Meyers Purse" last Saturday, will be hard to outrun if a repeat performance is made.

Bob's Folly, the hard running son of Three Bars, has yet to reach the coveted circle at the current meeting. Bob's Folly, showing impressive 1956 form, will once again attempt to turn down a fast field. The competition is not limited to the two mentioned as Ridge Butler, King Lad, Three Strings, Valinda Twist, Maroon, De Witt Bar, Dolly's Ace and Little Nippy have been named to contest also.

The five and one-half furlong feature, "The Red Canyon Allowances" brings out 10 of the top sprinters on the grounds. Frijole Route, drawing the one post position and carrying 110, looms as possible favorite along with Bull Lanty, Bull Lanty, gifted with a world of early speed, draws the three post position and carries 117 pounds. Lucky William, who has yet to run according to his sterling 1956 form, could be victorious in this race. Kansas Cyclone, the 5-year-old Stephafer mare, should improve her recent efforts and be a threat here. Also to contest will be Peache's First, Ambrose, Sierra. Reported, Lonely Rambler and Bold Folly.

LL OFFICERS TO BE CHOSEN
Officers for 1958 will be elected by the Big Spring Little League tonight.

The election is to be held during a meeting of workers in the classroom at the police building. The session will start about 7:30 p.m.

Sooner Cagers Beat Texans
LAWTON, Okla. (AP)—Oklahoma schoolboys whipped Texas 59-41 last night in the annual Oil Bowl basketball game.

Phil Leonard of Duncan whipped in 20 points, 14 in the second half, and controlled the ball under the basket for Oklahoma.

Oklahoma blew a 13-6 lead and Texas tied the score 17-17 in the first period. But the Sooners then pulled away, marching to a 27-23 halftime lead. Moe Iba scored most of his 17 points for Oklahoma in the first half.

Steve Strange of Dallas Highland Park led the Texans with 10 points. Billy Simmons of Pecos got nine.

Oklahoma Gridder To Return To Tech
LUBBOCK—Halfback John Roberts, who played freshman football for Texas Tech in 1954, has told Coach DeWitt Weaver that he will report for practice here Sept. 8.

Roberts, 5-10, 180, made all-conference for Ralph Tate's Stillwater, Okla., team. At Tech in 1955, he was held out of action his sophomore year and later left school to work.

Four Qualify For Junior Tournament
Only four youngsters had qualified this morning for the Big Spring Country Club's junior golf tournament, and Club Manager Shirley Robbins said the qualification period has been extended to include this weekend.

Play probably will start Monday, Robbins said. The tourney may consume the entire week.

Matthews Injured
HOUSTON (AP)—Texas will be without the services of passing quarterback Vince Matthews this season. The Longhorn junior re-injured his knee in a workout here and won't be able to play here fall.

row, Russ Nixon, with help from Ike Delock, won his 10th in 18 decisions.

The White Sox had 12 hits while scoring seven (six unearned) in the third and fourth in the sixth. Larry Doby, with three RBIs, and Nellie Fox each had three hits. Russ Kemmerer lost it while Gerry Ryan gained a 5-0 record in relief.

Three-run homers by Joe Durham and Al Pilarcik backed up right-hander Ray Moore, who picked up a 9-2 lifetime record against the Tigers with relief help in the ninth. Lou Sleater, one of two relievers who followed loser Billy Hoelt (5-8), hit his third homer for the Detroit runs.

Oh Happy Day

Veteran pitcher Bob Keegan of the Chicago White Sox is jubilant in Chicago dressing room after he had pitched a no-hit baseball game against the Washington Senators. It was the first no-hitter in the major leagues in 1957 and for the White Sox it was the first no-hitter since 1937.

Westerners Gain On League Leader
Ballinger hovered within breathing distance of first in the Southwestern League Thursday because leading Hobbs couldn't sweep a double-header from last place Lamesa.

The Westeners, who topped the circuit for much of the season only to lose the advantage recently, pulled within a half game of Hobbs with a 6-3 triumph over Carlsbad. Hobbs whipped Lamesa 4-0 in the first game with Manny Fierro hurling a neat four-hitter, but Lamesa bounced back to take the nightcap 6-3. Marty McGuire and Tom McAvoy combined to toss a four-hitter at the Sports.

Poly Riley Ousted By Marlene Streit
SACRAMENTO, Calif. (AP)—It's quarterfinal day at the Women's National Amateur Golf Tournament today with two ex-champions still in the running, thanks to a bad case of tournamentitis and a long putt.

Defending champion Marlene Stewart Streit made the round of eight when Polly Riley, a Fort Worth, Tex., winner of many a major tournament, got the whinnies on the 13th hole yesterday and blew two shots in a row.

And Barbara Romack Porter, the 1954 champion playing at home on the Del Paso Country Club course, had to go 20 holes before squeezing out Clifford Ann Creed, an 18-year-old fighter from Opelousas, La., who hardly knows what it is to be behind.

Mrs. Streit, 22, plays Carole Jo Kabler, a University of Oregon co-ed from Roseburg while blonde Barbara takes on Ann Casey Johnstone of Mason City, Iowa. They've played each other twice this year and have split.

Qualifying Play Is Set For National Am
DALLAS (AP)—Three spots in the National Amateur Golf Tournament will be up for grabs among 31 players here Aug. 27.

Sectional qualifying will be held at Brook Hollow Country Club. The National Amateur will be held at Brookline, Mass., Sept. 9-14.

NO PERMITS NEEDED On NORTH CONCHO LAKE At San Angelo
Did you know that on the NORTH CONCHO LAKE at SAN ANGELO you can fish, ski, boat, swim, loaf, and camp all you wish and not have to pay one penny to anyone for PERMITS. If you bring your own food, boat, gas, and bait you can spend a free day or week on one of the cleanest lakes in Texas.

If you wish to do it the easy way you will find it at BROWN'S BOAT DOCKS has everything for the fishermen. Bill and Mollie will be glad to serve you, and for those that do not like to camp out you will find the nicest most complete cabins in Texas at the SOUTH SHORE LODGE.

The SOUTH SHORE CAFE is open and being operated by Mrs. Linnie Hatfield. You will find a complete cafe that carries food, ice, groceries and beer.

FREE! - 2 CADILLACS TO BE GIVEN AWAY
Sat., Sept. 28 Sat., Dec. 21
You could win one or both by just coming by Hayworth Service Store at 601 East Third Street and filling out a registration ticket. Drop the ticket in the box at Hayworth's and if you miss on the first free Cadillac, your tickets stay in the pot for the second drawing.

Get free tickets every time you come into Hayworth's. No limit on the number of times you may visit the store and register. Remember, anyone over 16 years of age may register. You need not be present to win and there is no obligation.

Most people will probably think there is a gimmick somewhere, but the only thing we want is to get you acquainted with our Superior Service and Products—such as: Mobil Tires, Batteries, Oil, and above all Mobilgas with MC4. Compare any of our products with any competitive brand and see for yourself. Ask someone who has used Mobil products... that is the best salesman we have.

Remember too, we try to keep a little of most anything you may need for your car and we still give S&H Green Stamps with each purchase.

Mulloy, Patty Changing Few Ideas On Players' Old Age
BROOKLINE, Mass. (AP)—Gardner Mulloy and Budge Patty—who may turn American Davis Cup thoughts away from the youth movement—today venture their top seeding against comparative newcomers in the National Doubles Tennis Tournament.

Their opponents were rising youngsters Myron Franks of Los Angeles and Mike Green of Miami Beach in their men's quarter-final test at Longwood Cricket Club.

Mulloy, 45-year-old bespectacled Miami resident, and the mustachioed 34-year-old Patty from Paris have jarred some accepted ideas since winning the world doubles championships at Wimbledon this spring.

Perhaps what the colorful pair has set out to prove is this: if a man's age hinders him in his quest for tennis' highest singles honors it is no deterrent to his excellence in doubles.

County's Filing Fees Now Higher

Three county offices will begin charging slightly higher fees for services they render today than have been charged in the past.

The offices are those of Viola Robinson, county tax collector; Wade Choate, district clerk, and Pauline Petty, county clerk.

The increased charges are result of laws enacted by the recent legislature which authorized an upward adjustment of such fees.

In the office of the tax collector, all car registrations will cost approximately 10 per cent more today than they would have cost on Wednesday. Deputies were busy familiarizing themselves with the new schedules. The old rates have been operative for so long that the clerks were able to tell an applicant off-hand the cost for a registration without consulting the list. Now a new schedule must be learned.

The increased fees in the office of the district clerk and county clerk were authorized by action of the county commissioners court in activating a new charge schedule. The law empowered such offices to adopt the larger fees if the commissioners authorized such action.

Marriage licenses, for example, will cost 50 cents more today than on Wednesday. New charge for a license will be \$3 instead of the traditional \$2.50 which has prevailed for so many years.

Filing a petition for divorce, for instance, in the office of the district court clerk, will now cost \$3.50. The old charge was \$1.50.

The fees for nearly all of the services of these two offices are slightly increased. A few remain as they were and one or two have even been reduced.

