How Satellite Orbits Would Differ

This diagram shows how the north-to-south orbit of the Russian-launched earth satellite differs from the west-to-east orbit planned for the satellites to be launched by the United States. The Russian announcement said the man-made moon, 23 inches in diameter and weighing 185 pounds, is circling the earth 560 miles out in space at the rate of one trip every hour and 35 minutes. (AP Wirephoto Map.)

Red Satellite Orbits A Wondering World

WASHINGTON, Oct. 5 (AP)—Russia's epoch-making earth satellite sped 'round and 'round a fascinating world today, sending what may be messages in secret code back to its creators in the Soviet Union.

As it circled the globe every 96.2 minutes, 560 miles out in space, the Western World's scientists knew it was there because they could pick up its radio signals.

But they experienced great difficulty in spotting it visually. Although there were some scattered reports that it had been seen, these were disputed, and there was some feeling that it might never be spotted except by Russians.

OVER U.S.

The satellite's course around the globe from north to south brings it over the United States seven times every 24 hours as the earth spins beneath it.

Two American scientists said the Soviet-launched sphere was sending back coded messages that they were unable to decipher.

A Cambridge, Mass. astronomer said it was obvious the Russians had chosen to launch the satellite at such an angle to the sun as to prevent visual observations in the free world.

There were a number of reports of sightings from different parts of the United States but officials at the Smithsonian Astrophysical Observatory in Cambridge said the baby moon is not yet visible to observers in this country.

SIGHTED BY JAP

A Japanese scientist said he saw the satellite by telescope as it passed over Niigata, 160 miles north northwest of Tokyo. He said it was "barely visible" though much brighter than he had expected.

Cambridge scientists said the satellite can be seen only in the north and south polar regions at present because of its relation to the earth and sun. They said it might become visible in other parts of the world if it changes direction in two or three weeks.

How long it will continue to whirl through the heavens in its north-south orbit was a subject of the greatest speculation. Estimates ranged from a few days to a million years.

The White House described the Russian accomplishment as "of great scientific interest" and said it should contribute much to the scientific knowledge that all countries are seeking during the International Geophysical Year.

Reviewing The Big Spring Week

With Joe Pickle

The world series isn't the only big event getting under way during the week. Our United Fund did right well on its initial report, thanks to some good spade work by the advance division. The \$18,000 in hand was about 20 percent of the total goal, and the machinery in general is just beginning to turn. If workers will make contacts promptly and donors will give with equal dispatch, the campaign can be cleaned up before the end of the month.

After listening and watching—exhibitions such as that on Saturday, one wonders if Ring Lardner wouldn't retract his whimsical reference to the classic as the "world serious." It hardly seems worth all the company time spent in getting up pools and fading in the general direction of a radio.

Friday was black Friday indeed for two families who lost members in farm equipment accidents. H. L. Williams, 33, of Knott struck his head in a fall from a combine and Deborah Sturgess, 4, of La-mesa suffocated when a tractor wheel forced her face into the sand.

Our FFA and 4-H Club members are still doing a splendid job with their pig feeding. On the whole they had an excellent class of animals for the annual show here last week when Zena Kay (See THE WEEK, Pg. 8-A, Col. 3)

Russians Get Full Report On Satellite's Progress

MOSCOW, Oct. 5 (AP)—The Soviet Union gave Russians an almost continuous timetable of the first earth satellite today as the tiny Russian-conceived sphere hurtled around the globe with unprecedented speed.

The magnitude of the Soviet achievement grew here with appreciation of the feat of Soviet scientists. Russians began to congratulate themselves as the radio announcer reeled off the names of world cities over which the satellite had passed and a Soviet rocket expert told the world that passenger travel to the moon was just another long step away.

Moscow radio broadcast calmly gave the timetable of the satellite which is circling the globe, invisible to the unaided human eye, at the highest speed—about 18,000 miles per hour—ever attained by any man-made object, once every 96.2 minutes.

The geophysical year, in reality an 18-month period which started last July 1 and will continue through 1958, is a common effort by scientists of both Eastern and Western worlds to learn more about the earth and what lies beyond it.

The United States plans to launch satellites of its own sometime during the observance, probably next spring. Information from both Russian and U.S. satellites will be shared by all, according to advance plans.

PROGRAM NOT AFFECTED

White House press secretary James C. Hagerty said the Russian achievement would not affect this country's satellite program in any way. Asked if there had been any advance information on the Soviet launching, Hagerty replied all he could say was that it did not come as a surprise.

Moscow radio reported the satellite was launched into its orbit yesterday. It was described as 23 inches in diameter and weighing 185 pounds, eight times the weight of planned U.S. satellites.

The Russian announcement gave the vehicle's speed as 18,000 m.p.h. but did not specify the launching site. U.S. experts figured the site was north of the Caspian Sea.

Dr. Homer Newell of the U.S. Satellite Project said the announced weight of the Russian vehicle indicates the Soviets must have the intercontinental ballistic missile which they say they have test fired.

Reports that the satellite was (See SATELLITE, Pg. 8-A, Col. 3)

Dulles Confers With Gromyko On Differences

WASHINGTON, Oct. 5 (AP)—Secretary of State Dulles and Soviet Foreign Minister Andrei Gromyko announced after a long conference today that they had held "helpful" talks on major East-West issues including the Middle East and disarmament.

Dulles, it was further reported, brought up to Gromyko what he called the need for reunification of Germany but the Russian minister declined to talk about that problem on the ground that it was not a proper subject for him to discuss.

FOUR TOPICS

A communique jointly agreed on by Dulles and Gromyko at their unprecedented 3-hour, 45-minute conference in the study of Dulles' home said that four major topics were discussed. They were listed as the Middle East, disarmament, the situation in Europe, and U.S.-Soviet contacts.

Gromyko on emerging from Dulles' house and after a friendly farewell handshake from the secretary of state said that he thought the conversation "was useful" in clarifying the relative positions of the Washington and Moscow governments on the problems discussed.

Gromyko, who had arrived in Washington in early afternoon, drove up to Dulles' home in an exclusive Washington residential area at 4:02 p.m.

He was accompanied into the conference by Soviet Ambassador Georgi Zarubin and Oleg Troyanovski, an interpreter. Gromyko speaks English, having once served as ambassador here for several years, but apparently prefers to conduct official discussions through an interpreter.

State Department officials said Dulles' aides in the meeting were Burke Elbrick, assistant secretary of state for European affairs, and Edward L. Freers, director of the Office of Eastern European Affairs.

It was Gromyko's first trip to Washington in almost 10 years.

It was warm all over Texas Saturday and the weather bureau said it was likely to stay that way through the weekend.

A cold front that had been expected to lower temperatures in the state bogged down across Colorado, Kansas and Arizona and will have little effect on Texas unless it builds up some steam.

Cold Front Won't Make It To Texas

By The Associated Press

It was warm all over Texas Saturday and the weather bureau said it was likely to stay that way through the weekend.

Bell County Votes To Remain 'Wet'

TEMPLE, Tex., Oct. 5 (AP)—Bell County stayed wet today in a county-wide local option election.

With only 300 votes out, the totals showed 6,256 for the continued legal sale of beer to 4,725 against.

Killed In Mishap

WESLACO, Tex., Oct. 5 (AP)—C.V. Griffin, 79, a farmer, was killed today when he was struck by a pickup while walking along a country road northeast of here.

Dallas Community Chest Chief To Speak At United Fund Rally

An internationally-known leader of organizations dedicated to public health and welfare, Fred M. Lange of Dallas, will speak here Tuesday as a feature of Howard County's 1957 United Fund campaign.

Lange, now executive vice president of the Dallas Community Chest Trust Fund, will speak at a joint meeting of service clubs and other United Fund workers, at noon Tuesday in the Settles ballroom. K. H. McGibbon, general chairman for the United Fund drive here, is urging everyone connected with the campaign to attend the rally. Service club leaders also are inviting the public to hear the address.

The Dallas Times-Herald, in one of a series of articles on Dallasites who have attained success in their chosen fields, had this to say about Lange:

"Businessmen say Fred Lange could have built himself a financial empire.

"Politicians say he could have been elected governor or perhaps U.S. Senator.

"Instead, he has built Dallas' reputation as a socially progressive center keyed to a spirit of brotherly love—his work touching the lives of more people, rich and poor, young and old, than possibly anyone else in the city's history."

Lange, once owner of a large tea and coffee business in Florida,

Cage Indicted On Bribery Charges

Ex-Officials Draw Perjury Bills

AUSTIN, Oct. 5 (AP)—Ben Jack Cage, promoter of the now-defunct ICT Insurance Co., was indicted today on charges that he bribed two former state insurance commission chairmen to get preferential treatment for ICT.

The chairmen, J. Byron Saunders and Garland A. Smith, along with Smith's son-in-law, Max Wayne Rychlik, were indicted on perjury charges.

Conviction on bribery charges carries a 2 to 5 year prison sentence while perjury is punishable by 2 to 10 years.

Dist. Atty. Les Procter hinted that Cage's two indictments had accepted, effective immediately, the resignation of Saunders as vice president and general counsel.

Saunders, who had held the positions with Republic National Life since leaving the Insurance Commission, was named in two indictments alleging perjury. One four-count indictment concerned alleged false statements made to the House Committee about a \$7,000 oil lease transaction with Cage. The second indictment, of two counts, concerns statements about \$900 in legal work Saunders said he did for Cage's firms.

Smith, who said recently his sole support was a Caldwell County farm bought under the state veterans land program, was accused on two counts of false testimony in one indictment. One county challenged statements he made to the House committee about \$700 monthly payments received by his son-in-law from Cage interests. The other count concerned testimony in which he said such payments did not affect his official acts concerning the ICT.

Cage was indicted by the Dallas County grand jury in the spring on charges he embezzled \$600,000 from ICT stockholders. Trial has been set for Oct. 21.

"Your work has been history making," Dist. Judge J. Harris Gardner told the grand jury which returned the six indictments to end a six-months investigation of the ICT. Previously Senate and House committees conducted lengthy probes.

After the indictments were announced the Republic National Life Insurance Co. in Dallas announced that the executive committee of its board of directors had accepted, effective immediately, the resignation of Saunders as vice president and general counsel.

Saunders, who had held the positions with Republic National Life since leaving the Insurance Commission, was named in two indictments alleging perjury. One four-count indictment concerned alleged false statements made to the House Committee about a \$7,000 oil lease transaction with Cage. The second indictment, of two counts, concerns statements about \$900 in legal work Saunders said he did for Cage's firms.

Smith, who said recently his sole support was a Caldwell County farm bought under the state veterans land program, was accused on two counts of false testimony in one indictment. One county challenged statements he made to the House committee about \$700 monthly payments received by his son-in-law from Cage interests. The other count concerned testimony in which he said such payments did not affect his official acts concerning the ICT.

Cage's bribery indictments alleged that he sought preferential treatment for ICT through the oil lease deal with Saunders and the payments to Smith's son-in-law.

Rychlik was named in one indictment of four counts—all concerning \$18,000 in monthly checks he received from Cage enterprises.

In the grand jury's final report is noted a "serious need" for still further insurance law revisions that would tighten restriction on insurance companies.

The present insurance code allows the state only to cancel a firm's license to operate if any of its provisions are violated.

Cage appeared at the office of Dallas Sheriff Bill Decker about 7 p.m. and posted two \$2,500 bonds. He was accompanied by his attorney, M. R. Irion, and Howard Phillips, a law associate of Irion. Phillips was surety on both bonds.

The present insurance code allows the state only to cancel a firm's license to operate if any of its provisions are violated.

Cage appeared at the office of Dallas Sheriff Bill Decker about 7 p.m. and posted two \$2,500 bonds. He was accompanied by his attorney, M. R. Irion, and Howard Phillips, a law associate of Irion. Phillips was surety on both bonds.

COSDEN GIFT OF RESIDENCE WILL ADD TO YMCA'S BUILDING FUND

Another substantial gift to the YMCA's Building Fund — this time from the Cosden Petroleum Corp. — was made public Saturday.

Cosden, through its board of directors, has authorized proceeds from the sale of a company-owned residence at 553 Hillside (now occupied by President R. L. Tollett and family), to be given to the Y's capital fund for its building program. The Tolletts are building a new home and expect to occupy it in the next two months.

A letter from Tollett to the YMCA has announced that warranty deed and abstracts of title covering the property have been conveyed to Robt. Piner as trustee, with instructions that the trustee dispose of the property and convey the proceeds to the Y's Building Fund.

This is the second major gift to the organization's capital fund within a week, the Dora Roberts Foundation having announced a week ago an allocation of \$50,000 toward the Y building. This was part of a \$420,000 distribution to various local agencies.

The Cosden board, wrote Tollett, was "prompted and encouraged by your substantial gift from the Dora Roberts Foundation."

The property listed in the Cosden gift has had an appraisal of \$22,000; and it is understood that there is a cash buyer for it as soon as it can be vacated. Its legal description is all of Lot 12, Block 18, Edwards Heights Addition to the City of Big Spring.

Poles Fight Back Against Police

WARSAW, Oct. 5 (AP)—Communist riot police charged angry crowds in Constitution Square again tonight with tear gas and noise bombs in new disorders after two nights of student freedom uprisings.

The students, targets for beatings and bombings Thursday and Friday nights because they protested suppression of their paper, Po Prostu, stayed off the streets tonight.

But their anger at government and party heads had spilled over into the general population. Crowds gathered in Constitution Square, scene of violent attacks on the students Friday night.

The riot squads moved into the square from their stations. The crowds picked up stones and bricks from wartime rubble areas and hurled them at the steel-helmeted police.

The police then charged with noise bombs and tear gas grenades. The crowd gave way, then reformed in defiant groups of about 50 each on one side of the square.

The students kept to their boarding-houses adjoining the school, after renewed warnings that all 6,000 might be expelled and new students enrolled if they kept up their resistance.

A banner still hung from the main student boarding house where police attacked the students three times Thursday night and again Friday night. The banner carried a two-word message: "Wolnos Slowa." In English that means "Free Speech."

The students, protesting press censorship and rough police tactics, were joined by other Poles in a battle last night against club-swinging police. There were casualties and arrests, but no figures have been announced. The trouble was sparked by the Communist government ban on the student newspaper Po Prostu because of its anti-party line policy. Today the party meted punishment for the student editors: Expulsion from the Communist party.

The internal security corps patrolled the streets in threes, with carbines on their backs. Heavy police detachments and trucks loaded with factory militia were stationed at the ready throughout the city during the day. Police trucks with out-of-town registration plates were seen.

Senate Probers Take New Tack

WASHINGTON, Oct. 5 (AP)—Senate rackets probers said today they will start off their next round of hearings by looking into what they call the "antunion activities" of some employers.

A central figure in the inquiry by the special Senate committee set up to investigate alleged improper activities in the labor-management field will be Nathan Shefferman, a Chicago consultant to employers on labor problems.

The hearings, scheduled to start Oct. 21, will mark somewhat of a shift in emphasis by the committee, which so far has focused its attention largely on union leaders.

Robert F. Kennedy, the committee's chief counsel, told newsmen that testimony will deal with "certain antunion activities of employers who had retained Shefferman."

He referred specifically to what he described as efforts "to keep unions out of plants, or to bring in unions that would be friendly and make 'sweetheart' contracts."

The sales counters are brimming with seasonal items, the prices are tipping over, the appeal to buy is very strong.

Yes, it's Dollar Day again in Big Spring, a first-Monday event which, through the years has proved to be one of the biggest value events made available to the West Texas shopping public.

Practically all major retail establishments of the season coordinate special selling, so that thrifty people will find it profitable to set aside the day Monday to have a first-hand look at all the Dollar Day bargains in Big Spring. The top values are to be noted in today's Herald advertisements.

Free bus transportation is again an added attraction for Dollar Day, and local women shoppers may use the coupon below, to present instead of the usual fare. This is a courtesy of The Herald and the City Transit Lines.

It's Profitable To Spend Dollar Day In Local Stores

Formula For Disaster

Mary and Robin Bankson, children of Mr. and Mrs. L. M. Bankson, 104 W. 8th, demonstrate a good way to start disaster fires. That's not their objective, though, and the demonstration was only a Fire Prevention Week promotion. "Don't play with matches and don't leave waste material, paint and gasoline containers in places where they might start a fire," the youngsters advise.

6 Adult Education Classes Under Way

Six adult education classes have gotten "off the ground" but several others are needing additional enrollment to justify sessions. So far 68 individuals have signed for the non-credit classes, some for more than one course. No wonder way is the class in accelerated reading with Mrs. Wayne Dittloff as instructor. There are 14 enrolled and more may be accepted, said Dr. Marvin Baker, director of the adult education program.

Ten have enrolled in the blueprint reading class taught by W. D. Broughton, and again more can be accepted.

The advanced and beginner oil painting class taught by Mrs. Terry Patterson has started with eight and actually more are needed. They can start almost any time, but the sooner they sign the more instruction they will receive.

Eight are taking the speed writing (mechanical shorthand) course and only four more may be accepted because of a limited number of machines. Harold Vale is the instructor.

Twelve are taking the conversational English course, and all of these are Latin American men. Mrs. Ruth Rutherford is instructing. There is no demand at all for conversational Spanish this time, according to Dr. Baker; at least no one signed up for the course.

Now started but needing more to take part is the adult drivers education course taught by C. W. Tanner. There are only six participating far.

Ready to start Monday evening is the course in advanced electronics (which gets into special radio and TV repair) with 12 enrolled. More are expected. The primary or beginners course in electronics has only six enrolled and must have at least four more students. Dick Hooper is the instructor.

Still needing a few more adults to enroll in order to assure the course is the one for housewives and others in interior decoration. The citizenship class to those studying to pass U. S. citizenship requirements, had only one to enroll. So far there has not been enough interest to justify offering the course for parents of young children or couples expecting a child; or the series of explanatory talks for laymen on the wonders of the world, especially as related to current scientific developments.

Courses to materialize later include that in Shakespeare, which, surprisingly, has experienced the greatest response of all. Already 20 have signed for this series of

four full-length films which will be supplemented by brief explanatory talks. Dr. Baker said that large numbers of others could be taken for this course. Films include "Midsummer's Night," "Henry V," "Hamlet," and "Richard II." Another course to be offered in December is for those wishing to learn tricks of the commercial gift wrapping trade. One slated for November is in parliamentary procedure.

The proposed course in automobile mechanics found good interest, but on an unanticipated level. Those making inquiry wanted a basic course, whereas the class in carburetion and automatic transmission available through the University of Texas extension service was for advanced mechanics. Dr. Baker now is exploring the possibility of a basic course.

State Veterans Service Officer Attends School

James L. Smith, veterans service officer at the Big Spring VA Hospital, has returned from Dallas where he participated in the State Service Officers School which ended Thursday.

The school is held annually to acquaint officers with both old and new legislation relating to benefits for veterans and their dependents. Covered this year were new laws pertaining to medical and hospital care, GI loans, disability compensation and pension payments, and benefits for which surviving members of veterans' families may qualify.

Smith is employed by the Veterans Affairs Commission of Texas, a state agency which stations service officers throughout the state to assist veterans and their dependents in applying for state and federal benefits to which they may be entitled.

Smith's office is at Room 140, VA Hospital. He works closely with Ray Boren, Veterans Administration contact representative. Both offices are open from 8 a. m. to 4:30 p. m. Monday through Friday.

Strike Date Set

SAN ANTONIO, Oct. 5 (P)—Maintenance employees of Braniff Airlines have voted to strike Oct. 16, a union spokesman said last night.

LETTER TO THE EDITOR

Says Decision On Troops Makes Ike 'A Great Man'

Dear Editor: I have heard so much criticism about the decision of our President concerning the trouble in Little Rock, Ark., until I wonder if some ever look at a question except in a prejudiced, traditional, one-sided way. To me, President Eisenhower's decision makes him a truly great man. I conclude this by examining the Scriptures. For we know that Paul said in Acts 10:24 "Of a Truth I perceive that God is no respecter of persons, but in every nation he that feareth him, and worketh righteousness is acceptable to him." Now if we know that God is no respecter of persons, how can we sit in church on Sundays and sing "Oh! to be like thee" and still persecute his people? When we draw a line between people that keeps some down—it is persecution.

Mishap Victim's Services Today

Services will be held at 4 p. m. today for Hazle Lee Williams, 33, Knott farmer and victim of an unusual farm accident. Mr. Williams suffered a fatal blow on his head as he apparently slipped backwards from a combine and struck a metal step on the machine.

Services will be conducted by the Rev. Cecil Rhodes, West Side Baptist pastor, at the Nalley-Pickle Funeral Home. Burial will be in Trinity Memorial Park. Pallbearers will be Foy Dunlap, Billie Gaskin, Arthur Caughey, Arnold Lloyd, Jim Motley, Melvin Bryson, Marlin Shaw and Claude King.

He leaves his wife, Mrs. Gail Williams; three daughters, Betty Sue, Zella Mae, Barbara Ann; and one son, Roy Lee. Other survivors are his parents, Mr. and Mrs. Roy Williams, Knott, three brothers, B. J. Williams, Charles Williams and Leo Williams of Knott; two sisters, Rosetta Williams, Texas Tech student, and Mrs. Flossie Ann Land, Lawton, Okla.

Yours truly,
M. D. McMEANS

Cover Cropping Put In Practice

Cover is no idle slogan for Dewey Martin on his farm six miles west of Fairview. At the present time he has a cover on all his land and plans to keep a maximum of it protected by crops and residue the year around.

Martin, a cooperator with the Martin-Howard Conservation District, planted 27 acres to sudan and cane this spring and is leaving it for protection during winter and spring months. Next spring he plans to seed a permanent grass in the litter.

On another 56 acres which he seeded to hedra under the acreage reserve program, he has sown a crop of winter barley which will be left until next spring after the blowing season. Then another crop will be planted for summer protection. Martin figures he will have more moisture reserve than if the acreage were left fallow.

Soil Conservation Service technicians, who point to this operation as a good example, contend that cover not only protects soil against wind erosion, but it also increases production in succeeding crops, provides winter grazing, diminishes soil compactness during surface crusting, improves fertility and steps up moisture absorption and moisture capacity.

Hire Handicapped 'Week' Proclaimed

"Employ the Physically Handicapped Week" has been proclaimed in Big Spring by Mayor G. W. Dabney who is joining the Texas Employment Commission in urging employers to carefully consider the qualifications of handicapped workers when seeking new personnel.

Many physically handicapped men and women actually are better qualified for some types of work than others who are not handicapped, Leon Kinney, TEC manager here, said. He pointed out that handicapped persons often

develop skills and "senses" which are never cultivated by others.

Too, the fact that they are handicapped frequently makes such workers more conscientious and devoted to their tasks. Appreciation for opportunity is expressed by the handicapped through careful attention to duties, he said.

Said the mayor, in his proclamation: "Throughout the years, the physically handicapped have proved themselves to be efficient, reliable and loyal employees when properly placed in work which

they can perform despite their handicaps. "Nationwide attention will be focused on the problem of rehabilitation and placement of the physically handicapped during the week of Oct. 6, which is the 13th observance of Employ the Physically Handicapped Week.

"Opportunity for employment should not be denied to any qualified person because of a physical handicap. It is the duty of our community to overcome misconceptions among employers and co-workers concerning the handicapped, and to develop understanding and acceptance of handicapped persons as reliable employees.

"Therefore, I, as Mayor of the City of Big Spring, Texas, do hereby designate the week of Oct. 6 to 12, 1957, as Big Spring Employ the Physically Handicapped Week and urge full cooperation with the Big Spring Committee on

Employment of the Physically Handicapped. "In official recognition whereof, I hereby affix my signature this 3rd day of October, 1957."
G. W. DABNEY
Mayor, Big Spring, Texas

Production Held Up

DETROIT, Oct. 5 (P)—Labor disputes are holding up production of the 1958 Plymouths, Chrysler Corp. said today. Walkouts that hit the Mack body plant nine days ago have idled 5,200 employees.

Oil Exploration
GEORGETOWN, British Guiana, Oct. 5 (P)—The government said today exploration for oil in British Guiana will "commence within two weeks."

Sets The Pace For Giving

This check for \$1,000 from employes of the Veterans Administration Hospital got the Employee Division off to a running start even before kickoff time in that phase of the United Fund campaign. Turning the check over to E. H. McGibbon, general campaign chairman, is Dr. Jackson H. Friedlander, left, hospital manager. Gifts turned in at the campaign's initial meeting Friday totaled \$18,125. "Everyone's doing a fine job so far," said McGibbon. "There are only three more weeks to go and let's finish on schedule."

Right-To-Work Bill Issue In California

SACRAMENTO, Calif., Oct. 5 (AP)—Right-to-work . . . a guarantee of a basic freedom or a disguise for union busting?

That question promises to be one of the dominant themes of California's 1958 political campaigns. A right-to-work law is shaping up as the most explosive controversy in next year's Knight-Knowland race for the Republican gubernatorial nomination.

A law of this type outlaws the union shop — or, in other words, prohibits labor-management contracts that require an employee to join a union as a condition of keeping his job.

Right-to-work advocates, largely spearheaded by business, farm and employer groups, describe it as a means of guaranteeing job freedom to the working man. Opponents, primarily labor groups, describe it as a misnamed device to bust unions.

"Right-to-work," says an AFL-CIO pamphlet, "is a misleading slogan. It is intended to be. It implies the guarantee of a job. . . . The real purpose of right-to-work legislation is to outlaw collective bargaining and compel a return to the open shop."

Supporters, on the other hand, argue that union shop contracts deprive workers of their basic American right of free choice and that the issue is squarely one of compulsory or voluntary unionism.

They point to abuses brought out by the Senate's McClellan committee investigation of the huge Teamsters Union as examples of what a right-to-work law would curb.

The 1947 Taft-Hartley Act set off the real drive for right-to-work legislation. It gave the states the green light to enact their own laws banning union shops.

At present, 18 states, the majority of them in the South and three California counties and one city have right-to-work laws. But the idea hasn't fared so well on the state level in California.

Ira Schantz To Sing In Miami

Ira Schantz, instructor of voice and choir at Howard County Junior College, is to be featured soloist with the Presbyterian Men's Choir in Miami, Fla., this week.

He will leave here by plane Wednesday to attend the Presbyterian National Men's Convention. The men's choir will be under direction of Dr. Wayne Bedford, one of the Southwest's leading choral conductors and a longtime friend of Schantz.

The Presbyterian Men's Convention meets every two years and a record total of 15,000 men is expected this year. Among featured speakers will be Dr. Billy Graham.

Ira Schantz has sung over the entire Southwest and has travelled as far as New York City to fulfill important singing engagements. While a resident of New York for two years he sang professionally and was soloist with many leading choruses and church choirs in New York, New Jersey and Connecticut. He also toured the country with the famous Robert Shaw Choral. Schantz is due to return here Oct. 14.

Commiss Slap 7-Year Term On Tito Comrade

SREMSKA MITROVICA, Yugoslavia, Oct. 5 (AP)—Milovan Djilas, former vice president and wartime comrade-in-arms of President Tito, was sentenced today to seven more years in prison.

He was convicted of creating hostile propaganda against communism and the Yugoslav government abroad by writing and smuggling out of Yugoslavia his book, "The New Class."

The book, published in New York in August, depicts communism as a system in which the masses are exploited by a bureaucratic upper class.

Djilas, 46, already was serving a three-year prison sentence on charges of conspiring against the Yugoslav government. After a one-day closed trial, the five-man court, which included two judges, decided to link his previous sentence and today's into a new term of nine years. He could have received a maximum sentence of 20 years and has the right to appeal.

The government prosecutor charged "The New Class" was designed to harm Yugoslavia's reputation and undermine the country's Communist system.

Djilas, wearing a blue suit and marked by a prison pallor, told the court he stands by every word he wrote. He listened unmoved to the sentence.

The court also stripped the partisan fighter of all his war decorations, including the top Yugoslav honor of "People's Hero." That action was taken, the judges said, because Djilas had committed a grave fault against the cast of the revolution.

Djilas, once considered in Yugoslavia to be a leader ranking second only to Tito, was stripped of his Communist party offices in 1954 after writing articles critical of the ruling regime. These included slaps at wives of high ranking party members, whom he described as making up an "inner circle." He spoke out against the women in defending the pretty onetime actress wife of the army chief of staff, whom he said was being snubbed.

Officers Named By Police Group

CORPUS Christi, Oct. 5 (AP)—H. C. Shubert of Wichita Falls was elected president of the Texas Municipal Police Assn. today. R. L. Lillard of Waco was chosen third vice president and Troy Willis of Abilene fourth vice president.

