TWELVE PAGES TODAY

Here To Boost United Fund

Fred M. Lange, executive vice president of the Dallas Community Chest Fund, here to speak at a United Fund luncheon today, visits with Big Spring women who help operate the West Side Park and Playground. Left to right are Mrs. Shine Phillips, Lange, Mrs. G. C. Graves and Mrs. W. E. Prichard. Lange spoke at noon at a joint meeting of service club members and United Fund Workers.

Bodies Of Missing Fliers Discovered

Body of Lt. Glenn Sutton, 24, missing since last Feb. 23, was discovered last Thursday, said Mrs. Sally Sutton of Big Spring, AFB, Montgomery.

Also located were the remains of Maj. Paul Omann, brother-in-law of Mrs. Ennis Cochran of Big Spring, and the T-33 jet trainer in which the two fliers disappeared. Hunters stumbled across the wreckage of the plane and the bodies of the two officers in Donner Summit Pass area, in the Sierras east of Sacramento, Calif.

Mrs. Sutton said the only information she received came from newspaper stories published in Montgomery, Ala. After she placed an inquiry Monday, she received a telegram from authorities at McClellan AFB, Calif., asking what disposition should be made of her husband's body.

Lt. Sutton, formerly a flight instructor at Webb AFB, disappeared on a flight between Hamilton

AFB, Calif., and Nellis AFB, Nev., last Feb. 23. With him was Maj. Omann, a student pilot. At the time, they were stationed at Selma AFB, Montgomery.

Funeral for Lt. Sutton will be held in his home town, Ripley, Tenn., Mrs. Sutton, the former Sally Brown of Big Spring, said. Time for the services has not been set.

Lt. Sutton is survived by his wife, a son, Terry Glenn, born just 13 days before he was lost; his parents, Mr. and Mrs. R. B. Sutton of Ripley; three brothers, Jake, Ted and Don Sutton of Ripley; and one sister, Mrs. Leonard Long of Ripley.

Maj. Omann is survived by his wife, Mrs. Pat Omann of Sayre, Okla., sister of Mrs. Ennis Cochran of Big Spring; one son, Blaise Hampton Omann; his parents, of Grants Pass, Ore., and eight brothers and sisters, some of whom are today what funeral arrangements will be made for Maj. Omann.

Farmers Eye Crops, Sky

The Weather Bureau's forecast of possible afternoon and evening thundershowers for today and tomorrow was viewed with mixed emotions by the farmers of the area.

According to Jimmy Taylor, county agent, most cotton farmers do not want any rain at all. Harvest of the cotton has already begun to increase its tempo and rain at this time would be a detriment rather than a benefit.

Taylor said that feed stuff, where it was late planted, could use a little moisture and pastures, of course, would be benefited.

Residents in the town, eyeing the fall brownness developing on their lawns would not be averse to rain.

The forecast for today and Wednesday calls for cloudy skies. Cooler weather, with a high reading of 80 degrees anticipated.

If the showers develop, the bureau believes they will come in the late afternoon and evening.

High reading for Monday was 89 degrees. The low last night was 60.

Gas Explosion Injures 2 Men, Wrecks Building At 7-Up Plant

An accumulation of gas under a four-room house at 1606 Young exploded this morning and two persons were injured by the blast.

Taken to Medical Arts Hospital were Lewis Christian, owner of Seven-Up Bottling Co., and Thomas Marques Jr., employe of Five-ash Plumbing.

Neither was considered in serious condition, however. Officials at the hospital said at noon that both were suffering from concussion shock. Marques was in worse condition than Christian.

In addition to the shock, Marques had cuts and bruises about the face. Doctors at the hospital said no X-rays had been made, but they felt that no additional injuries were sustained.

The house was being renovated for offices for the bottling company, and the plumber was testing gas lines in the kitchen when the

explosion occurred. Very little fire developed, but the building was immediately filled with smoke.

The fire was extinguished by C. E. McDaniel, a brickmason who was working outside. McDaniel was almost overcome by smoke before leaving the house. He said that Christian appeared to have been overcome when he was carried out.

Christian and Marques were both taken to the hospital by a Nalley-Pickle ambulance for treatment.

The two who were hurt were the only ones in the building at the time. Mrs. Allen Christian, secretary for the firm, had gone to town or she would have been in the building. Allen Christian was in the bottling shop next door at the time.

The concussion knocked the house off its foundation and cracked the concrete foundation. The

office occupied by Lewis Christian was the only one of the four which was not damaged. Wood paneling on the walls of the other rooms was pulled loose and furniture was strewn about the rooms.

Mrs. Christian's desk was covered with wall paneling.

Firemen rushed to the scene but the small fire had been extinguished when they arrived. They came from the main station as well as the substation at Eleventh and Birdwell.

Fire Chief H. V. Crocker said that gas had probably accumulated under the floor, since most of the blast appeared to be from the ground. Also the small fire developed beside the stove on the floor. Stove burners had been on, employes said, but wind blowing through the house probably prevented an explosion at that time.

The trouble was the second from fire in less than two months at the firm. On Aug. 15, a fire in the bottling building brought a loss of \$9,000. No one was injured then, however.

FIRE CAPT. A. D. MEADOR SURVEYS DAMAGE Blast wrecked office building at 1606 Donley today

Tornado Hits Texas Homes

By The Associated Press
A tornado damaged three homes, one heavily, in Baylor County and huge hailstones and rains up to 5.02 inches pounded other areas of Central West Texas Monday night.

No injuries were reported in the twister area.

Mike Parker estimated damage at around \$1,500 at his farm home and buildings 7 miles west of Seymour. He said the funnel traveled from northwest to southeast, an unusual direction. Farm homes and outbuildings of J. B. Langley and Bill Thornhill in the same area were damaged. Many large trees were twisted to splinters.

Rainfall in the area included Aspermont 5.02 inches, 5 inches west of Sagerton in west Haskell County, 3.50 in south Knox County, 1.50 at Baird and .90 at Abilene.

A truckload of Mexican cotton pickers were treated at Knox City for bruises suffered from hail described as large as baseballs.

A cold front edged toward the Panhandle from the northwest Tuesday as fog and rain hit much of Texas.

Big Springers Track Sputnik

Big Spring Naval Reservists and Air Force personnel are tracking the Russian earth satellite at regular intervals of about 96 minutes, Lt. Cmdr. William D. Boyd, commander of Naval Reserve Electronics Company 8-37, reported today.

The satellite's signals have been monitored with equipment at the Military Affiliate Radio Station (MARS) at Webb AFB, Cmdr. Boyd said. Boyd also received the signal, a steady "beep, beep," on Naval Reserve equipment. He said that efforts to pick up the satellite's coded signal had been fruitless.

The local observations are purely voluntary. Naval Reserve personnel participating are Lt. Cmdrs. Boyd, John B. Hardy, and Hays Bacus; Lt. Kenneth Huff, and Radioman Glenn Hancock. Air Force volunteers are working under the direction of Lt. Ralph Barnes and M. Sgt. Arthur D. Maus.

The group recorded a portion of the satellite broadcast.

Capt. Murray Carter, local Air Force project officer for "Operation MOONS" at Webb AFB, said the passage of the United States satellite when it is launched, said the local group probably will make no effort to visually observe the Russian sphere. Equipment is set up for observation along an east-west path, while the Russian device is operating along a north-south orbit.

Four Indicted By Martin Grand Jury

STANTON (SC) — Martin County Grand Jury voted indictments against four defendants Monday in a one-day session.

Indicted were: Bobby Wayne Gay, auto theft; Francisco Flores, DWI second offense; Guy Tusie, removal of mortgaged property, and Dick McCallahan, felony hot check.

Gil Jones, district attorney, 118th District Court, presented the cases to the grand jury which had been empaneled by Judge Charlie Sullivan.

The grand jurors submitted their final report to the judge late Monday afternoon.

News Released

JAKARTA, Indonesia, (AP)—Indonesian newspapers today told their readers for the first time about the launching of the Soviet earth satellite.

U. S. Rejects Soviet Bid For Dual Space Control

U.S. Pushing U.N. Talks On Disarmament

UNITED NATIONS, N.Y. (AP)—The United States and its allies today planned to seek speedy discussion of their new disarmament plan as the U.N. Assembly's chief Political Committee moved into action.

The Western delegates were expected to put the resolution before the committee tomorrow and to seek immediate discussion of it.

Indian Delegate V. K. Krishna Menon, meanwhile, delayed unveiling his own rival arms plan, which it had been expected would be outlined in policy speech today to the Assembly.

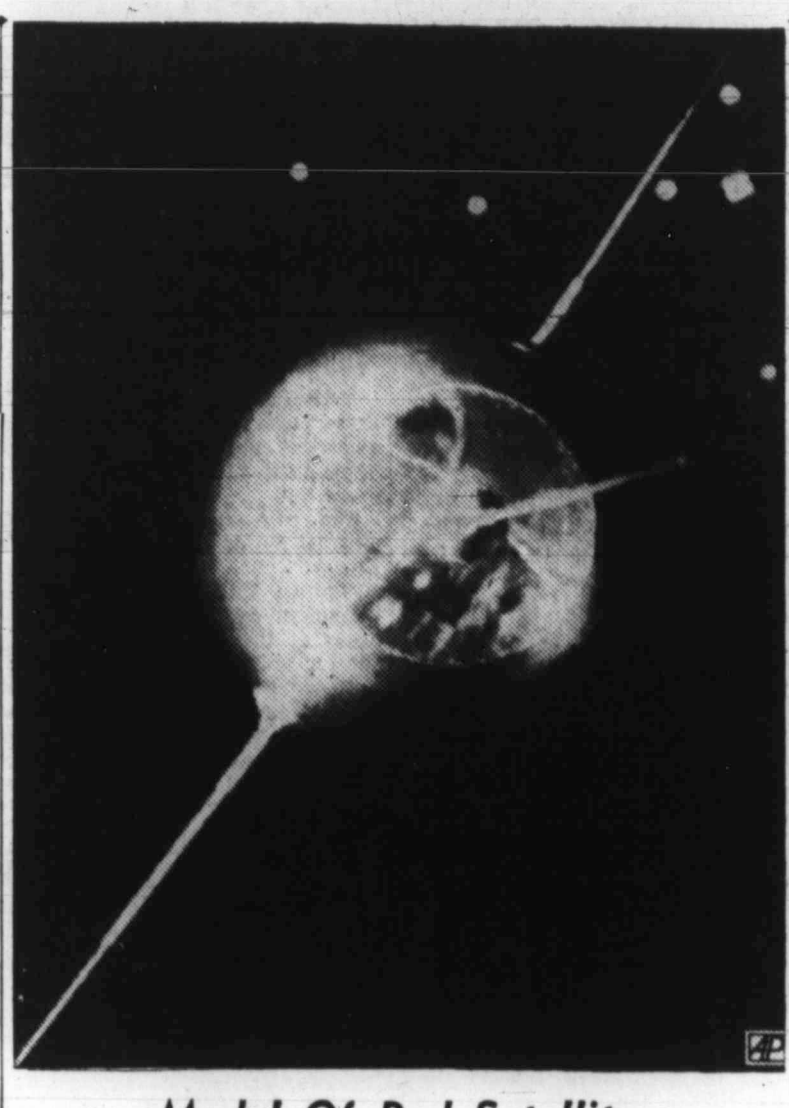

An Indian spokesman said Menon's resolution had been held back until tomorrow. He added that Indian delegates will confer tonight with U.S. disarmament negotiator Harold E. Stassen in an attempt to bring the U.S. and Indian arms views closer together.

The Indian proposal, like companion schemes put forth by Russia and Japan, calls for suspension of all nuclear tests subject to inspection but prior to actual disarmament.

The Western plan specifies suspension of nuclear tests only after agreement is reached to stop using atomic material for weapons, reduce armed forces and evolve a comprehensive system of inspection.

The Western proposals include setting up an inspection system to insure that sending rockets through outer space would be for peaceful and scientific purposes only.

The United States acknowledged it is studying what possible effect the launching of the Soviet space satellite will have on the disarmament picture and said it no doubt would have some proposals to make on that score in the future.

Model Of Red Satellite

This model of a Soviet earth satellite was displayed at the Prague, Czechoslovakia, exhibition marking the anniversary of Russia's October revolution.

Search Expands For Kidnap-Slayer

ROSWELL, N.M. (AP)—Police today combed deeper into Mexico for the kidnap-slayer of a 5-year-old girl whose unclothed body was found last night in a dump eight miles east of here.

Little Sandra Jo Lucero apparently died from a single stab wound in the heart. The weapon, a screwdriver, lay nearby.

Police Chief Tommy Thompson and Sheriff J. C. Jones said they will file murder charges today against Joe Franco, 24, a farm worker with a record of minor scrapes with the law.

Franco, a "friend of the family," has already been charged with kidnaping the child from her home early Sunday. The FBI, whose agents were aiding local lawmen, issued a fugitive warrant for Franco.

His car was found abandoned 200 miles southwest of here in El Paso, Tex., near a bridge across the Rio Grande into Juarez, Mexico. Border patrolmen, FBI agents, Mexican police and New Mexico lawmen swarmed into Mexico in a joint effort to find Franco.

Behind in the car was Franco's 30-30 rifle, fully loaded and with a shell in the chamber.

A post-mortem was ordered on the child's body to determine exact cause of death and whether she had been sexually assaulted.

Officers said it appeared to be a sex crime.

Her body, half covered with sand, was found by a group of five of her relatives, who told police they searched there because they knew Franco "was always boasting" about the area. His parents live nearby.

Sheriff Jones and Chief Thompson remained in El Paso, where the Mexican manhunt headquarters.

Officers pieced together this account of events leading up to the slaying: Franco came by the Lucero

home about 10 p.m. Saturday night to see the child's parents, Mr. and Mrs. Clement Lucero. They were at a movie and their five children, including Sandra Jo, were in the care of a 10-year-old uncle.

Franco left and returned about midnight. The babysitter and Sandra Jo were sleeping on a bed. The parents hadn't returned. Franco told the boy he was sleepy and the boy moved to the couch, leaving Franco with the little girl.

About 12:30 a.m. the boy heard Franco go out the back door. Sandra Jo got up to close the door against a heavy rain then falling. She didn't return.

More Sightings Raise Hopes Of Tracking Sputnik's Orbit

WASHINGTON (AP)—American scientists said today they have drawn an electronic bead on the Russian satellite and can now plot its course weeks or even months in advance.

They aren't moving quite that fast, however.

"Each orbit may show a variation of a few miles," one of them explained. "In itself that isn't much. But if you multiply that by the 16 orbits the satellite makes every day, you could wind up far off target."

The computations are checked and rechecked during the day and new data is fed into the electronic computers that chart the satellite's path.

"This is about as good as we can do on the basis of radio signals," said a spokesman for the Naval Research Laboratory. "We won't get an absolute fix on the satellite's path until we have been able to take some visual sightings."

The latest observations showed the satellite was circling the globe right on schedule at a speed of 18,000 miles an hour, although one conflicting set of unofficial calculations showed its speed had dropped to 5,500, possibly indicating the ball might drop from its orbit.

Radio reception was interrupted at times last night from the Russian globe, dubbed "Sputnik" by Soviet authorities. It was launched last Friday.

American experts had hoped last night to obtain, by electronic computation, such detailed orbit data as the exact path of the sphere, its location in outer space and possibly its precise shape.

That information had been expected from data fed into a giant electronic computer at Massachusetts Institute of Technology at Cambridge, Mass.

However, Dr. Fred L. Whipple, observatory director, said the machine did not come up with the

expected material because of insufficient or inaccurate data.

CLOSE ENOUGH
The results still were close enough, he said, to track the orbit within one minute and one degree.

The electronic calculations were based on visual sightings in Alaska and Australia.