Colonel On Trial In Mortar Deaths

FT. SILL, Okla. (AP)—Lt. Col. Walter P. Berger, 41, faced a general court-martial today on charges of negligence homicide and dereliction of duty in the firing range deaths of four infantrymen.

Berger, an artillery officer with 16 years service, is from Philadelphia. His wife and two daughters, 7 and 5, live with him at Ft. Sill.

Berger was second in command during a public demonstration of artillery support for an infantry assault June 22. The demonstration ended tragically when mortar shells landed in the midst of a 70-man platoon. Four enlisted men were killed and 13 others were wounded.

An investigating board lodged five charges against Berger and four counts of negligent homicide against Lt. Rosser L. Moody of Toano, Va.

A court-martial acquitted Moody last week. The 22-year-old artillery lieutenant admitted he copied the wrong data and as a result 4.2 inch mortars fired into the advancing troops rather than over their heads.

The officer in charge of the demonstration, Lt. Col. Walter D. Short, testified he ordered a ceasefire when the shells fell in the wrong areas.

Short said Col. Berger, his assistant, assured him a few minutes later the mortars were on the correct target. Short said if this were true the firing could be resumed.

Short testified the second round of mortar shells also landed among the infantry.

The Army charged Berger with unlawfully killing the four soldiers by "negligently ordering the resumption of fire after having been given notice that an error in firing data had possibly occurred, without first having determined, by means reasonably calculated to discover an error in such firing data, . . ."

If convicted, he faces maximum punishment of discharge from the service, forfeiture of all pay and allowances and four years at hard labor.

Who Won't Talk?

DALLAS (AP)—There'll be no shortage of speakers today at the opening of the Toastmasters International Convention. Some 1,500 members of the self-improvement club, all accomplished public speakers, gathered for the three-day convention.

Epidemic Near

SAN BENITO, Tex. (AP)—The number of encephalitis cases in the Cameron County outbreak stood at 72 today and health authorities said if the total reached 80, it would be classified as an epidemic.

Census Of Polio Victims In This Section Is Under Way

A survey to determine the rehabilitation needs of all former polio patients is being conducted by the Howard-Glasscock Chapter of the National Foundation for Infantile Paralysis, according to Rad Ware, chapter chairman.

The local survey is part of a nationwide study by the NFIP which is attempting to compile a roster of polio victims of all ages and degrees of disability. The organization wants the names of all persons who have had polio, regardless of when they were stricken.

With the Salk vaccine making steady progress in the reduction of new infections, the NFIP now is concentrating its efforts on work to rehabilitate persons who have had the disease, Ware said.

Bo Bowen, public nurse at the Big Spring-Howard County Health Unit, is in charge of the Howard-Glasscock census of polio victims. Anyone who has had the disease is asked to contact her or Ware. It is hoped the local survey can be completed by Sept. 1.

"Modern medicine has made impressive strides in developing new rehabilitation techniques in recent years," Ware said. "Pilot surveys already undertaken show that there are thousands of polio-handicapped in the United States who have not yet had an opportunity for medical evaluation to determine if they might benefit from these new techniques."

"Some of the techniques employed today for those disabled by polio and other causes were unknown or unused as recently as 10 or even five years ago."

"The March of Dimes organization, having scored a tremendous victory in its war on polio, does not now propose to walk off and leave the wounded behind, so long as help for them is possible. We wish to find everyone who has had polio, whether paralytic or non-paralytic. We want to know what their special problems may be, so that they may be helped to regain useful lives, if humanly possible, even though it will take a considerable period of time."

Ware said that the roster is to be made in close cooperation with the Howard County Medical Society and member physicians. The Department of Public Welfare, Office of Vocational Rehabilitation, State Crippled Children's Service and local school systems also will cooperate.

Information sought for each patient includes whether he is employed or attends school, if he can climb stairs and dress himself, whether he receives regular treatment and if he uses a respiratory aid.

Ware asked that all persons who have ever had polio—whether disabled or not—send their names and addresses directly to Rad Ware, Howard-Glasscock Chapter, National Foundation for Infantile Paralysis, Box 134, Big Spring, Texas.

Riots Against Negro Family In Levittown On Decrease

LEVITTOWN, Pa. (AP)—There were signs today that the week-long demonstrations against the first Negro family in this eastern Pennsylvania housing development were nearing an end.

For the first time in nine nights, no crowds gathered last night to voice their protest over the presence of William E. Myers Jr. and his family.

State Police Maj. William Ruch said violence might be at an end, but his men will remain as long as necessary.

The Bristol Township commissioners met last night without taking action on a request by Township Police Chief John R. Stewart that a curfew be imposed on children 16 and under.

It would take 20 days for a curfew ordinance to become effective, under township law, and apparently the commissioners felt the need for a curfew would have ended before then.

Police kept pedestrians and automobiles moving in the neighborhood of the Myers home last night. Ruch had announced the previous night, after a township police sergeant was felled by a stone, that from then on no gatherings of three or more persons would be permitted.

The injured policeman, Sgt. Tom Stewart, was reported in satisfactory condition yesterday at Rolling Hills Hospital. He had to have plastic surgery to repair a torn right ear.

Myers announced he had been offered \$3,000 more than the \$12,150 he paid for his ranch-style home if he would sell and move out. He would not say who made the offer and added: "I don't want to accept it. I intend to stay in my home."

Simons Sees Good Use For Weather Station In Balloon

MINNEAPOLIS (AP)—A weather station in outer space, 19 miles up, could make accurate forecasts for half the nation, says the man who was there.

Maj. David G. Simons, Air Force doctor-pilot of a balloon that soared to a record 102,000 feet, told a news conference last night that one forecaster at that altitude could accomplish more than scores of ground weather stations.

Simons said that, from his vantage point in the balloon's gondola, he was able to spot numerous thunderstorms of which his ground-tracking parties were unaware. He reported earlier having seen the western shore of Lake Michigan from above Brainerd, Minn., a vista of some 450 miles.

The major, fully recovered from the fatigue which showed when he landed the balloon near Ellendale, N.D. Tuesday, was asked why he undertook such a dangerous assignment.

"I guess I just asked for it harder than the others," he replied. Simons said he thought it would be possible to push a balloon such as he rode into the 120,000-foot level.

A newsman queried whether Simons hadn't felt closer to God, soaring 32 hours in a purple-black sky that turned darker at night.

"This is God—the privilege of being able to contribute to man's progress," Simons said.

Relic Of The Old West

Guy Campbell, 14, holds a buffalo skull he found while riding his horse, "Yellow Cat," around the range on the Campbell Ranch near Matador. Heavy rains uncovered the relic of the old West along a creek bank near Lost Canyon where thundering herds of buffalo once roamed. The skull is in an almost perfect state of preservation.

WHERE YOUR COUNTY MONEY GOES

Various County Funds Show Little Change In '58 Budget

(This is the second of a series of articles giving a detailed analysis of Howard County's budget for 1958. Public hearing on the budget is set for 10 a.m. August 26, in the Commissioners room at the courthouse.)

There will be a cash balance of some \$52,500 left to the credit of the Howard County Jury Fund on Jan. 1, the current county budget discloses. In addition to this reserve, the fund will have an income in 1958 of an additional \$1,500. This makes the total available resources \$54,000. It is estimated that total expenditures for the fund for next year will be \$30,500. This explains why no tax levy is set up for this fund. It is anticipated that \$23,440 will be on hand in the cash balance at the end of next year.

Expenditures chargeable against the jury fund cover some of the operations of the district court, the county court and the justice courts of the county. Not all expenses of these offices are charged against it, however. Salaries of officials and their deputies, for example, are not included in the list of expenses to be charged against the fund.

INCREASES ARE SMALL
The district court budget shows relatively small change from the present year. This year, the estimated costs of this operation is set at \$25,000. For 1958, the budget calls for \$25,500. Included in the items listed are an increase in the salary of the district court reporter from \$4,500 to \$5,400; \$100 extra to compensate court appointed attorneys in trials before the court; an increase of \$200 in payments for social security and a decrease of \$300 made possible through elimination of expenses for the court reporter.

The county court budget for 1958 is just \$90 higher than the estimated expenses of the current year. This narrow increase is in the upping of the expense of an oil evaluator from \$1,440 to \$1,500.

Justice court expenses for 1957 are estimated at \$100 and the figure is unchanged in the 1958 budget.

Total resources of the important road and bridge fund will be \$345,000 in 1958.

This is \$5,816 less than the estimated resources available to the fund this year. There should be a cash balance of \$27,784 on hand in the fund on Jan. 1, and collections paid into it should equal \$317,215.20, the budget shows.

TAX ESTIMATES
Current tax collections for 1958 should produce \$127,915.20 as compared with collections this year of \$108,342; delinquent tax collections should bring in \$300 more in 1958 than in 1957. Auto registrations will yield \$175,000—the statutory maximum possible for a county. Fines and forfeitures are expected to net the same—\$12,000—next year as this. The \$500 remaining should come from sundry receipts. A tax rate of 30 cents is assessed for this fund.