Court Opening A New Session With More Integration Issues

WASHINGTON, Oct. 5 (AP)—The Supreme Court opens a new term Monday to face sharply contested legal issues involving racial segregation and Communist activities.

The tribunal's nine justices head into the new term seemingly undisturbed by widespread criticisms of some of their recent decisions and silently aloof to personal attacks.

The court's docket indicates there could be more critical attacks in the coming nine-month term. Some of the cases awaiting action have a combined feature

Aid Asked

The Rt. Rev. Robert W. Brown, Bishop of the Episcopal Diocese of Arkansas, holds a letter sent to him by President Eisenhower, asking church leaders of Arkansas to help in the integration crisis in Little Rock. (AP Wire-photo).

regation and Communist activities. For instance, Virginia—with a state policy of "massive resistance" to school integration — has pending an appeal seeking to uphold its pupil placement act.

This law puts student assignment powers in the hands of a three-member state board. It was ruled unconstitutional by U. S. Dist. Judge Walter E. Hoffman of Norfolk in cases specifically affecting Norfolk and Newport News. After the U. S. Circuit Court in Richmond upheld Hoffman, school officials of the two cities and the state joined in appealing to the high tribunal.

The appeal said the case gave the Supreme Court an opportunity "to lead a large section of our country out of the chaos into which the Brown decision has plunged it." (The Brown decision was the high court's ruling against compulsory school segregation.)

Other appeals involving racial questions, on which the high court was asked to grant hearings, include one by segregationist John Kasper. He appealed from a one-year sentence for contempt, growing out of integration disorders at Clinton, Tenn., in August, 1956. Another case to be heard is an

appeal by four Houston Negroes who assert their union discriminated against them and favored white workers when the Texas and New Orleans Railroad made a work force reduction. The Negroes seek injunctions and \$75,000 damages from union locals.

Also of interest are cases developing from the government drive against Communists and others al-

leged to have engaged in subversive activities.

Library Fete Will Honor Sam Rayburn

BONHAM, Oct. 5 (AP)—Sam Rayburn's home town will close shop Wednesday to honor him.

The occasion will be the dedication of the Sam Rayburn Library. Former President Harry Truman and Secretary of the Treasury Robert Anderson, himself a Texan, will be here.

The library, a one-story concrete and steel structure faced with white Georgia marble, was built with \$500,000 in contributions from individuals throughout the nation—including Fannin County school children who donated pennies and dimes.

The Chamber of Commerce voted to decorate the downtown business district. Merchants will close from 1 to 4 p. m. to allow full attendance at the 2:30 p. m. ceremonies.

Invitations have gone out to all Texas congressmen. Governors of Texas, Oklahoma and Arizona are expected.

The library will house books, papers and mementoes of Rayburn, a 44-year veteran of Congress who has been speaker of the House longer than any other person.

The library will contain upwards of 6,000 volumes.

Arthritis-Rheumatism Vital Facts Explained

FREE DESCRIPTIVE BOOK

As a public service to all readers of this paper, a new 36-page highly illustrated book on Arthritis and Rheumatism will be mailed ABSOLUTELY FREE to all who write for it.

This FREE BOOK fully explains the causes, ill-effects and danger in neglect of these painful and crippling conditions. It also describes a successfully proven drugless method of treatment which has been applied in many thousands of cases.

This book is yours WITHOUT COST or obligation. It may be the means of saving years of untold misery. Don't delay. Send for your FREE BOOK today. Address The Ball Clinic, Dept. 2317, Excelsior Springs, Mo. (Adv.)

Russia Takes Chance On Getting Any Information From 'Sputnik'

By ALTON L. BLAKESLEE
AP Science Reporter

NEW YORK, Oct. 5 (AP)—Russia's baby moon may never be seen by human eyes, even Soviet. This is part of a seeming gamble Russia took to win the prize of penetrating space, opening a new era in human destiny.

To detect her moon, Russia is betting mainly on a somewhat odd choice of radio signals from it. These signals could fade or be distorted, making it hard to pinpoint the exact location of the speeding Sputnik—Russian for earth satellite.

Sputnik's path has to be learned before most human observers could spot it. They'll have to know where and when to look to glimpse it—and then use binoculars.

The longer Sputnik whirrs, the better the chance of tracking her. But her batteries might go dead before they reveal her path.

Or meteorites—bullet-speed bits of metal and stone—might knock them out as they rip through the moon.

Russia is also relying on 66 moonwatch teams of paid observers, scanning the skies along the initially-expected path of Sputnik.

The problem of wondering "where'd she go?" after you launch a moon prompted U. S. scientists to set up a triple method of observing, and then learning

scientific details from her moons. One is a picket fence of mini-track radio stations all along the 75th meridian. Our moons will broadcast on 108 megacycles, to penetrate through the earth's electrified belt in space without distortion. That chain is almost all in working order now.

But it can't find Sputnik. Russia had once been understood to have agreed to use the same frequency. Instead she chose lower frequencies—20 and 40 megacycles—saying this would permit amateurs to help find and learn from Sputnik. The minitrack chain can't receive those frequencies.

American radio experts say these frequencies could fade or be bent in coming through the ionosphere, hence not give a precise location of the moon. It could be comparable to seeing the setting sun touching the horizon, when it is actually out of sight. Bending of light rays makes the sun still visible.

The United States organized 100 moonwatch teams here, 50 abroad. They can scan the sky along the expected orbit, perhaps find the moon if its battery went dead.

Third is a network—just getting started—of special camera telescopes.

These can zero in on the moon when its path is known, for in-

valuable knowledge. Slight variations in a moon's path will give information about the shape and size of the earth, its pull of gravity.

Russia is reported interested in buying such cameras herself—an indication she does not have this method.

One of her scientists on Thursday invited observations of Soviet moons, especially by the revealing telescopic cameras.

Sputnik and following moons can disclose vital knowledge about the thinning density of air high above the earth. To get these facts, its path has to be accurately tracked to determine how much the air is slowing it down.

The official Soviet announcement made no mention of instruments inside Sputnik. But Dr. A. A. Blagonravov, Soviet scientist now in Washington, said it was also measuring temperatures in space.

This data could be radioed back in coded pulses.

It could be tremendously exciting news, but Russia has not announced any code key.

In the plans and spirit of the International Geophysical Year, all data learned in any fields is to be fully shared by all 64 participating nations.

Russia's announcement indicates she could have started

Mrs. McDonald, Stanton, Dies; Services Today

STANTON, Oct. 5 (SC)—Mrs. Nettie B. McDonald, 52, wife of Dan McDonald, died at 5:30 a.m. Saturday in a hospital at Big Spring.

In failing health for several months, Mrs. McDonald was hospitalized two weeks ago.

The funeral will be held at 4 p.m. Sunday in the First Baptist Church in Stanton with the Rev. W. C. Wright officiating, assisted by Elmore Johnson. Burial will be in the Evergreen Cemetery under direction of Arrington Funeral Home.

Mrs. McDonald was born Nettie Reeves, the daughter of Mr. and Mrs. B. G. Reeves in Coke County on Sept. 9, 1905. She was married to Dan McDonald on Sept. 9, 1923, and they came to Stanton in February of 1941.

She was a member of the Order of Eastern Star, the First Baptist Church, and had been active in civic affairs especially as it touched the youth of the community. Mrs. McDonald also had assisted her husband in operation of the grocery and service station which bears their name in western Stanton.

Surviving are her husband; four sons, M. J. McDonald, Odell McDonald, and Milton Wesley McDonald, all of Stanton, and W. B. McDonald, El Paso; five daughters, Mrs. Laura Mae Freeman; Absea, Ore.; Mrs. Beulah Fay Reed, Milpitas, Calif.; Mrs. Delcie Commer, Seminole, Virginia; McDonald and Marie McDonald, Stanton.

She also leaves two brothers, J. W. Reeves, Stanton, and J. D. Reeves, Crane; five sisters, Mrs. Johnnie Smith, Stanton, Mrs. Juanita Dowden, Lubbock, Mrs. Emma Lee Lucas, Pampa, Mrs. Benjie Lucas, Odessa, and Mrs. Joe Farris, Odessa. Fifteen grandchildren survive.

Calls For Probe On Delay Of Satellite

WASHINGTON, Oct. 5 (AP)—A demand was heard today for a congressional investigation of why Red Russia beat the United States into the realm of space with an earth satellite.

It was voiced by Sen. Symington (D-Mo.), long-time critic of Eisenhower administration policy in the military and scientific fields.

The Soviet feat also stirred the hot embers of rivalry between the armed services. Rumbblings were heard from backers of the Army that if that branch of the service had charge of the satellite program, it could have beaten the Russians to the punch. The Navy has principal responsibility for the baby moon undertaking.

Meanwhile the White House insisted there was no race and that the Soviet satellite launching came as no surprise. Press secretary James C. Hagerty, who gave out this word, did not elaborate on his "no surprise" remark.

He said the event is "of course of great scientific interest" and should contribute much to the world's knowledge.

Symington said he would ask Chairman Russell (D-Ga.) of the Senate Armed Services Committee to call in top defense officials and scientists for questioning.

Sen. Wiley (R-Wis.), one of the few senators here in the capital, took a less alarming view of the latest Soviet surprise. "It's nothing to worry us," said Wiley, a member of the Foreign Relations Committee. "It's something to tell us to keep on our toes."

Sen. Mansfield (Mont.), assistant Democratic leader, called the development "a major victory for the Soviet Union in the field of science."

Mansfield recalled that the Kremlin leaders also had announced successful firing of an intercontinental ballistic missile.

"This is additional proof that we must not underestimate the scientific skill and the technical know-how of the Soviet Union," he said.

At the Army's Redstone Arsenal in Huntsville, Ala., a scientist expressed belief that if the Army had been put in charge of it a couple of years ago it could have launched an earth satellite before the Russians did.

Boy, 6, Breaks Arm In Football Mishap

A miniature football game ended in a broken arm for Scotty Bell, 6, Saturday morning.

Scotty, son of Mr. and Mrs. Sam Bell, 2502 S. Monticello, suffered the fracture in a game near his home. He was rushed to Big Spring Hospital in a River ambulance and after installing a cast, doctors said he was "fine" Saturday afternoon.

Valuation Survey Proposals Sought

The city manager said Saturday he had written six valuation firms in the state concerning a possible job here.

H. W. Whitney, city manager, said he had been authorized by a committee representing the city, county, and school district to write proposals from firms about a tax revaluation survey here.

The three organizations have voted to consider such a survey and wanted more information from interested firms about costs, length of time, etc. The committee asked Whitney to write the firms, asking them to return a proposal to Whitney by Nov. 1. When the companies reply, Whitney then will turn the information to the committee and the committee will screen the proposals.

In writing the firms, Whitney

urged them to send representatives to Howard County to carefully look over the situation before making any proposals.

The city manager said he had not heard from any of them yet.

After the committee narrows the field, the three cooperating agencies will then decide individually if they wish to take the tax revaluation survey. If the three elect to proceed a method of pro-rating cost will have to be devised.

Before the county decided to enter the proceedings, the city and school board had considered handling the cost for work within the city limits on a 50-50 basis and the school would then have to handle all costs outside the city limits.

To Await Hearing In Juvenile Ward

A 13-year-old girl, taken into custody with two intoxicated men about 12:30 a.m. Saturday, will spend a few days in the juvenile ward at county jail, A. E. Long, juvenile officer, said Saturday.

Long said it was the third time the girl has been picked up under such circumstances. He said he talked with the girl's mother Saturday morning and it was decided to keep her in custody until a hearing before Judge R. H. Weaver can be arranged.

The men were charged with drunkenness.

Non-Stop Flight A Failure

William Wyatt, 25, of Dallas, waves before taking off from Galveston in an attempt to make a 5,500-mile non-stop flight to Rome. His try ended in failure, however, when strong headwinds forced him to give up after he got as far as Prince Edward Island. Saturday he was on his way back.

34 Pilot Instructors Get 'Master' Degrees At Webb

"Master Degrees of Instruction in Flying Training" were awarded Friday night to 34 pilots of the 3560th Pilot Training Wing at Webb AFB.

These new award certificates were presented at the Pilot Training Group's monthly dinner, at which it plays host to wing staff officers and guests from the Big Spring area. Col. Kyle L. Riddle, wing commander, made the presentation.

Four officers of Wing Headquarters were among the recipients of the degrees, which certify 1,000 hours of accident-free jet flying time, including 500 hours as instructor pilot of the Lockheed T-33 jet trainer: Capt. Glenn T. Claffee and 1st Lts. Donald R. McClain, Lorenz W. Mackenthun and Alexander R. Sennikoff.

Pilot Training Group officers receiving the award were 1st Lts. George T. Ward, Donald A. Walbrecht, Kenneth C. Smith, Stephen W. Rainbolt, Alan D. Wilson, Donald G. Norton, Delbert R. Motal, Kenneth C. Martin, Billy C. McMaster, Norman D. Key, Leonard D. Eggen, Kenneth F. Cornwell Jr., William R. Clark, Donald D. Anderson, Wayne R. Bratcher, Warren R. Wright.

Also James W. Watson, Gerald K. Taylor, Alexander Locke Jr., Wilbur L. Keeling, Frederick W. Eglin, Leonard W. Cramer, John W. Combs, Delmar E. Tally, Frederick J. St. Jean, Marvin L.

Change Of Zoning At High School Is Set For Hearing

A public hearing has been called by the zoning board to consider changing the zone of four half-blocks in front of Big Spring High School.

Under consideration are the half-blocks south of Eleventh Place from Goulet to Young. At present the middle two are zoned C (multiple units), while the outer two are in a B (two-party residence) zone.

The proposed change would make them an E zone, or community business.

The hearing has been called for 5:15 p.m. Monday at the police building's classroom. Should the zoning board accept the proposal, final action would be in the hands of the City Commission which meets for its regular session Tuesday evening.

The same area has been considered previously, but it has never gone as far as a public hearing.

May Release Data Deciding Ike's Move On Little Rock

WASHINGTON, Oct. 5 (AP)—A spokesman said today the administration is considering whether to make public certain information that played a part in President Eisenhower's decision to send federal troops into Little Rock, Ark.

White House press secretary James C. Hagerty told newsmen the Justice Department is studying the question of releasing the information from its files on the school integration dispute in the Arkansas city.

Hagerty said the data was given to Eisenhower before he decided to use federal troops to enforce court orders requiring integration of Little Rock's Central High School.

Sen. Mansfield (D-Mont.) and Gov. Theodore McKeithin of Maryland have urged the disclosure of information the government has kept secret concerning events at Little Rock. McKeithin, a Republican, was one of four Southern governors who earlier this week made a fruitless effort to mediate the federal-state dispute.

Hagerty stressed that the information the Justice Department is thinking of releasing does not include an FBI report furnished to

U.S. Dist. Judge Ronald N. Davies, who ordered integration at Central High.

Judge Davies asked for that report before he ordered Gov. Orval E. Faubus of Arkansas to withdraw National Guardsmen from Central High where they had blocked Negro students from entering. Eisenhower later federalized the Arkansas National Guard and sent in regular troops to make sure the Negro children were not prevented from going to classes at the school.

'Whooping Crane' Stamp Offered

WASHINGTON, Oct. 5 (AP)—The Post Office Department said today its new tri-colored whooping crane stamp will have first day sales Nov. 22 at Corpus Christi and New York.

The three-cent stamp, printed in blue, green and yellow, will depict two whooping cranes and their young. It will be the fourth in the wildlife conservation series. Whooping cranes, once numbering thousands, have dwindled to about 30 birds.

Getting-Ready For The Ring

Jean Attilana, Russian teen-ager from the Ural Mountains, gets an assist from a clown as she prepares to enter the ring of the Clyde Beauty Circus which will stage two performances here Friday. Jean, who weighs less than 100 pounds, is billed as one of the world's greatest wire walkers. The Beauty Circus tent will be set up in the Douglas Addition just off the Old San Angelo Highway southwest of Big Spring. Performances are scheduled for 3 and 8 p.m. Friday. The show also will feature Beauty in his famed wild animal act, Redd Russell, western screen star, the Zoppe troupe of acrobats, and others.

Legislature's Special Term A Week Hence

AUSTIN, Oct. 5 (AP)—The first called session of the 55th Legislature meets a week from Monday to write new water and lobby control laws. It also faces demands for more action to roadblock public school integration. Gov. Price Daniel says he will not submit any integration matter until the lawmakers dispose of legislation included in his call for the special session. He said he then would be glad to talk with lawmakers who have such proposals, adding: "Nothing should be submitted until it has been thought out carefully."

Daniel has had numerous requests that he add anti-integration to the list of four topics for which he called the Oct. 14 special session. Whether or not the governor bows to this pressure, there is bound to be an outbreak of state's rights oratory, Confederate flag waving and a rash of resolutions growing out of the Little Rock federal-state conflict.

FOUR PURPOSES
Daniel called the session for these four primary purposes: Define and provide for registration of lobbyists, setting up procedures to regulate their activities and report on spending and sources of lobbying money. Require registration of persons who appear before state agencies. Create a crime study commission to report to the next regular session.

Create and finance a statewide water planning agency to work with local, state and federal agencies on flood control and water conservation. The governor left the door open for possible additional subjects with these words: "To consider and act on such other subjects and questions as the governor may submit from time to time."

One of these will not be taxation. Daniel has committed himself to that. The last two special sessions passed tax bills. Both were called by Gov. Allan Shivers, in 1950 and 1954.

The 1956 session passed a tax bill for improved care of mental patients. The 1954 session placed new taxes for higher teachers and state workers pay.

WATER PROGRAM
Daniel called this session to complete the water conservation program he recommended at his first regular session as governor, and to write tough lobby and influence-peddling laws.

In past special sessions, the usual practice has been for governors to hold the legislators strictly to the specific subjects for which they were called, then let the bars down somewhat when those purposes were accomplished.

It is too early to say how strong the demand will be for more segregation laws. The regular session passed only two. Neither has been tested in court.

An East Texas bloc will meet at Palestine Monday at a session sponsored by the Anderson County White Citizens Council to discuss states' rights. The East Texas delegation pushed anti-integration bills in the regular session.

At least two proposals have already been put before Gov. Daniel for submission. Rep. James Cotten of Weatherford has asked him to submit a plan which would give the governor power to close a school where breaches of the peace occur, or may occur.

Rep. Bob Johnson of Dallas has suggested to Daniel that the "forced integration" problem be submitted. He thinks individual school districts should be given the right to close schools "be-seized by troops."

Trustees Set 2 Meetings, One To Open Jr. High Bids

School trustees will meet on two successive nights this week—Tuesday for their regular monthly business session and Wednesday to open bids for construction of the new junior high school. A large turnout of contractors is expected for the bid opening Wednesday. Supt. Floyd Parsons said 18 contractors have been studying plans for the new school and most of them are expected to submit bids.

The new plant, to be called Goliad Junior High, is to be constructed on land just south of College Heights elementary school. It will face Goliad Street from the east. The school district has about \$900,000 available for the building and furnishings. Parsons said Saturday that so far only routine business, such as reports on attendance and activities in the various departments of the school system, are on the agenda for Tuesday.

That meeting will be held in Coker's Restaurant with board members to be dinner guests of Trustee John Dibrell. The session will start about 7 p.m.

Ike Ain't Going
WASHINGTON, Oct. 5 (AP)—The White House said today President Eisenhower has no plans to attend a World Series game.

Cotton Estimate Is 31,000 Bales; Only 353 Ginned

Howard County's 1957 cotton production is now estimated at 31,000 bales. Virtually all of it remains to be harvested.

The Texas Employment Commission Saturday reported that only 353 bales have been ginned in the county so far this season. However, harvest operations are expected to get going full blast during the next few days.

Martin County, with production expected to total 63,750 bales this year, had ginned 1,737 bales of cotton by Saturday. In Glasscock, where 250 bales have been ginned, production is expected to total 16,000 bales. Throughout the harvest season, the TEC will make weekly surveys of ginnings in this area and will keep production estimates up to date as a part of its efforts to assist farmers in securing an adequate supply of harvest workers. Also, the TEC will make continuous studies of harvest wages with data to be used by the Department of Labor, which sets pay scales for Mexican National workers.

State Might Act To Bar U.S. Troops

DALLAS, Oct. 5 (AP)—Gov. Price Daniel said today Texas may have to take further action to prevent occupation of its schools by federal troops.

In Dallas to help open State Fair, the governor said he wants to study any proposal to accomplish that end but pointed out that Texas has other problems to solve. "I would not want to compare the integration problem with any others the state has," Daniel said. "They are all important and they must all be solved for the good of Texas."

He noted the special session of the Legislature Oct. 14 was called to consider lobby control, a statewide water program and establishment of a law enforcement commission — not integration. "But I want to hear of any proposal any of the legislators might have that would prevent the occupation of our schools by federal troops," he said. "It may be that we should take some further action."

Texas has laws to halt integration of schools unless approved by a vote of the individual school districts. "I will listen to what anyone has to say and I will study the proposals for myself," Daniel said.

Daniel took a place of honor near the head of the parade to Fair Park, where he spoke briefly before cutting the ribbon that officially opened the 1957 fair.

Daniel said he would not submit any integration measure until the Legislature has acted on these questions.

State Rep. Bob Johnson of Dallas had told the governor "forced integration" be considered at the special session. "I will be glad to talk to them (the legislators) and see what they have in mind, but nothing should be submitted until it has been thought out carefully," Daniel said.

Daniel said he has received about 1,000 letters or telegrams applauding his Sept. 25 telegram to President Eisenhower and about 100 messages of disapproval.

The governor declared in the telegram that Eisenhower's use of federal troops in the Little Rock school integration crisis was "reminiscent of the tactics of Reconstruction Days." He also inquired whether the President proposed to "occupy with troops every non-integrated school in the South."

Martin Co. Scout Finance Campaign Slated Tuesday

STANTON, Oct. 5 (SC)—A one-day, dawn-to-dusk finance campaign for Martin County Boy Scouts will be staged Tuesday. Kickoff meeting for the drive has been scheduled for 7 a.m. in the First Methodist Church. Dusty Rhodes of Odessa, a member of the executive board for the Buffalo Trail Scout Council, will speak briefly.

Ed Hall, manager of the Dr. Pepper Bottling Co. works here, is chairman of the campaign. He will be assisted by two majors, Deb

Davis and Chick Beavers, each backed by four captains with teams of five men each.

Davis' captains are O. L. Snodgrass, Jack Iretton, Stanley Reed and James Jones. Captains for Beavers are Phillip White, Glenn Brown, R. C. Vest Jr. and Elmer Long.

The workers will contact about 225 persons in the county during the campaign. Last year, the drive raised \$1,300 and leaders expect that figure to be exceeded Tuesday.

Uncle Ray: Snake Trick Brought End To One Romance

By RAMON COFFMAN
A card from Mrs. Myrtle Rowan, a Missouri reader, contains only one paragraph, but it is interesting. She writes:

"You wished to know the name of the herb used by Will Vincent, mentioned in the letter from Mr. Watson. We own a few acres, and rattlesnake weeds grow on our property. These weeds will cure a snake bite. They are pretty plants, as well as useful herbs. If rattlesnake weeds really will save people from suffering, it seems high time for chemists to discover the elements which can do the work. Anti-snake bite vaccine is helpful, but I believe that a low-cost remedy made from herbs would become popular."

Another reader, Mr. S. D. Rider, sent me these somewhat humorous notes:

"After reading about the man who carried rattlesnakes in his

hat, I thought of a conversation I had with a man, who, like myself, didn't like snakes at all, regardless of their race, color or creed."

"This man told me about a girl that he fell in love with. They often took walks in the garden, hand-in-hand."

"One evening the girl came to meet him, and stretched out her hand, but suddenly discovered a copperhead coming from the girl's sleeve! He stepped back, then said to the girl that he had loved her, but if she cared nothing more for him to play such a trick, she could take her company (snake and all) to a distant place. The girl and other members of her family were snake handlers."

"I wondered why that man had fallen in love with her in the first place. He never went back, and I don't blame him."

Asian Flu Reaches Epidemic Category In Five States

By The Associated Press
The flu reached the epidemic state in Texas this week.

The Public Health Service in type malady was so prevalent in Washington reported the Asian Texas, Louisiana, Mississippi, New York and Utah. The service was placing these five states in the epidemic category.

Increased shipments of flu vaccine to the stricken areas were promised.

Texas young people were the main target of the flu germ. Thousands of school and college students were stricken.

Virtually all state colleges reported infirmaries filled. In Houston, one of the hardest hit cities, 17,000 students were reported ill.

Numerous high school football games, band contests and other weekend affairs were canceled.

Katy Railroad To Build Major Yards In Texas Cities

PARSONS, Kan., Oct. 5 (AP)—The Missouri-Kansas-Texas Railroad disclosed yesterday it will build major yards at Denison and Waco, Tex.

President William Deramus III said the yards are part of a general improvement program. Deramus said the speed with which the improvements are accomplished will be determined by the road's earnings because all the outlays will be made from earnings.

Reds Score Victory In Cold War

WASHINGTON, Oct. 5 (AP)—Russia scored a smashing propaganda and psychological victory over the United States with its successful launching of history's first earth satellite.

Coming within a few weeks after Russia's announcement of firing an intercontinental missile, the new achievement should go far toward convincing people all over the world that Russia has emerged as a first class military power in the use of missiles and atomic weapons and that it is seriously challenging the leadership of the United States.

PRESTIGE ENHANCED
Whether this is literally true in the sense that the Soviets have large numbers of the most modern weapons in combat readiness may be debated. But the point is that the Soviets have been waging a campaign to convince people in other nations—as in Western Europe and the Middle East—that it is true.

To the extent that they implant that conviction, they enhance their prestige, strengthen their diplomacy and enlarge their capability to threaten and intimidate other countries as they choose.

These are some of the dismal conclusions which are emerging in Washington as government officials debate the facts and try to measure their significance.

Meanwhile, the White House in its public comment played down the military-political implications of the Russian feat. Press secretary James C. Hagerty contented himself with saying the event was of great scientific interest and should contribute much to scientific knowledge that all countries are seeking to gain for the world.

Hagerty said the Russian satellite came as no surprise to President Eisenhower and other officials, but did not explain this remark.

He also said this country had never thought of its satellite program "as one which was in a race with the Soviet's."

Yet there was no denial that the Soviets had scored the jump and reports to the State Department

from abroad made it quite clear that other nations were deeply impressed by this concrete evidence of the Soviet government's ability to get results in a field requiring highly coordinated scientific, engineering and industrial efforts.

For example, the Soviet ICBM launching deeply impressed the power-conscious Arab governments of the Middle East at a critical moment. Syria, taking heavy deliveries of Soviet arms, had shortly before carried through a pro-Soviet shakeup. Lebanon and Jordan were deeply worried about the stability of their governments.

The satellite launching, authorities here agreed today, must certainly be expected to make a comparable imprint on the minds of peoples all over the world—an impression which will not be removed by soothing assurances from Washington that the development came as no surprise and the United States was not engaged in a race with the Soviet Union.

Watches Flying Farewell

Secretary of Defense Charles Wilson, center, watches a formation of Air Force planes fly overhead at a farewell ceremony in his honor at Ft. Myers, Va. Army Secretary Wilber M. Brucker watches at right. The ceremony included a special retreat review of ground troops. Wilson has resigned as Defense Secretary and is to retire next week. (AP Wirephoto).

Royal Couple Due In U.S. This Week

By CYNTHIA LOWRY
The Associated Press
Britain's much-traveled royal pair heads west this week for a visit to Canada and the United States, a proceeding which sounds simple enough but has been cocooned in an enormous web of finely spun plans.

Months ago in Buckingham Palace, the White House and in Ottawa's Government House, elaborate preparations began for the nine-day flying visit of Queen Elizabeth II and the Duke of Edinburgh. They are due to arrive in Canada Oct. 12.

Literally thousands of persons, from Canada's Prime Minister to a Williamsburg, Va., citizens committee have spent countless hours of organizing, coordinating and arranging, deciding matters of schedules, protocol, invitations, and which little girl will present the inevitable bouquet to Her Highness.

The stars of the tour, 31-year-old Elizabeth and 36-year-old Philip, are seasoned travelers by now and skillful representatives of the commonwealth. They have spent an unprecedented amount of time visiting outposts of their shrinking domain and making adroit appearances in friendly nations.

However glamorous the trappings, a tour like the forthcoming one demands an exacting performance from the Queen. She is a human symbol, and nothing short of perfection will do.

She must remember an imposing catalogue of details, down to such points as wearing a golden and diamond Canadian maple leaf far jewelry. She is briefed, and must remember what to do, to whom to speak. She must change her costume five or six times a day.