The report that the baby moon appeared to be slowing down came from scientists at Rensselaer Polytechnic Institute last night. Dr. Robert Fleischer, head of the observatory at Grafton, N.Y., said calculations there showed the satellite was taking 100 minutes to circle the earth — about four minutes longer than before.

But that report was largely discounted by other late information, including a report that the satellite's pulsating radio signal had been picked up at the Blossom Point, Md., minitrack station at about 11:32 p.m., right on schedule.

Meanwhile, there were these other developments:
1. A Russian scientist visiting in the United States said he believed the satellite was reporting atmospheric temperatures by radio with the length of the "beep" signal as a code. A. A. Blagonravov made the statement in an interview with the New York Times in which he also suggested that a U.S. device for analyzing atmosphere be sent up in a Soviet satellite.

PROBE ORDERED
2. Sen. Russell (D-Ga.), chairman of the Senate Armed Services Committee, disclosed that the staff of that group's Preparedness Subcommittee has been instructed to check into why the United States has lagged behind Russia in missile and satellite programs.

3. U.S. authorities announced plans to step up training of visual observers "due to the presence in our skies of the test satellite launched by the Soviet Union." Al-

2-Power Pact Termed Unfair

WASHINGTON (AP)—The State Department today rejected a suggestion from Nikita Khrushchev for U. S.-Russian agreement to establish international control of space missiles. It said such a step should be part of a general disarmament package.

The State Department recalled that the United States, Britain, France and Canada had made a proposal in disarmament talks at London Aug. 29 aimed at assuring that "space" missiles be launched and used exclusively for "peaceful and scientific purposes."

Jameson Parker, press officer, said tersely that "we will stand" on that approach which calls for agreement by many nations—not just the two superpowers.

Parker declined other comment on Khrushchev's interview with New York Times correspondent James Reston until after officials have studied all angles of the lengthy remarks of the Soviet Communist boss.

The import of Parker's comment on Khrushchev's call for missile controls appeared to be that the U. S. government is not interested in joining in two-party deals with Russia which would have the effect of settling matters in which other countries have a vital interest, without giving them an adequate voice.

It appeared here that tough-talking Khrushchev has decided to use Russia's newly won position in missile and satellite development to pressure the Western Powers into a defensive position in the cold war.

In an interview in Moscow yesterday with James Reston, Washington bureau chief of the New York Times who is visiting the Soviet capital, Khrushchev said an agreement on peaceful coexistence would remove any problem of controlling new scientific devices.

Khrushchev said Moscow was amending its disarmament proposals to provide for inspection of rocket-launching sites. He explained that planes are "in decline" as a weapon, that bombers lack height and speed for modern combat and are vulnerable to rocket attack, and that fighter planes move so fast they are not effective in air-to-air combat.

NO WEAKNESS
"His recital of Soviet power," Reston wrote, "also made it clear that the Soviet Union was not prepared to discuss arms limitation from a position of weakness. He seemed to be saying: we are anx-

ious to limit arms of all kinds but we want the world to know that we have them."

Khrushchev added that he did not imply the Soviet Union is ahead in the development of all these weapons. He explained that the Soviets might be ahead on one thing today, but the United States would have it tomorrow and vice versa.

He termed such competition harmful and said the Soviets did not want it, that they want peace.

Several Congress members have urged inquiries.

Sen. Ervin (D-NC) urged an immediate public hearing by the Senate Armed Services Committee.

Ervin protested "silence from the White House and the administration" in a telegram to Chairman Russell (D-Ga.) of the Senate Military Committee urging the inquiry.

Russell, in Winder, Ga., previously had announced that he had asked the Defense Preparedness Subcommittee, headed by Sen. Johnson (D-Tex.), to conduct a staff inquiry into why this country apparently has dropped behind Russia in development of satellites and intercontinental missiles.

Sen. Mansfield Urges Project Setup Revision

WASHINGTON (AP)—Sen. Mansfield (D-Mont) today urged that Congress set up "a Manhattan-type project" to direct the multi-billion-dollar race with Soviet Russia in the field of missiles and earth satellites.

"We need the same type of coordination and concentration of our best scientists and experts as developed our initial atomic bomb," Mansfield, assistant Democratic Senate leader, said in an interview.

The "Manhattan Project" was the code name given during World War II to the program which developed the atomic bomb.

Mansfield injected his idea into a growing congressional clamor arising from the Russian success in launching the first man-made moon.

Several Congress members have urged inquiries.

Sen. Ervin (D-NC) urged an immediate public hearing by the Senate Armed Services Committee.

Ervin protested "silence from the White House and the administration" in a telegram to Chairman Russell (D-Ga.) of the Senate Military Committee urging the inquiry.

Signs Found At Mansion

Police Sgt. Bernard Kalnoske of Annapolis, Md., holds a charred wooden cross which was found burning on the fence surrounding the executive mansion. The signs were also found on the fence. Gov. Theodore R. McKeldin, a strong advocate of compliance with the Supreme Court ruling banning segregation in the schools, was at home but unaware of the cross-burning.

International Flavor At The State Fair

DALLAS — The Pan-American Livestock Exposition lent an international flavor to the State Fair today as ranchers from Central and South America arrived to buy cattle, farm equipment and to study agricultural methods.

Last year resulted in \$1,650,000 of livestock sales to Latin-American ranchers. Thad Ricks, Fair publicist, said there was no estimate of farm machinery sales, but said the visitors were considered good customers.

Bidding is spirited for ribbon-winners in the show, but many South American cattlemen come early, look the stock over and negotiate before the judging.

The exposition runs the first nine days of the fair, from Oct. 5-13. About 1,000 Latin-American stockmen were expected.

Patricio Pitti, a weatherbeaten rancher from Daviz in the Chiriqui province of Panama, said he planned to buy about eight Brahma bulls, three shorthorns and a quarterhorse. Pitti, speaking through Hector Marciaqco, a resident of Panama City attending

Texas A&M, said the shorthorns were for experimentation.

"I don't know how they'll do in Panama," he said. "The Brahmans we know about. All the animals are for breeding purposes."

Silverio Guerra, who owns a ranch near Pitti's, said "The land in Panama is something like Texas, but it is very wet, with lots of rain."

"We hope to build up our herds with the cattle we buy here," he said. Guerra said he planned to buy some shorthorns and fly them back to Panama along with Pitti's cattle.

A score of Brazilians sponsored by the Brazilian government and the International Cooperation Administration visited the fair.

They are studying land-grant colleges, agriculture extension service systems, and here, the organization of fairs and their importance to agriculture.

The group will visit Houston, Corpus Christi and Beaumont, then go to Indianapolis, Ind., Purdue University, Chicago, and to Washington before returning to Brazil.

Partner To Testify During Trial On Statutory Charge

FLEMINGTON, N.J. — The prosecution called Ralph Meuer to the stand today in the carnal abuse trial of Thomas Stoelting. Stoelting, 52, a geologist, is accused of having relations with Sandra Hauck, 15, daughter of prominent attorney Anthony Hauck.

Meuer, 59, and Stoelting were house guests in the Haucks' home April 3 when Sandra pumped a bullet into the geologist's stomach. Stoelting, still recuperating from the wound, was subsequently arraigned on the carnal abuse charge.

In testimony sometimes tearful, sometimes whispered, Sandra said yesterday the shooting was the culmination of a two-year sex bondage during which Stoelting threatened and beat her.

Sandra testified Meuer had visited her room only moments before the shooting. The defense has asserted that Meuer—not Stoelting—was intimate with the girl and that the geologist was the victim of a conspiracy hatched by Meuer and Sandra.

The two men were associated with Hauck in a mining venture. The chubby straw-blond will be 16 Oct. 23. She said she finally broke off with Stoelting in May, 1956, two years after he allegedly forced her to yield to him in a car.

She testified that since that time she had repeated relations with the geologist.

The girl's father helped prosecute Bruno Richard Hauptmann, executed for the kidnap-murder of the Lindbergh baby.

Sandra testified that Stoelting struck her when she told him she didn't enjoy relations with him. Under cross-examination, she said that during the two years of the alleged intimacies she continued giving Stoelting birthday and Christmas gifts and still treated him as a respected member of the family.

Better Get Ours Up First, Though

NEW DELHI — A front-page cartoon in the non-Communist Indian Express today shows U.S. Secretary of State Dulles turning from a telescope trained on the Soviet earth satellite to remark to President Eisenhower:

"This calls for immediate extension of the Ike Doctrine to the moon."

Armed

This man is the leader of Communist police volunteers in the tiny strife-torn republic of Marino, located in north central Italy. His name is Ercolo Capichioni, and he is a stone cutter in civilian life. San Marino is currently split into two armed camps with rival Communist and anti-Communist governments.

Khrushy Boasts Satellite Makes Planes Obsolete

MOSCOW — Nikita Khrushchev boasted last night that Soviet scientific advances have made war planes obsolete.

He also warned Turkey against shifting its forces to war on Syria while leaving its Russian border bare.

The Soviet Communist chief said at an East German Embassy banquet that some people scoffed when Russia announced its intercontinental ballistic missile.

"Some people said it was only psychological warfare — that we were only trying to impress people," he said.

"Now we not only have a rocket that can fly to other countries but we have a satellite that flies around the world. I don't have to point to this with my finger—any idiot can see it."

Khrushchev said with these scientific achievements, "they might as well put bombers and fighters in the museum."

Communist correspondents reported Khrushchev's remarks. Western correspondents were not admitted to the banquet.

"We have passed the richest and most advanced country of the capitalist world — the United States," the party chief crowed.

Khrushchev opened his warning to Turkey with the charge that "there are still forces who want war in the Middle East."

"Before," he continued, "they were preparing Jordan and Israel for war against Syria. Now they are preparing Iraq and Turkey. Preparing Turkey already has been prepared."

"Turkish leaders have not been very sensible. They have concentrated so many Turkish forces against Syria that they have left their frontiers with us almost bare."

Satellite Radio Signal Changes

TEMPLE CITY, Calif. — A scientist from the California Institute of Technology reports that something has gone wrong with one of the transmitting devices on the Russian earth satellite.

Dr. Henry L. Richter, one of the scientists manning the satellite tracking station here, said 20-megacycle transmissions from the flying sphere last night were coming as "steady rather than breaking beats."

Dr. Richter, superintendent of the research department at Caltech, said this might indicate battery trouble.

He said there was nothing wrong with the transmissions coming from the satellite at 40 megacycles.

Dr. Richter made the statement after a tracking session that began at 10:40 p.m. Monday. He said earlier in the day that the 20-megacycle transmissions had changed in character and appeared similar to those sent by television transmitters.

Texas Leads Drop In Oil Average

TULSA — A big drop in Texas helped lower daily average production of crude oil 30,500 barrels to 6,803,600 the week ended Oct. 5, the Oil and Gas Journal said today.

Texas' fall was 70,725 barrels to 2,703,675. Louisiana's 21,325 barrels to 801,625 barrels and Oklahoma's 18,800 to 572,400 were the week's best gains.

Production for 1957 was estimated at 2,019,606,825 barrels compared to 1,993,118,888.

New Mexico fell 150 to 253,250 barrels. Arkansas rose 50 to 81,650.

Soviets Hint A New Sputnik Is Ready

MOSCOW — A Soviet newspaper hinted today Russia will launch a second satellite "more perfected than the existing one" on Nov. 7—40th anniversary of the Soviet Communist regime.

The hint came in the labor newspaper Trud in a dispatch from its London correspondent.

"The latest news," it said, "that satellite No. 2, more perfected than the existing one, will be launched in the stratosphere on the 40th anniversary of the great October revolution has been received with great interest by the entire public opinion of Great Britain."

"And soon flights will be possible to the Moon, Mars and Venus." There have been no reports in Moscow of such a project for that date.

Two visiting British members of Parliament quoted Communist party chief Nikita Khrushchev as saying "we have even more things up our sleeves."

The MPS, Conservatives Cyril Osborne and Capt. Henry Kerby, talked for 80 minutes with the Communist leader about the Soviet intercontinental ballistic missile and other subjects.

They said Khrushchev told them the missile is "only one of the many things we are doing. Our intercontinental ballistic rocket shows that it's no good sending humanly controlled machines against missiles. The age of bombers is over."

"This all points to the fact that we have even more things up our sleeves. You can't send human flesh and blood to fight things like that."

Osborne, who said he talked with President Eisenhower in the United States two months ago, said that what Khrushchev told them about rocket weapons "sounded almost exactly like what American officers told me when I visited Redstone Arsenal in Alabama two months ago."

"I told Khrushchev the Americans had described rockets which they said they could throw across the world with great accuracy. They could cover 3,000 miles and hit a baseball field."

Khrushchev, Osborne added, had no comment on this.

Marshall Sells Swimming Pool

MARSHALL, Tex. — E. N. Power who bid \$10,500, has been awarded sale of the city swimming pool in an anti-integration move.

The city offered the pool and other facilities for sale after Titus Edwards, 21, a Marshall Negro, sought in U.S. District Court an injunction against the case of Negroes at the pool. The case was set for a Nov. 4 hearing.

Power said he plans to reopen the pool, now closed for the winter, next year. Marshall citizens approved sale of the city property in a special election last spring.

6 Whites Indicted In Mutilation Of Alabama Negro

BIRMINGHAM, Ala. — Indictments charging mayhem and assault with intent to murder have been returned against six white men in the sex mutilation of a 34-year-old Negro.

Officers said Judge Aaron was kidnaped Sept. 2, taken to a meeting of the Klu Klux Klan and castrated to prove that one of the six men was worthy of promotion in a Klan organization.

Aaron, officers said, was picked up at random by the men as he and a girl companion walked along a road.

Aaron said his abductors told him to tell Negro leaders the same thing would happen to them if they sought to send their children to white schools.

Solicitor Emmett Perry yesterday identified the indicted men as J. N. Griffin, 38; Joe Pritchett, 31; J. E. Maybry, 43; Grover McCullough; William J. Miller, 28; and B. A. Floyd, 31; all of the Birmingham area. Each is free in \$5,000 bond.

The charges are felonies punishable on conviction by prison sentences of 2 to 20 years.

Partner To Testify During Trial On Statutory Charge

FLEMINGTON, N.J. — The prosecution called Ralph Meuer to the stand today in the carnal abuse trial of Thomas Stoelting.

Stoelting, 52, a geologist, is accused of having relations with Sandra Hauck, 15, daughter of prominent attorney Anthony Hauck.

Meuer, 59, and Stoelting were house guests in the Haucks' home April 3 when Sandra pumped a bullet into the geologist's stomach.

Stoelting, still recuperating from the wound, was subsequently arraigned on the carnal abuse charge.

In testimony sometimes tearful, sometimes whispered, Sandra said yesterday the shooting was the culmination of a two-year sex bondage during which Stoelting threatened and beat her.

Sandra testified Meuer had visited her room only moments before the shooting. The defense has asserted that Meuer—not Stoelting—was intimate with the girl and that the geologist was the victim of a conspiracy hatched by Meuer and Sandra.

Texas Leads Drop In Oil Average

TULSA — A big drop in Texas helped lower daily average production of crude oil 30,500 barrels to 6,803,600 the week ended Oct. 5, the Oil and Gas Journal said today.

Texas' fall was 70,725 barrels to 2,703,675. Louisiana's 21,325 barrels to 801,625 barrels and Oklahoma's 18,800 to 572,400 were the week's best gains.

Production for 1957 was estimated at 2,019,606,825 barrels compared to 1,993,118,888.

New Mexico fell 150 to 253,250 barrels. Arkansas rose 50 to 81,650.

We Specialize in SERVICE!

Oil for a little girl's roller skates? Yes, ma'am! Strap need adjusting? We can fix that, too. If it's service you want, you came to the right place!

Fortunately for your Phillips 66 Dealer, he services more cars than roller skates. But he goes about it in the same friendly, helpful way. You'll find he takes an interest in your car. Phillips 66 Service includes having your car brushed out . . . the windows cleaned all the way around . . . your battery and tires checked. It means friend-

liness, courtesy, the desire to please you in every way! Your Phillips 66 Dealer always tries to do a little more for you than you expect him to.