Charges against this fund are the salaries of the four county commissioners—which will be \$18,058 in 1958 as compared with \$16,416 this year. Also charged against this fund are the salaries of the county engineer \$7,200, and the salaries of his assistants. This latter requirement will take \$400 more this coming year than was needed in 1957. The county judge's salary was once charged to this fund but is no longer so charged. This year, \$3,600 was charged against the fund for law enforcement salaries; that item does not appear in the next year's budget.

Total administrative expenses

for the fund are thus fixed for 1958 at \$45,728 as compared with estimated expenses for the present year of \$36,816.

An increase of approximately \$2,000 is allowed for the maintenance and construction operation costs in 1958 over the current figures. Total expenditures under this category for the next year are budgeted at \$344,128.30. These include a \$1,200 increase in wages from \$130,000 to \$142,800; a \$3,000 increase for materials and supplies; \$500 additional for tires and tubes; a reduction of \$2,000 for right-of-way expenses; an increase of slightly over \$800 for paving expenses; a \$10,000 decrease in funds for moving fences and utilities; \$500 additional for cement and gravel and \$1,000 less to be spent on culverts and an equal decrease in funds for building catleguards. Lumber costs will be chopped \$500 while cost for wire and posts will be increased \$200. Hospitalization is to decrease \$300.

GENERAL FUND
Also reduced \$4,200 is the capital outlay account—\$2,000 being chopped off the funds for road equipment and \$2,200 off the money earmarked for trucks and trailers.

Total resources for the General Fund will be \$187,389 in 1958 the budget shows, which will be nearly \$15,000 more than this year. These resources include receipts from tax collections, fees, permits and other sources of \$176,489 and cash on hand \$10,900. From this total, \$10,000 has been transferred to the airport fund and \$50,000 to the officer salary fund—leaving a total resource figure of \$127,389 for the general fund for 1958. This is \$4,387 above the estimate for the current year.

The general fund covers a multitude of operations. Listed is an increase of \$60 in the salary of the secretary to the commissioners; \$2,000 for stationary and supplies (not set up for the current year) \$5,500 for the oil evaluator costs (increase \$500).

AUDITOR'S SALARY

The county auditor's operations are paid for out of this fund. Salary for the auditor is set at \$6,600. This year, the budget showed \$7,200 for this purpose. Salary increases were not fixed at the level anticipated early this year, which accounts for the difference.

A \$60 increase in salary for his assistant is shown; a reduction of \$160 is marked for stationary and supplies; while telephone charges are upped \$50 and maintenance of machinery is included at \$108.90. In all, the operation of the county auditor's office is reduced \$400 for the new year as compared with the current year.

Building maintenance is increased \$1,300 for the year—the total allotted for this purpose being

Hookey-Playing To Be More Difficult Here This Year

It won't be so easy to play hookey from the Big Spring schools this coming school year. A full time attendance officer will be on the payroll and it is

Clear Skies Cover Texas

By The Associated Press
Clear skies covered Texas early Thursday.

Scattered showers were forecast for all but North Central Texas. Dawn temperatures ranged from 66 degrees at Lufkin to 83 at Galveston.

The only rain Wednesday was a few showers south of Salt Flat. Wednesday's highs ran from 100 at Presidio and Wichita Falls to 88 at Corpus Christi and Alpine. The nation's weather showed little change Thursday, with pleasant temperatures continuing in most areas. There were some wet spots.

Skies were clear and there was a general warming trend over most of the country from the Plains states to the Atlantic Coast. However, light showers and cloudiness were reported from the southern New England coast into Maryland and showers continued in the southern Florida peninsula. Rainfall in Miami measured nearly 3 inches in 24 hours.

Sgt. York Tires At Ceremonies

JAMESTOWN, Tenn. (AP)—Sgt. Alvin C. York rested at his mountain home today after exhaustion forced his departure from Sgt. York Day ceremonies yesterday. The 69-year-old hero of World War I was presented a new, black automobile by the 82nd Airborne Division Assn. after words of praise from dignitaries including Gov. Frank Clement. York is the 82nd's only living Medal of Honor winner of the 1917-18 era.

charities, the budget allocates \$20,900 for 1958 as compared with \$17,120 for the current year. Increases are in the allotment which may be spent for groceries, for rent, for hospital and nursing care and for burials.

The county will provide \$9,490 for its part of the health unit expenses as compared with \$8,920 this year.

Agriculture department costs for 1958 will be \$17,500 as compared with \$17,050 this year. Final item on the general fund is captioned "capital outlay." This provides \$2,200 which can be allowed for trade-in by the sheriff on two automobiles during the year and \$499 for other equipment and machines. The total for the new year is \$2,699 as compared with \$2,000 for the current year.

Officer's salary fund, permanent improvement fund, library fund, lateral road fund, courthouse and jail building fund and the remaining items in the budget will be discussed in the next in this series of articles.

his task to find out just why a youngster is absent from his desk. Clyde Rowe, formerly band director of the schools, is now official attendance officer. His work will be in the field rather than at a desk. Heretofore, school officials explained, what emphasis was placed on attendance enforcement was largely limited to book work.

Statistical information was maintained but due to the lack of a full-time official on the job, little personal checking was possible.

Rowe will go to the homes of the absentees and ascertain first hand how it happens that the boy or girl is not in school.

Floyd Parsons, superintendent, feels that initiation of this new type program will be of great importance in decreasing the number of absentees in the schools and instrumental in improving the probability of more youngsters proceeding with their education.

Absenteeism is not higher in Big Spring, perhaps, than in other communities of comparable size and population make-up. However, there are far too many boys and girls who do "skip" school too often and, according to Parsons, a great many too many who do not attend school at all.

Rowe's experience here as a teacher has given him a wide acquaintance among the boys and girls of the town. This, Parsons believes, will be a valuable asset in his work. The school officials are looking

to this new school enterprise with considerable interest. They feel that it represents an important and progressive forward step.

In addition to his personal contact work, Rowe, naturally, will be charged with responsibility for maintaining attendance records.

IT'S NOW UNDER WAY: **DUTCH AUCTION!**
(Now Through Tuesday, Sept. 3)

5% LOWER PRICES EVERY DAY UNTIL END OF AUCTION PERIOD

Here is how it works: Regular prices are reduced 5% each day as long as the article remains unsold, with a 10-day limit.

To purchase the item of your choice at the bargain price you bid on it. Remember the price goes lower each succeeding day...but someone else may buy the article while you are waiting for it to go down another notch. So, you can place your bid, and make your offer. If the article remains unsold you get it at your own price.

It will pay you to do a little real early Christmas shopping... and at these prices we feel that you will want to do so.

WON'T YOU JOIN ME?
... asks Mrs. Roy Reeder

Mrs. Reeder Offers Stuffed Roll Recipe

If you're looking for a recipe that's a little different and hasn't been served too often to be tiresome then the recipe Mrs. Roy Reeder shares with readers today is just what you've been wanting. Mrs. Reeder calls this French Stuffed Rolls and she especially likes the recipe for serving small, informal backyard suppers. She thinks you'll really like the sandwich if "you like sharp cheese."

FRENCH STUFFED ROLLS

Ingredients:
1 pound snappy cheese, ground
1/2 pound cooked ham, ground
4 tps. chopped green pepper
Large onion, chopped
Eight stuffed olives
1/2 cup melted butter
1/2 cup tomato sauce or paste
12-18 hot dog buns

Method:
Grind all ingredients together and stuff buns generously. Wrap each bun in foil and heat about 20 minutes in a moderate oven. Serve hot. That's all there is to it!

To serve with the sandwiches Mrs. Reeder likes baked beans stripped with bacon, a relish dish, potato chips and a light dessert.

Another reason she finds this recipe so easily prepared is because the buns can be stuffed and frozen and then all that's left is heating them in the oven.

Besides entertaining friends in the lovely yard of her home, Mrs. Reeder enjoys working in her yard, playing bridge and looking for new items for her bottle collection.

The bottle collection boasts many lovely items, many of which are hand painted, and many from the various vacation spots she and her husband have visited.

Mrs. Reeder is a member of the 1948 Hyperion Club, Green Thumb Garden Club and works extensively in affairs at the First Baptist Church.

Homemaker Feeds Family While Taking Around - The - World - Tour

Homemaking while sailing the seven seas calls for ingenuity and adaptability as well as knowledge of nutrition to keep the family well nourished despite problems of food deterioration from sea air, no refrigeration and lack of a ready supply of fresh foods, according to Mrs. Earle L. Reynolds, who is sailing around the world with her atomic scientist husband and two children.

Mrs. Reynolds' homemaking activities have been centered for more than two years in the compact space of a 50-foot ketch, the Phoenix, in which the family has covered approximately 36,000 miles since leaving Japan. They are now visiting relatives and friends in the East and Mid-West and will set sail this fall on their return journey of some 15,000 miles to complete a circle of the globe.