She must stand for hours and shake thousands of hands. She must never show weariness, boredom or impatience. The crammed schedule, involving big crowds and intricate preparations, require split-second timing.

Beloved as she is, her subjects usually feel free to criticize her love of horse racing; private

parties she attends; her sister Margaret's choice of clothes; her husband's Sabbath polo-playing. But there are indications that Elizabeth understands the family feeling Britons have about their monarch and their paradoxical attitude: they want her to be as average as the most average of Englishwomen—yet as glamorous as on the solemn day of her coronation June 2, 1953.

OUR SINCERE THANKS
For
Your Many Favors

In announcing the sale of the T. E. Jordan & Co. and the Big Spring Weekly News to the Big Spring Printing Co., we would like to extend our warmest thanks to our many friends for their business, encouragement and kindnesses during the many years we have been in business here.

There are always regrets at leaving a business of such long standing, but we feel that community interests will be better served by the change as well as our personal interests.

It has been a real pleasure to have been able to serve this community so long. We are most grateful for the friendships and support that has made this possible.

T. E. JORDAN & CO.

Brainwashing Goes Beyond Traditional Torture Methods

By JACK KOEHLER
PHOENIX, Ariz., Oct. 5 (AP)—It was slow, it was subtle. It was fiendishly effective.

In World War II, the Germans and Japanese relied on physical torture to break prisoners of war. In the Korean War, the Chinese Communists bent and broke more American prisoners, proportionately, without raising a finger. So says one of the U.S. Army's top experts on brainwashing.

The Chinese, says Maj. William E. Mayer, began with a gentle softening up program. Then, insidiously, they turned Americans on Americans. Finally, like a slow but sure poison, their technique gnawed away at a man's will to live.

Many captives died mysteriously, without apparent physical cause. It is now apparent, says the major, they just gave up.

Mayer, a psychiatrist now a faculty member of the Army Medical Service School at Brooke Army Hospital, San Antonio, was interviewed here on a recent lecture tour. In Korea, he served as a Navy doctor attached to combat Marine units and closely questioned many repatriated POWs. In giving his views on Chinese brainwashing, he said he was speaking personally, not for the Army.

SURPRISE METHOD
First, the Chinese surprised their captives. Americans taken prisoner fully expected to be treated brutally. Yet, says Mayer, 99 per cent of the prisoners "were never mishandled in any way."

Even more startling to medical men, said Mayer, was the fact that 40 per cent of the men captured died before they were re-chemical plants will be dedicated in a four-day ceremony here Oct. 16-19 by El Paso Natural Gas Products Co. and the General Tire & Rubber Co. The plants are a 22 million dollar butadiene unit and a 10 million dollar copolymer facility, capable of producing 50,000 tons of synthetic rubber per year. Under construction nearby are two other major petrochemical and refining plants.

who "did well," and light punishment to those who resisted their teachers.

CRUELTY ABANDONED
"But I want to emphasize," the major added, "that the punishment was not cruel but rather similar to that meted out to errant schoolboys."

All the while, the Communists were working away at the emotions of the prisoners, planting a seed of suspicion here, rewarding treachery there. Finally, said the psychiatrist, the Chinese succeeded in isolating and insulating their captives from other human beings and corrupted personal relations among them.

"This system not only created a tremendous number of informers among the prisoners but it also caused a complete breakdown of discipline and organization as never before seen among prisoners of war."

"Even in the most inhuman camps of the Germans and Japanese we found discipline and organization among the prisoners."

In Korea, the incidence of Americans turning on Americans became startlingly high. Thirty per cent of the captives, said Mayer, made propaganda tape recordings. One out of 10 informed on their fellow Americans without being threatened to do so by their captors.

"One camp newspaper received as many as 600 unsolicited propaganda articles a month."

"GIVE-UPPITIS"
Even more startling to medical men, said Mayer, was the fact that 40 per cent of the men captured died before they were re-

leased without having been starved or physically mistreated.

"They died from what the prisoners termed 'give-uppitis,' which was a complete psychological surrender as never before witnessed in adults," said Mayer.

"Some men would cry themselves to sleep while others would lie in a corner covered with a blanket and be found dead three days later. They refused to participate in the daily activities necessary to stay alive."

Mayer recalled that many repatriated prisoners told him that they, themselves, didn't like communism because it was "boring" and "repetitious" and that it would never work in America because Americans were too well off.

"Then they'd lean closer to me and say, 'But you know, doc, it's a good thing for China.'"

While much more is now known about Communist brainwashing technique, a sure antidote against it has yet to be found, the major said, adding:

"Teaching the men that they must not compromise with something that is wrong and that they can't always make a deal to improve their own lot is a step in the right direction."

"But the Army can't teach the soldiers a new set of ethical values. That must be taught in the home."

Dawson Farm Bureau Schedules Banquet

LAMESA, Oct. 5—The Dawson County Farm Bureau will hold its annual kick-off banquet Monday at 7:30 p.m. at the Green Hut Cafe to open the 1957 membership drive.

Ernie Cumble, field representative of the Farm Bureau's 6th district, will be the speaker for the event.

At their regular meeting Thursday night, directors of the Farm Bureau heard a report from Scott Russell on the safety car which was demonstrated at Dawson County schools, Thursday. According to Russell, over 300 students saw the demonstration during the day. Russell said the demonstration will be given later in the year for students not seeing Thursday's demonstration.

Joseph R. Sliwinski Joins Insurance Firm

Joseph Robert Sliwinski has been appointed a district agent for the Prudential Insurance Company of America.

The announcement was made Saturday by Marshall Pujos, staff manager of Prudential's Big Spring office in the Permian Building. Sliwinski, a native of Saginaw, Mich., is married to the former Shirley McGinnis of Big Spring. They live at 1205 Settles. Following his discharge from the Air Force in 1956, Sliwinski has been an airlines operations agent and in a managerial capacity in the retailing industry.

Stephens Rites To Be Monday

Funeral for Horace James Stephens, 73, retired carpenter, will be held at 2 p.m. Monday at Nalley-Pickle Chapel.

Mr. Stephens, who made his home at 1007 W. 8th Street, died Friday at 4:45 p.m. shortly after being taken to a hospital here.

The Rev. W. S. McMurtrey, pastor of the Assembly of God Church in Coahoma, will officiate at the services, and burial will be in the City Cemetery.

Mr. Stephens was born March 27, 1884, in Coleman County and came to Big Spring in 1901. He was married in 1904 to Miss Maud Henry in Baird. Mr. Stephens was a member of the Carpenters Union Local No. 1634 and worked out of the Burton-Lingo Lumber Co. yard here.

Surviving him are his wife and one son, Claud Stephens, Big Spring.

He also leaves four grandchildren and two great-grandchildren; five sisters, Mrs. Myrtle Kitchin and Mrs. E. A. Robison, Las Cruces, N. M., Mrs. Helen Shaw, San Diego, Calif., Mrs. T. W. Price and Mrs. Zona Cullions, Pomona, Calif.

Sign Agreement

NEW YORK, Oct. 5 (AP)—Pan American World Airways reached a contract agreement last night with the Transport Workers Union. The settlement involves 8,300 ground and flight personnel around the world.

Announcing The Purchase Of The T. E. JORDAN & CO.
(Commercial Printers and Publisher of The Big Spring Weekly News)
by
BIG SPRING PRINTING CO., Inc.

R. W. WHIPKEY
President

DOUG CLEMENS
General Manager

HAROLD CANNING
Secretary And Treasurer

The Big Spring Printing Company is a new firm directed by R. W. Whipkey, a resident of Big Spring since 1935; Harold Canning, a Big Springer since 1937; and Doug Clemens, who is moving here to make his home. Mr. Clemens, who will be general manager of the company, is a native Texan who has been engaged in the printing business, in San Antonio and St. Louis, since 1949, has a varied background in this field, and is a member of the International Assn. of Printing House Craftsmen.

The new owners hope to conduct the business — it will be at the same location, 119 West First — in the same efficient manner which has won the Jordan Company the wide support and high esteem of the community for so many years.

The continued patronage of friends throughout the Big Spring area will be sincerely appreciated.

CODE OF ETHICS

Of The
AMERICAN PHARMACEUTICAL
ASSOCIATION

The Code of Ethics of the American Pharmaceutical Association is a statement of principles adopted by the profession for the self-government of its members.

The primary obligation of pharmacy is the service it can render to the public in safeguarding the preparation, compounding and dispensing of drugs and the storage and handling of drugs and medical supplies.

The practice of pharmacy requires knowledge, skill and integrity; therefore, the state laws restrict the practice of pharmacy to persons with special training and qualifications and license to them privileges which are denied to others. Accordingly, the pharmacist recognizes his responsibility to the state and to the community for their well-being, and fulfills his professional obligations honorably.

The Pharmacist And His Relations To The Public

The pharmacist upholds the approved legal standards of the United States Pharmacopeia and the National Formulary, and encourages the use of official drugs and preparations. He purchases, compounds and dispenses only drugs of good quality.

The pharmacist uses every precaution to safeguard the public when dispensing any drugs or preparations. Being legally entrusted with the dispensing and sale of these products, he assumes this responsibility by upholding and conforming to the laws and regulations governing the distribution of these substances.

The pharmacist seeks to enlist and to merit the confidence of his patrons. He zealously guards this confidence. He considers the knowledge and confidence which he gains of the ailments of his patrons as entrusted to his honor, and does not divulge such facts.

The pharmacist holds the health and safety of his patron to be his first consideration; he makes no attempt to prescribe for or to treat disease or to offer for sale any drug or medical device merely for profit.

The pharmacist keeps his pharmacy clean, neat and sanitary, and well equipped with accurate measuring and weighing devices and other apparatus suitable for the proper performance of his professional duties.

The pharmacist is a good citizen and upholds and defends the laws of the states and nation; he keeps informed concerning pharmacy and drug laws, and other laws pertaining to health and sanitation, and cooperates with the enforcement authorities.

The pharmacist supports constructive efforts in behalf of the public health and welfare. He seeks representation on public health committees and projects and offers to them his full cooperation.

The pharmacist at all times seeks only fair and honest remuneration for his services.

"BETTER BUY IT AT YOUR PHARMACIST'S"

Here's a good rule to remember: If it belongs in your medicine cabinet, buy it at the pharmacist's. Only a pharmacist is fully qualified to dispense items affecting your health and welfare.

Little Rock Enjoys Lull On Weekend

LITTLE ROCK, Ark., Oct. 5 (AP)—This capital city in the old South was under military occupancy today for a second weekend. A couple of minor ruckuses involving the occupying troops marred an otherwise placid scene.

One regular Army paratrooper tangled with a teenager during the night on the campus of Central High School, center of a great integration crisis. Two off-duty

paratroopers were picked up by city police during a disturbance at a fair.

By contrast, scores of other paratroopers mingled with local citizens on a polite if not friendly basis.

Central High was closed, its green campus patrolled by a skeleton guard of troops, its corridors and classrooms silent until Monday.

Nine Negro students, the first ever integrated in Little Rock, finished a second week of classes yesterday. Some of their days at Central have been hectic. Others, like yesterday, have been quiet.

A 19-year-old alumnus of Central claimed he was knocked down last night by paratrooper's rifle and menaced with a bayonet.

The youth, Robert King, with four companions, left a dance at the high school field house for a quick smoke. Two paratroopers of the 101st Airborne Division, on duty in the area, told them to move on.

KNOCKED DOWN

King claimed he politely declined to move. He said one of the paratroopers fixed a bayonet to his rifle, knocked him down with the butt of the rifle and stuck a bayonet in his midriff, without, however, breaking the skin.

The youth said the soldiers finally released him to a male high school teacher who had emerged from the field house.

An Army spokesman said King defied the trooper's order to move on and grabbed at his rifle. The soldier shoved the weapon against King's chest, the Army account continued, and the youth fell down. There was no mention of any bayonet.

One of the paratroopers, identified by the Army as Sgt. James D. Holt, 32, had his scalp cut by a police billy club during what police Sgt. N. H. Heard described as a scuffle with the civilian officers.

The 101st Airborne was sent into Little Rock Sept. 24, the day after white adult mobs rioted outside Central High School and forced the withdrawal of the nine Negro students from classes.

Since then the Negroes have attended school under protection of the paratroopers and federalized Arkansas National Guardsmen.

Two of the Negro boys were kicked and struck inside the school during the week. And Thursday a scheduled mass demonstration against the Negroes flopped when only about 75 of the school's 2,000 white students walked out of classes. Those whose names were known were suspended three days.

It concerns the half blocks south of Eleventh Place from Goliad to Young. At present, the half-blocks are zoned B (two-party residence) and C (multiple-unit) and the proposed change would be to an E (community business) zone.

Tuesday's commission meeting will be held in the classroom of the police building at 5:15 p.m. All meetings of the commission are being held at the police building while the city hall is under construction.

City Will Hear Report Tuesday On Annual Audit

City Commissioners will hear how much money the city had April 1 at its regular meeting next Tuesday night.

Clyde Hollingsworth audited the city's records for the fiscal year ending March 31, and that audit will be presented at the Tuesday meeting. The report has been completed about a month, but was held up by the printer.

The same firm handled the audit last year and made its report in July.

In addition to the audit, the commission will decide what to do with dump ground salvage. At the first of the fiscal year in April, the commission awarded a year's contract for salvage rights at the city dump to John Duncan, but Duncan informed the city last week that he had dropped the lease.

Bids will probably be called for on another contract. Duncan paid the city \$101.01 per month for salvage.

In addition, third and final reading of an ordinance to remove discounts from gas bills will be presented. Should the ordinance be passed, all bills from Empire Southern Gas Co. after Nov. 1 will not have a discount provision.

A zoning change will be presented to the zoning board at a public hearing Monday evening, and should it be tentatively approved by the board, it will be forwarded to the commission for final action Tuesday.

It concerns the half blocks south of Eleventh Place from Goliad to Young. At present, the half-blocks are zoned B (two-party residence) and C (multiple-unit) and the proposed change would be to an E (community business) zone.

Tuesday's commission meeting will be held in the classroom of the police building at 5:15 p.m. All meetings of the commission are being held at the police building while the city hall is under construction.

Mrs. Bud Whitney Goes To National Bake-Off Finals

There will be some Big Springers with eyes and ears turned to Los Angeles, Calif., and the 9th annual Grand National Bake-Off sponsored by Pillsbury.

One of the 100 finalists is Mrs. Herbert Ward Whitney, daughter-in-law of Mr. and Mrs. H. W. Whitney, 813 W. 18th.

While she might well take the grand prize in the \$25,000 contest which has its finals in the ballroom

of the Beverly Hilton Hotel, Mrs. Whitney certainly could qualify as just about the busiest finalist.

In addition to her regular house-keeping chores, she has a one-year-old son to look after, plus a baby born four weeks ago. On top of that, the Whitneys recently moved from their home in Dallas to Tyler, where he has been assigned by International Business Machines.

Prayers For Racial Peace

NEW YORK, Oct. 5 (AP)—The National Council of Churches assured tri-faith leaders in Little Rock, Ark., today that its constituent churches have been asked to join them in prayer Oct. 12, Columbus Day, for interracial understanding and preservation of law and order in the integration crisis there.

The Rt. Rev. Robert R. Brown, Episcopal bishop of Arkansas, said Thursday proposed citywide services on Columbus Day in individual churches with the sole mission of "reconciliation." The bishop made the proposal at the suggestion of President Eisenhower.

The council, in a message signed by President Eugene Carson Blake of Philadelphia, told Protestant, Roman Catholic and Jewish leaders of Little Rock that Protestants and Orthodox Christians were totally in sympathy with the three-faith day of prayer.

Steel Workers Ask For Re-Employment

LONE STAR, Tex., Oct. 5 (AP)—Lone Star Steel Co. president E. B. Germany said more than 300 former employees made application for re-employment today as the strike against the huge plant completed its second week.

The strike, which has been described by both union and company officials as unauthorized, began at midnight Sept. 21, when approximately 2,700 out of 3,300 union workers walked off their jobs in a dispute over the handling of arbitration cases.

Germany said the plant had con-

tinued to operate, using 600 union members who stayed on the job, supervisory, clerical and technical personnel.

He said the total union forces in the plant now number close to 1,250. He said the total manpower in the plant now was about 2,500.

He said none of the "strike leaders or agitators" were being rehired.

The union members left their jobs because they said "the company had not lived up to its end of the contract."

Twins Make Medical History

Getting along nicely, thank you, are Virginia Kate and Teresa Kay Banton of Mountain City, Tenn. Ten months ago surgeons separated the twins who were born with their foreheads joined together. The operation was called the first of its kind where both twins survived. It was performed at the National Institute of Neurological Diseases, Bethesda, Md., when the twins were four months old. (AP Wirephoto.)

State Board Buys School Bond Issues

DALLAS, Oct. 5 (AP)—The Texas State Board of Education today approved purchase of \$1,795,017 in school bonds and studied a reclassification of bond policies.

The board met in Dallas at the invitation of W.C. Graves, board member from Dallas.

The board approved the purchase of these school bonds as investments for the permanent school fund: \$300,000, Everman (Tarrant County) Independent School District; \$50,000, Wallis (Austin County) Independent School District; \$15,017, Klippa (Uvalde County) Independent School District; \$200,000, Blackwell (Nolan, Coke and Taylor counties) Rural High School District; and \$1,500,000, Laredo Independent School District.

THE WEEK

(Continued from Page 1)

Robinson showed the grandchampion gilt and Tommy Buckner the grand champion barrow. The traditional sale grossed better than \$2,300. No pig went for less than 35 cents a pound.

School attendance has now hit 5,825, which is about 400 above last year. This has exceeded, pre-school predictions by administrators. It means probable increase in population and also that the attendance checkup by the visiting teacher is producing some results.

Building amounted to \$227,230 in September, the second lowest of the year, and brought the total to \$2,541,590 for nine months. This is \$1 million off the pace for last year and is far, far off that of some of our neighbors.

A Big Spring State Hospital Advisory Council was formed last week with Jack Y. Smith as chairman. The council is offering a program of participation by listing suggested projects to fulfill physical and patient needs. This group, by coordinating efforts and enlisting helping hands, can work wonders.

The Permian Building, constructed in 1953, is in the process of changing hands. No sale price was announced, but originally the office structure cost about three-quarters of a million dollars. It has been full almost since its opening day.

The T. E. Jordan Printing Company, one of the oldest in the city, also has been sold to a locally owned corporation, Big Spring Printing. From the time it was established as the Herald in October of 1904 (and as the Jordan Printery in 1929) members of the family have operated the concern. After 50 years they're entitled to relax a bit.

Despite the fact we're on the short end of the score, football boys are learning and performing better. The only trouble is that we're playing tougher teams all the time. Lamesa, next on the schedule, doesn't appear to be any exception to the rule.

Deadline for closing out the base housing contract was set back to Oct. 18, which makes it about one month from the original date. Efforts are being made to complete financing details by that time.

Services Monday For Lamesa Baby, Victim Of Mishap

LAMESA, Oct. 5 (AP)—Funeral for Debra Len Sturgess, 4, who was suffocated when a tractor wheel rolled over her while at play here Friday, will be held at 3:30 p.m. Monday at the Bryan Street Baptist Church. The Rev. E. L. Jones, pastor, will officiate, and burial will be in the Seminole cemetery under direction of Higginbotham Funeral Home.

Survivors are the parents, Mr. and Mrs. Alfred Sturgess; two brothers, Rickie and Freddy; the grandparents, Mr. and Mrs. Telford Sturgess and Mr. and Mrs. Melvin Sportsman of Marselene, Mo.

Survivors are the parents, Mr. and Mrs. Alfred Sturgess; two brothers, Rickie and Freddy; the grandparents, Mr. and Mrs. Telford Sturgess and Mr. and Mrs. Melvin Sportsman of Marselene, Mo.

Second Trial On Bribe Count Set Monday

AUSTIN, Oct. 5 (AP)—The trial of former Rep. James Cox on charges of agreeing to accept a \$5,000 bribe will be called Monday for the second time.

The former Conroe legislator was first called to trial July 15 but the case was reset because of missing witnesses.

Attorneys said today they would be ready for trial if all their material witnesses are present.

"As far as I know we are ready," Dist. Atty. Les Procter said.

"We won't know until they call the witnesses Monday," said John Coffey, one of Cox's attorneys. "But I understand that subpoenas had been served on all the witnesses we called. Of course you never can tell when one will get sick, with all this flu around."

Cox was indicted last spring on charges of agreeing to take a bribe in return for killing a legislative bill detrimental to Texas naturopaths.

He asserted he made the bribe offer in an attempt "to trap crooked lobbyists."

Cox's arrest and indictment started an inquiry by a special House committee which turned over its evidence to the Travis County grand jury.

Three persons were hospitalized late Friday after their pickup skidded onto a pile of dirt and other culvert construction materials on the Snyder Highway about nine miles northeast of Big Spring.

Injured were Billy J. Rudd, driver of the vehicle, and Mr. and Mrs. Howard Henry, all of Slaton. Rudd and Henry were discharged from Cowper Hospital Saturday, but doctors said Mrs. Henry is still in the hospital for treatment and observation. All three received contusions, lacerations and abrasions.

Highway Patrol officers said all three were thrown out of the 1954 Ford pickup when it spun around, smashed through a barricade and skidded backward onto the pile of dirt which had been removed from an excavation for installation of a culvert. Mrs. Henry was brought to the hospital in a Nalley-Pickle ambulance and the other two were brought in by patrolmen. The mishap occurred about 11 p.m. Friday.

James Ray Grantham, 1906

SATELLITE

(Continued from Page 1)

transmitting coded information. In addition to its regular tracking signals, came from Dr. John W. Townsend of the U. S. Naval Research Laboratory and Dr. Henry L. Richter, Jr. of the California Institute of Technology.

Dr. Richter said in Pasadena that code signals were intercepted last night on special equipment.

"Unless the Russians give us a clue we may not be able to decipher the messages," he said.

In Washington, Dr. Townsend also said the satellite's radio tracking signals "are being varied in a way that indicates to us that scientific information is being transmitted."

Townsend and Richter both said this information might have to do with temperatures encountered in the satellite's space flight.

"I hope they will tell us the code," Townsend said. "They promised they would when they got one up."

Radio signals from the man-made moon were being picked up in Russia, Britain, Canada and Japan as well as in this country. One pickup by a Radio Corp. of America station on Long Island indicated the satellite passed almost directly over New York City around 8:50 a.m. EDT today.

Disputed Reports On Ku Klux-Negro Gunfire Exchange

MONROE, N.C., Oct. 5 (AP)—Police and NAACP officials disagreed today on reports that an automotive caravan of Ku Klux Klansmen and a group of Negroes swapped gunfire here last night.

Police Chief A. A. Mauney, who said he had ordered several patrol cars to halt the Klan procession if laws were violated, said flatly, "I know there was no shooting."

He added, however, that one officer reported hearing "what sounded like a carbine" near the home of Dr. A. E. Perry where the incident allegedly occurred.

Dr. Perry, vice president of the Union County NAACP, said a witness saw flashes of gunfire from a caravan car and that several persons heard three shots from the cavalcade. He said he knew of no marks made by bullets and knew of no one being wounded.

Siamese Twin Separation Is Successful

PHILADELPHIA, Oct. 5 (AP)—A 16-man operating team today "successfully separated" Siamese twin girls. The children's chances for survival were reported good although one child's heart stopped during the two and a half-hour operation.

The infants, born eight days ago in Mercy Hospital, Long Island, New York were brought to Children's Hospital here Thursday to determine their chances for survival.

The girls, Pamela and Patricia Schatz, weighed 13 pounds, 7 ounces before today's operation by a team headed by Dr. Everett Koop.

Texans Open Their Annual State Fair

DALLAS, Oct. 5 (AP)—The State Fair of Texas, boomed as the biggest of expositions in the world, opened its 1957 exposition today.

Officially it was Rural Youth Day and thousands of youngsters who came in school buses from every part of the state helped swell the crowd. Fair officials estimated more than 100,000 rural children were on hand.

Gov. Price Daniel officially opened the fair at 11 a.m., cutting a golden ribbon with bejeweled 15-inch long scissors.

Spareberg Man Taken By Death

LAMESA, Oct. 5 (AP)—E. H. Williams, 57, who farmed in the Spareberg community for the past 35 years, died suddenly at 6:30 a.m. Saturday at his home.

Rites will be said at 4 p.m. today in the First Baptist Church by the Rev. Milo B. Arbuckle of Lufkin, assisted by Wayne Hughes. Burial will be in the Lamesa Memorial Park under direction of Higginbotham Funeral Home.

Surviving are his wife; one daughter, Mrs. R. B. Hodgson, Dallas; and five grandchildren.

He also leaves two brothers, Bernie Williams, Lamesa, and Robert Williams, Fort Worth; five sisters, Mrs. Ervin Wright and Mrs. F. L. Buckalew, Lamesa; Mrs. H. A. Pond, Mrs. Mae Fuller and Mrs. D. M. Womack, all of Colorado City.

Veteran Architect Dies In Austin

AUSTIN, Tex., Oct. 5 (AP)—Charles H. Page, Sr., one of the architects who worked on plans for the state capitol died here today after a critical illness of two days. He was 81. Funeral services will be held Monday.

Bike Hit By Car

Norman McNew, 14, was shaken up but apparently wasn't hurt seriously when his bike was struck by a car at Gregg and Edwards about 9:30 p.m. Saturday. He was taken by River ambulance to Cowper Hospital where examination failed to disclose any serious injuries. Norman is the son of Mr. and Mrs. J. R. Kirby, 504 Aylford.

Trial Is Delayed

CUERO, Tex., Oct. 5 (AP)—Trial of four men charged with swindling the state of \$4,500,000 in a veterans land deal was postponed today because of the special session of the legislature called for Oct. 14.

Says Constitution Comes First

Multimillionaire Winthrop Rockefeller and his wife, Jeannette, appear before television cameras at his palatial farm 65 miles northeast of Little Rock, Ark. Rockefeller, chairman of the Arkansas Industrial Development Commission, described the Little Rock integration crisis as tragic and said: "There comes a time when every citizen of the state and country who believes in the American Constitution must subordinate individual feelings to the common good and unity of the country. And that time is now." (AP Wirephoto.)

U.S. Launching Apparatus Can't Match That Of Soviet

BALTIMORE, Oct. 5 (AP)—This nation's Vanguard satellite launching rocket couldn't come close to putting into orbit a baby moon as big as the one sent up by Russia.

This was indicated here today in past disclosures of weight and velocity ratios by scientists and engineers concerned with getting the 20-pound U.S. earth satellite into outer space.

The Russians have said their satellite weighs 185 pounds. The conclusion some American technologists have drawn is that Russia must have used its newly claimed intercontinental ballistics

missile to rocket such a weight to an altitude of 565 miles and send it orbiting at 18,000 mph around the earth.

Plans for the three-stage U.S. Vanguard launching rocket call for an over-all, fueled weight of approximately 22,000 pounds—more than 1,000 times the weight of the satellite it will carry.

The Vanguard engineers say it takes 1,000 pounds of rocket to lift each pound of satellite to the desired altitude and speed. If this ratio were to launch a 185-pound satellite, it would take a launching-rocket of about 185,000 pounds, more than eight times what Vanguard weighs.

Three Hospitalized Following Wreck

Seurry, escaped without injury Friday afternoon when his car overturned on the Old Colorado City Road about six miles northeast of town.

Patrolmen said Grantham's 1949 Ford drifted into the left lane of the roadway as he lit a cigarette. When he attempted to turn the machine back to the proper lane, it skidded on pea gravel being used to pave the road and turned over when it sliced against loose sand at the side of the pavement.

Another One?

WASHINGTON, Oct. 5 (AP)—Dr. A. A. Blagoravov, Russian rocket expert, said today the Soviets have another space vehicle ready for launching immediately.

Blagoravov, here for an international science meeting, was asked whether the baby moon launched yesterday was a single shot or whether more could be expected.

Through an interpreter he said that when he left home two satellites had been developed but no decision had been made as to which would go first.

The remaining one is ready for use, he said.

Local People In Press Group

LUBBOCK, Tex., Oct. 5 (AP)—The West Texas High School Press Assn. was formed today at a workshop attended by 144 students and teachers from 21 area schools.

The group will provide career information on newspapering, do research on school publications financing, judge school newspapers and yearbooks and conduct an annual fall workshop.

Headquarters will be at Texas Tech where Wallace E. Garets, journalism department, will be executive secretary.

The association has two sections, teachers and students.

Teachers officers are Gordon Donum, Tom S. Lubbock High, president; Miss Elizabeth Hurley, Pampa, vice president; and Mrs. Irma Steward, Big Spring, secretary-treasurer.