That's why a little girl who comes in for "roller skate oil" is likely to keep coming back years later for Phillips 66 FLITE-FUEL and TROP-ARTIC Motor Oil, and all the little courtesies that add up to "Hospitality on the Highway."

"He's learned to answer every question under the sun... except the ones his teachers ask."

Ion Test Presages Atom Space Flight

CLEVELAND (AP)—The National Advisory Committee for Aeronautics bombarded a small pinwheel inside a glass vacuum jar with an invisible stream of ions today and made it whirl briskly.

The same ion-stream principle, NACA said, someday may be harnessed to push 10-ton space ships moonward at many thousands of miles an hour once they have reached outer space.

Coupled with atomic energy, such a vehicle might have virtually unlimited range.

The demonstration was part of a four-day public inspection of the NACA's Lewis flight propulsion laboratory, which is attracting top scientists to Cleveland this week.

In order to simulate the searing temperatures which will be experienced by aircraft and power plants at extreme speeds, NACA has developed a research tool, the

electric arc tunnel. It uses a cathode ray and anode nozzle to transmit a spark, much as in the powerful searchlight of an anti-aircraft unit.

A fluid injected into the arc chamber heated by the arc and expanded through the nozzle produces a high-speed stream, or "plasma jet," with temperatures of 10,000 to 20,000 degrees.

"The arc tunnel suggests an attractive propulsion device for outerspace flight," NACA said in a report made public at the demonstration.

"If a stream of ions, as in an arc jet, can be accelerated to high velocities by use of electric or magnetic fields a small amount of thrust will be produced. Ions are tiny bits of matter—atoms which have been stripped of some of their electrons and have become electrically charged.

Housewife Testifies Medic Used Drugs During Assault

TULSA (AP)—A pretty housewife told a jury yesterday how a Tulsa physician allegedly drugged her into submission, then raped her.

Mrs. Flora Moore, 20, speaking in halting phrases and on the verge of tears, said:

"I tried to resist him and move. I couldn't raise my arms or move my legs. I was completely paralyzed."

Dr. John Rhine, 35, is charged with second degree rape. If convicted, he could be sentenced from 1 to 15 years.

County Atty. Howard Edmondson told the jury several other women patients would testify similarly.

Mrs. Moore said she went to Rhine's office with a cold in July, 1956. She testified Rhine told her she had a sinus infection and gave her a shot "to relax me." A few minutes later she said, Rhine gave her another shot.

She was so weakened by the shots that she had to be carried out of the office by her husband, Mrs. Moore said.

Later that night, Mrs. Moore said Rhine called at her home and after giving her another shot, sent her husband to have a prescription filled.

Mrs. Moore, a bespectacled blonde, said she was assaulted by Rhine after her husband left.

The next day, Mrs. Moore said, Rhine called her and asked her if she had any nightmares. She said she told him "no," and the

doctor asked:

"You mean you didn't have any dreams or imaginings?"

Mrs. Moore said she did not tell her husband of the alleged incident until July.

Dale Moore, 20, the husband, testified he took his wife to Rhine's office, and described his wife's condition after the shots. He also told of leaving Rhine with his wife when he went to have the prescription filled.

When he returned, Moore said, Rhine was seated in a chair with his shoes and shirt off.

Highest Headline

LONDON (AP)—The tabloid Daily Sketch carried a headline from outer space today — the up-and-down black lines of an oscilloscope recording of the Soviet earth satellite's radio signal.

"Here is the highest headline ever written," the Sketch said.

Legal Language

DENVER (AP)—The chief justice of Colorado's Supreme Court says lawyers ought to use simpler words and shorter sentences.

"I've got to use a dictionary in reading some of your legal briefs," Chief Justice O. Otto Moore told the Denver Bar Assn. "And too much of that becomes embarrassing."

A Bible Thought For Today

care of that, we can fully trust Divine Love. No man can serve two masters, Matt. 6:24 — Confusion and contradiction would result. No one can go in opposite directions at the same time.

Important Questions Coming Up

Texas will go to the polls on Tuesday, November 5, to vote on three amendments to the State Constitution submitted by the 55th Legislature.

The first of the three issues coming up next month is styled H. J. R. 37. If adopted, it would revise the existing state retirement, disability and death compensation program for state officers and employees.

The second amendment, H. J. R. 2, would increase the limit on maximum monthly payment to needy aged persons from the current \$20 a month to \$25 a month, and raise the present \$42 million annual state funds for assistance to the needy aged, needy blind and needy children to \$47 million per year to cover the raise.

The third and final amendment before the voters November 5 would authorize issuance of \$200 million in state bonds to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions and bodies politic and corporate for water development and conservation.

We recommend you familiarize yourself with them, and be prepared to vote intelligently. You'll be hearing more about these proposals in the next three weeks.

Product Or Cause Of Color?

In Hollywood an actor who lost his sight to cataracts seven years ago, and recently regained it, was asked what he noticed most upon coming out of the darkness into the light of day.

Colors, mostly, said Jason Robards. "Everything is so full of color—the cars, the buildings, the furniture."

The trend to color, of course, started more than seven years ago, but in the succeeding years it has run riot, sometimes with startling effects until you get used to it.

Until recent years we were a pretty drab country, as countries go. Our cloth our cars were mostly solid blacks, grays, red and blues, depending on what the article was.

contrast to the riotous colors worn by many South American natives—who did their own dyeing and weaving, and certain Central European peoples.

But today all that is changed. The grandstands at football and baseball games used to be pretty much a matter of blues, blacks, grays and browns. Now they resemble a flock of peafowls against a backdrop of the Northern Lights and a rainbow.

The general effect is exciting, and not altogether displeasing.

But we have begun to wonder just what psychological effect this wild use of color in almost everything is having on us. Is the jittery condition of individuals and crowds the result of the unrestrained use of color, or is the unrestrained use of color the result of jittery nerves?

The Gallup Poll

Public Backs Supreme Court Ruling

PRINCETON—The events in Little Rock have done little to change the attitude of the typical American toward the principle of school integration.

A special survey by the American Institute of Public Opinion—completed since President Eisenhower ordered 1,000 troops of the 101st Airborne Division into Little Rock—finds that 59 per cent of all adults across the country approve of the Supreme Court's historic decision on school segregation.

In an August survey, before Gov. Orval Fubus stationed the Arkansas National Guard around Little Rock's Central High School at the opening of the school year, 58 per cent of those interviewed nationwide approved of the Supreme Court decision.

There is survey evidence that the approval vote in the South took a downward turn during the early days of the Little Rock dispute before the President dispatched troops to that city.

In a nationwide study completed just prior to Eisenhower's decision, 56 per cent of all adults across the country approved of the decision.

At that time, 16 per cent of those interviewed in the South approved of the decision—an all-time low in the Southern approval vote since the court's decision over three years ago.

Today, 23 per cent of those interviewed in the South say they approve of the Supreme Court ruling.

As part of its study on the impact of Little Rock, the Institute assigned its field to ask a carefully drawn cross-section of American adults from all segments of the population and in all parts of the nation the same question they have asked at

periodic intervals since May, 1954. "The U. S. Supreme Court has ruled that racial segregation in the public schools is illegal. This means that all children, no matter what their race, must be allowed to go to the same schools. Do you approve or disapprove of this decision?"

Here is the vote nationwide at three different points in time—before the Arkansas crisis started, during the early days of the crisis before federal troops moved in, and as it stands today:

Table with 2 columns: Response, Per cent. NATIONWIDE VOTE ON SUPREME COURT RULING AUGUST, 1957

Table with 2 columns: Response, Per cent. SEPT., 1957 (BEFORE FEDERAL TROOPS)

Table with 2 columns: Response, Per cent. OCT., 1957 (AFTER FEDERAL TROOPS)

Table with 2 columns: Response, Per cent. VOTE IN SOUTH ON SUPREME COURT RULING

Table with 2 columns: Date, AP. DISAP. NO OP.

As the following trend of sentiment in the South shows, the number of Southerners who disapproved of the court's decision reached its high point during the days when the National Guard was guarding the Little Rock high school on Governor Faubus' orders.

But when the National Guard was guarding the Little Rock high school on Governor Faubus' orders, the number of Southerners who disapproved of the court's decision reached its high point during the days when the National Guard was guarding the Little Rock high school on Governor Faubus' orders.

Although a majority of those in the North have consistently supported the principle of school integration, studies since the court's 1954 decision have found that those who approve of the principle adopt the attitude of "gradualism" when it comes to putting integration into effect.

In January, 1957, for example, an Institute survey found that approximately seven out of 10 persons who approved of the Supreme Court ruling felt that it was better to make a gradual approach to ending segregation than it was to try and adopt it in the near future.

In its series on the impact of the Little Rock situation, the Institute has found that a Southerner's disapproval of integration does not necessarily go hand-in-hand with a condemnation of Eisenhower's action in the Arkansas dispute or support of Faubus for his decision.

For example, although only 23 per cent in the South today approve of the Supreme Court ruling, 36 per cent think the President made the right move in sending troops to Little Rock.

Likewise, 34 per cent of Southerners believe Faubus caused more trouble than he blocked in placing guardsmen around the high school.

From The Beat To The Beep

WASHINGTON — Here we were in the middle of the "beat" generation and now we find our selves in the "beep" era. It is almost more than mortal man can bear.

Maybe you didn't know we've been "beat." That doesn't mean "defeated" or "all tuckered out," as well it might. It means we're hep. That we have the raw nerve exposed. That we feel the beat. Of the tom-toms, it may be. Or maybe just of our overtaxed hearts.

This may surprise those of us who can feel beat enough, without anybody's help, as we doze home-ward on the 5:45 bus. But the "beat" generation has been getting a good deal of play lately in the highbrow publications. And the word has been seeping down to the rest of us.

Usually you can't track down the source of an idea like this. But a San Francisco writer named Jack Kerouac publicly admits he coined the term "beat generation." He's the author of a big shouting best-seller: "On the Road." Of the "beat generation," he says:

"This includes anyone from 15 to 55 who digs everything, man... beat means beatitude, not beat up. You feel this, you feel it in a beat—in jazz—real cool jazz—or a good gutsy rock number. The beat generation loves everything, man."

This is us? "Beatitude," unless the dictionary has fallen behind the times, means "bliss" or "blessedness." Blissful we may be on occasion—when our bunions aren't bothering us, for instance—but blessed? The generation

which invented the H-bomb? Who has blessed us lately?

But it's no use quibbling. Generations come and go. (So far, anyway; we've gone a long way toward making the present generation the last one.) It seems quite possible a new generation started when that Soviet moonlet began circling the globe, uttering its unearthly "beep... beep... beep."

And so in a moment we progress from "beat" to "beep."

How now? Are we tuned in to outer space? Has the man with both feet on the ground been replaced with a fellow whose head is among the stars? Has the rock 'n' roll beat given way to the monotonous "beep... beep... beep" of a future suddenly arrived?

In addition, the workers' housing problems, particularly in this capital, have degenerated in the four years since I was last in Spain, although in 1953 it seemed impossible for them to worsen.

In recognition of two tough problems, the critical housing shortage in Madrid and the rush to find work in the big city

Hal Boyle

No More Sweets, Please

NEW YORK — Shirley Jones, a born churl could find fault with her figure now.

"This is the first modern-day picture I've been in," she said, smiling. "And I'm out of my crinolines at last—and into blue jeans."

Critics have hailed the Cinderella-like rise of the young film star, but Miss Jones herself definitely doesn't want to remain a Cinderella forever.

"I'm afraid too many people think I am nothing but a perpetual ingenue — able to play only saccharine roles," she said. "But no human being is really that way. I want to be able to portray all the emotions of a normal girl living in the present part of the 20th century."

Shirley, a Smithton, Pa., brewer's daughter, has had only one small setback in her career. She failed to win a contest to represent her state in the "Miss America" beauty contest. But after appearing in the Pittsburgh Civic Light Opera, she won star rank in two important Hollywood productions — "Oklahoma!" and "Carousel."

But was she to spend the rest of her life in crinolines? Some magazines were unkind enough to suggest that Miss Jones, although she had a wonderful voice, was a bit on the chubby side — and maybe the crinolines were a merciful favor.

Shirley's answer was to diet down to a svelte 113 pounds (she's 5 feet 5) for her latest film, "April Love," costarring Pat Boone. Only

the trimmed-down Jones chassis is seen to good advantage as Shirley does a chaste strip tease while preparing to take a shower. She has no intention of trying to outdo Gypsy Rose Lee, but she does hope to progress to more mature roles in which she can demonstrate her acting ability more than her talent at singing.

One of her goals is to appear in a stage show with her husband, Jack Cassidy, who is a veteran of 23 Broadway productions.

"I like living," she said. "I like my marriage. I like people. I guess right now I'm in love with the world."

"Eventually I want to raise a family of four or five children. If I can have them—and stay in show business I will. But if it becomes too much of a task, then I'll get out."

Shirley Jones doesn't simply act wholesome. The girl is whole. But she doesn't want Hollywood to make it a kind of boring vice.

Phone Operator Has No Interest In Eavesdropping

MAYPEARL, Tex. — Maypearl's one and only telephone operator, one of the nation's vanishing group of "number please" workers, says she doesn't have time to listen in on the calls through her small exchange.

"Besides, that would get old," Mrs. Lester Maxwell says. Mrs. Maxwell is known as Johnnie to most of this Ellis County town's 377 persons. Few phone subscribers know any numbers. They depend on Johnnie's memory.

Teddy Bear Man

WAPAKONETA, Ohio — A. R. McLean, known in these parts as Ohio's "Teddy Bear Man," has distributed more than 10,000 teddy bears to hospitalized children.

Since the early part of 1952, McLean has helped make boys and girls a little happier while they are convalescing in hospitals.

McLean himself was hospitalized for some time as a boy. Hundreds of persons in northwestern Ohio contribute to the project and McLean also obtains funds through the redemption of sales tax stamps.

Not In The Deal

EDINBURGH — Clifton Thompson filed a \$17,000 damage suit against two finance company employees. The suit claimed they got to unhook Thompson's trailer when they repossessed his automobile.

Pay Window

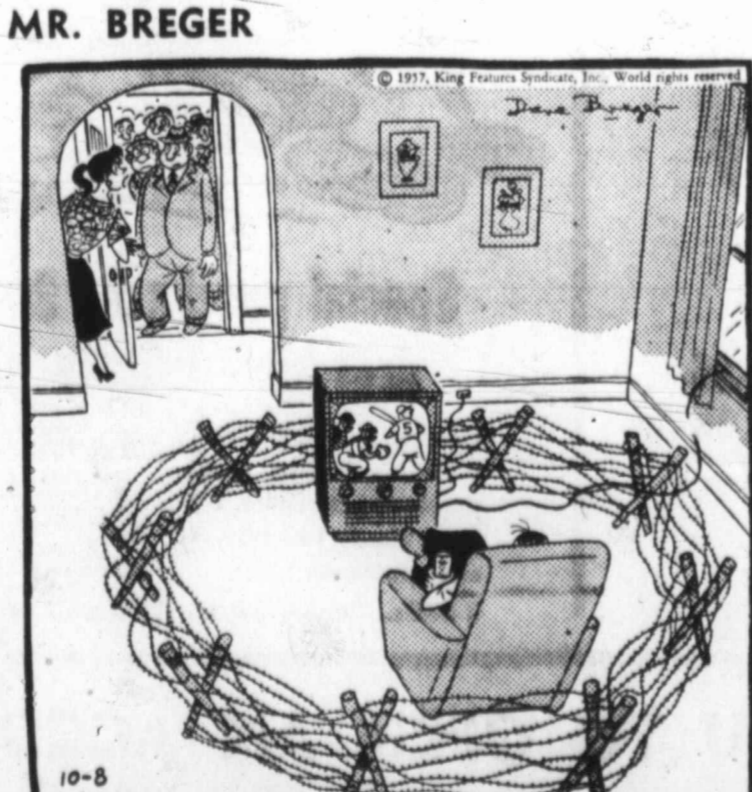

MILWAUKEE — Parking law violators will find it's going to be much easier to pay up. Allan G. Wallworth, city architect, announced that a drive-in window for paying parking fines will be a feature of a new district police headquarters now under construction.