A two-burner kerosene stove in the ship's tiny galley is used by Mrs. Reynolds to turn out hearty meals for the four members of her family and three Japanese yachtsmen on the round-the-world trip. Dehydrated and canned foods are the mainstay of the sea-going diet, being supplemented by fruits and vegetables and other fresh foods, available at ports of call.

To enrich recipes Mrs. Reynolds adds powdered dry milk to pudding mixes, cereals, spaghetti and macaroni dishes, potatoes and rice. She also uses it in custards, various meat dishes and biscuits and pancakes.

Hearty one-dish meals are the speciality of the ship for ease of preparation in the small space of the sea kitchen. Also, dining on the two-masted ketch at sea makes a bowl of food, which can be held in one hand, almost essential for serving. Rice, the basis of many one-dish meals, is combined with canned meats and vegetables and nonfat dry milk.

When the family has just been in port and Mrs. Reynolds has fresh eggs, she bakes a cake. But whether it is during this period of plenty of fresh foods or when the Phoenix has been at sea and is down to dry and canned foods only, Mrs. Reynolds has been voted by family and crew as a cook par excellence.

The recipe for a favorite stew

combines the foods which keep best at sea—canned corned beef, potatoes, onions, spices and instant nonfat dry milk. They call it Seven Seas Stew.

SEVEN SEAS STEW
(Makes 6 to 8 servings)

Ingredients:
1 1/2 quarts boiling water
8 small potatoes, peeled
8 small onions, peeled
2 teaspoons salt
1/2 tsp. celery salt
1/4 tsp. pepper
1/4 tsp. nutmeg
1/2 tsp. bottled brown bouquet sauce
3/4 cup (one envelope) instant fat dry milk powder
3/4 cup flour

2 12-oz. cans corned beef
2 (No. 303) cans sweet peas, drained.

Method:
Combine boiling water, potatoes and onions in saucepan. Stir in seasonings and bottled brown bouquet sauce. Cook until potatoes and onions are tender. Remove from heat. Remove potatoes and onions from saucepan. Sprinkle milk powder and flour over vegetable liquid; beat with rotary beater until smooth. Cook over low heat, stirring constantly, until thickened, about 6 minutes. Blend in corned beef. Add vegetables. Cover. Cook over low heat until thoroughly heated.

Here's A Clever Trick For Summertime Chefs

Your family like plenty of gravy with their fried chicken? Then this recipe is one you may want to try. For not only is there gravy in abundance, but it's special with strips of ham and slices of mushroom added.

The chicken pieces are rolled in flour seasoned with salt, pepper, paprika and monosodium glutamate before being put into the skillet and fried in a small amount of butter or margarine. Then the chicken is removed and kept warm while the gravy is made in the same skillet. This rangtop one-tensil poultry dish is just right for summer cooks.

FRIED CHICKEN WITH HAM AND MUSHROOM GRAVY

Ingredients:
1 broiler-fryer chicken (2 to 2 1/2 pounds ready-to-cook weight)
1/2 cup olive oil
1/4 tsp. salt
1/4 tsp. pepper
1/2 tsp. paprika
1 tsp. monosodium glutamate
4 tps. butter or margarine
1 cup julienne strips cooked ham
1 can (6 ounces) broiled sliced mushrooms
1 can (1 1/4 ounces) clear chicken broth
1/4 cup heavy cream
1/4 tsp. sugar

Method:
Have chicken cut up—2 pieces of breast, 2 wings, 2 drumsticks, 2 second joints, 4 pieces of bony back. Wash chicken and drain well. On a piece of waxed paper mix together the flour, salt, pepper, paprika and monosodium glutamate. Rub flour mixture into chicken pieces. Heat butter in a 12-inch skillet; add chicken pieces and fry rapidly, turning as necessary, until golden brown. Cover skillet tightly and cook until tender over low heat; browning and cooking will take 30 to 40 minutes. Remove chicken and keep warm. Add ham to drippings in skillet; cook and stir for several minutes over low heat. Stir in flour thoroughly. Add mushrooms, including liquid in can and undiluted chicken broth. Cook and stir constantly over low heat with wooden spoon, scraping up particles adhering to bottom of skillet, until thickened and bubbly.

Flavor Combination For Delicious Salad

Asparagus and Parmesan cheese combine in this salad for a delightful summer salad.

ASPARAGUS PARMESAN SALAD

Ingredients:
1 can (about 1 pound) asparagus stalks
1/4 cup olive oil
2 tps. cider vinegar
1/4 cup grated Parmesan cheese
Salt
Pepper
1 drained canned pimiento
Romaine or other salad greens

Method:
Drain asparagus. (Asparagus liquid may be used in a vegetable cream soup.) In a wide flat container beat the olive oil and vinegar together with a fork; stir in grated Parmesan and salt and pepper to taste. Arrange the asparagus stalks in the marinade and chill; arrange on salad greens; sprinkle with diced pimiento. Makes 4 servings.

Many Exciting Ways With Versatile Rice

It's exciting to cook with rice. It can be dressed up or down like the important basic dress of a well-planned wardrobe. The white of the rice looks beautiful in contrast to various garnishes such as green pepper, parsley, olives, yellow egg yolks or red pimientos. The mild flavor of rice complements other food flavors.

Here are variations for fixing rice to serve with a variety of main dishes. All look lovely and taste delicious!

RAINBOW RICE

1 cup uncooked white rice
2 cups water
1/4 tsp. salt
1/4 tsp. black pepper
2 tps. chopped pimientos
1 hard-cooked egg yolk, sieved
2 tps. chopped green olives, chopped parsley, or both

Method:
Put the rice, water, salt and pepper in a 2-quart saucepan. Stir. Bring to a vigorous boil. Turn the heat down low. Cover with a lid and simmer 14 minutes. Remove saucepan from the heat but leave lid on until ready to serve, at least 10 minutes. Spread rice over a large platter. Arrange the pimientos, egg yolk, green olives and parsley in rows over the rice. Serve with butter or margarine or gravy. This recipe makes 6 servings.

PARSLEY ALMOND RICE

Method:
Place 1/2 cup almonds in boiling water to loosen skins. Remove skins. Cut almonds into slivers. Dot with butter and toast at 400 degrees F. 10 minutes or until browned. After the rice cooks and stands away from heat 10 minutes

with lid on, stir in the almonds and 1/2 cup chopped parsley. If desired pour into a wet mold. Immediately unmold on a hot platter. Or press into a well greased mold and keep hot in a pan of hot water until time to serve. Serve with butter or margarine or gravy. This is especially good with fish or chicken. This recipe makes 7 to 8 servings.

Try New Way To Fix Veal Chops

Delightful and different flavor when you cook veal chops this way.

VEAL CHOP FRANCES

Ingredients:
4 loin veal chops (1/2 to 3/4 inch thick)
2 tablespoons flour
1/2 teaspoon salt
1/2 tablespoons butter or margarine
2 tablespoons lemon juice.

Method:
Cut part of fat away from around veal chops. Mix together the flour, salt and ginger on a piece of waxed paper. Dip chops in flour mixture and coat both sides. Heat butter in skillet (about 10 inches) until it hisses; add chops and brown quickly on both sides—this will take about 10 minutes. If any of the flour mixture for dipping is left over, sprinkle it over chops as you turn them. Turn heat very low; sprinkle chops with lemon juice; cover tightly. Cook slowly until tender—about 35 minutes. If heat can not be turned very low, use asbestos pad under skillet. makes 4 servings.

Orange Salad Uses Good Lime Dressing

Ingredients:
4 seedless oranges
Romaine
5 tps. olive oil
Juice of 1 medium-sized lime (2 tps.)
1/4 tsp. salt
1/4 tsp. paprika
1 tsp. honey

Method:
Cut peel from oranges with sharp knife so no white membrane remains; slice into thin rounds. If a whole head of romaine is available, use the inner small yellow leaves and some of the green leaves surrounding this heart; the rest of the romaine can of course be refrigerated and used another time. Arrange romaine and orange slices on 4 individual salad plates. Put olive oil, lime juice, salt, paprika and honey in a small jar with a screwtop; shake thoroughly; spoon over salads. Makes 4 servings.

Two Recipes Combined For Muffins

Combined two favorite recipes for an extra-special hot bread.

ORANGE BLUEBERRY MUFFINS

Ingredients:
Twelve teaspoons honey, 1 seedless orange, 1/4 cups sifted flour, 2 teaspoons double-acting baking powder, 1/2 teaspoon salt, 1-3 cup sugar, 1 egg, 1/2 cup milk, 1/4 cup butter or margarine (melted and cooled), 1/4 cup blueberries.

Method:
This recipe just fills a 12-well muffin pan whose wells each hold about 1-3 cup.
Butter muffin pans generously; put 1 teaspoon honey in the bottom of each well. Cut ends from orange; do not peel; slice 12 very thin rounds from orange.
Arrange an orange slice (cut into quarters) in the bottom of each well over the honey. Sift together the flour, baking powder, salt and sugar. Beat egg with rotary beater (hand or electric) until thick and almost white in color; add milk and beat enough to combine.
Add sifted dry ingredients and melted butter. Stir until flour is moistened but do not try to beat out all lumps. Fold in blueberries.
Spoon batter over orange. Muffin wells will be about 3/4 full. Bake in hot (400 degrees) oven about 25 minutes or until cake tester inserted in center comes out clean.
Serve at once or reheat. Makes 12 medium-sized muffins.