Student officers are: Verne Hammett, Lubbock, president; John Harrison, Big Spring, vice president; and Barbara Thompson, Lubbock, secretary-treasurer.

North-South Path

PARIS, Oct. 5 (AP)—Alexandre Anoff, president of the International Astronautic Federation, declared today it is almost certain the Russian satellite moon had been launched in a north-south direction by a huge rocket of four or even five stages.

He indicated that the rocket developed to send the Russian moon in its orbit around the world came from the same research which developed intercontinental missiles.

New Era In Science

LONDON, Oct. 5 (AP)—A top Soviet physicist said tonight Russia's earth satellite is expected to reveal detailed information about flying meteors threatening space travel by human beings.

Radio listeners throughout the Soviet Union were told: "We are witnessing a new era in science, a tremendous step closer to the realization of the dream of many novelists—interplanetary travel."

Scout

Dr. Bryan W. Sul Ross S. plane, is to be 10th annual f of the Buffal Council. He as usual at Ranch in the The barbecue to 6:30 p.m. session will be elect will speak at fire program event, along side "flame to S. G. Palante ecutive.

Scout Speaker

Dr. Bryan Wildenthal, president of Sul Ross State College at Alpine, is to be the speaker at the 10th annual fellowship barbecue of the Buffalo Trail Boy Scout Council. The event will be held as usual at the Boy Scout Ranch in the Davis Mountains. The barbecue is set from 5 p.m. to 6:30 p.m., followed by a business session at which officers will be elected. Dr. Wildenthal will speak at the colorful campfire program which climaxes the event, along with a mountain-side "flame tableau" arranged by S. G. Painter, Odessa Scout executive.

Farm Prospects Most Favorable In Many Years

COLLEGE STATION, Oct. 5 (AP)—Texas farmers and ranchers are entering the fall with the most favorable conditions in years, the Agricultural Extension Service said today.

"Generally, there is moisture for land preparation, planting and growth of fall and winter crops and for grass growth for livestock," Director John Hutchinson said. "Some areas still need rain, but a lack of it means favorable harvest conditions, especially in the South Plains. Too much rain in the Gulf Coast area has caused a delay and some loss to rice farmers."

Ranges are improving for livestock already in fair to good condition, and another cutting of hay is assured in many sections. The first frost date is normal, he added.

The harvest extends from finishing-up in South Central and Central Texas to full speed in North Texas and the Far West, and beginning of the bumper crop of grain sorghum and cotton in the South Plains and Panhandle.

South Plains topsoil is getting dry, but there is still some sub-moisture for maturing cotton and sorghum.

It has been ideal in the Panhandle for late sorghum and cotton but it's getting dry for wheat and pastures. Cattle are in good condition.

Light rains east of the Pecos in far West Texas improved surface moisture and have helped ranges. The sorghum and ensilage harvest is in full swing and small grains are planted with some up. Ranges and livestock are in fair to good shape.

North Texas conditions are excellent for small grain. Some acreage is up. Most cotton yields are good.

As the cotton harvest in Central Texas moves slow, land preparation is on for fall grain planting. Moisture has improved much in the Brownwood area. The peanut crop looks good, but the pecan crop looks light.

The Rolling Plains needs more moisture for planting small grain and for seedlings now up but making slow growth. The cotton harvest is increasing with yields average or above. The sorghum harvest is in full swing.

Edwards Plateau ranges are improving for livestock now in fair to good condition. The cotton harvest moves along in Coke, San Saba and Taylor counties. Tom Green County pastures are dry, but livestock is in good shape. The pecan crop looks very promising. Good rains fell in the Gillespie - Kerr - Kendall - Mason counties area.

Winter legumes and small grain acreage in Northeast Texas is about half planted. Some is up, and moisture is adequate for growth.

Big Spring Student Has Role At H-SU

R. B. Hall, senior from Big Spring, will be the student music director for Life Commitment Week at Hardin-Simmons University this week.

He will have a part in the music worship at services twice a day this week at Abilene. The Rev. Avery Lee, Ruston, La., well-known speaker and author of several books, will be the principal speaker.

Names Confusing In Wright Theft Case

Similarity of names has occasioned Mr. and Mrs. Lee Roy Wright some confusion, they said Saturday, due to theft charges being lodged against a Leroy Wright. Mr. and Mrs. Lee Roy Wright (note two names instead of one) reside at route No. 1, Box 219, and of course are not connected at all with the case mentioned.

Supreme Court Under Fire But It's Not Exactly New

By **ARTHUR EDSON**

WASHINGTON, Oct. 5 (AP)—At a corner of the Supreme Court grounds, almost obscured by a fast-growing hedge, is a sign that reads: "No Roller Skating."

Yet sometimes in the evening youngsters who haven't seen the warning, or have chosen to ignore it, skate there anyway.

As the justices return to work Monday for another session, those skating youngsters seem almost symbolic of what has happened nationally.

Despite certain decisions by the court—particularly in the field of segregation—some state and local officials carry on as if they never heard a word it said.

Some hold up the decisions for all to see and say they will defy them, at least as long as they can.

Some, while accepting the court's authority, loudly insist that it is wrong.

Certainly the decision of May 17, 1954—that segregation is unconstitutional in public schools—brought fierce criticisms and violent reactions.

But other verdicts have drawn fire too.

Critics have pointed out that as a result of court actions:

1. A rapist, some second-team Communist and two Army wives who killed their husbands have been turned loose or granted new trials.
2. The Justice Department would have to give defendants pertinent evidence in the secret FBI files, a decision later modified by Congress.
3. Congress will have to be more specific in its questioning if it expects to see many bawdy witnesses convicted of contempt.
4. The President may hand an American soldier over to a foreign government for trial even though he was on duty when he allegedly violated the law.

Sample Comment

The list could be extended. But, for flavor, let's sample some comments.

"The Supreme Court must be curbed," said James P. Byrnes, once a justice himself. "power intoxicates men. It is never voluntary surrendered. It must be taken from them."

"A few good lawyers on the Supreme Court," Rep. Usher Brudick (R-N.D.) told the House, "would not do a bit of hurt at this time. No good lawyer who knew beans about criminal law would ever have signed the opinion."

And Sen. Norris Cotton (R-N.H.) said in a report to his constituents:

"The court has gone a long way to protect the wolf from Little Red Riding Hood."

Yet there have been cheers as well as boos. Take this burst of approval from a former dean of law, Sen. Wayne Morse (D-Ore.):

"In the inevitable march of history, we have reached the point where the Supreme Court has claimed the right of equality of justice under the 14th and 15th amendments."

In effort to understand such different views, let's look briefly at the court's history.

Repeatedly the Constitution has meant something to one Supreme Court at one moment in history, and then, without a word of the Constitution being changed, it has meant something else to another court.

Charles Evans Hughes, who served two hitches on the high court, said: "We are under a Constitution, but the Constitution is what the judges say it is."

Nailed Down

During John Marshall's time as chief justice early in the 19th century, these points were nailed down, and they've stayed nailed, despite criticism, ever since.

1. The federal government is supreme over the states, although the exact boundaries remain in dispute, as recent events in Little Rock so dramatically showed.
2. The last word on what is and what isn't constitutional belongs to the Supreme Court.

Despite Marshall's great stature today, he was a villain to Thomas Jefferson, who led the anti-Federalist party. Here's how Jefferson sized up the Marshall court:

"An opinion is huddled up in conclave, perhaps by a majority of one, delivered as if unanimous, and with the silent acquiescence of lazy or timid associates, by a crafty chief judge, who sophisticates the law to his mind by the turn of his own reasoning."

Some crucial dates in the court's history:

- 1856—the Dred Scott case, involving the rights, if any, of a slave taken to free territory.
- Many Northerners, including a country lawyer named Abraham Lincoln, were concerned because the court held that no Congress could declare any U.S. territory free soil. Slavery, therefore, could spread anywhere.
- 1861-65—Civil War. In effect, it reversed the Dred Scott decision.
- 1895—By a 5-4 vote, court ruled income tax unconstitutional.
- 1902—Oliver Wendell Holmes named to court, to serve with wisdom and wit for 30 years.
- Holmes' view, as once expressed to Justice Harlan F. Stone: "About 75 years ago I learned that I was not God. And so, when the people want to do something I can't find anything in the Constitution expressly forbidding them to do, I say, whether I like it or not, 'Dammit, let 'em do it.'"
- 1896—Plessy vs. Ferguson. Court ruled 7-1 that no one's constitutional rights were violated if separate but equal facilities were provided for both white and colored races.
- 1913—16th Amendment adopted, permitting income taxes.
- 1933—Great industrial and economic contraction. Franklin D. Roosevelt was in the White House. Stage set for dramatic showdown, with FDR and Congress racing down an economic highway that would run smack into a court roadblock.
- 1937—Collision came off, as expected. Within three years, court nullified 12 acts of Congress, including some of the New Deal's most important legislation.
- Roosevelt came out for a comprehensive judicial reform, but most attention centered on that part wherein the number of justices would be increased. Fight was noisy, bitter.
- Congress rejected his so-called court-packing plan, but though Roosevelt lost the battle, he won the war. For Justice Owen D. Roberts, who had been voting with the conservatives, switched sides, and the ultraconservative Justice Willis Van Devanter retired at the end of the session.
- 1940—Court ruled it's okay for a state to expel children from public schools for refusing to salute the flag.
- 1941—Justice James C. McReynolds retired. Last of the old school. George Sutherland left in 1938. Pierce Butler died in 1939.

All had been staunchly conservative.

When the court reversed its 1918 stand and decided a child labor law was constitutional, there wasn't a dissenting vote.

1943—Court changed its mind about saluting. By a 6-3 vote, it said state statute compelling youngsters to salute flag is unconstitutional.

1954—Court decided 9-0 that segregation in public schools is unconstitutional.

1956-57—Court handed down series of decisions on civil rights. These narrow considerably what a city, state or federal government can do with individual liberties—and this holds true whether he's a convicted rapist or a convicted Communist.

Historical Paradox.

Justice Felix Frankfurter once said: "It is a fair summary of history to say that the safeguards of liberty have been forged in controversies involving not very nice people."

On civil rights, Chief Justice Earl Warren has sided fairly steadily with Hugh Black, William O. Douglas and, frequently, Frankfurter.

Now they have been joined by William J. Brennan and John Marshall Harlan. Charles E. Whitaker hasn't been on the court long enough to take part in many decisions.

Let's look at four cases decided at the tail end of the last session. These involved a former union official, Clinton E. Jencks; 14 Communists; two Army wives who had killed their husbands overseas; and labor organizer John T. Watkins, who had been found in contempt of Congress.

The court ruled against the government in each case, holding that some personal right had been violated and setting the convictions aside.

Warren, Black, Frankfurter and Douglas voted with the majority all four times. Three times they were joined by Harlan and Brennan. Harold H. Burton went with the majority once. Only Tom Clark dissented in all four cases.

All right, you may say. So the court has changed frequently. So these changes have brought protests from those who disagreed. So the present court seems increasingly conscious of personal rights. But that's history. Where do we go from here?

Only one prediction seems safe: In view of what happened last session, the court doesn't appear likely to switch directions soon on civil rights. And on the hottest issue of all, segregated public schools, the court spoke unanimously three years ago, and hasn't budged a syllable since.

ARKANSAS RAZORBACKS SLAP DOWN TCU PURPLE, 20 TO 7

LITTLE ROCK, Ark., Oct. 5 (AP)—Arkansas rode the speed and power of halfback Donnie Stone and fullback Gerald Nesbitt to a 20-7 Southwest Conference football victory over Texas Christian here tonight before a capacity crowd of 37,000.

Arkansas, after a fumbling start, showed both poise and power in overcoming a tricky TCU team that last week upset Ohio State 18-14.

TCU halfbacks Jimmy Shofner and Marvin Lasater were outstanding playing against a lighter but superior line.

The Razorbacks emerged from the conference opener a real threat in the title race.

Both teams scored in the first period with Arkansas turning a TCU fumble on the Horned Frog 19 into a touchdown.

Shofner scored the touchdown around end from seven yards out and fullback Jack Spikes kicked the point.

Arkansas, getting superior blocking in the line, scored again in the second period and late in the fourth.

Nesbitt crossed the goal line from four yards out, ending an 8-play drive that had moved the ball 74 yards in the second.

Stone's center line burst for 23 yards and again for 19 provided the momentum, Nesbitt converted.

Quarterback Don Christian, whose passing in the clutch aided the Arkansas ground game, ran the third Razorback touchdown from the three. The point try by Nesbitt was wide.

Arkansas used quick kicks by Nesbitt, standing in his normal fullback position, to keep the Horned Frogs off balance.

Bud Bridges was a tower of strength in the Big Spring line, Kenny Johnson, Benny Edwards and Roy Deel were others who played outstanding defensive ball for the Dogies.

In the previous meeting of the two clubs, Big Spring won a 25-0 decision.

The Big Spring 8th Graders shaded the 7th Graders, 19-2, in a preliminary game.

Benny Pitzer, Jerry Tucker and Ken Eubanks scored touchdowns for the 8th Graders. Tucker ran 60 yards for his tally.

The 8th Graders led, 19-0, at halftime. The 7th Graders picked up their safety in the fourth quarter.

The 7th Graders got down to the 8th's one-foot line in the fourth but fumbled.

EVANSTON, Ill., Oct. 5 (AP)—A flashing pair of halfbacks, Earmel Durden and Joe Francis, accounted for all of Oregon State's touchdowns today to lead the Pacific Coast Conference champions to a 22-13 victory over penalty-plagued Northwestern.

Oregon State piled up a 15-0 margin before Northwestern broke loose behind quarterback John Talley and halfback Ron Burton, sophomores from Delaware, Ohio, and Springfield, Ohio, respectively.

BY 27-21 TAB Gamecocks Upset Texas Longhorns

AUSTIN, Oct. 5 (AP)—A veteran, alert South Carolina team capitalized on two skimpy punts by Texas to drive for two touchdowns in the fourth quarter and an amazing come-from-behind 27-21 win here tonight.

Texas stacked up an impressive 21-7 lead going into the fourth quarter on the basis of two short touchdown heaves by versatile quarterback Walt Funder and a 20-yard scamper by sophomore surprise Rene Ramirez.

But the Gamecocks fought back with six points on a 50-yard drive capped when shifty running Alex Hawkins wriggled in from the one.

But the kick was blocked and some 38,500 fans in Memorial Stadium breathed a little easier.

The Gamecocks then shackled Texas and alternate quarterback Bobby Lackey's punt was straight up at the 43-yard line.

AUSTIN, Oct. 5 (AP)—A veteran, alert South Carolina team capitalized on two skimpy punts by Texas to drive for two touchdowns in the fourth quarter and an amazing come-from-behind 27-21 win here tonight.

Texas stacked up an impressive 21-7 lead going into the fourth quarter on the basis of two short touchdown heaves by versatile quarterback Walt Funder and a 20-yard scamper by sophomore surprise Rene Ramirez.

But the Gamecocks fought back with six points on a 50-yard drive capped when shifty running Alex Hawkins wriggled in from the one.

But the kick was blocked and some 38,500 fans in Memorial Stadium breathed a little easier.

The Gamecocks then shackled Texas and alternate quarterback Bobby Lackey's punt was straight up at the 43-yard line.

Texas drove to the 29 and again to the six before a third drive paid off with a score. Bob Bryant, the Steers' glue fingered end, took a pitch from Lackey for 19 yards and a first on the 25. George Blanch smacked to the 20. Then Ramirez scored a big hole in the left side and sprinted for the score.

In the second period, Lackey again found Bryant crossing over and a 44-yard pass and run play resulted. The Steers picked up a first on the two but found it four from the eight when Funder spotted sophomore end Richard Schulte in the end zone and connected.

New York Giants Sneak By Flock

PHILADELPHIA, Oct. 5 (AP)—The New York Giants converted a blocked punt and an intercepted pass into a pair of touchdowns tonight, posting their first National Football League victory of 1957, a 20-0 decision over the winless Philadelphia Eagles before 28,342 fans at Connie Mack Stadium.

Trailing 10-7 early in the second quarter, Andy Robustelli, a seven-year-veteran of pro play, flashed through the Eagles defense to block an attempted punt by Jerry Norton. The ball rolled out of bounds on the Philadelphia 1. Alex Webster bolted across on the next play.

Ben Agajanian converted the first of his three points after touchdowns and the Giants were ahead to stay.

Cleveland Browns Kayo Pittsburgh

PITTSBURGH, Oct. 5 (AP)—Three field goals and two conversions by Lou "The Toe" Groza and touchdown passes by Chet Hanulak and Tommy O'Connell tonight gave the Cleveland Browns a 23-12 victory over the Pittsburgh Steelers and undisputed possession of first place in the Eastern Conference of the National Football League.

Groza kicked his eight-year field goal total to 108 with boots of 29, 43 and 14 yards in the second, third and fourth quarters respectively.

Hawkeyes Wheeze To 20-13 Victory

IOWA CITY, Iowa, Oct. 5 (AP)—Iowa's flu-weak football forces wheezed to a 20-13 victory over Washington State today.

Iowa, crowded hard by the West Coast team, broke out of a 13-13 tie with four minutes left in the fourth period.

The Hawks, who at one time early in the week had 27 players affected by the flu, took quick advantage of a recovered fumble for the victory drive.

Eugene Creech (52) of Sweetwater goes after a ball fumbled by Buddy Barnes, on the ground at left. In the above picture, snapped during the Mustang-Big Spring game in Sweetwater Friday night, Gale Kilgore (85) of Big Spring makes a game try for I. Sweetwater won, 26-6.

Baylor Is Upset By Miami, 13-7

MIAMI, Fla., Oct. 5 (AP)—Little Fran Curci, 152-pound quarterback, sparked Miami's Hurricanes to a surprising 13-7 victory over Baylor tonight before 41,160 football fans in the Orange Bowl.

The Hurricanes struck for touchdowns in the first and second periods and fought off a late Baylor threat in the final period as the home team completely outplayed the Texans on the ground.

Curci, 5-foot 9 sophomore, pitched out to Capt. John Varone for 10 yards and Miami's first touchdown with 6:41 left in the first quarter, the drive carrying 63 yards in 10 plays. Varone converted to make it 7-0.

Ten Miami plays carried 59 yards and the Hurricanes scored again, this time Curci pitching out to Varone on the eight yard line. Charles Horton blocked Varone's attempted conversion kick and Miami led, 3-0 at halftime.

Baylor's touchdown was set up when a blocked kick gave the Bears possession on Miami's 20. Doyle Traylor passed to Earl Miller for the score and Arthur Beall converted to make it Miami 13, Baylor 7, with 10:34 left in the third quarter.

Miami moved down to the Baylor 27 where the drive stalled and when Baylor couldn't advance.

Georgia Bulldogs Yield To Michigan

ANN ARBOR, Mich., Oct. 5 (AP)—Michigan's ball-hawking Wolverines crumbled Georgia's sophomore-studded Bulldogs 26-0 today in an intercollegiate football clash witnessed by 85,002 spectators in sun-baked Michigan Stadium.

The 10th ranked Wolverines, led by a war veteran halfback and a sophomore signal caller, turned the thrice-beaten Georgia team into a sputtering, ineffective machine that never clicked for a sustained drive.

Stan Noskin, a daring little sophomore quarterback from Chicago, split the signal calling duties with veteran quarterback Jim Van Pelt and scored two touchdowns in the first half on short line plunges.

Mike Shatusky, a 26-year-old Korean War veteran who is fighting a 19-year-old sophomore for his first string job, also scored twice. He went 56 sensational yards with an intercepted pass in the second period and ripped over tackle on a six-yard touchdown spurt in the final period.

Oklahoma Wins But Given Tussle By Iowa Staters

NORMAN, Okla., Oct. 5 (AP)—A wobbly Oklahoma football team obviously off stride after a bout with the flu, caught a stubborn Iowa State eleven today. It wasn't until the late stages of the Big Eight Conference contest that the Sooners were able to finally pull away with a 40-14 victory.

Oklahoma, nation's No. 1 team, won its 42nd straight game but it was the Sooners' second team that showed the spark which marked the previous triumphs. The alternates made two late touchdowns.

It was the first time since 1951 a Cyclone team was able to score against the Sooners.

Both Iowa State touchdowns, one in the second quarter and Oklahoma led 19-0, and the second with less than a minute left in the game, were on passes by halfback Dwight Nichols.

He pitched the first to Gale Gibson for 18 yards and the second nine yards to end Brian Dennis. Starting quarterback Carl Dodd made two of Oklahoma's six touchdowns with the others contributed by Clendon Thomas, David Baker, Jackie Sandefor and Bobby Boyd.

Steer Bobble

MIAMI, Fla., Oct. 5 (AP)—Little Fran Curci, 152-pound quarterback, sparked Miami's Hurricanes to a surprising 13-7 victory over Baylor tonight before 41,160 football fans in the Orange Bowl.

The Hurricanes struck for touchdowns in the first and second periods and fought off a late Baylor threat in the final period as the home team completely outplayed the Texans on the ground.

Curci, 5-foot 9 sophomore, pitched out to Capt. John Varone for 10 yards and Miami's first touchdown with 6:41 left in the first quarter, the drive carrying 63 yards in 10 plays. Varone converted to make it 7-0.

Ten Miami plays carried 59 yards and the Hurricanes scored again, this time Curci pitching out to Varone on the eight yard line. Charles Horton blocked Varone's attempted conversion kick and Miami led, 3-0 at halftime.

Baylor's touchdown was set up when a blocked kick gave the Bears possession on Miami's 20. Doyle Traylor passed to Earl Miller for the score and Arthur Beall converted to make it Miami 13, Baylor 7, with 10:34 left in the third quarter.

Miami moved down to the Baylor 27 where the drive stalled and when Baylor couldn't advance.

Hill Propels Owls To Win

HOUSTON, Oct. 5 (AP)—King Hill, 204-pound three-sport letterman, scored one touchdown, passed 75 yards for another and set up a third on a 44-yard run tonight in leading the Rice Owls to a 34-7 intercollegiate football victory over the Stanford Indians.

Hill joined with Frank Ryan, another senior quarterback, in keeping the Rice offense running smoothly as the Owl defense stopped the injury-riddled Stanford offense cold until late in the final period.

Only a five-point favorite over the Pacific Coast Conference eleven that earlier had beaten San Jose and Northwestern, Rice rolled up an impressive 583-yards on the ground and through the air and saw a fumble and a pass interception stop two other scoring threats.

Rice scored on drives of 68, 77, 93, 65 and 70 yards. Stanford was unable to move beyond the Rice 35 until halfback Rick McMillen scored from the six to climax a 67-yard drive in the final period.

Fullback Raymond Chilton scored from the three in the first period for Rice and Hill hit end

Houston Cougars Eke Out Victory

CINCINNATI, Oct. 5 (AP)—Houston's Cougars opened defense of the Missouri Valley Conference championship tonight eking out a 7-0 victory over Cincinnati.

Cincinnati's Bearcats stifled the Houston offense until deep in the final period when fleet halfback Harold Lewis gathered in a punt and raced 32 yards to the Bearcat 25, setting up the single score.

In five more plays, the Cougars sent halfback Claude King scampering around right end for five yards and the score. Sam Blount's conversion kick was good.

Cincinnati drove to the Cougar 8-yard-line in dying minutes of the game, but the threat was nipped when Billy Ray Dickey intercepted a pass.

game, were on passes by halfback Dwight Nichols.

He pitched the first to Gale Gibson for 18 yards and the second nine yards to end Brian Dennis. Starting quarterback Carl Dodd made two of Oklahoma's six touchdowns with the others contributed by Clendon Thomas, David Baker, Jackie Sandefor and Bobby Boyd.

Sandefor's touchdown was on an 81-yard punt return.

Dodd also converted twice, and Baker and David Rolle each kicked an extra point.

The victory started Oklahoma toward a 10th straight Big Eight Conference title and made it 60 games in league play without a defeat.

K-State Nipped

MANHATTAN, Kan., Oct. 5 (AP)—Nebraska made the most of Kansas State mistakes and opened its Big Eight Conference football campaign with a 14-7 victory today—its first triumph of the season.

PLAYOFF

Houston (TL) 5, Atlanta (RA) 3, Houston leads best-of-seven series 3-2.

Over Lamesa

Shorthorns Grab 7 To 6 Thriller

Terry Stanley split the uprights with the extra point that provided the Big Spring B team with a spine-tling 7-6 victory over the Lamesa reserves in a football game played here Saturday night.

The victory was the Shorthorns' second of the season over the improved Lamesa club and their third of the campaign. They have lost one.

The locals were held at bay until the last 30 seconds of the game, when quarterback Donnie Everett sneaked over from the one-foot line at the end of a 60-yard drive.

Ronnie White and Scotty Ellison ripped off nice gains in that particular march while 20-yard pass play from Ken Cox to Jim Rosson. Rosson walked a tight-rope up the sidelines on his way to the score. Lamesa tried to power over the point and failed.

Bud Bridges was a tower of strength in the Big Spring line, Kenny Johnson, Benny Edwards and Roy Deel were others who played outstanding defensive ball for the Dogies.

In the previous meeting of the two clubs, Big Spring won a 25-0 decision.

The Big Spring 8th Graders shaded the 7th Graders, 19-2, in a preliminary game.

Benny Pitzer, Jerry Tucker and Ken Eubanks scored touchdowns for the 8th Graders. Tucker ran 60 yards for his tally.

The 8th Graders led, 19-0, at halftime. The 7th Graders picked up their safety in the fourth quarter.

The 7th Graders got down to the 8th's one-foot line in the fourth but fumbled.

EVANSTON, Ill., Oct. 5 (AP)—A flashing pair of halfbacks, Earmel Durden and Joe Francis, accounted for all of Oregon State's touchdowns today to lead the Pacific Coast Conference champions to a 22-13 victory over penalty-plagued Northwestern.

Oregon State piled up a 15-0 margin before Northwestern broke loose behind quarterback John Talley and halfback Ron Burton, sophomores from Delaware, Ohio, and Springfield, Ohio, respectively.

Tarheels Upset Middies, 13-7

CHAPEL HILL, N. C., Oct. 5 (AP)—North Carolina turned a recovered fumble and an intercepted pass into touchdowns today to upset sixth-ranked Navy 13-7 today before a wildly cheering crowd of 25,000.

The impressive victory gave Coach Jim Tatum's Tar Heels a big lift back up the football ladder.

Navy's vaunted offense, which had crushed Boston College and William and Mary, was held in check by a tight Tar Heel defense until early in the final period when halfback Harry Hurst, of Paulsboro, N. J., scored from the 1 to climax a drive that carried from Navy's 27. Ned Oldham kicked the extra point.

The once-beaten Tar Heels scored in the first period after Emil De Caris of Scranton, Pa., recovered a fumble by Oldham on Navy's 27. Nine plays later quarterback Dave Reed plunged over from the 1. Fullback Bob Shupin converted.

Texas drove to the 29 and again to the six before a third drive paid off with a score. Bob Bryant, the Steers' glue fingered end, took a pitch from Lackey for 19 yards and a first on the 25. George Blanch smacked to the 20. Then Ramirez scored a big hole in the left side and sprinted for the score.

In the second period, Lackey again found Bryant crossing over and a 44-yard pass and run play resulted. The Steers picked up a first on the two but found it four from the eight when Funder spotted sophomore end Richard Schulte in the end zone and connected.

Bears Vanquished By Colts, 21-10

BALTIMORE, Oct. 5 (AP)—The Baltimore Colts tried for a touchdown instead of a tying field goal, got it and went on to defeat the Chicago Bears 21-10 today before 46,558 fans.

It was the second straight defeat for the defending champions in the Western Division of the National Football League. The Colts won their second game without a defeat.

The turning point came in the third period with the Bears leading 10-7. The Colts were on the Chicago 8-yard line, needing three for a first down but they gambled for the works.

Quarterback John Unitas, shaking off an earlier injured leg, shot a jump pass to end Jim Mutschler, who held it over the goal after first juggling the ball.

Orangemen Win

SYRACUSE, N. Y., Oct. 5 (AP)—Syracuse scored in each quarter as it defeated a scrappy Boston University football team 27-20 before 16,000 spectators here today.

AGGIES FLATTEN MISSOURI BENGALS BY 28-0 COUNT

By SKIPPER PATRICK
COLUMBIA, Mo., Oct. 5 (AP)—Texas A&M's magnificent Aggies made routine work out of Missouri's game but outmanned Tigers 28-0 today in an inter-sectional football game before 26,250 fans.

It was the Texans' third victory of the season and their 13th successive game without a loss. A&M, the nation's fifth ranked team, scored two touchdowns in the second quarter and two in the third.