Drive-In Freeloaders

LOGAN, W. Va. — Sneaking into drive-in motion picture theaters in the trunks of cars has become so prevalent that some theater operators have hired extra help to check cars as they park.

Don't Ring Ralph

DENVER, Colo. — Don't just ask for Ralph when you telephone Mary Mallory, a secretary for a hospitalization concern here. Miss Mallory is secretary for Ralph Latimer, Ralph McFann and Ralph Bradley.

"Sorry, boys, but he said something about not being crowded out of THIS World Series!"

Around The Rim

'Fat Cat' Complex — And Fumbles

It was a bad weekend all around last week. It was a weekend of upsets and fumbles. I watched McCamey almost lose a game to an inferior team, but Wink was fumbling even more. I saw Big Lake, a fairly good team, spot four touchdowns for Crane, a team that, itself, wasn't up to par that night.

I heard on the radio and saw on TV several other upsets, including a number of top-rated college events. And, of course, the Braves upset the Yankees in Sunday's game.

But the biggest upset of all came early Friday afternoon, as if to get the fumbling weekend well under way.

We fumbled and we bumbled, from the end of World War II to the present, and the Russians got their satellite up first.

It's nothing new. We fumbled in Korea, in China, in the Middle East, in North Africa. We, a sports-minded nation, have fumbled all the way through the cold war, pushing up a few gains here, a yard or two there, but setting up the Kremlin for several touchdowns plays. We can't or won't admit that the game of world politics operates on the football principle. We're shrouded in the delusion that we'll win, anyway. It must be a trait of the national

character. Sports fans seldom admit they are beaten till after the game is over. "We'll win next year," they mutter.

But in international politics they forget. If the Kremlin wins this ball game, there'll be no comeback.

The job of producing an intercontinental ballistic missile, or a satellite, could have been organized as was the job of producing a nuclear bomb, through a sort of missile AEC, with an appointed commission of scientists and other leaders. But the job was divided up between corporations seeking contracts, straight government research as at White Sands, and the military brass hats.

Every service had to have a slice of the missile pie. There was overlapping and confusion. A recent issue of Life magazine depicts the many different kinds of missiles developed by the armed services. There are about ten times as many types as are needed.

I hope Russia's victory has scared us bad enough that we will do something about it; but it doesn't seem likely. We're suffering from a new kind of psychological trauma—the fat cat complex.

—BOB SMITH

Inez Robb

You Got Inflation? Just Go To Spain!

MADRID—It has been one woman's contention for some time that two vexations are universal and unlock the floodgates of conversation in every known land, to wit, the farm and servant problems.

Now there is a third, even more pressing, if possible, than the other two—that unites man in uneasy brotherhood. It is inflation. All God's chillun got it, and the Spaniard doubled in spades.

Indeed, Spain is wrassling with three seemingly universal problems: inflation, housing, and how to keep 'em down on the farm. And, behind the scenes, Uncle Sam, with five big new military bases on Spanish soil, is doing very fancy footwork to avoid being caught in the middle and identified as the villain in the piece.

The steady rise in the cost of living in the United States in the past 12 months isn't a patch on what is happening to the average Spaniard, whose standard of living always has been low and extremely close to the vest.

There is official recognition here that the cost of living has soared 15 per cent in the past six months, but the unofficial estimate and evidence boost the six-month rise to a staggering 30 to 35 per cent.

The ballooning h.c. of 1. has completely wiped out any benefits from the across-the-board wage increases, averaging 40 per cent, that were decreed for hard-pressed Spanish workers a year ago. They are right back where they were before, behind the economic eight ball.

In addition, the workers' housing problems, particularly in this capital, have degenerated in the four years since I was last in Spain, although in 1953 it seemed impossible for them to worsen.

In recognition of two tough problems, the critical housing shortage in Madrid and the rush to find work in the big city

on the part of Spain's hard-pressed rural population, the Spanish government has just issued a decree it hopes will ease the situation.

Hereafter, no Spaniard can migrate to Madrid unless (1) he can offer proof that he has a job and vital one at that and (2) that he has a place to live. Conversely, no employer can hire a man from outside Madrid unless he has found suitable housing for the employee.

The cruel institution of "key money" flourished in the tight Madrid housing situation. Families will pawn their keepsakes and invest life-savings in key money to get into an apartment. I know a young white-collar worker, earning \$38 per month, who has managed to raise the staggering sum of \$500 key money for an apartment in a new housing development. Now he is terrified that the landlord will demand another \$250 before the young man and his bride are permitted to move into a small flat that rents for exactly half his salary!

Since nations no less than men must have scapegoats for their ills, the temptation in Spain is to blame inflation and allied evils on the presence of the five new U. S. military bases. But his thesis will not yet hold water. Unpredictable Spanish weather and over-ambitious programs of government-encouraged investment are the villains, if any.

The present inflationary spiral is certainly linked to the catastrophic agricultural crop losses, due to heavy frosts, in 1956. American residents here insist the Spanish government would have been forced to initiate food rationing after that disaster except for \$185,000 worth of U. S. agricultural products bought with counterpart funds.

GOP Has Big Stake In California

SACRAMENTO, Calif.—The stakes in the contest now joined in the Republican party in this state, are very high—hardly less than the presidency itself.

The front runner for 1960 is generally conceded to be Vice President Richard M. Nixon. But he must have his native California—a solid, safe Republican California—as the springboard for his ambitions. The loss of that springboard would be a serious setback to his carefully laid plans.

In their struggle for the governorship, Senator William F. Knowland and Governor Goodwin J. Knight can conceivably tear the party apart. Through the animosities they are stirring within their own ranks they can open the way for the Democrats to do what they have done only once before in this century. That is to elect a Democratic governor next year.

This opens up for the Republicans a long and gruesome prospect: Loss of the Legislature (the Democrats controlled the state Senate for the first time in 64 years during the past session), loss of the state in 1960, and then Democratic control of reappointment in 1961 when California expects to have seven new Congressmen, thanks to a population increase to 16,000,000 or above. If the Democrats get to carve up the Congressional districts, they will naturally see that it is done to their advantage.

Yet that fearsome prospect does not intimidate Knowland in the least. Nor can his chances be cheaply discounted. He is, in effect, gambling that California and the nation have turned away from the liberal-progressive formula which for so many years enabled Republicans to hold state control with the help of Democratic votes.

On the national scene, he does not need to be instructed in the obvious fact that President Eisenhower has failed to reshape the party in the "modern Republican" mold. So by nailing down a conservative line and by capturing California—if he should capture it—he sets himself up as a new model candidate.

He believes, too, that public opinion has turned against organized labor as a result of the corruption and the racketeering exposed by Congressional committees. He proposes not only a "moderate" right-to-work law but a whole series of reforms that would compel unions to live up to a code of democratic practices.

He announced when he formally opened his campaign that he would work in Congress beginning in January for legislation correcting union abuses and curbing the power of labor bosses. At the same time he will continue to be Republican leader

in the Senate while he will be campaigning actively for the governorship and, it is perfectly clear, for the presidency after that.

These views come naturally to Knowland, who has always been a conservative by instinct. He is speaking to audiences around the state in his solemn, serious manner with no oratorical flourishes, and they are listening and giving him high marks for his sincerity.

When he ran for re-election to the Senate in 1952, having won both Democratic and Republican nominations in the primary, he got the biggest vote ever given any state candidate—3,982,448. Since only registered Republicans can vote in the Republican primary and his stock is very high with the regulars, he may well defeat Knight.

With the vice president and the chief justice Californians, and with California getting the Giants and apparently about to get the Dodgers, there are no bounds on the ambitions of this empire on the Pacific slope. If Nixon does not serve as an all-purpose model for President, then California has Knowland in reserve with the sharp, new, conservative look.

Birthplace For Sale

BOSCOBEL, Wis. — The old Boscobel Hotel, where the Gideons formed the organization which now distributes Bibles in hotels throughout the world, has been offered for sale.

Traveling salesmen, meeting by chance in a Boscobel Hotel room in 1896, organized the group which has distributed millions of Bibles in the ensuing years.

Far Cry

SOUTHBRIDGE, Mass. — It's a far cry from the day when Benjamin Franklin took two pieces of glass and fitted them together to make the first bifocal lens ever used in eye glasses. Now, according to the American Optical Co., to produce one bifocal spectacle lens requires 123 workers performing 127 different operations.

The Army Way

PONCA CITY, Okla. — Dr. E. J. Crowder received notification from the Army that he had been promoted from major to lieutenant colonel. The notice came 11 days after Crowder was discharged.

Football Queen

Ginny Dee Scudday was crowned Football Queen of the Forsan team Saturday evening at the homecoming game between Forsan and Novice. Miss Scudday, a junior pupil, is the daughter of Mr. and Mrs. Woodrow Scudday. She is secretary of the junior class, is a cheer leader and is active in FHA work. The student council was in charge of arrangements for the coronation and the homecoming activities.

NCO Wives' Club Makes Plans For Activities

Activities for the NCO Wives' Club were announced at a Monday evening meeting of the group at the NCO Club. A masquerade party is planned for the night of Nov. 2, with all members of the club and their husbands invited. On Nov. 6, there will be a white elephant sale in connection with the bingo games. On Nov. 15 a course in beginning...

Girl Scouts Start Busy Fall Season

Girl Scout Troop Eight will have regular meetings on alternate Tuesdays, beginning today, it has been announced by the leader, Mrs. Andrew Terpening. Assistant leader is Mrs. George T. Ward. Sunday afternoon the girls were hostesses for a Mother-Daughter Tea at St. Paul Presbyterian Church. Serving as the refreshment committee were DeAnn Mason, who is president of the troop, and Carol Hughes.

Other officers include Joyce Davidson, secretary, and Kay Foster, treasurer. The tea table was covered with an ecru cloth and decorated with an arrangement of roses. The girls alternated in serving. LEADERS' COFFEE Mrs. Ernest Miller was hostess for a get-acquainted coffee Monday afternoon when she entertained Girl Scouts leaders of the Airport School area. The group held a discussion of activities for Brownie troops. There are two troops now formed, with another in prospect, it was announced.

1460 34-48

For Beginners

Here's a handy bib-style apron that is ideal for the novice at sewing. And just a yard of fabric in the smaller sizes! No. 1460 is for bust 34, 36, 38, 40, 42, 44, 46, 48. For 36, 1 yard of 36 or 39-inch. Send 35c in coins for this pattern to IRIS LANE, Big Spring Herald, Box 438, Midtown Station, New York 18, N.Y. Don't miss the new sewing manual Home Sewing for '57—an inspiring pattern book filled with all-season styles. Gift pattern printed in the book 25c.

Delegates To Presbytery Named By First Presbyterian Women

Delegates for the El Paso Presbytery were elected Monday afternoon by members of the First Presbyterian Women of the Church. They met at the church for a general business session. To serve as delegates are Mrs. H. S. Hans and Mrs. W. G. Wil-

Oil Production Costs Explained By Groebel

No other resource is so essential, yet so costly to find as gas and oil, according to Ted O. Groebel, who was the speaker for the Desk and Derrick Club at the meeting Monday evening in the Texas Electric conference room. In his discussion, Groebel said the oil rate is higher because oil is so hard to find; the risks in finding it are extraordinary; the cost is tremendous; the demand is climbing, and the United States must have an adequate reserve.

Journalist Surprised At Status

WASHINGTON — Promilla Kalhan, top woman journalist of the Hindustani Times, was the guest of honor at a luncheon at the New Delhi Hotel. She is typical of the modern young woman making herself heard in India today. She worked hard to achieve her present-day status, but she admits she's somewhat surprised. "I was born in a little princeling state in Pakistan where women are still in veils," she told me, "and now look, I am working right along with the men in a man's world, writing about politics, international affairs, labor."

Local Group Plans To Attend Snyder Flower Show School

Several members of local garden clubs plan to attend Flower Show School No. Two, which is to be given in Snyder on Wednesday, Thursday and Friday. Included in the group are Mrs. Bill Tubbs, Mrs. Aubrey Armstrong and Mrs. Sam Thurman, members of the Four O'Clock Garden Club. The school will begin at 9 a.m. and last until 3 p.m. on the first two days. Friday the examination will be given. All sessions will be held at the Martha Ann Clubhouse in Snyder.

Baptists Meet For Bible Study

Members of the East Fourth Baptist WMS met at circles Monday for Bible study. All groups are hearing review and discussions of units from the course, "Soul-Winning Experiences in the Bible." LUCY BELLE CIRCLE At the meeting of the Lucy Belle Circle, Mrs. W. R. Crownover was the reviewer. She also offered the special prayer for the members on the missionary birthday list, which was read by Mrs. Don McKee. Plans were discussed for the community missions day set for Monday when members will meet at the church at 9:30 a.m. to prepare a box of supplies for a needy family. Seven were present for the study.

Green Bean Mix Good For Main Dish

A mixture of green beans, onions, mushroom soup and bread crumbs makes a delicious side dish and if the right breads and salads are used it will serve as a main attraction. 2 10½-ounce packages frozen green beans 1 10½ ounce can condensed cream of mushroom soup 1 tablespoon instant minced onion 2 tablespoons chopped pimiento ½ teaspoon salt ½ teaspoon ground black pepper ½ cup buttered bread crumbs. Cook beans according to package directions. Drain, if necessary. Add next 5 ingredients and toss lightly to blend. Turn into a one-quart casserole. Top with buttered bread crumbs. Bake in a preheated moderate oven (350 degrees F.) 20 minutes or until brown. Serve at once. Makes 4 to 6 servings.

Hillcrest Baptist Has Royal Service For Monograms

A Royal Service program was given for the Hillcrest Baptist WMS Monday at the church. Mrs. Terry Carter gave the opening prayer and the devotion. Mrs. Carter also participated in the program along with Mrs. Dee Arnold, Mrs. Dick Beard, Mrs. Jim Smith and Mrs. William Smith. Mrs. Arnold gave the closing prayer. Embroidered initials always add that personal touch to linens and wearables, changing them into lovely-to-own items. No. 307-N has hot-iron transfer for 4 complete alphabets. Send 25c in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 438, Midtown Station, New York 18, N.Y.

Parents Group Meet

There will be a meeting of the Parents of Crippled Children Group Wednesday evening at 7:30 at Howard County Junior College. All interested persons are invited to attend the session, set for Room S-8 at the college.

Park Methodist WSCS Hears Panel Program

A panel discussion was given for the Park Methodist WSCS Monday evening in the home of Mrs. Joe Barbee. Topic of the discussion was on the Methodist schools for the Indians in New Mexico, Alaska and Louisiana and also on the Marcy and Bethlehem Centers in various cities. Participating on the panel were Mrs. Barbee, Mrs. Elvin Bearden, Mrs. G. C. Graves and Mrs. Abbie Anderson. Mrs. J. B. Hollis brought the devotion on "Our Home Mission

will be the Manhattan Presbyterian Church in El Paso.

Mrs. T. S. Currie opened Monday's meeting with a prayer, and Mrs. Charles Harwell brought the devotion. The topic was "Hannah" from the book, "All the Women of the Bible." Scripture for the discussion was the book of Samuel. Reports from officers and chairmen were heard. Mrs. Wilson reported on the meeting of the Council of Church Women recently held at First Methodist Church. Nell McFall of Abilene, district president, was guest speaker.