Governor's Brother Slates Lion Hunt

LIBERTY, Tex. (AP)—Bill Daniel, brother of Texas Gov. Price Daniel, and Dale Lee of Tucson, Ariz., well known hunter, will team Saturday to track the mountain lions that have been plaguing residents on the west coast of Vancouver Island in British Columbia.

Word was received here that Daniel, former state representative now in California with his family, will interrupt his vacation to make the hunt.

He and Lee are going to Vancouver Island at the request of Jimmy Dewar, Canadian government hunter who tracked and killed a mountain lion that mauled a 7-year-old boy to death on a beach there earlier this summer.

Dewar urged the Liberty lawyer-rancher to join the hunt after Daniel and Lee succeeded in capturing a large male mountain lion alive in the Huachuca Mountains of Southern Arizona last week.

Daniel and his son Will, 16, along with Lee and George Dryer, a professional hunter, treed the lion after chasing him for 12 hours on horseback through the rimrock canyons of the Chiricahua and Huachuca Mountains.

The party was hunting on the ranch of John Haley, a retired Army major.

Daniel reached the lion first and roped him. Lee then joined in with his rope, and between them

they pulled the lion from the tree and subdued him.

Lee said by phone that it is very rare for lions to be taken alive because they maim themselves and usually have to be shot. He reported that he had not intended to take the lion alive, but joined in after Daniel put a rope on the animal and it became obvious he intended to try and take him that way.

On the chase, the hunters used 25 dogs, throwing in fresh hounds when one was clawed or killed by the lion. All four men were scratched and bruised from the ride.

Lee has hunted at Daniel's Plantation Ranch in Liberty County, Tex., and also joined Daniel in South America last winter for a jaguar hunt.

Daniel is scheduled to meet Lee in Seattle, Wash., Saturday and they will start with Dewar on a weeklong hunt Monday.

Favorable breeding conditions the past few years have given rise to the increased lion population on Vancouver Island, and this year the big cats are so plentiful they can't find enough to eat.

Government hunters are hiring dogs and hunters from other areas in efforts to eradicate the lions.

Daniel will leave his family at Vancouver while he is on the hunt.

6 Checkpoints For Keeping Child Well

With crowded classrooms and rough outdoor play, mothers need a sharp eye and sure hand to keep youngsters healthy.

Here's a head-to-toe checkup chart.

Hair — Cleanliness counts. Frequent brushing and shampoos usually suffice. If glandular changes of adolescence bring on scalp scales or serious dandruff conditions, check a physician.

Ears — Aches and infections of ten start when a child with a cold blows his nose too forcibly, pushing mucus from the nose and throat into the ears. A mild ache may be eased with aspirin and dry heat. If pain continues, early medical treatment with drugs will usually prevent serious infections.

Respiratory tract — The common cold is the outstanding cause of school absences. Proper diet, exercise and rest, adequate ventilation and clothing, are the best preventatives. If the "bug" bites

anyhow, bed rest, aspirin and fruit juices often relieve the discomfort.

Teeth — Correct diet and careful brushing are needed for strong teeth and a normal jaw. Regular visits to a dentist are essential. One survey showed that only 19 school age youngsters out of a group of 2,500 had perfect teeth.

Skin — Adolescent acne is common. Picking and squeezing will make it worse and perhaps cause permanent scars. Treat ordinary acne with warm water and soap, a diet low in sugar and fats and plenty of fresh air. For other simple rashes: Wash, use a powder or soothing ointment.

Feet — For fast-growing feet, ill-fitting and poorly constructed shoes, tight stockings, wrinkled shoe linings, are the main sources of difficulty. Podiatrists suggest shoes provide three-quarters of an inch between the toes of the foot and the toes of the shoe.

Variety Of Careers Now Beckon Youth

"Tinker, tailor, soldier, sailor, doctor, lawyer, Indian chief . . ."

The variety of occupations named in the familiar nursery rhyme is nothing compared with the diversity of careers now open to young men and women.

More than 22,000 different kinds of jobs are available today, according to the United States Employment Service.

Yet choosing the right career is the most important and hardest decision in a young person's life.

Surveys record that more than half the country's wage earners dislike their jobs. A famous psychiatrist says that three out of four of his patients are deeply dissatisfied with their work.

Bernard Haldane, president of Executive Job Counselors of New York and Washington, suggests parents can help their children select the right career. He emphasizes the word "help". Too many parents, Mr. Haldane says, either give their children no assistance at all or pressure them into careers that appeal to the parents rather than to the youngster.

Today's teens live in a dynamic era. Emphasis is placed on their future being filled with ever-greater scientific achievements. This, in turn, encourages a student to plan his career in terms of technical skills.

According to Richard Bromley, curriculum director of Sheboygan, Wisnonsin's public schools, the need for young men and women in scientific fields should not ob-

scure opportunities of other occupations.

Bromley points out that neither top talent nor financial backing is necessary for success in careers allied to the arts.

The boy or girl who loves music can turn to music publishing business, instrument manufacture or sales or piano-tuning.

Home-building offers golden opportunities for men and also for the girl interested in art and design. Commercial artists, fabric and wallpaper designers, illustrators, cartoonists, layout and retouching experts are in great demand.

And remember, the lifeline of all industries and arts is the "go-between," the salesman.

Naked Theft

PITTSBURGH (AP) — Mrs. Lea Sullivan told police she hung the family's clothing to dry in the cellar and left the house for awhile. When she returned the entire wash was gone. She said it'll take \$134 to replace it.

TRUTH OR CONSEQUENCES, N. M.—This town has the most unique name—and in my mind the silliest in the entire country. Once it was called Hot Springs after the hot mineral springs that attracted health seekers from the time of old Geronimo to the present.

Then during a period when business was dull, the city fathers made a deal with Ralph Edwards to bring his Truth or Consequences show to the city. Without letting people vote on it, they changed the name, thinking the cheap publicity would bring new business to the city.

The only business it ever brought was during the two-day periods when Edwards came back to make his broadcast from here. The town could certainly use some business now, but no kind of name-changing would help much.

Not as many arthritic victims come here as they did a few years ago, though I don't know if the change of names caused it or not. However, Truth or Consequences has a rather ominous sound to a sick person. Come here to learn the truth; then pay the consequences.

The main drop in business probably resulted from the lake going dry. Elephant Butte Dam was once the world's biggest, and still ranks among the first five or six. It started drying up about eight years ago, and last summer was not much more than a mud puddle. People had stopped fishing in it almost altogether.

Now the natives are jubilant again. Heavy snows last winter plus some good rains this summer have brought the water back to over 430,000 acre feet. Fishermen are beginning to drift back again and business is enjoying a slight tingling of activity.

Western New Mexico looks much different than it did a year ago. Then it was hot, dry and desolate with the cattle ranchers selling off their entire herds.

Now everything is green. It's been raining all summer, and several heavy showers have come the last two days. At Lordsburg where the rainfall averages only four or five inches a year, a total of over nine inches has already fallen.

One of the best pump irrigated acre I visited is at Deming, N.M. The soil isn't any better and they don't have any more water, but the farmers do a better job. The county production average for 1517-C cotton is two bales and a half per acre, but several of the better farmers have been making three bales per acre.

I spent about two hours driving over the fields with Ray Donaldson, who used to work for the Soil Conservation Service in Big Spring. His brother owns three farms and consistently grows three bales per acre. To do it, though, they must get the fields level, use concrete ditches and put on heavy applications of fertilizer.

There is a total of about 34,000 acres in cultivation near Deming, with another 4,000 acres of newer land down at Columbus on the Mexican border.

A farmer coming to New Mexico has a hard time getting started. He must buy someone out, because the state is strict on allowing any more wells to be drilled. A land owner can drill a new well to replace an old one, but he isn't allowed to pump both.

When a new area is developed, the state engineers map it out, determine the size and origin of the water table, then allow only as

Slot Machine Tax is \$250 Per Unit

Coin-operated pinball machines awarding "free play" which can be redeemed for cash are coin-operated gaming devices, according to the U.S. Supreme Court decision on June 17, 1957 in the case of U.S. vs. Walter Korpan.

Ben Hawkins Administrative Officer in the Big Spring Internal Revenue Service office, stated that in accordance with the U. S. Tax Code, operators of coin-operated pinball machines awarding "free games" redeemable in cash, premiums, merchandise or tokens are subject to the \$250 slot machine tax on each machine operated in the establishment. Application for coin-operated gaming devices tax stamp can be obtained at any Internal Revenue Service office.

A Bible Thought For Today

The pride of thine heart hath deceived thee, thou that dwellest in the clefts of the rock, whose habitation is height; that saith in his heart, Who shall bring me down to the ground? (Obadiah 1:3)

More Stringent Laws In Prospect

In a weekend interview with Rep. Keating (R-N.Y.), televised for circulation in Keating's home district, Senator Irving Ives (R-N.Y.) said the Senate rackets probe may last another year and bring new laws that would place labor unions under the anti-trust act.