Fullback Dick Gay leaped the last foot on a 69-yard drive for the first touchdown early in the second period. Sophomore quarterback Charles Milstead converted, just as he did on all four chances he had today.

The Aggies got their second touchdown on a six-yard pass from Milstead to halfback Roddy Osborne. That one climaxed a 65-yard drive and the Aggies led 14-0 at the half.

While the Texans had to grind hard for their first half touchdowns, they got the jobs done a bit more easily in the third period. Halfback Bobby Conrad ran back the second half kickoff 91 yards. The fourth- and final touchdown, a six-yard pass from Osborne to end Bobby Marks, came with 11 minutes and eight seconds remaining in the third quarter.

Missouri's most serious scoring threat faded on the Aggies' 10 in the fourth period. A drive that started at mid-field stopped when Tiger end Dale Pidoock dropped a pass from Phil Snowden in the Aggie end zone. The Aggies recovered a fourth down Tiger fumble on the next play.

Coach Paul (Bear) Bryant's Aggies rolled up 254 yards on the ground while limiting Missouri to 98. A vicious defense, led by tackle Charles Krueger, made the going extremely difficult for Missouri.

The Tigers, who lost their first game after a tie with Vanderbilt and a victory over Arizona, didn't move well until the last quarter when a passing attack from Snowden to halfback Charley James posed a mild threat.

James had all four Missouri interceptions. He lost one, made on the Aggies' 25-yard line, because of an off-side penalty.

Conrad, thanks to his 91-yard kick-off return, was the most productive Aggie of the day. He picked 92 yards on 13 rushes and caught one pass for 13 yards.

The Aggies worked hard for all their yardage. Except for Conrad's 91-yarder there were no long gains by either club.

Scott On The Loose

Jimmy Evans (11) and Billy Bob Lewellen (24) give chase as Eddie Scott (33), fleet Sweetwater back, contributes a long gain to the Mustang cause in the above picture. Sweetwater won, 26-6.

Methodical Blue Devils Win

DURHAM, N. C., Oct. 5 (AP)—Duke's methodical Blue Devils, held to a one touchdown margin since early in the game, ground out a second score with only seven seconds left to defeat a stubborn Maryland team, 14-0 here today.

A crowd of 25,000 saw the Blue Devils rack up their third straight Atlantic Coast Conference victory. The Blue Devils scored in 12 plays the first time they had the ball and it appeared they were off to another one-sided triumph. However, Duke's mistakes and Maryland's stubborn line forced the Blue Devils to go scoreless for two quarters.

The final Duke score came at the end of a drive that began on the Duke 21. They scored 16 plays later when halfback Wray Carlton passed to George Dutrow in the end zone from two yards out.

The first Blue Devil drive covered 74 yards and was featured by a pass from quarterback Bob Brodhead to fullback Hal McElhaney which covered 33 yards and ended on the Maryland 1. Carlton plunged over for the score.

Carlton, a junior, also kicked both of Duke's extra points.

A miscue, rare for the Blue Devils' machine, gave Maryland a scoring chance that fell short in the second period. Brodhead fumbled a Maryland punt and guard Bob Breedlove covered it for the Terps on the Duke 41.

Maryland moved to the Duke 20. However, the Terps missed two chances to make first downs by less than one foot and Duke took over.

Hoosiers Fall To Notre Dame

SOUTH BEND, Ind., Oct. 5 (AP)—Notre Dame sent four different backs across Indiana's goal line and blanked the Hoosiers 26-0 today. The Irish have two victories in two starts, matching their successes in the school's worst-in-history season last year.

The Notre Dame defense, which stopped Purdue last week in a 12-0 Irish victory, held Indiana to 12 yards by rushing in the first half and 84 altogether. Notre Dame picked up 253 yards on the ground and 65 in the air.

Halfbacks Dick Lynch, Charles Lima and James Just and quarterback Bob Williams scored for the Irish on short runs. All are 190-pounders except Lynch, who is 180.

Nick Pietrosante, 210-pound fullback, didn't score but continued his hard running of the Purdue game and wound up with 47 yards in 11 tries and just 35 in five rushes.

Notre Dame drove 54 and 27 yards for the Lynch and Lima one yard touchdowns in the first quarter. Williams sneaked a foot for another in the second period in a 45-yard push that included a 14-yard pass from Frank Reynolds to Lynch. Just ran six yards for the last touchdown 12 seconds before the gun.

Sophomore Don White kicked two extra points.

By JACK HAND
MILWAUKEE, Oct. 5 (AP)—Tony Kubek, a 20-year-old Milwaukee boy, ruined his home town's first World Series game today with two home runs in a sobering 12-3 New York Yankee victory over the Braves.

The rangy crewcut, who played five positions for the Yanks in his rookie year but hit only three homers in 127 games, drove in four runs with his two blasts into the right-field bleachers.

Mickey Mantle also deepened the gloom with his ninth series homer, a 400-foot drive into the bullpen after Kubek singled in the fourth inning.

Six Milwaukee pitchers, starting with Bob Buhl, eased the Yanks' way with 11 walks as New York took a 2-1 series lead by romping to this lopsided triumph in the third game of the best-of-seven competition.

It had been a cold, gray afternoon and the lights were burning through the heavy gloom when the 45,804 wandered out of County Stadium after the 3-hour, 18-minute marathon.

Henry Aaron, whose two-run homer rekindled hopes in the fifth by making the score 7-3, left eight Braves on base. The National League homer and runs-batted-in champ failed with three on in the second and sixth and two on in the first.

Bob Turley was almost as ineffective as Buhl in this heralded duel of bullet-throwing righthanders. He walked four and allowed three hits before Casey Stengel brought in Don Larsen in the second.

Larsen pitched as though he were still throwing that perfect game of 1956. He blew down the first seven Braves he faced, running his two-year series string to 34 consecutive batters, before Johnny Logan hit a two-strike single to center in the fifth. Aaron then came along with his homer, but that was all.

The big fellow, whom his Yankee mates call Gooney Bird, wobbled briefly in the sixth when two singles and a walk loaded the bases but Jerry Lumpe threw out Aaron on a close play to snuff out the threat.

A total of 20 walks by the six Milwaukee pitchers and two Yanks set a series record. The old mark was 16, set by the Yankees and Giants, Oct. 2, 1936.

However, the Yank staff walked 11 Dodgers just a year ago today in the longest nine-inning series game ever played — 3 hours and 26 minutes. Milwaukee's wild men passed 11 today and the Yanks gave up nine bases on balls.

Kubek, whose father used to play ball for the Milwaukee Brewers in the American Association against Stengel's Toledo team, started this wild scoring spurge. He hit Buhl's third pitch into the right-field seats in the very first inning.

Walks to Mantle and Yogi Berra and a wild pickoff throw by Buhl set up another run on Gil McDougald's sacrifice fly that Aaron finally caught on his knees after stumbling Harry Simpson, first of three Yank first basemen, drove home Berra with the third run of that big first inning on a single off Red Schoendienst's glove.

Two more Yank runs came across in the third off Juan Pizarro, the 20-year-old Puerto Rican southpaw who had relieved starter Buhl in the first. Singles by Mantle and Berra and a walk to pinch-hitter Elston Howard loaded the bases with only one out. Jerry Lumpe, starting his first series game at third, singled off the lefthander to score both Berra and McDougald who had reached first while Mantle was being cut down at the plate on his grounder to third.

Gene Conley, the towering 6-foot-8 righthander, gave up the next pair in the fourth. Kubek's single and Mantle's home run did the trick. Mickey's smash reached the bullpen in center, his first homer since Aug. 30.

There seemed to be little wrong with Mantle on this fall afternoon. He walked twice, singled and homered before flying out.

Mickey's nine series homers moved him one ahead of Joe DiMaggio in the all-time class and tied him with Berra. Babe Ruth set the record of 15 and Lou Gehrig and Duke Snider each hit 10.

The Yanks closed out their big afternoon with five runs in the seventh against Bob Trowbridge who had only his own wildness to blame. Walks to McDougald, Jerry Coleman and Larsen filled 'em up with one gone and Hank Bauer singled home the first two. Kubek's second homer of the day, deep into the bleachers, brought Larsen and Bauer romping in ahead of him.

Kubek Hits Pace Yankees To Win

Bauer, incidentally, now has hit safely in 10 consecutive series games. He had a holdover string of seven from last year's jousting with Brooklyn.

Stengel named Tom Sturdivant, the top winner of his staff, to pitch tomorrow's fourth game. The 27-year-old righthander won 16 and lost 6 in regular season play.

Manager Fred Haney had announced before the game that Warren Spahn, the 35-year-old lefthander who bowed to Ford in the opener, would draw the Sunday assignment. It will be Lew Burdette in the Monday game.

means better things for you!

On a hill near Big Spring, Texas, stands one of the world's most modern oil refineries. . . In a setting that's rich in the history of ages past. . . Four miles away lies the spring for which the city was named. A century ago, it served armies of pioneers. . . people with the courage to forge a home where everything seemed against them. . . On the banks of a nearby creek are traces of ancient Indian camps. . . reminders of an early culture so ingenious as to create food, fuel, garments, and shelter—all from the buffalo. . . Far below the surface lie the remains of tiny organisms—plant and marine life that flourished a million years in the past—now transformed into oil. . . Today, Cosden blends the essence of these forgotten ages in a formula for progress: The foundation is oil from eons past. Ingenuity, too, is as important here today as it was to the moccasin lords of this land centuries ago. It provides the means to operate a giant refinery where many said water supplies were inadequate. . . The courage of industrial pioneers led Cosden to build the world's first fully-integrated Refiner, a unit now yielding gasoline blending stock above the 100-octane mark. And when Cosden recently expanded its chemicals division with a \$28-million styrene plant, it em- ployed a concept of styrene recovery completely new to the industry. This, too, took courage. Yet today, Cosden produces high-grade styrene through a bold process of fractionating mixed-xylene streams. . . Add to these the most advanced refining equipment of the present age, and you have Cosden. . . one of today's most modern refineries. Here on a hill near Big Spring, the past and present are combined to form better petroleum products for you. This is progress. . . and at Cosden, progress is part of the plan.

Write today for a free copy of Cosden's Annual Report to Shareholders — an up-to-the minute record of this company's spectacular growth. You'll find it interesting and informative.

COSDEN PETROLEUM CORPORATION
BIG SPRING, TEXAS

***america's number one
action medium . . .
the daily newspaper**

1. Every weekday an average of 57,000,000 copies of newspapers are sold in the U. S. — more than packs of cigarettes, quarts of milk, or loaves of bread.

2. People in the U. S. spend for their newspapers \$3,120,000 a day, \$25,851,000 a week, \$1,344,236,000 a year.

3. According to a Market Research Corp. of America study, on a typical day 88 per cent of America's homes receive one or more daily newspapers.

4. There is no "summer replacement" for newspapers. Monthly variations in circulation show virtually no change in newspaper circulation from season to season.

5. People like to read newspaper advertising. According to the Continuing Study of Newspaper Reading, men rank advertising third (just ahead of sports news); women rank advertising first.

6. The Continuing Study of Newspaper Reading also reveals that the average newspaper page, with both news and advertising on it, enjoys a median readership of 64 per cent by men and 73 per cent by women.

7. More than one-third of all ad money spent is invest-

ed in newspapers. In 1956 newspapers got \$3,305,000,000 — more than was received by radio, TV, magazines and outdoor combined — according to McCann-Erickson, Inc. Preliminary Estimate.

8. TV in the homes does not affect newspaper readership. Cunningham & Walsh's continuing study of "Videotown" reveals that newspapers alone of all major media remain unaffected by TV's arrival in the home.

9. Since 1940 newspapers have maintained a constant level of popularity. Newspaper circulation has virtually paralleled growth in U. S. households.

10. Newspapers are keeping modern. Over \$700,000,000 has been invested by newspapers in recent years to improve plants, equipment and product.

11. One of the most exciting innovations is color. As of February, 1957, 819 newspapers offered advertisers Color. The combined circulation of these papers exceeds 41,000,000.

12. The daily newspaper is the Number 1 Advertising Medium in America from every standpoint. It leads in revenue. It leads in audience. It leads in results!

Potential Underway On NE Howard Test

Potential test was under way this weekend at the Nortex Oil & Gas No. 1 Shafer, in the northeast corner of Howard County.

The Canyon strike is a mile southwest of production in the Vincent field, 660 feet from south and west lines, 30-25, H&T Survey, and about 20 miles northeast of Big Spring.

On the last test before taking potential, it flowed 663 barrels of oil in 14 hours through a 24-64-inch choke. Perforations in the Canyon extend from 7,516-21 feet.

Elsewhere in the county, two locations each have been staked in the Iatan East Howard and Howard-Glasscock fields.

Fleming, Fleming & Kimbell No. 5-K Denman is in the Iatan field eight miles south of Coahoma. Drill site is 2,310 feet from north and 990

and 330 from west lines, 87-29, W&N Survey. Drilling depth is 3,300 feet.

E. L. Wilson of Dallas has staked the No. 2-A H. B. Talbot in the Varel (San Andres) field eight miles northwest of Big Spring. Location is 330 feet from north and east lines, 26-34-2n, T&P Survey. Drilling depth is 3,300 feet.

Cosden No. 7 O'Daniel, in the Snyder field, went on pump this weekend. It is bottomed at 2,715 feet. The venture is in the Snyder field, 330 feet from south and 1,650 from east lines, 29-30-1s, T&P Survey, eight miles southeast of Coahoma.

Also in the Snyder field, Turner No. 3 M. Edwards drilled Saturday at 2,020 feet. The location is seven miles southeast of Coahoma, 1,650 from east and 330 from north lines, 32-30-1s, T&P Survey.

and 330 from west lines, 87-29, W&N Survey. Drilling depth is 3,300 feet.

E. L. Wilson of Dallas has staked the No. 2-A H. B. Talbot in the Varel (San Andres) field eight miles northwest of Big Spring. Location is 330 feet from north and east lines, 26-34-2n, T&P Survey. Drilling depth is 3,300 feet.

Cosden No. 7 O'Daniel, in the Snyder field, went on pump this weekend. It is bottomed at 2,715 feet. The venture is in the Snyder field, 330 feet from south and 1,650 from east lines, 29-30-1s, T&P Survey, eight miles southeast of Coahoma.

Also in the Snyder field, Turner No. 3 M. Edwards drilled Saturday at 2,020 feet. The location is seven miles southeast of Coahoma, 1,650 from east and 330 from north lines, 32-30-1s, T&P Survey.

Outlook For Winter Demand Not Bright

By MAX B. SKELTON
HOUSTON, Oct. 5 (AP)—Crude oil producers hope a heavy winter demand will ease problems of oversupply.

The outlook is not too encouraging. More heating oil is being held in storage than ever before. Neighs have been recorded the past three weeks. The annual peak prior to start of heavy winter demand normally is not recorded until early November.

Cutbacks in crude oil production allowances for October were expected to drop domestic output this week to about 6,600,000 barrels a day, compared to a record 7,900,000 in late March.

The October allowances prompted immediate adjustments in plans of two major crude purchasers.

Magnolia, the Texas subsidiary of Socony-Mobile, ended pipeline proration in Texas and Louisiana because of allowable cutbacks in those states. Proration will continue in Oklahoma, New Mexico, and Illinois.

Esso Standard reduced its Louisiana and Mississippi purchases 15 per cent in August. Esso said it hoped a heavy winter demand will permit its proration policies to be eased.

American Petroleum Institute statistics this week placed light fuel oil stocks at 169 million barrels, an increase of 7 million since a new all-time high was set the week of Sept. 13.

Phillips Petroleum Company will honor 414 long-service employees from 22 states and two foreign countries at dinners Thursday night and again on Oct. 15, in the Adams building auditorium at Bartlesville, Okla.

The dinners are a part of the Phillips program recognizing all employees who reach their 25th, 30th and 40th service anniversaries with the company and its subsidiaries.

Honorees at the October 10 dinner will be employees of the executive, engineering, legal, natural gasoline, purchasing, refining, supply and transportation departments and Phillips Chemical Company, wholly owned subsidiary of Phillips Petroleum Company; those at the October 15 dinner will be from the controllers, economics, employee relations, foreign, and geological, natural gas, production, research and development, sales and treasury departments, the New York office and the board of directors. Guests at the dinners will include wives or husbands of the honored employees.

Osborne will be in charge of all geological and geophysical operations for the company throughout the United States.

Before joining American Trading, Osborne was district geologist for Union Oil and Gas Corp. of Louisiana, having opened their operations in the Permian Basin in 1951. He also was with Tidewater.

Mr. and Mrs. B. O. McAlister, 404 Ayford, have returned from Wichita Falls where they attended the funeral of Mrs. McAlister's mother, Mrs. W. F. Gold. Mrs. Gold died Thursday after an illness of five years duration and was buried Friday. Mrs. Rex Greenwood, Big Spring, is a niece.

International Letter Writing Week is being observed today through Saturday.

Elmer Boatler, Big Spring postmaster, said this is the first year for observance of the "week" on an international scale although National Letter Writing Week has been celebrated in the U. S. each year since 1938.

Friday, Daniel Birdwell, 111 NW 2nd, and Roy Bridge, 407 Donley, were drivers of cars involved in an accident at 8th and Owens. In the 100 block of Main, Lawrence Holscher, Garden City, and Linda Redding, 2302 Nolan, were in an accident.

Also Friday, about \$250 damage was sustained by an electric pole at 3rd and Gregg, Texas Electric notified the police about the damage. No one was found who knew anything about the incident, however.

Auxiliary expenditures of \$49,067.31 showed \$6,590.89 for cafeteria, \$11,833.59 for athletics, \$16,577.31 for bookstore, \$3,547.92 for extra-curricular activities, \$3,769 for student publications and \$6,768 for other causes.

Capital expenditures and fixed charges stood at \$40,715.51. General fund bank balance was \$1,279.57 at the end of the year and the interest and sinking fund balance was \$9,622.87.

The statement was prepared by Dr. W. A. Hunt in compliance with a statute which requires administrators to prepare a financial summary at the conclusion of a fiscal year.

William F. Lowe has been named executive director and treasurer of the Natural Gasoline Association of America. Ronald E. Cannon will become secretary of the organization.

Lowe has been secretary-treasurer since 1934, and his reassignment reflects the tremendous growth and potential of the gas processing industry, said George T. Tennison, Houston, president.

DEEPEST TEXAS HOLE BELOW 21,000 FEET, STILL BORING

The deepest hole ever drilled in Texas is still deepening, and operator plans to drill until the Devonian is reached.

The record-breaking hole in Pecos County is Pan American Petroleum No. 1-C5 University, which at the end of the week was drilling below 21,103 feet. The latest application calls for tests to 21,500 feet.

Operator plans to deepen the hole until trouble develops in the hole or until the Devonian is reached. No trouble has developed yet.

Every foot drilled in seeking the possible pay sections adds another foot to the hole's record as the deepest project in the state.

The previous state record was held by Magnolia No. 418-A West Ranch in Jackson County, on the Coast. It drilled to 20,060 feet.

Location of the Pecos wildcat is 15 miles southeast of Fort Stockton, 660 feet from south and 1,980 from east lines of the north half, 27-23, University Lands Survey.

American Trading and Production Corp., has purchased production rights in the Gladiola field of Lea County, New Mexico, exploration and drilling program, and through the purchase of properties from other concerns.

The company maintains crude oil operations offices in Midland and Abilene, Texas, and has additional extensive activities, including the ownership and operation of a large tanker fleet. The concerns general offices are in Baltimore, Md.

The properties acquired by American Trading, for an unreported consideration, consist of the entire interest of Texas Crude in five 12,000-foot Devonian wells in the field, with net reserves estimated in excess of one-half million barrels of oil.

The Texas properties acquired by American Trading, for an unreported consideration, consist of the entire interest of Texas Crude in five 12,000-foot Devonian wells in the field, with net reserves estimated in excess of one-half million barrels of oil.

The Texas properties acquired by American Trading, for an unreported consideration, consist of the entire interest of Texas Crude in five 12,000-foot Devonian wells in the field, with net reserves estimated in excess of one-half million barrels of oil.

IN THE HOLE Natural Gas Underground Storage Is On Increase

By CHARLES HASLET
WASHINGTON, Oct. 5 (AP)—Underground storage of natural gas has proved beneficial both to consumers and the gas industry. The use of such storage is increasing.

This was reported today by the American Gas Assn. Officials cited figures showing an increase in natural gas storage centers in 1956 and said 1957 will show a further gain, particularly in the Northeast with its large population and big gas demands.

Underground storage permits natural gas pipelines serving the undergirding and storage and pipeline distributing lines along with that moving currently by pipeline from the supplying fields.

"In cold weather," an official said, "the storage is used to supplement what the pipelines can deliver and to take care of the demand when reserves are low."

The largest underground storage area is in Pennsylvania, association records show, with Ohio second. West Virginia, third and Michigan fourth. Illinois also has a large storage area.

Smaller storage areas exist in Texas, California, Kansas, Arkansas, Colorado, Indiana, Iowa, Mississippi, Missouri, Montana, New Mexico, Oklahoma and Wyoming.

Many of the present storage fields are old producing fields whose gas has been depleted.

Old wells are capped and new ones are drilled and the incoming gas from pipelines is forced through them by compression into the underground sands. Any water in the sands is forced out by the gas.

Personnel relations will be emphasized at the Oct. 28 morning session in the Journalism Building, Dr. Hugh Hoffman of Princeton, N. J., Opinion Research Corporation vice president, will discuss employee attitudes as revealed by surveys conducted by his firm. A panel presentation and general discussion will follow his talk.

Luncheon speaker will be James Patterson of Chicago, Standard Oil Company of Indiana public relations director. His topic will be "What They Don't Know Might Hurt You."

The Oct. 28 afternoon session will concern relations between the oil industry and government. Herman Pressler of Houston, Humble Oil and Refining Company board of directors member, will speak.

"How Can We Develop a Better System of Company Communications?" will be the Oct. 29 theme. Leader will be Daniel Rochford of New York City, Standard Oil Company of New Jersey management-employee communications director. He will speak on the topic "Improving Our Line of Communication." Fred R. Bellmar of Chicago, Crane Company publications director, will describe methods of making financial information interesting.

Hit-And-Run Mishap Reported Saturday

A hit-and-run accident was reported Saturday.

At the wagon wheel at noon, Margaret Galt, 1011 E. 13th, told police that a Buick hit her car. She had a 1952 Ford.

Friday, Daniel Birdwell, 111 NW 2nd, and Roy Bridge, 407 Donley, were drivers of cars involved in an accident at 8th and Owens. In the 100 block of Main, Lawrence Holscher, Garden City, and Linda Redding, 2302 Nolan, were in an accident.

Also Friday, about \$250 damage was sustained by an electric pole at 3rd and Gregg, Texas Electric notified the police about the damage. No one was found who knew anything about the incident, however.

Auxiliary expenditures of \$49,067.31 showed \$6,590.89 for cafeteria, \$11,833.59 for athletics, \$16,577.31 for bookstore, \$3,547.92 for extra-curricular activities, \$3,769 for student publications and \$6,768 for other causes.

Capital expenditures and fixed charges stood at \$40,715.51. General fund bank balance was \$1,279.57 at the end of the year and the interest and sinking fund balance was \$9,622.87.

The statement was prepared by Dr. W. A. Hunt in compliance with a statute which requires administrators to prepare a financial summary at the conclusion of a fiscal year.

William F. Lowe has been named executive director and treasurer of the Natural Gasoline Association of America. Ronald E. Cannon will become secretary of the organization.

Lowe has been secretary-treasurer since 1934, and his reassignment reflects the tremendous growth and potential of the gas processing industry, said George T. Tennison, Houston, president.

Sharon Ridge Well Finals

An Amarillo firm has completed another well in the Sharon Ridge 1700 field of Mitchell County.

Simms & Wagner No. 10 J. D. Fuller pumped 37.15 barrels of oil and 15 per cent water on 24-hour potential after 32,000-gallon fracture treatment. The well is four miles south of Ira, 330 feet from west and 890 feet from north lines of Section 24 & 9, O'Keefe Subdivision, Reiger Survey.

The hole extends to 1,730 feet, and top of the pay section is 1,655 feet. Four and a half-inch string is set at 1,730 and is perforated from 1,667-77 and 1,696-1,730 feet.

A Stockard-Smith drilled at 2,635 feet Saturday. The venture is being drilled by C. D. Turner.

Location is in Section 16-28-1n, T&P Survey.

Phillips Plans For Old Timers Party

Phillips Petroleum Company will honor 414 long-service employees from 22 states and two foreign countries at dinners Thursday night and again on Oct. 15, in the Adams building auditorium at Bartlesville, Okla.

The dinners are a part of the Phillips program recognizing all employees who reach their 25th, 30th and 40th service anniversaries with the company and its subsidiaries.

Honorees at the October 10 dinner will be employees of the executive, engineering, legal, natural gasoline, purchasing, refining, supply and transportation departments and Phillips Chemical Company, wholly owned subsidiary of Phillips Petroleum Company; those at the October 15 dinner will be from the controllers, economics, employee relations, foreign, and geological, natural gas, production, research and development, sales and treasury departments, the New York office and the board of directors. Guests at the dinners will include wives or husbands of the honored employees.

Osborne will be in charge of all geological and geophysical operations for the company throughout the United States.

Before joining American Trading, Osborne was district geologist for Union Oil and Gas Corp. of Louisiana, having opened their operations in the Permian Basin in 1951. He also was with Tidewater.

Mr. and Mrs. B. O. McAlister, 404 Ayford, have returned from Wichita Falls where they attended the funeral of Mrs. McAlister's mother, Mrs. W. F. Gold. Mrs. Gold died Thursday after an illness of five years duration and was buried Friday. Mrs. Rex Greenwood, Big Spring, is a niece.

International Letter Writing Week is being observed today through Saturday.

Elmer Boatler, Big Spring postmaster, said this is the first year for observance of the "week" on an international scale although National Letter Writing Week has been celebrated in the U. S. each year since 1938.

Friday, Daniel Birdwell, 111 NW 2nd, and Roy Bridge, 407 Donley, were drivers of cars involved in an accident at 8th and Owens. In the 100 block of Main, Lawrence Holscher, Garden City, and Linda Redding, 2302 Nolan, were in an accident.

Also Friday, about \$250 damage was sustained by an electric pole at 3rd and Gregg, Texas Electric notified the police about the damage. No one was found who knew anything about the incident, however.

Auxiliary expenditures of \$49,067.31 showed \$6,590.89 for cafeteria, \$11,833.59 for athletics, \$16,577.31 for bookstore, \$3,547.92 for extra-curricular activities, \$3,769 for student publications and \$6,768 for other causes.

Capital expenditures and fixed charges stood at \$40,715.51. General fund bank balance was \$1,279.57 at the end of the year and the interest and sinking fund balance was \$9,622.87.

The statement was prepared by Dr. W. A. Hunt in compliance with a statute which requires administrators to prepare a financial summary at the conclusion of a fiscal year.

William F. Lowe has been named executive director and treasurer of the Natural Gasoline Association of America. Ronald E. Cannon will become secretary of the organization.

Lowe has been secretary-treasurer since 1934, and his reassignment reflects the tremendous growth and potential of the gas processing industry, said George T. Tennison, Houston, president.

Borden Plug-Back To Try For Strawn

The Texas Co. will plug back an old well in the Fluvanna field of Borden County for attempts at completion from the Strawn while Amerada Petroleum Corp., announced completion of a well in the Jo-Mill field.

The plug-back try in Texas No. 1 C. J. Jones, it is 18 miles north and 660 from east lines, 534-97, H&T Survey. It completed originally from the Ellenburger in 1953 for a daily flowing potential of 167.29 barrels through a 20-64-inch choke.

The previous production was from perforations from 8,170-92, and operator will plug back to test above 7,800 seeking Strawn production.

In the Jo-Mill (Spraberry) field, Amerada No. 8 Mildred Bond fractured with 1,000 gallons and the pumped 168.76 barrels of oil and 20 per cent water in 24 hours. The well is seven miles northeast of Ackery, 660 feet from north and west lines, 28-33-4n, T&P Survey.

Spraberry production is reached at 7,450 feet and total depth is 8,000 feet. Oil string is set at 7,925, and perforations extend from 7,350-53 feet.

Gravity is 38.1 degrees, and gas-oil ratio reached 380-1.

Cosden Petroleum Corp., prepared to complete one well in Andrews County, Cosden No. 1 University, bottomed at 4,415 feet in the San Andres, ran casing to 4,335 feet and prepared to complete. The well is in the Martin Sand field in the southwest part of the county.