Mrs. R. T. Piner, representative to the Mental Health Association, told of the meeting of the group and read a list of the needs of the State Hospital patients.

Announcement was made that the district meeting of the Women of the Church will be held in March 1958, with the local women to act as hostesses.

A nominating committee was appointed, composed of Mrs. Arthur Pickle, chairman, Mrs. E. C. Boatler and Mrs. Tommy Jordan. Eighteen were present and were dismissed with Mizpah. The women will meet as circles Monday.

Auxiliary Meets In Coahoma

Numerous items of business and plans for civic activities were discussed by members of the Coahoma American Legion Auxiliary Monday afternoon when they met at the American Legion Hall in Coahoma. Mrs. Hezzie Read, president, announced Mrs. J. H. Shelborne and Mrs. Luke West will be color bearers at the 19th District convention in Big Spring on Oct. 11-12.

The members planned a social for Oct. 14 at 7:30 p.m. at which their husbands will be guests. A donation of \$10 will be made to the Coahoma Community Welfare Fund.

The members will begin immediately to work on gifts to be given to the Christmas Gift Shop at the Veterans Hospital. These gifts will be available to hospitalized veterans, who may select the gifts they desire for members of their families. They will be wrapped and mailed by the auxiliary members.

Volunteers for hospital work are urgently needed. Wives, mothers, sisters and daughters of Legionnaires are eligible as are relatives of deceased legion members or all women who have served in the armed forces. Any women in this category who are interested are asked to call Mrs. Dink Kramer at LY 4-3493 or Mrs. Shelborne at LY 4-3213, Coahoma.

The auxiliary will meet on Oct. 18 at 3 p.m. in the hall.

Episcopal Women To Attend Meet In Amarillo

Mrs. Harry Hon and Mrs. Lee Hanson will represent St. Mary's Episcopal Guild at the 1957 Church Women's Conference, set for Amarillo Friday, Saturday and Sunday. This was decided at a meeting of the guild Monday afternoon in the parish house.

Rev. Murray Speaker For Northside WMS

Rev. R. B. Murray led the Bible study for members of the Northside Baptist WMS Monday afternoon at the church. "Soul Winning Witnesses in the Bible" was the topic of the study with scripture from the fifth chapter of 2nd Kings. Prayers were led by Mrs. Charles Simmons and Mrs. C. A. Tonn Sr. Nine attended.

Officers Elected

Frances Scott was elected president of the Northside Baptist Willing Workers Sunday School Class Monday evening. The class met at the home of Mrs. Varnell Johnson. Chosen vice president was Arene Ball; secretary, Ladell Musgrove and social chairman, Mary Adams. Secret pals were revealed and new pals were drawn.

'ROUND TOWN

With Lucille Pickle

As pleased as I am for the members of St. Mary's Episcopal Church in having finally achieved their goal of a new building, if the new building is so modern that the bell isn't included in the move I shall miss it very much. Each Sunday morning, just as the services at our church are beginning, the bell at St. Mary's begins to ring. While it doesn't have the resonance that heavier ones have it does send the message that worship time is at hand. I think it must have the same effect on all who hear it. Wouldn't it be wonderful if all the churches in our town had bells to ring even if they were the kind to ring with a button.

MRS. LUCILLE BURKE spent the weekend in Fort Worth as the guest of Mr. and Mrs. Ralph Lowe. The Loves own Gallant Man, which, if you don't already know, is a pretty fair race horse.

DR. AND MRS. W. A. HUNT and MRS. FRANK HUNT have returned from Camp Chaffee, Ark., where they spent the weekend with Frank Hunt.

C. T. KILWAY is expected here this week from El Paso, where he has received his discharge from the Army. He will spend some time with his grandparents, Mr. and Mrs. H. F. Taylor, and other relatives here before going to Dallas to be with his mother, Mrs. Harold Harris. He has been stationed on the Hawaiian Islands.

MR. AND MRS. C. W. MAHONEY and sons spent Sunday in Colorado City with her mother.

RALPH EUGENE MITCHELL, sophomore mechanical engineering major of Big Spring, has been

Concert Membership Deadline Is Fixed

With the appearance of Raymond Massey and Agnes Moorehead in "The Rivalry" here Saturday evening, the Big Spring Concert Association announced today that deadline for memberships is Thursday at 6 p.m.

Bitter Wave Of Denials Hits Faubus

LITTLE ROCK, Ark. — Gov. Orval Faubus today faced a wave of denials — some in bitter language — to his accusation that male soldiers remained in girls' dressing rooms when the students changed to gym clothes at now-integrated Central High School.

The White House labeled the claim "completely vulgar" and "completely untrue."

The Army in strong terms denied its troops had invaded the dressing rooms.

A school official termed Faubus' claim "ridiculous."

The governor, told last night of White House reaction, shot back this reply: "What does the White House know about that 2,000 miles away? We'll prove it when the time comes."

A number of Central High girls said they knew nothing about any such trespass into the dressing rooms.

Faubus said his information came from parents.

Federal soldiers began a three week duty at Central High School today, escorting nine Negro students into the building to attend integrated classes.

One Killed In Dawson Mishap

LAMESA — One person was fatally injured and another is in a critical condition as result of a two car collision at 5 p.m. Monday near here on U. S. 87.

Dead is Octavia Barker, 68, who succumbed at 6:45 p.m. in Lamesa Memorial Hospital.

Critically injured is Mrs. Lizzie Sanders, 40, who has multiple head injuries and a skull fracture. She is in the Lamesa Hospital.

Leroy Douglas, 50, driver of the car, suffered a broken hip and a fractured jaw. He is to be removed to the Veterans Hospital at Big Spring today.

No memberships will be sold after that time, and there positively will be no single admissions at any of the four productions this season.

A preliminary tabulation Monday evening showed 127 plates left.

"We have several who have been members all along as well as many who have told us that they would let us know about memberships," said Mrs. Clyde Angel, president.

Memberships are available at Alexander's Jewelry, from any of the directors, or may be had by telephoning Mrs. Clyde Angel at AM 4-8978, Mrs. W. A. Hunt at AM 4-6185, Mrs. Floyd Mays at AM 4-6192, or Joe Pickle at AM 4-4331.

To those who plan to take memberships this year we plead not to delay longer. After Thursday at 6 p.m. it will be just too late," Mrs. Angel cautioned.

In other action taken at the board meeting Monday evening in the home of Mrs. Arch Carson, 110 Cedar Rd., Mr. Vincent Brophy was elected to the directorate.

Maj. Brophy has been one of the most ardent boosters for and workers in the association, and other directors gave him a great measure of credit for the success of the current membership enlistment.

Curtain time Saturday on Norman Corwin's famous play about the celebrated Lincoln-Douglas debate is 8:30 p.m. in the city auditorium.

Joining the M. A. S. S. and Miss Moorehead in the cast and playing the part of the "little giant," Stephen A. Douglas, is Martin Gabel, veteran Broadway actor.

Massey, of course, is cast as Abraham Lincoln, a characterization for which he has become almost legendary. His current portrayal is considered by many critics to be one of the highlights in his long and successful stage career.

Agnes Moorehead took time out from her screen commitments to enact the part of Adele Douglas, the beautiful wife of Sen. Douglas, and a personal friend of Lincoln.

Gabel only recently finished a long and successful run in the Broadway play "The Rivalry" at the famous actors will present the drama before it has its New York premiere in January.

Funeral services for Mrs. Barker are to be at 2 p.m. Thursday at St. John's Baptist Church.

They are also in the Lamesa Hospital.

Funeral services for Mrs. Barker are to be at 2 p.m. Thursday at St. John's Baptist Church.

Money continues to pour into the office of Mrs. Viola Robinson, county tax collector, as the season for the payment of current taxes moves ahead.

Monday saw about \$8,000 paid in over the counter.

The mail payments, which have been numerous, continue to stack higher and higher. The deputies in the office have been too busy with the customers who come to the office to go through the letters.

Mrs. Robinson said that her staff would work out the mail payments as rapidly as possible.

Although tax payments have not been accepted for six days, the cash receipts to date have already passed the \$25,000 mark.

Receiving Cotton

LAMESA — Lamesa Compress has already received 10,500 bales of 1957 cotton—mostly from Dawson County—it was announced today by J. H. Hart, manager.

'Lucky Folder' Contest Stated As Oil Feature

Winner of this year's Lucky Folder contest, sponsored by Big Spring Service Stations as part of Oil Progress Week, will receive an all-expense weekend at Dallas-Stater-Hilton Hotel.

With this will go two tickets to the Cotton Bowl on Nov. 2, the Cotton Bowl game in the Cotton Bowl on Nov. 2.

Thousands of folders are being distributed to the service stations this week so that every visitor at a station, starting today, may receive one.

All during the week, when you visit your station, you will be eligible to receive a numbered folder. Recipients are asked to fill out a coupon and retain the folder part for a record.

After Oil Progress week, all the coupons will be picked up and assembled. From these, on Oct. 21, someone will be designated as the winner of the Nov. 2 weekend in Dallas.

The trip covers the expenses of a man and his wife including incidentals.

There is nothing to write, nothing to buy, all one has to do is to visit his station and fill out the coupon, said Jerry Worth, who is local Oil Progress Week chairman.

The service station operators also will benefit from this year's contest. Beginning this week several "mystery" drivers will call on various stations participating in Oil Progress Week. If the mystery driver is offered one of the folders, the station attendant will be given \$5 as a special Oil Progress Week bonus by the mystery driver.

Funeral has been set for Wednesday at 2 p.m. for Mrs. Nancy Stella Calloway, 84, who died at the home of her sister, Mrs. Claud Ballard, 806 E. 12th, at 12:30 p.m. Monday.

Mrs. Calloway, who came here first in 1890, was the widow of a Methodist minister. She had been in failing health.

Rites will be said at the Wesleyan Methodist Church, where she was a member, with the minister, Rev. C. W. Parmenter, officiating. Burial will be in the City Cemetery beside the grave of her husband, the late J. P. Calloway, who died Aug. 29, 1939, in Temple. They had been married Nov. 16, 1916, by the presiding elder of the district.

Surviving Mrs. Calloway are her sister-in-law, 14 nephews and nieces. Her nephews will serve as pallbearers.

Surviving her are one son, Dr. W. J. Lloyd, Plainview; one daughter, Mrs. Annie Davis, San Antonio; her son-in-law, two sisters, Mrs. F. C. Niedermeier, El Paso, and Mrs. E. E. Miles, Marshall. She also leaves two granddaughters, four great-grandchildren, and several nephews and nieces.

Local awards will be plaques for first and third places, and from three to five minutes in length.

Local winners will be eligible for the state contest and the state winner will receive an expenses-paid trip to the national contest in Washington, D. C.

Scout Drive Opens Today In Stanton

STANTON (SC) — Fifty-one volunteer workers turned out this morning for the kick-off of the general campaign on the Boy Scout finance program.

Bob Evenson, veteran Scout worker in Stanton, made the inspirational address, taking over on short notice when J. L. Rhoades, Odessa, became ill with the flu and was unable to come.

The advance girls division is already well along on its work in the campaign.

W. M. Guthrie No. 2 Sarah Hyman is located 10 miles southeast of Coahoma in the Howard-Glasscock (Yates) field. It is 330 from north and 2,310 from east lines, 98-29, W&NW Survey. Combination tools will carry to 1,400 feet.

Another Yates try in the Howard-Glasscock pool is Guthrie No. 2 Bowen. It is located 2,310 from west and 330 from south lines, 89-29, W&NW Survey, 10 miles southeast of Coahoma. It will drill to 1,400 feet also.

Pan American No. 6-B Clay, in the Howard-Glasscock field, pumped 130.16 barrels of 28.5-degree oil on 24-hour potential, after fracturing with 3,000 gallons. The well is 330 from south and west lines, 139-29, W&NW Survey. Total depth is 3,253 feet, and top of the pay section is 2,908. Perforations extend from there to 2,945.

Schake No. 2 Douthitt, also in the Howard-Glasscock, pumped 25.44 barrels of oil on potential. Gravity is 39 degrees. The hole bottoms at 1,347 feet, and production in the Yates is reached at 1,320 feet. It is 330 from south and west lines of 116-29, W&NW Survey.

Martin Husky-Panotech No. 1 Mabec hole at 11,497 feet in lime and chert. Location of the wildcat is 660 from south and west lines, Tract 22, League 258, Briscoe CSL Survey.

Mitchell Theiss No. 2-A Strain yielded 82.70 barrels of oil and 7 per cent water in finaling. Gravity is 27 degrees. The well is 330 from south and west lines, 12-28-17, T&P Survey. The hole extends to 3,016 feet, and production reached at 2,995. Production was from open hole.

Wayne D. Smith, manager, said that all of the \$500 target for the first bale of cotton has been raised. He said that so far \$1,600 toward the Christmas activities budget had been received by mail. In his final report, he said that 47 firms had signed to participate in the B-E Day program but that more firms are needed to spread the teachers adequately through the business community on that day.

Flores was convicted of a burglary offense in Howard County on last Sept. 26. Revocation of the probation followed.

It was not known when he would be taken to Huntsville to begin serving his time.

Albert V. Moore, charged with theft by bailee, has been charged and the case dismissed, it was announced today in the court of Walter Grice, justice of the peace.

Grice said that the complaining witness has withdrawn and is unwilling to prosecute the case further.

The dismissal was entered in the case Tuesday morning.

The jury includes two women and a Negro.

Both sides stressed the lobbyist-legislator relationships in questioning 32 would-be jurors yesterday. Thurman named the jury after both sides used their allotted 10 challenges.

Cox, 36, former Conroe state representative, and his attractive brunette wife sat quietly throughout yesterday's tedious session, sometimes whispering to each other or to his two attorneys.

Harmon is charged with offering the bribe but has never been indicted.

Each has said he was trying to trap the other. Each has been free under \$5,000 bond.

Harmon said he came to Austin Feb. 19 and contacted Cox about a bill which would have wiped out all legal standing of naturopaths in Texas. At Harmon's invitation, Cox came to the San Antonio man's hotel room—not knowing that a tape recorder was hidden under Harmon's bed. Harmon said he asked Cox to withdraw his bill and to help the naturopaths with a bill favorable to them.

Harmon said he asked Cox to withdraw his bill and to help the naturopaths with a bill favorable to them.

FM 700 Project Snags On Routing

The matter of location for the east and north extension of FM 700 has not been slumbering, it was divulged here Monday.

Instead of being a settled issue as first presumed after crews laid out the line from U. S. 87 to U. S. 80, the proposed loop has been moved to the north to avoid two crossings of Big Spring Creek.

County Judge R. H. Weaver, reporting Monday to the Chamber of Commerce directors, said that the second routing, while softening the financial load for the state, would be beyond the county's means.

The highway committee has invited District Highway Engineer Jake Roberts of Abilene here for a conference on the matter the latter part of the week, he said.

According to information furnished the judge, the first routing along which the county had agreed to furnish right-of-way indicated a cost in excess of the \$280,000 allotted to it. In both instances, the point of departure is at the present terminus of FM 700 south of the VI Highway and the point of origin is about a quarter of a mile west of Cochen refinery on U. S. 80.

Jerry Worth, chairman of the local office of Oil Progress Week, told of various events. These included the Lucky Folder contest whereby some couple here will receive an expenses-paid weekend trip to the Stater Hilton in Dallas; the essay contest among seniors; address by the service clubs; newspaper, radio and television special date.

Charles Brown reported on the Breckenridge area conclave recently in which protests over excessive oil imports were wired to key national officials. He said that the consensus of the meetings favored a grass roots campaign open.

It was taken to a Big Spring garage.

U.S. Has Satellite Ready 'Right Now'

CAMBRIDGE, Mass. (AP)—A top Navy satellite authority says the United States has a satellite "ready to put up right now."

The statement was by Dr. Whitney Matthews, head of the Applications branch of the Solid State Division of the Naval Research Laboratory in Washington.