Sen. Ives is vice chairman of the committee headed by Sen. McClellan (D-Ark.), now carrying on investigations of improper activities in labor and management, and between union bosses and management bosses.

Some testimony has already been brought out showing that in some cases union leaders and industry management conspired to "unionize" a shop for the mutual benefit of both, while the rank and file workers got what the little boy shot or alleged, but it remained for the McClellan committee to ferret out chapter and verse.

Sen. Ives said these investigations of all phases of labor-management relations will carry on through next year, and may well last five more years.

"The sky is the limit almost," he said. "We are getting complaints from all over the United States. Management has been

found to be just as guilty as labor in some instances. I am wondering if we aren't going to have to have some kind of legislation to put labor organizations under the anti-trust laws."

Classed as a liberal himself, Ives said he might support such legislation if something of a fair nature can be evolved.

In the case of both labor and management, the majority are open and above-board. Responsible leaders have sought to eliminate racketeers, but so far with no resounding success. Unless a way is found to treat with the racketeers promptly and decisively, and eliminate them from the labor-management picture entirely, the chief victims of their rapacity, the rank and file of working people, will become helpless pawns.

Ninety per cent of the skulduggery would be eliminated if the rank and file enjoyed their democratic right of saying no or saying yea, as is the case of well-managed unions. As it is, they are too often completely helpless to rid themselves of irresponsible or racketeering leaders.

It may take some good stiff federal and state legislation to insure them the full enjoyment of their rights as free American working people.

Can't Let Up On The Research Oars

In no field of human endeavor is research more vital than in the field of medicine. In general the health of the American people in particular has taken long strides forward thanks to many marvelous discoveries in medicine and in surgical techniques.

But at no time can the researchers relax their energies or vigilance.

A dispatch from Sydney, Australia, Monday reported an outbreak of staphylococcal pneumonia accompanying a wave of influenza that is sweeping the eastern states of the Commonwealth. In New South Wales alone there have been 21 deaths from that cause in ten weeks.

Now in this country and in most highly civilized areas pneumonia has come to be regarded as much less the killer it once was, and justly so. Modern drugs seemed to work miracles. Presumably Australia has all these drugs in good supply, yet the bugs must have found a fence down somewhere, or an unnoticed back trail, that current drugs could not reach. (In the U. S. various insects developed immunity to or a tolerance of many kinds of magic poisons.)

So, the struggle to alter or improve immunizing drugs goes on incessantly. American science quickly developed a new

serum to combat Asiatic flu, but its merits have yet to be given the full test. If Asiatic flu is conquered, will some other strain of flu bug come along to start the battle for immunization all over again?

Private enterprise and public charity have financed the long fight against crippling diseases and viruses. The federal and state governments have been chary of putting up any great amount of money for research. Obviously it is a necessary work which our civilization can expect to be burdened with for as long as there is life on this planet.

The age-old battle between science and the infirmities of humankind has in recent decades tilted in the direction of science. But it is a task that is never done, and the problem becomes more complicated as world population increases by leaps and bounds.

A good philosophical question would be: can mankind forever keep ahead of the struggle for existence, or will a point be reached where world population can no longer out-run the mortal agencies that would destroy it?

Biologists speak of a periodic "die off" among wild animal species, to redress the balance of nature. Man is the only animal smart enough to interfere with the dispensations of nature. How long can he keep it up successfully?

David Lawrence

More Proof Of The Soviet Spy System

WASHINGTON.—The arrest of a high officer of the Soviet secret police who has been gathering and transmitting secret defense data from this country to the Communists, and the revelations of an American businessman who has for 12 years been an undercover agent of the FBI, participating in Communist espionage operations in America from the inside, opened up the eyes of many well-intentioned but incredibly naive Americans who have been pool-pooching the Communist menace.

Boris Morros—a counter-spy for the FBI—issued a few days ago, with the permission of the U. S. attorney in New York, the most significant statement about Communist activity in this country that has yet come to light. He said:

"I know from personal information and experience that Soviet espionage has made considerable infiltration in this country. Many of the agents working for Russia are important people, financially independent and often held in high esteem. Many of the Soviet's most active workers in this country don't come from the rank and file, nor the under-privileged. They are people who have the kind of contacts which will be useful to the Soviets, and they are being paid to do their jobs of treason in the United States."

Those Supreme Court justices who live in a vacuum might well ponder what this undercover man now tells. Likewise, those so-called "liberals" who have been unwittingly lending their prestige to a kind of blanket protection of Communists and sympathizers—as being merely victims of some kind of "oppression" or "political" belief—might prepare for a sad disillusionment as they read what Boris Morros has learned about the work of Soviet spies in America.

For no Communist spy calls directly on a newspaper editor or on a member of Congress or on a political leader to ex-

ercise influence. Somewhere in between the espionage apparatus and the official or institution sought to be reached is a "contact"—with no foreign accent or identification—who attempts to use Americans as tools of Moscow. This is the most baffling kind of screen that faces the detective arm of the government, the FBI. Sometimes there is another type of "contact" who himself is unaware that anything has been "planted" on him. Also there may be other intermediaries beyond him who help to relay a suggested course of action which ultimately would be favorable to the Communist cause, particularly in the field of propaganda.

Then there is the "cover" technique by which, according to Mr. Morros, 55 business firms in the United States were "covered" for Soviet espionage. Mr. Morros told the House Committee on Un-American Activities how the Communists had proposed to expand his own small recording company in Hollywood.

"This firm," said Mr. Morros, "was to serve as an espionage cover and provide an opportunity to legitimize Soviet agents as representatives of the firm."

Yet a majority of the Supreme Court say they don't know what an "un-American activity" is and why the committee wants to expose "un-American activities."

"I want to emphasize," says Mr. Morros, "that the Russian plot is far more strongly organized in this country and throughout the world than is generally understood by our people...."

"Another Russian agent, a prominent American woman... not only said the same thing (suspicion about Morros) but she reported her suspicions to the second secretary of the Russian embassy in Washington. I had a number of close shaves but none closer than when this woman's report on me was received in Moscow while I was there, 'confering' with the heads of the Russian secret police."

Yet there are many persons who want to throw monkey wrenches into the machinery of exposure which congressional committees have been using effectively. Also, there is a concerted effort to assist in the evasive tactics of witnesses who could, if they chose, give important information that would tell the FBI and the public about spies and their "contacts" with Americans.

Unfortunately, the Supreme Court—by ruling that the First Amendment as well as the Fifth Amendment now can be invoked to help conceal treason—has thwarted the efforts of the government to obtain much data necessary to protect the security of the United States.

Maybe the testimony by Boris Morros will open the eyes of the American people to the barriers and obstacles being placed in the path of investigative agencies by well-meaning but misguided and ill-informed persons in what amounts to a protection of the espionage being conducted by the Soviets inside America.

He Just Finished Mending Fences

James Marlow

The Waltz Of The House Leaders

WASHINGTON (AP)—The two party leaders in the House, both in their 70s, have acted more like a couple of old-timers having a waltz by themselves than legislators seriously seeking a compromise on the civil rights bill.

For days Speaker Sam Rayburn of Texas, 75 and boss of the House Democrats, and Rep. Joseph Martin of Massachusetts, 73 and captain of the House Republicans, have been saying of each other to newsmen but not to each other:

"He can come to me if he wants to work out a compromise."

Neither went to the other. This is the first time in the memory of newsmen covering Congress that Rayburn, with 44 years in the House, and Martin, with 33 years there, have not been speaking to each other on a piece of major legislation.

Each has sat tight, waiting for the other to make a move to break through the wall that has grown up between the two parties in the House on the civil rights bill.

Democrats and Republicans are anxious for as much credit as

possible—both have their eye on the Northern Negro vote—if a civil rights bill is passed this year.

And if it isn't passed, the party which could plausibly blame the other would have a handy issue in the 1958 congressional elections.

The bill—until yesterday—had been in a kind of coma since the Senate passed it 15 days ago and sent it back to the House for agreement or compromise. The House previously had passed a different version of the civil rights bill.

House Democrats had been willing to make a compromise. But Republicans said the Democrats didn't go far enough. They didn't even tell this to each other. They told it to newsmen.

Under present procedure in federal courts a man can be tried for contempt and jailed by a judge, without a jury trial. The House bill would let it stay that way, so there would be no jury trial for criminal contempt even in voting rights cases.

But the Senate said: For criminal contempt there must be a jury trial not only in voting rights cases but for any kind of criminal contempt in any kind of case coming before a federal judge.

Republicans, from President Eisenhower on down, objected to the Senate's bill. They argued the bill was intended to protect voting rights but that a jury trial in contempt cases weakened a judge's power to enforce his orders.

But worse than that, they said, applying a jury trial to every kind of criminal contempt would weaken the whole federal court system.

House democrats suggested the House and Senate work out a compromise by limiting jury trials on criminal contempt charges to voting rights cases.