Cosden No. 3-D Post was going on pump this weekend. Total depth is 2,900 feet. The well is in Garza County. In the same county, Cosden No. 1-B Stoker drilled at 2,255 feet.

The Stoker, formerly the No. 5-A, is in the Rocker A field in the south part of the county.

In Gaines County, Cosden No. 1 Jones Ranch drilled at 7,851 feet in lime. The wildcat venture is about 20 miles northwest of Seminole and practically on the New Mexico line.

It is slated for Devonian tests to 13,000 feet.

Dawson Explorers Continue Drilling

Operators deepened two wildcat ventures in Dawson County this weekend.

At the Texas No. 1 B. E. Miller, about four miles southwest of Lamesa, operator drilled at 8,245 feet in lime and shale. The test is to go to 10,000 feet and is 1,979 feet from south and 660 from east lines, 17-36-5n, T&P Survey.

McFarland No. 1-2 Ray, a wildcat testing the Pennsylvanian in the Arvanna (San Andres) field, made hole at 7,838 feet in sandy lime. The venture is 1,980 feet from north and east lines, 2-35-6n, T&P Survey.

It is about five miles east of Lamesa and is slated for a 9,200-foot bottom.

Drilling Change Is On Program

DALLAS—Recent developments in drilling technology will be reported at the third general session of the American Association of Oilwell Drilling Contractors' 17th Annual Meeting in Tulsa, Oct. 13-15.

A three-part progress report on the AADC weight speed versus penetration study will lead off the technical program.

At the same session, E. A. Studer, chief engineer for the Baylor Company, Inc., Houston, will present a paper on "Applications of the Magnetic Coupling and the Magnet Particle Brake."

The weight-speed vs. penetration report will reveal the results of two series of controlled tests on drilling locations in the Dora Roberts field, Ector County, Texas. The tests, using special rotary current coupling devices designed to investigate normal weight and speed relationships. The object was to determine the possibility of arriving at the most efficient combination of weight on the bit and rotary speed for drilling in different formations in various areas.

The relatively new magnetically controlled drilling equipment to be discussed by Studer is now being used successfully on two offshore drilling units. The eddy-current coupling allows the use of up to 440-volt alternating current on synchronous motors in the drilling operation. It is reported that this system, using direct control equipment than direct current systems, utilizes better power control with lower power losses.

The magnetic particle brake is actually a positive brake, supplementing the conventional band-type brake, rather than a damping mechanism.

PITTSBURGH, Pa.—M. Wendell Ramsey has been appointed Pipe Line Coordinator for the Transportation Department of Gulf Oil Corporation. He will be responsible for planning, programming and coordination of Gulf's Pipe Line activities.

Ramsey replaces William J. Wilkins who recently was named president of Laurel Pipe Line Company. Ramsey joined Gulf in 1950 and in 1952, he was transferred to Houston, a assistant general manager of pipe line operations in United States and Canada. He returned to Pittsburgh early in 1955.

DISTRIBUTORSHIP OPPORTUNITY
 Man Or Woman Part Or Full Time
ASK YOURSELF THESE QUESTIONS:
 Do I make friends easily?
 Do I keep these friendships?
 Do I dislike pressure sales?
 Do I live here permanently?
 Do I keep my word on promises?
 Do I like to do outside work?
 Do I want my own business?
 Do I have one day a week free?
 Do I have \$175 to invest?
 Do I want a secure future?

IF YOUR ANSWER IS YES TO THE ABOVE QUESTIONS, THEN IT MAY PAY YOU TO APPLY FOR A MONEY-MAKING DISTRIBUTORSHIP WITH THE LARGEST AND MOST PROGRESSIVE SELF-SERVICE MERCHANDISING COMPANY IN THE USA.
 BRIEFLY: Our Distributor does not sell! He visits retail markets one day—once a week and SERVICES fast moving products which sell themselves on an exclusive new type "Automation Silent Salesman" merchandiser. This is NOT a vending machine.
 Earnings are consistent, dependable and large. This depends largely on the amount of time and effort you contribute. If you wish to place yourself on the applicant list, give us some facts pertaining to your reputation, character, integrity and community standing. Disclose this fully in your first letter.
 Write or wire at once to:
STOP 'N SHOP SELF SERVICE CO.

Go To Church Campaign Is Under Way

OFFICERS OF THE PASTORS' ASSOCIATION, in picture above, discuss plans for the activities during the month of October, when the group will emphasize Go To Church Month. Some of the churches are placing more importance on youth activities; some on Sunday School attendance; and some on visiting. One church will have a campaign on to "Fill A Pew," when members will endeavor to bring someone to church services. At left is the Rev. Gage Lloyd, pastor of the First Presbyterian Church, president of the association; the Rev. William Boyd, pastor of St. Mary's Episcopal Church, vice president; standing, the Rev. Ernest D. Stewart Jr., treasurer; and the Rev. Jack Ware of St. Paul Presbyterian Church, secretary.

NEW MEMBERS AND PROSPECTIVE MEMBERS will be visited by church groups during the Go To Church movement, which will be in progress during the month. It is being sponsored by members of the Pastors' Association. Mrs. H. G. Starr, in picture above, welcomes two callers, Mrs. L. D. Harris, center, and Mrs. Ollie Anderson. The Starrs moved to Big Spring from Forsan and have been here almost a year. There are three children, Tony, a senior in high school; Sharon, who attends the eighth grade; and Debbie, almost three years old. The family lives at 1909 Morrison Drive.

AMONG THE NEWEST MEMBERS of the First Christian Church are Mr. and Mrs. Don Wiley and Mark, who, in photo above, are being welcomed to services by the Rev. Clyde Nichols. The Wileys, who came here from Fort Worth, have lived in Big Spring about six months. Both work with the children in the nursery department of the Sunday School. Mrs. Wiley is a member of the Rosa Ann Parks Circle, and he is scoutmaster for Boy Scout Troop Six.

ALL KINDS OF TOYS in church nurseries attract youngsters and entertain them while their parents attend church services. There are cribs for "little bitty" babies, various scooters to ride and tables for books or coloring. In another room, there is a kitchen set-up, and, at one time, Ricky Elliott, 3½, on slide, spent all the period washing dishes. He is the son of Mr. and Mrs. George Elliott. Kellye Weaver, 20-month-old daughter of Mr. and Mrs. R. H. Weaver, prefers a wider range of movement than just a slide. Mrs. Lon Curtis, one of the nursery workers, is looking forward to busy times with the beginning of the Go To Church activities this month.

(Photos by Keith McMillin)

SPECIAL YOUTH ACTIVITIES are the order of the day at the First Baptist Church, but during October, more emphasis will be given to them. A youth banquet is planned for Oct. 15, with a banquet for Sunday School workers slated for Oct. 17. Other meetings will be the panel discussions set for the week of Oct. 20-27, when the revival will be held. Planning the music and the schedule for these meetings is the work of Wayne Nance, educational and music director, and Elreeta Crain, youth director, shown in picture at left.

BIG SPRING DAILY HERALD

SECTION C BIG SPRING, TEXAS, SUNDAY, OCTOBER 6, 1957 WOMEN'S NEWS

MR. AND MRS. THOMAS LEE WILLIAMS
... married 61 years today

Thomas L. Williamses Mark 61st Anniversary

Today Mr. and Mrs. Thomas Lee Williams are celebrating their 61st wedding anniversary.

The celebration will be in the form of a quiet dinner at the home of their daughter, Mrs. Leonard Manes. A big surprise to the couple was the arrival of two sons and their wives, Mr. and Mrs. T. E. Williams from Cement, Okla., and Mr. and Mrs. Jess O. Williams of Midland, who came for the occasion. Another daughter, Mrs. C. W. Dyer, and her family who reside here will join the party.

Comparative newcomers to Big Spring (they moved here in 1950) the couple left their oldtime friends when they moved away from Chickasha, Okla. They had lived there more than 25 years, during the time it was Indian Territory. Leaving Oklahoma, the family lived in Fort Worth, Dallas, San Antonio and Davine before moving here.

Williams spent his childhood year in Fort Worth, where he helped support his widowed mother by peddling wood from a cart pulled by two small black oxen.

The couple was married in Dallas on Oct. 6, 1896 and to the union were born 13 children. Ten survive and make their home in California, Oklahoma and Texas. Mrs. Manes and Mrs. Dyer are the only two who live in Big Spring.

At 82, Williams operates The Trading Post alone. The couple has living quarters in the rear of the store. Mrs. Williams, 76 years of

age, still reads her large print New Testament. She is a member of the First Assembly of God Church and attends regular services.

Every Girl Can Look Like A Queen

By DOROTHY ROE
The Associated Press

Every woman in America is going to be practicing royal gestures and trying out regal fashions this fall, as the inevitable result of the visit of Queen Elizabeth.

Fashion designers have been inspired by the royal jewels which England's young queen wears with such grace in her travels.

You'll be seeing rhinestone tiaras and coronets, big, splashy brooches and dramatic necklaces, all inspired by the royal jewels which England's young queen wears with such grace in her travels.

There are three big factors in the new royal trend, say members of the Fashion Coordination Institute, representing the jewelry industry in the United States. These are: Bulk, rainbow jewel colors and the comeback of big, dramatic pins for evening wear.

Necklaces use a pound of rhinestones, more or less; earrings dangle and glitter; pins for evening wear may be as big as saucers and sparkling with fake or even real rubies, emeralds, sapphires and the whole kit and caboodle of the crown jewel chest.

Especially notable in the fall lineup of dazzling evening jewelry will be hair ornaments of all kinds, ranging from combs to crowns, set with big, blazing sparklers, to make every woman feel like a queen.

The Whole Joint Is Jumping At Murphys'

By The Associated Press

Maybe you think you've seen everything. But have you seen a living room in which every article of furniture is wired to give you a massage?

Well, such a room is a current reality, not a science-fiction fantasy. You can buy four styles of easy chairs, with a sofa and a chaise longue with built-in "cyclo-massage" motors, to slenderize the whole family while they sit or recline.

The proud parents of this new line of "living furniture" are Mr. and Mrs. Owen K. Murphy, who bought the patents and set up a shop in a chicken house on their Adamsville, Pa., farm in 1949.

Now they have five manufacturing plants and expect to sell 25 million dollars' worth of their massage furniture this year.

Caraway Seed Adds To Steak Flavor

For a hearty main dish try flank steak seasoned with a good dash of caraway seed.

Score 2 lb beef flank steak, cut thin. Season with 1/2 teaspoon salt, 1/4 teaspoon ground black pepper, 1/4 teaspoon onion, 1/4 teaspoon celery salt.

Place 2 cups sage bread stuffing on steak and roll meat around it (going with the grain of the meat.) Fasten edges together with toothpicks and lace with string. Brown meat in fat.

Add 1/2 cup water and 1/4 teaspoon whole caraway seeds (or more to taste.) Cover tightly and simmer for about 2 hours or until

tender. Add more water from time to time if necessary. Remove steak to platter and strain seeds from gravy, if desired. Add a little more water to thin gravy to desired consistency and thicken with slightly more flour. Season with salt and pepper to taste. Serve over meat. Serves 5 or 6.

Art Guild Sponsors Exhibit

The art interest in the South Plains was revealed at the Panhandle-South Plains Fair held in Lubbock, Sept. 23-28, when 252 entries were received at the art department, Mrs. Boyce Irwin, South Plains Art Guild publicity chairman, has announced.

Towns represented in the entries were Muleshoe, Lamesa, Brownfield, Wolforth, Plainview, Whiteface, Floydada, Levelland, Tahoka, Sudan, Littlefield, Shallowater, Wilson, New Deal, Big Spring, Midland, Lubbock, Ft. Worth, as well as the New Mexico towns of Roswell, Clovis, Cowles and Hobbs.

The Guild has been in charge of the art department at the Fair since 1952. Mrs. A. R. Lawrence served as art superintendent this year, assisted by Mrs. Leon R. Upshaw and Mrs. A. R. Williams.

Organized in 1951, the Guild has as its objective the raising of the level of art appreciation and the encouragement of original work among painters and craftsmen in this area. Mrs. D. M. Everton, 2507 27th Street, Lubbock, is mem-

bership chairman; and Mrs. Meda Johnston, 2604 47th Street, Lubbock, is president.

Monthly meetings are held from September through May, with the exception of December. An annual painting workshop for both adults and children is held the first weeks in June with an outstanding guest instructor.

Among the other special activities of the year are art festivals, painting and drawing classes, festivals, demonstrations, studio tours, exhibitions and the Texas Fine Arts Association Art Round-up.

Try Broiled Bacon

Bacon that is broiled has fine flavor. Let the bacon stand at room temperature, then separate slices and place on a rack before you put them under the heat.

Sauerbraten Braise

Post roast for sauerbraten should be braised in part of its spicy marinade. The rest of the marinade may be used in the gravy for the meat.

Menu Given For School Cafeterias

This is the appetizing menu which will be served at the school cafeterias during the week:

MONDAY

Baked Ham Potota Salad

Sliced Tomatoes Butter

Hot Rolls Milk

Milk Chocolate

Fresh Apple Cake

TUESDAY

Chili Pot Pie

Tossed Green Salad

Cheese Biscuits Butter

Chocolate Milk

Chilled Prunes

THURSDAY

Salmon Croquettes

Lima Beans Turnip Greens

Cornbread Butter

Chocolate Milk

Pineapple Rice Custard

FRIDAY

Chicken and Dumplings

Green Beans

Vitamin Salad (Fruit)

White Bread Butter

Chocolate Milk

Flying Saucers

Leisure Togs

Today's at-home fashions are lavishly printed with a gay floral velveteen print for lounge separates. A belted overblouse tops sleek pants.

Time Saver

Individually sized casseroles are a treat for anyone, and particularly for busy homemakers who can cook several of these one-dish meals ahead of time and store them in the freezer.

Golf Group To Sponsor Youth Dance

A dance for the teen-age members of the Big Spring Country Club will be given at the club on Oct. 26, this was decided at a meeting of the Ladies Golf Association at a luncheon Friday.

Mrs. Frank Sabato, vice president, presided for the business meeting, in the absence of the president, Mrs. A. K. Turner Jr.

Mrs. R. E. McKinney reported on the plans for the dance.

Mrs. Sabato announced a golf tournament slated for Oct. 19 in Snyder and told of one to be held in Ozona.

Mrs. Ernest Dodson was introduced as a new member. Guests were Mrs. C. W. Grigsby, Mrs. Harvey Williamson of Amarillo, Mrs. David Hopkins and Mrs. Wendal Parks.

The buffet table was done in green with an arrangement of chrysanthemums in yellow and bronze. This was awarded as a prize to Mrs. Tom Ashley.

Guests were seated at tables laid with green cloths with runners of maize and pyracantha berries. Head table was marked with such a runner with an arrangement of coppered apples, bananas and lemons.

Jeweled Footnotes

Jewelry accents the dramatic new fashions as never before. Pins, scattered in unmatched clusters across a shoulder, highlight the starkly simple new sheaths, and the long-length necklace, often with a jeweled pendant, is an important "fill in" note to the new low, low necklines.

NEW SLANT

For Career Or Campus, Use Variety In Dickies

The wide collar and broad lapels on this Junior Sophisticates model by Anne Klein do a wonderful trick of sloping the shoulder, an appealing look in fashion this season.

A wonderfully simple dress for campus or career wear, it can be worn with a variety of dickies, either purchased or made from the pattern.

Choose tweed, smooth wool, gabardine, with linen or a self dicky for day time appearances; for parties—from teas to little dinners—it is charming in velvet or velveteen, broadcloth, faille or oxford with white or pastel contrast.

From this chart select the one

size best for you:

Size	Bust	Waist	Hips	Nepe of arm to waist
7	22 1/2	20 1/2	25 1/2	15 1/4
8	23 1/2	21 1/2	26 1/2	16
9	24 1/2	22 1/2	27 1/2	16 1/2
10	25 1/2	23 1/2	28 1/2	17
11	26 1/2	24 1/2	29 1/2	17 1/2
12	27 1/2	25 1/2	30 1/2	18
13	28 1/2	26 1/2	31 1/2	18 1/2
14	29 1/2	27 1/2	32 1/2	19
15	30 1/2	28 1/2	33 1/2	19 1/2

Size 13 requires 3/4 yards of 54-inch material for dress with long sleeves.

To order Pattern No. 3324, state size, send \$1.00. For new jumbo 96-page Pattern Booklet No. 14, send 50 cents—for ANNE KLEIN label, send 25 cents.

For air mail service in U.S.A. add 25 cents per pattern, 50 cents per booklet. Sales tax extra.

Address SPADEA, Big Spring Herald, Box 535, G.P.O., Dept. B-5, New York 1, N. Y. If paid by check, bank requires 4 cents handling charge.

MRS. J. A. FORREST
... busy with her third major hobby at 82

Versatile Octogenarian Keeps Busy With Third Major Hobby

By LUCILLE PICKLE
If busy hands make a happy heart, Mrs. J. A. Forrest, who is nearing 83 years of age, has one of the happiest as she busies herself with a third major hobby since reaching the age of 69.

When her daughter, Mrs. Fred Whitaker, began taking art lessons last February, Mrs. Forrest decided that she would also like to learn to paint in oils. She was not able to go for lessons so Mrs. Whitaker told her she would take her lessons and then in turn teach her what she had learned.

That worked out fine until Mrs. Forrest wanted to paint her favorite flower, a rose. Her daughter had never painted a rose or indeed anything but the simplest copies; at the insistence of her 'pupil' she learned to paint a rose.

Frustration set in when the elderly would-be artist couldn't make the petals curl. In fact she was frustrated to the point of tears because she couldn't work out her problem. Since she found that proper use of light and dark could achieve the effect, she has been going happily on her way.

Mrs. Forrest has completed 25 pictures since she started, with many of them going to her grandchildren.

All of her life hasn't been spent pursuing hobbies. She has been a very busy woman all of her adult life. She was married to J. A. Forrest in Jeff. Mo., Sept. 21, 1890. She was Miss Sophronia Elizabeth Young. The couple came to Eastland County, near Bogalusa, in 1892 and were there until the great oil boom in 1918 when Mr. Forrest moved his wife and their nine children away because he didn't want them reared in the atmosphere of the burly oil town.

The son of a medical doctor, Mr. Forrest was the only member of his family to follow farming as a means of livelihood. When he brought his family to West Texas, he chose his location at Moore, six miles northwest of Big Spring. Here the family stayed until the children were grown and married.

While Mrs. Forrest had a full time job being a mother, wife and all-around farm woman, she found time to teach a community Sunday School class at Moore which at one time had 42 members. Among the members who still make their homes in Howard County are Halie Hogue Everett, Raymond, Roy and Arthur Stallings, Odessa Lemax Stallings, Twila Lomax, Arah Phillips and Cordelia Phillips Castle, Grub Broughton and Earl Rowden. Also members of her class were the late Andrew Merrick and Les Massey.

Crocheting was the first of Mrs. Forrest's hobbies, one that she began when she was 10 years of age in Mammoth Springs, Ark. She has crocheted almost everything possible, but almost without exception she has always managed to make something useful. Of course, during the years, when the children and the farm took most of her time, she didn't make so many things but when she hit 69 she really got 'in the groove.'

At a time when many women would sit down and rest she just got her second wind. She has made three full length cutwork tablecloths, 47 pairs of pillow cases, which she has given to the children and grandchildren, and has crocheted two tablecloths, and has crocheted dozens of baby booties and innumerable dollies, dresser sets and table covers, as well as purses, slippers, hats, and centerpieces.

At 75, the busy woman became interested in hooking rugs and she finished twelve before she stopped. She has given them all away and doesn't have one for her own use. After the death of her husband, she moved into a smaller house which she maintains herself. Her curtains for the living room she made herself of drawn work. There are three 90-inch panels for the windows and one for the door.

Eight of the nine Forrest children are still living; three of them, Mrs. Whitaker, Cline and Wilburn making their homes in Big Spring. Arlo lives with his family in Midland while Leo has made his home in Hereford. Mrs. Irving Cox lives in Carlsbad; Mrs. Max Stallings in Napa, Calif. and Mrs. I. J. Furman in Yucca Valley, Calif. Dr. Aubrey Forrest died in May of this year at his home in Lincoln, Neb., where his family still resides.

A proud moment for Mrs. Forrest came during her bereavement when a friend of Dr. Forrest, Leslie Decker, head of a real estate brokerage firm in Okemus, Mich., asked for one of

her pictures to hang in his office. She painted, especially for him, a single pink rose.

Even though they have increased by 19 grandchildren and 21 great-grandchildren the family has frequent gatherings, mostly at the Whitaker home. Last summer they were all together here with the exception of Mrs. Stallings, who joined them within a week.

While Mrs. Forrest intends to keep busy as long as she can, there are two things that no one has ever convinced her were good things to do—she never learned to drive a car and nothing could interest her in tating.

Mrs. Cramer Appointed ALA Hospital Worker

Mrs. R. D. Cramer of Coahoma has accepted the appointment of department assistant hospital director, Department of Texas from Mrs. Henry M. Bailey, Alpine, department president of the American Legion Auxiliary. Mrs. Cramer has served as the department hospital representative for the Big Spring VA Hospital this past year.

She represented Texas at the national pre-convention rehabilitation committee meeting in Atlantic City, N. J., in September, and she attended the auxiliary's national convention in Atlantic City. She acted as page for the Texas delegation, as well as being custodian

of the department colors during and after the convention. Her duties as department assistant hospital director will be to coordinate activities from department level to hospital level; she will liaison between the national hospital director and the department.

She will assist in conducting ALA orientation and indoctrination courses for prospective volunteer hospital workers. Mrs. Cramer planned to be present this weekend in Austin for the fall executive committee meeting, and she will attend the Area C Conference in Saint Petersburg, Fla., Nov. 3-6.

MRS. R. D. CRAMER

Here's Help For Cooking Venison

Venison is wonderful meat in its own right, and it's not necessary to soak it in spices to make it palatable. THE VENISON BOOK, just put out by New England's newest publishing house, is telling the wives of hunters.

"No beef would pass government inspection if it were handled as roughly and carelessly as venison is," the guide, sub-titled "How to Dress, Cut Up and Cook Your Deer," warns hunters. Unless the dish is to be an Old World delicacy—carried over from the times when meat had to be

spiced to disguise the fact that it was far from fresh—venison should be treated like the best cuts of beef and cooked and flavored in a straightforward manner, the book declares.

In addition to having the largest collection of venison recipes on record, the guide book tells how to dress, transport, can and freeze deer meat.

Use That Bowl
Don't hide your punchbowl away between holidays. Serve huge salads in it, or potato chips for teenage parties. Fill it with magnolia leaves as an elegant decorative touch to any room.

Reduce For Fall Fashions

The new style sheath dress demands a slender figure and you still have time to streamline for fall activities if you start NOW. Quickly reduce hips, thighs, stomach, waist, correct figure faults, increase circulation, improve elimination, relax tense nerves, soothe aching joints and relieve sore muscles. There is nothing like it.

HI-TALK

Lane Edwards

Some of the Senior Tri-Hi-Y girls enjoying hamburgers at Gayle Gray's house Monday night were Jean Fuqua, Nita Beth Farquhar, Lynn McMahon, Wilma Cole and Carlene Coleman.

Several of the A&M boys gave flu as their excuse for coming home. Among them were Dennis Jones, Stormy Edwards, J. D. Adams, Lefty Reynolds and Clinton Whitley; but we suspect their real reasons were Janet Carpenter, Malinda Crocker, Judy Purdue, Lane Edwards and Prissy Pond.

El Rodeo and Corral staff members journeying to Lubbock this weekend are Sammie McComb, Susan Landers, Opal Hancock, Jean Fuqua, Lane Edwards, Judy Cauble, Glenda Greenwood, Jo Ann Ebling, George Peacock, Edith Freeman, Nita Jones, Virginia Johnson, Dickie Madison, Toni Thomas, Karen Montgomery, and Mary Ann Nugent.

The cast for the fall play, an English comedy, "Here We Come Gathering," was announced by Mr. Wayne at the Dramatics Club meeting Thursday afternoon. They are: Anne Kellaway, Jeanette Hefflin, Philip Kellaway, Tony Starr, Harriet Kellaway, Patsy Potter, James Kellaway, Wayne Williams; Gray Meredith, Bell Hensley, George Hawkins, Jerry Hutchins, Shirley Cameron, Lyn Anderson, Evadne Potter, Robi Robinson, Luke Betterworth, Ronnie Burnham.

Some of the kids attending the dance at the park Thursday night were Sandra Havens, Charlene Campbell, Ralph Mahoney, Troy Starr, Jerry Lewis, Judy Jennings, Bruce Moore and Susan Landers, Mike Musgrove and Kathleen Thomas, Nolan Searcy and Brenda Barr, Gerald Lacky and Smoky Meeks.

Enjoying the football game between Big Spring and Sweetwater Friday night were Juanelle Sparks and Dick Ford, Studie Hart and Joe McCown, Darlene Williams and Jesse McElreath, Gaston Lacky, Jackie Touchstone, Charles Briggs and James Grantham.

The newly elected Spanish Club officers are Sammie McComb, president; Judy Reagan, vice president; Marilyn Bigham, secretary-treasurer.

Several couples at the DeMolay dance Saturday night were Vallean LaCroix and Wesley Grigsby, Lyn Anderson and Bell Hensley, Linda Greene and Bill Thompson, Sherry

Lurting and James Howard Stephens.

Since Lane Edwards was in Lubbock this weekend, Brenda Barr substituted as reporter.

Entertainment For Forsan Young People

FORSAN—Young people of the Forsan community were entertained with a social recently in the new annex of the Forsan Baptist Church.

Games were under the supervision of Mr. and Mrs. Ronnie Gandy and other hostesses were Mrs. L. T. Shoultz, Mrs. C. V. Wash, Mrs. Henry Park, Mrs. J. R. Pike, Mrs. J. D. Gilmore, Mrs. C. L. Goch, Mrs. Jesse Overton, Mrs. L. L. Garner and Mrs. W. J. White.

Mr. and Mrs. Jimmy Shoultz of Post and Mr. and Mrs. C. L. Gardner Jr., have been the guests of Mr. and Mrs. L. T. Shoultz. Gardner has just received his discharge from the Army and will report in Littlefield Monday to begin his work as a soil scientist.

Ray Crumley of Stephenville has been visiting his mother, Mrs. S. C. Crumley Sr., who returned to Stephenville with him for a visit with his family.

Decorative Pillows Can Be Easily Made

By The Associated Press
It's no longer enough for a pillow to be comfortable. Nowadays pillows are an important part of decor, and must be unusual, colorful pretty, whimsical or just plain silly.

Whether you are decorating a bedroom for a college daughter or a kindergarten belle, animal pillows will fill the bill. You can make a pillow cat and a pillow dog from a standard pattern, following these suggestions from experts at your local sewing center.

Each pillow is made from a round foam rubber pillow, available in department stores, plus two thicknesses of one-inch foam rubber glued together for the smaller circles that form the heads. The pillows are covered in corduroy or fake fur fabric. Each

WMS Installation Tea To Be Monday

FORSAN—Installation for officers of the Forsan Baptist WMS will be held Monday afternoon at the church at 3 o'clock. Mrs. W. B. Younger, associational president, will be the installing officer when general officers of the Belle Overton and Willie Mae Kennedy Circles take their places.

All women of the church are extended an invitation to the affair.

Mrs. Floyd Pike is a patient in Medical Arts Hospital where she has recently undergone surgery. Nokie Bedell and Yvonne Pike are in Dallas to be with Nokie's sister, Fern, who is undergoing treatments.

Mr. and Mrs. J. M. Craig, Mrs. Vera Harris and Tommy Gilmore spent Thursday in Sterling City. Mrs. Dennis Hughes, Raymond and Ann of Spraberry have visited recently with Mr. and Mrs. A. D. Barton and Van.

Miss Reesing, Lt. William DeHart Wed In Mid-Afternoon Ceremony

Wedding vows were exchanged Saturday afternoon by Cora Lou Reesing and Lt. William E. DeHart at St. Paul Lutheran Church, with the pastor, the Rev. Wayne Dittloff, officiating.

The double ring ceremony was read before an altar banked with palms combined with arrangements of chrysanthemums.

Parents of the couple are Mr. and Mrs. H. H. Reesing of Grand Prairie and Ellis J. DeHart, 1603 Main.

Mrs. Dick Gray, soloist, was accompanied at the organ by Guy Lanning as she sang "The Lord's Prayer" and "O, Perfect Love."

Attired in a gown of white Chantilly lace over satin, the bride was given in marriage by her father. The scullion neckline was formed of the scullions of lace and the waist came to a point in the front. Long sleeves were in points over her hands; her skirt was in three tiers of the lace.