He said last night, "We have a model which has been thoroughly tested for the last six weeks. It's been given much tougher tests than it will ever undergo in outer space."

Dr. Matthews refused to say during an interview whether the delay in the American program is due to the inability to develop rockets to lift the satellite into orbit.

He said the satellite ready for use is one of five types developed or being developed in this country.

Vehicle Runs Off Scenic Mountain

Kenneth Thomason, 116th Weather Squadron, WAFB, reported to the office of Miller Harris, sheriff, Tuesday morning that his car had run off Scenic Mountain sometime Monday night.

Thomason said the car plunged about one-third of the distance down the hillside and was extensively damaged.

Satellite Launched North Of Japan

EL PASO (AP)—Two men who tracked the Russians' satellite for 50 hours said today they believe it was launched from Sakhalin Island north of Japan.

Dr. John Sharp, a professor at Texas Western College, and Richard Duane, electronics expert with Bell Telephone Laboratories, caught the moon's radio signal 22 times.

Harmon Describes Cox 'Bribe' Pact

AUSTIN (AP)—Dr. Howard Harmon, San Antonio naturopath, said today that he and former Rep. James Cox had a "definite agreement" about an alleged \$5,000 bribe.

Harmon was the first witness as the former Conroe legislator went to trial on charges that he agreed to accept a \$5,000 bribe to kill an anti-naturopathic bill.

Harmon said he came to Austin Feb. 19 and contacted Cox about a bill which would have wiped out all legal standing of naturopaths in Texas. At Harmon's invitation, Cox came to the San Antonio man's hotel room—not knowing that a tape recorder was hidden under Harmon's bed. Harmon said he asked Cox to withdraw his bill and to help the naturopaths with a bill favorable to them.

Crippled Children's Unit Elects George Zachariah

George Zachariah was re-elected president of the Society for Crippled Children and Adults Monday at a meeting held at the Howard County Health Unit.

Also re-elected was Bob Bowen, who will serve as secretary-treasurer. Chosen vice president was Sam Anderson.

Mrs. George Bass and Mrs. W. G. Parks were named delegates to the state convention of societies slated for Oct. 18-19 in Galveston.

Appointed to serve as representatives to work with the Arthritis Society were Raymond River and Mrs. Ruby McNew. The possibility of establishing a permanent center for treatment of crippled children and adults was discussed by the group.

Anderson spoke of the importance of the work with the exceptional children, who are being taught in the building formerly occupied by South Ward School.

Don Rockwell told of his work with crippled persons and the need of appliances for some of them. He announced that he now has a car for his work. Other service cases were described by Miss Bowen.

Announcement was made of the receipt of a check from the state organization of Beta Sigma Phi Sororities. The society has been one of the sorority projects during the year.

Next meeting will be held in the Health Unit on Nov. 4.

Annie Dionne, 23, one of the couplets planned to marry today. Her fiancé is Germain Allard, 22, in Montreal, her father announced.

Mrs. Calloway's Services Set

Funeral has been set for Wednesday at 2 p.m. for Mrs. Nancy Stella Calloway, 84, who died at the home of her sister, Mrs. Claud Ballard, 806 E. 12th, at 12:30 p.m. Monday.

Mrs. Calloway, who came here first in 1890, was the widow of a Methodist minister. She had been in failing health.

Rites will be said at the Wesleyan Methodist Church, where she was a member, with the minister, Rev. C. W. Parmenter, officiating. Burial will be in the City Cemetery beside the grave of her husband, the late J. P. Calloway, who died Aug. 29, 1939, in Temple. They had been married Nov. 16, 1916, by the presiding elder of the district.

Surviving Mrs. Calloway are her sister-in-law, 14 nephews and nieces. Her nephews will serve as pallbearers.

Surviving her are one son, Dr. W. J. Lloyd, Plainview; one daughter, Mrs. Annie Davis, San Antonio; her son-in-law, two sisters, Mrs. F. C. Niedermeier, El Paso, and Mrs. E. E. Miles, Marshall. She also leaves two granddaughters, four great-grandchildren, and several nephews and nieces.

Jaycees Sponsor Speech Contest In High School

Big Spring Jaycees are sponsoring a "Voice of Democracy" speech contest in the local high school.

Tenth, 11th and 12th grade pupils are eligible to enter speeches on the subject, "I Speak For Democracy." Everett Taylor, in charge of the contest for Jaycees, said the talks must be original, positive in nature, rather than against other forms of government, and from three to five minutes in length.

Local awards will be plaques for first and third places, and from three to five minutes in length.

Local winners will be eligible for the state contest and the state winner will receive an expenses-paid trip to the national contest in Washington, D. C.

Parents To Hear Talk By Teacher

Mrs. Roscoe Newell Sr., teacher of orthopedically handicapped youngsters in the Special Education Department of the local schools, will speak at the meeting of Howard County Handicapped Children's Parents Wednesday.

The meeting will start at 7:30 p.m. in Room S-8, Main Building, Howard County Junior College.

Members also are to review earlier studies of techniques for assisting handicapped children.

OIL, GAS TRANSACTIONS

MINERAL DEEDS — Robert A. Childers to Helen Fields, Sec. 23, Block 32, Township 10 North, Range 12 East, 34th & 35th T&P Survey, excepting northwest quarter.

Toolbox Is Stolen

A toolbox containing between \$75 and \$100 worth of tools was taken from a pickup here over the weekend. H. B. Davis, 908 E. 2nd, was the loser.

MARKETS

WALL STREET — The stock market closed in active trading today. The highest ticker tape was late.

Most key stocks showed losses. Curtiss-Wright was off 1/2 at 33. Gulf Oil off 1/4 at 21 1/2. Royal Dutch up 1/4 at 17 1/2. General Motors off 1/4 at 39 1/2. International Business Machines up 1/4 at 35 1/2. Standard Oil (New Jersey) off 1/4 at 35 1/2. General Dynamics up 1/4 at 48 1/2. New York Central off 1/4 at 21 1/2.

Boeing dropped 1/4 at 33 1/2. United Aircraft dropped 1/4 at 30 1/2. Sperry Rand was off 1/4 at 39 1/2. Chrysler and Douglas Aircraft were unchanged. Bethlehem Steel, Kennecott and International Telephone were losers.

The market sank to another 1987 low yesterday.

Awards For Safe Driving

S. A. Palmer, left, Colorado City postmaster, presents safe driving awards to two rural carriers, Charles Nuckolls and Ed Moeser. Bob Matley, right, another carrier with a perfect record, didn't qualify for an award because he had not been driving for a full year. Nuckolls received an eight-year pin and Moeser a one-year award. The men drive about 4,000 miles per month.

Navy Credits Russia With IRBM, Notes Bases In Danger

WASHINGTON (AP)—The Navy credited Russia today with another first—possession of operational intermediate range ballistic missiles capable of placing nuclear warheads on virtually every fixed Allied base in Western Europe. The disclosure, coming on the heels of Russia's pioneer launching of a space satellite, was made by Capt. H. L. Miller of the Office of the Chief of Naval Operations. He said in a briefing prepared for the National Security Industrial Assn. that "the known Soviet possession of the IRBM at present seriously prejudices our tenure of any base within 1,500 miles of Soviet launching sites." American officials have expressed frequently during the past several years the belief that the

Scientists Irked, Frustrated But Proud Of Accomplishment

WASHINGTON (AP)—Said the U.S. scientist at the Naval Research Laboratory: "Maybe we ought to send up our own satellite with a television camera to circle around the Russian satellite. That way we'd know what's going on." The remark, made both in sorrow and in jest, is a tipoff on the attitude of the men who had to catch the Russian satellite in mid-air and track it down. It's a mixed attitude. They're irked and frustrated, but they're proud too. They're irked because they haven't yet received the cooperation that they had been led to expect from Russian scientists during this International Geophysical Year. They're frustrated because there is nothing they can do about it. And they're proud because, in spite of this lack of cooperation, they managed in a relatively few hours to latch onto the satellite's path and plot its future course. A Russian satellite expert has said the baby moon now whirling overhead at 18,000 miles an hour is a sort of experimental model. A second one will go up soon, he added, and information from its flights around the earth will be shared with the world's scientists. That's what an American expert meant yesterday when he said "Sure, the Russians said they would exchange information freely with us—but they didn't say when." The American added that as

soon as U.S. experts got a true "fix" on the satellite's path, that information would be dispatched at once to the 62 nations taking part in the International Geophysical Year—including Russia. "As far as we know they don't have a true fix yet," he said. "For that matter, as far as we know, they may have a perfect fix. As far as we know, we just don't know." When the bare announcement came out of Moscow that the Russians had launched what they call a Sputnik, the men of the Naval Research Laboratory went to work at once tracking it down. Nine "Minitrack" stations were already set up in North and South America to track the American

PLATTER PALAVER

Elvis seems to have enough kick left in him to provide several more hit records for his fans. This thought is contrary to what many members of the record industry have stated. It has been predicted that he would be just another singer in a few short months, but as long as he keeps cutting the disks, he'll certainly stay among the top recording artists. The latest Presley release on singles is "Jailhouse Rock" (and it does.) Although unavailable in some markets, it is already a smash sales hit. Fats ("I'm Walkin'") "I'm In Love Again" Domino has "Wait and See" as his latest effort. It has a new sound (no pounding piano) but this listenable platter could easily go to the top of the charts in the pop as well as rhythm and blues field. Tune in from the new movie called "Jamboree... Flip-side, "I Still Love You", is a rocker with good rhythm backing that will sell also. Frankie Lyman, still on the charts with "Goody, Goody", has switched labels. From Gee to Roulette with a new disk comes this young (about 14) star. "My Girl" is his first solo performance and is a swinging go on a medium-heat blues-rocker, based on "This Train." Top-notch orchestra and chorus support make the side a real mover. It's backed by a pretty ballad, "So Goes My Love," that gets an attractive and sensitive delivery against lush backing. It's a good buy in any field. Some other good buys are Vic Damone's "An Affair to Remember." The Shepherd Sisters' "Alone," "Deep Purple" by Billy Ward and the Dominoes, Ricky

Show Business Needs Women, Says Actress

By CYNTHIA LOWRY
NEW YORK, Oct. 8 (AP)—Ginger Rogers says from television to movies to Broadway show business is worried about decreasing audiences. "And," she says, "I think it's because today's shows aren't attracting women." The television success of the light-hearted, sophisticated musical films she made with Fred Astaire in the 1930s and early 1940s and the over-increasing numbers of TV variety shows back up her theory. "As far as drama is concerned," she said, "everybody seems interested in producing bloodthirsty little stories full of dirty, sweaty people living in broken-down dusty cold-water flats. "They seem fascinated by alcoholics, dope addicts, murderers and psychopaths." Miss Rogers says that women just aren't drawn toward such drab fare. What do women like to see? "We love to see chic, sleek and stylish things," said Miss Rogers. "We like to listen to bright and interesting conversation between a man and a woman—not realistic dialogue between a couple of unshaven men in their under-shirts. "We like drawing rooms—and there surely has been a shortage of drawing rooms in show business during the last few years." As the drawing room comedy has disappeared, so has dwindled the supply of women stars whose names were box-office magic. Miss Rogers, modestly omitting her own, ticked off some of those magic names —Gertrude Law-

rence, Joan Crawford, Barbara Stanwyck, Claudette Colbert. "These were women who starred in women's stories. But you don't see any good women's stories around any more. Sometimes I think the trouble is with the writers. Today's writers don't understand women. Miss Rogers, however, places most of the blame for the current vogue of realism, drabness and unhappy introspection on the producers. CAMBRIDGE, Mass. (AP)—Scientists of the Astrophysical Observatory of the Smithsonian Institution tracked the Russian satellite over the Boston area at 7:03 a.m. EST today. The predicted time schedule calls for it to make two more passes over continental United States this morning. It was due to pass Omaha, Neb., at 8:40 a.m. EST and over the Rocky Mountains some 250 miles northeast of San Francisco at 10:16 a.m. EST. The scientists worked out a time schedule of the satellite's passes across the United States along the 40 degree north latitude parallel. It was due to cross that line

at 95 degrees west longitude over Omaha and at 120 degrees west over the Rockies. The satellite won't make another passage over continental United States until after midnight tonight. The satellite could not be sighted over Boston even with powerful telescopes because of thick weather.

Mahon Blasts Missile Rivalry

LUBBOCK, Tex. (AP)—Rep. Mahon (D-Tex.), chairman of the House subcommittee on military appropriations, says failure of the United States to double the first earth satellite was not due to the failure of Congress to provide adequate funds. "If there is an inadequacy of funds," he declared, "it is brought about by the administration's and Bureau of the Budget's withholding of funds which have been made available by Congress—for the purpose of preventing defense spending from rising above the level of 38 billion dollars." Mahon made his comments in an interview. He said he hopes Russia's achievement will jolt the administration into aggressive action to end what he called "fateful rivalries" among the Army, Navy and Air Force. He contended the military services have failed to cooperate and coordinate.

Another speaker was Garrison Norton, assistant secretary of the Navy for air. He characterized the Soviet satellite as the most dramatic achievement in a "mighty effort" by the Soviets.

ELECTRIC COOKING-- So wonderfully CLEAN!

That's what I like about my ELECTRIC range!

Your kitchen utensils will reflect the cleanliness of your modern electric range. Pots and pans stay bright and new-looking without scouring. Why? Because electric heat itself is clean... as clean as electric light... and is transferred to utensil bottoms by direct contact for maximum cleanliness and efficiency. With clean electric heat, your kitchen walls, curtains and woodwork stay color-fresh with much less cleaning and care. See your electric range dealer soon. Find out how CLEAN cooking can be. COOK BETTER... ELECTRICALLY!

BUZ SAWYER

REMEMBER, Z, HASHI, AM THE LEADER OF THE TRIBE... NOT YOU.
 AND WHO ARE THESE INFIDELS YOU DARE BRING INTO MY CAMP?
 I'VE HEARD ENOUGH GRUMBING ABOUT YOUR PIPELINE, ZORKA...
 MY PILOT BUZ SAWYER.
 AND MY SON ALI BEN ZORKA.
 AH, JUST AS I SUSPECTED!
 YES, THE SAME SELFISH MOUTH.
 DID YOU HEAR? IT IS ALI... ZORKA'S SON BY THE FAIR ALIDA!
 HE IS ONE OF US! WE MUST BE MORE HOSPITABLE, HASHI.
 ONLY A FOOL CLAPS A VIPER TO HIS BOSOM.

JOE PALOOKA

OH, MISTER PALOOKA... WE WAS HOPING YOU WOULD BE HERE TODAY... GO IN BACK, PLEASE!
 HELLO, AL... MY-- THAT'S A BEAUTIFUL WEDDING CAKE... IT'S A WORK OF ART!
 THANKS... IT'S MY MASTERPIECE... YOU'RE JUST IN TIME FOR THE FINISHING TOUCH!
 MOM... EDITH!!
 THAT'S EDITH AND YOU-- GOSH? CONGRATULATIONS!!

DIXIE DUGAN

YOU HEARD WHAT THE WOMAN SAID?
 BUT I DON'T BELIEVE IT--
 TUFFY POTTER-- MIAMI UNIVERSITY'S GIFT TO WOMEN-- AND DUGAN CALLED YOU A "WOMAN-WATER FANTASTIC"
 WHY-- WHEN WE WERE "ROOMIES" I'LL NEVER FORGET THE TIME YOU AND I DOUBLE-DATED IN CINCINNATI AND--
 SH--

MARY WORTH

TAKE IT EASY, MAMAM! WE'LL PAY FOR THE MUFFS JUST TELL ME HOW MUCH...
 IT--IT WAS A GIFT!... MONEY COULDN'T BEGIN TO REPLACE IT!
 THEN, OF COURSE, THERE IS THE SHOCK TO MY NERVOUS SYSTEM...!
 I'LL REFRAIN FROM TAKING LEGAL ACTION FOR-- SHALL WE SAY-- \$500?
 WHAT?... WELL NOT PAY ANY SUCH--
 HERE COMES A PATROL CAR, MUST GET IN THAT CAB! I'LL WRITE HER A CHECK!