Hal Boyle

Growing Curse Of Civilization

NEW YORK (AP)—If Daniel Boone were born again tomorrow, he'd die of claustrophobia before he even became a teen-ager.

He couldn't survive the eternal sameness of life that is a growing curse in a civilization becoming even more crowded.

His own words are a warning. "I was told the other day by a psychiatrist who now makes his patients lie down on his couch in pairs and tell their troubles together. The doctor allots one of his ears to each patient.

The individual man is getting lost ever more deeply in the mass of mankind. The new fetid words are teamwork and togetherness.

Nobody ever does anything by himself any more. Legend has it that Sir Isaac Newton discovered the law of gravity when a falling apple conked his noggin.

If the same thing happened today, Sir Isaac would have to issue a public statement saying: "Gentlemen, this was a team job in every way. Without the whole-hearted and heart-warming support of my silent colleague, watching the apple tree, this great achievement would have been impossible. No man could have done it alone."

Modern man's crying need is for some form of self-expression, some way to prove his own individuality, the thing that sets him apart from rock, stone, tree and—yes, even all his other fellow men.

He needs, in other words, to be different so that his treadmill days will know the spice of variety.

Here are a few tips on how a

poor worm can turn, if he dares to be different:

If your wife tells you to help with dishes, tell her flatly, "No, I'm tired of doing the dishes with you." After a little surprised argument, she will give in. Then you can go into the kitchen and do the dishes all by yourself.

Does the waiter habitually keep you waiting for half an hour before asking your order? Remember, you don't have to take this kind of treatment sitting down. Bawl him out. Then stand up and wait.

Are you bored with getting the same dunning letters from a loan company? Why not borrow from another firm? Then you can get the same old dunning letters over a different signature.

Change your daily habits. If you've been smoking a cigarette with only 20,000 tiny filters, switch to a brand with 20,001 tiny filters.

Pep up your hobbies. If you've devoted some of the best years of your leisure to watching rose-breasted grosbeaks, try watching a new bird, such as the downy-throated dowager. Better yet, forget birds and turn to animals.

Study poolroom sharks.

Naturally, the question arises, how about women? Is there no way to make women more different?

Yes, there is—but they probably won't do it.

The best way for modern women to become more different, all experts agree, is for them to become less indifferent.

That'll be the day.

MR. BREGER

Aw, gee! Another blank memo from the boss... guess he's still not on speaking terms with me...

Around The Rim

No Time For Sleeping

"Early to bed and early to rise, makes a man healthy, wealthy and wise" is the old saying Mother used to get her brood off to sleepytime land at a decent hour most every night.

And she didn't have much trouble getting us off to bed. Down on the farm, we just naturally hit the hay early. Daddy saw to it that we got up early. I suppose we're healthy, but definitely not wealthy or wise.

That's not the point, though. What's bothering me now is why we can't get into the sack at a respectable hour anymore.

We can't figure out which is the hardest—going to bed or getting up. As a result, we postpone each daily operation to the very latest hour.

Like a bunch of teen-agers, we're too reluctant to let this day drift into the past, and too hesitant to greet the new one in the morning. I think we're all mixed up.

Used to be, back on the farm, that we were all in bed by 9 p.m.—usually a little earlier. Ten or 12 hours in the fields and doing the chores put a fellow in the mood for a little rest. Knowledge that we'd be up before daybreak the next morn-

ing was further incentive to early retirement.

That's all been changed, though. Nowadays, I don't have to be at work until 8 a.m., and we can sleep pretty near that late. Get off a little earlier in the afternoon, too, so there's always time to start some little project around the house in the evening.

By the time we've finished this, eat supper, play with the kid a little bit, and read the paper, it's growing late. But by then, we've got either a conversation or an argument going, and first thing we know it's approaching midnight.

Drowsily, the next morning, we take the daily pledge—to "try to get to sleep a little earlier tonight."

I thought that during vacation I'd surely get at least one good night's sleep, not having to get up at any special time in the morning. But you know what? My eyes popped wide-awake at 6:30 a.m. every day that I was off.

We're turning over a new leaf, though. It's like Dorothy said this morning: "We've got to try to get to sleep a little earlier tonight."

—WAYLAND YATES

Inez Robb

Behave Yourself When You Go Abroad

The President of the United States has just asked me, for goodness' sake, to behave like a lady. And I pledge him my solemn word right now that I shall do my darndest, not only because I think I ought to behave thus, but because he is the first President who ever cared.

In the sweet long ago, Mama, Papa, Grandma, and assorted aunts and uncles were wont to exhort me in the same vein. "Be a lady," was the constant threat in my salad days. "Be kind; wear clean gloves; do good; say your prayers; stand when your elders come into the room; NEVER LIE; don't slam doors, speak softly; always polish your shoes; be helpful to others; pull your stomach in; keep your shoulders back; look people in the eye; be neat; vote the straight Democratic ticket and be a credit to your family; eat everything on your plate; never stare at anyone; be tolerant; don't gossip; keep your room clean; remember, a lady is a woman who can bathe every day and not talk about it; sit straight, BE A LADY!"

And so it went. The seed was certainly planted. Who am I to say it fell on fertile ground?

And now Mr. Eisenhower is after me, hopeful that I will be a lady, mind my manners and give no offense to others when I travel beyond the continental limits of the United States. He asks me to be a credit to Uncle Sam and to make friends and influence allies, actual or potential, when I go abroad. But, basically, what he is entreating me to be is a lady, and I find the request reasonable.

A letter from the President on White House stationery, even when the whole thing including the signature is mimeographed, is an impressive document. It's a routine letter now, sent out with all U. S. passports.

My letter came yesterday with my pass-

port, which Uncle Sam has kindly renewed for another four years at a cost of \$5. In these inflated times, this is the best \$5 investment of which I know. For 20 years one of my most cherished possessions has been a passport testifying to all whom it may concern that I am a citizen of the United States of America.

In return for the passport, I think Uncle Sam and the President have the right to expect me to behave myself out of deference to my country, if not myself. Both have the right to remind me that when I travel in other lands, I am an unofficial American ambassador and should act accordingly.

It is well for the President to remind American citizens that the right or the privilege of possessing a passport carries with it the responsibility, in turn, of representing the United States in the best light.

In 20 years of constant travel, it is my observation that the vast majority of American tourists discharge that responsibility honorably and with credit to their nation and themselves. It is high time that someone spoke a good word for the American tourist, and here it is. It is my experience that he behaves himself with as much dignity and circumspection, understanding and grace as the traveler from any other nation.

Why the American tourist has such a dingy reputation is something I have never been able to understand. One thing is certain: He can't possibly be as bad as he's painted. No one could be that gauche. His money is the welcomed backbone of many a European economy.

In the meantime, President Eisenhower's reminder of the tourist's responsibility is all to the good. A word to the wise is never amiss. And when I go abroad in the future, I'm going to be a lady if it kills me.

Walter Lippmann

Rebellion In Congress On Foreign Aid

The cuts made by the House in the appropriations for foreign aid are big. But their true significance cannot be measured in terms of money. For what the House has done is not merely to insist on spending less money, it has rejected the fundamental conception of the junction of foreign aid in our current foreign policy, and it has voted its lack of confidence in the President's judgment of what is necessary for national security. Unless the action of the House is clearly reversed, the world will be on notice that the policy of maintaining our alliances by subsidizing them no longer has reliable public support.

The debates in Congress show that there is a preponderant opinion which wants, not merely to reduce foreign aid but, to bring it to an end. Last week, for example, Rep. Neal put it this way: "I would support any program that would assure gradual withdrawal of expenditure for foreign aid, but I am unwilling to approve plans to perpetuate the present program."

Mr. Neal, who reflected the majority opinion, had seen, quite correctly, that this year's proposals were designed to establish foreign aid as a continuing activity of the government. Military aid was to be put under the Department of Defense. Economic aid was to take the form of a banking operation which, it was hoped, would not need to be examined and voted upon by Congress each year.

The House would have none of this, at bottom because, as Mr. Neal said, it wants to wind up and not to perpetuate the basic policy.

As a rough measure of the size of the cut by the House, we can say that it is about equal to last year's total military and economic aid to South Korea and Formosa combined. That does not mean, of course, that there will now be no money for South Korea and Formosa. But it does mean that in order to subsidize them at something like the level to which their civil and military officials have become accustomed, money will have to be squeezed out of our contributions to the NATO alliance, to Iran, Pakistan, and South Vietnam, and to others among the fifty odd nations.

This will, asserts the President, seriously delay the modernization of their military forces. It will compel them to reduce the size and effectiveness of their forces. It will "make impossible" important capital assistance through loans for development. In substance what the House has said is this argument: It is that it is probably not a vital interest of the United States that our military allies should have modernized forces that are larger than they themselves can afford to pay for—and that even if it is a vital interest of the United States, they are not willing to accept the President's judg-

ment of how much money is needed.

After all, how "modern" would be a "modernized" force in South Korea or in Iran? What is the "size" of the forces that would be "effective" in each of the free nations bordering on the Communist powers? Nobody can answer these questions with any assurance, certainly not the President himself who has made two sharply different estimates of the money needed.