Attached to a half hat of seed pearls was a veil of illusion and she carried a white orchid on a white ribbon. Stephanotis and pickled-ribbons showered the orchid.

ATTENDANTS
Feminine attendants included Shirley Lindsey, maid-of-honor, Mrs. Anthony Reed and Mrs. Charles Worrell of Grand Prairie, bridesmaids.

Dull gold crystal made the frock of Miss Lindsey; beige crystal was used for the bridesmaids' dresses. All attendants chose brown accessories and carried cascade arrangements of bronze chrysanthemums.

Lt. Ronald Carpenter was best man, and ushers were Lt. Don Walsh, Lt. Anthony Reed and Lt. Earl Kruger.

Following the ceremony a recep-

MRS. WILLIAM E. DEHART

(Photo by Barr)

tion was held at the Officers' Club at Webb AFB. Receiving guests with the bridal couple were their parents and the attendants.

A tiny bride and groom topped the wedding cake of three tiers and an arrangement of chrysanthemums was used to decorate the bride's table.

Guests were registered by Mrs. Ronald Carpenter. Attending from out of town were the bride's parents, her brother, Darrell Reesing, and LaWanda Moon of Grand Prairie. Other guests were from Tulsa, Midland, Odessa and Dallas.

WEDDING TRIP

For a wedding trip to Phoenix, Ariz., the bride wore a wool and silk suit in a tiny checked mixture of brown and beige. Her hat and accessories were beige. Upon the

return from the trip, the couple will make a home at 1105 East 12th.

The bride is a graduate of Grand Prairie High School and Parkland Memorial School of Nursing, Dallas. She has been employed at Malone-Hogan Hospital.

The bridegroom, who is stationed at Webb AFB, is a graduate of Southern Oregon College and the Chicago College of Chiropractic and Podiatry. He is a member of Alpha Delta Kappa fraternity.

Honor Group In Lamesa Installed

LAMESA - Thirty-four Lamesa High School juniors and seniors were installed as members of the National Honor Society in a ceremony at one o'clock Thursday.

The group included 17 juniors and 17 seniors selected on scholastic merit, character, service and leadership ability. Representing the top 15 per cent of the senior class and the top 10 per cent of the junior class members of the society must maintain a scholastic average of at least 90 and have no grades under 85 and no citizenship grade under 90.

Seniors installed included Barbara Bearden, Charlene Short, Lynn West, Lyndell King, Ruth Fleniken, Klata Woodall, Bobbie Wright, Linda McPhaul, Wanda Debnam, Sue Green, Carolyn Porterfield, Dennis McCure, Wanda Addison, Jean Powell, Jean Frogge, Gayle Harris and Bobby Clement.

Juniors installed in the society were Sylvia Reed, Bill McCulloch, Tahita Niemeyer, Bobby Gale Wilson, Mary Lee Taylor, Larry Woods, Katherine Lewis, Carter Johnson, Lynda Gormer, Geraldine Henderson, Karen Campbell, Carolyn Stout, Alma Anna Agee, Judy Montgomery, Ruth Barron, Stanley Cox and Latrice Weir.

Sponsors for the group are Mrs. Dan Ogletree and Abe Holder.

Freshen Salted Cod
You can freshen salt codfish by letting it soak in cold water overnight. But before you do so, let it stand in warm water about five minutes, then drain and add the soaking water.

Now You Can Have A Modern Cook Center With Few Alterations

Planning to remodel? Then there's no need to wait any longer for that kitchen with a "built-in" look. You can have a modern, custom cooking center without extensive rebuilding or alterations. With a little ingenuity, "built-in" cooktops and ovens can replace your old, conventional range and give you added cabinet space to boot.

Recognizing the trend toward what used to be called the "custom" kitchen, an electric appliance company has just unveiled its line of 1958 "built-in" and "stack-on" cooktops and ovens. One piece cooktops with either two for four units, come ready for easy counter installations. Cooktops drop into place for neat, sink-rim fit. There is only one conduit to attach. Finger-tip push-button controls are available, either on the cooktop or for remote-control panel installation in cabinets or wall.

Three versions of an automatic master oven—also in giant 21" size—are available in one-piece units. Installation requires only a few minutes. Ovens can be placed into "built-out" cabinets or in special "stack-on" wrappers, atop a standard base cabinet.

To match any modern decor, both ovens and cooktops are available in turquoise green, petal pink, canary yellow, woodtone brown, white, satin chrome for ovens and stainless steel for cooktops.

CAMPUS CHATTER

By CAROL ROGERS

JULIE RAINWATER

Julie Rainwater is well-known around the HCJC campus for her smile and participation in various college organizations. A local girl, Julie is now beginning her second year at HCJC. Last year Julie served as cheerleader, WRA treasurer, volleyball manager, and FTA treasurer. The College Y Club, the choir, the Organ Guild, Phi Theta Kappa, and the Lasso Club included Julie's name on their membership roles. She was also chosen to represent Who's Who on the HCJC Campus.

This year is looking as busy for Julie as the previous one was. She will serve as head cheerleader and as editor of the Jayhawker, the college yearbook. The College Y Club again elected her as their treasurer, while the Lasso Club chose her as their president. She is also a member of Phi Theta Kappa, the choir, and the student council.

Barbara Shields, Sue Barnes, and Glendene Philley were selected by the freshman class to be the freshman cheerleaders this year. The sophomore leaders, elected previously are Julie Rainwater and LaVelle Fletcher.

The program committee of the Lasso Club met Wednesday morning to plan activities for the year. The agenda features a style show, hair-care demonstration, annual Valentine Formal, a sock hop, annual Mother-Daughter Tea, and a hayride.

By the way, girls, the Lasso Club will hold its second meeting Monday at activity period. If you have not already done so, attend this meeting and join the group, as it is open to all HCJC coeds.

The FTA Club held its first meeting of the year Friday, but it is not too late to join. Announcements will be made concerning future meetings.

Several Jayhawkers are visiting friends on the North Texas campus this weekend. They are Bennie Compton, Jimmie Wheeler, and LaVelle Fletcher.

HCJC freshmen heaved a sigh of relief as they handed in the first major theme of the year last week. These were autobiographical sketches.

HCJC students taking the geology trip to the Davis Mountains this weekend left in high spirits Friday. Bruce Frazier, sponsor, and the group will return late today.

Several Jayhawkers got together at the home of Bill Borries, Tommy Zinn, Jerry McPeters and Delbert Shirey for an informal party Thursday night. Some of those enjoying the fun were Cookie Sneed, Barbara Shields, Freda Donica, Carol Rogers, Jo Ann Mobbs, Bennie Carver, Larry Galore, Charles Peterson, Delbert, Bill, and Tommy.

Many Jayhawkers find an interest in the high school football games. Some of the students trav-

eling to Sweetwater Friday night were Michael Musgrove, Billy Blahm, Jimmy Joe Sinclair, Donald Lovelady, Donald Anderson, Carol Letcher, Buddy Martin, Janice Murphy and James Lee Underwood, a former HCJC student. The annual staff met last week to assign sections and plan the layout. The group will meet again this week with an announcement as to the time and place to be made later.

Friends of Jerry McPeters were glad to see him up and about after an attack of the flu last week. If you have not yet gotten or returned your proofs at Barr Photo-center, do so at once. These pictures are for the annual and are very important.

COSDEN CHATTER

Bill Gibson On Panel At Meeting In Boston

Mr. and Mrs. Bill Gibson will leave today for Boston where Gibson will attend a meeting of Federation of Sewerage and Industrial Waste Association. They plan to be gone a week. Bill will participate in the program as a member of the industrial waste panel.

Millie Allison has returned to the office after recovering from the flu. We are glad to hear that Grace Kinney is doing so well after her operation.

Mike Brooks will visit relatives in Oklahoma this weekend and will also attend the State Fair in Dallas. Arlene Hartin plans to go to the Fair in Dallas next week, as do Mitzie Sprague and family.

Mr. and Mrs. Don Swinney were among those going to Sweetwater to the Big Spring High school game. Howard Swinney and wife joined them. Wanda Wiley and children were visiting in Lubbock Saturday. Marcella Fuqua's husband, Paul,

is in the hospital where he underwent an operation. Mr. and Mrs. George Zachariah went to the Texas Tech-LSU game in Lubbock Saturday. H. C. Stipp has returned from the convention of Texas Mid-Continent Oil and Gas Association held in Fort Worth, Oct. 1 and 2.

Mr. and Mrs. J. W. Wood left Friday for a three weeks vacation. They will go to Ohio to visit his sister, then on to Washington, D. C., to visit their son, and back through Georgia to see Mrs. Wood's brother.

Jerry Allen will return Monday from vacation. Patients in Root Hospital include Mrs. A. B. Wynne, Burton Hines and Mrs. Paul Bird.

In Houston recently were Mr. and Mrs. C. E. Taylor, who were guests of their son, C. O. Taylor. Mr. and Mrs. Alvin Clemmer and Curtis were in Abilene recently.

Guest From Florida Visits In Westbrook

WESTBROOK — Mrs. Harry Peggs of Florida is here to visit her mother, Mrs. J. R. Trent, who is a patient in Root Memorial Hospital in Colorado City.

Mr. and Mrs. T. O. Robinson and daughter are visiting in Wichita Falls. Mrs. Irvin Myrick of Stanton has been a guest of her sister and family, Mr. and Mrs. Hoyt Roberts.

Mrs. W. E. Rucker visited her daughter-in-law, Mrs. Bill Rucker of Midland, while the latter's husband was on a business trip to San Angelo.

Mr. and Mrs. S. A. Walker, Karen and Ronnie were recent visitors in Cross Plains. Mr. and Mrs. V. V. Ames and Stevie have moved to Big Spring. Mrs. Ames and her sister, Mrs. Leslie McCarra, are in Houston this week.

Mrs. Read Holds Workshop For Gardeners Of Southern Zone

Mrs. Norman Read was leader for a workshop at the meeting of the Southern Zone of District One, Texas Garden Clubs, Inc., which was held in Kermit Friday. Mrs. Read's workshop was based on awards.

Also attending from Big Spring were Mrs. Obie Bristow, zone director, Mrs. P. D. O'Brien, Mrs. J. I. Balch, Mrs. D. S. Riley, Mrs. Aubrey Armstrong, Mrs. Sam Thurman, Mrs. W. F. Taylor, Mrs. Floyd Parsons, Mrs. R. L. Collins, and Mrs. J. W. Dickens, who is District One secretary.

Others attending were Mrs. Dale Smith, Mrs. Zack Gray, Mrs. Kyle Gauble, Mrs. Don Hale, Mrs. Don Grantham and Mrs. Dave Dorchester. The meeting was opened with the invocation by Owen Miller, minister of the Eastside Church of Christ, where the session was held, Mrs. John P. Gamill of Kermit, general chairman, welcomed the group.

Mrs. Bristow presided for the meeting, during which the district governor, Mrs. J. D. Dillard of Midland, gave a report from the meeting of the state board. Announcement was made of the district meeting set for March 26, 1958, in Lubbock. The directors will meet at 7 p.m. March 25. Luncheon was served at the Community Center. Following this, the group gathered at the high school auditorium where a demonstration on flower arranging was given by Robert Rucker. He is associate professor in the Department of Horticulture and Park Management.

Rucker used a western theme for his program and gave several demonstrations of making the arrangements. Attending the zone meeting were 73 members of 18 garden clubs, representing seven towns.

Eager Beaver Club

The Eager Beaver Sewing Club met with Mrs. D. D. Johnston Friday afternoon to make plans for an out of town trip. Eight members were present. The next meeting will be in the home of Mrs. Ben Jernigan.

Versatile Glass

Almost any piece of household glassware can be used for sparkling flower arrangements. Small relish dishes, footed goblets, candy dishes—even pie plates and salad bowls will lend themselves to compositions.

Gay Bedroom

Striped cotton sets a gay mood for a feminine bedroom. Chintz covers the wall and is repeated in the curtains and dust ruffles, while the coverlets are in cotton tweed. Vibrant green and orange tones give the room a strikingly cheerful aspect.

Hats Take Many Shapes This Season

All shape and soft as butter, the new hats are a tribute to millinery skill this season. They sweep high or to the side or move straight back from the brow. They are rounded, peaked or draped into any shape the designer or the wearer cares to have them take.

The rule this season regarding the angle a hat is to be worn seems to be this—when in doubt, push the hat back from the hairline. This shows more of your hair while the hat frames your face with flattery.

Good news for those who like to wear berets and turbans, these two silhouettes rank high among the first fall success styles. A backswept beret in white beaver felt is a joy to wear because it clings snugly to your head by means of a pleated satin headband and blouse wide to frame your face.

A high rising peaked turban in velours is a second version of a backswept look. Flat feather padding adds color contrast creating a smart early hat that can answer all your purposes for daytime wear.

A third example of backswept draping is shown in the velours turban banded in satin and trimmed with two jeweled ornaments. Its rolled edge and crushed down crown make it one of the season's levellest "softened" hats. It can be a perfect foil for your winter furs.

MRS. JAMES EARL KELLEY JR.

(Photo by Bradshaw)

Patricia Ann Coshow Wed To James Kelley

Patricia Ann Coshow and James Earl Kelley Jr. were married Friday evening at the Ackerly Baptist Church in a double ring ceremony read by the Rev. Roy Haynes.

The wedding party stood under an arch on either side of which were baskets of large white chrysanthemums tied with white satin ribbons.

V. J. Bristow sang "I Love You Truly" and "Always" accompanied by Mrs. Bill Hambrick, who also played the wedding marches.

The bride was given in marriage by her uncle, Travis Russell. Her street-length bridal dress was

of embroidered satin, full skirted, with a long-sleeved fitted jacket. The short veil was held by a half-hat, decorated with sequins and pearls. Her bouquet was of white carnations carried atop a white Bible.

Beverly Russell, the bride's cousin, was her maid of honor. Bobby Nobles of Big Spring was the best man. Ushers were Garland Harrison and Willie Williams.

The bride is the daughter of Mr. and Mrs. F. B. Coshow of Oklahoma City. She was graduated from the Blanchard, Okla., High School. She has made her home with her grandparents, Mr. and

Public Invited To Tech Greenhouse And Trial Area

LUBBOCK—If you like to grow chrysanthemums or petunias or just like to view them, you have a special invitation to visit the Texas Tech horticulture open house sometime during the week-ends of Oct. 12-13 or Oct. 19-20.

The horticulture greenhouse and trial areas will be open to the public during this time. Edward Zukauckas, assistant professor of horticulture and greenhouse manager, has announced. Most of the mums will be in full bloom in mid-October.

"We have 95 new untested varieties of chrysanthemums to be seen this year and well over 200 varieties in all the trial areas," he said.

Guides will be available for groups of flower enthusiasts, who will have an opportunity to compare the end results of cuttings from grown plants, seedlings and plants grown by division of roots, Zukauckas said.

Within the trial plots, those interested in growing mums will see some beautiful plants and some horrible examples showing the difference in poor transplanting techniques and poor timing in planting, he pointed out.

"Earlier varieties of mums are showing better quality this year," Zukauckas said, "so we will have some new varieties to recommend planting and some older varieties that we may suggest discarding."

Petunias are still blooming at Tech's trial plots. The horticulture and park management department is growing next year's All-American variety selection, the Petunia Maytime.

The Tech department has a special interest in petunias. Practically three-quarters of all varieties of petunias have been developed by Charles Weddle, of Pan American Seeds, Inc., a 1936 Tech graduate.

The chrysanthemum trial plots and greenhouses are located on the first road to the left as a person enters the Tech campus from the Boston street entrance.

Mother-Daughter Tea

Members of Girl Scout Troop 8 will entertain with a Mother-Daughter Tea this afternoon at St. Paul Presbyterian Church. Mrs. Andrew Terpening is leader of the troop and Mrs. George T. Ward is assistant leader. Serving as the refreshment committee will be Denna Mason and Carol Hughes.

'ROUND TOWN

With Lucille Pickle

Our Big Spring people are really getting scattered about all over the world.

One of the newest departees from the city is MRS. ALLAN HOLMES, who with her daughter, Glenda Jo, joined L. Holmes two weeks ago in Karlsruhe, Germany. Her parents, MR. AND MRS. E. S. CRABTREE, received a letter from her recently which was started by Mrs. Holmes when she boarded a plane for the overseas flight in New York. From the descriptions given in her letter, which ended when the plane landed in Germany, the folks felt as though they had been along. Little Glenda Jo was somewhat put out with the fact that the custom officers held the passengers for inspection and she could see her daddy waiting for her and her mother and she could not go to him. He has been overseas for the past three months.

CHARLES PARNELL landed in Karachi, W. Pakistan, Thursday where he will be with a geophysical service. Mrs. Parnell and Gerald, who is a high school junior, will remain here until school is out. Unfortunately for the two, it was not until it was too late for all the loose ends to be picked up so the two remained here. They will join Mr. Parnell next summer.

Big Spring comes in for its share of publicity in the program of "Most Happy Fella." It's all because Helen Blount lived here so many years and she has, as if you didn't know, the only Texas part in the show which, naturally, is one of the best parts. From her brother, Peppy, we learn the show is due to go on the road soon and will also play in London with an opening date in England set for August.

CHARLES SHORT of Raytown, Mo., came here Friday to take his grandparents, Mr. and Mrs. A. M. Rippes, back to Raytown for a week's visit. Mrs. Short is the former Carolyn May Rippes, daughter of Mr. and Mrs. James Rippes, who also live in Raytown.

MR. AND MRS. A. W. MOODY are in Victoria where they are visiting in the home of their son, Alfred Moody and family. They will see for the first time their newest granddaughter, Mrs. C. W. Deats accompanied them as far as San Antonio.

MRS. LEE STINSON of Snyder was the guest of her sister, Mrs. H. C. McPherson, Friday.

It's very nice to have former residents come back to be home town folk again. We're glad to have MR. AND MRS. S. K. WHALEY back home.

MR. AND MRS. ROBERT KOUNTZ are back home and settled down after spending several weeks traveling for various reasons in numerous directions. They spent some time in Kansas and

more recently have returned from a trip to Phoenix, Ariz.

MR. AND MRS. MERRILL PITMAN who live in Hanover, Penn., have a big interest in Big Spring, Texas, now that little David Blane Pitman has arrived. He was born to Mr. and Mrs. John Pitman on Oct. 1 and weighed 6 pounds 2 ounces. His maternal grandparents are Mr. and Mrs. Nile Bailey, 204 E. 12th St.

Texas Hospitals, official journal of the Texas Hospital Association, has on its October cover the likeness of Daniel Schley Riley, who is a trustee of the association. Also contained in the journal is the article, "Public Relations and Personnel Shortages," which he used as an address at the 1956 meeting of the Northwest Texas Hospital Association held in El Paso.

Guests in the home of MR. AND MRS. EUGENE TURNER are LL and Mrs. Frank Chafey and Ricky of Tampa, Fla., and Mr. and Mrs. George Turner of Wichita Falls. The Chafey's will probably be here for about ten days, while the Turners plan to return Monday or Tuesday.

Baby Shower Given Westbrook Women

WESTBROOK—Mrs. Leroy Miller was the honoree recently for a baby shower given in the home of Mrs. Sam Oden. Co-hostesses were Mrs. Altis Clemmer, Mrs. Thomas Lewis and Mrs. George Sweat. About 20 attended.

Mr. and Mrs. Albert Young were recent visitors in Odessa. Mr. and Mrs. Charles Canlier of Rankin have been guests in the Alvin Byrd and Charles Candler homes.

Members of the seventh grade were entertained with a wiener roast in the home of Dale Byrd recently.

Mr. and Mrs. Sidney Jones and Jack Jones of Snyder have returned from Rangely, Colo., where they bagged six deer.

Mr. and Mrs. Ray Moore are guests of his parents, and they will visit her parents, Mr. and Mrs. H. H. Greshaw of Sweetwater, before going to Pensacola, Fla., where he will be stationed with the U. S. Navy.

Class Plans Sale Nov. 9

Thirty-five members of the Susannah Wesley Sunday School Class of the First Methodist Church attended the first luncheon of the year Friday at the church. Mrs. Felton Smith's group was in charge of the meal. They decorated the tables with arrangements of Queen's wreath and dahlias.

Lucille Hester gave the invocation and Mrs. Lina Flewellen brought the devotion.

During the business hour the group planned a rummage sale to be held on Nov. 9. Funds from this will be used in the project work at Baker's Chapel. Miss Hester talked about missions and told the women the Fourth Sunday collections go to Carol French, missionary to Africa.

Art Lectures Set

Beginning Thursday a series of six illustrated art lectures titled "Art in Every Day Living" will be held at 8 o'clock each Thursday

evening at the West Texas Museum at Texas Tech with Dr. Elizabeth Sasser as speaker. These lectures are open to the public with a fee of \$6 for a season ticket. All area artists and other interested persons are invited to attend.

HAIR FREE LEGS? — IT CAN BE DONE.

Now is the time to think about hair free legs for next summer. Summer's styles demand good grooming, and hair free legs and arms are a boon to woman's daintiness. Call ERCELLE FOSTER, Midland MU-4-5661, for information about Thermiquetron System of permanent hair removal—it will surprise you how easily you can have a hair-free, care-free summer.

Coffee Given In Kee Home

A coffee, given Saturday morning, honored mothers of pupils in the First Baptist Junior Two Department of the Sunday school.

The affair was given in the home of Mrs. Charles Kee, with hostess duties shared by Mrs. Jay Johnson, Rex Browning, Elizabeth Hines and Mrs. Opal Sides.

Miss Browning served at a table covered with an ecrú imported lace cloth. An arrangement of fruit in an epergne centered the refreshment table.

Included in the guest list were mothers and teachers in the department.

Activities Of Music Group To Be Set

A newly-organized group at Webb AFB is the Music Study Club, which will meet Tuesday at 2 p.m. at the Officers' Club. Meetings will be held each first Tuesday in the Ivy Room of the club.

Plans are under way for the formation of a choral group to work with the study club. All who are interested in this kind of activity are invited to attend Tuesday's meeting. Mrs. Edward Cullen is in charge of the organization.

Annual Reports Heard At HD Council Meet

Home Demonstration Council members held their annual business meeting Friday morning in the HD agent's office and heard reports from the various clubs on projects; committees were named for the annual Christmas party.

Mrs. Frank Wilson presided, and Mrs. C. R. Porter brought the devotion from James.

Guests included Mrs. Nathan Stalcup, Mrs. Frances Zant, Mrs. J. M. Wilson and Mrs. Ernest Williamson of Luther; Mrs. Neal Bryant of Elbow; Mr. and Mrs. A. H. Shroyer Jr. of Knott.

Reports were given by council chairmen and Mrs. Shirley Fryar, THDA chairman. The various clubs reported having had book reviews, teas, parties, and they also aided in various civic projects.

Outstanding project was reported from Vealmoor by Mrs. C. R. Porter who told of the Ground Observer Corps, which is a project of the club. Leland Edwards is president of the corps.

Mrs. Neil Norred told of the work being done at the State Hospital,

Studies Give No Time For Do-Si-Do-ing

Charles Foster hasn't had time to do-si-do since becoming a student pilot but he knows just how to do all phases of square dancing when he has a chance to get in the swing again.

The Fosters, with their two children, Lance, 3½, and Judy, 10 months, have lived in Big Spring since being transferred to Webb Air Base on Sept. 16. He came here from Spence Base near Moultrie, Ga., where he took his primary training.

The couple enjoys square dancing and has found that in all parts of the country people like to swing their partners, but they also swing them to different calls. Foster has danced the square since he was a small boy, his father having written a course in the dance and has a card system of calls. The elder Mr. Foster also has his own orchestra and has recorded music for the dance. The local caller teaches classes when he has a chance to organize them and calls for parties.

Another hobby which he would like to pursue is that of building model planes. At present, there is a flying model in the making but there's little time left to work on it when his day at the base is completed.

Mrs. Foster doesn't pursue any particular hobby, spending her time with the children. The family attends Protestant services at the air base chapel.

When Foster completes the national guard program of flying he intends to continue his study of law, having done the better part of his pre-law work at the University of Colorado.

They are making their home at 1606½ Scurry St.

These Are Grandpa's Records

Mr. and Mrs. Charles Foster look over some records made by Mr. Foster's father on square dancing calls and music but only Judy, 10-months-old daughter, seems to be interested. Lance, 3½, was completely captivated by the cameraman and his flashing bulbs.

Telephone Theme Used At Shower

WESTBROOK—A telephone theme was used for the shower

given a recent bride, Mrs. Ray Eiden, recently in the Westbrook Baptist Church. Hostesses were members of the JOY Sunday School Class. Mrs. Eiden is the former Mattie Helen Lewis, and both she and her husband are

employees of the Bell Telephone Company in Abilene.

Mrs. Thomas Lewis entertained with a demonstration party recently. Guests were present from Spade, Westbrook, Coahoma and Big Spring.

Easy Sauce

You can make a jiffy chocolate sauce by melting half a pound of chocolate caramels with half a cup of milk over very low heat, stirring occasionally.

Forsan Baptist Has Enlistment Social

FORSAN — The Adult Department of the Forsan Baptist Church was entertained with an enlistment social Friday night at the Fellowship Hall of the church. Recreation was in charge of Mrs. H. G. Greer and Mrs. C. V. Wash. Officers of the department are Mrs. Jesse Overton, president; Mrs. C. V. Wash, vice president; Jesse Overton, secretary; Mrs. W. J. White, Bible quiz; Mrs. Greer, social chairman; O. C. Mason and E. E. Blankenship, group captains.

Mrs. Robert E. Nelson and son are visiting in Forsan with her mother, Mrs. Mamie Gandy. They are also spending some time in Big Spring with her aunts, Mrs. Grover Cunningham Sr., and Mrs. J. D. O'Barry, and their families. Mr. and Mrs. Nelson have recently returned from a two-year stay at an Army base near London, England. He is at present attending college in North Carolina. He was stationed at Webb AFB before being sent to England.

Lunch Treat

Pour a curry sauce over cooked rice and top with deviled eggs. Heat quickly in the oven. Serve with flaked coconut, chutney, salted peanuts for a party lunch.

Attractive Positions If You Qualify

We are taking applications for sales positions for our second store. If interested in pleasant sales work under best of conditions, apply at main office.

Garden City High Elects Favorites

GARDEN CITY — Garden City High School students elected students for school honors recently and selected were: Doylene Little, best personality, most talented, smartest and FFA sweetheart; Darlene Hansen, best all-around and most athletic; Jim Dance, best all-around, best personality, most talented; Donald Plagens, most comical and FHA beau; Susan Bednar and Harold Jones, best dressed; Loyd Jones, most athletic; Mary Ruth Ashill, most comical; Glenn Joe Riley, smartest.

The Garden City Federated Missionary Society met recently at the Baptist Church for a social with the Baptist women serving as hostesses.

Mrs. Vernon Gill was in charge of the games and Mrs. Dick Mitchell conducted the program. Four new members attended. They were Mrs. T. H. Roberson, Mrs. Penny Stone, Mrs. B. L. Murphy and Mrs. Gerald Oakes.

Ackerly P-TA Meets

Dr. P. W. Malone was guest speaker for the Ackerly P-TA Thursday at the school. He showed films on his trip to Alaska and told of his experiences. Refreshments were served by the girls in the homemaking department.

Use Barley

Put a quarter cup of pearl barley to soak in the evening. Next morning, cook it in four cups of water until it's tender. Add the cooked barley to a beef and vegetable soup.

BIG SPRING DAILY HERALD

SECTION D

BIG SPRING, TEXAS, SUNDAY, OCTOBER 6, 1957

SECTION D

School Enrollment Hits 5,825, Gain Of 400 Over Last Year

Enrollment in Big Spring schools climbed to 5,825—more than 400 above the total on the same date a year ago.

Elementary enrollment stood at 3,740, junior high 1,212, high school 764, Lakeview high 109 and special education 21.

Corresponding totals a year ago were elementary 3,413, junior high 1,206, high school 708, and Lakeview high 81.

School officials had predicted before the start of school this year that enrollment would quickly reach the 5,800 mark this fall. Supt. Floyd Parsons said Friday that it now appears the total will climb substantially higher, when the cotton harvest is completed and all youngsters are enrolled.

Only severe overcrowding was reported in the first grade at the Kate Morrison School. There are

four half-day sessions being conducted there for first graders.

Half-day sessions are being operated also at North Ward School, but the situation there was classified as only "fairly overcrowded." Six new classrooms are under construction at North ward and should be ready for use in January, the superintendent said.

Despite transfer of about 125 of its 1956-57 students to other districts, the Washington School is still brimming, although no overcrowding was reported. Enrollment there is 713, down slightly from the 731 at this time last year.