NANCY

WHERE ARE YOU GOING WITH THAT LADDER?
 I HAVE TO THROW A PIECE OF PAPER IN MY WASTE BASKET
 ERNIE BUSHMILLER

REX MORGAN

MAY I COME IN?
 CERTAINLY... I'VE JUST FINISHED DOING A MOTIVATION ANALYSIS ON JUNE!
 ARE THE RESULTS AVAILABLE?
 I THINK THIS ILLNESS HAS AFFECTED HIS MIND, REX!
 KEITH, I'M GOING TO MOVE YOU BY AMBULANCE TO CITY HOSPITAL WHERE I CAN KEEP CHECK ON YOU!
 YOU'RE THE DOCTOR... BUT ACTUALLY THERE'S NOT MUCH YOU CAN DO! I'M EITHER GOING TO RECOVER OR...
 STOP TALKING LIKE THAT! OF COURSE, YOU'RE GOING TO RECOVER, KEITH!

L'IL ABNER

A YOUNG LADY TO SEE YOU, GENERAL BULLMOOSE.
 SPLENDID!-- SHORTLY?-- WHO IS SHE?
 MRS. GENERAL BULLMOOSE!
 TELL HER TO GO BACK TO SLOBOVIA!
 AH! MAKE HIM SEE YOU!
 PLIZZ--NOT--I GOOD SLOBOVIAN WIFE!-- WHEN SLOBOVIAN HUSBAND SAYS "GO--SLOBOVIAN WIFE GOES!--"
 C-COME.

POGO

IT'D BE AN ACT OF MERCY TO GO OVER AN COMFORT NARBELLE AGAIN.
 MY LAND, YES! US CAN ONLY DO OUR BEST TO CHEER HER UP ABOUT POGO RUNNING OFF WITH A WITNESS UNKNOWING OF FEE--MAKE WHAT GO BY NAME OF MARYLYN MOY-ROE.
 HA HA HANA AND HEE TEE HOO HO HA!
 YOU GOT TO SNAP OUT OF IT, HONEY-- YOU CAN'T GO ROUND BEN MYSTERICAL-- WE COME OVER TO BRIGHTEN YOUR DAY-- TO HELP YOU FORGET! --YOU GOTTA CHEER UP.

BLONDIE

BLONDIE, I THOUGHT I TOLD YOU NOT TO BUY THAT HAT!
 I DIDN'T HEAR YOU TELL ME NOT TO
 DIDN'T HEAR ME?
 I STOOD RIGHT HERE ON THIS SPOT AND I PRACTICALLY SHOUTED IT IN YOUR EARS
 WELL, CAN I HELP IT IF THE ACOUSTICS ARE BAD IN THIS ROOM?

KERRY DRAKE

PLEASE HURRY MRS MALONE! DADDY IS WAITING IN THE CAR!
 I'LL... BE JUST A MINUTE, ANNIE!
 I'VE... MARKED DOWN THE OVERDUE CHARGE FOR THE BOOKS YOU RETURNED, DEAR!
 BE SURE TO CALL YOUR FATHER'S ATTENTION TO IT!

ANNIE ROONEY

SURE, AN' I DON'T KNOW WHAT LITTLE ANNIE WOULD WANT IN THIS OLD FEED-ROOM, THERE'S NAUGHT IN HERE BUT THE BUST OF THE AGES, THE CHILD LEFT HER TRACKS ALL OVER--
 IT LOOKS AS IF SHE SCUFFED AROUND A BIT IN THIS CORNER-- WHAT'S THIS? A BIT OF A LOOSE BOARD IN THE WALL??
 HOLY MACKEREL! A SMALL FORTUNE IN MONEY!! SEVEN CRISP NEW TWENTY-DOLLAR BILLS, AN' ONE OLD FIVE! NOW, HOW WOULD A CHILD COME BY THAT?!

LITTLESPORT

SNUFFY SMITH

JUGHAID'S SCHOOL-- MARRM COME TO SEE ME TODAY, AN' I'M PLUMB WORRIED ABOUT TH' LEETLE FELLER, PAW
 WHAT'S HE DONE NOW?
 NOTHIN'-- SHE SAID HE BEHAVED HISSELF TH' LIVELONG DAY
 THEN WHAT IN THUNDERATION ARE YE WORRIED ABOUT?
 I'M AFEEERD HE'S GOT THAT INFUNNEL ASIATICAL FLOOD

Life's Darkest Moment

GETTING ABOARD A TRAIN WITH TWO PUPS

GRANDMA

SO SQUEAK!
 GRANDMA, WHILE I'M HERE DO YA WANT ME T' FIX YOUR SQUEAKY FLOOR?
 HECK, NO!! TH' LOUDER TH' SQUEAKS, TH' BETTER I LIKE IT!!
 THAT'S MY BUILT-IN BURGLAR ALARM!!

DONALD DUCK

YOU CAN USE UNCA DONALD'S "BORROWED PATSY'S"
 THREE!

THE MICK MAY SIT OUT SET

By JOE REICHER
NEW YORK—The New York Yankees today were in their worst position since they bowed to the Brooklyn Dodgers in seven games in the 1955 World Series.

Their poise and confidence were shaken for the first time in the series. The almost certain loss of Mickey Mantle was added to Whitey Ford's paralyzing 1-0 defeat yesterday by Milwaukee. The Braves now lead 3-2 in the series.

Although Manager Casey Stengel is frankly pessimistic about Mantle's availability for tomorrow's sixth game, he is hoping his top slugger's sore shoulder mends sufficiently to enable him to swing a bat.

Mantle actually hurt his right shoulder in the first inning of Saturday's game when Red Schoendienst fell on top of him trying to flag down pitcher Bob Buhl's throw in an unsuccessful attempt to pick Mickey off second. Hardly anyone realized Mantle was hurt, even when he was held hitless by Warren Spahn Sunday. But yesterday, just before game time, Stengel announced he was withdrawing the Oklahoma strong boy from the starting lineup.

Stengel explained that the Mick's shoulder had stiffened considerably and it hurt him when he swung a bat. "As for throwing," Stengel added, "he can't do that at all." Mantle did get into the game yesterday, but only as a pinch runner, in the eighth inning, and was promptly cut down trying to steal second.

The Yankees received a taste yesterday of what it is like without the bludgeoning bat of Mantle when they were held to seven hits by Lew Burdette (nothing longer than a single). Ford himself yielded only six hits, but three of them came in one inning—the sixth—to account for the only run of the game and result in Burdette's second victory over the Yankees in the series.

Tomorrow's sixth game—the do-or-die game for the Yankees—will pit New York's Bob Turley against Milwaukee's Bob Buhl at Yankee Stadium. Both are right-handers.

Unless Mantle makes a miraculously speedy recovery, Stengel probably will shift Tony Kubek from left to center field and install Enos Slaughter in left.

Haney, hopeful of ending the series by tomorrow, will return to his left-handed lineup.

Haney was not without his worries. Red Schoendienst, his brilliant second baseman, who will be lost for the rest of the series with

a pulled groin muscle suffered in the second inning yesterday. Felix Mantilla replaced him.

The best defensive play yesterday was made by left fielder Wes Covington, who robbed Gil McDougald of a possible home run in the fourth with a leaping catch of a drive to deep left.

The partisan crowd's biggest thrill came in the sixth. Ford and Burdette were locked up in a real pitching duel. Neither side had been able to push a runner as far as third base. The Yankees had touched Burdette for four hits and the Braves had gotten only three off Ford.

Braves Field Yankee Bunt
 Tony Kubek, left, heads for first as Milwaukee Braves pitcher Lew Burdette fields his sacrifice bunt in the first inning of the fifth World Series game. In foreground is Yankees' Hank Bauer streaking for second. At the plate is catcher Del Crandall and umpire Joe Paparella. (AP Wirephoto).

ALL-STARS BOOK WEBB

The Webb Air Force Base baseball team, inactive for the past several weeks, will return to action the night of Oct. 24, at which time it will play a team of barnstorming Major League all-stars in Lamesa.

Lt. Nick Farquoh of Webb will take over active management of the local club, in the absence of Jim Zapp, who will be working.

The makeup of the major league team is unknown at this writing but it is believed to be the one managed by Roy Sievers of the Washington Senators, the American League's home run king and runs-batted-in leader.

Sievers' club has booked several games in the area. Big Roy hit 42 home runs and drove in 114 tallies for the Senators.

Price sale for tickets has not been announced. The game is scheduled to start at 8 p.m.

Razorbacks Expect A Grim Weekend In Waco Outing

By The Associated Press
 Injury and illness-riddled squads and powerful opponents were mourned by Southwest Conference coaches Monday as indications of a gloomy weekend.

Arkansas faces a dismal day at Waco against Baylor Saturday, Coach Jack Mitchell indicated. He said Baylor's 13-7 loss to Miami last weekend probably would "help Baylor's outlook."

He also appeared worried about the home field advantage.

But Mitchell had no major injuries and ran the Razorbacks through calisthenics, drilled on backfield timing and pass defense. Baylor has starting left half

Farrell Fisher and No. 2 left guard Bob Bustin out of action. No. 2 left end Albert Wetcher also may miss the clash.

The Bear regulars held a short team dummy blocking drill while the reserves scrimmaged.

Texas lacked four top players as it prepared for Oklahoma. The first two teams took it easy while the third and fourth squads scrimmaged.

Coach Darrell Royal wouldn't predict what the Longhorns will do Saturday at Dallas against Oklahoma. But he said absence of four players hospitalized with fever "doesn't make the upcoming game look better." Hospitalized are tackles J. T. Seahorn, Will Wymann and Garland Kennon and guard James Shillingburg.

Rice Coach Jess Neely, whose Owls face Duke, fifth-ranked in the nation Saturday, said the squad would not scrimmage this week. The injured list included tackle J. D. Smith, fullback David Kelley and guards Matt Gorges and Clifford McCraw. All except Kelley were starters.

The Owls limbered-up in sweat suits.

TCU worked briefly preparing for Saturday's game with Alabama. Back Buddy Dike, injured in the opening game with Kansas, came down with the flu Monday. Halfback Dan Bowden was still sidelined by the illness. Russ Love, fullback, will miss the Mis-

souri game because of a shoulder separation.

Texas A&M worked out in sweat clothes, heard a scouting report on Houston and studied movies of the 28-0 victory over Missouri last week.

Coach Paul Bryant said "Our first group played much better defensively than we've been playing, but we're still too slow offensively."

He praised tackle Charley Krueger, back Roddy Osborne, ends Bobby Marks and John Tracey, and center John Gilbert.

A&M THIRD IN POLL

Oklahoma Sooners Keep On Rolling

By DON WEISS
The Associated Press
 "The Yankees may be suffering" but their football counterpart in sustained reign, Oklahoma's Sooners, are rolling right along in their accustomed style.

For the third straight week, it's the Sooners No. 1 in The Associated Press college football poll. Of the 116 sports-writers and sportscasters participating in the nationwide balloting, 65 cast first place ballots for Oklahoma.

On the usual point basis of 10 for first, nine for second, etc., the Sooners accumulated 1,047 points for a tidy lead over runner-up Michigan State, which had 21 first place votes and 906 points.

The same teams ranked one-two a week ago and lost none of their luster in their second games of the season, Oklahoma boosting its winning streak to 42 with a 40-14 rout of Iowa State while Michigan State blanked California

19-0.

Elsewhere, the top 10 lineup underwent a shuffling: with Texas A&M moving up to third place followed by Minnesota, Duke, Michigan, Oregon State, Iowa, Auburn and Army.

Notre Dame moved up to the 12th spot—from 16th a week ago—after hauling Indiana 26-0 for its second straight victory. Arkansas, 3-0 after a 20-7 decision over Texas Christian, heads the second ten. After Notre Dame come North Carolina State, Mississippi, Rice, Wisconsin, Georgia Tech, North Carolina, Tennessee and Pittsburgh.

Oklahoma visits Texas. Texas A&M plays Houston, Minnesota is at Northwestern, Duke faces a toughie in Rice, Oregon State hosts Idaho, Iowa is at Indiana, and Auburn is at home to Kentucky.

The Top Ten teams with points on 10-9-8-7-6-5-4-3-2-1 basis, with first place vote and second record in parentheses:

1. Oklahoma (8) (2-0)	1,047
2. Michigan State (2) (2-0)	906
3. Texas A&M (3) (3-0)	898
4. Minnesota (5) (2-0)	857
5. Duke (3) (2-0)	823
6. Michigan (2-0)	823
7. Oregon State (3) (2-0)	823
8. Iowa (4) (2-0)	823
9. Auburn (5) (2-0)	823
10. Army (2-0)	823
11. Arkansas (4) (2-0)	823
12. Notre Dame (1) (2-0)	823
13. N.C. State (2-0)	823
14. Mississippi (3-0)	823
15. Rice (2-0)	823
16. Wisconsin (1) (2-0)	823
17. Georgia Tech (1-0-1)	823
18. North Carolina (2-0)	823
19. Tennessee (1-1)	823
20. Pittsburgh (3-1)	823

Colvin Builds Scoring Lead
 Chuck Colvin of Abilene added one touchdown to his point aggregate last week and now leads the individual scoring race in District 2-AAAA with a total of 54 points.

Stanley Cozby, a teammate, is second in the derby with 30 points while four players, including Big Spring's Wayne Fields, are tied for third with 24 points each.

The others are Bill Sides, Abilene; Johnny Majors, San Angelo; and Don Boyce, Midland.

The leaders:

Player	TD	Pts
Chuck Colvin, Ab.	9	54
Stanley Cozby, Ab.	3	24
Wayne Fields, B. Spring	4	24
Bill Sides, Ab.	4	24
Johnny Majors, S. A.	4	24
Don Boyce, Midland	4	24
Buddy Barnes, B.S.	3	18
Gervia Oakrath, Ab.	3	18
Huddy White, Od.	3	18
James Rainitt, Od.	3	18

Mark McCoulsky, S.A.	2	12
Don Hughes, Ab.	2	12

Lamesa Tornados Rule As Favorites Over BS

By no stretch of the imagination can Big Spring be rated on even terms with Lamesa this week. The two teams clash Friday night in Lamesa.

Lamesa has a much better record than Big Spring, having upset Midland and won over Brownfield. Big Spring has won only one of four starts.

The Tornados' decisive win over Brownfield (21-0) perhaps gave them more prestige than did their narrow 7-6 squeaker over Midland. Brownfield, remember, was the team which all but tied Levelland. In that one, Brownfield scored a touchdown that was called back and the Lobos finally won, 21-14.

To refresh the memory of the reader, Levelland is the team which mauled Big Spring, 20-13, after leading the Steers by two touchdowns at one stage of the game.

LOOKING 'EM OVER

With Tommy Hart

Sports dialogue:
EDDIE EREDELATZ, Navy coach:
 "Reputations don't pay off. We learned that in the Mississippi game in the Sugar Bowl. Ole Miss had that All-America tackle. I forget his name. And we found out pretty quick he was over-rated. We shot so many plays at him they got him out of there."

RED SMITH, New York writer, discussing the Carmen Basilio-Sugar Ray Robinson championship fight recently:
 "Basilio is middleweight champion of the world because he was willing to pay the price, to suffer whatever pain it might cost to get there and do his job. He was punished early and late, but for Robinson it was always too late."