In view of the state of mind in Congress and in the country, the President would be very badly advised if, in the casual manner of last week's impromptu press conference, he called a special session of Congress. The chances are now very great that he would be inviting an even more resounding defeat than he has already suffered. For a special session, called without his having first recovered his leadership of the nation, would be asking for a show-down on whether his foreign policy is still the national policy. If he were rebuffed by Congress, the policy of our alliances would be gravely injured.

No doubt it is our duty to hope for the best, in this case to hope that the President will learn from his bitter experiences during this session of Congress. But he will have to do more than read speeches and statements that are written for him, and to plead at the last moment with the leaders of Congress.

He must learn to believe in his own recommendations to Congress—which means, to recommend to Congress only that which he himself understands and believes in. The collapse of his leadership in this Congress stems from his failure to take sufficient trouble to understand and then to defend his own great measures: the budget, civil rights, and foreign aid.

No doubt the country is big and strong, and we shall somehow muddle through. But there is no use trying to pretend that the indecision and the vacillation, the ambiguities and the moral generalities, are an inspiring spectacle for the world to watch.

Uncle Ray: Human Head Ranks As World Wonder

By RAMON COFFMAN
Many years ago a circus started the use of certain words to describe itself: THE GREATEST SHOW ON EARTH!

If I were asked to name the greatest "show" on earth, I might speak of Yellowstone Park or Victoria Falls. These represent mighty workings of nature, and

The human head represents perhaps the greatest wonder on earth.

surely rank among the wonders of our planet.

Closer to each of us, however, is a wonder which ranks higher than any waterfall, cave or group of geysers. I am thinking of the human head. No beast of the past or present has had such a head, or such a brain inside the head.

Thanks to the brain, we know what our eyes see, what our nose smells, what our tongue tastes,

what our fingers feel, what our ears hear.

Our senses give us impressions, and these may be either sharp or dull. We need our senses, especially sight and hearing, while we are avoiding dangers on a street or highway.

The brain, however, would mean much less if it served only to observe the present. It means a million times more because we are gifted with memory. We may remember a play which we saw last week, last month or last year.

Instead of having a single place for memory, the brain has several centers for this important part of our lives. When we learn something well, the memory is stored for years to come.

Older men and women may pay little attention to current happenings, and may forget something which happened only a few days ago. That, however, fails to justify their relatives in saying that the older members of their family are "losing" their memories.

A man or woman 75 years of age may have a keener memory of events 15 or 20 years ago than a 40-year-old relative.

Let everyone be very careful of the words they utter in regard to the memories of members of the older generation.

Gets Results

NEWARK, N.J. (AP)—Mrs. Elsa Schenkel, a city tax clerk, dropped her pencil and got fast action from 10 males. The 30, all policemen, showed up when Mrs. Schenkel, in picking up the pencil, accidentally triggered the holdup alarm.

Girard Judge Determined GI Will Get Fast, Fair Trial

By FRED SAITO
MAEBASHI, Japan (AP)—A tall, gaunt man of 50 stalks like a pensive stork through the streets of this quiet rural city nightly, a shopping bag swinging from one arm.

Neighbors and passers-by how low as he passes. He returns their salutes but does not stop to chat.

In the tiny four-room house where he lives alone he prepares his evening meal as a handsome German shepherd dog watches from beneath a chair.

The man is Dist. Judge Yuzo Kawachi, who will preside at the trial of Specialist S.C. William S. Girard, accused of fatally shoot-

ing a Japanese woman on a U.S. military firing range last Jan. 30. The trial opens here Monday.

In 21 years on the bench, Judge Kawachi has become known as a stern man who follows the dictates of his conscience and who does not yield to pressure. He won a measure of fame by refusing to bow to Japanese army pressure while serving as a civilian army judge in Indonesia during World War II.

"Don't think I am a misanthrope or a stoic after seeing how I live here," Kawachi said with a smile during an interview.

"Every weekend I go to my Tokyo house and rejoin my wife and three children," he said. "They have to live in Tokyo because of the children's schooling. This way of life is as painful to me as to anyone—particularly a judge who must live with dignity, at a low salary."

His base pay is \$2,240 a year, supplemented by a living allowance.

Kawachi has been district judge in this rural city some 80 miles north of Tokyo since 1947. He enjoys a high reputation in this province.

Last July 19, 1957, he sentenced to three years in prison a Japanese charged with "bodily injury resulting in death" of a man—technically the same charge as that faced by Girard.

"Human life is precious," the judge told that man.

Unless there were full extenuating reasons.

"I have not found out all the facts of the case. I plan to go out to the scene in the firing range Sept. 6 and 7 to carry out an on-the-spot survey. But do you think the U.S. Army orders its men to shoot and kill a woman without challenge?"

Japanese police in this city have quoted Japanese witnesses as saying Girard "enticed and induced" Mrs. Naka Sakai, 46-year-old shell picker, before he shot her to death with an empty cartridge fired from his rifle grenade launcher.

19 LHS Graduates Now Teach In Lamesa Schools

LAMESA—When the Lamesa Schools open their doors Sept. 9, more than 15 per cent of the faculty members will be men and women who in previous years were graduated from Lamesa High School.

Three members of one family are on the faculty. They are Mr. and Mrs. Ralph Ranson and their son, Lynn.

Mr. and Mrs. Ranson, who received their high school diplomas with the classes of 1927 and 1929, respectively, hold college degrees from Texas Tech. Their teaching careers began in the early '30s and Ranson served as superintendent at Post before moving back to Lamesa to join the local school system in 1950. He is now elementary school supervisor.

Mrs. Ranson is a language arts teacher at the junior high school.

Lynn joined the faculty as a coach and teacher at the junior high upon receiving his degree from Eastern New Mexico University in 1955. He graduated from Lamesa High in 1947.

Also among the 19 teachers whose high school diplomas were presented at Lamesa are Mr. and Mrs. C. Raymond Jones, graduates of 1934 and 1936. Most recent of the local high school graduates to assume a teaching role in Lamesa is Merlene Patterson, class of 1954. She received her bachelor's degree this summer at North Texas State College.

Other graduates from Lamesa High are Linda Kay Barton, Victor Bearden, Mrs. Pearl, Mrs. Aubrey Davis, Mrs. Carroll Futrell, Earlene Hatchett, Mrs. Flora Herndon, Mrs. J. W. Holman Jr., Mrs. Edward Lauderdale, Mrs. Verlon McDaniel, Mrs. Jackie Subt, Mrs. Mollie Sue Williams and De Lois Butler, a graduate of Blackshear School who received her bachelor's degree at Prairie View and joined the faculty in 1956.

JUDGE KAWACHI

MEN IN SERVICE

Jackie Milam, son of Mrs. C. E. Pearce, 1602 Sunset, has been honored as outstanding airman of the headquarters squadron section, 812th Air Base Group, 47th Air Division, Walker Air Force Base, Roswell, N. M.

Young Milam was cited for his outstanding performance of duties in the records branch—the fact that he was honor student in Class 57-B of the NCO Preparatory School and a leader in the base drill team.

The period covered was the first six months of this year.

He has been in the Air Force for three years, having enlisted shortly after graduation from high school here in 1954. He served two years at Lackland AFB and has been stationed at Walker AFB for the past year. He is an airman first class.

Liar Of The Year?

KISUJSZALLAS, Hungary (AP)—Premier Janos Kadar, whose regime has put thousands of Hungarians in prison, declared today the country's workers and peasants are complaining his government is not cruel enough.

FOR ATHLETE'S FOOT USE T-4-L BECAUSE—It sloughs off infected skin. Exposes more germs to its killing action. IN ONE HOUR, If not pleased, year the back at any drug store. Use STRONG, instant-drying T-4-L day or night. New at Cuningham & Phillips.

Japanese Drop Prosecution Plans

MITO, Japan (AP)—The Mito district procurator's office announced today it has dropped plans to file charges against an American pilot whose plane struck and killed a Japanese woman Aug. 2.

The announcement said a thorough investigation had determined that 1st Lt. John L. Gordon of Erie, Pa., was performing "official duty" at the time and was not stunting, as some accounts had charged.

U.S. Air Force spokesmen said no decision had been made yet on whether Gordon might face charges in a military court, but earlier Air Force announcements said the woman's death was accidental.

Gordon's L20 liaison plane struck and killed Mrs. Jaru Hojo, 63, during takeoff from the Mito gunnery range, 65 miles north of Tokyo. Mrs. Hojo was riding a bicycle.

Medical Arts Clinic-Hospital Vocational School of Nursing Announces Opening of Fall Class Beginning September 2, 1957 Applications Now Being Accepted

710 Gregg St. Big Spring, Tex.

BE READY WITH YOUR OWN MONOGRAM ON THIS ROBE

Washable flannel of wool and nylon that is lightweight and comfortable. The free monogram buttons on the pocket, and you have a choice of 4 designs in the color of your choice on robes in red, copen or navy 10-18. 17.95