Enrollment at East Ward has climbed from 327 last year to 506 at present, but one classroom is still idle there. College Heights enrollment has risen from 348 to 491. Gains in those schools is partially due to abolition of the old South

Ward which is now being used for special education classes.

The enrollment at North Ward has climbed from 399 to 439, at West Ward from 321 to 327, at Airport from 410 to 450, at Park Hill from 186 to 205, at Kate Morrison it has dropped from 341 to 337, and at Lakeview it has risen from 213 to 242.

Jerry Robinson Installed DeMolay Chapter 'Master'

Jerry Robinson was installed as master counselor of the Leon Mofett DeMolay Chapter in ceremonies in the Elks hall Saturday night.

A complete slate of officers was installed, including Kelsay Meek as senior counselor and John Puckett as junior counselor. Others were Haley Haynes, senior deacon; James Howard Stephens, junior deacon; Ronnie Burnam, senior steward; Bill Engle, junior steward; Jake Glickman, chap-

lain; Jimmy Simmons, marshal; Douglas Eastham, orator; Danny Fiveash, sentinel; Ray Alexander, almoner, and Clarence Percy, standard bearer.

Wesley Grigsby, Julius Glickman and Bob Leach took office as scribes and Mike Jarratt was installed as reporter.

Becoming preceptors were Bob Leach, Clarence Percy, Charles Arnold, Jimmy Harris, Danny Fiveash, Joe Conrad and Bill Owens.

Established 75 Years

This is the present home of the First Methodist Church of Colorado City, established 75 years ago. Diamond Jubilee observance is to start Sunday, Oct. 27, with an anniversary sermon by Bishop William C. Martin of Dallas. A week-long celebration is planned.

Bishop To Speak At Church Celebration

COLORADO CITY, Oct. 5—Bishop William C. Martin of Dallas will preach the opening service of the Diamond Jubilee celebration of the First Methodist Church of Colorado City Oct. 27, Rev. Clarence Collins, pastor, announced today.

Dr. H. Clyde Smith of Big Spring, district superintendent, will participate in the service.

At noon, members of the church and visitors will gather at the educational building for a church dinner. Present church members will serve a covered dish luncheon.

Sunday afternoon, a special program will be conducted by Eldon Mahon, chairman of the official board. The 75-year history of the church will be read, the older members and past members of the church will be recognized and a song service held. Mrs. J. C. Garrett will act as choir director and Mrs. Claude Hooks as organist.

Rev. Jack Ellzey, pastor of the St. Luke's Methodist Church of Midland, will preach the evening service.

Other services will be held at 7:30 p.m. daily the week of Monday through Friday, Nov. 1. Monday night, Rev. Cal C. Wright, pastor of the Spur Methodist Church, will preach. Tuesday night, Rev. C. E. Jameson of Odessa, a retired pastor, will preach. Other pastors who will conduct services are: Dr. J. E. Shewbert, pastor of the First Methodist Church of Vernon, Wednesday night; Rev. Jim H.

Sharp, pastor of the First Methodist Church of Shamrock, Thursday night; and Dr. J. Edward Kirby, of St. John's Methodist Church of Lubbock, Friday night.

All are former pastors of the Colorado City Church except Dr. Kirby, who, however, was once licensed to preach there.

Rev. Collins said that all former members of the church and friends are invited to attend any part of the week long program and lodging will be furnished without charge, with present church members.

The Jubilee Committee, which has been working on the project for several weeks is chairmanned by Ed E. Williams. Other members of the committee are Miss Nelda Garrett, Claude E. Hooks, Jake Merritt, Ralph Lee, Mrs. Jesse Craddock and Mrs. L. B. Elliott.

Special committees are: Records and History, Mrs. Jess Craddock, Mrs. E. H. Winn, and Mrs. Boyd Dozier; Dinner, Mrs. E. H. Winn, Mrs. Frank Deregibus, Mrs. Bim Carlock, Mrs. Eelon Harrell, Mrs. Sue Johnson and Mrs. Tom Grant; Finance, George Otis Witten; Invitations, Mrs. L. B. Elliott, Mrs. Elmer Martin and Miss Nelda Garrett; publicity, D. M. Merritt, Joe Boatright, T. J. Goss, Bill Sloan and Porter Richardson; Historical Service: Eldon Mahon; Office Help, Mrs. W. H. Rhode; and Invitations to ministers, Rev. Clarence Collins.

YMCA Schedules Special Classes

Schedule of special activities for the fall months has been announced by the YMCA.

Classes are planned in leather arts, copper work, wood carving and other crafts. Other courses are offered in cheerleading, teen-age bridge, baton twirling, gymnastics and model plane building. The schedule includes:

Crafts class, to be taught by Charles Hodges, starting Oct. 15. Instruction will be given from 6 to

7:30 p.m. each Tuesday and Friday through Nov. 15. The class will meet at the YMCA. It is free to YMCA members and a \$1.50 fee will be charged non-members. Junior high boys and girls are eligible to enroll.

Cheerleading class, to be instructed by Judy Cauble, starting Oct. 7 and ending Nov. 7. Classes will meet from 6:30 to 7:30 p.m. Mondays and Thursdays at the YMCA. Junior high girls may enroll and there will be a \$1 fee for non-members of the YMCA.

Teen-age bridge, to be taught by Mary Rogers. High school boys and girls may enroll for the classes which will meet from 7:30 to 8:30 p.m. each Tuesday, Oct. 8 through Nov. 26. It also is free to YMCA members with a \$1 fee for non-members.

Trampoline class, to be conducted by Gary Tidwell from 4 to 5 p.m. each Wednesday and Friday from Oct. 9 through Nov. 8. It is open to grade school boys, free to YMCA members and with a \$1 charge for non-members.

Baton twirling, with Laura Rhonon as instructor. The class will meet from 5 to 6 p.m. Tuesdays and Fridays from Oct. 15 through Nov. 15. It is planned for grade school girls, with a \$1 fee for YMCA members and a fee of \$1.50 for non-members.

Model plane building, Charles Hodges to be instructor. Classes start at 6 p.m. each Wednesday, beginning Oct. 9. The instructor is planned for teen-age boys, with no charge for YMCA members and a \$5 fee for non-members.

Youngsters may register for any of the classes at the YMCA. All classes will be conducted there.

Cotton Pickin' Champ

BLYTHEVILLE, Ark., Oct. 5 (AP)—A young Blytheville farmer has won the national cotton picking contest for the second year in a row. Roy Peterson, 22, picked 88 pounds in two hours yesterday to take first place and a cash prize of \$1,000.

ONLY **gas**

gives you **TRUE** top burner heat control

TRADE for modern cooking

Smart young homemakers — and the most experienced cooks, too — go modern with gas. Only gas puts instant control of all cooking operations at your fingertip. You command clock-controlled ovens — magic top burners that automatically hold any set temperature. Only gas has the speed and flexibility to match this advanced automation.

foods won't burn because the flame raises or lowers automatically to control temperature of food inside the pan!

1001 heats assure use of all your cooking skill, plus true benefit of automatic controls. Famous chefs everywhere demand the speed and flexibility of flame cooking.

Only gas gives you **TRUE** top-burner heat control!

The Wild Black Yonder

Guy Madison prepares to go up in a balloon gondola to a record height, a record beaten recently in another balloon flight. This scene is from "On the Threshold of Space," a true account of Air Force investigations into the upper atmosphere where the sky turns black in daytime. Shows at the Sahara Drive-In Theatre Wednesday and Thursday.

'Joe Butterfly' In Return Showing

"Joe Butterfly," riotous comedy starring Audie Murphy, George Nader and Keenan Wynn, returns to the screen of the Jet Drive-In Theatre Sunday through Tuesday.

Burgess Meredith is co-starred as Joe Butterfly, the Japanese interpreter who gets his American companions in and out of trouble.

Child Actor Gets Important Role

NEW YORK (AP)—One of the most important Broadway roles for a child actor in several seasons has been awarded to 9-year-old Charles Lee Saari.

The lad pivots focal point developments in "The Dark at the Top of the Stairs." The William Inge drama stars Teresa Wright and Pat Hingle, is being directed by Elia Kazan. It opens Dec. 5.

Master Saari's only previous stage service has been as an understudy in one Broadway comedy, a bit role in a revival, but he had a number of parts in television drama and variety shows.

'Gesture' Returns Bard On Road

NEW YORK (AP)—"The Shanghai Gesture," one of Broadway's most lurid hits from way back in 1925, is being prepared for return to the White Way, decked out in musical trappings. The new version has been titled "The Golden Lotus." Robert Payne, poet and novelist, is doing the book, with Arnold Sundgaard preparing the lyrics and Dai K. Lee the music.

CRITIQUE Of The Local Entertainment Scene

By BOB SMITH

Civic Music Assn. To Be Organized

The Big Spring Community Band has evolved in only a few weeks into the Big Spring Civic Music Association. The CMA will be made up of a symphony orchestra, a symphonette, a choral group, various ensembles, the community band, and non-playing supporting members.

A membership meeting will be held next Thursday evening at 7 p.m. in the north room of the Presbyterian Church, through the cooperation of Dr. Gage Lloyd, pastor. All music lovers are urged to turn out for this meeting.

James Gambino of Odessa will be present to speak on the subject of symphony organization, and he will feature his noted Symphonette in concert. Gambino has indicated a lively interest in the CMA.

The Symphonette has presented concerts in many West Texas communities including Big Spring, and those who have heard these youngsters agree they make beautiful music. What is probably less well known is that Gambino is equally adept in directing of choral groups. I watched him last Tuesday evening as he took the local barber shop quartet organization through its paces. Some of the barber shoppers can't read a note of music, but Gambino had them singing like experts and, moreover, the entire group was on key and in unison.

The organizational scheme of the CMA would divide authority along musical and non-musical lines. The conductors of the various groups would, of necessity, be absolute dictators when it comes to the classical, non-instrumental. But the policy-making matters would be up to a board of directors chosen by the general membership.

The CMA, under its board of directors, would be an over-all organization aimed at encouragement of musical culture in Big Spring. This music would not necessarily be restricted to the classical, nor to instrumental. And there are numerous ways in which the community could be served.

The ensembles, for example, will be able to provide entertainment for civic organizations at their regular meetings. The band will be available for various community functions, such as con-

certs in the city park or at the State Hospital, or for Fourth of July activities. The symphony and choral group will carry out a regular concert program and both may join with the Pastors' Association and the Civic Theatre in production of next year's Easter Pageant.

All these activities would be directed and supported by the over-all organization of the CMA, and other musical groups within the CMA may later be added, including anything between opera and folk music groups.

All these matters, of course, remain to be worked out. The meeting Thursday evening will kick off the whole works. A board of directors will be named along with an association president, and the board will then name committees to work out details of organization.

So, whether you go for polkas or Prokofiev, if you love music, turn out Thursday evening and sign up as a member of the Big Spring Civic Music Association.

You don't have to sing or play an instrument. There are plenty of promotion and production jobs to be done, while singers and players are kept busy with rehearsals.

College Thespians Play Shaping Up

Students of the Drama Dept. out at the college are hard at work on "See How They Run," a riotous comedy centering on the troubles of an Anglican pastor who marries an American showgirl.

The play will be presented to the public Monday and Tuesday, Oct. 28 and 29, in the college auditorium. The players are rehearsing Monday through Thursday evenings, and it looks as if "See How They Run" might be one of the better stage productions of the college.

Fred Short, Drama Dept. head, has already picked out the next play, "The Glass Menagerie," although dates have not yet been set. This play will be presented in the round.

One-Act Plays Being Worked Up

The Big Spring Civic Theatre is once again shoving off a season of one-act plays designed for presen-

tation without charge before civic groups.

"If Men Played Cards As Women Do" is to be presented at a meeting Wednesday of the Pythian Sisters. It is a take-off on the alleged chatter of women at the bridge table. Starred are Dewey McGee, theatre group president, Byron Chudom, Norman Sant and Roland Uffins.

John Austin, who is getting "Overtones" in shape, is still looking for two look-alikes for parts in his play. "Overtones" requires two sets of women with similar physical appearances. The story is that of two women who hold a polite chat while their inner selves (played by their look-alikes) make acid comments.

McGee reported earlier this week he is looking over scripts for "The Moon Is Blue" and "Tobacco Road" for possible presentation later this season. Right now, it looks as if "Tobacco Road" is it.

McGee also said he will attend a meeting of the Southwest Theatre Conference in Tulsa Oct. 24-26 to exchange ideas with theatre groups from other parts of the country.

Barber Shoppers Plan Big Show

Those who love barbershop quartet and male choral music will be interested to know that both of these things will be in abundance in Big Spring next Nov. 16. The local chapter of the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America is planning a show for that date which will include a 100 voice choir, plus several individual quartets.

This is an annual event, held in the City Auditorium and sponsored by the Kiwanians, proceeds to their charity fund.

There will be groups from Lamesa, Odessa, San Angelo, Lubbock and Big Spring, in addition to three champion quartets presented as a special feature. These are the Four Pesos of El Paso, the Madcaps of Dallas and the Cavern City Four from Carlsbad.

Now numbering some 34 members, the local chapter of SPEBSQSA meets every Tuesday night at 8 p.m. in the basement of the Presbyterian Church. The barber shoppers are ably directed by Jim Gambino of Odessa, whom I have described earlier in this column. George Larson, president, says the barber shoppers always appreciate an audience during rehearsals, and would like new members besides. Come on out some night and enjoy yourselves.

LIFE WITH MUSIC Commissars Have No Control Of Art

By RICHARD D. SAUNDERS

Composers necessarily are individualists. One man only can produce a work of art—he may collaborate on a phase of it, such as lyrics for a song, or a libretto for an opera, but every worthwhile musical concept in history has been produced by a single person's thought and skill.

So it is particularly amusing to read in a press dispatch that some Slav nonentity called G. Khubov was kicked out of the post of editor of the official organ of the Soviet composers union because he "relaxed the struggle for Leninist principles of music and permitted deviations from the party position" and furthermore "tolerated the publication of incorrect conclusions and generalizations discrediting the principle of party leadership in art."

NO MUSIC AT ALL

Evidently even a Soviet editor was unable to discover the "Leninist principles of music." While there is ample evidence that Lenin was a depraved Bolshevik, there is not the slightest that he ever had the least interest in or understanding of music or any degree of culture. Indeed, no person with music in his soul could possibly degrade himself to the sub-human level of a Lenin. Turpitude and music simply are incompatible.

But the really funny part of the Communist gobbledegoose is the line about "party leadership in art." Inspiration is not something that can be taught to sit up at the command of a commissar, nor an innocent citizen to be prodded to genius by the bayonet of a storm trooper.

Art in itself, in every form and aspect, is creative and personal and is the expression of an individual style developed by disciplined evolutionary taste. It can

grow and fructify only under conditions of personal freedom.

TICKET TO MEDIOCRITY

Party leadership is the exact opposite in its totalitarian practice. Its regimentation reduces all things to the lowest common denominator, destroys individual initiative and discourages all creative thought. Its stultifying rule is apparent in the later works of Shostakovich and Khatchaturian, whose early promise has faded to the typical mediocrity that is the primary aim and intent of communism.

'Abductors' Is True Story Of Plot To Steal Lincoln's Body

"The Abductors," the true story of a counterfeiting gang who schemed to steal Abraham Lincoln's body from its grave, shows at the State Theatre Wednesday and Thursday.

The thriller, set in 1876, is based upon material taken from the closed files of the U. S. Secret Service. It deals with an ex-convict and a mercenary who conspire to abduct the entombed remains of the Great Emancipator and exchange it for the freedom of an imprisoned counterfeiter who has engraved an almost perfect fifty dollar bill.

Victor McLaglen, whose gorilla strength and blistering humor have made him one of Hollywood's better old veterans, is seen as the ex-convict who attempts one of the boldest schemes in the history of U. S. crime. George McReady is seen as the Springfield undertaker who digs his own grave.

An interesting historical sidelight to the historical accuracy of "The Abductors" is its portrait of the U. S. Secret Service of 81 years ago.

The picture was directed by Victor McLaglen's son, Andrew V. McLaglen.

CINEMA COMMENT

By BOB SMITH

"The Abductors" is an interesting little tale. It is based on a true kidnap-counterfeit plot that included the digging-up of the remains of Abraham Lincoln and the kidnaping of a warden's daughter to exchange for the freedom of the imprisoned counterfeiter.

If you like John Wayne, Janet Leigh or jet planes, you can ignore the impish barbs tossed by big city reviewers at Howard Hughes' "Jet Pilot." This latest aerial opus is filled with a few of the old tricks, such as beautiful women in unlikely places, but the aerial scenes more than make up for these faults.

Meager Pickin's In Summer Theatre

NEW YORK (AP)—The summer theater script-testing season yielded a meager harvest of big time prospects for Broadway.

Usually a half dozen or more new shows make the trip from Straw-hat testing grounds to the Main Stem. This year, however, only 50 scripts were tried compared with an average of 80, and only three have been definitely slotted for premieres here.

Holloway Leaving

NEW YORK (AP)—Stanley Holloway, veteran British comic, is leaving "My Fair Lady"—but not for long.

Holloway, as the raffish father of the smash musical's heroine, Eliza Doolittle, will sing "Get Me to the Church on Time" and "With a Little Bit of Luck" for the final time on Broadway Dec. 21. He will be back on the same assignment when the London production of the show reaches the West End April 30.

'Jet Pilot' Stars Wayne, Miss Leigh

Howard Hughes' "Jet Pilot" comes to the Ritz Theatre Sunday through Thursday. Starred are John Wayne and Janet Leigh. The story is a combination of air thrills, romance, comedy and sex.

Settings range from Alaska to Palm Springs and into Russia. The story of "Jet Pilot" begins when a Russian jet lands illegally at an Alaskan air base. Wayne, as the commanding officer, is startled to discover the pilot is Miss Leigh, who portrays a woman Russian air officer seeking asylum to keep from being shot for disobeying her commanding officer.

Wayne is ordered to bring her

Walking On The Clouds

John Wayne is all up in the air about Janet Leigh. They are seen in the aerial epic "Jet Pilot," he as an Air Force colonel and she as a beautiful Russian pilot.

PREMIERE MONDAY

LIVE FUN RADIO!

An unpredictable hour of musical fun

JET
Sunday through Tuesday
"JOE BUTTERFLY," with Audie Murphy, George Nader and Keenan Wynn.
Wednesday through Saturday
"TAMMY AND THE BACHELOR," with Debbie Reynolds and Leslie Nielsen.

'Tammy' Returns At Jet Theatre
"Tammy and the Bachelor," showing Wednesday through Saturday at the Jet Drive-In Theatre, is an entertaining little tale about a backwoods girl suddenly introduced to the by-ways of civilized life.

Debbie Reynolds is starred as the swamp girl reared into innocent-but-wise young womanhood by her grandfather, a moonshining preacher portrayed by screen veteran Walter Brennan.

Leslie Nielsen, a promising young star first seen in "Forbidden Planet," is cast as the young plantation heir who, along with his family, finds his life changed by the woody wisdom of Miss Reynolds.

The hit song "Tammy" came from this film, and is sung in its original version by Miss Reynolds.

Heavenly Hazard Aided By Firemen
NEW YORK (AP)—A play with a prophetic title, "Simply Heavenly" is making the Broadway big time, thanks to the New York Fire Department.

The department closed the little side-street auditorium where the all-Negro show was running at boxoffice capacity, because of regulation infractions.

The show's popularity attracted additional financing, however, and "Simply Heavenly" has found a haven now at the air-conditioned Playhouse.

Shakespeare Exhibit
STRATFORD, Conn. (AP)—An exhibit covering two centuries of productions of the plays of William Shakespeare is on display now at the American Shakespeare Festival.

The exhibit consists of portions of the Boggs Wheelwright Collection of Shakespeareana. It has been loaned for the summer through the cooperation of the Brander Matthews Theatre Museum of Columbia University.

Shakespeare Exhibit
In the interval he has written several books which have been widely read.

Reviewers assert that Chessman is an able writer. His first book, "Cell 2455" has been printed in 17 countries and in 14 languages.

If he ever succeeds in his endless legal efforts to dodge the gas chamber and perhaps escape from the prison on parole or otherwise, he will probably be a wealthy man. The books he writes have had wide sales and each new effort he turns out seems to follow the same pattern.

A judge, a jury and most of the public found Chessman guilty of the crimes for which he was charged. At that time, death penalty was possible for a kidnaper—one of the crimes that Chessman was accused of committing.

His case is a classic example of the many loopholes in law to forestall justice in its presumed responsibility of punishing those who violate the laws and offend society.

If this type of book appeals to you, it's now available. Personally, I think I'll pass.

Helen Hayes Studies 2 Scripts
NEW YORK (AP)—Helen Hayes will probably return to Broadway next season, but so far hasn't made up her mind which of two scripts she prefers.

The veteran star is going to Europe this summer to confer with Anita Loos on "Cock-a-Dooodle-Do," a play about a colorful figure in the international set, the late Lady Mendl. Miss Hayes' husband, Charles MacArthur, was at work on the play when he died last year.

Miss Hayes is also considering Jean Anouilh's "Time Remembered."

Comedy, Music On Live Programs Offered Here

One of the famous comic figures in the entertainment world, Jim Backus, gets new recognition with his own radio show which is to start Monday. It is an ABC live presentation, and will be heard over Radio KBST every weekday afternoon at 2 o'clock.

The lively Jim Backus show will be 60 minutes of popular music and spontaneous humor, featuring Betty Johnson, formerly of Don McNeill's Breakfast Club; Jack Haskell, vocalist of the Dave Garroway shows; the Honey Dreamers; and Del Sharbutt as announcer.

Backus may have gained his greatest fame as the voice for that near-sighted character of the movie cartoons, Mister Magoo. He also has been on the Alan Young show on radio, and has played with Eddie Cantor, Jack Benny and Bob Hope.

Another addition to the KBST radio program rejuvenation will be the Merv Griffin Show, making its debut on 1490 Monday evening at 7:15, and being offered each Monday-Friday evening at the same time.

The live program goes in strong for top music, 45 minutes of it. Merv is the singer who made his debut with Freddy Martin's band, then was discovered by Doris Day for film roles. Since then he has been in five major film productions, and has had club, radio and TV engagements.

A headline feature of the Merv Griffin Show is Daria Hood, who will come from a young group known as the Spellbinders, who have guested with Patti Page, Vic Damone, Tony Bennett and Jo Stafford. Production of the Merv Griffin Show is in the hands of Lyn Duddy and Jerry Bresler.

Features On The Week's TV Log
Items on Channel 4 programs: "Lassie" returns to the fall lineup of TV programs, with the season opener at 6 p.m. today. Cesar Romero joins the panel of "What's My Line?" this evening at 10, substituting for John Daly. Rudy Valle will appear on the first show of the season for "December Bride," Monday at 7:30 p.m. The U. S. Steel Hour's presentation for Wednesday night will be the musical play, "Who's Got the Answer?" starring June Lockhart, Eva Gabor, Otto Kruger and Hugh Marlow co-star in "Jacob and the Angel," offered on Thursday night's "Climax!" hour. Claudette Colbert is a star on "Dick Powell's Zane Grey Theater" Friday at 8:30. She appears as the wife rancher who pioneers on the Southwestern Frontier, and Jeff Morrow and Barry Atwater are co-starred. Gregory Peck, Thomas Mitchell and Vincent Price are big names in "Keys of the Kingdom," the late movie on Channel 4, next Saturday night at 11.

Taylor Biography
NEW YORK (AP)—A drama based on the life of one of the stage's most famous dramatic actresses, the late Laurette Taylor, is being prepared for Broadway production next year.

Boy In Trouble

Sal Mineo is the boy in trouble in this scene from "Dino," also starring Brian Keith as the social worker who tries to straighten out the erring youth. "Dino" shows Friday and Saturday at the Ritz Theatre.

Kiwanians Hold Meet In Tulsa

Horace Reagan, Kiwanis Club president, and Jack Alexander are representing local Kiwanians at the 1957 convention of the Texas-Oklahoma District of Kiwanis International in Tulsa.

The convention opens today and will wind up Tuesday.

Merle H. Tucker, trustee of Kiwanis International and a Gallup, N. M., radio station operator, will be a featured speaker at the three-day meeting at the Tulsa Hotel. A special guest will be H. Park Arnold, Glendale, Calif., newly-elected president of Kiwanis International.

Delegates from 271 clubs, representing more than 15,000 business and professional leaders, will participate in the various sessions. Committee conferences, a discussion of plans for the coming year, and the election of officers will highlight the convention program, Reagan said.

Presiding officer will be Paul J. Files, governor of the Texas-Oklahoma District of Kiwanis International. Files is an executive of the Social Security Administration in Paris, Tex.

Tucker, one of the principal speakers, and the official representative of Kiwanis International at the meeting, is a 16-year veteran of Kiwanis. He is currently serving his second two-year term as a trustee. He has been president of the Kiwanis Club of Albuquerque, governor of the Southwest Kiwanis District, and a member and chairman of district and international Kiwanis committees. He is president and owner of the Thunderbird Broadcasting Company which operates Radio Station KGAK in Gallup, N. M. His station was the first small broadcasting station in history to receive both the Alfred I. Dupont and the George Foster Peabody awards for meritorious service to the public in a single year.

Tucker is past president of the New Mexico Broadcasters Association, past president of the Albuquerque Community Chest, past president of the Gallup Chamber of Commerce a former director of the Gallup Inter-Tribal Indian Ceremonial Association, a member of the President's Traffic Highway Safety Conference, and a commissioner of the New Mexico State Fair.

Arnold, who will be a special guest at the convention, is the newly-elected president of the international service organization. He is a 33-year veteran of Kiwanis. During that time, he has served in numerous capacities in his home club of Glendale, Calif., the California-Nevada-Hawaii District, and in Kiwanis International. Prior to his election to the number one Kiwanis post, he served as treasurer and trustee.

SPECIAL GALLUP POLL

Public Feels Faubus Caused Trouble By Calling Out Guard

PRINCETON, Oct. 5 — The American public is inclined to feel that Arkansas' Gov. Orval Faubus caused more trouble than prevented by placing the National Guard around Little Rock's Central High School.

A survey by the American Institute of Public Opinion finds the weight of sentiment nationwide holds that there would not have been as much trouble in the Arkansas capital if the governor had not put the Guard there in the first place.

Even in the South, a sizable number believe Gov. Faubus' action precipitated rather than blocked trouble — although the weight of Southern sentiment is that the move did not cause more trouble.

At the same time, the people in the North and South would like to see the governor and Pres-

ident Eisenhower work out an agreement whereby federal troops would be removed from the state capital if Faubus will agree to enforce the court's orders.

The mediation effort between Mr. Eisenhower and four Southern governors fell through when Gov. Faubus failed to provide the President with a satisfactory assurance that he would not prevent the blocking of school integration.

Faubus pledged that he personally would not block the orders of the federal courts to integrate the schools. Mr. Eisenhower refused to withdraw the troops from around Central High because the pledge did not "constitute in my opinion the assurance that he (Faubus) intends to use his full powers as governor" to prevent the blocking of school integration.

Many people in today's survey who feel that a try for an agree-

ment between the governor and the President would be a good thing added—"but only if they can be sure Faubus will go along."

Experienced opinion reporters put these questions to a nationwide sample of adults which included the correct proportion of persons from each major population group:

"Some people say that there would not have been as much trouble in Little Rock if Gov. Faubus had not put the National Guard there in the first place. Do you agree or disagree with this point of view?"

The vote nationwide: Per cent Agree 46 Disagree 28 No opinion 26

found that although people in the North felt Faubus did the wrong thing in placing guardsmen around the school, nearly two out of three Southerners believed he made the right move in doing so.

In today's survey, a clear majority of Northerners agree that there would have been less trouble without the Guardsmen. In the South today, the vote is as follows:

Per cent Agree, would not have been as much trouble 34 Disagree, would have been as much 38 No opinion 28

The second question: "It has been suggested that Gov. Faubus and President Eisenhower try to work out an agreement whereby the troops will be removed if Faubus will enforce the law in Arkansas with local and state police. Does this sound like a good idea or a poor idea?"

The vote nationwide: Per cent Good idea 69 Poor idea 18 No opinion 13

Although a majority in all sections of the country believe that such an effort would be a good idea, the greatest opposition to the plan comes from the 13 Southern states.

MONDAY

IS

DOLLAR DAY

AT

Hemphill-Wells Co.

Hair Spray

Coiffure Fun made exclusively for Hemphill-Wells. Water-soluble and non-flammable. Leaves hair more lustrous and lovely. Tames unruly curls. 11-oz. bottle. 1.50 value **1.00 plus tax**