LISLE BLACKBURN, Green Bay Packer coach:
 "Paul Hornung (Notre Dame ex) has done real well. We have switched him around a lot, from quarterback to halfback to fullback. He will be a fine quarterback, with experience. He passes well enough for a pro quarterback, no matter what Otto Graham (ex-Cleveland quarterback) says to the contrary. He's right up here with Don McIlhenny for a starting job. A lot of people around here have gotten the wrong idea. They think a boy like Paul, as a bonus choice, should be starting quarterback right away and starting halfback, too, and throw and catch his own passes. Rookies just do not do that at quarterback in this league. Paul will help our ball club when he's ready."

SAL MAGLIE, the 40-year-old hurler when asked at the start of the past baseball season how many games he thought he'd win:
 "Every one I pitch."

ROBERT GALVIN JR., president of Motorola Inc.:
 "Industrial recreation is the most important employee fringe benefit now offered by American industry. Recreation not only holds the key to successful employee relations, but it holds the challenge of preserving our industrial leaders by relieving the growing tensions of business."

ABE MARTIN, TCU coach:
 "This TCU club is the finest blocking outfit I've had since I joined the school."

DAVE CAMPBELL, Waco writer:
 "SMU's Bill Meek is gaining a reputation as a specialist in erecting sturdy goal line defenses. Last year, opponents drove inside the Houston ten on 19 occasions and scored on just three of them. Recently, Georgia Tech snuffed at the SMU goal repeatedly but the Engineers are still trying to score."

OLIVER KUECHLE, Milwaukee writer:
 "The Basilio-Robinson fight was wonderful, the (TV) reception was perfect but the announcer was awful. Theatre television of the bout over a national chain of 173 theatres was set back five years by the often inane, palpably prejudiced and unnecessary comments of Bill Corum. He became so ludicrous at times that, in the local theatre at least, the crowd first laughed at him and then hooted in annoyance. . . . A good television announcer is like a good referee. You hardly know he's there. Corum was right in the middle of it—or was he? Sometimes it was hard to tell just where he was."

Maintenance Five Still Pace Loop

Maintenance lost to the Chemical Department, 2-1, but retained first place in Coden bowling league competition last week. Maintenance now has a 10-5 win-loss record and leads three teams, all tied for second place, by one game.

In other matches, the Pump Doctors flattened the Painters, 3-0; the Welders blasted the Engineers, 3-0; and Sales turned back the operators, 2-1.

High scorers for each club included:

H. E. Moss, Pump Doctors, 202-488; Jerry Cockrell, Painters, 156-430; Henry West, Welders, 207-539; Jack Mandell, Engineers, 174-434; Bill Carter, Sales, 181-482; Jack Grissin, Operators, 136-372; G. A. Darden, Chemical Department, 176-450; and Floyd Young, Maintenance, 166-437.

Standings:

Team	W	L
Maintenance	10	5
Welders	9	6
Pump Doctors	9	6
Chemical Dept.	8	7
Painters	7	8
Engineers	5	10
Sales	5	10
Operators	5	10

Milwaukee Fans Are Sure Braves To Return Crown

MILWAUKEE, Wis.—Milwaukee bade its beloved Braves "auf wiedersehen," fully confident they'll bring back a World Series championship from New York.

Leading the Series, 3 to 2, after Lew Burdette's masterful 1-0 shut-out of the Yankees yesterday, the Braves and Yanks had moved to New York for a rest today before hooking up in the Series' sixth game tomorrow. More than 2,000 Braves fans cheered the takeoff of the Milwaukee team's plane on the eastern flight.

The feeling in this Beer Capital of America was that "the Yankees is dead" without injured Mickey Mantle and with yesterday's failure by Whitey Ford, who won the Series opener Oct. 2, 3-1.

The fan-in-the-street conceded that Jerry Coleman had a fielding lapse on Ed Matthews' bounding homer which became the only run of the game.

Burdette Ready To Hurl Again, If He's Needed

By CHARLES CHAMBERLAIN
MILWAUKEE—Lew Burdette, the Milwaukee Braves' pitching hero of the World Series, thinks the New York Yankees are really hurting because of Mickey Mantle's handicap.

Burdette, who got his second series victory over New York with a splendid 1-0 shutout on a seventh-inning yesterday, says: "Mantle must be considered always a threat at the plate, whether injured or not."

"But now he is considered much more of a threat on the base paths than with a bat in his hand. But, gosh, all the Yankees are threats when you are looking at 'em from the mound."

"I just mean, Mantle isn't Mantle any more."

Burdette was surprised he used only 87 pitches in his whitewash job. They included sliders, fast balls, screwballs and sinkers, but about only eight curve balls. Burdette says he will be ready to go again when the series windup resumes in New York tomorrow if Manager Fred Haney wants him.

"A couple of years ago I pitched a complete game with only two days of rest, and I could do it again," he said. "I'll go any time Haney wants me."

Burdette was in such complete charge in registering his second victory over the Yankees, after beating them on another seventh-inning in the second game of the series, that he ran up a three-ball count on only three batters.

"Another thing," he said, "out there they didn't ask for any new balls to be thrown in. There was nothing involving a spit ball brought up during yesterday's game. You know, I've heard so much about it, that I kind of miss nobody squawking. I just went out there and started throwing and they kept missing. But I never was sure I had won until (Yogi) Berra popped out in the last inning. You can't take things for granted from the Yankees."

B&H Team Out Front In Loop

B&H Well won over Snider Gulf, 21-14; Alexander's trounced Donald's Drive In, 2-1; Wilson's edged Conway's Humble, 3-0; and Prager's edged Tony's, 2-1, in Industrial bowling league competition last week.

McCoys Gilliland of Snider Gulf turned in the high game of the night, a 226. Vic Alexander of Alexander's had high series, 540.

Wilson's posted the best team, 842; while Alexander's registered the top aggregate, 2400.

Standings:

Team	W	L	Pts
B&H Well Service	9 1/2	5 1/2	643
Alexander's	8	7	533
Prager's	8	7	533
Snider's	7 1/2	8	500
Donald's	7	8	467
Wilson's	7	8	467
Tom Conway's	6	10	333

Junior Rifle Club To Meet

The Western Sportsman Junior Rifle Club is beginning its second year with a meeting Thursday at 7 p.m. in Room S-3 at Howard County Junior College.

While inviting boys from 12 through 19 years of age, to take part, club sponsors pointed to a fine record in the first 12 months of activity. Thirty-two members have completed the basic rifle course and 27 have completed the safe hunter course.

At the present time 34 members are completing requirements for the marksman award, 26 for the marksman first class award and 16 others the sharpshooter award. Some of the latter are working toward the nine bars that go with the sharpshooters award.

Setting the pace for the 46 members of the club is Raymond Hogg, who is working toward his Distinguished Rifleman's award, highest given by the National Rifle Association, and Haley Haynes, who is working toward his Expert award, second highest.

During the first year of activity, every member of the junior club has completed his pro-marksman award requirements.

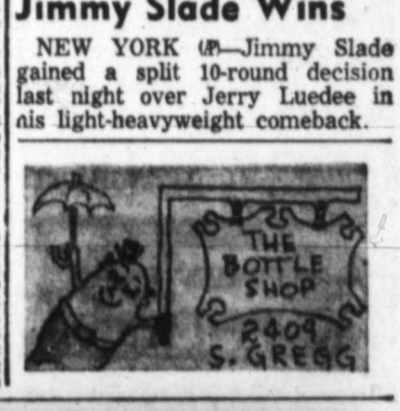

At the meeting Thursday there will be a movie, "Happy Trigger Horrying," and a presentation of awards. An announcement will be made of a 12-hour basic rifle course and a 6-hour safe hunter course.

Membership is open to interested youths, and there are no dues. The club, sponsored by the Western Sportsman Club, furnishes rifles for participants, and ammunition can be purchased at the range at discounts.

New range dates for the club are Oct. 12, 13, 26 and 27 from 2 p.m. to 4 p.m.

Jimmy Slade Wins

NEW YORK—Jimmy Slade gained a split 10-round decision last night over Jerry Luedek in his light-heavyweight comeback.

Little Rock School Chief Is An Angry, Harassed Man

By RELMAN MORIN
LITTLE ROCK, Ark. — A more thoroughly angry, harassed and sorrowing man than Virgil T. Blossom would be hard to find today.

Blossom is superintendent of schools in Little Rock and architect of the "Little Rock plan" designed to integrate its schools.

He worked on it for three years, inching carefully toward a solution of the thousand-and-one problems. It was the hardest job of his life. Two months ago, he thought he had it licked.

Then came disaster.

On the night of Sept. 2, the night before Central High School reopened for the fall term, Gov. Orval Faubus suddenly put National Guardsmen around the high school. His orders — keep out Negroes.

The "Little Rock plan" went up the chimney.

What's more, it may never be salvaged. First, the federal courts answered Faubus. Then, President Eisenhower put steel in their rulings by the startling order that has brought federal

troops to Arkansas.

Integration has taken place, in the sense that nine Negro children, under guard, are sitting in classes in the school.

TOWN IS WOUNDED

But in the process, a fine community has been wounded to the quick. People who may have had no pronounced feeling about integration before, now have taken sides. Deep emotion has welled up. It is polarized today in two white-hot points. There is little doubt that the segregationist point is bigger and hotter.

Hence, Blossom's plan — a long range plan — is certain to encounter resistance he thought had been dispelled.

Virgil Blossom is a big man. He stands 6 feet 3, weighs 250 pounds, is a former director of athletics. He will be 51 this month. He is married and has two daughters, Bette Sue, 19, and Gail 16. He was born in Brookfield, Mo.

The Capitol Citizens Council, a hard-core segregationist organization, likes to harp on the fact that Brookfield is "right next to the Iowa line." This, in their reason-

ing, makes Blossom a "Yankee," a foreigner who does not understand Arkansas, although he went to the University of Arkansas and has lived in the state more than 20 years.

Blossom pays no attention. He's a stubborn fighter.

With candid pride, he says of the plan he devised: "It is airtight legally. It preserves educational standards for all students. And it is designed to maintain good community relations."

BEST PLAN YET

"We think it's the best plan put forward yet. The parent-teachers associations are ready to stand up and be counted right now."

"So it's certain to be advanced in other communities in the South. That's why the segregationists are fighting it so hard. It leaves them with no valid arguments."

Blossom started working on it in May 1954.

At that time, the school board announced it would comply with the Supreme Court decision declaring segregation unconstitutional. But Blossom said then, and still says, time is the all-important factor.

"You need time to remove the psychological barrier present in both races," he says.

The essentials of the plan are:

1. Phasing integration over an unspecified period of years. It begins with the high schools, then applies to junior high schools, and finally the primary grades.
2. Scheduling it in terms of finances, facilities and problems that develop as the process moves forward.

It has a unique third feature. Any student, white or Negro, who by reason of his address would normally be assigned to a school where his race is in the minority is permitted to go out of his district and enroll in one which has a majority of his race.

RESULT INTERESTING

The result was interesting. This fall, all 328 white students in the predominantly Negro area around Horace Mann High School elected to go to Central.

There are 200 Negro students listed in the Central High area. In a court action, 33 petitioned to enter. Later, some changed their minds. Others failed to meet the requirements in Blossom's "screening" plan, which is based primarily on educational attainments, health, deportment, citizenship, etc.

Only the "Little Rock Nine" tried to enroll in Central.

"I've always said the majority of people do not want integration," says Blossom. "But our job on the school board is to comply with the law as set forth by the Supreme Court."

As the planning went forward, Blossom was out talking to parents, teachers and civic groups, explaining it. He appeared more than 200 times. He answered questions, invited criticisms.

He is a formidable salesman. He quotes an ardent segregationist as saying after one of the meetings, "Doggone, Virgil, you almost sold me. I couldn't think of a good argument to give you."

PLAN UPHELD

But others did.

The National Assn. for the Advancement of Colored people, demanding total integration, twice challenged the "Little Rock plan" in the courts, but the plan was upheld each time.

Meanwhile, there were rumblings on the segregationist side. On May 24, the school board announced that "the school year of 1957-58 may be the first phase of this (integration) program."

On June 23, Amis Guthridge, attorney for the Citizens Council, was quoted by the Arkansas Democrat — which is not anti-Faubus — as predicting "hell on the border" if integration was tried in Little Rock. The speech was made in Tulsa, Okla.

"I don't think any reporters were there," says Guthridge. "and I don't think I said that exactly." He does not recall what he did say.

On Aug. 22, Gov. Marvin Griffin of Georgia made a speech in Little Rock. He said:

"Constitutional government would be dead if the South surrenders operation of her schools to the operations of the federal government. This issue is the issue that overshadows all other questions."

Pressure was building.

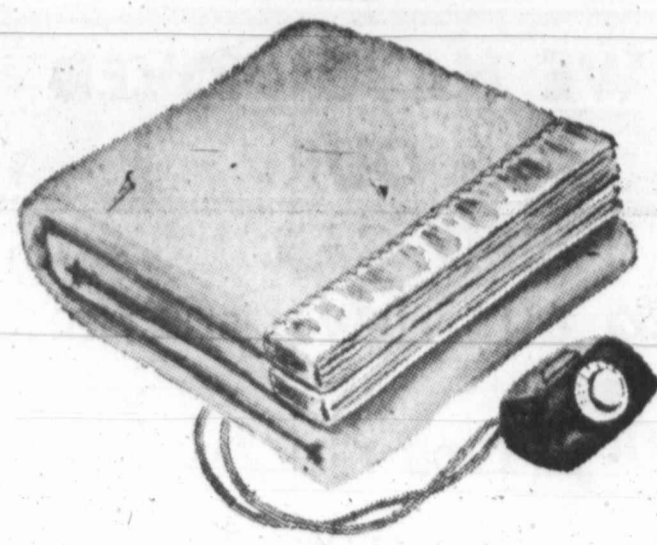

Finally, on the night of Sept. 2, Faubus made his move.

"The Little Rock plan" went on the shelf. But Blossom says today:

"Integration is here and I think it's here to stay. The court order may be obeyed. I believe it will all work out."

Others disagree.

Tomorrow: The Riddle of Orval Faubus

Howell Automatic Electric Blankets

... are your answer to a night of sound, restful sleep ... no more waking up tired and grouchy from sleeping under too many heavy and bulky covers. The Howell electric blanket is made of 10% nylon, 65% rayon and 25% cotton and light-in-weight, yet it's all you need to keep cozy and warm ... because it gives controlled warmth with only a flick of a dial.

- Approved by the Underwriters Laboratories
- 2-year replacement guarantee against defects in workmanship and material
- Completely washable
- Standard 72x84 size, fits both single and double beds

Dual Control 24.95
In pink, green, peacock or blue

Gravity, Centrifugal Force Keep Balance

NEW YORK — What keeps a baby moon up in the sky? Why did the Russians choose the height they did? And how did they get it up there?

The answers are not mysterious at all. Doing it is tricky.

To get a moon up, you lift it high into the air with a powerful multispace rocket. The rocket turns so that finally it is flying parallel to the earth's surface.

Then the final stage of the rocket fires off, kicking the moon away at tremendous speed.

If the moon travels at, say, only 12,000 miles an hour, the earth's gravity quickly pulls it down to earth.

But if the speed is 18,000 m.p.h. the earth's gravity counterbalances the moon's speed, pulling on it as the moon tries to fly off in a straight direction.

Result is the moon flies in a circular or elliptical orbit around the earth. If you could suddenly

SUNNY BROOK Kentucky Straight Bourbon Whiskey

WINNING THE WEST after the famous American artist FREDERIC REMINGTON "A New Year on the Cimarron"

"Cheerful as its name"

The great bourbon of the Old West is winning new friends everywhere!

The smoothest of fine Kentucky bourbons has the taste, the mildness, the quality that will win you too!

The frontiersmen of the West favored bourbon . . . and were partial to Sunny Brook's Kentucky flavor. Today's whiskey-wise Americans, too, prefer the superior quality and mildness of Sunny Brook!

NOTE TO BLEND BUYERS: You get a superior blend when you get a Kentucky blend. Ask for Sunny Brook Kentucky Blended Whiskey!
